T. R. JONES & CO. Watchmaking in Switzerland.

[From the Swiss Times of May 30th.]

From the Swiss Times of May 30th.]

WE have already drawn attention to the annual meeting of the Society of Arts held on the 25rd current, under the presidentship of M. Th. de Saus-ure, and are now able to furnish some further details.

Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellency unanimously decided in favor of Messrs, J. M., Badollet & Co. This firm having carried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The allusion to this triple honor was received with entusiastic applause, and Professor Humbert, President of the Fine Arts Section, closed the meeting with a happy and humorous dissertation upon subjects connected with this department.

Prince William Street and the Street Railway. To the Editor of the Tribune

What action does the Corporation intend to take in reference to the Street Railway? For some time past the Company have not operated the line from the Market Square to Reed's Point, and, I should judge, have forfeited their Charter. Under such circumstances, are we to continue to tolerate the rails now laid there, or shall the Company be compelled to take them up? If they are made to lift them, should not the And symbol of innocence, fading in death. Company be made to put the street in as good order as they found it? Many thousands of dollars were expend-

Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturer, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwort the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellency unanimously decided in favor of Messra. J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chromometer which fulfilled in the highest degree every condition required crowned their first success by gaining honorable mention for two other chromometers. The alusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Section, closed the meeting with a happy and humoreus dissertation upon subjects connected with this department. Tenders for Dorchester Branch.

The testimony of our best citizens, of all classes, establishes the fact, that Chenry Forgonal and ource the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, ourced by this perparation, are public for our proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the foreruners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convices the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Palmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, and chest of Childhood, Chenry Pectoral is invaluable; for, by its timely use, multitudes are rescued from premature graves, and as a weed to the love and affection centred on them. It acts speedful and surely against ordinary colds, securing sound and health-restoring sleep. No NOTICE.

Is acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toll is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.
