As this is only about half the majority obtained by the Conservatives at the last election, the Opposition is fully entitled to consider the result as another blow to the Government. Mr. Longman, who is a home ruler, was deprived of a considerable portion of the Nonconformist vote as a result of the recent manifesto issued by R. W. Perks (Liberal member of Parliament, who practically controls the Nonconformist vote in England, and who is Lord Rosebery's chief henchman in the House of Commons), declaring that the Liberal leaders must choose between the Irish or Nonconformist alliance, because of the action of the Catholic Irishmen in helping the Government to pass the recent education bill in the face of vio-

trace the letters and documents received by Major-General Macdonald from the war office shortly before his suicide, as it was thought that they might throw light on the motive for the act, but the magistrate who has taken charge of the dead man's effects says no letter or documents were found except some unintelligible scribbling which would indicate that the writer was in a dazed condition. At a number of letters from the war office were delivered to him last Wednesday and Thursday, the authorities conclude that the general coolly prepared for his end by first destroying the letters. The Figaro asserts that one of the letters received by Sir Hector Macdonald from the war office on Wednesday morning was an ultimatum, ordering him to leave forthwith for Ceylon, thus destroying his last hope of a reconsideration of his case by the war authorities in England The fact, however, that the general took his life soon after he was observed scanning two newspapers published in giving the charges made against him, and publishing a portrait of him, is taken as indicating that pain at the publicity rather than any action by the British war office determined his act. The remains were placed in a leaden casket today. London, March 27 .- The funeral General Sir Hector Macdonald will be a private one, because it is the custom in the British army not to accord

military honors to an officer who has committed suicide. The war office has issued an explanation that it is in accordance with the wishes of the officer's relatives that the funeral will take place in Paris. No pressure of kind has been exerted to preven the funeral taking place in England if such had been the desire of his relatives. "SUCCESS" FOR APRIL. Success for April is full of good things in great variety, for old and young. The pening article. "Burrowing in the Nether Gloom of the Hudson's Bed," by Frank Fayant, describes the difficult work of tunneling under the Hudson River, to connect New York City with New Jer-sey by a direct rail route. Owen Kildare, whose life-story, "My Rise from the ably," etc. Among the fiction is a new story by Zona Gale, entitled "Great Joshua's Daughter." Baker describes the Nile dam and reservoir, one of the most important enterprises of modern times. Other matters ably dealt with are: "Mental and Moral Heredity in Royalty," "The Making of Biologists," "The Relation of Malaria to Agriculture and Other Industries of the South," "The Habits of the Giant Salamander," "Biography in the Schools," "A Visit to the Quarry-caves of Jerusalem," "The Rockefeller Institute for Medical Research," "The Question of the Birth Rate," "A New Process of Color Photography," and other subjects. of MRS. CAROLINE HUTT, Morrisburg, Ont.

She says: "It affords me great pleasure to speak about what your Heart and Nerve ills have done for me. About a year ago I was taken ill with heart trouble and got so bad that I was unable to do any work for four or five months. I got so weak and miserable that my friends thought I was going to die. The doctor attended me for some time but I continued to grow worse. At last I decided to try Milburn's Heart and Nerve Pills, and after taking two boxes they made me well and strong again. I cannot praise them too highly to those suffering from nervous weakness and heart troubles."

THE CENTURY FOR APRIL.

A striking feature of the Century Magazine for April is "The Restoration of the White House," written by the clerk of the Senate committee on the District of Columbia, and handsomely illustrated. "Butte City," the greatest of copper camps, is graphically pictured by Ray Stannard Baker. "The Evolution of American Census-Taking" is discussed by the director of the census himself, the Hon. W. R. Merriam. Hermann Klein gives personal recollections of Verdi, Wagner, Gounod, Liszt and Tschaikowsky. There is another of "The Great Business Combinations of Today" series, J. D. Kelley, commander United States Navy, telling the story of "The So-Called Steamship Trust." Then there is the last of Justin H. Smith's historical articles on "The Prologue of the American Revolution" and prother in the last of the states and the states of the states. "The Prologue of the American Revolu-tion," and another installment of Lillie Hamilton French's "My Old Maid's Cor-ner," with other interesting sketches, poetry, fiction and the usual departments making up a most interesting number.

came to a question of veracity, said Dr. Reaume, he would be only too glad to have it out before a proper tribunal. Mr. Auld (South Essex) was the last speaker to take part in the discussion. He was sorry, for the honor of the County of Essex, that the matter had come up, he said, and he hoped for the sake of Dr. Reaume's constituents that the latter would drop the question. Dr. Reaume must be Scotch or ed with John Lee, he would have said he was present when the jellying took place and there were also three or four reporters of Windsor and Detroit papers there, and they made a humorous reference to it in their journals. There were half a dozen other citizens there. Anyone who knew John Lee would understand that he was the last man in the world to be given such a job. He might as easily offered to make Dr. Reaume king of the Cannibal Islands. If Dr. Reaume would not withdraw his statement, Mr. Auld hoped there would be a thorough investigation, which would show how little there was in the charge. This ended the tempest in a teacup,

Large Audience at Auditorium Greatly Pleased.

Miss Logan, Mrs. Stock, Mr. Fax and Mr. McDonald, the Entertainers.

Those who sat in the Auditorium last evening heard as delightful a concert as has been given here this season. The efforts of the principal and pupils of the Forest City Business and Shorthand College were well rewarded, for the audience was a good-sized one. That it was a thoroughly pleased one was evidenced in the number of en-

Chosen Friends Executive Names Committees.

W. L. Roberts Will Again Be Chairman of Finance.

The executive committee of the grand council, Canadian Order of Chosen Friends, yesterday afternoon appointed the finance and laws committees, and arranged for a year of organization work, such as has never been known in the province before. W. L. Roberts, of Hornings Mills, was reappointed to the finance committee, and will serve second year as chairman of that body. James Dixon, of Hamilton, and A. Mitchell, of Bowmanville, are the other members of the committee, both being newly-appointed. The committee on laws is composed of entirely new blood, with D. Robertson, St. Catharines, as chairman, W. C. Smythe, of Mon-treal, and A. A. Moore, of Kongston, are Mr. Robertson's associates. The grand organizer for the year is the same

When Dr. Pyne yesterday charged that the speakership had been offered to half a dozen Opposition members, he was promptly checked by the Premier and compelled to reduce the half-dozen to one. The remnant of his charge was then thoroughly exploded. Dr. Reaume, of North Essex, is the member who claims to have been approached. Mr. John Lee, the jovial member for East Kent, confessed he was the man who mentioned the speakership to Dr.

Reaume, but his words were purely jocular, and were uttered in the presence of a large company, including sev-Essex, who was one of the company Dr. Reaume claims that he had reference to a previous occasion when Mr. Lee spoke of money. Due to Discussion of Railway Cattle Guard Bill.

Makes Its Application for Charter-Mr. Charlton Withdraws Divorce Court Motion.

Ottawa, March 26.-The first division

of the session took place this afternoon, the occasion resulting from a discussion of Mr. Lancaster's (Lincoln) bill as to railway cattle guards. Mr. Lancaster moved the second reading of his bill for the purpose of making the railway companies responsible for cattle killed on the track if they do not properly protect the highway crossings with proper cattle guards. This is the same bill which has been before Parliament twice before, and has been killed in the Railthe track unless he could prove they were in charge of a human being at the time.

Mr. Blair told of the tests as the commission appointed as the result of the discussion last session. He insisted that the bill should be referred to the Railway Committee.

The bill received its second reading, and Mr. Blair then moved that it be Those favorable to the bill challenged a division on this, and the first formal division of the session was held. It resulted in the bill being referred to the railway committee by a vote of 99 to 53. It was practically party vote. Mr. Tarte voted with the Government. The independent members, Messrs. Robinson (West Elgin), is the First Purely Canadian Organiand Puttee (Winnipeg), voted against motion, as did also Mr. Leighton McCarthy (North Simcoe).

"Two years ago I was taken with stomach and bowel trouble. Everything I ate would put me in distress. I lived two weeks on milk and even that gave me pain. I felt as though I would starve to death. Three doctors attended me—one said I had dyspepsia, two esid catarrh of the stomach and bowels. They attended me (one at a time) for one year. I stopped taking their medicine and tried other patent medicine; got no better, and I grew so weak and nervous hy heart would futter. I could not do any kind of work. Now I can do my house work very well; am gaining in feeth and strength, and can eat anything I want."

Mr. Charlton moved his resolution in favor of constituting a divorce court and defining by a general law the causes for which divorces may be granted. He advanced similar arguments to those he used in his speech on the same subject last session. You have done everything to prove that you cannot be trusted. You love him, and have no love for me, but have I reproached you for either your love for him or lack of it for me? Doubtless if I were a woman and loved a man as you say you love him, I should do as you have done, and no promise or command could every keep me from him, but I should be prepared to accept the consequences of discovery without complaint. Look at the situation from my point of view. What is there to look forward to in life for man whose wife loves another man and lives only in the memory of that love? Add to this the constant men-ace of the presence of the lover, where she must see him if she lives the life of anything but a hermit. VANCOUVER WANTS

Rev. C. C. Owen First Choice for Western Church.

Londoners Would Be Sorry to Have

Him Go.

Him Go.

London may lose one of its foremost clergymen—Rev. C. C. Owen, rector of the Memorial Church. Mr. Owen has been invited to Christ Church, Vancouver, and he now has the call under consideration. His decision will be made known in a few days.

Rev. L. Norman Tucker, the general secretary of the mission board of the church in Canada, and well known in London, was the rector at Vancouver prior to his present position, and since the vacancy occurred the church authorities have been looking over the ground for a successor. Their first choice is Mr. Owen. The church is one of the largest in the west, and in many ways the rectorate is most desirable. But Mr. Owen likes London, and there is a feeling in some circles that he will remain where he is.

"I have been here four years in May," Mr. Owen said to The Advertiser, "and I have found the work very pleasant. In fact, it could not be more so."

In reference to the call, the Vancouver Province of March 20 has this to say: "Since the resignation of Rev. L. Norman Tucker, the rectorate has been wacant, and although there have been many rumors afloat as to who would likely be chosen, nothing definite resulted from any steps taken hitherto. The wardens of Christ Church have now two men in view. The first choice is the Rev. Mr. Owen, for many years curate to men in view. The first choice is the Rev. Mr. Owen, for many years curate to Archdeacon Fortin, of Winnipeg, but now rector of Memorial Church, in London, Ont Rev. Mr. Owen is well known all through Manitoba and Ontario, and is a strong and earnest speaker, with pro-nounced low church views. He has a re-markable talent for organizing and carrying on philanthropic works, and it was mainly through his efforts that the coffee house, which proved suck a help to the poorer classes, was established

to the poorer classes, was established on such a practical footing in the city of Winnipeg."

Mr. Owen will give the Vancouver Church an answer by the end of the month. The vestry of the Memorial Church meets tomorrow night, when an influential deputation may be appointed to wait on the rector and urge him to continue in the work which has so greatly prospered under his guidance. There are none in the parish by whom Mr. Owen is not highly esteemed. sionary Loan Exhibition. This meeting the sixteenth annual one of the W.
