JOURNAL AND PROCEEDINGS

OF

The House of Assembly,

OF

THE PROVINCE OF NOVA-SCOTIA

Thursday, 13th February, 1823.

His Excellency the Lieutenant-Governor commands this Houfe to attend His Excellency immediately in the Council-Chamber.

Accordingly, Mr. Speaker, with the Houfe, went up to attend His Excellency in the Council Chamber.

And being returned,

Mr. Speaker reported that the House had attended His Excellency the Lieutenant-Governor in the Council Chamber, where His Excellency had been pleafed to make a Speech, of which, Mr. Speaker faid, he had, to prevent mistakes, obtained a Copy, which he read to the House, and is as follows:

Mr. President, and Gentlemen of His Majesty's Council,

Mr. Speaker, and Gentlemen of the House of Assembly,

T is very gratifying to me, in meeting you in General Affembly, to have it in my power to congratulate you on the improving flate of the Province, in almost every branch of its industry.

The diffres which prevailed laft year is now happily diminishing; our Agricultural exertions continue unabated; and another abundant harvest has, under the blessing of Divine Providence, spread plenty throughout the country : Our Commerce also has begun to revive; while new and important markets appear to be opening to those engaged in the Fisheries. I entertain indeed a sanguine hope, that the two Acts passed in the last Session of the Imperial Parliament, by enlarging the field for commercial enterprize, will eventually prove highly beneficial to our Colonial Trade.

I have allo great satisfaction in acquainting you, that the Provincial Revenue of the laft year as been amply sufficient to meet all the charges again? it, and to pay off all arrears : every just claim upon the Government has been satisfied, I believe, with the utmost punctuality.

I think it also proper to inform you, that I have caused a fystem of more regularity to be obferved, both as to the collection of the Revenue and its payment into the Treasury, which will be attended, I hope, with good effects.

m. Contraction Mr.

Mr. Speaker, and Gentlemen of the Assembly :

The Public Accounts of the last year will be immediately laid before you, and I hope it will appear that the Financial Affairs of the Province have been conducted with regularity and due attention to economy.

I shall also direct the Estimate of the present year to be submitted to you, with every confidence that the Supplies necessary for the support of His Majesty's Government will be provided by you, with your usual liberality.

Mr. President, and Gentlemen of His Majesty's Council;

Mr. Speaker, and Gentlemen of the House of Assembly,

While I advert, with real fatisfaction, to our prefent flate and future profpects, I feel it my duty, at the fame time, flill to advife a prudent and judicious application of our means; ferious difficulties and inconveniencies will always arise from pecuniary embarrafiments; and the fureft way of averting evils of this nature is to keep our expenditure, within our income.

This course may, however, I think, be pursued without losing fight of any of the important interests of the Province.

The happielt effects have already attended our Agricultural exertions; and a fleady perfeverance in the fame fystem will soon render us independent, as far as regards the necessaries of life.

Our Fisheries too merit protection and encouragement : and I fincerely hope that you may be able to devise fome unobjectionable plan for giving a flimulus to that valuable and most important branch of our industry. It is however unaccellary for me to enter into further details; for I feel persuaded, that you will give your early and earness attention to every object which can promote the general welfare of the Province, and the happiness of its inhabitants : In all such measures you will ever find, me disposed to co-operate with you in the most cordial and effectual manner in my power.

Ordered, That Mr. Haliburton, Mr. Archibald, Mr. Uniacke, Mr. Lawfon, and Mr. Graffie, be a Committee to prepare an Addrefs, in answer to His Excellency's Speech.

Ordered, That Mr. Lawfon, Mr. Albro, Mr. Smith, Mr. Campbell and Mr. Young, be a Committee of this Houle for the purpole of examining the Public Accounts, jointly, with a Committee of His Majefty's Council, and that the Clerk do acquaint the Council therewith.

Ordered, That Mr. Uniacke, Mr. Graffie, and Mr. Bishop; be a Committee to examine into, and report on, the expiring Laws.

Ordered, That Mr. Haliburton, Mr. J. I. Chipman, Mr. Graffie, Mr. Uniacke, Mr. Flemming, Mr. Wter, and Mr. O'Brien, be a Committee of Privileges.

Then the House adjourned until To-morrow, at three of the Clock.

Friday, 14th February, 1823.

PRAYERS.

A Meffage from the Council by Mr. Hill:

Mr. Speaker,

His Majefty's Council have appointed a Committee to join the Committee of this Houle, for the purpose of examining the Public Accounts.

And then the Meffenger withdrew.

Mr. Haliburton reported from the Committee, appointed to prepare an Address in answer to His Excellency's Speech, that the Committee had drawn up an Address accordingly, and he read the Address in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows :--

224

TO HIS EXCELLENCY LIEUTENANT-GENERAL

SIR JAMES KEMPT,

Knight Grand Cross of the Most Honorable Military Order of the Bath, Licutenant-Governor and Commander in Chief in and over His Majesty's Province of Nova-Scotia and its Dependencies, §c. §c.

THE HUMBLE ADDRESS OF THE HOUSE OF REPRESENTATIVES IN GENERAL ASSEMBLY.

May it please Your Excellency.

E, the Reprefectatives of His Majesty's Loyal Subjects, the Inhabitants of Nova Scotia, beg leave to thank your Excellency for your Speech at the opening of the present Session of the General Assembly.

The great interest which your Excellency has taken in the prosperity of the Province, and your congratulations on the improving flate of the country, in almost every branch of its Industry, have afforded us the greatest satisfaction.

We observe, with much pleafure, that the exertions of the Inhabitants in Agricultural improvement are every where attended with the most beneficial effects, and that the diffress which prevailed the last year is happily diminishing, whilst another abundant harvest, under the blessing of Heaven, has afforded plenty throughout the country; and we may now confidently hope that by steadily perfevering in Agricultural pursuits, with habits of industry and economy, the People of Nova-Scotia may foon render themselves independent of Foreign supplies.

We are happy in observing that the Commerce of the Country is reviving, and we most cordially unite with your Excellency in the fanguine hope that the Acts passed in the last Session of the Imperial Parliament will enlarge the field for Commercial enterprize, and eventually prove highly beneficial to our Colonial Trade.

We learn with fatisfaction, that the Revenue of the paft year has been fufficient to meet the charges against it, and to pay off all just claims on the Provincial Government; and we beg to express to your Excellency our warmest thanks for the judicious system which you have caused to be observed in the collection of the Revenue, and the payment thereof into the Treasury, and we have the fullest affurance that, under the direction of your Excellency, the result will be highly beneficial to the country.

The Public Accounts, which your Excellency has been pleafed to direct to be laid before us, will meet with our immediate attention : and your Excellency may rely on our providing for the neceffary expenses of His Majesty's Government.

I he Agriculture and Fisheries of the Province, which are of the first importance to its prosperity, shall receive our early and serious consideration; and although difficulties have heretofore arifen as to the mode of encouraging the Fisheries, yet, we hope we shall be able to devile and adopt fome unobjectonable plan for giving a stimulus to that important branch of our Trade.

We shall carefully apply the Revenues of the Country to those important interests, which require affishance, and at the same time endeavour, by a prudent and judicious appropriation of our funds, to avoid the evils which necessarily arise from pecuriary embarrassiments.

The exertions made by your Excellency to acquire a knowledge of the Country over which you prefide, and your judicious and impartial administration of the Government, demand our fincere gratitude, and afford the highest proof of your earnest defire to promote the prosperity of the Country, and the happiness of the People.

Then the Houle adjourned until l'o-morrow, at eleven of the clock.

Saturday, 15th February, 1823.

The amendments to the Bill were read throughout a first and second time, and, upon the question second to by the House.

Ordered, That the Bill, with the amendments, be engroffed.

Mr. Graffie reported from the Committee, on the subject of the Fisheries, and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

That the Committee which was appointed by a Resolve of this Houfe, to take into confideration the flate of the Filheries, and to report the beft mode of encouraging them, proceeded to invefligate the caufes which have led to their prefent depression, and to ascertain, if possible, what would be the most defirable means of giving the Filheries that effectual encouragement, which would relieve them from their prefent embarrasfied state.

Your Committee, to promote these important objects, has investigated all the documents which were laid before the House during its last Session, and has also examined many persons who are extensively concerned in the Fisheries, and interested in their advancement.

Your Committee finds that the Fisheries of this Province still continue in a very depressed state, and appear annually to become more fo, arising in a great measure from the very high price which the Fisherman is compelled to give for his Salt (which article is almost entirely imported into this Province by transfert Vessels) and from the reduced price which he receives for his Fish when brought to the Market.

Your Committee, after confidering the fubject referred to them, and obtaining information, recommend that two moderate bounties fhould be given, the one for the encouragement of making Merchantable Fifh, which is now in great demand in the European and South-American Markets, and as yet has claimed but little attention from our Fifhermen in the mode of curing it; the other for the importation of Salt into the Province, which would enfure to the Fifherman that article at a reduced price, which your Committee confider as one of the most effectual means of advancing this branch of our Commerce.

Your Committee are further of opinion that, under wile and judicious regulations, thele bounties may be given, without incurring those heavy expenses on our Revenue which it may be fuppoled fuch arrangements would create.

From the information which your Committee have received they would recommend great care to be observed in the payment of whatever bounties the House may decide on, as the furest means of

С

preventing

preventing fraud and impolition, hitherto, in that particular, too fuccessfully practifed on the Province,

Mr. Graffie also delivered to the House the several Documents referred to in the foregoing Report ; and thereupon,

Ordered, That the faid Report, and the Documents, do lie on the Table, to be perufed by the Members of the House.

A Petition of Nathaniel Melvin was prefented by Mr. Archibald, and read, fetting forth, that the Petitioner is an Infolvent Debtor, having a wife and nine children, and now confined in the County Jail of Halifax, and praying for relief.

That in the month of August last, when the faid Aboiteau was nearly completed, unfortunately for the Petitioners, a great Breach was made in the fame from the Water undermining part of the work. That the Petitioners, notwithstanding the heavy loss they have thus suffained are determined to perfevere in the undertaking; and that the completion of the Aboiteau will afford a convenient Road Way for the benefit of the public, as well as otherwise be of public utility, and praying the House will take the premises into confideration, and grant to the Petitioners such peculiary aid as to them may frem fit.

Ordered, That the Petitions do lie on the Table.

Then the House adjourned until Io-morrow, at twieve of the clock.

A

JAMES

II S Excellency the Lieutenant-Governor submits to the Assembly, for consideration, a Representation from the Magistrates and Grand Jury of the District of Sydney, in the County of Cape-Breton, requesting that a resident Judge of the Supreme Court might be allowed them, and that a President Judge of the Inferior Court of Common Pleas, and a President of the Sessions of the Peace in that District, might be appointed.

As there is fittle probability that any one of the Assistant Justices of the Supreme Court could be induced to remove to the Island, and it might be deemed inexpedient to increase the number of Judges in that Court, His Excellency, with a view to promote the due administration of Justice, and comply, as far as is practicable, with the wishes of the Magistrates and Grand Jury, is disposed to grant a Commission to a Professional Gentleman, qualified for the station, to be first Justice of the Court of Common Pleas, and President of the Courts of Session, in each District of that Island, with such powers as may be deemed adequate to the wants and necessities of that County.

But it cannot be expected that any Gentleman, professionally educated and qualified for the office, could be induced to accept it unless a liberal and permanent provision were made for his support, and for maintaining the respectability of the station he would hold there.

His Excellency, relying on the disposition of the Assembly, to concur with him in a measure of such importance to that fourishing and increasing portion of the Province, and to the grainfication of its Inhabitants, strongly recommends to the -Assembly to grant such Salary for the office as may enable him to select a suitable Person, qualified in every respect to promote and improve the administration of Justice in the Island, and to afford general satisfaction to all who are interested in it.

His Excellency, having given this subject the serious consideration its importance requires, has deemed it proper to point out to the Assembly what appears to him the best remedy for the evils complained of: If, however, any system can be devised by the Assembly, better calculated, in his opinion, to remove the inconveniencies experienced by the Inhabitants of Cape Breton, as regards the Administration of Justice in that Island, His Excellency will most readily attend to any suggestion that the Assembly may have to offer for his consideration.

Mr. Deputy-Secretary Hill also delivered to the House, by command of His Excellency the Lieutenant-Governor,

A Copy of the Representation from the Magistrates of the District of Sydney, in the County of Cape-Breton, to His Excellency; and also,

That the Committee have carefully examined the Petition and Documents accompanying the fame, and have otherwife endeavoured to gain the beft information on this fubject. It clearly appears to the Committee, as well from the faid Petition and Documents, as from fuch other information afforded to them, that the Bridge is not built according to the contract, and is not properly fecured, and that conlequently the vouchers and certificates required by Law, cannot at any time be obtained, so as to enable the Petitioner to receive the balance of monies alleged to be due on account of such contract. The Committee therefore fubmit to the Houle, under the peculiar circumstances of the cafe, the propriety and expediency of passing an Act, authoriting the Commissioners, or (if deemed preferable) certain Freeholders, to be mutually chosen to alcertain the defects in the Bridge, and what alterations and additions may be requisite to remedy the fame, and thereupon, under the provisions of fuch Act, to give a reafonable notice to the Contractor to proceed to make fuch repairs, alterations and additions, and to complete the Bridge, and, after fuch completion, to pay the balance in their hands to the Petitioner; but if after a realonable notice to given to the Contractor, he shall neglect or refuse to complete the work, in fuch cafe, further authorifing the Commissioners themselves to do the same, and to pay the amount thereof out of the monies in their hands, and the refidue, if any, to the Petitioner, with fuch claules of fecurity and indemnity to the Commissioners for their proceedings, as the Houle shall deem fit and proper.

Mr. Deputy-Secretary Hill acquainted the House, that he had a Message from His Excellency the Lieutenant-Governor to this Houfe, signed by His Excellency, and he presented the faid Message to the House; and the said Message was read by Mr. Speaker, all the Members being uncovered, and is as follows:

JAMES KEMPT.

THE peculiar fituation of the Building called the Dalhousse College, induces me to submit to the Affembly, the propriety of granting by Loan, or otherwife, the means of enabling the Truffees to relieve the Building from the debt incurred by its Erection, and to set the Inftitution Sector Constrained Sector in operation.

THIS College, in the language of its Noble Founder, to the Right Honorable Earl Bathurft, is intended to become a Seminary for the Higher Branches of Education at Halifax, the seat of the Legislature, and the Capital of the Province. It is founded on the plan and principle of the College at Edinburgh, not confined to any particular persuasion, but open to all Christians of every denomination; not the rival of any other Seminary or College, but the friend and co-relative of all.

I CANNOT but flatter myself that such an Institution will be confidered by the Legislature as entitled to its liberal support and patronage, and that it will not be suffered to be stifled in its infancy, and to promiting an object, after the great expense already incurred on it, to be rendered useless and abortive.

I THEREFORE earnestly recommend to the Assembly to make such provision for it, as will enable the Truffees, to carry into effect the object contemplated by its Founder.
