

BRITISH LABOR ISSUE GRAVE

Situation in Palestine This Summer is More Serious Than During Past 3 Years

Two German Airplanes Brought Down by British Following Raid on Southend

Crisis Approaching; General Election Presaged

FOE PLANES DESTROYED IN AIR RAID

Two German Aircraft Brought Down By British Naval Seaplanes

LITTLE DAMAGE DONE Sunday's Raid More Serious But For British Preparedness

DEFENCES PERFECT Aircraft Rallied To Drive Back the Raiding Germans

London, Aug. 13.—Two of the German machines which yesterday evening raided the English southeast coast watering places were destroyed by British naval airplanes. The official statement issued by the government to-day says that one of the machines was a Gotha airplane and the other a seaplane.

London, Aug. 13.—Reports from various local correspondents indicate the probability that the German airplane raid Sunday would have been much more serious but for the preparedness of the British defense. British airplanes at the first intimation of the enemy's approach appeared from all points and the excellent fire from anti-aircraft guns appears to have nullified the attempted operations of the invaders, virtually everywhere except at Southend. There are many stories of scattered flights by the Germans to avoid risking engagements with the defenders. The weather was bright and fine with a strong westerly wind, which, perhaps, was less favorable to the raiders than the calm which prevailed elsewhere in the country.

It appears that the largest section of the invading squadron operated over the Thames estuary, but the circumstances which resulted in the destruction of the two machines are not apparent. The town was full of holiday makers, numbers of whom were only visitors for the day. Many of these were on the way to a railway station to take a train for London when the bombing began and there were many casualties among them. One bomb alone killed seven persons and wounded many others. Elsewhere the people who remained in the streets, instead of taking cover were the chief sufferers. Hundreds were thrown to the ground by the concussion, but all escaped serious injury. Reports from Deal, Ramsgate and other coast towns say that the main result of air raid warning was to draw crowds to the sea fronts to watch the invaders. Thanks to the promptness of the British airplanes in attacking the raiders, all these places escaped and the onlookers saw aerial battles, though at a dim distance. None of these fights seems to have been prolonged or, as far as is known, to have resulted seriously for the invaders, whose plan seemed to be to avoid fights in order to insure a safe return to their base.

CROP PURCHASED. By Courier Leased Wire. Alexandria, Egypt, Aug. 13.—The government has purchased the 1917-18 crop of Egyptian cotton seed.

WEATHER BULLETIN Toronto Aug. 13.—Since Saturday morning rain has fallen in Nova Scotia and Prince Edward Island, while in all other parts of Canada the weather has been fine and warm. Moderate easterly winds, showers or thunderstorms in many localities. Tuesday — Fine and warm.

Henderson to Challenge the Premier in Commons This Afternoon; Crisis in Cabinet Precipitated by Resignation of Labor Member

By Courier Leased Wire. London, Aug. 13.—A statement by Arthur Henderson, the Labor leader and minister without portfolio in the British war council, who resigned Saturday was expected to be made this afternoon in parliament, and it was assumed that Premier Lloyd George would reply immediately. It was reported that Mr. Henderson would demand the production of all communications between the British and Russian Governments with reference to the Stockholm conference with a view to showing that the Premier put a wrong interpretation on the Russian telegram he quoted in a letter to Mr. Henderson.

If the House of Commons indorses the demand, a secret session is likely to be held for the communication of certain documents, reference being made in morning newspapers to a telegram which it is stated M. Kerensky, the Russian premier sent to Albert Thomas, French minister of munitions, declaring that the government not only was not interested in the Stockholm meeting but that Premier Kerensky himself hoped the conference would not be held.

Russian delegates Erlich and Rousanoff, now in London, without referring specifically to this alleged telegram, have given to The Daily News a statement to the effect that there is no evidence that Premier Kerensky and the Russian Government oppose the conference and declaring they received from the Council of Workers' and Soldiers' Delegates less than a week ago a request to hasten arrangements for the conference. They say the communication received by the British Government from Petrograd does not alter its position in the least degree and affirm the Russian Government cannot officially support the conference, but certainly does not oppose it.

It seems to be the general opinion of parliamentary writers that things will not be straightened without trouble. The possible dissolution of parliament to ascertain the country's feelings by a general election is suggested by The Daily News which supports Mr. Henderson and, which says the government is approaching a serious crisis. If the Labor conference to be held on the 21st upholds Mr. Henderson and endorses the vote at the Labor convention Friday to attend the Stockholm meeting, all Labor ministers, who number seven, must withdraw from the government, the paper says. In such circumstances, according to the Premier's friends, he will immediately advise the king to dissolve parliament. On the other hand, The Daily News says that if the conference on the 21st fails to support Henderson the crisis will be ended.

Germans Jubilant. London, Aug. 13.—Commenting on the decision of the British Labor conference to send delegates to the Socialist meeting at Stockholm The Vorwarts, the Socialist organ of Berlin, says, according to a dispatch to the Exchange Telegraph Company "We hope that when the delegates arrive they will continue the meeting in a different spirit from that outlined. They must understand that it is impossible for them to preach a continuation of the war by giving German minority Socialists additional evidence against the German Government. One single discussion will show the English how naive they are. This is an advantage we hope for in the coming discussion. Therefore we rejoice in this step forward. It cannot remain the only step."

FRENCH BEAT OFF ATTACKS OF THE ENEMY

Heavy Losses Inflicted On German Troops On Aisne Last Night

FRENCH HOLD GAINS Desperate Teuton Counter Attacks Failed In Their Purpose

By Courier Leased Wire. Paris, Aug. 13.—The Germans attacked last night on the Aisne front in an effort to recapture trenches taken by French troops on Saturday. Today's official statement says they were repulsed with losses.

The announcement follows: "Between Chery and Craonne the enemy's artillery developed pronounced activity, especially in the sector south of Ailly. The Germans attacked in vain at the point at which we captured trenches on August 11. They were repulsed with losses and obtained no result. "In the Champagne, east of Rheims in the regions of the Casque and the Tetou, and on the left bank of the Meuse there were spirited artillery actions. Two surprise attacks by the enemy at Caseres wood and Bezonaux, were repulsed by our fire. Elsewhere the night was calm. "Two German airplanes and a captive balloon were brought down yesterday by our pilots. Three other enemy machines were forced to land, having been severely damaged."

BRITISH OFFICIAL London, Aug. 13.—"There is nothing special to report from the Franco-Belgian front," says to-day's official communication.

JASSY TO BE EVACUATED

By Courier Leased Wire. London, Aug. 13.—A despatch to The Times from Odessa, dated Saturday, says the diplomatic body at Jassy, Roumania, was expected in Odessa yesterday, the situation being regarded in Jassy as dangerous. It is not expected the diplomats will stay in Odessa long. It is believed they will go either to Kherson or to Ekaterinoslav.

Situation in Palestine at Worst Stage of War

Campaign of Plunder and Massacre Launched by the Turk Through Holy Land and Other Territory Under His Domain; Policy of Deliberate Murder is Being Carried out

By Courier Leased Wire. Cairo, Egypt, Friday, July 20.—(By mail)—The situation in Palestine this summer is the most serious since the war began. A scheme for the looting of Jerusalem is already being executed and throughout the country the Turk has embarked on a calculated policy of plundering and killing the native inhabitants so that if they are forced to vacate the country they will leave behind them a desert. The only thing that can save them, the only hope that buoy them up, is that the British armies now hammering at the gates of the Holy Land, may soon drive out the Turks. Information about conditions in Palestine reaches here from many sources, some more or less direct, but most of them rather roundabout. The following statement of the present situation is given to the Associated Press by an official in touch with all these sources. "The attitude of the Young Turks toward the un-

fortunate non-Turkish races within their empire has always been harsh and oppressive. During the war it has been an open campaign of robbery, exploitation and massacre, for the Young Turks, realizing that the partition of the lands under their rule is unavoidable, have determined to get as much as they can out of the inhabitants while they are still in possession. "The stupendous wickedness of the extermination of the Armenian race cannot be dismissed as a mere device of Oriental statecraft, or as a particular measure aimed at one particular race, for it is the Turkish policy towards not only Armenians, but Arabs, Greeks and Jews, in fact all peoples who are subjects of the Turk, but are not themselves of Turkish blood. "While there was some prospect of being able to retain or even enlarge their empire the Turks, at all these sources, "The attitude of the Young Turks toward the un-

Statement of War Aims of all Belligerents to be Demanded at Stockholm Conference by French Delegates; to Use Socialist Pressure

By Courier Leased Wire. Paris, Aug. 13.—After a prolonged discussion the permanent administrative committee of the French Socialist party has adopted a resolution, stating among other things, that French Socialist delegates will go to the Stockholm conference to demand that the governments which still refuse to make known their war aims and whether they are prepared to make reparation in accordance with the rights of the people be made to do so by Socialist action.

"The (Socialist) party does not go to Stockholm in search of a peace compromise which would leave the fate of the peoples in suspense and at the mercy of fresh wars. It goes to declare that respect for the people's right, respect for treaties and an engagement to henceforth submit every possible conflict to the justice of nations, can alone constitute an acceptable peace. "It goes to ask Socialists—all Socialists—whether they condemn the governments responsible for violations committed at the outbreak of the war and, if, after pronouncing such condemnations the Socialists—all Socialists—will take action against the governments in order to shorten the war by saving the honor and lives of the peoples. "It goes to demand that the governments which still refuse should be obliged by Socialist action to make known their war aims and whether they are prepared to make reparations in accordance with the rights of the peoples, and, to declare publicly if they still intend using the war map as a means of reaching peace."

"It goes on to demand whether the Socialists, who persist in giving moral and material aid to the guilty governments can still remain members of the internationale, and whether the internationale will not recognize as its own only those who, by denouncing those responsible, show thereby that they are resolute to accomplish acts which will give life to the internationale, while at the same time they will conduct the peoples toward a beneficent peace. "The French section of the internationale also has drawn up conditions for the participation of its members in the international Socialist conference. A readiness is expressed to partake in any such conference provided it is conducted strictly in accordance with the regulations of the international Socialist bureau. The conditions specified read: "The delegates to be given proper mandates by organizations really affiliated with the internationale and a program is to be drawn up beforehand after the question has been discussed by delegates appointed for this purpose. "In order that the international meeting shall be able to produce useful results all sections are expected to adhere to the following principle beforehand in case of warlike aggression by any power: "The proletariat of the nation attacked has claim to the aid of all proletariats of all nations whether belligerent or not, an aid which may vary according to circumstance from a simple protest to armed intervention against the power disturbing the peace. "The Humanite says the French delegation to the London and Stockholm conferences will consist of ten (Continued on Page Four.)

TODAY THE DAY OF THE SUPERMAN

To Play Noteworthy Part In Winning the War and Afterward

TRAINING IN OLD LAND Britain Developing A Superior Type In The Younger Generation

A MILITARY MESSAGE Train Youth To Be Strong and Save World For Democracy

By Courier Leased Wire. A place in England, Aug. 1.—(By mail)—British military authorities are convinced that the day of the superman has arrived and that the part he is to play in ending the war and regenerating the world cannot be overestimated.

A representative of the Associated Press, who was permitted to visit a great training school as the guest of the foreign office, obtained an insight into the remarkable change brought about in the British viewpoint during the past three years. The British not only are putting forth all their energy in further perfecting their fighting forces, but are actually and earnestly devoting themselves to the development of their youth in a manner calculated to fit them for any and all eventualities which may arise in the years to come. If the Germans cherish the idea of eliminating Britain as a world power, Britain, it is said, far from being beaten, now sees with a clearer vision than ever before, and is preparing to turn the scale against her adversary in such a way as they may never again swing back. While statesmen are being made or unmade with the changing fortunes of war, the great silent forces of the nation, proud of its traditions and thoroughly aroused to its own shortcomings, are constantly marching, in an almost endless chain, from training schools to battlefronts and back again. Stretched over many miles of rolling hills, carpeted with green foliage, is the school wherein hundreds of thousands of British youth are being taught to master themselves, as one of their instructors expressed it, "that they will be better prepared to master their enemy and live their lives as they should live them."

"We are training our men to believe in themselves," said the general commanding the school. "Each must not only feel that he is better equipped physically and mentally than his antagonist, but he must be able to demonstrate. That is the lesson we have learned from the world war. "As the average Britisher is naturally a sportsman, his games are being made to play an important part in his training. In shooting, bombing and all the various arts of war it is proving invaluable to him. "I have been very much impressed with the fact that most men who are prominent in our games distinguish themselves at the front," declared the general. "They are keen, thoughtful and clear sighted and for that reason become the best fighters. "Unlike the armies of other belligerents, the British are discarding what are termed weapons of frightfulness and instructing their young manhood in the use of what they are pleased to call "the three B's—the bullet, the bayonet and the bomb. "Experience has shown us that the rifle and bayonet are the best defensive weapons with which to arm a man," asserted one official. "If he has the proper physical and mental training and knows how to handle his rifle and his bayonet, he is certainly the match if not the superior of his adversary. "With a single eye to their task, the British have established elaborate systems of trenches wherein the young men are taught every conceivable method of present day warfare. Young officers and others recommended for promotion are regularly (Continued on Page Six.)

OTHER SIMCOE NEWS

Flow in Broken Sewer Is Finally Under Control

Write Simcoe Agency Box 311 or phone 85-3 all matters regarding delivery or subscriptions; News items or advertisements.

(From our own correspondent) Simcoe, August 13.—As further evidence of the shortage of labor it was noticed that Saturday was a quiet business day about town till about 3:30 p.m., when auto invasions of the streets by the score. Business was transacted promptly and the streets were again quiet by eleven o'clock.

On Friday Delhi and Windham Centre Presbyterians were called to attend the annual union picnic at the mineral springs on Big Creek, in West Windham. There were but three men from the township at the affair.

The McKnight family picnic, held in Lynwood Park, here, in 1915 and 1916, has been called off this year. The committee, after consulting with many of the family found that this was the general desire.

A Splendid Soldier
A high tribute to his memory is paid in a letter from Lieut. A. W. Beach, the officer commanding his company, to Mrs. F. Armstrong, "next of kin."

His brother here has four sons still overseas. Three wounded, Herbt, Bert and Stanley, but all convalescent and one, Walter, still in France.

Parties who are overlooked by the delivery boy should try a plan which is said to work well, especially if practiced by subscribers towards the end of the streets or in a isolated places. Bait the boy with an occasional cookie. Boys are said to fall irresistibly. It's worth a try anyway.

Press Photographs
Postmaster I. D. Lawson is holidaying in Michigan.

Mr. and Mrs. J. A. Atchland, Mr. and Mrs. Colwell and Mr. Geddes of Simcoe were week-end visitors.

EVENING PETTICOAT AND CAMISOLE

Combined in pink crepe de chine with frills of net, punctuated with posies.

guests at Glen Brae cottage. Messrs Allan Doolittle, Harold Beatty and Elwell Marmlyn of Norfolk broke camp on Saturday and returned to the grind of another year.

Miss Edith Leckie of Stratford, Miss Eva Lawrence of Vittoria and Miss Nettie Gibertson of Simcoe have joined the party at Glenholm Cottage in time for the annual wedding ceremony there. Dame rumor says that the usual festivity may give place to a divorce case if the girls can work the party. The following visitors called at Glenholm cottage yesterday: Mrs. Alex. De Cou and Miss De Cou, Miss Alex. Miss Vera Owen, Miss Mary Abey and Mr. and Mrs. A. Leask, all of Simcoe.

The Courier, several copies of it reach the Glen daily—a welcome visitor.

At 5 o'clock yesterday, the flow in the broken sewer was brought under control. A second and more reliable engine, a small tractor, was secured during the forenoon from Lyndale farms, and began work shortly after noon. It will take care of the leakage at the first manhole above the break and the work of stripping the man at the break will proceed, the water having subsided. All services on Robinson street and north thereof are attached above this. Engineer Marston expects to be able to complete repairs without interrupting the service. It is very fortunate that the break occurred in summer instead of winter, and that it was discovered so soon after the water began to undermine Pond street.

On Schedule
The trolley service was badly off schedule time on Saturday. Several who waited for an hour for the 2:30 car to the lake, went home and deferred the outing.

Civic Holiday. Shops closed. The Golf and Country Club will with the bowlers, probably add another to a rather increased success. All meetings and festivities with which the present season on the east side uplands has been marked.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets, or in a few hours he may be beyond cure. These Tablets will prevent summer complaints if given occasionally to the sickly child and very much concerned for the relatives of those at the front. So many hold in contrast the present custom of informing relatives of casualties compared with the methods which obtained during the Boer war, when the first intimations were gleaned from the bulletin boards and newspapers.

An Aid to Memory
Parties who are overlooked by the delivery boy should try a plan which is said to work well, especially if practiced by subscribers towards the end of the streets or in a isolated places. Bait the boy with an occasional cookie. Boys are said to fall irresistibly. It's worth a try anyway.

CONSCRIPTION TO BE ENFORCED WITHOUT DELAY

Emphatic Announcement By Minister of Militia At Camp Borden

Camp Borden, Aug. 13.—"We are going to put the conscription bill into force right away," emphatically declared Sir Edward Kerr, Minister of Militia, who yesterday afternoon paid his first visit this year to camp Borden.

Sir Edward said he did not anticipate any great delay from Senate amendments. Regarding his visit to camp, he stated that it bore no special significance; he was merely up to see the camp and the improvements that had been made since last year, and was well satisfied with everything he had seen.

"It is a splendid camp, worth every cent of the money we have spent on it," declared Sir Edward, who was accompanied by Major-General Gwatkin, Chief of the General Staff, and Major Bristol of Militia Headquarters, arriving about noon, and leaving again shortly after 5 p.m.

After a brief visit to the musketry school, Hutchison was partaken of at the headquarters mess, where no fewer than four Generals were present.

In the afternoon the camp of the Royal Flying Corps was visited, where the party was met by Col. Hoare, R.F.C. "It is a most complete plant, doing splendid work," was the Minister's comment on his visit to headquarters.

Major-General John Hughes motored back with the party, Major-General Newburn having left somewhat earlier in the afternoon.

No radical changes are looked for in the organization of the so-called commission headed by Generals Mayburn and Hughes, which will in due course make its report to Militia Headquarters.

It is understood that the organization of the new depot battalion, Central Ontario Regiment, occupied a considerable portion of their time. The four brigade staffs of course are practically disbanded, with two of the brigadiers going to the new depot battalion, and the others on indefinite leave.

With the prospect of a large body of troops shortly to be mobilized in Canada for training, and the need to relieve ocean transport by conductors that training as far as possible in Canada, the question of training facilities becomes important. Camp Borden is the central military training ground for Ontario, and having regard to its situation, extent, and equipment, it has come to be regarded as the principal training ground for the whole Dominion.

Reprints Last Word. Following the policy of the War Office it is not possible to give details of men and equipment at these camps, but as the work of training is conducted on such a large scale it may be said that the aviation school at Camp Borden represents the last word in efficiency. Work commenced on the 4th of February last, when there were four feet of snow on the ground. One and a half miles of railway track was laid on the snow, and 25,000 feet of asphalt roadway laid in the middle of winter. This is the first time that an attempt has been made to lay asphalt while the ground is in such condition, and it has already saved its cost. The school is complete in every detail. There are fifty-seven buildings in all, including officers' quarters, cadets' quarters, barracks for the mechanical staff, workshops and garages for each squadron, complete with gasoline and oil tanks under ground. The buildings are of a semi-permanent character, installed with water and sewers from the Camp Borden system, telephones and electric lights, and power from the Hydro Electric system of Ontario. The hangers extend for three quarters of a mile, each with a capacity of six machines, and face on an aerodrome of 1,000 acres in extent. Those who are in charge of the instruction of cadets state that nowhere have they found such ideal facilities for training, and it is interesting to know that cadets are being sent forward to England in batches of about fifty a month. To make the place ready for flying 12,000 stumps had to be taken out of the ground, conduits built for water pipes, sewers, etc., and so rapid was the progress made that flying commenced on the 7th of May. Indeed the organization has become so efficient that Lieut.-Col. Hoare, O.C., Royal Flying Corps, stated on Saturday that he is prepared to receive applications for several hundred cadet appointments from young men of sound physique, not over 25 years of age.

The use of aircraft in war has become so highly specialized that a good deal of the apparatus is of necessity kept secret, but Canadian aviators at Camp Borden receive the benefit of the latest devices in gunnery and observation. The machines are equipped with what are known as "synchronizing" attachments for fighting and scouting. The cadets are trained in actual machine gun operation, aerial photography, artillery observation, for which the school is splendidly adapted. Details of cost are impossible to give, but it is roughly estimated by the Royal Flying Corps that camps similar to that established at Borden could now be built for an expenditure of about \$800,000 complete.

FRANKFORT BOMBED BY FRENCH AVIATORS SATURDAY

Daring Raid Executed by Allied Air-men as Reprisal for Enemy Bombardment of Nancy and District; Air Battles in Belgium

London, Aug. 13.—British naval aeroplanes dropped several tons of bombs on the German aerodrome in the Belgian town of Ghistel, on the Zuidweg railway sidings and on the Thourout railway junction, the British Admiralty announced yesterday. On Friday afternoon British airmen dropped bombs on the German aerodrome at Spaanvelde. The Admiralty statement follows: "Several tons of bombs were dropped by the Royal Naval Air Service Thursday night on the Ghistel aerodrome, on the Zuidweg railway siding and on the Thourout railway junction. Dense clouds of smoke were caused at Zuidweg. The railway junction at Thourout also was attacked by gunfire from the air."

Raid on German City Paris, August 13.—Two French aviators yesterday dropped bombs on Frankfort-on-the-Main, one of the most important cities of the German Empire, having a population of more than 300,000. A French official statement, announcing the raid, says it was in retaliation for the German aerial bombardment of Nancy and the region north of Paris. Both French machines returned undamaged. "The text of the announcement reads: "In reprisal for the German bombardments of Nancy and the region north of Paris, two of our machines, piloted by Lieutenant Moerques and Sub-Lieut. Besumont, yesterday dropped bombs on Frankfort-on-the-Main. Both machines returned undamaged. "It is confirmed that a German aviator was brought down August 9 on the Belgian front. Yesterday a German machine was shot down by machine gun fire north-east of Vauxaillon. Frankfort-on-the-Main is 160 miles within the German lines at Verdun. Air Battles in Belgium London, August 13.—Sir Douglas Haig in a despatch from British headquarters in France says: "Yesterday for the first time in over ten days a full day's flying was possible. Enemy aircraft showed themselves in a great many places, attempting to prevent our artillery work and attacking our bombing machines. In spite of their efforts a great amount of observation work was carried out by us. A large number of photos were taken, many targets on the ground engaged effectively with machine-gun fire and in the course of the day and night six and one-half

tons of bombs were dropped on enemy aerodromes, munition depots and other points of military importance. Fighting was very severe all day and the enemy was encountered in large formation. Ten German machines were brought down by our aeroplanes, five others were driven down out of control by gunfire. Twelve of our machines are missing. Sunday night's report said: "In spite of repeated storms and strong westerly winds, which greatly favored the enemy, our aeroplanes carried out much successful work yesterday. In air fighting three German machines were downed and four others were driven down out of control. Two of our aeroplanes were forced to land behind the enemy line and three other British machines are missing. The French airmen were also busy. The Paris War Office report says: "On the night of August 10-11 and during the day of the 11th, our aviators on the front in Belgium bombed enemy encampments to the north of the Houthulst forest and also the stations at Cortemarck and Lichtervelde. A fire was started and a violent explosion was observed at Lichtervelde. The aviation ground at Colmar (Upper Alsace) also has received many projectiles. "Two German aeroplanes were brought down by our pilots on Friday and two other machines, seriously damaged, were forced to land within their own lines. Our aviators successfully effected various bombing operations. The aviation ground at Schlestadt and the encampment to the forest of Houthulst received many bombs. "British aviators bombed enemy hangars in the region of Drama. his son had destroyed 36 German aircraft. Capt. Bishop who is but 23 years of age already holds the Distinguished Conduct Order and the Military Cross. Field Marshal Haig referred to his most recent exploit in his despatches and endorsed it as "remarkably clever work." Capt. Bishop's brother, Major North Bishop, is on the headquarters staff at London, Ont.

CANADIAN WINS VICTORIA CROSS

Capt. Bishop of Owen Sound Has Wrecked 39 Enemy Planes AN INTREPID AIRMAN Single Handed Attached Foe Aerodrome At a Height of 50 Feet London, Aug. 12.—The intrepidity of Captain William Avery Bishop, a Canadian and a member of the Royal Flying Corps, in attacking a German aerodrome single-handed, has been rewarded by the bestowal upon him of the Victoria Cross, the most prized of the British valor medals. The Official Gazette gives the following resume of the action which brought Captain Bishop the Victoria Cross: "Captain Bishop flew first to an enemy aerodrome. Finding no enemy machine about, he flew to another aerodrome three miles distant and about twelve miles inside the German lines. Seven machines, some with their engines running, were on the ground. He attacked these from a height of 50 feet, killing one of the mechanics. "One of the machines got off the ground, but Captain Bishop, at a height of 50 feet, fired 15 rounds into it at close range and it crashed to the ground. A second machine got off the ground, into which he fired 30 rounds at 150 yards. It fell from the aerodrome, one of which he engaged at a height of 1,000 feet, and he sent it crashing to the ground. He then emptied a whole drum of cartridges into the fourth hostile machine and flew back to his station. "Four hostile aces were 1,000 feet above him, for a mile during his return journey, but they would not attack. His machine was badly shot about by machine-gun fire from the ground. "Captain Bishop is a native of Owen Sound, a son of W. A. Bishop, Grey County court clerk and registrar of the court. He was a student at the Royal Military College, Kingston, and he went overseas shortly after the outbreak of hostilities with an engineering corps from Kingston. He was home on furlough some time ago, having been slightly injured in an aeroplane accident. "Frequent reference has been made in recent war dispatches to an aviator from a Northern Ontario town who was making a name for himself at the front and it is now apparent that Capt. Bishop is the officer referred to. He is said to have the reputation of unnerving his opponent at once by diving straight at him as a hawk strikes at his prey. Six weeks ago his father received reliable information to the effect that

Sporting Comment

Wanted:—Outfielders. Just as badly as the Athletics need a general strengthening the New York American league seasonally will have to have a new outfielder on its payroll before it can expect to obtain a season's consolation from its rivals. Lee Magee and Elmer Miller, two outfielders who are now gracing the staff of fly-chasers, are hopeless. Hugh High is somewhat better, but is really nothing to brag about. Tim Hendryx is the only man who appears to be anything in view of major league class. Frank Gilhooley's work this spring lets him out, it is believed, to be considered the same class as displayed a year ago as we will take rank with the best in the game. So far he is only a mediocre outfielder. Donovan was well liked when Lee Magee was turned over to him as the Federal league kicked in his dying rattle. Once termed the only rival of Gaudin, he was believed to be the final touch that would bring an American league pennant to the nation's metropolis. Magee has livered badly.

Magee Going Bad. When the Cardinals Magee played line ball. He hit around about all the time, his base running was excellent, his arm was good, and he could run passes with the best either league boasted. That was when he was a National leaguer. Whether it is the difference in class, or whether Magee was greatly over-rated is hard to say, but the fact remains that he looks far worse than many recruit outfielders who are annually turned back from the major leagues. Donovan has several pitchers who are warning the bench daily. He has so many managers, in fact that most of them are obliged to sit around and only keep in fair condition. If we could arrange a trade that would send away Lee Magee, the Cardinals would have a surplus of outfielders who would be concerning a great factor on himself. Surplus outfielders, however, are extremely scarce, in the National league and only keep in fair condition. If we could arrange a trade that would send away Lee Magee, the Cardinals would have a surplus of outfielders who would be concerning a great factor on himself.

Children Cry FOR FLETCHER'S CASTORIA

RECOVERY OF NEW JERSEY WOMAN

Due To Lydia E. Pinkham's Vegetable Compound.

Bridgeton, N. J.—"I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound for inflammation and other weaknesses. I was very irregular and would have terrible pains so that I could hardly take a step. Sometimes I would be so miserable that I could not sweep a room. I doctored part of the time but felt no change. I later took Lydia E. Pinkham's Vegetable Compound and felt a change for the better after the second day. I took it until I was in good healthy condition. I recommend the Pinkham remedies to all women as I have cured myself with good results." Mrs. MILFORD T. CUMMINGS, 24 New Street, Bridgeton, N. J. Such testimony should be accepted by all women as convincing evidence of the excellence of Lydia E. Pinkham's Vegetable Compound as a remedy for the distressing ills of women such as displacements, inflammation, absorption, backache, painful periods, nervousness and kindred ailments.

Saturday, Aug. 11th, 1917.

THE SITUATION.

There has been some severe fighting of a close nature near Ypres. After a sanguinary conflict the British were forced from a portion of the Glencorse Wood. At about the same time they gained slightly on the right bank of the Steenbeek River.

There is an intense struggle in progress between the Russo-Romanian forces and the Austro-German armies on the Rumanian front. Petrograd states that in south-eastern Moldavia an attack of the Teutons was repulsed and that in a counter assault twelve hundred prisoners were taken, but that towards evening, owing to the arrival of heavy reinforcements for the foe, a withdrawal had to be made.

The enemy has notched another list of non-combatant victims in connection with the latest air raid on the Old Land. That was on Sunday, August 12. It is worthy of note that French airmen dropped bombs on the large German city, Frankfurt-on-Main, the authorities making the open declaration that the assault was in reprisal for German bombardments on Nancy and the north of Paris.

Sir Edward Kemp, Minister of Militia, made the emphatic statement during the course of an address at Camp Borden that he did not anticipate that the Senate amendments to the conscription Bill would cause much delay in the Commons, and that then the measure would at once be put into operation.

Mr. Henderson, one of the Labor representatives in the British Cabinet, has resigned under unfortunate circumstances. He told the delegates of the Labor conference that he favored sending British representatives to the Stockholm meeting and Lloyd George in a stiff letter, points out that having that change of view he should have so informed his colleagues instead of leaving the impression that he was speaking for the Administration.

THE CROP OUTLOOK

The last report of the Ontario Department of Agriculture stated that in some localities half the fall wheat had been cut, while in other places harvesting of the grain was just commencing. Yield per acre likely to be about the average. Winter rye is a good crop and oats promise a bumper yield.

Mr. F. M. Chapman, editor of the "Farmers Magazine" in the course of his review of matters says: "Granting our 1917 returns about equal to 1916-7, in wheat, with the present price of \$2.25 to \$2.40 per bushel, with local prices for fall wheat higher than the last figure, the total returns of the 1917 crop to the farmers means a big increase where it is most deserved."

Premier Dato says the government has taken all measures to avoid a general strike which, it is reported, the workers wish to undertake. The king has expressed a desire to come from Santander to Madrid to preside at a cabinet meeting.

Amsterdam, Aug. 13.—The Berlin Anzeiger says the decision of the British Labor party will not affect anything in regard to the hopes attached to the Stockholm conference in view of the changes which have taken place. The people do not believe much good will come from the programme and consider the attitude of the U. S. Government more logical in refusing passports to the American delegates.

more than the average returns while prices over 1916 are much higher in all lines the farmer has to sell. This means that there will be a much greater money turnover despite the lower crop yields in the case of all wheat. In dairying, poultry, wool and livestock, the volume of business is large with prices in some cases as in wool 80 per cent. ahead of last year."

MR. HANNA'S DENIAL

Somebody or the other started the story that Hon. Hanna, Food Controller for the Dominion, had made a million dollars by speculation in wheat. Nobody who knows the man would believe the yarn for one instant, but there are quite a number who become easily gulled by such yarns, and a letter which Mr. Hanna sent to Mr. John Farrell, of Mt. Forest, has therefore very properly reached publicity at follows:

"Office of the Food Controller, Ottawa, July 30, 1917.

"Dear John—It has come to my attention from different quarters that a report is in circulation in the County of Lambton and the Western district, that in some way or other I have made one million dollars, or thereabouts, speculating in wheat. I write you because you have such exceptional opportunity in putting this matter right."

"The facts are that I never made a cent of money in wheat in my life, and have never bought or sold a bushel of wheat since I left the farm many years ago; and, furthermore, I have never speculated to the extent of one dollar in wheat or anything else."

"I shall take it as a personal favor if you will lose no opportunity of correcting this impression wherever you have reason to think it exists. Some have no doubt repeated it innocently enough; others have not been quite so innocent. I would correct it in the newspapers, but would thereby be giving it circulation that it might not otherwise get."

"My request to you is a most unusual one for one man to make of another, and even now nothing but our long friendship and thorough understanding of one another would induce me to make it, were it not for the fact that this sort of report would be, under the circumstances, damaging to the work of the office of food controller, which I have been asked to assume. I know that without introducing the subject yourself, you will be glad to give the rumormongers a denial when ever it comes to your notice. Should you deem it advisable on any occasion to use this letter in support of that denial, you are at liberty to do so."

"With kindest regards, I am, very truly yours, W. J. HANNA."

Without any doubt the arrant falsehood was put in circulation to hurt Mr. Hanna in the successful performance of his arduous task, and it probably emanated from some Teutonic agency for that there are such secretly working in Canada there can not be any doubt.

NOTES AND COMMENTS

It is to be hoped that the Russian bear having successfully displayed all kinds of stunts will pretty soon settle down to a regular course once more.

One of the favorite popular songs with regard to the planting of Ireland in the Atlantic ocean describes her as resting "so peacefully there." The man who wrote that was either joking or else he has never been in the Emerald Isle.

On the one hand there is a solid Quebec, led by Laurier against conscription. On the other hand Oliver and kindred manipulators are seeking to split the Liberal vote on the issue. What do you think of the game?

The leading Grit organ of Toronto has an editorial headed "Here Stands the Globe." Great Scott! Does the editor take himself for another Joshua?

The death of George Smith removes a faithful public servant. His position involved many confidences and he never betrayed one, and more over always met any difficulties which came his way with a fine and cheery sense of humor. In his passing a most trustworthy municipal official has been called home.

SPAIN NORMAL

By Courier Leased Wire. Madrid, Sunday, Aug. 12.—The news to-day from the provinces indicated that railroad trains were running under almost normal conditions following the strike of railroad employees on Friday night.

Premier Dato says the government has taken all measures to avoid a general strike which, it is reported, the workers wish to undertake. The king has expressed a desire to come from Santander to Madrid to preside at a cabinet meeting.

NOT ENTHUSIASTIC

Amsterdam, Aug. 13.—The Berlin Anzeiger says the decision of the British Labor party will not affect anything in regard to the hopes attached to the Stockholm conference in view of the changes which have taken place. The people do not believe much good will come from the programme and consider the attitude of the U. S. Government more logical in refusing passports to the American delegates.

STATEMENT OF WAR

(Continued from page 1) members to be designated later. Thomas on verge of resignation.

Paris, Aug. 13.—The decision of the permanent administrative committee of the French Socialist party that French Socialist delegates shall go to the international Socialist conference at Stockholm, places Albert Thomas, minister of munitions and Socialist leader, in a delicate position, similar to that of Arthur Henderson, British Labor leader, who resigned as minister without portfolio on Saturday, inasmuch as there is a conflict between the decision of the Socialist party and the expressed intentions of the government of which he is a member.

In a long speech to his constituents at Campigny, M. Thomas endorsed and explained the decision of the party's committee. He asserted it could not be said the Socialists would go to Stockholm to promote a peace based on compromise, but that the world endeavor to fix before the world responsibility for the war and to affirm that the allies considered to be just and right.

The general opinion expressed in the press is that nothing will come of the meetings of the Socialists. The program is debatable, but that it is impossible not to recognize the patriotic intentions which inspired it. The result, it says, seems to be to make an impossibility any discussion with Philipp Scheidemann and the German Socialists associated with him, in which regard it is satisfactory.

TWO DROWNED NEAR CLINTON

Woman Loses Life in Heroic Attempt to Rescue Little Girl

Clinton, Aug. 13.—A sad double drowning accident occurred Saturday afternoon about two miles from Auburn, when Mrs. H. Govier and the little daughter of David Lockhart lost their lives.

The girl was visiting at the Govier home and had gone in bathing. She soon got beyond her depth in a hole in the creek which runs through the Govier farm. When Mrs. Govier saw the little girl drowning she bravely plunged in, but lost her own life in the attempt.

TO MODIFY EMBARGO

Tokyo, Aug. 13.—Leading members of the Kokuminto party, composed of national Liberals, and a number of prominent shipbuilders, held meetings and adopted resolutions urging the government to negotiate with the United States in an endeavor to procure a modification of the embargo on steel exportation on the ground that it will prove a serious menace to Japan's industries.

DEFINITELY AT WAR

By Courier Leased Wire. London, Aug. 13.—In reply to a question in the House of Commons, the Foreign Secretary Balfour said Greece was now definitely at war with Germany, Austria and Bulgaria.

In a statement at the time of the resumption of the Greek Parliament last month Premier Venizelos said Greece was in the war with the Entente. No formal declaration to this effect was considered necessary. The Venizelos Government established at Saloniki before the deposition of King Constantine having declared war and placed troops in the field.

PIONEER OF THE PROVINCE DEAD

Henry Martin Called by Death at Paris, in 91st Year

LINK WITH PAST GONE Pte. John Tremouille of the 125th Battalion Reported Wounded

PARIS CIVIC HOLIDAY Chief Rutherford Takes Action Upon Automobile Question

(From our own Correspondent) Paris, Aug. 13.—The death took place late Saturday afternoon of Mr. Henry Martin, at his residence, Dumfries St., at the advanced age of 90 years. Deceased was born in Princeton in Oxford county, 1827.

For many years he farmed near Gobles, and later on the 22nd Concession of Blenheim Township. He was also in the lumbering business at Stoney, near Collingwood. Later he followed the same business at Erie, Pa., and Buffalo. As a boy he could remember that only a bridal path was the means of travel between Drumbo and Princeton, while a small very rough road led to Paris the town then being nothing better than bush, with a few scattered farms scattered here and there. In 1850 he was united in marriage to Miss Rachel Cowell of Lobo near London. Around 1899 the family moved from Buffalo to Drumbo, where Mr. Martin died the following year. In 1901 Mr. Martin and daughters moved to Paris, where they have since remained.

Of a quiet and reserved disposition, the deceased held the respect and esteem of all who knew him. He was a Conservative in politics and in religion a member of the Anglican church. For the past four years he had been alluring, and gradually slipped away, his death being very peaceful. Due to his advanced age, two daughters are left, Miss Berjice and Miss Hattie to mourn his loss, and to whom the sympathy of the community will be extended. The funeral was held this afternoon to the Paris cemetery, Rev. R. J. Seton-Adamson conducting services.

Mrs. A. James, Willow St., received Friday night what her husband, Driver A. James, of the Canadian Artillery, had been wounded by a snail shot through the right eye. He went overseas with the first contingent and has been over two years at the front.

On Friday morning word came that Pte. John Latrimouille, of the 125th battalion was among those wounded. To-day being civic holiday, Paris has kept to its agreement with the Great War Veteran's Association, and its citizens are accompanying the Paris veterans to their big demonstration at Galt.

On Saturday evening, around eight o'clock a freight train at the Junction, struck a partially opened switch leading to the shell works. The engine and tender were thrown off the rails over on their sides, the crew escaping with a bad shaking up and bruising. A wrecking crew had the line cleared about 10 o'clock yesterday morning.

The coat of tarvia put on the front street on Friday caused the autos to slip and slide about when they got into it before the sand was sprinkled over the next morning. Mr. A. S. Wells of Princeton, struck the tarvia just off Smith's Creek bridge, the auto skidding for about 100 yards, finally bringing up against a telephone pole, the Dominion Express office. The front guard of the auto was badly bent and one of the hind wheels broken to pieces. It is said he will apply for damages.

One young girl slipped and finally very gracefully down in the centre of the road in about an inch of tarvia. A lad and an aged gentleman to a header from the bicycles and mopped up a generous quantity of the vile smelling liquid on their clothes.

Chief Rutherford seems to be handling the automobile question in town very effectively. The rear and front lights of the autos are now seen brightly burning at night, while the speed fiends are almost checked. Another good idea he has introduced is the parking of automobiles along the streets. When standing each auto has the front right wheel close against the curb, while the rear of the machines are at an angle of about 30 degrees from the walk.

This position allows of autos to be backed out without any trouble. Sufficient room has also to be left between each auto to allow of passengers to get in and out of their machine. Before this move, autos on Saturday evenings especially, were standing in double rows down the street.

Rev. W. C. C. Morrow, B.A., of Braochbridge, conducted the services in the Baptist Church yesterday during the absence of the pastor. Mr. Morrow is a former Paris boy and his many friends heard him with much interest.

Rev. Mr. Langton, Mrs. Langton and family are visiting at Owen Sound and Chesley. Miss Mabel Drummond is holidaying at Fort Dover. Mrs. John Cavan and son, of Detroit are renewing old acquaintances in town.

Mrs. J. Goulds and Master Graham of Regina, are the guests of Mrs. S. Graham. Miss M. Bain of Hamilton, is visiting with friends in town. Mr. and Mrs. Edward Aver and

INDIAN SOLDIER IS LAID TO REST

Remarkable Funeral Service At the Front in France

(By Stewart Lyon, Special Correspondent of the Canadian Press) Canadian Army Headquarters, Aug. 11.—One of the most remarkable burial services ever held on a European battlefield is described by the chaplain of a western Ontario battalion. It was that of an Indian killed by a bomb. Sixty Indians, commanded by an Indian lieutenant, attended the funeral. They represented the Mohawks, Oneidas, Onondagas, Cayugas, Mississaugas, Delaware, Iroquois and Blackfoots. The dead soldier was a Presbyterian and the service was conducted according to the rites of that Church.

George Smith said his worship Mayor Bowby this morning was a faithful servant of the city for over a quarter of a century as janitor of the city hall; he had a kindly word and a generous disposition extended to all with whom he came into contact.

BATTLE OF FLANDERS RENEWED WITH ENERGY

Entire Prussian Supply Line Menaced By Advance Of The British Forces, Which Are Now Pushing On Toward Roulers

By R. T. Small
 Staff Correspondent of the Associated Press
 British Front in France and Belgium, August 12.—The Germans during Friday night delivered six determined counter-attacks against the important Westhoek Ridge position, which the British captured yesterday, but in each case the enemy was hurled back.
 The last enemy attempt was made at 10 o'clock at night, and having failed in this, the Teutons turned an intense artillery fire against the left part of the sector above Westhoek village. The bombardment continued steadily throughout the night.
 This morning found the British holding all the newly acquired positions strongly. The British occupation of this high ground in the early morning yesterday was followed by a heavy bombardment from the German guns which lasted hours. The enemy launched five successive lines of infantry in quick succession against the centre of the sector near Westhoek village and also counter-attacked on the left wing above Westhoek.

As the assaulting troops swept forward toward the dominating position held by the British they were met by a withering machine gun and rifle fire which they found it impossible to face.
 The German losses undoubtedly were severe, but further attempts to retake the ridge are expected.
Regained Part of Wood
 Hand-to-hand fighting of the most furious nature, in which bayonets and clubbed rifles were utilized, developed in the Glencorse wood yesterday as a result of German counter-attacks by which the enemy re-took the southeastern portion of this elevation. Glencorse wood was the southern extremity of the line taken by the British in Friday's offensive, and owing to the fact that it overlooked the surrounding country the Germans determined to regain it at any cost.
 Yesterday's counter-attack was most determined. The Germans preceded their infantry advance by an intense bombardment from guns of all calibres and then sent troops forward under a heavy barrage. The German advance was stopped by the British artillery, and as they approached the wood were mowed down in large numbers by machine-gun fire. But the expenditure of life did not enter into the German calculations. They were willing to pay

the price for this important position and the infantry were hurled forward through a rain of shells until the wood itself was reached.
 Two British battalions, the Queen's Royal West Surrey and the Bedfordshire, made a valiant stand against the numerically superior forces of the enemy, but were forced gradually to withdraw, battling every inch of the way with their bayonets and their rifles used as clubs. In the north-western portion of the wood, however, they made such determined stand that the enemy was unable to continue his advance, and the British retained possession of it. The German losses were exceedingly heavy, being greatly in excess of the British casualties.
Where the Line Extends
 The Westhoek ridge position which the British took on Friday morning has been held against numerous German counter-attacks, and the line now extends along the forward crest of the ridge with its left end at the Ypres-Roulers railway and its right end merging into the Glencorse wood. German prisoners say that they were taken by surprise in Friday's offensive, and that the British were upon them before they were aware that an attack was impending.
 The fighting along the ridge and in the Glencorse wood on Friday was most bitter and sanguinary, with machine guns and the Queen's and Bedfordshire's machine guns firing, and then the position was captured by the attackers, the Germans being forced out.
 Glencorse wood also was filled with fighting, and the Queen's and Bedfordshire's, who finally captured it, had to fight their way through a veritable hail of death.
Retakes Lost Ground
 Paris, Aug. 13.—French troops last night resumed their counter-attacks against the positions which the Germans had captured on the night of Aug. 9-10 north of St. Quentin. The French official statement issued yesterday said the ground previously lost was reconquered in its entirety.
 "South of Alilles, in the Alsne region, the French captured the German trenches captured earlier in the day. The French were repulsed with heavy losses. There were no infantry actions on the French front in Belgium."

ment between the International Union and the closed shop division of the United Typographic and Printing Clubs of America, effective Aug. 4th, 1917, to Dec. 31st, 1926." Arbitration contracts, he said, have been issued to 19 newspaper publishers under the new international agreement with the American Newspaper Publishers' Association, effective May 1, 1917, to May 1, 1922. The total payments to 150 old age pensioners for the fiscal year were given as \$351,505. Mortuary benefits totalled \$298,476. The Union Printers' Home in this city cost \$122,146 to maintain, and its capacity was increased, accommodations being provided for 250 residents. The twenty-fifth anniversary of the home is to be celebrated Wednesday.
 Opposition to a constitutional amendment proposed by Chicago Typographical Union, No. 16, which promises to cause sharp debate in the convention was expressed by Mr. Scott. He said it was "conceded in malice" and "intended to reflect discredit" on the officers of the international body. It would limit the powers of the general officers and subordinate unions in making contracts and compel a referendum on agreements with national associations of employers.
 The addresses also indicated that relations of the union with the American Federation of Labor were not altogether happy because, he declared, the "obligations which the officers and subordinate organizations of the A. F. of L. owe to this International Union have been disregarded in many instances." He added:
 "The laws of the American Federation have been grossly violated repeatedly, and there is no assurance that any official attempt will be made to prevent a repetition of these illegal acts. Unless we are prepared to accept the consequences of these illegal acts, we must repudiate them promptly and without reservation."
 The laws of the American Federation have been grossly violated repeatedly, and there is no assurance that any official attempt will be made to prevent a repetition of these illegal acts. PRINTERS PLAY BIG PART IN WAR

Forty Two Members Of International Typographical Union Killed in War

OVER 1000 IN SERVICE

Review of Year at 63rd Annual Convention of the Union

Colorado Springs, Aug. 13.—A prosperous organization with its "house in order" and ready to expand the work it already has started in connection with the war activities of its members, was pictured by Marsden G. Scott of New York, president of the International Typographical Union, in the address with which he opened here to-day the sixty-third annual convention of the organization. He said that nearly 600 members of the union had enlisted with the Canadian forces, that more than 400 already are in the army or navy of the United States and that "thousands of others will follow the Stars and Stripes in the world's war."
 Forty-two Canadian members of the organization have been killed in France and \$12,225 has been paid to their widows or dependents, Mr. Scott added. He announced that "two representative organizations of employers in the printing industry—the American Newspaper Publishers' Association and the United Typographic and Franklin Clubs of America—have recommended that all journeymen and apprentices be reinstated in their positions when they return from the war."
 President Scott said that through its executive council the International union had subscribed for \$50,000 of the Liberty Loan bonds and that subscriptions for an additional \$57,000 had been reported by subordinate unions.
 He emphasized the fact that of \$6,652,431 earned by members of the union in the fiscal year ending May 31, only \$4,884 had been expended by the International Union because of strikes or lockouts. He said the gross earnings of union printers had increased \$3,940,825 in that period, the average earnings a member being \$1,086.43, an increase of \$45.25 as compared with the preceding twelve months.
 President Scott also announced the completion of an arbitration agree-

 brought back from the front for intensive training of from ten to twenty days, so that they may return to the front and instruct their respective units. In this way the British argue that men never become "stale" and are ever fit and ready for an emergency. The message the British would impart to their American allies was summarized as follows:
 "Train your young men to be physically and mentally strong; train them to think for themselves—make them supermen in the modern sense—and the world will be made safe for democracy."

QUESTION OF TIME
 By Courier Leased Wire.
 Tacoma, Wash., Aug. 13.—Judge E. H. Gary, head of the United States Steel Corporation, sees "no signs of an early peace."
 In speaking of the war situation, Judge Gary said to-day:
 "I don't believe there are any signs of an early peace from information I am able to get."
 "Two years ago there could have been a settlement on a pretty fair basis—one which would have secured the integrity of all the countries, and with practically the same geographical lines which existed when the war commenced, and what is more important the establishment of a basis for the prevention of future wars. I have seen some information which leads me to that conclusion."
 "In any event, it is only a question of time when the allies must be successful."

FIREMAN NEVER MISSES A ROW

St. Thomas Man Often Had To Lay Off From Work On Account of Condition

"Before I began taking this Tanlac I was constantly losing time from my work, but now I'm on the job every day," said Henry A. Osborn, 32 Maple street, St. Thomas a few days ago. Mr. Osborn has been laid off from the past ten years or more. He is now firing on the Michigan Central from Windsor to Buffalo, which has been his run for the past three and a half years.
 "For several years," he continued, "I have suffered from stomach and liver trouble. I always had a fairly good appetite, but my food just seemed to stay in my stomach and form a knot that felt as heavy as lead. Gas would form soon after my meals and keep me miserable for hours. I would swell up terribly, my heart would flutter, and I would often get in such a bad fix I would have to call for help. I had awful pains in my left side, and several times I was unable to get out of my run. I was under four different times and tried a number of different kinds of medicines, but nothing helped me except just to watch me a little, and things had begun to look gloomy for me.
 "But Tanlac is changing things right about, and while I have taken only a little more than one bottle so far, my relief has been nothing short of wonderful. I hardly feel the pains in my side any more, and the lumpy condition has left my stomach entirely flat. Gas has stopped forming on my stomach, and my food digests like it should. I'm not troubled with palpitation of the heart. My food seems to nourish me like it used to, and I feel as if I simply feel stronger and better in every way. Tanlac certainly is great. I haven't missed a run since I began taking it, and it's a pleasure to recommend it especially to people suffering like I did."
 Tanlac is sold in Brantford by Milton H. Robertson Co. Ltd. in Ottawa, by M. H. Cooke & Co. in Elmira, by G. R. McQuire, in LeRoy by G. R. Ardill, in Stayner by N. B. West.

REMAND FOR MRS. DE SAULLES
 By Courier Leased Wire.
 Minola, N.Y., Aug. 13.—Mrs. Blanche De Saullies, in the county jail here, charged with the murder of her divorced husband, John Longe-De Saullies, when he declined to permit their five-year-old son to return to her, will be placed on trial for at least two months, according to District Attorney Charles R. Weeks. Mr. Weeks said to-day that the case would have to wait 150 days and that he did not plan to ask that it be advanced on the docket. There are two other murder cases on the docket to be tried ahead of Mrs. De Saullies which, it is said, would mean that her's would not come up before the October term of court.

W. K. KELLOGG IS SUCCESSFUL
 According to the report of the Battle-Creek Enquirer, a judgement of considerable interest to the Canadian public and particularly the Canadian grocers, has just been given out in the Circuit Court of Michigan.
 The Kellogg Toasted Corn Flakes Co. of Battle-Creek, Mich., have been sustained by the court in their sole right to use the name "Kellogg" in connection with cereal foods.
 The court further decided that as the Kellogg Toasted Corn Flakes Co. of Battle-Creek, had, by their extensive national advertising, made the name Kellogg in connection with cereal foods, particularly corn flakes, famous throughout the world, that neither Dr. J. H. Kellogg nor any subsidiary company acting under his name, could use or give permission to others to use the name "Kellogg."
 When Mr. W. S. Ware, the manager of the W. K. Kellogg Cereal Co., who are the selling agents in Canada for the Kellogg Toasted Corn Flakes Co., was asked whether the Toronto company would take advantage of this decision and change the name of their corn flakes, which are legal under the name of "Dominion" to "Kellogg," he said he did not know. For the present at least, the name "Dominion" will be continued.

GREAT BATTLE BEING FOUGHT IN ROUMANIA
 Russians Record Notable Successes At Two Points Along the Front
 TAKE 1200 CAPTIVES
 Forced, However, To Effect a Retirement in Western Moldavia

London, Aug. 12.—Desperate engagements are being fought by the Russo-Romanian forces and Austro-German armies all along the Rumanian front. In the centre of this front according to to-day's Russian official statement the Russians and Rumanians yesterday repulsed strong Teuton attacks along the Pokshani-Maraschti railroad, and then counter-attacked and captured 1,200 Germans, only to retire later in the evening. In South-Eastern Moldavia the Rumanians took the offensive, smashed the Teuton lines and captured a number of prisoners and four guns. In Western Moldavia the Austro-Germans, after battles of great intensity, forced the Rumanians to retire to Genoa.
Claim 6,700 Prisoners.
 According to the German report Field Marshal von Mackensen's forces in the fighting in Central Rumania yesterday took more than 6,700 Russian and Rumanian prisoners and captured eighteen cannon and sixty-one machine guns. The German general staff reports that the Austro-Germans did not lose a foot of ground.
 An example of what seems to be the improved morale of the Russians on the Galician front is furnished by Petrograd's report on the Teutonic attack at Brody north-east of Lemberg, which obviously had been in preparation for several days. The assault was launched on Thursday, resulting in heavy fighting as the dense waves of Teutons swept forward but ended in what the Russian official statement characterizes as a complete failure. The Russian forces still hold here a strip of Galician soil.
Fighting in Rumania.
 The Teutonic attack on the portion of Rumania still remaining in En-

Sugar Beet Cultivation In Alberta

Acres of Sugar Beets.

It is perhaps not generally known that the sugar beet is one of the best growing crops in Western Canada. Not only does this crop grow well, but there is no doubt that the necessary labor and capital are available in the most successful industries in Canada can be built upon the cultivation of beets for sugar.
 In Southern Alberta alone the area suitable to the growing of the best kind of sugar beets is greater in extent than any two of the largest producing districts in the United States. That more has not been heard of the possibilities of this crop in Alberta is undoubtedly due to the success of the farmer in grain growing and stock raising. But, just as a higher quality of grain, with larger yields, is produced in Western Canada than in the older districts, so sugar beets grown here generally contain a higher percentage of sugar and yield a greater tonnage to the acre than those grown elsewhere. Tests made with beets grown under irrigation from five different kinds of seed at the Dominion Government Experimental Station at Lethbridge showed a yield of 173, 154, 154 and 94 tons per acre, with sugar percentages of 15.84, 19.42, 17.85 and 16.25 respectively. In the same district crops without irrigation yielded 94 to 124 tons per acre from the same seed. Even better results have been obtained from beets grown under irrigation in the Eastern and Western Sections of the Dominion. The Canadian Pacific Railway, east of Calgary, Alberta. Beets with a sugar content of twenty percent have been grown here in successive years and growers there are confident that this high percentage can be maintained with large crops. It is safe to say that practically any soil capable of producing such grain as is produced in Western Canada will produce satisfactory sugar beets, even though the results may not be so gratifying as those achieved with irrigation.
 More than twelve years ago the possibilities of sugar beet production in Alberta have been recognized, and in giving evidence before a commit-

DOMINION STEEL EASY PICKING FOR THE CORDAGE SATURDAY

But for Summerhayes' Wild Heave, O'Connor Would Have Had Shutout Against League Leaders; Rejuvenated Cubs Beat Motor Trucks

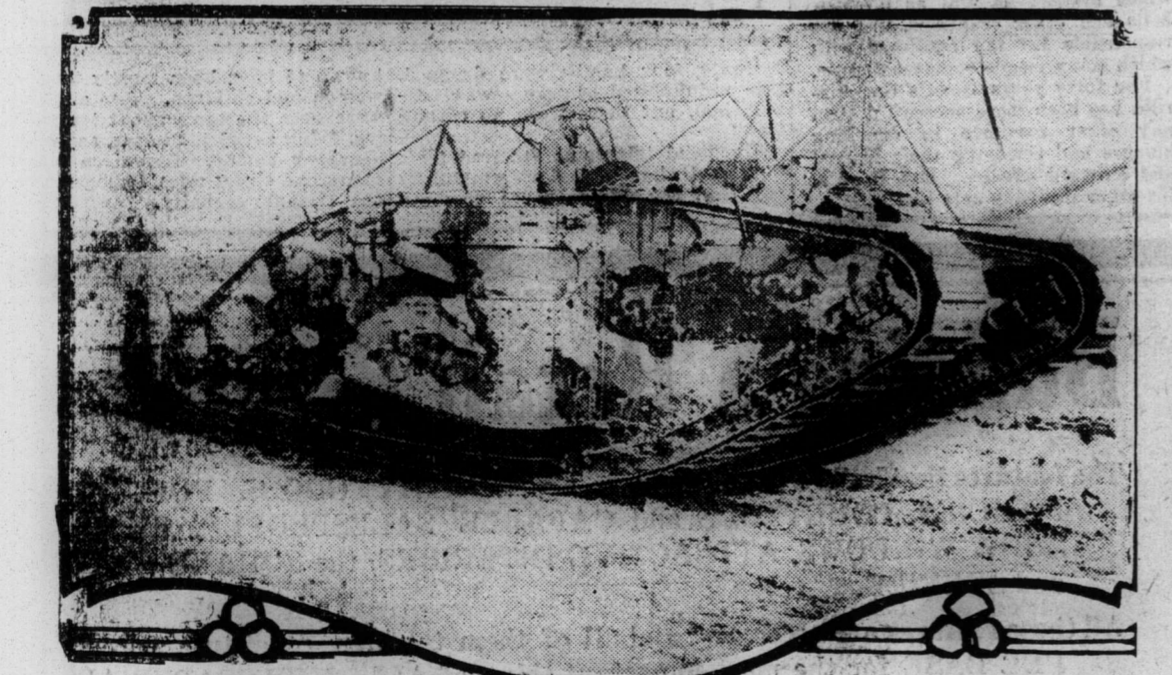

The Steel Products got the surprise of their lives on Saturday afternoon, when in the first game of the city league they bumped up against a life-sized snag in the form of one "Harry" O'Connor and eight other stalwarts, hailing from the Cordage Co., who with malice aforethought proceeded to lay in ruins the lofty aspirations of the munition men toward victory.

While O'Connor was holding the league champions to a brace or safe hits in seven innings, his comrades fell upon Summerhayes, renowned southpaw twirler of the Dominion Steel, and in four innings drove the Sarnia slinger to cover. The result of the fracas was a 6 to 1 victory for the Cordage team. The Cordage took an early lead, netting a brace of tallies in the first inning. Hayes, the first man to bat, walked and Rector manhandled an easy grounder of Bradley's, giving him a life at first. Hayes crossed the plate on Lee's infield grounder, and Bradley followed suit when E. Sears perished at first. The Dominion Steel also tallied in the first inning for their only run of the game. McKinnon walking and proceeding homeward when Summerhayes heaved the pill into deep center field, an attempt to catch the runner stealing second.

The Cordage added two more in the second. Summerhayes, Hayes and Bradley singled cleanly. With two men out, E. Sears rolled a grounder toward first base, and McIntyre, taking the ball, held it and surveyed the pan. Two more were annexed in the fourth, consecutive singles by Bradley, Lee, E. Sears and F. Sears driving Allen from the box. Summerhayes, who finished, held the Cordage comparatively harmless, but O'Connor pitched airtight practically throughout the entire game. He had no less than nine assists, while Lee, at first base, was accountable for no less than fifteen of the twenty-one outs of the game. The scores—

"WE WANT KNOWLES" SAY 320 MAIMED CANADIAN SOLDIERS

Cricket

On Saturday last a good game of Cricket was played on the O. I. B. grounds between Brantford and Hamilton. Although Brantford were short six of their regular players and had to make up their team with men who volunteered of the ground, they nevertheless made a very creditable showing.

Unusual scenes took place outside the offices of the Military Hospitals Commission, Toronto, when 320 battle-scarred veterans demanded reasons for the dismissal of Major W. Knowles, O. C. of Davisville Convalescent Hospital by Lieut. Col. R. S. Wilson and also his reinstatement.

LEAFS LEADING INTERNATIONAL

Toronto Steps Into First Place at Expense of Newark

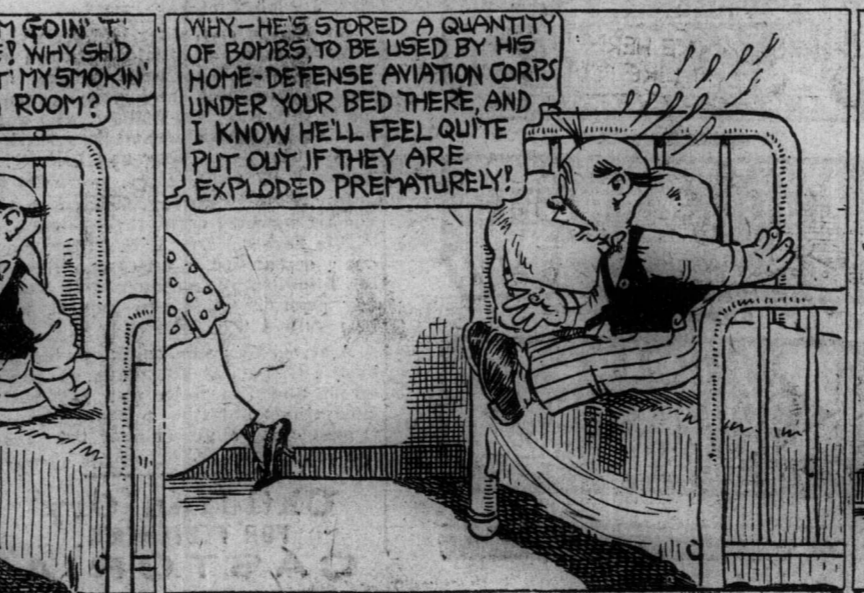

TOOK ENTIRE SERIES

Bears Drop From First To Fourth Place As a Result

Newark, N. J. Aug. 12.—Toronto beat Newark once on Saturday and twice today. Lajoie's larruping Leafs, the hardest-hitting combination in the Barrow circuit, now lead the league. The score on Saturday was 7 to 1, while today the double killing was accomplished in games which resulted in scores of 7 to 2 and 5 to 3.

The Toronto crowd are setting the fiercest pace yet shown in the International League. They beat Providence in the entire series, and allowed the Bears to regain the lead. Then they came here and skinned out the whole series, pulling the Bears back into fourth place and going into the lead themselves. Any team that beats the two leading teams in its league in succession without losing a game in either series may be said to be going some.

LIQUOR ADVERTISING IS BARRED IN ONTARIO

Province Can Now be Made Almost Bone Dry; Important Changes to Doherty Act in the New Temperance Bill

Ottawa, Aug. 12.—Ontario and other prohibition provinces get the right, through their Legislatures, to put the ban upon liquor advertising. The mails are denied to circulars and letters soliciting orders for liquors. The publication of liquor advertisements within these provinces may be made a punishable offence; moreover—which is the most radical provision—any prohibition province may prohibit the entrance of any newspaper, published outside its territory which contains liquor advertising.

The new "temperance bill" making these provisions went through committee and received its third reading in the House on Saturday. It contains a number of important changes to the "Doherty act" of last session. "Does this mean that The Montreal Gazette, The Montreal Star, Le Devoir, and other Montreal papers will be prohibited from circulating in the Province of Ontario?" asked Hon. Rodolphe Lemieux.

"Yes," replied Hon. C. J. Doherty, Minister of Justice. "If they contain liquor advertisements and the Province takes action."

"I think it is a drastic section if it is lived up to," declared Mr. Lemieux. "If Ontario is sincere it will have to prohibit The Star, The Gazette, La Patrie, Le Canada, in fact every daily paper in Montreal, because the only Montreal paper that does not publish liquor advertisements is The Montreal Weekly Witness, which lives up to its profession. That means that the press of Montreal will be suppressed by the Government of Ontario."

Merely Suppresses Advertisements
"No," exclaimed Mr. R. B. Bennett (Calgary), "the advertisements will be suppressed, not the papers. Mr. Lemieux retorted that he would be much surprised if the Ontario government notified the Montreal papers that they must not be circulated in Ontario unless the liquor advertisements were suppressed."

Mr. Bennett said it was done in the United States.

Hon. Charles Marcell wanted to know if the proposals met the approval of the temperance people.

Mr. J. E. Armstrong (East Lambton) maintained that it gave the Provincial Governments the power to secure complete prohibition. All the provinces now had to do was to make it an offence for a citizen to have liquor in his possession at all, and the operation of the Dominion act would make it an offence to ship liquor into the Province while where a Province made it an offence to publish liquor advertisements the operation of the Dominion act would prevent such advertisements entering the Province.

The bill goes to the Senate on Tuesday.

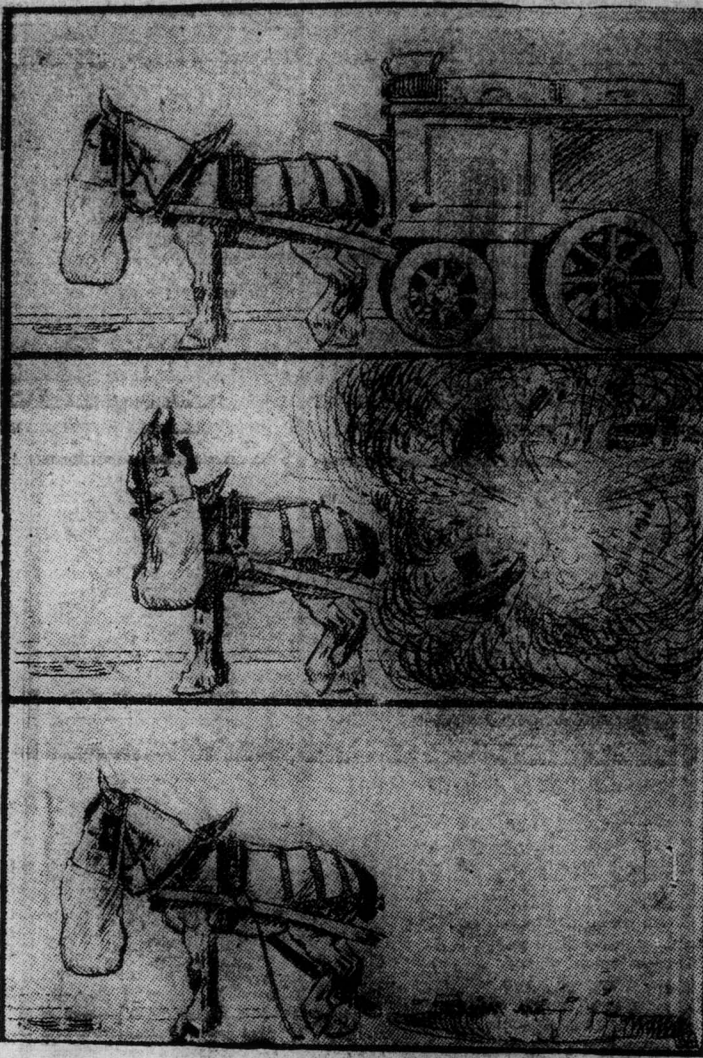

HARVESTERS LOOK

36,000 farm laborers are wanted in the provinces of Manitoba, Saskatchewan and Alberta, for the harvesting of the crop.

The Canadian Northern Railway will operate the first excursion train for the west, leaving Toronto Union Depot at 10 p.m. August 23rd and 30th, and running through solid to Winnipeg.

The equipment will consist of electric lighted colonist cars, lunch

AN INCIDENT OF THE AIR RAID

London Byastader.

cars, and in addition the railway will continue their last year's innovation of keeping a special car for the families, and of placing it in the train where the occupants will be separated from the other passengers. The territory served by the Canadian Northern lines offers the

widest choice of employment with high wages, but regardless of where you locate, remember we give you the best service to Winnipeg, where you will re-purchase to final destination, no matter on what line it may be.

For leaflet showing special train service, with dates, number of men required at various points and other information, apply to John A. Dowling & Son, Town Agent, or General Passenger Department, Canadian Northern Railway, Toronto.

FIVE WERE KILLED
When Auto Was Struck By Train at Bowmanville

Toronto Woman and Four Oshawa Men The Victims

London, Aug. 12.—Twenty-three persons, including nine women and six children, were killed, and 50 persons were injured at Southend, in Essex, 40 miles east of London, by bombs dropped by about 20 German raiders to-day, says an official statement issued to-night. Considerable damage to property was caused at Southend by nearly 40 bombs dropped on the town. Two men were injured at Rochford, but four bombs dropped on Margate, in Kent, did little damage. The latest statement follows:

"Enemy raiders caused considerable damage at Southend, where they dropped about 40 bombs. The casualties thus far reported are: 'Killed'—eight men, nine women, six children. About 50 people were injured.

"At Rochford two men were injured, but no damage is reported. At

TWENTY THREE KILLED IN RAID OVER ENGLAND

Enemy Airmen Bombed Southend and Other Coast Towns

Bowmanville, August 13.—An automobile accident here resulted in the death of a Toronto woman and four Oshawa men yesterday afternoon, and the miraculous escape of Frank Walker, the husband of the dead woman. An Oshawa party of four employees of the Williams' plant, and were driven by Herman Fletcher, the owner of the car. They had visited the summer resort of Bowmanville-on-the-Lake, and were returning by the wheel road when they overtook Mr. and Mrs. Frank Walker, of Toronto, walking to the C.P.R. station to take the westbound train for Toronto. Fletcher asked them if they would have a ride and they accepted. The car arrived in a few moments at the G.T.R. crossing, which was blocked by a freight train standing on a siding, to allow the Montreal flyer, No. 1 International Limited, to pass. At Fletcher's request the train was parted to permit the car to proceed. No sooner had the car reached the track than the flyer came thundering along at a speed of fifty-five miles and caught the car under the front seat, throwing it in a crushed mass on the cowcatcher and causing the instant death of five of the occupants.

The dead are:

Mrs. Florence Hingley, wife of Mr. Frank Walker, employed with Dr. Hodgson, veterinary surgeon, 28 Duchess street, Toronto, aged 33 years, no family.

James Normoyle, aged 38, varnisher.

James Connally, aged 30, varnisher.

William Johnston, aged 25, single, varnisher.

Herman Fletcher, Oshawa, married, aged 27 years, son of Mr. and Mrs. Joseph Fletcher.

Mr. and Mrs. Walker had been visiting Mr. and Mrs. Waldie Statton of Toronto, who occupies a cottage at Fort Bowmanville and were returning to the city. Mr. Walker, who was not fatally injured, was taken to Dr. R. W. Clark's surgery and later to Toronto, by auto.

Rev. Father Murray, Oshawa, held a short service for the three members of his parish. Dr. A. S. Tilley, coroner, empaneled a jury, who viewed the remains, and adjourned to Tuesday evening when the inquest will be resumed.

A street fair was being carried on by the Girl's Patriotic Club on King street and the town was gay with decorations but the terrible catastrophe cast a gloom over the festivities.

Music and Drama

FILMLETS

Geraldine Farrar went over to Fort Lee recently to watch her husband play an important scene. She very seldom does that, but in this particular case the actor was toying with a huge Siberian wolf, as an incident to the filming of the action. It is not clearly stated, however, whether Miss Farrar went to cheer Lou Tellegen or the wolf.

Hank Mann says it's dangerous for him to eat pie with his meals—he always has an irresistible desire to sling it at someone.

Ruth Lackaye says that the feminine sex is not one bit less capable than the male, and that you find competent and incompetent men among both sexes. 'Ray for Ruth!

"Madame Butterfly" is the name of Kathleen Clifford's Japanese sleeve dog, but she calls it "Lili" for short. Lili has about the pay roll for "three bones," though Miss Clifford says the dog is too delicate for such coarse food.

Here's Silas E. Snyder's opinion of New York: "Ice and other kinds of skating. Much nut chatter. Stale air, stale tobacco, stale jokes, stale folks. Tons of rouge. Miles of hostility. Graft. Greed." Well, anyway, according to Silas, we're pretty bad, we New Yorkers.

Chester Conklin is "raising beans for the navy." Chester has a bean field into which he has put all his money, and he is paying him so well that it seems to be making him a rich man. Chester says the boys can make fun of him all they want to, just as long as the profits from the beans go into his own bank.

The Bell Telephone Co. of Canada

Margate four bombs were dropped. One uninhabited house was demolished, but there were no casualties.

Unofficial telegrams received from Southend shortly before midnight say that the deaths there now are known to have been mostly those of women and children. Two airplanes were over the town about ten minutes, firing aerial torpedoes, as well as dropping bombs. Seventeen houses along one street were damaged without a single casualty.

Wrigley's

"The Flavour Lasts"

We might advertise WRIGLEY'S as the "dentifrice-without-a-brush."

For it cleanses the teeth and gums—it pleasantly sweetens the mouth—it FIGHTS ACIDITY.

It brings a wholesome freshness to the palate that makes the whole day lighter and brighter.

Needless to caution you to get WRIGLEY'S, the filtered, the clean, gum.

For millions have made it their positive choice, having tried others.

So, if you forgot your toothbrush this morning, why, Wrigley a bit!

Chew it after every meal

GET RID OF HUMORS AND AVOID SICKNESS

Humors in the blood cause internal derangements that affect the whole system, as well as pimples, boils and other eruptions, and are responsible for the redness with which many people contract disease.

For forty years Hood's Sarsaparilla has been more successful than any other medicine in expelling humors and removing their inward and outward effects. Get Hood's. No other medicine acts like it.

Building a Retail Business

The features that build a retail business are WORTHY GOODS POPULAR POLICIES, COURTEOUS and CAPABLE SALESPeOPLE, SMART SHOW WINDOWS, ATTRACTIVE INTERIORS, the SQUARE DEAL, and SERVICE.

All these features are necessary, and all of them together constitute a PROPER BASE for the most important thing of ALL—NEWSPAPER ADVERTISING.

You see establishments in every town that a few years ago were small, but which have grown BIG and PROMINENT—in every town, too, you see the slow-moving conservative kind.

They were small when you first knew them, but they are relatively smaller now. They continue to plod along in the ways of the PAST, losing a little MORE trade each year to the MODERN fellow whose shop looms bright and alluring just across the way.

WHY IS it that the old-fashioned places are DWINDLING and flickering out one by one like spent candles? And why is it that right alongside of them are OTHER places which are FLOURISHING and PUSHING AHEAD with EVER-LENGTHENING stride? Do you WISH TO KNOW the answer? It is ADVERTISING.

Manage a business in a way that will make that business WORTH talking about in the daily newspapers—then apply your PRINTER'S INK! The rewards of TRADE go to those that KEEP UP WITH THE AGE!

SEEMS EVERYONE IS ANXIOUS TO TRY IT

Recent Discovery of Ether Compound That Dries Up Corns so They Lift Out. Good news, spreads rapidly and dries up corns, the recent discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the finger. A quarter of an ounce costs very little at any pharmacy, but is said to be sufficient to rid one's feet of every hard or soft corn or callus. You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining skin. The discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.
