TWENTY-FOURTH ANNUAL MEETING OF PRESBYTERIAL

The twenty-fourth annual meeting of the Miramichi Presbyterial convened in Roxton July 7th and 8th. Public meetings were held both evenings with the Rev. Geo. S. Gardner in the chair. On Wednesday evening addresses were given by the Rev. W. B. Williston of the China Inland Mission and Mrs. L. H. MacLean, Newcastle. The Rev. W. B. Williston who has only recently returned from China for a year's furlough, gave a wonderful message and with his native powers of oratory, everyone was gripped with the reality of his work.

In his eleven years mission in China he has been instrumental in bringing 10,000 heathens to Christ. His method of evangelization is patterned on the plan of the Apostle Paul, he first brings his people to the cross of Christ and when they have accepted Him and are truly Christians, he then tries to educate them. It would be well if every town in Canada could be privileged to hear Mr. Williston's message.

Mrs. L. H. MacLean, after paying tribute to the work done by Mrs. Rattee, who was President of the Miramichi Presbyterial and resigned on her removal to another field regretted very much her absence, also the absence of Mrs. Jobb, addressed the Presbyterial on the Oneness of the World, the conditions that now beset all people, stating the general superset and the wave of vice, crime and materialism that is sweeping onward, called on all women to throw off apathy, indifference and selfishness of the spirit, realize the majesty and glory of being good churchmen as the church was the only instrument to supply the gospel needs and without the power of the Gospel of Jesus Christ there could be no reconstruction, no world unity. Mrs. MacLean lamented the shortage of workers in the foreign fields, advised the Christian ideal of home consolidation as a means of readjustment, comparing Mr. W. B. Williston's parish in China of three million souls with only one to preach the Gospel and the town of Newcastle with a population of three thousand and five men detailed to do the same work. "What a travesty on the propagation of the Gospel with such conditions in a world for all of which Christ died, the demand is, to arise from our sleep and see a world vision as distinguished from narrow views.

Mrs. MacLean closed her address with an impassioned appeal for deeper consecration to service. The business sessions were held on the morning and afternoon of July 8th with Mrs. L. H. MacLean, acting President in the chair, who opened the morning session with a devotional memorial service of thanksgiving for the late Rev. James R. Menzies who suffered martyrdom in China several months ago. Resolution of Sympathy was adopted and Secretary asked to convey same to Mrs. Menzies.

The Acting President made a strong appeal for the extension of Young People's Work laying special emphasis that the work could not be complete until every Women's Missionary Auxiliary had a Young Peoples Branch and Mission Band allied, and urged co-operation in the splendid opportunities offered at Wolfville in order to promote missionary enthusiasm and zeal.

It was decided that five young women be sent and expenses paid. The reports of various committees were received and adopted. The Treasurers reported: Peace Offering \$352.35 Regular Budget 4752.37 making a total giving of \$5104.72. At the Public meeting held on evening July 8th addresses were made by the Rev. Thomas Harrison of Black River and Mr. H. Y. Cho of Halifax.

Mr. Harrison gave an address on War and Missions. He has only recently returned from abroad having served during the entire war as well as serving in previous British engagements in Africa etc. He is a splendid speaker, having the fire and enthusiasm peculiar to the Irish Orator and while his subject was a large one, he proved equal to the task.

ECZEMA

You are not the only one who has suffered from Eczema. It is a common skin disease and can be cured. Dr. J. D. McMILLAN, Newcastle, N.B., is the expert in this field. Write to him for a free booklet.

Big Victory Won By Temperance Forces

Province Goes "Dry" By Majority of 21,000,
Only One County Votes Against Prohibition
and For Light Wines and Beer.

With a majority of 21,000 for the retention of the Provincial Prohibition Act and a majority of approximately 15,000 against the sale of light wines and beer, the Province of New Brunswick gave emphatic expression on Saturday to its position regarding the great question of prohibition, at the plebiscite held throughout the province.

The counties of Charlotte, Albert, Westmorland, Kings, Queens, York, Carleton, St. John and St. John City returned handsome majorities for prohibition and against the sale of light wines and beer. The four counties, Restigouche, Madawaska, Gloucester and Kent which were thought would go wet upset all calculations and each one with the exception of Madawaska returned a verdict for prohibition and against wines and beer, while Kent was the only county which gave a majority for Beer and Wine.

These were the counties feared by the prohibitionists and the ones expected to damage their cause. Workers for the cause of prohibition feel that the question has been settled for all time in this province and that it is now up to the government to see that a rigid enforcement of the law is carried out.

The women of New Brunswick were most active in the campaign and at the polls. They were enthusiastic in support of the present law and against wines and beer. They were at all polling booths and worked diligently for the success of their cause.

The Prohibition Referendum in Newcastle on Saturday brought out a large poll. Women who exercised their franchise in a provincial election for the first time began to vote as soon as the polls opened at 8 o'clock a. m. The Prohibition forces were well organized and did good work throughout the day. The vote recorded against Prohibition was the so-called "silent vote." During Polling hours everything was quiet and good nature was displayed by all participants. The soldiers' vote in Newcastle was large but no special polls were established for them, as each presented himself at the poll

at which his name would be recorded ordinarily. All the polling booths were held at the County Court House, and it was necessary to have five booths, on account of the increased registration of the female names. The Polls opened at 8 a. m. and closed at 4 p. m. and the result of the Newcastle polls was known shortly after five o'clock. The following is a summary of the vote cast in Northumberland County.

Mr. Cho who is a Korean student in the College at Halifax gave a most logical address after a resume of the Korean, historically, physically, mentally, appealed to Canadians to take advantage of the opportunity that was now theirs, lest materialism grip the Orient first and the opportunity be lost. They would then have the teeming millions of China, Japan and Korea with the civilization and education of the Occident but without the power of the Gospel of Jesus Christ.

Mrs. G. Murray of St. John conveyed the greeting of St. John Presbyterial. Mrs. Fraser of Chatham conveyed invitation from St. John's Church, Chatham to Miramichi Presbyterial to convene in Chatham in 1921. Invitation was accepted.

The following are the officers for the ensuing year: President—Mrs. L. H. MacLean, Newcastle. 1st Vice-President—Mrs. H. Miller, Campbellton. 2nd Vice-President—Mrs. A. Cameron, St. John. Secretary—Mrs. G. Menzies, Newcastle. Book-keeper—Mrs. W. Anderson, Newcastle.

son, Burnt Church. Meeting adjourned to meet in Chatham for their twenty-fifth anniversary.

Arthur Meighen Succeeds Borden As Canada's Chief

Hon Arthur Meighen, who, is now Premier of Canada, enjoys the double distinction of being the youngest premier Canada has had and the first Premier from west of the Great Lakes. An Ontario man by birth, a lawyer by profession, Hon. Arthur Meighen has been a member of parliament for Portage La Prairie, Manitoba, for twelve years, and for three years a member of the government, first as Solicitor-General and later as Minister of the Interior, the position he now holds. With the announcement that Hon. Mr. Meighen is to be premier, comes the announcement that Hon. N. W. Rowell retires from the government and that Hon. Martin Burill is to succeed Martin J. Griffin as parliamentary librarian. Including Sir Robert Borden, the political change creates three cabinet vacancies in addition to those already existing. Other members of Sir Robert Borden's cabinet will, it is said, give the new premier undivided support, which means they will continue in office with him. It is assumed that Premier Meighen will lose no time in filling the cabinet vacancies. Whether he will attempt to carry on with the present House, or will seek a new mandate from the people, will probably be disclosed in announcements he will naturally make on taking the reins from Sir Robert Borden. The guess at this moment is that there is not to be an early election appeal, but rather an attempt to get the government machine into smooth running order. The new Premier early impressed Parliament with his oratorical and debating abilities. His management of very important government departments has shown that he also possesses administrative abilities of a high order. The task he is now undertaking is one of tremendous magnitude. The war coalition established by Sir Robert Borden has fallen to pieces. Only two or three of the Liberals who joined in the union now remain. The declared policy of the party evidently contemplates continuing the coalition, but the selection of Hon. Arthur Meighen as party leader points, or seems to point, in the direction of a return to the old party lines. Whatever the future brings in the way of political fortune to the new Premier and the party over which he is now assuming leadership, there must be present admission that Hon. Arthur Meighen early established his reputation as one of the leaders in Canadian public life, and that his call to the premiership is not only acceptable to the party, but follows a very decided expression of party opinion in his support. That expression of confidence gives Hon. Arthur Meighen a large measure of freedom in the course he may deem it necessary and wise to pursue in dealing with the many problems that must confront him in attempting to galvanize the government machine into a live and virile political force.

New Stumpage Rates Likely Aug. 1

FREDERICTON, July 8—A special meeting of the government will be held the latter part of this month for the purpose of fixing the new stumpage rates to go into effect on August 1st for lumber cut upon the crown lands.
Before the meeting of the government closed at noon to-day, Premier Foster made a statement to the Globe correspondent on the matter. "The stumpage question has been one of several important questions which the government have had under consideration during their meeting in Fredericton this week," said the Premier, "but because of unsettled conditions in the lumber market at the present time no decision has been reached. The government has deferred action until a few days before August 1, when it is hoped that conditions in the lumber market will have readjusted them by that time."

Don't Be Deceived Most Teas look pretty much alike in the dry leaf - but there is a vast distinction in infusion

Newspapers Hard Hit

The increased price for newsprint which went in to effect on July 1st, represents an increase in production costs for Canadian newspapers of

eight million per annum while the increased postal rates will mean a further increase of almost one million dollars. The increased price for newsprint is only applicable to the quarter beginning on July 1st.

Save the surface and you save all Paint & Varnish

How much will it cover—How long will it last?

MAKE your home attractive and give it a protection that will prevent deterioration—and do both these things economically. The man who knows paint asks the two questions above, and his search for paint of proven economy must lead him to

B-H PAINT 70% Pure White Lead (Canadian Grade) & 30% Pure Zinc Oxide 100% Pure Paint

Scientific investigation reveals a higher percentage of finely-ground white lead in B-H than in any other brand. The B-H guarantee stipulates 70% Brandram's Genuine B.B. White Lead (famous for two centuries) with 30% zinc white. Added to this is pure linseed oil and turpentine—all correctly mixed with the utmost care in a plant equipped with every modern device which ensures paint purity. These things all contribute to the B-H results, which is not only beautiful to look at when freshly applied, but also satisfactory to contemplate long after surfaces covered with ordinary paint have cracked and peeled and chipped away.

COOKIES and SMALL CAKES
From the NEW ROYAL COOK BOOK

WHEN the children romp in hungry as young bears, here are some wholesome, economical delights that will not only be received with glee, but will satisfy the most ravenous appetite in a most wholesome manner.

Cookies
½ cup shortening
1 cup sugar
½ cup milk
½ cup flour
½ teaspoon grated nutmeg
1 teaspoon vanilla extract or grated rind of 1 lemon
4 cups flour
2 teaspoons Royal Baking Powder

Cream shortening and sugar together; add milk to beaten eggs and beat again; add slowly to creamed shortening and sugar; add nutmeg and flavoring; add 3 cups flour sifted with baking powder; add enough more flour to make stiff dough. Roll out very thin on floured board; cut with cookie cutter, sprinkle with sugar, or put a raisin or a piece of English walnut in the center of each. Bake about 12 minutes in hot oven.

Cocoa Drop Cakes
4 tablespoons shortening
1 cup sugar
1 egg
½ cup milk
1½ cups flour
2 teaspoons Royal Baking Powder
½ cup cocoa
1 teaspoon salt
1 teaspoon vanilla extract

"Bake with Royal and be Sure"

You Need More Than A Laxative

To correct constipation, all organs of digestion and elimination should be helped. Try NR and see how much better you feel.

NR Today—Keeps the Doctor Away

To live and be healthy, your body mechanism must properly digest your food, extract all the nourishment from it and promptly throw off the waste that is left. This is accomplished by the processes of digestion, assimilation and elimination—the work of the stomach, liver, kidneys and bowels. The failure of any of the vital organs to do its work properly affects the action of all the others. A forced bowel movement does not help constipation; it only relieves for a few hours the condition that constipation brings about.

Now if you are used to taking so-called laxative pills, oil, prunes and the like, you know mighty well you've got to be taking them all the time. However, if you stick to any one laxative, you've got to be increasing the dose all the time. That can do you a lot of harm.

Stop dosing yourself with such things and turn to the only medicine that has been proved by a trial, and let the results show the difference. NR Tablets are not mere bowel movers, their purpose is to correct the condition that induces constipation and give you real, genuine, lasting benefit; to improve your digestion and assimilation, give you a good hearty appetite, regulate your liver and bowels, tone up kidney action and give your poison-clogged body a good cleaning out.

Nature's Remedy (NR Tablets) is not harsh; it is mild, easy, pleasant in action; no griping or pain ever follows its use; but it is thorough and sure.

By its action on the digestive organs it promotes assimilation, which means extraction of full nourishment from your food, and thereby gives you new strength, energy, better blood, better appetite. By toning, not stirring your lazy liver, NR sends bile into the intestine, improving intestinal digestion. Lastly, by gently encouraging more frequent bowels and kidney action, NR drives poisonous impurities out of and cleans up your body.

Try Nature's Remedy (NR Tablets) and just see how much better you feel in every way. Get a 5c box today and take one each night for a week. You'll say you never feel better in your life. NR is sold guaranteed and recommended by your druggist.

NR Tought Tomorrow Feel Right Get a 5c Box

Seven Dollars A Day For Harvesters

Washington, July 8—A land army of 100,000 farm hands recruited and organized by the Department of Agriculture is moving northward across the western wheat belt harvesting the United States grain crop in better time than in many years, according to reports to the Department.
A wage of \$7 for ten hour day is being paid to the harvesters.

Fire Chiefs In Session at St. Stephen

St. Stephen was honored Thursday by the presence of the chiefs of the fire departments of many of the towns of the maritime provinces, about twenty, who were welcomed by Mayor Johnson of St. Stephen; Mayor Laughlin of Milltown; Councillor Polley, J. H. Flewelling on behalf of the board of trade; James Vroom, town clerk and others and suitable replies were made by Chief Butler of Fredericton; Chief Ackman of Moncton and Chief Marceau, the president of the association. Many papers bearing on the work of fire departments were read in the convention that followed and much of interest transpired. In the evening the visitors were driven to the pumping station and to other places of interest in and about the town.

Owing to the Canadian Wheat Board Re'easing for export (within the last ten days) 500,000 bbls. of Hard Wheat Flour, an advance in price is now predicted.

JOHN RUSSELL, Manager

The City Manager

The management of a modern city is essentially like that of a large business requiring integrity, faithfulness, special knowledge, economy and good judgment. What large industry would think of giving its direction into the hands of volunteers, or making its administrative offices the

prize of partisan and factional conflict?

It is noticeable today that the city manager plan finds increasing favor. There are more than a hundred and eighty city managers employed in the country today, men of special knowledge and training. It is found that in the long run, it pays to reward these experts adequately and to concentrate power and responsibility in

their hands. Some city managers today receive as high as twelve thousand dollars a year and many receive from six to nine thousand.

These experts take their jobs seriously and save their employers many times more than the cost of their hire. One of the best outgrowths of the plan is the accumulation and co-ordination of special knowledge on the problems of paving,

sewage, lighting and water supply. American cities have been paving for more than fifty years. By this time there ought to be no question about the best kinds of pavement to install. There is no question about it when an expert is at the head of things and has at his command the experience of other cities. The days of amateur in municipal house-keeping have about ended and the hour of the expert has arrived.—Mail

Beekeeping And The Sugar Situation

With sugar over 20 cents a pound, and the outlook of a possibly higher price and uncertainty of supply, beekeepers will find it advisable to pay more attention than usual to the saving of wholesome honey for wintering the bees safely.

Each colony should have not less than 40 pounds of stores for winter. The honey gathered in June and July from alsike and white clover is perfectly wholesome and makes the finest winter stores. Most of the honeys gathered from other abundant sources in June and July are also wholesome, but honey gathered from mixed sources in August and September is, as a rule, less so, and is therefore liable to cause dysentery which will weaken or kill the colony before spring. Some kinds of fall honey are very injurious. However, buckwheat honey and the honey from certain species of goldenrod after that grow abundantly in dry situations, if it ripens before cold weather, are wholesome.

It would therefore be wise to save combs of clover honey in order that several of them may be placed in the hive about the centre. These combs should be given early enough in the fall, that is to say, about the middle of September, to allow the bees time to empty a few cells to make a place for the winter cluster to occupy. Care should be taken that these combs of honey are taken from colonies that are entirely free from American foul-brood. It will be advisable also to save combs of honey sufficient to give each colony one more comb in spring, but the honey given in spring need not be of the best quality.

A strong colony of Italian bees containing a prolific young queen often has very little honey in the brood chamber when the supers are removed in the fall. A simple way to supply such a colony with suitable stores for the winter is to give or leave it a super full of clover honey.

Planning To Keep Up The Milk Flow

Once more we are entering upon the season of the year when the dairy farmer expects the greatest yield from his cows and his pastures, "flowing with milk and honey." Unfortunately, however, the season is not always just as right as it might be. Invariably in one section or another there is a drought with its consequent shortage of pasture and decrease in milk flow.

It is important at this time that some form of supplementary feed be supplied, for if the milk flow is once allowed to decline it is almost impossible to get it up to the previous high mark again. A little extra feed at this time will produce more milk than will three times the amount fed after the decline has taken place. Many will have profited by past experiences and have made preparation for the shortage of pasture by sowing a piece of annual pasture or soiling crop. Others again may have some of the previous year's crop of silage to fall back on. In any and particularly the last of the above methods, we have a very efficient means of supplementing the pastures. For those who have not yet made any provision it is not too late to sow an extra acre of corn, some fall turnips, or even a piece of rape. The turnips may be pulled as needed and fed tops and all while the rape may be pastured off in the late summer and fall. Where previous preparations has not been made, cuttings of the regular crops, such as green oats and peas, second cut clover, and green corn will have to be made to fill the bill.

To speak of grain feeding on pasture at present prices seems absurd, and it will be found to be somewhat of an extravagance except with very high producing cows. Where the grains are obtaining a mixture of two parts bran and one each of ground oats and cottonseed meal is excellent.

Apart from the feeding of the cows, there is the question of water and shade supply. Both are very necessary. Where sufficient protection from the flies in the form of shade or underbrush is not to be found, it would be advisable to keep the animals in the stable during the better part of the day allowing them out in the evening. Where supplementary

THE MISERY OF BACKACHE

Removed by Lydia E. Pinkham's Vegetable Compound.

Meaford, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for backache, and I also had a female weakness. I felt dizzy and nervous, and was without energy. I had to force myself to do my work, and was always tired. Saw a Pinkham advertisement which induced me to take the Vegetable Compound, and my back gradually stopped aching and I felt lighter in spirits. I am recommending the Vegetable Compound with pleasure to all I meet who complain as I did."—EUGENE BROOK, Meaford, Ont.

Woman's Precious Gift

The one which she should most zealously guard is her health, but she often neglects to do so in season until some ailment peculiar to her sex has fastened itself upon her. When so affected, women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

HOW YOU CAN TELL GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only cheap imitations. Genuine "Bayer Tablets of Aspirin" have been prescribed by physicians for nineteen years and proved safe by millions for Pain, Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis. Handy tin boxes of 12 tablets—also larger "Bayer" packages, can be had at any drug store. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monocetylaldehyde of Salicylic acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

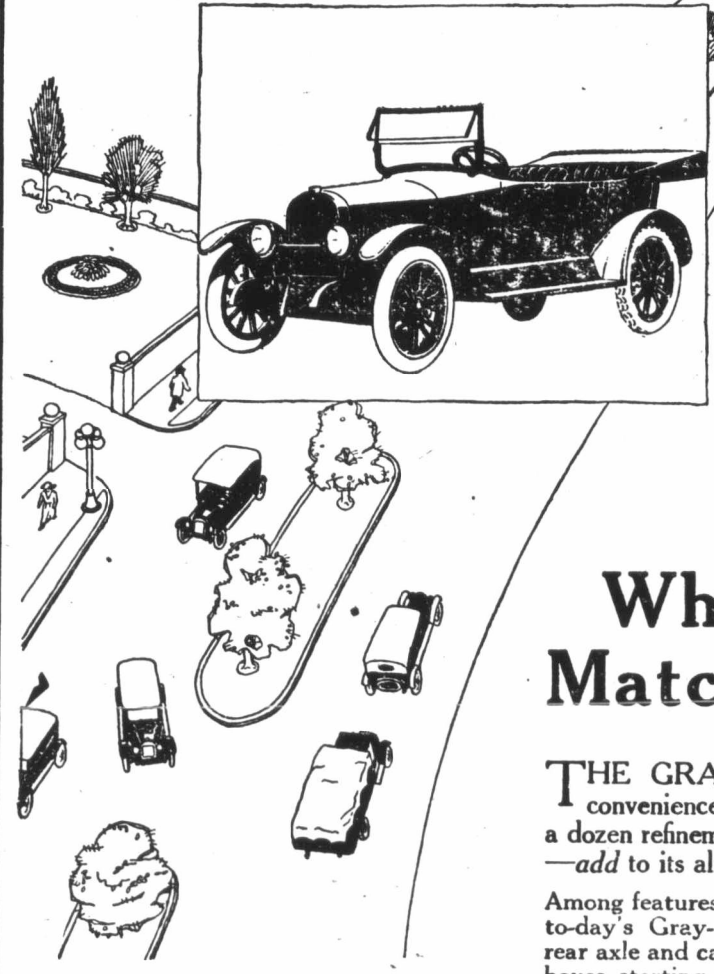

feed has to be cut and hauled to the cows less waste will be occasioned when fed while inside. Where the cows have of necessity to be out all day they should have protection from the flies by spraying with some good fly repellent.

Hon. Dr. Smith As Acting Premier

Hon. W. E. Foster, Hon. Dr. E. A. Smith, minister of lands and mines and Hon. C. W. Robinson arrived in the city at 4 o'clock Thursday afternoon by the Valley Express from Fredericton. Messrs. Smith and Robinson left for their homes. Premier Foster will leave early this week for a vacation of about a fortnight. He spent largely in this province. He expects to spend most of the time along several fishing streams. During his absence Hon. Dr. Smith will be acting premier.

Built in Canada by Skilled Canadian Workers and Canadian Capital

GRAY-DORT

Where Can You Match This Value?

THE GRAY-DORT has gained new comfort, new convenience, new style. Ten major improvements and a dozen refinements make it easier to drive, easier to ride in—add to its already superlative VALUE.

Among features usually found only in much higher-priced cars, to-day's Gray-Dort offers—gasoline tank in the rear; husky rear axle and cantilever springs, both Chatham built; Westinghouse starting and lighting; hand-tailored Rayntite top; side-curtains which open with the doors.

In spite of doubled production, dealers report that the demand for Gray-Dorts far exceeds the supply. It would be wise to see your Gray-Dort dealer at once.

TUESDAY, JULY 13TH, 1920.

A TEMPERANCE VICTORY
The organized temperance forces won a decisive victory in the referendum on prohibition which took place in the province on Saturday. By a two thirds vote the electors of the province pronounced themselves in favor of the Intoxicating Liquor Act of 1916 and by a vote nearly as large they declared against the sale of light wines and beer under Government control. Every county in the province with the single exception of Madawaska voted in favor of prohibition and Kent was the only other county which approved of the sale of light wines and beer. In both these counties the vote was small and the adverse decision was probably due in a measure to the fact that the temperance forces were not as well organized as in the other counties. While nothing like the full registered vote was polled the verdict seems to have been sufficiently emphatic to satisfy both the dries and the wets. The great majority of the people are in favor of prohibition of the liquor traffic and they are opposed to the sale of light wines and beer. The prohibition act endorsed by the electorate on Saturday was passed by the Legislature in 1916 as a war measure and has been in force since May 1st, 1917. Although it is a very drastic measure and has been stringently enforced it seems to have won the approval of all classes of the population. It has been endorsed by every city in the province, and some rural districts

**CHAS. STEPHENS
GAMBLED WITH
DEATH AND LOST**

The Mighty Niagara Claims Another Victim Who Went Over the Falls in a Barrel.

Niagara Falls, Ont., July 11—In another contest between man and the mighty Niagara, the latter won. Charles Stephens, the barber, who came all the way from Bristol, England, to go over the falls in a barrel, took the leap Sunday morning and lost. A few pieces of the barrel eventually drifted in, but of Stephens there is no sign.

He had made a contract with a Toronto moving picture concern and then completed local arrangements for the voyage, but in so-called secrecy as it was believed that the provincial police might forbid the trip. The start was made at 8 a. m. Stephens appeared perfectly at ease. He had absolute confidence in his barrel and in his oxygen supply outfit, which he was testing out for the inventor with a view to have the device ultimately used by divers. The oxygen device may have been all right but the barrel was a failure. This was demonstrated while the barrel was yet in safe water, when possibly one hundred yards from shore, a hoop of the barrel broke and was seen by several people on the shore to leap up and curl off.

The motor boat towing Stephens pulled up, but after an examination of the barrel the trip was continued. When ten, fifteen, twenty minutes went by without signs of the barrel, the spectators, who by this time had grown to large numbers, grew anxious. "Has he any chance?" Was the query put to Bobby Leach, the only man who has gone over the Falls and lived to tell the tale. "No chance. I told him yesterday that his barrel wasn't strong enough," said Leach.

Of three attempts to ride the falls in a barrel, two have been successful. Mrs. Anna Taylor went safely over about twenty years ago and Bobby Leach repeated the performance some years later.

recorded a four to one vote in its favor.

Perhaps the greatest surprise in connection with the election was the strong support which prohibition received in counties, which up to three years ago were under license. Old Scott Act Counties such as York and Carleton were expected to heartily endorse prohibition, but this was scarcely expected of counties like St. John, Restigouche and Gloucester. Nevertheless every constituency in the province except Madawaska declared for prohibition in fairly emphatic terms. We live in a country where the majority must rule, and the will of the people as expressed at the polls must prevail. The province has gone into the dry column and the indications are that it will remain there for years to come.

Thought Nothing Could Help Him But Has Gained Eighteen Pounds on Tanlac

To be quite frank, I didn't have much faith in Tanlac when I started on it, but now after giving it a fair trial, I don't know how to say enough in its favor," said Thomas I. Lively of Gaston Road, Dartmouth, N.S., in a conversation with the Tanlac representative recently.

"Ever since I was a boy I have had a weak stomach and suffered from indigestion, and of late years I got much worse. My food always used to turn sour, bloat me up with gas so that I could hardly breathe, and cause me severe cramping pains in the pit of my stomach, so that I could hardly keep at my work. I was always badly constipated, had dull heavy headaches almost every day, and spells of dizziness. When I lay down at night the gas that formed on my stomach would seem to press up into my throat and almost choke me, many a night I have had to walk the floor for hours in my effort to get relief, and sometimes would not get a wink of sleep all night. I went down in weight from one hundred and eighty-five pounds to a hundred and fifty-five, and got so weak that I would actually stagger and almost fall down at times. Often I would stay off from my work for a week or two at a time, and about two years ago I was so bad that I had to knock off for six months. For twenty-four years I have been trying to find something to relieve the indigestion but nothing seemed to help me until I tried Tanlac.

"As I've said, I didn't have much faith in it when I started and even when I had finished the first bottle, I was thinking that it was no better than all the other medicine I had tried. But I kept on taking it, and I am mighty glad that I did for it has made a new man of me. I have a fine appetite, can eat anything, and my digestion and stomach trouble seems entirely gone. All signs of soreness, gas or cramping pains have disappeared. I am no longer constipated and the headaches are a thing of the past. I sleep like a top now and each morning get up feeling like a man refreshed. I have only been taking Tanlac for five weeks, but I have gained eighteen pounds in weight already, and haven't enjoyed such health in years past. I am on deck for duty every day now and my work is a pleasure instead of torture. I don't hesitate to recommend Tanlac as the best of all medicine for indigestion."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Doaktown by O. Hildebrand.

**INDEPENDENT ORDER
OF FORESTERS**

The triennial convention of the High Court of New Brunswick, I. O. F. convened at the oceaners' Institute, in St. John, on July 6th; a large and representative attendance being present from every part of the Province. Supreme Court officers were there from Toronto, including W. H. Hunter, Supreme Chief and Harvey S. Lloyd Asst. Supreme Chief. The adjoining state of Maine sent a delegation headed by their High Chief Ranger, C. D. Mann. The Miramichi sent many veteran Foresters amongst whom were noticed the following: Lieut.-Col. G. W. Mersereau and Henry Swin, of Doaktown; George Stables, Newcastle; Joseph O'Beirne, Nordin; L. R. Hetherington, formerly of Newcastle; John Betts, Miller; J. Y. Mersereau, Chatham; B. W. Williston, Bay du Vin, etc. etc. Mayor Schofield in an eloquent address which was well received, welcomed the delegates and tendered to them the freedom of the City of St. John. Other prominent figures in the convention were Judge Cockburn of St. Stephen, A. G. Gilson, Carleton Co.; D. G. Lingley, Past High Chief, St. John; Mr. R. Grass, Past High Chief, St. John; E. J. Todd, Provincial High Sec'y.; Dr. J. D. Lawson, St. Stephen; Dr. Mullen, Fredericton; G. H. McKay, L. L. B., Fredericton; I. Murray, City Clerk, Sackville; H. G. Woods, P. C. Inspector New Brunswick and many others for which space will not permit of mention.

Competition for the various offices was the keenest in the history of the Order in this Province. The two highest offices in the gift of the convention were carried away by Lieut.-Col. G. W. Mersereau and Joseph O'Beirne the colonial being elected High Chief Ranger and J. H. O'Beirne Representative to the Supreme Court.

The Province being entitled to four the following three gentlemen were also elected to Supreme Court—M. W. Mitchell, Chief of Freight Claims Dept.; I. C. E. Moncton; E. J. Todd, High Sec'y., St. John; and D. G. Lingley, City Chamberlain of the City of St. John.

In addition Mr. J. H. O'Beirne was appointed an officer of the High Court.

The convention, which was conducted in the most harmonious and successful manner, was held in the Foresters' adjourned on Wednesday night to meet in Fredericton on August 12th.

At the expiration of the above mentioned date, the tenders will be opened in the presence of the Chief Engineer and the tenderer whose tender is accepted will be notified.

By Order of the Chief Engineer,
C. B. BROWN,
 Chief Engineer, Eastern Lines, Moncton, N. B.

TORTURED BY TERRIBLE ECZEMA

Suffered Three Years Until She Tried "FRUIT-A-TIVES"

DAME PETER LAMARRE
 Pointe St. Pierre, P. Q.

"I think it my duty to tell you how much your medicine has done for me. I suffered for three years with terrible Eczema. I consulted several doctors and they did not do me any good. Then, I used one box of 'Sootha-Salva' and two boxes of 'Fruit-a-tives' and my hands are now clear. The pain is gone and there has been no return. I think it is a marvellous cure because no other medicine did me any good and I tried all the remedies I ever heard of, without benefit until I used 'Sootha-Salva' and 'Fruit-a-tives'."

'Fruit-a-tives' cooled the blood and removed the cause of the disease, and 'Sootha-Salva' completed the cure."

Dame PETER LAMARRE (file), 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

OBITUARY

DAVID TREVORS
 David Trevors, an aged and respected resident of Douglastown, died at Hotel Dieu Hospital, Chatham on Thursday July 1st, after a short illness. He is survived by his wife. Interment was in St. Paul's cemetery.

MRS. DUNCAN GRANT
 There passed away Wednesday morning at her home, Douglastown, Mrs. Duncan Grant, after an illness of four months; heart trouble being the immediate cause of death. She leaves a husband, son and daughter John and Miss Margaret, at home and a large circle of friends to mourn their loss. Funeral took place Thursday afternoon at St. Mark's cemetery, Douglastown.

MRS. JOHN CLOUSTON
 Mrs. John Clouston died at her home, Lower Derby, on Tuesday, June 29th after an illness of three years, aged seventy-nine years. She leaves five daughters and three sons: Misses Jessie, Bessie and Margaret at home; Mrs. Carnahan of Chelmsford; Mrs. G. Thomsen, of Boston William and Magnus in United States and Richard at home. Interment was made in the Ferguson cemetery.

MRS. FORESTER ADAMS
 The death of Mrs. Forester Adams, widow of the late Capt. Forester Adams, occurred early Thursday morning. Deceased was born at Portsoy, Banffshire, Scotland and was 83 years of age. She has lived in Newcastle for the past 42 years and leaves to mourn one daughter Mrs. C. C. Hubbard. The funeral of the late Mrs. Adams was held from the home of her daughter Mrs. C. C. Hubbard on Saturday afternoon July 10th at 3 o'clock. Services at the home and grave were conducted by Rev. L. H. MacLean, pastor of St. James' Church and of which deceased was a member. Interment in St. James Cemetery.

MRS. JOHN WALSH
 Barnaby River lost one of its most highly esteemed aged ladies on June 20th when Mrs. John Walsh passed away at the advanced age of ninety-one years. Mrs. Walsh was formerly Elizabeth Jose of Renous, but ever since her marriage, seventy years ago, she has resided at Barnaby River. Her husband predeceased her seventeen years. She leaves to mourn two sons, Edward and William of Barnaby River, and one brother William Jose of Renous River.

The funeral was held on Friday at three p. m. The service was conducted by Rev. E. J. Bannon and interment took place in the Sacred Heart Cemetery. The pallbearers were Messrs. John Masterson, Thos. O'Brien, John Shea, John Hackett, Thos. Gaffney and John McDonald.

 Mr. M. Schaffer of Blackville, N. B. was in town yesterday, and intends leaving for Banff Hot Springs to undergo treatment at the springs there.

WEDDINGS

DOLAN-FAMEY
 Miss Mary Agnes Famey, daughter of Mrs. James D. McKay, Norfolk, Mass., and Dr. Raymond John Dolan, Nelson, Northumberland county, were married Monday morning at seven o'clock, with Nuptial Mass., at the Cathedral, St. John, N. B., by Rev. Raymond McCarthy. The bride wore a traveling suit of navy blue, with picture hat, and carried a white prayer book. The witnesses were Mr. and Mrs. Arnold Joseph Drisco, Moncton. The happy couple left by early morning train on a tour through the lower provinces. They will reside in Nelson, where the groom has been practicing since he gave up his position as a house doctor at the St. John General Hospital several months ago. The bride was up to recently a nurse in the same institution and is a graduate of St. Michael's hospital, Toronto.

Third Party Convention In Chicago

Chicago, Ill., July 8—Amos Pinchet of New York, a member of the committee of forty-eight which meets here Saturday in a national convention left today for Madison (Wis.), to confer with Senator La Follette, who is mentioned at headquarters here of the committee of 48 as one of the leading candidates for a third party presidential nomination.

Frank P. Walsh of Kansas city, former chairman of the United States Industrial Relations Committee and later of War Labor Board, is also mentioned as a probable candidate.

Delegates from twelve states had arrived early today for the convention.

Admiral Fisher Dies Following Operation

London, July 10—Admiral John A. Fisher, first Baron of Kilvestone and former First Lord of the Admiralty, died this morning.

Lord Fisher underwent a serious operation yesterday and failed to rally.

Lord Fisher began his naval career in 1854, and while on active service took part in the Crimean, Chinese and Egyptian wars. He became Lord of the Admiralty in 1892, and First Sea Lord of the Admiralty in 1904 which post he held for six years.

"KITCHENER OF NAVY."

He emerged from retirement in October, 1914, to resume his post as First Sea Lord of the Admiralty and direct the naval warfare against Germany. His vigorous policy caused him to be termed "the Kitchener of the Navy" and chief credit has been claimed for him in the bottling up of the German navy. Cabinet disputes led to his resignation in May, 1915, but he continued to serve the British Government in various capacities throughout the war and was a prominent naval critic.

He is survived by one son and three daughters.

Lord Fisher was for many years a popular idol in Great Britain. He was known as the "Father of the Dreadnought" because he was the first to realize the vast power of this type of warship. During his term as First Sea Lord of the Admiralty from 1904 to 1910, he virtually revolutionized the Navy. He entirely changed the old established and outworn strategic disposition of the fleet, and threw no less than 150 warships from immense iron clads to light cruisers into the scrap heap as obsolete and out-of-date.

Keeps Baby's Skin Healthy

If every mother could only realize the danger which lurks in the neglect of chafing and skin irritations she would not take chances on being without Dr. Chase's Ointment to apply after baby's bath.

It arrests the development of eczema and makes the skin soft, smooth and velvety.

25 cents a box, all countries, by Dr. Chase, 240 N. 2nd St., Toronto.

Sir Lomer Gouin Resigns Premiership

At the Cabinet meeting of the Queen's Legislature held in Quebec on Thursday, the Hon. Lomer Gouin announced his formal resignation as premier of the province.

Hon. Arthur Meighen Sworn In as Premier

Ottawa, July 10—Sir Robert Borden stepped out of office this morning at 11 o'clock, a few minutes after he gave his formal resignation to the governor-general. Hon. Arthur Meighen went to the office in the east block where the Duke of Devonshire was awaiting to swear him in as Canada's new premier. Sir Robert Borden came out of the office smiling, pleased and evidently with a great weight off his shoulders. Hon. Arthur Meighen came out a little later with a more serious mien, conscious of the great weight of responsibility resting on him. Both the retiring premier and his successor had a few pleasant and humorous words to say to the members of the press gallery waiting to wish the one God speed and congratulate the other. Then it was all over.

The next question is the swearing in of the new ministers. Hon. C. C. Bantyne was sworn in this morning because he has to leave for St. Catherine's. The other ministers to take the oath of office are expected to be selected by Tuesday and Premier Meighen this morning said that he expected to make the announcement on that date.

W. S. Loggie Speaks on Newcastle--Tracadie Railway

Mr. LOGGIE I take this opportu-
nity and I do it with some pleasure,
on referring to the first speech that
I made in Parliament. The theme
of that speech was the construction
of a branch line railway starting at
Newcastle, N. B., and ending at
Tracadie in the county of my hon-
ourable friend from Gloucester (Mr. Turge-
son). Let me first of all point out
that Newcastle is a point on the
main line of the Intercolonial forty
miles south from Bathurst. At the
present time there is what is known
as the Carquet and Gulf Shore Rail-
way, starting at Bathurst and run-
ning, about sixty miles down to
Tracadie, following the
course of the Baie de Chaleur and
then going through the peninsula
and ending at Tracadie. The line
that is asked for proposes, to start
at Tracadie and end at Newcastle.
Thus you will have a half moon, as
it were, of railway commencing at
Bathurst running east around the
coast back on the other coast, and
then ending at Newcastle, N. B. I
take this opportunity of reminding
the minister that he has a petition
in his office from the residents of
these thriving villages that are lo-
cated between Newcastle and Tracadie.
From time to time it has been my

privilege as well as my duty to draw
the attention of the department to
this very important project of rail-
way construction. During the last
two or three years I have not urged
it, as we were not investing any
money in building branch lines of
railways, in the East at any rate.
It seems to me, however, that the
time is now very opportune to im-
press upon the minister the impor-
tance of the construction of these
few miles of railway. Hon. gentle-
men will remember that in the Es-
timates some two years ago \$200,000
was provided for the taking over of
the branch line of railway that runs
between Bathurst and Tracadie.
The rumour now is that the owners
of the railway—who at that time re-
fused to accept an offer for it—are
now willing and ready to sell, and I
hope for good news in that regard
from the minister in the near future.
I desire to point out to him that the
piece of road which he proposes to
take over will not be complete un-
til he extends it to Newcastle.
Mr. J. D. REID: I thought it was
complete when I took it over.
Mr. LOGGIE: I have this duty de-
volving upon me representing a
fishing constituency—
Mr. DUFF: Hear, hear.
Mr. LOGGIE:—and also represent-
ing an agricultural constituency as
well as one that is very largely in-
terested in the lumbering business.
If one starts at Newcastle the first
lumber mill encountered will be the
Buckley mill. Going down three
miles you come to the Miramichi
Lumber Company's mill—a large
band mill cutting a great quantity
of lumber. Going about a mile
farther you come to the Frasers Pulp
Mill, Limited, and then farther down
the coast you touch at Tabusintac
and Burnt Church where there are
lumber mills. In the winter season
the bay abounds with fish. We are
acting wisely in providing branch
lines in the Prairie Provinces, so
that the farmers can haul their
wheat to the railway. But let me
tell you that in the district on the
Miramichi in New Brunswick which
would be served by the railway
whose construction I am advocating,
in the winter season, for a distance
of approximately forty miles, you
may see teams on top of teams, as
it were, hauling smelts from the
lower bay to Loggieville, the near-
est railway point. I urge this mat-
ter now because I imagine the Gov-
ernment will be operating the Car-
quet railway in the very near future.
The owners having accepted the of-
fer, I hope that the necessary appro-
priation will be made in the Supple-
mentary Estimates. I want to im-
press upon the minister the impor-
tance of connecting up the end of that
road with Newcastle. We will then
have a sort of half-moon line, start-
ing at Bathurst on the Intercolonia
railway, running round the shore
and across the peninsula to Tracadie,
thence on to Newcastle, forty miles
from the starting point. The minis-
ter has this petition in his office;
it has been there for some time, I
have from time to time directed his
attention to the matter and urged
its favourable consideration. I can
only leave it in his hands; I am sure
he will not forget it when the pro-
per time comes.

ZAM-BUK HEALS
ZAM-BUK stops the burn-
ing and prevents blistering.
Just as good for
tender or blistered
feet, aching
muscles, mosquito
bites, cuts, bruises,

and all skin dis-
eases. All druggists
50c. box.

SUNBURN

In Case of Colic
Give your horse Dr. J. Woodbury's
Horse Liniment internally—and
at the same time, build up the
general health and digestion of
the horse, with Dr. J. Woodbury's
Condition Powders.
Colic in a horse comes from the
same cause as colic in a baby—
acute indigestion.
These remedies tone up the
stomach, regulate the bowels and
kidneys, help the digestion and
soon put the animal in the best
possible condition.

Dr. J. WOODBURY'S
Horse Liniment and
Condition Powders
used whenever an animal is troubled
with Cough, Cold, Distemper, Glanders,
Spleen, Carb, Scavin, Cracked Hoof,
Enlargement, Cut, Sore, Bunch, Fever,
these two reliable remedies will give
prompt relief and change the sick, lame
animal into a vigorous, healthy one.
Keep these standard preparations
always in your stable in case of sickness
or accident.
Sold by Druggists and General Stores
Prepared by
FRASIER, THORNTON & CO. LIMITED
COOKSHIRE, QUE. 105

Lift off Corns!
Doesn't hurt a bit and Freezes
costs only a few cents.

With your fingers! You can lift off
any hard corn, soft corn, or corn between
the toes, and the hard skin calluses from
bottom of foot.
A tiny bottle of "Freezes" costs little
and does the work of a large one.
Apply to the corn, and in a few minutes
the corn will be lifted off, and the
tender skin underneath will be left
soft and healthy. The corn will not
return, and the foot will be free from
any more corns or calluses for some
time. Try it!

In Forty Years
According to recent press despat-
ches a statement was made on the
best authority, in the Toronto Meth-
odist Conference that it was a plain
matter of mathematical calculation
that in forty years at the present
rate of drain there would not be a
minister left in Canadian Methodism
to preach the gospel. So rapidly
were the ranks of the ministry being
depleted.
Certainly if judged from this
standpoint (into the accuracy or
inaccuracy of the proposition we do
not enter) such a prospect is very
dreary. So gloomy, that a peculiar
type of mind never prepossessed
with sentiments of admiration for
Methodism, might well indulge the
expectation that it would eventual-
ly perish by internal decay. Unques-
tionably the serious falling off in
numbers of candidates for the min-
istry both in our own and other com-
munities, is a matter of grave con-
cern and many searchings of heart.
But are we justified in sitting
down to contemplate our approach-
ing doom, and face with becoming
acquiescence our ignoble end? Is
Ichabod even yet written over the
godly fabric of Canadian Method-
ism?
Are the formulae of applied
mathematics or the abstruse calcu-
lations of the actuarial art com-
petent to determine how far and in
what manner the divine call to the
work of the Christian ministry may
extend to the present and coming
generations?
We still have hope. It is a rea-
sonable conclusion that a problem of
this character is not to be solved by
recourse to the principles and axi-
oms of exact science. As Methodists
we believe in the call of God to the
work and office of the ministry,
and herein stand on common
ground with evangelical Christendom
—The Wesleyans.

Surrounding the Child with Musical Atmosphere

The significant thing about the player piano is that it does not limit its work to cultivating the desire to hear music but is equally effective in stimulating the desire to produce it. The child soon wants to master the technique and create the music himself. It is the instinct to do—the impulse, which once awakened, is the teacher's most potent ally. It means that the child will begin his music lessons voluntarily, not simply under parental compulsion; that he will persevere in them because he has a vision and an aim, that vital motive which no mere sense of duty or plodding industry can replace.

To surround the child with an atmosphere favorable to awakening the instincts we wish to cultivate, then to take those instincts in hand and develop them in the way they should go, is the whole theory of the modern organic or "natural" education. Growth from within is the watchword; superimposition from without the taboo. Even the most conservative educators admit the advantage of the new conception. The only objection to it, that it is not practicable where large groups of children are concerned, falls away entirely in the case of private music teaching.

Surely if the player piano can foster this precious "growth from within" it has established its rights to more than mere toleration from the music teaching profession.

MALNUTRITION is the root of much weakness and hinders progress and growth.
Scott's Emulsion the world-famous tonic-food, is the natural enemy of malnutrition and weakness.
Scott's three or four times daily, builds strength—helps drive malnutrition away.

Treatment Of Broody Hens

There often is a large and altogether unnecessary loss in the summer production of the farm flock, due to the idleness of numbers of broody hens which are permitted to remain on the nests indefinitely for many weeks. If such hens are removed from the nest as soon as broodiness develops, are placed in a comfortable coop, well fed and well watered, they can be broken up promptly.

Any sort of pen that will prevent or discourage sitting will answer the purpose, but it is true economy to provide well-constructed coops capable of accommodating three or four hens or more supplying enough of these so that all "broodies" can be taken care of without delay.

As good a plan as any is to make coops with slatted fronts and bottoms wide well-constructed coops capable of them on legs or trestles two or three feet off the ground and locating them in the shade of a tree. The slatted floor compels the hens to stand, which helps greatly in discouraging broodiness. These coops, if constructed as here described, will serve a double purpose, as they can be used to good advantage later in special-fattening fowls for table use.

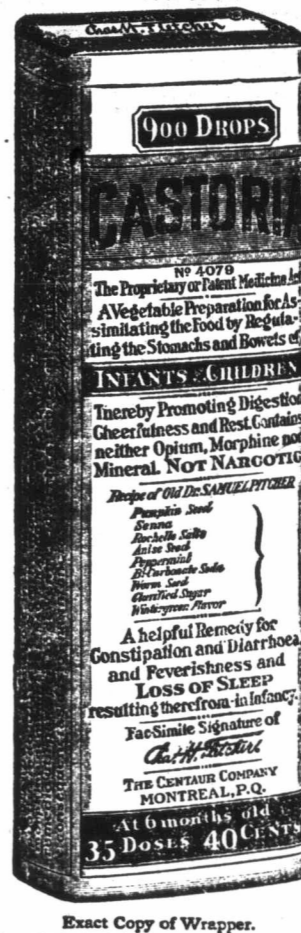

Do not mistreat broody hens by the abusive methods so often recommended, but make them comfortable, feed them well, and keep them supplied with water. If so treated they will begin laying within a very short time after they get over being broody, whereas, if they are starved and mistreated, it may be weeks before they will become productive again.

Hot Weather Rules For Horses

1. Load lightly, and drive slowly.
2. Stop in the shade if possible.
3. A sponge on top of the head, or even a cloth, is good if kept wet. If dry it is worse than nothing.
4. Water your horse as often as possible. So long as a horse is working water in small quantities will not hurt him. But let him drink only a few swallows if he is going to stand still.
5. When he comes in after work, sponge off the harness marks and sweat, his eyes, his nose and mouth, and the dock. Wash his feet but not his legs.
6. If the thermometer is 75 degrees wipe him all over with a damp sponge, using vinegar water if possible. Do not wash the horse at night.
7. Saturday night, give a bran mash, lukewarm; and add a tablespoonful of saltpetre.
8. Watch your horse. If he stops sweating suddenly, or if he breathes short and quick, or if his ears droop, or if he stands with his legs braced sideways, he is danger of a heat or sun stroke and needs attention at once.
9. If the horse is overcome by heat, get him into the shade, remove his harness and bridle, wash out his mouth, sponge him all over, shower his legs, and give him two ounces of aromatic spirits of ammonia, or two ounces of sweet spirits of nitre, in a pint of water; or give him a pint of coffee warm. Cool his head at once, using cold water, or, if necessary, chipped ice, wrapped in a cloth.
10. If the horse is off his feed, try him with two quarts of oats mixed with bran, and a little water; and add a little salt or sugar. Or give him oatmeal gruel or barley water to drink.
11. Clean your horse at night, so that he can rest well, and clean him thoroughly. The salt dandruff drying on his skin makes him uncomfortable, and often produces sores under the harness.
12. Do not fail to water him at night after he has eaten his hay. If you don't he will be thirsty all night.
13. If it is hot that the horse sweats in the stable at night, tie him outside, with bedding under him. Unless he cools off during the night, he cannot well stand the next day's heat.

Newcastle, N. B.

NEWCASTLE BOY MAKES GOOD
Mr. Guy Harold Black, son of Mr. and Mrs. Milton Black, of Manchester, N. H., has recently been promoted as stock manager of his father-in-law's drug business. The Confidence Pharmacies, Brooklyn, New York. Mr. Black, although not twenty years old, is a veteran of the World's War, having served honorably overseas, with the 68th U. S. A. Infantry, April 4, 1919, he married Miss Irene Bragg of Brooklyn, New York.

IS STILL IN CITY HOSPITAL
Mr. A. M. McLellan, who sustained a broken leg nearly three weeks since, is still confined to the City Hospital, Moncton. Mr. McLellan is not only suffering from a broken leg, but dislocation of the knee as well, and although he has been in the hospital for nearly three weeks, and is progressing favorably, he will doubtless be compelled to remain there for some weeks yet. His friends will hope for a more speedy recovery.

NO TIDINGS OF MISSING MAN
The party who were in the woods looking for Clarence Wright returned home on Tuesday last without finding any trace of the missing man. The search party was made up of six men—Guides Wm. McKay, Geo. McKay, John Lumsden, Frank Richard, George Wayne and Ernest Walsh.

This party were in the woods for nine days, and they searched the woods for a radius of fifteen miles from where Wright was last seen on the portage road on the Tomognoys.

INSTALLATION OF OFFICERS
At the regular meeting of Secret Rebekah Lodge No. 60, July 9th the following officers were installed:
P. N. G.—Mrs. A. Matthews.
N. G.—Mrs. L. Ingram.
Rec. Sec.—Mrs. B. Shuttleworth.
Fin. Sec.—Miss O. Barron.
Treas.—Mrs. Myrtle McKay.

I. G.—Miss Edna Kerr.
O. G.—Mr. Leo Rikkenon.

Col. Mersereau Heads Foresters

The New Brunswick High Court, I. O. F., Wednesday, installed officers for the coming year: High chief ranger, Lieut. Colonel G. W. Mersereau; high vice-chief ranger, F. C. Wilson; high secretary, Ernest J. Todd; high treasurer, Thomas Murray; high physician, Dr. J. D. Lawson; high councillor, George H. J. Cockburn; high auditors, J. A. Lindsay and G. C. Davidson; representatives to the supreme court, M. W. Mitchell, Ernest J. Todd, D. G. Lingey and J. A. O'Brien.

STRAWBERRY CROP GOOD
The New Brunswick strawberry crop is reported to be above the average. As usual the Montreal market is taking large shipments. Fredrickton district has not sent many berries to Montreal, but the Sackville, Kennebecasis and Grand Lake sections are shipping heavily. Large quantities of strawberries were received in St. John on Friday and Saturday.

The following is the result of the examinations in Miss Dunnett's Department which was omitted in last week's issue.

Promoted from Grade V. to Grade VI.
Miss Dunnett's Dept.
Geraldine McMichael, Dora Palmer, Nina White, John Morrissey, Jean Melanson, Elizabeth Stohart, Gwyneth Belyea, Sybil McCaull, Lillian Gough, Eldon Hayward, Isabel Ferguson, Blanche Russell, Donald Putnam, Reggie Steeves, Emery McDonald.

Conditionally in Arithmetic — Margaret Gulliver, Katherine Stables, Jean Cassidy, Byron Miller, Willie Bernard, Percy Beckwith.
Prize for highest average during the year won by Geraldine McMichael, donated by Mrs. A. J. Ferguson.

WILL BE NEWSPAPERMAN
Whether the Republicans or the Democrats win in the campaign to end next November, whether it is Senator Harding or Ohio or Governor Cox of Ohio who is successful, the next President of the United States will be a newspaperman. Chairman Donald of the Empire Press Union and former editor of the London Daily Chronicle, has issued the following statement:

That the highest political office in the world should be occupied by a newspaperman is a compliment to the profession in every country. Both Cox and Harding are very fine types of American citizenship, who have risen to the top of a profession in which actual hard work and merit only count. The next President, whether his name be Cox or Harding, will be held in great esteem by journalists as a man who won the highest honor for their craft.

Catarrhal Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.
F. J. CHENEY & CO., Toledo, O.

N.B. Hydro-Electric Commission Appointed

Premier Foster announced Thursday morning the personnel of the hydroelectric commission for New Brunswick to proceed with development of water powers as follows:

Hon. C. W. Robinson, member of government without portfolio; C. O. Foss, of St. John, and Reid McManus, of Moncton. Mr. Foss is an engineer and Mr. McManus a contractor.
Hon. Mr. Robinson will be chairman.

Special meeting of the government will be held last of this month to determine new stampage rates to be effective after August 1st next.

Friday and Saturday at The Happy Hour

12TH OF JULY
Yesterday was Orangemen's Day and was quietly spent in this section.

NEW PAINTER
In another column will be found the Adv. of Mr. Adolph Crasting, for painting, interior and exterior decorating, paper hanging, and white-washing. Mr. Crasting has been unable to secure a place suitable for a paint shop, and for the present can be located by addressing him care General Delivery, Newcastle, N. B.

'Made Bigger Profit Than Ever Before'

OTTAWA, July 9.—"That he had sold more sugar during the past year; had made a bigger profit on this commodity than ever before, and that he was entirely satisfied with the prospective regulations of the Board of Commerce with regard to the sale of sugar, which he thought were quite fair," was the outspoken and most unexpected statement made by B. G. Crabtree, president of the Retail Grocers Association, at the conference between the newly constituted representative of the different retail trades, held in the Board of Commerce rooms this afternoon. Mr. Crabtree's remarks were in direct opposition to those of other members of the association.
