SENATE JOINS ON RECIPROcity BILL

Lafollette Announces Determination to Press Amendments Covering Wool, Cotton, Iron, Steel and Sugar - Adverse Report by Finance Committee Only Saved by Tie Vote.

WASHINGTON, June 13.—The battle lines on the Canadian reciprocity agreement were squarely drawn in the senate to-day, when in accordance with a statement, Chairman Penrose of the finance committee reported the bill without recommendation. Favorable and adverse views were presented by senators and the way cleared for the long slide of discussion in open session. Messrs. McCumber and Lafollette submitted reports outlining their individual views in opposition to reciprocity, and Mr. Williams presented the views of himself and Messrs. Stone and Kern favorable to the measure. The debate will begin to-morrow with speeches in opposition to the bill by Senators Curtis and McCumber. The exchange of views on the bill was general. Mr. Dixon expressed surprise and regret that the committee had not been able to bring in a recommendation for or against the bill, and in so doing elicited a series of statements regarding the course of the bill. One of these was made by Senator Heyburn, who brought out the facts regarding the motion in committee reported so adversely. He said that he had presented this motion and that it had been lost by a vote of 7 to 7, thus no man who believed either in support for revenue only or in a protective tariff, could consistently give it his support.

Senator Lafollette in an individual report presented adverse views on the reciprocity bill. He said it was perfectly consistent for one who believed in free trade to support the bill, but that no man who believed either in support for revenue only or in a protective tariff, could consistently give it his support. In the belief that duties should represent the difference in the cost of production at home and abroad, with others I contended, said he, believe in the Payne-Aldrich tariff bill, which for reductions in duties to that level, in so far as the information then at hand furnished, was the best policy that could be adopted. "I shall continue to advocate tariff legislation based upon that principle. I believe in the Payne-Aldrich tariff bill in reciprocity with Canada. The mutual give and take of tariff concessions between our country and our world neighbors offers the only policy that has in view the best welfare of all concerned. "But I protest against this proposed revision of our tariff by executive mandate. I protest against this diplomatic bargain that is masquerading in the guise of reciprocity. It is not reciprocity. It is not a fair exchange of tariff advantages between our citizens and the citizens of Canada. It is a tariff trade, a trade in special interest, selfish, negotiated in secret and brought into the open with the attractive name of reciprocity as a bid for the favor of the public. It is a policy that people who believe sincerely in reciprocity that is genuine. "This agreement is not in the interest of the consumer. Relative to the high cost of living is not to be found in such a tariff compact as that represented in the pending bill. "It is not necessary to wrong any class or do injustice to any interests in order to benefit the consumer. And it is scarcely less than criminal to make a surrender of the benefit of an unlawful combination. "Who Would Benefit? "It is not the farmer, it is not the consumer for whom these negotiations were made. It was made to benefit the railroad, the miller, the packer, the newspaper publisher. "The newspaper publishers are promised a free market for print paper, for which they expend about \$50,000,000 annually. No one who investigates the conditions of newspaper publishing in this country have been compelled to purchase their supply of print paper except the conclusion that the publishers have been subjected to extortion. "The conditions under which the publishers are forced to conduct their business are intolerable. These conditions call for action which will afford immediate relief. "The great injustice proposed of the bill seems to me to be to recognize no principle of right and fair dealing that would permit me to support it in its present form. If, however, it is enacted into law, it should not pass without amendments in the interest of the great body of consumers, including the farmers, who are compelled to carry all the burden of the president's loan-pact. "I propose to offer amendments providing for a complete revision of the Payne-Aldrich tariff law, revision of the rates on structural iron and steel and certain other paragraphs of that act, and also amendments revising the tariff schedule. Such revision downward will be reducing our government revenue less than \$10,000,000 annually, will effect a reduction in the cost of living by lowering prices of the consuming public, aggregating more than \$200,000,000 a year."

WILSON OPEN NEW BRIDGE
Wilton-avenue Structure in Partial Use by July 15.
The new Wilton-ave bridge will be open to traffic, in part at least, by July 15. In the meantime there will be a roadway provided from River-st. to Munro-st. across the new structure. The whole roadway will not be completed because of the construction of the trunk sewer along the east side. Only half the filling will be done until the sewer is completed, which will perhaps be about two months hence. Any way this will provide a thirty-foot roadway for an approach in the meantime, and the partial opening of the bridge will be a great convenience for traffic.

DIDN'T SCENT MURDER
Police Say It Was Uncle Whose Screams Were Heard.
The police are not deeply impressed with sinister rumors regarding the death of John J. Tark, the 15-year-old Chinese lad who hanged himself at 657 West Queen-st. Friday night. The body was found early Saturday morning. "Some of the neighbors were coming from the house in the early hours of the morning. This is explained by the fact that when the men working in the laundry went up to bed one of them bumped into the swinging body and cried out. The others, thinking there was a fall in the house, also rushed upstairs. "The lad's body was buried yesterday afternoon at Mount Pleasant cemetery. Coroner Rowe will continue the inquest at the morgue to-night."

1800 MEN ON STRIKE.
MONTREAL, June 13.—Eighteen hundred men from the Canadian Car and Foundry Company's and the Dominion Steel Car Company's cars shops are now on strike at Turcot and Ville St. Paul, demanding an increase of two cents an hour. "The strikers held a meeting to-night and stated that they would receive fortnightly pay Saturday, and, although without union funds, they are able to completely tie up the work of the companies, which have rush orders for 3000 cars."

OH TO SEE NORTHLAND.
The members of the board of trade, party left the Union Station last night for the C.P.R. for Cobalt and the Porcupine district. Ten cars, including six sleepers, the S.P. private car and a dining car, comprised the train. There were 19 altogether, including J. L. English and Fred Dene of the E. & N. Railway Commission. The members of the press who accompanied the party included W. J. Douglas, Matt and Empire. Hon. Robert Jeffrey, Globe; J. E. Atkinson, Star; E. Smith, News; and H. Wilcott, World.

THE FREE LIST BILL.

WASHINGTON, June 13.—Indicating by inference that there is little prospect of getting the farmers' free list bill out of the committee on finance, Senator Penrose, chairman of that committee to-day announced to the senate that he would grant hearings on that measure. Senator Bradley said that ultimately he would move to discharge the committee from further consideration of the free list bill.

GIRLS IN FISHING PUNT RESCUE TWO YOUNG MEN

Skiff With Three Occupants Upset at Centre Island—Caneist Saved Girl.
It wasn't quite so spectacular an exhibition of heroic qualities as Abigail Becker is credited with, or used to be, in the primer, but the Misses Bertha and Edith, daughters of Capt. Joe Goodwin, locally famed as a mariner, nevertheless qualified for the heroics class last night. A small dinghy containing a young lady and two men, also youthful, was just setting sail in the deep out near the R.C.Y.C. clubhouse at Centre Island, about 7.30 p.m., when the voyage was interrupted. It was quite a serious interruption. The dinghy upset, throwing the trio into the water. A young man in a canoe gallantly rescued the girl. The other two hung on grimly. The shore wasn't really far off as to lineal measurement, but it seemed quite remote. However, a fishing punt, navigated by the Misses Goodwin, hove into sight and the rescue was effected.

JOKE WAS UNAPPRECIATED
Civil Engineer, While Exhilarated, Took Box of Cigars.
Ernest Matland, 35 years, single, a civil engineer from London, Ont., was arrested last night by Police Officer Daniels charged with theft of a box of ten cigars from the United Cigar Stores shop at 4 East King-st. Matland, who had been drinking, went into the store and purchased a box of tobacco. He tendered a \$5 bill in payment, and while the clerk was making the change, another clerk who was dressing the window, saw him slip a box of cigars under his coat. He was followed into the street and turned over to the constable who found the cigars on him.

WILL OPEN NEW BRIDGE
Wilton-avenue Structure in Partial Use by July 15.
The new Wilton-ave bridge will be open to traffic, in part at least, by July 15. In the meantime there will be a roadway provided from River-st. to Munro-st. across the new structure. The whole roadway will not be completed because of the construction of the trunk sewer along the east side. Only half the filling will be done until the sewer is completed, which will perhaps be about two months hence. Any way this will provide a thirty-foot roadway for an approach in the meantime, and the partial opening of the bridge will be a great convenience for traffic.

Prominent Figures at the Anglican Synod, Which Opened Yesterday

VEN. ARCHDEACON CODY. BISHOP SWEENEY. HON. S. H. BLAKE.

ASSEMBLY APPROVES ARBITRATION TREATY

Rearranges Superintendency of Home Missions—Questions on Church Union for Submission.
OTTAWA, June 13.—No matter which has come before the Presbyterian General Assembly has evoked more hearty enthusiasm than did the motion on the arbitration proposal as introduced by Principal Forrest of Dalhousie University, Halifax, this afternoon. The resolution was introduced by Principal Forrest and seconded by Principal Patrick of Winnipeg. "Rarely, if ever," said Principal Patrick, "has a more important question been before any assembly. For the first time in the history of mankind it is proposed that all possible questions of controversy between Great Britain and the United States should be referred to arbitration. The principle of arbitration has been met with increasing favor in the last three decades, but until the present moment every government in the world reserved to itself freedom of action as regards certain questions and to settle for themselves whether or not to resort to war when their honor was at stake. A new era seems dawning. No one is more pleased than the people of Canada. We see a practical working out of the proposal in the thousands of miles of boundary between the British Empire and the United States. All in this assembly are of one mind and profoundly grateful that the proposal so born of the spirit of our Lord and Master and so gratefully every Christian is brought forward by the most representative men of the United States and the British Empire. The resolution is a great day, and a greater to the nations would stand shoulder to shoulder for peace, and a greater when the arbitration idea for settling all questions would permeate the whole world. The whole church and the whole of Canada stands for the arbitration of the British Empire and for peace with the United States and with the whole world. Rearrangement of Missions. The resignation of Rev. Dr. E. D. McLaren of Toronto as general secretary of the home missions, has resulted in a rearrangement of the forces in the Presbyterian assembly. Rev. A. S. Grant of Toronto was appointed general superintendent of missions, the assembly voting to increase his salary to \$3,000 a year and will also have a secretary to be appointed by the home mission committee. Rev. Dr. Carmichael of Winnipeg will continue as superintendent for Manitoba and Saskatchewan, but his salary has been increased to \$2,500 a year, and the committee was also empowered to appoint an assistant for him. The final steps for the separation of Queen's University from the church were taken as far as the assembly is concerned at the afternoon sederunt and committees were appointed to act with the trustees of the university in carrying out the necessary legislation to effect the separation. The inadequate salaries paid to the ministers was dealt with in the financial report presented by Mr. J. K. Macdonald of Toronto and in the augmentation report presented by Rev. J. H. Edmondson of Kincardine. Rev. Mr. Edmondson said it would be an evil day when men would be drawn into the ministry for the love of money, but they should not be driven from it by a certainty of poverty. There was considerable discussion by various commissioners as to the unfair financial treatment of ministers and stipends and the very meagre allowances made in the fund for the aged ministers. Question of Church Union. The assembly by a practically unanimous vote approved of the form in which the matter of the people is to be carried out, the great question of organic union with the Methodist and Congregational churches. A common platform was adopted and they will be asked to take a vote of adherents as well as communicants, and report to the clergy of the assembly before May 1, 1912. Three questions will be submitted: "Are you in favor of or against union with the Methodist and Congregational churches?" "Do you approve of the basis of union?" "Have you any suggestions or alternative to offer?" The age of adherents whose votes are to be taken was fixed at not less than 18 years, and their vote will be taken separate from that of the sessions and church members.

Political Intelligence

BORDEN TO ADDRESS FORTY MEETINGS
Original Program Much Extended Owing to Flood of Requests From Westerners.
OTTAWA, June 13.—(Special.)—Mr. Borden's repaid itinerary of the western provinces, as given by him to your correspondent to-night, shows that the original program has been much extended. The opposition lead will address no less than forty meetings in the provinces of Manitoba, Saskatchewan and Alberta, sometimes three on one day. The original list included only 25 meetings. The change from the original schedule is due to the flood of requests which has poured in from all parts of the country for meetings to be held, and, although some of these will necessarily be past week a party of Canadian expert consulting engineers had paid a visit of inspection to various proposed development sites along the River St. Lawrence for the purpose of making a report on power possibilities to H. S. Light, Heat and Power Company, and other Canadian capitalists, who are interested in power projects. It was stated further that these capitalists have been approached with a view to placing money in the New York Development Company's plant at Waddington, N.Y., the promoter of which is J. Wesley Allison of Morrisburg, and that after a minute examination, the consulting engineers had reported against the Waddington project. "I wouldn't like to say that that Brookville despatch was inspired by the minister of railways," said Mr. McNaught, "that would be going too far, but the whole article appears to have been inspired by some person or persons who don't know the facts as thoroughly as we do."

BABY DROWNED AT ISLAND
Wandered Away and Was Found in Shallow Water.
The 13-month old child of James Carey, watchman on the filtration plant at Centre Island, who lives in a little house close beside "McKay's Cut," was drowned in the cut at 6 o'clock last night. The little tot slipped out of the house while his mother was preparing supper and when she went in search of it she found it lying in the cut in two feet of water. James Carey and Miss Edgar, a nurse, were called from the Hospital for Sick Children and they worked over the little boy for an hour, but were forced at last to give up their task as hopeless.

MRS. GREGORY DEAD
Succumbed to Injuries Received From Metropolitan Car.
Mrs. John Gregory, struck by a southbound Newmarket car of the Metropolitan line Friday last, died in St. Michael's Hospital at six o'clock yesterday evening and Coroner Samuel Singer will open an inquest at the morgue at 4.30 this afternoon. The motorman of the car says that the woman crossed three times in front of his car and failed to clear the projecting front step the last time. Her right hip was fractured and there was also a deep laceration in the thigh.

LIGHTNING STRUCK HOSPITAL.
KINGSTON, June 13.—(Special.)—Lightning struck the general hospital and caused a fire in one of the rooms. The nurses, with great presence of mind, attached the hose in the building and extinguished the blaze. It broke out a second time and the nurses repeated the action.

PANAMA HATS.
There is something about a Panama that makes it the exclusive hat for mid-summer and a Panama hat wears well and can easily be made new again with the application of a little clean water. The Dineen Company is showing some new blocks just received from the tropics and which were purchased at very good prices from the traders. The Dineen Company displays a five-dollar line that cannot be duplicated beyond its doors for eight dollars. Other Panamas up to twenty dollars.

WILL W. F. NICKLE BE DOMINION CANDIDATE?
Such is the Talk in Kingston—Hon. Wm. Hartly To Retire—Mowat Liberal Candidate?
KINGSTON, June 13.—(Special.)—That W. F. Nickle, M.L.A., would be the next candidate for the Dominion house has been going the rounds here at various times, but it is not known for sure whether such will be the case. He is at present away on his honeymoon, but is expected in the city Thursday. At the time of his election it was predicted that he would be next candidate for Dominion honors, owing to the fact that he made such a good showing and gave the general impression that he would be able to carry his election by a good majority. It is admitted that Nickle is the strongest man the Conservatives have here at present. He is a man liked by both parties. It is pretty well understood that Hon. William Hartly will retire and be appointed to the senate, and in that case the probability is that Ex-Mayor John McDonald Mowat would be the Liberal candidate for Dominion honors. College graduates, having attended the university at the same time. Ex-Mayor Dan Cooper is also spoken of as the next Liberal candidate for the Ontario house, while Dr. Ross is mentioned as a possible candidate for the Conservatives.

IMPERIAL CITIZENSHIP SHOULD BE UNIFORM

Conference Adopts Resolution in Favor of Principle of Imperial Naturalization - Sir Joseph Ward Pleads for More Frequent Meetings of Imperial Conference.
LONDON, June 13.—The imperial conference was occupied to-day with questions relating to imperial citizenship. A resolution was adopted in favor of the principle of imperial naturalization under an act open to adoption by the dominion, with a view to securing uniformity in the recognition everywhere of British subjects. Resolutions also were adopted in favor of uniformity throughout the empire in the law relating to the acquisition, and for reciprocal action regarding the deportation of undesirable aliens.

Sir Joseph Ward, premier of New Zealand, in a speech at the colonial institute to-night, pleaded eloquently for a closer union of the empire than can be obtained by conference every four years. The present system excluded 15,000,000 of people from full imperial citizenship. In the hour of national peril, he declared, neither Great Britain nor her children could stand alone. Closer union for defence was a vital necessity. Resolutions Discussed. LONDON, June 13.—(C.A.P. Cable.)—The imperial conference to-day discussed the following resolutions regarding naturalization. From Australia, declaring the conference in favor of the creation of a system, which would give to the right of a dominion to legislate in regard to local naturalization, will permit the issue to persons fulfilling the prescribed conditions of citizenship of naturalization defective throughout the empire. From New Zealand, declaring it in the best interests of the empire that there should be more uniformity in the law of naturalization. From South Africa, declaring it desirable to review the principles underlying the draft of a bill on imperial naturalization before the details are discussed further. Hon. E. L. Batcher of Australia said that nothing could be done in the direction of imperial naturalization except by the parliaments of the dominions themselves. Divergencies of law in the various states must also be recognized, and no attempt could be made to bring about uniformity of law as far as local naturalization in the particular Dominion was concerned, as conditions upon application varied considerably in the different dominions, but it suggested that many thousands of people were coming to even the strictest conditions. Would it not be worth while to give imperial certificates of naturalization to such persons as did not comply with a standard embodying the most drastic conditions at present imposed? S. Malan asked whether it was contemplated a man applied for naturalization in the dominion of British law and his application was refused, say on the ground of character, he would be able to apply and obtain imperial naturalization, thus defeating the local law. Batcher replied that imperial naturalization would not be granted unless the applicant complied with the conditions in all the dominions. Conditions Different. Sir Wilfrid Laurier said that all the dominions had availed themselves of the naturalizing powers granted them by their constitutions, but in no two dominions were the conditions the same. The certificate given by a self-governing dominion was limited to the territory of that dominion. For instance, 100,000 Americans came to Canada every year, the greater part of whom sought naturalization at the time of their arrival in Canada. Some of them were American citizens. Such a position required modification. In regard to the question of the principle that there should be uniformity in the effect of naturalization wherever granted, and that the man, who was granted a British subject, should be recognized as a British subject everywhere. There was no objection to a variety of conditions as to the manner of granting naturalization in different dominions. It would be difficult to have the same methods everywhere, as circumstances varied too considerably. The subject was not brought out by his wife and children without paying so much for each one. Many Chinese men, who were unable to get home to come out here, and make a living, let alone save enough money to pay the prohibitive tax. Speaking of the boy, Mr. Brown said that he was an irregular attendant of his church and Sunday school, and that he always seemed cheerful. "I cannot understand it in any other way," said Mr. Brown, "than that he was lonely. I have endeavored at his school, where he was apparently well liked, but I have been unable to find any reason for his being so lonely. I know of no man whom I have met more times at church and when calling there."

ONE DOMINION LAW OF MARRIAGE IS NEEDED
Bishop Williams Deals With "No Temere" Decree—Roman Church Has Thrown Down Gauntlet.
STRATFORD, June 13.—Before a large audience of the members of the synod of the Diocese of Huron, as well as many visitors who crowded the galleries, the Bishop of Huron delivered his charge this afternoon and the work of the 54th session of the synod was formally begun. The charge presented by the bishop was one of the strongest and most comprehensive delivered since becoming head of the Diocese of Huron. He declared that he firmly believed that a plebiscite taken among the people of Ontario would show a great majority in favor of having the Bible taught in the public schools. "The Roman Church has thrown down the gauntlet to the people of this country," he said, "and in the Province of Quebec, where the Roman Church is the dominant power, the moral results of which are appalling, and the work of the Holy Spirit is being stifled by any other agency, would be regarded as inhuman. How are we to meet the challenge? "Marriage in Canada, he held, must be regarded as indissoluble when performed by any duly authorized priest, and solemnized marriage. With this was the need of the Dominion law of marriage, safeguarding the rights of the ecclesiastical organization to interfere in the civil rights of persons so united or with their offspring. "Until we obtain this," he said, "Canada is not a free country, nor a country where all are equal before the law."

HEAD TAX ON CHINESE LED TO BOY'S SUICIDE
Cut Off From Family, Boy's Loneliness Drove Him to Desperation.
"I think the Chinese head tax incidentally to blame for the boy's rash act," said Rev. George Brown of the Church of Christ, speaking to the World concerning John Dai Tak, the young Chinese lad who hanged himself early last Saturday morning. Mr. Brown conducted the funeral service yesterday, when the remains were laid away in Mount Pleasant cemetery. "On account of the \$500 which the father would have to pay to bring out his wife and children, and which he, a Vancouver tea merchant, could ill afford, the man was unable to unite in Canada. I think the boy was just lonely, for he was always well dressed and supplied with pocket money. "This sending missionaries to China is all right, but it is a pity that we do not treat the Chinese people a little better in Canada, and do more missionary work for them in our own city. It seems strange to me that in a free country a man desiring here can not bring out his wife and children without paying so much for each one. Many Chinese men, who were unable to get home to come out here, and make a living, let alone save enough money to pay the prohibitive tax. Speaking of the boy, Mr. Brown said that he was an irregular attendant of his church and Sunday school, and that he always seemed cheerful. "I cannot understand it in any other way," said Mr. Brown, "than that he was lonely. I have endeavored at his school, where he was apparently well liked, but I have been unable to find any reason for his being so lonely. I know of no man whom I have met more times at church and when calling there."

Too Late for the Census.
A G.T.R. special arrived at the Union Station last night bringing immigrants from the U.S. Canada and Saturday, and 85 of them left for the west, the remainder staying in the city. A C.P.R. special train arrived at 7.30 yesterday evening, bringing 130 immigrants, mostly foreigners, from the U.S. Station. About 25 stayed in Toronto, the remainder leaving for Chicago.

REVEALED NAVAL SECRETS
BERLIN, June 13.—Herr Krueger, a retired naval constructor, charged with betraying naval secrets, but without treacherous intent, was to-day sentenced to three months in a fortress. According to the latest report Krueger revealed to the British authorities the armament details of the German battleships of the Nassau type.

CONFERENCE ADOPTS RESOLUTION IN FAVOR OF PRINCIPLE OF IMPERIAL NATURALIZATION - SIR JOSEPH WARD PLEADS FOR MORE FREQUENT MEETINGS OF IMPERIAL CONFERENCE.
LONDON, June 13.—The imperial conference was occupied to-day with questions relating to imperial citizenship. A resolution was adopted in favor of the principle of imperial naturalization under an act open to adoption by the dominion, with a view to securing uniformity in the recognition everywhere of British subjects. Resolutions also were adopted in favor of uniformity throughout the empire in the law relating to the acquisition, and for reciprocal action regarding the deportation of undesirable aliens.

Sir Joseph Ward, premier of New Zealand, in a speech at the colonial institute to-night, pleaded eloquently for a closer union of the empire than can be obtained by conference every four years. The present system excluded 15,000,000 of people from full imperial citizenship. In the hour of national peril, he declared, neither Great Britain nor her children could stand alone. Closer union for defence was a vital necessity. Resolutions Discussed. LONDON, June 13.—(C.A.P. Cable.)—The imperial conference to-day discussed the following resolutions regarding naturalization. From Australia, declaring the conference in favor of the creation of a system, which would give to the right of a dominion to legislate in regard to local naturalization, will permit the issue to persons fulfilling the prescribed conditions of citizenship of naturalization defective throughout the empire. From New Zealand, declaring it in the best interests of the empire that there should be more uniformity in the law of naturalization. From South Africa, declaring it desirable to review the principles underlying the draft of a bill on imperial naturalization before the details are discussed further. Hon. E. L. In regard to the question of the principle that there should be uniformity in the effect of naturalization wherever granted, and that the man, who was granted a British subject, should be recognized as a British subject everywhere. There was no objection to a variety of conditions as to the manner of granting naturalization in different dominions. It would be difficult to have the same methods everywhere, as circumstances varied too considerably. The subject was not brought out by his wife and children without paying so much for each one. Many Chinese men, who were unable to get home to come out here, and make a living, let alone save enough money to pay the prohibitive tax. Speaking of the boy, Mr. Brown said that he was an irregular attendant of his church and Sunday school, and that he always seemed cheerful. "I cannot understand it in any other way," said Mr. Brown, "than that he was lonely. I have endeavored at his school, where he was apparently well liked, but I have been unable to find any reason for his being so lonely. I know of no man whom I have met more times at church and when calling there."

REVEALED NAVAL SECRETS
BERLIN, June 13.—Herr Krueger, a retired naval constructor, charged with betraying naval secrets, but without treacherous intent, was to-day sentenced to three months in a fortress. According to the latest report Krueger revealed to the British authorities the armament details of the German battleships of the Nassau type.

CONFERENCE ADOPTS RESOLUTION IN FAVOR OF PRINCIPLE OF IMPERIAL NATURALIZATION - SIR JOSEPH WARD PLEADS FOR MORE FREQUENT MEETINGS OF IMPERIAL CONFERENCE.
LONDON, June 13.—The imperial conference was occupied to-day with questions relating to imperial citizenship. A resolution was adopted in favor of the principle of imperial naturalization under an act open to adoption by the dominion, with a view to securing uniformity in the recognition everywhere of British subjects. Resolutions also were adopted in favor of uniformity throughout the empire in the law relating to the acquisition, and for reciprocal action regarding the deportation of undesirable aliens.

Sir Joseph Ward, premier of New Zealand, in a speech at the colonial institute to-night, pleaded eloquently for a closer union of the empire than can be obtained by conference every four years. The present system excluded 15,000,000 of people from full imperial citizenship. In the hour of national peril, he declared, neither Great Britain nor her children could stand alone. Closer union for defence was a vital necessity. Resolutions Discussed. LONDON, June 13.—(C.A.P. Cable.)—The imperial conference to-day discussed the following resolutions regarding naturalization. From Australia, declaring the conference in favor of the creation of a system, which would give to the right of a dominion to legislate in regard to local naturalization, will permit the issue to persons fulfilling the prescribed conditions of citizenship of naturalization defective throughout the empire. From New Zealand, declaring it in the best interests of the empire that there should be more uniformity in the law of naturalization. From South Africa, declaring it desirable to review the principles underlying the draft of a bill on imperial naturalization before the details are discussed further. Hon. E. L. Batcher of Australia said that nothing could be done in the direction of imperial naturalization except by the parliaments of the dominions themselves. Divergencies of law in the various states must also be recognized, and no attempt could be made to bring about uniformity of law as far as local naturalization in the particular Dominion was concerned, as conditions upon application varied considerably in the different dominions, but it suggested that many thousands of people were coming to even the strictest conditions. Would it not be worth while to give imperial certificates of naturalization to such persons as did not comply with a standard embodying the most drastic conditions at present imposed? S. Malan asked whether it was contemplated a man applied for naturalization in the dominion of British law and his application was refused, say on the ground of character, he would be able to apply and obtain imperial naturalization, thus defeating the local law. Batcher replied that imperial naturalization would not be granted unless the applicant complied with the conditions in all the dominions. Conditions Different. Sir Wilfrid Laurier said that all the dominions had availed themselves of the naturalizing powers granted them by their constitutions, but in no two dominions were the conditions the same. The certificate given by a self-governing dominion was limited to the territory of that dominion. For instance, 100,000 Americans came to Canada every year, the greater part of whom sought naturalization at the time of their arrival in Canada. Some of them were American citizens. Such a position required modification. In regard to the question of the principle that there should be uniformity in the effect of naturalization wherever granted, and that the man, who was granted a British subject, should be recognized as a British subject everywhere. There was no objection to a variety of conditions as to the manner of granting naturalization in different dominions. It would be difficult to have the same methods everywhere, as circumstances varied too considerably. The subject was not brought out by his wife and children without paying so much for each one. Many Chinese men, who were unable to get home to come out here, and make a living, let alone save enough money to pay the prohibitive tax. Speaking of the boy, Mr. Brown said that he was an irregular attendant of his church and Sunday school, and that he always seemed cheerful. "I cannot understand it in any other way," said Mr. Brown, "than that he was lonely. I have endeavored at his school, where he was apparently well liked, but I have been unable to find any reason for his being so lonely. I know of no man whom I have met more times at church and when calling there."

CIVIC SANITARIUM MAY BE ESTABLISHED

Sub-Committee of the Board of Control Will Take the Matter Under Consideration.

The question of establishing a tuberculosis sanitarium in connection with the new Toronto Isolation Hospital, and also the advisability of having a central civic dispensary for tuberculosis cases, is to be dealt with this week.

The new central dispensary for which we have asked the city council is practically indispensable in fighting the tuberculosis plague in Toronto.

Nothing commensurate with the needs is being done along this line at present. We have two trained nurses out caring for some of the cases, and that is absolutely all that is being done along this line in the city.

The whole tuberculosis problem has to be grappled with in an adequate and effective manner, and that is certainly not being done at present.

MILITIA CHANGES.

OTTAWA, June 13.—(Special).—Militia orders announce the transfer of the headquarters of the second brigade Canadian Field Artillery from Hamilton to Toronto.

T. A. Slocum Company Wound Up. An order was granted by Chancellor Boyd at Osgoode Hall yesterday, to wind up T. A. Slocum Ltd., according to the petition made by the Ontario Press.

THE SHAME OF GODERICH. Goderich town wakes Huron's shores with many a howl.

Goderich town looks fair to-day: Her curlew keels, her hawks dip, As her crews alight, when wings of white.

Fine Dutch Water Colors. No collector, interested in modern art, should miss the opportunity offered at the sale of Dutch water colors.

Spring Finds the Human System Loaded With Impurities, Which Cause Pains, Aches and Feelings of Fatigue.

When the Liver and Kidneys Are Overworked and Break Down Get Them Right by Using DR. CHASE'S KIDNEY-LIVER PILLS.

In the spring the human system is loaded with impurities which have accumulated as a result of artificial winter life.

The liver and kidneys struggle to overcome this condition, but the task is too great for them and they get beat.

They must have help, such as is given them by the use of Dr. Chase's Kidney-Liver Pills.

One pill a dose, 25 a box, at all dealers or Edman, Bates & Co., Limited, Toronto.

EATON'S DAILY STORE NEWS

A Clean-up of Neglige Shirts, 98c

Every few weeks we find only a few odd sizes left in different lines in our popular priced neglige shirts. These shirts we must get rid of quickly to prevent the accumulation of them in too great numbers.

To that end we have marked them all at one price for a rush hour's opening to Thursday business in the Men's Furnishing Department. There are some shirts at a big reduction, but you'll have to be here early to get them, mostly coat styles, some pleated fronts, the popular patterns of materials that will wash well and wear well, well made with neat attached cuffs.

Ties Popularly Priced, 12 1/2c

The materials from which these ties are made were purchased at very close prices because we bought in large quantities and bought direct from the manufacturers, and the ties were made up in our own workrooms.

Men's Summer Undershirts, 29c

You can buy them at this low price because there's no drawers to match them. A special purchase of manufacturer's odd lots, broken lines, seconds, and surplus stock, mesh and balbriggan; some are slightly soiled, but they'll give excellent wear; lightweight for warm weather, well finished and strongly bound.

Strong Shirts to Work In. Shirts that will prove excellent for mechanics, are made of hard-wearing Oxford shirting, in light and medium shades, and striped patterns that will not soil easily.

EARLY CLOSING As in May Store Closes Saturdays at 1 p.m. During June, July, August. No Noon Delivery Saturdays.

HEAVY SUCCESSION DUES

Two Large Estates Will Net Considerable Sum.

A considerable amount of money will go to the province as the percentage duty on two large estates, which have just been registered in the succession duty department of the parliament.

On March 17, 1911, Peter Whelan died at Ottawa, leaving an estate valued at \$26,000, which devolved upon his widow and five children.

The second estate is that of Hugh Waddell of the Township of North Monaghan, in the county of Peterborough, whose gross estate is figured at \$42,000.

Dr. Thomas James Rigby severe in police court yesterday that he did not perform a criminal operation on Mary Amor a week ago.

Connection of Telephone Companies. The Ontario Railway and Municipal Board has appointed Tuesday, June 20, as the date for hearing the application of the Consolidated Telephone Co., Ltd., against the Bolton Telephone Co., Ltd.

Judge McCrimmon Dead. WHITBY, June 13.—Judge Nell McCrimmon, senior judge of Ontario County, passed away at his home at Whitby late last night after a lingering illness.

Globe Can't Collect Bill. The Globe Printing Company sued Graham Bros of Claremont, for \$20 alleged due on a reading notice for the latter's horses at the exhibition.

Who killed the girl in Goderich? Speak "Jardine," cry you and all: "He had a brain diseased and weak. And answered, 'But its call.'"

You need not slay Jardine this day. O men of Goderich blast: You killed him long ago, and laid his better self to rest.

Whisper in a boy's soft ear. Uttered the long ago. Had kept his manhood from arrear.

Goderich town wakes Huron's shores With many a gentle call. Fairer town did never look down Where billows rise and fall.

A thousand chafing white steeds fret Where the ragged sand wounds heal. But up on her hill, she is planning to kill The brain of an imbecile.

The title of a broken seal, which God Alone should be called to break. 'Tis His to keep the evening rod, And the throat of justice shake.

Goderich town wakes Huron's wave With a stifled morning cry. And to-night her foot will press a grave Where a brain-sapped wretch dot'd lie.

MORE STORM HAVOC

Lad Struck While Standing in School House Doorway.

BROOKVILLE, June 13.—(Special).—Reports are coming in of the havoc wrought by the severe electrical storm, which passed over this county, Tuesday, that a large number of cattle, sheep and horses were killed in pastures by lightning.

As the two principal heirs of this estate each receive upwards of \$200,000, the duty is levied on a 4.5 per cent basis, making the provincial receipts about \$30,000.

Evidence taken to-day showed that the pole was rotten; but there was contradictory testimony as to whether or not the deceased had swung on the guy rope.

What is the objection to payment? "Laid on too thick," answered his honor, giving judgment for the defendant with costs.

SUES FOR \$75,000. MONTREAL, June 13.—A damage suit for \$75,000 was commenced to-day against the Mercantile Telephone Co. and the City of Montreal before Justice Pihler, Mrs. Bruce Curry being the plaintiff.

CIVIC BUILDING BYLAWS MUCH MISREPRESENTED

Only Call For a Reasonable Factor of Safety—Have Turned Few Concerns Away.

"All a fairy story," said G. F. W. Price, assistant city architect, yesterday, when shown the statement by the president of the Gillette, Co., that a building of concrete would take \$300,000 to construct in Toronto as compared with \$15,000 in cities just as big.

"How is it that there is practically only one reinforced concrete structure in Toronto?" asked The World.

"Who says that? Oh! the newspaper report. Well, there's more wrong information there. What about the Fairbanks-Morse and Conboy buildings? As a matter of fact, architects are by no means unanimous in favor of reinforced concrete as a building material.

"If it is true that concerns have been prevented, by stringent bylaws, from building in Toronto?"

"Not that, we have never been able to discover," said Mr. Price. "I know of just one instance where a company kicked against our building bylaws, and refused to build here, alleging that they were too strict."

"The whole matter is receiving much additional notice just at this time, because of the statement by the E. W. Gillette, Co., who have a factory for baking powder and allied products at King and Duncan streets. They have sold this building and have a new site on the old baseball grounds below King-street.

"On arriving at Montreal they will board the Royal Edward, belonging to the C.N., and the party will have the best accommodation that can be provided for them."

THEIR GOLDEN WEDDING

Dr. McLaren and Mrs. McLaren Honored by Friends.

An interesting and pleasant event occurred yesterday at the home of Dr. Hugh McLaren on Robert-street, the occasion being the celebration of the golden wedding of Dr. and Mrs. McLaren. Amid profuse decorations of palms, evergreens and yellow poppies, the venerable couple were seated, surrounded by seventy relatives.

The occasion was made all the more interesting by the presence of Samuel Dice of Milton and Mrs. Jonathan Bales of Newmarket, who acted as groomsmen and bridesmaids at Dr. and Mrs. McLaren's wedding fifty years ago.

Dr. McLaren was born in Epimoua in 1833 and in June, 1861, he married Miss Janet Marshall of Trafalgar, Halton County. The minister who performed the ceremony was the late Rev. Dr. Skinner of Waterdown. Dr. McLaren is now retired from the practice of dentistry and has been living in Toronto for several years.

The seventy relatives, who attended the golden wedding yesterday, include well-known residents of Halton, Milton, Oakville, Palermo, Burlington, Salt, London and Elgin, Ill.

FOUNDED 1880. A Morning Newspaper published Every Day in the Year. WORLD BUILDING, TORONTO.

will pay for the Sunday World for one year, by mail to any address in Canada or Great Britain. Delivered in Toronto or for sale by all newsdealers and newsboys at five cents per copy.

Subscribers are requested to advise us promptly of any irregularity or delay in delivery of the World.

WEDNESDAY MORNING, JUNE 14, 1911.

A RATIONAL SUNDAY.

The report of the committee on observance of the Lord's Day to the Anglican Synod is supplemented by a minority report which represents public opinion to a greater extent than the authorities in any denomination are probably willing to believe.

The majority report says that "employers of labor everywhere are beginning to recognize the right of their employees to a weekly day of rest." But it is a doubtful inference to suppose that the Lord's Day Alliance is responsible for this. And it is equally untrue to suppose that the labor movement for a Sunday rest has a religious basis. It is generally agreed that it is purely economic.

The minority report disagrees with the majority one chiefly on what the late archbishop called a rational observance of Sunday. The minority sees no reason "if there are a sufficient number of intellectual people desiring the opening of public libraries on Sunday, or if the mechanics and their families, hard worked during the week, desire to use the public parks and rinks for healthy diversion from their monotonous labor," why these rights should be withheld.

The church that uses its common sense in this Christian fashion will be the church of the future.

CONFIDE IN THE CENSUS MAN.

Some smart Alecks may consider it a splendid joke to load up the census enumerators with false information. There is a peculiar fate attending the career of liars, whether joking or in earnest, which is worth attention. The census returns are often called on in Great Britain to establish identity, age, and other matters involving property. Some years ago the Irish census records of 1841 were sought for evidence in an inheritance case. The failure of the records to give a correct statement of a woman's age largely determined the decision. She had made herself out ten years younger than she was, and the court ruled that she could not be the woman that was needed in the chain of descent. It never pays to misrepresent, and it does no harm to state the facts.

BUSINESS AMENITIES.

The Toronto Electric Light Co. explains that there has been no use made of the burned-out lamps for some time, and adds that the statement that they are issued is absolutely false from end to end. In this way recrimination and contradiction is perpetuated, and not to the edification of the public.

We believe if the Toronto Electric Light Co. in its future communications to its customers will refrain from offensive allusions to the city hydro-electric system, the city authorities will let the Toronto Electric Light Co. severely alone. The city and the company should be able to get along like two departmental stores, which do not spend time decrying each other's wares or criticizing each other's methods.

There is only one way to get business, and that is by doing business. Be civil. Be obliging. Accommodate your customers. Sell as cheap as you can. Deliver the goods. Whoever does this best will get the custom.

WADDINGTON POWER.

Mr. W. K. McNaught expresses the view which will be generally taken concerning the statements made in a despatch from Brockville about the Waddington Power Co. and its contract with the hydro-electric power commission. Statements from Brockville about the hydro-electric commission should always be carefully scrutinized. The interests there which desire the exploitation of the Long Sault power for private ends are naturally hostile to any measure that makes the exploitation of the public, either directly or thru its resources, difficult. Hon. Adam Beck has promised cheap power to the belt of eastern municipalities of which Brockville is one. Hon. G. P. Graham declared he did not care where cheap power came from as long as it came soon, and if he refrains from putting obstacles in its way, the hydro-electric commission plan will furnish the cheapest power in the shortest time.

MERGERS AND WATERED STOCK.

In an editorial leader on the centralization of the bread business The Globe instances the Standard Oil Company or any other of the great trusts "that have become a peril to civilization across the border." After forcing out their competitors all the economies that were the fruit of centralization and moderation, remarks The Globe, were capitalized and distributed to the members of the trust in the form of watered stocks and dividends upon watered stocks. Further on it notices the financial side of mergers and observes: "If a million dollars' worth of assets in cement, or paint or bread-producing concerns are being blown up to five or ten millions the public should be told so in plain words, and so should the purchasers of merger stock. In that way there would be protection for the consumer against the cry that it would be unfair to punish innocent investors or deprive them of dividends on stock purchased in good faith. The earmarking of watered stocks by act of the legislature is fast becoming necessary."

While it is not at all probable that any possible centralization of the bread business will succeed in emulating the unenviable record of the Standard Oil trust or other similar monopoly, the comments of The Globe on watered stock deserve none the less publicity. They are all the more surprising since it is a favorite thesis of the Liberal and free trade organ that the issue of watered stock hurts nobody but the shareholders themselves. We are, however, glad to see that our contemporary is beginning to appreciate the injury inflicted on the public by over-capitalization and recognizes that legislative control is fast becoming necessary. Wrong enough has been done the consumer by the great trusts that control prices, but it falls short of that coming from the over-capitalization of public services and utilities. The World has long contended that all stock and bond issues should be subject to government control, such as is now exercised in the many states of the United States. The Globe could do excellent service by advocating a reform urgently called for in the public interest.

QUEBEC BRIDGE CONTRACT.

Sir Wilfrid Laurier's reply to the charge of unfairness in awarding the Quebec Bridge contract was far from satisfactory. He surely cannot imagine that the government is sufficiently vindicated by the bare statement that it was guided by and acted on the recommendation of a majority of the board of engineers without reference to the circumstances attending the award of the contract. So far as can be gathered the design of the bridge, for the construction of which tenders were asked, had been carefully considered by the experts to whom it had been left and presumably represented the last word on the subject. The British company tendered in accordance with the invitation, and was admittedly the lowest in price. Other requirements having been met satisfactorily it was in common fairness entitled to be entrusted with the work. The firm that secured the contract, it is understood, proposed certain changes in the design and tendered accordingly. The changes were approved by the board, but no opportunity was afforded the companies tendering under the official specification to revise their offers to meet the amended design. If this is a correct version of what happened it is difficult to escape the conclusion that the British tenderers were unfairly treated and have every right to protest. When tenders are asked without limitation to Canadian firms scrupulous care should be exercised to avoid even the suspicion of unfairness. Nor can the government avoid responsibility by harking back on the board of engineers. The actual award of the contract is not a technical affair, and the government cannot discharge itself from the responsibility of dealing equitably with all firms tendering in response to its invitation.

GENTLE ART OF WOBBLING.

One of the worst exhibitions of corruption influence in recent years was given the citizens at the council meeting on Monday night. A great deal more is involved than the mere widening of Yonge and King-streets, imperatively necessary as that step will eventually be seen to be. The recommendation of this policy by the board of control was carried, in spite of lobbying influences, by a vote of 12 to 10 in committee. Ald. Maguire, as usual, then led the reactionaries, and will be coupled with Mayor Oliver as an opponent of wider streets. Under lobby pressure the plan was shelved.

Ald. Graham said there would be more excuse to widen the corners of Queen and Yonge, or of Carlton and Yonge-streets, but he does not seem to have the courage of his opinions or he would consistently propose and support such a measure.

The proceeding all went to show that for ability to stultify itself—in plain English, to make a fool of itself—Toronto City Council is unrivaled.

The Globe says we should not suggest that girls grow like weeds, but like clematis. The Globe evidently likes the clinging sort.

The Evening Star delivered a neat little homily on pronunciation last night. Did you ever observe a genuine Toronto man pronounce the word forward? He always says forward. Englishmen are unable to distinguish between ar and ah. Inverness and Dublin preserve the classic standards.

ANNOUNCEMENTS.

June 13, 1911. Motions set down for single court for Wednesday, 14th inst., at 11 a.m.:

- 1. McKenzie v. Elliott. 2. Re Cloney Estate. 3. Re Leadley Estate. 4. Re Meade Estate. 5. Re Zuber and Hollinger.

Peremptory list for divisional court for Wednesday, the 14th inst., at 11 a.m.:

- 1. Hessey v. Quinn. 2. Ashick v. Hall. 3. Dunn v. Chalmers. 4. Coscia v. Northern Navigation Co. 5. Coscia v. Northern Navigation Co. 6. Miller v. Kaufman.

Master's Chambers.

Before Cartwright, K.C., Master. Massey-Harris v. Root Lumber—S. Watson for plaintiffs. Motion by plaintiffs for an order setting aside service of same and of statement of claim on defendants in Wisconsin. Order made.

Waddell v. Moment—R. R. Waddell for plaintiff. Motion by plaintiff on consent for an order dismissing action without costs and vacating certificate of its pendency. Order made.

Laidlaw Co. v. Baker—W. D. Gwynne for defendant Ryerson. G. F. McFarlane for plaintiff. Motion by defendant for an order dismissing action for want of prosecution. Order made dismissing action with costs.

Re Horseshoe Quarry Co. and St. Mary's and Western Railway—F. Segsworth for liquidator Quarry Company. Motion by the liquidator of the Horseshoe Quarry Co. judgment creditors, for an order for a commission made; returnable 19th inst. Order made.

Re Haves-Gibson v. Haves—H. D. Gamba, K.C., for plaintiff. F. R. Maclellan for defendant. Motion by plaintiff for an order for a commission to take evidence at Edmonton, and also to set aside appointment for examination of J. H. Haves for discovery. Enlarged at defendant's request until 22nd inst.

York County Loan v. Wilkie—Colohan (Scott & S.) for plaintiffs. Motion by plaintiffs in consent for a final order of foreclosure against all the defendants. Order made.

Judge's Chambers.

Before the Chancellor. Re Blinn—F. W. Harcourt, K.C., for infant. Motion on behalf of infant for an order for payment out of court of infant's moneys. Order made.

Re Harcourt—W. J. Holmes for applicant. F. W. Harcourt, K.C., for infant. Motion by mother for an order for payment out of court. Order made.

Re McElhannon—W. H. Price for applicant. Motion by mother for an order for payment out of her of moneys at court. Order made.

Toll—W. R. P. Parker for applicant. F. W. Harcourt, K.C., for infant. Motion by plaintiff for an order confirming report of the master at St. Catharines. Order made.

Re York—J. W. Maclellan for administrator. F. W. Harcourt, K.C., for infants. Motion by administrator for an order authorizing him to purchase certain property for the sum of \$4000. Order made under the Devolution of Estates Act.

Re Drury—F. W. Harcourt, K.C., for infant. Motion on behalf of infant for an order for payment out of moneys for purpose of buying trousseau. Order made.

Re Thornton—J. G. Smith for applicant. F. W. Harcourt, K.C., for infant. Motion for an order allowing sale free from the claims of infants and infants' moneys. Order made.

Re Dr. T. A. Slocum Co.—J. H. Spence for petitioner. W. D. Thurston, K.C., for the company. Motion by a creditor for a winding-up order. Order made. Reference to Geo. Kappela, K.C. The Trusts and Guarantee Co. appointed interim liquidators.

Re Cramp—F. W. Harcourt, K.C., official guardian. Motion by official guardian for an order for the distribution of a deceased infant's share. Order made.

Re Hunter—F. W. Harcourt, K.C., for infants. Motion on behalf of infants for an order for the payment of their shares into court. Order made.

Re Morris—F. W. Harcourt, K.C., for infant. Motion on behalf of infants for an order authorizing the payment of infants' moneys and deposit of stock certificates of infants, into court. Order made.

Re Davidson—F. W. Harcourt, K.C., for infants. Motion on behalf of infants for an order authorizing sale of infants' land. Order made.

Re Balnes—F. W. Harcourt, K.C., for infant. Motion on behalf of infant for an order authorizing payment of infant's moneys. Order made.

Thompson v. McGivern—J. H. Spence for defendant. E. C. Cattanach, for plaintiff. An appeal by defendant from an order of the master in chambers. Stands sine die.

Before Teetzel, J.

Re Morris—A. R. Hassard, for administrators. Motion by National Trust Co., administrators of the estate of Ethel H. Morris, for an order authorizing applicants to pay over estate, they having duly advertised for creditors. Order made.

Single Court. The Chancellor.

Re Keenan—J. G. Smith, for widow. A. Jackson (Lindsay), for all the children. Motion by Bridget Keenan, widow of Thomas Keenan, for an order confirming her appointment of William Flavell as trustee in the place and stead of Patrick Curran, deceased, sanctioning the sale of lands by him and paying over the proceeds to applicant pursuant to consent of children, dispensing with passing accounts and release of the trustee on paying over said proceeds. Order made.

Before Falconbridge, C.J.

Garthorne v. Wickerson—P. H. Bartlett (London) for plaintiff. J. B. McKillop (London) for defendant Mabel Wickerson. Motion for an order for representation of heirs at law and next of kin.

Judgment: I make the following order: (1) Order striking out the defendants, other than the defendant, Mabel Wickerson; (2) declaring that the plaintiff sufficiently represent the heirs at law and next of kin of Garthorne, deceased, and that the judgment upon the trial of the action shall bind them as they were parties hereto; (3) that the order, together with a copy of the statement of claim, shall be within one week mailed to each of the said heirs and next of kin by registered letter, postage prepaid, at their present addresses; (4) that any of the said heirs or next of kin not content to be so represented shall apply to be made parties to this action or to vary this order at any time within two months from the mailing of the said copies; (5) that the action be no entered on file for ten weeks from the mailing of the said copies.

Divisional Court.

Before Falconbridge, C.J.; Britton, J.; Riddell, J.

Foxwell v. Kennedy—W. Proudfoot, K.C., for plaintiff. E. D. Armour, K.C., for defendant James Foxwell. A. Proudfoot for defendant James Foxwell, Madeline and Frederick Kennedy, W. J. Anderson for defendant David and Joseph Kennedy, W. A. Skene for defendant Marion Hill. An appeal by plaintiff from the judgment of Teetzel, J., of March 1, 1911, in the case of Foxwell, Kennedy and a granddaughter of David Kennedy, and a devisee under and one of the executors named in his will, who renounces her right to probate of said will, brought this action to set aside her renunciation and for a declaration that she is still one of the trustees under said will, for an order for maintenance and allowance and set aside an agreement of sale between James H. Kennedy and Snydam Realty Co., and for construction of said will. The judgment complained of refused plaintiff's application and dismissed her action except the claims set up in paragraphs from fifteen to twenty-three of statement of claim, etc., with costs. Appeal partially argued, but not concluded. To be continued May 15.

Judgment: We are of opinion that the judgment below is right for the reasons set out in Foxwell v. Kennedy. Appeal partially argued, but not concluded. To be continued May 15.

The plaintiff then has no interest in the interpretation of the will and her appeal and the objectionable part of her action should be dismissed with costs. The application of certain of the defendants to be made plaintiffs should not at this stage be granted. No doubt the court has power to make such an order, but the circumstances of this case are not such as to call for the exercise of such power, nor can any provision be made for the payment of costs of the defendants, other than James H. Kennedy, supporting as they did the claims of the plaintiff.

Kennedy v. Kennedy—A. J. R. Snow, K.C., for plaintiff. E. D. Armour, K.C., for defendant, Jas. H. Kennedy. An appeal by plaintiff from the judgment of Latchford, J., of January 20, 1911. Counsel for plaintiff states that he adopts the argument of counsel for the plaintiff in Foxwell v. Kennedy, upon the merits of the action.

Judgment: We have now had the advantage of a very full and able argument of this case upon the merits. For reasons set out in Foxwell v. Kennedy we are of opinion that the appeal fails so far as the main ground is concerned, and we think the same result must follow in the matter of the claim of the plaintiff to be added as the assignee of Frederick Kennedy. The appeal should be dismissed with costs.

Before Falconbridge, C.J.; Teetzel, J.; Latchford, J.

Bartlett v. Bartlett Mines—J. W. Bain, K.C., and M. L. Gordon for defendants. H. Cassels, K.C., for plaintiff. An appeal by defendants from the judgment of Latchford, J., of 18th March, 1911. This was an action to recover \$2500, alleged to be due by defendants to plaintiff for one year's salary as mineralogist of defendant company. Defendants denied that plaintiff was ever employed by defendants as mineralogist or in any other capacity, and the trial judgment was awarded plaintiff for \$2500 and costs. Appeal argued and judgment reserved.

LIVE QUESTIONS IN NORTH TORONTO.

Editor World: Having been for the 25 years a resident and also property holder in the Town of North Toronto, I naturally feel a great interest in its future welfare, and am also fully alive to the critical stage at which the growing municipality has come at the present time, and also as to what it must become part and parcel of the city. Why not take it now, and handle such questions as follows:

1.—The railway question, a most serious one.

2.—The parallel roads, a necessity to town and city.

3.—The bringing down of Yonge-st. now is the time.

4.—The bringing down as far as Deer Park, spring water.

5.—The sewage question.

6.—Adequate police and fire protection.

7.—A Sunday car service.

8.—The minor matters which would right themselves after annexation.

As to the rights, or assumed rights of the York radius, we, of course, must respect vested rights, and those rights only call for a one-track franchise, (no Sunday cars), for which it pays no mileage. Yet the C. N. Railway and

Murray-Kay Limited

Arm Rocker, \$2.00. Cluta Rush Tables, \$3 to \$8.50. Cluta Rush Arm Chair, \$10.50.

Furniture for the Porch or Verandah

If you have not seen our Summer stock of Verandah Furniture and Furnishings, you probably have no idea of the immense variety of Chairs, Rockers, Settees, Tables, Stands, Swings, etc., available for making these out-door rooms inviting and comfortable. Just now we devote a large section of our first floor in the Kay store to a display of furniture of this class in Reed, Willow, Cluta Green Rush, Chinese Fibre, and in varieties strongly built of wood, with seats or seats and back of plaited reed. Furniture of the latter class is especially well adapted for verandahs more or less exposed to an occasional shower. It is stoutly built of hardwood, finished natural or in pleasing shades of red, brown or green; sturdy, well-proportioned furniture, and decidedly comfortable.

There are small chairs at \$1.05, \$1.65 and \$2.15. Small Rockers at \$1.10, \$1.60 and \$2.10. Medium-Size Arm Chairs and Rockers at \$2.00, \$3.00 and \$3.50. Arm Settees for two, plain or on rockers, at \$6.00 and \$6.50. High-Back Arm Rockers and Arm Chairs at \$4.00 to \$6.00, and Swings at \$7.50, \$11.00 and \$16.00.

In other makes, such as Cluta Green Rush, Reed or Rattan, Chinese Fibre or Willow, we have:

- Sofas and Settees, Chairs and Rockers, Arm Chairs, Five O'Clock Tea Tables, Magazine Stands, Cake Stands, Etc., etc. Lounges, Pedestals, Work Tables, Umbrella Holders, Waste Baskets, Palm Stands, Etc., etc.

In a very large variety of shapes, designs, sizes, finishes and prices. These, of course, are equally useful for the indoor rooms of town or country houses.

(Formerly of Winnipeg, Man.) Burial Thursday at 2 p.m. Interment at Mt. Pleasant Cemetery. HEWITT, Adeline, drowned off Lorne Park on June 11, 1911, Arthur Inshaw Hewitt, beloved elder son of Mr. and Mrs. Arthur Hewitt, aged 17 years 11 months. Burial from 114 South Drive on Wednesday, June 14, at 2.45 p.m.

A SEVENTEEN STOREY MYTH

Report of New Hotel on Adelaide-street Not Confirmed. "Nothing to it." That's about all that could be learned regarding the statement in an evening paper that a big hotel would soon boom its seven-story storeyed height upon that old historic site, the northwest corner of Adelaide and Bay.

The owners, the Metropolitan Bank, have not sold the corner nor will not, until they can find a place equally as good for their head office building. And so far it is believed efforts to locate another corner down-town have proved fruitless. After a careful survey to-day of the premises failed to reveal any busy workmen engaged in removing the old building that once served as shelter for Mackenzie in the days of the Rebellion of long ago.

Joke on the Canons.

An interesting feature of the meeting of the Synod of Toronto Diocese yesterday was a large square box, on the outside of which was painted in large letters, "Canons of the synod for sale—price 50 cents each." "Up to the present I have not heard of any of the rev. gentlemen being disposed of, even at the moderate price of 50 cents," remarked a lay delegate.

SUMMER TOURIST RATES TO THE PACIFIC COAST.

Via Chicago and Northwestern Ry. Special low rate round trip tickets on sale from all points in Canada to Los Angeles, San Francisco, Portland and numerous other Pacific Coast points, during June, July, August and September. Excellent train service. For illustrated folders, time-tables and full particulars address B. H. Bennett, General Agent, 45 Yonge-street, Toronto, Ont. 63323.

Today on the Lake.

A 50-cent return fare is in force on the Hamilton steamers Modjeska and Macassa to-day, good going at 9 a.m. and 2 p.m., and returning at 10 a.m. and 5.30 p.m. leaving Hamilton. Commencing to-morrow, the 15th, steamers will leave Toronto at 9 a.m. and 5.30 p.m., and leave Hamilton at 8 a.m. and 2 p.m. return leave Hamilton 10.45 a.m. and 5.45 p.m. This popular steamer has been making fast time this season, the lake-run being made in one hour and forty minutes. The 50-cent rate will be in effect every Wednesday and Saturday during the summer for the return trip.

Change of Time.

Turbine commences the double service between Toronto and Hamilton on Thursday, 15th inst., leaving Bay-street wharf daily (except Sunday) at 8 a.m. and 2 p.m.; return leave Hamilton 10.45 a.m. and 5.45 p.m. This popular steamer has been making fast time this season, the lake-run being made in one hour and forty minutes. The 50-cent rate will be in effect every Wednesday and Saturday during the summer for the return trip.

Purity Association Meets.

The Purity-Educational Association held their final meeting of the season last night in the C. O. F. building, where their headquarters have lately been made. Reports for the year were presented, showing the growing influence for good which the society has become. The president's annual report was full of interest, and was an excellent resume of the season's work.

IMPERIAL CITIZENSHIP SHOULD BE UNIFORM

Continued From Page 1.

Local Parliaments Must Say. As regards the rights of British subjects, Winston Churchill said it would be a great advantage if they could remedy the inconvenience of the present system, but they would not do so by departing from sound principles of colonial and imperial government.

Any system, if it was to succeed, must be based on the assent of the local parliament and upon the responsibility of ministers for their actions. He observed, he did not think any real difficulty would arise in practice. The draft bill was not to be regarded as a final or perfect scheme. It was simply a convenient peg upon which to hang discussion. No imperial act on this subject ought to deal with the governing dominions, except only so far as it was adopted by the parliaments of those dominions. There was no idea of overriding the local law. Each dominion must be the judge as to the conditions under which a certificate of naturalization could be granted. It would be impossible to apply for a uniform imperial conditions of naturalization. If effect was to be given to wishes expressed, they must face two standards of legislation, local and imperial. In this country they would not depart from five years qualifying period.

Churchill's Suggestions. He suggested that it should be open to any person who had obtained a certificate of local naturalization in any of the dominions, and who additionally had resided five years in any part of the British Empire, to apply for a certificate of imperial naturalization. The application would be made through a responsible minister of the dominion in which the applicant resided, and he endorsed the application, a certificate would be issued by the government. In that way it would be possible to allow existing diversities of legislation, and these untouched, although probably the tendency would be to assimilate them. He suggested the following principle, which would amend any legislation on the subject. Imperial nationality should be world wide and uniform, each dominion being left free to grant local nationality on such terms as the legislature should think fit. The mother country finds it necessary to maintain the five year qualifying period. This is a safeguard to the dominions as well as here, but five years anywhere in the empire should be as good as five years in the United Kingdom. The grant of imperial nationality in every case is discretionary. This discretion should be exercised by those responsible in the area in which the applicant resides. The imperial act would not apply to the self-governing dominions, unless adopted by them, nor would the effect of local laws and regulations on immigration or the like, or differentiating between classes of British subjects.

The suggested bill should be redrafted in conformity with these principles and submitted for consideration as soon as possible. Needless Duplication. Sir Robert Finlay thought and suggested that the plan involved some needless duplication, which might be avoided by imperial statute. It would then be open to each dominion to adopt that statute, not, and ask for increased stringency if it pleased them, or continue the present system. Sir Wilfrid Laurier said that Hon. Mr. Churchill's statement went far towards remedying the existing condition of things. He had hoped, however, that the imperial government would have been prepared to go further and agree that when naturalization had once been given, it should be effective everywhere. That could be done by the existing diversity of legislation, and would be by far the simplest solution of the problem.

HER HANDS WERE RAW

HAD TO WEAR RUBBER GLOVES "Fruit-a-tives" Completely Cured the Eczema.

GRANDE LIGNE, Que., Jan. 2, 1910.—"My wife was troubled for three years with eczema on the hands, which made her hands almost useless. The doctor gave her several ointments to use, none of which had any effect. He also advised her to wear rubber gloves (she wore out three pairs). "I persuaded her, as a last resort, to try 'Fruit-a-tives.' The effect was marvelous. Her hands are now cured. "We both attribute our present health to 'Fruit-a-tives.'"

Eczema, Rash, Pimples, Itching and Burning Skin are always caused by impure blood—due to chronic constipation, indigestion or some weakness with the kidneys. "Fruit-a-tives" is a positive cure for all skin troubles. It is the greatest blood purifying medicine in the world—and is the only remedy made of fruit juices. 50c a box, 6 for \$2.50, trial size 25c. At all dealers, or sent on receipt of price by Fruit-a-tives, Limited, Ottawa.

KEPT SON UNDER GUARD

OF POSSE OF DETECTIVES Interesting Abduction Case in Montreal Court—Well Known People Are Involved.

MONTREAL, June 13.—The story of a man who had kept his 21-month-old son under the guard of a posse of private detectives for fear of kidnappers, was unfolded before Judge Leet to-day, when the case against A. J. King, mining promoter, Toronto; J. L. Brodie, London, Eng., and W. A. Zaldo, Montreal, engaged with an attempt at abduction of the infant son of S. H. Jones, president of the Canadian Bronze Co., was heard. The testimony of several witnesses seemed to show that the precautions taken by the father were not excessive. John Conway, hall porter at the Windsor Hotel, where Mr. Jones and his infant son were stopping, testified to the effect that the accused had hung around the hotel and had questioned him regarding the movements of the child and its nurse. Fred Cox, hotel constable, substantiated this. Mr. Brodie of Beccol recognized Zaldo and Brodie as the two men who had visited that village, making enquiries at the time when the child was being kept there. Richard Brissette testified as to the suspicious actions of the child's mother on June 2, as did another detective, S. J. Eldred. The mother had followed the child around and had engaged in long distance telephone conversations with someone in Buffalo, N. Y., who had not met and with another woman, suppose to be the nurse. The defence claimed that only conversations, and no actual attempt to regain the child for the mother had been made. Judgment will be given to-morrow.

METHODISM DRAINED

BY MOVEMENT TO WEST Membership in Toronto District Almost Stationary—Sunday School Contributions Small.

In order to conclude the business of the season, the Methodist Conference in Elm-street Church sat up until the small hours of this morning. Several committee reports were submitted, that of the Sunday school committee showing an average contribution of scholars two cents each per year. The church membership had gained little, showing considerable loss in places from the exodus to the west. The temperance and moral reform committee stated in their report that they wished to acquaint the government with the necessity of providing liquor licenses for the liquor interests. They desired to make protest against liquor licenses being granted in Cobalt, as is requested by the liquor interests. Rev. T. E. Bartley urged the rural ministers to see that any of their young people moving to Toronto carry with them a letter of introduction to some pastor here. He said that many a young person would thus be saved from locating in undesirable places.

At the Queen's Royal.

The latest Toronto arrivals at the Queen's Royal, Niagara-on-the-Lake, include: Mr. and Mrs. S. G. Beckett, Mr. and Mrs. Rex, Nicholson, Mr. Le Grand Reed, Mrs. G. L. Harrie, Mr. C. H. Hall, Mr. G. L. Moore, Mrs. W. Perkins, Miss Hand, Mrs. R. I. Grant, Mrs. G. A. Carr, Capt. and Mrs. Arthur Kirkpatrick, Dr. and Mrs. Tait, Mr. Mortimer Bogert, Mr. Sydney Farn, Mr. and Mrs. Fago, Mr. George Livingston.

At the Queen's Royal.

The conference at the close of last night's meeting appointed presidents to the districts in this conference as follows: Toronto East, Rev. Dr. Hazlewood; Toronto Central, Rev. Dr. Hinks; Toronto West, Rev. J. J. Ferguson; Brampton, Rev. J. A. D. Long; L'Abidze, Rev. Dr. A. Bedford; Bradford, Rev. Wm. Buchanan; Orangeville, Rev. H. Harper; Barrie, Rev. I. G. Bowler; Collingwood, Rev. W. H. Hager; Bracebridge, Rev. F. L. Brown; Parry Sound, Rev. C. W. Watch; Sault Ste. Marie, Rev. A. A. Wall; North Bay, Rev. A. P. Lattery; New Liskeard, Rev. P. J. Adams; Sudbury, Rev. A. J. Paul.

JUMPED INTO CISTERN. FOREST Ont., June 13.—Mrs. Joseph Nichol, aged 29, living 10 miles west of here, on the lake shore in Plympton Township, jumped into the cistern at her home last night and was not discovered until after daylight, four or five hours subsequently. Coroner Logie of Sarnia is investigating, but it is thought to have been a case of suicide, induced by discouragement consequent upon ill-health.

PARKDALE CADETS INSPECTED.

The annual inspection of the Parkdale Collegiate Cadets was made by Capt. Butcher yesterday afternoon. The corps was so strong and looked natty and soldierlike in khaki suits. Capt. Butcher complimented the cadets on their appearance and the excellence of their drill, giving Instructor T. E. Reid hearty commendation on the efficiency shown. The officers of the corps are Capt. Wagon, Lieut. Baily and Standfield and Sergeants Cox, Sparrow, Martin and Lowry. Refreshments were afterwards served by the girls of the school.

Porcupine Gold Camp

Porcupines Are Making Profits For Their Fortunate Owners

Hollinger Up to \$15.60, and Other Issues Keep on Advancing—Foley-O'Brien the Exception—Cobalts Hold Their Ground.

World Office, Tuesday Evening, June 13.

Porcupine stocks showed a continued inclination to sell higher to-day, under the sustained buying demand, which up to the close of the market showed no material signs of abating, and which was directly responsible for several advances.

It would seem that the public are showing a stronger desire to enter the market on the recovery, certainly, as the previous decline, and was also the bottom price for the season. Considerable stock was reported to have been purchased for London account in this market.

At to-day's top quotation Hollinger shows an appreciation of nearly three dollars a share, over the price a week ago, and over twelve dollars above the public subscription price, a record which will require some searching into history to surpass.

The other Porcupine issues were generally dull, but there was no lack of indications of an upward trend. Rea touched \$2.32, or four points above last night's high, and the stock which quite active around that figure. It is quite interesting to note that the market is somewhat difficult to get the stock above that figure, which was more borne out by the ticker quotations.

Cheaper gold mining stocks were in the main strong, with higher prices in the case of Swastika, which advanced two points to 80-1-2, Dome Extension, which gained a fraction, and Porcupine Central, which suffered from heart failure, when the stock hit 90 cents to-day, a net decline of 1 cent from the previous level.

Cobalts showed no power to move, and prices were only fractionally changed from those ruling during the previous session.

French Capitalists Invest in Porcupine

Rodolphe Forget, M.P., of Montreal, interested in Powell Properties.

Mr. W. F. Powell of the Powell Syndicate in Porcupine was in town yesterday, having motored up from Ottawa. Mr. Powell confirmed the news that a powerful syndicate, headed by Rodolphe Forget, M.P., of Montreal, was forming a company to develop a number of the Powell claims in Dorset Township, immediately south of the city. The company is to be capitalized at \$3,000,000 in \$5 shares which are to be \$5 par. Enough treasury shares will be put out to give \$200,000 or more for development.

The details of the company and its organization will be announced some time later on. A number of the Powell claims in Dorset Township, which Col. Macdonald's Syndicate is acquiring, Mr. Ralph A. Meyer, M.E., of Cobalt, has been appointed superintendent with Dr. Pearson as consulting engineer.

It is the intention of the company to commence active operations on an extensive scale immediately and to develop the large and valuable veins on the property.

It is stated that the engineers in the course of their examination located 22 fissure veins, some of which exceeded 12 feet in width and carried good values at the surface.

Col. Macdonald and Dr. Pearson had the honor of riding out on the first train from Toronto to Porcupine, leaving there on Friday, the 8th instant.

English Syndicate After Success Mines

And Locate Twenty-two Fissure Veins in Their Examination of the Property.

Col. W. Laing Macdonald of London, England, accompanied by his engineer, Dr. H. Brian Pearson, has arrived in the city after completing an examination of The Success Gold Mines at Porcupine, which Col. Macdonald's Syndicate is acquiring. Mr. Ralph A. Meyer, M.E., of Cobalt, has been appointed superintendent with Dr. Pearson as consulting engineer.

It is the intention of the company to commence active operations on an extensive scale immediately and to develop the large and valuable veins on the property.

It is stated that the engineers in the course of their examination located 22 fissure veins, some of which exceeded 12 feet in width and carried good values at the surface.

Col. Macdonald and Dr. Pearson had the honor of riding out on the first train from Toronto to Porcupine, leaving there on Friday, the 8th instant.

NEARING 100 FEET

Dome Extension Shaft Getting Down to Depth Rapidly.

The main shaft on the Dome Extension is being driven down night and day by machine drills and is rapidly nearing the 100 foot level. From this level a cross-cut will be run to cut the big vein which is about 30 feet from the shaft. A sensational rise in Dome Extension stock is expected when this vein is cut at this level, similar to that which took place in Hollinger at the 100 foot level. The Dome Extension main vein is 36 feet wide and there are four lateral veins that carry the ore running high in values. The whole ore body is over fifty feet wide.

MORE BAR RECEIPTS.

Some belated percentage receipts from far-away liquor men of the province were received yesterday at the parliament buildings. As the money was mailed on Saturday it will be included in the revenue of the past month, making the total amount well over \$18,000.

Several Industrial Accidents.

Thirty-six fatal industrial accidents occurred in Ontario during the past year, according to the twenty-third annual report of the provincial inspector of factories, issued yesterday. This is a decrease from the number reported during the previous year. There were 74 accidents reported during the year, which is an increase over the 12 months previous. The chief inspector recommends vent ducts for the removal of vitiated air from factories, buildings in regard to industrial conditions, the report says this year compares very favorably with last.

Another Porcupine Townsite

Clearing has just been commenced on the Campbell Veteran claim at Porcupine for a townsite for the Hollinger and adjacent mines. The townsite will front on Miller Lake, and will be wholly on sand. The Timmins-McMartin-Dunlop syndicate will offer lots for sale after the clearing has been completed. Water will be supplied to the proposed town from the Mattagami River, less than a mile distant.

Going Up North.

Mr. J. B. Tyrrell left last night for Swastika and Porcupine, and will probably be absent for ten days or two weeks.

Mining Men Willing To Show One Around

Cobalt Operator is Struck With General Courtesy Shown in Gold Camp.

S. G. Forst, one of the successful Cobalt investors, has returned from his first visit to Porcupine. Mr. Forst was extremely sceptical of the gold camp before going to see it, but returns exceedingly enthusiastic.

"I saw most of the developed mines," Mr. Forst stated to The World, "and I must say that news of them has not been exaggerated. Porcupine will make a gold camp equal to or better than Cobalt has made a silver camp. Showings of gold can be seen, which fairly stagger one at first, and when the mines are developed to depth, 'One thing I liked about the camp was the readiness with which every prospect was shown. On all the properties, I was received with extreme courtesy and mine managers seemed anxious to have one see all that was to be seen."

"In a few weeks the railroad will be into the camp and my advice is that everyone who can should pay Porcupine a visit."

"Yes, I made some investments in Porcupine," Mr. Forst stated, "in answer to a query, and I feel confident that they will make money for me."

Imperial Mines May Extend Its Holdings

Engineers Look Over Adjoining Lot With View to Its Acquisition.

Porcupine City, June 10.—(From Our Man Up North).—Engineers have looked over the McKay lot adjoining the Imperial Mines property on the west in Deloro with a view to the McKay lot as a part of their Deloro holdings.

The ridge on which the Imperial Mines are working extends into the McKay lot, and where openings were made in the quartz outcroppings, good values were found as a part of the main shaft.

The shaft on the Imperial is now down 100 feet where the workmen are cutting a station, from which a cross-cut will be run 45 feet west to catch up the lead which is indicated in the surface outcroppings. The shaft was sunk off the lead in the schist and the cross-cut is being followed by some prospectors, but just how general the practice is remains a quandary.

It is estimated that more than a thousand assays have been done in the districts this spring, and that in many instances the prospector has secured his values in assays by panning the earth and then assaying the concentrates.

The panning is made on claims in the outskirts of the new districts where little or no work has been done, and the results are being followed by some prospectors, but just how general the practice is remains a quandary.

Porcupine Notes

Porcupine City, June 10.—Announcement is made that the McKiernan-Terry Drill Company, with offices in the King Edward at Toronto, will be working on the McKay lot within a short time. This company make a specialty of all kinds of mining machinery but the Terry shaft drill, of which many have been used in Porcupine mines, is their specialty. In mining hardware the Canadian Supply Company supply the local field.

Chas. B. Flynn, accompanied by a brother from the Hamilton fields of the Ontario and Quebec, has been in the city for some time. The Flynn brothers were early Porcupine pioneers and returned to the city in the camp. Announcement is made that the National Porcupine Company, a Cobalt silver mining concern, operating in Ogden, on the Weston grounds, have closed down.

Work on the Ross properties in southern Whitley, which was discontinued last March, is to start again. Walker Smith, who has charge of the properties, has been here Saturday to open up the camps.

The American Goldfields Company started work last week on the Reilly property, which is held by the mining rights. S. Alfred Jones is making a townsite on the surface of the claim. A shot drill has been ordered and is being used to test the depth of the quartz outcropping near the centre of the property. Extremely hard rock prevails in this section and the results of the drilling are being watched with interest. Each of the men are employed building camps, clearing land and trenching.

The Porcupine Township Mines have been left at the camp to clear away the brush and to keep forest fires from doing damage.

Ringing and scrubbing given to all the townsite have had a most salutary effect. In the south end of the litter of the back yards and the stumps in the streets have been removed and burned and now the location has a changed appearance. In Golden City, Queen-street, the avenue the government is striving to push ahead of the other streets has been ditched and graded with walks laid to the railway tracks in the Vane townsite. Kingston, the dividing line between the government site and the Walsh holdings, is in a deplorable condition. Teams mining in the centre of the government's south end are in progress. Road building is progressing much faster in all the townsites.

Benjamin Smith, in charge of the work on the Porcupine Township Mines, states that all the assessment work on the claims has been done, and that considerable development work is in progress. The spring water has percolated to the surface. A road along the ridges from the Shaw line in the north to the Reilly property has been completed. Plans to be placed on the Niagara are up, and everything is now in readiness for the boiler and hoist which will be sent in as soon as the railway can bring the freight. In the meantime trenching for new leads will be kept up with a good force of men.

The three townsites have a less deserted appearance now that the files are sending the prospectors back to the clearings.—Chas. Fox.

SEE THE NORTH COUNTRY.

Low Rate Excursion to New Ontario, via Toronto and T. and N. O. Railways, Thursday, June 22, from stations in Ontario, Kingston, Madawaska and west, to all stations on T. and N. O. Railway and north. Return limit July 4. Tickets will be issued at the rate of one cent per mile for the round trip, and a special opportunity for farmers to visit New Ontario. "Cobalt Special" leaves Toronto at 8.30 p.m. daily, carrying through coaches.

Full particulars and tickets from any Grand Trunk agent, Toronto city ticket office, northwest corner King and Yonge-streets. Phone Main 4209.

GROUP PLAN FOR JAIL FARM.

According to tentative plans, it is likely that three distinct groups of buildings will be erected on the property at Yonge-st., which the city is buying as a municipal industrial farm. One of these groups will accommodate inmates, another paupers, and the third, the offenders against the criminal code. Each group will be independent of the others, and the inmates will not be allowed to commingle with group.

J. B. King's Record.

The local police have been adding that to their knowledge of J. B. King, alias Vivendigo Catalan, an Italian vendor, who shook the wrong number of when he was seized by a number of them. His pushcart having broken down near their school, was fined \$10 and costs in police court yesterday morning.

Italian Vendor Lost Temper.

Vivendigo Catalan, an Italian vendor, who shook the wrong number of when he was seized by a number of them. His pushcart having broken down near their school, was fined \$10 and costs in police court yesterday morning.

CURES ALL KIDNEY DISEASES

223 THE PRINCE

SANER TERMS ATTACHED TO PURCHASE OF CLAIMS

But Engineers Deplore Methods of Prospectors to Secure Big Assays.

Porcupine City, June 10.—(From Our Man Up North).—Mining engineers in discussing business conditions relative to the purchase of mining claims here, now, as compared with last fall and winter, see but little change, except that in all instances more time for second payments is granted.

"I have mined in every camp in the world except South Africa," said one prominent engineer, who has just landed a most promising prospect for his company, "and never in my life did I ever encounter such rules and regulations governing the purchase of claims such as I get against them here. I have seen the rich ore down 10 feet in a pit with wide leads in evidence and the owner laughed at if he asked over \$25,000 for the property. With practical mining conditions here the price would be \$200,000 with scant terms offered."

Prices still remain high of claims where but little work has been done, and the most frequent complaint heard now from engineers is that they are walked miles and miles over trails to get "most handsome" assays, and that nothing, absolutely nothing, when they reach the spot.

"Every prospector in the camp will tell you that he has panning from his own concentrates, and that he has done so for some time. When he wants big values he pans out a large amount of the earth into concentrates and has the concentrates assayed by some prospectors, but just how general the practice is remains a quandary.

It is estimated that more than a thousand assays have been done in the districts this spring, and that in many instances the prospector has secured his values in assays by panning the earth and then assaying the concentrates.

The panning is made on claims in the outskirts of the new districts where little or no work has been done, and the results are being followed by some prospectors, but just how general the practice is remains a quandary.

EX-CONVICTS DEPORTED

"Kid" Hogan Will Appeal to Washington in Endeavor to Get Back.

BROCKVILLE, June 12.—(Special).—Two ex-convicts were deported from Brockville to Morristown, N.Y., to-day. Thomas Holman, who has just completed a six months sentence at the Central Prison, for a time up committed here, and Harry "Kid" Hogan, brought from the Kingston Penitentiary, where he served a term of three months for a vicious assault upon officers who raided his place at Cobalt for gambling. The "Kid" Hogan, who is an old time prisoner, is being sent to Washington, to interview the powers that be in the hope of starting international correspondence whereby he will get permission to return to Cobalt to look after his interest in several mining claims.

NEW SCHEDULE OF WAGES.

The city engineer has submitted to the board of control a new schedule of wages for men working on city dredges. They are to receive fixed monthly pay and get no overtime allowance. The new schedule, which will take effect on the 1st of July, provides for an apparent increase. The superintendent would get \$140 per month, instead of \$125; set chains to be increased from \$5 to \$100; chief engineers from \$84 to \$120.

Point au Baril Service—Direct From Wharf to Hotels.

The steamer "Aroma" maintains a ferry service for the transfer of passengers and baggage, etc., from Point au Baril station to the hotels and restaurants. Direct connection is made with the 8.45 a.m. train from Toronto, which arrives at Point au Baril station about 4.00 p.m. C.P.R. City Ticket Office, 16 East King-st. Phone Main 5580.

May Have to Be Abandoned.

The section of intake pipe just south of that which was removed to John-st. is in such bad condition that it will probably have to be abandoned. The pipe have been found to be torn entirely apart.

Rush Work on New Intake.

The city engineer has been instructed to proceed immediately with the preliminary work on the new intake. The excavation is to be at once commenced for the 500 feet which will have to be laid on the land.

LESS COPPER AND NICKEL MORE IRON AND SILVER

But Shortage of Electric Power May Mean Less Silver Shipped Later.

Returns to the provincial bureau of mines on the following production from the metalliferous mines and works of Ontario for the three months ending March 31, 1910:

Quantity	Value
Gold .. 1,818 oz.	\$ 38,890
Silver .. 7,530,487 oz.	3,708,544
Copper .. 2,121 tons	308,240
Nickel .. 11,621 tons	854,382
Iron Ore .. 11,621 tons	24,404
Pig Iron .. 115,454 tons	1,823,717
Cobalt and nickel concentrates .. 107,845 lbs.	29,882

As compared with the first three months of 1910, there is a decrease in copper and nickel of \$181,024 respectively, and an increase in iron ore from \$15,084, pig iron from \$1,750,396, and in silver from 6,399,927 oz., valued at \$9,041,158.

The somewhat serious shortage of electric power at Cobalt during the quarter might have been expected to lead to a reduction of the silver output, but no power is now again plentiful, the effects may perhaps be seen when the returns for the second quarter of the year are received. Goods and Elk Lake produced 12,900 ounces of silver during the quarter, and South Lorrain 66,798 ounces. The total shipments from Cobalt were 178,000 tons, containing 1974 tons; bullion 2004 pounds.

OPPOSITION TO BYLAW

Brookville Residents Object to Paying Fees for Garbage Collection.

BROOKVILLE, June 12.—(Special).—A few weeks ago the town council passed a by-law providing for the collection and disposal of garbage and imposing fees to meet the cost of the work, which was awarded to a local firm by tender. Opposition to the scheme developed in certain quarters of the town, resulting in the contractors refusing to take the job, and a call for new tenders being sent out. Mayor Patterson, acting on a largely signed petition from adverse ratepayers, has called a public meeting for the 19th inst. to discuss the by-law. Notwithstanding the opposition, the council propose to put the bylaw into effect as soon as possible.

EX-CONVICTS DEPORTED

"Kid" Hogan Will Appeal to Washington in Endeavor to Get Back.

BROCKVILLE, June 12.—(Special).—Two ex-convicts were deported from Brockville to Morristown, N.Y., to-day. Thomas Holman, who has just completed a six months sentence at the Central Prison, for a time up committed here, and Harry "Kid" Hogan, brought from the Kingston Penitentiary, where he served a term of three months for a vicious assault upon officers who raided his place at Cobalt for gambling. The "Kid" Hogan, who is an old time prisoner, is being sent to Washington, to interview the powers that be in the hope of starting international correspondence whereby he will get permission to return to Cobalt to look after his interest in several mining claims.

NEW SCHEDULE OF WAGES.

The city engineer has submitted to the board of control a new schedule of wages for men working on city dredges. They are to receive fixed monthly pay and get no overtime allowance. The new schedule, which will take effect on the 1st of July, provides for an apparent increase. The superintendent would get \$140 per month, instead of \$125; set chains to be increased from \$5 to \$100; chief engineers from \$84 to \$120.

Point au Baril Service—Direct From Wharf to Hotels.

The steamer "Aroma" maintains a ferry service for the transfer of passengers and baggage, etc., from Point au Baril station to the hotels and restaurants. Direct connection is made with the 8.45 a.m. train from Toronto, which arrives at Point au Baril station about 4.00 p.m. C.P.R. City Ticket Office, 16 East King-st. Phone Main 5580.

May Have to Be Abandoned.

The section of intake pipe just south of that which was removed to John-st. is in such bad condition that it will probably have to be abandoned. The pipe have been found to be torn entirely apart.

Rush Work on New Intake.

The city engineer has been instructed to proceed immediately with the preliminary work on the new intake. The excavation is to be at once commenced for the 500 feet which will have to be laid on the land.

Quiet Trading in Montreal Market
 Undertone Generally Strong on the Eastern Exchange—Some Advances Shown.

MONTREAL, June 13.—Trading on the Montreal stock market today was on the quiet side and price movements were irregular, but the undertone continued strong. A feature of the market was a sharp advance in Eastern Canada Pub., which under active buying advanced to 55, or 4 points above yesterday's close. Nichollet, which was the most active issue in the trading, opened at 117 and weakened to 116 1/2, but recovered to 117, with that figure bid and 117 1/2 asked at the close. Lake of the Woods in the early trading advanced to 14 1/2, but later eased off to 14 1/4. Toronto Ralls eased to 135, recovering to 135 1/2. Rio, after selling at 114 1/2, weakened to 113 1/2. Canadian Pacific sold at 241, or one point below yesterday's close.

Half a Billion Paid In Life Insurance

Estimated Amount Paid Last Year by Canadian and U. S. Companies Was \$563,440,000.

Life insurance organizations of the United States and Canada distributed \$563,440,000 in 1910, according to computations by The Insurance Press. The payments in the two countries to beneficiaries for death claims, matured endowments and other benefits under the policies of level premium companies and the certificates of variable life insurance organizations—assessment and the like—amounted to \$215,440,000. The estimated total of the amounts paid by regular companies in dividends to policyholders, for surrender values, to annuitants, and on claims in foreign countries was \$132,000,000. Summary of life insurance payments of all kinds in 1910: Claims paid in the United States and Canada, \$563,440,000; Payments for dividends, \$132,000,000; Surrender values and to annuitants and foreign policyholders (estimated), \$132,000,000; Grand total, \$827,440,000. Among all lines of benefits under policies—death claims, endowments and dividends—the transactions of the regular life insurance companies continued to increase last year, under the normal conditions that prevailed. New insurance for more than \$2,500,000,000 of protection was written. And, after the policy-account deductions, the insurance in force showed an increase of nearly \$1,000,000,000.

Now It's Texas Lands Dr. Pearson's Latest

Well-known English-Canadian Financier and His New Venture.

The San Antonio Land and Irrigation Company securities, which were formerly listed on the Toronto Stock Exchange, no longer are. The first capitalization of another of Dr. F. S. Pearson's big schemes. Heretofore Dr. Pearson has confined his work largely to Mexico, Brazil, and Canada, although the operations have been directed from New York.

As usual, Dr. Pearson went to London to finance the scheme. He offered for subscription there \$5,000,000 first mortgage twelve-year bonds of the San Antonio Land and Irrigation Company of Canada. The company is capitalized for \$8,000,000, and its authorized bonded indebtedness is also \$8,000,000.

The company will acquire 60,000 acres of river agricultural land near San Antonio, Texas. Texas has granted Dr. Pearson company exclusive perpetual rights for using the water of the Medina River for irrigation purposes, and under this concession works will be constructed to irrigate 100,000 acres.

Comfort and Safety is assured by using Lehigh Valley trains to New York, Philadelphia and Atlantic City and their electric-lighted cars. Leave Toronto at the convenient hours of 1:30 p.m. and 6:10 p.m. each day. Further particulars at East King street.

NOW is the time to make your will. Let us explain to you the many advantages of appointing this Company executor.

The Trusts and Guarantee Company Limited
 43-45 King Street West, Toronto
 James J. Warren, Managing Director

INVESTMENT ORDERS ARE FEWER.

World Office, Tuesday Evening, June 13. The appearance of the Toronto market to-day gives the impression that the buying was accommodated without difficulty, and that the present supply of most securities is equal to the demand. Some traders are playing for a reaction, and using stocks carried on margin to fill buying orders. No burdensome speculative account has been built up, and this is a guarantee against any decline of importance. The investment orders are not coming in as freely as they were, and the market may be temporarily influenced because of this.

No Enthusiasm in Wall Street But Prices Keep on Up-grade

New York Market Shows Definite Firmness, With Strength in Coppers—No Speculative Vivacity in Toronto Exchange.

World Office, Tuesday Evening, June 13. The traction were the active stocks on the Toronto market to-day, but the operations had no favorable effect upon values, except in Sao Paulo and Toronto Ralls. It is still confidently expected that some announcement of interest to shareholders of the former will be made at no distant date. Toronto Ralls are being bought by those who regard the declaration of an 8 per cent. dividend as only a matter of time. The Toronto Suburban Railway has been acquired by Sir William Mackenzie, and it is altogether likely that the road will be merged into the Toronto Railway Co., as were the other radials. Maple Leaf securities were the active shares in the industrial. There was some profit-taking in these to-day, but this had only a fractional effect upon the market. Small investment orders were executed in many of the inactive stocks at around yesterday's prices. The market was dull throughout the day, and showed few signs of speculative interest.

WALL-STREET POINTERS.

Americans in London irregular. London settlement began to-day. Sugar and steel investigations resume in Washington. Illinois Central to issue \$10,000,000 refunding 4s. Postal Telegraph Co. to enter telephone field in west. Fight with Western Union expected. Tariff debate on woolen schedule and reciprocity report to senate. Senate adopts resolution for direct election of senators with amendment providing for federal control. Trans-Atlantic lines still delayed by strike at Southampton. According to statement by Speaker Clark, the Root amendment to Canadian reciprocity agreement will positively not be adopted by the house, even should it pass senate. Jersey Central declared regular quarterly dividend of 2 per cent. and an extra dividend of 2 per cent. the same as six months ago and a year ago. Washington dispatch says counsel for American Tobacco has submitted tentative plan for reorganization to Attorney-General Wickersham for his opinion. Members of the Chicago Board of Trade have voted to increase commission rate from \$6.25 to \$7.50 for each 5000 bushel transaction. The supreme court at Portland, Me., has appointed receivers for the United Wireless Tel. Co. Illinois Central expected to announce shortly sale of \$10,000,000 refunding 4 per cent. bonds. In Kansas it is estimated loss by drought and hot winds in some sections will be 50 per cent. according to the U. S. & C. Railroad crop report, which also says Kansas will harvest less than 5,000,000 acres of wheat this year. We would continue to buy good railroad stocks, on slight reactions. The low-priced rails should be bought at current prices. Amalgamated may do well better. Southern Pacific is well bought. Atchison should be bought on moderate reactions. Beet Sugar also should be bought on reactions.—Financial Bulletin.

Bank of England discount rate, 3 per cent. Open market discount rate in London, for short bills, 2 per cent. New York call money, highest 1/2 per cent. lowest 3/4 per cent. ruling rate 3/4 per cent. Call money at Toronto, 3/4 to 6 per cent.

LONDON MARKET STEADY.

LONDON, June 13.—Money was abundant, but discount rates remained firm to-day. A better tone prevailed on the stock exchange, although trading was quiet, and practically limited to transactions in connection with the settlement. Consols improved, and copper shares were strong on American buying, but allied securities were depressed. Mining shares closed firm. American securities were quiet at irregular price changes during the forenoon. The late trading was mostly professional. The closing was steady.

DR. RIGBY DISCHARGED.

Dr. Thomas Rigby was discharged from the police court yesterday, as no evidence proved that he had participated in a criminal operation on Mary Amore was forthcoming. The doctor denied every statement of the girl. Requiem for Archbishop. The requiem mass of the late Archbishop McEvoy was celebrated yesterday morning in St. Michael's Cathedral for the late Archbishop McEvoy. Bishop Dowling of Hamilton, a friend of the late prelate, was celebrant, and he was assisted by Rev. Father Fragin as deacon and Rev. Father Coyle as sub-deacon.

WALL-STREET TRADING

NEW YORK, June 13.—A determined effort was made to-day to demonstrate the strength of the bear position in the down market and speculative issues, especially U. S. Steel, were subjected to heavy pressure. Prices declined rapidly during the early part of the day, and the movement was accelerated by the circulation of a rumor that the suspension of dividends on Denver and Rio Grande prevented the market from recovering. The influence of the market was further depressed by the liquidation of considerable amount of stock by holders who had become tired of the market's long period of inactivity. Prominent interests were reported to have disposed of lines of important railroad stocks, and there was also some evidence of selling of speculative holdings of U. S. Steel. A number of leading issues lost a point or more. The market closed with a general decline. Stocks showed the same reluctance to move that they have exhibited constantly of late, each movement in the market being followed by a change in the opposite direction. The tone became firmer and stocks gradually made up the losses. The speculative leaders over-topped yesterday's closing prices on the ground, indicating the day with good fractional gains. The copper stocks were the most prominent, and about midday yesterday's rise of a point or more, the buying movement in these stocks was based ostensibly on the improvement in the copper metal market. One of the few noteworthy events of the day was the suspension of dividends on Denver and Rio Grande prevented the market from recovering. The influence of the market was further depressed by the liquidation of considerable amount of stock by holders who had become tired of the market's long period of inactivity. Prominent interests were reported to have disposed of lines of important railroad stocks, and there was also some evidence of selling of speculative holdings of U. S. Steel. A number of leading issues lost a point or more. The market closed with a general decline. Stocks showed the same reluctance to move that they have exhibited constantly of late, each movement in the market being followed by a change in the opposite direction. The tone became firmer and stocks gradually made up the losses. The speculative leaders over-topped yesterday's closing prices on the ground, indicating the day with good fractional gains. 113 CARS AT CITY YARDS STRONG CATTLE TRADE

Butchers' Cattle Were Firm at Monday's Prices—Hogs at \$7.10 Hundredweight.

The railways reported 113 carloads of live stock at the City Market, consisting of 1701 cattle, 1483 hogs, 970 sheep and lambs and 371 calves.

The quality of fat cattle was good, as a rule, but there were more of the grass-fed class than on Monday.

Trade was good; in fact, the market was a repetition of Monday, as regards prices and the general activity that prevailed throughout.

There were many dealers from outside places, several of whom were buying for Montreal, Hamilton and Northern Ontario.

There was one load of cattle sold at Monday's top price—\$7.10. The rest were sold by Maybee & Wilson, and weighed 1250 lbs. and were bought by H. M. Levinoff, Montreal.

Also there were many cattle of export weight on sale, we did not hear of any being sold for export purposes, the whole outfit being bought to supply the great home trade.

Butchers' steers and heifers sold at \$5.50 to \$6.20; cows, \$4 to \$5.25; bulls, \$4.25 to \$5.25.

Stockers. Several lots of stockers were sold at prices ranging from \$4.80 to \$5.25.

Milkers and Springers. Charles & S. W. Wilson's sales: 100 lbs. milkers, \$4.50 each.

Prices for veal calves were firmer, at \$5 to \$7.50 per cwt.

Sheep, ewes, sold at \$4.50; rams, \$5 to \$5.50; spring lambs, \$6.50 to \$6.80; yearling lambs, \$5.50 to \$6.50 per cwt.

Hogs. Selects, fed and watered, sold at \$7.10, and \$6.75 f.o.b. cars at country points.

Corbett & Hall sold five carloads of cattle, as follows: Butchers' steers and heifers, \$5.50 to \$6.50; cows, \$4.50 to \$5.50; bulls, \$4.50 to \$5.50; milkers and springers at \$5 to \$6 each, and calves at \$7.50 per cwt.

Maybee & Wilson sold: One load of butchers, 1200 lbs. each, at \$4.50; one load of butchers, 1200 lbs. each, at \$4.50; one load of butchers, 1200 lbs. each, at \$4.50; one load of butchers, 1200 lbs. each, at \$4.50.

Representative Purchases. Wesley Dunn bought 100 sheep at \$4.25 per cwt. 200 spring lambs at \$5.00 each; 200 calves at \$4.50 each, all of which are average prices.

Geo. Rowntree bought for the Harris Abattoir Company 50 calves, \$6 to \$7 each; 30 spring lambs at \$8.50 per cwt.; 20 calves at \$4.50 to \$5.50; 20 calves at \$4.50 to \$5.50.

Wm. Crealock bought one load butchers at \$4.50 to \$5.50; one load of butchers at \$4.50 to \$5.50; one load of butchers at \$4.50 to \$5.50.

John Todd of Goodwood was on the market with a bunch of good cattle, amongst which were 11 chub steers, 150 lbs. each, at \$12.50; 100 lbs. each, at \$12.50.

H. M. Levinoff of the East End Dressed Meats Co. of Montreal has been to the City Market, where he bought 200 lbs. of the best cattle at \$4.50 per cwt.

Wm. Rowntree bought for the Harris Abattoir Company 50 calves, \$6 to \$7 each; 30 spring lambs at \$8.50 per cwt.; 20 calves at \$4.50 to \$5.50; 20 calves at \$4.50 to \$5.50.

John Todd of Goodwood was on the market with a bunch of good cattle, amongst which were 11 chub steers, 150 lbs. each, at \$12.50; 100 lbs. each, at \$12.50.

H. M. Levinoff of the East End Dressed Meats Co. of Montreal has been to the City Market, where he bought 200 lbs. of the best cattle at \$4.50 per cwt.

Wm. Rowntree bought for the Harris Abattoir Company 50 calves, \$6 to \$7 each; 30 spring lambs at \$8.50 per cwt.; 20 calves at \$4.50 to \$5.50; 20 calves at \$4.50 to \$5.50.

John Todd of Goodwood was on the market with a bunch of good cattle, amongst which were 11 chub steers, 150 lbs. each, at \$12.50; 100 lbs. each, at \$12.50.

BIG RECEIPTS IN THE LOCAL FRUIT MARKET

Strawberries Were in Good Supply and Prices Were Easier—Looks Like Great Year.

Down at the city fruit market yesterday morning all was lustre and activity and the practical opening out of the fruit season was marked by a spirit of hopefulness and go that means much to this important industry.

The Grand Trunk Railway had by a little extra express succeeded in keeping the line into the fruit market clear and the incoming express cars from the west put in large and many of the best of the season.

The fruit industry is a mighty important one, and it is altogether gratifying to see that it keeps the business humming. Anything in the way of neglect or inattention on the part of the express companies, results in the loss of the average citizen as well.

The city market is not so busy as it used to be, but the only thing to do for this summer at least is to make the best of it.

On the market yesterday the quality of the strawberry offering was on a par with the quality of the fruit, large and well colored, all indicating luxuriant growth. The receipts, too, were a run, running all the way from 1 to 10 cents per box in cases, and the bulk of the offerings of strawberries yesterday at about 10 cents per box in cases.

But it was a good market affording good selling and buying opportunities.

The bulk of the berries came from Aldershot and Clarkson, but from this time on the receipts will be made up by one or more of the other growers.

The season promises to be a short and heavy one will it last.

The stock market was a quiet one, with a few scattered transactions.

The grain market was a quiet one, with a few scattered transactions.

The oil market was a quiet one, with a few scattered transactions.

The sugar market was a quiet one, with a few scattered transactions.

The cotton market was a quiet one, with a few scattered transactions.

The wool market was a quiet one, with a few scattered transactions.

The iron market was a quiet one, with a few scattered transactions.

The copper market was a quiet one, with a few scattered transactions.

The zinc market was a quiet one, with a few scattered transactions.

The lead market was a quiet one, with a few scattered transactions.

The tin market was a quiet one, with a few scattered transactions.

The nickel market was a quiet one, with a few scattered transactions.

The cobalt market was a quiet one, with a few scattered transactions.

The manganese market was a quiet one, with a few scattered transactions.

The phosphorus market was a quiet one, with a few scattered transactions.

The sulfur market was a quiet one, with a few scattered transactions.

The selenium market was a quiet one, with a few scattered transactions.

The tellurium market was a quiet one, with a few scattered transactions.

The bismuth market was a quiet one, with a few scattered transactions.

The antimony market was a quiet one, with a few scattered transactions.

WHY REMAIN WEAK

Don't allow all the fresh young strength to go out of your life.

If you are losing the strength of youth and can't get it back, you are losing the best of your life.

It is going to decay, you should, in common justice, take steps to check this.

Don't make the mistake of thinking that this can't be done; it can and has been done in thousands of cases.

Don't deceive yourself into believing that it is natural for you to remain weak.

Nature is appealing to you every moment to save yourself. The slight pains that you feel, the momentary spells of weakness, the periodical loss of memory, dulness of brain, drowsiness—all point to the necessity of curing yourself now.

I have a positive cure for you in my Dr. McLaughlin's Electric Belt.

This is the treatment that has restored thousands of people to the highest standard of manhood and womanhood. It is adapted especially to this trouble, and never fails in its grand work.

Cochrane, Ont. Dear Sir—I cannot say too much for your Belt. I consider it completely cured me of rheumatism, and I never felt so well for the last thirty years.

I would recommend it to any railroad man suffering from weak back or kidney disease. I only wore my Belt for one month. Yours truly, WILLIAM HONAN.

To those who still doubt there is any cure, because they have been misled by false representations, and want evidence of cure in their own cases before paying, I am willing to take all the chances of curing any case of RHEUMATISM, LUMBAGO, LAME BACK, NEURALGIA, SCIATICA, HEMIPLEGIA, PARALYSIS, CONSTIPATION, LOST ENERGY, resulting from exposure and excesses in young or middle-aged men.

PAY WHEN YOU ARE CURED. That is my offer. You take my latest improved appliance and use it in my way for three months, and if it does not cure you, you need not pay me. My only condition is that you secure me, so that I will get my money back when you are cured.

Electricity is life to the nerves and organs of the body. They cannot live without it. Get back the power and make yourself a man among men.

CALL TO-DAY—FREE CONSULTATION—FREE BOOK. If you can't call, write for my beautiful illustrated Book. Sent sealed, FREE. DR. M. O. McLAUGHLIN, 237 YONGE STREET, TORONTO.
