BEL CO. LEV. GRINDING WAGES TO LOWEST OF THE TIMES OF OPERATORS

Report of Royal Commission a Scathing Arrangement of the Treatment Accorded the Employees of the Local Exchange.

RECOMMEND 6-HOUR DAY WITH PLENTY OF RELIEFS

The details of the report of Judge Winchester and W. M. King, deputy minister of labor, as commissioners investigating the strike of telephone operators in Toronto last February, were announced yesterday from Ottawa.

To the extent to which the Bell Telephone Company has profited by the necessities of its operators, and the security of services at a rate which would not have enabled those who rendered them to support their families, or in ways other than those provided by the company, to this extent, the profits of the company, have been derived by a species of sweating, or by the levying of a tax upon homes and individuals for which no compensation has been made.

OFFICIALDUM S MUM CONCERNING REPORT

But a Divergence of Opinion on the Six-Hour Day is Indicated. The head office officials of the Bell Telephone Company at Montreal, questioned by The World, declared that they had nothing to say on the commission's decision, as they had not received any official verdict, and so preferred not to go on record at present.

C.P.R. ANNUAL REPORT MORE STEAMERS NEEDED

Average Price of \$8 an Acre Received for Western Lands During the Year. MONTREAL, Sept. 12.—(Special.)—The annual report of the Canadian Pacific Railway Co. was issued this afternoon. It says in part:

METAL MARKET IS DEPRESSED

Copper Trade Demoralized—Montana Camps May Shut Down. NEW YORK, Sept. 12.—The unsettlement and irregularity of the stock market continued in evidence to-day, with the distinction clearly marked between an upward tendency in the railroad stocks and decided depression in the copper stocks, with diminishing sympathy for most metals, but perceptible also in other industries.

JAPAN TROUSTS CANADA MORE

Tokio Comparison With Frisco—Japs in Canada Not a Good Class. TOKIO, Sept. 12.—The Jiji to-morrow will greatly deplore the fact that an incident similar to that at San Francisco has occurred at Vancouver, which is part of the territory of an ally of Japan.

THE NEW QUEEN OF THE SEAS. The mammoth ocean liner, Lusitania, which has for the past five days been tearing across the Atlantic at a speed that will break the record by about 18 hours, is 790 feet long, 88 feet broad, has a displacement on load draught of 45,000 tons, a horse-power of 70,000, and carries a crew of nearly 900 men. There are 3000 people on board.

MORE EVIDENCE IS GIVEN TO SHOW EXCESSIVE SPEED

Passengers and Eye-Witness of Caledon Wreck Tell of Fast Rate—Train Crew Unite in Denials—Rail Was Lowered Three Years Ago and Not a Factor.

Divergence of opinion as to the speed of the ill-fated excursion before it ran over the Horse Shoe curve, near Caledon, causing the deaths of seven passengers and injuring scores of others, was the chief feature of the evidence given before Coroner Johnson last night.

The train crew to a man placed the rate at under 20 miles an hour, while the passengers and other witnesses tracked and the stories of other witnesses went to show that the speed was from 25 to 30 miles.

Coroner Johnson was handed a letter from Shelburne in which the writer told him that a woman had protested to the conductor against excessive speed. The matter of the change of the elevation of the banking rail was shown to be a change made three years ago.

BY-ELECTION "LUSITANIA" IS BEHIND RECORD

Nominations for Brockville Will Be Received on September 30. Indications are That She Will Finish Some Minutes Too Late to Break Record.

NEW YORK, Sept. 12.—The most important ocean race in transatlantic traffic is nearing a spectacular finish. The turbine-driven Lusitania, in which is concentrated the British resolve to win back from Germany the blue ribbon of the seas, was nearly abreast of Nantuxet Lightship to-night, and only about 200 miles from Sardyhook bar.

COUNSEL FOR PROVINCE.

T. G. Meredith, K.C., of London, to Resist G. T. R. Appeal. Hon. J. J. Foy, attorney general of the province, has appointed T. G. BISHOP UGRAN COMING TO-DAY

Noted London Churchman, Beloved Alike by the Rich and the Poor.

The Bishop of London will arrive in Toronto, from Ottawa, at 7 o'clock this evening, and will be met by the archbishop, clergy and prominent laymen. He will be driven at once to the See House, and from there to the university convocation hall, where a public meeting will be held.

We love you, and the crowd of you. We watch every step of your way with loving interest as a mother watches the progress of her son. And nothing that Canada does is not watched with the greater interest and love at home.

A true Christian, he is deservedly popular with all sections of the vast community over which he holds spiritual sway, and is looked upon with affection and respect by the King's first bishop, "An up-to-date bishop," "The people's bishop," "The bishop of the slums." "The one who has never given ground, and who has never given ground."

Indeed, it would be difficult to compile a catalog of his many appellations, and they would only serve to form an index to the many-sidedness of his character. King Edward is generally credited with being endowed with exceptional tact and wisdom, and never gave greater proof of this than when he confirmed the choice of Dr. Ugran as Bishop of London, six years ago.

The appointment pleased Londoners immensely, for his lordship is equally popular in the drawing rooms of the west as in the slums of the east. He is one of the very few men who have gained promotion in the English Church entirely through merit.

The Bishop's career may be briefly told. Born in 1855, of a clerical family, in Worcester-shire, he may be said to have inherited all the faculties necessary for a great divine. He was educated at Marlborough College and Keble College, Oxford, and ordained in Shrewsbury in Shropshire; church work in rural England was his first work in his life, so he went to London, where his real work began. Since then his promotion has been rapid.

He was the chief founder of the new Oxford movement in the east, and which he started on All Souls' Day, 1888, assisted by a few other zealous Oxford graduates. They investigated the depths of darkest London, and brought cultured Oxford, with all its patriotic and traditional conservatism, into direct contact with rough and unpolished London, and the result was the "Oxford Millions." Strange to say, this bold venture received every encouragement from the stateside classic Oxford, and opposition from the poor in whose interest it had been undertaken.

PREACHING POLICEMAN QUILTS THAT E. J. LENNOX BILL.

Reigns From Force to Come to Canada With Wife.

(Canadian Associated Press Cable.)

LONDON, Sept. 12.—Known as the "preaching policeman," because he had taken part in frequent religious services, Francis Curtis of Willesden has retired. He reformed many of the worst characters of the district, and frequently averted disturbances by his tact.

Twenty-five years ago he was a soldier stationed in Canada, and married a Canadian. He is returning to Canada to-morrow with his wife.

KISHINEV OUTRAGES.

Band of Rowdies Commit Outrages on Jews.

VIENNA, Sept. 12.—According to the reports received here the disturbances which led to the circulation of alarming rumors in Roumania began at Kishinev, Bessarabia, during the night of Sept. 8.

A band of rowdies which arrived there from Odessa and committed fearful outrages in the suburbs. They set fire to a lumber yard, into which the Jews, who were aroused from their sleep, were driven.

The police, during the disturbances, were entirely passive.

Autumn Modes Are In.

Whatever doubts, hopes or fears may have been entertained during the past six weeks regarding the possible styles for fall wear, all uncertainty is over now. Very decided, original and yet pleasing are the unmistakably new materials and patterns now being shown in millinery and tailoring openings all over the city. A short summary of prevailing styles, by an expert, who has recently been in France and Germany, may give our readers the best idea of the new clothes. The first place, "tailored" is the law for suits, and "middle" length the mode for the coats, the shorter are very popular. Most of the new styles are of a single day. Of course, this demonstrates the popularity of tweeds, the smooth materials are, so say our informants, most in vogue. There are some in a variety of style and effects, the invisible stripe being popular, and the "leather" colors a positive rage. Very beautiful are the new styles in hats, with handsome vest and hat to match. A suit of this kind had the leather tint as ground, with black stripes, and was made in empire style, with a strapping, the reality a fitted cutaway. This is one of the Paris pattern suits of Madame Bloem's establishment—sequet and Bloem, 110 West King-street.

Among many other stylish designs seen at Madame Bloem's opening was a black evening dress, very greatly admired, with rectangular spots of white ground, with a tiny Dresden rose. The draped sleeves were finished with black velvet, and lace, as also the bodice, which opened over a vest of white silk embroidery to match the undersleeves. Over each shoulder a broad passmenterie of red rose with white ground completed the strikingly French effect.

Motor coats are much worn in kimonos styles, called the "draped" coat shown in three-quarter length to illustrate this. By the way, Madame Bloem declares that green is the color of the year, "cui" or leather shades. Peacock green is seen again this season, and a southern glow of velvet foundation, was much admired.

Purple runs the other colors close, in hats particularly, and a dainty dress of this color, in silk and velvet, gave a soft note to the display.

Among novelties were a couple of models. The first was in a pale chocolate of almost a "cocoa" shade of velvet. In hot shape, was a dress of self-colored tulle, with the right note given by the lining inside the bodice, of hand-painted chiffon net.

In the midst of the rage for oriental trimmings, Acetate greens and leather shades, purples and wine colors, it is pleasant to see a familiar blue or two, changed in tint and now, and a hat in blue is the latest, and a hat in blue is of silk foundation, with bands of velvet and dainty coque of grey and blue.

Refuge we left, Madame Bloem insisted on one feature of the coming winter's array.

Dinner bonnets will be most fashionable, with bands of brocade in light shades, and brocades of the same.

Rev. Mr. Brown's Complaint.

Editor World: A rumor has been going around that the recent trouble which I had with a man who stabbed a white man for interfering with his wife, was one of the parties that I married in May last. Such is not the case, the two that I married on May last, on which I am awaiting the judge's decision and have been for nearly six months, are living happily together. I would also like to know by what authority the police took their marriage certificates from these women and still retain them, although, I believe, they have asked several times for the same, or what has that to do with the judge's decision, as these women were discharged from the police court early in April. It is also false to state that I have resigned from the pastorate of the church, I have not resigned and do not intend to resign from the work.

The treasurer reported that the receipts for the year amounted to \$690.70, while \$107.22 had been subscribed to the extra-cent-a-day fund. The amount was voted toward the erection of a new parsonage at Fleming, Sask.

The next meeting of the auxiliary is to be held in Holy Trinity Schoolhouse, Oct. 3.

Red Cross Nurses.

The election of officers of the Canadian Society of Superintendents of Nurses' Training Schools at Montreal yesterday resulted as follows: Toronto General Hospital; first vice-president, Miss Chesley, Ottawa; second vice-president, Miss Bunting, Montreal; secretary, Miss Brent, Toronto; treasurer, Miss McKeljohn, Cornwall; Miss Henderson, Toronto; Miss McDougall, Halifax; Miss Wilson, Winnipeg; Miss Chesley, Ottawa; Miss Patterson, Toronto; Miss Greene, Belleville; Miss Scott, Kingston. The auditors selected were: Miss Sharp, Woodstock, and Miss Stanley, London.

It was announced in the address of the president that the society had received a message from Col. Jones of Ottawa, transmitting the wish of Princess Christian, that a staff of nurses would be formed in Canada to act in the same way as that of the Red Cross nurses to the regular army. The president proposed that the society affirm its willingness to take the idea, and this was unanimously supported.

PERSONAL

Mrs. G. H. Hastings and daughters, formerly of The Plaza, Deerpark, have returned to the city, after a long and delightful trip thru the States, her son George accompanying them home. He has now returned to Chicago, after spending a few days in Toronto.

Mrs. John H. Butler and family wish to express their sincere thanks for the many expressions of sympathy in their sad bereavement.

Dr. R. J. Dwyer has removed from 40 West Bloor-street to 782 Spadina-avenue.

A pretty house wedding was solemnized Wednesday evening at the home of Mr. and Mrs. John Clarkson, 35 Geneva-avenue, when their daughter, Miss Mabel Clarkson, daughter of Mr. and Mrs. John Clarkson, was married to Mr. Arthur J. Williams, also of Toronto. The ceremony was performed by Rev. Canon Baldwin of All Saints' in the presence of the intimate relatives and friends of the contracting parties. The bride was attended by her sister, Miss Margaret, and the groom's best man was Mr. Arthur J. Williams. The bride wore a pretty and becoming costume of white duchesse satin and carried a shower bouquet of white chrysanthemums. The bride's gift to the bride was a pearl brooch of chaste design. After the honeymoon trip to Detroit and other western points, Mr. and Mrs. Williams will reside in Toronto.

GRACE CAMERON

"Little Dolly Dimples"—Grand.

The latest operatic drama, "Little Dolly Dimples," which will be seen for the first time in this city at the Grand next week, is a masterpiece, and its dainty little star, Grace Cameron, will certainly win her way to the heart of everyone. Al. Lawrence, the man of one hundred faces, will be seen as H. Skinner, a country-kid, and is said to be a whole show in himself.

NIGHT SCHOOL CLASSES

TEACHERS APPOINTED

Harbord-Street Collegiate Accommodation Again Up for Consideration.

At yesterday's meeting of the school management committee a motion by Trustee Parkinson, that the scholars in Harbord-Street Collegiate be accommodated as far as possible in Harbord Collegiate Institute, not, however, in the gymnasium or halls, and that the remaining pupils be accommodated in King Edward school, and that said rooms be considered a part of Harbord Collegiate and be conducted as such, and that Mr. H. Skinner be transferred to the Harbord Collegiate, was carried.

R. A. Gray was recommended for appointment as an assistant high school principal and J. H. Mills, M.A., as principal of the upper part of Jameson-avenue staff was appointed senior classical instructor.

Leave of absence was granted to Miss M. J. McDonald and Miss N. C. Dunbar. Miss T. R. Swain was transferred to Devon-street school, Miss H. M. Gregory to Church-street school, and Miss Winsfield to Phoebe-street school. Misses M. E. Thompson, M. Walker, A. Ebbell and I. Buerly were appointed to the upper staff and assigned to different schools. Miss Augusta Smith was promoted to the position of director in the Kindergarten at Morse-street school. Miss Jennie Ward was appointed special assistant in Hyerson and Church-street schools.

Seventy-seven typewriters are to be ordered for the senior commercial classes.

A flag and cup presented to the schools is to go to the school cadet corps making the best showing and doing the most accurate shooting.

It was decided to have the night schools open from Monday, Oct. 7, to March 21, to be opened in the following schools: Harbord-avenue school, principal, R. G. Elliott, assistant, R. J. Blaney; Devon-street school, principal, J. A. Brown; Duke-street school, principal, W. H. Armstrong, assistant, W. D. Hannah; Elizabeth-street school, principal, W. E. Murdoch, 1st assistant, A. which will be the attraction next week commencing Monday matinee at the Metropolitan Theatre, will give as the first burlesque, "Sullivan on Parade," while the closing act is called "A Strike on the Metropolitan Street Railroad."

In the most modern musical comedies only certain characters appeal to certain of the audience, but in "The Gingerbread Man," the musical fantasy that comes to the Princess Theatre for Monday Tuesday and Wednesday of next week, every character appeals to every listener.

The Rose De Haven Septet, a beautiful musical act presented by seven stunning girls, will be the headline feature at next week's matinee. Another feature will be the Camille Trio, with their burlesque bar act. Others are Mr. and Mrs. Arthur & Elsie, Macarrie's monkey circus, Carson and Willard, Johnson and Wells, Louise Farnum and the Photographic Company.

John M. Smeckmeyer is in the city representing the Maritime Company, which comes to the Princess the week after next, presenting "Marrying Mary."

HEAVY RAIN IN NORTH. Thunder Bay Country Under Water—Surveyor's report.

Thomas Foster of Fort William, who has been for some time engaged in surveying lots 1, 2, 3 and 4 of the grant, made to the Thunder Bay and Lake Huron, by the Transcontinental Railway, has written to the survey branch at the parliament buildings that rain has so constantly fallen during the last two months that all the level country has been under water. Each of these lots of land is 18 miles in length and 8 miles in width. He reports that lot No. 1 consists of rolling land, heavily timbered; lot No. 2 is still more heavily timbered, with spruce, tamarack, birch, poplar, and all the land over which he has gone is covered with a dense growth of underbrush.

BORDEN AT DUNNVILLE. TWO MEETINGS HELD

Given an Ovation and Made the Recipient of a Unique Souvenir.

DUNNVILLE, Sept. 12.—(Special.)—This prosperous town gave R. L. Borden a real welcome to-night. The opera house was soon filled, and a large overflow meeting was held in the Oddfellows Hall. Two or three bands were in attendance. At the main meeting, David Hastings presided. The first speech was made by Haldimand's representative, F. R. Lalor, M.P., who said that Mr. Borden would rank in history with Sir John A. Macdonald and Sir John Thompson.

Mr. Borden received a great ovation. He said the Liberal party had attained power under false pretences. It came into power as a free trade party. It had lacked the courage to repeal the national policy, so far as they dared they had maimed and disfigured it. The Conservative party believed in protecting Canadian labor, not only against American and European competition, but also against the competition of Asiatic pauper labor.

Mr. Aylesworth claimed that the Halifax platform had been stolen from the Liberal party. "Well," said Mr. Borden, "we will see about that later." Mr. Borden followed closely the lines of his recent speeches, dwelling with particular emphasis upon free rural mail delivery.

Claude Macdonell, M.P., urged the re-election of Mr. Lalor. The Halifax platform appealed to the young men and the independent voters, who were less interested in the past than they were in the future.

Edmund Bristol, M.P., said that the record of the Ottawa Government was too filthy to touch. Mr. Bergeron, like Mr. Borden, addressed both meetings. Mr. Graham said, he had been called to the Ross cabinet just in time to see the Liberal leader for that outfit, and was now summoned to Ottawa to be on hand to sign a bill-bearer for the Laurier Government.

The two audiences numbered at least 1000 people, and were very attentive. A lighter feature of the evening was the address of Mr. Borden by Francis Spitt, an old-time Conservative, of a came made from a British battleship sunk near Port Matiland in 1813.

MOORS ROUTED BY FRENCH. THEIR CAMP DESTROYED. Allied Armies Make Successful Move on Taddert—Attack Well Planned.

CASABLANCA, Sept. 11.—The allied Franco-Spanish army to-day made a sudden and successful move on Taddert, where the Moors were massed in force. The camp of the latter was destroyed by bombardment, and the enemy was put to flight, leaving many dead on the field. The French lost one man killed and six men wounded.

The attack was carefully planned, and was based largely on the observations of the Moors' positions made from a military balloon. The allied army, which was divided into two columns, left the camp at 10 o'clock, and moved on the Moors' positions of the base at Casablanca.

The first column was composed of four companies of regular infantry, several companies of sharpshooters, a battery of artillery and all the cavalry. The second consisted of the Moors' irregulars and a battery of artillery. The march was skillfully carried out under the cover of a fog until within half way to Taddert, when the Moors were discovered and several large bands of the enemy.

The allies then charged the enemy at the point of the bayonet, and also the Moors resisted with their old-time courage they were finally compelled to retreat in the face of a superior force, and both of the columns of allied troops advanced on Taddert.

After the bombardment of that place by the French artillery, as well as by the guns of the French cruiser Gloire, which fired seventy-five shells, the allied forces advanced on the Moors' camp, where the enemy was making a last, desperate stand. A short engagement followed, and the Moors were driven back to the sea. Several of the Moors were killed, and the remainder were taken prisoner.

The Moors were not known, as they carried away many of their dead. The allied army later returned to Casablanca.

During the engagement the Moors endeavored to employ their now familiar tactics of circling rapidly in front of the advancing troops, with the object of cutting them off and surrounding a section of the allied forces, but the attempt utterly failed to-day, largely on account of the rapid advance of the two independent columns, whose movements seemed to puzzle the Moors and made them believe that a trap was laid for them. When assailed from a long line of troops, the Moors retreated from Taddert, where many of them fell under the accurate firing of the Gloire, at anchor off the coast.

When the Moors saw their camp in flames, they fled to all the farms and woods which they could reach, and soon the country surrounding Taddert became covered with small bands of Moors. General D'Amiens personally conducted the military operations.

Shorter Hours at Kent's. Recently a committee representing the 80 old employees of the Ambrose Kent & Sons, Limited, manufacturing jewellers, waited upon the members of the firm with a request for the reduction of hours from 12 to 10 per week. To-day, the firm announced that they had acceded to this request. The generous act speaks well for the cordial relation that exists between the firm of Ambrose Kent & Sons and their employees.

100 Years Old. SIMCOE, Sept. 12.—(Special.)—Capt. W. J. Miller, a pioneer of this county, celebrated his one-hundredth birthday here to-day.

Continued From Page 1. Caledon, fixed the time that the train left Caledon as 9.22.

Asked by T. C. Robinette, counsel for Hodge, if any repairs had been made since the accident, the witness said he had no definite knowledge.

Here Mr. McPadden, crown attorney, and Mr. McCarty, counsel for C. P. R., promised to produce the men in charge of the track.

Conductor "Matt" Grimes said he thought that he was running twenty miles an hour when the train was wrecked. When he repaired had the coach he looked at his watch and it was 9.32. No one had complained of the speed to him. He had run the road for many years as brakeman and conductor. He is not a regular passenger conductor. He could not swear that he had ever gone down the curve as fast as he had done that day. He had not been drinking; he is a teetotaler. Asked if he was doing anything besides collecting fares on the Caledon, and the scene of the wreck the witness would not object. "Give me a moment," the witness then took the witness and after a persistent effort he said: "No, my mind was on the rate the train was going. It was not running reckless."

Another series of questions brought the final answer that he knew nothing about the train until he looked at his watch after the accident.

Benjamin Tansley, C. P. R. roadmaster at Orangeville, was heard over the rails before the wreck and had a foreman over it that morning. The rails are braced at the point. The road is in perfect order. The road was lowered from 6-1-2 to 4-1-2 inches in July, 1904, to make the road easier to care for and easier for the train. It is not believed that the curve was perfectly safe, even up to 25 miles an hour. The rails were renewed last fall. Thirty or forty miles were laid. None were spread. He did not think that the track was as safe with the old rails as with the new. Engine in Repair.

Allan Van Wyck, foreman of the section over which the train ran, said he had noticed the train at 9.15 miles an hour. He had said to his men: "That train must be going at 35 miles an hour." He looked at his watch and it was 9.25. He was not surprised when he heard the crash.

Brakeman Arthur Hudson had looked at his watch when he got out of the train and said that it was 9.32. He did not notice that the train was going faster than the train that he had just been with.

R. Preston, master mechanic of the Ontario division, has charge of the locomotive engine, a ten-wheeler, six drivers and 2 pairs of trucks, it had been running since 1894. It was in good order. It is not believed that the engine was at fault in the accident.

London, he did not consider that a seven-pound application of the brake on the given grade was sufficient.

An Eyewitness. A railway engineer engaged to investigate the wreck as an expert, had explained the scene of the wreck Wednesday. He said that he had been in the train when it was wrecked, told him that he did not believe that the train would get out of the curve when he had seen it on the point. He had seen the train at 10 o'clock, in the two drivers of the locomotive, he could not spare the time to listen to the man's story, and wished to postpone it. The coster, however, was not to be put off, but invited the bishop to take a seat on his barrow, saying he would drive him to his destination and relate his story on the way. Dr. Ingram acquiesced, and the two drove off together. These little acts of kindness had endeared him to the masses, and reveal the bishop as a peculiar man in every respect, no second to the church ritualistic, evangelical or broad church, but a man of a confirmed such of the early Americans, a swerve able to afford that luxury. The Diocese of London, and ecclesiastical survey over all communications not residents in England itself, and its earlier scope is recalled by the invitation to Bishop Ingram.

His one of Dr. Ingram was enthroned bishop of London, and became one of the spiritual peers with a seat in the gilded chamber of the House of Lords. He had a great deal of money in the form of a plain dwelling in the midst of the slums, his residence was now a simple flat and dividing his income among the poorer clergy, but he could not have his way in this. The bishop is regarded now as a confirmed bachelor. He has had his romance. When he was bishop of St. Stephen's, Uffington, a beautiful girl and the youngest daughter of Lord and Lady Forrester, was going thru a course of shunning. She had fitted herself for the work by qualifying in a hospital as a fully trained nurse. She and the bishop were thrown much together. In the course of time their engagement was made public, but for some reason that was never explained it was broken off. It has been suggested that the good bishop was so much in love with the girl that he had mapped out for himself a small room for domestic bliss, and if it could be secured, he would have married her. FRIDAY MORNING

FARMING AND STOCK

THE MILK PRODUCERS.

The high prices of all fodder in Ontario this year, with the poor pastures in many parts of the province, make it absolutely urgent that the farmer advance his price of milk per can. Meats are very dear when retailed, and milk has not advanced, by any means, to its proportionate position.

Some private dairies have already advanced the price to the producers, and more will likely do so. As usual, it is the biggest concern of the farmer, the hardest on the farmer. It is not to be wondered, then, that the farmer has a distrust of such groupings of capital.

It is to be hoped that the situation will be settled amicably and a reasonable price be fixed upon.

AND THAT IS HOW!

The commission's report on the telephone situation in Toronto has revealed how the Bell Telephone Company has been making dividends. It is the same with companies generally. The corporation has no soul. Its one cry is for more, and if the horse fails, get another.

The World has been advocating the advance of the government owned telephone, so that the profit idea can be largely eliminated and the utility side worked out for the people. Our farmers have been more sensible than Toronto City. They are building, equipping and operating their own lines, and still there is room for better service, less charge and no sweating system.

RURAL POSTMASTERS.

The farmers will be glad to hear that the rural postmasters have received some salary concessions. The World fought strenuously for the increase at the time, as it was a benefit to the farmer who wants a better mail service. He also wants well paid postmasters at his country cross-roads. The grant is small, but it is a beginning, it is good.

NAME THE FARM.

Of late years many persons have begun to attach names to their farms. It is a commendable practice. Not only does it indicate a love of the farm in the hearts of the farmer, but it has the much-to-be-desired tendency of elevating the status of farm life. This means much in the determining of the long's future usefulness in life. Too long it has been preached by the farmers themselves, that the farm is a drug-store, and the aim of every youth should be to get up into the professions or mercantile halls.

But acquaintance in these positions by the leading men-to-day, does not corroborate the testimony of the superiority. There is no more ideal life in life, than that of the farmer of a few fertile acres, rearing his plant and animal life around him. He finds here full scope for his faculties of observation and reason. Life becomes intensely interesting to him if he has sufficient management ability in his making.

Executive ability in any work is largely acquired by education, and the education that the farmer boy gets on a well-cultivated and well-managed farmstead is the best of all. Let us have more business about our farming. Naming the place is a step in this direction. For when a place is named, other improvements must follow. Better stock must be raised and thus the old farm blossoms better than the roses on the soil of our inflated-in-value city farms.

BUTTER-MAKING COMPETITION.

The results of the butter-making competition, held at the Toronto exhibition during the second week, are given herewith. This was the professional class and included among the competitors persons who had secured prizes at other exhibitions. In competition with the best butter-makers of the country:

1 F. H. Dennis, Ealing Ont. \$30
2 Miss Elsie A. Valons, Valons, Ont. 25
W. M. Waddell, Kerwood, Ont. 25
Miss Mary Carrick, Roseville, Ont. 15
Miss Margaret Carrick, Galt, Ont. 10
Miss A. W. Green, Loyal, Ont. 5

Mr. Warren of the Traders' Bank, Toronto, reports that there is as good agricultural land in Algoma as here. Steam plows may yet be common in the clay belt.

William Oke of Whitby reports that his oat crop has not yielded as well as his barley this year.

Herbert Webster, one of Pickering's best agricultural young farmers, has purchased a new big riding plow to facilitate farm operations.

IROQUOIS VALLEY APPLES.

The Apple Situation as Told at Oshawa—Big Prices for Co-Operative and Dealers—Enthusiasm at Oshawa.

OSHAWA, Sept. 14.—Staff Correspondence.—The world's apple crop for 1907 lies between Pickering and Belleville in the Iroquois valley.

The demand from Germany this year is very great. One dealer says he could handle 100,000 barrels. The apple crop in New York State, the best in the States, has fallen short because of dry weather. Apples are now only the size of walnuts.

All over the Continent of Europe property is selling. Bad times are reported from no quarter.

Such were the encouraging words of Mr. Chapin of Manchester, England, addressing the Oshawa Fruit Growers' Association, yesterday, and the facts of the scarcity of good apples, and the outlook for good prices are borne out by the advices from all quarters and by the urgency of the private apple buyers throughout the country.

Good Prices. Apple dealers in the Iroquois valley have purchased many orchards en bloc. Others are sold per barrel of firsts and seconds at prices varying from \$1 to \$3 per barrel. The latter price has been reported as paid for an orchard of spies. At any rate the Oshawa fruit growers feel highly jubilant over the prospect for the returns from their orchards this year.

A notice calling together the shareholders was sent out by Secretary Lick and over two-thirds of the members responded in person. Enthusiasm was written in every face. Discussion then took place upon the details of the arrangements for picking, packing and delivering of the fruit. A nearly perfect system has been established and this co-operative group of men feel assured of success in the venture. Organization is everything and with the details worked out as they are here, they feel that there will be no slip in anticipations.

Co-Operative Outlook. When the question of prices came up the eyes of the sturdy men of South Ontario, some old and grey in their professions, other young and exuberant, showed clearly the joy that they felt in hanging together in this fight for the farmers' just returns. The World's announcement that the Iroquois Fruit Growers' Association had sold out their entire pack at a good figure, made many inquisitive of the secretary to know what offers for these apples had been made.

A reply from Mr. E. Lick elicited the information that he had not seen "dickens" for a sale, but that there were parties in town now who would pay \$3 a barrel all round for the entire output, fall and winter, f.o.b. Oshawa.

Visions of big things passed before the eyes of the members, and not one of them but could feel a touch of satisfaction in becoming partners of the middleman's profits.

Furthermore it was stated that a bigger price would likely be obtainable. But here is the question. Should the association sell out its supply, lose their brand this year and miss the profit that the buyers would naturally expect to make? Or should the association bear out its splendid work by shipping the fruit on consignment and thus maintain in a "lean" year the good name, the big prices and the reputation?

The World has a big circulation now. Advertisers of farm stock note this.

The usual quantity of fall wheat is being sown. Dawson's Golden Chaff and Clawson are the leading varieties.

Pigs must be good property when Ontario farmers can pay \$500 for one.

What about fall meetings of the Women's Institutes?

Write the Bissell people about their disc harrow. There is no more useful implement on the farm.

J. W. Cowie of Markham can raise goose wheat as well as Clydesdale mares.

Ensilage cutting will begin at any time now. Alfalfa goes well with the corn, some say.

There has been a decline in the apple outlook all over the States and of Toronto. The dry weather has affected the size of the fruit.

Engine operators on our farms ought to be very careful with their fire-boxes when the wind is blowing. Farm fires are too common.

All blighted twigs on the pear trees should be cut with a clean cut. The fruit and burned. Care has to be taken with the saw or else infection of healthy trees will ensue.

FIFTY-BUSHELS TO ACRE IN CLOVER BAR DISTRICT

Whole Western Grain Crop Expected to Be Nearly 200 Million Bushels.

William Munns, president of the Edmonton Standard Coal Co., has returned from the western provinces, where he has been for the past two weeks.

He brings satisfactory reports of the condition of the crops. He had the opportunity of seeing the harvesting operations in Saskatchewan, around Warman, Rostern and Hague, and at Lethbridge he saw the farmers cutting wheat, threshing it and loading it to the elevators. In this district he stood in a field of 120 acres of oats, the stalks of which reached his shoulders. The oats average 40 pounds to the bushels and from 80 to 90 bushels to the acre.

Wheat averaged in the neighborhood about 25 bushels to the acre. It is estimated, said Mr. Munns, that the whole western grain crop will run 190 million bushels. There is a large increase in the acreage, while the average yield per acre will not be as great as last year.

In portions of Alberta the crop is said to be the best it has been in five years.

Speaking of the fuel situation Mr. Munns said there was some danger of a scarcity in places where the residents are not accustomed to storing supplies. The railways are doing their best to distribute supplies, and many towns have piles of fuel on hand for the winter. Coal at the mines at Edmonton sells at \$4 a ton, but the excessive freight rates send the price up at points in Alberta and Saskatchewan to \$8 and more. The cost of carrying coal from Edmonton to Winnipeg and Prince Albert is \$3, and to Calgary \$2. Compared with these rates coal is carried from Port Arthur to Winnipeg for half, taking into account the distance.

Mr. Munns exhibited a sample of the coal taken from his mine and mines, and low in ash and moisture. It is used by the C.N.R. Railway, which is now installing spark arresters on all its engines.

CHICAGO DAIRY SHOW.

Preparations for the Big Exposition in October About Complete.

The second annual National Dairy Show, to be held in the Pavilion, Union Stock Yards, Chicago, Oct. 10 to 19, promises to be the most extensive aggregation of the dairy interests ever attempted, says The Produce Review.

The enterprise has been a complete success. The exhibitors of dairy machinery and supplies are making preparations for an extensive display, and preparations have been made for a great competitive exhibition of products. Many special features of interest have been arranged for, including conventions of creamery men and dairy farmers.

EXTRAVAGANT SANITARY PRECAUTIONS.

Here is what the Ayshire Port of Scotland has to say about the proposed sanitary restrictions there:

While such laws are all right and the public health demands constant care of the supply, it is quite "milk" to strain the point too far.

"Milk production all the year round is certainly a laborious business and the dairy farmer has to be put on the most stringent measures and be prepared to make any sacrifice for the sake of the public health. It is possible to hamper an industry by such measures, but it is not likely to be enforced in some quarters."

FARM CALENDAR.

Dominion Exhibition at Sherbrooke closes Sept. 14.

Western Fair at London closes Sept. 14.

Canada Central Fair, Ottawa, Sept. 13-21.

We congratulate the farmers who won in the prize grain-growing competition of the province. There ought to be some big yields of clean seed.

In the tests of oats thruout the province the Siberian seems to be a favorite in the leadership. This oat has done well at Guelph also.

NEW YORK MILK PRODUCERS Union of the Farmers is in the Air—Oppression Can't Last.

A despatch from Middletown, N.Y., to an exchange states that hundreds of farmers from Sullivan, Ulster and Orange Counties, N.Y., and Sussex County, N.J., met there Sept. 3 to form a dairyman's league for the purpose of controlling the price of milk sold to New York dealers. Milk producers representing 15,000 cows have already signed the agreement, and the promoters of the league state that it will embrace all dairymen in New York, New Jersey, Pennsylvania and Connecticut.

GRANGE HARVEST HOME. Union Grange, No. 108, Whitby, Spend Enjoyable Evening.

WHITBY, Sept. 12.—(Special).—Union Grange No. 108, townline, held their annual harvest home festival in their hall last night. In spite of the rain of the day, a large number of the members, with friends, turned out and enjoyed a pleasant evening of social games, etc., after which a most appetizing chicken dinner was served by the ladies.

The union of the Grange and the Farmers' Association was a general subject of discussion. It is generally felt that good will result from more aggressive work. Master Albert Carleton has accordingly entered the Collegiate Institute at Whitby.

IRISH POULTRY AND EGG EXPORTS. One of the most striking features in the returns of Irish trade, says the annual report of the Irish department of agriculture, is the quantity of eggs exported in 1906 amounting to 6,095,451 great hundreds, valued at \$2,515,811, as against 5,513,814 great hundreds in 1904, valued at \$2,205,828, an increase of \$310,083. These figures of eggs and poultry do not include quantities sent by parcel post. The import of eggs in 1906 amounted to 6,095,451 great hundreds, valued at \$2,515,811, as compared with \$2,077,194 in 1904.

SAVE SAFELY

Having decided to spend less than you earn, and to save the surplus, the next step is to deposit the surplus in a strong, safe financial institution, where it will be absolutely safe and earn a fair rate of interest. This should be done regularly and systematically. Whatever you can spare from your weekly or monthly income, if only a dollar, should be immediately deposited to your credit. Over an account now—smaller will do it—and add to it at regular intervals. Saving will thus become a habit, and your surplus will be safe and growing. Times and 3-1/2% per cent. interest will be credited to the account FOUR TIMES A YEAR.

BAD BREAK IN COPPERS OTHER SECURITIES WEAK

Wall St. Witnesses Further Sharp Liquidation—Sao Paulo Weak at Toronto.

World Office Thursday Evening, Sept. 12. The break at the New York market to-day was not a factor in the Toronto market. There were signs of a shading in prices, but as no volume of liquidation was precipitated the supporting bids were well maintained throughout the day. Nothing novel transpired outside the exchange to change sentiment. This week's Bank of England statement was received as highly favorable. At this season of the year, the proportion of reserve being well over 50 per cent. Another quarterly dividend on Toronto Electric Light at the 8 per cent. rate was announced, but the stock of the company remains unwanted, with holders quite as firm as they have been. The speculative issues were thoroughly active. Sao Paulo was the weakest feature of the market, selling down to 12 1/2, a loss of 3 1/2 points from the recent rally. There was considerable liquidation of Bank of Commerce, causing a decline in the shares of about 3 points from the level of a few days ago. Dominion Bank retained its firmness, advancing on small buying to 332.

The Bank of England rate remains at 4 1/2 per cent.

Brooklyn Rapid Transit has no new financing under way.

There is a strong demand for stocks in the loan crowd.

Thirty-five roads for the fourth week of August show an average increase of 6 1/2 per cent.

Eastern call money is expected after the release of New York City bonds payment.

London expects easy money next week, with rates hardening the week after.

St. Paul reports show 97-100 per cent. earned on stock in the past fiscal year.

BOSTON—Hawley, Folsom & Rommum's men's furnishing goods, at 81 Essex-street, have suspended business. The firm is rated by mercantile agencies at about \$200,000 to \$250,000, first grade of credit.

There are various stories to account for the attack on Amalgamated Copper apart from the metal trade conditions. At least one of the prominent operators said to be long of the stock—some of them in Boston and the other with New York offices—has there is very little authority behind either story.

London was the buyer of something like 20,000 shares in the second hour, and broke very easily without any apparent good support whatever. At 2 1/4 it established a new low record for the year. Foreign buying for the metal are to be expected, still it should be remembered that there is now an immense amount of metal being distributed through the international list—Dow Jones.

PHILADELPHIA, Sept. 12.—Officials and directors of the Rapid Transit Company denied that the company was in financial difficulty, or that a receivership was probable.

Amalgamated Copper was subjected to a severe bid in the second hour, and broke very easily without any apparent good support whatever. At 2 1/4 it established a new low record for the year. Foreign buying for the metal are to be expected, still it should be remembered that there is now an immense amount of metal being distributed through the international list—Dow Jones.

The Toronto Electric Light Company will, on Oct. 1, pay a dividend of 2 per cent. for the current quarter, at the rate of 8 per cent. per annum. The books will be closed from Sept. 21 to 30 inclusive.

Joseph says: This time Lawson's saying is pertinent. "The time to buy stocks is when they are down and fools and unfortunates are selling." Washington advises say "the government, thru the Interstate Commerce Commission, is unlikely to probe the Hill roads, and will drop the Harman case." The closing down of mines will enable the consumption to catch up with the copper production. Buy standard railroad shares.

NEW YORK, Sept. 12.—Industrial liquidation and railroad accumulation will continue to operate for a confusing stock market to-day, but we believe the high-grade active railroad list will soon break away from the baleful influence of the copper demoralization. New Union Pacific support has appeared around 12 1/2, with information favorable to purchase. Northern Pacific supporting level appears to be around 12 1/2, and we believe the best of the best purchases in the list on recessions.

Great Northern is a close second. The industrial supports are not emphatic. Amalgamated shows no support now that the 65-66 level has been overwhelmed, and professionals will sell it on rallies—Financial News.

NEW YORK, Sept. 12.—The Amalgamated Copper Company is reported to shut down its mines in and about Butte, Montana, for an indefinite period. From an interest closely identified with the company, it was learned that the suspension of operations is due to overproduction and lack of demand for cop-

per, and to some extent also to the difficulty of obtaining adequate supplies of fuel at Butte. According to the authorities, the announcement, there is now a surplus supply of 250,000,000 pounds of refined copper in the United States. The production of refined copper in September, it is said, would be 6,000,000 pounds less than in August. The present price, as quoted in the market, is about 15 cents a pound for electrolytic, but according to the authority referred to it is doubtful if 15 cents a pound could be obtained for any considerable quantity. The Amalgamated Copper Company's shares led sharp declines on the stock market to-day, stocks selling down to a loss of almost 4 points before 9 o'clock, and with the night's closing prices to-day's quotations on the stock were the lowest in years.

Henry H. Rogers, president of the company, is now in at his home in East Haven, Mass. J. W. Beck, his counsel, announced in court to-day that Mr. Rogers would move to Boston to appear in court. Mr. Rogers has been in court in Boston for at least three months.

Bank of England Statement. LONDON, Sept. 12.—The weekly statement of the Bank of England shows the following changes: Total reserve, £146,000,000; circulation, £140,302; other deposits decreased, £1,500,000; public deposits increased, £1,000,000; notes reserve increased, £350,000; government securities unchanged. The proportion of the bank's reserve to liabilities this week is 51.23 per cent., as compared with 50.03 per cent. last week. The rate of discount of the bank remained unchanged to-day at 4 1/2 per cent.

On Wall Street. Charles H. & Co. to R. R. Bondard: Price movements in the stock market to-day were influenced largely by the course of the copper and metal shares, which were again subjected to severe pressure. In addition to their decline in the price of copper metal, it was reported that the Amalgamated management had decided to close down all its mines in the Butte district, being influenced in its decision by the accumulation of a large surplus during the past months, and their inability to dispose of it at any price whatever. Rumors were circulated to the effect that several large loans, in which copper shares constituted the principal collateral, were in process of liquidation, and a report that a brokerage house had identified itself with the copper share market was a further cause of uneasiness. The result of the metal shares became particularly severe and maintaining a firm under the pressure of the rest of the day. In the early afternoon, however, the copper shares suffered another severe shock, and a determined drive was made by the rest of the market, which declines of from 1 to 4 points from the early high prices were shown. The effect of the liquidation of the general market was to account for the general outbreak of selling was a further cause of uneasiness in Boston. The world of the decline had been witnessed since the list headed, comparative developments, and the closing, the unsettled and irregular, showed fair recoveries from the lowest.

London was the buyer of something like 20,000 shares in the second hour, and broke very easily without any apparent good support whatever. At 2 1/4 it established a new low record for the year. Foreign buying for the metal are to be expected, still it should be remembered that there is now an immense amount of metal being distributed through the international list—Dow Jones.

PHILADELPHIA, Sept. 12.—Officials and directors of the Rapid Transit Company denied that the company was in financial difficulty, or that a receivership was probable.

Amalgamated Copper was subjected to a severe bid in the second hour, and broke very easily without any apparent good support whatever. At 2 1/4 it established a new low record for the year. Foreign buying for the metal are to be expected, still it should be remembered that there is now an immense amount of metal being distributed through the international list—Dow Jones.

The Toronto Electric Light Company will, on Oct. 1, pay a dividend of 2 per cent. for the current quarter, at the rate of 8 per cent. per annum. The books will be closed from Sept. 21 to 30 inclusive.

Joseph says: This time Lawson's saying is pertinent. "The time to buy stocks is when they are down and fools and unfortunates are selling." Washington advises say "the government, thru the Interstate Commerce Commission, is unlikely to probe the Hill roads, and will drop the Harman case." The closing down of mines will enable the consumption to catch up with the copper production. Buy standard railroad shares.

NEW YORK, Sept. 12.—Industrial liquidation and railroad accumulation will continue to operate for a confusing stock market to-day, but we believe the high-grade active railroad list will soon break away from the baleful influence of the copper demoralization. New Union Pacific support has appeared around 12 1/2, with information favorable to purchase. Northern Pacific supporting level appears to be around 12 1/2, and we believe the best of the best purchases in the list on recessions.

Great Northern is a close second. The industrial supports are not emphatic. Amalgamated shows no support now that the 65-66 level has been overwhelmed, and professionals will sell it on rallies—Financial News.

NEW YORK, Sept. 12.—The Amalgamated Copper Company is reported to shut down its mines in and about Butte, Montana, for an indefinite period. From an interest closely identified with the company, it was learned that the suspension of operations is due to overproduction and lack of demand for cop-

123 CARS AT CITY YARDS
QUALITY OF CATTLE POOR

Prices About the Same—Hogs, Sheep and Lambs at Easier Prices.

Receipts of live stock at the city market, as reported by the railways, since Tuesday, were 123 car loads, consisting of 1816 cattle, 1150 hogs, 2337 sheep and lambs, 250 calves and 3 horses. Besides the above there were 16 car loads of United States cattle being fed and watered in transit, and 541 hogs shipped direct to packers.

The quality of fat cattle generally was no better, in fact, worse, and the same can be said of the sheep and lambs, of which there were many with little fat on the pastures, nearly all over the province. Trade was good for good quality in all classes of fat stock, but slow with a tendency for the poorer grades, of which the number are growing greater as the season advances.

Prices ranged from \$4.00 to \$5 per cow, but there were few on sale. Export bulls, a few sold at \$7.50 to \$8.25.

For butchers' cattle give the quotations of George Rowntree, who bought 1000 loads on Wednesday and Thursday: Good loads of hogs, 1050 lbs. each, were scarce, \$4.50 to \$4.75; steers, cows, \$3.75 to \$4.20; \$4.20 to \$4.70; good common cows, \$2.25 to \$2.70; canners, \$1.50 to \$2.25. Medium butchers' sold from \$3.50 to \$3.75. Common cows, \$2.25 to \$2.70.

Feeders and Stockers. H. W. Murby reports a not very heavy run of feeders and stockers this week, although heavy enough for the demand. Light stockers from 600 to 800 lbs. are hard to get, although high at \$2.50 to \$3.00 in price, especially the common and medium kinds; 1000 and 1100 lb. feeders are commanding a premium if they are bought by butchers at a high price. Messrs. Murby bought about 1000 lbs. each, at \$2.50 to \$3.00 on order, at prices ranging from \$2.25 to \$2.50 for steers; 700 to 800 lbs., at \$3 to \$3.25; 800 to 900 lbs., at \$3.25 to \$3.50; 900 to 1000 lbs., at \$3.50 to \$3.75. Feeding bulls, from \$2 to \$2.75 per cwt.

The number of milkers offered on Wednesday and Thursday was large and nearly all of the four districts. Prices ranged from \$5 to \$6 for the bulk of the milk, although high at \$2.50 to \$3.00 for one or two of extra milking qualities and of large size. Common cows were hard to dispose of at \$2 to \$3 per cwt.

Veal Calves. Calves sell about as well as any kind of stock offered, with there was a large number of calves offered on Tuesday. Prices ranged from \$3 to \$3 per cwt., and a few were paid during the week for prime quality.

Sheep and Lambs. The run was large, with a lot of small rough and heavy, but the market was steady and there was a demand for \$2.50 to \$3.00 for the bulk of the sheep, at \$2.50 to \$3.00; 1000 lbs. each, at \$3.00 to \$3.50; 1100 lbs. each, at \$3.50 to \$4.00; 1200 lbs. each, at \$4.00 to \$4.50; 1300 lbs. each, at \$4.50 to \$5.00; 1400 lbs. each, at \$5.00 to \$5.50; 1500 lbs. each, at \$5.50 to \$6.00; 1600 lbs. each, at \$6.00 to \$6.50; 1700 lbs. each, at \$6.50 to \$7.00; 1800 lbs. each, at \$7.00 to \$7.50; 1900 lbs. each, at \$7.50 to \$8.00; 2000 lbs. each, at \$8.00 to \$8.50; 2100 lbs. each, at \$8.50 to \$9.00; 2200 lbs. each, at \$9.00 to \$9.50; 2300 lbs. each, at \$9.50 to \$10.00; 2400 lbs. each, at \$10.00 to \$10.50; 2500 lbs. each, at \$10.50 to \$11.00; 2600 lbs. each, at \$11.00 to \$11.50; 2700 lbs. each, at \$11.50 to \$12.00; 2800 lbs. each, at \$12.00 to \$12.50; 2900 lbs. each, at \$12.50 to \$13.00; 3000 lbs. each, at \$13.00 to \$13.50; 3100 lbs. each, at \$13.50 to \$14.00; 3200 lbs. each, at \$14.00 to \$14.50; 3300 lbs. each, at \$14.50 to \$15.00; 3400 lbs. each, at \$15.00 to \$15.50; 3500 lbs. each, at \$15.50 to \$16.00; 3600 lbs. each, at \$16.00 to \$16.50; 3700 lbs. each, at \$16.50 to \$17.00; 3800 lbs. each, at \$17.00 to \$17.50; 3900 lbs. each, at \$17.50 to \$18.00; 4000 lbs. each, at \$18.00 to \$18.50; 4100 lbs. each, at \$18.50 to \$19.00; 4200 lbs. each, at \$19.00 to \$19.50; 4300 lbs. each, at \$19.50 to \$20.00; 4400 lbs. each, at \$20.00 to \$20.50; 4500 lbs. each, at \$20.50 to \$21.00; 4600 lbs. each, at \$21.00 to \$21.50; Fall Hat Opening

To-day is the initial opening of our fall 1907 sale of hats for gentlemen. To say that it is all greater than ever is to point to the best display of hats yet seen in Canada. We want to particularly make plain that we do not handle anything but hats of quality. No cheap American makes are accepted—only the best, by such great manufacturers as Dunlap of New York and those from the great factories of England—Tress, Heath, Melville, Lincoln & Bennett and Christy. The preferential duty with England brings the English hat into particular prominence this year, as you get better quality for the money invested, when compared with those by other foreign makers.

The English Stiff Felt Derby and Silk Hat is a complete change from last year, the Derby being of a narrow brim, set flat. This style is worn almost universally by the stylish dressers of France, England, Germany, Italy and the United States.

GREAT ENGLISH HATS

Henry Heath Stiff Felt Derby, \$4; Silks, \$7.50.
Christy's Stiff Felt Derby, \$2.50 and \$3; Silks, \$5 to \$7.50.
Melville and other great makers' Derbys, \$3 to \$4.50; Silks, \$6 to \$7.50.

Special line of Gentlemen's Cork-Lined Silk Hats, by Tress of London, \$6.50.
American Derby Hats, by Dunlap of New York, \$5; Silk Hats, \$8.

Dineen's Special Derby Hats, \$2, \$2.50 and \$3.
Dineen's Special Silk Hats, \$5, \$5.50 and \$6.

SOFT FELT HATS

New lines of Soft Felt Fedora and Alpine Hats, in all tints, by the celebrated English and Italian makers, \$2 to \$5.

BOYS' SCHOOL CAPS

We have on sale the widest collection of School Caps and Dress Hats for Boys; Special caps, bearing crests for different colleges; also a line of Harbord Collegiate Institute Caps, of which we are sole makers, 65c.

Get your hat to-day, and have the big selection to choose from.

drifted from a point about half a mile west of the lake to within probably 400 yards of the shore, at the mouth of the Humber River, is still hard and fast ground, and yesterday, and the greater part of to-day, tugs have been working hard to release her, but so far unsuccessfully.

This afternoon Capt. Kelly crowded on all sail with the hope of assisting the tugs, but, with the exception that the Dundee is a trifle less broadside to the shore, no change is apparent in her position.

One feature which served this afternoon to handicap the work of the Roy Mark and Crowe, and the fact that the wind was blowing off shore, rendering the water much shallower, were not without effect.

The boat is now said to be deeply imbedded in the sand, and grave fears are expressed among vesselmen generally as to the fate of the staunch old craft if a strong southerly swell should come up.

At 10 o'clock to-night there was no change in her position.

SHORT OF SEATS.

The adjourned meeting of the public school board was held to-night. Principal Drury stated that he had enrolled 285 pupils in the Central school, and desks are needed in the primary class.

Principal Hopkins of Eglington School has 225 pupils enrolled, and also complains of the shortage of seating and desk capacity. A solution of the problem is being worked out by the board.

The rush-hour traffic on the Metropolitan Railway is altogether inadequate. This evening, when the 5.40 train arrived at Moore's Northwood, it was so overcrowded and crowded to the extent that the motorman refused to proceed until fifteen or twenty passengers, who were on their homeward journey for supper, were asked to get off and wait for the next car. The language used by those who had to wait was not very complimentary to the railway company for permitting such a state of affairs to exist, or to the Railway Company for not providing better transportation facilities.

Doona Lee Cran, the 17-year-old daughter of School Trustee Lee Cran, received one first prize and two second prizes for needle-work at the Canadian National Exhibition, and two second prizes for preserving fruit, and a highly recommended for making red currant jelly.

Big Demand for Illustrated. Residents of the town are showing their appreciation of the new illustrated edition of The Sunday Worker, wherein is a well-written history of the Town of North Toronto. The views are of exceptional beauty, and set out in detail many beautiful spots in the northern suburb. Residents of the town desiring copies would do well to leave their orders early with J. M. Letsohe, The World's representative, on Sherwood-avenue, and thereby secure prompt delivery.

TORONTO JUNCTION. Fire Practically Leaves Widow Penniless—Missions Returns.

TORONTO JUNCTION, Sept. 12.—A disastrous fire occurred about 11.30 a.m. to-day in which all the furniture and household effects of Mrs. Minto of Clara-street were totally destroyed. The loss includes a valuable piano, a costly set of furniture, enough to fill a ten-roomed house, and valuable trunks. The family recently sold their former residence at 110 Conduit-street, and have been camping in the ravine at the rear of the handsome new residence, which is being built for them on Clara-street. The furniture and other effects had been stored in a wooden shack in which the cooking was done, and tents were used as sleeping rooms. When the fire occurred there was no one in the building, and all the children were sleeping in the house, and Mrs. Minto, who had gone to her daughter's home at the top of the ravine to get some wood, on returning, saw a thick smoke issuing from the shack in which the furniture, etc., was stored, and where she had been preparing the dinner. Instantly she rushed into the house, and neighbors came to her assistance and sent in a fire alarm. The brigade promptly responded, but on ascending the location of the building and the flames having gained such headway before the firemen were notified, all efforts to save the shack were abandoned, and the entire structure was reduced to ashes. Mrs. Minto is a widow, her husband having died about two years ago.

There was an insurance of \$1000 on the property, but Mrs. Minto figured that it would take almost \$300 to cover the loss. None of the family have any clothes except what they are wearing at present, as everything went up in smoke. Orders have been given to rush the order on the new house, which will be ready for occupation in a few weeks. Mrs. Minto is advised the cause of the fire was sparks from the stove igniting the roof.

Dr. Retta Kilburn has returned with her family from the States, where she and her husband have lived for the past 14 years. She has purchased a house at 183 Quebec-avenue, and will practice medicine. Her husband, who is also a physician, is still in China as a medical missionary. The object of Dr. Kilburn's return is for the purpose of giving her children an education, as there are no schools out there of much importance. She expects to remain in this country about four years.

The corner stone of the new Methodist Church, now being built at the corner of Annetto-street and High Park-avenue, will be laid two weeks from Saturday, Sept. 28.

Rev. Dr. Hazelwood of 17 High Park-avenue is confined to bed at present suffering from a severe cold.

Miss Fisher of Souris, Man., who has been spending the summer with her sister, Mrs. Caruthers, on Humber-avenue, leaves on Friday morning for Elmira, O.V., where she will take a two years course in the Arnot Gordon Hospital.

The rising ground on Quebec-avenue at Beatrice-street is being plowed up and the loose earth carted into the adjoining holding, thus making the street level and greatly improving its appearance.

A special meeting of the property committee will be held to-morrow evening.

LOAD'S DAY AGT GETS ITS INITIAL HEARING

G.T.R. Are Placed on Defensive—Bad Fire in Toronto Junction—County Items.

EAST-TORONTO, Sept. 12.—That the interests of not alone the Grand Trunk Railway but the business men of the country will be endangered by a strict adherence to the Lord's Day Act was the contention of officials of the railway at the resumed hearing of the case before Police Magistrate Ellis in the town hall here this morning.

Contrary to expectation, the prosecutor and defence were both ready to proceed with the examinations of witnesses, a number of whom were present, but few of whom were required.

County Crown Attorney Drayton was present, while the G.T.R. was represented by Mr. L. McCarthy and W. W. Pope of Montreal.

Part of the System. Throughout the evidence the officials of the railway sought to show that the operation of freight trains between Mimico and East Toronto was part of the thru transit system, and, as such, was inseparable from the general work of the road.

The first witness, W. H. Parrell, terminal superintendent at Mimico, and Little York, said that in April freight

became badly congested, and also previous to that. All freight from the west was handled at Mimico. Perishable goods went to York, there being no ice-house at Mimico.

Admitted Charge. Witness admitted that on the day in question, April 23, the G.T.R. sent out two freight trains, one of empties and the other of loaded cars. The empties were consigned to Stratford to load cattle to come east to the Toronto market on Monday morning, the company being under heavy bonds to supply these cars. The empties were to repair washouts on the road—a work of necessity.

Crown Attorney Drayton charged that the G.T.R. made no discrimination in thru freight on Sunday, and that it was not made up at Mimico.

Witness stated that as many as 800 cars came in on Sunday, and but for their being moved passenger traffic all along the line would be blocked.

U. E. Gillen, superintendent of the middle division of the G.T.R., corroborated the evidence of former witness in every particular, and said that one large Ontario manufacturing firm was thinking of leaving, owing to insufficient railway facilities. The railway commission in March forced them to remove the embargo and accept all freight, which had simply intensified the trouble.

Gave Fair Division. Superintendent Price, whose evidence was taken when the court reassembled after adjournment, went into a lengthy explanation of the difference between manifest and thru trains. The duties of the several divisional superintendents were to report the condition and urgency of the situation daily, the latter making the best possible disposition of the cars along the line.

The enormous traffic of live stock eastward rendered necessary the sending of the cars west to Stratford and other points on Sunday to be ready for the re-loading on Monday and the Toronto market on Tuesday. He touched on the work of the commission in removing the embargo.

This concludes the evidence when Mr. Drayton and Mr. McCarthy conferred briefly, and it was decided that argument would take place in the old court house in Toronto on Thursday morning next at 10 o'clock.

Worshipful Master Ferguson of York Lodge, Eglington, A. F. & M., will, with his officers and members, pay fraternal visit on Monday evening next to Acaac Lodge, East Toronto. A pleasant evening is assured.

NORTH TORONTO.

Trustees Proud of Growth, But Deplore Lack of Accommodation.

NORTH TORONTO, Sept. 12.—The Townsett of Yonge-street has purchased the house he lives in, together with the lot of 50 feet frontage, from the Pugsley estate, all for \$1450.

Miss Mollie Tibb, daughter of the Rev. J. C. Tibb of Webbwood, Ont., formerly of Eglington, who was renewing old acquaintances in town for the past week, has returned home.

The Zion Baptist Church is being redecorated, and in consequence no services will be held in it next Sunday.

Mr. and Mrs. T. Needham, who have been visiting their daughter, Mrs. J. Reppen of Sherwood-avenue, are leaving for England to-morrow, after a sojourn of the summer in Canada.

RICHMOND HILL.

Village Fathers Are Economical—High School Makes Record.

RICHMOND HILL, Sept. 12.—The village council, at its Tuesday evening meeting, approved the resolution and struck the rate of taxation at 19 mills.

The C.N.O. Company propose adding a storey to the building, which will be used as a residence for the station agent and family.

The attendance at the high school is now over the 100 mark, and the trustees have been asked to provide a number of new seats.

The Junior and Senior Epworth Leagues will recommence their weekly meetings after a rest during the summer months.

The citizens here are still hopeful of getting a supply of water for drinking purposes and fire protection from the artesian wells near Lemonville.

Victor Eugene of Sutton has been visiting his uncle, Reeve Pugsley.

T. F. McMahon received word a few days ago that a sister, Mrs. Edward Dills, near Dunnville, was dangerously ill, and left for that place Thursday morning.

The great cry in this town is: Who will build us new houses?

PICKERING.

Village is a Hive of Industry and Everyone Prosperous.

PICKERING, Sept. 12.—James Somerville is advertising his planing mill for sale.

The Methodist Church harvest home services will be held a week from Sunday.

George Every has returned from a pleasant holiday at Niagara Falls.

C. Vogt of Michigan purchased York-avenue from Grasmere Grange this week. The merchants of Pickering are doing a good business for this time of the year.

A. N. Ridley has rented Mrs. Pearl's residence on King-street.

Thomas Osborne of Audley has rented the Louis Richardson farm on the base line.

Cement sidewalks are considerably improved Main-street. More protection should be given at nights against obstructions.

H. T. Love of Toronto is advertising his farm at Audley for sale. This is the old Dunlop property.

Miss Kate Kerr of the village is attending model school at Whitby. She secured her first-class certificate with honors.

DOVERCOURT.

Officer is Successful in Recovering Stolen Equine.

DOVERCOURT, Sept. 12.—(Special.)—Provincial Constable Burns yesterday located the horse stolen from Mr. Hopkin, a local farmer, some time ago. The animal was located by the constable in the city. The officer is hopeful of landing the guilty parties in the near future.

MIMICO.

Mimico Youth is Charged With Volving Crime.

MIMICO, Sept. 12.—Eva, the little 7-year-old daughter of Thomas Nellis of this place, while on her way home from a message for her mother, at late hour yesterday afternoon, was criminally assaulted by a young man, unknown to the child. When she reached home she told her mother, who notified Constable George Simpson. The latter, from the description, at
