REMEDIAL BILLS TOWN

The Minister of Justice Explains the Government Proposition

TO HELP OUT THE ROMAN CATHOLIC MINORITY

The Hon. Mr. Dickey Admits the Grave Difficulty in Framing the Measure.

CLAIM THAT SEPARATE SCHOOLS MUST BE ESTABLISHED

The Same Number of Members of the New Roman Catholic Board of Education as in the Catholic Section of the Old Board—Full Powers Given the Board to Carry on the Schools—Local Government Inspectors—Mr. McCarthy's Queries—Second Reading of the Bill Will be Delayed—Sir Charles Tupper Takes the Parliamentary Leader's Place in the House.

Ottawa, Feb. 11.—What with the introduction of Sir Charles Tupper to the House and the introduction of the Remedial Bill, there was a great rush to the galleries this afternoon. The old war horse of Cumberland, now of Cape Breton, was introduced by Mr. Foster and Mr. Hector McLaughlin and there was a great cheer from the Ministerial benches as soon as the three gentlemen passed the bar. Sir Charles, having shaken hands with Mr. Speaker, Mr. Foster waited for him to turn and then he stepped into the House and pointed to the seat occupied by Sir John Macdonald, afterwards by Sir John Thompson and then later by Mr. Foster himself. The seat was that of the leader of the House, which Mr. Foster's action evoked a further storm of cheers from the Ministerial benches.

No sooner had he been introduced than the Liberals had their innings. Mr. Angers, the new member for Charlevoix, being introduced by Mr. Laurier and Mr. Choquette. Then the House settled itself down to a consideration of the Remedial Bill. There was a great deal of Mr. Dickey's explanation being given in a reasonable tone, and being, moreover, very general in its character.

THE BILL IS INTRODUCED.

Mr. Dickey, Minister of Justice, explained the bill as follows: "The Remedial Act of Manitoba. There were cries of 'Exploit!' whereupon Mr. Dickey, rising to the speaker, said: 'I can give you any explanation I can give to-day with the members of the House not in possession of the bill will be very inadequate, and will really not furnish honorable members with any very definite information as to the details of the bill. The only thing I can say to the House in asking leave to introduce the bill is to refer to the general lines on which it is drawn. I may say that in drafting the bill, on the other hand, legislation in Manitoba have been followed as closely as possible in order that, while restoring those rights which it was thought desirable should be restored, it should not transgress the lines of the jurisdiction of the Parliament. It has been a matter of very grave difficulty, I need scarcely say, to frame the bill. The general scheme, I may say, is this. It was found impossible to restore to the Roman Catholic minority the rights which those rights which it was thought they were entitled to under the constitution without establishing a system of separate schools.

"In order to make that workable a Board of Education is to be established in the Province for Separate Schools, composed of the same number of members of the Roman Catholic section of the old Board of Education. This Board will have power with respect to organizing and carrying on the schools. The standard of education to be sought in these schools and the standard of the teachers who are qualified to hold licenses in the schools are to be the same as in the Public School Act of Manitoba, not identically the same, but of the same standard. The persons who are to contribute to those schools, the Separate schools, are to be prima facie all Catholics in Manitoba. But the Roman Catholic who prefers that his children shall attend the Public schools and decides that he will contribute to the Public schools has the right to make that choice by giving certain notice, which will be found in the bill, and he becomes quoad a Protestant, a contributor to the Public schools and not to the Separate schools. The inspection is of a double kind. What I may call the every day inspection of the schools for the practical working is to be carried on by inspectors to be appointed by the Board of Education, the body of which I have referred to. There is a further inspection to be made by what I call inspectors to be appointed or to be authorized in that behalf by the Government Council in the Province of Manitoba.

"Local Government Inspectors. These inspectors of the Local Government will inspect the schools for the purpose of certifying to the efficiency of the teaching in the schools. It is thought desirable that an entirely independent inspector should be had for the purpose of testing efficiency, but, as I have said, the practical, every day inspection is to be made by what I may call domestic inspectors appointed by the Board of Education. It is not necessary, I think, to go into any further details.

"The bill provides for certain powers as to trustees and as to ratepayers and other matters that are essential to the working of any school system, and which are necessary in the nature of details which cannot be discussed at the present time.

"One very troublesome question dealt with by the bill is the question of school books. That, I may say, gave a great deal of difficulty, but was finally settled on this basis, that the Board of Education should have the choice of the school books, should be able to choose the school books, their choice, however, being limited to this, they should only select school books that have formerly been used in the public schools of Manitoba or the books in the Public Separate schools in the province of Ontario. That gives a fair range of choice, and it will secure, I think, what will be readily admitted to be a very high standard of books. These are the general lines of the bill. I do not intend particularly to discuss either the details or the principle of the bill to-day, because this can be more fittingly done on another occasion. I do not think I need say more of the bill to-day, because this can be more fittingly done on another occasion. I do not think I need say more of the bill to-day, because this can be more fittingly done on another occasion.

shortly, probably to-morrow or the day after. The bill was then read a first time.

IN THE CAPE BRETON COUNTY.

The Opposition deny that they spent \$25,000, as generally reported. Mr. Mulock sought to secure the restoration of the order of the bill prohibiting members of Parliament from accepting passes in coming to Ottawa to attend to their sessional duties. His motion was negatived by 104 to a majority.

Mr. Davies then brought up a matter which led to an interesting discussion respecting the Cape Breton county election. He charged that the Liberals had spent at least \$25,000 in the recent Cape Breton county election. He charged the Ministers to grant an official investigation.

Mr. McDougall said he had been over every section of the country and was surprised to find the amount of money which the Liberals had used. He had been informed on reliable authority that the Hon. A. G. Jones of Halifax had said that the Liberal party should spend \$100,000 at least to defeat Mr. Fraser.

Mr. Fraser said he knew something of the inner workings of the elections (Ministerial cheers). The sum stated by Mr. Davies as having been subscribed towards Mr. Murray's expenses was well within the estimate.

Mr. Charles Tupper, in reply, admitted the right of the Opposition to bring the matter up. In justification of his statement he said that \$25,000 had been sent to Cape Breton for the election. He said he made the statement in the presence of the Attorney-General of Nova Scotia, who was the engineer of the campaign against him, and it was not denied.

Mr. Dickey replied: The financial aspect of this measure is this: The Catholics who become adherents to this school system, or rather who do not dissent from this school system, are allowed to tax themselves for the Separate schools in their districts, and they are exempted from taxation for the Public schools of the Province of Manitoba. The municipality is enjoined by the bill to collect the whole municipal taxes over the whole of the property for the municipality, and distribute it for the support of schools in the municipality; by property in that sense I mean Roman Catholic property subordinated to the support of the Separate schools. The subject of a legislative grant was one of very grave importance, and the subject of the bill in the House. But so far as the bill is concerned, the grant was made by the Government was not a grant, which was one of the rights adjudged primarily to the Roman Catholic minority in the Province of Manitoba, and that, therefore, was one of the rights which they were particularly entitled to. On the other hand, it was felt that for this Parliament to attempt to interfere directly with supply grants to the Province of Birmingham would lead to enormous practical difficulties, besides being a very offensive character. If I may use that term, to the local authorities. The Government did not feel that it was its duty to take upon itself the authority to deal practically with the question of the legislative grant, and possible, it is solved in the bill which I propose to introduce by adjudicating that the right to share in the legislative grant be one of the rights and privileges of the Catholic minority in the Province of Manitoba.

"AN IMPORTANT FAILURE. J. Cleghorn & Son, Yonge-St. Fruitellers, Assign to S. E. Townsend. The announcement that J. Cleghorn & Son, the big Yonge street firm, have assigned will create quite a sensation in business circles this morning. This well-known wholesale and retail firm, which carried on business at 92 and 94 Yonge street, last evening placed their goods in the hands of Assignee Sherman E. Townsend.

"The house has done a large trade for years, and the failure is considered a rather heavy one. No statement of the estate has yet been prepared, but it is approximately estimated that the liabilities will total \$15,000, while the assets will likely fall somewhat below that figure. The firm was founded in 1873.

"The creditors have been asked to meet on Tuesday, Feb. 25, at Mr. Townsend's office. The chief sufferers by the failure will be some Baltimore and New York system.

"Salada. Ten is not nerve disturbing. Personal. Mr. George McWilliams of McWilliams & Everist is critically ill. Rev. R. A. Bilkey, rector of St. John's Church, Bowmanville, is in the city. George Milford, late of Sanson, Kennedy & Co., Toronto, and who has been a member of the Metropolitan choir for twenty years, has left the city to take up his residence in Hamilton.

"Mr. W. T. Hamer, late of the Standard Bank at Bradford, resigned his position some time ago and is now actively engaged in the Wanderer Co. Limited, of this city as secretary-treasurer. Mr. Hamer left hosts of friends in Bradford, who regretted his departure and wish him every success in his new line of business. VERDICT, WILFUL MURDER

RESULT OF THE INQUEST IN THE CORRIGAN KILLING. WINDING UP. Joseph Willis sticks to the story told in The World, but was apparently too anxious to testify on certain matters. The prisoner and his wife decline to give evidence—The View Taken by the Jury.

The inquiry into the death of John Corrigan, who was killed by James Healey on Wednesday last, was resumed last evening in the Police Court before Coroner Pickering. Mrs. Healey was present during the whole inquiry, and went freely at intervals. The prisoner maintained an unflinching silence throughout the proceedings. James Healey, the accused man, was called to the witness box, but on the advice of his counsel he declined to give evidence.

"Mr. Robert Veitch swore that at 5.50 on the morning of the killing he saw the prisoner and his wife moving out of the house, and that he saw the prisoner carrying a revolver and pointing it at the victim. He also saw the prisoner and his wife moving out of the house, and that he saw the prisoner carrying a revolver and pointing it at the victim. He also saw the prisoner and his wife moving out of the house, and that he saw the prisoner carrying a revolver and pointing it at the victim.

"The Coroner's View of it. The inquest closed at 12.30. Coroner Pickering, in charging the jury, discredited the evidence of the witnesses, and there could be no self-defence in striking from his pursuer's violence. He directed the jury that they should find the prisoner guilty of wilful murder.

"The Verdict Reached. After deliberating nearly an hour the jury brought in a verdict of wilful murder. The prisoner was interviewed by the coroner, but he refused to give evidence. The jury were interviewed by the coroner, but they refused to give evidence. The jury were interviewed by the coroner, but they refused to give evidence.

SIR MAC IS STILL ON DECK

HE ESCORTED THE SECRETARY OF STATE TO THE CAUCUS

Of the Liberal-Conservative Members Held at Ottawa Yesterday to Discuss the Remedial Bill—The Opposition Started in to Bait Sir Charles No Sooner Had He Taken His Seat in the House.

Ottawa, Feb. 11.—Special.—The Conservative party to-day reached an eventful point in its history. It saw the Remedial Bill introduced. It was framed by the Minister of Justice; it was important party caucus called to consider this question. It saw Sir Charles Tupper, Bart., enter the House as M.P. for Cape Breton and as Secretary of State for the Bowel Administration, and it saw Mr. Foster give up to Sir Charles the seat which he held as leader of the House since the beginning of last session. But it did not see and movement to substitute Sir Charles Tupper for Sir Mackenzie Bowell as Premier. If any of the Ministers and members had this in view, they had had the good judgment to abandon it. The old man is still in the saddle, and will in all likelihood continue there throughout the session. Mr. Foster has been a very busy member of the House under the most trying circumstances, and to-day there seemed an air of relief. Mr. Foster, who took the position of first lieutenant, Mr. Foster goes into a secondary retirement, where he hopes, without doubt, to emerge eventually with new vigor and increased power. Sir Charles also withdraws to a private residence, but he will, we think, be a good deal of a right hand to his father. Sir Charles Tupper has plenty of vigor left, and yet he is under the constant necessity of husbanding his resources. He had a trying day on the whole.

"The Opposition Start in. He spoke for nearly an hour in the caucus, and he was no sooner in the House and in his seat than the Opposition started in to bait him. Sir Richard Cartwright seemed to especially enjoy the sport. A rather unguarded remark of Sir Charles in his Montreal speech, viz., that the Liberals had spent \$250,000 in the Cape Breton election, gave them the opportunity. There was no way out of it but for Sir Charles to withdraw it or to justify it in a general way. He chose the latter, and as he could not give any specific proof, the Opposition simply peppered him for exact statements. At the end, it was only pop gun warfare, and the Liberals made no capital out of it.

"The Conservative Caucus. The real interest of to-day turned on the Remedial Bill. From what can be gathered of the proceedings in caucus, it would appear that the Government told their followers that they were committed to bring in the bill and that they were determined to start or fall by it. The Ministers laid great stress on the statement that they were in duty bound to introduce the bill, that their conscience and sense of right, and their regard for the public interest, impelled them to it, and that Separate schools were a part of the constitutional fact, and that if these schools and other compromises had not been granted, they would have never been introduced or the Confederation which we know to-day. The Ministers held further that they were in duty bound to introduce the bill, that their conscience and sense of right, and their regard for the public interest, impelled them to it, and that Separate schools were a part of the constitutional fact, and that if these schools and other compromises had not been granted, they would have never been introduced or the Confederation which we know to-day.

"THE COLD SNAP. People Past on Their Furs and Felt Indeed Joyful. At last we have a real cold snap, and the winterer yesterday appreciated the wayfarer of being well clad in furs. As a result of the unexpected visitation of cold, there was a big run on Dimeens yesterday for furs. The number of stockholders were present. The secretary's report and the annual statement were duly presented. All the companies were re-elected. Sir Frank Smith, Senator Sanford, and Messrs. Thomas Long, W. R. Brock, Frank Turner, David Creighton and Thomas I. Davidson.

ON STAGE AND PLATFORM

Current and Coming Attractions at the Local Play Houses and Concerts

Over 3000 people crowded into the Massey Music Hall last night to attend the Mendelssohn Choir concert. The event was a fine one in many ways, except for the fact that the program was unduly long, through an undue number of part songs and the audience's demand for encores was unduly yielded.

The great event was, of course, the appearance of Henry Bloemfield-Zeller, the pianist, last seen here at the opening of the Academy of Music seven years ago. She combines feminine sensibility with masculine force. In no other woman will be found such a combination of delicacy and power. Last night she gave some interpretations of Chopin, which could not be surpassed in eris charm, and in conclusion rendered the "Bel-King" in a manner that electrified her auditors.

The Mendelssohn Choir, under Mr. Vogt, is a well-balanced organization of splendid voices. It is strongest in male voices, but has some beautiful soprano and alto voices. It sings with exquisite taste and striking unanimity and crispness. The program had been arranged for the ability of the conductor to the fullest test. Mr. W. Heiger, the charming and richly endowed tenor, last heard at the festival of 1894, was a most attractive soloist.

Field's Minstrels, which come to the Grand Friday and Saturday, are said to be the best of the kind on the road. It is said that a negro cannot imitate his own characteristics. These stars are with Field's Minstrels at Utopia.

Closing Performance of "Rob Roy" The last two performances of the charming opera, "Rob Roy," will be given by the Whitney Opera Company at the Grand Friday and Saturday evening. The lovers of music who have not heard DeKoven and Smith's best effort should not fail of this opportunity to do so.

"Telly's" Surprises. During the engagement of "Telly," with A. M. Palmer's company at the Grand, the first half of next week Manager Shogren has arranged for a Telly souvenir matinee on Wednesday. Every lady who occupies a reserved seat on this occasion will be presented with a Telly souvenir by Telly herself, Miss Mabel Amber. The souvenir will consist of a handsome box of the choicest bon-hors, on which will be laid a bunch of natural roses. Altogether, it will be the most novel, as well as the sweetest matinee ever given in Toronto.

The Toronto Grand Drama. "Darkest Russia" drew two unusually large audiences yesterday at the Toronto Opera House. Wonderful skill is shown in the development of various types of character seen in the play. The police, the military, the peasants and the aristocracy are all depicted with clever invention. The groupings, pictures and tableaux in which the play is so marvellously realistic, vividly illustrate the Russian of today. There will be matinees to-morrow and Saturday.

Will Report the Fight. If the Fitzsimmons-Maher fight is to be pulled off in Toronto, it will be held at the Crystal Theatre. A special wire will be put up and the fight will be given a fine variety performance while receiving continuous bulletins announcing the way the fight is going. Mr. Young has perfect faith in the fight, for giving a complete report of the fight. No extra charge will be made for this service, which will be interrupted by the regular performances at the Crystal.

Albani Next Week. The plan for the subscribers to the Albani concert, which is to be held on Friday week, opens on Monday morning at the Massey Music Hall. The concert will probably be the most brilliant and fashionable event of the season.

Notable Events on the Other Side Told in Brief Form. Cars on Brooklyn bridge are now switched by electricity. Dick, the big polar bear in the Central Park Museum, New York, is dead. Ogdenburg prison has been instructed to arrest all boys under 16 years of age found smoking cigarettes.

H. C. Potter, a candidate for Bishop of New York, has committed suicide by drowning at the residence of Mrs. Potter, Chicago and the West got but three and a quarter millions of the new U. S. loan, while New England got 4,000,000 and a tunnel only \$9,000,000.

President Cleveland is not a candidate for the Democratic nomination. The names of Attorney-General Judson and his son are just coming to the front as a possible candidate.

The Oriental Order of Zouaves is a new organization and the enforcement of the Monroe doctrine.

Mrs. Patrick Pierson of Elizabeth, N.J., coughed up a tooth which is thought a dentist, who abstracted the molar, thought down her throat by a mischance while the woman was under the influence of ether.

A movement has been started in New York to secure the pardon and release of John W. McLaughlin, the convicted convict and island boss, who is said to be suffering from various diseases in Sing Sing prison.

"Bat" Shea was electrocuted at Dannemora prison yesterday morning for the murder of Ross. He protested his innocence to the end. The time allowed for his execution was one minute and twenty-one seconds.

Mrs. S. says: "I had been suffering from Rheumatic Pains for months, Mitchell's Compound in Pills cured me."

A Big Deal in Shoes. The Clapp Shoe Company passed through the Customs House yesterday \$18,000 worth of American shoes. This is probably the largest single purchase of shoes ever effected by a retail store in Canada. They were made for a country house which has been obliged to discontinue business. Rather than have the goods returned the manufacturers the Clapp Shoe Company's offer of 50 cents on the dollar. They are to-day on sale at their store, Yonge street, at just half the regular prices. The goods are all new styles, made up for spring trade.

Quite a Difference. Textile buckskin (woven buckskin) has no grain; equally good cut lengthways or crossways of the piece. St. Leon Mineral Water is recommended on the highest medical authority. Write for expert testimony.

Mr. Williams' Speech on the Pink Pills

Mr. Williams' speech on the Pink Pills was a well-known and most esteemed farmer living in the vicinity of Barryville, Renfrew County, Ont. He is one of the many who can attest to the life of his daughter, Mr. Stoughton says: "In 1883, my daughter, then a picture of health and strength, went to Artichoke, North Dakota. In April of that year she caught a severe cold, which brought her to the verge of the grave. The cold was followed by headache, dizziness and palpitation of the heart, and she became so pale and emaciated that her doctor there said she was going to die. Her mother advised her return home. She had been under the doctor's care for some months before this advice was given, and in February, 1884, she returned home. She was so weak as to be almost unable to get up, and she was gradually growing weaker instead of stronger. Her mother had no hope of recovery, we brought her home. At this time she was so weak that she could not walk across a room, and was confined almost constantly to her bed. She was pale and emaciated, had constant pains in her head, and her appetite was gone. She was gradually sinking, and her mother had no hope of recovery. We brought her home. T. EATON CO. LIMITED. 190 Yonge St. Canada's Greatest Store. Toronto.

A Higher Ideal! One great basis principle of this store is mutual dependence. To thrive and grow each stock must be best.

You'll be older than you are now before you catch us "looking backward." The whole trend of this business is towards finer goods, brighter displays, handsomer styles and better values.

You will need to come to-day and every day if you care to see the new goods as fast as they are opened up.

Furniture Sale!

The practical question is how will present prices appear three months hence. They are wonderful now, and our notion is that later on they will seem marvellous.

Overproduction at the factories and the quick use of ready cash on our part is what brings a great array of fine Furniture at considerably below current values.

Housefurnishings of every sort have joined the Furniture procession, and you can fix up the home now for less money than ever before.

Shopping by Mail!

The trouble with lots of mail orders is that advertised bargains are apt to be all gone before they reach us. It's one of the disadvantages of living away from Toronto, and for that reason we've arranged these special everyday values for this entire week.

PROVISIONS OF THE BILL. EXPLAINED TO WORLD READERS. CLAUSE BY CLAUSE.

Public opinion is not sufficiently aroused and educated to the gravity of the offence, Charlie Chamberlain never dreamed he was committing a crime that would be visited with the same severity that is meted out to the common thief and burglar. It is not probable that a score of highly respectable citizens of Winnipeg knew of Chamberlain's doings and were to all intents and purposes accessories to his crime.

"Guinane Bros. of Toronto are retiring from the ladies' shoe business, and intend devoting their well-known energy to the Slater Shoes exclusively. What does this mean? Guinane Bros. are the shoe leaders in Canada, and the Slater Shoe must be of high order to induce such far-reaching men as Guinane Brothers to take this step."

Ladies' Retiring Shoe Sale. One Lady. Bought six pairs of shoes yesterday. She said: "I've bought enough to do me three years—and I've saved enough to do me three years more."

Had an Offer. Yesterday, which, if we had accepted it, would have been cheating the public out of their promised shoe picnic.

A Big Departmental Store offered to buy our entire stock of ladies' shoes, giving us just 75 cents on the dollar for our wholesale value of \$50,000. You will note we sold nearly 3000 worth of shoes last week.

It was a good offer—just equal to what we are selling shoes to the public now—75c on the dollar. Wholesale price is equal to 50c on the dollar retail price.

It's simple. Every shoe marked at half price. Want to get out of ladies' shoe business. Want to sell every pair as quick as possible.
