BRITISH HOLD FAST IN STIFF FIGHTING

Infantry Action Gives Place to Artillery Duel on Battlefield—Next Move is to Clear Pockets of Germans.

By R. T. Small, Staff Correspondent of the Associated Press. With the British Armies in France, May 4 (evening), via London.

There was stiff fighting all thru last night and early today as the Germans threw heavy reserves into counter-attacks which cost them dearly.

The new British line on the war maps has the appearance of a jigsaw puzzle and really reflects the severity of the fighting which has surged back and forth during the last 48 hours.

The scene of the fighting has become more visible since the British took so much high ground during the first phase of the battle of Arras.

The recent activity of the German artillery lent far more color to the scene. The entire battle zone seems at times to be smothered by flying shells.

ALLIES WILL MARSHAL AMERICA'S RESOURCES

British Mission Consults American Officials on Rationing of Holland and Scandinavia to Prevent Food Reaching Enemy.

Washington, May 4.—Direction of America's vast commercial resources in the common struggle against Germany formed the basis of a formal conference between officials of the British mission and American officials today.

Two general subjects were taken up—how best to marshal the resources for the allies and how most certainly to restrict all products getting thru to the aid of the enemy.

The highest officials who will have to deal with these matters met in joint session to discuss the results of their various inquiries.

It is uncertain whether the elaborate system built up during neutrality thru the British embassy here, whereby American importers of many basic products had to guarantee that such products would not find their way into Germany, will be abandoned.

It is thought that the United States will have all the power necessary to arrange such safeguards, and that the present system would be superfluous.

Agreement already has been allowed to fall into the hands of the enemy.

Since the economic prosperity of the United States has become of equal vital concern to the allies, a marked disposition has been shown to co-operate more freely than previously to prevent shortages.

Today, for instance, a delegation of war leaders who were short of material because of the failure in the Australian supply and the scarcity of ships was asked by the British officials to give definite figures to the department of commerce in order that a joint arrangement might be worked out.

NINE HUNDRED GERMAN WERE CAPTURED

British Strengthen Positions Taken in Thursday's Fighting.

SEVERE AIR FIGHTING

Three Machines Brought Down and Five Put Out of Control.

By Stewart Lyon.

London, May 4.—The war office communication issued this evening says: "The number of German prisoners in yesterday's operations exceed nine hundred, including twenty-eight officers."

"During the day our troops strengthened their positions in the sector of the Hindenburg line captured yesterday, and have progressed eastward along the enemy's trenches, killing many Germans and taking several prisoners."

"A number of successful bombing raids were carried out by our airplanes yesterday, resulting in severe fighting in the air. Three hostile machines were brought down by our airplanes and five others were driven down out of control.

Two of our airplanes are missing." "The Morning Report.

The British last night made progress northwest of St. Quentin and northeast of Harcourt, capturing Malakoff farm, the war office announces. On the Arras front, the British have captured the village of Fresnoy and all the positions captured in that neighborhood in yesterday's drive.

The British were compelled to fall back from the advanced positions captured yesterday in the neighborhood of Fresnoy and astride the Arras-Cambrai road, the statement adds.

The official statement issued from general headquarters at 12.11 p.m. reads: "The village of Fresnoy and our positions which we had captured north and south of it were subjected to severe hostile counter-attacks yesterday evening. All our positions in this neighborhood were maintained and the enemy repulsed."

"Severe fighting has taken place in the neighborhood of Bullecourt. East of the village the enemy made a heavy counter-attack at 8.45 o'clock last night, upon the sector of the Hindenburg line captured by us yesterday. The official statement issued from general headquarters at 12.11 p.m. reads: "The village of Fresnoy and our positions which we had captured north and south of it were subjected to severe hostile counter-attacks yesterday evening. All our positions in this neighborhood were maintained and the enemy repulsed."

TROOP TRAIN STONING ENQUIRY BOARD NAMED

Prominent Military Men Appointed to Investigate Ottawa Newspaper's Allegation.

Ottawa, May 4.—A military board of inquiry has been appointed to inquire into the charges which first appeared in the Ottawa Journal that troop trains had been stoned while passing through the Province of Quebec.

The matter was brought to the attention of the house by John Best, of Dufferin, and Sir Edward Kemp promised at that time that an inquiry would be made.

The board which will make the inquiry consists of Col. Wigle, Windsor, former commander of the 18th Battalion, who has been invalided home, and who will act as chairman; Col. Barclay, of Toronto, son of Rev. Mr. Barclay, and a well-known military man; and Col. Ostell, commander of the 68th Carabiniers, one of the most prominent French-Canadian officers.

RUSSIAN GOVERNMENT CONTROLLING SITUATION

Conciliatory Attitude Taken Restores Order in Petrograd, Where Garrison Remains Loyal—Hope Felt That Friction With Council Will Be Removed.

Petrograd, May 4, via London, May 5.—Following an all-night secret session of the ministers of the government and the councils of the workers' and soldiers' deputies in the Marinsky Palace, the council announced today that another mass meeting would be held tonight, at which the result of the conference would be announced to their constituents.

The appearance of the cabinet ministers, Milyukoff, Shingareff and Nekrasoff, and their addresses from the steps of the palace to the assembled crowd at midnight, in which they explained the meaning of the recent note pledging support to the allied powers, appeared to have the effect of abating the antagonism of the rank and file of the populace, who during the afternoon marched with banners, demanding the resignation of Foreign Minister Milyukoff. The words of the

ministers were roundly cheered at times and there was almost no unfriendliness in evidence. Whether the conciliatory tone developed in the secret session progressing within the ranks of council remains to be determined.

In the early hours of the morning delegates from the Tsarko-Selo garrison arrived in Petrograd bringing assurances that the entire garrison was back of the temporary government. At one o'clock in the morning crowds besieged the palace. General Korniloff, commander of the Petrograd garrison, gave to the Associated Press the following statement:

"To-day's meeting of the troops before the Marinsky Palace apparently was the result of a misunderstanding created by agitators who used the government note to excite the soldiers. A majority of the soldiers, however, have shown that they fully understand the situation."

GERMANY DISRUPTED BY BITTER FACTION FIGHTS

Big Annexationists, Little Annexationists and Advocates of No Annexation and No Indemnities Press Arguments—Von Bethmann-Hollweg in Grave Predicament.

Copenhagen, via London, May 4.—The silence of German Imperial Chancellor von Bethmann-Hollweg concerning Germany's peace terms, if, as declared, it is based on a desire to avoid disrupting the unity of feeling in the country by discussion of contentions in the question, and not, as some uncharitable German critics assert, upon the establishment of a definite peace policy, has failed of its object.

An acrimonious controversy is now raging in Germany between the big annexationists, the little annexationists and the advocates of no annexations and no indemnities whatever.

The Pan-German League has sent circulars to its branches throughout the country asking them to organize meetings everywhere in the interests of "German peace" and against the Socialist peace arguments. The Socialists have introduced an interpellation in the reichstag in an endeavor to smoke out Von Bethmann-Hollweg and force

Six Hundred Prisoners Captured in Successful Operation Northwest of Rheims and 150 in Occupied Village.

Paris, May 4.—Northwest of Rheims French troops have taken the first German line on a front of about two and a half miles, capturing 600 prisoners in the operation.

On the eastern end of the Vaucluse Plateau, the statement from the war office this evening adds, the Village of Craonne has been captured by the French. More than 150 prisoners as well as several points of support north and east of Craonne also fell into the hands of General Nivelle's forces.

"During the day in an operation splendidly carried out we gained possession of the Village of Craonne and several points of support east and north of that locality. The number of prisoners accounted for up to the present is 150."

"To the northeast of Rheims, after a heavy artillery preparation, we started this morning an attack in which our troops have captured the first German line on a front of four kilometers. We have taken about six hundred prisoners, including eight officers."

"In the Champagne the artillery fighting has been violent all day in the region to the south and southwest of Monville. There is nothing to report from the rest of the front."

"Belgian communication: 'International communique has occurred on several parts of the front.'"

BISHOP OF ONTARIO DIES AT KINGSTON

Right Rev. Dr. W. L. Mills Held High Offices in Anglican Church.

Right Rev. William Lennox Mills, for sixteen years Bishop of the Diocese of Ontario, and one of Canada's most prominent church figures, died last night at his home in Kingston, Ont., in his 71st year.

Born in 1846 at Woodstock, he was educated at the Wesleyan University School, Huron Collegiate and the Western University.

He was in 1872 ordained a deacon, and the following year a priest. He served at Norwich where he was appointed successively rector at St. Thomas' Church, St. George's, St. John's, P.Q.; Trinity Church, Montreal, and pastor of Christ Church Cathedral, Montreal.

In 1885 he was appointed examining chaplain to the Bishop of Montreal, which position he held up to 1896, when he was made Archdeacon of St. Andrews, P.Q. Promotion still followed him, and in 1900 he was appointed Coadjutor-Bishop of Ontario, and in 1901 Bishop of the Diocese of Ontario, which office he held up to the time of his death.

Held Many Honors. He was honored with degrees from many universities, including Trinity, where he received his B.D. and D.D.; Bishop's College, Lennoxville, D.D. and D.C.L.; and LL.D. from Queen's.

He was a life governor of the Montreal Diocese Theological College—a member of the executive of the Mission Board of the Church of England, and vice-president of the Lord's Day Alliance. He attended many congresses. He attended many congresses. He attended many congresses.

He married in 1886 Katherine Sophie Bagg, of Montreal, and was present with her to the late King Edward and Queen Alexandra in 1908. An interesting incident in his life was his initiation as a full member of the Mohawk tribe of Indians, with an Indian title, which in English would read, "The Bearer of an Important Message."

Bishop Mills was a man of abundant generosity. His gifts and subscriptions to diocesan funds were large as were his private benefactions. To the extent of the latter was only known to very few. Bishop Mills is survived by Mrs. Mills and one son, Major Arthur Mills, now at the front.

As a scholar Bishop Mills reached a very high standard, but it was perhaps as a preacher that he attained the highest point of his reputation.

Dominion's Inland Revenue

Ottawa, May 4.—Prohibition is beginning to have a serious effect upon the inland revenue of the Dominion. During the month of March, the gross revenue amounted to \$2,020,743, which is a decrease of a quarter of a million dollars as compared with March year ago. The principal decrease is of course, in spirits and malt liquor, the revenue from which is now less than the revenue from tobacco. Last month the excise revenue from spirits was \$698,527 and from tobacco \$869,933. The war tax amounted to \$188,054.

WAR SUMMARY
THE DAY'S EVENTS REVIEWED

THE French captured yesterday two miles and a half of German first line trenches northwest of Rheims and further west, at the eastern end of the Vaulcure Plateau, they captured Craonne and several points of support north and east of this village. They took 750 prisoners. The attack is still proceeding near Rheims, and the French may shove the enemy far enough back before they pause in their advance to drive him out of range of this town. They may even capture the heavy guns embedded in concrete, which the enemy brought up for shelling Rheims. The capture of Craonne is also highly important. The Germans had intended to hold this place, a stronghold on the flank of the French advance, in order to prevent further progress towards Laon.

After the repelling of German attacks during the night the British yesterday, on the front east of Arras, strengthened the positions gained in the Hindenburg line and they progressed eastward along the German trenches, killing many foes as they advanced. In the night heavy German counter-attacks compelled the British to evacuate the advanced positions captured on Thursday about Cherisy and astride the Arras-Cambrai road. Near their extreme right wing they advanced northeast of Arras and also of Hargicourt, where they captured Mankoff farm. The Canadians held Fresnoy against several counter-attacks and by yesterday morning they had brought up their big guns and had begun the intensive preparation for another attack. Their heavy artillery started engaging German heavy artillery in the rear of the German lines. Between Fresnoy and the next nearest German line of trenches, known as the D'Escurt line, is a space of four miles exposed to British gunfire. If the Germans attempt the defence of this space they will suffer enormous losses.

The ground lost by the British about Cherisy is not so important as the ground gained near Queant and on both sides of Bullecourt. The Germans in Bullecourt seem to be caught in an awkward salient and they may not escape. The bulk of the fighting for some days will probably fall on the left flank of the advance before Queant and not on the right flank east of Fresnoy, for the British before Queant have a clear field ahead for the next four miles. It is probable that the enemy will strenuously resist the Canadians, at least for part of the way, for a too rapid retreat would endanger those troops in Lens. This city now forms an increasingly sharp salient, about ripe for flattening out.

Much artillery firing still marks the warfare on the Italian front. On the Julian section of the front aircraft also kept up their recent extraordinary activity. Italian machines shelled a railway centre near Sesana, and Austrian machines dropped bombs on Fogliano and San Grado, causing damage. At some places in the Trentino the Italians used gas shells. Whether the Austrians will attempt invasion of Italy by way of the Trentino remains so far pure speculation, but as the Italians are meditating an offensive from the Isonzo against Trieste, the enemy may venture on some such operation in order to break up the Italian concentration.

The demonstration of soldiers and workmen in Petrograd against M. Mikuloff, foreign minister of Russia, for his declaration of solidarity with the allies and no separate peace with the enemy or slackening of their common efforts until the war is won, provoked counter-demonstrations in support of the provisional government. The trouble-makers, perhaps, belong to the same crowd which threw bombs the other night. The moderate party, which made the revolution, still remains in control. The extremists, consisting largely of Social Democrats, do not yet dominate the government. They desire, not a political, but a social revolution. The visible faced by the new government is to allow the greatest amount of personal and political liberty while pursuing the war with vigor. Excited speakers at many meetings insisted that the soldiers and workmen are supreme.

The latest news from Petrograd shows that the excitement has died down and that the provisional government still stands secure. The Petrograd garrison has declared its loyalty to the present administration and the council of workmen and soldiers has denied having anything to do with the demonstrations. Unknown persons, it is said, attempted to stir up excitement among the soldiers and the workmen. They induced only a comparatively small number to take part in the agitation. General Korniloff, commander of the Petrograd garrison, said that it was an attempt of agitators to excite the soldiers and that only a small minority gave heed to them. In other words, German agents are working among the Russian trades unions, and they are doing everything they can to stir up trouble. They attempted the same thing in the United States not long since.

In Germany the Socialists and the Pan-Germans are engaging in lively debate over the terms of peace. The fact that both sides are wrangling about the peace shows that peace is uppermost in the German mind. The Pan-Germans, however, still demand the annexation of the mineral regions of France and the Belgian coast, while the Socialists, with deeper insight into the military situation, demand no annexation. Germany, of course, also demands the road thru the Balkans to Constantinople and the railway to Bagdad. The German Government has forbidden discussions of the loss of Bagdad in Germany and it has still withheld the news from Turkey by forcing Constantinople not to publish it.

IRISH END MEETING IN GENERAL RIOT

WANTED REPUBLIC

Attempt of Lawyer to Read Resolution Precipitates Tremendous Row.

New York, May 4.—When the chairman of a mass meeting held tonight in Cooper Union by 22 organizations, composed of Americans of Irish birth or descent, refused to receive a resolution calling for Irish independence, a riot broke out which resulted in the election of more than 20 persons, and which cost 200 policemen made free use of their clubs. The trouble began at the close of a speech of former United States Senator James P. O'Connor, when Richard P. Dalton, a young Long Island City lawyer, rose and addressed the chair.

He listened with attention to what has been said by the previous speakers," Dalton cried, "but I have heard no word said about Home Rule." Then he read from a typewritten paper from his pocket.

"You cannot read that," declared Chief Magistrate William McAdoo, the chairman, but the young man persisted and had started to read his resolution when he was seized bodily by two detectives and carried to the nearest exit.

GERMANS RIDICULE UNITED STATES AID

Berlin Paper Says U. S. Cannot Produce Ships by Magic.

Amsterdam, May 4. (via London).—The Berlin Zeitung Am Mittag, under the caption, "Embarrassment at the capital," discussed the results of the Anglo-French mission to Germany. It says that after speeches and grand general promises, the members of the mission have returned to their hard facts to find that the United States cannot produce ships by magic, and, besides, the ocean is ruled by the German submarines.

"We do not under estimate the American danger where it really exists, namely after the war on commercial questions," says the Zeitung Am Mittag. "But for the entente's momentary needs America has nothing to offer but a blown egg."

"Therefore, the whole fury of the party assembled at Washington burst over the neutrals. Food that cannot be shipped to England, the goods shipped to Scandinavia, Holland and Switzerland. The alleged reason is light crops. Elsewhere the Zeitung Am Mittag runs a column of heavy jokes on the patriotism of American millionaires in which it says:

EATON'S DAILY STORE NEWS

In a New Role--That Picturesque, Comfortable Garment, The Smock

FASHION has appointed it Blouse-in-Chief for gardening and holiday outing—the interesting, baggy smock that artists affect in their studios, that porters wear in French railway stations, that yokels wear in sequestered villages in England, and that women who've turned farmer's help have adopted for their labors on the land. And very charmingly has it been contrived for this new fashionable purpose—developed artistically in linen, chambray, marquisette and other summertime fabrics. As befits its style, the quaint old-time smocking is its happiest form of ornamentation. The models our artist has pictured below are from the splendid showing of smocks now in array in the Middy Department.

B

A. Well deserving to be first and foremost, this smock on the Gardening Girl. For 'tis quite one of the most attractive in the group—made of clear pink linen, delightfully smocked in black, with collar and cuffs of heavier white butchers' linen. And the price is but \$3.95.

B. More of a sports smock is this one marked "B." It is fashioned of white galtona, with smocking and buttonholing in rose and blue silk. The price is \$5.00.

C. Like its fellow smocks in the drawing, this model hails from New York, and is notable for the smartness of its cut and finish. The material is butchers' linen white in color, with the smocking at the neck and the odd stitching on the pockets quaintly done in green, yellow, blue and black. Large rose and green coin spots pattern the collar and cuffs. The price is \$4.50.

C

D. The delightful coolness it promises on a hot day is one of the outstanding charms of this smock above. For it is fashioned of white marquisette of open mesh, the smocking at the neck-back as well as front—and on the pockets being done in green and amethyst silk, a touch of featherstitching in the same tones appearing on the linen, collar and cuffs. The price is \$4.50.

E. This smock appears in the May number of one of the most popular fashion magazines. And well it deserves its fame, being quite a masterpiece in clever design. It is composed of deep rose pink linen, with collar, pockets and cuffs of white in a formal pattern of rose, blue and green. The smocking at the waistline is done in the same tints. The price is \$5.50.

From a Woman's Standpoint

IT IS a matter serious enough, this fighting a famine. And it requires firm will and hard muscle to dig up your backyard and raise a crop of vegetables. But how gaily everybody is going at it.

Not that the point of view is always the same. My Pretty Maid has encouraging visions of herself in a smart smock and a picturesque basket on her arm sallying down the path to gather a few greens and do a little gentle hoeing. She entertains no thought of bugs and Paris green.

Madame Housewife reveals mentally in salads "fresh from the garden"—crisp curly head lettuce; round, red radishes, and smooth, delicious tomatoes!

Paterfamilias thinks of the money it will save—all summer's and winter's vegetables for the price of a few packages of seed and possibly half-an-hour's exercise each evening with spade and fork. Stinging under the thought of potatoes at \$5.00 a bag, and onions, etc., at fabulous prices per peck, he started in to dig with a great show of patriotic fervor last Saturday afternoon.

The aesthetic lady is planning all kinds of charming effects in her vegetable beds—alternate rows of feathery carrot tops and handsome beet leaves, bordered with sturdy cabbages and backed with festoons of tomato vines.

As for the little lads, what lovely times they know they're going to have with watering-cans and spades, and all the nice messy planting. And some of them go to schools where there will be prizes next September for the biggest cucumbers and the finest squashes. So you mustn't think they are not going to work just as hard as everybody else. Mistress Mary, quite contrary, won't be in it with her cockle shells and silver bells and columbines all in a row.

Of course, these chilly evenings, as the family toasts itself at the fireplace, discussion is apt to become somewhat heated also, as to who shall be Head Gardener, Under Gardener and Gardener's Help, what shall be planted where, and whether what is left over shall be sold for the Red Cross or given away to the poor, or pickled and preserved for future consumption.

But the cause is worth all the confab, all the gay enthusiasm and the hard work. Backyard gardening is in reality intensive agriculture. It is capable of producing not only one or two or three crops in a season its neatness to the house making it easy for the gardener to do frequent weeding and hoeing. And those who know declare that thorough cultivation of the soil is the chief secret of success in the raising of sound, full-sized vegetables.

So hurrah for the backyard gardener!

DEMURRAGE RULES WILL BE OPPOSED

Shippers and Consignees Object to Changes Asked by Carriers.

FREE TIME REDUCED

Two Days, Instead of Three, for Unloading Coal and Lumber.

The proposed Canadian car demurrage rules, which the Canadian car service bureau has asked the Dominion Railway Board to approve at an early date, will meet with strong opposition from shippers and consignees when they are considered by the commission.

Already the Canadian Manufacturers' Association is preparing to oppose certain clauses, the Retail Merchants' Association of Canada has sent the commission a statement of the modifications of the rules it intends to recommend, and the Canadian Coal Association, at a meeting in the King Edward Hotel on Thursday afternoon, decided to secure counsel to appear before the railway board in the interests of their members.

The lumbermen will in all probability oppose the reduction of one day of the free time at present allowed for the unloading and loading of lumber, deals and scantlings. The proposed rules allow only 48 hours free time for the loading or unloading of all classes of material, including coal, coke, lime and lumber, while 72 hours were allowed by the board for such freight during the winter, when special changes were granted.

After the expiration of the free time allowance the bureau proposes a charge of three dollars per day for each day thereafter, while the shippers will ask for a charge not exceeding one dollar, with reciprocal of average demurrage. The matter of reciprocal or average demurrage is now before the board, and a ruling is requested upon it.

In computing the free time allowance the bureau's proposal excludes Sundays and legal holidays, but includes them after the expiration of the free time. When wet or inclement weather conditions render loading or unloading impossible the proposed rules include such periods in the free time allowance, but not if others similarly situated load or unload cars. This will, it is held, lead to endless contention and will be contested.

The proposed rules regarding bunching contain the following clause: "The consignee shall be allowed each free time as he would have been entitled to had the cars been delivered or tendered in the same number per day as were shipped per day. Claims must be presented in writing to carriers' agent within fifteen days, accompanied by written statement of date and point of shipment of each as evidenced by bills of lading."

The payment of such charges with the necessity of asking for a subsequent refund is held to be outside the spirit of the act, and a request will be made that where a consignee objects to the payment of demurrage on grounds for which the carrier may be responsible or on account of inclement weather, upon guarantee of payment being given the agent, the matter may be taken up with the car service bureau for final adjustment before payment is made.

CITY MAY LAY MANY PAVEMENTS

Works Committee Favors Construction of Several Road Pavements.

The works committee yesterday approved the construction of a permanent pavement on Davenport road west from Christie street at a cost of \$175,000 and on Silver Birch avenue north from Queen street for a distance of 1,100 feet at a cost of \$8,000 and the board of control will be asked to report funds. A deputation from the district asked that the pavement be put down as soon as possible.

ON PECULIAR CHARGE

Successor to Intervent Agent of New York Firm Appears in Court. Arrested yesterday morning by Detective Maurer, Emil Feller, Toronto representative of the New York firm of E. C. Binder, manufacturer of women's mesh bags, later appeared in the police court on a charge of attempting to enter into negotiations with the enemy. He was remanded till May 11 on \$500 bail.

BARS HANDICAP FIREMEN

MacLaren Imperial Cheese Co.'s Plant Damaged by Fire. As in the case of the recent fire at the Channell Chemical Co., Soraraen avenue, iron bars and heavily graded windows badly handicapped the firemen in their efforts to extinguish a fire which broke out in the storerooms and offices of the MacLaren Imperial Cheese Co., Limited, 69 East Front street, yesterday morning. The firemen were compelled to break their way in with axes and crowbars. The damage is estimated at \$1000.

ASKED TO BE RELEASED

Hector Forentino Held by Police For His Own Safety. If the county judge at Welland does not grant Hector Forentino his release from jail Justice Middleton will hear again the application of Forentino at Osgoode Hall. Forentino has been kept in jail for two months as a material witness at the trial of Joseph Marabito who is charged with murdering his wife and shooting at Forentino. The crown fears that friends of Marabito may injure him. He was for three years secretary to the Italian consul at Welland.

CAMP APPOINTMENTS

Lieut. Russell G. Gordon, J. A. Stewart and J. E. McQuail, all of the 97th Algonquin Rifles Regiment, have been appointed to the Forestry Depot, Toronto. Lieut. Robert B. Harris has been appointed to A. M. C. Training Depot No. 2 and promoted to rank of captain.

WORKS COMMITTEE FAVORS CONSTRUCTION OF SEVERAL ROAD PAVEMENTS

The works committee yesterday approved the construction of a permanent pavement on Davenport road west from Christie street at a cost of \$175,000 and on Silver Birch avenue north from Queen street for a distance of 1,100 feet at a cost of \$8,000 and the board of control will be asked to report funds. A deputation from the district asked that the pavement be put down as soon as possible.

Works Commissioner Harris said financial arrangements could not be made and it appeared to Aid. Graham that the commissioner and the city treasurer were opposed to doing anything. Aid. Ryding was successful in having the committee request the board of control to report and provide funds for the construction of pavements on the following streets: St. Clair avenue from northern tracks to Runnymede road; Davenport road from Weston road to the northern tracks; Cooper avenue from the tracks to Davenport road; Prescott avenue from St. Clair avenue to Gilles Brink Factory; Keele street from Annette street to Dundas street; Annette street from Western avenue to Runnymede road; Woodvale avenue from Bloor street to Conduit street; Silverthorn avenue from St. Clair avenue north; Indian grove, from Bloor street to Glenlake avenue; Pacific avenue from Bloor street to Vine avenue; and McMurray avenue from Dundas street to Vine avenue. The commissioner was instructed to advertise for tenders for the work.

Aid. Hiltz declared that if the pavements were to be laid he would press for pavements to be laid in his ward. Mr. Harris told him the bylaws for new pavements in West Toronto at a cost of \$445,000 had gone thru and were ready to be advertised.

MOTION DISMISSED

The motion to set aside substitutional services in the action brought by Marcel Hoehn, an executor of James Marshall, against Catherine Marshall of Detroit, W. S. Ryland, and Elizabeth Logie was dismissed yesterday by Justice Middleton. Each party must, however, pay costs, for to award costs to the plaintiff, remarked his lordship, would be to reward laxity of practical and to give costs to defendant would be to encourage motions without substance.

WORK ON PAPE AVE. LINE IS PROCEEDING RAPIDLY

According to Works Commissioner Harris and the Toronto Street Railway Company the work on the Pape Avenue extension is proceeding with all possible haste and indications point to the work being completed by July 1, the time ordered by the Ontario Railway Board. Mr. Harris and R. J. Fleming conferred on the matter yesterday afternoon and the railway board regarding the delay and state that they are satisfied with the manner in which the work is proceeding.

FELL FROM BUILDING

William Leinhardt, 942 West King street, had one of his arms injured when he fell from Smith and Company's building yesterday afternoon. He was removed to the Western Hospital.

DRUNK WHILE DRIVING

William J. Farrell pleaded guilty in the police court yesterday, to being drunk while in charge of a motor car, and was fined \$50 and costs. A further charge of violating the Ontario Temperance Act was withdrawn.

WILLS PROBATED

John Hawley, a merchant of 255 Church street, who died on April 6, 1917, executed a will by which he bequeathed all his property, valued at \$48,998, to his wife, Mrs. Mary Jane Ogelby Hawley. On April 20, Mrs. Hawley died intestate, and yesterday her estate, valued at \$47,323, and her husband's, were filed for administration, with the will annexed by their children, John L. Hawley, and Mrs. Beattie C. McKnight.

"Princess Pat" Will Attend St. Andrew's Church Service

Members of the famous Princess Patricia's Canadian Light Infantry, now in Toronto, have been requested to attend divine service at St. Andrew's Presbyterian Church, King and Simcoe streets, on Sunday evening. Rev. Dr. Eakin will preach. The great battle near Ypres, in which the men of the P.C.L.I. played such a noble part in keeping the Germans back from Calais, took place in the first week of May, 1915.

HIGHER TAX REQUIRED FROM USERS OF AMUSEMENT PASSES

All persons going to places of amusement on passes or complimentary tickets must pay their amusement tax at the maximum of admission charged by the place of amusement, according to an order-in-council recently passed. Another provision is that a discount of two and one-half per cent. will be made to purchasers of 25c amusement tax tickets in bulk. There was previously no provision for discount on 25c tickets.

ACTION MUST BE TAKEN TODAY OR NOT AT ALL

Disallowance Time Limit on Province's Electrical Development Legislation Expires Tonight

The time limit for possible disallowance of the province's legislation regarding Niagara power development and control of power development plants there expires today. Application for such disallowances was made to the governor-in-council by the electrical development company. The province's reply to the company's claim that the province has no right to interfere with international waters is believed to be a recital of the province's activities along the line of development, and insistence on the province's right to do this work independent of the Dominion. The government claims that no injustices have been done.

DID NOT REPORT FIRES

So far the effort of the police to bring Maxwell, Limited, A. E. Res Limited, and T. H. Birmingham, Limited, to the police court to stand trial for neglecting to report fires has failed. Grace was given the force yesterday by Magistrate Denison, and the police hope to have the alleged defendants in the police court dock by May 9.

NEW ADJUTANT NAMED

Lieut. M. G. Thompson is now acting adjutant of the 109th Regiment, succeeding Lieut. C. H. Fleming, who has new responsibilities as commander of "A" Company of the 109th Draft. All the members of the 109th Draft, including the officers, have just received their final inoculation against typhoid and have also been vaccinated. The unit has 70 members.

FOR THE EMPIRE

Lieut. Col. Russell H. Britton, D.S.O., of Gananoque, son of Charles H. Britton of Gananoque, and a nephew of Justice Britton and Mrs. J. Ross Robertson of Toronto, has been killed in action. He was an old Upper Canada College boy and was well known. He won promotion in the artillery rapidly. He was an artillery round sportsman, and played with the Albion Rugby Club and was with the all-Canadian team that played in Britain. He was prominent in hockey and was captain of the Gananoque Canoe and Motor Boat Club and an officer of the yacht club.

enlisting worked for the Russell Motor Co.
Pte. Edward Evans, presumed dead, was only 17 years old when he enlisted. He joined the battalion at Niagara camp, in which his father, Pte. William Evans, had been enrolled. They had been in Canada only a short time, coming here from England. In Toronto they resided at 21 Peter street.
Brigade Major L. V. Moore Cosgrave, D.S.O., says that he has been shell-shocked, but not seriously, and will be in a month's leave. Major Cosgrave is a son of the late Mr. Lawrence Cosgrave, and has been at the front since February, 1915. On August 2 he will celebrate his fourth anniversary on active service.

IS NOW CHARGED AS ENEMY TRADER

New York Firm's Representative Said to Be Selling German Goods.
According to the story told by the police concerning Emil Feyler, representative of the New York firm of the E. C. Binder, manufacturer of women's mesh bags, who appeared in the police court yesterday on a charge of attempting to enter into business with the enemy, the following facts were stated: Feyler, who is said to be a German-American, succeeded Gustav Ador Somer, former representative of a New York firm here. Somer was interned as an alien enemy just after the war broke out, following his arrest on a similar charge to that preferred against Feyler. Somer acted for Binder, who, the police say, is New York representative of the largest jewelry and silverware manufacturers in Germany. When he was in Germany, he was in the habit of sending to Toronto to keep German trade going with \$50,000 worth of silverware direct from Germany. The silverware bore the "Made in Germany" mark, and realizing that it would never pass muster under existing conditions, the mark was ostensibly erased. The silverware was sent to New York for \$5,000. The police became aware of the local Somer underground on a charge of trading with the enemy, and he was, at a subsequent trial, found guilty and interned at Herby.

Suit Over Payment of Income Tax Adjudged in County Court

Yesterday in the county court Judge Winchester granted adjournment of the cases of James R. McCaffrey and W. P. Woods for \$108.15 and \$74.98 respectively. McCaffrey, Mrs. J. A. Reid of the Bell Telephone Office, asked for an adjournment until the court of appeal gives its decision in the case of Judge Mort. By Judge Macmillan of Ontario County. It is understood that the judge has agreed to indemnify Judge Mortson for any costs he may be subjected to in appealing in order that the question of the right of collecting income tax from Dominion Government officials may be definitely settled. McCaffrey and Woods are employed in the customs house, and their cases were first for trial some time ago in the first division court, but Judge Mortson refused to try them.

Book on Public Ownership Sent Out by Bell Phone Co.

W. D. Lighthall, K.C., of Montreal, honorary secretary of the Canadian Union of Municipalities, writing in the Municipal Journal, criticizes the views of Professor Mayors on the public ownership of telephones in Manitoba as outlined in a copy of the professor's book sent to him by telephone. Mr. Lighthall, the work, he said, had been mailed to him from the Toronto office of the Bell Telephone Company. "The source of the work was clear. Its objects were also clear," he said. "They were the objects of the Bell Telephone Company of Canada, but that colossus, the American Bell Company of which it is practically a branch."

POLES IN TRAINING.

With the idea of going over to the United States to train the army of 100,000 Poles residing there, 25 local Poles began to drill in the camp of the Polish Roman Catholic Church of St. Stanislaus, on Danison avenue. They are in charge of G. Skarzynski, a probationer at the School of Infantry.

CITY HALL NOTES

Medical inspection of the schools has been taken over by Dr. Hastings and he is working on the details of the administration. The public school nurses will enter on their work at the city hall next week.
Mayor Church and James Somers, chief clerk in the city clerk's office, left yesterday for Washington to extend a personal invitation on behalf of the city to Marshal Joffre and Hon. Arthur J. Balfour to visit Toronto.
As the city has agreed to the request of the residents, the Ontario Railway Board has approved the widening of the street from 30 to 50 feet. This street runs from Danforth avenue to the G.T.R. tracks parallel to Woodbine avenue and is part of the land annexed by the city in 1909.

Objects to China's Terms For Entering the Great War

Japan is not in favor of China being granted the terms by the allied nations on which she is willing to enter the war against the central empires, according to S. Tajima, of Tokyo, who was at the Queen's Hotel yesterday. One of China's conditions is that she receive the right to increase her import duties against certain commodities, many of which are at present imported in large quantities from Japan.
Tajima is in America at the present time purchasing paper-box making machinery. By proposed exchange of the present demand, which was previously filled by German goods, by the first of the year.

Monthly Red Cross Report Shows Comforts Sent Abroad

In the monthly report of the Canadian Red Cross Society for April, it is stated that many calls were made by American women from various United States cities, eager to hear and learn of the Canadian methods in Red Cross work.
The report also tells that from the 270 Red Cross circles of Toronto, 128 cases of supplies were received. The shipments included 2,294 sets of pajamas, 188 flannel shirts, 2,090 pairs of socks, 7,871 towels, 7,859 kit bags, 114 dressing gowns, 370 personal effect bags, 1,452 sets of sheets, slippers, hospital suits, gauze undershirts and other supplies. Also a quantity of soap sent in for 400 prisoners of war, making 15,152 articles.

Christianity is Growing in the Japanese Empire

Rev. C. J. L. Bates, lately returned from Kobe, Japan, where he was dean of the Methodist college of literature and commerce, declared to a reporter for The World yesterday that Christianity has not advanced so rapidly in Japan as in other foreign mission fields, due to the fact that Japan has a higher degree of civilization than most eastern nations. "But," he added, "there has been a steady increase in Christians between 1902 and 1905, amounting to 185 per cent, and totaling 400,000. In the financial section of the church the Japanese contributions have increased 347 per cent, that is from \$120,000 to \$538,000." He also said that in Japan there are 274 Christian schools of all grades, with 250,000 students. In Japan, he stated, there are 1,014 Protestant missionaries and 300 of other denominations.

DOCTORS ELECT OFFICERS.

The 48th Highlanders' band, under the efficient leadership of Lieut. John Slater, will give a concert tonight in the armories in aid of the prisoners of war in Germany. James E. Fiddes, one of Toronto's most successful concert tenors, will sing the ever-popular patriotic song, "We're From Canada," with a band accompaniment.

REPLIES TO CORLEY.

Governor Chambers, of the Toronto jail, in reply to a statement made by Crown Attorney Corley that drugs were smuggled into the jail, said the gifts coming in to the prisoners are thoroughly examined.

ASK ALL CITIZENS TO FOREGO RACES

Ministerial Association Condemns Sporting Events in This Tragic Hour.
The ministerial association yesterday passed the following strongly-worded resolution on the matter of racing and race track gambling:
"The General Ministerial Association of Toronto, composed of ministers of the various Protestant denominations, learns with deep regret of the elaborate program now being matured for the purpose of actually increasing the volume of race track events through the Province of Ontario, and in addition to the moral objections we have towards race track gambling, we feel that patriotic considerations should at the present time be held in check this form of so-called 'sport.' The example set by the horsemen of Great Britain in this trying hour is one that should be followed in Canada. The late Lord Roberts' last visit to a military hospital was one where the grand stand of a famous race course was devoted to military hospital purposes. This is the hour of destiny for humanity, and it calls for self-denial not only in Great Britain, but throughout the imperial dominions. We therefore call upon all earnest citizens to abstain from race track events, in order to help win the war, and to devote the money usually spent in such a way to patriotic purposes.

Should Follow King's Example.

"And we cannot but express the deepest regret that high officials in the race have by their example, stimulated rather than discouraged what in this tragic hour should be altogether suppressed. Their conduct in this regard is in striking contrast to that of His Majesty the King, who himself, with his household, is setting a praiseworthy example of simplicity and self-denial in living, and calls upon all his subjects to follow in the same course.
"We further venture to call attention to the prevalence at the present time of motoring for pleasure on the Lord's day. Apart altogether from the expense involved (which in the aggregate is by no means negligible) it is in itself a waste of time when the men of Canada are in great numbers suffering death and wounds for the defence of our liberties. We in the home land should give ourselves in such large numbers to indulgence in pleasures rather than to worship and devotion on the Sabbath day?
"Should not we in this hour—such an hour as for peril and sacrifice our country has never before witnessed—by the stern simplicity of our lives, by the seriousness of our reflection upon life's realities, by our high standards of private and public morality, and above all by our devotion to God and duty prove ourselves the kindred and helpers of those who after and give their all, that the best things may remain the secure possession of mankind?"

BALFOUR MAY PAY VISIT TO TORONTO UNIVERSITY

The senate of the University of Toronto has extended an invitation to Marshal Joffre, Mr. A. J. Balfour and M. Viviani, now at Washington, to visit Toronto. The following reply was received from Marshal Joffre's secretary: "Marshal Joffre bids me express to you his warmest thanks for your very cordial invitation. He would be happy to respond favorably to it if the mission with which he has been entrusted by the government in France called him to Canada. In actual fact his time is so full that he is unable to visit your country. Marshal Joffre takes this opportunity of telling you how much he appreciates the heroism of the Canadian troops who are fighting on the soil of France and who are shedding so generously their blood for a common cause."
President Falconer has had a reply from Mr. Balfour, stating that if he can visit Toronto he certainly will engage at present, but he will let him know later.

TO SELL NO COAL HERE. Mayor Asked to Safeguard Rights of British Unions

It was learned that New York yesterday that the Susquehanna Coal Mines have withdrawn their product from the Canadian market. While this is not going to help the coal sitting in Ontario, it is not as serious as at first appeared. The company some years ago exported a large amount of their high-grade anthracite coal to Canada, but since the removal of their head offices from Erie to Philadelphia the trend of business has been gradually away from Canada, and this is their intention to sell no coal in the Dominion.
At the patternmakers' meeting, held last night in Foresters' Hall a resolution was passed requesting Mayor Church to use his influence in stopping any discriminations against members of British unions, as happened with a member of the amalgamated society of engineers a short while ago.
H. J. Bennett was in the chair and two new members were enrolled.

The Food Crisis, and Its Remedy.

In many old legends and traditions there are tales of nations over whom a spell had been cast which prevented them doing anything at a time of vital crisis in their careers...

The two things that are most pressing today, one of them for months past, are the food question, which only began to be a problem in February...

This splendid condition of affairs is undoubtedly due to the lack of leadership in theory and in rhetoric we have abundant abundance...

We live alongside a nation that knows better than we do how to feel a good deal of irritation, and scorn, perhaps, for President Wilson...

We have had one great enthusiasm welkempted, chilled and killed by government apathy. It was the enthusiasm for enlistment...

The domestic situation is sufficient to arouse the fury of a people like the Russians, but we in Canada tamely submit...

There should be a food minister or controller, appointed at once to deal with all the conditions that have arisen and been dealt with elsewhere...

as of the wealthiest middleman or merchant. The lowliest are giving their lives and their children's lives for the nation...

The food minister should stop all hoarding of supplies. With prices and distribution regulated, there is no need of it. He should at once prohibit all trading in wheat futures and all other merely speculative transactions in food products...

At all times he should have his finger on the schedules of prices and the inventories of supplies, and he should not guess, but know, where the nation stands in relation to its food.

If the government will not act, and the people must do themselves to action and find a way to break the spell.

Received in Quarantine

On December 27, 1916, a Michie parcel was ordered for Pte. C. F. Edwards, who was in camp in England. He received it a month later under circumstances he himself describes:

"I received your letter and parcel a few days ago, and was pleased to get it. Everything was just fine. Our food had been quarantined, and the boys all thought it was fine. It was pretty hard to get things at the time, for we were not allowed to leave the hut, only to go on parade. The plum pudding was real nice—we don't get much of that kind here. The maple sugar was fine. It is a long time since I tasted real maple sugar."

The soldier gives the best verdict on a Michie parcel—the welcomes with glad heart the smokes and sweets, and the good things it contains. Experience has taught us his needs—and the safest way to pack.

Larry's Leafs By 5 to 2 Take Second From Birds

EVEN UP THE COUNT WITH THE ORIOLES

Leafs Hit Timely, and Zabel Pitches Unbeatable Ball Against Baltimore.

The count is now one each in the first home series between the Leafs and the Baltimore Birds. Larry's boys were behind Zabel, showed a smart brand of baseball throughout, and downed the Duncies 2 to 2 at the local ball park yesterday.

Zabel, late of the Chicago Cubs, was in excellent form and he had the Orioles well curbed up to the ninth round. In the final inning the first three Birds singled and Zabel handed out a walk to tie the situation.

Lamar opened the second with Baltimore's first hit. Williams struck out and Blackburns pulled off a very play on Bues' liner. He pegged to second and Larry got the ball to first in time to complete a double play, which left half on base around produced a run. Graham singled to short and continued on to the half-way mark when Shannon heaved to the stand. Blackburns rapped smartly to deep and the throw was too late to head Graham off at third.

Trout's long fly to left left Graham beat the return home. Baltimore got a man as far as second in the third. Blackburns graded to deep short. Smith's wild pop to first left him unable to get to second. The pop popped out. The Leafs looked dangerous in their half. Kelly opened with a single to right and Zabel pitched a wild pitch. Jacobson hit sharply to the right side of the field and Larry pulled a nice piece of coaching by making Kelly take the turn and look as if he was bound for the plate.

Trout's single, Whitman's sacrifice and Lajoie's slashing one base rap down the left field foul line made the Leafs' third run possible. Lajoie's sacrifice and the seventh span was a two-run session for the locals. Smith singled to right, but was thrown out trying to stretch it into a double. Kelly came along with his second single of the day, and Zabel walked. The corrupted were the only ones who second also got free transportation.

Trout fanned a pitcher's sacrifice, squeezed play. Kelly was sent in from third and Trout met the ball for a pretty punt. It just was not meant to be. Kelly died when Bues knocked down his hard liner.

The Birds came to life in the ninth. The first two men hit safely and Acosta was walked. McAvoy hit short and forced Acosta at second. Williams scoring. Fowler batted for the pitcher and forced McAvoy at second and another runner scored. Truesdale ended it by hitting a high fly.

THOMPSON TO PITCH AGAINST BIRDS TODAY Lajoie hopes to make it two out of three this afternoon, when the Leafs line up against Baltimore in the third game of the series. Thompson, the sturdy left-left-hander of the Leafs, who has won his last three starts, will be in the box.

Down in Morgantown, West Virginia, the county seat of Monongalia County, the seat of that growing University of West Virginia, of 15,000 souls, with diverse factories and industries of all kinds, there is a man named Charlie Schalk.

It is going to be the American farmer's year, and the public interest requires that the farmer be encouraged and stimulated, and, if need be, aided by the governments, federal and state, to the best of their power.

Greatest Backstop Since Buck Ewing Is Ray Schalk of Chicago White Sox

Chicago, April 30.—Charles A. Comiskey, president of the White Sox, in an interview had this to say of his star catcher:

Several reasons why the White Sox should win the flag this year may be mentioned. One of these is Ray Schalk. This young man undoubtedly is the greatest backstop of the day, and the equal of any who ever wore a glove. Yes, who didn't wear a glove. Yes, who didn't wear a glove.

Did you ever notice Schalk start after a foul fly that went into the outfield? Steel and concrete alone prevented him from making such a catch. He was every chance, Schalk is a wonderful help to a pitcher, and, therefore, to the entire team.

WALTER JOHNSON IS THE SHUT-OUT KING

Still in Harness and Has Long Lead on Nearest Active Rival.

Eddie Plank missed his big chance of becoming shut-out king of the American League by spending one season with the Federal circuit. The official records do not give cognizance to work done in Federal plate, and, therefore, the shut-out victories scored by Eddie during that year were wasted, as far as the official guide is concerned.

Walter Johnson heads Ban Johnson's circuit, but Walter has only three more shut-outs than Plank, even after one good year of the Gettysburg left-hander's career is tossed into the discard. Johnson, however, is younger than Plank, and it is almost certain that Eddie will never have an opportunity to tie Johnson's total.

Of the pitchers now doing active duty in the league, there is none closer to Johnson or Plank, the next man in line of competitors is Jim Scott of the Chicago White Sox. James has a total of 22 shut-outs, less than half as many as Johnson or Plank.

Twelve who have scored ten or more shut-outs in the American League are: 15—Walter Johnson. 12—Eddie Plank. 11—Roy Waddell. 10—Doc White. 9—Addie Joss. 8—Chief Bender. 7—George Mullin. 6—Jack Quinn and Joe Wood. 5—Bill Donovan. 4—Jack Cooney. 3—Frank Smith. 2—Jim Scott. 1—Eddie Killian. 1—Barney Pelly and Bill Dineen.

KID LEWIS KNOCKS OUT JIMMY O'HAGAN English Welterweight Floors Albany Man Four Times at Harlem Club.

New York, N.Y., May 4.—Ted (Kid) Lewis, the crack welterweight, knocked Jimmy O'Hagan, the next man in line of the second round of the main bout at the Harlem Sporting Club tonight. After the first round, O'Hagan had O'Hagan at his mercy and knocked him five times before being finally counted out.

THE EAGLE'S CLAWS. When a bird is confined in a cage its claws become entirely too long and its beak over-developed. This condition may be lamentable in the case of the gentle household pet and songster. There is, the reason for believing that the sturdy talons and beak of the eagle are in good condition. There will be no trimming, and a little polishing alone is needed to make them effective.—Rochester Democrat and Chronicle.

INCREASED THE DISTANCE. The court listened breathlessly as the counsel cross-examined. "There were two shots, you say?" "Yes, replied the witness. "Where were you when the first shot was fired?" "It was about 10 feet, from the prison," he answered.

Coach Ten Eyck Talks On Benefits of Rowing

Does rowing enlarge the heart? James Ten Eyck, coach of the University of Toronto intercollegiate champions, says it does not think so—in fact, he is positive in his declaration that any young man who has a normal constitution and reasonable care in training is benefited by competitive rowing.
Coach Ten Eyck is one of the many rowing experts throughout the country who have tried the storm of protest against the popular idea that indulgence in athletic, especially rowing, enlarges the heart.

MILUKOFF DEFIES REBELLIOUS MOB

Firm Declaration Made That Russia Must Remain Loyal to Allies.

CHEERS IN RESPONSE

Situation is, However, Regarded as Hourly Growing in Intensity.

Petrograd, via London, May 4.—The resignation of Foreign Minister Milukoff was demanded by thousands of soldiers and workmen who marched the streets yesterday afternoon and last evening, bearing banners inscribed "Down with Milukoff." Discontent has been smoldering for some time, on account of the belief that the minister was not fully in sympathy with the viewpoint of the workmen and soldiers. The present outbreak, which began yesterday, was a direct result of the announcement made by the foreign office to the allied nations to the effect that Russia would not slacken her effort in the common struggle against the central powers, and would observe strictly her engagements with her allies. The workmen and soldiers declare that they should have been consulted before this communication was sent.

Orderly and Red Flags.
All yesterday afternoon crowds gathered in groups in the public squares, listening to the exhortations of impromptu orators. Workmen paraded the streets carrying red flags. At a meeting of the Council of Soldiers and Workmen's delegates, the formation of a coalition cabinet was favored. Later the executive committee of the council attended a meeting of the council of the provisional government.

There were also demonstrations last evening in favor of the government. Rodzianko, president of the Duma, exhorted the people to continue the war until the attainment of victory worthy of the Russian people.

"Down With Guchkoff."
Some of the banners carried by the marchers were inscribed "Down with Guchkoff," (the Minister of War) and "Down with the provisional government."

The executive committee of the workmen and soldiers' delegates discussed M. Milukoff's note to the allies all of Wednesday night. It declined at daybreak yesterday without reaching a decision. Later in the day the committee at the special session finally decided that it saw no reason for demanding the resignation of the provisional government. The committee induced the soldiers engaged in demonstrations to return to their barracks.

Milukoff's Fine Stand.
When Foreign Minister Milukoff said the banners of the soldiers inscribed with the words, "Down with Milukoff," he addressed the demonstrators from the balcony of the palace, saying that he was fearful not of Milukoff, but for Russia. If the inscription interpreted the feelings of the majority of the citizens, he asked the condition of Russia. The entente allies would say Russia had betrayed her allies and had struck her name from the list of the allied powers.

"The provisional government cannot accept that view of things," continued M. Milukoff. "It depends on you, the provisional government, and myself, as minister of foreign affairs, will defend a position in which no one will dare charge Russia with treason."
"Never shall Russia consent to a separate peace," he added. "The provisional government is a sailing vessel that can only move with the help of the wind. We look, then, for your trust, which is the wind that is to make our ship go forward. I hope you will supply us with that breeze, and that your confidence will aid us in propelling Russia towards liberty and prosperity and in upholding the dignity of our great free country."
The Novaia Zinza, the organ of the democratic movement, has criticized the Foreign Secretary Milukoff's note. The note will be discussed this evening at an extraordinary general meeting of the council of workmen and soldiers' delegates.

"The evening newspapers declare that the government is using its responsibility for the note to the allies, promising energetic co-operation in the war against Germany. They say that the government is supported by the executive committee of the Duma."
The tenacity of the situation is growing hourly.
A commission, representing the Russian provisional government, will leave in the near future for America to confer with American government officials concerning the industrial, economic and financial relations of the two countries. Information to that effect was obtained today from a high official source. The personnel of the commission has already been decided upon, but the names of the commissioners are not yet available for publication. They will be vested with the fullest powers, similar to those of the American commission.

RELIEF AT LAST

THE BLESSING OF A HEALTHY BODY

Has Not Had An Hour's Sickness Since Taking "Fruit-a-tives."

MR. MARRIOTT, 73 Lees Avenue, Ottawa, Ont., August 9, 1915.

"I think it my duty to tell you what 'Fruit-a-tives' has done for me. Three years ago I began to feel run-down and tired, and suffered very much from liver and kidney trouble. Having read of 'Fruit-a-tives,' I thought I would try them. The result was surprising. During the 3 1/2 years past, I have taken them regularly and would not change for anything. I have not had an hour's sickness since I commenced using 'Fruit-a-tives,' and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain."

REVOLTS IN BERLIN.

Amsterdam, May 4.—The Maabode of Maestricht says that serious revolts occurred in Berlin last week. According to the paper the mob became so menacing that machine guns were used against it. The story is not confirmed from any other source.

RUSSIAN GUERRILLAS DRIVE GERMANS BACK

Firing and Scouting Reconnaissance Campaign in Caucasus.

Petrograd, May 4, via London.—An official statement issued today by the Russian war department says: "Western front: In the direction of Kovel, in the region of Kuzhar, the enemy maintained an intense artillery fire, exploded mines and threw bombs against our trenches."

"In the region of Kabanovka the enemy exploded a mine between the 19th and 20th divisions. Our trenches were undamaged. Our trenches were undamaged. Our trenches were undamaged."

"Northeast of Slavetina the enemy's mine sap was destroyed by the explosion of one of our mines. Rumanian front: In the region of Voloshanka, 20 miles southwest of Poleshan, guerrillas, supported by infantry scouts, cut thru the network of wire entanglements and pursued the Germans as far as Kallman. Approaching German reserves tried to surround our guerrillas, but the latter, forcing their way at the point of the bayonet, returned to their trenches."

"Caucasian front: There were firing and scouting reconnoissances. Aerial activities: East of Tatumka a German aeroplane was brought down by rifle fire. It fell within enemy lines, catching fire during its descent. In the region of Zaturza German aeroplanes were brought down by our artillery fire. It fell between our trenches and the enemy entanglements."

WHEAT MARKET CRISIS SOON TO BE OVERCOME

Extension of Milling Privileges on May Contracts Agreed Upon.

Special to The Toronto World. Winnipeg, May 4.—According to official announcement today, it is expected that an effective remedy for the crisis in the wheat market will be reached within the next forty-eight hours. Millers and the government have already agreed to accept all grades of wheat that can be milled on their May contracts. This means an extension of contract privileges to No. 3 wheat and to special grades, in addition to those already deliverable under contract.

What has been planned has not been announced, but it should be consummated in time to permit trading to be resumed in May and July options on Monday.

Newspaperman Sentenced For Aiding German Plots

New York, May 4.—Charles E. Hastings, a newspaper man, who was involved in the statement of Albert O. Sander, a German agent, to send spies to England to furnish information to the German government today indicted Hastings on the charge of aiding German plots against him and was sentenced to a year and a day in the United States penitentiary at Atlanta. Hastings was recently arrested in Holland, where he was acting for Sander, and brought back here.

INCONVENIENCE AT BORDER.

Windsor, May 4.—After four days' enforcement, the new American immigration law is pronounced too stringent to permit of normal freedom by Windsor residents in passing to Detroit. The first day Canadians looked on the questioning of a job, but continued closer observation by immigration officers has caused a number of the same questions to be asked to thousands of thousands of tired workers who cross to work or home each night or morning. Immigration Chief Frick of Detroit admitted today the new law has cut traffic into Detroit on ferry boats considerably.

VENDORS OF WHEAT ARE BADLY NIPPED

White Explains "Corner" is Due to Rush to Cover Contracts.

By a Staff Reporter. Ottawa, Ont., May 4.—In the house of commons this afternoon Sir Thomas White, minister of finance, stated that he had information which led him to believe that the "corner" in wheat on the Winnipeg exchange was due to the inability of certain vendors to carry out their contracts with the British wheat commission. These vendors have sold wheat at the contract price to the commission for May delivery. Now they did not have the wheat or a sufficient quantity of it, and being forced to buy in a hurry the price had been run up on them. He suggested that a way out might be found by having the British commission accept lower grade wheat, taking an additional quantity to make up for difference in grade. He had accordingly cabled Sir George Perley, and the subject was now receiving the consideration of the imperial authorities.

Mr. Thomas added that if the step already taken did not break the "corner" and reduce the price of wheat, that the government was prepared to take such further action as might be necessary to afford the desired relief.

Potato Shortage.

Judge McKenzie (N. Cape Breton) read to the house a telegram addressed to Mr. McCrea, Liberal member for Sherbrooke, who was unavoidably absent. The telegram was from twenty grocers and commission men of Sherbrooke, who claimed they were unable to find any potatoes for sale in New Brunswick. They had acted upon the statement recently made by the minister of agriculture, that there was a large surplus of potatoes in New Brunswick, and had endeavored to place orders in that province, only to find there were no potatoes on the market.

Mr. McKenzie suggested that the minister should supplement his former statement by more specific information.

Hon. Martin Burrell, minister of agriculture, had nothing to add to his former statement, but said that reports received by his department in April showed that there was a large surplus of potatoes in New Brunswick over and above all requirements for food and seed.

The budget debate, adjourned from yesterday, was continued by Judge McKenzie, who read to the house copious extracts from the recent speech of Sir Sam Hughes at Lindsay. He charged that the government had been remiss in the matter of recruiting, and grossly extravagant in the expenditure of public money.

Challenges Liberals.

Frank R. Lalor (Conservative member for Haldimand) said he was tired of hearing the Liberals hint that the Government was afraid to bring in conscription. If any Liberal would move a resolution in favor of conscription (Mr. Lalor) would vote for it. Would Mr. McKenzie do the same? Mr. McKenzie: "I would vote against it."

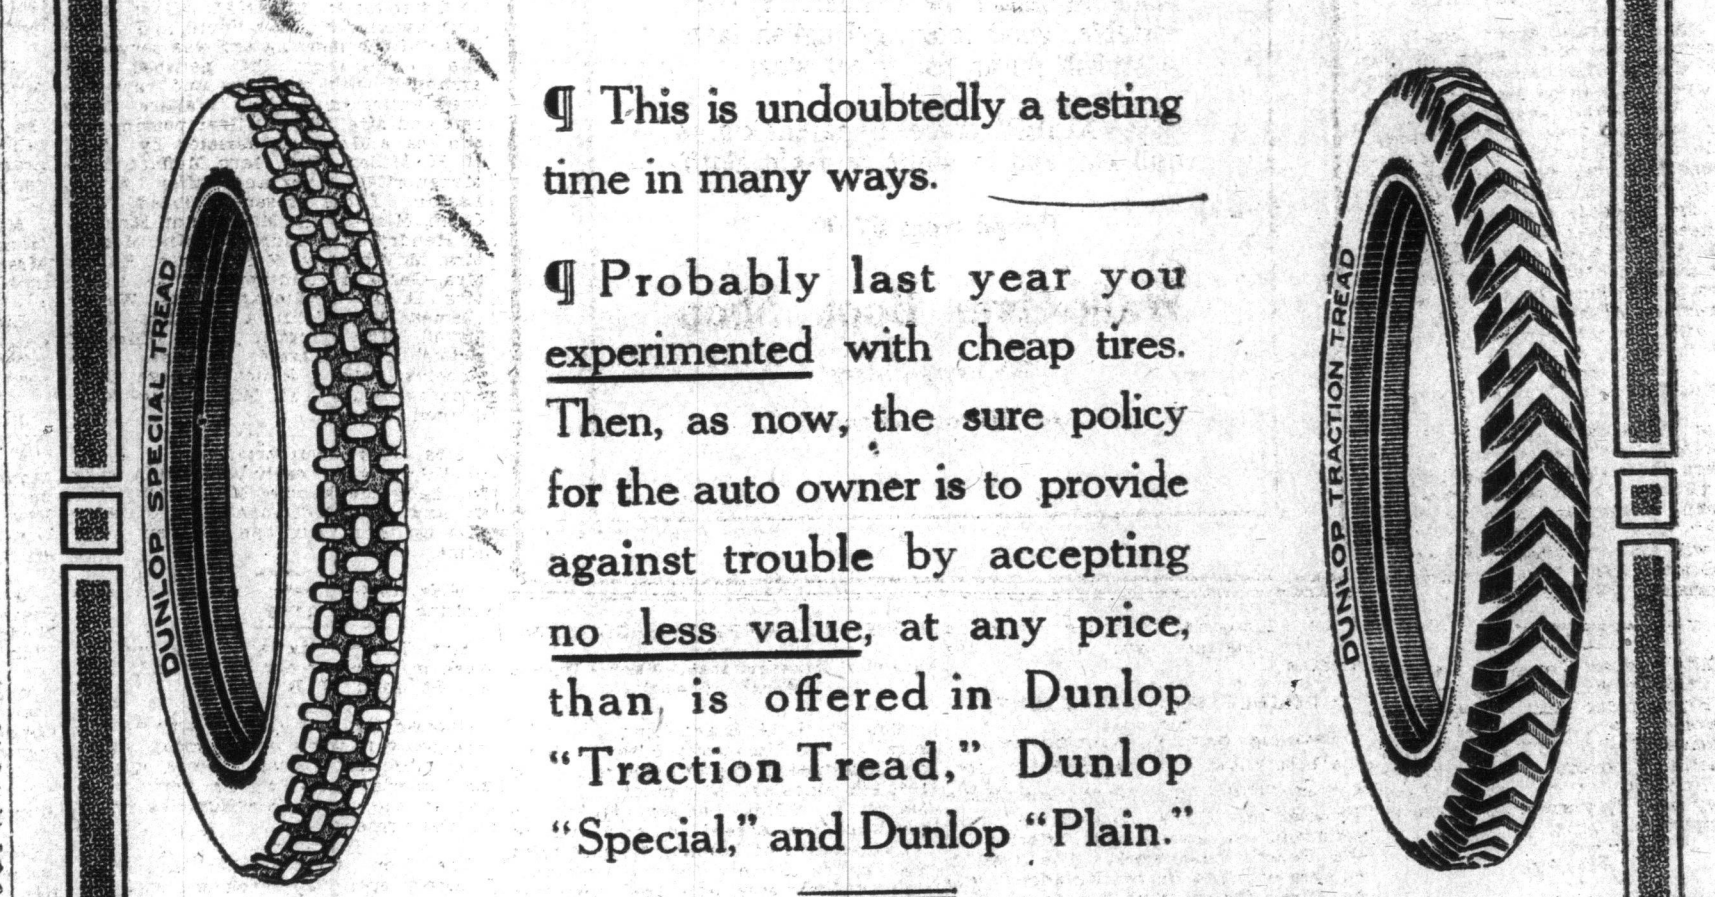

Mr. Lalor said this was a characteristic answer from the opposition. The Liberal party had no definite views on any subject. It was howling about the high cost, but was attributing the same to the tariff. Yet he ventured to think that if Sir Wilfrid Laurier came back to power tomorrow he would not reduce the tariff a particle.

In referring to the charge that the Dominion Caniers, Ltd., with which he is associated was making huge profits during the war, Mr. Lalor said that the company in 1915 had a deficit of \$407,000. Its profits of \$336,000 in 1916, therefore, but little more than evened up accounts. This profit, he said, was due to the fact that the company in 1915 had purchased vast quantities of tin plate before the big rise in prices.

Mr. Turgeon (Liberal member for Gloucester, N.B.) adjourned the debate.

"SPECIAL" - "TRACTION"

MACKENZIE CHEQUE PASSED THRU BANK

Accountant Says Transaction Took Place Just Before Election.

Vancouver, B.C., May 4.—When Justice Gregory opened at noon today the inquiry into the charges made by J. S. Cowper that Hon. A. M. Macdonald received campaign contributions of \$15,000 from the Canadian Northern Railway Company last September the first person to voluntarily give evidence was F. C. Wade, K. C.

It had been alleged at last Wednesday's hearing that it was at Mr. Wade's house in Vancouver, at a conference between Wade, Macdonald and R. J. Mackenzie, that the latter had drawn a cheque for \$15,000, which was later given to Macdonald by Mackenzie. Mr. Wade obtained the privilege of making a statement, and said that at no time had he had any conversation with either Macdonald or Mackenzie regarding campaign funds in British Columbia.

Dr. Mackenzie was to have been the first witness, but he is absent from the city. His secretary, Harold Diamond, was called and said he expected the doctor home Saturday. Mackenzie will therefore, it is expected, go on the stand when the case is called next Wednesday morning.

Accountant Recalls Cheque.

The interesting feature of today's session was the calling of Harold Sheldon, accountant of the Canadian Bank of Commerce. He was asked to recount what he knew of Macdonald's cheque for \$15,000. Sheldon said there was such a cheque, which was drawn on Winnipeg, and that it went there to the bank some time between Sept. 7 and 13, the latter being the day before the election. The cheque was endorsed by D. Burns, brother of Pat Burns, who is a son of the president of the P. Burns Company. He said he thought so, but did not know. Sheldon introduced the cheque, which he thought C. H. Carter, the bank teller, who paid the cheque, will probably be called next Wednesday and the history of the cheque will then be inquired into.

Vankleek Hill, May 4.—The Vankleek Hill Cheese Board met and elected its officers for the new year. C. S. Northcott was elected president, and Donald McInnes secretary. The board decided to meet Friday night at eight o'clock. There were 650 boxes cheese on board. No sales. Four buyers present, but on account of arrangements being made by the government they had no orders to buy.

ITALIANS EMPLOY GAS AGAINST AUSTRIANS

Vienna, via London, May 4.—The Austrian official communication today says: "Yesterday evening attacks by a Russian regiment broke down before our positions north of the Suchitza valley (Carpathians). Italian theatre—There have been the usual artillery and mine throwing engagements over the whole front. An enemy gas attack near Gorizia failed. "Our armies yesterday shot down three enemy aeroplanes over the Carso highlands and another near the Piave basin. Our naval airplanes Wednesday bombed a pumping station near Gorizia and renewed their attacks on military establishments at Villa Vicentina and Aviano (Albino) with visible success. A great fire, accompanied by explosions, broke out at Aviano."

SEVEN HOURS LATE.

The C. N. R. train from Winnipeg was over seven hours late in arriving at the Union Station yesterday. Due at 4.30, it finally pulled into Toronto at 11.50 p.m.

The Repairman.

We depend upon a force of specially trained repairmen to keep Toronto's 64,400 telephones in repair. Both on your premises and at the central office we do what we can to prevent interruption of your service. You can help to keep up the quality of your service by co-operating with us as follows:—

- Handle your instrument carefully. A telephone knocked to the floor or set down roughly, or that has the receiver "banged" on the hook is often so impaired as to give poor service results.
 - Keep desk telephones and cords away from wet umbrellas, sponges or damp locations.
 - Do not place glasses of water or ink wells on Private Branch switchboards where they are liable to tip over and injure the wiring.
 - Do not buy or use so-called "helps" alleged to improve service. They invariably impair transmission and injure the service. If they were of value, we would supply them.
- Your co-operation in the case of your telephone will help greatly.

STOCKS CONTINUE DOWNWARD MOVE

Incessant Offerings of Investment Rails Mark Exchange.

New York, May 4.—The stock market was again under a cloud of depression to-day. Apprehension concerning foreign affairs was very acute, especially with regard to the situation in Russia.

FOSTER DISCUSSES FIXING OF PRICES

U. S. and Canada Should Centralize Control of Food, He Declares.

Washington, May 4.—Sir George Foster, Canadian minister of trade and commerce, said today that any plans for fixing prices of wheat on the North American continent, to be carried out jointly by the United States and Canada would depend on the extent of food control the United States Government takes as a result of the bills now pending in congress.

FARMERS AND HELPERS ARE GETTING TOGETHER

Call for Assistance is Imperative, as Country's Need is Great.

The condition of the farmer is clearly shown in the following letter received by the Rev. J. A. Miller, of the provincial farm labor bureau from a farmer at Hagersville:

CHARGED WITH FORGERY.

GREEK CABINET FORMED.

MAJOR MURPHY KILLED.

Athens, May 4.—Alexander Zaimis, the new premier, has formed the following cabinet:

WINNIPEG WHEAT TRADING CURBED

Most Momentous Day in History of Exchange Passes off Quietly.

Winnipeg, Man., May 4.—This, the most momentous day in the history of the Winnipeg Grain Exchange, on the whole, was a very quiet day. The proceedings began five minutes before the opening, when President Gage announced to the waiting trade the resolution of the council that no trading in July or May wheat would be allowed until further notice.

discussed yesterday afternoon at the bi-weekly meeting of the sub-committee on thrift which met at the city hall, with Mrs. Loosmore as convener.

London, May 4.—Major Ogilvie McMurtry, aged 22, Canadian, attached to the Royal Flying Corps, killed in action April 28, was the youngest son of S. A. McMurtry, Montreal, and husband of Amy McMurtry.

GERMANY IS TORN BY FACTION FIGHTS

Indemnitites and no annexations. The Socialist leaders are endeavoring to sweep the government and the imperial chancellor into a declaration of the German peace aims on similar lines and which could be used at the Stockholm conference.

The moderate elements, who favor taking what can be secured, are assailing Von Bethmann-Hollweg for weak-kneed shrinking from trouble and demand in resolutions adopted by the Reichstag in wide circles of such papers as The Vossische Zeitung, that the chancellor now make a clear and definite statement of policy and state forward inner and outer peace.

BRITISH TWO WEEKS AHEAD OF SCHEDULE

Mr. Balfour Hears Advance Proposed Faster Than Expected.

Washington, May 4.—The British forces on the western front are two weeks ahead of their attacking schedule, according to a cablegram received here today by Secretary Balfour from the foreign office. The advance, it is said, has been much faster than expected, and the losses smaller.

SEEDLINGS ARE WANTED FOR THE HOME GARDENS

Every person who raises vegetables from seed in greenhouses and hotbeds has, every year, many more seedlings than they can either use or sell.

Authorized Capital \$5,000,000 Capital Already Subscribed 2,500,000

Issue of 10,000 shares of common stock at \$100 (par); 40% on allotment, 30% in 12 months; 30% in 18 months.

It is reasonable on a conservative basis of calculation—to expect net earnings of 50% per annum on the capital of this company. Even if an allowance be made for a decline in present beef prices, an unusually satisfactory dividend may safely be anticipated.

IMPROVE FACILITIES FOR TRANSPORTATION

Satisfactory Progress Made at Davidson Property.

Preparations are being made for building a serviceable road from South Porcupine to the Davidson property, which lies due north from the town. Corduroy was cut and drawn during the winter months in readiness for laying the road as soon as the snow is off the ground.

PREDICTS FUTURE FOR NEWRAY MINE

Recent development underground at Newray has been the most important yet recorded, and this ideally located property has now reached a stage where a master hand is required in directing operations.

PROMISING OUTCROPS AT THOMPSON-KRIST

The shares of the Thompson Krist Company were notably strong through the present working period of liquidation and there has always been a steady demand for the stock on a slightly advancing price scale.
