GETTING READY FOR CONFERENCE

U. S. Delegates Prepare for Meet in Washington.

President Harding Makes Public His Hope of Reasonable Limitation of Armaments, But Says Absolute Disarmament Not Contemplated.

Washington, Oct. 12.—A month of careful preparation for the U. S. government's part in the armament conference began today with a meeting here of the four delegates selected by President Harding to speak for the U. S.

Diplomatic, military and naval data of a specific nature already had been compiled, but the task of fitting the whole mass of information together and building upon it a constructive programme remained to be done by the delegates themselves in a long series of meetings.

Some hint of the president's hopes for the armament of a letter the president had written in reply to a prayer that he work for "universal disarmament."

"Absolute disarmament," Mr. Harding wrote was "beyond hope of realization," and perhaps not even desirable, but a "reasonable limitation" of armaments was a practical proposition with some hope of accomplishment.

The letter was made public as expressing the U. S. executive's attitude toward the views of all those who have written him to work for complete disarmament. The letter was addressed to Miss Ella I. Freed, Brooklyn, N. Y., and was as follows: "My dear Miss Freed:

"Your letters, among others that come to me, suggest a widespread misapprehension as to the aims of the conference on limitation of armaments. In my letter of Oct. 5, I said to you:

"I think I ought to correct your impression about the expectation of universal disarmament. It is very erroneous even to suggest that we contemplate going so far as that. If we can get a reasonable limitation, we shall think that great things have been accomplished."

"PERSHING WILL BE AT CEREMONY Clouds Brushed Away and Misunderstanding Has Been Cleared Up.

Paris, Oct. 12.—General John J. Pershing has accepted the British government's invitation to assist in the presentation of the congressional medal of honor to the unknown warrior of Great Britain in Westminster Abbey. It is probable the ceremony will take place on Oct. 17.

General Pershing received Sir Milne Glesche, British charge d'affaires here yesterday, who explained the delay was all a mistake which had caused much regret in London. A communication was sent to the British foreign office.

General Pershing replied pleasantly, minimizing the misunderstanding. Substantially, he said, his part in the presentation of the congressional medal was secondary; that it was a matter to be arranged between the U. S. embassy in London and the British foreign office, and that he had been sent over to assist in the ceremony, which he would be happy to do if a date could be arranged for his return to the U. S. in the near future.

P. E. I. SEEKS A LOAN OUTSIDE A Bond Issue of \$125,000—Manitoba Asks Tenders for \$3,000,000.

Toronto, Oct. 12.—The Globe carries the following on its financial page: "Prince Edward Island, which ordinarily does its borrowing strictly at home, has emerged from its position of local independence to call for tenders for a bond issue of \$125,000, the bonds to bear six per cent, and run for ten years.

"The province has the highest financial standing of any province in Canada, and higher than that of the United States, and it is the claim of the government's circular soliciting tenders. Another statement is that adequate provision is made for sinking fund from the fees for registration of motor vehicles and from the general revenue. This, said a bond man yesterday, is a decided change for a province that until a few years ago excluded motor vehicles entirely from the island. The new bond issue will be payable in Montreal, Toronto and Charlotte-town only.

"Manitoba is seeking for tenders for an issue of \$3,000,000 six per cent, twenty years bonds, payable either in New York or Canada, bids to be received up to tomorrow. It is considered likely in local bond circles that this issue will go to New York."

Giants a Bit to the Good Now in Hurling Material—Rain this Morning, But Sun Comes Out to Assure Game.

New York, Oct. 12.—Rain, with a slowly falling temperature early this morning threatened the peace and comfort of ticket holders for the seventh world series game. The weather fore-caster thought the rain would end before game time, but warned that over-casts would be in order. At nine a. m. there were indications that his forecast was likely to prove correct. The sun was breaking through the clouds but the air was very chilly.

The Giants and Yankees were tied at three games all by the Giants' 8 to 6 victory yesterday, after a week of warfare at the Polo Grounds. Both teams seemed to think that the tricky something called the break in the game would make its appearance this afternoon. The point out the ultimate victory in the championship struggle. Whoever wins tonight will be only one victory away from the throne, while the losers must take the next two games in succession to become champions of the world.

McGraw SNAPPY; SAYS DOG'S LIFE NOW FOR YANKS Fan Who Caught Ball in Frewster's Home Run Returns Sphere to Him.

New York, Oct. 12.—The Giants going to lead the Yankees a dog's life from now on, said Manager McGraw today. He was feeling snappy over the Giants' victory yesterday. Commenting on the fighting spirit of his team, McGraw mentioned their having won three of the last four games after the Yanks had twice downed them at the Polo grounds.

Chick Fawcett received a shock yesterday when the ball he hit into the bleachers for a home run was returned to him after the game, by the fan who caught it. To return a baseball at the Polo grounds is most unconventional, particularly one with the souvenir value of a world series homer.

Leading Batters. New York, Oct. 12.—Snyder and Fritch of the Giants hit better than any of the regular Yankee sluggers in the first six games, their averages being .412 and .409. Earl Meusel of the Giants leads in total bases with fifteen, which includes two doubles, a triple and a homer. Fritch leads in runs with five and Meusel with three.

NEW MINISTER ON THE RAILWAYS Hon. J. A. Stewart Follows Up Statement Made by D. B. Hanna.

Ottawa, Oct. 12.—(Canadian Press)—Commenting on the statement by D. B. Hanna, minister of the C. N. R., that the lines would show a surplus for August, Hon. J. A. Stewart, minister of railways and canals said:

"The financial position of the C. N. R., as announced by Mr. Hanna, bears out the view held by the government that a decided improvement in revenue would be shown during the last four months of the year. It means that the deficit for August, 1920, amounting to four million dollars, is transformed into a surplus of \$4,000,000 for August, 1921. The gross earnings for August, 1921, were \$10,536,461, as compared with \$10,067,177 for August, 1920, an increase of \$469,284. The working expenditures for August last were \$10,489,280, as compared with \$14,007,297 for August, 1920, indicating a reduction of about four million dollars in operating expenditures.

Another fact that should be noted is that President Hanna's statement while including the Grand Trunk Pacific, which is being operated by the C. N. R., management, does not include the Grand Trunk which, for the time being, is under separate control and operated in co-ordination with the government lines. An informed source of the railway operation of the Grand Trunk for the 8 months ended August 31, last, was \$3,000,000 as compared with \$1,200,000 for the corresponding period last year, while the net revenue for August alone was \$1,200,000.

The fact that the government lines are making a much better showing than during the corresponding period of last year should serve to dissipate some of the pessimism which surrounds the discussion of Canada's present railway situation.

As Hiram Sees It

Then there liquor importers," said Mr. Hiram Hornbeam to the Times reporter, "had a piece in the paper the other day. Some old fellow had written in 'Gimme liberty or gimme death' and these here critics that was afraid they wouldn't get a fight out of it, they wanted it if the temperance folks got the same thing. An' then they went on an' said: 'If you vote for prohibition the bootleggers'll kill you.' Seems like they got things mixed. They been sayin' right along that prohibition was makin' the bootleggers rich. An' they got that there quotation wrong. It was the bootlegger that was doin' the talkin'—an' he said:—'Gimme liberty an' I'll give you death.' How-so-ever, it's all over now, an' we're goin' towards the settlement he'll wish he'd never been born. We got one more to go everyboddy, if you live another ten years you'll be surprised how dry Noo Bruuns'll be—By Hen!"

Matters Which Hinder Irish Conference Work

Resume Talk Tomorrow, and in Meantime Question of Alleged Breach of Truce is Being Taken Up—Cable From Irish Hierarchy.

London, Oct. 12.—The British and Sinn Fein delegates, pending a resumption of the Irish conference tomorrow were today considering the question of alleged breaches of the truce in Ireland and endeavoring to devise means by which they might be avoided during the negotiations.

This was the first difficulty faced by the conferees, the assumption by the Dan Eireann of the functions of government in Ireland having caused much irritation here. Actual outbreaks of conflicts with the crown forces are regarded as less serious than the virtual ousting of the British authorities by the Sinn Fein courts and police, as the crown forces cannot, without breaking the truce, take active measures against this policy on the part of the Sinn Fein. Under the terms of the truce, the crown forces must not carry arms, which the British government alleges the Sinn Fein do.

Samson J. Duggan, who acted chief liaison officer in Ireland, acting for the Sinn Fein in this matter and A. W. Cope, assistant secretary for Ireland, were present at the meeting. The Sinn Fein delegates had come to London from Dublin to advise the government's representatives.

The Sinn Fein delegates had called religiously its agreements regarding publication of the proceedings in the conference. The Sinn Fein delegates had been taken on the government side and said this was another matter which they shall discuss tomorrow.

London, Oct. 12.—Prime Minister Lloyd George laid before a full meeting of the British cabinet today the subject of the Sinn Fein delegates' conference between representatives of the Sinn Fein and a committee of cabinet officers. A recess of one day was taken by the men considering Irish affairs, who will meet tomorrow morning at eleven o'clock to resume their consideration of some means by which the Irish problem can be adjusted.

Little was made public regarding the details of the two meetings held by the conference yesterday, but there was some intimation that objection was made by the cabinet officials present to the reviving of men for the Irish Republican army. It was pointed out that several thousand men have been added to the ranks of the military forces today. The presence of the Sinn Fein delegates in the cabinet was not a matter of course, and it seemed probable that some step would be taken to prevent a recurrence of such a situation.

ONTARIO'S NEW SCHOOL LAW

Has Decidedly Increased Attendance at High Schools—Great Work for Vocational Training.

(Toronto Globe.) Some respect or fear of the Adolescent School Attendance Act is being shown by the youths and maidens between the ages of fourteen and sixteen, for there is a decided increase in the registration of pupils at the high schools and night schools of the city.

The total registration of attendance at eight high schools up to October 10th, 1921, which is about 800 in advance of last year. This is said to be due to a larger number of the pupils who were "entrained" going into the high schools, and those under sixteen years remaining, in accordance with the new law.

Technical's Big Gain. The day registration at the Central Technical School has increased by about 400, as compared with this time last year, and Principal McKay anticipates a still further increase.

The High School of Commerce has been obliged to increase its teaching staff and to accommodate its pupils in the corridors and halls in order to provide for the increased attendance.

There has been quite a run on the night schools throughout the city during the past week. There are seven more night schools this year than there were last, and an average registration of between 50 and 60 is already recorded.

It is thought that the new act is responsible for the sudden popularity of night education, but attendance at night school will not fulfill the letter of the law, which, however, is not being stringently enforced this year. In September next the Board of Education proposes to start part-time day classes for adolescents who are at work or are at home on special permit.

It is estimated that about 2,000 adolescents will receive additional education of some kind during the coming year as a result of the passing of the Adolescent School Attendance Act.

Both the bride and groom number many friends who all have best wishes for them for a long and happy life.

Reynolds-Compton. A wedding of interest was solemnized in St. David's church this afternoon by Rev. J. A. MacKegan, who united in marriage Miss Edith Compton, daughter of Mr. and Mrs. Joseph Compton, and Thomas B. Reynolds, one of the proprietors of the Clifton House. The bride who was given away by her father, looked charming in a brown beaver cloth suit with beaver fur trimmings and a sand colored blouse over burnt orange with a doveten hat with a dark brown and burnt orange plume and carrying a shower bouquet of Opheleia roses. She was unattended. Following the ceremony Mr. and Mrs. Reynolds left on a honeymoon trip to Montreal, Ottawa and Toronto. On their return they will reside at 18 Kennedy Place. They were the recipients of a large number of magnificent presents, including a beautiful large silver set from the staff of the D. S. C. R., with which Miss Compton was employed as social service nurse of New Brunswick, also a Chesterfield chair and silver service from the staff of the Clifton House and a chest of silver from the groom's relatives. Many friends will unite in wishing them happiness and prosperity.

Jiles-Nicholson. At the home of Mr. and Mrs. Blair Graham, Woodstock, Oct. 9th, Miss Albinia Nicholson, of Debec, was united in marriage to Eber Jiles of Aroostook, formerly of Canterbury, York Co., N. B. Rev. M. E. Conron, pastor of the Methodist church, performed the ceremony. The bride who was given away by her brother, Roy Nicholson, looked very nice in a navy blue tulle and hat, to match with black fox furs, the groom's gift to the bride, and carried a shower bouquet of sweet peas and maiden hair ferns. Only immediate relatives were present. The room was nicely decorated with Autumn leaves.

After the ceremony a dinner was served and a social time spent. The happy couple took the train for Montreal and other Canadian cities. On their return they will reside at Aroostook, where he will take his position as C. P. R. operator.

MAKES BIDS FOR THE FARM YOUTHS FOR THE FARM. London, Oct. 12.—(Canadian Press)—In a despatch from Adelaide, South Australia, Reuters correspondent says that, in furtherance of its immigration policy, the South Australian government is offering attractive terms for boys of fifteen and eighteen to go there from the United Kingdom, and become farm apprentices for from one to three years.

FIRST CONCERT KEENLY ENJOYED

Gives Promise of Delightful Series in the Lyceum Course in K. of P. Hall.

Music lovers of the city were delighted with an artistic concert programme which was heard in the Knights of Pythias Castle last evening. It was the first of five in the Lyceum course which has been arranged for this winter under the auspices of the Phonograph Salon, Ltd. The initial concert presented three talented musicians, Madame Baschi, contralto, Miss Edna Scriven, violinist, and Charles H. Atwood, pianist, who took the place of George Anderson, who was unable to come.

Madame Baschi is a European artist who has stepped into prominence with the depth and fullness of her rich contralto voice. Her numbers included "O Sole Mio," Gounod's "Serenade," "The Last Rose of Summer," "The Little Tree," "By the Waters of Minnetonka," "Trovatore," "O Promise Me," "The Rose and the House That Jack Built." All were delightful.

Miss Scriven has a wonderful mastery of the violin, and has the firm yet delicate touch of the true musician, coupled with perfect technique. She played the violin obligato for some of Madame Baschi's songs and as her final number gave an exhibition of whistling on her own piano accompaniment. She received a royal welcome from the audience. Among her numbers were "Jerusalem Fantasia" and "The Humming Bird."

Mr. Atwood acted as accompanist to the soloists, and in his piano solos gave delightful interpretations of some charming numbers. Among his numbers were "Rustling of the Leaves" and "Slush Dance." If the remaining four concerts in the Lyceum course are of as high a standard as the one last evening, the artists will be assured of a hearty welcome from large and appreciative audiences. The promoters are to be warmly commended for supplying so great a treat to St. John musical people and should have hearty support in the concerts yet to be given.

KNOCKED OVER WHARF. It was reported this morning that a man received serious injuries yesterday when he was knocked over the wharf by an automobile. The car, driven by a young man, had just started when it apparently went out of control. Near the face of the wharf it struck a man who was standing there and knocked him to the deck of a schooner tied up alongside. His head was bruised. The front wheels of the car were well over the cap of the wharf before it was brought to a stop. It was removed before any damage was done.

ONE FOR MR. BAXTER

Hon. Mr. Baxter devoted some time in his Moncton speech to an effort to prove to the Liberal party that there are two railway policies, and that the Conservatives have only one, which is government ownership and control. It may interest Mr. Baxter to know that the Montreal Gazette, which is very close to Mr. Meighen, is the chief government organ in Quebec, is out against government control. The Manitoba Free Press the other day expressed a fear that an influential element in the Liberal party favored the government railways, and that the speeches of Premier Meighen were not retorting as to his attitude. Thereupon the Montreal Gazette on Tuesday said:

"Had the Free Press any real ground for its fears in regard to the Shaughnessy plan, the outlook for the country would be decidedly brighter than it is now. Unfortunately, the warning appears to be unnecessary. Apart from the fact that the approval of the plan expressed by Hon. Rodolphe Lemieux, has been little evidence that the platform of the Liberal party, or of any dominant group in that party, included anything so constructive and promising as the executive and the Shaughnessy plan. Nor is the silence of the prime minister to be interpreted as signifying a disposition to accept the lead given by Lord Shaughnessy. The latter's proposals were made during the last session of parliament when consideration might have been given to them and their merits or demerits discussed. They were ignored by the government and by the opposition alike, and nothing has happened since to indicate a probability of their adoption more than the pity."

Thus the chief government organ in Quebec declares itself against public control of the government railways. It remains for Hon. Mr. Baxter to say what he thinks of the Montreal Gazette.

A STRIPING COMPARISON

Conservative orators never tire of telling what the National Policy did for Canada, and they assert that the party stands on its traditional policy which alone can save the country. It is worth while, therefore, to institute a little comparison, which the Toronto Globe does in the following effective manner: "The calamitous effects of Conservative incompetency were not apparent for a few years after 1878. There was a brief period of prosperity followed by the darkest years in the industrial history of Canada. The tale is told in the census of 1891, covering the previous ten years. Population increased by only 808,429, although the government statistics showed an immigration of nearly 900,000. This proved that in these ten years of Conservative administration Canada had lost a population equal to the whole of the immigration and nearly 400,000 more, in addition to the whole of the increase by births. If we really got the immigrants the bulk of them must have left, together with hundreds of thousands of native Canadians who crossed the border. The National Policy was building up, not Canada, but the United States. The whole population west of Ontario was only about 390,000. The Northwest, as Edward Blake said, was empty still, or almost empty.

"The census of 1911, after ten years of Liberal tariff and immigration policy, showed an increase of 1,859,928, as compared with 808,429 in the N. P. decade. The exodus to the United States had been checked, and instead of Canadians going to the United States, American farmers were coming to Canada, and thousands of them to the Canadian west. The west had a population of more than a million and three-quarters. It was producing wheat on a scale which was the granary of the Empire.

"But it may be said that the N. P. was specially designed to foster manufacturing industry. Very well. Take the record of manufacturing industry in the two periods. The increase in the manufactured product from 1880 to 1890 was \$160,000,000. The increase in the manufactured product from 1900 to 1910 was \$684,000,000—four times as much.

"Confronted with these facts, the government journals take refuge in the plea that the prosperity of the Liberal period was due to the spade work done in the previous years. But the N. P. regime extended over eighteen years, which is rather long for spade work without a crop. If this argument were good there should have been continuous improvement under the N. P. The very opposite was the case. There was a flicker of prosperity for a few years, followed by the black decade from 1881 to 1891. The later years of this period of gloom and depression were worse than the earlier ones, and from 1891 to 1896 there was no improvement. By contrast the improvement under the Fielding tariff began modestly and increased steadily and rapidly. The spade work was done between 1897 and 1901. The results were shown in the decade from 1901 to 1911."

Mr. C. H. Cahan not only scouts the suggestion that he ran against Hon. W. S. Fielding, but sees no ground for opposing him at all.

HARBOR COMMISSION.

The people of St. John were told long ago that harbor commission was the great panacea for all the ills of this national port. They were told to gaze upon Montreal and learn wisdom. It is therefore a severe shock to be told by the shipping and Exporting Register of Canada, published in Montreal, that one man runs the harbor there and that a change is needed. The Register says a question that is foremost today with all who have close interests with the harbor of Montreal is whether there should not be a new board of harbor commissioners. We quote: "From the outsider's point of view it would seem that too many duties are delegated to one man, that there is one man at the harbor of Montreal who is virtually a dictator. He runs the harbor. There are those among the shipping interests who are just a little afraid to speak too loud for fear that they might lose favor with the dictator, yet there is ever a low rumbling that denotes dissatisfaction. At the recent meeting which was held to find ways and means to speed up grain shipments at the port, hot words passed. In fact many would not have been surprised if they would have come to blows. When things begin to get this warm then there is something wrong. We are not ready to say what this is, because it may be righted. We trust it will be we suggest in this connection that all the commissioners take a hand in the affairs of the harbor. Dictators are too likely to offend in this enlightened day while decisions rendered by the board are not nearly so offensive.

"The present time might perhaps be the right time for the government to make a change in the commission. It may find that the present board has outlived part of its usefulness."

The Register cites a case where the commercial and shipping interests appealed to Ottawa to have a grievance removed, and were sent back to the commission and left to the mercy of the "dictator." It would therefore appear that harbor commission may not be without its weak points, and that St. John did well in its decision to have its rights safeguarded before accepting a commission act.

The representatives of southern Ireland and the British government are in conference. We are told the opening of the conversations was auspicious, and is that there is a manifest desire on both sides to come to an agreement that will avert further trouble of the sort that prevailed prior to the truce. Those who ought to know his feelings, say that Mr. Lloyd George will exert to the fullest extent his great powers of argument and persuasion along the line of conciliation.

The conference will be long and hedged about with great difficulties, but the momentous nature of the decision to be made will surely have a like conciliatory effect upon all who participate. The problem of Ulster looms large, but if southern Ireland and England can agree surely northern and southern Ireland can come to terms.

As the political campaign progresses it becomes more evident that the Meighen government has no other policy than that of clinging to office and going on as before. From the leader down, the cry is that the country must be saved from the Liberals and Farmers, and the attitude of both toward the tariff is misrepresented. Those who listen must go away convinced that if this country is to get back into the path of solid progress there must be a change at Ottawa. The verdict of 1896 must be repeated in 1921.

During the months of April, May, June and July only 49,926 immigrants came to Canada, compared with 65,000 in the corresponding four months of last year. No doubt this is due to fear that a Liberal government will tear down the tariff. Mr. Meighen has not said so, but there is yet time to speak.

Maritime province people who have had their car to the ground have at yet failed to hear from government sources any pledge of more equitable railway freight rates. And yet the tariff does their industries no good if they cannot get a market.

Moncton Transcript: Hon. Robert Rogers has taken a long time to decide under what label he will run as a candidate in the coming elections. Evidently he is no admirer of the Meighen government, or he would have said so long ago.

Both the leader of the government and the leader of the opposition will speak in St. John this week. Each will be accompanied by able lieutenants. The citizens will have an excellent opportunity to hear and to judge between them.

The success of the Liberal party in St. John-Albert will depend upon the choice of candidates.

OPPOSE CLAUSES OF FORDNEY BILL

Action by U. S. Chamber of Commerce in London Announced. London, Oct. 12—Opposition to the clauses of the Fordney tariff bill, and voting for U. S. valuations of imports was announced by the U. S. chamber of commerce here today.

The chamber declares the clauses must be hand-picked and prevent the free exchange of goods. It contends it would be a great feat for the U. S. to ascertain the complete cost of their foreign purchases until received in the U. S. and also that it would be difficult for foreign shippers to make quotations. Suggestions for a fair valuation clause are put forth by the chamber, which says it feels the U. S. should foster and encourage the flow of goods between itself and other countries as "an unimpeded flow of goods is the only means of creating funds for the purchase of those U. S. commodities of which other nations stand in need."

LAST CAR CLUB

All the favors are not going the way of the Times' garden editor. Today's editor has a message for the members of the Last Car Club in presentation of one of the club badges, and which ranks him as an honorary member of that energetic organization, which goes steadily along its chosen route under the leadership of the president, Mr. J. C. Coster, the home of the transportation question. The badges are in the form of lapel buttons for the men and pins for the ladies. They feature a sterling silver with colored enamel top. The design represents a card table, with a hostess seated at the head and the members of the club behind her. The design is a masterpiece of artistry. The members of the club held their weekly reunion last evening at "The Ladies' Club" at the home of Mrs. S. Caddell, organizer and president of the club, and a very nice and attractive affair. INDIFFERENCE
Orphanage Fair Daily Newsletter.
St. John, N. B., Oct. 12, '21.
To the Protestants of N. B.:
Greetings.—The small vote of Monday last was typical of the great indifference on the part of the average person in regard to public affairs. Had the "Widow's" carried, thousands who had deplored the result and long regretted their own apathy in not having exercised their franchise.

Surely this matter of raising money for the orphans is not going to be treated in the same indifferent manner by the Protestants in any part of the province. Let us beg of your dear reader, to consider your personal responsibility to this cause. While the fraternal societies may be taking the lead in organizing this Fair and doing the work connected therewith, we are looking to every fellow member of our societies and every other Protestant in even the remote parts of the province to get back of us, not for our sake but to help the cause. Wake up! Get busy! Solicit and urge on others! Donations of any kind or class acceptable. We can find a use for anything. Volunteer workers wanted at St. Andrew's rink on Friday and Saturday.

Meeting of men's general committee at Orange Hall tonight. Very important. Address James E. Arthur, P. O. Box 12, city.

BAREBACKED RIDE AFTER SUSPECTS

Hamilton Police Sergeant Ended the Chase in a Mud Puddle.

Hamilton, Ont., Oct. 12.—While with an auto load of brother officers Sergeant English commanded a horse from a wayside field, when the car broke down on the mountain and he saw his quarry disappearing over the hills. A farmer had reported that he had found four young men acting very suspiciously in a touring car.

When the police car broke down the four were making their getaway, two going in one direction and two in another. Over fences and hedges, Sergeant English followed one pair on the saddle-horse he had requisitioned, the owner leaving him company on another horse. When the stone quarry near the head of John street was reached, Sergeant English was almost on the heels of the men, but his horse balked at the last jump and the sergeant kept on going, into a mud puddle. The youths got away. They jumped over an embankment, dropping twenty feet.

Constables Porter and Fleming hounded a horse and wagon from a pauper farmer and had a thrilling chase after the other pair, but the horse collapsed and their part in the chase was also over. The car was later identified as one which had been stolen on Saturday night from F. Fisher, Burlington.

\$10,000 TEST ON CONVICT

Radium To Be Urged in Treating Cancer on His Lip.

Ossining, Oct. 12.—Sing Sing attendants have reported that John Duffy, a prisoner convicted in Brooklyn, was operated on in the prison hospital for the removal of a cancer.

Duffy has been suffering from a cancerous growth on the face. After a conference between Dr. Amos O. Squire, head prison physician, and Dr. Townsend, a New York City specialist, it was decided to cut away the cancerous growth. Later on, Duffy will be treated with \$10,000 worth of radium, owned by Dr. Squire, who in private practice is a radium specialist.

Duffy has been in Sing Sing seven months as a result of being convicted in Kings county of second degree assault. A few months after reaching the prison a growth appeared on Duffy's lip, which developed into a sore. Dr. Squire diagnosed it as a cancer. By using the surgeon's knife and the radium the doctors are hopeful of saving Duffy's life. His sentence has several more months to run.

Cameron was appointed to draw up a basis of agreement for union with the city to be submitted to a vote.

The drought has affected the trees and the vari-colored autumn leaves have withered on the branches. Squirrels, lacking their usual supply of maple seeds, hang about the houses, and whenever a door is opened scamper inside for food.

MUNICIPAL ELECTIONS HELD

Gagetown, Oct. 11.—Results of municipal elections today in Queens county are as follows:—Gagetown, by acclamation, R. H. Weston and Charles Cooper; Waterborough, A. L. Barton and T. L. Ferris; Johnson, Robert Stewart and Solomon C. Perry; Cambridge, J. S. Robinson and A. J. Gunter; Brunswick, by acclamation, George E. Black and Weldon Kierstead; Wickham, A. D. Case and Edson Akerly; Hampstead, Bayard Smith and Teed Inch; Petersville, Joseph Fowler and Alfred Scribner; Canning, D. E. Zetabrooks and Earl Sypher. The election was run on party lines in Canning and developed the keenest competition of any similar election in many years. The return of Mr. Estabrooks and Mr. Sypher to office by large majorities is regarded as a Liberal victory.

In the Westmorland county municipal elections held yesterday the following were elected from the different parishes: Moncton, C. B. Keith and Ferdinand C. Bourgeois; Salisbury, U. King and Luther Taylor; Shediac, Alphonse T. LeBlanc and Ernest Fisher; Dorchester, William Hickman and Simon Melanson; Sackville, C. C. Campbell and Ashley George; Westmorland, Walter S. Chapman and Edgar Brownell.

At a meeting of the trustees and executives of the societies of Tabernacle Baptist Church, held last evening ways and means were discussed as to bringing the members of the different churches societies into the activities of the church socially and financially. Means of getting the budget for the coming year worked out was also discussed.

At the W. C. T. U. meeting yesterday afternoon "Praise God from Whom all Blessings Flow" was sung as an expression of thankfulness for the prohibition victory in the referendum. William Henderson, founder and superintendent of the Shantymen's Christian Association was the speaker. He told of his work on the coast. He said that the loyalty of the Canadian to the prohibition was a cause for thankfulness. In the business session a report of the provincial convention was given.

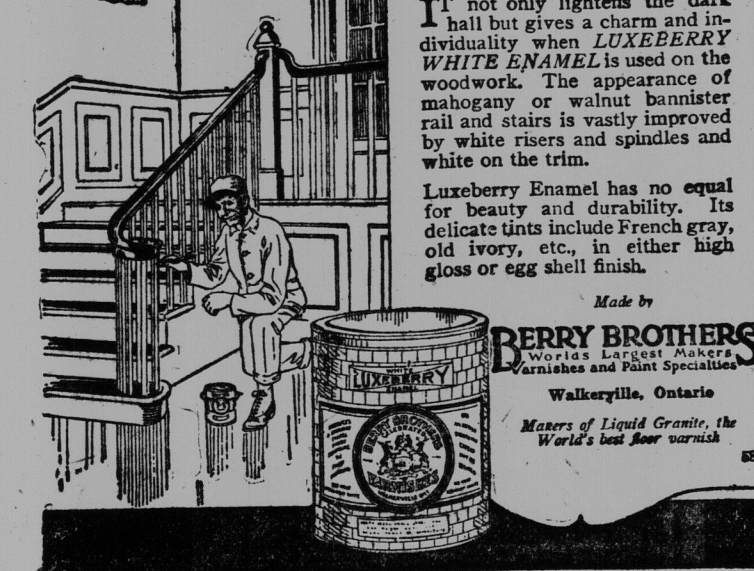

A serious collision occurred about 6:15 last evening when an automobile owned and driven by Max McCarthy struck a horse and wagon owned and driven by George Capin. The collision occurred a short distance from No. 3 fire station. Mr. Capin was thrown from his wagon and was unconscious when picked up. First aid was given by the firemen and Dr. Skinner ordered him to the hospital. The automobile was not badly damaged by the accident, but the wagon was partly wrecked and the horse slightly scratched.

The question of becoming separately incorporated as a village or a town or uniting with the city in order that sewerage and other improvements made necessary by the growth of the community might be secured was discussed at a meeting of the ratepayers of East St. John last evening. W. F. Burditt reported on the cost of town and village incorporation. A committee, including W. F. Burditt, Alexander Hesse, J. W. Flewelling, J. P. Quinn and E. C. Cameron was appointed to draw up a basis of agreement for union with the city to be submitted to a vote.

CHARGE AGAINST ARMLESS MAN

(Montreal Herald)

Judge Cusson was confronted with a peculiar case this morning when Armand Senecal, of no address, prisoner, with both arms gone from close to the elbows, appeared before him charged with the attempted theft of an automobile. The prisoner, when arrested, was in possession of a key to unlock autos, and before being caught compelled Constable Noel to fire two shots in his direction. The shooting took place Friday night on Drummond street where two men are alleged to have been tampering with an automobile. The car belonged to Mr. A. Langdon, 1882 Manse street, and had been stolen last Monday.

Senecal lost both arms in a street car accident three years ago and according to his own statement he can get along almost as well as others who have all their members intact. When arrested he is alleged to have been in the car working at the wheel. When taken to headquarters he asked for a cigarette and followed this request with another for a match. "Never mind lighting it," he told the sergeant. "I'll fix that." He raised the stump of his right arm, turned the match at his elbow, placed it, wrapped his arm backwards towards the wall and scratched the match.

Senecal started the detectives by removing his coat and vest, the latter garment being buttoned. He followed this with taking off his collar and tie, first removing a pin from the tie. He did not deny the attempted theft of the auto, and claiming to be able to open any car by placing the key in his mouth. He was remanded for enquiry.

TENANTS DEMAND A 25 P.C. SLASH OF RENTS IN SPRING

Chicago, Oct. 12.—Chicago tenants are already laying plans for the spring campaign against high rents, with the battle cry of "Reduce twenty-five per cent. next May."

The supply of apartments vacant by that time will warrant the demand, said E. A. Potter, business manager of the Tenants' Protective League. At present, he declares, there are between 8,000 and 10,000 flats—unfairly high priced—vacant in the city. These will reduce their prices of necessities by spring.

"I have another weapon that will be whetted up by May," Mr. Potter said, "that will empty a like amount of medium priced flats. I can't divulge the nature of it now, as it might act as a boomerang. I think that the apex of prices has been reached now, but a few landlords will try to raise the rents in the spring."

Landlords Must Supply Heat.

Dr. J. M. Murphy, chief inspector of the sanitary bureau of the health department, ruled that heat must be supplied to tenants even when a suit between the owner and the lessee is pending in court.

The case in question was one between the owner of the Vincennes hotel, 601 East 39th street, and the lessee. The latter were by contract to furnish heat for an adjoining building owned by the hotel owner. The heat was stopped. Dr. Murphy declared that the heat must continue, according to contract, until the suit is settled.

One hundred and ten complaints of cold flats, among them one against the Rev. E. J. Cryer, 4420 Washington boulevard, pastor of the Free Methodist church, were received by the sanitary bureau.

S. A. Shelles, 4514 Washington boulevard, complained that despite the sickness of his wife the minister has failed to supply heat.

"There is no coal in the basement and the highest temperature since Oct. 1 has been fifty-eight degrees," Mrs. Shelles said.

HUN OFFICERS IN SERIOUS PLIGHT

Deprived of Government Pay, Now Have to Struggle for a Living.

Berlin, Sept. 23.—(A. P. by mail.)—The financial plight of some former high army officers, who, deprived of government pay which was their only income, have been reduced to straitened circumstances, has caused a movement among former soldiers to help them by donations of sums ranging from five to ten marks. Only a few of the needy officers, however, have consented to accept such charity. Former Field Marshal Conrad von Hoetzendorf, declining a donation of 4,000 marks, wrote:

"I am not complaining, and feel I have little cause to complain, when I think of the many wounded men who have even less than I. This money should go to help them."

Von Hoetzendorf and his wife are living at Innsbruck, occupying a small room in which their meals are prepared on an electric stove. The former field marshal's income amounts to less than 1,200 German marks monthly.

Many former high officers have been compelled to leave Germany for Austria and Poland, where their German marks have a greater purchasing power. Others have taken low-salaried positions in the German provinces, where the cost of living is low.

Considerable sympathy for these men recently has been manifested even in liberal, socialist, radical, and anti-monarchistic quarters, and the newspapers have been advertising the seriousness of their situation.

NOW PEACE TIME FACTORIES

Former German Military and Naval Workshops are Running Nearly Full Time.

Berlin, Sept. 23.—(Associated Press by Mail.)—The principal former military and naval workshops of the German government, which were closed in 1919 in accordance with the treaty of Versailles, have been reopened as "peacetime factories" and are producing goods more adapted to uses of peace than war. Two hundred thousand workmen thrown out of employment by the closing of the shops, have been re-employed.

Among the largest factories converted from military to commercial pursuits were the artillery workshops, ammunition, gun, powder and fireworks laboratories at Amberg, Duchen, Cassel, Eberfurt, Ingolstadt, Lippstadt, Munich, Siegburg, Spandau and Wulfsburg, near Hanau, as well as the navy yards and naval torpedo shops at Friedrichshof, Kiel, and Ruestring.

Get rid of that pile of rubbish today.

These factories are operating virtually full-time, producing foundry products, castings and wrought iron stamped and drawn pieces, all sorts of machinery, railroad supplies, motors, motorcycles, hand and machine tools, pneumatic tools, electrical utensils, ship machinery, motor and sailing boats, agricultural implements, furniture, locomotives, rail road cars, automobiles and auto-trucks.

The work of transforming the war factories to commercial usages, undertaken by the government with the permission of the Council of Ambassadors, was assigned to a stock company, shares of which were taken by the government, the board of control being composed of government officials and representative financiers and industrialists.

German demands are accounting for most of the output of these factories but surplus products are finding a ready outside market, particularly in the Scandinavian countries, where the high price of money as against the German mark adds to the attractiveness of purchases of German wares. German-made automobiles are especially in demand by foreign dealers.

The manufacturers of farm machinery and railroad equipment are looking to Russia as a chief customer as soon as conditions in that country have been stabilized and already hundreds of representatives of German exporting firms have gone into the Soviet republic to study the situation and prepare for a commercial offensive, in which the

WOMAN'S WILL DIVIDES ESTATE OF \$513,000

Chicago, Oct. 12.—The will of the late Mrs. Laura Dibble, sister of the late Marshall Field, disposing of an estate of \$513,000, was admitted to probate here.

After providing \$50,000 for her grandchildren, \$10,000 to her servants, and a \$30,000 memorial to the Visiting Nurses' association, the will directs the residue be divided between her daughters, Mrs. John C. In addition they will receive the benefit of a \$500,000 trust fund established for them by Marshall Field, the use of which was given Mrs. Dibble during her lifetime.

FIRE IN SYDNEY

Sydney, N. S. Oct. 11.—Two families barely managed to save their lives by dashing outdoors in their nightclothes in a \$15,000 fire which destroyed a wooden store and dwelling owned by John R. There's a lot of trouble in the world from puddings that taste good but don't do good.

They "eat" well, but that ends the recommendation.

Sanitariums are full of pudding-eaters who stopped the test at taste and forgot to inquire whether their food gave the body what it needed—until the body rebelled.

A WONDERFUL BILL AT OPERA HOUSE

Irish Comedy Star, Joyous Music, Artistic Dancers, Acrobats Extraordinary.

The vaudeville programme now running at the Opera House is far and away above anything witnessed here this year—and the Opera House has given some remarkable programmes to date.

Tom Kelly is by far the best Irish comic seen here in years. He is not an echo of somebody else, but has a style all his own. When he starts to imitate the conversations of a Mr. Murphy and a Mr. O'Brien, he sets the house rocking and keeps it going that way till everyone is out of breath. Kelly's gift of facial expression is something remarkable, and it gives him undeniable class as a comedy star.

The Countess Verona looks like the gypsy she is advertised to be, and she extracts pleasing music from a strange stringed instrument called the Calambalon that won instant favor with the audience.

Lack of space will not permit us to review the other three acts at any great length, but you can rest assured that every act is well worth seeing. Gilda O'Connor and Duncan McCormick contribute an admirably artistic dance act. Pardo and Archer amuse with patter, song and dance, while Bell and Eva surround like rubber balls on a springy arrangement known as a trampolone, and such a wonderful series of gyrations as they describe in midair are not to be seen outside the world's greatest hippodromes.

Whatever you do don't miss this splendid bill; same will be continued today and Thursday.

IN CARMARTHEN STREET.

A special meeting of the men's class of the Carmarthen street Methodist church was held last night in connection with the fifty-second anniversary of the church. Isaac Mercer, the president of the class, was the chairman and there was a large attendance of the members. Excellent addresses were given by George Knight, William McGorman, Rev. H. B. Clarke and William Hawker and much enjoyed vocal selections were given by Walter Brindle, Rev. E. E. Styles and Alfred Styles. Refreshments were served at the close of the meeting and a social hour pleasantly spent.

The regular quarterly meeting of St. George's Society was held last evening in the Knights of Pythias Castle, with the president, Judge C. H. Grimmer, in the chair and a good attendance of members present.

Giants Even Race.

The Giants succeeded in evening up the series for the championship of the world by defeating the Yankees yesterday afternoon by a score of 8 to 6. They snubbed and outplayed their opponents, and pulled out triumphant after what looked like an early defeat. The Yankees scored three runs off Toney in the first inning, and Barnes was rushed to the rescue. In the second a single and a home run by Fawcett netted the American League champions two more runs, but from that on Barnes had them baffled and struck out no less than ten batters. The Giants evened the score in the first of the second inning and drove Harper to the showers. Shawkey replaced him and was touched up for four hits in the fourth, which netted four more runs and placed the game "on ice." Features of the game were home runs by E. Meusel, Snyder and Fawcett, and a sensational running catch of Fawcett. The official attendance at the game was 64,288, and the receipts \$112,234.

IMPERIAL BRITISH PLAY TODAY!

Magnificent London Mystery Story From the Well-Known Play "The Case of Lady Camber"

First Produced on the Speaking Stage by H. B. Irving in 1915

Daily Telegraph, Aug. 26th, 1921: "Assuredly one of the best films ever made in this country. The story is deftly constructed, and makes no undue demands on our credulity. It has, moreover, been excellently cast. Violet Hopson, who plays the part of the specialist's assistant and secretary, acts as if to the manner born. A number of American producers might have made as good a film of the play; none, I believe, could have done better."

THE STORY is adapted from H. A. Vachell's stage play which was presented at the Savoy Theatre, London, with great success, by the late H. B. Irving.

THE ARTISTS are probably the most popular of all British Film Stars.

THE PRODUCTION is of the high quality which has made Broadwest Films famous.

LOCAL NEWS

AT ST. PHILIP'S
The Willing Workers auxiliary of St. Philip's church held a supper in the vestry of the church yesterday afternoon. A nice sum was realized for the church fund. A large number of members and friends of the church attended and a social time was spent.

STILL IT GROWS.
And now St. John scores. It is not a big potato, or a ripe strawberry, or the luscious ripe raspberries of Renforth. It is a richly colored moth, with more than four inches spread of wing, that tuppity at the garden editor's window for admittance and has been added to the collection.

BIRTHDAY PARTY.
Miss Margaret McArthur was honored at a very enjoyable birthday party at the residence of her mother, 48 Horsfield street, where a number of her friends gathered. Games, music and dancing were enjoyed. She was the recipient of a large number of presents.

CASE CONTINUED.
The case of Gale Mullin, an action for damages arising from an automobile collision, was continued this morning before Judge Armstrong. Judgment was given by Wm. McEwaine of Fair Vale, where the accident occurred. G. H. V. Belyea, K. C., appeared for W. E. Gale, the plaintiff, and K. A. Wilson for Frank Mullin, defendant. Judgment will be given later.

MISS GALLIVAN'S SUCCESS.
Moncton Transcript: Miss Kathryn Irwin Gallivan, St. John, sang at the opening of the Colonial Theatre on Monday evening, and was received with much applause. Miss Gallivan has a splendid voice and a charming personality. She was encored three times last evening. She has sung before Moncton audiences before and is always welcome. The St. John vocalist made a decided hit here last night.

CATTLE SHIPMENTS.
John Chesley, agent of the Marine and Fisheries department in this city, left yesterday for Ottawa to confer with department officials regarding plans for the extension of the live stock shipping facilities at this port. Before leaving for Ottawa, Mr. Chesley, in company with C. P. R. officials, looked over shed 15, which had been suggested by the harbor committee of the Board of Trade as being suitable for the purpose, and officials of the board now have strong hopes that something will be done before the winter port season commences.

AT THE HOSPITAL.
George Capin, who was thrown out of his wagon last evening when it was struck by a motor car, was not injured so seriously as was at first feared, according to a report from the hospital this afternoon. He sustained no broken bones or bad cuts. He was bruised and scratched about the head and body. Hilton Henderson, who was scalded with hot sugar, and Jacob Deery, who received a cut on the left arm, while at work at the refinery yesterday, were both reported doing nicely today.

MAGISTRATE'S BIRTHDAY.
Magistrate Ritchie today is celebrating his seventy-eighth birthday and is being congratulated warmly by many friends. Adorning his desk in the police court this morning was a beautiful bouquet containing seventy-eight flowers, the gift of a friend. On behalf of the bar, J. A. Barry extended congratulations to the magistrate on his anniversary and his remarks were supplemented by J. King Kelley, K.C., who spoke in eulogistic vein. The magistrate made a happy reply thanking the gentlemen for their greetings. He has occupied his present office for thirty-two years.

ARBITRATION.
Further evidence was given this morning before Judge W. B. John in connection with the arbitration proceedings between the St. John and Quebec Railway Company and former residents of Westfield. In the Edward Bates claim, W. S. Fisher, a former director of the company, gave evidence as to the amount which Mr. Bates agreed to take for his land in 1916. E. J. Owens, engineers of the company, exhibited plans and drawings which were made at the time. Mr. Bates was recalled to give further evidence. The Bates claim was postponed until the first Tuesday in November on account of the illness of a material witness. It is expected that this case will be completed on that day, after which Judge John will consider the cases in both cases. Hon. W. P. Jones represented the railway and W. H. Harrison represented Bates.

TRAFFIC CASES.
Traffic cases occupied the attention of the police court this morning. R. W. Pugh was fined \$10 for driving his car on the wrong side of Douglas avenue. John Ritchie was fined \$5 for failing to come to a full stop before crossing the railway tracks in Douglas avenue. George W. Craft was fined a like amount for a like offence and another charging of having no rear license tag was withdrawn. George Scott, charged with exceeding the speed limit in Douglas avenue, was fined \$10 and the fine allowed to stand. Frank Byron charged with having no rear light on his car was fined \$50, which was allowed to stand. G. B. Addison was similarly dealt with. B. G. Adams was fined \$5 for driving on the wrong side of Douglas avenue. F. X. Collins, charged with speeding on Douglas avenue, was fined \$10 and the fine allowed to stand. O. D. Hanson for a like offence was assessed the same sum and no rear light Lambert Stockford was fined \$50 and the fine allowed to stand. The same was done with the case of George Connelly, Edward Trehan and George McKeown were fined \$5 for allowing their busses to be overcrowded.

LIQUOR STEALING CHARGE IN THE NORRIS CASE IS GONE INTO.
The evidence of Harry Norris was taken in the police court this morning in the case of Edward P. O'Brien and Thomas J. Spellman charged with the theft of a bottle of liquor from the Norris on September 8. He testified to coming to the city from Barnesville with his father and two sisters on that day and to leaving his father about six o'clock. He told of seeing him again in the alley off Erin street and of taking him into the Benefit store, from where he was taken to the hospital, where he died. Young men named Tottle, Stevens and Shannon had assisted him to carry his father. To G. Earle Logan, who appeared for Spellman, he said he did not know who laid the information in this case. To W. M. Ryan he said he did not come to the city to attend the exhibition. The case was postponed until Friday morning at 11 o'clock.

THERE'S MANY A STEP TWIXT MUD AND SOFT CEMENT

There are some people who either have the wrong perspective of things or do not appreciate a good turn which is in the process of being accomplished. Witness the case of the stylishly dressed young lady in Prince Edward street yesterday.

She was dressed in the height of fashion—low-cut shoes, silk stockings displayed to the extent which current custom dictates. Paris fashion rulers to the contrary notwithstanding, and all the rest of the trimmings, and Fate, sitting astride a concrete mixer, decreed that it should be at a point where green concrete had just been poured. Daintily she stepped from the sidewalk on to what appeared to be a level, clean surface. A moment later she was up to the ankles in nice, juicy, clingy concrete, just as it comes from the mixer.

She managed to extricate herself, but not before she was shockingly belabored about the feet—and that vicinity. Safely landed on the other side of the street, she gazed scornfully upon the trail which she had ploughed through the cement mixture and bitingly observed, "Well, if this isn't the damndest city for mud!"
