IT ALL RESTS WITH THE CANADIAN MINISTERS

Will Canada Help Motherland in Navy or Not?—Mrs. Borden Evades Invitation of Suffragettes

London, July 13—It is understood today that the report that the first Lord of the Admiralty had requested Canada to contribute two Dreadnoughts to the imperial navy is without foundation. It is said that the subject was not discussed at Thursday's conference, which was taken up with the statement of Sir Edward Grey on the international naval position. The question of temporary assistance of some kind is suggested as quite possible, but the matter rests absolutely with the Canadian ministers. Mr. Borden and Mr. Hays were much impressed with Sir Edward Grey's speech on the international situation.

Mr. and Mrs. Norton-Griffiths gave a luncheon party yesterday to the wives of the overseas visitors, including Mrs. Borden, Mrs. Peilester, Mrs. Eason, Miss Doherty, Countess Denbigh, Lady Acken and Lady Chesmore.

WOMAN SMOKES BEFORE THE QUEEN MOTHER

Viscountess Curzon Rather Shocks Nobility at Dress Rehearsal of Tournament

London, July 12—Viscountess Curzon, the Queen of Beauty at the dress rehearsal of the Elizabethan tournament at Earl's Court, married the dazzling effect of her beauty, and shocked many old-fashioned members of the nobility by faintly puffing at a cigarette as she sat on the throne.

SWEETHEART LOST BY MISTAKE IN TELEGRAM

Now There is Action Against Company For Alienation of Affections

New York, July 13—An unusual and yet easily explainable error in the transmission of a telegram message has resulted in a claim for damages against one of the telegraph companies, for breaking an engagement that was soon to end in marriage. The company is charged with alienating the young woman's affections from her sweetheart.

ELKS ABANDON THE LODGE GOAT

No More of Its Festive Antics In the Initiation of Members To The Order

Portland, Ore., July 12—Hereafter all "goat riding" will be eliminated from the Elk initiation ceremony. The ritual committee at the grand lodge in Bedford City, Va., the organization prefers a site near the center of Elkdom's population. Upon this point the grand lodge is divided.

ROBBED ON TRAIN

Two St. John Men on Orange Excursion Lose Large Sums

It seems to have been a well organized band of pickpockets that worked the special train that left yesterday morning for Moncton, carrying the St. John delegation of Orangemen. Not only was W. M. Campbell of the city ferry department relieved of \$105 but George M. Blay, city constable, lost about \$50, and several other members of the committee were relieved of various sums. It is believed that a case of professional pickpockets are working all the towns where the Old Home Week Celebrations are going on.

MARRIED IN AEROPLANE

Hamilton, Ohio, July 13—At four o'clock today Miss Sophia Linsburg of Cincinnati and John Rish, aged thirty-one of New York, N.Y., will be wedded in the aeroplane of Lincoln Beachey, with the aviator acting as best man. They will receive as their prize for consenting to this union on the sea of matrimony, a furnished flat in Cincinnati furnished by the merchants of Hamilton, under whose auspices the aviation meet will begin today.

Case of Yellow Fever

PANAMA, July 13—The steamship Chin, which arrived here yesterday from Guayaquil had on board a sailor suffering from yellow fever. The case was isolated and the steamer was fumigated.

THE WEATHER

Moderate winds; fair and comparatively cool.

INSURANCE ACT WILL BE PUT IN FORCE ON MONDAY

British Public Apparently Ready To Obey But Doctors Still Oppose It

Hon. Geo. E. Foster Openly Allies Himself With British Tories and Seeks the Limelight—Dock Strike Takes a New Turn and Men Now Have People's Sympathy

(Times' Special Saturday Cable)

London, July 13—Three topics absorb London this week end—Borden's mission, state insurance and the dock strike.

OLD HOME WEEK

The Back to New Brunswick for a week celebration will close today.

The programme today includes a special programme for children by the Cambridge City Band in St. Andrew's rink, beginning at 2.30 o'clock. The feature of the day will be the programme of water sports and the dance at Millidgeville.

ANOTHER TURN TO DOCK STRIKE

The course of the dock strike has continued every expert. Last week labor authorities were almost unanimous in declaring that the men would return to work in a few days. On the contrary the men have stiffened their ranks. The dispute has now settled itself down to the issue whether or not the Transport Workers Federation leaders shall be admitted to confer with employers before the strike is declared off.

TODAY'S POLICE COURT

William Short, arrested on charge of assaulting Frederick Ellis and D. Munford on the exhibition grounds last night, was arraigned in the police court this morning. He pleaded guilty and was remanded. His Honor told him that it might possibly result in a preliminary hearing. Mr. Short came along and without any provocation struck him.

DOUBLE TRACK C. P. R. FROM WINNIPEG TO THE PACIFIC

Victoria, B. C., July 13—At the annual meeting of the board of trade yesterday, Premier McBride said he had assurances from Vice-President McKim that the double tracking of the C. P. R. between Winnipeg and the Pacific Coast would be carried out speedily and at a cost would be from twenty-five to thirty millions in British Columbia alone.

FIRE IN WOODSTOCK

A. C. Hartley Suffers Loss—Artilleryman Has Foot Amputated

Woodstock, N. B., July 13—(Special)—At one o'clock this morning the ell and barn of A. C. Hartley's house were burned and the main house practically destroyed. There is some insurance.

TRAVELERS TO HAVE DAY AT EXHIBITION

At a meeting of commercial travelers in the board of trade rooms this morning it was decided to hold a Commercial Travelers' day at the St. John Exhibition this year. A. B. Burns presided. M. A. Porter, on behalf of the Exhibition Association, said the association would very gladly set aside a day for the travelers. An entertainment committee, consisting of A. B. Burns, J. H. Pritchard, W. J. Wetmore, George A. Ellis, J. Pope Barnes and H. A. Simmonds was appointed. A general meeting of all commercial travelers will be held in the board rooms next Saturday. It is the intention to have a parade of travelers in the morning. A ball game at the exhibition would be the attraction in the afternoon.

JOHNSON HITS LITTLE NEGRO; IS ARRESTED

Chicago, July 12—Jack Johnson, who, with his wife was recently indicted on a charge of smuggling a diamond necklace, was arrested yesterday charged with striking and intimidating Charles Brown, a negro chauffeur, one of the government's witnesses. Brown is five feet in height and slightly built. Johnson was arraigned and the hearing continued until five o'clock after he had furnished a bond of \$5,000.

CONDENSED DESPATCHES

Montreal, July 13—Losing an eye, while in the employ of the Dominion Textile Company, Hormadus Mongeau will get a pension for life under the employers' liability act. Justice St. Pierre so ruled. As he was earning \$735.59 a year, he had a right to a pension of one sixth of \$600, and \$113.00 on the balance of his yearly salary.

TRASK CUP ENTRIES

The entries for the Trask motor-boat race at Millidgeville tonight are: Topoka, owned by J. B. Cowley; Psyche, owned by W. Merritt; Patricia, owned by Dr. J. H. Barton; Laura M., owned by R. Wadell; Mildred W., owned by G. M. Wetmore; Silver Spray, owned by A. R. Crookshank; Cabot, owned by Peter Cluik; Glenfold and several other boats. The race will be started at seven o'clock and will be for ten miles. In the 8 h. p. boat class all boats of the speed type will be barred. The races at Millidgeville tonight promise to be very exciting.

THIRTEEN DEATHS

At the board of health office this week thirteen deaths were recorded from the following causes: pneumonia, and heart disease, two each; old age, pleurisy, meningitis, Bright's disease, arteria sclerosis, and umbilical hemorrhage, one each.

BOARD OF TRADE TAKES THE MATTER TO OTTAWA

Strong Resolution on River Dam Project is Sent to Government—Provincial Action Criticized

THE MATTER TO OTTAWA

The charge that the provincial government went beyond its authority to pass a bill which was ultra vires of the powers for the sake of authorizing the erection of a dam on the St. John River above Fredericton for a power project which had been pronounced to be not commercially feasible, is made by the St. John Board of Trade.

OLD HOME WEEK

The Board of Trade, in a resolution passed at its last session of the legislature, in spite of protest from many organizations and groups of citizens, the board has found it necessary to go over the heads of the provincial government in an appeal to the governor-general-in-council.

THE MATTER TO OTTAWA

The attitude of the board of trade with regard to hydro-electric power projects has been the subject of some considerable comment both favorable and otherwise. Their stand regarding the Hawkebury dam is given at length in the resolution which was recently adopted by the council of the board and addressed to the governor-general-in-council. Copies were also sent to the representatives of the city in the federal house and to the minister of trade and commerce and the minister of justice.

THE MATTER TO OTTAWA

The resolution is as follows: To His Excellency His Royal Highness the Duke of Connaught and of Strathearn, K.G., K.T., G.C.B., G.C.S.I., G.C.M.G., G.C.I.E., G.C.V.O., &c., Governor-General of Canada in Council.

THE MATTER TO OTTAWA

The memorial of the Board of Trade of the City of St. John, in the Province of New Brunswick, in re an act, chapter 70 of the Statutes of the Province of New Brunswick, 1911, entitled "An Act to Incorporate the St. John River Hydro-Electric Company," which act was enacted by the House of Assembly of New Brunswick in April, 1912, humbly sheweth:

THE MATTER TO OTTAWA

That the St. John Board of Trade would respectfully call the attention of your government to the above law, and would urge that this law be ultra vires of the powers of the House of Assembly of this province, as it is in contravention of the Ashburton Treaty of 1852. In support of this contention we call your attention to Article 3 of the Ashburton Treaty which states as follows:

THE MATTER TO OTTAWA

"In order to promote the interests and encourage the industry of all the inhabitants of the Province of New Brunswick, the river St. John is declared to be a navigable waterway by the said river shall in no way be obstructed by either: that all the produce of the said river, either by boats, rafts, staves or shingles, or of agriculture (not being manufactured) grown on any tract of land situated on the banks of the river St. John, or by its tributaries of which fact reasonable evidence shall be required, be produced, shall have free access into and through the said river and its said tributaries, having their source in the Province of New Brunswick, and from the said river to and around the falls of the said river, and especially as to whether other conveyance; that when within the Province of New Brunswick, the said pro-

MORE THAN FIFTY LITTLE ONES TO THE CEMETERY IN DAY

Montreal, July 13—The pitiful death rate among the children, caused by the prolonged hot spell, continues to grow. Little white coffins, bearing mute testimony to the suffering of the babies are accumulating in ever increasing numbers at the Cote des Neiges chapel. From six to twenty-four coffins are seen at each service.

(National Hygienic Review). The way to ward off old age is not to fast, but to allow one's self to be oppressed by the dread of advancing years. The only legitimate preventative and avoider of wrinkles is good preparation made by dissolving an ounce of powdered sazeolite in a half pint which is used as a face paint.

Want Wages Increased

Halifax, N. S., July 12.—The union employees of the Halifax Electric Tramway Company at a meeting tonight decided to ask the government for a board of conciliation. They demand changed working conditions, and an advance in the wage schedule to 21 cents for the first year; 23 cents for the second, and 25 cents for the third, and 30 cents for more work. Time and a half is asked for all Sunday work and overtime.

BAD NEWS FOR BORDEN

The returns from Saskatchewan show that the Liberals have won an overwhelming victory. The trade question entered into the campaign in that province, and the people have given notice to the Hon. Robert Rogers, and through him to Mr. Borden and his colleagues, that reciprocity in the west is very far from being a dead issue.

election campaign. That campaign brought together in opposition to the Liberals a group of ill-assorted elements which could not hope to agree in matters of policy until some one had yielded to the views of others. Mr. Borden has yielded. He finds himself now confronted with a situation which might well tax a keener mind.

WOULD HAVE PLEASED MR. COPP

If Mr. A. B. Copp had been at the Board of Trade banquet on Thursday night he would have applauded very heartily that portion of the address of Hon. Mr. White which related to the development of agriculture. Mr. White wants good roads and cheap telephones for the farmer, and he wants the farmer to get the direct benefit of expenditures which are ostensibly made in his interest.

A STRANGE INDIFFERENCE

It might fairly have been expected that a larger number of business and professional men would have thought it worth while to attend the formal opening yesterday of the model playground which Mr. Walter C. Allison has presented to the children of St. John. It is true that this is a busy week, with many visitors in town, and business men no doubt desire to meet their friends who may have come to the city for a day or two, but it is also true that a glance over the grand stand at the base ball game in the afternoon would have revealed many busy men who could find time to cheer the ball players who, by the way, were not developed on St. John playground but those of other places.

It was intensely gratifying, however, to observe yesterday morning the large number of ladies of influence who were present at the opening of the playground, and who must have been very much impressed with the value of this gift by Mr. Allison to the boys and girls of the city. It may be hoped that more of the men of St. John will take an interest in the welfare of the children and in the work of providing suitable supervised playgrounds. Anyone who has taken an interest in this work finds it hard to get the point of view of those who are utterly indifferent to the visitor to the Aberdeen playground of an evening, for example, will see perhaps one or two men keeping an eye on the children playing there. To them come the shouts of hundreds on a neighboring dump cheering a game of baseball, which over on Haymarket Square the benches are filled with men who could sit just as comfortably on a bench in the playground, and thus give their encouragement to those who are working for the good of the little children.

The work of the Playground Association is greatly needed in St. John, not merely for the good of the boys and girls but also, if it may be able to have any influence in that direction, to overcome the social evils of the selfishness of men and women who ought to show some interest in a work that is for the good of the city. It may be hoped that the membership of the Playground Association will increase so rapidly that not hundreds but thousands of citizens may feel they have a personal interest in this work. When the Governor General visits the city in August the large playground at the entrance to Rockwood Park will be formally dedicated to recreation purposes. It is needed for the bigger boys and girls, but there should be neighborhood playgrounds scattered about the city, and all that is necessary to provide them is a little neighborhood cooperation on the part of men and women who are now taking no interest at all in this branch of social work.

MR. BORDEN'S TROUBLES

The Imperial government has taken the Canadian ministers into its confidence and set before them clearly, as it did before members of the government of Sir Wilfrid Laurier, the position of the mother country in relation to the whole question of naval defence. It remains to be seen what effect this will have upon Canadian Conservative policy. Mr. Borden is very strong at present on the subject of Canadian autonomy, and has been saying things which if they had been said by Sir Wilfrid Laurier would have called forth the most utter denunciation from the Conservative press. There has been a remarkable change in the attitude of the Conservative party on this question since it came into power. The change is of course due to the influence of the Nationalists, who see Mr. Borden's allies in the federal

IN LIGHTER VEIN AWFUL VERACITY. At a Scotch dinner everyone had contributed to the entertainment but Dr. MacDonald. "Come, come, doctor," said the chairman, but the doctor protested:—"My voice is altogether unmusical and resembles the sound caused by the act of rubbing a brick along the petals of a daisy."

"My dear girl," said her mother-in-law, "any woman would be satisfied with what John says he gives you." "So would I," Pack. "Is that picture one of the old masters you were telling me about?" asked Mr. Currox. "Yes," replied the art-dealer. "It is a genuine treasure; absolutely authentic."

Two men who really did not want to fight, but who had got the idea that it would be disgraceful not to do so, fell to blows. Friends rushed in and held each contestant firmly. Warrior Number One, seeing the extremely violent efforts of Warrior Number Two to break away, cried out: "More of you men hold Swanson! One man can hold me!"—Everybody's Magazine.

My Intimate and Trusty Friend who, snugly hidden in my grip or pocket, goes with me on all my journeys—who waits my convenience, day and night, to transform my stubbled jowl into the well-groomed cheek of a respectable citizen—who, at my pleasure, caresses my cheek lightly or with searching keenness—and who demands none of my time or attention in return—this true friend, to whom I owe so much, is the GILLETTE Safety Razor. The GILLETTE is the keenest, quickest, handiest razor the world has ever seen. The thin GILLETTE blade, perfectly tempered, honed with diamond dust, held rigid between guard and cap, glides through the stiffest beard with never a pull, never a gash. Moreover, the GILLETTE is adjustable, by a slight turn of the screw handle, for a light or a close shave. It is the only razor which thus adapts itself to every beard and every face. At your Hardware Dealer, Druggist or Jeweler, buy a Gillette—you'll enjoy it. Standard Sets, \$5.00—Pocket Editions \$5.00 to \$6.00—Combination Sets, \$6.50 up. MARKET SQUARE AND KING STREET

CELEBRATIONS OF JULY TWELFTH

Moncton, N. B., July 12--The twelfth of July demonstration under the direction of the grand lodge of St. John, N. B., was highly successful. Five thousand visitors arrived in the city for the occasion and between 1,200 and 2,000 men took part in the parade. There were seven bands in line, three of them accompanying the large contingent from St. John.

At 2:30 the local and visiting lodges formed up behind Grand Master B. H. Thomas, mounted on a white horse and with bands playing, banners and flags floating in the breeze, marched along St. George street, down Weldon along Main to Beauséjour, then to St. George and back to the exhibition grounds where the parade was reviewed by the grand master and disbanded.

The procession. Grand Master Thomas was supported by P. E. Heine and William Campbell, of St. John county master, as outriders. Provincial Grand Director of Ceremonies J. W. Clarke, of this city, had charge of the procession while Cochrane and County Master C. B. Keith were also mounted. Chief of Police Rideout and Sergeant Atkins and Officer Gaw, mounted, headed the procession. The order of the procession was as follows:

Mounted police, Grand Master Rev. B. H. Thomas on a white horse, William Campbell, county master, J. W. Clarke, P. E. Heine, Moncton; J. W. Clarke, director of ceremonies; Amherst Military Band; L. O. L. 1483, L. O. L. 191, L. O. L. 41, St. John; St. John Highland Band; Carleton True Blues; L. O. L. 24, St. John; L. O. L. 3, St. John; L. O. L. 2, St. John; Summer Garden Band; Moncton; Westmorland and Albert counties; Sackville Band; L. O. L. 102, Sackville; Piper; L. O. L. 107, Sunny Brae; L. O. L. 8, Kelly Lodge, Moncton; L. O. L. 39, Armstrong, Moncton; L. O. L. 62, Moncton; West Sackville; L. O. L. 42, Upperham; St. John Military Band; Queen's R. B. P., No. 62.

Twenty carriages and barouches followed. First carriage--Colonel Pick, Moncton, past grand master; Colonel A. J. Armstrong, St. John, past grand master; J. Morrison, St. John, grand secretary. Second carriage--N. J. N. Stevens, Moncton, past deputy grand chaplain; Andrew Rolston, St. John, past deputy preceptor of Black Knight; E. K. Bowser, Sackville and John Nix, Moncton.

Third carriage--T. R. Campbell, Sackville, grand lodge; C. B. Ward, St. John, grand lecturer; H. Sellen, St. John, grand officer. Fourth carriage--Alex. Lutz, Thomas Smith, R. W. McKensie, worshipful master; Sunny Brae; William Matthews, Moncton. Fifth carriage--J. C. McWilliams, Amherst, county master of St. John; J. W. Clarke, St. John, past grand master; W. H. Bell, Newcastle; J. D. Kethro, Newcastle, chaplain of Empire lodge.

After the parade the usual speaking was indulged and a feature of this proceeding was the civic welcome extended by Alderman W. K. Gray, acting mayor, in the absence of Mayor Robinson and greetings extended by the Sons of England of this city. Grand Secretary H. G. Wadman acted as chairman, and first called on Ald. Gray, who briefly extended a cordial welcome to the visiting Orangemen. Grand Master Thomas replied at some length, referring to past efforts, aims and objects of the Loyal Orange Association. Pickpockets were at work on the special train from St. John this morning, and W. M. Campbell, Market street, St. John, was relieved of \$105 between St. John and Moncton, and another man on the same train lost \$11.

An address of welcome was read by Arthur Stone, president of the Moncton lodge of Sons of England. Harry Sellen of St. John, Grand Master of the Orange Boys of Canada, replied. Other speakers were George H. Pugh, Moncton, Col. A. J. Armstrong, St. John, Leonard Gray, Salisbury and H. E. Heine, Moncton.

The Orange celebration at Plaster Rock yesterday was one of the most enthusiastic demonstrations they have ever had. Thousands gathered from the surrounding district and a thousand men, representing fifteen lodges, took part in the parade. Ten thousand men took part in the Orange parade in Winnipeg. A sudden shower drenched them as they started marching but with dripping clothes they continued on their three mile route to the park where a big picnic was held.

A torrential downpour drenched the 60,000 Orangemen who celebrated the anniversary of the Battle of the Boyne by marching from Belfast, Ireland, to White Abbey, where a speech was made by Fred E. Smith, Unionist leader in the House of Commons. He spoke vigorously against home rule.

Rev. Mr. Abbott, an Anglican church minister, worked for a day with a pick and shovel on the Southampton railway recently to show the natives employed there that he was sincere in his work.
Mr. Abbott went to the railway camp and asked the men to work on the railway with him. He had a very quick acceptance of the offer and finally they went back at Mr. Abbott with a proposition that they would subscribe as requested if he would take a pick and shovel and go to work on the railway construction with them. They did not expect that the reverend gentleman would accept the proposition.
The following morning, however, when the men went to their work they found Rev. Mr. Abbott on hand, ready to join with them in the gentle art of handling a pick and shovel. The weather was excessively warm, in fact it was one of the hottest days of the present hot wave, but the rector stuck to his work until noon time and earned the subscriptions from the men and also their respect.
Rev. Mr. Abbott is an Englishman and has only been in Canada a few months. He came here first as curate at St. Anne's Parish church and remained in the city for some time, making many friends. Then he went to Temperance Vale.

UTILITY

Anyone who can handle a hammer and saw can apply Utility Wall Board to wall and ceiling.

It is nailed direct to the studding—or in old buildings may be put over old and cracked plaster. Once in place it will last as long as the building stands.

UTILITY WALL BOARD

is very tough, strong, moisture-proof, and will not crack and warp. The surface is ideal and may be decorated in any style desired. It is much warmer in winter, cooler in summer and lasts longer than lath and plaster.

UTILITY WALL BOARD is wonderfully convenient for making partitions, closets, shelves, and for all sorts of cabinets, boxes, screens, etc. It comes in sheets 32 and 48 inches wide, and 7, 8, 9, 10 and 12 feet long. Write for Sample and Booklet.

FINDS WHITE SLAVE TRAFFIC IN DOMINION

FIGHT TO BE WAGED

Probably a National Committee Will Be Formed With Headquarters in Toronto—Warnings to Women Immigrants to Canada Are Issued

(Times' Special Correspondence)

London, July 2.—A great deal of publicity has been given to the work of W. A. Coote, secretary of the National Vigilance Association who has just returned from Canada after an extensive tour of enquiry into the white slave traffic, which he undertook at the request of the Countess of Aberdeen.

Mr. Coote says that in Canada, he was given plenty of assurances by the national authorities that the white slave traffic did not exist; but when he came into contact with the city authorities a different story was told. He says that he finds that the loathsome traffic does exist in the Dominion and that now that suppressive measures are in operation in the United States, there is great danger of Canada becoming an important centre.

His report will be presented soon to the English committee and he believes, as a result of his tour that a national committee will be formed in Canada, with headquarters in Toronto.

The influence of Mormons on women going to Canada is considered so dangerous that urgent warnings are being issued by the British Women's Emigration Association, pointing out that young women going to Canada should resolutely refuse to have anything to do with people desiring them to proceed to points other than those to which they are booked.

BISHOP PERRIN'S LONDON CHURCH

St. Andrew Undershaft is One of the Few That Survived the Great Fire of London

(Times' Special Correspondence)

London, July 2.—St. Andrew Undershaft, the church to which the Right Rev. William W. Perrin, late Bishop of British Columbia, has been inducted, is one of the old city of London churches with a history stretching back to the reign of Queen Elizabeth. It is one of the few churches which survived the great fire of London. It takes its curious name from the fact that in the 15th century a shrine or the old English Maypole, used to be erected outside the south door for the national holiday of May Day.

It is interesting to note that in 1517 England protested against the foreign inroads, and "Evil May Day" in that year was the last date on which the Maypole was permitted to be erected outside the church. The resentment of the English apprentices against the influx of foreigners, which had been simmering, culminated on that day in a riot against the commercial invader. Blood flowed freely, and the outcome of this display of national spirit was that several London apprentices ended their lives on the gibbet.

As the parish register records, the church was erected in the 15th Century, "every man putting his helping hands, some with their purses; others with their bodies." There are some very interesting monuments, the most noteworthy, perhaps, being that of "Honest" John Stow, a celebrated historian; and the only "Royal" beggar. Engaged in his work of compiling a history of early London, he became impoverished and obtained from James I. a royal warrant permitting him to "gather, receive, and take alms and charitable benefits from all his loving subjects within the cities of London and Westminster." Nowadays, city men live in the country, and the congregation has dwindled; and the bishop finds his chief work as suffragan Bishop of Willesden in the Sea of London.

The oldest love letter in the world is in the British Museum. It is a proposal of marriage for the hand of an Egyptian princess, and it was made 3,000 years ago. It is in the form of an inscribed brick.

APPROACHING BALDNESS

May Be Checked by Using Herpicide

The above expression is one which is used frequently in connection with hair preparations. Just exactly what is meant by it in each instance is a question. Baldness is not a disease and hence, does not require a cure. It is a result invariably to be traced to the desaturation and if the condition has become chronic, it is a complete atrophy of the hair follicles, a "cure" is absolutely impossible. Approaching baldness, seen in falling hair, may always be checked and if the hair follicles are not atrophied the hair may be induced again to grow.

This is accomplished by regular applications of Newbro's Herpicide which cleanses the scalp and kills the dandruff germ. The destruction of the germ does away with the accumulations of scarf skin and thus eliminates the most common enemy to beautiful hair. Soft, glossy, fluffy hair cannot grow on a scalp infested with any more than a delicate plant can grow on an ash heap. The scalp must be kept clean and free from dandruff. The best remedy for doing this is Newbro's Herpicide which receives the highest endorsements from professional men, the stage and the best people everywhere. Applications obtained at all first-class salons and hair dressing parlors. Address The Herpicide Co., Dept. R., Detroit, Mich., enclosing 1c in postage or silver for sample and booklet. Newbro's Herpicide in 50c. and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded. E. Clinton Brown, special agent.

MORNING NEWS OVER THE WIRES

Premier Fleming addressed a large gathering in Newcastle yesterday afternoon in connection with their latest New Brunswick celebration. He urged the possibilities of development in New Brunswick as arguments why our own people should remain in the province and why New Brunswick should be attractive to the best class of settlers, mentioning in detail some of the more important projects which are under way. Ottawa, July 12.—An increase in revenue and expenditures is the showing in the Canadian financial statement for June and the first quarter of the fiscal year, just issued. In the three months the revenue aggregated \$7,838,110 as against \$2,259,946 in the corresponding period. The expenditure on consolidated account was \$12,481,931 as compared with \$8,935,732. Capital outlay totaling \$1,333,929 shows a decrease of half a million. At the present rate the year's revenue will total \$160,000,000.

THE OPTIMIST

There was once a man who smiled,
Because the day was bright,
Because he slept at night,
Because God gave him eight
To gaze upon his child;
Because he had a little one
"Could leap and laugh and run,
Because the distant sun
Smiled on the earth, he smiled.
He smiled because the sky
Was high above his head,
Because the rose was red,
Because the past was dead!
He never wondered why
The Lord had blundered so
That all things have to go
The wrong way here below
The over-arching sky.
He smiled because the air
Was fresh and cool and sweet,
Because the grass was green,
Because the sweet winds blew,
Because that he could hew
And hammer, he was glad.
Because he lived he smiled,
And did not look ahead
With bitterness or dread,
But nightly sought his bed
As calmly as a child.
And people called him mad
For being always glad
With such things as he had,
And shook their heads and smiled.
—S. E. Kiser, in Chicago Record-Herald.

A ROUGH TIME
During a recent gale in the North of Clyde the Campbellton steamer was having a rough time in Killarney Sound in the passage-way to the cabin a clergyman was ineffectually trying to open his valve, and to steady himself he went down on his knees. An officer coming along the dimly-lighted passage-way fell heavily over the kneeling man, and sitting up, spluttered out, "D— it, man, this is no place to pray in, only pray there's no need for praying. The boat's no' gaum doon."
It is an excellent thing that a man's actions should often be so much better than his principles.

WHY BRANDON LOTS ARE GOOD INVESTMENTS!

FACTS THAT MAKE BRANDON LOTS GOOD INVESTMENT

A city between 15,000 and 16,000 people with an agricultural community of 250,000. BRANDON has a country surrounding it, which cannot be excelled for all agricultural purposes, as is proven by crop reports.

The area under cultivation is 7,132,040 acres, nearly one-half the area cropped in the entire West. The livestock owned in BRANDON territory runs up to more than a million in number with a conservative valuation of One Hundred Millions of Dollars

THE FORCES UP-BUILDING BRANDON

The forces upbuilding BRANDON are those without which no city can continue to thrive and prosper. They are—agricultural territory, industries, and distributing facilities. The values of lots in any city or town, present or prospective, lies in the ability of that town to attract more citizens. A city can only attract citizens when it has business or manufacturing opportunities to offer them, and it can only offer these opportunities in proportion as the district which it serves is well settled with tillers of the soil—satisfied tillers of the soil—satisfied and permanent because they are prosperous.

Now, if you could pick out of the three Prairie Provinces, a limited area in one of them producing one-third of all the grain of the entire West and having at the same time an elevator capacity equal to one-third of the elevator capacity of the whole West, would you not consider that such a district, and particularly the city which serves as a centre for that district, was to be reckoned with?

Under these conditions—with new facilities for taking advantage of and developing these vital forces, BRANDON is looking forward to a period of unprecedented growth. The growth will be normal because it will be natural. It is not likely to usher in any wild speculation, nor will the Board of Trade countenance such a tendency, but it will release the weight which has been holding values down and let them rise to their natural levels, when BRANDON will compare favorably with any city in the West.

BRANDON PRICES HAVE NOT BEEN HIGH ENOUGH. They will have more to make them high now than they have had before, and by these conditions the investor in BRANDON lots will profit

OUR PROPERTY AT BRANDON

The status of our property which we are offering at BRANDON was aptly summed up in the BRANDON TIMES of May 11th, 1912. We quote from them—"The land in question was the Shaw Farm (Westholme) which is magnificently situated to the south-west of the city and overlooks the whole city. It is regarded as being one of the best pieces of suburban properties in the Canadian West."

The property is laid out uniform with the remainder of the city in lots 25 x 120 feet. The price of these lots is \$125.00 and \$150.00 with a \$25.00 premium on corners. The lots are sold on terms easy enough to be attractive to any investor. Property of this character is welcomed by those who know Western conditions best, and many such are numbered among our purchasers. As a matter of fact, one of the greatest assets this Company has accumulated is its long list of satisfied purchasers. We have handled properties in twenty different towns in the West, and we would be glad to refer you to the local authorities and Boards of Trade in any of them as to our methods of doing business and merit of the properties we handle.

The first line of street cars will be built to the Exhibition Grounds, and it is intended to have this line in operation by July 22nd.

OUR WESTHOLME property, being close to the Exhibition Grounds, will thus get the full benefit of the first street car service in BRANDON.

BRANDON IN BRIEF

Brandon is an agricultural and trade centre.
It is situated 132 miles west of Winnipeg.
Four transcontinental and twenty-three branch railroads make Brandon a central point.
Three hundred and forty-six passenger trains and 478 freight trains go to and from Brandon each week.
Out of a total elevator capacity in the west of 54,282,900 bushels, the Brandon district has 19,324,000 bushels.
Brandon has a population of 15,000.
The Brandon district carries the heaviest population in Western Canada—250,000, or more than half the people in Manitoba.
Brandon's trade covers an area of 35,000 square miles.
The Brandon district specializes in wheat and livestock. The livestock runs up to a million head and is valued at \$100,000,000.
Brandon's Summer and Winter Fairs are the best in Canada. Value of exhibits at the Brandon Summer Fair in 1911—\$1,500,000. Value of exhibits at the Brandon Winter Fair 1911—\$2,500,000.
A Dominion Government Experimental Farm of 662 acres is located at Brandon.
Brandon is well laid out and well built.

The Provincial Government built a Court House at Brandon in 1912, at a cost of \$150,000, and is building a Normal School to cost \$500,000.
Its business streets are well paved and clean.
Residence streets are boulevarded and treed.
The city is well supplied with parks.
Brandon has an inexhaustible supply of good water from the Assiniboine River, which runs through the city. The service shows a pressure of 90 pounds to the square inch and affords ample fire protection.
Brandon has ten banks, excellent stores and numerous industries.
There are six large public schools and a Collegiate Institute, Brandon College and the Wheat City Business College afford full opportunity for higher education along business and professional lines.
Brandon taxes and assessment valuation are low. The assessment for 1912 is \$11,844,034 on property with an actual value of \$16,000,000. The rate is 21 mills on the dollar for all purposes.
Brandon is located in the beautiful Assiniboine Valley and is beautiful, clean and prosperous.

HOW RUSSIA STANDS WITH THE POWERS

Czar's Country Much Talked About in Connection With World Politics

PURELY RUSSIAN POLICY

Summarized, it Means to Get What She Can by Crook if Not by Hook — Her Relations With The Triple Entente

St. Petersburg, July 12—Russia has been talked about of late more than is good for her reputation. Her position appears vague to foreign observers. The trend of her policy is said to need elucidation. Her relations with France, her attitude towards the Triple Entente, the motives of her friendship for Italy, the designs she cherishes in the Far East, her policy in Persia, and the aims she has reared herself in south-eastern Europe have all in turn been the subject of heated debate. Statesmen and politicians want to know what they may reasonably look for from Russia in the near future. They are groping their way in a fog. And yet the empire of the Czar has never had more straightforward, plain-dealing minister of foreign affairs than the man who presides over that department today. Ambassadors in St. Petersburg will tell you that M. Sazonoff is a man to be implicitly trusted. He says what he means, and he means what he says. Mental reservation is not one of the methods of his diplomacy. Consequently, there is no uncertainty in the minds of foreign statesmen as to what Russia is really driving at, it should be set down to other causes, and chief among these is the variety of her interests, the peculiar old-world treaties in which they are recorded, and her resolve to assert all the claims to which she possesses such titles. Russia might aptly be described as a shaggy dog of diplomacy. She cannot be doweiled with other stones and cemented into one solid mass of masonry. Her policy is made up of many loose stones, each held in place by the powers of the Triple Entente. In Persia and in the East she is not far wrong in southeastern Europe to obtain the leadership of the Slav nations in her ultimate aim. The exclusive right of sending her warships through the Dardanelles to and from the Black Sea constitutes her chief end, while in the Far East she is resolved to keep Northern Manchuria for all time, to monopolize the exploitation of the natural riches of Outer Mongolia, and also to get what she can from China by advocating, together with the Triple Entente, a view to get by crook.

The Triple Entente

Now for membership of the Triple Entente; what is wanted is a basis of common interests, common aims, identical means. And it is because Russia has little in common with the other two powers that they find it so difficult to get along with her. Take the Near East as an example. Russia's designs there, are hardly reconcilable with those of her French ally. She covets diplomatic influence as a means to political sway and ultimately to territorial aggrandizement.

That, of course, is quite natural and patriotic; nor will any one call in question her right to pursue purely national aims there and everywhere else. But the object of the Triple Entente is to eliminate the egoistic desires of any one of its members. It is to insure peace by eliminating the causes of war and to uphold things as they are for the time being.

Use it as a lever to remove a stone which obstructs the way to a view to putting an end to the Turkish-Italian war, and the severity with which subsequently the letter of a treaty and keep open the Dardanelles, irrespective of Italy's aggression, aroused wild stories about a Russian convention. Much less improbable is the hypothesis that Russia would have solved the Dardanelles problem by her own advantage—to which Italy has promised to raise no objection—as soon as hostilities have come to a close.

Russia's suggestion, in its pristine form, that diplomatic steps should be taken with a view to putting an end to the Turkish-Italian war, and the severity with which subsequently the letter of a treaty and keep open the Dardanelles, irrespective of Italy's aggression, aroused wild stories about a Russian convention. Much less improbable is the hypothesis that Russia would have solved the Dardanelles problem by her own advantage—to which Italy has promised to raise no objection—as soon as hostilities have come to a close.

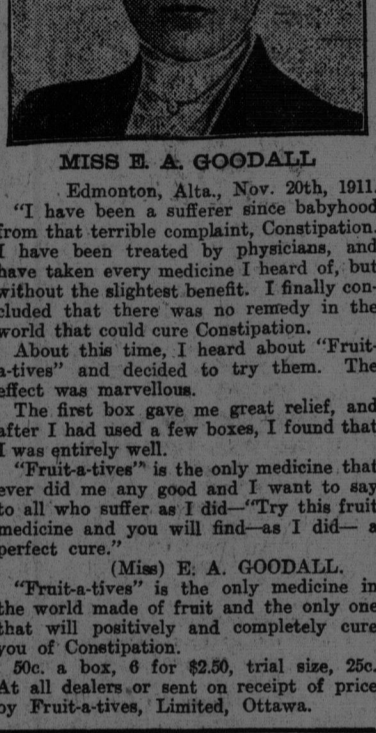

But the report that she had already invited the powers to send plenipotentiaries to a conference, or has mooted the subject in any other form, is groundless. It is not Russia's intention to take the initiative in any such procedure in future even should the condition later on prove suspicious. All the great powers may, if they like, act in concert, or else the two belligerents will be left to themselves to conclude peace on terms which, however, shall not upset the equilibrium of conflicting interests in southeastern Europe.

Now, France's relations with Turkey are very different from those. Territorial expansion is, of course, excluded from her programme. The fate of the Slav Christians, too, who are comparatively better off than they used to be, is a matter of relative indifference to French capitalists; and it is mainly they who count. They have invested large sums of money in Ottoman undertakings which are prospering on the whole, and they are not minded to jeopardize these economic interests in order to humor Russian nationalists. France declines to kill the Turkey that lays the golden eggs, which contribute to her riches, and therefore she holds aloof from Russia whenever she thinks that Russia's policy tends that way. And that the French ambassador, M. Louis, was of that mind on more than one important occasion is certain. He also differed from M. Sazonoff in his view of Italy.

This is a delicate matter into which it is needless to enter, but it may be noted that Italy's military operations in the Aegean and their wretched political outcome cannot possibly be contemplated at the same angle of vision on the banks of

TORTURED FROM BABYHOOD

"Fruit-a-tives" Cures Constipation

Edmonton, Alta., Nov. 29th, 1911.

"I have been a sufferer since babyhood from that terrible complaint, Constipation. I have been treated by physicians, and have taken every medicine I heard of, but without the slightest benefit. I finally concluded that there was no remedy in the world that could cure Constipation.

About this time, I heard about "Fruit-a-tives" and decided to try them. The effect was marvellous.

The first box gave me great relief, and after I had used a few boxes, I found that I was entirely well.

"Fruit-a-tives" is the only medicine that ever did me any good and I want to say to all who suffer as I did—"Try this fruit medicine and you will find—as I did—a perfect cure."

(Miss) E. A. GOODALL.

"Fruit-a-tives" is the only medicine in the world made of fruit and the only one that will positively and completely cure you of Constipation.

OYSTER FARMING NEEDED

Regeneration of an Industry—Scientific Methods Must Supplant Exploitation—Work of Doctor Stafford

(Continued.)

Oyster fishing must give place to oyster farming. The selfish exploitation of the valuable Canadian oyster beds in the early days of the industry has rendered this an absolute necessity if the fisheries are to be saved from complete destruction. Even under natural conditions the death rate amongst oysters is exceedingly heavy. It has been estimated, that in order to maintain the oyster population under natural conditions, the female oyster must deposit something like 16,000,000 eggs every year of her adult life.

Consequently it has become necessary not only to pass restrictive legislation, but to take steps to maintain the oyster beds by artificial means. Although oyster culture has been practised for many years it is only comparatively recently that the life history of the young oyster has been traced.

American biologists first succeeded in propagating oysters by artificial fertilization of the eggs in 1879. This success led to extensive and eventually successful experiments in the raising of oysters.

But while the results of this research were of great value there was still one important period in the life of the oyster that was not clearly understood. There are roughly three important events in the life of the oyster that are of practical use to man. (1) The spawning or depositing of the eggs; (2) the swarming or swimming of the larvae; (3) the spatting or fixation of the full-sized larvae onto shells or other objects. Of these, a knowledge of the second is perhaps of most value in artificial oyster culture. This is so because it enables the culturist to determine more exactly when culch should be planted for the oyster spat. Culch, to be of any value, must be clean and fresh. If planted too soon it becomes slimy before the spat settles; if not soon enough, it is worse than useless. By knowing the exact time when the maximum number of larvae swarm, the proper time for the planting of the culch can be determined. This point was cleared up by the work of Dr. Joseph Stafford of McGill University. As a result of his research the catching of spat has been removed from the region of doubt and caprice to that of regularity and certainty. Dr. Stafford's forthcoming report on oyster culture to be published by the Conservation Commission will explain in detail his discoveries in oyster culture. It should do a great deal to make oyster farming an increasingly valuable Canadian industry.

anybody else who manages to ascend the peacock throne. "That is Persia's domestic concern," they explain.

As for the Far East, Russia is bent on realizing her old dreams of conquest there. Circumstances, once inauspicious, now seem favorable to her aspirations. She and Japan are leagued together, and are both resolved to leave no stone unturned to carry out their programme. Manchuria will never be given back; Mongolia will be partitioned in petty and absorbed for the behoof, political and economic, of the two allies, who will then join the other powers in putting pressure up on China for the open door.

Demands For Increased Pay Ready For Presentation to Chicago Street Railway

Chicago, July 12—Demands of the street car employes for a wage increase and change in the terms of their contract have been formally approved by W. D. Mahan, president of the Amalgamated Association of Street and Electric Railway Employees. The increase asked for will be at least \$1,000,000 a year.

President Mahan left Chicago for his headquarters in Detroit, but will return and take charge of the negotiations as soon as the companies arrange for a conference. The present contract will expire August 1, but provides that the men shall remain at work pending a new agreement, any change to be made dating from the time the old contract expires.

It is believed that the possibility of a strike is remote.

Petersburg looks at them through a monarchist medium. "One-man rule, and as firm as possible" is Russia's ideal. Hence, she declines the other day to use her troops, which are stationed in Karvin, for the purpose of barring Salva-d'Almeida's way to the capital. The British foreign office made the suggestion, but the Russian premier and the minister of foreign affairs both refused to hear it. They will not allow the Czar's troops, they explained, to be employed on the errands of either band of adventurers. And what is more, they see no reason why Russia should not recognize Salva-d'Almeida.

the Seine and of the Nile. And if, at the termination of the war, the Marchese di San Giuliano should purpose retaining the Island of Rhodes for the House of Savoy, one can well understand that the news—if news it were—would effect Russian and French diplomatists very differently. But when all is said and done the difference between the two points of view can and will be bridged over.

Foreign Affairs

Foreign affairs divide Great Britain and Russia to no small extent, just as Balkan problems separate Russia and France. The London foreign office, Russian complaints, views Persian politics through constitutional spectacles, whereas that of St.

NEGRESSES SENT BACK TO THEIR OWN COUNTRY

Nearly All Brought to Montreal From Guadeloupe Deported

Montreal, July 12—It is learned that nearly all the negresses brought over from Guadeloupe to work as servants in wealthy French families in Montreal, these negresses being French-speaking—have been sent back, as it was found that most of them had tuberculosis.

The Department of Municipal Assistance is becoming more active than ever in deporting undesirable to their own countries, and the last six months have returned forty-nine foreigners. This is more than the number deported during the whole of last year.

Albert Chevrier, who looks after this work, explained that the reason the city was taking the matter up so energetically was that they found the government immigration department was not strict enough, and that many diseased immigrants were being let into the country.

"Of course," he said, "many of these people prove to be morally bad, and are sent back by us for that reason. An immigration doctor cannot be expected to see at a glance. But far too many of these people are suffering from tuberculosis, rheumatism, diseases of the bones, and two cases of leprosy were even admitted."

NINE DIVORCES ARE GRANTED EVERY DAY

That is the Record of Michigan and Detroit Courts Calendar is Crowded

Detroit, Mich., July 12—The growing list of applications for divorce is now so great that it has actually clogged the Detroit courts, and is attracting the serious attention of the clergy of all denominations in the city.

A movement will be launched to lessen the increasing number of divorces. More than 1,000 were granted in Detroit last year, and on an average nine divorces are granted every day in Michigan.

LIKELY TO BOSTON FOR MORE PLAYERS

D. B. Donald and Geo. Winter of Marathons May Leave Tonight—Race Only Well Started

As more evidence that the Marathon management are doing all in their power to win the league honors, the fans here will probably see a few new men in Marathon uniforms here some time next week. It was the intention to secure a big league pitcher for today's game, but all efforts were without success. The management were in communication with the managers of several of the principal teams in the American League in an effort to secure at least one of their pitchers. Manager Jake Stahl of the Boston Americans, leader of the American League, was communicated with, but declined to allow any of his men to go.

It is just possible that Clotte, a Red Sox pitcher, who has been sold to the Chicago American team, but who will not report there may be induced to come down this way for a while. He refuses to report to Chicago unless he is allowed to share in the receipts of the Boston club in the event of their winning the pennant, which he looked on as an assured fact now. He also wants a slice of the purchase money, but the management refuse to let on to him. He has therefore decided not to report.

It was thought this morning that Manager Donald and George Winter would leave tonight for Boston to secure several men whom they have in mind. Negotiating by wire is not always satisfactory, and for quick and best results the Boston run was being considered today.

The league race is only well started. There are eighty games on the schedule and there is plenty of time and the chances should be good for St. John to finish at the top. The public are encouraging the management and players to the very best effort.

Winter will pitch this afternoon's game for the Marathons against Houston. The game will start at half past two o'clock. Both Umpires Duffy and Evans will look after the game, and the City Cornet Band will be in attendance. A good crowd is expected.

IN THE MARKET

Native Vegetables Coming In—Meat Very High

Considering the fact that the spring was one of the most backward in years, and that the crops were hindered in their growth by the prolonged stretches of bad weather, the display of early native vegetables in the country market this morning was very encouraging. In some lines in particular there was a marked abundance and prices were fairly reasonable, but in most cases this week saw the first arrivals and the cost was rather stiff. Most of what was presented was native, with the exception of string beans and tomatoes which were American.

New potatoes are now on the market in small quantities. Farmers today are of the opinion that the crop of potatoes this year will be below the standard, and considerable loss last year when there was an abundant growth in all sections of the province. Despite the fact that much greater acreage was planted with potatoes this year the returns have not been good, owing chiefly to the weather.

Meats in particular are high. Cutting up a fancy roast this morning in the market a dealer remarked that it was cost the purchaser just thirty-five cents a pound, which is a fancy New York price. This, of course, was allowing for the one being taken from it but even at that it sounds more like buying turkey in a scarce season than roast beef. The cost is nearly three times as much as a few years ago. Lamb was scarce today but is expected to come in better before long. Cultivated berries ranged about twelve cents this morning and wild nearly twenty-five cents a quart.

Prices quoted on vegetables were as follows: new potatoes, seventy-five cents a peck; string beans, eighty-five cents; green peas, sixty-five; cabbage six to ten cents a head; spinach, ten cents, new turnips, ten cents a bunch; beets, ten cents, carrots, ten cents; celery, ten and twelve and lettuce five and six cents a head.

DEATH OF ROBERT MELVILLE JACK, C. E.

There died at North Sydney on Tuesday the 9th instant, Robert Melville Jack, last surviving son of David William and Mary (Wyer) Jack, of St. Andrews, N. B. Mr. Jack was one of a family of six, all of whom died before him. He was born in St. Andrews on May 5, 1871, and had therefore more than completed his seventy-fifth year. He was twice married, his first wife being Ellen Douglas, third daughter of the late Alexander Grant, who also lived for many years at St. Andrews. By this first marriage Mr. Jack is survived by one son, Duvernet Jack, M. D., of Montreal. He married second, Mary Carmichael, daughter of the late J. C. Carmichael. She, with a family of four sons and two daughters, survives him.

The nature of his employment led Mr. Jack to lead a somewhat roving life, spending portions of his time, in Australia, Florida, St. Andrews and Fredericton and North Sydney at which last named place he resided for some years. He was a man of genial disposition, a good writer, a capable engineer. He had at various times contributed interesting articles to the columns of the Telegraph.

FALSEHOODS ABOUT PORT IN COLLIER'S

Magazine Very Unfair to St. John in Article on This Port and Halifax

SAYS TIDE IS 40 FEET!

Bay is Reported as Not Easily Navigable and Article Pictures Ships Lying Off St. John For Hours Waiting to Get in—Absurd Dry Dock Statement

The following are extracts from a two-page article in Collier's Weekly, comparing St. John and Halifax as the great Atlantic port of Canada:—

"Against these advantages (at St. John) there are a number of serious drawbacks. The entrance to the bay is not as easily navigable as it should be. There is a deep-water channel which, though far safer and easier than in many other ports, is far from being perfect. There are shoals and sands which necessitate constant dredging. And over all other drawbacks is the tide. Tundy has phenomenal tides, as everyone knows, and St. John suffers all the disabilities of a phenomenally tidal port. Ships may have to wait hours for an entrance if they miss a tide, and are compelled to wait about in the Bay outside in the dangerous company of other shipping. And a forty-foot rise and fall naturally creates all sorts of difficulties in the way of currents and tide rips which necessitate very great care in piloting. The tide also adds something to the cost of dock development. Not only do piers have to be higher and docks deeper, but all arrangements have to be made with a view to getting cargo from ships whose decks are forty feet lower at one time of day than at another. Altogether St. John is not a port of which shipmasters speak with enthusiasm."

"This big Courtney Bay scheme is already under way. It is a big and expensive business, calling not only for the deepening of the entire bay but for the construction of a long breakwater to protect the wide and unsheltered mouth of the new harbor. Constant dredging will be a probable necessity."

Messrs. Norton, Griffiths & Co., the big engineering firm of London, have been given an \$1,000,000 contract for these improvements, and another one of nearly a million has been granted to Messrs. Connolly. This will, of course, pay for all the Courtney Bay development. It will convert the bay into a harbor, but it will hardly pay for the docks, piers and equipment needed to carry out the scheme in its entirety. How much more would be needed, however, no accurate estimates at hand to show."

There are also several other large sums which St. John is hopeful of having spent on Pacific Railway improvements in the western harbor: \$2,000,000 on Grand Trunk Pacific terminal facilities; \$300,000 on a new bridge above the harbor; and \$1,000,000 on a new bridge above the harbor.

"It is not, I say 'hopeful' because there seems a slight element of uncertainty about the amount and the time being at which they are to be spent. Also those are not sums to be provided by government."

"As a harbor, Halifax has a very strong advantage. It is a safe, easy to navigate, and can be entered or left at any hour of the day or night. It is only at considerable expense that St. John will be able to bring herself into anything like equality with such natural endowments in her rival."

"Halifax is ahead in the matter of dry docks and repairs. She has a far greater dock—one of the largest in America. St. John has only the promise of a dry-dock Messrs. Norton-Griffiths, the contractors, who are looking after the greater part of the harbor-improvements, have announced their intention of building one at a cost of \$4,500,000, assisted by a government subsidy of \$1.2 million. But a short time ago some difficulty as to site arose and there was a possibility of Norton-Griffiths removing the project to Halifax at the moment of writing the matter has not been definitely settled. Lastly, Halifax has begun to show signs of life, and if she will only awake and keep pushing an energetic and progressive policy, she will put herself on an equality with St. John in that respect also."

NOW FOR SOME SPORT

A great deal of enthusiasm is aroused in the vicinity of Westfield over a game of ball to be played on the picnic grounds at three o'clock today. A hay-cart is to leave Hilldale at 2.30 with the rosters from that section. Bets are placed at three to one on the married men. The teams will be composed of the following players:

Married Men:	Single Men:
R. Skinner (Capt.)	F. Collins (Capt.)
Harold W. Rising	Douglas Macaulay
Ernest Girvan	Thos. McAvity
Shirley Peters	Percy McAvity
Ernest March	Eric Thompson
Alex Thompson	Maurice Thompson
Percy A. Clark	Don. Macaulay
W. B. Howard	Ken. Jan
Ralph Fowler	Norman Macaulay

THE LATE MRS. H. S. HAMMOND

The funeral of Mrs. Emma Hammond wife of Henry S. Hammond of the City Market, whose death occurred on Thursday morning, will take place this afternoon from her late residence, 14 Germain street. The services at the house and cemetery will be conducted by Rev. H. R. Boyer of Fairville, and the first service will be marked by a vocal solo by Miss Knight. The esteem in which Mrs. Hammond was held by her many friends is testified to in the large number of floral offerings. The interment will be made in Fernhill. Mrs. Hammond had been a patient sufferer from heart trouble. She was held in high esteem by all who knew her and for her husband and the others bereaved there has been deep sympathy expressed. Mrs. Hammond was formerly Miss Emma Burt of Fredericton, and was sixty-one years old. She is survived by her husband, one brother, Charles Burt, of California; one sister, Mrs. Dunphy of Fredericton; one daughter, Miss Bessie at home, one step-daughter, Mrs. W. A. Finley of Philadelphia, and one step-son, Frank, of this city.
