Mr. Boyle of the Irish Canadian

brought an action for \$10,000 damages against the publishers of the Toronto Globe for an alleged libel, and at the trial a few days since the jury unanimously decided in favor of the Globe. The Globe's attack grew out of transactions in connection with the tenders for the Parliamentary printing for a term

of five years. Messrs. McLean, Rogers & Co., who held the contract, appeared to have determined to secure it again by buying out other intending or pretending contractors who stood in their way. They entered boldly into an arthe Ottawa Citizen by which his offer

(which was the lowest) was at their disposal, and with this to work upon, they succeeded, with the aid of Tory friends, in buying out all the others, until their own tender was the only one left in a position to be accepted. They are to get a price which is \$34.950 more than Mackintosh's tender would come to in the five years-all of which was clearly proved by the publishers of the Globe in making their defence. In an article on the subject, after the suit was concluded, the Globe said : --

The revelations made during the Boyle suit show that the Pacific Scandal Government has fully restored the politica atmosphere in which the sale of a Cabine Springhill an important member of his

Had this regulation been observed, Mackintosh would have forfeited \$500 on retiring, and so would four other tenderers. The Government would have had \$2,500 to recoup them in part for the loss of \$34,950, the difference in five years between the tenders of McLean, Roger, & Co., and that of Mackintosh. The fact that members of the Printing Committee advised Mackintosh to retire, proves connivance in the fraud which has been pernivance in the fraud which has been between the tenders of the people's aptitude for public affairs, for such management is or should be, free from outside entanglements and within the sole control of the people directly interested, through those whom they have the greatest free-loss of the people directly interested, through the people directly interested that the people directly interested that the people directly interested that the people depend to justify enquiry by jury, at a cost of the justify enquiry by jury, at a cost of the pount to justify enquiry by jury, at a cost of the pount to justify enquiry by jury, at a cost of the justify enquiry by jury, at a cost of the pount to justify enquiry by jury, at a cost of the pount to justify enquiry by jury, at a cost of the pount to justify enquiry by jury, at a cost of the pount to justify enquiry by jury, at a cost of the pount to justify enquiry by jury, at a cost of the pount to justify enquiry by ju

The people of Canada are reaping the whirlwind which they sowed on the 17th September, 1878. The disgrace of returning John A. Macdonald to power would have been indelible, even had he attempted to be honest for the future. But he surhad been his accomplices of old, and thus made pure administration impossible. Tupper, Mackintosh, Langevin, these are the men who re-establish the old, unforgotten order of things. To what lengths they have gone the public in part knows, to what lengths they will go the imagination of honest men cannot foresee. But the recollection of the Pacific Scandal will doubtless be obliterated by some still more intanguage recommendation.

nore intamous crime.

Any unprejudiced person reading the Mayor Mackintosh himself. His Worship, according to his own confession, entered into a conspiracy, the outcome of which was the defrauding of the Public Treasury. He says his tender was really that of Maclean, Roger, & Co. Of course he meant, that if the tender sent in his name at \$27,133 per annum had been accepted, and there had been between that and Maclean, Roger, & Co.'s tender some other tender which could not be "removed" a la Boyle and the rest. then Mackintosh, together with Maclean, Roger, & Co., would have carried out the work for \$27,133 per annum. As there was no irremovable tender between, he withdrew his tender, and the consequence was that the work fell to Maclean, Roger, & Co. at \$34,123, a clear loss to the country of \$34,123, a clear loss to the country of \$34,950 in the five years for which the contract runs.
