Here was still another preblem. Mr. Alvord did not know what to say, so he very wisely said nothing at all. But he thought that Mary Milton must be mistaken. Alicia Sexworthy was so sweet, so pious, so full of well-chosen Scripture quotations and good works.

It is a splendid medicine for rheumatism. I have recommended it to a good many, and they all say it does the work. I was in Witherington & Kneeland's drug store, in Adams, the other day and saw a very fine picture you sent them. I tried to buy it, but could not; they said if I would write to you that you would send me one. I wish you would, and I will do you all the good I can.

Very respectfully, E. S. LYMAN.

From the Akron Commercial, Ohio, of Nov. 25th, 1882.

Ohio, of Nov. 25th, 1882.

Readers of the Commercial can not well force that a large space has for years been taken up by Kendall's advertisements—especially of a certain Spavin Cure. We have had dealings with Dr. Kendall's man years, and we know of some large deals with him for many years, and the truth is a good honest man, and that his celebrated Spavin Cure is not only all that it is recommended to be, but that the English Language is not capable of recommending it too highly.

Kendall's Spavin Cure will cure spavins. There are hundreds of cases in which that has been proven to our certain knowledge, but, after all, if any person coufines the usefulness of this celebrated medicine to curing spavins alone, they make a big mistake. It is the best medicine known as an outward application for rheumatism in the human family. It is good for pains and aches, swellings, lameness, and is just as safely applied to men, women and children as it is to horses. We know that there are other good liniments, but we do believe this spavin cure to be far better than any ever invented.

Kendall's Spavin Cure.

Huterinson's Ranch, 12 miles north of Denver, Col.

Mar. 5th, 1883.

Dr. B. J. Kendall, & Co., Gents:—For the past three years I have used Kendall's Spavin Cure. In every case of spavin, of which I have treated five, thas killed them all, and entirely removed three. In case of splint I find it has no equal, one case I had was of three years standing and the Spavin Cure removed it entirely. I had a cow get spavined and it entirely cured her. One year ago a two hundred pound block of ice fell out of a wagon striking my foot on instep and toes, it would be mpossible to mash a foot worse without breaking any bones. I was taken home and carried into the house. I do not think amputation of the leg would cause any more pain. I sent for Kendall's Spavin Cure, it was all I used, and in six days I could walk around. About three weeks ago my team ran away and threw me out of the wagon, the hind wheel struck my knee. After applying several highly recommended liminents without obtaining any relief, I went for Kendall's Spavin Cure. My leg was drawn up and my knee swolon badly. In three days I was able to walk to the barn. I could go into details more fully and make this a very long letter, but will not weary you.

I am very respectfully yours,
Oscar F. Hurchinson.
