ENTERS "NOT GUILTY" PLEA

Prisoner, Upon Whom Stolen Jewelry Was Found, Picked Out As Her Assailant by Miss Christine Volk.

IN MILD VOICE, PAL OF "TEXAS" ASKS CHANCE TO WRITE FRIENDS

Prisoner Said by Police to Have a Long Record-Mrs. Fraser Is Unable to Appear-Tries to Dispose of Trinkets When Arrested.

Patrick J. O'Brien, alias William Maloney, who was taken into custody last night by Detectives Nickle and Down opposite the market on King street as the highwayman who on Monday night held up at the point of a revolver Miss Christine Volk and Mrs. Samuel M. Fraser, was remanded for a week at his own request when brought before Police Magistrate Judd this morning.

The prisoner was called in the name of Maloney, which he gave to the officers on his arrest last night. The formula of the law, in which he was given the option of summary trial by the magistrate as soon as the crown and defence were ready to proceed, or trial by jury at the spring assizes of the high court, which commences here on Feb. 26, was repeated to him in each of

O'Brien first elected trial by jury, and pleaded not guilty, but when the second charge of robbing Mrs. Fraser was read to him, he altered his opinion.

PLEA TO HAVE TIME. "I am not familiar with your courts, or the manner in which the question has been put to me, and for that reason I would be pleased if you would allow me a week to correspond with friends, as I am not acquainted here," he explained to the court, in a voice that almost savored of refinement.

When told that he was entitled to this consideration, he thanked magistrate, saying, "I am very much obliged."

The election of trial by jury and the plea of not guilty, were given over into the hands of Crown Attorney McKillop, but the prisoner will have the privilege of withdrawing either or oth on his next appearance,

Miss Volk was present when O'Brien as led in, and recognized him he man who had attacked her, who ey were both brought into the office the clerk of the court. She was arned by the detectives to talk to n erson of the matter, but will identify

night. His upper lip was decidedly white, however, and showed plainly that it had been shaved of a heavy growth during the day. He is a man of about five feet ten or eleven inches in height, and apparweighs about 185 pounds. He is a powerful man, and has the appearance of one who could offer a rather interesting fistic combat. His jaw is square-cut, and his eyes a piercing brown. The prisoner is evidently a man of 42 or 45, and while well dressed has the appearance of a workman. One of 42 or 45, and while well dressed has the appearance of a workman. One of the stairways.

PUTS HAND IN POCKET. The three city detectives worked on the cases yesterday without a halt. and finally landed their man at a hotel on King street. Nickle and Down quickly handcuffed him, and he offered no resistance. However, at the corner of Richmond and King streets, as he was being led to the station, he suddenly

derked one hand into his pocket, apparently for the purpose of grasping a Down had him in an instant, however, and when his arm was thrown up above his head, the gold locket and chain belonging to Mrs. Fraser glinted in his hand. On being searched at the station it was found that he carried no weapons, but concealed in his clothing was a ring belonging to Miss Volk,

This was identified by Miss Volk this morning. The presoner has an extensive record on the other side of the border, it is claimed. He was arrested here in September, 1904, charged with stealing dynamite from James Burnett, a Maitland street contractor. He appeared before J. W. Jones, the acting magistrate, charged with vagrancy, on Sept. 26, 1904, but was disposed of by the late Police Magistrate Love, being extradited and handed

over to the Detroit authorities on Oct. 3. WANTED IN MICHIGAN.

He was wanted by the Michigan police at that time for breaking into a bonded car at Mount Clemens and stealing a quantity of furs. The operations of himself and partner were interrupted on that occasion, O'Brien's pal being shot by the officers ,in an exchange of shots. The prisoner was taken on suspicion that he was implicated in the case when the police learned that he was stopping at the home of Fred Maudsley, on Talbot street. He had been about the city in company with a couple of men well known to the police, and for that reason was

watched closely. Yesterday afternoon Detective Egelton got a line on his whereabouts, and finally succeeded in locating him in King street saloon. The officer entered the bar him and picked up a conversation, but as he had not sufficient material at that time to warrant an arrest, it was decided to allow him his freedom for a few hours.

DECIDE TO ARREST HIM. O'Brien was watched carefully, and at night Detectives Nickle and Down

decided to make the arrest. The prisoner has been in the city for the past few days, and during his stay here has been at the Maudsley house, the police assert. The place has a stitution claimed that they had never police reputation, "Shorty Billy" Doyle and "Texas" Burdell, two desperate burglars, having made their headquarters at the home occupied by the family during their operations in this city a few years ago.

It will be remembered that burglaries were of almost nightly occurrence, the men finally becoming so bold that they stole the safe from Obernesser's saloon, and blew it open on the market square at the rear entrance. Shortly afterward Detectives Nickle and Egelton learned that two suspi cious characters were at Maudsley's place, which was then on Ridout street north. The officers entered the house and found Burdell making taffy on the kitchen stove, his pal, Doyle, being in the back yard. "Texas" instantly drew

for his companion during the tussle. THE DEATH OF "SHORTY BILLY."

"Shorty Billy" responded, and rushing to the kitchen window thrust two guns into the room, and commenced firing upon the police, one bullet knocking the hat from Egelton's head. Seeing that it was a matter of life or death with two such crooks, the detectives shot through Doyle's neck and breast and clubbed Burdell into submission.

Later Burdell made a sensational escape from his cell in the county jail, and despite the best efforts of a posse, which left in search of him, he got safely away. A year later, however, he robbed a nickel show in Port Huron, and was discovered through his nerve in presenting several hundred small coins at a bank a few days later. He was then returned to London, and is still serving a term in Kingston penitentiary for burglary and jailbreaking.

Fred Maudsley has also served time. O'Brien, it is said, only recently completed a seven-year term at the State

Prison at Jackson, Michigan. TWO SUSPECTS RELEASED.

John Massie and Peter McDonald, who were taken into custody yesterday by Sergt. Lucas on suspicion that they were implicated in the holdups Monday night were released this morning. Massie, who acted as spokesman, stated that they had no home, but that they were on their way to Toronto, where they had obtained employment. They were compelled to stop off in London because their funds ran out, he said, but they were in the yards of the Grand Trunk endeavoring to get a freight train last night when arrested. Their All Hands Lost in a Wreck Off Peter story was accepted and both were allowed to continue to Toronto.

AN EX-ATTENDANT MAKES CHARGES

Mr. Harry Lawder Claims Burnt Matches Littered Asylum Stairways.

PATIENTS WITH MATCHES

Superintendent Denies That Such Was the Case-Claims Critic Was a Unronic Compisiner.

Mr. Harry Lawder, of 258 Cheapside street, a former attenuant at the London Hospital for the Insane, has written a lengthy letter to The Advertiser in which he makes a number of criticisms of that institution in regard to the recent fire. The Advertiser has given Dr. Robinson, superintendent of he institution, an opportunity to reply to the charges, and Mr. Lawder's claims, and Dr. Robinson's replies are

erewith detailed. Mr. Lawder states that he would like o give the public his opinion about the fire. He says that he had been an attendant at that institution for nearly eight years, resigning his position as attendant and night watch last September. The latter position he held for fifteen months, and he says that he "knows what he is talking about."
Spoke of the Danger.

He declares that he has reported to Dr. Robinson and to the doctors in his charge, the dangers of a fire in the mein building. There are four stair-ways leading to the ballroom, he goes on, two from the outside and two from the inside, as one goes down to the kitchen. The doors on these stairways, he as-

serts, were never locked, and people were allowed to go up the stairs on a level with the ballrom floor. Those stairways were occupied nightly by people from the city going out to see friends, he charges. He avers that these stairways were strewn with burned matches and cigar stubs. He says that he reported this matter to Dr. Robinson and the doctors under him, and that he took one of the doctors and the matron upstairs to show them the number of burned matches and cigar stubs strewn around, and yet, ne claims, they did not take any steps put a stop to

Gas Left Burning. He writes that he has also reported o the staff about gas burning in the tairways at 2 o'clock in the morning, which had been left by some outsider, which had been left by some outsider, and, in spite of the warning, it is stated in the letter, it was allowed to go on. Mr. Lawder says he gave this warning to free himself of any responsibility in case of fire.

Patients With Matches.

The letter continues to say that the writer has reported the finding of patients with boxes of matches, smoking in their bedrooms at night. He claims that many of the patients were allowed matches-a thing which, strictly against the rules rives it as his opinion that it was wonder the building was not burned down long ago. "More by good than by good management," he re-

The letter was taken to the hospital by a reporter for The Advertiser, and read to Dr. Robinson, who named the author before he had heard more han the first tew paragraphs.

The doctor states that Mr. Lawder was always a first-class man at his employment, but that he was dissatslied with everything about him. He finally tendered his resignation, which was at once accepted.

The statement that one set of stairways is open at times is admitted by Dr. Robinson. He states that the doors leading into the ballroom at the top are always locked. The superintendent denied that there had ever been any trouble or report regarding the burning of matches on the stairway, and in an institution of such proportions it is possible that a gas-jet in the corridors may occasionally be overlooked

by the attendants. Say's None Carry Matches, The assertion that patients in the pulldings are permitted to carry matches is absurd, Dr. Robinson declares, and while some of permitted to go about the grounds during the day have been known to bring in stones in their pockets, and other articles, the officials at the in-

TO WORK ON THE FARM TERRIFIC BLIZZARD FARMERS ASK FOR SCOTS

Mayor McGillivray Receives Applications From One Hundred Employers Asking for Men Within One

"Why do Western Ontario farmers prefer Scotchmen to other emigrants from the British Isles?" This question is somewhat puzzling to Major McGillivray, of the Salvation Army immigraton department here. Fully fifty per cent of the appleants for farm laborers that the major has received the past week, have expressed a preference for Scotchmen. Occasionally a farmer asks for an Irishman, but the Scotch emigrant seems to be the favorite. It may be that the latter is more fitted to endure the varied routine of farm work.

Nearly a hundred applications have been received in less than a week since the announcement appeared in The Advertiser. The majority of the farmers ask for single men, although a few are willing to take married men and provide houses for them.

Major McGillivray has arranged to bring over 300 men, but at the present rate at which the applications are coming in, a considerably larger number of men will be in demand. There are still two weeks in which applications may be sent in to Major McGillivray before his departure for

LONDON CONDUCTOR

Found Guilty of Blocking Crossing for More Than Five Minutes.

[Special to The Advertiser.] Chatham, Jan 16 .- C. P. R. Conducor Robert Windrum was fined \$5 and costs, amounting to \$7.75, by Magistrate Stanworth today for blocking local crossings for more than five minutes. Conductor Windrum pleadd not guilty.

The charge was laid after City Solicitor O. L. Lewis, K. C., had reeived a letter from ex-Mayor R. L. Brackin with regard to the train blocking the Queen street crossing for fifteen minutes. The ex-mayor was one of the pedestrians who was forced to wait while the crew left the cars in the way. He immediately took steps to prosecute the matter, and took the names of other persons who were inconvenienced as a result of the delay. This morning these witnesses. five in number, gave evidence. They testified that the cars had stood on the crossing for various periods from

ten to fifteen minutes. In defence, Windrum said that he moved the train off the crossing as soon as he could. This operation had been delayed somewhat by the cars failing to couple on the first attempt, The city solicitor prosecuted 'he case and during the hearing expressed the opinion that the brakeman of the train who had spoken in such a dis respectful manner towards the mayor should be reported to the railway company by the conductor.

THE PACKERS PROFITS

Chicago Beef Barons Making Effort to Refute Government Charges.

Chicago, Jan. 16.-In an effort to refute the charges made by the Gov-ernmetn, the defence in the packers' trial today submitted figures from the books of Morris & Company showing that in 1907, 1908, 1909 and 1910, 1,156,622 cattle were killed at the company's Chicago plant, on which the total net profits realized by the sale of fresh meat and by-product was \$1,008,215, or 87 cents a head. The net profit on fresh met in this period was one-eighth of a cent

pound, according to the books of th company. This information was brought out in the cross-examination of Harry A. Timmins, chief accountant for Morris & Company, who was on the witness stand throughout the day. He explained in detail the accounting system in use by Morris & Company, and

ONE THIRD OFF CLINTON PLANNING TO INSTAL MUNICIPAL TELEPHONE SYSTEM

Hustling Northern Town Has Offer of Service Equal to That Being Received at Present Time for About Half What Is Now Being Charged.

[Staff Correspondence.] brief "breathing spell" before tacking the next progressive movement

on the municipal calendar-municipal ownership of telephones.

Rural Routes Start. For a long time the hustling northern town was well content with the regular Bell service, but when the rural lines began extending through the district, and grew and flourished, the townspeople began to grow restive. They couldn't understand why they should be forced to pay \$20 per year for the privilege of berating the but- thresher works. About \$150,000, it is cher and grocer at long range, when their rural neighbors indulged in long-

distance conversation for much less money. An Offer Received. This feeling gradually became stronger, and when a while ago a practical telephone man came along and offered to provide the town with about half the money, the people began to take a real live interest. As a result it is expected that action will be taken by the town council in the very near future.

Dr. C. W. Thompson, town council-

lor, and chief advocate of a publiclyowned service, outlined the situation to The Advertiser today No Fight With Bell. "We have no quarrel." he said with the service the Bell people are giving. It is purely a question of dol lars and cents. Why should we pay them a big profit when we can operate the lines ourselves at a big saving to subscribers? I say the money is just as good in our pockets as it is in Mr. J. W. Jones, auctioneer, has been theirs. Under the terms of the agree

A Progressive Town. Clinton is winning a name as a progressive town in other fields than telephonic. The town has recovered from its setback of a few years ago, when the large organ factory, which was the mainstay of the place, went to the wall, and is going ahead by leaps and bounds. Not only has the old industry been rejuvenated, but a new concern, the Clinton Motor Company, is now manufacturing automobiles in the building formerly occupied by a

Congress, expressed this opinion: the numerous locks, and other restrictions on the speed of vessels imposed by the nature of the channel. Along this route also there are few local needs to be served, and the bulk of the traffic would be transcontinental. The Welland-St. Lawrence plan, which would be far less costly and presents no such engineering problems as the other scheme, would serve a great and populous area in Ontario, in addition to improving the transportation facilities between Eastern and Western Canada. The ports on Lake Huron (excepting the Georgian Bay), Lake St. Clair, Lake Erie and Lake Ontario, and on the Rivers St. Clair and St. Lawrence, would not be benefitted by the Georgian Bay scheme, which would divert traffic from the Great Lakes route, but they waterway to the ocean, via the St. to concentration in industry is perefally advantageous to the great mafority of the municipalities of this

It is probable that goods would continue to be transhipped at Montreal and Quebec. Shipmen say it would not be economical to send ocean vessels on long river and lake journeys after crossing the Atlantic, and that a different type of vessel would be more serviceable for inland waterways. But even if the pleasing prospect of ocean argosies passing our doors may have to be relinquished, the substantial advantages would remain, and our Ontario harbors would be seaports in a commercial sense.

THE PRESIDENTIAL CAMPAIGN.

The campaign for the Presidential nominations in June is already gath ering noise and momentum. There has not been for many years so much uncertainty in either camp, or so keen a rivalry. As Democratic prospects are brighter than at any time since 1892, the candidacy is now a coveted prize. Mr. Bryan being out of the running by his own desire, the choice will fall probably upon one of five aspirants-Woodrow Wilson, governor of New Jersey, and late president of Princeton University; Senator John Williams, of Mississippi; Congressman Underwood, the party leader in the House of Representatives: Champ Clark, speaker of the House; Governor Harmon, of Ohio; and former Governor Folk, of Missouri. The memories of the Civil War, which so long militated against Northern Democratic candidates. might be revived to the prejudice of Underwood, Williams, or Clark, who are all Southerners, though a Southern President would be a supreme reconciler. The choice will likely go to Wilson, a scholar in politics, and a philosopher in action. Much will depend on the attitude of Bryan, who is still a great moral force. Wilson was an outspeken opponent of the man from Nebraska, who may not have forgiven him. Harmon, who is also in Bryan's bad books, is suspected of too friendly relations with the "interests." Folk proved a courageous reformer in Missouri, but is not widely known servatives. outside his own state. Of the South erners, Clark has lost prestige by his foolish references to Canada in connection with the reciprocity issue, but Underwood and Williams are men of high order. Underwood has come rapidly to the front through his able and tactful handling of the tariff question in the present Congress, Senator Williams is an experienced parliamentarian, and a man of culture

and personal charm. The situation in the Republican he appreciates a woman. party is even more perplexing President Taft's renomination is menaced in two quarters. Senator La Follette the leader of the Republican insurgents, is openly in the field against him. Mr. Roosevelt daily protests that

that he will run if he is nominated, and that his friends will try to stampede the convention if Taft is not overwhelmingly chosen on the first ballot, Senator La Follette has launchspeeches in Ohio, Illinois, and Michigan. He advocates a federal commission to ascertain (1) the real value of the property of every large corporation, (2) to prevent over-capitalization. and (3) to determine whether prices charged are yielding exorbitant profits. He favors a protective tariff "based upon the difference in the cost of preduction in the United States and competing countries." an indefinite phrase. He also urges the adoption of the initiative and referendum and of the recall, even of judges. Senator La Follette made a record as an aggressive reformer, while governor of Wisconsin, and in Washington has valiantly fought the corporation dragons, out his opposition to the Canadian re ciprocity treaty was less consistent with his professions than with a desire to catch the western farmer's vote. Undoubtedly he lost ground by his attitude on that question, and Mr. Taft correspondingly strengthened his own position. The President frankly says he will offer for a second term. He controls the party machine, and only political earthquake will dislodge

"A Government commission should have power to regulate prices from month to month, allowing capital a reasonable profit, thus effecting ar ideal condition between capital and labor, producer and consumer.' The ironmaster and the President of he United States are at opposite poles. Mr. Taft says Government regulation of trusts is state socialism, as it must inevitably lead to Government ownership. Mr. Roosevelt, with whom Mr. Carnegie agrees, favors state regalation, and ridicules Mr. Taft's conention that industry can be driven back into the old competitive conditions by the application of the Sherman anti-trust law. Whatever it may would feel the stimulus of a deep lead to, it looks as though the tendency Lawrence River, and it would be spe- manent and irresistible, and that like some great natural force it can only be controlled, not prevented. Why not join forces so that instead of three weak churches or one strong and two weak congregations, there may be one united church, where a minister well-paid, self-respecting may preach to a vigorous, self-respecting congregation.

A FRESH FIRE AT OSAKI, JAPAN

The Southern Sections of the City Again Swept by a Con-

flagration. [Canadian Press.]

Osaki, Japan, Jan. 17.-Fire broke out again last evening in the southern districts of the city, but the outbreak was of a much less serious nature than that which occurred in the morning. The flames were extinguished before midnight.

The damage occasioned by yesterday's conflagration, when nearly 6,000 buildings were destroyed, amounts to 30,000,000 yen (approximately \$15,000, 000.) Thirty thousand persons were rendered homeless, and are being provided with shelter in the public buildings of the city.

EAGER TO INSURE FRENCH DUELISTS

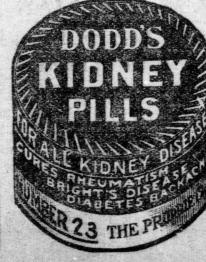

English Life Companies Put Them i the Class of Preferred Risks.

London, Jan. 16.-Insurance companies decline to accept any risks on the lives of aviators, jockeys and steeplechasers, and soldiers are required to pay heavy rates, but they smile at the risks of duelists, so long as these "deadly affairs of honor" are indertaken along French lines.

Insuranco experts work out the chances of a fatal end to a duel on the same terms as a football match, and the odds against a goalkeeper being fatally injured are reckoned at 200 to I. The subject has been discussed through a recent duel between an Englishman and a Frenchman, when the fight was stopped after the latter

got a pin-prick in the neck. "Lloyd's," said a broker, "would, I am sure, be glad to cover a duel at a nominal figure, say about a dollar and sure a man against being killed in a football match or any pastime where accidents are not completely guarded against. But this quotation would only be for duels on the French principle. We are not taking on any of those Italian or Spanish contests or the heavy sword German duels.

"Duelling compares in a gentle, maiden aunt sort of way to boxing, and I should make money at the following odds: Even money on a scratch, 5 to 1 against fainting, 50 to 1 against loss of arm, 75 to 1 against loss of leg and 200 to 1 against loss

HUSBAND'S FEAR

By Cynthia Grey.

The man who insists on keeping the family pocketbook in his own possession after he becomes a husband should do a good deal of figuring 'ere he finally concludes to marry. It's all very well in his days of courtship to take care of money, not to buy her expensive presents, nor to indulge her in carriage rides. She doesn't expect more. But she does expect that he will buy her everything she needs after marriage.

The man who thinks more of a heap of gold pieces locked up in his trunk than he does of a sweet and congenial wife to sit opposite him at the table should have taken out a license long since, for he is already wedded to a habit of stinginess. I am thankful to say that such men are the

exception, and not the rule. A real miser never marries unless goaded to it by the culmination of peculiar circumstances, probably. For instance, it may be that the old couple, with whom he has boarded a score of years, is obliged to charge him a dollar a week more owing to the higher cost of food. He wouldn't stand for that. He'd

marry first, and have a place of his own. Such a man is always looking for a bargain, even in a wife to keep house for him. One evening when he came in to dinner he was surprised to see a lady sitting opposite him. He recognized her name when they were introduced. He saw with dismay that her features were comely, that she was pretty, even though her hair was combed straight back. She wore black and -an excuse for a collar. When the bread was passed to her she was amazed at the thickness of the slices. "What! use butter upon it, at 40 cents a pound?" she exclaimed. "That is extravagance." As for tea or coffee, not for her! She always drank hot water, she added. She chose the smallest potato; a thin sliver of bacon sufficed her. She did not believe in sauces, Cake was a luxury only for millionaires, she declared. As the stingy bachelor listened he concluded that she was a rara avis among womenfolk. He saw her home, proposed marriage at her door. "Dear me!" exclaimed the widow, "you're the fourth man who wants to marry me! I am considering which one to take! You see, every man wants a prudent, practical wife." He urged an immediate marriage, to head off the others. They were wed within the hour. To his dismay he found that three previous husbands divorced her for extravagance. Misers are often caught in their own traps.

Government Agent Holds the Purse Strings for Eight Hundred Children.

London, Jan. 17.—No business de-partment of the state has grown so amazingly or done such useful service as that of the Public Trustee, which was only instituted four years ago, on

The Public Trustee is just what his title infers. He acts, on behalf of the state, as executor and as trustee under a will, or as trustee under a settlement, whether new or old, and in other capacities of a like nature. Nothing is too small or too big for him to look after. As his integrity is guaranteed by the state, as his success has proved his great skill and knowledge, and as he has no and knowledge, and as he has no commercial interests to serve, being solely concerned to do his best for the estates in his trust, it is not surprising that the public shows an inprising that the public shows an in-

Rapid Growth.

The rapid growth of the business the department may e suggested by the following figures. When the office was opened on Jan. 1908, the staff consisted of 5 men. Today there are 220, besides women. In his first year of office Mr. Stewart became trustee in 325 cases, last year the number rose to 1,053. The total funds with which he is at present dealing amount to \$109,000,000, and ne s in communication with 1,850 inending testators, whose estate represent well over \$220,000,000, so that the total value of business, present and partment is its humanity. the testator dies. Transfer of Trusts.

A great deal of the department's work is connected with the transfer of trusts. If a person appointed under a will or marriage settlement wishes to retire, he can hand the will manage it either entirely by himself, or in co-operation with another person who has been appointed and wishes to continue to act. It is becoming a common practice in marriage settlements to nominate the public trustee, either in conjunction with others or to act independ-

Its Humanity. The public trustee makes a special feature of investment. The large funds in his charge and his official

REVIVAL OF SNUFF HABIT IN ENGLAND

Automobilists, Unable to Smoke, Take Up the Use of Powdered Tobacco.

London, Jan. 16. - A great revival in the habit of snuff-taking has been noticed lately, and automobiling is said to be the cause. Unable to smoke in comfort on their runs, many automobilists have begun to use snuff, and now, so general has the practice become, that a Snuff Club, whose roll ncludes many automobilists, has just been opened in Leeds.

And it is not only Leeds automobilists who are reverting to a practice which was as common fifty years ago as cigarette smoking is today. London owners of automobiles are, from what the tobacconists say, already showing marked tendency towards habitual

TO GROW HAIR ON A BALD HEAD

Total28 Total34

Fulton,

Thousands of people suffer from baldness and falling hair who, having tried nearly every advertised hair tonic and hair-grower without results, have re-signed themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baidness, and is also unequalled for restoring gray hair to its original color, restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist: Bay Rum, 6 ounces; Lavona de Composee, 2 ounces; Menthol Crystals, one-half drachm. If you wish treestywed add half to one teaspanful of To-Kalon Perfume, which unites perfectly with the other ingredients. This preparation is highly recommended by physicians and specialists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics. Do not apply to the face or where hair is not desired.

Fire in the Knickerbocker Trust Company Throws Wall Street Into Small Panic.

New York, Jan. 17 .- A stubborn fire or he ground floor of the twenty-two-story office building, owned by the Knickerbocker Trust Company, at the corner of Broadway and Exchange Place, gave the financial district some moments of trepidation early today. The blaze was within a few hundred feet of the stock exchange, but was got under control before it could spread beyond the build-

ing where it started. The loss will not exceed \$100,000. The blaze started in the cutting-room of a tailoring and furnishing goods firm which has a roomy store at the rear corner of the building, just behind the vaults of the trust company. By the time the firemen arrived on the scene the flames had wormed their way beneath these vaults, and for a time the situation looked serious, particularly in view of the fact that practically all the firstclass apparatus from the lower part of the city had been sent for miles uptown to assist in fighting a fire alarm blaze in drygoods warehouses on the North

THE MISSION TRAINING WILL BE EXTENDED

the Maritime and British Columbia Provinces.

Toronto, Jan. 17.—A forward policy embracing the establishment of the missionary education movement in the Maritime Provinces through a summer conference at Sackville and institutes in Moncton and other places, was adopted at the annual meeting of the Canadian section of the Missionary Education Movement of America yesterday. The branch also hopes to promote the work by co-operation in he new conference contemplated in British Columbia, and by the appointment of co-operating committees and corresponding members. A comprehensive survey of the work

of the movement throughout the con-tinent was given by Mr. H. W. Hicks, general secretary of the Missionary Education Movement of the United States and Canada, before a representative gathering of local church eaders at McConkey's last night. The rganization promoted missionary education in 43 different denominations, e said, by means of the publication of all kinds of literature, maps and accessories for all grades, from the children in the primary department to the adult church member. The campaign was directed through the vari-ous home and foreign mission boards, Seven summer conferences were held in Canada and the United States, three of them in Canada, for the train-The above is a true copy of a by-law ing of missionary leaders, and these assed by the Municipal Council of the in turn organized mission study classes

When Colds Hang On

You Can Be Sure the Vitality of the System Is Running Low.

Fortify Yourself Against Pneumonia and Consumption by

Nerve Food

You catch cold easily. One cold is not gone till the next one comes. You are unable to shake yourself free, and as a result your system is gradually becoming weaker and weaker. This is the way to pneumonia or consumption. Colds only hang on

when the system is in a weakened or

run-down condition, and the blood lacks the richness which is required to fight off the disease germs. Dr. Chase's Syrup of Linseed and Turpentine will free you of the cold, but you must build up the system by using Dr. Chase's Nerve Food or you leave yourself open to renewed at-

tack. Colds do not bother the person whose blood is pure and rich, and nervous system is filled with energy and vigor. You can fortify yourself against colds and you can ward off such frightful diseases as pneumonia and consumption by using Dr. Chase's Nerve Food.

By a few weeks' use of this great food cure you can build up a reserve force which will enable you to fight off disease, and to better accomplish your work in life. Got A Pain In Your Back?

IF YOU HAVE HEED THE WARNING.

You get a pain in your back, and you wonder what is the matter. When the back aches or becomes weak it is a warning that the kidneys are affected in some way. Heed the warning; cure the weak,

lame, aching back and dispose of any chances of further trouble. If you don't do this, serious compli-

cations are very apt to arise, and the first thing you know you will be troubled with Dropsy, Diabetes or Bright's Disease; the three most deadly forms of kidney trouble. On the first sign of a pain in the back,

Doan's Kidney Pills should be taken They go right to the seat of the trouble, cure the backache and prevent any fur-

ther complications arising. Mr. Stewart Johnston, Richardson Mines, N.S., writes:-"For years I was troubled with my back, and I had to give up work. I tried Dr. after Dr., and was getting no better. I had almost given up hope when I began to try Doan's Kidney Pills. I took three boxes of them, and found I was completely cured. I feel I owe my life to Doan's Kidney Price 50 cents per box, or 8 boxes for

ple's Association held an inter-debata on the subject, "Resolved, that the press wields a greater influence for good than the pulpit."

The arguments were very evenly contested, the decision of the judges, Messrs. Shirley, Jacques and Stephenson, was in favor of the negative side, which also received the greater numter of points for style. The case for the press was contest-

ed by Messrs. A. A. Trumper, Parkinson and Hollingworth. The pulpit was ably defended by Misses M. Lipsett and A. Dunstan, and Mr. H. C. Light. The two ladies each gave excellent papers, and were complimented both for the subject matter and the style of their debating. After the debate refreshments were served by the young men of St. David's branch, and altogether a very pleasant evening was spent.

"For two summers I suffered with skin trouble on my arms, and on my less from my knees down. My arms legs from my knees down. My arms were badly disfigured, and I kept them covered. It came like the hives, and

was very itchy. I consulted a specialist, who gave me medicine, as well as an ointment, but seemed to do no good. It was beginning to appear on my face. 'I got a little Cuticura Ointment and some Cuticura Soap. The first touch of Ointment seemed to relieve, and before the Cuticura Ointment was finished I was cured. I have not the least sign of trouble. I think it would have spread over my whole body if Cuticura Soap and Ointment had not cured me. I am delighted with them, and do feel pleased to think I have something I have confidence in. I tell all my friends about them, and I think Cuticura Ointment is the best I ever saw." (Signed) M. J. Boddy, 73 McCaul St., Toronto, Dec. 22, 1910. and before the Cuticura Ointment was St., Toronto, Dec. 22, 1910.

Cold-Sore Began to Heal With First Use of Cuticura Ointment.

"Cuticura Ointment cured a very bad cold-sore that gave me hours of severe pain and loss of sleep. I tried lots of other remedies but nothing did me any good till I tried Cuticura Ointment, and from the very first application it began to heal and now there is not even a scar left."
