#### LIBERAL WHIP DEFEATED.

London, Jan. 21.—The results learned today parallel closely those of yesterday in giving a succession of Unionist gains, further augmenting the chances of the Unionists putting the Government in a position where it will be dependent absolutely upon the Irish Nationalist vote to carry legislation Joseph Albert Pease, the chief Liberal Whip, joined the prominent Government official who have been swept off their feet in the English counties, the Saffron Walden Division of Essex giving a majority of 272 for hie Unionist opponent, Col. D. J. Proby. Upon the announcement in the street of these figures this afternoon a waiting crowd became wild with excitement and tried to mob Pease, who had to be escorted home by a strong force of police.

#### SHANE LESLIE LOST.

London, Jan. 21.—Another notable Conservative victory was the gain of the Scottish seat for Perthshire by Marquis Tullibardine, who turned the previous Liberal advantage of 803 into a Unionist majority of 298.

In Londonderry city Shane Leslie lost to Marquis Hamilton, Unionist. by 57. Leslie is the son of Colonel Leslie, who is a staunch Conservative. Scotland, Lancashire and Yorkshire, ENRAGED UNIONISTS.

Exciting scenes followed the declaration of the poll at Buckingham, where the Liberal candidate, F. W. Verney, son of Lord Verney, won by a narrow majority. The enraged Unionists chased several Liberals, who took refuge in the near-by houses.

There was rioting at Belfast, where 54 persons were arrested for im personating. According to the English law, all persons whose names appear on the registers may vote. One woman and two 14-year-old boys who were

London, Jan. 21.—Yesterday's returns are incomplete at this writing, but tablishment. it is now possible to review Wednesday's results, in which the counties figured for the first time.

WEDNESDAY'S POLLING.

Of the 78 contested seats on Wednesday, excluding Ireland, the Unionists won 38, the Liberals 34, and the Laborites 6-a Ministerial majority of 2 The Unionists gained 18 and the Liberals 1, a net Unionist gain of 17 for the day.

Including all Wednesday's returns the Unionists had a net gain of 58 seats on the four days' polling. They would have to gain 168 seats outright to have a majority of one over the Liberals, Laborites and Nationalists combined. Only the fringe of Scotland and Wales has voted so far, and the most sanguine Unionists have given up hope of anything but a situation would place the Government in the power of the Nationalists. It is too early to prophecy upon this point.

There are few people who have never experienced a headache from one cause or Haines, W. H. May. another. It effects all ages and both sexes alike, but the female sex is naturally the more effected through the higher nervous development and more delicate organization of the system. Those also of a nervous temperament and studious or sedentary occupation are subject to it. The presence of headache nearly always tells us that there is another disease which, although we may not be aware of it, is still exerting its baneful influence, and perhaps awaiting an opportunity to assert itself plainly.

Burdock Blood Bitters has, for years been curing all kinds of headaches, and if you will only give it a trial we are sure it will do for you what it has done for thousands of others.

Taken Out Will Be the Cost-Deputation From Boat Club Waited on the Aldermen Last Night.

At a meeting of the board of works neld last evening it was recommended to accept the offer of Mr. B. V Baham to dredge the river for \$1,000 and gravel, provided there were no legal difficulties in the way. Mayor Beattie and Ald. Tancock will interview City Solicitor Meredith on the

Boating on the Thames.

Mr. Jared Vining appeared on behalf of the Boat Club, and addressed the committee. He spoke of the rapid growth of the club, and referred to the fact that there were 43 motor boats on the river now, with the probable addition of ten or twelve this year. There were other craft also to consider. There was a considerable investment in money in these boats, and they were entitled to some protection. He explained the many benefits that would accrue from opening up the river from the forks to the cove. It would insure a free passage in flood-time, and prevent dangers from flood. It would insure also that all refuse would be carried down the river to deep water, and not deposited, as has been the case in the past, in the shallow water in the city limits. It would give free natural ccess to the finest park in Canada-Springbank Park. The possibilities for making the city beautiful by the proper care of the river were boundless. If any city in the United States had such a river they would expend \$10,000 on it in making it beautiful and navigable. Price of Gravel.

# TOO MUCH OVERLOADING

One Cause of the Many Accidents to Lake Freight Craft.

Detroit, Jan. 20.-In the president's annual address at the opening of the annual convention of the Lake Carriers' Association here today, William Livingstone, of Detroit, declared that friction between the vessel owners and their employees had been greatly reduced since the adoption of the carriers' open shop policy. Nearly 9,800 employees had taken advantage of the association's "welfare plan," said President Livingstone.

Last season's business on the lakes was characterized as very satisfactory especially for owners of the smaller

asters, A. W. Wright said: "Many vessels on the lakes are going far beyond the safety limit ewing to their hatch construction. At the bottom of the trouble is the anxiety of the owner to get the maximum load, and the greatest number of trips, and the captain, who is trying to beat his competitors and make the best time. # Suffered Terrible Pains From His Kidneys.

Perhaps no other organs work harder than the kidneys to preserve the general health of the body, and most people are troubled with some kind of kidney complaint, but do not suspect it.

There is no way of getting the kidney poisons out of the system except through the kidneys, and no medicine so effective in taking them out as Doan's Kidney Pilla.

They help the kidneys to flush off the acrid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and urinary passages.

Doan's Kidney Pills are entirely vege-table, and may be safely taken by old and young.

Mr. Dougald A. Moleace, Broad Cove Banks, N.S., writes—"I was troubled with my kidneys for nine menths, and suffered with such terrible pains across the small of my back all the time that I sould hardly get around. # PLAN SCOTLAND CANAL TO COST \$100,000,000

Waterway From Forth to Clyde 65 Miles Long, Is Being Urged.

London, Jan. 20.-Under the spur of the report of the royal commission ad rocating the immediate state contro and upbuilding of England's inland waterways renewed agitation has developed in many quarters in support of the projected Forth of Clyde canal. This plan proposes neither more nor less than a 35-mile battleship canabetween the Firth of Forth via Stirling Loch Lomond and Loch Long and the Firth of Clyde. By its consum-mation the shipping interests of the country would obtain an inland water way across Scotland, 36 feet in depth and 65 miles in its total length that would reduce all existing routes by about 160 miles. Engineers have figured that the work could be completed in nine years at an aggregate expenditure approximating \$100,000,000.

Preject Not New One. The project of the construction of a deep waterway connecting the North Sea and the Atlantic Ocean is not a new one. Interest already has been aroused in many quarters, and there is now no doubt that the next parliament will be petitioned for government financial aid in behalf of the pro-ject. The support of the commissioners of navigation and of the harbor trustees of 74 of the most prominent centres of the northern areas of the United Kingdom has been promised. Owing to the facilities and practical economies which the new channel would offer to foreign shipping, Denmark, Holland and even Germany, through trade and official bodies, have asserted their intention of using it Such a new sea passage between Northern Europe and America, it is recognized, would avoid the fogs and tides of the English Channel. It would afford, so its proponents argue, safest and most expeditious route from the east coast and the part of Northern Europe to the west as to Ireland and the United States

Pleased With Suggestion.

"We are much pleased with the sug Admiral Sir Charles Campbell, hon-orary president of the organization that is agitating the project, "that the Government should be approached on the subject of how much money it will give to this waterway that would carry Dreadnoughts between the Forth and the Clyde. We certainly shall take steps to ascertain this point. "We could start throwing dirt to

morrow if only the financial end of the problem could be solved. The cost it is true, has been estimated at approximately \$100,000,000, but with recent inventions in excavating machinery a saving of quite 10 per cent might be effected on those figures. If the Government will guarantee 3 per cent interest on the capital required during the time of construction the whole of the money needed would be subscribed tomorrow. It only means diverting the interest on the Suez Canal shares for one year, and the thing would be done. But if, on the other hand, the Government would find half the capital. I think there would be no difficulty about the other The canal will be quite selfsupporting when once it is opened.

Board of Works Deposed Assistant Engineer George Wright, Lately Appointed.

## MAYOR'S ACCUSATION

Says Mr. Baker Wants the Job as a Preliminary to an Increase in Salary-Ald. Tancock denies the Charge.

There was a sharp passage-at-arms at the board of works last evening over the appointment of City Clerk Baker as secretary of the committee. Assistant City Engineer Wright has been acting in that capacity since the death of Mr. Robert Kirkpatrick, and last night Ald. Tancock suggested that City Clerk Baker be made secretary. "I have a right to make motions in this committee," said Ald. Tancock. "I move that City Clerk Baker be made secretary.'

"I certainly object to that," said Ald. Saunders. "We threshed that question out before, and I thought we had settled it. Apparently we have not. We made Mr. Wright secretary, because of his knowledge of the department. Why do we want to run to the city clerk for information when we have it in our own department?"

#### Mayor Makes Accusation.

"That request emanated from City Clerk Baker himself," declared Mayor Beattie.

"It is my own idea," answered Ald. Tancock. "Mr. Baker never mentioned it to me." "Well, it certainly came from him last year," retorted his worship. "I object to it. It is merely paving the way for an increase in salary." "That's right," commented Ald Saunders. "That is what the trouble was

last year." "There is no harm in allowing it to go to the council," said Ald. Tancock "There certainly is," continued Ald. Saunders. "We object." "Let the motion go," said Secretary Wright. "I don't care."

The motion as made by Ald. Tancock will be sent to the council. Another Brush. Another brush took place when Ald. Tancock read a communication from Secretary Baker, asking that all accounts from the committee be in the hands of the secretary of No. 1 com-

mittee before 1 o'clock on Friday, the day of meeting. "When was that passed?" asked his worship. "Nothing like that ever happened at the only meeting of the committee properly held. Business has to be done openly and fairly in the council, and I do not understand how that recommendation came to us." Ald. Saunders pointed out that the recommendation should go to the down to treasurer's department, not to the One.
