

SHARMAN'S GONE; HOW'S THAT PAIN?

The Healer Vanished Saturday Night in the Direction of Berlin.

Sharman, the "Healer," has taken his departure, and also a couple of dollars presented to him by patients who will be healed in the sweet by-and-by. His destination is not known exactly. He left on Saturday night, and he is supposed to have gone to Berlin. Quite a number of sick people came in today to see him, but must remain uncured until the healer can come to them. The promises to cure are not turning out according to schedule. Many of them are due today, but so far no results have come from his treatment.

PLAN TO REDUCE LIQUOR LICENSES

**The London Temperance League
Will Discuss Question of Cut-
ting Down Number.**

A most important meeting of the London Temperance League has been called for Thursday evening, next, in Somerset Hall. Notices have been sent out saying that the annual report of the secretary will be considered, and will other matters of importance. Besides these matters, it is now known that a reduction in the number of local liquor licences will be dis-

To The Advertiser today a prominent member of the temperance party stated that a scheme will be proposed, which, if successful, will mean the cutting down of the number of hotel licenses in this city to 25 or 26.

The city council will, under this scheme, be petitioned to give a bylaw two readings placing the number of licenses at 25 or 26, and then to submit this bylaw to the people in January next. If the people indorse it, the bylaw will then be given another and final reading by the council, and it will become law.

At present there are 32 hotel licenses in London, as well as five retail shops in one wholesale license. These shops are temperance stores, and many of the proprietors point out that many of the so-called hotels are not hotels at all, but boarding houses. They do not accommodate the public at all. As proof of this, the temperance man quoted produced a list of the names of the hotels for the month of September some of the proprietors, according to the names on the register, had accommodated only thirty guests.

And this despite the fact that the fall season was held in the month of September. It was understood that on Thursday night the names of the proprietors would be read out at the meeting, and an effort will be made to put through a resolution to have the license commission empowered to cut off the proprietors to cut off the hotels which have less than twenty bedrooms available for the accommodation of the public.

On Oct. 23, the convention of the Provincial W. C. T. U. will be held at Brockville. The delegates from London will be Mrs. D. A. McDermid, Mrs. H. Ashplant, Mrs. Gordon Wright and Mrs. May R. Thornley. It will last four days.

The provincial conference on local option and license reduction which has been called for next Thursday, Oct. 12, will meet in St. George's Hall, Elm street, Toronto, at 10 a.m.

Owing to the fact that the local convention is being held on the same date, no delegates from London will attend the Toronto convention.

Sarnia and Sunday Cars.
Sarnia, Ont., Oct. 9. — For several months Sarnia has been split up over the question whether street cars should be allowed to run on Sunday. The question will now be decided by Justice Meredith, presiding over the Lambton county sittings, in the suit begun by Sarnia township against the Sarnia Street Railway Company. The township seeks to prevent the street railway from operating cars on Sunday except to cemeteries.

New York, Oct. 9. — The cable brings news of the birth of a daughter to Mrs. Spender Clay, who was Miss Pauline Astor, only daughter of William Waldorf Astor, and who married Captain Spender Clay on Oct. 20, 1904. Little Miss Clay is one of the richest heiresses in the world, as her mother will inherit millions. In addition to the big fortune she already possesses her father is also extremely rich.

The Missions; Arch Collection

man and his wife, who several years ago accidentally dropped into the tabernacle one morning for the annual missionary service. Both became in-

derested, and although not church members have annually given large sums to the fund. Half a dozen subscriptions of \$5,000 were made, and a man's gold watch and a wedding ring were sent up by some unknown persons.

The earlier part of the afternoon meeting was taken up by addresses of missionaries. The Rev. Mr. Wickware, from the Congo, told of atrocities he had witnessed there. The soldiers, he said would go to the natives and demand a certain amount of rubber, the alternative being the cutting off of a certain number of hands. In many of the cases the natives were killed. He stances the missionaries. He said, of the hands being taken. He told of seeing an old woman forced to carry on her back a great basket full of human hands, from which a trail of blood was running. The hands were being carried to the Congo State authorities. He had photographs, he

THE WEATHER TODAY—Fine and warm.

Children's Hats

Our Millinery Exhibit would not be complete without a collection of Children's Headwear. And such a collection of pretty hats and darling bonnets—no mother could help but be delighted with it. SMALLMAN & INGRAM

149, 151, 153 and 155 Dundas Street.

NEW YORK'S BIG HOLE A ROYAL HEART-BREAKER

Making Ready the Site for the New Pennsylvania Depot. The Beautiful Fraulein Henning Enroute for America.

Paris, Oct. 9.—The "Agraah" puzzle island looking patch of Manhattan upland today is that long rectangle of devastation stretching from Seventh avenue to Ninth avenue, between Thirty-first and Thirty-third streets, where some day will rise two of the largest and most imposing buildings in New York, the station of the Pennsylvania Railroad and the new federal building.

Where only three or four years ago something like 400 houses, shops and other structures stood, and their 5,000 or 6,000 inmates lived and trafficked, today there is nothing but earth and rock and devastation—and a small army of laborers working day and night with drills, steam shovels and other machinery to excavate and level several lines of narrow gauge railroad, working incessantly to make a big hole in the ground bigger and deeper.

Meanwhile, about half of the 2,000,000 cubic yards of earth and rock to come out has been excavated. And of all that 1,000,000 cubic yards of rock and earth not a single carload has been hauled through the streets of New York. Here is how it has been disposed of.

A new wharf was built at the foot of West Thirty-second street. From this an elevated structure was put up through Thirty-second street to the middle of the block between Ninth and Tenth avenues. Thence the narrow gauge railway it carries was depressed and taken under Ninth avenue by tunnel, and into the excavation.

The dug material is loaded upon the flat cars of this railway. The cars are drawn by snorting little steam locomotives through the tunnel, over the elevated structure, to the wharf. There the cars are dumped into scows, which take their loads to Greenview Island in the harbor. The Pennsylvania Railroad now being built in the marshlands.

It's just a case of steady digging. They're taking out 125,000 cubic yards a month of dirt and rock mixed, and it is hoped to have the job finished by the beginning of next year.

A comparison may help to give the reader some idea of the meaning of 2,000,000 cubic yards.

Madison Square Garden occupies approximately 22,000 cubic yards. The excavated material from the Pennsylvania terminal site would fill the garden from basement to roof eight times; or eight buildings the size of Madison Square Garden could be stowed away in the street level, provided each was cut in two and spread out to fill the ground space, for Madison Square Garden is 50 feet high.

Very well, she said, "I am glad of it. For instead of my being disappointed upon Sir Edgar, you will be doing far better if you turn your attention to Norman Allingham, who is a good honest fellow, and who really is better off than Sir Edgar, who is but a poor man after all, with a mother and a whole family of brothers and sisters to support. Now, Norman, I would never make up to any woman unless he meant to ask her to be his wife."

"Mamma, I don't care in the least for Norman Allingham, and I am quite sure he does not care for me. If so, it is because you have neglected to tell me of his existence. I am determined that you should marry him."

Poor Lily looked as frightened as if her mother had had a license ready drawn up in her pocket, and she was prepared to marry her out of hand to Mr. Allingham, with or without his consent, within the next hour.

"If you will do as I tell you, and leave everything to me, I will manage the whole business for you, Lily."

[To be Continued.]

GUARANTEED CURE FOR PILES. Itching, Blind, Bleeding or Protruding Piles. Yonagut will refund money if Pazo Ointment fails to cure you in 14 days. 50c.

JAPS MAKE GOOD LIVING FROM SEA

They Cultivate Palatable Food Products on Mammoth Scale.

Washington, Oct. 9.—In the development of its fisheries Japan is to become a model for the United States.

This is the conclusion reached by a special agent of our government, sent over to investigate, namely Deputy United States Fish Commissioner Hugh M. Smith.

Our annual crop of marine vegetables is worth but \$40,000 a year, whereas in Japan these products are worth no less than \$2,000,000.

The gathering of kelp from the rocks, employs thousands of men, women and children, and the "kombu," as it is known when dried and prepared for the table, is produced in quantities of 2,000,000 pounds, valued at \$750,000. The identical algae from which it is made abounds on our Pacific and Atlantic coasts, but not a piece of it is now utilized.

The Japanese are the only people in the world to farm a bed of the sea. Half a million dollars worth of palatable food is produced this way.

Species of red algae, which is found in every part of the world, is artificially grown by the Japanese in the thousands of bays and inlets which abound in their country. Bundles of brushwood or bamboo are planted at low tide in the mud flats and in a couple of months they have gathered a crop of laver, great plumes of wavy red sea plants, to the amount of \$150 an acre.

In some years the yield has been as high as \$210 an acre. There are 2,300 acres under cultivation to laver, employing 3,500 families and yielding a crop annually valued at \$500,000.

Another line is the artificial culture of pearls. As is well known the pearl is a disease of the oyster, and results from getting some irritating foreign substance into his little insides.

It occurred to Professor Mitsukuri, of the Japanese fish commission, that it might be profitable to stimulate the troubles of the oysters by inserting artificial irritation within their shells. He ingeniously inserts small mother-of-pearl pellets between the shell and the body of the oyster, then returning the oyster to his bed, there to remain for a period of four years, to wrestle with his new trouble. At the end of that time a pearl of beautiful brilliancy is found in place of the original pellet.

The professor's pearl farm, in the bay of Ago, is now treating 800,000 oysters in this fashion every year, and already a very considerable output of pearls is being marketed in all the principal cities of the world.

Near Tokio is a terrapin farm on which are raised 50,000 terrapin a year for the market.

In Japan 3,000,000 people are engaged in the different branches of the fishing industry, as compared with 215,000 in the United States. Nearly one-sixteenth of the population make their living from the sea, as against one-fifth-hundredth in the United States.

The coast and inland waters of Japan give up each year a yield of annual and vegetable product valued at \$90,000,000, and amounting to 3,000,000 tons.

When You Grow Old.

The body needs patching—wasted tissues must be rebuilt, played-out organs restored—blood needs extra nourishment. Elderly people need Perrozene—because it vitalizes and rejuvenates as no other remedy can. Perrozene builds up the kind of strength that makes one feel good—keeps back the decay of old age and makes you look young and handsome again. Forget nervous exhaustion, renew your vital energy, again re-enter the life of youth. Your remedy is Perrozene, only 50c per box, at all dealers.

A Swedish inventor has patented a process for improving the flavor of raw coffee. Coffee is usually stored for several years before roasting, the standing causing slight chemical changes which improve the flavor. This maturing process may be shortened to a few hours by exposing the new coffee to the action of a powerful magnetic field.

 LONDON, MONDAY, OCT. 9.

Canada's Manufacturing Census

The industrial census of Canada for 1901, which has just been published, reveals the rapid progress of Canada as a manufacturing country. The corresponding census of 1891 was almost useless, as the enumerators included as factories thousands of establishments where one, two and three people were engaged in almost any kind of work. The present census commissioner, for the purposes of comparison, has recast the figures for 1891, rejecting all establishments employing less than five people. Upon this basis, the following comparison is made:

	1891.	1901.	Increase.
Establishments ..	14,965	14,550	550
Employees ..	72,032	744,655	72,000
Wages ..	\$ 79,274,711	\$112,490,550	\$34,050,000
Products ..	\$98,695,723	\$481,534,375	\$112,550,000

The total capital employed in manufacturing in 1901 was \$446,916,457, of which \$297,537,848 was working capital, and \$209,378,638 "fixed" capital, made up of lands, building and plant. Under the head of salaries, the industrial census shows that as salaried officers, managers and salesmen in connection with factories, 15,313 men earned an average of \$833 per year, and 2,151 women earned an average of \$517. The wage-earners number 300,026, comprising 238,655 earning a yearly average of \$334; 61,229 women earning an average of \$176, and 12,143 children earning an average of \$196. In addition there were 13,318 persons employed at home on piece work, earning an average of \$143. In Ontario the average annual wage of all workers was \$295; in Quebec, \$285; in British Columbia, \$418. Ontario manufactures 50.22 per cent of the total of the Dominion; Quebec, 32.9 per cent.

In the textile industry, despite the loud complaints of woolen and cotton manufacturers, the number of employees increased 17,465 between 1891 and 1901; wages, \$6,747,756; value of products \$12,980,597.

Lumber, timber, and their remanufactures are in the first place in the number of persons employed and wages paid. The number of employees increased from 65,938 in 1891 to 82,492 in 1901, an increase of 16,554. The wages paid in 1901 amounted to \$80,341,204, an increase of \$4,812,739; and the value of products rose from \$72,796,425 to \$80,341,204, an increase of \$7,544,779.

An enormous increase took place in the manufacture of foods, the number of employees being 10,891 greater than in 1891, and the value of products \$49,243,623 greater. No doubt the manufacture of breakfast foods is largely responsible for this.

In the production of metals and metal products, including pig iron, the number of employees increased 2,201, wages \$1,612,353, value of products \$6,309,351. The largest increase was in smelting works, namely, 215 in number of employees; \$480,573 in wages and \$4,066,114 in value of products.

The average wage per employee in all Canadian industries rose from \$291.27 to \$329.18; the average value of product per employee from \$1,355.34 to \$1,398.29. For every \$100 of product in 1891, labor was paid \$21.49, and in 1901, \$23.54. In the United States the labor cost is only \$20.96 per \$100 of product. Comparing the total cost of wages, materials and miscellaneous expenses with the value of products it is shown that the cost is \$84.97 in Canada and \$85.35 in the United States for every \$100 worth produced.

The city of London, though ninth in population among Canadian cities, ranks sixth as a manufacturing center. Montreal leads with a total value of products in 1901 of \$7,099,750; number of establishments, 932; capital employed, \$57,148,661; number of employees, 41,632; wages, \$1,810,356.

Toronto is second with \$58,415,498 for value of products; number of establishments, 847; capital employed, \$52,114,042; number of employees, 42,515; wages paid, \$1,505,466.

Hamilton is third, with value of products, \$17,122,346; number of establishments, 230; capital employed, \$12,494,953; number of employees, 10,196; wages paid, \$416,642.

Quebec is fourth. Value of products, \$12,759,546; number of establishments, 255; capital employed, \$9,588,739; number of employees, 9,841; wages paid, \$3,102,513.

Winnipeg is fifth. Value of products, \$6,616,218; number of establishments, 163; capital employed, \$4,673,214; number of employees, 3,155; wages paid, \$1,000,000.

London comes sixth. Value of products, \$5,122,185; number of establishments, 120; capital employed, \$6,824,574; number of employees, 5,575; wages paid, \$2,249,186. It will be seen that London is ahead of Winnipeg in the number of establishments, the capital employed, the number of employees and the wages paid.

Ottawa stands seventh. Value of products, \$7,638,688; number of establishments, 208; capital employed, \$19,358,711; number of employees, 6,886; wages paid, \$2,414,822.

The other cities stand as follows in the order of the value of their industrial products in the census year, Halifax, St. John, Bradford, Vancouver, Guelph and Victoria.

The local football team should bear in mind that it is considered unlucky to win the first game.

The Canadian starch companies are forming a combine. Doubtless one result will be the stiffening of prices.

If Russia and Great Britain can arrange an understanding in Asia the area of possible disturbance in the

world will be much reduced, and will be limited to Eastern Europe, where the dissolution of the Austrian Empire will reveal the latent designs of Germany.

The fact that the C. P. R. is going to spend \$7,500,000 in rolling stock doesn't look as though the management was frightened by the Grand Trunk Pacific. The C. P. R. has already one active competitor, the Canadian Northern, and there is no fear that three railway systems will be a crowd.

The ordinary expenditure of the Dominion increased last year by nearly \$8,000,000, the capital expenditure by over \$15,000,000, and the debt by \$5,247,113. The revenue showed an increase of less than a million. This showing is not so satisfactory as in previous years of the present boom, but there is no doubt that the increased expenditures will be reproductive.

Mr. J. S. Larke, the Canadian trade commissioner to Australia, was one of the best platform speakers in the country when he was in Canadian politics. He should be able to make his subject very attractive, and it is to be hoped he will be greeted by large audiences tonight at the board of trade rooms, and tomorrow night at the Collegiate Institute.

Quebec and British Columbia may be within their provincial rights in taxing commercial travelers, but they are committing national wrongs which the federal authorities ought to redress if they have the power. Broad-minded Canadians would have been better satisfied if the Federal Government had dissolved the provincial legislation, and thrown upon the provinces the onus of an appeal to the Privy Council.

A Cleveland, Ohio, paper, speaks of some things which are being "as thick as Canada soldiers" under electric light poles on a summer evening in Cleveland. What are "Canada soldiers"?—Hamilton Herald.

In the border cities across the line the bugs that swarm around the electric lights are called "Canada soldiers," probably for the same reason that the common thistles over there are called "Canadian thistles." What this reason is we don't know. It is one of those little international amenities for which our neighbors are noted.

The United States Government is behaving in a neighborly spirit with regard to the poaching on Lake Erie. It has commissioned a revenue vessel to police the lake, and has instructed United States customs collectors to confiscate fishing tugs which have made a catch in Canadian waters. The authorities at Washington are to be commended for talking decisive steps before the poaching fraternity embroiled the two countries in an ugly dispute.

The Cause of It.
 [Chicago Record-Herald.]
 "Ah," she sighed, "sometimes I can hardly convince myself that I am not growing old."
 "Well," her dearest friend replied, "that's what comes of having mirrors scattered all around the house."

Not Lovable
 [Cleveland Plaindealer.]
 "To do your work well you must love it."
 "Nobody ever accused me of not doing my work well, and yet I do not love it."
 "What is your work?"
 "I have the contract for disposing of the city garbage."

Tall Corn Out in Kansas.
 [New York Tribune.]
 Kansas is proud of its corn crop. Here is a little fable from a Kansas City paper: "I never would have believed that Kansas was so heavily timbered," said an Easterner who was riding through the State on a Santa Fe train the other day. "I guess you all here train the corn, don't you?" "No," said the porter as he glanced out of the window. "That's the corn, an' you all's got about a hundred miles of it to go through."

Elephant Played No More.
 [Answers.]
 A circus was once going round to some of our towns, and among the performers was an elephant that could play the piano. When the time came for this to be done a piano was brought into the ring, and the elephant just sat down on the piano stool and struck one note. Immediately afterward he gave a loud groan, whereupon the manager came up, and addressing the audience, said:
 "Ladies and gentlemen, the elephant has just discovered the tooth of his mother in one of the keys, and is over-come with grief, so I will immediately telegraph for another piano. In the meantime we will proceed with the other part of the performance."

Dangerous Stuff.
 "Did you get a taste of that Russian vodka that Jim Murchison brought home from Manchuria?"
 "No. Pretty powerful, isn't it?"
 "I should say it was! You know John Miley?"
 "Yes."
 "Well, he drank only half a wine-glass of it and then went home and ordered his mother-in-law to leave the house."

The Jocular Driver.
 [New York Press.]
 The mermaid sat in the green, tattered night of an ocean cave, combing her yellow hair with a gold comb.

Slowly, through the shimmering water a strange creature descended—a being encased in rubber and lead and wearing a great round helmet with a glass front.

"Why," she asked, "do you wear so strange a dress?"
 With a chuckle the man replied:
 "For divers reasons."

A Word to the Knockers.
 [Birmingham News.]
 Always say a good word for your town. If you do not let the stranger know that you think well of it, how can you expect him to easily form a favorable opinion?

Under the Padding.

[Philadelphia Ledger.]
 Nell-Miss Fit-Menny says that 75 per cent of the fashionable women are not as shapely as they sometimes appear.

Belle—How does she get that information down so fine?

Nell-Miss—The dressmaker, she gets at the inside figure.

Personally Disinterested.
 [Chicago Tribune.]
 Mayme—You told me Jack was odious and tiresome, and you had given him his walking papers, yet you seem to be trying to make up with him.

Maybelle—Not at all. I'm merely going to show that skinny old maid of a Mag Billwink that she can't get him.

Her Style of Dancing.
 [Yonkers Statesman.]
 She—You're not dancing with your wife tonight?

He—No; it's bad enough to have her walk all over me when I'm at home!

A Long Time Learning.
 [Washington Star.]
 "By de time you're old enough," said Uncle Eben, "to tell de difference between a broken heart 'n' disappointed vanity, you's old enough to realize dat it doesn't make much difference, nohow."

Change.
 [Washington Star.]
 I do not have to travel, for the thermometer range is sure in time to bring me the desired climatic change.

The pace is swift enough to the most unworldly soul, and the body of at least one day we're at the tropics, and the next we're at the pole.

DECISIONS IN NEW ASSESSMENT ACT OF INTEREST TO LONDON

Several Handed Down in Toronto—The Hamilton Papers Are Jubilant.

Hamilton papers are jubilant now that it has been definitely decided that the London Machine Tool Company will leave this city and go to the United States. The Hamilton papers are jubilant now that it has been definitely decided that the London Machine Tool Company will leave this city and go to the United States. The Hamilton papers are jubilant now that it has been definitely decided that the London Machine Tool Company will leave this city and go to the United States.

The Toronto Telegram says: "The Ontario Municipal Association appointed a committee consisting of assessors to discuss the new assessment act, discover its defects and recommend necessary amendments. It does not require a body of experts to find the defects in the assessment act. They are open and palpable to all. The act was a work of the assessors, and it is questionable whether it was a right policy to place its amendment in the hands of assessors, especially in view of the fact that some of the members of the committee will be in the position of judging their own work. It is more than over, can look at assessment matters from but one point of view, and they are more likely to favor a measure by which they can fill the pockets of the municipality. Some members representative of the people should have been placed on the committee. However, the aldermen have still an opportunity to express themselves on the matter in council, and can, if they so desire, petition the council to have the act either amended or abolished."

While it would not be at all right to even insinuate that the assessors are unfair in their valuations, it is a well-known fact that amongst assessors it is considered little short of a disgrace to assess a district and have the books show a falling off in the amount of assessment. The rule appears to be that the good assessor allows no falling off. Consequently, if a large block of assessment is wiped out by a fire, it only too frequently happens that the assessor looks over the books and endeavors to find where he can tack on a new hundred here and there, so as to make up for what he has lost by the fire. This system is wrong. The aim of the assessors should not be to provide at all costs money for the aldermen to spend. It is a better rule to remember that if the city fathers are pinched for money they are more apt to be careful of their expenditures.

Several decisions in the new assessment act which are of much interest

PARENTAL SCHOOL RAIDED
 On the "Bay Aveners" S a b a l l and Cow and I luck a Hen.

Chicago, Oct. 9. — Bent on tasting of the sweetness of revenge the self-styled "Band of Boy Avengers," under cover of dusk, crept through the fields surrounding the Parental School Tuesday evening, stormed the chicken coop, pigsty and cowstable, stuck a pitchfork through one of Supt. MacQuarry's favorite pigs, lanced his best cow with a jackknife, pulled all the feathers out of the biggest hen on the farm, and stole a large quantity of prize tomatoes and cantaloupes. Two of the members of the "band" were captured, and will be given the "square" treatment until they make a complete confession, naming the other members of the band.

As a result of the raid the cow is in a precarious condition, the pig's life has been spared, and the chicken coop will be made today. All of the late strater has advised Supt. MacQuarry that the hen cannot survive the cool autumnal weather in its destitute condition.

The shades of night were falling as "Dan" Kovech, hailed as leader of the band of revenge seekers, crept to the summit of a knoll north of the cowstable. Two wary sentinels, John McQuarry and Supt. MacQuarry, were on the grass until they were in the shadow of the stable. There they held a council and divided their ranks into three scouting parties. The leader of the band ordered one detachment of the hen coop, another to the cowstable and a third to the pig sty.

"When you strike, strike hard," was his last command.

It was obeyed by the members of the "Band of Boy Avengers" who proceeded to the cowstable and discovered the discovery of the boys. Ashamed at finding herself destitute of clothing, the

A Rebellious Ostr.

[New York Post.]
 There is a difference of opinion in the Ostr family. One of the name had the effrontery to die yesterday at the age of 106.

In Chicago.
 [Boston Post.]
 "Why, I can't get over the change in your wife from a year ago! She doesn't look like the same woman."

"She isn't."

Difference Between "re" and "e."
 [Chicago Daily News.]
 "But, tell me," said the pretty girl, thoughtfully, "why is it you always send your poems to the editor by mail, instead of taking them down in person?"

"Well, I'll tell you," responded she, struggling to keep her face as red as a strawberry. "I am likely to get a rejection."

"Then you should submit them in person."

"No, then I would likely get an ejection."

Explained.
 [Chicago News.]
 "My goodness," said the feather-duster. "Your stick is covered with coal dust and ashes. What have you been doing?"

"I've been playing poker," continued the broom.

Fallen Price.
 [Washington Star.]
 "You say you took the conceit out of Priggin's?"

"Persuaded him to have his picture taken by a seaside photographer."

to Londoners, inasmuch as appeals on the same grounds have not entered in London, were handed down in Toronto on Saturday.

One of the largest appeals was that of S. H. Knox, who said his store should not be assessed as a department store for \$40,000, but as a commercial store for \$20,000. It was argued that they did not have full lines of the goods they sold. "Parts of at least five different businesses are conducted," said Judge Winchester, as he dismissed the appeal.

T. Eaton Company's stables were assessed at \$44,000. The company objected to this being assessed at 50 per cent of their value as the rest of their store. Judge Winchester said the delivery portion was part of the department store, and refused to order the assessment to be reduced.

Messrs. Mackenzie, Mann and Nuttall claimed that they were not deriving any income from the stock of the Manufacturers' Life, which went toward the payment of the interest on the assessment. The total amount of the assessment was \$6,200. The appeal was dismissed.

The bottling business of John Labatt & Co. was regarded as part of the brewery business. The appeal against the decision was refused.

The MacLaughlin Carriage Company, Oshawa, has written to make a protest against the assessment being charged a business tax of 60 per cent as a manufacturing concern. "The company thinks that it should get off with a retailer's tax of 25 per cent. The decision of the Toronto judge is against the company. There are several other concerns, such as piano makers, who are similarly situated. It is only when the dealer actually owns the stock himself that he can get off as a retailer."

The following dispatch from Toronto re the sweeping of pavements may be of interest to citizens in general who are tired of the dust which is blown about by the city department, whose aim it should be to overcome if possible the dust nuisance.

"Dr. Sheard Saturday night tried a system of dry sweeping the asphalt pavements. He thinks will to a great extent solve the dust problem downtown during the windy fall season."

"He tried it last night on Yonge street, south of Davenport road, Bay street, Queen street and King street. The result was sweeping with three brooms, and the dust was blown and fine. The fine soft broom was used and is intended to remove the fine dust."

"The chief objection to dry sweeping is the dust it creates. The sweeper doesn't like it. That is being with a broom, the dust is blown up, and it is attached to a canvas with a tube at the bottom, to keep it down to the pavement. This device is said, confides, that the morning bear evidence to the effectiveness of the system."

hen started on a run across the field toward the residence of Supt. MacQuarry. The superintendent, roused by the squeals that came from the pig, had rushed out of his house to ascertain the cause of the uproar. He found the pig pen he encountered the hen. The hen saw the members of the band creeping through the tall grass in the direction of the Boomerang Cemetery.

MacQuarry gave the alarm and Business Manager Thompson, Horticulturist Beckenstrater, Family Instructor Anderson, Thornton and Katz, three firemen and one cook and an assistant cook, and one dayman, and one janitor, and three farm laborers, and two score of the "good boys" at the school took up the chase. It led through the cemetery.

Behind one of the tombstones Walter Ahfeldt, his pig dressed in prize prize tomatoes, was discovered hiding. Behind another Dan Kovech was found with two huge cantaloupes in his arms.

The other members of the gang escaped. Truant officers scoured the northern section of the city for them. Several clues were found. It is expected that the number of arrests will be made today. All of the late strater has advised Supt. MacQuarry that the hen cannot survive the cool autumnal weather in its destitute condition.

Photo on Cushions; Girl Sues.
 Cleveland, O., Oct. 9. — Miss Rosa Peterka today brought suit against J. J. Donemack, a manufacturer of sofa pillows, for using her picture as a cover for his wares.

"I don't want anybody to sit upon my face," she declared tonight. "The photograph from which the pillow cover was reproduced must have been stolen from my home. The cushions are being sold all over the city."

Donemack says he never heard of Miss Peterka. Judge Kennedy this afternoon issued an order restraining Donemack from selling any more "Rosa Peterka" pillows.

A Friend in Need—

THAT thin, little, 10-cent Box of Cascarets.

When carried constantly in your Vest Pocket, or in "my Lady's" Purse it will ward off ninety per cent of Life's ordinary ills. Eat one of the six candy tablets contained in that "Vest Pocket Box" whenever you suspect you need one.

It can't hurt you, and is sure Insurance against serious sickness.

Want of Exercise, Indoor Employment, weaken the Bowel Muscles, just as they weaken Arm and Leg Muscles. The Muscles lose tone, tension, strength, to force the food onward.

And the longer they stay in that state the weaker they become, because the less exercise they get through the slow passage of food.

Cascarets contain the only combination of drugs that acts on the Muscles of the Bowels and Intestines, just as Cold Water, or Exercise, act on a Lazy man. They act like Exercise.

When you have Heartburn, Colic, Coated Tongue, Suspected Breath, Acid-rising in throat, Gas-belching, or an incipient Cold, take a Cascaret.

Remember, all these are not merely Discomforts, but indications of a serious Cause.

Nip them in the bud—eat a Candy Cascaret. Cascarets don't purge, nor punish the stomach like "Bile-driving" "Physics."

They act like Exercise on the Bowel Muscles that propel Food, and that squeeze the natural Digestive Juices of the body into Food.

Cascarets ward off, or cure, the following diseases:

Constipation Bad Breath
 Biliousness Diabetes

We have had nothing but praise for the quality of our Milk Chocolate, and very little but blame for pot filling orders more promptly.

COWAN'S

Milk Chocolates, Croquettes, Wafers, Cakes, Medallions, Etc.,

Please everybody who can get them. By the 1st of October we guarantee to fill all orders promptly.

THE COWAN CO., LIMITED, - TORONTO.

STARVING IN LONDON

Men and Women Who Are in Need— Liberal Offer.

There are scores of people in London and vicinity who are starving in the midst of plenty. This is not because they are in need of food, but because they cannot digest the food they eat. To help these unfortunate our leading druggists have recently received a large supply of Mi-o-na, the most recent discovery for the cure of stomach troubles.

Mi-o-na is a natural combination of remedies for the stomach and digestive organs that heretofore have been little known in this country. It is a powerful stimulant to the mucous membrane of the stomach, stimulating the solar plexus, and strengthens the nervous system. One little tablet out of a 50-cent box of Mi-o-na before meals, and what you eat will do you good. You like. You will have no more headaches, backaches, heartburn, or indigestion. Mi-o-na will give you perfect health and strength.

If you cannot obtain Mi-o-na of your druggist, it will be sent by mail, postpaid, on receipt of price. Write for advice on your case from a leading stomach specialist which will be sent free. The R. T. Booth Company, Ithaca, N. Y.

According to a vicar of Birmingham church, about two pounds of rice is thrown at the bride and groom every week at each of the 76 churches in Birmingham and its suburbs, and the 8,000 pounds of rice thus thrown away and absolutely wasted last year might have been of very great use in feeding the recently famine-stricken places of India. There are over 20,000 people of Indian birth in England, and if this estimate is true for the other churches, then it follows that nearly 900 tons of rice are thrown away at weddings and wasted at a cost of over \$20,000.

HARD AND SOFT CORNS cannot withstand Holloway's Corn Cure; it is effective every time. Get a bottle at once and be happy.

A novel way has been discovered in Denmark for raising money for a hospital. The Danish government issue a special stamp, worth half a cent, which the public was requested to buy and paste on letters and parcels. Within a short time more than \$20,000 worth of these charity stamps were sold.

CARTER'S LITTLE LIVER PILLS.

CURE SICK HEAD

Headache, yet Carter's Little Liver Pills are equally valuable in constipation, curing and promoting the action of the bowels, while they also cure all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cure.

Be they would be most precious to those who suffer from this distressing complaint; but fortunately their goodness need not here, and those who suffer from it will find them most welcome. They are so easy to take, and they will not be willing to do without them. But after all head

ache is the base of so many lives that here is where we should exert our greatest power. Our pills cure it while others do not.

Carter's Little Liver Pills are very small, and very easy to take. One or two pills make a dose. They are strictly vegetable and do not grip or purge. They are so gentle in action that they can be taken in the most delicate cases. They are sold in small boxes, or sent by mail.

CARTER MEDICINE CO., New York.

Small Box. Small Dose. Small Price.

GRAND TRUNK RAILWAY SYSTEM

Important Change of Time, Sunday, October 1st.

All through trains to the west will run via Brantford. 12:30 a.m. New York Express daily, instead of 12:30 a.m. 3:25 a.m. express, instead of 3:25 a.m. 2:35 p.m. express, instead of 2:35 p.m. 4:35 p.m. express, instead of 4:35 p.m. 6:55 p.m. express, instead of 6:55 p.m.

MAIN LINE WEST. 4:45 a.m. Chicago Express, instead of 4 a.m. 8:30 a.m. daily, except Sunday, instead of 7:40 a.m. 11:10 a.m. Chicago Express, instead of 10:55 a.m. 11:32 a.m. Chicago Express, daily, instead of 11:30 a.m. 7 p.m. Sania train, daily, except Sunday, instead of 1:55 p.m. 8:30 p.m. Pacific Express, daily, instead of 7:57 p.m.

WINDSOR DIVISION. 11:25 a.m. daily, instead of 11:17 a.m. For full particulars call on E. DE LA HOOKE, P. and T. A., corner Richmond and Dundas streets, or E. RUSSELL, depot ticket agent.

INTERCOLONIAL RAILWAY

Big

SNAP-SHOTS AT VARIOUS SPORTS.

Sir Charles and his merry band of Pilgrims have a glorious time. Snap me! They have quite surprised, believe me, to see some parts of the states really civilized. Deah me! They were beaten in Chicago, but have managed to win every game across the line. Sir Charles and 'er Ladyship will try and put up with New York this week, bless 'er heart.

A pugilist named Costigan is sulking another pug named Kelly for \$5,000, because he was knocked out in a bout, and has been partially paralyzed ever since. If it keeps up they will have an injunction served every time a knockout blow is delivered.

That game at Ottawa must have been very rough on the "callow indifference" of Hal Walters and Boucher was overcome long enough for them to admit in court that they did smash a few opponents to bits. First thing they know, the Ottawa papers will admit the fact. When that happens get out your harps, for the millennium will get busy in a short while.

It looks as if Dan Patch will never stop. His mile Saturday in 1:55 1/2 is going some. He's king bee for sure this year.

The matinee finals begin next Friday. With fair weather, some great racing ought to result.

Congalton, formerly of Guelph, looks like a fixture with Cleveland, according to the critics. He won a game for the Blues the other day by his brilliant work in the field, and with the ash.

The American League race is over, and the Athletics are undeniably the pennant-winning team. It was one of the keenest struggles ever seen in baseball, and was a fitting second to last year's terrific struggle between New York and Boston. The White Sox made a great challenge in the stretch, but could not get up. Detroit made a great sprint and managed to win Boston out for third position. It must be a great satisfaction to Armour, who was let out by Cleveland, to take a team like the Detroit Tigers at the beginning of the season, and beat out Cleveland for a place in the first division. The Tigers look very good for next season, as Armour has landed some fine young players.

The "bangtails" made us a fond adieu on Saturday, as the Windsor meet closed the racing season in Ontario. There has been plenty of it this year, but the unfortunate part of it was that those tireless workers, the bookies, had to part with so much of their hard-earned money. It seems so very inconsiderate of the talent to take it.

Terry McGovern is to fight Murphy, the boy who beat George Dixon to a jelly not long since. Terrific Terry will get his again, as there is no doubt that he is a sure-enough has-t-ten.

Quite a sensible idea, that of cooping the jockeys up at the Belmont track, so that they may not be approached by the plungers who like to know "what's doing" on a horse before they send their shekels along. It seems that the track association showed neglect, however, when they failed to install pulley exercises in the jockey's inclosure. How do they expect the strong arm division to keep in condition?

Constant Reader—Yes, the Hamilton Tigers played here on Saturday, but we are not talking much about it. As for the score, ask the statistics editor.

Rosenb cinched his right as the greatest sprinter of the turf by running six furlongs in 1:11 3/5, a record for the distance. He had to shoulder a regular steepchase weight—147 pounds, too. That makes his record the more remarkable.

Wentworth, by Superior, 2:04 1/2, the fastest trotting horse ever bred in Canada, got a bad deal at Lexington the other day in the 2:30 trot. He broke badly in the first eighth of a mile and trailed the field home. The flag was still standing when he finished, but the judges declared him distanced, stating that the electric button failed to work. Wentworth was the favorite, and howls followed the decision from all parts of the course.

Judging from the scores of the football games on Saturday, the higher learning is doing good work this year. All the big colleges have strong teams.

John L. Sullivan has climbed into the aqua bus for the millionth time, and to a saloon gathering he delivered a lecture the other day, winding up with the following charming bit of poetry. It is reported that John L. did not take a drink for ten seconds. The "poetry":

"When the battle of life is at its height,
And the thoughts of tomorrow are black as night,
And a friend you found with your fortune passed
Like a frightened bird on a wintry blast,
You will read of the dregs of your cup of woe,
And woman is with you wherever you go.

"If this world were mine, with its untold wealth,
And I had a home to live through
Like a Tennysonian brook did flow
Surcharged through my veins,
I'd give all to know you as you are,
And that the heart of a woman throbbeth for me
And that I were worthy her love to be.
"There is no time, no place, no power,
No land serene, no roscate bower,
No heaven, no secret place of bliss,
No baby's cheek, no baby's kiss,
That's grander, sweeter, purer than
A woman's love for thoughtless man.

"Then take your feet and raise your glass
And drink to woman as a class,
And know the worst that's gone astray
Is better than he that paved the way."

COVERPOINT.

STEPPED LIVELY AT LEXINGTON

Three Fastest Heats Ever Paced in a Race—One Done in 2:02 Flat.

Lexington, Ky., Oct. 7.—The three fastest heats ever paced marked the 2:04 event and the average time for the total heats of the day was the fastest on record. In the initial heat of the 2:04 pace, Hazel Patch gave the Lexington track the 1905 race record of 2:02 1/2. The next heat was won by Locanda in 2:02 flat. He likewise claimed the third heat in 2:04 1/2. Nathan Strauss was the favorite throughout the evening though fabled sold at from 60 to 50 to 1, took third money. Scott Hudson was in the sulky for the first time this season behind Nervolo.

Every favorite was beaten today. Wilson stake, 2:30 pacing, purse \$2,000: Bolivar, b. g., by Whalen, dam by Harry Wilkes (Derbyder), 1:11; Bonnie Wilkes, ch. m. (Howard), 2:22; Ed Patch, b. h. (McMahon), 2:24; Cashwood, ch. g. (Chandler), 4:43. Time—2:07 1/2, 2:06 1/2, 2:04 1/2. 2:30 trotting, purse \$1,200: Kid Shay, b. g., by Nitrogen, dam by Chief of Echo (Rosemire), 1:11; Angiola, b. m. (Ames), 5:2; Muzetta, b. k. g. (Dickerson), 2:2; Redia, br. h. (Grubb), 2:2; Time—2:08 1/2, 2:07 1/2. Direct View, Chase, 2:14 class, pacing, purse \$1,000: Gratt, b. k. h., by Grattan, dam by Prompter (Spencer), 1:11; Harold Grattan, b. k. g. (McMahon), 3:34; William C. b. k. g. (Freeman), 7:43. Time—2:05 1/2, 2:07, 2:09 1/2. Martha Young, Roland Reed, Diamond G., High Seven also started. 2:34 class, pacing, purse \$1,500: Locanda, br. h., by Allerton, dam by Katrina (Murphy), 6:11; Hazel Patch, b. h. g. (Patch), 1:2; Nathan Strauss, b. g. (Thomas), 2:21; Nervolo, b. h. (Hudson), 1:53; Time—2:05 1/2, 2:07, 2:09 1/2. Major C. Pan Michael and Baron Grattan also started.

HUNTSMEN HAVE A COUNTRY RUN

And Are Pleasantly Entertained by One of Their Best London Tp. Friends.

On Saturday afternoon a number of the members of the London Hunt enjoyed a splendid run across country, winding up the afternoon's sport with a luncheon at the farm of Mr. Breen, in London Township. Among those who enjoyed the run were the master, Hon. Adam Beck, G. Gibbons, jun., Miss Gibbons, Dr. Hogg, Mr. Green, Mr. Gerrard, Mr. J. A. Hunt, Mr. Palmer Smith, Mr. J. Leonard, Magee Mills and others.

The day was ideal for the sport. The sun shone brightly, the footing was fine, and the horses followed the hounds in a way which set the blood of the riders tingling. The chase commenced at Westley Barracks, thence across the McWaite farm to Anderson's; through Smith's and McLaren's farms to Bercus's, and then to Mr. Breen's. At the latter place the hunting party were more than agreeably surprised. All were invited to luncheon, and they were taken into the home of Mr. Breen, where he and his charming daughters entertained them in a royal manner. The spread was a very tempting one, and a "home-made one" at that, and to say that Mr. Breen's guests were delighted is to put it mildly. Indeed, they were simply charmed with the hospitality of their host, and many were the compliments paid to the Misses Breen for the dainty luncheon provided by them. Mr. Breen has entertained the members of the hunt on previous occasions, and they have not forgotten the splendid hospitality of a year ago, when he celebrated his golden wedding and included the members of the hunt among his guests. At the conclusion of the luncheon the run was resumed, the party riding westward through the river flats to Adelaide street and the blind fourth.

The Londons Were on the Field--That's About All That Can Be Said of Them

Hopelessly Beaten by Hamilton Tigers in the Opening Game—Score 49 to 3.

That the Hamilton Tigers are in a class by themselves as far as the O. R. F. U. is concerned was demonstrated beyond a shadow of doubt at Tecumseh Park on Saturday afternoon, when they defeated the Londons by the score of 49 to 3. Londons' only points were scored by a beautiful drop kick from the middle of the field by Clark. A very large crowd witnessed the game. Hamilton sent down a special train with about 200 loyal recruits. They got their money's worth.

Those Tigers are a great team. While at times their work was a trifle raw, on the whole they played a swell game and did not appear to be going through their clip at any stage. They played with the confidence born of success, and their team work was well-nigh perfect. Their back division was simply invulnerable. The halves played with a dash that was irresistible. They caught with sureness from every possible position, and in every instance handled the ball fast and clearly. That boy in the white gown, he scintillated from the whistle blow until the last man was carried off the field. With a great pair of hands, he took every yard and foot of ground, and whenever he got hold of the ball, he was good for a gain of from 10 to 50 yards. Time after time he squirmed and corked, and converted the whole London team for great gains. Stinson was fast, and for a light man he was out of work. Our old friend "Patti" Dumoulin played well. He was said to be out of condition, and that must have been right, for he was not the Dumoulin of old. He muffed considerably, but the London team were unable to take much advantage of his misplays. At that he was a very valuable man, and he would be a very welcome guest in this town. Type did all that was required of him in finished style.

To George Ballard, their great quarter and captain, belongs a great deal of the glory. He handled the team in a masterly fashion. With very little noise or display, he started some very intricate plays, and they went through with very few exceptions. His passing was swift and accurate. That crisp, cross play was a thing of beauty and a joy forever. You could not quite say that he had the London boys all in a heap. They had much trouble in settling it. During one play it seemed as if every man in the London team was a pass, as the ball traveled across and down the field from one man to the other until they got it across the line. It was a brilliant play of work. The Tiger line was fast, and it had the weight as well. It would be hard to go through it and pick out any individual, as every man seemed to be just where he was wanted, and did just as he should do. They made very little headway in bucking, save when they worked in a pack with Dumoulin doing the heavy part. They got away with that several times. The wings followed up fast, and were at last over the ball.

The Tigers won because of their superior back line, no better back division playing the game in Canada today. Their team play was almost perfect. They knew the game from A to Z, and they always had a bunch of tricks up their sleeves. They out-weighted the London team considerably. As for London, the bright particular star was Bobby Hague. The youngster played a great game. He kicked well, and bucked the ball when he had time he got a chance. He handled the ball cleanly, and kept his head all the time. With time he will have no superior.

GOOD DAN PATCH REDUCES RECORD

Paces a Mile in 1:55 1/2—Offer of \$180,000 Refused for the Horse.

Lexington, Ky., Oct. 7.—Dan Patch king of pacers, today claimed three-quarters of a second from his own, the world's light-harness record, 1:56, negotiating the mile in 1:55 1/2.

The great son of Joe Patchen and Zelika appeared for his trial at 1 o'clock. The track was lightning fast. There was no wind and the weather conditions were ideal. Scott Hudson was behind the pacemaker. A strip of cloth between the wheels of the forward sulky, to prevent dirt being thrown behind, was the only suggestion of a windshield. The horses were behind Dan Patch. The books offered 4 to 1 either way.

There were cheers when 129 1/2 was hung out for the first quarter. Dan Patch's nose was almost against Hudson's coat and the crowd began yelling yelling to Hudson to move up. Hope was diminished when 57 1/2 was posted for the half. Excitement became intense when the three-quarters was passed in 1:26 1/2 and the spectators began shouting encouragement to the drivers. Into the stretch the great pacer striding, keeping his even, seemingly effortless runner at his sulky wheel, began to crawl up Hudson gave a little more rein, but Hersey sat like a statue, not urging his charge with word or deed. Dan Patch made no last supreme effort. He just went on and on, mile as he had begun it. He scarcely broke into a sweat when he bucked to receive the plaudits of the 10,000 persons present. E. Sturges, representing a New York syndicate, offered Mr. W. W. Savan \$180,000 for Dan Patch, champion pacing stallion of the world, and his formerly owned Dan Patch and he sold him to his present owner for \$80,000. Mr. Savage refused the offer and said all the money in the world would not induce him to part with the great pacer. It is believed that Mr. Sturges and his backers desire to secure Dan Patch, not only for stud and show purposes, but to call James Gatscomb's bluff and match him against Star Point's world's pacing record of 1:53 1/2 without a windshield. This is doubtless the biggest price ever offered for a horse, save Flying Fox in England. James R. Keene, owner of Sysonby, was offered \$100,000 for the great son of Melton before the rich Futurity last year, which he lost, and again after his death he was the Metropolitan handicap at Belmont Park in the spring.

per playing the game. Clark at times did some brilliant work, his kicking being especially good. He ran well, too. That line played well individually. Cy Edy, Carmichael, Vining and Girvan did good work, and McMahon at quarter was also conspicuous. The London's great back was team play. When they got the ball they seldom knew just what to do with it next. At the beginning of the game they were always on the ball, and they braced up considerably during the last half, and at times pressed the Tigers hard. Their fumbles were all costly, as 49 to 3. Londons' only points were scored by a beautiful drop kick from the middle of the field by Clark. A very large crowd witnessed the game. Hamilton sent down a special train with about 200 loyal recruits. They got their money's worth.

Those Tigers are a great team. While at times their work was a trifle raw, on the whole they played a swell game and did not appear to be going through their clip at any stage. They played with the confidence born of success, and their team work was well-nigh perfect. Their back division was simply invulnerable. The halves played with a dash that was irresistible. They caught with sureness from every possible position, and in every instance handled the ball fast and clearly. That boy in the white gown, he scintillated from the whistle blow until the last man was carried off the field. With a great pair of hands, he took every yard and foot of ground, and whenever he got hold of the ball, he was good for a gain of from 10 to 50 yards. Time after time he squirmed and corked, and converted the whole London team for great gains. Stinson was fast, and for a light man he was out of work. Our old friend "Patti" Dumoulin played well. He was said to be out of condition, and that must have been right, for he was not the Dumoulin of old. He muffed considerably, but the London team were unable to take much advantage of his misplays. At that he was a very valuable man, and he would be a very welcome guest in this town. Type did all that was required of him in finished style.

To George Ballard, their great quarter and captain, belongs a great deal of the glory. He handled the team in a masterly fashion. With very little noise or display, he started some very intricate plays, and they went through with very few exceptions. His passing was swift and accurate. That crisp, cross play was a thing of beauty and a joy forever. You could not quite say that he had the London boys all in a heap. They had much trouble in settling it. During one play it seemed as if every man in the London team was a pass, as the ball traveled across and down the field from one man to the other until they got it across the line. It was a brilliant play of work. The Tiger line was fast, and it had the weight as well. It would be hard to go through it and pick out any individual, as every man seemed to be just where he was wanted, and did just as he should do. They made very little headway in bucking, save when they worked in a pack with Dumoulin doing the heavy part. They got away with that several times. The wings followed up fast, and were at last over the ball.

The Tigers won because of their superior back line, no better back division playing the game in Canada today. Their team play was almost perfect. They knew the game from A to Z, and they always had a bunch of tricks up their sleeves. They out-weighted the London team considerably. As for London, the bright particular star was Bobby Hague. The youngster played a great game. He kicked well, and bucked the ball when he had time he got a chance. He handled the ball cleanly, and kept his head all the time. With time he will have no superior.

On the kick-off, Type returned to the second half, where he was tackled before he could get rid of the ball. Hamilton got the pigskin, and Stinson took Ballard's pass, and ran for over 25 yards. He was tackled by Hamilton, but he got it over on the third down, Dumoulin doing the necessary. London showed the best form from this stage until the end of the half, and did some good work. Bickford was hurt at this point, and his leg hurt and went off the field. Kipparick going on. When play was resumed, London got the ball on Dumoulin's kick. They lost the ball when they did not make their yards, and Du kled to Clark, who muffed, but Hues. London bucked for 20 yards, but lost the ball on a fumble. Ballard and Moore became trouble-makers immediately after the kick-off. They got away with a try, Moore got this one. Score, Tigers 49, Londons 3. A few moments after Hague and Hues were forced to rouse to save further trouble. Half-time score, Tigers 49, Londons 3. McMahon was ruled off this half for tripping. He was the only man penalized during the game. The London team, however, put up a good game in the second half. They kept the ball on the field, and they had a great part of the time. London looked as if some scoring had to be done, but Type pulled off a home run. He bucked for 25 yards, and all of his chances to do it. Hamilton

BAD FOR JOCKEYS WAS CLOSING DAY

Walsh and Dosch Fall From Mounts at Windsor and Are Badly Hurt.

Windsor, Oct. 7.—Accidents in a race on the flat and in the steeplechase marred a splendid getaway day's racing at Windsor.

Jockey A. Walsh, who rode Christine A. in the third race, fell when his mount swerved shortly after start and suffered a broken leg. In the steeplechase, Dosch fell from Trent the Mer on the second turn of the field and was badly hurt, sustaining a concussion and other injuries which rendered him unconscious for some time. Gaylor toppled off Lord Radnor the first time round and broke his collarbone. Trent the Mer was very heavily played.

Ossineke, running a race much improved over her effort of Friday, led from start to finish in the fifth race and was never extended, capturing a get-away purse for her Buffalo owner, Ed Whalen. The majority of the owners racing here will ship to London tonight, where a 30-day meeting opens on Monday. Weather clear; track fast. Summary: First race, 7 furlongs, purse \$300—Annie Chapman, 89, Moreland, 3 to 2 and 1 to 2; Tara, 89, Mahon, 20 to 1 and 8 to 1; second, Virgie Withers, 84, Preston, 4 to 1 third, Time, 1:28 1/2. Second race, 6 furlongs, purse \$300—Darling, 103, Dealy, 4 to 5 and 5 to 1; Contromite, 100, A. Walsh, 5 to 2 and 5 to 2; second, Edmond, 88, McKinnay, 12 to 1, third, Time, 1:14 1/2. Third race, 1 mile, purse \$500, handicap, all ages—Hans Wagner, 104, W. Deane, 5 to 1 and 2 to 1; first, 96, Schoen, 1 to 1 and 4 to 1; second, Old Mate, 89, Imes, 10 to 1, third, Time, 1:41. Fourth race, 1 mile, purse \$300—Little Giant, 102, B. Miller, 5 to 1 and 2 to 1; first, Prestige, 95, Pendergast, 12 to 1 and 5 to 2; second, Small Talk, 91, McPreston, 10 to 1, third, Time, 1:15. Fifth race, 5 furlongs, purse \$300—Ossineke, 104 1/2, Shea, 5 to 1 and 3 to 2; first, Oleasa, 102, Swain, 3 to 5 and 5 to 1; second, Rubicon, 88, Preston, 5 to 1, third, Time, 1:01 2/5. Sixth race, 1 1/4 miles, purse \$300—Scalper 99, Frog, 1 to 1 and even, first; Berry Waddell, 104, Christian, 10 to 1, second, 98, 10 to 1, third, Time, 2:08 1/2. Seventh race, short course, handicap steeplechase, purse \$500—Zeriba, 128, Songer, 7 to 2 and 6 to 5; first, Sweet Jane, 144, Brazil, 9 to 5 and 7 to 10; second, Gipsaw, 127 1/2, Miller, 12 to 1, third, Time, 3:24.

forced London back, and Dumoulin kicked high and followed up his own punt and got the ball. Lyon got the ball, however, and slid over the line for a try. Moore kicked this one over. Score, Tigers 49, Londons 3. The Londons did good work during the next few minutes. The Tigers were always on the ball, and they braced up considerably during the last half, and at times pressed the Tigers hard. Their fumbles were all costly, as 49 to 3. Londons' only points were scored by a beautiful drop kick from the middle of the field by Clark. A very large crowd witnessed the game. Hamilton sent down a special train with about 200 loyal recruits. They got their money's worth.

Those Tigers are a great team. While at times their work was a trifle raw, on the whole they played a swell game and did not appear to be going through their clip at any stage. They played with the confidence born of success, and their team work was well-nigh perfect. Their back division was simply invulnerable. The halves played with a dash that was irresistible. At that he was a very valuable man, and he would be a very welcome guest in this town. Type did all that was required of him in finished style.

To George Ballard, their great quarter and captain, belongs a great deal of the glory. He handled the team in a masterly fashion. With very little noise or display, he started some very intricate plays, and they went through with very few exceptions. His passing was swift and accurate. That crisp, cross play was a thing of beauty and a joy forever. You could not quite say that he had the London boys all in a heap. They had much trouble in settling it. During one play it seemed as if every man in the London team was a pass, as the ball traveled across and down the field from one man to the other until they got it across the line. It was a brilliant play of work. The Tiger line was fast, and it had the weight as well. It would be hard to go through it and pick out any individual, as every man seemed to be just where he was wanted, and did just as he should do. They made very little headway in bucking, save when they worked in a pack with Dumoulin doing the heavy part. They got away with that several times. The wings followed up fast, and were at last over the ball.

The Tigers won because of their superior back line, no better back division playing the game in Canada today. Their team play was almost perfect. They knew the game from A to Z, and they always had a bunch of tricks up their sleeves. They out-weighted the London team considerably. As for London, the bright particular star was Bobby Hague. The youngster played a great game. He kicked well, and bucked the ball when he had time he got a chance. He handled the ball cleanly, and kept his head all the time. With time he will have no superior.

On the kick-off, Type returned to the second half, where he was tackled before he could get rid of the ball. Hamilton got the pigskin, and Stinson took Ballard's pass, and ran for over 25 yards. He was tackled by Hamilton, but he got it over on the third down, Dumoulin doing the necessary. London showed the best form from this stage until the end of the half, and did some good work. Bickford was hurt at this point, and his leg hurt and went off the field. Kipparick going on. When play was resumed, London got the ball on Dumoulin's kick. They lost the ball when they did not make their yards, and Du kled to Clark, who muffed, but Hues. London bucked for 20 yards, but lost the ball on a fumble. Ballard and Moore became trouble-makers immediately after the kick-off. They got away with a try, Moore got this one. Score, Tigers 49, Londons 3. A few moments after Hague and Hues were forced to rouse to save further trouble. Half-time score, Tigers 49, Londons 3. McMahon was ruled off this half for tripping. He was the only man penalized during the game. The London team, however, put up a good game in the second half. They kept the ball on the field, and they had a great part of the time. London looked as if some scoring had to be done, but Type pulled off a home run. He bucked for 25 yards, and all of his chances to do it. Hamilton

CURLING GROUPS ARE ARRANGED

Executive of Western Ontario Assn. Draws Up Districts for Trophy Matches.

Toronto, Oct. 9.—The executive committee of the Ontario Curling Association has arranged the grouping of clubs in the Ontario tankard competition and the district cup competition. The groups are:

TANKARD COMPETITION. Group No. 1—Brampton, Oshawa, Toronto Caledonian, Toronto Parkdals, Richmond Hill, Toronto Granites, Toronto Quins, Toronto Prospect Park, Toronto Lakeview, Toronto Kingston, Aberdeens (East Toronto). Play at Toronto, Umpire, Dr. Russell. Group No. 2—Hamilton Victorias, Paris, Milton, Hamilton Thistles, Glanford, Niagara Falls, Hamilton Asylum, Simcoe, Brantford, Dundas. Play at Hamilton, Umpire, David Carlyle. Group No. 3—St. Thomas, Ayl, Ingersoll, Woodstock, Embro, Galt Granites, London, Galt, London Thistles, Play at St. Thomas, Umpire, T. O. Nelson. Group No. 4—Newmarket, Gravenhurst, Orillia, Beaverton, Collingwood, Barrie, Midland, Meaford, Eglarville, Penatung, Churchill, Parry Sound, Play at Orillia, Umpire, Rev. R. N. Burns. Group No. 5—Port Hope, Colborne, Peterboro, Lindsay, Cobourg, Bobaygon, Exeter, Fenelon Falls, Play at Peterboro, Umpire, J. W. Gorcoran. Group No. 6—Glencoe, Detroit, Chatham, Grand Rapids, Sarnia, Windsor, Exeter, Thamesville, Toledo, Play at Chatham, Umpire, W. K. Cameron. Group No. 7—Berlin, Preston, St. Marys, Exeter, Guelph Royal City, Guelph Union, Bright, Seaford, Stratford, Play at Stratford, Umpire, H. Thomson. Group No. 8—Fergus, Palmerston, Southampton, Owen Sound, Lucknow, Walkerton, Harriston, Wingham, and Elora. Play at Harriston, Umpire, A. Conger. DISTRICT CUP COMPETITION. District No. 1—Toronto, Caledonian, Queen City, Richmond Hill, Parkdale, Brampton, Prospect Park, Granites, Maple, Woodstock, Exeter, Seaford, Stratford, Scarborough, Lakeview, (Toronto). Play at Toronto, Umpire, John Bain. District No. 2—Oshawa, Peterboro, Keene, Colborne, Lindsay, Fenelon Falls, Bobaygon, Port Hope, Lakeview, Play at Peterboro, Umpire, J. P. Rogers. District No. 3—Orillia, Barrie, Elmvale, Newmarket, Alliston, Collingwood, Churchill, Beaverton, Play at

Orillia, Umpire, H. A. Nicholls. District No. 4—Owen Sound, Palmerston, Mount Forest, Georgetown, Guelph Royal City, Guelph Union, Seaford, Harriston, Preston, Southampton, Stratford, Fergus, Wingham, Play at Guelph, Umpire, W. Hogg. District No. 5—Plattsburgh, Simcoe, Waterville, Galt Granites, Berlin, Dundas, Brantford, Hamilton Asylum, Galt, Hamilton Victorias, Hamilton Thistles, Paris, Play at Paris, Umpire, James Steele. District No. 6—London Thistles, Sarnia, Parkhill, Forest, Theedford, Grand Rapids, Petrolia, Detroit, Ingersoll, Toledo, Windsor, St. Thomas, Chatham, St. Marys, Play at London, Umpire, T. H. Brunton.

WARM WELCOME GIVEN CHAMPION ATHLETICS

Philadelphia, Pa., Oct. 7.—An immense throng greeted the champion Philadelphia (American League) Baseball Club on its return here tonight. The station was packed with baseball enthusiasts. As soon as the players appeared on the platform, they were greeted with cheers. Most of the team in order to escape the crowd, sought the street by way of the baggage-room, but Bender and Waddell attempted to pass through the throng. They were surrounded and the services of several policemen were required to get them safely to the street cars.

Drubbing of the Londons Was Worst of the Day

No Other Team in Ontario or Quebec Union Received as Bad a Beating.

Well, the Ontario Rugby Football Union's championship series was started in "dead earnest" on Saturday. Four teams were on the gridiron in the senior series, and six in the intermediate series, and six in the junior series. Four teams in the Quebec Rugby Union senior series also played. So far as the scores of the games concerned, it can be said, if the scores are any indication, that with the exception of two cases the losers were no match for their opponents. London and the Victoria were literally swamped by the scoring of the Tigers and the Toronto-Argos respectively, but the dose administered to London was by far the worst of the two. The drubbing of the Londons, in fact, was much more severe than that received by any other team on Saturday. The Ontario or Quebec Union. The scores were:

Ontario Union—Senior. Toronto Argos.....22 Victoria.....3 Hamilton.....49 London.....3 Intermediate. Toronto Argos.....12 St. Michaels.....3 Hamilton.....22 Guelph O. A. C.....11 Junior. Victoria III.....10 Toronto Argos III.....8 Trinity.....12 McMaster III.....10 Victoria III.....10 National.....10

Quebec Union—Senior. Rough Riders.....21 St. Patricks.....6 Pictou.....12 Westmount.....10 VICS LOSE TO TORONTO ARGOS. Toronto, Oct. 7.—Although the Victoria showed much improved form over that of last Saturday, they were defeated by a score of 22-3 by the Toronto-Argos. The game was played in the second game of the senior series of the O. R. F. U. At the end of the first half the score stood 3-2 in the Argos' favor, but the ball was well in Argonaut territory the most of the time. Better condition and cooler weather had its effect, and the play throughout was much superior to that of a week ago. Referee Hendry was called upon to penalize Mack of the Vics for talking back, Sale and Thorpe for fighting, Salvaty and Russell were put off for striking Murray and Murray rested with them for hitting back. Dr. Hendry was referee. TIGER INTERMEDIATES TRIM O. A. C. Hamilton, Oct. 7.—The Tiger Intermediates trimmed the Guelph O. A. C. by a score of 22 to 11 Saturday afternoon. The Guelph team is as heavy as any senior team in the O. R. F. U., but three members of it—Bracken, Lawson, Seavitz—know the game. The score at half-time was 11 to 6 in favor of the locals. Dr. Woods, Toronto, was referee, and J. B. McArthur the umpire.

COLLEGE BOYS LOST

Toronto, Oct. 7.—In an intercollegiate O. R. F. U. game here today the Toronto-Argonauts had a very close fight with the St. Michael's College, winning by 6 to 5. The Toronto-Argos did not play superior football to the college boys in any position. WERE NEARLY BLANKED. Toronto, Oct. 7.—The Junior Victorias defeated the Nationals 10-1 today. Owning to the rain, the St. Peter's from the O. R. F. U. Junior series, the Nationals replaced them, otherwise the Junior Victorias would have drawn a bye. A CLOSE SCORE. Toronto, Oct. 7.—The Junior O. R. F. U. match between Toronto-Argonauts III, and Varsity III, was won by the latter by a score of 10 to 8. The game, although somewhat rough, was a fine exhibition of rugby, the play being very even until the end of the first half. THIRTY SECONDS WIN. Toronto, Oct. 7.—The Trinity's administered a decided defeat to McMaster II, today. The scoring was all done in the first half, when the Trinity secured 3 tries, 2 of which were converted by Baylie from difficult kicks, and 2 rouges. McMaster secured their only score of 1 point, getting a try which was unconverted. SCORED FOUR TO OPPONENT'S ONE. Ottawa, Oct. 7.—The Rough Riders beat St. Patricks in the Quebec Union game here today by 24 points to 6. The score at half-time was 12 to 6. QUEBEC UNION GAME. Montreal, Oct. 7.—Montreal beat Westmount in the Quebec Union series by 12 to 6. A COWARDLY ACT. New York, Oct. 7.—It seemed for a while that the Columbia-Wesleyan football game at American League Park this afternoon resulted in a tie, neither side scoring, would end in a free fight when Bailey, Wesleyan's fullback, jumped on Armstrong, of Columbia, as the latter lay prostrate on the field at the end of a long run. For fully five minutes the Columbia players fought to get at Bailey, and the presence of a large police force alone quieted them. Armstrong was removed from the game. SATURDAY ON AMERICAN GRIDIRON. IROON. Michigan 36, Case 0. Lehigh 11, N. Y. University 0. Harvard 22, Maine 0. Princeton 34, Georgetown 0. Yale 10, Syracuse 0. Cornell 24, Bucknell 6. New York University 2, Lehigh 6. West Point 18, Colgate 6. Chicago 42, Iowa 0. Wisconsin 34, Lawrence 0. Minnesota 45, North Dakota 0. PLAYER DIES FROM INJURIES. Chester, Pa., Oct. 8.—John S. Summerville, aged 21 years, a member of the Franklin football team, of this place, died at the hospital here today from injuries received during a game yesterday. PILGRIMS WIN THREE STRAIGHT. Philadelphia, Oct. 7.—The English Association football team won its third straight victory today by defeating an all-Philadelphia eleven 5 goals to 0. WILL BE PROSECUTED. Ottawa, Oct. 8.—The police will take action against Leffer, the member of the Rough Riders football club, who deliberately kicked Franklin of the St. Patrick's team, in Saturday's game. Flannery played with Hamilton last year. Tom Marquis, who refereed the game, will report Leffer to the union.

WALLOPING WILL KILL SENIOR GAME

Saturday's severe defeat by the Tigers will in all probability prove the death knell of senior Rugby football in this city. To have been beaten by a moderate score would not have hurt the feelings of the team, but to be walloped to the tune of 49-3, makes the majority of the team wonder how the idea originated that London had players fast enough to play senior. There is not a London senior who did not fully appreciate the fact that the Tigers were a strong combination. That they would be able to take the hides of the visitors, never crossed the minds of the Londons, but to get trimmed 49 to 3! Today, several of the seniors have football uniforms which they will sell for a song. They are out of the game for good, they say. Others are eligible for the junior team, and if they will be a source of strength they may be put on the line. There are not a few, however, who believe that the junior team, as it stands at present, can give the seniors a beating. Hague will most assuredly be given a place on the junior team.

HOWARD INGRAM.

CHECKERS. EXPERT McLAURIN DEAD. Windsor, Oct. 7.—Robert McLaurin is dead, after a long illness. Deceased was 34 years old, and was well known throughout Ontario as an expert checker player. At a tournament in Windsor nine years ago he defeated James Dykes, of Wardville, who was many years the champion of Canada and United States. Until he became ill McLaurin defeated all-comers. BOWLING. BERLIN BOWLERS BEATEN. Galt, Oct. 7.—Berlin sent four rinks of bowlers down this afternoon and a good game was played on Imperial lawn, resulting in favor of the home team by a score of 84 to 69.</
