TUESDAY, JULY 2, 1850:

The Old Hunker.

Mr. Baldwin has richly earned the appellation of an "old Hunker" and an old Humbug. For years he crept upwards on the road to popularity as a sincere and faithful friend of the people; his soft and oily manner, his assumed philanthropy, his affected disregard of money, and his undoubted wealth, all contributed to invest him with qualities which elevated him by degrees to the prominent position of leader of the Upper Canada Liberals. He had it in his power to confer substantial blessings upon the country, had he but remained true to his former professions of faith. He has thought proper to repudiate those maxims of constitutional liberty by advocating which, in earlier days, he acquired a reputation and attained political power. The sudden conversion of such a man circumstanced, reveals additional evidence o the demoralizing influence of our form of government. It enables every renegade to quarter himself upon the public purse, and it may now be accepted as a truism, that whenever a Cabinet Minister struts upon the stage in the masquerade of a Colonial "Burke," and rants about independence of electoral control, he has previously selected as his sanetuary some fat appointment, and that the farce will soon be played out by his quartering himself on the Civil List, ostensibly for the sake of the public interests. We feel neither surprise nor regret at the near transmutation of Baldwin from a patriot to a place-hunter; in truth, we sincerely wish the whole batch of Ministers, with one or two worthy exceptions, would gratify their secret aspirations in the same way. Some of them must feel the mantle of independence pretty well worn out by this time-it fits awkwardly and galls them. Hincks looks for a Collectorship, Lafontaine to the Bench, Baldwin to a Chief Justiceship, and one of the large sharks is to have the Post Office; yet, in the midst of this unbounded corruption, this chaffering in the Cabinet about place, this huxter-

TORONTO, June 28, 1850. TORONTO, June 25, 1890.

The proceedings in the House last night were of very little interest, and there was nothing in the shape of a debate.

In answer to account of the Government of shape it be the intention of the Government of shape measures whereby the Trustees of the Quebec Turnpike Trust may be enabled, under the provisions of the Act 4th Vict., c. 17, to keep faith with the nubble creditor, and thereby redeem the with men of that origin, who voted to re ain on

CHRISTER, DEWETT, DRUMMOND, GUGY, HOPmast due bonus.or the Irust,
Mr. Hincks replied, that certain Debentures
had been issued on account of these Roads, under
Ordinances of Lower Canada; and that the
Government is responsible for the interest, but not
for the principal. Some of these Debentures have
failen due, and the Commissioners ask the Government to allow them to borrow money for the redemption of these Debentures, at a higher rate of
interest than six per cent. The Province is now
paying six per cent., which, if the request of the
Commissioners were complied with, would be
raised to eight per cent.; and the parties holding
the Debentures, and who became possessed of
them in knowledge of all these facts, would get
seven, instead of six per cent. KINS, MACDONALD, M'CONNELL, ROBINSON, The Representation Bill is defeated; the vote, as ounced by telegraph in our journal yesterday being ayes \$1, nays 21. There was not a concurrent rate of two-thirds of the House as required by the smashed for one more year at any rate; meny events may occur before it can again be brought

interdicted from the further management of his affairs. Mr. Rossin is alleged to labor under a

delusion, a fact which he admitted and discussed when before the July, but, and topic but the one, his language was lucid, arguinquire into costs and fees in the administration of justice in Lower Canada, after some little convermentative, and calm; his suggestions as to th sational sort of talking, was agreed to.
Solicitor-General Drummond stated, that if
there had not been so many subjects of importance
before the House, he intended to have moved for proper management of his affairs would do credit the sanest man living; and those who were present at the examination marvelled at the selfbefore the House, he intended to have moved for a Committee to inquire into the whole cost of the administration of justice in Lower Canada, with a view of adopting measures for making the administration of justice pay itself, and he expects to enter on the inquiry next Session.

Colonel Gugy told a story about the Sheriff of Montreal charging £27 10s. 11d. for selling property on an execution worth only £28. Shrievalties are very enticing things in their way, and some men there are simple enough to turn round sessed, cool deliberation of Mr. Rossin, especially when he turned to the Jury, and said :-Gentlemen, I am ignorant of the laws of this Colony, but if the law is, that when seven men declare me a Lunatic, I am to be interdicted,

suppose I must believe that I am a Lunatic." The some men there are simple enough to turn round and give a thick-and-thin support to a Government, on the ghost of a hope of chiselling themselves into one. No doubt Col. Gugy's support of the Ministry is purely patriotic and disinterested; therefore, I would not give him a brass button for Moss & Brothers unquestionably deserve very great credit for the taste and skill they displayed in getting up the military uniforms, which we are informed are intended for the use of the "Fortins;" but we question much whether the people will fancy paying for the whim of rigging the "Prairie Hega" out in the masquerade of the "Life Guards." It is a curious commentary upon the Ministerial interpretation of Bartanch.

of the Members.

Mr. Baldwin has given notice of a motion for upon the Ministerial interpretation of Retrenchment, that a set of loafers, styled "Fortin's Morning Sittings on certain days of the week; Dragoons," should cost this Province one-half which in these hot days would be a great nur-

of the sum expended in the Government of the State of "Ohio;" and that a Cabinet, which calls itself a Liberal one, should organize and arm the refuse of the population, under color of an "ordinance" which originated during the revolt of 1837. Speculative reasoners will, some future day, be puzzled to comprehend why fifty men of questionable reputation should be assembled in Montreal, covered with gold lace, dollars thrust in their pockets, and horses furnished for their convenience, by a Government which proclaims it in their pockets, and horses furnished for their convenience, by a Government which proclaims it is elf too impoverished to offer shelter or food to emigrants from Great Britain. Can it be the old leaven in Lafontaine breaking out afresh? Are the Prairie Hens fatted because they are French Canadians? and are the emigrants to be despised because they are only "dirty Irish?" The old lace, which will be wasted on the new uniforms of the "Hens," will require a greater outlay of public money than all the sick and needy emiss manned to the state of the state of the state of the state of the political necessities which now for public money than all the sick and needy emiss manned to the state of the state of the state of the state of the political necessities which now for public money than all the sick and needy emiss manned to the state of of the sum expended in the Government of the The Representation Bill may be looked upon as Baldwin compares himself and his confederates to the high-misseld Statesmen of England-verify Responsible Government is a marvellous wonder! To one class it is the incarnation of the British Constitution, to smother it is more Democratic than the Federal Government. It centralizes all the patronage and pswer of the Colony in the hands of a dozon men; yet the official journals assert, that "the well understood wishes of the psople" direct the application of the patronage and the power. That no Inquest was held, is sufficiently notorious. That the rumour respecting the stabbing is not unfounced, I am of opinion will soon be placed beyond question. It appears that Mr. Wetenhall was afflicted with erysipelas, which was so increased by a wound he received in the arm, that death resulted. That such an occurrence could have taken place is a reflection on the management of the Institution. The Ministry will answer Mr. Boulton's enq iry by admitting that a wound was inflicted on Mr. Wetenhall, but denying the effect—which will be to pronounce a medical opinion on a difficult case—attributed to it.

HAEFFAX AND QUEBEC RAILWAY.—We (Que-bee Morcury) anticipate that, long before the Brit-ish Government will have constructed a line of Railway direct from Quebec to Halifax, the inlish Gevernment will have constructed it line of Railway direct from Quebec to Halifax, the imhabitants of both these widely separated cities will have enjoyed the advantages of a similar connection via the United States. We are doomed to be out-done by Brother Jonathan if we do not carry out the proposed line soon. Mr. Morton, an Engineer of the highest respectability and attainments, who had been engaged upon the Montreal and Portland Railroad, and has been called in as Consulting Engineer upon the St. Andrew's Line, arrived at Halifax lately, and met the Provisional Committee of the Windsor Railroad, on the 18th instant. Mr. Morton's object, it would appear, is to see the country confer with the leading men, and ascertain whether any, and what step can be taken to connect Halifax with the State of Maine by Railroad, or by Railroad and Steamboat, so as to secure to the Lines now formed and forming through the State of Maine, the passenger traffic from Europe and the Provinces. The Novascotians, from which we derive the above information, continues thus:—

GREAT FIRE IN PICTON.—We regret to say a great fire took place in the town of Picton on Monday last, which destroyed a considerable portion of the business part of the town. We cut the above from the Rochester Democrat, presuming that it will "go the rounds." Otherwise we should certainly let it pass for what it is worth. We shall require other authority than an anonymous "extract from a letter," before we can believe that an American officer would be present at an illegal arrest of residents in American territory by foreign soldiers, without interference; and not only be present, but sanction and aid the arresting parties. The story is either an unworthy instance of suppressing an important part of the truth, or it is a fabrication out of the whole cloth. We do not think the Democrat should have given circulation to it without a word of caution to the more credulous among its readers.

HALSEY'S FOREST WINE!

Putronized by the Nobility and Medical Faculty of England, and esteemed the most extraordinary Medicine of the Ags.

The Forest Wine is altogether a different of Summer, and that without a naticle. It contains no Syrups to give it consistency, but acquires the excellent flavor and powerful medicinal qualities from the vegetable plants of which it is composed. SAVED FROM DEATH!

Testimony of Mr. Nathan Mathews. a highly respectable and wealthy citizen of Newark, N. J.

Dr. G. W. Halset:—I believe your Forest wine and Pills have been the meens of saving my life. When I commenced taking them, I laid at the point of death, with Dropsy, Piles, and Asthma. My Physicians had given me over as past cure, and my family had lost all hope of my recovery. While in this dreadful situation, your Forest Wine and Pills were procured for me, and belore I had finished the first bottle of the Wine, and box of Pills, I experienced great relief; my body and limbs, which were greatly swollen, became sensibly reduced. Hopes of my recovery begain now to revive, and after continuing the use of your medicines for about a month, the Piles and Asthma were completely cured. The Dropsy, with which my life was placed in such great damakers, we may be made them to the public.

I aseribe my recovery entirely to the use of your medicines until the present time, and I now enjoy as perfect health as ever 1 my life, although I am mare than sixty ye 1. age.

I aseribe my recovery entirely to the use of your medicines until the present time, and in obstinate complaints, and I can cheerfully recommend them to the public.

Yours, respectfully,

GREAT CURE OF LIVER COMPLAINT OF TEN YEARS STANDING!

NEW YORK, Jan. 9, 1848. NEW YORK, Jan. 9, 1848.

DR. HALSEY—DEAR SIR:—Having taken your Forest Wine and Pills to remove a disease of the Liver, from which I have suffered severely for upwards of ten years; and, having adhered closely to the directious which accompany the Medicines, I have recovered my health, notwithstanding all who knew me thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my friends spoke despairingly of my case, and fried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are Triends spoke despairingly of my case, and fried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are hundreds who are dissuaded from taking your excellent Medicines, in consequence of the deception and inefficiency of many advertised remedies put forth by unprincipled men, in flaming advertised remedies put forth by unprincipled men, in flaming advertised remedies, and the state of the deception used by others should be the means of dissuading many laboring under disease, from making trial and being cured by your excellent remedies, it immanly speaking, they have saved my life; when I commenced making use of them, I was in a wretched condition, but began to experience their good effects in less than three days; and, in aix weeks from the time I purchased the Middines, to the grat surprise of all my friends, I was entirely cured, and had increased afteen pounds in weight, having taken one box of the Pilis and two bottles of the Wine. Would to God that every poor sufferer would avail himself of the same remedies!
