Wm. A. Drummond, Sec.

Four Score Years

A very pleasing event took place on Tuesday evening, March 7th, when the children and grand-children of Mr. and Mrs. Robert Spence, to the number of 25, assembled at the parental home on Main street, to celebrate their father's 80th birthday.

In replying to his children's greetings, Mr. Spence said, "Mother and I are very happy to have you all with us tonight. We are sorry our youngest boy and his wife, also one grandson could not be here, but we have very many things to be thankful for, and I think it is wonderful that we have lived to see this day, with not one break in our family. All our dear children and grand-children are well and happy, and we thank God for all His blessings".

After refreshments, the evening was spent in music and games, Mr. Spence joining with the others in singing many of the old time favorites. He received many congratulations from friends and relatives, also a deputation from the King's Daughters conveying their hearty good wishes, and joining with the family in wishing him many happy returns of his birthday.

The Bible

To the Members of Grace Church:

Arrangements have been made with the Editor whereby a weekly Lenten letter will appear in the Review, and the paper sent to all our members.

The Bible! Always a live topic. There are many gainsayers and many foolish exponents. Remember the gigantic fact, the Bible was completed 1700 years ago. There are hundreds of thousands of copies and versions and translations all in practical agreement. There 700 translations in different languages extant. Some so called great men make certain positive statements, a bishop, a professor or what-not. Some laugh, some are aghast. Who can say, for example, whether the Bible is or is not "folk lore"? When you see or hear some startling statement, go back to your Bible. Read it with an open mind. It has cured millions of broken hearts. Let scoffers and careless ones alike beware. The Bible itself says, "Behold, ye despisers and wonder and perish". The Bible stands for itself. Invoke its blessings, provoke not its curses.

H. J. LEAKE.

To the Editor,—

It is reported that the hot lunch experiment at our school has caused disorder at the noon period and is proving a failure. The Inspector says the pupils should not have to pay any fee, and the teacher who undertook the job has been accepting money from the scholars. Has she a domestic science certificate? If not is she qualified to supervise the work? It was tried in a school about the size of ours last year (Stoney Creek) and proved a failure and was thrown out. It may be alright in a small rural school where the teacher as well as all the pupils take their lunch and the teacher remains at the school for the entire noon period and keeps order. It appears to be unpopular with the majority and was only given a trial to satisfy the whim of a few faddists.

To the Farmer:

The purchase of a Piano or Victrola is only purchased invariably once in a lifetime. Therefore it behoves the purchaser to get the best and make sure you have the best.

I have had 25 years experience in tuning and repairing musical instruments, therefore feel quite confident I can choose the best instruments on the market.

I shall be pleased to place any instrument in your home beside any other in fair competition and let you yourself be the judge, without you feeling under any obligations absolutely. I can also save the purchaser quite a few dollars on account of my expenses being so low. I will always give you my best personal service and devote the whole of my time to supplying the country people. A postcard or telephone call will oblige.

ANNUAL INVENTORY.

Keep a Record of What You Own and What It Is Worth.

The man on the land can learn much about his own farming operations by taking an inventory each year. No form of record will give so much information about the year's work as will an inventory properly taken at a definitely fixed date each year. The usual time for taking an inventory of the farm business is in March, when there is least feed and unsold produce on hand. The inventory of any ordinary farm can be taken in a half day, so there is no excuse on account of shortage of time. The information gleaned about the farm business through the study made possible by inventory taking is worth many times the expenditure of time and effort.

For convenience in keeping the farm inventory any blank record book with pages wide enough to permit spacing for a number of columns can be used, and if ruled to accommodate the entries for a number of years so much the better.—L. Stevenson, Secretary, Dept. of Agriculture, Toronto.

How to Select the Breeding Ram.

Select a ram that possesses scale, but not to the extent that he is lacking in quality. A well-developed ram as a rule transmits these characteristics to his offspring. He should be masculine in appearance, which is indicated by the carriage and boldness of head, short face, good width between the eyes, large open nostrils and an absence of feminine characters in general.

A ram should show good strength of back and depth of body, especially through the chest, with good width between fore legs and well sprung ribs. He should be closely made, that is, good depth, width of body, and short on legs.

The fleece should also be considered as to density, fineness and freedom from black fibres, with a skin that is pink in color, indicating that he is in good condition.

Purchase a pure-bred ram if possible, as blood will count and marked results will be seen in the quality of lambs. Breed character should be considered as it is very important, more especially in pure-bred flocks. Prices are relatively low and it pays to buy the best.

Agricultural Society May Purchase Land

At the meeting of the Agricultural Society next Tuesday evening a number of important matters will be dealt with, the principal one being the purchasing of permanent fair grounds for the fall fair. Two or three different suitable sites for a fair are available and it is expected that some definite plans will be made at this meeting. All citizens interested in our fall Fair should attend this meeting.

In Memoriam

In loving memory of our aunt Sarah A. Langton, who passed away so suddenly March 7th, 1921.

Just when her days seemed brightest,
Just when her days seemed best,
God called her home from amongst us
To his home of eternal rest.

Sadly missed by her niece,
Eva G. Drummond.

Fix Harvesting Machinery.

A rainy day spent in putting that mowing machine, hay loader, binder and other harvesting machinery into shape is a mighty good investment of time. This is more true this year than usual for two reasons — first, labor is much scarcer, and therefore the loss of any time wasted will be greater, and, secondly, the parts may be harder to get than usual, due to a shortage of supplies in many lines. Forethought may save some after-worries.
