A Problem for the Honest Farmer.

The difference between a comfortable prosperity and a slowly grinding impover-ishment for the farmer may be made by the simple fact that he necessarily sells his products in competition with all the world and at the lowest prices that competition can produce, while the cost of nearly everything that he must buy is enhanced by a system of indirect taxation, the greater part of which is intended to strangle competition and increase the profits of favored interests. When the farmer has worked out this simple problem he will find that the relief he most needs is in his own hands and that the taxation from which he suffers most is that which he has been blindly helping to fasten upon himself.—

Took Enough to Kill. A man by the name of George Graub, living in Jordan village, committed suicide Friday by taking Paris green. Before death he remarked that had he known it was going to give him so much pain he would not have taken it, and that he expected he would fall over just like a potato bug. About a year ago Graub endeavored to kill himself by gesting on to the house top and rolling from the roof. That time he only succeeded in slightly hurting himself.

Typhoid Epidemic at Wilkesbarre.

A despatch of Wednesday from Wilkesbarre says: This city is threatened with an epidemic of typhoid fever. Within the past few weeks numerous cases have developed among the people using the water of Laurel Run, which supplies the eastern portion of the city. The physicians to-day made a careful canvass of the stricken district and over 150 cases of typhoid were discovered. All the cases are attributed to be impurity of the water supply aggravated by the prolonged wet weather.

Qualities Necessary in the Successful Cattle Herder.

To be a successful cowboy one must be skillful in four qualities. He must be a good rider, have complete control of his lariat, a good knowledge of the country and be a keen judge of cattle and their brands. Riding all sorts of horses, as he does, soon gives him an intuitive knowledge as to whether any particular horse will give him trouble and when once on he has got to stick for all he knows how. His rope comes in handy fifty times a day either to catch some maddened cow or runaway calf, to haul wood or hundreds of other uses. Without a knowledge of the country he could never pilot a branch of cattle to the main herd or could he look up strays, and finally other, estilemen would palm off the most miserable specimens upon him if he could not tell food beef from bad. His readiness to distinguish and knowledge of the various marks used to denote ownership is exceedingly important, especially in the spring, as disputes frequently arise. All these qualities a really good cowman excels in, and when to these are added cheerfulness, adaptability and good humor, it is hard to find a more pleasant companion. The life is hard, but the freedom and excitement seem in most instances to outweigh the hardship.

A Chicago despatch of Thursday says:
John Kunze, the young German whe drove Dan Coughlin to the Carlson cottage the night Dr. Gronin was murdered, has broken days he maintained a stolid silence. The change in his demeanor was brought about by a visit of Attorney Furthmann, who defended Kunze last year and secured his acquitted on a charge of swindling. Furthmann said to him: "Tell all you know if you expect to save your neck."

Kunze was badly frightened by these words. Furthmann told him he was in a bad fix and left.

Bhortly afterwards Captain Schnettler had a two hours' talk with Kunze. The German made a clean breast. He was a sort of confidence operator, and enjoyed the protection of Dan Coughlin, who employed him in many dirty jobe—among others the obtaining of money from the Schufelds Distilling Company for doing pretended detective work. He has told where he got the rig in which he drove Coughlin to the Gralson cottage. He also has told how he returned to the cottage an hour after, and meeting Coughlin in the vicinity of the house, drove him into the city. The oaptain is loth to give any part of Kunze's statement to the public without verifying it, because he sees in Kunze a German edition of Woodroff.

Several New Yorkers Terribly Tortured by Electric Light Wires.

A New York despatch says: An electric wire fell to the sidewalk in Eighth street last night. Walter Linnell, a clerk, got under the wire just as it fell. He put up his hands to protect himself and got the end of the wire in his left hand. Heuttered a scream and fell writing on the sidewalk. Hestried to force the deadly wire from his left hand with his right, but could not let go with either hand. His father tried to release him with an umbrella and got a shock that nearly knocked him down. He laid hold of his son's heels and was thrown to the sidewalk. Dairyman Gibbs ran out and tried to detach the young man by pulling on his legs. He retired into his dairy precipitately with his nerves tingling with eleptricity. Nobody in the crowd seemed to know what to do for the prostrate young man. The flesh on the palms of his hands was burning, so that the odor was perceptible. It was at this juncture that Orlando Fernando, a peanut vendor, rushed to his stand, got a hatobat and cut off ton feet of the wire to which Linnell was taken to the hoopital. He is dangerously hurt.

While Western Union linemen were cutting down wires in front of Tupper's restaurant on Eighth avenue yesterday, a sagging wire crossed one of the wires of the Manhattan Incandescent Company. Two men were at the corner of 21st street, winding up the slack of the wire with laminant man and fell insensible on the sidewalk. Tupper saw him fall and shouted to the foreman, who stood near him, but who did not seem to think it much of an occurrence. Then the two men at the other end of the wire tumbled over just as their companion had. Several per-

Villard's Romantic Career.

Henry Villard is once more a recognized

Henry Villard is once more a recognized power in Wall street. He has been elected President of the Oregon & Transcontinental Railroad, after a desperate struggle, by a majority of 16,1999 shares. Thus begins another chapter in one of the most romantic lives of this generation. A youthful foreigner, poor, unknown, depending on nothing but plusk and brains, becomes clerk, newspaper reporter, correspondent, confidential friend of millionaires, speculator, millionaire himself, constructor of a railroad across this continent, guess of princes, dweller in his own palace, that a prince might envy. Then the wheel goes the other way. Stocks shrink, friends deceive, enemies bear down hard, and a big fortune made like magic is lost more rapidly than it was won. The palace is sold and its owner seeks employment to earn his daily bread. By dint of fine sense and invincible energy, he gets on the upward turn again and is soon on top, once more a millionaire, once more a railroad king, once more honored, flattered and hated as only successful men are.—Macon (Ga.) A runaway pair from St. Margaret's Bay arrived in the city this on Friday morning in time to take the steamer Halifax for Boston. The man's name is David Johnston, and he is married; while the girl's name is Sadie Boutiller, about 17 years of age. As near as can be learned the elopement was planned about a week ago. The couple had been frequently seen walking along the roads in the evenings at the bay. Johnston had been reprimanded by his wife, but all to no purpose. The elopers drove into town early this morning and registered on the passenger list under assumed names. The deserted wife is the mother of two children. Mrs. Johnston's father arrived in town just in time to see the steamer sail down the harbor.
