

REVOLUTION IN BYZANTIUM.

Mutinous Troops Surround the Parliament Buildings.

People Panic Stricken and Stores Being Closed.

Murder of Liberal Editor Cause of Disturbance.

Constantinople, April 13.—Serious disturbances of a revolutionary character have broken out here. The situation is grave.

The mutinous troops are demonstrating against the building of Parliament. Panic has seized the people of Constantinople, and all through the city shops are being hurriedly closed.

SURROUNDED BY TROOPS. Vienna, April 13.—Startling rumors are current here to the effect that Constantinople to-day is in the throes of a grave revolutionary movement.

Reports of the revolution thus far received are meagre, but it is reported that several thousand mutinous troops have surrounded the building of the Parliament, and that the whole capital is in a state of dangerous excitement.

Another report says that the Ministry of War has been occupied by the insurgents and that the Minister has fled.

VIOLENT DEMONSTRATIONS. London, April 13.—The only news to reach London up to half-past twelve today of the situation in Constantinople was contained in a code message. It set forth that serious disturbances of a revolutionary character had broken out and that the situation was grave, and it was accepted as foreshadowing a dangerous upheaval.

Neither the Foreign Office, the Turkish Embassy nor the banks with Constantinople connections had any further information. It is known, however, that the situation has been extremely strained for several weeks past owing to the great bitterness between the Committee of Union and Progress and the Liberals. The Liberals resent the attempts of the committee to control public affairs.

The murder of April 24 of Hassan Fehmi Effendi, editor of the Liberal newspaper Serbesti, is thought here to have been the climax of this political feud. The editor was shot and killed by an unknown man as he was entering his office. A government official accompanying him was wounded. The Serbesti had been carrying on a campaign against the committee of union and progress, in other words the young Turks.

Violent demonstrations, both inside parliament and in the streets adjacent, followed the killing of the editor. The Grand Vizier and the President of the Chamber were obliged to address the crowds outside and assure them that justice would be done. The chamber accepted an interpellation denouncing the crime as a political murder, and calling upon the government to take the necessary steps to apprehend the assassins.

PULL REVOLUTION.

Frankfort, April 13.—"Constantinople has been in full revolution since early this morning," declares the Constantinople correspondent of the Frankfurter Zeitung, in a despatch from the Turkish capital, dated to-day.

Two battalions of troops quartered in the Ministry of War marched out at dawn, headed by their officers, and proceeded via Divan and Jolu streets to the Mosque of St. Sophia, from which point they surrounded the building of parliament. They demanded the dismissal of the Grand Vizier, the President of the Chamber and the Minister of War.

Bain & Adams' List.

Sweet potatoes, new potatoes, Malaga grapes, Bermuda onions, Spanish onions, pineapples, Tunis dates, Farde dates, new Brazil nuts, Maggi soup squares, baked kidney beans, stem ginger, new maple sugar, new maple syrup, rosebud beet, prime English Sultan chaise, corn on the cob, Pecan nut meats, Spanish pineapples.—Bain & Adams, 89, 91 King street east.

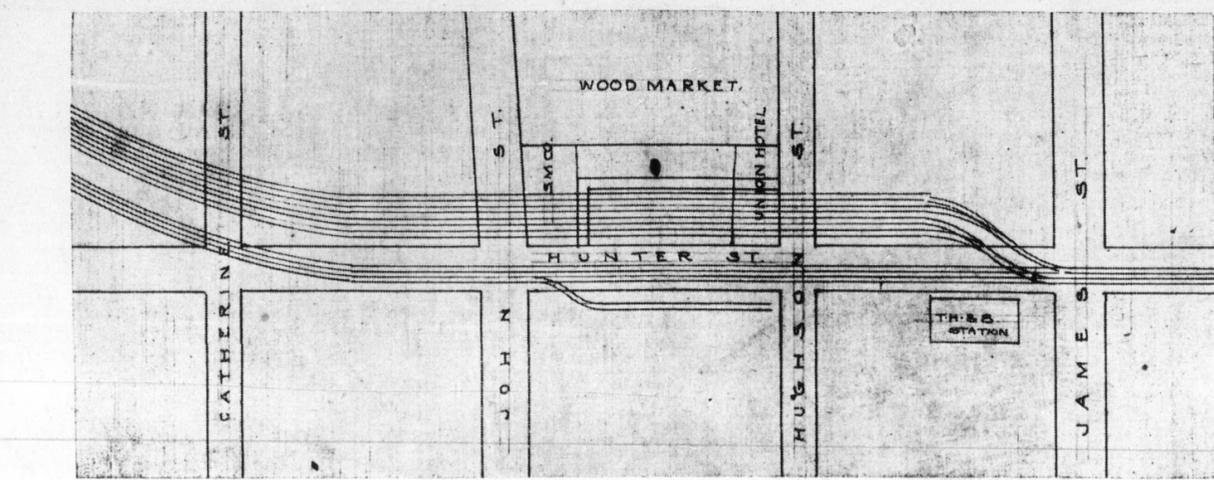

Perhaps the most talked-about person in the world is the weather man.

ARE DISSATISFIED WITH THE DIVISION.

Probable Scrap in Council Over the Way Road Money is to be Spent.

Although the City Council meeting was called for 7.30 to-night in the hope that it would not last more than half an hour so as to permit Mayor McLaren to attend the meeting of the art school directors, when the fate of the institution will be decided, it looks as if the city fathers will have a long session. There is said to be some dissatisfaction over the way the \$25,000 for road work and repairs, recommended by the Board of Works, is to be spent. Some of the aldermen think their wards should have more done than the list provides, and the chances are that this will provoke a long discussion. Chairman Allan said this morning that there was no doubt that a great many more streets required repairs, but he thinks the work decided upon is most necessary.

The power question will not be in shape for the Council to deal with to-night. The chances are that a special meeting will be called later to settle this. If it is to be sent to the people it is probable that by-laws providing for election of controllers, reducing the number of aldermen and purchasing a

WHERE LARGE REAL ESTATE TRANSACTIONS ARE GOING ON. This drawing shows where it is proposed to increase Hamilton's railway facilities by the erection of a large Central Union Station and the laying of many tracks. The closing of Hughson street and a subway on John street are proposed. The purchase of the Mills Hardware Company property, John and Hunter streets, by the railways interest was completed yesterday.

GOOD CROPS.

Last Night One of the Coldest of the Season in Northwest.

(Special Despatch to the Times.)

Winnipeg, Man., April 13.—It was one of the coldest nights of the season last night. At Prince Albert it was fourteen degrees below zero, at Regina one above zero, at Qu'Appelle zero, at Battleford four above. It snowed heavily last night at Edmonton, Calgary and Lethbridge. The lowest at Winnipeg was twelve above. Old timers state it does foretell good crops.

FIFTEEN YEARS IN THE DESERT.

This Man Did Not Know That Queen Victoria Was Dead.

Never Heard of the Boer War or of Theodore Roosevelt.

Los Angeles, Cal., April 13.—Lost in the desert for fifteen years, Albert Courtney, a mining prospector and British subject, heard yesterday for the first time that Queen Victoria was dead. The name of Theodore Roosevelt was strange to him, and not an echo of the Boer War had reached his ears.

Naturally ping pong, diabolo, the plays of George Bernard Shaw, the defeat of Bill Squires, the suffragette movement—all the great facts and occurrences of recent years—were matters of which he was ignorant.

Courtney was a recluse and did not see a book or a newspaper during the entire period from the time he buried himself in the desert until he emerged therefrom in San Bernardino to ask among other things, after Queen Victoria's death.

"How is the Queen?" was one of the first questions he asked. He was told that his question was not understood; that it is now King Edward.

An automobile shot past and the man from the desert backed hastily into a doorway for protection. "And so Queen Victoria is dead? I can hardly believe it," he murmured, but the victory in South Africa raised his spirits and he gave three British cheers on the spot.

Courtney is 70 years old, and is well preserved, physically and mentally.

BIG RAILWAYS ARE BUYING PROPERTY

Said to be For a Large Central Union Station to be Erected in the Very Near Future.

Mills Hardware Company Sold Their Land and Stopped Work on New Buildings.

Hamilton's dream of many years of a big central union station for the steam roads entering the city is about to be realized. With that end in view the biggest real estate deal in recent years is under way, by which the Toronto, Hamilton & Buffalo Railway, the Canadian Pacific, the Michigan Central and the Canadian Northern. Dan Mann, of Mackenzie & Mann, the men behind the Canadian Northern, was here a week or so ago, and promised that his road would be running into Hamilton before the end of the year. It is not improbable that Mr. Mann's visit here was in connection with the union station scheme. The need of a station in keeping with Hamilton's importance as one of the foremost cities of the Dominion has long been felt and there have been so many rumors of a union station during recent years that the announcement of the scheme taking life at last will probably not come as a surprise. The city is so badly cut up with railways at present that with new roads seeking entrance the only solution to the problem was a union station. The Toronto, Hamilton & Buffalo Railway has doubtless had it in view for a long time. Its by-law with the city gives it the right to close Hughson street at Hunter. For the last two or three years the railway officials have been negotiating for the property on the south side of Hunter street. The fact that the Mills property has been acquired after the basement of the large new building the company was about to erect there had been completed is taken as pretty good evidence that no time is to be lost in erecting the union station. Yesterday afternoon the bricklayers (Continued on Page 10.)

CONDUCTORS OFF.

Suspected at Toronto That Spotters Are Busy on C. P. R.

Toronto, April 12.—The fact that five C. P. R. conductors, running passenger trains out of North Bay, have been ordered to report at Montreal to-day, and all kinds of rumors are in circulation about spotters, male and female, traveling on the trains. One of the most serious reports started was that on the arrival of all the C. P. R. morning trains the conductors would be pulled off. This proved false, however, the management being satisfied with their staff of conductors here.

TAKES DARE; LOSES ARM.

Detroit Child Lays Hand on Rail as Train Comes.

Fails to Remove It, and Wheels Pass Over Wrist.

Detroit, April 13.—Through a childish "dare" made and accepted, Hazen Zank, 8 years old, lost his left arm yesterday afternoon. His life may be the ultimate forfeit.

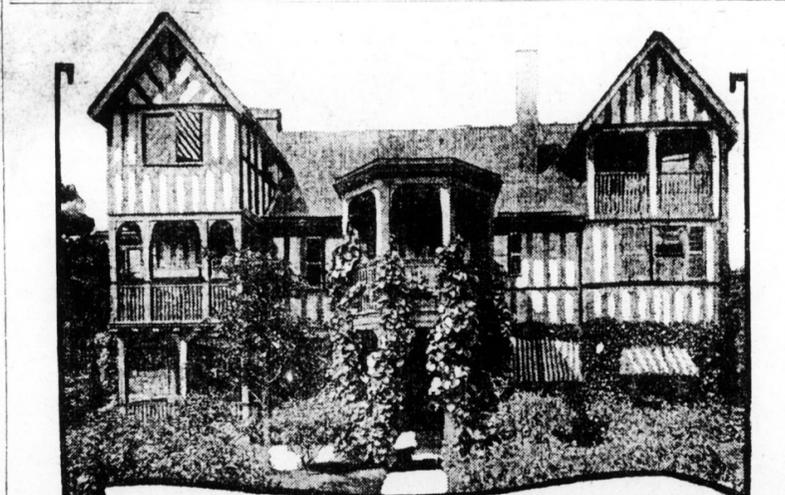

Hazen and some other children were playing near the Grand Trunk tracks, not far from Hazen's home, 438 East Milwaukee avenue, yesterday afternoon.

"Dare you to put your hand on the track while this train is coming along, Hazen," said one of the boys.

"You can't dare me," said Hazen, and as the big freight locomotive came thundering down toward them he knelt beside the track and placed his left hand on the rail. The engine rushed on toward him, the engineer frantically jerking at the whistle, but still the boy knelt there.

Whether he kept his nerve too long or whether he lost it entirely and was so frightened he could not move, little Hazen could hardly tell. But, while the engineer thrived on the brakes and the wheels jarred and slid, Hazen's hand still lay on the rail, and those sliding, slipping wheels, with the tons of weight of that great iron monster upon them, passed over that frail little wrist.

Severed clean by the first wheel, the hand dropped inside the rail. Hazen sank in a heap beside the track, unconscious from the shock, (Continued on Page 10.)

ROBINSON HOUSE AT MANCHESTER, MASS., PRESIDENT TAFT'S SUMMER HOME. (Special Despatch to the Times.)

Manchester, Mass., April 13.—Nestling amid hills and trees on the old north shore of Massachusetts, and well under the lee of Cape Ann, is the house President Taft, or rather President Taft's wife—has chosen as the summer capital of the United States. The Edward Robinson house, which President Taft will occupy this summer, was chosen very largely because it is within easy calling distance of the home of Miss Mabel Boardman, who for long has been to the first lady of the land what Damon was to Pythias; and then, incidentally, the golf links of the Essex County Club are also close at hand, and that pleases the president himself.

THE MAN IN OVERALLS

along without the tonic sal fa in the schools? It's a great hardship upon the children. Castro may now be described as a castaway—a man without a country. It's not so much what the people say as what they think that bothers Hon. Geo. E. Foster, and he can't prevent them from thinking. Another thing the Police Commissioners and Chief Smith will have to take into their serious consideration at an early date is the question of police protection for Mount Hamilton, especially in the summer evenings, and it's not burglars either that they want to be protected from. When Toronto assumes the role of a higher critic, all the lower critics laugh. Toronto is more of a high roller than a critic. Who is H. Russell, the artist, the Spectator was talking about last night? We will now take a show of hands of all those eligible for controllerships. Talking of that war scare, didn't Uncle Edward go over to Berlin a short

time ago and make it all right with his nephew, William, Von Buelow and the burgumasters? Pugsley wants the proof, but none is forthcoming. Mrs. Fay might at least have pointed out the site for the new Public Library. The car barns are still in the womb of futurity, and the men who might have been building them are walking the streets. Mr. Fox was too foxy for Mr. Findlay. We will have the Easter music warmed over again next Sunday, I hope. It was fine. Speaking to me one day, Thomas Rowkes, the G. N. W. messenger, who died in the City Hospital, yesterday, said, with a catch in his voice: "I lost my business, I lost my home, I lost my wife, and I lost my two beautiful daughters. I stand alone in the world just as you see me." Humble citizen as he was, he was a man of independent mind, well-read and a clear thinker. Let us hope that he has had a joyful reunion.

To Railway Detective MacDonald, of the T. H. & B., goes the credit for the fact that John Hyde is at present in a cell charged with absconding with money belonging to the T. H. & B. It will be remembered that Hyde disappeared when the company's auditors arrived here to go over the pay sheets. Hyde had charge of Aberdeen yard pay sheets and it is alleged that the auditors found that several "dummies" were carried. This stuffing of the payroll was chalked up to Hyde, but the bird had flown when the warrant was issued on September 9th of last year. For a time Detective MacDonald could get no trace of him. He sent descriptions all over the country, and communicated with all the border police. After a month of unsuccessful work MacDonald got a tip that his man was in Chicago. He at once made a trip to the western city and laid all charges before the police and left them to hunt up Hyde and arrest him. Officer Burns, of the suburban district police, of Chicago, was put to work and in a month he found a man named John Hyde working as a clerk in the shops of the Rock Island Railroad. This man was clean shaven, and the photograph in Burns' possession

PAY OFFICE CLERK IN POLICE COURT.

Jack Hyde Arraigned But Did Not Plead—Geo. Kerr Will Defend Him.

showed a full dark moustache. He was, however, satisfied that they were the same. The warrant was forwarded and Hyde was arrested while at work at the Rock Island offices. He was locked up and bail was refused him. The charge against him was made known and the man admitted he was the man designated in the warrant, but, as to his innocence or guilt he refused to talk. In jail he grew a moustache again. Hyde decided to fight extradition, and the T. H. & B. was not disposed to throw away \$500 or \$600 after the already missing money, just for the sake of putting Hyde on his trial. Detective MacDonald was left to do as he saw fit. In most cases of this kind the prisoner would be talked at for about a week, and if he still persisted in his determination the case would be dropped. After carefully studying the case MacDonald decided to try to get Hyde deported from the United States as an undesirable immigrant. He sent a letter to Officer Burns, explaining how matters stood. The Chicago police took up with this scheme at once and sent a report to Washington that an undesirable was under arrest at Chicago, and had come from Canada. This communication was hurried about from pillar to post since March 9th, the day Hyde was arrested. At last signed and sealed, it was de-

SPEECH FROM THE THRONE

Prorogation of the Ontario Legislature To-Day.

Rather One Sided Review of Business.

Was Cobalt Lake Deal Vindicated by the Court?

Toronto, Ont., April 13.—The Legislature was formally prorogued to-day by His Honor the Lieutenant Governor. The attendance at the session was small, most of the members having left for their homes last week. A large crowd gathered outside the buildings to watch the firing of a salute by the Toronto Field Battery on the arrival of His Honor. Following is the

SPEECH FROM THE THRONE. Mr. Speaker and Gentlemen of the Legislative Assembly.

Although this, the first session of the Twelfth Legislature of Ontario, has not occupied a long period of time, the number, the variety and the importance of the enactments placed upon the statute book bear witness to the intelligence and the industry with which you have applied yourselves to the performance of your public duties.

Recent events have made it again clear that constant watchfulness is necessary to prevent interference with the jurisdiction of this assembly, and enable the Government to supply electrical energy through the commission at a minimum price to the public, while observing its obligations to investors.

I observe with satisfaction that a special committee of the Legislature will meet during the recess to investigate and report upon necessary amendments to and changes in the assessment law of the province.

At the last session of the late Legislature a carefully prepared basis for a scheme of law reform was adopted, and I am glad to notice that the full consideration of such scheme by you has resulted in the enactment of an act for the better administration of justice, to lessen the number of appeals, and the cost of litigation, and for other purposes.

Among the other public measures to which it is my privilege to give assent are bills respecting the financial year; to amend the Audit Act; to amend the Act passed in the seventh year of His Majesty's reign, entitled, an Act to Provide for the Transmission of Electrical Power to Municipalities; to validate certain contracts entered into with the Hydro-Electric Commission of Ontario and for other purposes; respecting easements and forfeitures; for expediting the decision of constitutional and other provincial questions; respecting high

New Parisian Terror.

We are threatened—at least you are threatened in London, for we have it already in Paris—with a fearsome novelty in barrel organs. An ingenious descendant of Mephistopheles has invented a piano-organ, which is built on the lines of an automatic match machine. Its proprietor places it outside a house and goes round the corner.

The organ begins to play and on top of it appears a notice, "Put a penny in the slot and the music will stop." A penny only buys three minutes' silence, though. Has anything more diabolical yet been invented?—London Evening Standard.

A Cave.

Cholly—The dentist told me I had a large cavity that needed filling.

Ethel—Did he recommend any special course of study?—London Public Opin- ion.

HAMILTON OF OLD.

To the Editor of the Times:

Looking over some letters, I find one from Mr. Benj. Bell, the founder of the firm of B. Bell & Sons, St. George, Co. Brant, dated March 6, 1880. He had been reading some sketch of mine, and wrote:

You are mistaken about the fifty acres being offered to me. It was my uncle, the man I served my apprenticeship with, who was building a shop for a man from Grimsby, in Hamilton, the east side of John street. The man paid \$300 for the lot. My boss said, "I was offered 50 acres here, very cheap." He told me the amount, but I have forgotten what it was; but he said he had \$150, and the man told him if he would give him that he would give him a deed, and wait as long as he wanted for the balance. I don't remember what year it was, but think it was in 1835.

There was only one steamer running into Hamilton then, and she came in on Sunday. She was called the Great Britain, and it took her a week to make the trip.

I served my time with an uncle, Jacob Kitchen, at Grimsby. He was a brother of Charles Kitchen, whom you will remember.

I don't remember if there was any other wharf than the John Winer, at the foot of James street. That was where the steamer came to; and the most of Hamilton would be there on Sundays to see her come in. Very few of the men in business then are left now. I don't recollect of any but John Winer, the druggist. I believe he is still alive, and his name is still in the firm of John Winer & Co., although I think he is not able to get out. No doubt there are others that I don't know.

Those were the days that if a man did not pay his debts they would put him in prison; and some friend would bail him out on the "limits," and if he was caught out on the "limits," his friend was in for the debt. The "limits" were certain streets in the town as it was then called. They extended to the lake on James street. Two posts were set up about four feet apart on the side of the road, and the man—if he wanted to go to the lake, had to go between these posts.

As far as the late Mr. Bell, I myself came in, as a boy, on that same Great Britain steamer, in May, 1837. My first acquaintance with Canada.

William Wye Smith, St. Catharines, Ont.

[Mr. John Winer died some years ago.—Ed.]

Recollections of a Famous Musician.

Sir Edward Elgar, the famous musician, is said to be very keen on chemistry and spends some of his leisure time in analysis and experiment. He has been an enthusiastic cyclist and can tell a good story of adventures encountered on the highways and byways of western England. At one time he made a hobby of kite flying and was not ashamed to be seen tugging at a string and gaining heavenward after a struggling object with a long tail which strained to get higher and ever higher. He is also an ardent naturalist.—English Illustrated Magazine.

PRISONER ESCAPES.

Mrs. Sheitke, Charged With Bigamy, Gets Away From Hospital.

Edmonton, April 12.—Mrs. Sheitke, who was arrested some weeks ago on a charge of bigamy, and who was taken before her trial to the Misericordia Hospital, has made her escape from the hospital and cannot be found by the police. An arrangement had been made with the physician attending the woman that he should report when she was fit to leave the hospital, but the first word received by the police was to the effect that the woman had left for parts unknown.

FRENCH SEPARATION LAW.

The Pope Will Hear Reports of Bishops on the Matter.

Rome, April 12.—A semi-official communication from the Vatican today announces that on the occasion of the beatification of Joan of Arc, which takes place this month, the Pope will receive the French bishops and hear their reports in the matter of the separation of Church and State in France. He has not declared again, however, that he cannot modify his attitude on this question.

"The Pope has resolved to persevere in the status quo," the communication says, "and he will abstain from approving any commission implying the recognition of the separation law."

Very Strict.

Grimsby—So you want to marry my daughter, sir? What are your principles? Are you temperate? "Trimsby—Temperate? Why, I am so strict that it gives me pain even to find my boots tight.

A Real Wonder.

"They say Fubnub's youngest boy is quite a prodigy."

"Yes, he can name all the Vice-Presidents of the United States."—Puck.

List of Agencies where the HAMILTON TIMES may be had:

THE HAMILTON TIMES

TUESDAY, APRIL 13, 1909.

THE U. S. TARIFF BILL.

The United States Senate tariff bill will probably be up for discussion on Thursday, it having been laid before the Finance Committee yesterday morning.

GERMANY'S PINCH.

Europe is at peace; and yet most of her nations are straining the tax-paying capacity of their people in military and naval expenditures.

EDITORIAL NOTES.

The Easter vestry meeting reports give no indication of financial stringency.

Last week 31,087 immigrants entered the United States. The rush westward has begun again.

London, England, proper has 2,134 miles of streets and 632,591 houses, and covers an area of 74,839 acres.

The foreign trade of the United Kingdom last year amounted to £890,695,000; that of the United States £592,043,000.

The March fire losses in Canada and the United States totaled \$13,795,400. This is the lowest in a number of years.

Loeb, the Hydro-Electric Commission lawyer, is quoted as calling the ice blockade in Niagara gorge "an act of God."

Whitney refuses to grant fiat to permit farmers to sue the Hydro-Electric Commission in connection with concessions for the erection of power towers upon their lands.

Now will the Opposition induce Hazen to prosecute Pugsley, or will it confine itself to slander based on a partisan commission's report?

Within a few years more than \$6,000,000 has been added to Toronto's debt by the issue of debentures without the consent of the people.

To the onlooker it would appear that neither Mr. Roosevelt nor the reporter of Le Journal can find refuge behind mistake.

The public school pupils have no deposit in the school savings bank \$9,372.85. It is not a very large sum.

It is said that Joseph Martin, K. C., will contest Stratford-on-Avon in the forthcoming by-election.

In eight years Toronto's civic debt has increased 77 per cent. Meanwhile her population has increased 54 per cent.

Many Hamiltonians learned with sincere regret of the sudden and unexpected death of Mr. H. H. Bicknell in Toronto yesterday.

BALFOUR SAW THE POINT.

Nothing could be finer than the answer of Mr. A. J. Balfour in the British House of Commons to the question of Mr. Bowles calling attention to the fact that the De Beers mines at Kimberley had realized a profit for the year of £2,000,000.

Mr. Balfour was quite cutting and not altogether without cause. But how would Mr. Balfour, had he been a Canadian statesman, have described the conduct of the Whitney Government?

Some of the Tory organs which made much of the buxom motion of the Opposition for an inquiry into all the departments of the Government are challenging the statement that the Courtney Commission made inquiry into all branches of the public service.

The decrease in the size of U. S. families strikes the student of recent census returns. If the people of the Republic were as prolific as they were 100 years ago the recent census would show that there were 15,000,000 more children in the country than there are.

New York city's total bonded indebtedness on June 30th last was \$806,072,914, against which the city had holdings which reduced it to \$517,844,345.

prefer to go into the workhouse and attain the workhouse ideal, which is "as much to eat and as much sleep, and as large an amount of immunity from even the lightest task as possible."

The Times congratulates Canon Abbott and the congregation of Christ's Church Cathedral on the splendid work done by them in wiping out the debt on the Cathedral property.

But it would be very silly to accept the irresponsible statement of an alleged German anonymous writer (who probably exists not outside of a New York newspaper office) as proof strong as holy writ that the German people exist only to plan ways and means to "thrash" her "traditional enemy" Britain.

The Ontario Legislature has approved the grant of 2,000,000 acres of land and \$200,000 in cash to the Canadian Northern. The Conservatives of Ontario, now in control of the Legislature, put themselves on record a few years ago as being opposed to any further subsidies, either in land or in money, to railways within the Province.

The Hamilton Herald says that "the logical result of the report is action by the Hazen Government against the accused politicians, and such action will doubtless be taken."

Protection is a game of plundering. It is a very subtle inducement held out to Democratic representatives from the southern States that their rice, sugar, lumber, oranges, pineapples, etc., shall be brought under the shelter of tariff duties, so that they may participate in the loot, if they will turn tail on their Democracy and abandon the effort to substitute a tariff for revenue for a protective tariff.

Another cause of lower cost in building is a very significant one, and ought to be considered by those who are laboring in the building trades. It is the "boom" period, and consequently it is cheaper everywhere there is no reduction of wages. After a period of reduced employment the most capable of the men are now hired, and they feel the need of doing their best to keep their places. Accordingly, their work is worth more and the result of it costs less, and thereby they are helping the cause of industrial and business recovery.

The monthly meeting of the ladies' auxiliary of the Hamilton Health Association was held yesterday.

Twenty-three patients have gained a total of 96 pounds and six patients lost a total of 17 1/2 pounds. The greatest individual gain was 10 1/2 pounds.

Lisbon, April 13.—The Government has decided to introduce a rigid system of inspection in Angola, West Africa, to put an end to the conditions of enforced labor among the native workers on the cocoa plantations, which have resulted in conditions akin to slavery.

New York, April 13.—James Montgomery, jun., has lost his life in a snow slide at Valdez, Alaska, according to a message received by his father. Young Montgomery was graduated from the Harvard in 1906, and was a member of the football team for four years.

Washington, April 13.—Ambassador James Bryce of Great Britain, has returned to Washington from his trip to the Pacific coast, and had a consultation yesterday with Secretary Knox touching pending matters between the United States and Great Britain.

APPROVES LAURIER'S POLICY.

The best use to which the welcome naval co-operation now offered by the dominions can be applied is toward the strengthening of the defenses each of its own quarter of the world.

KINRADE CASE.

A loaded cartridge has been found by the police in a yard near the Kinrade residence in Hamilton. The inventory in the Kinrade case, therefore, stands as follows:

THE WHY OF IT.

The Ontario Legislature has approved the grant of 2,000,000 acres of land and \$200,000 in cash to the Canadian Northern. The Conservatives of Ontario, now in control of the Legislature, put themselves on record a few years ago as being opposed to any further subsidies, either in land or in money, to railways within the Province.

AIRSHIP FLEETS—NOT YET.

The experience of Count Zeppelin's airship, which was caught in a heavy windstorm, demonstrates two things. One of them is that aerial navigation can without great difficulty be made practically safe, and the other is that sufficient progress has not yet been made in it to warrant the belief that it has been advanced to such a stage as to be a trustworthy means of communication, especially for military purposes.

HOW TO KNOW THEM.

State Senator Etteson, of Illinois, has introduced a bill to confer a title on bachelors whereby they can readily be distinguished from married men. A spinster is distinguished from a married woman by the prefix Miss, which is introduced to her the moment she is introduced to her marital or nonmarital state. The Senator's interest in the matter has been aroused by complaints of ladies who declare that married men under the name of bachelors are in the habit of seducing single women.

A GAME OF PLUNDERING.

Protection is a game of plundering. It is a very subtle inducement held out to Democratic representatives from the southern States that their rice, sugar, lumber, oranges, pineapples, etc., shall be brought under the shelter of tariff duties, so that they may participate in the loot, if they will turn tail on their Democracy and abandon the effort to substitute a tariff for revenue for a protective tariff.

EFFICIENT LABOR CHEAP LABOR.

Another cause of lower cost in building is a very significant one, and ought to be considered by those who are laboring in the building trades. It is the "boom" period, and consequently it is cheaper everywhere there is no reduction of wages. After a period of reduced employment the most capable of the men are now hired, and they feel the need of doing their best to keep their places. Accordingly, their work is worth more and the result of it costs less, and thereby they are helping the cause of industrial and business recovery.

THE SAN. DURING MARCH.

The monthly meeting of the ladies' auxiliary of the Hamilton Health Association was held yesterday. Miss Renton read a very satisfactory report for the month. There were 33 patients on the list. The following were the donations for the month: Mrs. G. W. Robinson, three pieces of men's underwear and a quilt; St. Cecilia Chapter, L.O.E., \$5; Mrs. Case, Mount Hope, girls' clothing; Ladies' Aid, Mount Hope, 1 quilt; Mrs. Watkins, blue raincoat for Nurse Renton; Agnes Society, \$5; Mrs. St. Cecilia Chapter, L.O.E., fruit and jams; Thomas Lees, clock for patients' dining room at sanatorium.

TO STOP SLAVERY.

Lisbon, April 13.—The Government has decided to introduce a rigid system of inspection in Angola, West Africa, to put an end to the conditions of enforced labor among the native workers on the cocoa plantations, which have resulted in conditions akin to slavery.

LOST IN SNOWSLIDE.

New York, April 13.—James Montgomery, jun., has lost his life in a snow slide at Valdez, Alaska, according to a message received by his father. Young Montgomery was graduated from the Harvard in 1906, and was a member of the football team for four years.

BRUCE AND KNOX.

Washington, April 13.—Ambassador James Bryce of Great Britain, has returned to Washington from his trip to the Pacific coast, and had a consultation yesterday with Secretary Knox touching pending matters between the United States and Great Britain.

WEDNESDAY, APRIL 14, 1909. SHEA'S New Spring Suits for Women. Made up in the very newest styles, blacks, greys, greens, browns and navies, all beautiful pure wool materials, newest style coats and perfectly made and fancy skirts, finished with stylish braid and the most fashionable button adornments, all thoroughly well tailored. Special prices are: \$12.00 Suits for \$8.95, \$16.00 Suits for \$10.95, \$17.00 Suits for \$12.50.

TABLET TO HIS MEMORY. Father of Presbyterianism in Dundas Fittingly Honored. An Important Function in the Church Last Evening. Something About Rev. Mark Young Stark's Life and Work. Dundas, April 13.—A function of surpassing interest came off in Knox Church last evening—the unveiling and presentation to the church of a tablet to the memory of the late Rev. Mark Young Stark, the pioneer minister of Presbyterianism in Dundas.

SIGNALLING. Garrison Class Opened and a Good Start Made. The garrison class for instruction in signalling was opened in the armory last evening and judging by the splendid attendance this important branch of the service is destined to become popular in Hamilton. Lieut. E. Ford, district signal officer, presiding over the boys with the services of the 7th Regiment of Dundas marks him as an instructor of great ability. The work taken up last night was chiefly explaining the duties of a signaller, the dimensions of the flags used, and the signals which they stand for. The classes will continue three nights a week—Monday, Tuesday and Thursday, for six weeks.

Y. M. C. A. BANQUET. The Banquet Committee of the Y. M. C. A. met last evening, and completed arrangements for their banquet on Thursday evening. The Banquet Committee have their work well in hand, and the Y. M. C. A. gymnasium will look like a fairy bower. The Programme Committee reported that they had secured W. H. Wardrop, K. C., and Rev. R. E. Knowles, of Galt, as speakers. The Musurgia Male Quartette and the Howard orchestra to supply the music, and that the representatives of the various small organizations had been selected for five-minute speeches. All that is necessary now to make this the most successful social function of the season is a large attendance of members, subscribers and friends. Tickets can be secured at the office by telephone or from any of the active workers.

FORCED SERVICE. Urged by Lieut.-Col. Merritt, of Ottawa, For Volunteers. Toronto, April 12.—Lieut.-Col. Hamilton Merritt, commanding the Governor-General's Bodyguard of Ottawa, speaking here to-night, urged the abolition of the present system of volunteer militia and the substitution thereof of a compulsory system such as is in force in Germany. Col. Merritt said that the present method of drilling city corps in armories at nights was the very thing the volunteers of Britain had abandoned years ago.

KILLED HIMSELF. Was to be Tried a Second Time For Stealing Funds. Binghamton, N. Y., April 13.—On the eve of his second trial on a charge of stealing Broome County funds, which was scheduled to open in Cooperstown at 10 o'clock this morning, and as a tragic climax of the investigation of county affairs in Broome County, which began in 1907, Arthur W. T. Back, former clerk of the Broome County Board of Supervisors, former chairman of county buildings and former chairman of the Broome County Republican Committee, committed suicide early to-day by shooting himself through the head.

CUR EXCHANGES. CERTAINLY NOT. Ontario cannot appeal Sir James Whitney's declaration, "I am proud of the C. N. R. agreement." SLUMS IN CANADA. (London Advertiser.) A Manchester clergyman, visiting Canada, says that nowhere in his own city would such slums be allowed as he had seen in Toronto. An Irish visitor also says that the tenements in Montreal are worse than anything in Belfast. GENERAL BHOOTH. (Toronto News.) Few men have accomplished as much for mankind as General Booth, and fewer still have lived to see their work, begun in a small way, grow to world-wide proportions. NO COLD FEET. (Toronto Star.) No Marathoner need blame his defeat on the cold. In this running game a man is supposed to run fast enough to keep himself warm. IMPERIAL PRESS CONFERENCE. (Saturday Night.) There will be only one thing lacking in the Imperial Press Conference, and that is an absence of newspaper men. Newspaper proprietors in plenty, but writers so few that one could gather the entire aggregation in a clothes closet. THE HOME OF BIGOTRY. (Saturday Night.) Toronto's Board of Education was up to a few days ago looked upon as a body possessing a fair proportion of common sense. When, however, they took it upon themselves to place in the minute book a resolution opposing the engage-

# Your Shoe Wants

Can be satisfied at this store. Our Shoes this season cannot fail to please you. We speak this with the utmost confidence regarding our Shoes. Size, last, leather and color to please you—and at prices to suit all persons.

**OXFORDS**—Most manufacturers make Oxfords on the same lasts as high shoes are made on, which is a saving of several thousand dollars to the manufacturer—but such Oxfords will not fit properly. All of our Oxfords are made on Oxford lasts. That's why our Oxfords are PERFECT FITTING.

**CUSHION SOLE**—This season we are introducing a new line in Oxfords. They are made with a cushion insole for the foot to rest on. Walking on the pavement in a pair of these shoes is like walking on a carpet. Soft, fine, vici kid, in two styles, price \$3.50 to \$5.00.

**RED CROSS**—We had such a demand for the "Red Cross" in high lace we deemed it advisable to have a "Red Cross" Oxford made. They are of fine black kid, good year wear, American oak leather soles, very flexible, price \$3.50. Our Oxfords for women range in price from \$2.00 to \$5.00, and men's \$3.00 to \$7.00.

**MEN'S SHOES**—A glance into our window will convince you that we have the finest Men's Shoes in the city.

**YOUNG MAN**, if you wish your new suit to look well you must have a pair of neat shoes, the kind which this store is noted for selling. Do not buy until you see and examine our lines. We know that we have the "nattiest" Shoes in the city, and they are GOOD SHOES, made by the best makers in the States and Canada.

## J. D. Climie 30 and 32 King St. W.

Next Friday evening at the Grand the musical comedy production, "The Land of Nod," will be seen. "The Land of Nod" is witty as to dialogue; its music is said to be that of the jingling, "catchy" sort; its situations are original and extremely laughable; and its character creations are novel. The principal is "The Man in the Moon," who comes to earth and mingles with all sorts of characters until he is attracted, with others, to "The Land of Nod," where people who are known only in tales which are told of fairyland and in Arabian Nights conceptions are encountered. Among these are "The Sandman," "The King and Queen of Heart," "The West Indian Man," "The Welsh Bard," "April Fool," "The Telephone Man," and others so unusual and withal so interesting that the audience is taken from emotions of amazement to varying degrees of pleasure and jollity. The scenery, costumes and other effects are said to be upon a scale of splendor. The sale of seats begins to-morrow morning.

The attraction at the Grand Opera House last night was the dramatization of the old, but popular, novel, "Lena Rivers." The company was a capable one, and an excellent performance was given. Miss Gladys George took the part of Lena Rivers, and was all that could be desired. Miss May Gerald had the difficult role of Caroline Livingstone, and succeeded in making her cousin's life anything but pleasant. In fact, the entire show was interesting, from start to finish. The audience was not large, but quite appreciative.

**"THE CHOIR SINGER."**

"The Choir Singer," a well-known melodrama to Hamilton theatre goes, comes to the Grand next Saturday for two performances. "The Choir Singer" tells the story of a young Virginia girl of aristocratic ancestors who is forced through the scheming of a New York stock broker to abandon her ancestral home and go out into the world to earn her living as a public singer. This task is made the easier for Alice Leighton, the young heroine, by the fact that she is the possessor of a highly cultivated voice which has gained for her at home the sobriquet of "The Virginian Nightingale."

**A GREAT PIANIST.**

Regarding Miss Schnitzer, the solo pianist who will be heard at the Grand on Thursday afternoon with the Dresden orchestra, the New York American says: "To proceed from this sonata (Brahms) to the exquisite 'Pastorale Variations,' by Mozart, was a test which Miss Schnitzer met in able fashion. She displayed in this and in the Chopin numbers a poetic feeling that was of high order, and her enunciation was clear-cut and crisp."

**ANNUAL ORPHANS' FESTIVAL.**

Through the kindness of the Savoy management the 66th annual orphan festival will be held in that theatre on Thursday, April 22, and not in the Grand Opera House as at first intended.

This change is due to the Grand Opera House booking a theatrical production by mistake on the date previously given to the orphans' festival. The Grand

**ITALIAN GRAND OPERA.**

Verdi's famous opera, "Aida," has been selected for presentation by the Italian Grand Opera Company here at

MR. VICTOR I. CLARK. Associate Director of the Dresden Philharmonic Orchestra, which will appear in the Grand Opera House for one performance only, Thursday afternoon, April 15.

## FRUIT—THE GREAT PHYSICIAN

Wonderful Medicinal Value of Apples, Oranges, Figs and Prunes.

How many people realize what remarkable curative principles are contained in fruit juices. There are two—the bitter and the sweet. There is about ten times as much of the sweet as of the bitter, though the bitter principle is the one which has the curative effect on disease. Apples, oranges, figs and prunes contain the highest percentage of bitter principle and thus are the most healthful.

It was a theory of a physician in Ottawa, that if the amount of bitter principle in fruit juice could be doubled, the curative property would be increased, not twice, but many times.

After many tests, this physician succeeded in forcing into the combined fruit juices an additional amount of bitter principle, and in doing so formed an entirely new compound. To the combined juices were added valuable tonics and antiseptics and the whole made into tablets.

These are "Fruit-a-tives"—the only remedy known to science that is made of fruit. The wonderful cures in cases of Stomach Trouble, Biliousness, Constipation, Rheumatism, Chronic Headaches, Neuralgia, Kidney, Liver and Skin Diseases are due solely to the fact that "Fruit-a-tives" contain the medicinal properties of fruit. 50c a box, 6 for \$2.50, or trial box 25c. At all dealers or from Fruit-a-tives, Limited, Ottawa.

## THE TEACHERS.

Alliance Helps to Uplift Profession, Says President.

Dr. L. E. Embree Claims Merit and Experience Should Count.

Toronto, April 13.—At the second annual meeting of the Ontario Teachers' Alliance last night, in the theatre of the Toronto Normal School, encouraging reports were presented by the Secretary and Treasurer, with recommendations by the former for the work of the coming year. The President, Dr. L. E. Embree, M. A., was in the chair.

The report of the Secretary, Mr. Chas. G. Fraser, showed that there was a membership of nearly 600. The Treasurer's report, presented by Mr. C. E. Kelly, of Hamilton, showed the total receipts of the year to be \$478.76, with an expenditure of \$108.

Dr. Embree, in his address referred to the fact that there were between 12,000 and 13,000 teachers in the Province who were qualified to become members of the association. The alliance could do good work in bringing about a better relation between trustees and teachers. He made the recommendation that teachers from outside places when employed in the schools should be given credit for past experience, and that the scale of remuneration should not be absolutely on a basis of length of service, but should recognize merit as well.

It was decided that pupils in attendance at the training schools, Faculty of Education, Normal schools, and Model Schools should be eligible for membership in the alliance, also that any qualified person could become a life member of the alliance on the payment of ten dollars.

The following officers were elected for the year 1909: President, Dr. L. E. Embree, M. A.; First Vice-President, Miss L. A. Carruthers; Second Vice-President, Mr. Wm. Scott, B. A.; principal Toronto Normal School; Secretary, Chas. G. Fraser, principal Crawford Street School, Toronto; Treasurer, Mr. C. E. Kelly, principal public school, Hamilton. Mr. E. S. Hogarth, B. A., Hamilton Collegiate Institute, is on the Executive Committee.

## CALICO BALL.

Ladies' Orange Benevolent Association Gave Good One.

One of those unique affairs—a calico ball—was given by the Ladies' Orange Benevolent Association, No. 1, in the Grand Hall last evening. A large number attended, and all spent a most delightful evening. The ladies were all dressed in calico, and each gentleman was provided with a calico tie, the terms of which corresponded with the dress of the ladies. After an examination of his tie it was each gentleman's duty to hunt up his tie's affinity and make its acquaintance. Lewis' orchestra provided the music. The money realized from the ball is to be used to furnish a room in the new Young Women's Christian Association.

## A Sneezing Epidemic

It's Not Influenza—But Catarrh That Comes With Change of Season.

Every second person that you meet seems to have a sneeze and stuffed feeling in the forehead and nostrils. To cure promptly, say, in half an hour, there is nothing worth using except Catarrhose. You inhale its balsamic vapor, and feel as if you were among the Norway Pines. This is because Catarrhose contains a healing medicine, light as pine air, which is breathed straight into the lungs and bronchial tubes. Away goes the cold, sneezing and catarrhal cough cease, bronchial irritation stops; in short, you are cured of catarrh by a pleasant, simple remedy, free from sedatives and irritants. Catarrhose is a good, safe family remedy for coughs, colds, croup, sore throat, that may be taken by young and old with absolute certainty of swift, permanent cure. Try "Catarrhose," but beware of the substitute who may try to induce you to take something instead of "Catarrhose." Large size lasts two months. Price \$1.00. Smaller sizes 25c and 50c. Sold by all dealers, or the Catarrhose Company, Kingston, Ont.

## WOODMEN'S BALL.

Over one hundred couples attended the ball given by Walnut Camp, No. 278, Woodmen of the World, in the Conservatory of Music last evening and all enjoyed themselves thoroughly. The Dowling orchestra dispensed sweet music to the small hours of the morning, while the exhilarating whirl of the dance kept up. The committee—W. Young, R. Lucas and P. Teeter—deserve great credit for the manner in which the affair was conducted. A tasty luncheon was served at intermission and the guests after regaling themselves returned to the dance hall, refreshed and invigorated, to continue the tripping of the light fantastic.

## GEORGIA PEACH CROP.

Atlanta, Ga., April 13.—The Georgia peach crop is safe, according to State Commissioner of Agriculture Hudson. There have been only very little frosts in this State this month.

## SPAIN'S FLEET.

Madrid, April 13.—The Cabinet has decided definitely that the Spanish fleet shall be reconstructed. The work will be entrusted to British firms.

## GOING TO CORFU.

Potsdam, April 13.—Emperor William, the Empress and Prince Oscar left this city to-day for Venice, where they will embark upon the Imperial yacht Hohenzollern for Corfu.

## DONALD CURRIE DEAD.

London, April 13.—The death is announced of Sir Donald Currie, the well-known ship owner. He was born in 1828.

## TALLEST MEN

Are Scotchmen, Says an English Expert.

London, April 12.—(Globe).—Mr. John Gray, Secretary of the Anthropometrical Committee of the British Association has given out some interesting statistics with regard to the stature of the people of Britain.

The aristocracy, landed gentry, and cultured professional classes he says, are improving in stature, but diminishing in number. The artisan class is holding its own in height and numbers. The laboring class—the term includes the unskilled millions of the people in the slums, even the vagrants—is perceptibly declining in stature while it increases more rapidly in numbers than either of the other two. These conditions apply not only to this country but practically to all Europe.

Some of the interesting facts mentioned by Mr. Gray may be summarized: Scotchmen are the tallest men in Europe, (average height, 5 feet 8 inches); they come Scandinavian and English, (5 feet 6 inches), and German, French, and Italian.

"The English race," said Mr. Gray, "is naturally tall. Thus a decline in stature for us might reasonably be said to spell a decline also in physical and mental energy. The stature of our manufacturing classes, however, is below the average of the country. The shortest people I have measured are those in the great towns of Yorkshire and Lancashire. They have, through new conditions of life, become quite a different type from the dwellers in the country."

## MADMAN'S FRENZY.

Slashed Four People With a Razor.

Montreal, April 12.—In a paroxysm of either rage or insanity, Alfred E. Grove, at his home in Pointe Claire, slashed his wife with a razor with which he had been shaving himself, cutting her seriously about the arms and hands. He also attacked three men who went to prevent him from doing any more damage after committing these violent acts, and is believed to have gone up stairs in his house afterwards and set fire to a bundle of rubbish.

## BRING BIG FIGURES.

Thousand-Dollar Tenders For Gowganda Sites.

Toronto, April 13.—The price of lots in the new town of Gowganda has gone up. The high-water price for a site at the former Government sale, some weeks ago, was \$480. When the new tenders were opened yesterday several touched the \$1,000 mark.

Between 200 and 250 lots, situated on the western portion of the east wing of the new town, were offered for sale under tender by the auction which closed Saturday. All day yesterday a staff of clerks at the offices of the Minister of Lands, Forests and Mines were engaged in opening and sorting the bids. It is not anticipated that this work will be completed before to-morrow.

The prices offered are uniformly higher. The new portion is deemed the most desirable part of the town, and is, moreover, the most generally sought by "speculators," many of whom have erected buildings on the ground to which they had no license, and now are anxious to buy them in. The consequence is keener competition in tendering, and one of the staff engaged informed the press that several tenders of \$1,000 had been received.

## RUN OVER.

Elderly Montreal Lady Killed by a Street Car.

Montreal, April 12.—Mrs. Legault, about sixty years of age, an employee of the Crescent Manufacturing Company, met a violent death early to-day by being run over by a street car No. 734, going east on Notre Dame street. She was passing in front of two vehicles, and apparently was watching a Centre street car, when she was struck by the Notre Dame car. When she was removed from beneath the front trucks it was found that her body had been badly mangled and she was dead. Her breast was crushed, both arms and both legs fractured, ribs broken and several wounds were received on the head.

## Pure Olive Oil.

We have just received from France a delayed shipment of olive oil for internal use. It is especially fine in quality, and notwithstanding the great increase in market value we are still selling it at the old price. Gerrie's drug store, 32 James street north.

## Commissioner Combs laid the cornerstone of a new Salvation Army barracks at the corner of Queen and Tecumseh streets, Toronto, on Monday.

TUESDAY, APRIL 13th., 1909

## STYLISH SPRING Suits, Skirts and Coats

A magnificent assembling of the most approved and up-to-date styles of all kinds of Women's Spring and Summer wearing apparel is here. We are splendidly ready to fill your every need in these—ready with one of the largest, finest and most carefully selected stocks in Hamilton—ready with the best values that have ever been given.

### JUST RECEIVED

## 50 Smart Spring Suits

To-morrow you will get first choice of 50 exceedingly smart looking Spring Suits of plain and Shadow Stripe Suitings—popular shades of navy, green, brown, black and taupe. The coats, made in semi-fitted styles, all beautifully tailored and trimmed with self strappings or braids and buttons, stylish gorge flared skirts, trimmed to match, certainly excellent value at

\$15

## Stylish Street Suits \$22.50

Women's stylish Street Suits of plain and stripe Venetian Cloth, in navy and gray, 36 inch coats, in the new hipless effects, very stylish and well tailored and neatly trimmed, with self or satin strappings and buttons. Perfect fitting gored skirts, trimmed to match. Another special value at

\$22.50

## Separate Street Skirts \$3.75

New and very stylish Separate Street Skirts of all-wool Panama Cloth, in navy, green, brown and black, made in 9-gore style, flaring at foot and nicely trimmed with wide self strappings, finished with buttons. A popular, serviceable skirt for

\$3.75

## Stylish Spring Skirts \$5.00

Excellent choice of over one hundred stylish new skirts of plain and fancy stripe serge, Panama and Venetian Cloths, all smart gored styles, neatly trimmed with self or fold folds and buttons. Full range of colors to suit all tastes, all special values at

\$5.00

## Smart Spring Coats \$6.00

Women's smart Spring Coats of plain or striped Covert Cloth, in new fawn shades, 30 inches long, semi-fitting, single-breasted styles, coat collar and lapels, and new sleeves, top pockets, all well tailored, special

\$6

## 25c Values in Hosiery

Just by way of illustrating the completeness and the thoroughness of this store's Hosiery stock read this list of 25c values.

Women's Plain Black Cotton Hose, made of best combed mako yarn, lisle finish and all firmly knitted, elastic welt tops, spliced heels and toes. Full fashioned. Guaranteed Hermsdorf dye. Sizes 8 1/2 to 10

25c

Women's Fancy Polka Dot Cotton Hose in fact tan, Copenhagen, black and navy colors, with coin size dot in white—a special value for

25c

Women's Plain Black Cotton Hose, full fashioned, split mako foot, superior combed yarn evenly knitted, very easy summer stocking on the foot

25c

\$1.00

## Our New Waist Making Department

Place Your Orders Now Superior Work, Moderate Prices

We have recently reorganized our Separate Waist Department this season, and have placed at the head of it a thoroughly experienced and competent hand. Place your orders here for the Summer Blouses and Shirtwaist Suits. We can assure you every possible satisfaction for style, fit and work we guarantee, and prices are very moderate for such styles. Enquire about this department at once. Second floor. Ask for Miss Webb.

## FINCH BROS., 29 and 31 King St. W.

DENIED BY BARON KATO. Japan Not Anxious to Sever Anglo-Japanese Alliance.

London, April 12.—Baron Kato, the Japanese ambassador here, says there is not a word of truth in the mischievous rumor that Japan is anxious to sever the Anglo-Japanese alliance. The correspondent declares that, far from being alarmed at Great Britain's understanding with Russia and the United States, Japan did her utmost to promote them, being convinced that they would strengthen the Anglo-Japanese alliance.

Referring to the price of wheat, the London Daily Mail says the remedy is still open to Britain. The resources of Canada have not yet approached their limit, and may be not merely developed but also secured by preference. When the concerted man sees his shadow he thinks it is right for the kings with Russia and the United States, world.

# THE ICE JAM STILL HOLDS.

### Damage at the Falls Estimated at One Million Dollars.

### Gorge Road Poles, Rails and Ties Swept Aw-y.

### Ontario Power Plant Will Soon be Running Again.

Niagara Falls, April 12.—Niagara's ice jam partially released its destructive grip on the lower portion of the river today, but the disintegration is slight. Conditions are not appreciably ameliorated, and the ice jam at the head of the river still holds fast. The view obtained by the recession of the ice justifies the fears as to safety of the submerged portion of the Gorge Railroad, and a conservative estimate of the damage done by the ice jam places the total at one million dollars. Early today a gang of 300 men commenced to repair and prevent further damage to the portion of the Gorge track made accessible by the falling away of the ice this morning. As the ice broke away in small portions whole sections of the tracks disappeared into the swirling waters, with poles, rails, ties and telegraph equipment all in a mass. Fear is expressed that when the rest of the jam goes out it will carry with it so large a portion of the track that the road will have to be rebuilt from just below the whirlpool almost to Lewiston bridge. This road cost about sixty thousand dollars a mile to build, but this includes blasting out a rock bed, and the rebuilding will not cost so much. The ground rail at the bridge, the chasm, designed to prevent the cars running over the edge, cost \$150,000 to install, and this will be a total loss. It is not expected that the Gorge road will be able to resume traffic for two or three months, and the loss of revenue will be enormous. It is interesting to note that this road has never paid a dividend, mainly through the large annual losses, under conditions similar to those prevailing.

### OTHER PROPERTY IN DANGER.

On both sides of the river large interests are still in danger of serious loss. Located on the American side of the Gorge below the bank, the buildings of the Niagara Falls Hydraulic Power Company are in danger of being carried away. At the Devil's Hole the steel transmission towers of the Niagara & Lockport Company and the Ontario Power Company, which carry 60,000 horsepower to Syracuse, Rochester and other American cities, are in grave danger of being torn away. Already the centre tower is rising from its masonry and steel foundations and has fallen against the next tower. Around the bases of the others, extending high up into the steel work, the ice has gripped them in a frozen vice, and it is feared that when the ice gives way it will carry with it all three towers.

### HANGED HIMSELF.

### A. J. McCullough, of Glengarry County, Committed Suicide.

Cornwall, Ont., April 12.—A. J. McCullough, a well-known and respected farmer of Glen Donald, Glengarry county, ended his life by hanging yesterday evening. Despondency caused by a nervous disorder was the cause of his act. His brother, Peter McCullough, had just taken him to Cornwall today for medical treatment. He sent his son to bring the brother back, and on their return they found the deceased hanging in the barn. Dr. C. J. Hamilton, Cornwall, coroner, declared that an inquest was unnecessary.

### BLOWN FROM BRIDGE.

### Ironworker Killed on East River at New York.

New York, April 12.—John McShane, a young structural iron worker of Brooklyn, was killed today by falling from the unfinished structure of the Manhattan bridge over the East River. He was working on the Brooklyn end of the bridge, half way between the pier and the anchorage, when the coupling on a compressed air pipe burst beneath him and blew him off the structure. He landed 100 feet below in the back yard of a house in Plymouth street. A heavy projecting plank which the man struck half way down in his fall broke under him like a wafer. Another workman who was near McShane when the pipe blew out ducked and managed to keep from falling by clinging desperately to the structure. McShane was dead when picked up.

### IN POLITICS AGAIN.

### Hon. Joseph Martin a Candidate in Stratford, England.

London, April 12.—The Chronicle declares that the unknown Liberal candidate in the by-election at Stratford-on-Avon is a brilliant orator, a well-known K. C., and an ex-colonial Premier, who has championed free trade in debates in the Canadian Parliament. His identity is to be revealed on Tuesday.

### ICE-SHOVE AT MONTREAL.

### Some Trouble Caused by Water in the Suburbs.

Montreal, April 12.—The first serious "shove" in the river occurred this evening, when the ice broke loose and caused considerable trouble in several suburbs of Montreal, although the city itself was well protected by the re-vent wall. The main trouble this evening was caused at Longueuil, where the ice blocked, and the St. Lawrence took a sudden rise of about eight feet. Flooding the ground floors of many houses and driving people to the second stories of their residences, while many became alarmed and went back to higher ground, fearing a flood. The water, however, receded almost as speedily as it had risen, and it was reported at midnight that all trouble was past.

Mayor Oliver and City Treasurer Coody, of Toronto, have gone to England to dispose of \$6,000,000 of bonds.

# DR. ORR ON CREATION.

### Learned Biblical Student on Eleven Chapters of Genesis.

### Believes Them to be the Record of Historical Facts

### And in Wonderful Accord With Scientific Research.

An eminent theologian, one of the most prominent Biblical scholars of the English speaking world, and writer of many widely read books, Professor Jas. Orr, M. A., D. D., of the United Free Church College, Glasgow, before a large and appreciative audience, which included clergy representing many different denominations, lectured instructively last night in St. Paul's Presbyterian Church. His topic was "The Early Stories of Genesis." Dr. Orr did not touch at all deeply upon the issues where science and the records are at variance, evidently preferring to treat his subject constructively and prove where they are in harmony. Recent archaeological discoveries, he declared, tended to support the view that the first chapters of Genesis were records of historical facts.

Deviotional exercises were led by Rev. J. C. Sycamore, of the James Street Baptist Church, and Rev. Dr. Elmore Harris, of Toronto. Dr. Harris explained that Dr. Orr was appearing in this country under the auspices of the Bible League of Canada, and that as his visit was arranged over a year ago, it had nothing to do with any question or the acute situation that has arisen in Toronto.

Introduced by Rev. D. R. Drummond, pastor of St. Paul's, Dr. Orr, 43, explained that he would confine himself to a survey of the first eleven chapters of Genesis, and that much he might desire to say must be left unsaid, because time would not permit of it being touched upon. Religion, he declared, had the deepest interest in the story of the creation, because it taught the dependence of all things on God. It was a doctrine that was our assurance that all things proceeded from God, were created by Him and at His disposal. If there was anything in the universe not created by God what assurance would we have that this alien matter would not defeat the working out of Divine providence.

The second chapter of Genesis, he said, was often taken as a second narrative of the creation in contradiction of the first, but it was not a narrative in the same sense as the first, dealing as it did only with man and God's dealings with man. Everything in it was treated from that point of view. The second and third chapters told of the temptation and fall of man. It was sometimes taught that there was no mention of the fall in any later part of the Old Testament, and for this reason the story could be dispensed with. Dr. Orr dispensed these critics. "I think it is safer to say," he said, "that it is the key to all the scriptures. What is the explanation of this universal backsliding if it is not as the Bible says, that man has fallen from a higher estate?"

Dr. Orr touched briefly on the fourth chapter, telling of Cain and Abel, and of a holier line in Seth and the fifth chapter following with the genealogy from Seth down to Noah. From the sixth to the tenth chapters told the story of the flood, in which the critics found two stories blended. These two stories, however, were so wonderfully united and complete that they together agreed with the Babylonian story and were undoubtedly one story.

Following as the tenth chapter of the division of the earth was described in the eleventh the confusion of tongues, the whole making a consistent story and not like the myths of other nations. These early chapters of the Bible were the most wonderful of the whole book. One could approach them in one way or make up myths, legends and fables, and approach in another way they were the most precious tradition of the race.

The speaker admitted that the Babylonian discoveries were of great value, confirming as they did the table of nations given in the tenth chapter of Genesis. They also confirmed the Bible story that Babel preceded Assyria. The Babylonians had their stories of the creation and flood, but not of the fall. The story of the flood bore a closer parallel, he said, to the Bible story than the Bible account could have been borrowed from such debased stories.

Dr. Orr said that he would admit to the scientific objecter that the Bible was not a textbook of physical science, and did not anticipate the discoveries of modern science, but he argued that it gave in popular ideas an impression of a picture of creation, which was substantially correct, and to which the modern Christian could follow the example of St. Augustine or Thomas Aquinas and give a liberal interpretation.

Dealing with the usual objection to the days of creation, Dr. Orr said that prior to the fourth day there was nothing to indicate the length of the period meant by the term "day." In conclusion the eminent speaker said: "I think it is right to say that these chapters stand out not for their essential discord, but for their wonderful harmony with science."

Earlier in the evening Dr. Orr met the Ministerial Association at supper in St. Paul's schoolroom.

As soon as the Easter holidays are over a new movement is to be made in the Montreal City Council to see if the Street Railway Company will take up the work of moving freight in the city, and removing snow from the streets next winter.

# FATHER OF LORDS.

### Earl of Wenysay the Oldest British Peer.

### London, April 12.—With the death of Baron Gwydyr just on the verge of entering his one hundredth year, the Earl of Wenysay, who was born in 1818, becomes the "father" of the House of Lords. He is hale and hearty and still takes an active interest in political and social events, and plays as good a game of golf as many a younger man.

Last week the veteran received from a number of political friends in both the Liberal and Conservative parties a portrait of himself painted by John S. Sargent. Lord Rosebery made the presentation and suggested that the secret of Wenysay's perpetual youth was to be found in his vivid and burning enthusiasm for what he believed to be right. That was the vital principle. That was what kept him young when so many around him had aged.

# THEY FIXED UP THE POSTMASTER.

### Dodd's Kidney Pills Cured His Lumbago and Sciatica.

### That Was Three Years Ago and He is Still Cured—When You Should Try Dodd's Kidney Pills First.

Elliston, Trinity Bay, Nfld., April 12.—(Special).—That Dodd's Kidney Pills first only relieve Sciatica and Lumbago, but cure it once and for all, is the experience of Mr. Alfred Crew, postmaster here.

"Yes," the postmaster says in telling his story, "it is three years since I was cured of Lumbago and Sciatica. Dodd's Kidney Pills did it, and I am happy to say the cure was permanent. 'I had pains in my back, cramps in my muscles, shooting pains across my loins, and I often found it hard to get any rest at night, and when I did my sleep was unrefreshing. I was medically attended, but without getting any benefit, and at last I was persuaded to try Dodd's Kidney Pills. I used six boxes altogether and they took the pains away and quite cured me.'"

Nearly every cure by Dodd's Kidney Pills tells of trying something else first. If you use Dodd's Kidney Pills you will never need to try anything else. They always cure all diseases of the kidneys, and all diseases that are caused by sick kidneys.

# REMOVED HATS.

### No Millinery Was on View in Pittsburg Churches.

New York, April 12.—A despatch to the Times from Pittsburg says: Pittsburg women bowed to the expressed will of a majority of the ministers of the city today, and though many of them went to church to display their new Easter bonnets they removed them and sat through the services with heads uncovered. They seemed satisfied, and the ministers who started the crusade are happy.

But the women had troubles of their own, not only during the services, but after they had ended. They did not know what to do with the big headpieces. It was bad enough for them to balance them on their heads, but it was a great deal worse to care for them during the services. Some of them placed their hats in their laps, while others put them on the seat beside them and then watched them, fearing some thoughtless person might sit upon them.

In every church there was trouble after the services. Every one of the women wanted to get on her hat first to display it as much as possible. Mirrors were not plentiful, and some women forgot which way the hats went on. The usual question, "How did you like the sermon?" gave way to, "Is my hat on straight?"

# CANCER GERMS.

### French Professor in South America Says Fish Carry Them.

New York, April 12.—A cable despatch to the Herald from Montevideo says: A French professor, sent by the Government to study cancer in Uruguay and the Argentine Republic, has returned from Buenos Ayres. He said he was surprised at the great number of cases of cancer in the digestive organs, and believes that certain fishes propagate the germs of the disease.

# MISSING FOR WEEKS.

### Sealing Steamer Decapo Believed to be Lost.

St. John's, Nfld., April 12.—The sealing steamer Decapo has not been heard from for several weeks, and it is feared she was lost between the Nova Scotia coast and Newfoundland last week. The Decapo carried a crew of thirty men. A search will be made at once to ascertain their fate. The captains of the steamers Beothic, Eagle and Bonaventure, which arrived here today, report that they saw no trace of the Decapo. The Beothic brought 34,000 seals, the Eagle 22,000, and the Bonaventure 14,000, making the total catch by the fleet 250,000 for the season.

# TARIFF BILL.

### Prepared by the U. S. Senate Finance Committee.

### Some of the Charges Proposed by the Senate.

Washington, April 12.—The Senate Committee on Finance, with all members present, met at 10 o'clock today, and Chairman Aldrich opened the bill as amended by the majority of the committee. Many of the revenue producing features will be reported subsequently, as they are intertwined with administrative features of the measure, which will be adopted later.

As reported, the bill does not contain all of the changes in rates which the Finance Committee proposed to make. Although several important amendments, such as the restoration of the Dingley rates on women's gloves and hosiery, the placing of works of art on the free list and the assessment of a duty on iron ore, have been made, the revenue-producing possibilities of the bill are little changed. The increases are provided mainly in the schedule covering luxuries, the entire higher schedule being materially advanced. The increase on wines and spirits is expected to bring in about \$3,000,000 additional revenue. Senator Aldrich stated that the committee realizes that the increases thus far recommended will not be sufficient to counterbalance the loss in revenue that will result from the reductions and the lengthening of the free list. This shortage will necessitate further increases on certain luxuries, and the committee intends to report some changes at an early date, which it will ask the Senate to adopt.

Senator Aldrich, when requested to make a brief summary of the general character of the changes proposed by the Senate Finance Committee to the House tariff bill, furnished the following statement: In the main rates in the tariff bill as reported from the Senate Finance Committee are lower than those in the bill as it passed the House. The actual number of reductions being about three times the number of increases. Such increases as have been made were largely rendered necessary to preserve the symmetry of the schedules. A considerable number of articles in common use have been restored to the dutiable list of the House bill and restored to the free list.

The great mass of the rates reported are below those of existing law. The Senate Committee restores from one to the dutiable list at 25 cents per ton a reduction of 15 cents a ton from the Dingley rate. The Senate Committee has been compelled to retain the duty on lead ore of 1 1/2 cents per pound, and has been obliged to raise the rates on lead products throughout the bill to correspond with this duty on lead ore.

The only important changes in the schedule made by the Senate Committee was the restoration of imported hardwoods to the free list. The Senate Committee left the sugar schedule as it came from the House, but reduced the rate on sugared biscuits and wafers from 50 to 20 per cent. The tobacco schedule remains unchanged.

The agricultural schedule, including meat products, remains practically unchanged from existing rates, but where reductions were made by the House the Senate Committee has restored the Dingley rates.

Fish remains as it came from the House. The Senate Committee has applied the same principle to spices and has restored them to the free list, where they have always been again on the same principle. The Senate Committee has increased the rate on spirits and wine fifteen per cent. throughout.

In the cotton schedule there has been an extension of the specific rates to cover a class of fancy goods and novelties which are covered in the existing law by ad valorem rates. The existing ad valorem rates have not been increased. The average rate in the cotton schedule, other than the rates on fancies and novelties, remains the same.

Raw flax has been restored to the Senate Committee to the dutiable list, otherwise the schedule remains substantially as it came from the House. The Senate Committee has restored the rates in the wool schedule to the rates of the present law.

# THE NERVES NOT UNDERSTOOD.

### By most people and by many doctors—Hence their treatments fail.

The best authorities now agree that restorative treatment such as Dr. Chase's Nerve Food is the only rational and successful means of cure. It is not so very many years since diseases of the nerves were attributed to the presence of evil spirits and more recently sufferers from nervous derangement suffered from nervous derangements have been told that they only imagine they are sick.

When Dr. Chase's Nerve Food was first put upon the market as the only natural and effective method of curing derangements arising from exhausted nerves it was considered almost revolutionary but its success was remarkable from the start, many who used it being cured of such severe forms of nervous trouble as locomotor ataxia and partial paralysis.

Now the very best authorities claim as did Dr. Chase that the only way to cure diseases of the nerves is to make the blood rich, red and nutritious and to build up the wasted nerve cells by such treatment as Dr. Chase's Nerve Food.

Mrs. W. R. Sutherland, St. Andrews, Man., writes: "In 1903 I was stricken with paralysis, all helplessly to the floor and had to be carried to bed. The doctors pronounced it a bad case as I had no power in my tongue and left leg. For six months I lay in that condition without benefit from the doctors' prescriptions. My husband advised me to try Dr. Chase's Nerve Food and by use of this treatment all the symptoms disappeared. I can now talk plainly, my leg is all right and I can do all my own household work. I am grateful to be cured by so wonderful a remedy."

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50, at all dealers of Edmondson, Bates & Co., Toronto.

# FATHER OF LORDS.

### Earl of Wenysay the Oldest British Peer.

### Sealing Steamer Decapo Believed to be Lost.

St. John's, Nfld., April 12.—The sealing steamer Decapo has not been heard from for several weeks, and it is feared she was lost between the Nova Scotia coast and Newfoundland last week. The Decapo carried a crew of thirty men. A search will be made at once to ascertain their fate. The captains of the steamers Beothic, Eagle and Bonaventure, which arrived here today, report that they saw no trace of the Decapo. The Beothic brought 34,000 seals, the Eagle 22,000, and the Bonaventure 14,000, making the total catch by the fleet 250,000 for the season.

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

**What is CASTORIA**  
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving Health and natural sleep. The Children's Panacea—The Mother's Friend.

# FELL FORTY FEET.

### Freight Train Stopped on Bridge and James Bailey Jumped.

Rainy River, April 12.—Friday night a C. P. R. freight stopped on the Beaudette bridge, and James Bailey, an old country settler, jumped from his car of effects, thinking to land on terra firma. He went over the edge of the trestle to the ice, forty feet below.

Dr. Grummett, who examined him later, found his leg, arm and several ribs broken, and after temporary treatment accompanied Bailey to the Winnipeg Hospital on Sunday.

# EARTHQUAKE IN PERU.

### Severe Shock Fell at Lima, Accompanied by Subterranean Rumbling.

Lima, Peru, April 12.—A severe earth shock was experienced here at 3:05 o'clock this morning. The movement was from east to west, and it was accompanied by subterranean rumblings. The people of the city were very much alarmed, but no casualties resulted. The quake was attended by a dense fog and clouds of dust. The corners of a number of buildings were thrown down to the streets, and clocks all over the city stopped. The shock was felt also in Callao, Barranco and Chorrillos.

The sealing steamer Decapo is thought to have been lost with his crew of thirty men, between Nova Scotia and Newfoundland.

**VESTRIES OF THE ANGLICAN CHURCH.**

*Prosperity Seems to Have Attended the Efforts of the Churchmen in Hamilton.*

*Warm Discussion at Ascension Over Vested Choir—Rejoicing at Cathedral.*

All of the various Churches of England in Hamilton seem to have enjoyed prosperity during the year which closed at Easter, and the annual vestry meetings, held last evening, were generally harmonious. That of the Cathedral was particularly happy. At the Church of the Ascension the question of a vested choir was warmly discussed and at St. George's a peculiar situation was revealed by Mr. Wm. Nicholson having withdrawn about a year ago without having resigned as delegate to the Synod.

**CHRIST'S CHURCH CATHEDRAL**

"As I came to the cathedral this morning to Holy Communion, it seemed to me that it smiled at me; that each stone in it spelled freedom." In these happy words, at the vestry meeting of Christ's Church Cathedral last evening, Canon Abbott, its rector, voiced the joyous feelings that fill the hearts of himself and the congregation after Easter, Sunday's offerings that wiped out all indebtedness against the chief edifice of the Niagara Diocese. It was no wonder, then, that cheerfulness predominated at the vestry proceedings and everything went happily. Canon Abbott occupied the chair and John Howstead acted as clerk. The attendance was good.

**ST. GEORGE'S CHURCH.**

The best part of an hour was taken up in warm debate last night at St. George's Church vestry meeting discussing the case of a member of the church who left, it is claimed, on rather unamicable terms with the congregation and church in general, at last year's vestry meeting. The member in question was ex-Alderman William Nicholson. Last year he was appointed a lay delegate to the Synod, but it was said this did not satisfy Mr. Nicholson who considered himself slighted, and he and his family left the church. As lay delegates to the Synod are elected for a term of three years, the members of the congregation were at a loss to know how they were going to be represented by the three members if Mr. Nicholson did not resign or was not voted out of his job. Mr. Wm. Marsden, the retiring incumbent, was re-elected, and Mr. McLellan started the other discussion by asking if Mr. Nicholson was not a member of the congregation, he was, therefore, not a representative of it, and this left the church with only two delegates.

Mr. W. A. Noble moved that Mr. Nicholson be removed from the position of lay delegate, but the rector said he was at a loss as to how to deal with the proposition, and he wanted to avoid anything that looked at all like spite on the part of the congregation. Mr. McLellan stated that Mr. Nicholson had left the church through spite, and there was no getting over the fact. If he had been allowed to resign, he added, he would have sent in his resignation, and not wanted to continue as the representative of his one-time church. He seconded the motion of Mr. Noble. Mr. Hall objected to this, and the vestry clerk sided with him, and at once moved an amendment that Mr. Nicholson be appointed as a lay delegate, and he proceeded and asked for his resignation. If he refused to give it he could then be ousted by a vote of the members at an adjourned meeting of the vestry. Mr. Hall seconded this. After some more warm talk the amendment was carried.

J. M. Williams, vestry clerk, was deputed to wait on Mr. Nicholson and get his answer. He said he would be quite willing to go over to the other side of the argument if he failed to get a favorable answer from Mr. Nicholson. The foregoing was at the laymen's meeting held immediately after the vestry meeting.

Mr. Howitt presided and opened the vestry meeting with prayer. He was supported by J. M. Williams, vestry clerk. Holland A. White, people's warden, was on the platform, but Chas. H. Zimmerman, rector's warden, was absent through illness.

The financial statement showed receipts of \$4,269.49, an advance over last year of \$526.81. Improvements and a necessarily larger expenditure resulted in almost the same balance on hand this Easter as last, the cash in the bank being \$80 more than a year ago.

The receipts for the year were made up as follows:

Balance on hand, March 31, 1908	\$ 719 86
Mortgage debt sinking fund	829 67
Pew rents	2,732 71
Offerings—envelopes	2,243 05
Offerings—general	2,740 27
Sunday receipts	457 50
Special collections	1,278 93
Interest	66 55
Special offerings	161 85
Synod	1,145 33
	\$12,995 12

Disbursements—

Salaries to March 31, 1909	\$ 5,366 00
Payments on principal of debt	500 00
J. M. Burns, loan paid March 23, 1909	500 00
Payments of interest	373 09
Repairs and betterments	831 70
General expenses	1,529 95
Insurance—Premiums on policies	291 56
Special offerings paid	1,604 48
Synod	1,694 48
Mortgage debt sinking fund—Carried forward March 31, 1909	1,362 17
Balance on hand, March 31, 1909	234 38
	\$12,995 12

\$2,145.92; disbursements, \$2,145.92.

Liabilities at Easter, 1909—Toronto Mortgage Co., excluding principal and interest due April 1, 1909, \$6,500.

Peter Carroll trust fund—Receipts, \$662.12; disbursements, \$252.12.

Mr. Champ moved the adoption of the report, which was agreed to.

Canon Abbott expressed his regret at having to say good-bye to so good a Warden as Mr. Witton, and he named as his successor another able man, Geo. Moore.

H. H. Champ was re-elected as People's Warden.

Canon Abbott, in his message to the members, gave great praise to the parochial organizations, all of which had done excellent work. The parish work for the year was detailed, the principal features being these: Baptisms, 135; confirmations, 133; visits (retor), 2,772; sick visits (retor), 388; visits (curate), 1,193; sick visits (curate), 301; celebrations Holy Communion, 130; private celebrations Holy Communion, 50.

The following were chosen the Committee of Management: Wm. Armstrong, R. R. Bruce, C. D. Blackford, J. Bowstead, Paul J. Myler, J. M. Lottridge, R. S. Morris, W. J. Southam, C. S. Scott, W. O. Tidswell, H. B. Witton, A. M. Glasco, and the Wardens.

These were elected the Sidesmen: P. H. Alexander, Geo. Armstrong, Wm. Armstrong, R. R. Bruce, G. H. Bull, G. M. Bagwell, J. Bowstead, Dr. Cockburn, Dr. A. M. Glasco, T. Harley, J. M. Lottridge, R. S. Morris, Paul J. Myler, W. L. Ross, Geo. Robinson, S. W. Shotter, W. J. Southam, C. S. Scott, W. O. Tidswell, R. B. Davis, J. G. Allen, F. B. Benjamin and J. Davidson.

F. R. Martin and J. E. Clark were elected Auditors.

Heartly votes of thanks were passed to the choir-master, organist, choir, and the various organizations of the Cathedral for all they had done the year.

Canon Abbott said that it was not possible for a pastor to have more devoted societies to aid him.

Mr. Champ made a short statement respecting the Easter offerings. The amount subscribed at the morning service was \$4,269.99, and at the evening service \$279.94, a total of \$5,197.83, which was exactly the balance owing on the mortgage.

Canon Abbott said he did not expect to do so well, after the hard financial

swelled by a bequest of \$150 from the estate of the late William Eames, Dundas. This, added to the general church balance and the balance from the branches of the church work, makes a total balance of \$435.58 on hand.

It was announced in the report of the building fund that but \$1,500 of the mortgage remained outstanding owing to the good work during the year, which cut off nearly \$300.

Mr. Holland A. White, people's warden, praised the increased receipts, and said that it was against adverse circumstances that the increase was brought about. The pastor was absent three months; it was a poor financial year; repairs cost four times as much as the previous year, and there were three Sundays less than in last year.

The rector stated that during the year there were 10 marriages, 16 deaths, 34 confirmations and 63 baptisms. On Easter Sunday there were 275 communicants—more than ever before on an Easter Sunday.

J. D. Fairclough reported that the Sunday school was progressing, and that on June 10, 307 pupils were present.

In making his report Mr. Howitt said that what he wanted to see in the year of increased expenditure was for St. George's Church to take the lead in Anglican churches in the city and send a missionary to the foreign field on its own responsibility.

Mr. W. A. Noble expressed himself as highly favorable to the idea, and he was also optimistic of St. George's ability to do what was necessary to support a man of their own.

Mr. H. Sandes said that it cost St. Ann's, of Toronto, \$1,000 a year to support a missionary in China.

Mr. Robt. V. Mathews said he was highly in favor of the scheme, and was sure the church would be able to support a missionary.

The idea will be dealt with by the select vestry when statistics have been gathered re expense of a missionary.

The election of officers resulted as follows:

Rector's warden—Chas. H. Zimmerman.

People's warden—Holland A. White.

Sidesmen—R. Gilbert, J. and M. Howitt, H. Malan, Gastle, Birmingham, H. Wilson, Egg, Markie and R. V. Mathews.

The foregoing added to the forty already acting make up a list of forty sidesmen.

Auditors—J. M. Williams and H. Wingfield.

Select vestry—W. Marsden, R. V. Mathews, H. Sandes, McLellan, W. A. Noble and J. M. Williams.

Greater things are expected this year from the mile boxes, and if the church debt can be wiped out, a new Sunday school will likely be built.

The meeting was adjourned after the customary votes of thanks had been tendered to last year's officials.

There was an unusually large attendance at the Church of Ascension's vestry meeting, it having been reported that the question of a vested choir would come up. It did come up and a warm discussion ensued, and but for the fact that the Synod was in session, Canon Wade conducted the business, the would have been many more words spoken. Up to the time this subject was introduced the meeting was most harmonious.

Mr. Thomas Hobson started the discussion when he moved the following resolution:

"That it is desirable that the choir of the Church of the Ascension be vested and that as soon as boys can be trained they shall be added to the choir and that all necessary arrangements to introduce the choir be left in the hands of the rector and warden."

In moving the resolution he said he knew there was a strong feeling in the congregation in favor of a change in the musical part of the service.

Mr. Frost, the newly-elected people's warden, said that he was personally favorable to a vested choir, very strongly in favor of it, but he would not support it unless it was shown that the congregation was almost unanimous in favor of it. The church had to raise more money than it could get, and it was not wise to do anything which would cause any deflection or dissension.

Mr. R. Ramsay followed with a red hot speech against the proposition. He recalled the time, about eighteen years ago, when a bitter fight was waged against a movement to vest a vested choir and "other high church ornaments," and how it was carried into the Police Court. There were old members of the church who were prepared to stand as strongly now. His remarks were applauded by a large number in the audience.

Mr. Alfred Powis also spoke strongly against the proposition.

Prof. Aldous called attention to the fact that unless the boys were well trained, their introduction into the choir would be a detriment. To properly train a lot of lads would cost considerable money. Was the congregation prepared to make this outlay? He favored the providing of vestments for the present members of the choir, but would not advocate the introduction of a boys' choir.

Mr. F. R. Smith personally favored a vested choir, but he would not support the proposition in view of the opposition to it. He hoped that the resolution would be withdrawn or the vote on it deferred till a congregational meeting was held.

Mr. R. L. Gunn said if the resolution was carried there would be dissension from the church and he hoped no vote would be taken. If the church had money to provide vestments, he would like to see it spent in other ways.

Mr. Hobson did not withdraw his motion, but advised that a vote be taken as to whether the matter should be considered further, at a meeting to be held in a month. He said he had been told by musical people that the singing of the choir was abominable and the choir leader said it was impossible to get better results under present conditions.

A motion to adjourn the meeting one month to further consider the matter, was moved by Mr. F. R. Smith, who explained that if it was defeated the whole matter would be shelved for one year.

The motion was lost by a vote of 20 to 25, the motion being carried and double against it. It was 11 o'clock when the matter was finally disposed of.

All the reports were adopted without discussion. Mr. Thos. Hobson presented the report of the Wardens. The principal items of receipts and disbursements were:

Receipts:

Pew rent, current	\$1,426 59
Pew rent, arrears	289 65
Pew rent in advance	15 75
Weekly offertory	2 822 92
General missions	1,312 25
Cemetery	245 00
Special collection	736 86
M. S. C. C.	3,368 69
Other contributions	2 956 82
	\$7,505 94

Disbursements:

Rector's stipend	\$2,000 00
Rev. A. B. Higginson, assistant	800 00

There was a fair-sized attendance at the vestry meeting of St. Philip's Church last evening, but business was not concluded, owing to the fact that the church warden's report was not in shape to be presented.

After the opening exercises the rector, Rev. Mr. Kenrick, who occupied the chair, spoke briefly on the progress of the church during the past year. While he would not boastfully speak of it as a year of progress, he could say he was highly pleased with the advance accomplished. Some things that had been provided which had been sadly lacking and which gave to the church a more seemly and dignified appearance.

Included in the improvements were the buying of fifteen feet of vestry carpet, men and boys. The rector, Mr. Kenrick, added greatly to the dignity of the church. Then there had been extensive additions to the church, the most important being the vestry room. Another part of progress was the work in Crown Point, the choir, the choir-master, E. H. Quickmore, and members held in a hall on Sunday mornings, at 7:30, and evenings, conducted by a student from Toronto, who will shortly take up his residence in this city and take charge of the work in this ever-growing district. The rector thought a tent should be used in the summer and that in the meantime a suitable building should be erected. He had hopes of a great work in this busy little place.

Mr. Inch was elected vestry clerk and led the minutes of the previous meeting.

The Sunday school report showed an increase in average attendance, the figures being: 1908, 77; 1909, 90. Receipts \$73.74; expenditures \$71.68, leaving a balance of \$2.06.

The report of the Ladies' Auxiliary showed a balance of \$287, the receipts for the year being \$93.38, and the expenditure \$91.38.

The Young Men's Club was reported as progressing favorably, as was also the Bible class.

The Auxiliary had a creditable report to submit, having \$15 on hand, the receipts being \$65.85, and expenditure \$50.85.

On the suggestion of the pastor, it was moved by Mr. A. Aldridge that the reading of the church warden's and auditor's report should be adjourned for two weeks. The motion was carried and the report will be read on Monday, April 26th.

The choice of church warden resulted in Messrs. C. H. Emery and Jas. Cooper being retained in their positions. Sidesmen were elected as follows: W. Ellis, A. Aldridge, W. Smith, D. Ferguson, C. Clark and J. Foster.

After votes of thanks had been passed to Mr. Inch, organist, the choir, and many of the members, individual for their real during the past year, the rector declared the vestry meeting adjourned.

A congregational meeting was then called to elect lay delegates to the Synod, and resulted in the following being elected: John Souther, Joseph Whitehead and James E. Cooper.

There was a fair-sized attendance at the vestry meeting of St. Philip's Church last evening, but business was not concluded, owing to the fact that the church warden's report was not in shape to be presented.

The Sunday school report showed an increase in average attendance, the figures being: 1908, 77; 1909, 90. Receipts \$73.74; expenditures \$71.68, leaving a balance of \$2.06.

The report of the Ladies' Auxiliary showed a balance of \$287, the receipts for the year being \$93.38, and the expenditure \$91.38.

The Young Men's Club was reported as progressing favorably, as was also the Bible class.

The Auxiliary had a creditable report to submit, having \$15 on hand, the receipts being \$65.85, and expenditure \$50.85.

On the suggestion of the pastor, it was moved by Mr. A. Aldridge that the reading of the church warden's and auditor's report should be adjourned for two weeks. The motion was carried and the report will be read on Monday, April 26th.

The choice of church warden resulted in Messrs. C. H. Emery and Jas. Cooper being retained in their positions. Sidesmen were elected as follows: W. Ellis, A. Aldridge, W. Smith, D. Ferguson, C. Clark and J. Foster.

After votes of thanks had been passed to Mr. Inch, organist, the choir, and many of the members, individual for their real during the past year, the rector declared the vestry meeting adjourned.

A congregational meeting was then called to elect lay delegates to the Synod, and resulted in the following being elected: John Souther, Joseph Whitehead and James E. Cooper.

There was a fair-sized attendance at the vestry meeting of St. Philip's Church last evening, but business was not concluded, owing to the fact that the church warden's report was not in shape to be presented.

After the opening exercises the rector, Rev. Mr. Kenrick, who occupied the chair, spoke briefly on the progress of the church during the past year. While he would not boastfully speak of it as a year of progress, he could say he was highly pleased with the advance accomplished. Some things that had been provided which had been sadly lacking and which gave to the church a more seemly and dignified appearance.

Included in the improvements were the buying of fifteen feet of vestry carpet, men and boys. The rector, Mr. Kenrick, added greatly to the dignity of the church. Then there had been extensive additions to the church, the most important being the vestry room. Another part of progress was the work in Crown Point, the choir, the choir-master, E. H. Quickmore, and members held in a hall on Sunday mornings, at 7:30, and evenings, conducted by a student from Toronto, who will shortly take up his residence in this city and take charge of the work in this ever-growing district. The rector thought a tent should be used in the summer and that in the meantime a suitable building should be erected. He had hopes of a great work in this busy little place.

Mr. Inch was elected vestry clerk and led the minutes of the previous meeting.

CARROLL AND MARTIN

A Fierce Bout at Niagara Falls.

Buffalo, April 13.—Frank Carroll had a distinct advantage over Jack Martin, of Buffalo, in one of the best and fiercest fights ever seen in this vicinity last night.

Tigers to Box at A. M. C. Tournay.

Buffalo, April 13.—The Buffalo Tigers will box at the A. M. C. Tournay on Saturday night.

Opening of the American League.

Philadelphia, April 13.—The American League season was opened in this city yesterday with the largest game in this city.

Johnson and Ketchell.

New York, April 13.—In all probability Stanley Ketchell, middleweight champion, will be the first white man to try for Jack Johnson's heavyweight championship title.

Weston Was Lost.

Delta, Ohio, April 13.—Edward Payson Weston, the pedestrian, reached Delta at 9:20 o'clock on Saturday morning.

Indians Good Farmers.

Up in Saskatchewan They Are Industrious and Prosperous.
The Indians of the great Canadian prairie Province of Saskatchewan are disproving the theory that an Indian won't work unless he has to.

Motor Cycle Record.

Los Angeles, April 13.—Three world records on a motorcycle have been broken here, two by Jake De Rosier and one by Fred Huyek.

Danger in Eye Pouches.

Do not poultice an eye in any circumstances whatever. Binding a wet application over an eye for several hours does more damage to the eye than any of those professing to have personal experience in this to the contrary notwithstanding.

Merle Alderman.

University of Iowa coaches think they have, in Merle Alderman, the greatest find since Ralph Rose escaped from California.

BONUS BY-LAW.

St. Mary's & Western Ontario Railroad Extension.

A Divided Vote Which May Defeat By-law.

(Special Despatch to the Times.) St. Mary's, Ont., April 13.—The by-law to bonus the St. Mary's & Western Ontario Railroad to the amount of \$20,000 by each township was submitted yesterday in Blanshard and Osborne and was defeated in Blanshard by 18 and carried in Osborne by 80, according to incomplete returns.

ART IDEALS

Concerning Man Who Looks With Scorn Upon "Classical" Music.

Scarcely a man could be found who would admit that he thought far more of a common lithograph than his did of a fine oil painting. Yet scores of people consider that the palest musical jingles are more pleasing than what they scornfully call "classical" music.

ARE DISSATISFIED WITH THE DIVISION.

(Continued from Page 1.) scheme can be worked out, however, is to acquire more property. The present waterworks yard is not large enough and, even if it was, it would be very expensive to take all the Board of Works repairing up there.

LABOR QUARREL.

Kier Hendrie and Others Resign From Labor Party.

Edinburgh, April 13.—The recent factional brawls in the ranks of the Independent Labor party, which have militated seriously against the usefulness of the party in the House of Commons, came to a climax at to-day's session of the annual congress of the organization, when James Kier Hendrie, Philip Snowden, Ramsay MacDonald and Bruce Glasier resigned their seats as members of the national administrative council.

TEA TABLE GOSSIP.

—Mr. and Mrs. Grandbois and Mr. Perry Grandbois, of Chatham, spent Easter with Mr. and Mrs. Arthur W. Morris, No. 139 Erie avenue.

RICH STRIKE.

Manager of Maple Leaf Park Made One Yesterday.

Manager Robertson, of the Maple Leaf Amusement Company, completed arrangements yesterday that will mean a great deal to the success of the Hamilton Exposition, which opens at Maple Leaf Park on Victoria Day.

IS DELIGHTED WITH RESULTS.

Mr. J. H. Mitchell knows a good thing. He had three nice rooms for which he desired to get good occupants, so he advertised in the Times. Mr. Mitchell says that the Times brings a good class of roomers. I am delighted with the results.

TO MR. CHAMP.

Shop Employees Honor Popular Secretary-Treasurer.

At noon to-day, at the office of the company, the shop employees of the Hamilton Bridge Company made a presentation to Mr. W. B. Champ, secretary-treasurer, who is to be married this week at Ottawa. A rich cut glass punch bowl, decanters and glasses, on a silver tray, were presented to him by Mr. A. H. Phoenix on behalf of the shop, and the employees' cordial feelings towards him were expressed in suitable words.

THE MIKADO.

Full Rehearsal To-night—A New Yum-Yum.

Work on the Gilbert & Sullivan opera, "The Mikado," is progressing splendidly. To-night there will be a full rehearsal of principals and chorus, at 8 o'clock, in the Conservatory hall. Dr. Harris particularly requests that every member be in place at 8 o'clock as the whole work is to be taken up.

WAS FATAL.

Accident to George Aldridge Resulted in Death.

The death of George W. Aldridge occurred at St. Catharines yesterday. Deceased was employed by the G. T. R. as a brakeman, and about a week ago was found on the tender of an engine in a badly injured condition near Merrick. His skull was fractured, and since the accident he had been conscious only at intervals. It has not been ascertained how the accident happened, but it is supposed that he struck a bridge. He was taken to St. Catharines, but surgical aid proved of no avail, and he remains will be brought to this city for interment.

BROKERS FAIL.

Ennis & Stoppani in Bankruptcy and Receiver Appointed.

New York, April 13.—An involuntary petition in bankruptcy was filed in the United States District Court here to-day against the brokerage firm of Ennis & Stoppani, members of the Consolidated Stock Exchange and the Chicago Board of Trade. The liabilities are alleged in the petition to be \$1,500,000 and the assets \$1,000,000. Lindsay Russell was appointed receiver.

HE SINGS.

Therefore Fred Anderson Was Arrested For Insanity.

Imagining that the little birds trilled not sweeter than he, Fred Anderson, Wood street east, was arrested while at work this morning at the Otis-Finney Co.'s offices by Constable Springer, on a charge of insanity. Anderson is an Englishman, and some time ago developed a mania for singing. He sang at his work and he sang during his sleep. In fact, he kept singing all the time. He had his first test by a court-appointed doctor. The smash came when, it is alleged, he took an axe and threw it at two of the men at the shop because they had the audacity to make rude remarks about his singing. Anderson left the office with a cherry good-bye, and went to Constable Springer about his powers as a vocalist all the way to No. 3 station. He was given a cell on the top floor where the sparrows roost, and was still singing at press time. He will likely have a chance to study the feathered warblers on the mountain top first hand when the insanity experts have examined him.

ROCHESTER FIRE.

Militia Called Out—Help Asked From Buffalo.

Rochester, N. Y., April 13. Fire broke out this forenoon in a business block at the corner of East Main and Gibbs streets. It communicated with some apartment houses in the rear of St. Peter's Church. A high wind was blowing. Later a second fire broke out in the First Reformed Church of the Reformed Church of America, a frame structure in Oregon street, corner of Harrison, about a mile from the first fire, and an alarm was turned in.

GREAT HAMILTON.

The committee on organization, which has been hard at work forming the various committees of the Greater Hamilton Association, has completed its labors, and the members are pleased to announce that they have secured the pledges of over one hundred and twenty prominent business men of the city to act on these committees.

A notice has been sent out to these gentlemen to meet tomorrow afternoon at the Board of Trade room, at 4 o'clock to confirm these appointments and complete organization.

NOTICES OF BIRTHS, MARRIAGES AND DEATHS

which are inserted in the Daily Times also appear in the Semi-weekly Times. 50c first insertion; 25c for each subsequent insertion.

DEATHS

EASTER.—In this city on Monday, April 12th, 1920, Wm. Arthur Easter, youngest surviving son of Frederick Easter, aged 20 years.

MORWICK.—At her late residence, Alberton, on April 12th, 1920, Jane, beloved wife of Hugh Morwick, aged 83 years.

BICKNELL.—At his late residence, 62 Huron street, Toronto, Ont., on Monday, 12th April, 1920, Hugh Harry Bicknell, bachelor, in his 96th year.

SUNDAY FISHING.

Illegal to Catch Fish on Sundays With Apparatus.

It is said that considerable fishing goes on in Burlington Bay on Sundays in contravention of the law against such practice. Perhaps Fishery Inspector Kerr has not heard about it, or, no doubt, he would have put a stop to it before now. It has been pointed out to the Times that chap. 45, of the revised statutes of Canada for 1907, entitled "An Act respecting Fisheries and Fishing," sec. 47, sub-sec. 14, enacts as follows:

TENDERS WANTED

Tenders will be received by the undersigned up to 12 o'clock, noon, of Friday, April 16th instant, for the construction of:

PIPE SEWERS

on the following portions of streets:—Richmond street, from Hunter street, south-east; Garth street, from West End Sewer to Jackson street, and on Jackson street from Garth street to Puske street.

TOO LATE TO CLASSIFY

STEADY RESPECTABLE MAN SEEMS employment, any country; best of reference. 75 Main street west.

THE WEATHER.

FORECASTS.—Southerly winds, warm and showery, becoming cold during the night with northwest winds. Wednesday fresh northwest winds and cold.
