ity" performances. The material of the original model, writes Idalia de Vil-

silks and wools. The smart collar was

made of beaver fur, and the cuffs

matched. This dress would look quite as well with collar and cuffs of velvet,

At the same time it must be record-

ed that small fur collars are appearing on many of the new spring dresses and it is whispered that when the hot summer days are with us again we shall be bringing out such "summer

furs" as beaver, fitch, dyed rabbit and mole. This fashion of applying small

pieces of fur to summer dresses is not

at all extravagant. Fur lasts a long

time and a well-cut collar may be worn with very many different dresses

those intended for evening use as well

Both Premet and Doeuillet are showing long straight lines this spring. In-

deed this applies to most of our leading

dressmakers, but chez Doeuillet it is

specially in evidence. Some of his best models measure a bare yard and a half

at the hem of the skirt and the tunics

are so long, and cut so straight, that

the general effect is wonderfully youth-

THE pen is mightier than the

sword - especially when, it has a pig in it. Then multiply that pig by 40,000. Multiply this again by 200 lbs., and Attractive Gown Created for Favan imposing total of 8,000,000 lbs. is reached-more pounds of pork, indeed, than were exported by Canada shortly before the war. Yet Ontario Original Model Was of Belge Gabercould produce that huge quantity by utilizing a valuable food commodity that at present is almost entirely wasted - the garbage of our towns and cities. This is the evidence given by a

commission appointed by the Agricultural Section of the Ontario Organization of Resources Committee, to investigate the feeding of garbage to swine. The commission consisted of J. E. Brethour, Burford; F. W. Johnson, Walkerville, and Justus Miller, Toronto. These gentlemen have lately returned from a tour of American cities where garbage is fed to hogs and are of the only of the liers, was beige gaberdine and the em-broideries were worked in self-colored to hogs and are of the opinion that

to hogs and are of the opinion that Ontario ought not to delay longer in the matter. The salient points of the report which has been prepared regarding their findings are briefly: (1) That garbage has a food value of between \$8 and \$9 a ton; (2) that it should be fed entirely untreated, i.e., that it should not be heated, washed or sorted; (3) that residents of towns and cities where garbage is to be fed, must separate their garbage, placing and cities where garbage is to be fed, must separate their garbage, placing table refuse only in a separate con-tainer; (4) that for every 100,000 of population a minimum of 6,000 tons of garbage is produced each year, which will feed 3,000 hogs; (5) that the double treatment (se-rum and virus) for hog cholera must be given to make the plan feasible. A small percentage of our garbage has been fed to hogs already but the regulations of the Federal Veterinary Director-General compelled feeders to sterilize garbage by the boiling or steaming process and prohibited the immunizing of hogs by the double immunizing of hogs by the double treatment against cholera. Since re-turning to Canada the investigating committee has taken the matter up with Dr. Torrace, however, and has secured his permission to allow un-treated garbage to be fed and hogs to be given the double treatment, subject to very reasonable conditions. Detailed information may be secur-ed by consulting the office of the Commissioner of Agriculture Parlia-

Commissioner of Agriculture, Parliament Buildings, Toronto.

threshing gang in Ontario it is hoped to initiate the work on a reasonably large scale this year. The Ontario Department of Agriculture is making a study of the proposition as it affects the farmer, while the Ontario Labor Bureau has agreed to provide 5,000 men for threshing gangs if there is a demand for these. With suitable co-operation between the farm public of the province and the Provincial Department of Agriculture there should be no difficulty in organizing a large number of gangs this fall. FOR EARLY SPRING

## Different Kinds of Heat

Your furnace should not only give you plenty of heat, but the right quality of heat.

Some houses would be better without any heat than the kind their fur-naces give them.

If you study the Sunshine Furnace you will know what the right kind of heat is and how to get it.

Children Cry FOR FLETCHER'S CASTORIA Supplying Milk for City Trade.

"Safety first" is a good slogan in the milk business. To make milk safe it must be drawn from healthy cows — preferably those which have passed the tuberculin test; the stable, pasture and all surroundings must be clean; the utensils which come in contact with the milk must be clean; the persons handling the milk should be a living advertisement of exempli-fied cleanliness; the delivery wag-gons, cans, measures, etc., should be clean. In order that assurance of safety may be doubly sure, it is ad-visable to pasteurize the milk,—that is, heat it to 140 degrees to 150 de-grees F., hold at this temperature for twenty to thirty minutes, then cool to 50 degrees F. or below and hold at this temperature until deliv-ered to the consumer. — Pasteurized milk is the safest kind of milk for humans to drink. the persons handling the milk should humans to drink.

humans to drink. The person buying milk has certain duties in order to ensure a safe pro-duct, especially for children. Among these may be mentioned: Placing the milk at once on delivery in a refrig-erator or cool cellar protected from duct and odors and by keeping it in dust and odors, and by keeping it in a tightly-closed vessel—preferably in the milk bottle covered with an inverted glass tumbler, or special cov-er; the top of the milk-cap should be wiped to remove dust before taking it from the milk bottle; no more milk it from the milk bottle; no more milk should be taken from the supply bot-tle than is required for a meal; any "left over" milk, should not be **put** into the supply vessel after the meal, as this will likely spoil the whole of the milk on hand; milk taken to a sick-room should not be used for any other purpose, except it be boiled and then only for cooking; milk bottles should be washed as soon as empty and he promptly returned to the and be promptly returned to the milkman—in no case should milk bottles be used for any other purpose in the house that for holding milk.-Prof. H. H. Dean, Ontario Agricul-tural College, Guelph, Ont.

#### Threshing Gangs for Ontario-

Farmers are shorter of labor this year than they have ever been beford. In many cases there may be but one man on a tarm, assisted, perhaps, oy a boy. It will be necessary, there-fore, to economize labor in every way

(Too late for last week) Miss Jane Robertson of Pt. Huron is visiting friends in this vicinity.

Corps, Toronto, and J. C. Hindson of McGill University. Among the guests were Mrs. Sam Cook, Mrs. Palmer, Mrs. Scarlett, Mrs. R. J. Westgate, Mrs. W. Westgate, Mrs. Frank Bole, Mrs. Dawson, Mrs. J. W. Smith, Mrs. E. McKenzie, Mrs. Farr, Mrs. C. Rowe, Mr. T. McGregor, Mr. A. McGregor, Mrs. Art. King, Mrs. Albert King, Mrs. W. J. Hastings, Mrs. J. G. Hastings, Mrs. W. Hindson, Mrs. D. Thom, Mrs. Amon Rodgers, Mrs. A. Rodgers, Nurse Swift, Nurse Leggett, Miss M. Leggett, Mrs. Moody, Mrs. (Dr) Burnette. Miss Helen Robson, Sarnia, spent Victoria Day with her friend Miss Olive Tait. Mrs. James Russell and daughter

Emma visited relatives in Springfield last week. Mrs. Elma Ramsay and daughter

Gladys spent a few days with Pte. B. A. Ramsay who is on garrison duty with the Ontario draft in Quebec

city. On Wednesday evening, May 22, a very successful concert was given in the Methodist church, Wanstead, praise from thankful mothers as do by the Uttoxeter theatrical troupe, when they presented the drama 'Only a Country Girl" to a packed house. The actors deserve exceptional credit for the manner in which they represented the different characters, and for their taste in arranging the stage. During the intermis promote healthful sleep and make sions music was furnished by the Dewar orchestra and by Miss Beatrice Doyle of Mandaumin, who sang several pleasing solos. The receipts of the evening amounted to \$60.25. which was handed over to the local Red Cross.

### WOMAN PLEADED FOR CANDOR

Matron Announcing Nearness of Birth day Found Truth Not So Attrac tive After She Got It.

A woman with a birthday in sight spoke earnestly to three men who were her friends, writes Ella Randall Pearce, in life.

"Tomorrow will be another birth-day for me," she said. "I know the freshness of my youth has departed; but I should like to know just how old I appear in the eyes of the world. Tell me, my dear friends, if you were looking on me for the first time what would be your impressions?"

Said the first man glibly: "I have known you for several years, and you appear the same as when I first saw you. Your beauty is undimmed; your charm is undiminished. If I did not know otherwise, I should say tomor row would be your twentieth birthday." Said the second man more slowly:

"I, too, have known you for several years, but it seems to me you have been favored by time. Your beauty has ripened and deepened until now you, who were once a lovely bud, are a lovelier rose in bloom. I should count tomorrow as the beginning of your twenty-fifth year."

"And you," queried the woman of the third man, who had been regarding her with clear-eyed frankness. "Between friends there should al-

ways be truth," he replied gravely. "I acknowledge your beauty and your charm and both have been wonderfully preserved in semblance of youth. But you ask for candor and you shall have it. Looking at you closely, I should not expect you to see thirtyafter tomorrow.'

The woman faced the three men who were her friends, and her eyes were gleaming while her cheeks' pink turned crimson. She pointed an accusing finger. "You have lied," she said tremulous

ly, "and you also. But I will forgive you both because you lied to please me. But you"-she whirled toward the last speaker--- "you are a barbarous egotist. You have wounded me in or-der to maintain your own reputation for veracity. Truth, indeed! Your honesty offends me. We are no longer friends. Go-and quickly !"

"Whew!" exclaimed the third mass as he strode through the outer daring ness. "I wonder what would have happened to me if I had really told her the trath?"

New Boomerang Bullet. The discussion of the war is heard everywhere. Even negro janitors find time while shoveling on the coal te talk about it, says a New York news letter. Two of them were discussing the wonderful inventions brought about by the war. "The man Edison is some boy," said one of the negroes. "How's that?" inquired the other. "Why he's done gone and invented a magnetize bullet dat can't miss a German, if it

calls some invention." exclaimed the

recognized order of an exclusively religious character, or is a minister of a dollars, and by imprisonment for any term not exceeding six months and not religious denomination existing in Canada on 29th August, 1917, or as being a less than one month.

tioned shall, if the certificate be in any material respect false or misleading to the knowledge of the person using, signing, or giving the same, be an offence, If it be claimed that he is excepted as a member of the clergy, or of any punishable, upon summary conviction, by a penalty not exceeding five hundred

### ISSUED BY THE MILITARY SERVICE BRANCH OF THE DEPARTMENT OF JUSTICE.

Ottawa, May 22, 1918.

EXEMPTION

If it be claimed that he is exempted from or not liable to military service by reason of any exemption granted or claimed or application pending under the Military Service Act, 1917, or the regulations thereunder, his exemption papers, or a certificate of the Registrar or Deputy Registrar of the district o which he belongs evidencing the fact; or

### **OTHER CLASS**

If it be claimed that he is not within the Class, or that he is exempted, not liable or excepted upon any other ground, a certificate of two reputable citizens residing in the community where he lives having knowledge of the fact upon which the claim is founded and certifying thereto;

### FAILURE TO CARRY REQUISITE EVIDENCE

If upon or after the 1st day of June, 1918, any such male person be found without the requisite evidence or certificate upon his person or in or upon the building or premises in which he is, he shall thereupon be presumed to be a person at the time liable for military service and to be a deserter or defaulter without leave:

#### PENALTY

And he shall also be liable upon summary conviction to a fine not exceeding \$50 or to imprisonment for a period not exceeding one month, or to both such fine and imprisonment; and moreover, any such person may forthwith be taken into military custody and may be there detained and required to perform military duty in the Canadian Expeditionary Force so long as his services shall be required, unless or until the fact be established to the satisfaction of competent authority that he is not liable for military duty.

### FALSE CERTIFICATE

### "But dat ain't all what that other. bullet can do," continued the first speaker. "Whenever that bullet don't hit nothin' it comes straight back to the American lines. "Dat so?" asked the second janitor, with some doubt. "How do they manage to keep them there comin' back bullets from hittin" our own men?" "Well, mah frien', didn't 'splain that," answered the first "but you can betcher life that man Edison has got dem bullets trained. You doan 'spect he'd let 'ens kill any Americans, do you? No, str. He's just got them fixed so dey will come back and fall around our gues ners' feet."

his steel helmet.

Ground Moles Are Big Eaters. A Scotchwoman has just announces the results of an interesting series of observations on the common mole. The most striking point to the layman in the inordinate appetite of this ting creature. A mole will eat its own weight in earthworms in 24 hours. An ordinary man eating in the same retio would require 150 pounds of food a day. If the human race were constituted like the moles, comments and exchange. Mr. Hoover's task would be hopeless from the outset. One of the moles which was a subject for study weighed four ounces and devoured 120 ounces of food in a single month.

Electric Ship Has Future. The electric ship is no longer # dream but a reality and I should not be surprised to find, within a few years of the close of the war, every new vessel of any size driven, steered, stopped, reversed of turned, merely by the pressing of a series of buttons on the bridge, says a writer in the Electrical Times, London. The application of this principle will enable ships to be run with the highest efficiency at an even speed, permit marine englneers more liberty of design and yield proportionately greater cargo space than the present cumberous form at machinery allows,

nothings in the mellow moonlight. He hated himself as an arrant comard as he left Miss Lisle at the do- : of her sister's home. She was a flashing flame of coquetry, she plainly considered that they were engaged, she insisted on his joining herself and her friends in an auto drive the next afternoon.

In the Dark

By GERVEISE FLOYD

They were old, humble, but heart-some people of the old-fashioned k.nd,

simple in their lives, and love and

friendship were exemplified as natural, earnest emotions, devoid of guile. The

young folks had their social gather-

ings, parties, barn dances and husking

bees, custom and mild superstitions, like Hallowe'en fiction lending a charm

to especial occasions. Quite in the course of events each Darby found

his Joan, and at last Rodney Trumbull

There was not a sweeter or prettier

girl in Rockton than Ivy Lane, and

Rodney had known her for about a

year. The parents of both smiled in-

dulgently upon the manifest mutual

sentiments of the couple. Rodney re-

was so imbued with a sense of her

priceless perfection that he grew abash-

naturally of a shy nature, he had made

There was to be a party at the home

of Ivy, and about a week before that

Rodney saw her home from a church

social. As they were about to part at the garden gate he mustered up the

courage to disclose what had been ur-

gently upon his mind for many hours.

"Ivy," he said, "when I come to the party at your house next Wednes-

day, I want you to accept a little keep-sake from me. Will you?"

of roses only yesterday and-

you a ring.'

Ivy.

"But you gave me a lovely bouquet

"But this isn't roses. I want to give

"Oh, Rodney-shocking!" laughed

have ordered it, and if you will only wear it on your engagement finger-"

"There is mother calling. Good night,

"She did not say she wouldn't ac-

cept the ring," breathed Rodney cour-

the arrival of the evening party. Ivy

that set every nerve tingling, but as

give him no further exclusive atten-

partly through the efforts of the young lady in question to make it so, and in

all courtesy Rodney found himself settled as partner and escort for the oc-

little progress in his lovemaking.

garded Ivy as a being ethereal.

was sure he had discovered his.

"I will tell her plainly of the error she is laboring under. And I must see Ivy !" resolved Rodney. But when he rang at the door bell of the Lane home the next day, Mrs. Lane received him coldly and stated that Ivy was to disposed. As Rodney went out of the yard Ivy's father stepped up to him

"Mr. Trumbull," he said sternly. don't know what you have said or done to hurt my girl's feelings, but you'll either mend them or stay away from here after this."

Rodney made one final but unsuccessful effort to reach Ivy. He went to the office of a cousin of hers, who called Ivy up on the telephone and then passed the receiver to Rodney.

"It's me, Ivy," began Rodney, tunul-mously. "And I want to explain--" The air became void. Ivy had hung up the receiver.

Rodney walked aimlessly in the di-rection of the river. He sat down on fallen tree and stared gloomily at the bubbling waters. A shado 7 caused him to look up. The old sirenlike, half scornful smile habitual with her upon her lips, Miss Lisle addressed him.

"And why are you so engrossed in deep meditation. my loyal knight errant," she gibed.

"I was thinking of jumping it.o "he river and ending it all," bluntly declaimed Rodney.

"Ending what?" "My cowardice, my wretched polroonly !" he blazed forth. "It was all

a mistake. My kissing you." "I know," calmly pronounced Miss Lisle. "Listen, my friend; I am go-ing to leave Brocton for my city home tomorrow. You shall be free from the leal service I have so cruelly commanded. I fear I am a heartless jade and coquetry my bane. In the su-

rallway. The longest platform measures 720 feet, and nearly 1,100 trains arrive and depart daily. Waverly station, Edinburgh, with 19

platforms, the longest of which is 1;-680 feet in length, covers 18 acres; whilst other stations which lay claim to distinction on account of their size are Liverpool street, 18 platforms; Clapham Junction and Glasgow (Cen-tral), 17 platforms; Victoria and Crewe, 16 platforms; Euston, Birmingham (New street), and Newcastle (Central), 15 platforms.

Waverly station does not stand alone in the possession of a platform over 1,000 feet in length. Victoria and Crewe have 'platforms measuring 1,-500 feet and 1,509 feet respectively, while at Newcastle (Central) and York stations there are platforms 1,-389 feet and 1.480 feet in length.

One thousand seven hundred and thirty trains either pass through or stop at Clapham Junction every 24 hours.

### Keep Busy.

Flatbush-I'm afraid I'll get stale on my garden work during the winter.

Bensonhurst-For why? Haven's you got a snow shovel?

IT IS A LIVER PILL.-Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbances that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulations now pressed on the attention of sufferers. Of these there is none superior to Par-melee's Vegetable Pills. Their operation though gentle is effective, and the most delicate can use them. 111

### A Baseball Philosopher.

Sentiment plays most of the strings n this little musical instrument of a world, says a writer in an exchange.

I didn't see any of the world's series baseball games held in New York and Chicago. But my heart was quite a loud beating affair each day in the bleachers. And it was beating for the Chicago White Sor.

I'll tell you why.

The head, heart and owner of the Chicago White Sox is Charlie Comis-key. They call him "the old Roman." One day an important game was on and his great Chicago park was crowded with something like a \$30,000 crowd. Then old Pluvius got busy and started dumping wetness in torrents onto the park.

It looked bad. So bad that one of Comiskey's friends hunted him out. and worried-like in excitement, exclaimed, "Comiskey, do you think it's going to stop?"

"It always has," replied "the old Roman." No wonder the White Sox won the world's series.

Fundamental. He looked at his wrist watch.

"Will you marry me?" he said. She blushed. "There is really no time to lose. You

at times I thought I would faint, but these no longer trouble me. My only regret is that I did not know of Anuric before " ---MRS. H. MARJORAM, 124 Albert St.

Strange Steeds.

"Say, said a short, bowlegged cor-poral in France the other day, "I wanta send three pictures home to the folks, but I dunno how I can get it across. These censorship rules say all you can send is pictures of your self without background that might indicate whereabouts of the studio or other strategic information. These other strategic information. These ain't pictures of myself, nothing like it. Wait till I tell you.

"I'm going to entitle this series "Rapid Transit in France.' I took 'em with a little pocket camera. There's one I took up at the port where we landed, first picture I took in France. It shows one of the two-wheeled crats with three animals hitched to it. One is a horse, one is a dog, and in the middle there's a great big old vow and an old French feller in a blue nightshirt sittin' in the road milkin

the cow. "Then there's another I took over at \_\_\_\_\_ (the town where general headquarters are situated) of the bus that goes down to the station to meet at trains. You wo believe this unless you've seen it, Lat that bus is hitched you've seen it, it's that bus is hitched up to a horse at's camel, a regular camel like you so in a circus, come from Morocco, they tell me, and looks as if it had gone as long as camels can go without a drink, or chows either. "The last one's a prize. I took it in one of these villages up the line.

It's a young kid in a soldier's coat

down to his knees walkin' down the main street with a stick in his hand

drivin' a sled, and what do you guess

flirt, and had half the girls by the ears because of her audacious appropriation of their beaux. Now it seemed that she had set about the conquest of Ivy's poor lone lamb, who, although thus singled out by the brilliant queen of beauty, longed only for one moment's sweet converse with the real idol of his heart.

At last Rodney, watching his chance, saw Ivy dart through the doorway of a darkened wing room to reach the front hall as there were some arriv-als. Rodney hastened into the unlit

apartment. He clutched an escaping figure. "The ring!" he whispered ardently. "Here it is. You will make me so

happy to wear it on your engagement finger.' The yielding form fluttered in his

arms. "You—you wouldn't kiss me, would you?" he added in wild desperation.

and to the door of its parlor room. "You will find the ring in therewhere it belongs," she said. "I fancled it fine to make sport of a bumpkin lover. Believe me, I have sunk far in my own estimation." She opened the door, and he saw Ivy.

And upon her finger-and on the en gagement one-was the ring, and the siren's reparation was complete. And Ivy put both her hands in his, and there they stood, blissful.

Largest Railway Station in the United Kingdom Is Waterloo-Others of Large Size.

The distinction of being the largest railway station in the United Kingdom belongs to Waterloo, the terminus of the London and South-Western railway. This station covers an area of 24% acres, and has 13 platforms, including two belonging to the Bakerloo

see, I have only 24 hours' notice. I must report at headquarters tomorrow at nine. We sail for France in three days. Will you marry me?"

"I don't mind," she said. "Onlyshould like to make one condition." "And this is?"

"I have dreamed for years of getting married; but not in this way. But I will marry you if-when you return-you will propose to me all over again, and we can go on a honeymoon and I can be courted, and-well, you know. I am sure !"

"All right," he said with a smile. "To be honest with you, dearest, I thought I was going to escape all that -but I see it's no use. I might have known better. Even a war like this cannot keep a woman from having her own way-especially about a wedding."

### How Much Does He Save?

A professional man says it costs about 7 cents a mile to run his anto. This includes oil, wear and tear, insurance and upkeep generally. Once a week he drives to the country and buys supplies, butter, eggs, chickens, ap-ples, petatoes, etc. Sometimes he covers 50 miles on a trip. Thus, according to his own estimates, his expense would be fully \$3.50 for the 50 miles. If he buys eggs at 5 cents a dozen, butter at 5 cents a pound, chickens at 4 cents a pound cheaper than he can buy them in the city-and he buys them merely for his own family use-how much does he save? 1. 在上 新市

is hitched to the sled? By gosh, a big fat goose, and nothing else. The kid's steerin' the goose with the stick. and the goose lookin' around with that fool goose look, just like the pictures you see of that crown price. 'Say, what do you think those folks with their automobiles and sub-ways and everything would make of that? It sure would open their eyes, Travel's a great thing for a man," said the corporal. Ancient Thessalonians.

Salonica, in the days when St. Pank addressed his Epistles to the Thessa-lonians, was not modern, for it was built about 315 B.C. on the site of an older city called Therme, and was named by its founder after his wife, a sister of Alexander the Great. It a sister of Alexander the Great. IF has always been a place of import-ance, as it is the chief harbor of Macedonia, and was a point on the ancient highway from Rome to the east. With a few fine buildings like the old mosque, which had been in turn a temple of Venus and a Christian church, it has always been a col-lection of houses largely of wood, and therefore highly inflammable in the extreme continuous heat of summer.

Pensioners Long Lived.

The annual report of the United States Commissioner of Pensi States Commissioner of Pensions for the year ending August 1, 1917, is of special interest because of its statis-tics of war pensioners at the begin-ning of a new war. Over fifty years. ning of a new war. Over fifty years, have elapsed since the Civil War ended. On June 30 last there were 329,-226 Civil War pensioners on the rolls, and 284,216 Civil War widows. The grand total of all pensioners, including 109 widows of the war of 1812, was 709,572. The amount expended on pensions in the fiscal year 1917 was \$160,895,054.

### HOLLAND'S ARMY.

Russian Army

Melted Away

somewhere in Asia Minor. Finder

please return to nearest Russian Gov-

ernment. No questions asked." What

has become of those great Russian

forces under Grand Duke Nicholas

which captured Erzerum, Trebizond

and Erzingan nearly two years ago? The newspapers are silent. Evidently

the armies are not fighting, or we should have heard of it from the

Turks. Even if they were retiring be-

fore the Turks we should have reports. If they had broken up and

made their way back home we should

also have heard of it in the news that

the country they occupied in their me-morable marches had been evacuated.

morable marches had been evacuated. There is a possibility, though it seems remote, that these armies have re-mained intact and are menacing the safety of cities deep in the Ottoman Empire—Sivas, Diarbekr, Angora. But what organization in Russia has been feeding the armies, sending the men their pay, shipping ammunition? It seems more likely that the lost army has had to support itself for some months past.

army has had to support itsen for some months past. Somewhere in Armenia and the districts further south there must be at least the remnants of that great

be at least the remnants of that great host led by the Grand Duke Nicholas and Gen. Judenich, a soldier who won a great name for himself in the oper-ations against the Turks. The last mention of the army was contained in a five-line despatch from Petro-grad, October 5, 1917, which told of the capture of a village 50 miles north of Mosul, one of the most important Turkish cities in Asia. It was then thought that the Russian army meant to try to co-operate with the British army, which had followed up the cap-ture of Bagdad by that of Ramadie, 60 miles to the northeast. Not a word have we heard since of the Russians either from themselves or from the

either from themselves or from the British. It is longer still since word has come of the Russian army oper-

ating around Hamadan and Kerman-shah. Last July a bulletin was issued mentioning this powerful force. Then

the veil fell. It is remarkable that no word has come from Petrograd. Is there a special significance in the

censorship hiding the movements or the inactivity of the Russian army in Armenia? In 1916 the Russian campaign

against Turkey was at full tide. On February 15. Erzerum, the great Armenian stronghold of the Turks, fell to the Grand Duke and 40,000 Turks and 1,000 guns were captured as well as tremendous stores. It was thought that the Russian army then

thought that the Russian army then numbered about 300,000, and its mo-rale was equal to its numerical strength, one of the most brilliant

features of the capture being the storming of some of the forts at the

point of the bayonet. After Erze-rum, the Russian army continued to

press forward along the Black Sea

countries as a victory of first-rate im-

portance, and eyes were then turned toward Constantinople, which seemed

to be menaced, especially since the

Russian fleet took an important part in the operations. The Russians kept advancing and

one after another Baiburt. Erzingan.

Bitlis and Mush were taken. It was a sort of triumphal procession, and

at the same time the Russians in

at the same time the Russians in Persia were fighting their way to join the British in Mesopotamia, who were also advancing. It seemed then that when the Russians effected a junc-tion with Sir Stanley Maude's army and Bagdad fell that the chief Turk-the forece would be caught between

ish forces would be caught between

ish forces would be caught between the two allied armies and made to surrender. These high hopes were not fulfilled, but Turkish prestige was never so low since the begin-ning of the war as in those early months of 1916. As late as last April the Russians in Mesopotamia had re-captured Khanikin, and about the same time the army in Armenia took the important city of Van. That is about the last yictory of any import-

about the last victory of any import-ance to be recorded for the Russian

armies operating against the Turks.

armies operating against the Turks. It is true that the revolutionary blight had fallen upon Russia, but after that Korniloff made a memor-able smash against the Teutons. This was followed by stories of trouble be-tween Kerensky and Korniloff, and the rising of the latter against the revolutionists. His defeat followed, and later on came the overthrow of Kerensky by Lenine and Trotzky. It was hoped by the allies that the Asia-tic armies, being far removed from the anarchy that was spreading

the anarchy that was spreading through Russia, would be able to continue, that they would be under the influence of their British com-rades in arms rather than under the influence of the Bolsheviki. Whether this assumption was justified. we

this assumption was justified, we have no means of knowing. No news

comes of the Russian armies. They may have settled down, embraced

Mohammedanism and become Turk-ish subjects. Even this would be better than to embrace what now ap-pears to be the ruling religion in

These joint

coast and further inland.

Russian army. Last seen

#### Little Nation Could Raise Half a Million Men.

Only some two days' march north of the battle arena in Flanders stands a formidable army, intact, fresh and vigorous, that has not yet fired a shot in the gerat war. It is the army of the Netherlands. That army is dear ground. WRITER in the New York Times inserts the following advertisment: "Lost - A

That army is ever growing. The work of training began feverishly back in August, 1914, and it has been carried on without a break ever since in all parts of the country. A special law was passed some two years since greatly widening the circle of these greatly widening the circle of those liable to service, with the result that all the men under arms on August 1, all the men under arms on August 1, 1914, now have been relieved by newly-trained men and sent home, though they can be recalled to the colors immediately should occasion arise

That the country's military leaders have no intention to rest on their oars after the achievement is shown by a bill that has just reached Par-liament providing for a re-examina-tion of all men of the Landstrum born since 1825 who had been valued for since 1885 who had been rejected for one reason or another. This measure is expected to yield a very substan-tial amount of fresh human material. tial amount of fresh human material. How large a mass of trained men Holland could now place in the field is easily discernible. There is first the army that was mobilized in the days of the war's outbreak, probably not far short of a quarter of a mil-lion men, and now all at home on in-definite leave. Then there is a new army now under arms of a like size. Moreover there is a very considerablo body of men who prior to 1914 had hold of men who, prior to 1914, had finished their period of 15 years in militia, at Landwehr and Landstrum, but who are subject to call should oc-

casion require. This should bring the number of trained men available to half a million men and possibly over that num-ber, constituting a far more formid-able and probably better-trained fight-ing force than the Netherlands has ever before possessed in her history. In equipment, too, the Nether-lands army has made great strides during the past three years. The ammunition industry has been re-organized and enormously extended. The artillery arm, in which the coun-try was notoriously weak, has been reinforced in so far as material was obtainable. Some guns are on order. The delivery of anti-aircraft guns is also in course of execution.

also in course of execution. Serious efforts are being exerted to improve Holland's aerial service. A reorganization is contemplated that is estimated to cost between \$7,200,000 and \$7,800,000. The new scheme provides for 15 alrplane divisions comprising fifty-eight battle planes and 66 scouting planes. De-spite Germany's own big needs, the arrival of a dozen machines from that country was reported a few days ago. country was reported a few days ago.

Wise experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, the most effective vermi-fuge that can be used. It is absolute in clearing the system of worms and re-storing those healthy conditions without which there can be use conduct for the which there can, be no comfort for the child, hope of robust growth. It is the most trustworthy of worm exterminators.

operations culminated on February QUESTION OF THE BRASSIERE 17 in the capture of Trebizond. This event was hailed in all the allied

Difficult to Determine Whether the Apparel Should Be Included Under Corset or Lingerie Head.

It is hard to know whether brassieres ought to be included under the general head of corsets or lingerie. It is true that they carry out and accentuate the best lines of the corset. and an intelligent corset saleswoman can always recommend a special brasciere to go with any style corset that you may choose.

Filet lace is used lavishly in some of the new brassieres. They are in-deed far different than those of heavy linen-rather bulky and clumsy in appearance, however satisfactory in effect-that were introduced into the market when brassieres first came into fashion. It is now possible to get brassieres for evening wear, no matter how low the decolletage may be. Some are made with a deep V at the back, straps of lace over the shoulder and a round or  $\nabla$  line at the front. Others are made without any shoulder straps, but are so cleverly cut that they give the necessary support to the figure.

Fine and Small Design Fabrics. Fine and small design mark the thin fabrics of the spring. The violets which seem to be even softer and sheerer than they were last year are almost invariably printed in exceedingly small patterns. In fabrics as trans-parent as volle the small patterns are perhaps an advantage as they break the surface very effectually, and so appear less transparent.

READY-MADE MEDICINE.—You need no physican for ordinary ills when you have at hand a bottle of Dr. Thomas' Eclectric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable, for scalds, burns, bruises, sprains it is unsurpassed, while for cuts, sores, ulcers and the like it is an uncuestionable and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness

This man, who looks more like a meek, mild-mannered dry goods clerk than a wizard of the air, put the machine through a series of performances that made even some of the veteran fliers who watched from be-low hold their breath. Looping the loop, nose diving, banking, volplaning to within a few feet of the earth and then pointing the nose of the machine skyward for a rise at express train speed were but a few of the moves this pilot went through with his ob-server. When he came down the correspondent was taken up in the same machine, but with another pilot, for a ride through the clouds and a bird's-eye view of the outer defences of this particular part of London

This machine was a <u>fight</u>er. The type of machine mounting a er. The type of machine mounting a synchronized machine gun has earn-ed the reputation of being perhaps the most reliable of the fighting planes turned out by the British manufacturers. The pilot on the trip was a young member of the Royal Flying Corps, who was to go to France the next week. The night be-fore this flight he had been up fight-ing with German Gothas at a height of between 11,000 and 12,000 feet. The best view of things below was made at an average speed of 80 miles

made at an average speed of 80 miles an hour, over factories and suburbs, a great arsenal, a famous school and a town best known for its American colony. Up aloft the weather was typical of the American autumnal day. There was just a hint of frost on the roof tops, which made them show up more plainly than usual through the light mist. All was quiet and peaceful in an area which the presence of the Gothas would in an instant transform into a battle-front, encircled by the barage from the antiaircraft guns thousands of feet below.

# The Road to Independence

Trouble comes to all of us at one time or another.

The man with a snug bank account, is fortified against the "slings and arrows of outrageous fortune".

It is the duty of every man to lay aside

delicate of adjustment, so that to be successful the operator must exercise

at unexpected times. This may be done more by swarm prevention than in any other way. Bulletin 233 (On-tario Department of Agriculture) takes this matter up thoroughly and should be carefully studied by all beekeepers. — Provincial Apiarist, Ontario Agricultural College, Guelpa.

Hints For the Gardener. Hints For the Gardener. Thorough cultivation of the soil must be practised in the garden. The common hoe, wheel hoe and the gar-den cultivator should be kept going immediately after each rain. The seed sown in the field should be thin-ned carefully, giving each plant the amount of space required for good growth. Use poison bran mash to kill the cut worm, which will be ac-tive at this season. The asparagus bed should have the second applica-tion of 100 lbs. per acre of nitrate tive at this season. The apparaging bed should have the second applica-tion of 100 lbs. per acre of nitrate of soda. All stocks should be cara-fully cut even if they cannot be used. Early celery, tomatoes and other tender plants should be set out the first of this month, while citrons, cucumbers, pumpkins and melons should be planted. A small amount of nitrate of soda around celery and tomato plants four or five days after setting out, will aid in their growth. The latter part of this month and the beginning of next, late celery, cabbage, caulifower and kale are transplanted into the field. Sowing of corn and beans should be made every week during this month.

### To Eradicate Bad Weeds,

If troubled with mustard in grain crops, spray with the 20 p.c. solution of iron sulphate, (2 lbs, of iron sul-phate to each gallon of water). If such spraying is to be effective it must be done early just when the first waterd plants in the field are first mustard plants in the field are coming into flower. Good cuitivation followed by rape

sown about the middle of June in drills about 26 inches apart at the rate of 1½ pounds per acre, pro-vides a means of eradicating peren-nial sow thistle and twitch grass.

### Dairy Pointers for June.

Cows in clover or good June-grass pasture require very little attention. This is the ideal month for dairy operations. If there are any dot days, be careful to cool both milk and cream, by setting in ice water, or cold well water. Sour milk and cream are for frequently sent to and cream are too frequently sent to the factory. Don't forget to wash the cream separator and strainer daily, or after each time of using.

#### About Temperature.

ing machine has now become a practical proposi-The best authorities on the science of meteorology tell us that without tion can now be made with the various changes in the temperature there would be a perfect calm at all time in all parts of the globe. A uniform and unvarying barometric pressure would everywhere prevail, and there would be no change of sea-sons, no evaporation or condensation, no clouds, and no rain. In short, without changes of temperature, which we sometimes think so uncomfortable, the atmosphere would soon become what complicated, and somewhat poisonous, stagnant and incapable of sustaining human life.

Feel Weak, Depressed and Word Out All the Time--Do Not Eat Well or Sleep Well.

It is an unfortunate fact that nine wo-men out of ten are victims of bloodless-ness in one form or another. The girl in her teens, the wife and mother, the matron of middle age, all know its mis-eries. To be anaemic means that you eries. To be anaemic means that you are breathless after slight exertion—you feel depressed and worn out all day. You turn against food and cannot digest what little; you do eat. At night you do not sleep well and in the morning you wake up tired and feeling unfit for the day's duties. Perhaps there are splitting head-eches or pains in the back or side. Often aches, or pains in the back or side. Often a feeling of dizziness and dispondency. These are the signs of anaemia, or blood-lessness. There may be only one or two lessness. There may be only one or two of these signs noticeable, but the more there are the greater are the ravages of the trouble. There is only one way to cure anaemia, and that is by increasing and enriching the blood supply, and there is only one medicine can do this speedily and effectively—Dr. Williams" Pink Pills. These pills purify the blood. It is in this way that thousands and thousands of weak, ailing girls and wo-men have been restored to the joy of en-ergy and good health through their use. Give these pills a fair trial and you will ergy and good health through their use. Give these pills a fair trial and you will enjoy that health and strength that is the birthright of every woman. Mrsa W. H. Neff, Hughes avenue, Toronto, says :-- "For several years I suffered from a weak and watery condition of the blood. At times I would be so bad that when I walked upstairs I would have to bit too step and rest. Sometime when I walked upstairs I would have to sit-on the top step and rest. Sometimes my face would swell to about twice its natural size, and at other times my feet would swell so that I could not put my shoes on. Frequently I would take fainting spells, and was wholly unfitted for any work. I was under a doctor's care most of the time, and if I felt better care most of the time, and if I felt better for a time it was only to have the trouble worse than before. While in this con-dition I was visiting a friend who had great faith in Dr. Williams' Pink Pills, and she got me three boxes. By the time I had taken these I felt so much better that I got six more boxes, and before I had taken them all I was again enjoyung the best of health : had increase enjoying the best of health ; had increas-ed in weight, my appetite improved, and I have not had a symptom of a relapse to the old pitiable condition."

You can get these pills through any medicine dealer or by mail post paid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brock-wills Out ville, Ont.
