Temperance Rally in Sunday School. Parents Day in Paradise School.—Social and Personal Items.

Paradise.—Mrs. William Messenger, who is teaching at Upper Clements, was the guest of Mr. and Mrs. Byron Chesley over the week end.

Mr. and Mrs. E. G. Morse and daughter Bernice, returned from Lynn, on Wednesday, where they have been the guests of the former's brother, Rev. W. I. Morse.

Miss Emma Sproule, who has been employed as a milliner in St. John for the past few months, has returned home.

Rev. J. H. Balcom and Mrs. Balcom left on Friday for Boston, where they will spend the winter.

Mrs. (Dr.) Hamilton has been the guest of Mr. and Mrs. Jodrey during the week end.

Mr. and Mrs. J. C. Phinney spent some time recently the guests of their son in Kentville.

Mr. and Mrs. Short of Digby, were the guests of Mr. and Mrs. Robinson last week.

The Ladies Work Aid have completed four very nice quilts preparatory to the Xmas Sale held in about a weeks time. This sale will afford an excellent opportunity for the buying of Xmas gifts.

A very interesting Temperance Rally took place of the regular lesson in our Sunday School on the 18th inst., and a committee has since been formed to provide programmes of this nature once a month. Temperance teaching is being much neglected in a great many of our communities and we are very glad to see this work started in Paradise and hope it may continue.

The Paradise Literary Society was reorganized at the home of Mrs. S. K. Morse on Monday evening. Although the night was stormy and hardly a fair representation present, the following officers were elected:

President.—Mr. H. A. Longley. Vice-President.—Rev. W. S. Smith. Sec'y.—Mrs. Mr. Edwin Lilly. Programme Com.—Miss Lillian Henry, Miss Dorothy Hogge, Mrs. H. A. Longley, Mrs. R. Leonard.

Solicitors for Membership.—Mr. Edwin Lilly, Mr. Gordon Carratt. Magazine Com. Div. 1.—Mrs. J. C. Phinney, Mrs. H. D. Starratt, Mrs. Vernon Morse.

Magazine Com. Div. 1.—Mrs. E. D. Rice, Miss A. E. Morse, Mrs. H. W. Longley.

Magazine Com. Div. 2.—Mr. Leonard, Mr. Lilly, Mrs. C. E. Bent.

Mrs. Troop of Bridgetown, and daughter from Penn., were the guests of Mr. and Mrs. H. P. Laxie last week.

While playing with her playmate on the roadside Sunday afternoon, little Muriel McGill was knocked down by a car and badly bruised. No serious injuries it is thought are sustained. At time of writing little Muriel is suffering with headache and fever, but we hope for a speedy recovery. No blame was attached to the driver of the car, as the children were attempting to cross before it came up to them.

On Thursday afternoon the parents were invited to Paradise High School to watch the pupils and teacher at work. Lessons were conducted in History, Hygiene, Physics, Latin, Mechanical drawing and the special features were an Arithmetic Relay Race, Songs and demonstration of the Victor Physical drill exercises, which have lately been adopted by the school. At the close of the session, the Hot Lunch was discussed by Parents and Teacher, the former offering

Sewing Circle met at the home of Mrs. Henry Casey, Wednesday, 18th. Some new railings are being put up along the road, which were very much needed. Mrs. Anthony Ellis returned from Middleton on Friday, 20th. Howard McGraith has taken a position on the S. S. Empress for an indefinite time.

FATHER AND SON BANQUET

Large Gathering of Fathers and Sons in I. O. O. F. Hall.—Banquet and Toast List.—Fine Address By Mr. Taylor Statton

On Friday night the Oddfellows Hall was the scene of a large and enjoyable gathering, a "Father and Son" banquet held under the auspices of the Boys Work Board of Bridgetown. This was the first to take place since 1921. About a hundred and twenty sat down to a sumptuous feast and the tables presented a very attractive appearance.

Rev. A. D. MacKinnon, B.A., B.D., Chairman of the Boys Work Board, presided in a very pleasing manner and related a number of very amusing anecdotes along with matters of more serious import. After grace ample justice was done to the menu.

At the conclusion a "Sing Song" was conducted by Mr. Taylor Statton, of Toronto, Canadian National Boys Work Secretary. He gave several new songs accompanied by action in which all participated with great enjoyment. A musical selection was next given by a number of young men. Then followed list of the toasts, the first of course being "The King," proposed by the chairman and responded to by the singing of the National Anthem. Next came "The Church," proposed by Roy Chute, who spoke well on its general importance and suggested in concluding that the gathering sing "The Church's One Foundation," which was heartily rendered. The responder, Mr. Gladstone Parker, spoke effectively on the work of the church and counselled active effort and regular church attendance, calling for all who would attend church next Sunday to rise.

The response was general by action in the next toast was "Our Sons," proposed by Mr. H. B. Hicks, who said no toast on the list appealed to him as this one did for there was no asset in the nation equal to our growing boys. He referred to the organization here five years ago of Taxis groups. Twelve in these groups had since attended college. He commended the standing which Bridgetown had taken in boys work. No town in the Valley had a better record. He had no sympathy with those who said boys must sow their "wild oats." Such courses led scars that could never be wholly erased. He called on the audience to drink to the health of the boys of our town, the future hope and life of our citizenship. The responder was Charles Anderson, who spoke on the matter of fathers putting themselves in their sons' places. At Middleton the boys had passed resolutions against smoking and profanity and in favor of good attendance at church. How would it be if all fathers themselves set the example in these matters. He asked all their help in developing the four square life which the Taxis boys were working on.

A duet was nicely rendered by Mrs. A. D. MacKinnon and daughter, Miss Lillian.

"Our Dads," the next toast, was proposed by Robert Bath in a humorous speech which conveyed important truths. This was responded to by Mr. A. B. Clark, who referred to the greatly increasing interest being taken by parents and elders generally in the young. It was a hopeful sign of the times. He spoke strongly for clean speech, clean sport and the clean life, and counselled effort by parents for the good and uplift of the community.

The concluding toast "Our Guest," was proposed in a neat speech by Mr. H. J. Dabul and the audience (Continued on Page Four)

TITANIC WALLACE DROWNED AT ANNAPO LIS

Titaine Wallace, a thirteen year old colored boy, of Annapolis Royal, was drowned about noon on Sunday in an abandoned clay pit of the Nova Scotia Clay Products Company.

The boy was playing with two nephews Wendell and Lewis Wallace and a white boy named Arnold Cummings, when he slipped into the deep pit and his companions were unable to rescue him.

After working industriously for two hours in work for the Christmas sale, which will take place in December, the hostess invited the members to the dining room, where dainty refreshments were served. Mrs. Annie Copeland assisted in serving.

FIRE AT M. W. GRAVES & Co's PLANT

Blaze Thursday Morning Destroys Pomace Drying Building, Storage Building With Contents. Loss About \$2000. No Insurance

The building at M. W. Graves and Company's Rectory Street plant, used for drying pomace was destroyed by fire at a very early hour on Thursday morning as was also destroyed the structure next to it used as a storage building for the dried product. The main building adjoining was badly scorched and some further damage done. The blaze which started in one of the furnace rooms was noticed shortly after midnight and an alarm was at once put in. The fire brigade made prompt response and worked very effectively, a good proof of which was shown in the fact that their efforts were successful in saving the main building. The flames spread rapidly and soon demolished floors and roof in the pomace drying plant. A large portion of the concrete walls in the building fell in. The wooden structure next to it was quickly destroyed by flames which also demolished a car load or more of dried pomace. It is fortunate that the fire did not take place a day or so before when high northerly and north westerly winds prevailed. Had it occurred then nothing could have saved the main building. The loss is estimated at about \$5000. There was no insurance on the property destroyed. The burned buildings will not be replaced this season.

ENJOYED RECITAL AT LADIES' COLLEGE BY MISS FREEMAN.

Last evening Miss Aileen Collier Freeman, the new head of the School of Expression at the Halifax Ladies' College, gave her first recital, there being present an audience which completely filled the Conservatory Hall, the "verdict" with respect to the evening's program being emphatically favorable. Undoubtedly on this evening Miss Freeman who it is of interest to know is a Nova Scotian, her home being in Bridgetown, demonstrated very clearly that she is a mistress of her art, and in the program, which called for great versatility and adaptability, it is a speaking tribute to her ability that she acquitted herself in each number with such distinction that at the close of the evening people were at a loss to say, in which she had been most admired.

With the tolling asset of a charming presence and personality, and a voice which has been obviously carefully trained to do the bidding of its owner, Miss Freeman, who was assisted by T. M. Irving, baritone, and Miss Alexandra Saunders, violinist, presented the following program, the various numbers being greeted by uniformly warm applause: Cinders—Lily Tinsley. Solo, selected—T. M. Irving. Short sketches—

Seein' Things. Give Him one of Mine. Nobody Cares for Me. Member. Mad Pies. Solo, selected—Mr. Irving. Joint Owners in Spain—Alice Brown. The Carver and the Caliph—Austen Dolison. Violin selection—Miss A. Saunders. Story, Source of Irritation—F. H. Law. God Save the King. Of Miss Saunders' playing it may be said that it was very fine. This young lady is one of the most gifted of Ivan Williams' pupils at the Conservatory, and gives promise of real brilliancy as a performer. She was heard with deep enjoyment, and the same is true of Mr. Irving, whose voice is one of the most beautiful baritone voices hereabouts—rich and full of feeling.—Mail.

It gives the Monitor pleasure to reproduce the above from the Halifax Evening Mail, and we are very pleased to note that Miss Freeman, daughter of Mr. and Mrs. Karl Freeman of this town, is making so striking a success in her chosen profession. (Ed. Monitor.)

ANNAPOLIS COUNTY POULTRY SHOW

A Successful Exhibition Promised at Lawrence town Next Week.—Well Arranged Prize List and Interesting Programme.

The First Annual Poultry Show of the Annapolis County Poultry and Pet Stock Association opens in the Demonstration Building in Lawrence town on Tuesday of next week and promises to be a grand success. The list is large and well arranged and provides for entries of thirty breeds of hens, besides opportunities for exhibitors of Turkeys, Geese and Ducks and Pigeons. There will be fifteen breeding pen exhibits. Exhibits of eggs, dressed poultry, and in addition to the above, a nice list for Junior farmers (boys and girls sixteen years and under to exhibit including live poultry in the different classes, eggs and dressed poultry.

All details in connection with the Show have been carefully arranged for and its general effect will doubtless be a stimulation of interest in the raising of poultry throughout the county.

Poultry raising a careful lines, with due attention to securing and keeping well bred stock with elimination of poor producing birds, should prove an industry which would give very fair profits. While eggs prices are often disappointing it must be admitted that the man who has laying hens at the present time is in a very fortunate position. There should surely be a good opening in poultry raising when it is known that many millions more of eggs than are produced by the hens of Nova Scotia.

Exhibitions and Shows such as the Lawrence town, cannot help to stimulate interest among poultry raisers with good ultimate results.

### NOTES AND BEAMS.

**Louisville Courier-Journal:** Colonel Sweeney, who heads the American aviators fighting with the French against the Riffs, calls those Americans "the bravest of the brave" and lauds "their rising tide of barbarism, but fighting from airplanes people who have no airplanes to fight back, and dropping bombs on village women and children is hardly the best proof of bravery. And as to checking barbarism, there is plenty of it in the Americans' own country that needs checking and that might be checked without resorting to anything so spectacular as airplanes.

### THE VALUE OF TIME

**Kansas City Star:** What does the average reckless motorist do with the six minutes he saves? Is his time so valuable that every minute counts? Ask his wife, or his employer or some friend. Any one of them will laugh at the question. He may lie in bed a few minutes later in the morning. He may dawdle over his dressing or his breakfast. He may have a little extra gossip when he arrives at his work. But one thing you may be sure. He never does anything of the slightest importance with the six minutes. All he does with it is to contribute to the long list of motor accidents that rolls up every year. All he does with it is to help maim or kill innocent persons—and occasionally himself.

### THE SENTIMENTAL ENGLISH

**Shelair Lewis in the American Mercury:** The theory of Cook trippers and of English pro-consuls is that the French are hysterical little people, clever but unsound, given to gesticulations, silly food, and the practice of weeping on all occasions, whereas Englishmen are hard, practical, beefy fellows, who would rather die than be caught expressing emotion. But French poetry and fiction, the real expressions of the national soul, are, except for Victor Hugo and a few females and one or two novelists, popular among the wives of respectable tradesmen, as heartless and practical and deft as a diamond glass-cutter, while English literature, especially the greatest, is dripping with sobs and Utopianism.

### STABILITY IN IRELAND

**The Round Table (London):** Mr. De Valera and his friends are still trading on the fact that Irish politics have been so long solely national in essence and purposes, so long concentrated on the one issue of political freedom, and so little concerned with the great social questions that agitate other lands that it used to be easy to side-track the people with the catch cry of "perfidious Albion." That dog will no longer fight and Mr. De Valera is ruefully reflecting on the fact that, that one cannot have a republic without republicans. The fact is that this national and abnormal aspect of Irish politics has ceased to react on Irish political realities and that the people are sick of military truculence. They will not give a blank check to a party without a social policy of constructive ability. The Republicans did not and do not realize that the destruction of the last frail links with the British Common-

## CORRESPONDENCE

To the Editor of the Monitor.

Sir:—with your kind permission we wish to state a few facts in reference to certain attempted proceedings within the little quiet town of Paradise. We do not wish to knock anything that is for the good of the community, providing such proceedings can be carried out advantageously and without friction, but sometimes things look better on the surface than they do when examined deeper and more thoroughly. Thus these few statements are penned by one who dwelt upon the proceedings in view, with deeper thoughts than have been used by those who are attempting to promulgate them.

It has been proposed by a few individuals in this town, that during the winter months the school building be transformed into one of a Domestic Science nature, whereby the children might cook their own dinners, and enjoy the same while warm. The materials used during this process to be furnished free of charge by the people of Paradise.

Further the Women's Institute of Paradise has been approached with a view of extensive aid. The ultimate result may be all right, but what about the work, undue expense and trouble necessarily entailed to bring about this result.

A few of the prevailing facts will answer this question. In the first place this year has not been one of a very financially prosperous nature, and the outlook for the coming winter is by no means encouraging. Throughout the country one will find many families ranging in size from two to six in number, that are finding a difficulty to handle their own domestic affairs to keep soul and body together, thus preventing a migration towards the County Home, without having forced further upon them such responsibilities as this proposition entails.

Just one expensive part of it would mean the installation of a kitchen range and a pantry. The Women's Institute of Paradise, while it is a very worthy organization and deserving of our support cannot attempt to undertake such a venture. It has already done a wonderful amount of good work, such as paying for an artisan well drilled upon the school grounds at a cost of over one hundred dollars, aided in putting the interior of the school building in a respectable condition, aided in the church debt, given a large sum to the School for the Blind in Halifax, and many other things too numerous to mention. To further add to their noble work it is well to state that they are always taking upon themselves obligations of a most worthy nature, and which they always intend to meet, but do not run away with the idea that they are made of money.

In reference to the rate payers of this community aiding in this proposed item of interest we would state that from general observation it appears that they have about all they can comfortably handle. For instance it seems a great difficulty to wipe out the debt on other public buildings, to finance for the Minister's and Teacher's Salaries, as well as the care of the general taxation forced upon us by apparently incompetent assessors.

An additional property for use as play grounds for the school children has been purchased, and we venture to add that these grounds have not been used to the extent they were when used as a garden plot.

We as ratepayers are still paying interest on the money for this property, and we take it for granted that if a few can carry on business as above, a few can carry out the proposed idea in reference to feeding fifty school children once a day for three or more months.

Along with the foregoing proposal came another viz., that the Women's Institute and Community send one of the older school girls to Truro to partake in a three weeks course in Domestic Science. We ask in this connection, as to who would be held responsible should this party fail in the Provincial Exams as a result of the loss of three weeks of study at their Home School. Again, if this is the only way that the rising generation is going to learn to be dietitians it is going to take a long while to get them all prepared for their work in life. It would be just as fair to ask the Community to send a boy to the Short Course at Truro in order that he might learn in two weeks how to farm.

With all fairness to the school children we admit that it is sometimes not very comfortable for children to go a long way four times a day through all sorts of weather, or to eat a cold dinner at the school house, but how many generations have done this very thing, and yet we find that people have lived as long and enjoyed as good health as any of us can ever expect to. Give fifteen minutes more at noon and let all children go Home for a hot dinner and it will be a far better solution than to go to all this unnecessary work.

We thank you Mr. Editor for this space.

Signed—Paradise Ratepayers.

## PAINS IN BACK AND SIDES

### Ended by Taking Lydia E. Pinkham's Vegetable Compound

Fustlier, Sask.—"For two or three days every so often I would have such pains in my back and sides that I could not do anything—could not even lie quietly in bed, and my head ached, too. I was this way about three years, but was worse after I was married. I was on a farm with not a house nearer than five miles and there was not a person to advise me, as my folks live in Manitoba. My sister-in-law told me about Lydia E. Pinkham's Vegetable Compound and told me to try it. I took her advice and have been thankful for it ever since. After taking the medicine for three months I can say it has helped me a lot and I am doing fine. I am glad to recommend the Vegetable Compound to others and you may publish my testimonial."—Mrs. HELEN BALANOFF-Fustlier, Saskatchewan.

Often some slight trouble will cause a general upset of the system. Such symptoms as nervousness, painful times, irregularity, backache and headache indicate some form of female weakness. Women so bothered should give Lydia E. Pinkham's Vegetable Compound a trial. This dependable medicine has helped thousands of women and it is reasonable to expect that it will help you. Try it today. Your druggist sells this medicine.

## WANT NO SKYSCRAPERS

### Five-Storey Buildings Remain Limit in Berlin.

Berlin.—Skyscrapers are unhealthy, according to the German ministry of health, and, therefore, Berlin will remain a city of five-storey buildings. On account of the prevailing custom of building German apartment houses with courts and without a space between the buildings, it is believed such structures would not allow light and air necessary to health. The system of skyscrapers typical of American cities never will be adopted in Berlin, the health ministry affirms.

## THE BUTTER MARKET

The last Montreal Trade Bulletin gives the following figures on Creamery Butter Stocks:

"That on October 1st the stock of creamery butter in all Canada was 21,234,632 lbs. or 14,226,221 lbs. less than October, 1924." It goes on to state that with the usual make in Canada during the winter months and the usual consumption, that if there were no butter exported at all, we would find a shortage here next April, and it states there has never been a period when we did not export.

"We may judge from that, that the present price may be maintained, and higher prices looked for towards Spring."

## Here and There

Major-General Sir Fabian Ware, vice-chairman of the Imperial War Graves Commission, who has been visiting in Canada during October, has been recalled to England much earlier than he expected. Prior to sailing on the Canadian Pacific liner, Montreal, from Montreal, he expressed the hope that he would be able to come to Canada again next spring so that he could give Canadians in the West some idea of what the Imperial Commission is doing in caring for the graves of western youths who perished during the war.

Robert L. Rice, Jr., of Boston, and J. Y. Cole, of Harvard, took big chances when they attempted to travel by canoe from Rouyn to Angliers at the end of October. Although they started in beautiful Indian summer weather they ran within a few hours into a bad storm which filled their canoe with half melted snow and almost froze them into unconsciousness. Fortunately they arrived in the nick of time at a fire-ranger's hut where they stayed a few days until the storm abated. They were prospecting in the neighborhood and were none the worse for their perilous trip when they finally reached Montreal.

Bob Shawkey, New York Yankee veteran pitcher, who organized the party of major league baseball players now hunting big game in New Brunswick, shot a moose with antlers spreading 56 inches and having 28 points, according to word received at Fredericton, N.B. Shawkey shot his moose the first day the party spent in the woods. This information is conveyed by another party of hunters who passed the camp of the ball players at Nepisiquit Lakes. In the group are some of the best known players in the American League, Eddie Collins, Babe Ruth and Muddy Ruel being among them.

The romance of a world cruise culminated in New York City recently when Dorothy Holmes O'Ryan, daughter of Major-General and Mrs. John F. O'Ryan, of New York, married Darwin Curtis, of Chicago. The couple met for the first time a year ago on board the Canadian Pacific liner Empress of France which was then making a tour of the world. It is feared they had no eyes for the world marvels which were unfolded before them on the tour, since it is stated they fell in love at first sight and could only see each other. The marriage was performed by the Rev. Father Francis P. Duffy, chaplain of the "Fighting Sixty-ninth," a regiment commanded by the bride's father during the war.

Good reading for Canadian Pacific shareholders is furnished in the September statement of gross earnings, working expenses and net profits. It has been the most favorable month for the company in a long time. The gross earnings were \$18,909,071, the greatest shown in any month since October, 1924. Operating expenses were \$12,641,453 and the difference between the two, the net profits \$6,267,618, an increase of \$1,719,973 over the corresponding month of last year. Net earnings for the first three quarters of this year, ending September 30th, is \$1,190,039 greater than the 1924 figures, despite a decrease in gross earnings of over four and a half million dollars. This was made possible by the company's policy of rigid economy.

To bring the Arctic within the scope of tourist traffic is the object of the Marquis M. N. de la Riviere, winter sports director at Lake Placid, who is organizing pack horse trips of thirty days' duration next year from the Canadian Pacific Rockies as far north as the Columbia Ice Fields within the Arctic Circle. "We are going to swim our horses and outfit across the Saskatchewan River and camp near the sources of the Athabasca which empties into Great Slave Lake and thence into the Arctic," the Marquis asserts. The first of these trips is scheduled between June 25 and July 27 next year.

**THE GUERNSEY AS A PRODUCER.**  
At Nappan, N. S., Dominion Experimental Farm a specialty is made of Guernsey cattle. One cow—King's Blanche of Hillside—is credited with an annual production in four years (at 5, 6, 8 and 9) of 5.69 tons of milk, yielding 4,047 tons butter and a net profit over feed cost of \$234, the total yield of 1,587 days in milk being 45,523.9 pounds of milk, percentage in butter fat 5.55 and production of butter 2,559.31 with the cost of feed \$770.52. His experience with Guernseys leads the Superintendent, Mr. W. W. Baird, to remark in his latest report: "Along with the increased demand of the consuming public for a better product has come a demand for a dairy cow that will give a richer product in sufficient quantity to make her a good commercial proposition. Judging by the increased demand for Guernsey females each year it would seem that the Guernsey cow is fulfilling the above requirement to a very large degree. However, to assure permanency of this growing popularity the Guernsey breeders should pay careful attention to their breeding operations and while to breed for production alone is not advised, nevertheless, it would seem wise to make the production end the major factor, developing with it, as far as possible, a breed with size, smoothness and capacity."

To the average person a railroad shop is perhaps the most uninteresting institution one could possibly think of. It is, to one's mind, everything that is cold and lifeless—dry-grimy. Even the fence surrounding these stolid premises looks forbidding, like a prison wall.

But during the great Canadian grain rush from West to East there are few places in the West more interesting than the Weston Shops of the Canadian Pacific Railway, at Winnipeg, where 500 cars a day are snatched in off the main line, repaired and shot out the next day to resume their place in the big rolling movement of the world's grain caravan.

This institution, quietly situated on the western outskirts of Winnipeg, ranks among the big industrial organizations of the West. It employs eighteen hundred men the year round, and has a monthly payroll of \$220,000. ## Ready to Roll the World's Grain Caravan

To the average person a railroad shop is perhaps the most uninteresting institution one could possibly think of. It suggests to one's mind everything that is cold and inanimate—dry-grimy. Even the fence surrounding these stolid premises looks forbidding, like a prison wall.

But during the great Canadian grain rush from West to East there are few places in the West more interesting than the Weston Shops of the Canadian Pacific Railway, at Winnipeg, where 500 cars a day are paired and shot out the next day to resume their place in the big rolling movement of the world's grain caravan.

This institution, quietly situated on the western outskirts of Winnipeg, ranks among the big industrial organizations of the West. It employs eighteen hundred men the year round, and has a monthly payroll of \$220,000. Weston Shops, which last year repaired 39,518 cars, 200 coaches and 494 engines—and manufactured a million and a half dollars' worth of material—gives one the impression of being a big, self-contained corporation, instead of a minor part of a big railroad system.

Under Works Manager H. B. Bowen, there are 515 men working here who have held their jobs for more than ten years, and there are another 100 men who have been in the service for twenty years and over.

Weston Shops cover 23 acres of land, fenced in and guarded at each entrance by an attendant. Inside the fence is a separate railroad yard containing 40 miles of track. One thousand cars are being shifted continuously by three shift engines. Every day in the week from 400 to 500 cars are repaired and shunted out of its gates into the regular yards.

These shops use up \$300,000 worth of material annually and they burn 120 tons of coal each day, all Western Canadian coal.

One of the most interesting parts of this institution is an apprentice school, where 140 boys attend school in the company's time, receiving regular wages. They are learning the technical side of railroading. They study arithmetic, geometrical and mechanical drawing and enter regularly into the practical side of shop life.

A unique part of the shops is a section where all the scrap iron and metal waste from Fort William to Calgary is gathered and shipped to be re-made into iron castings. The company saves \$35,000 a year from this reclaimed metal. From these wastages the shops manufacture all bolts and iron casting parts for the entire western lines of the company. Each month 100,000 tons of cast iron is manufactured here.

It is interesting to go through these shops and see some of the biggest engines in the service being stripped right down to their wheels and completely rebuilt. An engine can be rebuilt here in about eighteen days.

"There is an engine that went into the rock-slide in the Rockies two months ago," says the foreman. "All one can see of this engine is its frame, just steel bars on wheels. It is being re-made, boiler and everything."

Passenger and freight car wheels for western lines are also made here. The wheels must be ground white both wheels are on axle, and both must be made exact in size within a hundredth of an inch. For, if, as the foreman explained, one wheel is an eighth of an inch larger than the one on the other side of the axle, that larger wheel will want to travel an eighth of an inch farther every time the other one turns over, thus wearing down the flange and spoiling the track—and causing danger to the entire train. Annually, 16,000 pairs of new wheels are made here.

And on these wheels roll the world's grain caravan.

### SONG WRITING A DEMOCRATIC SPORT

Song-writers are recruited from every walk of life, and it is doubtful if any other line of human endeavor can boast of numbering in its ranks a more heterogeneous conglomeration.

Some of the most successful writers, prior to their cutting in on the royalties of a "hit," engaged in work as divorced from song-writing as the music is from that of a dog kennel.

The stage, of course, has supplied a large percentage; but not infrequently "hit"-writers have been developed out of almost every other occupation pursued by man as a means of livelihood. Ex-bank presidents have knelt in adoration before the altar of the Goddess of Song-writers, in common with a five-dollar-a-night-when-he-works performer both beseeching her favors and each hoping that her "Dame Fortune smile" will rest upon him.

It is truly a democratic sport, this game of writing popular song hits!

## Annual Report of Rev. A. J. Trosser Agent Childrens Aid Societies for Annapolis, Digby and Yarmouth Co's

TO THE OFFICERS AND MEMBERS OF THE CHILDREN'S AID SOCIETIES OF ANNAPOLIS, DIGBY AND YARMOUTH.

I beg to present my second annual report as the Agent of the Children's Aid Societies of Annapolis, Digby, and Yarmouth. I am including the activities of the whole field in one report as the work is too much interlocked to permit a separate report to each Society. Early in the year it was decided by each of the Societies to pool the general expenses and to credit to a General Account the monies received from apprehensions and fares of Wards, cost of transportation, etc. The only amounts credited to the individual Society are those received from within its area as Municipal or Town Grants, offerings contributed by the Churches, and gifts from private donors.

Fully one half of the work done by the Agent during the year has been among families and in behalf of children with whom we have had no official relation. A persistent effort has been made to investigate such cases as far as possible the causes contributing to their need, to discover as far as possible the causes contributing to their need, and through personal oversight, with such assistance from public funds as has been available, to keep their family life under as favorable conditions as their varied situations permit.

For various reasons of which the economic is the predominant one, it has been found impracticable to take under our care, all the children whose present surroundings, and future welfare, demand it. There are a great many feeble-minded children in homes where one or both parents, because of mental defects, is incompetent to care for them, not only in a material sense, but in the moral and spiritual as well. There are many normal children under the care of delinquent parents, the future of whom is obviously imperilled by the pernicious influences constantly operating on their young lives. But being without proper Institutions to care for the feeble-minded, and with insufficient funds to care for all the neglected ones, your Agent has been compelled to exercise great care in the apprehension of children within our jurisdiction. The ones guilty of such delinquencies as make them a menace to Society, have had to be committed to the various Institutions provided for their care. In most cases, they have failed to make good in the homes where they have been given a chance before being committed. In more cases than one would expect, the response to the better environment of a new home has justified the experiment in giving them a chance under entirely new surroundings. In a few cases those who seemed most hopeless have become our most satisfactory Wards.

A number of children have been taken from our County Homes, and placed in free homes, where, with but one exception, they are progressing satisfactorily. There are yet a few in our County Institutions who should be removed for they have sufficient promise to warrant the continuation of the effort to find good homes for them. There is also a number who, because of mental defects, or physical handicaps, it is impossible to place.

Considerable time and effort has been spent in the care and placement of the infant children of unmarried mothers. Six have been voluntarily given up by their mothers, and placed in permanent or temporary free boarding homes. Two of these have been legally adopted, and under the excellent influences of their new homes, will no doubt be reared to lives of integrity and usefulness. The remaining four, it is hoped, will eventually be indentured to places of permanency. In several instances legal action had been taken against the putative father, and the statutory provision for the maintenance of his child has been implemented.

The Agent has had supervision over a number of Wards who are under the Children's Aid Society of Annapolis that failed to function some years ago. These Wards are now legally under the care of Mr. Blois, the Superintendent of Neglected and Delinquent children.

Constant attention has been given to the increasing problems growing out of irregular domestic relations. It is probably far below the mark to say that in the three Counties where our work is being carried on, there are 1,000 children being reared in homes where the parents are living together without legal sanction. Between 20 and 40% of these homes have at their head parents, one of whom, is living a bigamous life. The evil effects upon child life when brought up under such pernicious influences, is not felt so much during the days of infancy, as when they approach the teen age and learn by observation, or from those who would taunt them of it, that their home relations are not what they ought to be. It strikes at the most vital point of civilized life, the integrity of the home. Many instances have been brought to the attention of your Agent where the practices of the parents have been perpetuated in the actions of the children. It is impossible to deal with child welfare problems and ignore the matter of domestic relations.

There are about 18,000 children under 16 years of age in the Counties of Annapolis, Digby and Yarmouth. These are scattered throughout 264 School Sections, only six of which are in incorporated Town. 12,591 of these children were last year enrolled in the public Schools of these Counties. Because of an obvious defect in the Compulsory Attendance Act, your Agent has been called to deal with a great many cases of non-attendance at school by those of school age. Under the Children's Protection Act, this constitutes neglect, when the child's truancy reaches a point beyond the parents' control. It would facilitate matters and add much to the solution of the truancy problem, if truant officers were provided from outside the particular section in which they are called upon to serve, or if a truant officer for the whole County were given authority to deal with the worst truancy cases within his jurisdiction.

Juvenile delinquency is no doubt on the increase. Court records verify one's observations along this line. The three great factors in the building up of healthy, normal child life, are home, school and church. Since these institutions depend so much upon human agencies for carrying on their divine mission, it is not to be wondered at, that in each and all of them, obvious defects are to be found; but such of these defects as are preventable should receive our most constant and courageous consideration. There are a great many homes in which it is impossible to rear normal children under the handicaps surrounding them. Our average Nova Scotia citizen has not gone beyond the 5th Grade in our public Schools. About 25% of our pupils enrolled attend more or less irregularly. The discipline of attendance at school, altogether apart from what may be learned while there, is a great restraint to child delinquency. Most of the Wards under our care have been greatly retarded in their education by the carelessness of their parents along the lines of school attendance. Somewhere between 40 and 50% of the children of Protestant Homes do not attend Sunday School and probably receive little or no religious instruction in their homes. In the evident weakening of the influence and hold the home has upon the average child in the lack of intelligent supervision over the education of a number of our children, and in the almost entire absence of religious instruction to an increasing number we have a very real menace, striking at the very vitals of child welfare, and challenging our home makers, our educationalists and our Religious Leaders to a most strenuous effort to stay the ravages threatening our Christian civilization at these vital points.

The cost of carrying on the work, directly under the supervision of the Agent, has been \$3,596.91, distributed as follows:

The money for meeting the above expenses has come from the following sources:

Municipalities of Annapolis, Digby and Yarmouth, the Towns of Bridgetown, Digby and Yarmouth, Women's Institute Bridgetown, I. O. O. E. Yarmouth, Tag Day Yarmouth, Special Contributions from the Townspeople of Digby and Annapolis, two C. A. S. Concerts in Bridgetown and contributions made in response to the Agent's visits among the churches.

Since only a portion of this money has passed thru the Agent's hands, statement as to receipts will be found in the Treasurer's Reports of the respective Societies. Early in the year, your Agent appeared before the Councils of the Municipalities and Towns above mentioned with fairly satisfactory results.

During the year, the Agent has attended Court in Digby 12 times, in Annapolis 16 times, and in Yarmouth 10 times, making a total of 38 Court Sessions. While in most cases the attendance has been in connection with the apprehension of children, in several instances your Agent has appeared as the informant against and prosecutor of various persons responsible for the delinquencies or neglect of children. In only two instances has a suit been unsuccessful. In one case, the failure was due to an oversight on the part of the prosecuting lawyer, and in the other to staking too much on the integrity of the chief witness, who, when under oath, suffered such mental languor as to make her testimony of no value.

He has attended thirty meetings of the Children's Aid Societies, 14 in Annapolis, 7 in Digby and 11 in Yarmouth. He has addressed 72 meetings on the work: 26 in Annapolis, 13 in Digby and 26 in Yarmouth. In addition to this, several addresses both within and without our Constituency have been delivered before Conventions, Associations and various other gatherings. Below is a list of the Churches where the Agent has spoken during the last year. In a few instances meetings have been duplicated at these points:

| Annapolis            | Yarmouth                |

### FATHER AND SON BANQUET

(Continued from Page One.)

sang heartily "For He's a Jolly Good Fellow." Response was made by Mr. Taylor Statton, who referred with pleasure to his last visit here and the splendid impression on him, so much so that he made frequent references to the work in Bridgetown as he travelled from Coast to Coast. He was glad to be present on this occasion and glad to see that the boys work was being kept up. He gave a stirring address on boys work and its problems. In the years between fourteen and eighteen the boy gets his trend of life. He spoke what is now generally conceded how a wrong start affects future life for even moments in his reading. After twenty the trend of life is seldom changed. He spoke on the effects of imagination and the importance of personality. We so usually turn out as we think we will turn out. Taxis boys should aim to get good marks in school and learn to express themselves well in speech. He stressed also the importance of physical fitness and the joy of true living. In connection with the growth and upbringing of a boy, he drew many useful and appropriate lessons from the life of Christ. "As a boy plays, so he lives." In the course of his remarks he told many anecdotes in his experience tracing causes for lines on thought developed by the young and gave practical illustrations as to how wrong tendencies could be checked and action led into better and more effective channels. His address was greatly appreciated by all present.

At the close Mrs. A. D. MacKinnon rendered very nicely "The little damozel."

A vote of thanks moved by Mr. Gladstone Parker and seconded by Mr. M. C. Foster was presented to Mr. Statton. A vote of thanks was passed to the Oddfellows for the use of their hall and to the C. G. I. T. girls and the ladies who took charge of the banquet service and provided the splendid menu given.

On suggestion of Mr. H. B. Hicks it was resolved to convey to Mr. Archibald, always so prominent in boys work, the sympathy of the gathering for illness of his little daughter and an expression of hope that she might soon be restored to health.

## OBITUARY

Mr. Adoniram Rumsey

At Clarence, Annapolis Co. N. S., on November 12th, there passed away at the old family home Adoniram Rumsey in the 74th year of his age. A man of upright habits, a respected citizen, and one who delighted in the quiet fellowship of his home. With his passing there is removed from the Province, the last of this branch of one of the oldest families which for about one hundred and sixty years have dwelt in the ancestral home-stead. Mr. Rumsey's great grandfather having left the old home in Scotland after the death of his wife came with his young son to New England and after a short stop there came to Nova Scotia and took up a large tract of land on the Annapolis River. The farm owned by Mr. Rumsey at the time of his death was a part of the original grant. Adoniram Rumsey was a son of the late Charles Rumsey and Amereine Kinsman, his wife, to whom there were born seven children, one dying in infancy. Five sons grew to manhood, two of whom, Burpee and Charles became prominent shoe manufacturers in Lynn, Mass. The only daughter and the eldest of the family, Mrs. Olivia M. Freeman of St. John, N. B., is the last surviving member of the family.

In 1894 Mr. Rumsey was married to Miss Florence Munroe of Bridgetown, N. S., who survives him as does also his sister, Mrs. Olivia Freeman of St. John, N. B., and two nephews, C. Robert Rumsey of Hudson, Mass., and Chas. R. Freeman, D.D., of St. John, N. B.

The funeral services were held on Saturday the 14th and were conducted by his pastor the Rev. P. R. Hayden, B.D., pastor of the Bridgetown Baptist Church. At the request of the family, Dr. Chas. R. Freeman, pastor of the Charlotte Street Church St. John, N. B., spoke briefly.

### CENTRAL CLARENCE

Mr. and Mrs. Major Slocumb and Mrs. Mary Allen were visitors at W. L. Messenger's on Saturday.

Mr. and Mrs. Clyde Bishop and family, of Williamson, spent Sunday with Mr. and Mrs. M. V. Potter.

Miss Lily Stevenson is spending a few days in Middleton.

Mrs. MacDougall is visiting her sons in Glouce Bay.

Miss Baker, who has spent several weeks at the home of Mrs. Everett Sproule, returned last week to her home at Barrs Corner.

We are sorry to report Mrs. Harry Flinnmore ill with scarlet fever. The school is closed for a week. It is to be hoped that by taking proper precaution no more cases will develop. There was no preaching service on Sunday.

Mr. J. W. Sproule is having the house moved from the Whitman place and put over the cellar of the house that was burned recently. Mr. Chute, veteran building mover, from Bear River, has charge of the job. They have been favored with good weather and have the work about completed.

Let me help you settle the flour question once and for all!

ONLY the best flour makes the best bread, pastry and puddings.

Inferior flour, or flour that varies in quality endangers your success in baking, reduces the food value and appetizing qualities of everything you bake.

I, your retailer, select for your table the best of everything on the market

For your baking I select Purity Flour because in all the years I have been in business Purity Flour has never failed to please my customers.

I offer you this silk-sifted, oven-tested flour with the understanding that if it does not make the best bread, pies and cakes you ever baked you may return the unused portion and I will return the full price of your purchase.

Could anything be fairer?

Let me send a trial bag of Purity Flour with your next order. You'll be delighted.

During the year, there have been committed to the Children's Aid Society of Annapolis, 30 children, of Digby 13, and of Yarmouth 18. Of the Annapolis Children, 21 have been returned to their own homes, and 15 of them are being maintained without cost to the Municipality; the remaining six at a cost of less than \$1.00 per week. Three are being provided for by the Pension Board, 3 are in free homes, one in the Maritime Home for Girls, Truro, one in the Home of the Good Shepherd, Halifax, and one in the Industrial School, Halifax.

Of the 13 children in Digby Children's Aid Society, one has been returned to her home and is being maintained without cost to public funds, 6 are in free homes, 2 are being provided for by the Pension Board, 3 are in boarding homes, and 1 is in the Industrial School. Two of those in boarding homes have been maintained at but little cost to Town Funds, their maintenance having been provided for by court order (since October 1st, two of the three in boarding homes have been placed in free homes, leaving but one ward of the 13 committed during the year under review as a charge on public funds, in a boarding home).

Of the 18 children in Yarmouth Children's Aid Society, 12 have been returned to their own homes, and 2 wholly maintained by their parents, one is in a free home, 2 in boarding homes, 1 in Saint Patrick's Home, Halifax, 1 in the Home of the Good Shepherd, Halifax, and 1 in the Industrial School, Halifax.

The 34 who are being cared for in their own homes, were committed to the Society because of some serious delinquency or incompetency on the part of their parents. In many of these cases, the home has required the constant supervision of the Agent, and in many instances the food and clothing has been purchased or provided by him. There is every reason to expect that the number of children in this class will continue to increase and that the 34 reported here will need vigilant watch-care during the years of their minority. The children in these 8 or 10 homes have presented the most perplexing problem your Agent has had to face. While it is highly desirable to maintain an unbroken home, where one has to deal with delinquent or immoral parents with the limitations under which we are compelled to labor, this course is a most difficult one to pursue.

The 10 placed in free homes are all doing well. Four of this number were removed from County Homes, 1 from Annapolis, 2 from Digby and 1 from Argyle. Nine of the total number (61) are receiving Institutional care, 5 in Roman Catholic and 4 in Protestant Institutions. In most cases of those receiving Institutional care, the delinquency was of too serious a nature to permit placement in private homes. For the 5 in boarding homes, there is good prospect of securing free homes in the immediate future, as they are all of the placeable class. (Two as noted above have since been placed.)

The total number of children under the care of the Society, during the period of the Agent's engagement is 122. Their places of settlement are as follows:

|                        |    |                     |    |
|------------------------|----|---------------------|----|
| Annapolis Municipality | 43 | Yarmouth Town       | 12 |
| Yarmouth               | 22 | Argyle Municipality | 2  |
| Digby                  | 7  | Clare               | 1  |
| Middleton              | 55 | Barrington          | 4  |
| Bridgetown             | 7  | Queens              | 1  |

|                        |    | Amherst             | 6  |

The six children from Amherst were wrongly presumed to have a settlement in Yarmouth Town, and being chargeable to Yarmouth, were placed and cared for by the Agent last year.

On August 15th, office assistance was furnished in the way of a stenographer and helper. This has greatly facilitated the work of the Agent in carrying on the increasing correspondence incident to the ever-enlarging work of the three Societies he serves. A filing cabinet has been installed and a great deal of work done toward securing the history of each child under our care which will be permanently preserved for future reference.

In closing my report, I wish to express my hearty appreciation of the Christian consideration and courteous treatment I have had from all the members of all the Societies during the year.

As the months have passed and the sphere and scope of our work has enlarged itself, we are brought face to face with the problem of an assistant. At present we have too much work for one field worker, and not enough money to employ two. It is a physical impossibility for your Agent to give proper attention to

### Baby's Own Tablets Are Of Great Value

To All Mothers Having Young Children in the Home

No other medicine is of such aid to mothers of young children as is Baby's Own Tablets. The Tablets are the very best medicine a mother can give her little ones during the dreaded teething time because they regulate the stomach and bowels and thus drive out constipation and indigestion; prevent colic and diarrhoea and break up colds and simple fevers.

Concerning Baby's Own Tablets, Mrs. John A. Patterson, Scotch Village, N. S., says: "I have six children, and all the medicine they ever get is Baby's Own Tablets. I would use nothing else for them and can strongly recommend the Tablets to all other mothers."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### EATING OF APPLES IS LESS POPULAR

Decrease of Fifty Per Cent. in Last 20 Years, Reports Ottawa Official.

### PROPAGANDA NEEDED

Canadian Orchards Cover 200,000 Acres and Are Valued at \$120,000,000, Rotarians Hear.

Apple consumption per capita in the Dominion of Canada has decreased 50 per cent. in the last 20 years, it was disclosed by George E. McIntosh, Ottawa, Dominion Fruit Commissioner, in an address to the Rotary Club yesterday in the Windsor Hotel.

At the same time, it was revealed that orange consumption per capita has increased 67 per cent. in Canada in the last 20 years.

Several reasons that might be responsible for this situation were suggested at the meeting. Mr. McIntosh was of the opinion that insufficient attention had been given by fruit growers to the requirements of the market. He advised that this phase of the industry was being given close attention now by the department.

Rotarian A. J. A. Murphy, who expressed the thanks of the club to the speaker, submitted his view that behind the orange industry was an enterprise, with a persistent stream of propaganda, whereas in the apple industry such co-operation did not prevail, the interests not being united.

Rotarian John Anderson, president of the club, asked if it had been thought of that there are a great many people in a country whose teeth were not so good as they had been years before, and that it was obviously easier for them to drink orange juice than eat an apple.

While orchard acreage has decreased in the Dominion, growers are producing a better type of fruit than formerly, and the output is showing an increased value, Mr. McIntosh said.

In this matter of reduced quantity but improved quality, Quebec province has displayed its capacity to produce of the finest. McIntosh Reds, Fameuse, St. Lawrence, and other varieties have taken first place at international exhibitions.

Imported Apples.

There is a great opportunity for the development of apple orchards in this province, the speaker pointed out. Last year, Montreal consumed something like a thousand cars of apples; only 27 carloads came out of the province of Quebec. There is no spot in Canada more favorable for apple development than Quebec province, Mr. McIntosh declared.

Five provinces are now producing apples, Nova Scotia, New Brunswick, Quebec, Ontario and British Columbia. Mr. McIntosh said he hoped to see the day when the prairie provinces would be producing them.

Apple orchards now covered 200,000 acres in Canada, with a valuation of \$120,000,000. This year's crop, if packed in boxes, would stretch from Halifax to Vancouver, and then further.

Less than one-third of an apple per capita is being consumed in the Dominion at the present time. If the old adage, "Eat an apple a day" were adopted throughout the country, the consumption would be tripled.

Origin of the apple according to historians is unknown, Mr. McIntosh said. It dates back to the dark ages anyway. Some said it was responsible for the trouble in the Garden of Eden. Some one in Nova Scotia had contradicted that statement, however, submitting that the cause was a green pear (pair).

### A QUEER SHIFT OF BURDEN RECORDED

Cariboo District, B. C., Points a Moral.

"If you can pay for liquor, you can pay for teachers," is the tart advice given in the recent report of the Educational Survey Commission of British Columbia, addressed to localities receiving educational aid from the government. One of the sections, the Cariboo District, with twelve schools, has a liquor store which had

receipts of \$60,000 in one year, or four times the amount required for teacher's salaries.

"No section of the Province," says the report, "has a moral right to cast its educational burden upon sister communities while it carries the cost of its own alcoholic load." The survey does not discuss the ethics of drinking, but styles the habit a luxury, while education is a necessity in the present age.

The point made by the Commission is undeniable, and it would seem that attention needs only to be called to it to secure action along the line indicated.

## How's Business?

"Business is as good as we make it" is the answer of business leaders. And it is worth while to note that most big businesses owe much of their success and prestige to the steady use of Advertising.

ADVERTISING in The WEEKLY MONITOR would help you promote your business. It would attract new customers, retain the goodwill of old ones and increase public confidence in your store and service.

ADVERTISING is simply salesmanship in the mass. It is an efficient, low-priced salesman. Investigate its merits.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas.

A new oil lamp that given an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 15 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

THE DRESS OF MEN IS CRITICISED

By a Woman, in London Spectator. A professor in Berlin recently had the curiosity to weigh first the wearing apparel of his assistant and then the wearing apparel of the assistant's wife. He found that the man's boots alone weighed as much as the woman's entire clothing, and that in every detail the woman's garments were greatly lighter than her husband's.

It is remarkable that while in the last twenty years woman has steadily decreased the amount that she wears, there has been little fundamental change in male attire. Of course it must be remembered that man is delicate. As an infant he is more frail, and as an adult he is unprotected by that extra plumpness which so conveniently graces the female body. Man needs protection. But it may possibly be that he catches cold because he wears too much clothing, and clothing of the wrong kind.

Very much alike for morning, afternoon or evening wear save in sumptuary appeal, the simple-cut and rejuvenating tube in its thousand varieties which the modern woman wears is a hygienic as well as a becoming garment. It protects the trunk and leaves the limbs free; it allows air to circulate freely over the entire surface of the skin. It is a moral costume. It obliterates rather than emphasizes the once-mysterious "female form" which now fortunately we take for granted. This applies to underwear as well as outer garments. In the past there were scandalous and preposterous female undergarments which could not be looked at, so unsightly were they, let alone mentioned. And what a purgatory of tape-tying, button-fixing, starching and wringing they created for the busier sex. Today comely square-shaped garments lie unashamed in any shop window. Either all silk or of the finer cotton threads, they are delightfully colored, delicately made, washed in five-minute, without fasteners, and few in number—one or at most two slight articles suffice. Universally exposed silk stockings have turned women's legs into things of beauty for everyone instead of objects of curiosity for the unprincipled. And if the fashion be a little trying for the plump, the bowlegged and the ungracefully aged, at least its imposition on all woman-kind encourages them to take pains to keep them selves as slim, as fit and as supple as may be. This is excellent. But man cannot afford abruptly to expose himself to the elements as woman does. He needs protection against more than weather. It is very true that his interests are "all hooked and buttoned together, and held up by clothes." The truth is that man's dress today, conceals a multitude of weaknesses. Many athletes, even look anything but their best in working kit; they are often somewhat "lean, adroit, wiry, the muscle itself seems adroit, wiry, the muscles quite pallid, hunger-bitten and dead-looking. . . . others not without apologetic tendency." Ordinary men in bathing costume look quite pathetically unimportant and unimpressive. They look much less fit than the women.

A reform in dress has undoubtedly improved the physique of woman enormously, so that it really does seem that changes would be beneficial to men. Their clothes are thick, heavy, constricting, and induce excessive perspiration, and exclude sunlight and air. Their long trousers collect mud and dust just as women's dragging skirts used to do. Their collars throttle the neck with its important blood vessels and nerves. Their hats are hard and tight, inducing baldness. Their kidney-exposing waistcoats are ugly. Their braces and thick underwear are as shameful and comic as women's corsets and clumsy undergarments used to be.

GROWING DEMAND FOR TENOR BANJOS WITH RESONATORS

In speaking of the trend of small musical instrument sales for the Winter season, one of our well-known Canadian musical merchandise houses says: "We find that an increasing demand for tenor banjos with resonators is becoming evident. The trend is away from the five string banjo and to the four-string or tenor banjo, and the chief reason being the simplicity of chording on the tenor banjo."

"It is safe to say that practically all dance orchestras now include the tenor banjo because of the marked rhythm it gives. Players and beginners are demanding tenor banjos with resonators on account of the increased volume that they give."

PURE RICH BLOOD MEANS GOOD HEALTH

Also It Means Bright Eyes, Red Lips and Rosy Cheeks.

The lack of sufficient red, health-giving blood does not end merely in pale faces and lustreless eyes. It is much more serious. Bloodless people are the tired, languid, run-down folk who have no enjoyment in life. They have heart palpitation, headaches and backaches, no appetite, sometimes fainting spells, and always nervousness. Just a little more rich red blood and these troubles vanish. To get this new rich, red blood Dr. Williams' Pink Pills are just the thing you need. That is why these pills have a world-wide reputation as a blood and nerve tonic. Among those who have proved the truth of these statements is Miss Annie M. Blonski, Woodridge, Man., who says:—"I became very weak and nervous, had pains in my side and back and suffered from frequent sick headaches. I was hardly able to do anything about the house and would awake with a start at night with my heart pounding violently. If I walked upstairs I would be breathless and my heart would flutter rapidly. I used doctor's medicine but it did not do me any permanent good. Then I was advised to take Dr. Williams' Pink Pills and decided to try them, and I can only say that they did wonders for me. I am now well and strong again and able to do all my work, and this is all due to Dr. Williams' Pink Pills. I have recommended the pills to others who have taken them with equally good results."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

STATEMENT OF BIOLOGIST WIGGAM.

Says American Women Are Losing Their Beauty and Intelligence.

Milwaukee—American women are losing their beauty, and intelligence will be next to go as beauty and intelligence go together, Albert E. Wiggam, biologist and author of New York, told the Wisconsin Chorus Association last night. The expression "beautiful but dumb," as applied to women, is nonsense, he said. A thousand beautiful women have more intelligence than a thousand homely women, he declared, adding that there are "exceptions both ways."

The more intelligent beautiful are allowing the less intelligent and less beautiful to have nearly all the children. "It keeps up, the next generation will be both homely and dumb," Mr. Wiggam said. He asserted it takes three college women to produce one baby and that during the same time, one homely scrub woman with little education, will produce two or three. Only about half of the United States college women ever marry, and the average college bred married woman has but two children, he added.

BISHOP DEPLORES DETERIORATION IN MODERN PREACHING

Ascribes Change to Conditions Under Which People Live.

SERMONS UNPOPULAR

Decline of Church-Going Among Educated People Contributory Cause, Says Dr. Henson

London.—Doctor Hensley Henson, Bishop of Durham, who, when Canon of Westminster, was one of the most popular preachers in London, discussing today in the Evening Standard the Archbishop of Canterbury's criticism of modern sermons, admits there is real deterioration in preaching. Part of it he ascribes to the same influence which made the speech and lecture suffer from competition with the printed page. He asks how much further the same tendency will go, now broadcasting has begun to shape men's thoughts. Moreover, the preacher suffers from the mobility of his congregation. Even in country districts the development of the motor trade has made it impossible for him to count on the same hearers from one service to another. A series of sermons on the same topic is now impossible, and he must count on catching the attention of his congregation by creating an impression in a single address.

Interest in theology has decayed. No publisher will take a volume of sermons. That does not mean interest in religion has faded, but rather has passed to other teachers. "The sermon, in fact, has ceased to be a popular instrument for religious discussion, and the spiritual hopes of the hour are not the fashionable preachers, but sentimental, speculative novelists," he says. Henson also says preachers are found to take the tone of what they say from those whom they have to address. "The severest critics of sermons," he says, "are those who hardly ever hear them. Probably nothing has so degraded the modern preacher as the decline of church-going among the educated section of the people." The change in the great universities, the disappearance of fellows from Oxford and Cambridge in holy orders, also was another cause of the decline in preaching, and another was the "new dominance of music in public worship."

The bishop points out the organists and choir may be formidable rivals of the preacher. There was a persistent demand for shorter services.

"The brief time which is all now conceded," says the bishop, "for public worship has to provide for music as well as for a sermon." Finally, Doctor Henson finds there is a change in the preacher himself. "The note of authority, undoubting conviction, assured belief, which have marked the greater preaching of the past, now is largely absent. This unavoidable shadow on the religious ministry in time diffused doubt and intellectual confusion. The educated modern preacher, whose sincerity is linked with knowledge, must often say, with the compromising bishop in Browning's famous poem. "With me faith means perpetual unbelief, keep quiet like the snake "neath Michael's foot, who stands calm just because he feels it writhe."

## ANNAPOLIS COUNTY POULTRY SHOW

Fine Programme Arranged With Sprinklers of Merit to be Present. Another Silver Cup Added to Prize List.

We are pleased to note the energy of the officials of the Annapolis County Poultry and Pet Stock Association in reorganizing the County Poultry Show. It is true that time has been short, but they have a splendid programme arranged and it is trusted that everyone will get behind the Show. To judge by the entries there should be a good exhibition of birds.

The special features on the programme will be both interesting and instructive. The government experts are men of experience, know their subjects well, and as the lectures will be illustrated with motion pictures, they will be doubly appreciated. Doctor Cumming always delivers a powerful address that appeals to everyone. Prof. Blair has prepared a thoughtful speech on "Community Development" that will be presented with his characteristic punch. And it is a thoughtful touch to have our Federal and Provincial representatives in attendance at the opening meeting. These three gentlemen have indicated their interest by each donating a silver cup. There is no doubt but that they will have some message, perhaps of government policy.

The special session for the Junior Farmers is a pleasing item on the ambitious programme. We agree that the hope of our province rests with the young, and that consequently, every effort should be put forward to interest and to hold them for Nova Scotia. Inspector Foster is to be congratulated for declaring a half holiday on December 27 to enable teachers and pupils to attend. The government demonstrators will be on hand to carefully show them the various points of interest. And then there are thirteen motion pictures, from which to choose a selection. Since our last issue, another silver cup has been donated. This is from the Middleton Branch of the Canadian Bank of Commerce, for the Grand Champion of the Show.

## Personal Mention

(Continued from Page One.)

Railway commissioners at Ottawa, with his wife, is spending the winter in St. Petersburg, Florida. Mr. Messenger for many years was a contributor to the columns of this paper and his communications were much appreciated by our readers. His daughter, Blanche, has made her mark in the musical world and her singing over the radio has been enjoyed by her many friends in this County. Mr. Messenger proposes to remain the winter in Florida and would appreciate a visit at any time of his Bridgetown friends, who are enjoying the beautiful winter in Florida. If possible, he proposes visiting the Valley next summer and meeting all his old friends.

### OBITUARY

#### Mrs. William R. Troop.

Death came suddenly on Wednesday evening last, after a brief illness to Mrs. William R. Troop, at her residence on Queen Street.

She leaves to mourn their loss, one son, Mr. Harold Troop of the Boston Transcript, and one daughter, Miss Brenda, of this town, one brother, Mr. Edwin C. Lockett, of Fredericton, N. B., and one sister, Mrs. Minnie L. Nutter, of Boston.

The funeral took place on Saturday afternoon at 2.30 with service in St. James' Church, conducted by Canon Underwood, and was largely attended. Interment in Riverside Cemetery. The floral offerings, numerous and beautiful were the following: Wreath of Roses, Carnations and Chrysanthemums, (Boston Transcript); Sheaf of Yellow Chrysanthemums, (Mrs. M. K. Piper and Miss Piper, Boston); Sheaf of Chrysanthemums, (Mr. and Mrs. W. D. Lockett and Mrs. Euphemia Lockett); Pillow of Lavender and White Chrysanthemums, (from her children); Wreath of LaFrance Roses, (Mr. and Mrs. Frank Ruggles); Sheaf of Lavender and White Chrysanthemums, (Mr. and Mrs. Dan Owen); Wreath of Tea Roses and Begonias, (Misses Georgie and Ethel Davis); Wreath of Carnations and Chrysanthemums, (Mr. Arthur Pilcher); Wreath of Carnations, Roses and Chrysanthemums, (Rev. J. D. Spidell); Wreath of Pink Carnations, (Miss Elizabeth Ruggles); Sheaf of Chrysanthemums with autumnal colors, (Mr. and Mrs. Kenneth Leslie).

The late Mrs. Troop, who was one of the most esteemed and respected ladies of Bridgetown, was a daughter of William H. and Annie Collier Lockett, who came with her in infancy to New Brunswick, where she spent her earlier life. She was married to Mr. William R. Troop and resided at Upper Granville till about fifteen years ago, when she removed to Bridgetown. Up to very recently when she was laid aside by illness, she had lived an active and busy life. She was a loyal friend, a devoted wife and mother and her sunny and optimistic disposition endeared her to all who had the honor of her acquaintance and friendship. Her passing is deeply regretted by a large circle of friends.

O. Havey received word on Tuesday that he had been re-appointed Stipendiary Magistrate for the Town of Digby and entered upon his duties Wednesday morning. This appointment meets with the approval of the general public, as Mr. Havey has been a faithful servant of the town for a number of years. Supporters of both political parties are congratulating him upon his re-appointment.—Courier

## Local Happenings

J. A. Morgan can kill and pluck a chicken in three minutes. Can you? Watch him do it at the Poultry Show at Lawrence-town.

We call attention to the advertisement appearing in this issue of the Two-Act Drama to be enacted by the young people of St. James' Church, on the evening of Thur., Dec. 3rd, in the Primrose Theatre. Of this Drama we may say, the plot is well knit, and never relaxes its grip, whilst the characters are vivid and varied. Mother Carey has a touch of Mox Merillies from "Guy Mannering" and is one of the strongest character parts existent. David Murray, the light keeper, is a fine dramatic lead. There are excellent juveniles, a good old man, a sparkling soubrette, two Irish parts, and an admirable darky role. Tickets are not on sale and may be obtained of any of the young people in question or at W. E. Gesner's, Young man! The evening programme's at the Poultry Show are splendid, the roads are excellent and the moon is full. Now then, it's up to you.

The service in St. Mary's Church, Belleisle, next Sunday afternoon, will commence at two o'clock instead of three.

Yes, we're going to the Poultry Show—they say there's going to be a great exhibition.

On Saturday morning next, a Memorial Service for the Queen Mother Alexandra, will be held in St. James' Church, commencing at 11 o'clock. The service will follow the same lines as those held on the death of King Edward and of Queen Victoria. The public are invited to be present.

### Postponed

The Medal Contest to have been held on November 20th, has been postponed.

### LOCAL

Mrs. H. H. Whitman, Lawrence-town is offering splendid bargains in Fall and Winter Hats, preparatory to closing her store for the Winter. See advt. in another column.

P. C. R. Harris, who has been manager of the local branch of the Royal Bank for the past seven and a half years, received word this week that he had been transferred to Lawrence-town, and will leave to resume his new duties in a few days. News of Mr. Harris' removal from Digby will be learned with deep regret by citizens in all walks of life. He has been interested in everything appertaining to the welfare of this town, and for a year was President of the Board of Trade, as well as assuming other important public offices. He has been painstaking in his duties and always ready and willing to help along any cause. Mr. Lockwood, of Davidson, Sask., will assume the management of the Royal branch here.—Courier.

### SATISFACTORY TEST OF DAIRY HERD.

Mr. E. R. Orlando recently had his herd of dairy cows tested and the results are satisfactory both to himself and to his patrons, as the following certificate will show:

TO WHOM IT MAY CONCERN

This is to certify that I the undersigned, Graduate Veterinary Surgeon practicing throughout the Annapolis Valley and under the Nova Scotia Veterinary Medical Act, did on November 19th, 1925, apply the Tuberculin test to the entire herd of dairy cows owned by Mr. E. R. Orlando, Bridgetown, N. S., and found said herd to be free from Tuberculosis and in a healthy condition.

## NEWSY ITEMS FROM ANNAPOLIS

New Generator and Switch Board Installed.—Rev. T. C. Mellor, Seriously Ill.—Mrs. Schier, Beck Guest of Honor at Farewell Social Affairs.—Personal Notes.

The new generator and switch board for the electric light plant at Lequille, was successfully installed this week and the lights came on with their usual brilliancy on Tuesday, after a night and morning of darkness. This short cessation of service reflects great credit on the management, and their efforts to prevent inconvenience to the citizens were much appreciated.

Word was received on Friday that Rev. T. C. Mellor, who was recently reported recovering satisfactorily from an operation in Toronto, had had a relapse, and is seriously ill. Mr. Mellor is the guest of his son, Mr. William C. Mellor, and is accompanied by his wife.

Since the above was written, Mr. Mellor has passed away. Miss Emma McClelland of Deep Brook, spent the week end in town with Mrs. Margaret Bleakeney, and received a warm welcome from many old friends.

Mrs. L. Robertson and Mrs. F. St. C. Harris, are guests of Miss Bessie Whitman, at Tupperville.

Mrs. Clifford Duncan entertained at an enjoyable "Bridge" party on Friday.
