CURRENT TRADE CONDITIONS.

ONTARIO.

The conditions in the lumber trade are almost the same as at last writing. Lumber sells very readily and is sought after by buyers. The movement during the month of May was quite heavy, water mills especially showing an increase in business over the corresponding month last year.

QUEBEC AND NEW BRUNSWICK.

A large quantity of the early cut of the spruce mills has been contracted for. The demand is improving and it would seem that manufacturers are in a position to advance prices for later shipments very easily.

MANITOBA AND BRITISH COLUMBIA.

The weather throughout Manitoba and the Territories has not been favorable for building operations, but still a large quantity of lumber has gone into consumption. The demand for the better grades has caused another slight advance in prices.

decided to close down their mills in order to sustain prices. The Puget Sound Timbermen's Association recently advanced the price of fir logs fifty cents per thousand.

Vancouver mills have just figured on a contract for 1,000,000 feet of lumber for the building of twenty barges to be operated on the Yukon river.

UNITED STATES.

Reports from the Eastern States say that the lumber market is somewhat quiet on account of strikes and consequent checking of building operations. In the Lake Superior district and in Michigan the situation seems to be fully as strong as one week ago.

GREAT BRITAIN.

A healthier tone pervades the British timber market. The peace negotiations have stimulated buying and restored in some degree confidence to the trade. Prices are being well sustained and indications point to higher values in the near future.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities.

Orillia Planing Mills

and Sash and Door Factory Near G. T. R. Station. PLANING, MATCHING AND RE-SAWING Done in any quantity. We guarantee satisfaction. Write for prices. Address, S. POMEROY, Box 428, Orillia.

STOCKS AND PRICES.

The steamer Holmea is completing her cargo at Quebec for the United Kingdom.

The steamer Pydna left the Miramichi last week for Manchester, England, with a cargo of deals.

The Tobique Manufacturing Company, of Plaster Rock, N.B., expect to cut 6,000,000 feet of deals this season for the British market.

Graham & Horne, of Fort William, Ont., have secured the contract for piles for the new Canadian Northern Railway elevator at Port Arthur.

It is reported that Chow Bros., of Midland, Ont., have purchased timber limits and a saw mill on Wilson Creek in British Columbia, from Hill Bros.

Recent shipments of pulp wood from Quebec included the following: 245 cords for Ticonderoga, by Auger & Son; 85 cords for Ticonderoga, by John Breakey.

An auction sale of unmarked logs was held at St. John, N.B., last week. The spruce was purchased by N. H. Murchie for \$11.20 per thousand, the hemlock by J. F. Gregory for \$4 per thousand, the cedar by Hilyard Bros. for \$9 per thousand, and the pine by the same firm at \$6 per thousand.

Messrs. S. P. Musson, Son & Company, say of the Barbados market: We have only one arrival of white pine to report, the "Rachael H. Boyd," from Liverpool, N.S., with 85,000 feet, which has sold at \$24.36 for shipping and \$19.36 for second quality. The market having been suddenly strengthened and a large demand created by the information that another batch of Boer prisoners would be sent here, for which building to a considerable extent must be undertaken, several cargoes could be placed at the above figures or a little better.

Mr. W. J. Raynham, representing Walcot, Limited, London, England, is now in this country visiting the different firms whose English and Continental wood business is handled by Messrs. Walcot. Any letters sent to the CANADA LUMBERMAN for him will be forwarded.

TO THE LUMBER TRADE

We will be represented in South Western Ontario by Mr. Frederick Shaw, of Forest, Ont., who comes with us as travelling salesman on May 1st, and who will call on the trade regularly. We are running our mills day and night and offer to the trade a well manufactured stock of band sawed lumber put up in grades under Michigan inspection rules. We solicit your inquiries, and all correspondence given prompt attention.

[Correspondence of the CANADA LUMBERMAN.]

Lumber prices, as predicted, have advanced on account of the increased spring and early summer demand. These prices will hold until the present season's cut is available, which will not be for several weeks. The present prices are as follows: Good pine sidings, 1 1/2 in. and 1 3/4 in., 8 in. and up, \$42 to \$48 per M; 2x8 in. and up, \$48 to \$52; good strips, one in., \$30 to \$32; strips, 1 1/2 and 1 3/4 in., \$32 to \$36; strips, 2 in., \$34 to \$38. These prices were paid for stock in small quantities. Holders are not soliciting trade and can afford to quote stiff prices, as the stock must be had, and it is not at all plentiful. No changes are reported

in other lines of lumber, but the maximum figure in nearly every case represents the actual selling price.

While building operations in Hull and Ottawa are only fairly active, the outside demand for good lumber is such as to make the prediction of a strong market almost a certainty.

Bush fires during the past week did considerable damage in the vicinity of Ottawa, but fortunately the efforts of the rangers and the assistance of Nature in the way of heavy rains, combined to check the threatened ruin of valuable limits. Ex.-Ald. R. J. Davidson, of the firm of Davidson & Thackray, returned today from the firm's mill and limits on the Coulonge. He states that fully six miles

of young pine was destroyed through the carelessness of a settler. The latter started a fire on Wilson's and Argue's limits. It got beyond his control and soon worked its way into the Davidson & Thackray limits adjoining. Rain fell at an opportune time and the larger standing timber was saved. Smith Bros. mill on Long Lake, near Campbell's Bay, was threatened. The fire had eaten its way through the firm's limits to within a few

acres of the mill when the rain fell. The loss in this district can hardly be estimated, but it will not be large. On the Parry Sound or Western Division of the C. A. Railway fire swept a territory extending about 25 miles between Egan Estate and Whitney. Fortunately little or no green timber suffered, the fire being confined to territory cut over before. The St. Anthony Lumber Company and Mr. J. R. Booth were interested in this fire. South

of the city bush fires threatened property along the Canadian Atlantic Railway. It was kept in check.

Davidson & Thackray's new mill at the junction of the Ottawa and Coulonge rivers is being operated. It has a capacity of 5,000,000 feet for a seven months' run. Shipments will be made in about three weeks. The mill is a well equipped affair and there is sufficient standing timber to keep it running for years.

Reports from the drives now go to show that many logs will be hung up if frequent rains do not keep the water in the creeks at a good level. On the Coulonge river Gillies Bros., of Braceside, W. C. Edwards & Co., Rockland, McLaurin & McLaren, East Templeton, and other firms have large numbers of logs waiting movement to the mills. What applies to the Coulonge applies to the other lumbering streams tributary to the Ottawa.

wa. Several rafts of logs of last year's cut have reached the Ottawa and the supply of logs in sight is a large one.

This week the first raft of square timber of the season passed down the Ottawa river. The raft, which contained about 150,000 square feet, belonged to Mr. Robert Hurdman. The trip from Pembroke to Ottawa was made in two weeks. At Ottawa, however, a delay of five days was experienced. The repairs at the Government slides at the Chaudiere delayed the movement a couple of days.

Mr. George Fowler, lumber agent of the C. P. R., reports a brisk movement from all the mills between Biscotasing and Montreal. Shipments to the United King-

dom-via-Montreal and to the States are better than they were during the same period last year. Pennsylvania and Ohio points are receiving Canadian lath in considerable quantities. Mr. Fowler has been appointed railway lumber agent for the Ottawa Northern and Western Railway and the Pontiac and Pacific Junction Railway recently acquired by the C.P.R. He will be in a position to give shippers and manufacturers better facilities in the way of car accommodation and time service than were possible under the old order of things. Mr. Fowler is conversant with every detail of the lumber business, and will be able to satisfy to the limit the requirements of each particular case.

Hurdman & Elmitt, lumber dealers, of Ottawa, have been appointed agents for Gilmour & Company, of Trinton. Their

territory will include Ottawa, Hull and districts. They will handle all the products of the Trinton mills and factories operated by the Gilmour Company. The Ottawa end of the business could not have been placed in better hands, as all members of the firm of Hurdman & Elmitt have gained the experience and enjoy in the fullest degree the confidence of the buying public.

Inquiries have been received in Ottawa for pulp wood. The Raymondville Paper Company, of Weyertown, N.Y., invites quotations on the following stock: Spruce pulp wood 24 inches long either barked with machine or hand shaved. Prospective sellers should communicate direct with the company.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

The purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you promptly and in large quantities with a high-grade shingle would not only be a fish and a bear story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a great deal longer than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to our knowledge.

Our old mill was burned down in May last, and in its place we have built what is at the present time the Largest Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about 100 Million a year.

Competent judges who have seen our new mill, tell us that it is one of the most substantial, carefully constructed, and best planned mills in this province. We ourselves think it is the very best shingle mill in B. C.; and we know that it is equipped with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can guarantee you satisfaction in every particular.

Spicer Shingle Mill Co., Limited,
 VANCOUVER, B. C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only; over 30,000 lin. feet of piling, besides rock foundations two car-loads of shingle machines only; over 7 miles steam pipe 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 520 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill.

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION.—Please take notice that on the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles ended. Until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.
