French Aid Timely. For a whole month the British army around Ypres succeeded in holding its ground against repeated onslaughts made by vastly superior forces. Have Your Fur Gifts Reserved For Delivery at Christmas. The Dineen Company, 110 Yonge Street, have decided to accept a small deposit and reserve furs bought now for shipment at Christmas. This enables prospective buyers to get the benefit of the enormous price in- creases now advertised, and also gives a far greater choice than will be possible in three weeks' time. Selling has been unusually heavy for the past month, and it would be well to select before it is a day later. Dineen quality furs at half price, as a rule, is a proportion of the garments which are now marked, is an epoch in fur retailing. Doves be one who will have regrets, but come early.

ARMY WELCOMES ITS COMMISSIONER

Dominion, Province and City Join in Welcoming Commissioner Richards.

MASSEY HALL CROWDED

Mayor Hocken Pays Tribute to Work of Salvationists in Toronto.

The inauguration of a new leader in any great organization must be a matter of solemnity and enthusiasm, but it is doubtful if any organization in Toronto ever secured a more enthusiastic welcome than that tendered the new head of the Salvation Army in Canada, Newfoundland, Alaska and Bermuda, Commissioner Wm. J. Richards, and his wife, at Massey Hall last night.

Long before the hour for the beginning of the reception, the prettily decorated hall was filled to capacity. The audience noted with interest the spectacle of the massed bands and the two hundred and fifty chorists, including women and children, who were arranged on the stage, and had expressed their approval of the decorations.

When the new commissioner appeared the entrance of the hero in a theatrical production could scarcely have been more dramatic or produced more whole-hearted applause, as the various distinguished persons were escorted to the stage. They included Mayor Hocken, Hon. W. H. Hearst, premier of Ontario, and staff officers of the army. The chorus then sang:

We welcome you to Canada, Beneath the Blood and Fire, With heart and hand united stand, To raise our flag on high.

The opening song, "Rule, Jehovah," having been sung, Col. Albert Gaskin, the chief secretary, presented the chairman of the gathering, Mayor Hocken.

Welcomed by the new commissioner on behalf of Toronto, Mayor Hocken stated that not only was the commissioner welcomed by the members of the Salvation Army, but by all good citizens who were interested in the moral and social uplift of the people of Toronto.

"He comes," said the mayor, "to succeed the late Commissioner Richards, who has done so much for the city and the province, and for that reason I have much pleasure in welcoming the commissioner and his wife to the city of Toronto."

Addressing Commissioner Richards, Mayor Hocken said: "You are a man who has done so much for the city and the province, and for that reason I have much pleasure in welcoming the commissioner and his wife to the city of Toronto."

Commissioner Richards' first words were: "I find myself in the greatest country in the world, a country that has unlimited resources, and which will have a most magnificent future. He then launched into a collection of Commissioner Richards, saying in part: "I have not come to fill his shoes; I have not come to replace him, but to continue his work, and to do it with the same spirit and the same ability with which he did it."

"Regarding my credentials I tell you that I am a Salvationist first, last and all the time, and my entire family are Salvationists. Also I may tell you that I have started at the bottom and worked up, having filled every intermediate office subsequent to my appointment as commissioner for this district."

Work Not Destructive. "I will not make any specific statement regarding what I intend to do now that I am here, but I will say that I do not intend to tear to pieces any of the work that has been carried out by my predecessors, as never was any institution built upon a more solid foundation than that upon which the Salvation Army stands."

What He Will Teach. "Regarding the religion that I shall teach and the doctrines which I shall proclaim, I find it difficult to draw any theory into a few words and tell you what I will teach, but this I will say, that I will teach a religion, a many religion, a courageous religion, a religion that teaches its adherents of the efficacy of prayer, a religion founded on a firm, solid, immutable faith in our Father's blood and our Father's Bible—the religion of Jesus Christ."

Welcomed by Premier. From Premier Borden came the following: "It gives me great pleasure to join in the welcome extended to Commissioner Richards in his new field of usefulness, and I trust that his labor may be crowned with success. The work of the Salvation Army has always commanded my hearty sympathy and active support."

RAILWAY WAGONS SEIZED. STENHAGEN, Dec. 3.—Twenty-one railway wagons loaded with potatoes—consigned from Denmark to Switzerland—have been stopped by the Germans on the Swiss frontier and confiscated.

JUDGE BLAMED BOY LETS THE SOLDIER GO

A soldier named Wilbur Baulch was found guilty in the general sessions yesterday for committing an assault on a boy named W. T. Nicholas, aged 14, in September last, but was let off on suspended sentence. The plaintiff stated that when standing on defendant's lawn on Maynard avenue in company with some other boys, and without provocation, the defendant beat and kicked him and threw him against a telegraph pole, breaking his arm. A number of witnesses corroborated this evidence, but the defence brought other witnesses who claimed that the alleged victim was one of a disreputable gang that annoyed the neighborhood. They said that on some occasions they were forced to close their windows owing to the nature of the language used by the boys.

"This boy Nicholas is undoubtedly bad," said his honor, "and I would be very sorry to know that all boys of his age accustomed themselves to such vile language. He deserved chastisement, but I think Baulch was very sorry that he was aware of, and for that reason I find him guilty."

Several hundred men, out of work, marched to the parliament buildings yesterday, carrying banners. Two sections of the parade here are shown.

PARADE OF THE UNEMPLOYED. A large number of unemployed men, some carrying banners, were seen in the streets yesterday.

LABOR MEN HEAR FROM ALDERMAN. Cameron Told Reasons for Wishing to Reduce Scale of Wages.

TRYING TO GIVE WORK. More Men Could Be Employed if Pay Were Lessened.

ALDERMAN CAMERON appeared before the Trades and Labor Council at its regular meeting in the Labor Temple last night and vigorously defended his motion of three weeks ago in the council, in which he moved that the scale of wages be reduced from 25c to 20c an hour in order to provide more work for the unemployed.

The alderman was well received by the large number of delegates present, and his arguments were followed attentively. He struck obstacles in one direction, particularly when Delegate Fred Bancroft asked some pointed questions on the alderman's labor matters before the city council.

Plain Facts. "I wish to make a plain statement of facts with no tricks," said the alderman. "I want to provide work and work that will be a measure permanent for the winter. My plan was that the city should offer say \$500,000 worth of work in the form of public improvements at par to the citizens at 5 per cent, and I think the citizens would be only too glad to subscribe for them, when they knew the good purpose for which the money would be used."

The alderman then went on to explain that with the \$500,000 derived from the sale of the bonds, 5000 men could be given six weeks' work at an average wage of 30c an hour.

Spread It Out. "I do not wish to cut the civic scale," he continued, "but I want to see the money go as far as possible and give everybody a chance."

Ald. Cameron also stated that in his opinion the city employes should not draw full pay during the winter, but should be paid only for the work they do.

Pointed Questions. The delegates present, however, were anything but sympathetic with the alderman's views, and he was asked many pertinent questions. One delegate stated that Mr. Cameron simply wished to reduce the wages because he paid his own employes small salaries, but this the alderman denied, and stated that his salaries were small on account of keen competition in his particular line. Several other delegates asked questions to all of which the alderman replied.

President Watt thanked Mr. Cameron for going before the council and explaining his attitude, and hoped that he would again be heard from.

Mr. Cameron then said that he had been asked not to go to the meeting, but that he was determined to stand up to his conviction, and was delighted with his reception.

Before Ald. Cameron delivered his address, Arthur Crate of the British Co-operative Association addressed the council on the methods of co-operation in the city of Toronto, and stated that his organization was in making the venture a success. The Ontario Association for the Advancement of Technical Education was voted \$50, as the council felt that it was doing good work, and Delegate Richards made an earnest appeal on its behalf.

adjust their forces, strengthen their positions and bring up reserves. There has therefore "been a great general improvement in the conditions under which we are carrying on the fighting." Of the fighting which preceded this reorganization, the writer says it was due solely to the resources, initiative and endurance of the regimental officers and men that success has lain with the British. He continues: "Desperate fighting followed. As the struggle swayed backwards and forwards thru wood and hamlet, the fighting assumed a most confused and desperate character. Our units became inextricably mixed, and in many cases in order to strengthen some threatened point or to fill a gap in the line, the officers had to collect and throw into the fight what men they could regardless of the units to which they belonged. Our casualties have been severe, but we have been fighting a battle and a battle implies casualties, and heavy as they have been it must be remembered that they have not been suffered in vain.

"As the struggle swayed backwards and forwards thru wood and hamlet, the fighting assumed a most confused and desperate character. Our units became inextricably mixed, and in many cases in order to strengthen some threatened point or to fill a gap in the line, the officers had to collect and throw into the fight what men they could regardless of the units to which they belonged. Our casualties have been severe, but we have been fighting a battle and a battle implies casualties, and heavy as they have been it must be remembered that they have not been suffered in vain.

"The value of such preparation is as noticeable on the side of the enemy as on our own. The phenomenal losses suffered by the Germans' new formations have been remarked, and they were in part due to their lack of training. Moreover, the at the first onset these formations advanced to the attack as bravely as their active comrades, they have lost by their own shown the same recuperative powers. The 27th corps, for instance, which is now in part due to their lack of men with only seven to twelve weeks' training, has not yet recovered from its first encounter with the British infantry around Beaulieu, in the northeast of Ypres, a month ago. On the other hand, the guard corps, in spite of having suffered severe casualties, of having been thrown headlong across the Oise River at Guisnes, and of having lost large numbers on the plains of Compiègne and on the banks of the Aisne River, advanced against Ypres on the 11th of November as bravely as they did on the 20th of August."

Purpose Not Abandoned. "The allies," continues Col. Swinton, "have undergone great sacrifices to defend, against tremendous odds, a line that could only be maintained by making the situation have been relieved is no has abandoned his intentions of pressing thru to the sea."

man continues to attack with courage, but little abated by failure, and while they have not succeeded in gaining the Straits of Dover, they have been enabled to consolidate their position on the western frontier and retain all but a small portion of Belgium."

As well as the above, the writer continues the narrative, "It is doubtful if their achievements are commensurate with their losses, which recently have been largely due to lack of training and a comparative lack of discipline in the improvised units they put in the field."

Col. Swinton concludes with the statement that as the war is going to be one of exhaustion, after the regular armies of the belligerents have done their worst, it will be upon the raw material of the countries concerned that final success will depend.

CASUALTIES OF SERVA ONE HUNDRED THOUSAND. Such is Claim Made by Berlin.—Further Defeats Reported.

Canadian Press Despatch. BERLIN, Dec. 3, by wireless to London, 7.35 p.m.—Nineteen thousand Serbian prisoners have been taken since the Austrians began the present offensive movement, according to a report received here today from Vienna. News from other sources indicates that Serbia's casualties since the beginning of the war will reach about 100,000 or virtually one-third of her entire strength.

Reports of further Serbian defeats to the east of Kolubara and Ljilj Rivers tend to confirm the prediction of military observers that the end of Serbian resistance cannot be far off.

Determined to drive terror into the heart of Ald. Sam McBride, as expressed by one delegate, the Trades and Labor Council will distribute 5000 leaflets in the alderman's stamping ground, to wit, Ward 3, and incidentally many ardent laborites have signified their intention of working "tooth and nail" against his election Jan. 1 next.

The hand bill will, it is said, be simple in design and will bear the following interesting dialog in large and forcible characters: "Did I understand Controller Simpson to say that he represented the working class, the only class worth representing?"

Controller Simpson: "Quite right. I'll sign it for you like."

Ald. McBride then continues his supple and winds up with this: "I am utterly opposed to unionism first, last and always."

When the motion was raised, one of the delegates to the Trades and Labor Council at their meeting last night, many objections were raised at first, as it was Aldermen by a number of speakers that they would be liable to be charged with libel if an enemy of labor with a shrewd man's eye. These objections were foreseen by the Delegate Bancroft explained that the circular would be large type and the circular paper, that published it, thus relieving the council of all responsibility.

Special to The Toronto World. PHILADELPHIA, Pa., Dec. 3.—The Canadian Pacific Railway has come to the United States for a large loan for the first time in its history, and to Philadelphia bankers belong the credit for bringing the business here. SEEK TO KEEP HIGH LOBSTER MARKET

Canners Would Close Factories Next Year—Fishermen Oppose Scheme.

By a Staff Reporter. OTTAWA, Dec. 3.—A conflict has arisen in the maritime provinces between the lobster canners and the fishermen as a result of the war. The packers have been unable to sell all their output this season and will be obliged to carry a considerable proportion of it till next year. They regret that no canners' licenses be issued next year so as to prevent the market being overstocked and the price being reduced. The present prices for canned lobster, which the packers wish to maintain, were only obtained after years of effort and gradual increases. If the industry does not take a rest next year they fear that prices will tumble down. They also allege that the fishermen are being depleted, and a year of rest would do much to replenish them.

The fishermen on the other hand, who have been depending on this means of livelihood, are strongly opposed to a policy that would close the canneries and kill their market for the lobsters.

GERMAN TRENCHES TERRIBLE SPECTACLE

Dead, Badly Mutilated, Piled in Great Heaps Near Lodz.

CRACOW IS UNDER FIRE. Russian Batteries Begin Bombardment at Range of Eight Miles.

Canadian Press Despatch. LONDON, Dec. 3, 10 p.m.—With the lull in the battle in the west which has assumed the proportions of a heavy cannonade at widely separated points, with only occasional infantry engagements in the east continues to be the main interest in the war. The Russian and German hosts in the east.

At last the Russians have approached within firing distance of Cracow, their steady advance from around the town of Wloclzka, which they occupied yesterday and from which the out forts of Cracow can be reached.

Important as this is for the fall of Cracow would lay open the roads to Vienna, Breslau and Berlin—the main interests in the east continues to be the main interest in the war. The Russian and German hosts in the east.

It is apparent that a new battle has developed to the southwest of Lodz, where the Germans have formed columns brought from Kalisz and are again trying to penetrate the Russian centres. The Russians, however, have had time to straighten out their line, and in the eyes of the allies another battle following so closely that just obliterated in this region must help them in the long run, and it is argued, win or lose, the region must be further weakened, and in addition, wounds have to turn their attention to the offensive against Silesia and around Cracow.

On the other hand, the German experts believe that defeat for the Russians would enable the German generals to unite all their forces for another blow against the allies in the west.

However, the battle must last some days, and the opposing troops may be counted upon to fight with the same intensity as they did in the previous conflict, when the losses in killed, wounded and missing reached enormous numbers.

adjust their forces, strengthen their positions and bring up reserves. There has therefore "been a great general improvement in the conditions under which we are carrying on the fighting." Of the fighting which preceded this reorganization, the writer says it was due solely to the resources, initiative and endurance of the regimental officers and men that success has lain with the British. He continues: "Desperate fighting followed. As the struggle swayed backwards and forwards thru wood and hamlet, the fighting assumed a most confused and desperate character. Our units became inextricably mixed, and in many cases in order to strengthen some threatened point or to fill a gap in the line, the officers had to collect and throw into the fight what men they could regardless of the units to which they belonged. Our casualties have been severe, but we have been fighting a battle and a battle implies casualties, and heavy as they have been it must be remembered that they have not been suffered in vain.

Our units became inextricably mixed, and in many cases in order to strengthen some threatened point or to fill a gap in the line, the officers had to collect and throw into the fight what men they could regardless of the units to which they belonged. Our casualties have been severe, but we have been fighting a battle and a battle implies casualties, and heavy as they have been it must be remembered that they have not been suffered in vain.

"The value of such preparation is as noticeable on the side of the enemy as on our own. The phenomenal losses suffered by the Germans' new formations have been remarked, and they were in part due to their lack of training. Moreover, the at the first onset these formations advanced to the attack as bravely as their active comrades, they have lost by their own shown the same recuperative powers. The 27th corps, for instance, which is now in part due to their lack of men with only seven to twelve weeks' training, has not yet recovered from its first encounter with the British infantry around Beaulieu, in the northeast of Ypres, a month ago. On the other hand, the guard corps, in spite of having suffered severe casualties, of having been thrown headlong across the Oise River at Guisnes, and of having lost large numbers on the plains of Compiègne and on the banks of the Aisne River, advanced against Ypres on the 11th of November as bravely as they did on the 20th of August."

Purpose Not Abandoned. "The allies," continues Col. Swinton, "have undergone great sacrifices to defend, against tremendous odds, a line that could only be maintained by making the situation have been relieved is no has abandoned his intentions of pressing thru to the sea."

man continues to attack with courage, but little abated by failure, and while they have not succeeded in gaining the Straits of Dover, they have been enabled to consolidate their position on the western frontier and retain all but a small portion of Belgium."

As well as the above, the writer continues the narrative, "It is doubtful if their achievements are commensurate with their losses, which recently have been largely due to lack of training and a comparative lack of discipline in the improvised units they put in the field."

Col. Swinton concludes with the statement that as the war is going to be one of exhaustion, after the regular armies of the belligerents have done their worst, it will be upon the raw material of the countries concerned that final success will depend.

CASUALTIES OF SERVA ONE HUNDRED THOUSAND. Such is Claim Made by Berlin.—Further Defeats Reported.

Canadian Press Despatch. BERLIN, Dec. 3, by wireless to London, 7.35 p.m.—Nineteen thousand Serbian prisoners have been taken since the Austrians began the present offensive movement, according to a report received here today from Vienna. News from other sources indicates that Serbia's casualties since the beginning of the war will reach about 100,000 or virtually one-third of her entire strength.

Reports of further Serbian defeats to the east of Kolubara and Ljilj Rivers tend to confirm the prediction of military observers that the end of Serbian resistance cannot be far off.

TWELVE MEN DISCHARGED

Refused inoculation—Others Are Doing Well—Many Camp Activities.

The third day's inoculation of the men in camp at Exhibition Park has been passed upon and it is stated by the medical staff that only five of the men needed further medical attention out of the 1,148 inoculated in the one day. On the third day 400 members of the Mounted Rifles, 248 of the Field Ambulance Corps and 300 soldiers received the anti-typhoid inoculation.

Of these only three were unwell. The other 1,145 were well. The medical staff states that the protection from typhoid by inoculation is 98 per cent., and the protection lasts from 18 months to two years. The anti-typhoid serum has been used with great success in the case of the United States Army, the inoculation being four times repeated. Out of 18,000 men stationed for about one year in Texas on the Mexican border, there was only one death from typhoid and only a very few cases.

Refused to be Inoculated—The camp orders show that twelve men have been struck off the contingent because they refused to be inoculated. It is stated that although a soldier has the right to refuse inoculation, he has no right to be a menace to his comrades.

The Army Service Corps sent 258 men to the camp yesterday. These form a part of the Field Butcher, Field Baker and Mechanical Transport Divisions. Major L. E. W. Irving, D.S.O. of Toronto, who served with the Royal Canadian Artillery in South Africa, has been recommended as officer in command. The new battery will contain 150 men. Three complete batteries went from the division, of which Toronto is the centre, with the first contingent and three have already been announced for the second contingent.

Preparations for Christmas are already being thought of. The Y. M. C. A. has intimated their desire to hold the Christmas dinner of the troops in camp by supplying plum pudding, fruits and other delicacies and anything in the connection that the commanding officers suggest. The Y. M. C. A. will also decorate the camp on Monday and Tuesday. The Parks Department's Rifle Association are to have the use of the transportation building from 8 to 10 o'clock on Monday and Tuesday. Churches Are Helping. A concert and lecture in Cowan

AVENUE PRESBYTERIAN CHURCH WAS ATTENDED BY MANY OF THE TROOPS LAST NIGHT

A standing medical board, with Lt. J. W. S. McCullough, Lieut. J. A. Murray and Lt. G. S. Strathy as members, has been formed, to be in charge of those cases which have gone into the hospital as a result of the inoculations.

Rev. A. Logan Giegie of Dunn Avenue Presbyterian Church addressed the men at a service held in the auditorium of the distry building at 7:30 last night. The camp band, which is under command of Lieut. Slater of the 48th Highlanders' band, is expected to take part in a drum-head service to be held at 10 a.m. Sunday in the transportation building. There are about 50 members in the camp band. It is having one or two more practices this week.

Still Studying Languages. A French and German class for N. C. O.'s was held at 7 o'clock last night in the basement of the band stand. The camp choir, which now numbers about 50, expects to take part in the Sunday service soon. It is under the direction of Major Forbes, who comes from Halifax and is divisional paymaster. The choir practised at 8 p.m. yesterday in the fire hall.

A soccer match, contested between the men of "B" Co., 19th Battalion, and the buglers of the 19th Battalion, resulted in a win for the former by a score of 4 to 0. Hugh McQueen was referee. Today "A" Co., 20th Battalion, and the men of the "48th" in the 4th Battalion will have a soccer contest, and also "G" Co., 20th, and "G" Co., 19th, in a baseball game on runs, and "A" Co., 19th, scored 28 runs, and "B" Co., of the 19th had 5 runs and "C" Co. of the 19th, 38 runs.

Many Spectators. The 10th Royal Grenadiers, under command of Lieut.-Col. Brock, held an impressive parade and drill at the armories last night. The attendance of the galleries being large, all the platoon drill, bayonet drill, and a special concert by the brass band were featured. The regiment had a short march-out, and while going up Yonge street passed the Home Guards Regiment coming down, both passing each other at the corner of Queen street.

Blacksmiths Wanted. The Army Service Corps is still in need of blacksmiths, and very much in need of butchers, twenty of the latter being still required to go with the second contingent. Those wishing to join should apply tonight to the quartermaster sergeant of No. 2 Company of the south door of the armories. Farrier Corp. W. Batchelor of the mechanical transport division has been made farrier sergeant. Major L. T. Clements of the divisional supply column has been made sergeant.

Will Be "King's Own." It is stated by Capt. W. Stewart that so far as the department at Ottawa is concerned, the Toronto Home Guard has been fully recognized, and that just as soon as the order is passed, which will probably be this afternoon, and for which the right to be known as "The King's Own" from his majesty has been granted. The delivery of 600 uniforms for the Home Guard is expected either today or tomorrow.

Home Guard Out Again. The Toronto Home Guard paraded, 1531 strong, last night. Headed by their brass band and bugle band, and under command of Capt. W. T. Stewart, they marched by way of Victoria street to the Wellington street armories. The staff numbered 17, the brass band 36, the bugle band 43, and the drum corps 14. The armories, but did not parade.

TEST HEATING SYSTEM

School Children Have Given Two Thousand Dollars to Belgians.

"Some of the contractors do nothing less than steal from the envelopes of their workmen" was a fervidly delivered charge by Business Agent Varley of the Building Trades Union, addressing the board of education last night. Chairman McTaggart said the board had done its utmost to enforce the minimum wage clause, but could take no further action without specific charges being made.

Mr. Varley said he was prepared to place specific charges before the property committee and would do so at an early meeting. Trustees Brown and the chairman of the board for 1915 were appointed representatives to the National Exhibition Board. A test of the Peace heating system, at a cost of \$8895, will be made by its installation at the North Toronto High School.

Over two thousand dollars has now been contributed by the Toronto public school children to the Belgian relief fund. The amount already received will be about \$2,000. The money and gifts are to be handed over to the Belgian consul-general for shipment to Europe.

BRILLIANT VARSITY STUDENT DEAD

One of Varsity's most brilliant students and a man who was much liked by his fellow-class mates, died yesterday morning in the person of Norbert Wallace son of Mrs. Agnes Wallace of 405 Manning avenue. Besides graduating with first-class honors in the honor course, he stood first in the third year medicine exams last year. Wallace was 28 years old. A large number of Varsity students have arranged to attend in a body at the funeral, which will take place on Saturday morning. The cause of death was heart trouble.

MORATORIUM MAY CANCEL DECISIONS OF JUDGES

Judgments Likely to Be Reversed When Act Comes Into Force. The "moratorium" legislation of the Ontario Government has been attracting attention lately because of the apparent disregard of its spirit by judges dealing with foreclosure cases. Mr. Hanna, however, stated last evening that the trip would be without political significance.

TRANSPORTATION TALK BY MAYOR TO THE M.L.L.

Good Transportation Means Better Citizens and No Slums. Members of the Toronto Municipal Improvement Association were yesterday at luncheon enlightened on the transportation difficulties of the city by Mayor Hooken. He pointed out that Toronto's position was very unfortunate because the car company was only required to serve one-half the population. Moreover, there were three outstanding franchises in the newer portions of the city. Two franchises had been taken over by the city, but the three which remain impede efforts to serve the citizens in outlying districts. The mayor claimed that good transportation spelled symmetrical development, increased efficiency of workmen, prevented slums, brightened the lives of women and children and improved moral quality. A general discussion followed among the members of the association.

VARSIY DEBATERS' PLANS. Varsity debaters will go into the final of the Intercollegiate Debating Union, as a result of McGill's announcement that they would default. W. McL. Clarke of Wycliffe College and John Line, B.A. of Victoria, were the men who were selected to go to Montreal on Dec. 11 to orate against the McGill debaters, but in consequence of the default they will meet the winners of the Ottawa-Queen's debate which is being held at Kingston tonight. The debate will be away from home in any case, and it is merely a question as to whether the scene will be in Ottawa or Kingston. The subject selected for the debate with McGill was "Resolved, that the reciprocity pact of 1911 would have been advantageous to Canada."

CABINET MEMBERS GO TO A SAULT-FUNCTION. Three Ministers and Premier Will Speak at Big Dinner Tonight. The Ontario Cabinet will be well represented at the celebration to be tendered to Premier Hesse at Saunt Ste. Marie on Friday evening. Messrs. Fyne, Lucas and Macdonald left with the premier at 9 o'clock last night and will participate in the events of the evening. Hon. W. J. Hanna had intended to accompany the party, but was elected government representative to the funeral of the late Major Beattie, M.P., of London, taking place today. It is understood that preparations have been made for great festivities in the northern city, and in view of the approaching shift in the provincial cabinet it was thought that this might prove the occasion of an important announcement. Mr. Hanna, however, stated last evening that the trip would be without political significance.

Tempered with Common-sense

The charge of the "Light Brigade" at Balaclava was a magnificent display of courage, the acme of patriotism, but it accomplished nothing. It was a useless sacrifice.

Be sure that you do not make useless sacrifices on the altar of your country. Be sure that you temper your patriotism with common-sense.

We must remember, in connection with our efforts to buy nothing but "Made in Canada" goods, that there are some articles necessary to every-day life that are not and cannot be made as well and as economically in Canada as they can elsewhere.

No amount of insisting that these be "Made in Canada" could establish such industries on a permanent, profitable basis in Canada. It would only result in inconvenience, the acceptance of an inferior article by the consumer.

In lines where competition is practicable, there are enough industries in Canada turning out goods that are the equal of those imported to support every Canadian workman, if these industries are supported by every Canadian consumer.

Everything Else Being Equal, Say "Made in Canada."

## TELLS HOSPITAL STORY

One-Legged Soldier Wanted to See Mirror—Friendless Dead.

While we were at the St. Lazare station today 51 of our wounded soldiers boarded the train for Rouen. I felt so sorry for them; most of them had just got up from bed for the first time and it was pitiful to see the way they managed their crutches. A small Scotch boy was carried up in the arms of a huge orderly. He seemed to have lost the use of all his limbs, and the crowd looking on from each side of the station spontaneously lifted their hats to him. Staff Capt. Aspinall was busy helping a one-legged man to the carriage and I couldn't help running to fetch a few cakes and small bars of chocolate for them.

There are complete trenches now outside Paris. Only foot passengers, who are carefully looked after, are allowed to pass.

# Chinese Take No Chances When Paying \$500 Head Tax

Chinamen pay a head tax of \$500 to enter Canada. This gives them freedom of the entire country, and practically all of them work in the laundry business, earning BIG Wages—ten, twelve, fourteen dollars and up each week, including board and room.

Compare the condition of the Chinamen in Toronto this winter with the outlook of thousands of Canadian and British unemployed who are practically facing starvation already.

The object of these articles is to get the co-operation of every patriotic man and woman in the city in the movement to turn more work into Canadian Laundries, so that a practical and widespread means of employment can be created for THOUSANDS of members of the British Empire in our midst who are facing destitution.

**McCahey Leads List Of Winning Jockeys**

The racing of last week resulted in placing J. McCahey at the head of the American jockey list for 1914. J. **NO INTERNATIONAL MATCHES THIS YEAR**

LONDON, Dec. 3.—Delegates of the English, Scottish, Welsh and Irish professional football associations at a meeting in London today decided to recommend to their respective associations that international football matches this season be abandoned.

This decision was reached by the delegates after a prolonged conference. At the conclusion of the meeting the following statement was issued:

"There is no evidence that the playing of football has hindered or is hindering recruiting. On the contrary there is good reason to conclude that football has encouraged and has assisted recruiting. In these circumstances this meeting recommends that except as regards international matches it is not right that football should be suspended. It is in good opinion that to deprive the working people of our country of their Saturday afternoon recreation would be unfair and very mischievous."

The international football matches are the great sporting events of the year in the United Kingdom. They draw upwards of 100,000 spectators, who travel long distances to witness the contest.

**CENTRAL "Y" CIRCUS**

Central Y.M.C.A. acrobats, gymnasts, clowns, dancers and singers are ready for the circus Friday and Saturday nights. Dr. S. E. Frawley will act as ringmaster. The program will commence start at 8 o'clock with a grand entry. The program is as follows:

1. Grand entry, 2. 100 Tods, 3. The Wild Irish Dance, 4. The Muscle Builders, 5. (a) The Uniostrat Troupe on the parallel bars; (b) The Mounted Duo, 6. The Promettes, 7. The Elephant with Springboard, 8. (a) The Menagerie (wild animals); (b) The Bareback Riding, 9. (a) Buster Brown and Tiger; (b) The Allied High Bar Troupe, 10. (a) The William Tell Act; (b) Chic and Little Dutch Tango, 11. The Miniatures and the Human Calliope, 12. (a) Tumbling Arabs; (b) The Dive thru Fire; (c) Table Act by Lot and Lem, 13. God Save the King.

The suggestion has been made to members of the Thunder Bay Hockey League association that it seek affiliation or incorporation with the O.H.A. This would allow the teams to play a championship series for a group of district winners and that winner would then be drawn to play off with Eastern Ontario group winners.

In the event of winning the O.H.A. championship the Allan Cup would be the best objective. The league has adopted the O.H.A. playing rules and if it joined the O.H.A. difficulties in the way of playing for the Allan Cup, which have been encountered in the past, would be overcome.
