GERMANS BEATEN

British and French Forces Who Have Assumed the Offensive in Northern France Captured 20 Miles of Trenches and Penetrated German Positions for 4000 Yards, Took Souchez, Loos, Hill 70 and the Quarries Near Hulluch and Hold Nearly 25,000 Unwounded Prisoners.

GREATEST ADVANCE SINCE THE BATTLE OF THE MARNE

Sir John French Reports That British Troops Have Made Great Gains South of La Bassee Canal and East of Vermelles and Hold All Ground Gained, Except North of Loos, With Five Thousand Prisoners That Were Captured.

LONDON, Sept. 26.—The British and French armies have taken several large "nibbles" out of the German lines between Verdun and the Belgian coast, capturing in the process trenches along a front of about 20 miles, and just under twenty-five thousand prisoners, eight guns, and a number of machine guns.

At the same time British warships and French and Belgian batteries heavily bombarded the German positions on the coast between Zeebrugge and Nieuport.

The offensive, which resulted in the French and British victories, began Saturday morning. For several weeks there has been an almost incessant bombardment with big guns, which late last week increased in intensity, particularly in the sectors where the infantry attacks took place.

FRENCH GAIN MOST IMPORTANT.

The French, who have the most important gain to their credit, made their chief onset against the German lines around Perthes, Beausejour and Suippes, in Champagne, where in December they made a considerable gain of ground. Saturday's attack, however, backed by a tremendous artillery fire, gave them possession of more territory than they had retaken from the Germans since the latter dug themselves in after the battle of the Marne.

According to the French account, the Germans were driven out of their trenches over a front of 15 miles, varying in depth from two-thirds of a mile to two and a half miles. The French in this engagement captured 12,000 prisoners. Apparently the advantage is being pressed still further, as the French communication makes only the briefest mention of the operation.

GERMAN POSITIONS WEAKENED.

The importance of this gain lies in the fact that every yard of ground taken in this region weakens the German position around Verdun, from which the Germans might be compelled to retire should the French succeed in making any further advance.

The French also have regained the cemetery of Souchez and trenches east of the "Labyrinth" in the Arras district, which was the scene of much heavy fighting earlier in the year. There the Germans had built what they considered almost impregnable fortifications.

This attack was made in co-operation with the British, who attacked on either side of La Bassee Canal. The attack to the south of the canal was, Field Marshal Sir John French reports, a complete success. Trenches five miles in width, and about 4000 yards in depth, were taken at this point.

MAY OUTFLANK THE ENEMY.

This push forward gives the British possession of the road from Lens to La Bassee, which was used by the Germans for moving troops and supplies north and south, and threatens to outflank the German troops which hold the Town of Lens.

Hill No. 70, one of the positions taken on the road, is less than a mile directly north of Lens, while Hulluch, which also fell into the hands of the British, is at the end of the road near La Bassee. It is only 12 miles from Hulluch to Lille, the capital of northern France.

POSITIONS WERE CONSOLIDATED.

North of the canal, the British, although they fought all day yesterday, were unable to hold the ground gained, and had to fall back to the trenches which they had left in the morning. The attack, however, accomplished one purpose, as, according to Field Marshal French, German reserves were sent to check this move, this giving the British south of the canal an opportunity to consolidate their new positions unmolested.

A somewhat similar manoeuvre took place to the north

GERMANS ADMIT DEFEATS

BERLIN, via London, Sept. 26, 10.40 p.m.—A repulse of a German division near Loos, northwest of Lens, with considerable casualties and the loss of material is admitted in the German official communication, made public today. The evacuation of an advanced German position north of Perthes, between Rheims and the Argonne forest, is also admitted by the war office.

THE Toronto World is able to point out this morning what looks like the beginning of good news. The French have crushed and rushed fifteen miles of the German trenches in the Champagne and are now beating at the second German

and south of the Menin road, east of Ypres, and the results were the same. North of the road the British were unable to hold the ground taken, while to the south they gained about 600 yards of the German trenches, and consolidated the ground won. So far as is reported, the British took 1700 prisoners with eight guns and several machine guns.

OFFICIAL FRENCH REPORTS.

PARIS, Sept. 26.—(11.06 p.m.)—On the western front the British and French have captured in two days more than 20,000 unwounded prisoners, according to the French official statement issued tonight.

New progress by the French troops to the north of Arras is also reported, Souchez being stormed and captured.

In Champagne the allied forces still continue to gain ground.

The text of the statement follows: "Our attack to the north of Arras has realized fresh progress. We have occupied by sheer force all the Village of Souchez, and have advanced towards the east in the direction of Givenchy.

"More to the south we reached La Folie, and pushed to the north of Thelus as far as the destroyed telegraph. We made in the course of this action about a thousand prisoners.

"In Champagne our troops continue to gain ground. After having crossed on nearly the whole front extending between Auberive and Ville-sur-Tourbe, the powerful network of trenches, passages, small forts and shelters perfected by the enemy during long months, our troops advanced towards the north, compelling the Germans to fall back on their trenches of the second position, from three to four kilometres to the rear. The struggle continues on the whole front.

"We have reached L'Epine de Vedegrange and passed the cabin on the road from Souain to Somme-Py, and the hut on the road from Souain to Tahure. More to the east we are holding the farm of Maisons de Champagne.

FIERCE HAND-TO-HAND FIGHTING.

"The enemy has suffered by our fire and in hand-to-hand struggles very important losses. He left in the works which he abandoned considerable material, which has not yet been inventoried. Already the capture of 24 field guns is recorded.

"The number of prisoners is increasing steadily, and is actually more than 16,000 men, not wounded, of whom at least 200 are officers.

"The total number of prisoners captured on the whole front by the allied troops in two days is more than 20,000 men not wounded."

BELGIAN COAST TOWNS BOMBARDED.

The following official statement was issued by the war office Saturday night:

"On the Belgian coast our batteries have co-operated in the bombardment by the British fleet of the German positions at Westende and Middelkerke.

"The British troops have attacked with success enemy positions to the west of Loos and Hulluch. Our troops operating in conjunction with the British army delivered to the north of Arras an energetic attack, which permitted them to gain a foothold at several points in the enemy's lines.

"Between the Somme and the Aisne, fighting by means of torpedoes and bombs has been going on in the sector of Canny-sur-Matz. Our artillery exploded a munitions depot in a fortified house at Beauvraignes.

"In Champagne, after a new and very violent bom-

ardment of the trenches, shelters, blockhouses and batteries of the enemy, our troops began an assault of the German lines between the Suippes and the Aisne. The first advance positions have been occupied on almost the entire front attacked. Our progress continues.

"Artillery actions have occurred in the Woevre, in Lorraine, and in the Vosges, in the environs of Chapelette and of Schratzmannelle."

Whether this is the beginning of the "big push" for which the British Empire has been waiting remains to be seen from the events of the next few days. Influential men in London are convinced that it means an offensive that will develop into the greatest engagement in the west since last October.

12,000 PRISONERS TAKEN.

More than 12,000 Germans were taken prisoner by the French in a terrific battle yesterday in the Champagne district of France, according to an official statement issued Sunday morning by the French war department.

French troops penetrated the German lines along a front of 15 miles, and for a depth at some places of two and one-half miles, the announcement says. Stubborn fighting still is going on today in the Champagne region.

ALL POSITIONS MAINTAINED.

The text of the statement follows: "In Artois we maintained during the night the positions which we yesterday won. These include the Chateau de Carleul, the cemetery of Souchez, and the last trench which the enemy continued to occupy to the east of the fortified position called the 'Labyrinth.'

"In the Champagne stubborn fighting continues on the whole front. Our troops have penetrated the German lines along a front of 25 kilometres (15 miles) for a depth varying from one to four kilometres. Our troops in the course of the night maintained all the positions taken.

"The number of prisoners actually enumerated exceeds 12,000 men.

"Except for one surprise action of our artillery on the German works in the region of Launois, in the Ban de Sapt, there is nothing to report on the rest of the front."

GROUND GAINED IS ALL HELD

LONDON, Sept. 26.—The British forces fighting in France still hold all the ground they gained Saturday from the Germans, except to the north of Loos, according to an official communication issued tonight. The Town of Loos is being held by the British, the quarries northwest of Hulluch have been captured, and the French on the British right have been enabled to make further progress the statement says.

"There has been severe fighting today," reads the official communication, "on the ground won by us yesterday, the enemy making determined counter-attacks east and northeast of Loos.

"The result of this fighting is that, except just north of Loos we hold all the ground gained yesterday, including the whole of Loos itself.

"This evening we retook the quarries northwest of Hulluch, which we rewon and lost yesterday. We have in this fighting drawn in the enemy's reserves, enabling the French on our right to make further progress.

"The number of prisoners collected after yesterday's fighting amounted to 2600. Nine guns have been taken, and a considerable number of machine guns.

"Our aeroplanes today bombed and derailed a train near Loffres, east of Douai, and another which was full of troops at Rohult, near Saint Amand. The Valenciennes station was also bombed."

GREAT BRITISH SUCCESS.

British forces which have assumed the offensive in northern France captured on Saturday five miles of German

trenches south of La Bassee Canal and east of Vermelles, according to a report of Field Marshal Sir John French, made public Sunday morning by the British official press bureau. In some instances the British troops penetrated the German positions for a distance of 4000 yards.

The British have captured the western outskirts of Hulluch, the Village of Loos, and the mining works around it, and Hill No. 70."

FIVE MILES OF TRENCHES.

The text of the report of the British commander-in-chief in France follows: "Saturday morning we attacked the enemy south of La Bassee Canal, to the east of Grenay and Vermelles. We captured his trenches on a front of over five miles, penetrating his lines in some places for a distance of 4000 yards.

"We captured the western outskirts of Hulluch, the Village of Loos, and the mining works around it, and Hill No. 70.

"Other attacks were made to the north of La Bassee Canal, which drew a strong reserve of the enemy toward the point of the line where hard fighting occurred throughout the day with varying success. At nightfall our troops north of the canal occupied their positions of the morning.

"We made another attack near Hooge, on either side of the Menin road.

"An attack north of the road succeeded in occupying Bellewaarde farm and ridge, but this subsequently was retaken by the enemy.

"In the attacks to the south of the road we gained 600 yards of the enemy's trenches, and we consolidated the ground won.

"The reports of captures up to the present include about 1700 prisoners and eight guns, besides several machine guns, the number of which is not yet known.

"The report in Friday's German communication, that we attempted to make an attack on the previous day south of La Bassee Canal, and which broke down under hostile artillery fire, is false. No attack was attempted."

HOW LONDON HEARD THE NEWS.

London received the news of the successes of the allies on the western front early Sunday afternoon, and it spread rapidly by means of extra editions of the newspapers. In the hotels, clubs and churches great joy was shown. In many instances the churches turned their evening services into meetings of thanksgiving.

The morning newspapers today employ the biggest type they have used during the war in telling of the progress of the British and French troops. Editorially, they greet the news with enthusiasm, and express relief for the victories after months of waiting. Some of the newspapers evince surprise in view of the fact that they deem the gains of the allies as offsets to the week-end casualty lists they published this morning, giving the names of 103 officers and 3874 men, who have either been killed or wounded or are missing.

MEANS MORE HEAVY LOSSES.

The editorials announce the realization that the pushing forward of the British and French troops means further heavy losses, but all of the writers welcome the move as proving that the German front is not impregnable. The Times says it regrets that the series of operations of such importance should be so scantily recorded.

"Could the story of Saturday's action have been told in some fulness and under due restrictions," says The Times, "it would have carried a message of joy to countless British homes. The nation needs cheering, and the present occasion seems to have afforded a suitable opportunity. Presumably we shall learn the details in dribbles from Dutch or American sources, to which the press of this country is now compelled to turn for information, which is often of doubtful validity."

RUSSAINS WIN SUCCESS AGAINST GERMANS NEAR DUBNO

Balkan Situation Not Cleared Up By Bulgarian Assurances of Inoffensive Intentions

ZEEBRUGGE SUBMARINE BASE HEAVILY BOMBARDED BY BRITISH NAVAL SQUADRON

SHIPS BOMBARD BELGIAN COAST

British Fleet Opens Fire on Zeebrugge—Column of Smoke Ascending.

BIG GUNS EMPLOYED

Object of Attack German Submarine Base in Inner Basin.

LONDON, Sept. 26.—British warships assisted by French artillery, severely bombarded the entire Belgian coast from Zeebrugge to West End yesterday.

The Amsterdam correspondent of Reuters' Telegram Company says the Handelblad correspondent on the island of Cadzand, Province of Zeeland, Holland, sends the following account of the bombardment of Zeebrugge:

"An English squadron consisting of five large warships and twenty-five smaller vessels opened fire on Zeebrugge at half-past six o'clock in the morning. Only two of the big ships fired from what, apparently, were 24-centimetre (12 inch) guns. The German batteries replied with light guns, but not until ten o'clock.

"A big column of smoke at seven o'clock arose above Zeebrugge, apparently caused by shell fire from the English vessel in order to establish a better target. The English also employed light guns, but the shots did not reach the coast and probably were directed against submarines.

"From time to time a German aeroplane flew from the coast to the field of Zeebrugge. One also ascended from Zeebrugge.

"The fleet left at half-past ten o'clock.

Zeebrugge is the only important German submarine base on the coast. As an aid to the activities of their submarines, the Germans have developed a very strong and well protected shelter in the inner basin, which has been subject to frequent attacks by allied squadrons. The flashes of the big naval guns engaged yesterday were plainly visible to observers along the Dutch coast.

The Telegram of Amsterdam says it has received news from Belgium that the Germans are preparing for the wholesale transport of wounded to that country. Officers and physicians recently inspected municipal buildings and other structures at Louvain and other places with a view to transferring them into auxiliary hospitals. Reports of their equipment are now coming from Germany.

German Fines Liable.

The German military authorities at Lille again have clashed with the population, this time over the refusal of Lille factories to make sacks for use by the Germans as sand bags for their defence works. Unable to procure the sacks, the German authorities notified the mayor that an amount equivalent to the output of the Lille factories would be manufactured in Germany and the cost of production assessed against the city.

The city has protested vigorously. The strong room of the town was forced and 375,000 francs (\$75,000) was deducted from the city funds.

In addition to this, 31,000,000 francs (\$6,200,000) of war taxes was demanded pending the payment of this sum. The Germans placed seals on the banks.

ENGINEER WAS KILLED WHEN TRAIN RAN OFF

Fatal Accident on G. T. R. Line to Montreal Yesterday, and S. Hagle is Dead.

The Grand Trunk train No. 14, which left Toronto for Montreal at 9 a.m. yesterday, ran off the track at Newtonville, the first station east of York Hope, S. Hagle, the engineer, who is supposed to have jumped from his engine, was killed. It appears that none of the passengers were hurt, but many of them were badly shaken up.

The traffic was blocked for some time after the accident and a new engine was attached to take the train to its destination. It is supposed that the accident was due to a defective rail.

BRITISH SEE CANADIANS WORKING "SUICIDE CLUB"

Eye-Witness Statement Says New Officers Spent Day With Machine Gun Section.

OTTAWA, Sept. 26.—News of a number of appointments to the Canadian headquarters administrative staff is contained in a brief "eye-witness" report from Sir Max Aitken, received by the minister of militia as follows:

"During the period from Sept. 14 to Sept. 20 the situation along our front has remained unchanged. There was no particular activity on the part of the enemy's artillery.

"Rifle and machine gun fire remained normal. Hostile aeroplanes have been more active than usual but on all occasions have met with strong opposition from our aeroplanes and anti-aircraft guns. Our snipers have been active during the week with good results and the motor-machine gun brigade has done useful work against German snipers and working parties.

Various reconnaissances of the enemy's position have been undertaken and much valuable information secured on each occasion. Our working parties have been employed improving and strengthening our lines.

Several of our officers and men have been attached for short courses at the Grenade School and Machine Gun School. During the week 20 machine gun officers from a new British division were attached to the first Canadian division for 24 hours, and spent this period in our trenches.

Major W. B. Lindsey has been appointed officer commanding the engineers of the first Canadian division, with temporary rank of lieutenant-colonel. Appointments to Canadian headquarters administrative staff include Assistant Quartermaster-General Lt.-Col. J. H. MacBrien, D. S. O., deputy director medical services, Col. G. L. Foster, deputy assistant director medical service, Major A. E. Sell, assistant director army pay corps, Capt. K. A. Murray, camp commandant, Col. V. A. S. Williams, brigadier-general Royal Artillery, Brig.-Gen. H. E. Burstall, C.B.

Journalists Entertained.

A second party of four Canadian journalists visited the front between the 15th and 18th insts. They spent a day in the trenches with our first division and was entertained by the headquarters staff of brigades, as well as Gens. Alderson and Currie. The party also visited Tyres and surroundings, the units of our second division and the McGill Hospital.

SUNDAY CONCERT A GREAT SUCCESS

Sportsmen's Patriotic Fund Increased by Over Thousand Dollars.

STIRRING APPEALS MADE

Kathleen Clifford Sang Wonderfully, and Capt. Haywood Brought Message.

The big continuous Sunday concert put on at the Hippodrome yesterday by the Sportsmen's Patriotic Fund yielded \$1012 for the boys at the front and stirred up more enthusiasm than Toronto has shown on the Sabbath since the fighting began. The climax was reached when the news of the allies' success was read from the stage in the evening. The house broke loose with applause that nearly wrecked the building. From 2 o'clock in the afternoon until 10.30 at night, Mr. Shea's big playhouse was crowded in every seat, and several times it became necessary to hold the crowd at the doors, so great was the rush.

The program consisted of patriotic songs, war pictures contributed by the Universal and Pathe companies, The Hippodrome serial, "Deal of the Navy," and recruiting speeches by Capt. (Dr.) Haywood and Sgt. Taylor. Two stirring appeals.

Capt. Haywood made two stirring appeals for recruits, in which the element of sarcasm was not absent. In the evening he said, "If I am any judge of the situation, there should be about 200 men in this audience ready to do a khaki. Now, I'll give you fellows a sporting tip. You will be training a year before you get to the front. Now, here it is—there's a chance that the war may be over in a year from now."

He told a funny story about an Irishman reconnoitering with an advance party near Neuve Chapelle. It was after nightfall, and they came across the cellar of a ruined house filled with Germans. The Irishman crept boldly up and called down the

BULGARIANS TO ATTACK SERBS?

Serbia Omitted From Countries Promised Immunity From Offensive.

MAY DRAG IN GREEKS

King Constantine and Venizelos Apparently Reconcile All Differences.

LONDON, Sept. 26.—The situation in the Balkans and the intentions of Bulgaria are still surrounded with considerable mystery. Bulgaria, which had been definitely placed on the side of the central powers as the result of recent news from Sofia, officially informed the entente powers today that her mobilization had been ordered in the national interests and that it had not the slightest aggressive character.

The Bulgarian premier, M. Radoslawoff, in an interview with the Sofia correspondent of the Berlin Tageblatt, reiterated this statement, but it is noteworthy that while he said the measure was not directed against Greece or Roumania, he omitted Serbia, attacks upon which state have been considered to be the intention of the Bulgarian Government in their effort to regain Macedonia.

Would Drag Greece In.

Such an attack, it is pointed out, would bring Greece to the side of her ally, and as in the last Balkan war, Greece, Serbia, and possibly Roumania, would be found opposed to Bulgaria. It is pointed out that the measure was not directed against Greece or Roumania, he omitted Serbia, attacks upon which state have been considered to be the intention of the Bulgarian Government in their effort to regain Macedonia.

King Constantine and the Greek Premier, M. Gounaris, apparently have entirely composed the differences which led to their separation when the premier lately left the king, wanted to join the allies against Turkey.

The whole matter may yet be smoothed over, as Bulgaria is continuing to negotiate with the entente powers, the Bulgarian minister at Petrograd having had a long conference with the Russian foreign minister, M. Sazonoff, while the ministers at other capitals insist that the Bulgarian aggressive designs, if not against Greece, then against Serbia.

On the other hand, the Austro-German offensive against Serbia, which seems to have been delayed, might light the torch which would set the whole Balkans aflame.

CAMP CELEBRATES BIG ALLIED VICTORY

Great Rejoicing at Niagara-on-the-Lake When News Arrives.

SOLDIERS PARADED

St. Thomas Also Held Great Demonstration Over Cheering Success.

Special to The Toronto World.

NIAGARA-ON-THE-LAKE, Sept. 26.—When the news of the big British advance and victory south of La Basse Canal was received here today a great celebration took place at the military training camp. The soldiers turned out in massed ranks to receive news of the offensive, which it is believed, will not be stopped till the Germans are driven out of Belgium. Impromptu parades with spontaneous musical accompaniment were speedily organized, and the celebrators marched to the town pretty lively all day with their observance of victory. The news spread rapidly thru the countryside and many people came to town to join in the demonstration. The camp did not quiet down till late in the night.

ST. THOMAS CELEBRATES

ST. THOMAS, Sept. 26.—St. Thomas simply went wild with delight when the news came over the wires of the British and French victory. Every locomotive of the Railroad City, and the big siren whistles of the different big railroad shops screamed with delight. The war cars from London sold at all prices on the streets. The city churches all gave short services of praise, and at 8 o'clock a monster procession, headed by the 25th Regiment Band, and the regiment, also the newly organized overseas regiment, "The Britons," was in line. The citizens in automobiles and carriages, with all the school cadets, marched thru the city, and the citizens cheered themselves hoarse.

There was a great rush of recruits to the 25th recruiting office during the evening.

RUSSAINS WIN SUCCESSES ON TAKING BIG OFFENSIVE IN GENERAL ENGAGEMENTS

PREDICTED TEUTONIC ADVANCE CAUSED BULGARS TO MOBILIZE

Concentration of Troops on Border Not Directed Towards Attack on Serbia, But Taken as Preventive Measure.

LONDON, Sept. 26.—A despatch from Athens to the Exchange Telegraph Company says:

"The Bulgarian minister today declared that the mobilization of the Bulgarian army was not directed towards any attack against Greece or Serbia, but that it constituted preventive measures in case Austro-German troops should advance as far as Vidin."

Vidin is a fortified town of Bulgaria on the Danube, 130 miles southeast of Belgrade, Serbia. It is an emporium of the Austro-German commerce with the Black Sea. It would be the first Bulgarian town to be reached by the Austro-German forces should the predicted Teutonic advance towards Constantinople in aid of the Turks succeed in crossing the 26-mile strip of territory in the northeastern corner of Serbia.

LONDON JOYFUL OVER BIG DRIVE

Great Rejoicing Among People at News of Successes.

CAME WHEN EXPECTED

Developments of Next Few Days Anxiously Awaited.

Special Cable to The Toronto World.

LONDON, Sept. 26.—Great rejoicing attended the announcement in London today of British and French successes in France. The streets were thronged with people eager for further news. Each extra issue of newspapers was snapped up immediately it appeared. For several days rumors have been persistent that the long-expected offensive would start today, and "I told you so" is heard now on all sides. London is anxiously awaiting developments of the next few days, which, it is expected, will determine the scope of what evidently is a concerted important movement of the British and French armies.

GERMANS FORCED TO EVACUATE TRENCHES ALONG RIVER

PARIS, Sept. 26, 11.06 p.m.—The Belgian official communication issued today is as follows:

"The enemy artillery has not been very active. There have been several actions with heavy guns at various points along the front.

"On the evening of Sept. 25 our troops captured a German observation post on the right bank of the Yser. The garrison of the post (15 men and one command officer) and a grenade thrower were taken. The occupation of the post obliged the Germans to evacuate trenches extending two hundred metres along the Yser."

GOING UP!

Recent advices from Europe and the United States indicate a rapid advance in the prices of all furs owing to the scarcity of skins. For the first time in the history of the fur business in Canada, buyers from the United States have been scouring Canada, from coast to coast, picking up every skin at fabulous prices, that they can purchase. The reason for the scarcity is that prices of pelts were so low early in the season owing to the European market being cut off that the trappers did not go into the woods on their usual trapping trips. The W. & D. Dineen Co., Limited, 140 Yonge Street, are giving this timely warning to intending purchasers of fur coats and sets, so that purchases may be made now when the prices are comparatively low. The advance will probably take place before another month passes and the present cool wave giving every indication of continuing, it is advisable to buy at once.

STEAM BARGE ASHORE MAY BE TOTAL WRECK

Arabian Driven Aground at Wilson, N.Y.—Crew All Brought to Land.

WELSON, N.Y., Sept. 26.—The steam barge Arabian, Montreal Lake Superior port, with a cargo of soda, was driven ashore within 50 feet of the government pier here this afternoon in a heavy gale. The captain, mate and a crew of 16 were brought ashore and the vessel was abandoned for the night. It is feared she will be a total wreck if the gale continues.

RUSSIAN OFFICIAL STATEMENT

PETROGRAD, Sept. 25, via London, Sept. 26.—The following Russian official war statement was given out here tonight:

"The cannonade in the Riga region has become much more intense in places, the Germans using asphyxiating shells.

"A fierce battle has been fought along the whole front of the Dvinsk positions between Dvina and Lake Dravitskiy, where the Germans, supported by the hurricane fire of their artillery, delivered repeated desperate attacks, all of which were repulsed. Certain trenches changed hands frequently.

"During an attack along the Dvinsk road, in the district of Lake Lavka near Novo Alexandrovsk, the enemy first succeeded in entering our trenches but afterwards was ejected by a counter-attack.

"Gathering themselves together, the Germans again rushed in compact columns upon our trenches, but, received by artillery, machine gun and rifle fire at close range, they retired in disorder. Twice attacks of the same nature subsequently were repeated in the same direction.

"The artillery fire here was extremely intense, but all attacks were repulsed, and during the disorderly fighting, is the best proof of the valor of our troops. During one counter-attack a Russian detachment in the heat of the day was surrounded by Germans, but cut its way out and joined the other troops.

"There is no notable change in the front from Oshchianiy to Pripet. Isolated actions have occurred in the districts of Novogradok and Baranovich, according to later reports, during the engagement near Logischin the 41st German corps suffered very severe losses and during the disorderly retreat we made prisoners of seven officers and 500 unarmoured men and captured a cannon and seven machine guns. We also captured many German wounded, but the number is not yet established.

"In a hot engagement near Dubno for the villages of Khorupagne and Golovitchina, our troops, by a frontal attack, captured 30 officers, about 1500 men and a machine gun. This attack was delivered under the enemy's hurricane of artillery fire, which subsequently forced our troops to retreat towards the River Ikva.

"In the region adjoining Galicia the enemy launched a series of attacks near the Villages of New Alexinetz, but our troops, by a counter attack, overthrew him and took prisoner over 3000 men, and captured four machine guns.

"Near the Village of Dobranole (Galicia), southwest of Trembovka, our cavalry pursued the enemy, who fled. Our cavalry pursued the enemy horse, captured a great many and captured about 500 with 17 officers and two machine guns.

"Later reports show that the prisoners captured in the Lutsk district numbered 123 officers and about 6000 men, not 80 officers and 4000 men, as stated in the preliminary estimates."

ARMY OFFICERS TO VISIT FRONT

By a Staff Reporter.

OTTAWA, Sept. 26.—Rev. Donald Guthrie, D.D., late of Knox Church, Ottawa, and brother of Hugh Guthrie, M.P., has been recommended for an appointment as chaplain in the overseas forces, and it is understood that he will proceed to the front at an early date.

TORONTO WILL NOT HEAR McCORMACK

Cancels Engagement Rather Than Have Any Controversy Here.

SUNDAY WORLD NEWS

Probable Solution of Liquor Question Where Soldiers Are Training.

Following the first notices which appeared in the press that John McCormack, the Irish tenor, would sing at Massey Hall on Oct. 14, several enquiries were made in connection with the report that McCormack expressed animosity towards Britain in Kansas City last winter. On being notified last week by the Massey Hall management of the enquiries, McCormack wrote back canceling the engagement.

After McCormack's concert in Kansas City a report appeared in The World that he had refused to sing "Tipperary" when the audience demanded it as an encore. Other information has been received that the tenor said in his hotel after the concert that Ireland would be better off under German rule than British.

Besides notifying McCormack of the enquiries being made, the Massey Hall people suggested that if he would open the local concert by singing "God Save the King" he would be welcome. In canceling the engagement, McCormack said he had no objection to singing the National Anthem because he was a British subject, but sooner than enter into a controversy on the subject he would not come to Toronto.

At a meeting of the Canadian Lyceum Association on Saturday afternoon it was decided to investigate McCormack's reported Kansas City statements.

Marguerite Clark, who has achieved an uninterrupted series of distinct successes, adds another triumph to her rapidly growing list in "Seven Sisters," the five-part film adaptation of the celebrated international comedy, which is being shown at the Madison.

Special to The Toronto World. SUNDERLAND, Ont., Sept. 26.—A large recruiting meeting was held here last night and much enthusiasm was evoked by speeches from Reeve Rundle, James Glendinning, ex-M.L.A.; Capt. H. P. Cooke, and Major Sam Sharpe, M.P.

THIS WEEK AT THE THEATRES

President Lincoln signing a pardon for the son of Mrs. Cameron in "The Birth of a Nation," at the Alexandra Theatre.

Birth of a Nation Stays

Prolonging its engagement to accommodate the vast crowds that are visiting the Alexandra daily, "The Birth of a Nation," D. W. Griffith's mammoth film spectacle, inaugurates the second week of its engagement with matinee this afternoon. Never before has such a sensational drama graced the boards of a Toronto theatre. Its five thousand individual scenes are made more impressive by the musical accompaniment that is played by a symphony orchestra.

Thurston, the Magician

Six red letter days in the bright calendar of theatricals are upon the way. Thurston, the magician, will hold forth at the Grand Opera House, commencing Monday, Oct. 4. This popular magician is coming prepared to demonstrate anew that he remains solitary in popular amusement pre-eminence; that in prodigious proportions, splendid equipment, modern progress and public esteem he is now, has been, and always will be, "the greatest magician on earth." There will be a big array of mysteries and for over two hours the stage will scintillate with wonderment and amusement, and as a banisher of melancholia this year's performance is prescribed to be superior to a doctor's prescription.

Irwin's Majestics at Gayety

Burlesque patrons have become accustomed to expect splendid attraction, having tired of the meaningless and nonsensical, yet humorous burlesque offered in the past. Fred Irwin, who has just entered the burlesque field after a retirement of four years, will offer his famous Majestics, with more than half a hundred performers in all branches of the profession.

High Life Girls at Star

"The High Life Girls," presented by Frank Calder, are to be the attraction at the Star Theatre this week, commencing with the matinee performance today. This organization will present twice daily, two one-act musical comedy revues entitled "A Country Yarn" and "at the Pekin Cabaret."

MISS MICHELENA PENNETTI. With Frank Calder's "High Life Girls" Co., at the Star Theatre.

Featured with the company are Michelen Pennetti, a prima donna of musical comedy fame.

"The Octopus" at Strand

The bill for today, Tuesday and Wednesday at the Strand Theatre, will

comprise "The Octopus," a powerful drama of the garish lure of a great city; the third instalment of the "serial beautiful," "The Goddess"; one of the very funniest of the Charlie Chaplin comedies, "The Property Man," and the Pathé News. There is something to suit every taste in this strong and varied bill.

Melba's Red Cross Concert

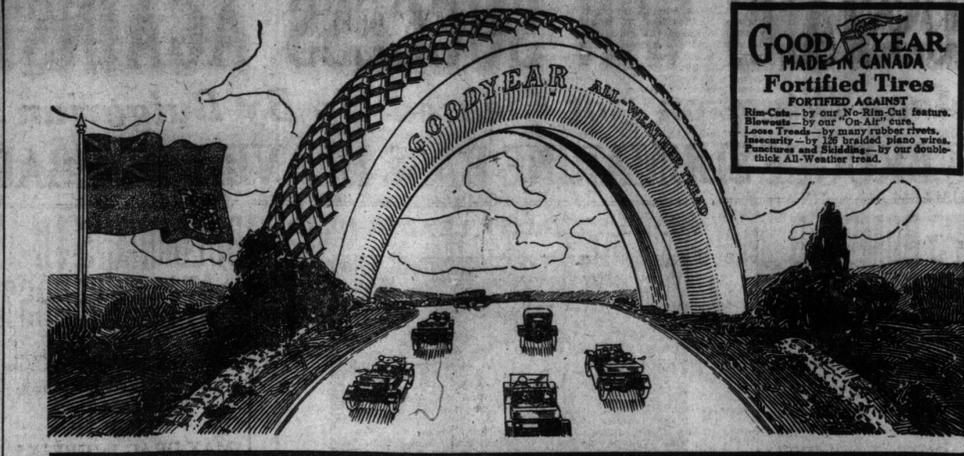

Madame Melba appeared twice in Toronto last season and on both occasions Massey Hall was filled to capacity. Next Monday night when she sings for the Canadian Red Cross, the probability is that a greater crowd than ever will be clamoring for admittance. With the concert six days off a tremendous advance sale is already recorded, and also there are still good seats to be had, today and tomorrow are likely to make big inroads on the plan. Today, Melba's voice is in its prime. As one of her most successful colleagues said recently, "The world has seen but one Melba. She is unique. There probably has never lived a woman with such a perfect voice since the art of voice training began."

VENETTA PRESSLAR. With Irwin's "Majestics" at the Gayety.

At Hippodrome

This week the Hippodrome management has secured as the headline attraction the Seven Pullman Porter Maids, a septet of clever young women in a bright, clever miniature musical comedy offering. Lillian Lorraine and William Courtleigh have demonstrated their right to the title of the "leading artists of filmdom" in the spectacular serial, "Neal of the Navy." The stirring railroad film, "Chasing the Limited Express," is another thrilling picture that will be appreciated. The spectacular scenic novelty, "The Radium Spectre," a graceful posing and electrical novelty, is billed as the special extra attraction. Harry Milton and his clever canine comedians will prove amusing to the children, while Adair and Wyatt are singing comedians. Mr. and Mrs. Thornton Friel, in a rural playlet; Adolpho, the whistling accordionist and feature film attractions complete a bright bill.

GOOD YEAR
MADE IN CANADA
Fortified Tires
FORTIFIED AGAINST
Rim-Cuts—by our No-Rim-Cut feature.
Blow-outs—by our "On-Air" cure.
Loose Treads—by many rubber rivets.
Insecurity—by 18 braided piano wires.
Punctures and Skidding—by our double-thick All-Weather tread.

The Royal Road Begins When You Ride on GOODYEAR TIRES

Learn what it means to be fortified against tire trouble. Give yourself this priceless peace of mind just once and you'll not go back to less tires. Mishap and misuse may lead to trouble even in Goodyears. But that is rare, because these tires are fortified against it by five built-in defenses.

They protect against Rim-Cuts, against Blow-outs, against Loose Treads, against Insecurity, against Punctures and Skidding.

These are exclusive Goodyear features that come in no other tire made. Yet today our prices are 37 per cent less than two years ago. Fast-growing output materially reduced factory cost per tire.

How to Make Sure

It's not what we say that counts, but what Goodyear Tires do. So our plea is for you to judge by running a Goodyear Tire and any rival tire on opposite wheels.

Thousands of motorists have made this test. And they found that tires priced less proved that they cost more per mile than Good-

year. That tires priced higher, on account of small output, are apt to collapse on the sides before the tread is worn, due to improper design.

The Goodyear Tire is built with an extra strong "carcass" to support the double-thick All-Weather tread. So Goodyears, with proper inflation, "stand up" till the tread is worn out. That means that they carry you hundreds of extra miles.

Break With Habit

Don't go on using a lesser tire because you're accustomed to buy it.

Cars and ideas have changed each year, remember, and Goodyears have kept pace. If you want most mileage for your money you'll break with old habit and give these new-day tires a trial.

Any dealer will furnish the Goodyear Tire. Get our new price on the size you use.

Welcome From Pe
St. Catharines

Saturday was a red letter day in the history of Niagara Falls. Borden, Lady Borden, left Toronto on the Grand Trunk at 8 o'clock. At 10 o'clock the party arrived at the falls. Mr. Borden's car was met by a group of Canadian volunteers invading the front of the falls. A number of people had also gathered. Mr. E. A. Lano, Mr. J. D. Chapin, and the party then motored to Niagara-on-the-Lake. The way to inspect the progress of the new Welland Canal. The party arrived at the falls at 11 o'clock. They were met by Col. Logie and officers of the 1st Canadian Trench Battalion. Col. Logie also by General Leese. General Leese, however, stated he was coming as a visitor and that he was not in command. As the stand had been provided by the group, General Leese and his party, stood together and the group well in advance of the crowd of spectators.

It was a beautiful spectacle. The sun shone brightly and the heat was tempered by a breeze from the lake. For an hour the volunteer arm and artillery battalions, mounted officers and the 1st Canadian Trench Battalion, stood in splendid uniform. A crowd of 6000 people gathered for the prime minister, with a complimentary Col. Logie, and a large number of the men.

Spoke at St. Catharines. Borden, Lady Borden, where he spoke in reply to the presentation by the mayor of the city and at 5 o'clock he left Niagara Falls. Along the line he was a great enthusiast and his remarks were a reflection of his recent visit and stirring appeals to the Canadian people. He was opening Sir Robert's tribute to the women of the Empire. He had not finished in the hall when he was interrupted by a woman to make a supreme sacrifice of the empire. No brave women remained behind. They were full of grief and anxiety, they themselves to works of mercy. They could not help but only think of all the boys at the front and were doing Hospitals Efficiencies.

"When I left Canada," he said, "I had not thought of my mind. One was to hospital service was of a kind not to be compared with the wounded soldiers from Canada. The most skillful attention. NIAGARA REVIEW INSPIRING SIGHT

Sir Robert Borden Watched Thousands of Troops March Past.

ENTHUSIASM RAN HIGH

Premier Recipient of Civic Welcome From People of St. Catharines.

Saturday was a red letter day in the history of Niagara. Camp Sir Robert Borden, Lady Borden, and party, left Toronto on the Grand Trunk train at 8 o'clock. At Hamilton, a large crowd had gathered and the premier left his car to greet a group of Canadian volunteers involved home from the front. St. Catharines, a number of people had also assembled, including Mr. E. A. Lancaster, M.P., and Mr. J. D. Cameron. The premier and party then motored to the big camp at Niagara-on-the-Lake, halting on the way to inspect the work and progress of the new Welland Canal.

The party arrived at the camp on time for the grand review scheduled for 11 o'clock. They were welcomed by Col. Logie and officers of his staff and also by General Lessard, who, however, stated he was only at the camp as a visitor and that Col. Logie remained in command. As no reviewing stand had been provided, the premier, General Lessard and others of his party, stood together in a small group well in advance of the great crowd of spectators.

It was a beautiful and inspiring spectacle, the sun shone brightly, but the heat was tempered by a gentle breeze from the lake. For more than an hour the volunteer army swept by, battalions of infantry, mounted officers and field artillery. As one long line after another marched by in splendid union, the great crowd of 5000 people cheered to the echo. At the conclusion of the review the premier, with evident feeling, complimented Col. Logie upon his splendid appearance and martial bearing of the men.

Spoken in St. Catharines.

An hour later Sir Robert rode to St. Catharines, where he spoke at some length in reply to the civic address presented by the mayor and corporation and at 5 o'clock he addressed the citizens of Niagara Falls, Ontario. All along the line he was greeted with great enthusiasm and his addresses were replete with interesting reminiscences of his recent visit to the front and stirring appeals to the patriotism of Canada.

In opening Sir Robert paid another tribute to the women of Canada, who had not flinched in the hour of trial, but had sent their nearest and dearest to make a supreme sacrifice for the sake of the empire. Now had these brave women remained at home reaping. Laying aside their natural grief and anxiety, they had devoted themselves to works of mercy and in so doing all they could to lessen the hardships, not only of their own boys, but of all the boys at the front. Many Canadian women indeed, had gone to the front and were doing noble service.

Hospitals Efficient.

"When I left Canada," said the premier, "I had two thoughts uppermost in my mind. One was to see that our hospital service was of the best. I could not bear to think that any wounded soldier from Canada was not receiving the most skilful care and the best attention. I also determined to personally visit every Canadian volunteer who was confined by wounds or illness in the hospitals of England or France. I am glad to say to you that I found our Canadian hospitals without exception most efficient, modern and up-to-date. There are no better hospitals in the world, and I am almost tempted to say that they are the best. You may rest assured that our Canadian hospitals are giving every care and attention to the wounded soldiers, not only to our own, but to any British soldiers that are brought there for treatment. I found it, however, impossible to carry out my intention of visiting every hospital where there was a wounded Canadian, but I did see the greater number. I might say nearly all of our Canadian volunteers in the hospitals and convalescent homes.

Our Boys Cheerful.

"I found them all wonderfully patient, wonderfully cheerful, but above all, wonderfully brave. I am sure that this war must be prosecuted to an honorable and triumphant conclusion. (Applause). I remember meeting one poor fellow who had received something like seventeen wounds. I asked him if he thought the surgeon had got all the bullets out and he replied, 'Well, he missed three or four the first time, so I made him operate again and he took out three pieces of shrapnel and a piece of my own shirt. So now I am all right again and am going back to the trenches.' (Applause and laughter).

Allies Sure to Win.

Sir Robert said he was entirely satisfied that the allies would achieve a victorious peace. He reminded his hearers that no one at the outbreak of the war could have foreseen what demand would be made upon the resources of the British Empire. Before the war opened, he said, military experts had never thought of putting an expeditionary force into the field of more than 100,000 men with reserves sufficient to keep it up to strength. But now the United Kingdom was alone raising an army of many millions and Canada had over 500,000 men under arms. Of these, he said, 50,000 were overseas and 75,000 were in training or doing garrison duty in Canada.

"Shoulder to Shoulder."

"On the first day of August," said the premier in conclusion, "before the war was declared I cabled his lordship's government at London on behalf of the government and the people of Canada, saying that we hoped that war might be averted, but that if war were forced upon us that Canada would stand shoulder to shoulder with every other portion of the British Empire. The world will judge it has already judged—that the war was forced on us. No statesman ever struggled so hard to preserve the peace of Europe as did Sir Edward Grey. But now that the war is upon us, we are going to do our full part. Believing as we do that Canada is vitally interested, that the empire is vitally interested, and that the safety of the world is at stake.

"Already we have done a great deal, and I was never so proud of my coun-

Fifty Hour Artillery Prepara- tion Conducted by Allies, Says Berlin.

BERLIN, Sept. 25, via London, Sept. 26.—The German official communica-tion says that after an artillery prepa-ration of great intensity, which at some points lasted 50 hours, the ex-pected Anglo-French offensive has be-
gun on the western front.

The text of the statement follows:

"Along the entire front from the sea to the Vosges, the enemy fire has in-
creased. It was especially violent east of Ypres between the Canal of La Bassee and Arras, and also in Cham-
pagne from Prosees to the Argonne.

Severe Artillery Preparation.

"After severe artillery preparation, which at some points lasted 50 hours, the expected attack began.

"Between the railways of Ypres, Roulers and Comines, the British at-
tacked early this morning. Their at-
tack on the northern wing has already
been repulsed, after hand-to-hand
fighting before and in our positions.

"They are further attacking to the
northwest and the southeast of Ar-
mentieres and north of La Bassee
Canal.

Fighting Near Souchez.

"On Thursday evening, as has only
now become known, the French pen-
etrated our battered down trenches
near Souchez. We ejected them
yesterday. The French were again re-
pulsed yesterday near Souchez and on
both sides of Neuville.

"In Champagne, from Prosees to the
Argonne, the French attacked, but
were at a majority of points repulsed.
This was due in part to our strong
artillery fire. In part also the attacks
collapsed a few steps in front of our
obstructions under the fire of our in-
fantry and machine guns.

"The retreating enemy columns suf-
fered considerable losses owing to the
very severe artillery and machine gun
fire.

"At some points on the front, hand-
to-hand fighting is proceeding.

Little Progress in East.

south of Soly is proceeding. The Rus-
sians still are resisting our advance

Arabian, says a writer in The Wide World Magazine, lies at the head of the Persian Gulf, its western boundary be- ing the Shatel-Arab, the great river formed by the combined waters of the Tigris and Euphrates, the right bank of which is in Persian territory, while the left is in Turkish Arabia. Forty miles above where it flows into the Persian Gulf the Shatel-Arab is joined by the Karun, and the Town of Moham- merah stands at the junction of the two rivers, the former a clear green stream, the latter thick and red. In ancient times the Karun flowed into the gulf and part of the river still runs along the old channel, but the main stream has been diverted, three miles above Mohammedrah, into an ar- tificial channel known geographically as the Hafzar Canal. It is impossible even to make a guess at the date of this wonderful work, not even a tradition remains of the ruler whose far-sight- ness realized the enormous advan- tage of joining up the two waterways. Alexander the Great has been sug- gested, but apparently for no other reason than that he is a convenient and high- ly person to credit with any ambitious enterprise, and that one of his many Alexander was built on the site of the present Mohammedrah.

BOMBARDMENT HEAVY

Fifty Hour Artillery Prepara- tion Conducted by Allies, Says Berlin.

VIENNA, Sept. 26, via London.—The following Austrian official statement concerning the progress of hostilities was given out here last night:

"Russian war theatre: The situation in the northeast is unchanged.

"In east Galicia nothing of im-
portance has happened.

"Against our Volhynian front the
enemy began several attacks, some of
which were severe, leading at some
points to our trenches, but all were
repulsed. The Russians suffered great
losses. The number of prisoners cap-
tured on the Ikwa line Thursday and
Friday amounted to 20 officers and
about 4000 men.

"Austrian cavalry, advancing thru
the forest and marshy district of the
lower Styria, again captured some vil-
lages which were stubbornly defended
by the Russians.

Bombarding Serbians.

"Italian war theatre: On the west
front of the Tyrol our artillery opened
fire in the Orler district. An
enemy detachment which advanced in
Cedeh Valley fled to Santa Caterina.
Other enemy troops were ejected from
a position west of Komspitze.

"Southern war theatre: Our art-
illery successfully bombarded Serbian
convoys in the Belgrade district and
enemy infantry on Topsisider heights.
Otherwise the situation is unchanged."

No Business Reasons

It is most unfortunate that the Germans cannot achieve the common sense of judging men on their merits rather than by some other standard. Good men are condemned because they do or do not belong to one, particular political party; because of their religion; because of their nationality; because of their family; or for any reason apparently unconnected with the merits of the man himself.

In connection with the fire department it is notorious that all kinds of reasons are adduced for rejecting a man other than his capacity and ability. One man, who is the son of an alderman, is thus discarded, because "this fact would militate strongly against any proposal to promote him to the present position."

"Might is Right"
Germany complains that her coast line is too restricted and that her only exit to the high seas is commanded by the British Isles. Therefore Germans insist in their right to destroy Belgium and France and to take by force their territories and North Sea and channel ports.

German manufacturers appear to believe, at least they so profess, that after the war they will have comparatively little difficulty in picking up the threads of their shattered foreign trade. Already this has been wiped out thru the allied command of the sea, they imagine that their superior organization will enable them to regain their old markets and, indeed, increase them.

NEW FRENCH LINE STEAMER.
That the war has had practically no effect upon the traffic of the Compagnie Generale Transatlantique, familiarly known as the "French Line," but that on the contrary this traffic has regularly increased is evinced in the announcement of the addition to their transatlantic fleet of a new quadruple-screw steamer which has been christened "Lafayette."

War For World Freedom

In one of his lectures, delivered in 1900, during the South African war, the late Prof. J. A. Crumb, who occupied the chair of modern history in Queen's College, London, remarked that "Europe has passed from the conception of an outwardly composed unity of religion and government to the conception of the inner unity, which is compatible with outward variations in creeds, in manners, in religions, in social institutions. Harmony, not uniformity, is nature's end."

With the Royal Canadian Dragoons going thru the intricate drill of their ceremonial parade, Saturday there were 15,000 of Toronto's citizens who packed the huge stand at the Exhibition grounds Saturday night, the grand military tournament and drill, under the auspices of the Citizens' Recruiting League, opened with a blaze of military ardor and enthusiasm that was almost electric in its intensity.

Artillery work still continues. No cessation in activity along line, says French War Office.

Russians Have Commenced New Offensive Movement, Fighting Strong.

According to the announcements given out at the Paris war office on Saturday afternoon, there has been no cessation in the continued artillery activity along the battle line in France. The following points were emphasized in the communication: Artillery engagements took place in the Artois district south of the River Somme, north of the Aisne and east of the Marne, and in the Champagne districts.

German Trade After the War.
German manufacturers appear to believe, at least they so profess, that after the war they will have comparatively little difficulty in picking up the threads of their shattered foreign trade. Already this has been wiped out thru the allied command of the sea, they imagine that their superior organization will enable them to regain their old markets and, indeed, increase them.

THE RACES!

Saturday's attendance at the Woodbine was the largest of the season, and the sport was the most enjoyable. The card was a remarkable one for distance events. After two at 6 furlongs the balance were over distances of more than a mile and up to 2 1/2 miles on the flat and a steeplechase of 5 1/2 miles. As a result Saturday's races capped the climax of seven days of solid enjoyment.

Winning Owners at Woodbine Park

Seventy-two owners shared in the division of the prize money, and by far the greater part was won by Canadian owners. The victories of George M. Hendrie's Rancher in the Autumn Cup and the Jockey Club Cup, put the owner at the top of the list. The lieutenant-governor is a close second, and would have been a long way in the lead had it not been for the success of Splutter in the Dominion Handicap come to pass. The list is as follows:

G. M. Hendrie, \$3880; Sir J. Hendrie, \$3822; L. W. Garth, \$2735; A. C. Parretto, \$2520; Brookdale St., \$2072; Chas. Miller, \$1422; Wm. Walker, \$1545; J. K. L. Ross, \$1255; Mrs. J. Arthur, \$1780; R. J. Austin, \$1000; W. S. Smith, \$922; G. P. Sherman, \$800; Mrs. Livingston, \$960; J. B. Seagram, \$815; W. Obermayer, \$735; N. Macfarlane, \$715; T. J. Edward, \$710; M. Lee, \$640; F. Murphy, \$585; W. G. Wilson, \$525; R. B. Steele, \$580; M. H. Hower, \$525; F. J. Coleman, \$710; Palace St., \$585; H. S. Newman, \$445; J. F. Sweeney, \$325; J. A. Gibson, \$520; P. J. Miles, \$500; W. P. Prager, \$500; Mrs. Woodman, \$520; E. A. White, \$415; J. F. Sweeney, \$325; G. H. Marlin, \$490; D. A. Campbell, \$477; R. E. Watkins, \$300; J. Arthur, \$350; Wm. Walker, \$1545; J. K. L. Ross, \$1255; J. C. Fletcher, W. L. Oliver, G. R. Tompkins.

STREETSVILLE FAIR DREW GOOD CROWD

Exhibits of Toronto Township Farmers More Numerous Than Ever.

STREETSVILLE, Sept. 25.—The closing day of the Toronto Township Fair held here, was one of the best in its history. Attendance was equal to that of previous years, the special train from Toronto adding 600 to the number. The list of entries throughout the fair was large and of high quality, more surplus in the treasury. The directors' deserve credit for the way in which the fair was conducted, everything being carried out to the letter and the greatest courtesy was shown to exhibitors and visitors.

OLD COUNTRY C.C. WIN BY INNINGS

St. Davids Beaten Easily in Final for Championship of C. and M.

The Old Country C.C., winners of the eastern section, met St. Davids in the eastern division, met on Varsity campus Saturday to play for the championship and the shield, the latter going to the defeated team, as runners-up. The game, while interesting, was not as close a contest as was generally expected, and resulted in an easy win for the Old Country C.C. by an innings and 12 runs.

Scorecard for Old Country C.C. vs St. Davids. Includes batting and bowling statistics for both teams.

St. Davids' innings commenced badly. W. Muckleston bowled McKinnon's first ball. McKinnon's first ball was a fast one, but it was not a wicket. McKinnon's second ball was a fast one, but it was not a wicket. McKinnon's third ball was a fast one, but it was not a wicket.
