Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

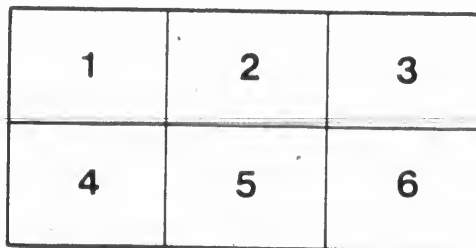

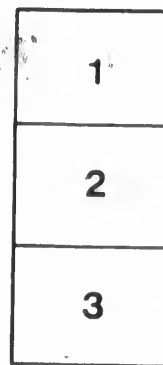

D. B. Weldon Library  
University of Western Ontario  
(Regional History Room)

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

D. B. Weldon Library  
University of Western Ontario  
(Regional History Room)

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symbolés suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

**Edison Records, 50c. each, \$5.00 per dozen**

**TERMS.**

Cash with order, or C. O. D. if sufficient remittance is made to cover express charges.

Remit by Bank Draft, Post Office Order, or Express Money Order.

Dealer's Discount will be allowed only on List Price of fifty cents each and not on the \$5.00 per dozen price.

**HOW TO ORDER.**

Always order records by NUMBER, not by title.

Write order on a separate sheet, with name and address.

If possible, make a double list, naming "second choice" of selections in the event those preferred are not in stock. If this is not done we take the liberty of substituting records of our own selection when necessary—unless direct instructions not to do so are given.

Specify by what express.

Records are too fragile to be sent with safety by mail. Great care is exercised in packing and all our receipts from express companies and other carriers are for goods forwarded "in good order." Our liability ceases when goods are delivered to carriers.

**Mr. Edison's Latest Discovery.**

A complete revolution has been made in the Art of Record Making. The recording diaphragms now used are constructed on an entirely new principle. They are so sensitive that they record the most delicate sound wave, now lost by all other methods

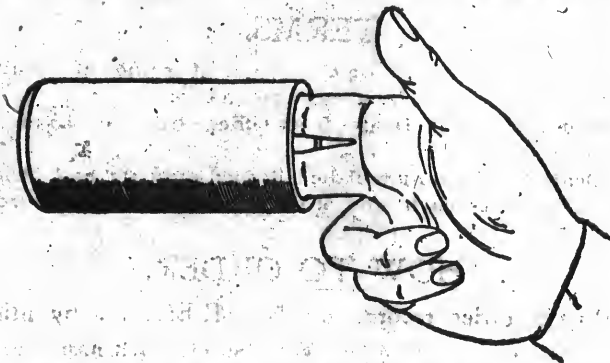

EDISON RECORDS will eventually supersede all other records now on the market, because they are of higher quality.

For Table of Contents see page 48.

# HOLDING THE CYLINDER

The wax cylinders should be handled gently at first, until the operator becomes practised.

Thrust the first and second fingers of the right hand into the thick end of the cylinder, and hold it fast by spreading the fingers apart. Touching the outside surface of a prepared cylinder, or record as it is called, destroys its attractiveness and generally its value.

## ORCHESTRA (Continued)

## DANCE MUSIC (Concluded)

- 688 Yankee Doodle Dandy Lancers P  
With burlesque figures called
- DESCRIPTIVE
- 7277 Admiral Dewey's Arrival in New York P  
Descriptive. Dewey arrives in New York Harbor, and is received with cannon booming, bands playing and cheers of soldiers and sailors. Dewey is called upon to make a speech, which he delivers, and the band plays "Columbia, the Gem of the Ocean."
- 664 At the Circus B  
A clever descriptive selection. The ringmaster's voice is heard, the crack of the whip and the whoop-halloos as the lady jumps through each paper hoop. The horses hoofbeats and the cheers and shouts of the audience lend a very amusing reality to this fine Orchestra Record.
- 657 Awakening of the Lion B  
Lion's roar plainly heard
- 663 Battle of Manassas B  
A grand descriptive piece. Full of Martial melody. The music is inspiring and the hearer is fairly carried away with enthusiasm. Over the din of battle one hears the voices of commanding officers, the bugle call, and the rattle of musketry. The thin piercing strains of fifes play "Yankee Doodle" and the record closes the whole orchestra playing "The Star Spangled Banner"
- 694 Battle of Manila American Battle Scene P
- 7478 Dance on Friday Night P
- 519 Dancing on the Housetop B  
Song and Dance with clog effect

Our Company is the only one to take records of real chimes in a real belfry. A series of fine records. The wonderful bell effects produced are the result of a great many experiments in a great many belfries. Much credit is due to our artist, who has at last succeeded in finding a steeple where proper arrangement of his special machine is possible, with highly satisfactory results. Overtones are eliminated, the bells ringing out pure and clear.

The following selections are by the Edison Male Quartette; for mellow harmony and smooth Musical quality they are simply in a class by themselves.

- 2201 Annie Laurie
- 2202 Auld Lang Syne
- 2232 Break the News to Mother
- 2203 Bridge
- 2226 Camp Meeting Jubilee  
Describing a negro jubilee gathering. A regular experience meeting. Interruptions of "Amen," groans and "Wicked Nigger." Between experiences the congregation sings. They wind up with "O Noah Built de Ark."
- 2237 Carry Me Back to Old Virginny
- 2224 Church Scene  
From the Old Homestead; the chimes ring out sweetly, just as they do in the famous play. The illusion is complete.
- 2204 Cornfield Medley  
Steamboat, Bell, Whistle and Banjo Imitation.
- 2213 Dancing on the Old Barn Floor  
Includes the imitation of the various noises of domestic animals and fowls, which are in the old barn while the dance is in progress. The arrangement is so natural that every one is delighted with this clever record of life and enjoyment on a farm

**SPECIAL ANNOUNCEMENT**

---

---

**I**N response to a popular demand for "Language Study" Records, there are now being manufactured at the Edison Laboratory, complete series of such records in French, Spanish, German and Italian, **exclusively** for **Professor R. D. Cortina, 44 West Thirty-fourth Street, New York,** from whom all particulars can be obtained. Prof. Cortina is the originator of the adoption of the Phonograph for the teaching of languages, with an experience of fifteen years making language records. These records are for sale in sets only (10 records to a set) by all dealers in Phonographs, Records and Supplies.

---

**SPECIAL ANNOUNCEMENT**

---

**A**T the present time there are over fifty artists whose services are in demand by The National Phonograph Company in making the different Records listed in this catalogue. There have been many calls recently for photographs of the talent. It is the purpose of this announcement to offer a group photograph, size 7x9, mounted on a heavy gray mat, to all Phonograph owners who have asked for pictures of the talent during the last few months.

This group picture gives a perfect likeness of every one of the forty two artists who gathered together for this occasion. In the centre of the picture is the Manager of the Record Department. On the left stands Mr. Harlan, the popular tenor, and on the extreme right, George W. Johnson, the Whistling Coon. Seated in the second row are Miss Newton, Miss Kelso and Señorita Godoy; while gathered around, seated and standing, are the rest of the galaxy of stars.

Each picture in the group is numbered and the footnote gives the name and specialty of the performer.

The price is 50 cents each. \$6.00 a dozen.

If sent by mail, 5 cents extra for postage.

HAND-BOOK of the PHONOGRAPH

---

THE PHONOGRAPH

*and how to use it.*

THERE has been prepared at the Edison Laboratory a new and complete HAND BOOK of the Phonograph. It tells the story of the invention in MR. EDISON'S own words. It describes the making of the first Phonograph and how the first word that it spoke was the familiar old rhyme,

*"Mary had a Little Lamb,"*

THE HAND BOOK gives a story of the attempts by early inventors to make a mechanism that would talk; telling of Faber's talking man, Vaucanson's duck, Roger Bacon's head, and a host of other interesting and curious facts. There are quotations from old authors, dating back to the 1600's, showing that the IDEA had been dreamt of for a long time. It describes the Singing Statue of Egypt, MEMNON, the speaking head of ORPHEUS, and other ancient mysteries.

THE HAND BOOK presents a pictorial history of the development of the Phonograph from the first rough tin foil model up to the perfected CONCERT. In

## HAND-BOOK of the PHONOGRAPH

all, there are over 90 illustrations in the Book; which is printed on antique paper, 180 pages and octavo size. It is bound in buckram, with a cover design in two colors by CLELAND, showing Pan playing his pipes.

**N**OT ONLY to the curious, but to the Phonograph owner as well, is the HAND BOOK of peculiar value. It gives detailed information as to the construction of the different machines and contains complete directions and plain talks as to their care and use. No Phonograph owner should be without it. It is worth its cost many times over in the helpful hints therein contained.

**T**HE OPENEER PAPERS (reprints of the "Phonograph Short Story" pamphlets) form a series of practical suggestions as to the various actual uses of the Phonograph. MR. OPENEER is an enthusiast who has an open ear and eye to the adaptability of the instrument to "human nature's daily food," and his notes and jottings in the six Openeer Papers are full of meat.
