# BISHOP FALLON'S IDEAS ON BILINGUAL SCHOOLS AS TOLD TO MR. HANNA

### Private Memoranda Detailing Conversation With Bishop of London Become Public in Mysterious Way, and Ag- gravate a Delicate Situation.

## MGR. WAS OUTSPOKEN AGAINST FRENCH TONGUE

In the issue of The World of Sept. 25 a statement was published over the signature of Monsignor M. F. Fallon, Bishop of London, in which his lordship gave an unequivocal denial to an article which appeared in The Sunday World of Sept. 18, to the effect that he was opposed to bi-lingual schools, that he had organized the Irish archbishops and bishops into a campaign to retain Ontario as an English-speaking province, and had issued a mandate forbidding the schools in Essex and Kent Counties from teaching French.

The article, Mr. Fallon styles as false and libelous, and suggests a malicious intent. Later on in his denial he declares: "I have never been in word or deed, by intent or desire, unfriendly to the interests of the French Canadian people. I have never issued, nor caused to be issued, directly or indirectly, verbally, by writing or in any other way, any order or mandate, or even expression of opinion, concerning the teaching of French, or any other language in the separate schools, or in any other schools of the Diocese of London, or any other place."

What The World published on the article of Sept. 18 was a matter of news, and The World, with the same good faith, gave his lordship's statement prominence, refraining from comment.

On Sept. 30, a despatch from Montreal was published in which a member of the school board of Notre Dame du Lac, Walkerville, writing to La Patrie, said that the bishop's denial in Essex. The superior of that institution, when asked who had given the order to suppress French and forbid its use, said that the mother superior of St. Joseph's in London had been called to the bishop's palace and received her instructions from Mr. Fallon himself.

Now a most unusual situation has arisen. On May 22, Hon. W. J. Hanna, provincial secretary, was invited to meet Mr. Fallon in Sarnia. What happened at that conversation Mr. Hanna thought of sufficient importance to commit to paper and send to Hon. R. B. Pyne, minister of education.

The provincial secretary intended to send memoranda to the government, but it seems that the French-Canadian editor secured a copy of the paper and the letter first appeared in a French translation in "La Revue Franco-Americain," Quebec, and on Oct. 8 in Henry Bourassa's "Le Devoir." The government has declined to furnish the press with a copy of the original letter, but The World offers the following translation from "Le Devoir":

"The consequences of protracted struggles in the courts, which are likely to occur, will be very serious, and in the meantime, as usual, the public will suffer. With a desire on each side to meet the other side in a reasonable way, no insuperable difficulty should arise."

# SAYS CANADIANS ILL-TREATED REFUGEES

### Sheriff Rutledge of Interna- tional Falls Comments Se- verely on Attitude of Hotel- men and Others at Rainy River—Loss of Life Seems to Be Exaggerated.

INTERNATIONAL FALLS, Minn., Oct. 12.—(Special.)—Sheriff Rutledge declares the worst outrage of the whole scene following the fire is the attitude of Canadians at Rainy River. He says the King Edward Hotel will not permit refugees to sit down in the hotel, charges them \$2 for a bed, 50 cents for a sandwich, and that he paid \$1 for two soft drinks at the bar, while making an investigation. He says other prices are in proportion, and that not one of the Rainy River citizens has helped in the work at Beaudette or Spooner of seeking out the dead or burning animals.

Governor Eberhart of Minnesota and staff arrived here this morning. Despite the early hour, the governor at once left his car, and looked over the situation, finding less than sixty refugees quartered here, and he ordered that they be at once sent to Duluth and Bemidji. For the stock, which had been saved by the settlers, he ordered three carloads of hay and a car of oats, and they are expected to arrive tonight from Bemidji.

"Everything is in good shape at International Falls," said the governor. "The people do not need soldiers, neither do they need nurses, nor supplies, for there is no danger now. Those who have arrived here from the burned districts and need medical attention will at once be sent to places where they can receive the best attention. The town is well patrolled, and the authorities have the situation in hand."

Sealed Arms of Guards.  
BEAIDETTE, Minn., Oct. 12.—(Special.)—The special train with Governor Eberhart on board pulled into town at 8 o'clock this morning. It was held up at Rainy River, where Wood killed out the manifests for the provisions and supplies, so that they could pass thru Canada. All the arms of the guardsmen of Company K (Bemidji) of the Minnesota regiment, were sealed while they were taken across the Canadian border to reach this town.

The governor's staff was unable to obtain any definite information of the number of dead, but the consensus of opinion is that it has been greatly exaggerated. After talking to a number of refugees, Governor Eberhart said: "I do not believe the dead will number more than 100. Many people reported as having been burned to an unrecognizable mass have turned up safe and sound." Frank Curtis, one of the old-time forest rangers, says the death list will not exceed fifty, and may not go as high. He is also strip of country burned over only measures forty square miles.

Escaped the Flames.  
The McComber family of eight, whose tragic death was reported on Monday morning, have been found. They escaped the flames by staying in a small creek, and then building a camp, waiting until the burning embers permitted them to leave their retreat. Weaver and Barr, also reported on the death list, are here today.

Twenty-six typhoid fever patients found here during the night are being sent to Duluth. It is the belief of doctors here that the disease was contracted in dirty camps beyond the city. The militia have been forbidden to drink water of any description, and the citizens are warned not to do so. Health officials are now en route.

# A GLORIOUS "PROSPECT"

AS VIEWED FROM MOUNT WHITNEY

## GUARDED TRANSMISSION LINE FROM WRECKERS

Engineer Sotman Took No Chance  
of Outside Interference With  
Ceremonies at Berlin.

Just suppose there'd been no gloriously radiant response when Sir James Whitney and Adam Beck together pressed the button at Berlin Tuesday, inaugurating the government's Niagara power service? That was a possibility—not because of faulty system, but of foul play—that worried Engineer Sotman a good deal. To ward off any attempt to interfere with the current along the right of way he took every precaution, and men properly equipped to do battle in the people's name for the cause of cheap power patrolled the transmission line from Niagara Falls to Berlin. To interfere with the transmission system would have produced a slowly walking procession thru the verdant fields of Welland and Lincoln Counties.

## ACCIDENTALLY DISCHARGED PISTOL

BRANTFORD, Oct. 11.—(Special.)—Mrs. William Noyes, a Catholic woman, is lying at the hospital here in a serious condition. While cleaning out a drawer at home she ran across an old pistol of her husband's, which accidentally discharged. The bullet, which entered her shoulder, has not yet been located.

## PAID FAT PROFITS TO HIS FIRST CUSTOMERS

Sheldon's Office is Closed, He Can-  
not Be Found and Losses May  
Total Three Millions.

MONTREAL, Oct. 12.—(Special.)—The Sheldon incident became very acute to-day when it was announced that the office of the so-called "blind pool" man was closed, altho D. Burnside, Sheldon's manager, stated that he had every reason to believe that the broker had not been heard from since he left town day before yesterday. Burnside says he never received any telegram, as announced in an evening paper, and it looks as if the books were in a very bad state, so it is simply impossible to make any estimate of the losses.

It is pretty well understood that the losses begin with the people who became customers, say six months ago, as the previous ones probably got out a good deal more than they put in. One strange feature of the case is in the fact of Sheldon paying these first customers such fat profits, as he could have paid them half the amount, and they would have been quite as enthusiastic in his praise.

Burnside evidently knows no more about the loss than the man on the street, for it goes without saying that all the employees were going in blind, as far as the details of the business were concerned, and one and all had implicit confidence in the financial wizard, as they used to call him. An evening paper estimates the losses at three millions, but this is from no authorized sources, for no authorized sources exist.

Sheldon has left the town, has been followed by his wife, and the sheriff has taken possession of his house and furniture in Westmount, worth \$10,000, he having paid \$1500 for the same, allowing a mortgage of \$9000 to remain. Several young men threw up lucrative jobs to enter Sheldon's employ and get rich quick with the rent. One well-known man from the Bank of Montreal left that institution to become an accountant, and to-day he is quite likely minus the last position, altho there is one man in the abandoned office who swears Sheldon will come back and confront his enemies. As a matter of fact, the Montreal broker could not be located anywhere in New York to-day, and it is not supposed he went to that city. It is not even known that he took a railway train, and there are those who go so far as to say that he is hiding with friends in Montreal.

## AN ENQUIRY GONE ASTRAY IS MISSING FROM REPORT

Judge Winchester Can't Get Along  
With Investigation Into  
Water Analyses.

When is Judge Winchester to begin his investigation into the bacteriological branch of the medical department? His honor is awaiting instructions which the city council was to have given him last Monday, but didn't, because somehow a cog seems to have slipped. The board of control on Friday, Sept. 30, approved a motion by Controller Spence to request the county judge to enquire into the water analyses made by Dr. Fleming, the city analyst, because of the wide difference between these analyses and those of the provincial analyst in regard to the presence of coli communis.

"I think there has been some misunderstanding," said the county judge last night. Controller Spence now thinks so, too. He had no doubt that the recommendation was in the rather voluminous board of control report passed by council last Monday—that is, his convictions on the point were undisturbed until he learned that Judge Winchester was waiting to get power to enlarge the scope of his enquiry into the isolation hospital. Then he scanned the report, but couldn't find the recommendation.

Unless a special meeting of council is called, the judge cannot start work in the new field until after Oct. 24, when the next regular session is scheduled. The delay is unfortunate as, without it, he would probably be able to present his report in three weeks or less, and be ready to start on the investigation of the works department.

An impression has been created that the latter enquiry would be shelved until after the municipal elections, but Judge Winchester says he has no such intentions. He does not see any reason why candidates should wish matters deferred.

## DOESN'T AFFECT PHONE RATES

Manager Dunstan's Assurance re Ap-  
plication to Railway Board.

At the meeting of the Dominion Railway Commission to-day, Manager K. J. Dunstan will ask permission to make one or two changes in the local schedule. The alterations will be simply to remedy an omission of one feature of the service when the general schedule was adopted some years ago, and has no bearing whatever on the general question of rates," said Mr. Dunstan last night.

The board will also hear the complaints of a number of telephone subscribers, alleging unduly high rates for service. These include the protest of S. Ryding of ward seven, West Toronto, who claims business men there are entitled to the \$50 rate given in other parts of the city, instead of the \$80 charged. He hopes to bring a deputation of business men before the commission to support his case. In fact, he invites any similarly minded to make it a point to be present.

# THREATS AS THE FOOD SUPPLY OF PARIS

### Railway Strike in France As- sumes Serious Proportions —Denounced by Premier Briand as Insurrectionary and Criminal—Trains Held up and Derailed.

PARIS, Oct. 12.—The strike of the railroad men, which threatens to spread throughout the length and breadth of France, was denounced to-day by Premier Briand as "insurrectionary purely, built upon criminal foundations."

The premier declared that the strike would be criminally prosecuted. The River Seine, which in January threatened to destroy Paris, now looms up in the role of a savior. The government has made arrangements to rush food supplies to Paris from the sea, requisitioning all tugs, boats and barges to meet the crisis, brought about by the stoppage of the railway service, and ease the food market shortage, which is already hard hit.

Call to Colors Ignored.  
The employees of the Eastern and the Paris, Lyons and Mediterranean railways have not yet, to any appreciable extent, responded to the leaders' call to strike, and the government's weapon of mobilization has induced some of those employed on the northern line to return to their trains. Nevertheless the Northern and Western railways are prostrated. The call to the colors has been ignored by the large majority, and at mass meetings held to-day the railway workers reiterated their determination not to respond to the call.

Much destruction has been wrought on the western system, where the strikers and their supporters have held up and derailed trains, blocked tracks, destroyed signals, ripped up tracks and destroyed telephone and telegraph wires. The government has ordered the arrest of a score of strike leaders, and instructions have been issued to the troops to use severe measures wherever occasion offers.

Soldiers Guard Stations.  
Thousands of people living in the suburbs, but employed in Paris, massed this evening around the depots. These they found closed and silent, with the Parisian galets they laughingly set out to walk home, perhaps a distance of five or ten miles, or stormed the tramways, cabs, automobiles and other conveyances. The depots were closed, and the strikers' call to strike, and the government's weapon of mobilization has induced some of those employed on the northern line to return to their trains. Nevertheless the Northern and Western railways are prostrated. The call to the colors has been ignored by the large majority, and at mass meetings held to-day the railway workers reiterated their determination not to respond to the call.

Says Government is Responsible.  
M. Jaures, leader of the Socialists in the chamber of deputies to-day, answered Premier Briand, charging that the railroads of the government were responsible for the present crisis. He declared that the scheme of the militarization was dangerous, and was certain to weaken military discipline and increase anti-militarism.

The great railway lines are the Eastern, the Central, the Northern, the Paris, Lyons and Mediterranean, the Western, the State and the Belt Line. The total trackage is nearly 25,000 miles, and some 300,000 employees would be involved in a general strike. The men of the Eastern, Western, Northern and Paris, Lyons and Mediterranean already have voted to stop work. The greater number of these were already idle to-day.

## TO SEE SICK MOTHER

Ernest Ouimet Rode the Bumpers All  
Thru the Night.

OTTAWA, Oct. 12.—Emaciated from long fasts, and with his face blackened and burned by cinders, Ernest Ouimet was taken from between two cars of the Canadian Pacific train, which arrived here from North Bay this morning, and arrested by a special C.P.R. train, and it is not supposed he went to that city. It is not even known that he took a railway train, and there are those who go so far as to say that he is hiding with friends in Montreal.

TORTURED, THEN MURDERED.  
OTTAWA, Oct. 12.—Part of a human face badly burned was seen this morning handed over to the chief analyst of the government by Dr. Pagan, provincial health officer at Vancouver. It is the only clue to the solution of a mysterious murder recently at Revelstoke.

## \$25 FOR MANSLAUGHTER.

MONTREAL, Oct. 12.—Garcosa and Picotte, who killed Carter as a result of a practical joke, and were found guilty of manslaughter, were fined \$25 or three months.

HAMILTON HAPPENINGS

NEED TOLERANT SPIRIT AMONG PROTESTANTS

Archdeacon Madden and Rev. Dr. Hanson Preach on Christian Unity at Hamilton.

HAMILTON, Oct. 12.—(Special.)—St. Paul's Presbyterian Church was crowded this evening with an audience composed of members from all the Protestant denominations of the city to hear Archdeacon Madden of Liverpool, Eng., and Rev. Dr. Hanson, Belfast, Ireland, representatives of the Evangelical Alliance, deliver addresses in the interest of co-operation and the promotion of unity.

After telling how the movement had been taken up in Germany, the Archdeacon said that if the men of the Christian churches acted in unison, they could do away with war. While he was confident that ultimately God would triumph, he was certain that during the coming century the Christian religion would be challenged, and the responsibility was upon them to strive for the Bible, for Christ, for the old truths, and for those principles which had made the Anglo Saxon world for his honesty in business, and that righteousness which exalteth a nation.

Intolerance Not Dead Yet. They saw it in Europe, and the events of Portugal had been the result of the struggle of the people for civil and religious liberty. The archdeacon expressed the hope that an evangelical force would soon be stretched across Canada, and marshalled behind the banner of Christ.

Dr. Hanson said that there was no antagonism among the missionaries of various denominations in the foreign field, and he believed with Canon Henson that the spirit of unity should be domesticated. He asked how unbelievers could be converted, in the face of the fratricidal strife of the Protestant churches. He concluded by drawing a picture of a comprehensive Protestant church, with the virtues of all denominations and the extremes of none.

The local Knights of Columbus held a banquet in the C.M.E.A. Hall this evening. Mr. O'Brien, K.C., occupied the chair and addresses were delivered by George Lynch Stanton and James Battle, district deputy of Toronto.

The action brought by the Meridian Britannia Company against the stockholders of the Hamilton Bowling and Athletic Club came up before Judge Monk in the first division of the court this afternoon. The action was to decide who was to meet a judgment secured against the club by the company for \$60, the value of trophies purchased by C. J. Myles, the principal shareholder, objected to a bailiff seizing the property of the club, as he said he had purchased it. Judge Monk declined to give a finding, and suggested that the best way to settle the trouble would be to appeal.

The Road Traffic Bylaw.

The legislation committee decided to amend the road traffic bylaw by striking out the clause that makes it necessary for pedestrians to pass all ways on the right side. The clause prohibiting runners from using the streets was also struck out. It was also decided to compel automobiles to cross streets at intersections and turn corners at a speed not exceeding four miles an hour. By the decision to extend the area in which cars and bikes must not be kept in the city easterly to Wentworth-street and as far as the Grand Trunk tracks, the Stroud cattle buyers will be affected. The Dominion Railway Commission this afternoon received the application of the T. H. and B. and Grand Trunk for permission to build a spur line between Wentworth-street and Shearman-avenue, for an interchange of freight, and the application of the T. H. and B. for permission to build

more tracks across intervening streets, and reserved its decision on the matter. Strong objections were raised by the residents in the locality and city. The Grand Trunk was ordered to build gates at Sherman-avenue and Lotridge-street, the company and city to pay half the cost of the gates, as well as the salaries of watchmen, who must be on duty from 6.30 a.m. to 6.30 p.m.

Almost a Centenarian. Mrs. Susan Howey, 96, died to-night at the home of her daughter, Mrs. George Husband, 129 West Hunter-street. The deceased fell and broke her hip some time ago, and never got better from the injury. She was the widow of William Howey, Niagara Falls South, Ont.

The death took place in his first year at the City Hospital of Thomas Costigan.

The police to-night raided 174 Rebecca-street, and arrested Samuel Goldstein and Lore Magan. The former will be charged with keeping a house of ill fame, and the latter of being an inmate.

RHEUMATISM CURED

Zam-Buk Will Give You Relief!

When you have any deep-seated pain in the joints, the back, the wrists or elsewhere, place a liberal supply of Zam-Buk on the fingers or on the palm of the hand and rub it in. The penetrating power of the "Zam-Buk" balm is very great. It kills pain and removes stiffness.

So many of the ordinary embrocations and liniments are imperfectly prepared and not sufficiently refined to penetrate even the skin—much less the underlying muscles. Zam-Buk is totally different. Zam-Buk is so refined, and its essence and juices are so concentrated, that when rubbed into the muscles for rheumatism, sciatica, sprain, etc., its effect is very quickly felt.

COOKED UP A FIERCE STORY

But the Police Sergeant Soon Riddled It.

Police Sergeant Rowe's memory for faces put a sudden crimp in a nicely concocted story last evening. The firmen of Berkeley-street station called up Willow-avenue police station and asked that the patrol wagon be sent down to pick up a man who had been assaulted and robbed. The wagon returned with Wm. Harvey, who arrived in Toronto two days ago from Cobalt. He had a black eye, and a broken nose. Immediately he was taken to a hospital to be treated for his wounds by four thugs, who took his wad.

MAKE NO ARRESTS

Brant Council Thinks Indian Dept. Should Administer its Own Justice.

BRANTFORD, Oct. 12.—(Special.)—Members of the Brant County Council have made a request to country constables to make no arrests on the Indian reserve. The county annually foots the bill of the cost of the administration of justice, which is made up largely by Indian cases. The request, however, bears no proportion of the cost, and the councillors are of the opinion that the Indian department should administer its own justice.

Tackled the Wrong One.

Everette Walker, a barber of 369 East Queen-street, got loaded yesterday and tried to clean up the street. He declared also that he could wipe out the police force and started to demonstrate on P. C. Annis (268). Annis had a hard battle, but landed him in No. 4 station, charged with being disorderly.

Died in Penitentiary.

KINGSTON, Oct. 12.—Robert Wardell, aged 33, is dead at the penitentiary. He had spent much time in the hospital from rheumatism. He was sent to prison from Peterboro for arson.

DINEEN'S GREAT DISPLAY OF HIGHEST CLASS FURS

Yonge St. Firm Now In Splendid Remodeled Quarters and Able to Cope With Increasing Business.

An interesting picture is published in this issue, showing the building of the W. & D. Dineen Co., as it appears now that the recent enlargements and improvements have been completed. This well-known firm, which was established in 1874, removed to the present site some ten or twelve years ago, but at that time only a part of the building was occupied by it. During the last few months a dividing wall has been torn down, new show windows have been let in on the Temperance-street front, and the upper floors have been considerably extended. This has been done to make the room that has become absolutely necessary for the increased business of all the departments, and to provide space for a new department of ladies' gaiters.

An inspection of the store gives some idea of the enormous business that has grown from the small beginnings of thirty years ago. The department of ladies' furs is most impressive, a stock valued at over \$150,000 being on display, and including garments of sealskin, Persian lamb, Hudson seal, and many other fashionable and desirable furs. Costly stoles and mufflers, Hudson Bay sable, Russian sable, ermine and chinchilla, in styles equal to those of London or Paris, are shown on racks, especially fitted for purpose. Muffs this season are worn very large, and there is a grand show of large, round carriage and auto muffs in all the fashionable furs.

There is a special department for ladies' fur-lined coats, where auto and street coats are shown, both fur and satin-lined. Magnificent long coats are displayed, suitable for travelling and ocean wear, as well as for driving in cold weather.

The new department which has just been added, takes in a space of 60 by 40 feet, being placed on the second floor. Everything in this department is brand new, so that ladies can be sure of seeing only up-to-date garments in the way of tailor-made suits, skirts and ulsters. Better cost-effective and traveling coats are shown in diagonals, serges, tweeds, Venetians, broadcloths, basket weaves and other stylish materials. The rain coats include silks, moles and pongees. There is an extensive stock of separate skirts, in such cloths as Panamas, voiles and millinery.

A beautiful showing of fashionable hats, copied from the latest Paris models and manufactured on the premises by the firm's own workers. Hats run to extremes in height, and the picture hats and small, dressy toques are equally well represented. The new styles in winter turbans of mink, fur lined and black Russian hare are just being placed in the department, also, many novelties are shown in the way of feather, marabou and ostrich boas.

It is little wonder that better values are obtained here at Yonge and Temperance-streets than elsewhere in the city, when the long-standing Dineen reputation for reliability is taken into consideration, coupled with the spirit of go-ahead which infused them from the beginning. In their enlarged store as it is to-day, they have now a home that is worthy of their business in every way.

WESTERN ANGLIANS HERE

Come to Attend Board Meeting of C. M. S. C.

A number of prominent Anglican churchmen from the western provinces are in town to attend a meeting of the board of management of the Canadian Historical Society of Canada. Among those who arrived yesterday were Bishop Pinkham of the Diocese of Calgary, Archdeacon Timms, in charge of the Indian work in that diocese, Rev. C. H. Hobbs, secretary-treasurer of the diocese, and Rev. Banfi; James Conybeare, K.C., chancellor of the diocese; Walter A. Giddes of Calgary, Bishop Newham of the Diocese of Saskatchewan, and Archdeacon Meckay of Prince Albert.

Bishop Pinkham stated last night that under present conditions there was a crying need for more men to take up the church work of his vast and rapidly growing diocese. He has about 60 men in the field now, but 80 or more are imperatively necessary before the work can be satisfactorily covered.

BROKE HIS SKULL

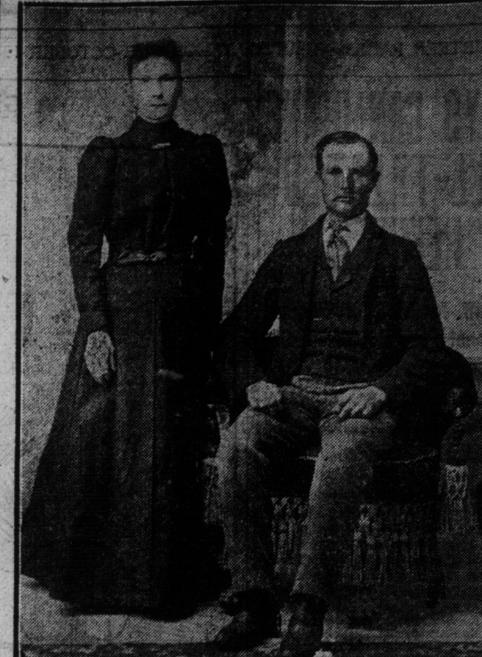

Inquest on Brantford Man Who Was Struck in Face by Armenians.

BRANTFORD, Oct. 12.—(Special.)—At the inquest into the death of Frank Simon, who succumbed to injuries received in a fight with Armenians, two doctors who performed the autopsy, declared that the deceased came to his death from a fractured skull, and that the latter might have been caused by a fall on the pavement after being struck in the face with a dinner plate by the Armenians, Kopolian and Magaralan, have been remanded for a week.

Fell Backwards.

Fred Johnstone, 11 Kensington-avenue, a street cleaner, was pitched backwards out of a dump cart, into which he was tramping leaves yesterday, and was removed to his home suffering from injuries to his hip and back.

THE SMITH'S FALLS TRAGEDY

RUFUS WEEDMARK AND HIS WIFE. Weedmark was yesterday, at Perth, sentenced to be hanged on Dec. 14 for the brutal murder of Mrs. Weedmark last spring.

WILL BE HANGED DEC. 14 FOR MURDER OF HIS WIFE

Rufus Weedmark Found Guilty After Short Trial—Choked Her to Death.

PERTH, Oct. 12.—After being out three-quarters of an hour the jury this afternoon found Rufus Weedmark of Smith's Falls guilty of the murder of his wife Kate, in their home on the morning of April 20. Chancellor Boyd thereupon sentenced Weedmark to be hanged on Dec. 14.

When the prisoner was arraigned this morning he pleaded guilty, but his counsel, C. J. Foy, insisted on a plea of not guilty.

Dr. Stammers swore Weedmark stated to him on the fatal morning, just after he had choked his wife to death by the throat and nose: "I did it, doc; didn't I make a good job of it, doc, eh? She would not send him down any more, her mother and other neighbors talking him about him." Witness found marks on the throat and windpipe.

Alex. McLaughlin recounted how he had heard Weedmark and his wife quarrelling. "Weedmark started to strike her," said McLaughlin, "and I saw her as a coward to strike a woman." He then testified that Weedmark did not appear to have been under the influence of liquor.

Daughter's Evidence. Evelyn Weedmark, a daughter of the prisoner, is 14 years of age; she gave her evidence in a clear voice her manner was naturally subdued.

"During the night, about 4 o'clock," she said, "I heard my mother screaming and ran downstairs. Father was holding her by the throat and had his hand over her nose."

"Did you try to do anything?" "Yes, I tried to pull him off, but he told me to stop."

"What did you do then?" "I ran outside and yelled."

In reply to Mr. Foy, she said that her father had been drunk, but he was not "good and drunk." Her father had accused her mother of having been bad with Amos Allan.

Mrs. Gilligan, James Handyside, Florence Derrall and W. H. Cole swore that Weedmark had told them he had killed his wife, and boasted he had made a good job of it.

Rufus Weedmark was called on his own behalf. He was twice married. His first wife died 14 months after marriage, and he had been married to his second wife about 20 years. He impugned his second wife's chastity, and stated she was running with other men within 24 hours after their marriage, but admitted this did not cause him to murder her. She had been a good wife to him for 15 years. On the night of the tragedy, he was drinking and in a few hours about three plums and a half. His wife was drunk that evening, too.

When he came home that evening his wife asked him to go and get whiskey for her, but he refused, he swore, as he was drunk. Then he says she cursed him. Both continued wrangling; witness told his wife if she didn't go away and leave him alone he would slap her mouth. Later both had several drinks and they fell asleep downstairs. About 2.30 he ordered his children to bed, and asked his wife for a drink of water. She replied to him, "Go to bed and get it." He got the water, but stated in reply: "You are pretty stiff." With that Weedmark swears he wife threw a galvanised teapot at him, bruising him on the shoulder.

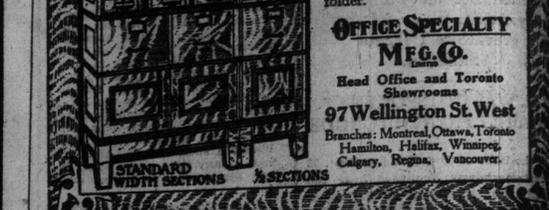

"Then I grabbed her on the floor and choked her," said Weedmark. "I lost my head altogether, and didn't realize it until Evelyn stood in the door and said: 'Pa, you are killing me.' I then went over to Mrs. Gilligan's and said I had killed Kate. When I killed her I was drunk. She made me mad by throwing the teapot at me. I was angry at her for sending me to the Central Prison last year. I never intended to kill her, and I am sorry for myself and little children."

On the resumption of the trial after intermission for lunch, Dr. Bruce Smith, inspector of prisons, said he visited the Perth Jail on May 11 days after the tragedy. "I made a

FOR the small business or private office, or where the capacity of the full width Sections is not required, (see illustration) these new Half Sections are decidedly convenient.

Made in selected Quarter-cut Oak of the same high-grade and finished in the same rich shade of golden oak as Office Cabinets now installed, or if desired alone they will be a credit to any office.

Occupying only 16 1/2 x 17 inches floor space, they have a surprising capacity; and made in 18 different styles, there is a Half Section to meet every filing requirement. Send for illustrated folder.

GAVE A LARGE AUDIENCE MERRY ENTERTAINMENT

French and Collinson, at Massey Hall, Evoked Heaps of Laughter in a Varied Program.

When two such eminent entertainers as Percy French and Houston Collinson come to Toronto, a large audience is to be expected, and while Massey Hall was by no means full last night, there was a sufficiently ample array to make it look furnished, and that is a considerable crowd for the big auditorium.

There has never been heavier laughter in the place, and the keenest interest was evident throughout. Mr. Collinson said afterwards that it was clearly a musical audience, from the readiness with which they took up the points of his piano comedy, and the result to say what was best. The story of the lion that would not eat parsley perhaps occasioned the most convulsive laughter. Some people grew hysterical and hoped it would stop for a little till they could start afresh again. Then there were the burlesque compositions after the great masters by Mr. Collinson. He told how to become a composer, and how to become an original, which did not pay, but by re-writing well-known themes in the grand style.

Accordingly he rendered "Her golden hair was hanging down her back" after the method of Mozart in a minute, of Mendelssohn in a song without words, of Chopin in a mazurka, and Wagner and Liszt. The Wagnerian setting of "Let's all go down the river" with its banano, notwithstanding, was a little bit of a surprise. Mr. French recited the nursery rhymes as rewritten by the great poets, and he said it did him good to meet people who had heard of Wordsworth. "Here is the Song of the Black Sheep, and Here is the Song of the White." He was easily attributable to Kipling, and the Longfellow account of "Tell me not in mournful numbers that the cow is in the corn" was delightful. It went up with "The corn is in the cows," for "Cows are real, cows are earnest."

Then there were Irish songs galore which he had heard of Wordsworth. "Phl the Fluter's Ball" and "Killin' loe." And there were the clever and outrageous funny chalk drawings and all sorts of amusing interludes. Nothing was better than the burlesque chronicle of William Tell and his boy, to which George Washington and Newton and Robert Bruce were all accessories. "I cannot tell lie," said young Tell to his father. "My son, you underrate your ability," is the reply. Tell, in a dungeon, observed a little spider creeping by the door. "Fired by this example, William Tell opened the door and succeeded in making his escape. To hear Mr. French tell it is worth the money.

The two hours packed full of good things concluded with a tour of Gibraltar, which can easily be observed at low water." Mr. Collinson was the guest last night of Mr. Wheel- don and Mr. French of Dr. I. H. Cameron, whose relative, Sir Charles Cameron, is a great friend of Mr. French. They leave Toronto this morning.

LICENSEHOLDERS MEET

George Graham Elected President—Local Option Campaigning.

At their annual conference in St. George's Hall the Ontario License and Allied Trades Association discussed freely better organization for the opposing of local option campaigns in the province. Many complained that all kinds of weapons were used by the temperance workers, alleging untruthfulness and deception, and the general opinion was that the association should meet this opposition with a strong hand.

The officers elected were: President, George Graham; vice-president, R. H. Reid; Ingersoll; 2nd vice-president, George Wright; treasurer, E. J. Frey-feng; secretary, Wm. E. Allen.

APPROVE ARCHBISHOP'S STAND.

MONTREAL, Oct. 12.—(Special.)—The masses appear to sympathize with the Archbishop of Montreal in the stand he has taken as regards Mayor Nathan's speech at St. Joseph's, the demonstration on Sunday evening was very largely attended. It is not at all likely, however, that the proposed motion of censure will go thru the city council.

METROPOLITAN RAILWAY MANOEUVRES.

This question of the double-tracking of Yonge-street by the Metropolitan Railway is one of more than ordinary moment, both to the city and the adjacent town of North Toronto.

The question of the double-tracking of Yonge-street by the Metropolitan Railway is one of more than ordinary moment, both to the city and the adjacent town of North Toronto.

When the matter was before the board a few days ago, Chairman Letchford required little evidence or argument before making up his mind in regard to the situation, evidently relying on the powers conferred on the board at the last session of the legislature.

The amendment to the act is one of the jokers always inserted to the detriment of the municipalities, and for the obvious benefit of the franchise-holding corporations.

The powers conferred by this act in the case of street railways wholly or partly in cities having a population of one hundred thousand or over, shall include, but not be limited to, the power to require the company owning or operating the street railway to construct, maintain and operate additional lines and extensions of existing lines, in, along and upon any street or highway or part of any street or highway upon which the company has authority to construct, maintain and operate its railway.

From the terms of this amendment, it might plausibly be argued that this special power was granted for no other purpose than to allow the Metropolitan to double-track Yonge-street.

All haste is being made by the Metropolitan Railway to take advantage of this chance to tie up Yonge-street indefinitely, and its action is particularly objectionable at a moment when North Toronto is about to take a vote of the people on annexation.

Pure water, pure milk and pure slums is Dr. Hastings' battle cry. "Meet me at the Fountain" will be a rallying cry at next year's exhibition.

Among those who have traveled from Toronto, Sir Aemilius Irving must be accorded the trust regard. He bears his patriarchal years with fine dignity, and the honor paid him by his brethren of the craft was well-timed.

F. N. BURT CO. SUCCESS.

It is said that when the business of Mr. F. N. Burt of Buffalo was purchased a little over a year ago, neither seller nor purchasers recognized its real value.

Not the least illuminating among the occurrences at the Berlin gathering on Tuesday was the practical lesson given on the manifold purposes for which electricity can be employed.

IN GUISSE OF FRIEND.

Most of the really dangerous opposition to the hydro-electric power policy was veiled under apparent friendship. Its false friends were, or professed to be, highly delighted with the principle of the thing.

detail they chiefly objected to was its unquenchable vitality. The Globe was at its old game yesterday of praising the power scheme, and regretting at the same time the atrocious policy by which Hon. Adam Beck was able to secure easements at a rate which made the whole scheme practical.

The Globe's new columns of the same day reported Mr. Beck's statement that while the commission had powers of expropriation, they had never once had recourse to the big stick.

But nothing could be more melancholy for the corporation prophets than the details of Tuesday's proceedings, with their assurance of the frustration of all their ill-humored hopes.

CONVICT LABOR.

Editor World: "Cotton's Weekly" has been assuming an attitude of intense hostility to Sir James Whitney on the subject of the employment of convict labor in the province.

The capital evil would be the hiring out of convict labor to private parties, which, I venture to say, the Whitney Government have not the faintest idea of doing.

The government should avoid any interference with the free labor market, or any use of convict labor which is termed speculative.

VICTORIA CHARTER DAY Exercises To-night Will Include Presentation of Portrait.

This is charter day at Victoria College and it promises more than usually attractive features.

Prof. Robertson, the newly-appointed dean of the faculty of arts, will this evening address the convocation on some topics suggested by his year in Europe.

The evening will also be the occasion of the unveiling and presentation to the college of the portrait of Chancellor Burwash, painted by McGillivray Knowles, and donated to the college by the Hon. George A. Cox.

Entrance to the college will be by way of the new west door from West Charles-street, or the south door, St. Mary-street entrance being closed by the new residence building operations.

A Cargo of Cats. HALIFAX, Oct. 12.—The Canadian Government steamer Lady Laurier will make a trip to Sable Island shortly, and will take as part of her cargo 20 cats.

Last year a consignment of cats was also required for the island and 25 cents each was offered for them at the wharf. The news spread and as a result the wharf was literally flooded with cats of every conceivable age, variety and color.

The route for the garrison parade on Sunday, Oct. 23, will be via Queen's Park, St. Alban's, Wellesley and Jarvis-streets. The return route will be by Victoria and Adelaide-streets to Simcoe-street.

The band of the Queen's Own Rifles will furnish the music for the service and the chaplain of the regiment, Rev. J. P. D. Lloyd, will preach the sermon.

BISHOP FALLON'S IDEAS ON BILINGUAL SCHOOLS

Continued From Page 1.

but it is absolutely imperative that the ground work of this education should be in the English language.

"I remarked to his lordship that it occurred to me that in localities where the French Canadians are numerous, and speak the French language, it is thought that the master of such a school would succeed better if he were able to lead the children from the French to the English language.

"To this he replied that it was a mistake. If this were so in theory, it was never honestly put into practice; that the argument in favor of the necessity of a French teacher in a French locality was the argument of the clerical or the political agitator, and shaking his big arm and flat forehead towards me, he said: 'I undertake to take the care of clerical agitator, but as for the political agitator, I am unable to control him elsewhere without the assistance of others.'

"He added that the French teacher had been imposed on these parts of the country contrary to the wishes of the parents and the interests of the children, that in the country of Quebec he told those who were trying to impose the French language in the French localities that he would be ready to take a vote of the French Canadian parents and to leave it to them to honestly express their own convictions, and that he would be happy to abide by the result, but that his offer was not taken.

"He added again that the politician never fails to declare that the French Canadian controls fifteen or seventeen counties in the province.

"He repeats that the French Canadian control nothing of the kind; that they had worked for ten years upon stifled census returns, as in the Province of Quebec, and that they had the same end in view; and that their sole end was to control church and state, and that unless they were choked off they would dominate the Province of Quebec, and always with a view to the French language, which he believed was representative of the great majority of Catholic churches in the province, that the bishops had recently met and prepared resolutions, and that soon a deputation representing the Episcopate, reunion would appear before the government and submit their views; that they had a position of first importance, as it is one which transcends all others so far as their work; that up to the present they had not gone, but that they had lost much ground through their silence.

"Mentions inspectors.

"I suggested again that I did not think that the government was disposed to act in response to the claims of the congress in favor of bilingual teaching. He observed at once that he feared that my information was incomplete. He said that an English inspector of schools, by the name of Sullivan, at Windsor, had been advised some time ago to discontinue the inspection of certain schools in the County of Essex, and that he had done so, and that he had been named, as a matter of fact, he had been told that one Chaney would probably be named in his place, and that he had met and whom he knew, and whom he was pleased to meet, would be simply a joke as inspector of these schools; that in a visit to the County of Essex last week he had met and whom he knew, and whom he was pleased to meet, would be simply a joke as inspector of these schools, the teaching of French.

"The Bishop Sized Up.

"Then, he added, that he could not believe it, a rumor was going around at present that at Ottawa and in the adjoining district certain certificates conferred upon teachers by the Government would be accepted as valid by the department of education in Toronto.

"To this I acknowledged that I knew nothing of the matter.

"His whole attitude was not that of an enemy, but we must not overlook the fact that he is a man of an extremely energetic character, and he has taken this question deeply to heart, and I can believe by one thing, and this, that according to what happens he will throw the support of the opposition of the whole diocese.

"He scorns the idea that one must teach the native language to the children, and that the language of the school with the language of the school. He seemed to be full of the idea that the pupils who must learn English and must talk English in the school grounds and in their place, who hear nothing but English in the school, will in the course of two or three months understand the language; that any other method is contrary to the interests of the pupils.

"Didn't Fear Publicity.

"His whole attitude leaves me at liberty to write this memorandum without breaking faith, since there was nothing of a personal or confidential nature in this discussion. He added that while he was desirous of bending every effort to gain his end, without any disturbance, he was nevertheless ready to make known his views publicly throughout all the diocese if the occasion made it necessary.

SAYS CANADIANS ALL TREATED REFUGEES

Continued From Page 1.

Another interesting part of the discussion is found in notes of a certain speech which his lordship is said to have delivered on July 14 last to the gathering of the diocesan priests at the retreat in Sandwich, Essex County.

"I warn you to have nothing to do with the newspapers. My heart bled too much recently following the articles published in the Detroit and Chicago newspapers. It is I who will lead this diocese, and not the reporters, nor the laymen, nor the priests, nor even the bishops. I alone will direct the affairs of the diocese.

"There was a conspiracy against the separate schools, which came from a source he was both to suspect; more-over, it would be because their enemies, when they once saw the division which exists among Catholics with reference to bilingual schools, would make use of it to weaken their position and deprive them of their schools.

"I do not acknowledge the principle that to lose one's language involves a loss of one's faith. Look at Germany; they have preserved their language and lost their faith. So it is with the English and Prussians. The Irish have preserved their language, but, thank God, they have preserved their faith. No one will contend but that the French who have preserved their language, are not on the brink of the abyss and about to lose their faith."

"He admonished his hearers to teach children one language in a school, and not two. French or English. Assumption College was his diocesan college, and as such deserved all encouragement. He asked them to encourage their children to go to that college, and as such deserved all encouragement. He asked them to encourage their children to go to that college, and as such deserved all encouragement.

"A Lesson in Brotherhood.

WINNIPEG, Oct. 12.—(Special.)—Governor Eberhart of Minnesota has wired from Beaudette to Mayor Evans, to place the people of this city for their prompt and generous measures of relief on behalf of unfortunate people in fire-stricken districts. He said that humanity knew no boundaries, and that the brotherhood of mankind was emphasized.

IMPORTANT ARREST IN LOS ANGELES TIMES CASE

Continued From Page 1.

George Wallace Received Letters Which Connect Him With the Dynamiting.

SACRAMENTO, Colo., Oct. 12.—Geo. Wallace was arrested at the Sacramento postoffice yesterday while receiving letters, which, it is declared, connect him with the Los Angeles Times dynamiting. Chief of Police Albern had had detectives at all the postoffices for several days in the hope that Wallace would ask for letters. Following his appearance to-day he was arrested just as he was endeavoring to destroy two letters.

"Piled together, one of the letters shows that Wallace left Los Angeles suddenly on the day following the dynamiting of the Times building, and intimates that he knows much concerning the affair. The writer used bitter language in speaking of Harry Chandler, manager, and Harrison Gray Otis, owner of the Times. 'If I could tell you a whole lot of things, but one cannot be too careful what he writes in a letter,' the letter says.

"The other refers to the dynamiting, but guardedly. Wallace declares that he is a gardener, but he is believed to be a miner.

EVERY LITTLE HELPS

English Woman Returns Railway Fare in Six Weeks.

Some little time ago Mrs. Lily Weeks with her child arrived in Toronto from the old country, expecting to meet her husband here. When she reached Toronto her husband was not there, and the lonely mother was thrown upon the charity of the British Welcome League. The officials of the league managed to locate her husband working at Midland. Mrs. Weeks was advised to return to her husband, and yesterday Secretary Chadwick received this neatly written letter: 'I beg to enclose the two and a half dollars which I have saved. I received your most esteemed letter saying that you would await our convenience, and beg to tender our heartfelt thanks for the kindness which you have shown us.' (Signed) Lily Weeks.

BASEBALL TICKETS ALL SOLD

And \$70,000 Returned to Those Whose Orders Could Not Be Filled.

PHILADELPHIA, Oct. 12.—It is estimated by representatives of the distribution of seats for the first two baseball games in the world's series here next week that \$70,000 has been returned to applicants for tickets whose orders cannot be filled. The demand for tickets has broken all records, and the amount returned by a club figuring in the world's series.

All Chicago Seats Sold.

CHICAGO, Oct. 12.—All the 200 reserved seats for the world's championship baseball game at the West Side Ball Park were allotted to-day. Requests for seats reaching triple that number were received. The allotment was made in the order in which the letters were received. 'Every possible precaution was taken to prevent blocks of seats falling into the hands of ticket scalpers,' said Secretary McRay. 'The seats were distributed entirely with a view to being fair to the greatest possible number of buyers. No more than four seats were allowed to any one order.'

Want Grant for Winnipeg Fair

OTTAWA, Oct. 12.—(Special.)—A deputation from Winnipeg is in the city to-night. They include Mayor Sanford, D. E. Cameron, R. H. Day, and E. D. Martin. They will see Sir Wilfrid Laurier to-morrow regarding the \$25,000 grant for the Winnipeg Fair for which they seek grant of \$2,500,000.

OTTAWA NOT IMPRESSED BY SIR JAMES' IDEAS

Canadian Provinces on Different Footing From Australian States in London, It is Explained.

OTTAWA, Oct. 12.—Sir James Whitney's declaration at the Berlin demonstration yesterday is not creating as much interest in Ottawa as it apparently has in Toronto and other western sections of the province. The provincial premier's chief cause of complaint seems to be that the agent-general of Ontario does not have the same social, official and diplomatic status as the representatives of the various states of the Australian Commonwealth, but it is pointed out by a man who has for forty years been in the diplomatic service of Canada that there is a vast difference between Canada and Australia.

The various colonies of Australia, each had their representatives in London when the federation agreement was consummated, and it was expressly agreed that these officials should retain their status in London even after the appointment of a high commissioner for the Commonwealth should have assumed his duties, which did not take place until last year. In the case of Canada, it is true there were representatives of the Grand Duchy of Nova Scotia and British Columbia prior to confederation, and that these have been retained and their number added to in recent years by other provinces; but no provision was made for their official recognition and ever since the creation of the office of high commissioner, it has been expressly understood that they must take rank under the high commissioner.

As to the immigration officials of the various provinces, the view here is that there is no need at all for these provincial officers. If any intending immigrant goes into the office of Chief Smith in London or visits any other of the Canadian immigration officers through the United Kingdom and asks for particulars regarding Ontario, Nova Scotia or New Brunswick, he is given just as much information as if he went to the provincial officers and probably more than if he asked for data regarding the other provinces. The Dominion offices have special booklets regarding each of the eastern provinces, while the west is lumped together so to speak.

Then there is the question of the readjustment of the provincial subsidies every three or four years. This attitude of Sir James is incomprehensible to the officials of the immigration department, in view of his attitude at the inter-provincial conference here in Ottawa in 1908.

The he put himself upon record as opposed to periodic changes in the financial relations between the Dominion and the provinces, and was one of the chief objectors to the claim put forward by Hon. Richard McBride, asking for special treatment for British Columbia.

The questions put here are: How would Sir James have his readjustment made every three or four years? Would he have a census taken every three or four years? If not, how would he reach his basis of readjustment?

SENT BRITISH ROYAL YACHT

Will Bring King Manuel of Portugal to England.

LONDON, Oct. 12.—The British royal yacht Victoria and Albert, commanded by Commodore Palmer, left Portsmouth for Gibraltar yesterday to bring Manuel of Portugal and Queen Mother Amelie to England to make their future home. The yacht was sent at the personal direction of King George, and the king personally accompanied the yacht to Gibraltar. The Victoria and Albert may be accompanied by a warship, which is expected to keep over the young king for fear of assassination, after his arrival here.

Will Reside at Wood Norton

EVERESHAM, Eng., Oct. 12.—King Manuel of Portugal and Queen Mother Amelie have accepted the invitation of the Duke of Orleans to become his guests at Wood Norton. The house in which Amelie spent her childhood stands on the duke's estate a short distance from Wood Norton, in Worcestershire. It is believed that this eventually will become the home of the royal exiles.

An Annuity for the King

LONDON, Oct. 12.—Jose Relvas has been appointed minister of finance, to succeed Antonio Tellez. The administrator of the king's property has proposed to the minister of the interior to liquidate the king's indebtedness to the state by yearly payments, and at the same time guarantee the king an annuity. Senior Alameda, minister of the government would consider the proposal.

Col. Barrette, minister of war, says that the government intends to reorganize the army thoroughly, bringing together a formidable force of 250,000 men.

Minister of Marine Gomez considers that the re-modelling of the navy will prove an arduous task on account of the utter neglect the monarchy has shown towards the sea forces. He favors the building of "small dreadnoughts."

A NEW WELLAND CANAL

OTTAWA, Oct. 12.—It is stated that the Welland Canal enlargement and cut-off scheme is to be abandoned owing to quicksand beds along the proposed route, and that estimates will be prepared for a new canal running north about six miles west of Port Colborne to the mouth of the Jordan River, twenty-two miles.

### ONLY 28 BODIES FOUND LOSSES EXAGGERATED

General Manager of C.N.R. Wires Summary of Conditions in Burned Area.

General Manager McLeod of the Canadian Northern Railway, Winnipeg, last evening wired D. B. Hanna, third vice-president, as follows: "Was thru fire district yesterday cause for alarm. Have received reports to-day of fire near Gravel Pit Spur which may cause some damage, also fire coming east near Beauport. High wind blowing. Everything burnt out at Gravelton and Pitt with exception our station." At Beauport all houses west side of track burned. Station and building east side of track safe. A number of buildings in Spooner burned, but mills and lumber safe. From best information obtained on ground up to last night twenty-eight bodies had been recovered. Possibly this may be slightly increased on further investigation. Difficult to estimate value of timber destroyed as no one has yet been over burned area. Rat Portage people lost their mill and about 14,000,000 feet of lumber. No other building destroyed in Rainy River. Thru train service open 1 o'clock, 10th inst., and everything moving freely. Have heard no estimate value buildings burned at various points, but will not run into any such figures as reported in papers. We are handling supplies for fire sufferers without charge, also moving people burned out free of cost."

An additional telegram from the general manager said: "Have just received following from A. O. Eberhart, governor of Minnesota: 'On arrival here I have learned more fully of the splendid efforts of your company to render assistance to the stricken people of Beauport and Spooner and surrounding country. I am satisfied that had it not been for the prompt and efficient efforts of your employees the loss of life would have been much more. Your prompt efforts to bring succor to those in distress have greatly mitigated the suffering and done much abundant reason to be encouraged. Now that order is coming out of chaos and most of the distress has been relieved and we are planning for prompt relief and building up this town, I desire on behalf of the people of Minnesota to thank you, and thru you the officers of your company, for their efforts in this hour of need to many of our people.'"

George Watts, chief fire ranger at Fort Frances, who was sent to Rainy River by the Ontario Government to report on the fire situation, wired yesterday that the town of Rainy River was not yet out of danger. Financial loss would be serious, but there had been no loss of life on the Canadian side. He reported that the number of people who had lost their lives on the United States side at one hundred.

Aubrey White, deputy minister of lands and forests, holds the opinion that the reports of losses on this side are exaggerated. Most of the valuable timber in that country has been cut over, and only the small stuff has been burned.

### CONSTABLE WAS BITTEN

Suffers Severe Injury in Arresting a Diseased Thug.

Walter Brady, who escaped from custody by being taken to the North Bay jail, and was recaptured near Thebes, did not submit to his capture without a struggle. Constable Angus Taylor was told by a conductor that there was a suspicious character on board, and Taylor identified Brady, who had something of a reputation as a prize fighter, while Taylor was the biggest man on the provincial force. Finally the constable got the better of it, and put his man under arrest. He was brought before the magistrate at Thebes, and given three years in the penitentiary. The charge against him was that of wounding, for in the struggle with Taylor he bit him severely on the hand. As Brady has a loathsome disease the constable will undergo medical treatment. Brady had been convicted at Cobalt of gambling and sent to the road gang at Matheson. His physical condition was such that he could not be kept there.

### Prevent and Relieve Headache

"It gives me great pleasure to be able to refer to Dr. Miles' Anti-Pain Pills as the best remedy we have yet had in our house for the prevention and cure of headache. My wife who has been a constant sufferer for a number of years with above complaint joins me in the hope that they may fall into the hands of all sufferers."

JOHN BUSH, Watervliet, Me. Used Them Four Years.

"Dr. Miles' Anti-Pain Pills are the best I ever tried for the relief of headache. I have used them for nearly four years and they never fail to give me relief. I have tried many other remedies, but have never found any better."

JOSEPH FRANKOWICK, 854 Trombley Av., Detroit, Mich. There is no remedy that will more quickly relieve any form of headache than

Dr. Miles' Anti-Pain Pills.

The best feature of this remarkable remedy is the fact that it does not derange the stomach or leave any disagreeable after-effects.

Druggists everywhere sell them. If first package fails to benefit, your druggist will return your money. MILES MEDICAL CO., Elkhart, Ind.

### THE APPRENTICE SYSTEM

Best Developed in Galt, Says Member of Technical Commission.

GALT, Oct. 12.—(Special.)—Galt assessors made returns to-day which show that the population, in spite of less than 100 persons leaving for the northwest, has increased 265 over last year, and many large families which have moved here within the past few weeks have not been counted. Passing the ten thousand mark next year should be an easy task, the increase in assessment is \$321,465, the largest for many years.

At the royal commission on technical training and industrial education, Hon. E. Armstrong said that in no town which the commission had yet visited had they found the apprentice system so much in vogue as in Galt. With so many apprentices a good technical school might be est-

ablished, and Galt become a model town in the treatment of boys. Mr. Armstrong suggested that a good topic to be discussed by the board of trade would be "How could anything be done to aid apprentices?"

In reply F. H. Hayhurst, chairman of the manufacturers' committee of the board of trade, said that the manufacturers were more than anxious to work in harmony with their employees for betterment of their condition, either along the lines of technical education, or local industrial schools. He would have it discussed by the board and with the Trades and Labor Council, and have the result communicated to the commission.

### FREE TRADER REPUTED BY TARIFF REFORMER

Sir Joseph Lawrence Says Sir Alfred Mond is Unworthy to Untie Chamberlain's Shoes.

A country English gentleman of the rural magisterial type, with a quiet voice and strong language, was introduced to the Empire Club yesterday as Sir Joseph Lawrence, one of Joseph Chamberlain's most active and aggressive supporters and one of the most formidable opponents of free trade. He is one of the 12 members of the tariff reform committee, and is on a "fast" visit to Canada. The speeches of Sir Alfred Mond, however, on free trade in England, so stirred him that he felt bound to give vent to his views, and the opportunity was given by the Empire Club. Sir Joseph is an ex-M.P., and well known in English commerce, and well qualified to speak for his party.

He denounced Sir Alfred Mond in round terms but mild tone, declaring that Sir Alfred's addresses were "wholesale misrepresentations of Chamberlain's policy." He belonged to "an organized crusade" of politicians distinguished against the Canadian people, and he "revealed in an orgy of misrepresentation and abuse," and "misapplied statistics in a colossal way." While apparently guarding himself from interference in Canadian politics, Sir Alfred Mond had taken sides with the Western farmers, and this was done at a time when Canadians ought to be left free.

All for Electioneering Purposes. "I do not want to make the same mistake, and be guilty of the insolence and impertinence of commanding a policy to you in your dealings with the United States against other countries," declared Sir Joseph. "The speeches of Sir Wilfrid Laurier, as I told him on Sunday, have been exploited in England to illustrate his lack of sympathy with free trade. It is all done for electioneering purposes. We expect an election in January, you know," he remarked confidentially.

However Cobdenism might be made a screen, the spirit of Cobdenism remained the same, and Sir Joseph quoted from Morley's life of the great free trader to illustrate his lack of sympathy with the colonies. The colonial system, with all its dazzling appeals to the people, would never be got rid of, said Cobden, until free trade was secured. And Cobden declared that he was interested in the federation scheme of Canada, because he thought it would lead to an easy way of giving Canada independence. That was the prevailing note of Cobdenism, and it was still the same.

No Bribery. Sir Alfred Mond's statement about a

15 per cent. preference reminded him of the story of a similar statement. You could not read it twice without becoming dizzy. If you read it four times it would make you drunk. They had not proposed a 15 per cent. tariff with two shillings a quarter on foreign corn (wheat), and nothing on colonial corn. There is nothing but mutual about it, and no question of gifts or bribes, asserted Sir Joseph. "We do not think of such things. We talk of mutual concessions, and of fair and honorable dealing among nations. Let us give you Mr. Chamberlain's own words." And he quoted the well-known speech. Tariff reform depended on the recovery of freedom of action in treaty making, and preferential and reciprocal arrangements with the colonies.

"A more comprehensive or lucid policy was never penned since the days of Pitt," was Sir Joseph's endorsement. Free trade he asserted to be a ghost, a failure in Great Britain, and he could support that statement by facts and figures, as he hoped to do elsewhere. Every expectation of Cobden with regard to free trade has been a disappointment. No nation had followed England's example. Agriculture had not prospered. Millions of acres had gone out of cultivation.

Bleeding to Death. "We are bleeding to death," was Sir Joseph's dramatic way of putting the case. He instanced the Monmouth iron trade, where several works had closed and others were languishing. England had once been on top in this trade, and to-day they were importing ingots from Belgium and Germany for making tin plates and galvanized iron. Foul and libelous accusations had been made against the tariff reformers by the co-op press, owned by the Cadburys and the Frys and the Epps, who were themselves protected by the duties on cocoa. Then there was "Rhine Wine Brigade," as they were called, who scarcely whistle or sing "God Save the King." They were supporting the chambers of commerce, which were hanging back from the Chamberlain movement.

"But, gentlemen, the time will come when we'll unmask them all," declared Sir Joseph, with unusual emphasis, and the club burst into enthusiastic applause.

"What on God's earth is the use of telling us what happened a hundred years ago?" he went on, encouraged by the reception. "New conditions have come into being, and it is the duty of statesmen to readapt themselves to the change. If we are troglodytes, God knows what men like Sir Alfred Mond are." This was greeted with hearty merriment. "I will only say this, Sir Alfred Mond is not worthy to untie the shoe of Mr. Chamberlain."

Winning Support. He asserted that the strongest support they had come from Lancashire manufacturers and leading Liberals and Nonconformists like Pirbright were coming over to tariff reform.

The Tariff Reform League would have no truck with any one who would attempt to whittle away the cornerstone of Chamberlain's policy—that

colonial food stuffs come into England free of duty. "That is one false statement I repeat," was another point Sir Joseph made.

He did not believe in the corruption cry either. If they went back to Walpole they would find the worst sort of it. They had trusts in England now as bad as anything in the States. They had lobbying and button holding as bad as at Ottawa or Washington. He scored the Pharisees who went about casting up their eyes as the corruption did not exist.

"And I do object to Sir Alfred Mond coming forward with his Peckaniffian allusions—(laughter)—his Peckaniffian allusions," he repeated appreciatively, "to our purity. We are no better nor worse than our neighbors." Everybody had freedom in England, not only to tell the truth, but to tell lies. Price Collier, who was a discrimination writer, he said, found his gorge rising at the boasting about prosperity, while there was no honest analysis of facts. Sir Alfred Mond was always giving one view and screening the other.

### HOUSE OF REFUGE

Grand Jury Recommend That It Be Made Joint County and City Home.

CHATHAM, Oct. 12.—(Special.)—In their presentment at the fall assizes the grand jury recommended that the County House of Refuge be made a joint city and county institution, and that additional accommodation be provided to receive inmates from the city. They point to the absence of proper ventilation in the House of Refuge, and also advise that both the city and the county should make substantial grants towards the maintenance of the two local hospitals.

### Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of bed, and you have heat while you dress.

Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off.

The girl who practices on the piano in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off.

The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

### AT THE THEATRES

Great interest is being manifested in the coming of Wedon Grossmith and his entire English company to the Royal Alexandra Theatre next week, with a matinee on Saturday only, in R. C. Carton's popular comedy, "Mr. Freddy and the Countess." For two solid years Londoners enjoyed both Mr. Grossmith and his play, during a phenomenally successful engagement at the Criterion Theatre. Mr. Grossmith is accompanied by his London supporting company, at the head of which is Miss Charlotte Granville, the famous English actress, noted for her stunning beauty.

Preparations for the coming American tour of Anna Pavlova Michael Hardin and the Imperial Russian Ballet have progressed to a point where the mechanical departments of the Metropolitan Opera House, New York, are with activity in the construction of the necessary scenery, properties, wardrobe, electrical effects, etc. Three complete scenic productions will be included in the physical equipment of the project, giving substantiation to the claim of the management that the performance will indeed be "oracular opera." A full orchestra is being recruited, largely from the membership of the Metropolitan Opera House orchestra. This noted attraction will appear at Massey Hall Oct. 20, afternoon and evening. The seat sale opens tomorrow at the hall and Bell Piano rooms, 146 Yonge-street.

William Gillette made a great triumph in "Sherlock Holmes" when he first presented it about ten years ago, and the triumph has been repeated by him, not only through the United States, but also in Europe in intervening seasons. His promise of appearance here, at the Princess Theatre next Monday evening, will be welcome. The dis-

WILLIAM GILLETTE  
At the Princess Theatre next week, distinguished playwright has never written a more powerful drama than "Secret Service," while his rendition of the part of the professor in "The Private Secretary," which he is also to do here, is declared a masterpiece in its class.

"The Virginian" comes to the Grand next week. It has been one of the most talked of and most generously praised plays, and one of the most desiring. The part of the Virginian will be played by William L. Gibson, who is an ideal cowboy, both in appearance and action. "The Virginian" is a dramatization of Owen Wister's famous novel. During the week the usual Wed-

nesday and Saturday matinees will be given.  
Next week at Shea's Theatre the headliner will be Annabelle Whitford, one of the most popular of all the famous Ziegfeld beauties in his Reviews, with a singing novelty. The special attraction will be Ed. F. Reynolds, the most entertaining ventriloquist on the stage. Others are: The Exposition Four, Carson & Willard, Florence Reid, Wood and Woods Trio, Ollie Young and April and the Kinetograph.

The bright and merry musical burlesque, Edward F. Ruff's "Bon Tom," comes to the Gayety Theatre next week. It is brimful of fun, with never-

EMILY MILES  
With the Bon Tons at the Gayety. A tedious moment. There are catchy songs, clever comedians, pretty girls, stunning costumes and attractive stage settings.

Mr. and Mrs. W. Henderson, offering an original comedy sketch, entitled "The Happy Couple," will be the headliners next week at the Majestic Theatre. Chas. H. Saunders, "The Man of the Hour," Armenia, contortionist; Jones and Block, singers and dancers; The Fletcher Family, jugglers, and Johnson and Beck, comedians, are others.

In the race for success in the burlesque field this season the pace will be set by Elmer Tenley's pennant winners, which will be the attraction at the Star Theatre next week. "Harun Scaram" is the title of the two-act comedy which the company will pre-

sent. It is brimful of song hits, surprises and unique vaudeville features.

Last evening a large audience greeted Miss Elsie MacDonaid, A.T.C. M., a student of the Conservatory School of Expression. Miss MacDonaid possesses a voice of good carrying power and responsiveness, and a rare sensitiveness for the humorous, pathetic and dramatic content of her readings. In Scotch dialect she is probably unsurpassed by any reader today before the Canadian public. Her delineations of and sympathy with the characters impersonated evinced a rare appreciation of this nationality. Two humorous numbers, "Mary Cary" and "The Aggravating Riddle," were most heartily enjoyed by the audience. Probably one of the most interesting and best rendered numbers was the scene from Shakespeare's "Henry VIII." The program included the following musical numbers: Miss Elsie MacDonaid, (a) Dr. J. E. Blachford, played (a) Dred, (b) Bolandeffre, (c) Au Bord D'un Buisseau, and Mr. Henry Milne, pupil of Edward Broome, Miss Elsie MacDonaid, (a) Free Booters' Songs, (b) Son of Mine, (c) The Rebel.

No more novel or interesting entertainment will be placed before the patrons and friends of Massey Hall this season than that to be given on Friday evening by Mme. Lisa Lehmann. It is conceded that Mme. Lehmann is the most eminent woman concert pianist in the city, and her performances are always of a most interesting nature. She brings her own English quartet, composed of Miss Blanche Tomlin, soprano; Miss Palgrave, mezzo-soprano; Mr. Hubert Ekinell, tenor; and Mr. Julian Henry, baritone. Mme. Lehmann will preside at the piano and give the interpretation to her own compositions. Part one will be the song cycle, "In Persian Garden." Part two will be made up of solos by members of the quartet. Part three will be a cycle of nonsense songs, from "Alice in Wonderland." This will make a most interesting program, and every student of music should avail themselves of this opportunity of hearing this talented woman. There will be about 300 seats in the top gallery at 25 cents. A book of words of the songs will be supplied to each auditor.

A popular concert will be given by the Toronto Symphony Orchestra Saturday evening at Association Hall, when the prices will be 50 and 25 cents to all parts of the auditorium, all seats reserved. The visiting soloists will be David Ross, an old-time favorite, who is the possessor of a rich, resonant baritone voice with a remarkable range. He will sing with orchestral accompaniment the magnificent recitative and aria, "La Morte" from Gounod's "Faust." He will also sing with the piano, "The Sands of Dee" and "Bid Me to Live." Frank Converse Smith, a violin soloist, will play a delicate movement from Mozart's concerto for violin and orchestra. This instrument with its marvellously sweet tone, is too rarely used in solo work. For a choral number, Mr. W. G. Williams has chosen the overture to "The Merry Men of Windsor." Nicolai; "Traumerei," Schumann; "Spring Morning," Lacombe; Largo movement from the symphony, "La Boheme," Puccini, and fantasia, "From the New World," Liszt.

USED BODY AS BULLET SHIELD.  
NEW YORK, Oct. 12.—Adolph Berg, 21 years, arrested this afternoon on a charge of homicide, accused of being the man known as "Pickles," who held 12-year-old Charles Fiechler, a front of him as a shield from the revolver of Greenwald, alias "DIN" Clark, yesterday afternoon. The boy was killed, and when Greenwald was cornered, he shot and killed himself.

An Enjoyable Concert.  
A most enjoyable evening was spent at Association Hall, when Aymer Davies, the clever baby elocutionist, established himself in the hearts of certain patrons, creating laughter throughout the evening with his excellent performance. Frank Morland-Davies is one of the few artists interpreting Shakespeare to perfection. Her rendering of Laska was faultless, applause deafening. Aymer encouraged, recalled again and again. Among other features of the program were Master Stanbury, Miss Walsh, pianist, and Miss Walsh, vocalist. Bouquets were numerous.

### TAR AND FEATHERS COST DECORATOR FINE OF \$10

It Was Applied to His Eighteen-Year-Old Prospective Son-in-Law.

HUNTSVILLE, Oct. 12.—(Special.)—Before Justices Callahan and Hutcheon Saturday afternoon, Thomas Spiera, a farmer, was convicted of aggravated assault upon Charles Abner Baker, 18 years old, a lumberman, whom he treated to a coat of tar and feathers Saturday night last, as a punishment for seducing Spiera's 19-year-old daughter under promise of marriage.  
Baker, in his story, said that Spiera had threatened him on Friday, and on Saturday night he met him on the track. He told him to throw up his hands, which he tied with a rope. He then drove him to his home, where he sat in a chair, and after Spiera had eaten a lunch, put tar and feathers on his hair, and later more tar and more feathers on his face. The victim saw the tar being heated on a stove. He put his hands on his clothes and his watch. He then whipped him as far as the school house, and told him to get out of the country.  
The young man admitted that he had seduced the girl under promise of marriage. He said that Spiera had whiskey with him, and gave him a drink. He admitted that he did not call to the two people in the street.  
He says that he and the girl still intend to get married.  
The girl was called and swore that she had been forced to leave home five weeks before on account of her father beating her with a strap. Accusing her of destroying a letter, he had followed her and threatened to drive her out of employment by telling of her conduct to her father. Her father had seen her and wanted her to go to the doctor's, and then home. He said he would see Charlie Baker, and there would be a crime before morning.  
The decision of the bench was that the defendant pay a fine of \$10 and costs. The parties causing the trouble are to be married on Thursday, Oct. 13.

### WOMAN WAS UNGRATEFUL

And Justice Riddell Gives Judgment for Dr. Moorhouse.

Justice Riddell yesterday awarded Dr. Henry Moorhouse \$2780.23 in his action for \$3800 against Mrs. Claire Perry for repayment of alleged loans. The plaintiff is awarded full costs, and defendant's counter claim dismissed.  
"This case is purely one of fact," said his lordship. "There is a number of unpleasant features in the case, not the least one, that two persons of intelligence and apparent respectability are found contradicting each other in matters about which one would say 'a priori' that two honest witnesses could not possibly disagree. From my observation of the witnesses in the box, their conduct and demeanor, I am of the opinion that the evidence of the plaintiff is to be accepted rather than that of the defendant, and I say this, being not at all forgetful of the fact that his manner of answering was not all that could be desired, and that in all probability his evidence read might not strike a judge favorably."  
Justice Riddell finds that when defendant got into financial trouble in her millinery business, plaintiff "came to her assistance from motives of pure charity and friendship."  
Referring to the chattel mortgages drawn up on Jan. 22, 1907, the judge says: "These were not made for the great advantage to the defendant, but for the fraudulent purpose of defeating or delaying the defendant's creditors."  
As to defendant's version of an alleged offer of settlement, the decision says: "It looks much as tho the defendant intended to force the plaintiff to pay her some sum to prevent her making serious charges, no doubt, in great advance of what she would have been for the fraudulent purpose of defeating or delaying the defendant's creditors."

### NO IDEA OF PREVENTING REPUBLICAN ENTHUSIASM

Spanish Agitators Must Not, However, Utter Treason, Says Premier Canalejas.

MADRID, Oct. 12.—(N. Y. Herald Cable.)—I have just seen Senor Canalejas, the premier, who says a respectable minority of Spaniards entertain republican ideas, and have received with joy the proclamation of a republic in Portugal.  
"This is but natural," he continued. "Since this government is a Liberal one, I have no idea of preventing republican enthusiasm, provided it is kept within lawful limits and does not involve threats against the existing monarchical regime in Spain. The republicans being in a minority here, I do not entertain the slightest apprehension that the events in Portugal can cause a similar consequence in Spain. At the present moment the only place which causes me some concern is Barcelona, on account of the celebration of the International Congress of Free Thinkers and the coming anniversary of Ferrer's death."  
"The agitation is directed from abroad, the main centres being at Brussels and Rome. At Brussels Mons. Laurant, a lawyer of great intellectual capacity, attorney for Ferrer's heirs, is wrongly helping to provoke agitations. Other directing centres, the less important are Paris and London. Anarchists from all the American countries are coming also, and are having an important hand in the affair."  
"I have made known to the promoters of the congress that if their meetings are held within their houses and if their remarks are merely general in character, I will allow them, but I will punish energetically any suggestion against the legitimacy of the sentence imposed upon Ferrer or any remarks against the monarchy."

ANNEXATION GROWS IN POPULAR FAVOR

Townsmen Say That Vote Will Show Good Majority—W. G. Ellis Deals With Railway.

NORTH TORONTO, Oct. 12.—(Special.)—The question of annexation is not today to the casual observer the big outstanding one in the town.

Many of those who formerly opposed the movement will now accord it generous support giving as their reason the fact that a number of works as sewage and water, electric lighting, the railway, situation, the widening of Yonge-street, the putting down of car lines on the east and west parallel roads all demand immediate attention, and a continuity of purpose which can only be found in the most conservative of citizens the opinion is freely expressed that annexation will carry by a good majority.

A well-known city man heavily interested in North Toronto values to The World last night said: "With a single fare to North Toronto and annexation to the city, and the two together sooner or later, the northern district will become in the near future, the finest residential area around the city. Its high altitude, pure air and unrivaled scenery will surpass Rosedale in the best of days."

W. G. Ellis has forwarded the following letter to The World, which deals incisively with the big question of railway regulation as applied to the Metropolitan:

Editor World: Ever since the granting of the new franchise with a new agreement to the Metropolitan Railway in 1897, the service given the public has caused more or less irritation. Ever since the Warren interests were sold out to the present management, the irritating "do as we like" policy has been more or less in vogue, and on what is known as the Glenview service this year, it has grown to be unendurable. We who use the road, believe they can easily give a satisfactory service on the present single track with switch turnouts, and all it requires on the part of the management is the necessary will along with the expenditure of a little extra expense money. The municipality has not the power to make them so act, and as the municipal and railway board have, and as they claim they are well acquainted with the facts, the citizens of North Toronto naturally look to them as a source of relief.

At the last session of parliament the board was given, among other powers, the power in certain cases to order the construction of both the extension of existing lines, and the buildings and operating the lines upon the highway on which a street railway is already operating, and it looks very much as if these powers may be applied to the Metropolitan system in North Toronto and the city.

The chairman of the board is reported to have advised that, should he feel satisfied that the necessary power, he will order the construction of another track as a cure for the irritation created by the class of service now being given. It would be a strange reward for the members of the board on the part of the railroad management, a kind of Christmas present easily adding a million dollars additional value to their franchise rights. It is to be hoped that should the board so act, they will also have the power to give the municipalities interested something in the way of a Christmas present by allowing the Metropolitan equal running rights over these tracks and curtailing their freight privileges to such might be characterized as similar to an express service.

Of course these changes could not be brought about unless Yonge-street were widened and properly paved. The present width would not permit of double tracking without destroying the road for vehicle traffic, and our municipalities cannot afford to give over the southern portion of Yonge-street wholly to railroad purposes. We will still need the use of the southern portion for vehicle traffic, and as it is an intermunicipal roadway, it is use by farmers from the north for vehicle traffic must also be taken into consideration. It is a big question, and it is to be hoped that the municipal and railway board will adequately meet the situation.

WM. G. ELLIS. On Tuesday evening, at the residence of Mr. and Mrs. Charles Page, 41 Balliol-street, the most interesting "kitchen show" fell upon Miss Estella M. Lea from the hands of the congregation of St. Cuthbert's Anglican Mission, of which Miss Lea has been organist and otherwise active in every branch of church work. Miss Lea will, on the 19th inst., be united in marriage to Rev. P. M. Lamb, curate in charge of St. Cuthbert's.

SCARBORO JUNCTION. SCARBORO JUNCTION, Oct. 12.—(Special.) The Scarborough Junction branch of the E.T.W.I. held their regular monthly meeting at the home of Mrs. W. G. Thompson on Tuesday, Oct. 11. A goodly number of members were present. The topic of the day: "Why We Should All Exhibit at Our Fall Fairs" was taken up by Miss T. Reynolds and afterwards well discussed by the members. A reading entitled "Life As Compared to a Leaf" was given by Miss M. Latham. At the close of the meeting the members were taken out to the garden to see the dahlias, which are now at their very best. Refreshments were served in the dining-room.

WEST TORONTO, Oct. 12.—(Special.)—The annual chart offering meeting of the Women's Foreign Missions Auxiliary was held in Victoria Presbyterian Church yesterday afternoon at 3 p.m. when Mrs. Gaudin, Dr. Gaudin, medical missionary to Formosa, gave an interesting address. A good musical program was also given. A committee will hold an organizing meeting in the High Park-avenue Methodist Church on Wednesday, Mr. Colbeck, principal of the high school, is president of the committee.

WESTON. Reeve Bull and the town clerk, J. H. Taylor, attended the inauguration of the hydro-electric at Weston. The present width would not permit of double tracking without destroying the road for vehicle traffic, and our municipalities cannot afford to give over the southern portion of Yonge-street wholly to railroad purposes. We will still need the use of the southern portion for vehicle traffic, and as it is an intermunicipal roadway, it is use by farmers from the north for vehicle traffic must also be taken into consideration. Stable Boy Badly Injured. Dragged on the back of his head by a galloping horse, with one foot caught in a saddle stirrup, William Squires, aged 16, a stable boy for William M. Walker, was rendered unconscious at the Woodbine track yesterday morning, and had not regained consciousness early today. He was riding a horse which became fractious and threw him. It was feared that his skull was fractured, but examination disproved this.

To Storekeepers

Did you ever consider your Telephones in the light of human salesmen? Business suffers if you overlook the salesmen in your store, and the remedy is to get more help. Your "telephone salesmen" might be taking orders from a customer, whilst others are trying to give business and receive the reply "line busy"—they, too, are overworked. What does that mean when this occurs more or less regularly? The result is business goes to a more enterprising competitor whose telephone doors are wide open for business.

HAS YOUR FIRM ADEQUATE FACILITIES?

It does not pay to place the slightest barrier between your firm and its patrons. Business is growing, and your present telephone facilities, that a few years ago may have been adequate, will not answer your present requirements.

In 1888 Toronto's population, 144,035, telephones, 2,468. In 1910 Toronto's population, 344,000, telephones, 31,200.

HARBOR IMPROVEMENTS UNDER WAY OR ON PAPER

Controller Spence Acts as Guide on Tour of Inspection—Ashbridge's Marsh Projects Look Good.

Controller Spence, chairman of the special harbor committee of the city council, conceived an excellent plan yesterday for showing the prevailing conditions and the requirements of Toronto's waterfront. Having obtained the harbor commissioner's motor boat, he invited a party of newspaper men to go aboard with him, and spent the afternoon in showing them the whole situation, from the eastern to the western channel, including Ashbridge's Bay, where his committee plans that the proposed new harbor commission shall take possession and erect a set of wharves, channels, slips and freight sheds, second to none on the continent, and fitted to accommodate the enlarged Welland Canal, as it will be when the improvements are carried out, and boats of 20 feet draft may come to Toronto from the upper lakes.

Starting from the Yonge-street slip, the party cruised up the bay to the new western channel, which consists of a cutting 400 feet wide, 200 feet in length, built of concrete slabs, based on a foundation of cribs filled with broken stone, and the tops covered so as to form wide promenade. The mainland and only allows 10 feet of water at the best of times. It is intended to fill up the old gap as soon as the new channel is ready. Proceeding eastward along the bay, the wharfage fees provide the sole revenue of the harbor commission as now constituted.

What Year May Bring Forth. The whole of this land is the absolute property of the City of Toronto. The National Iron Works and the Elliot Paper Co. are already on the spot to form wide promenade. The mainland and only allows 10 feet of water at the best of times. It is intended to fill up the old gap as soon as the new channel is ready.

NOVA SCOTIA'S NEW GOVERNOR. It is Reported That Senator MacGregor is Destined for the Office.

HALIFAX, Oct. 12.—(Special.)—Liberal politicians here are somewhat worked up over the appointment of a successor to the late Lieut.-Gov. Fraser. The position seems hard to fill. When the vacancy occurred the name of Premier Murray was favorably mentioned, but it is understood he declined the honor. The names of Sir Frederick Borden, Senator MacGregor of Pictou County, and several other Nova Scotia senators have been freely mentioned, but nothing definite was decided on until today, when it is currently reported that Senator MacGregor will be the next governor of this province.

ALL PROPERTIES, whether municipal or private, on the front extends to a line in the bay called the "wharf line" and piers can therefore be carried out as far as this line. The large pier of the Palace on Works, which is the only one which reaches the windmill line at present. The little boat now hauled eastward towards Ashbridge's Bay and soon entered the narrow and quiet waters of Keating's Channel, which begins close to the foot of Cherry-street, south of the new National Iron Works plant, and connects Toronto and Ashbridge's bays by cutting thru the marsh a short distance south of King-street. This is where it is proposed to construct the new municipal freight docks, which Controller Spence hopes to put in the hands of a permanent commission, which can make a business proposition of the harbor for the city, and put everything on an up-to-date and profitable basis.

PORTUGAL'S NEW PRESIDENT

PRESIDENT THEOPHILE BRAGA, FIRST CHIEF OF THE NEW REPUBLIC OF PORTUGAL.

DIG ASSESSMENT BOOST ON GRAND TRUNK LAND

Increase in Fourth Ward Alone is Nearly \$1,400,000—Means \$20,000 More Taxes.

The determined fight of the Grand Trunk against the amount of assessment on its Esplanade property in the fourth ward was continued before the court of revision yesterday.

Mr. Donald objected strenuously to an assessment of \$11,900 an acre on 54 acres between Spadina-avenue and Bathurst-street, about ten acres being still under water.

Another battle ground was the King Edward yards, bounded by Front, Wellington, Simcoe and John-streets.

Major Geary announced at the board of control meeting that there would be no further delay in laying the 500-foot extension to the intake pipe.

THE PINE BEACH CITIZEN

VOL. I, No. 1 PINE BEACH, OCTOBER 13, 1910 PRICE 5 MINUTE ATTENTION

ROBINS, LIMITED

Prepare for Another Big Day at Pine Beach.

Encouraged by the crowning success of last Saturday at Pine Beach, Robins, Limited, are preparing another big Home Finders' outing to the Beach next Saturday, Oct. 15th.

Car Service

The street car company is doubling the track past Pine Beach. Then comes the announcement that the city may take over the car-system out here and give a service par excellence.

Harbor Improvements

Pine Beach has an excellent lake front now, and if the Harbor Commissioners carry out their ideas for waterfront beautification Pine Beach will reap more advantages.

Autumn Lives Here

Pine Beach is in the splendor of Autumn. Every bit of foliage is an Autumnal painting. Autumn appears to have chosen Pine Beach for a home also.

Car Service

The street car company is doubling the track past Pine Beach. Then comes the announcement that the city may take over the car-system out here and give a service par excellence.

Harbor Improvements

Pine Beach has an excellent lake front now, and if the Harbor Commissioners carry out their ideas for waterfront beautification Pine Beach will reap more advantages.

Lake Front Promenade

Pine Beach will have a most attractive lakefront promenade when completed.

Better Roads

Not only are the winding roadways in Pine Beach to be perfectly graded, but the public highways leading to the property are to be favored with improvements.

Don't Forget

Don't forget the big Pine Beach outing on Saturday. Keep your eyes on the daily papers.

## FRUIT MARKET.

A moderate business was done yesterday on the Toronto wholesale fruit market. A good supply of peaches was on hand, with prices considerably lowered, as it took very good quality to bring 75c. The prices ranged from 50c to 75c. A large business was done in grapes, as both the supply and demand were heavy. Canadian watermelons were in large quantity, with no market. The same could be said of pumpkins. The following prices were current: Beets, basket, \$0.15 to \$0.20; Cauliflowers, dozen, \$0.75 to \$0.85; Cabbage, crate, \$0.20 to \$0.25; Centulouzes, dozen, \$0.40 to \$0.45; Celery basket, \$0.25 to \$0.30; Carrots, basket, \$0.15 to \$0.20.

# END OF SEPTEMBER

### Over All Canada There is a Reduction, But This is Confined to Western Provinces.

OTTAWA, Oct. 12.—(Special.)—The census office publishes to-day a bulletin on the condition of crops in Canada at the end of September. The reports show averages of condition for the whole of Canada lower than those of a year ago. But the reduction applies chiefly to the northwest provinces. In the eastern provinces a high per cent. is maintained for nearly all crops, and the quality and quantity are better than a year ago, and still better than two years ago.

## THE VEGETABLE CROPS

Summary of the Season's Results in Ontario. The reports from the branches of the Ontario Vegetable Growers' Association in the different sections of the province, show that the crops have not been at all uniform. In some sections the continual wet weather has done considerable damage. The tomato crop on the whole is not an average yield, but in the west, the crop is reported as being good, even in excess of last year. The reports on the potato crop show that the early varieties are poor, although the late potatoes are a fair crop. The blight has spoiled a number of the crops which would otherwise have been fair. The onions this year are small in size and not nearly an average yield. The celery this year promises to be fair, particularly the later varieties. The early celery was damaged by heavy rain just after planting. Cabbage and cauliflower reports show that the crop is a fair one. Berlin in particular reports that they have the best showing in years. Cabbage is coming on well, particularly the later varieties. The cauliflower crop has not been a particularly good one for vegetable growers, especially in Eastern Ontario. In the western part of the province crops have been rather good and the prices fair.

## RIVALRY IN PEACHES.

(Canadian Associated-Press Cable.) LONDON, Oct. 12.—Mr. Colcock, Ontario Government agent, says the prices of Niagara peaches have not fallen. They are being sold at six to seven cents a box. He claims the Dominion Government has not done anything, having sold peaches at five shillings a box, doing injury to the trade. One Covent Garden merchant purchased 50 boxes of their peaches at five shillings, and sold them at four shillings. One Liverpool dealer who agreed to take 30 boxes of Niagara peaches per week, when the agreement was made as he found he could get no other Ontario peaches cheaper. Colcock has received a letter from King George's secretary, saying the peaches sent his majesty were appreciated.

## Foster on Reciprocity.

Hon. George E. Foster has written a strong article on "Reciprocity with the United States—Who Wants It?" for this week's issue of The Canadian Crier. As ex-finance minister, the writer knows where he speaks. At all times this is the most important question for Canada to negotiate. Negotiations should proceed upon equal conditions, and to-day the tariff conditions are grossly unfair. Let the heaven work in the United States, let the rest of the world work in our favor, and give us fair reciprocity in tariffs," he says. The article is a valuable contribution to the present discussion on the tariff.

## Insurance Report.

The annual detailed report of the inspector of insurance, under authority of the attorney-general's department of the provincial legislature, has just been issued by the King's printer. The volume contains about 1000 pages and gives the retailed transactions of insurance corporations, companies or underwriters operating under the Insurance Act of Canada.

## An Editor Goes Abroad.

R. L. Mortimer of The Free Press, Suelburne, accompanied by his nephew, E. B. Mortimer, B.S.A., was in the city Wednesday, en route to Montreal from which port they will sail for Liverpool, England, via S.S. Victoria of the Allan line. They will spend six or eight weeks, visiting various places in the British Isles, and Paris, France.

## The Sugar Beet Harvest.

CHATHAM, Oct. 12.—(Special.)—Many of the farmers of Kent have commenced to harvest their sugar beets, and some are even hauling them to the factory at Wallaceburg. It is reported that an average yield for the year will be about 19 tons to the acre, which is above the ordinary yield.

# STEADY DEVELOPMENT

### IS SHOWING RESULTS

Hargrave Following in the Wake of Kerr-Lake and Big Returns. Are Promised. After two years of active mining the Hargrave property is beginning to show its worth. It took two years of active mining to show up the true value of Kerr Lake Co.'s property, but after that the dividend paying power increased rapidly, and the property was advanced from time to time till it has been raised to 40 per cent. annum.

## CAN'T MAKE IT PAY

Tax Collector and Assessor Would Be Out of Pocket, So He Resigns. CHATHAM, Oct. 12.—(Special.)—Richard Knight, recently appointed tax collector and assessor for the City of Chatham, until the balance of the year, has resigned the position. Mr. Knight was appointed after paying for the bonds which the council insist upon, and after hiring help to collect the unpaid taxes, of which there are a lot still outstanding. Mr. Knight would not be sufficient to reimburse him for his work. When they appointed Mr. Knight, the council combined the offices of tax collector and assessor. There were over 20 applicants for the position, when Mr. Knight was chosen.

## MURPHY SPEAKS AT CHICAGO.

CHICAGO, Oct. 12.—At the Discovery Day banquet of the Knights of Columbus to-night address was made by Hon. Charles Murphy, M.P., secretary of state for Canada, Vice-President Sherman and Judge Peter S. Grosscup of the United States Circuit Court. Politically the address was a triumph, avoided by Mr. Murphy and the vice-president. Senator Lorimer was at the speaker's table.

## \$500 FOR BREACH OF PROMISE.

CHATHAM, Oct. 12.—(Special.)—In the case of Stimson v. McRoberts, tried at Chatham in Ireland, the plaintiff was awarded \$500 for breach of promise. The case was a suit for breach of promise from Bethwell, and the outcome was a consent judgment.

## In the Afternoon Court.

Magistrate Kingsford yesterday fined Geo. Miller, Warren-avenue, \$20 and costs for autoing at 20 miles an hour—a short burst to beat out a train at a crossing, he pleaded. Simon J. Colburn, ex-mayor of a Manitoba town, exhibited his horse, which was found to be suffering from stifle, and unfit to work, although he thought differently. He will let the horse out in pasture for two weeks.

## Three Have You Advantaged?

Three have you we said to buy Right of Way at 23-1-2c. Yesterday this stock sold at 38. At the same time we advised purchases of City of Cobalt, Peteron Lake, Little Nipissing and Beaver. Compare to-day's prices with those when we recommended purchases. Don't forget that the Cobalt stocks are in a bull market. Higher prices are warranted in many stocks. Nova Scotia has been dull for many months, and we think that holders of these shares will profit by averaging at present prices. Watkuff and Chambers-Ferland will bear the scrutiny of cautious buyers, also Roebuck.

# COBALT--Right-of-Way Shares Make Another Good Advance

### Cobalt Stocks in Scant Supply And Demand Continues Urgent

Trading is Active and Good Advances are Registered—Interest Shifts to Generally Inactive Issues. World Office, Wednesday Evening, Oct. 12. Cobalt stocks were in rather scant supply on the local mining exchanges to-day, and there being a good call for most of the securities, higher prices were registered in various instances. Trading was more active than during the past few days, but there was not sufficient stock on offer to satisfy the demand in certain cases, and brokers reported that they were holding orders over for to-morrow rather than bid prices up any higher, since the shares were not forthcoming on the way up. The market's action to-day clearly demonstrated the sound basis on which present values are based. Holders showed little disposition to realize on their holdings, and even those whose stocks showed substantial profits on the advances which were recorded were not inclined to take advantage of the opportunity to secure certain profits. City of Cobalt was a strong feature, these shares selling up three points, while the close quotations were generally higher prices. The buying was formulated on the idea that the directors would place the security on a dividend basis at their meeting on Friday, the financial position of the company being such that some such action was thought warranted.

## IMPRESSED BY PORCUPINE

Camp is Busy and Very Prosperous—Big Gold Producer. Messrs. P. S. Halston of Toronto and P. Foster of Cleveland returned yesterday after spending ten days in Porcupine. Both of these gentlemen are very much impressed with the various properties inspected by them, and they think that it is only a matter of time before some transportation into the camp before the gold wealth of this district will be widely recognized. Mr. Foster of Cleveland who has had a long career as a mining engineer, is taking charge of the property of the Ontario Porcupine Gold Mines Company. This property is located in the Township of Whitney, Simco, Ontario, and has been traced for some time. The company has continuously employed ten men in developing the claim, and during that time eight veins have been uncovered. The principal vein is about forty feet wide, and has been traced for some time. On this vein a shaft is now being sunk, and the showings are good at a depth of twenty feet. Mr. Halston told the World that the whole Porcupine camp was busy and prosperous, and that everyone in the field felt confident that Porcupine will ultimately become one of the richest gold producers in the world. "We had ten days in the camp," Mr. Halston said, "and it would be hard to express what we saw. In language which would be appreciated by those who have not seen a big gold proposition."

Like a vine, overgrowing a graceful portico, built up by years of honest labor, so it might be said, clothes made for selling have overgrown and obscured the clothes that are made for service. They depend upon the reputation of the service-clothes for their support, and appear in as many styles and colors as the foliage of autumn. But their glory is just about as lasting as an autumn leaf—rough weather and rough usage crumple them up before they've been worn a week.

In the Garden of Eden, where leaves were the only wear, our parents had no alternative but to wear the kind of clothing that fades with the first blast of winter. But for the men of to-day who wear this kind there is no excuse. We have built up our trade in men's clothing by offering our customers only honest clothes—they didn't have the fancy touches, the freaky curves or the false shapes of other clothes. They were just well-tailored garments, well cut from honest cloth. This is the kind of clothing we want to show you to-morrow.

These are our ready-for-service clothes, not high priced to begin with, and far and away the cheapest in the end—as you'll be told if you ask any of our customers.
