POLICE AND FIREMEN OF MONTREAL VOTE TO GO ON STRIKE

Are Asking Increase of Five Hundred Dollars Per Annum Per Man.

IN ADDITION TO THIS Call is Made for Dismissal of Several High Officials.

Montreal, Dec. 8.—Police, firemen and employes of the incineration and aqueduct departments of the city, at a meeting held Saturday afternoon, decided that unless the city administrative commission agreed before Wednesday noon to the terms of the four unions a strike will be called.

GERMANS UNBEATEN. IS WIDESPREAD VIEW

Farewell Proclamation by Gen. Einem to Inhabitants of the Rhine Provinces.

Amsterdam, Dec. 8.—That the mental attitude is evidently still widely prevalent in Germany which persists in regarding the German army as unbeaten, or at least as "vanquished victors," is a popular paradoxical German designation has it, exemplified in the farewell proclamation to the inhabitants of the Rhineland issued by General von Einem in evacuating the Rhine provinces. In this message, as quoted in a Coblenz despatch to The Dusseldorf Nachrichten, General von Einem expressed to see the victorious army which protected the fatherland for four and one-half years against all its enemies.

BRITISH IMPORTS SHOW BIG INCREASE

Advance of Over Seven Million Pounds Sterling Compared With Last Month.

London, Dec. 8.—The British Board of Trade figures for November show that imports increased £7,115,000 compared with the total for the corresponding month last year. The import increases were chiefly in food and raw material, the cotton decreased £2,000,000.

CLASH BETWEEN TWO FACTIONS CAUSES BLOODSHED IN BERLIN

Troops Overseas Marrying Rate Three Hundred a Week Fifty Thousand Canadian Soldiers' Dependents Are in England Awaiting Boats to Bring Them Home.

London, Dec. 8.—The Canadian Press learns from a reliable estimate that fifty thousand women and children dependents of Canadian soldiers are in England. Roughly speaking they can be transported at the rate of five hundred each sailing. How many sailings will be available in the near future it is impossible to say, but, in any case, it is obvious the whole number cannot possibly reach Canada daily nowadays at British Columbia House, where Canadian military authorities have opened a special bureau for women and children to secure passages. The crush is so great whenever sailing is imminent that many are compelled to wait hours in queues. The Minnedosa takes 500 tomorrow. Most of these will travel with their soldier husbands. Many of these wives will see Canada for the first time, for during recent months Canadian soldiers have been marrying English women at the rate of 300 weekly. These special sailings for women and children will be suspended directly demobilization begins.

CANADIAN SOLDIERS NOW ON GERMAN SOIL

Ottawa, Dec. 8.—Canadian forces now on German soil, according to a cable received by the director of public information from Canadian headquarters, London. Information received in England, the cable states, indicates that the Canadian cavalry brigade, together with the first and second Canadian divisions, entered Germany and are today close to Bonn, the German Rhine city, which is one of the famous university centres of Germany, situated a few miles from Cologne. Bonn, it is understood, will be the headquarters of the Canadian Corps.

CONTROL BY GOVERNMENT OF BRITISH RAIL SYSTEMS

Granting of Eight-Hour Day Will Force it, Say Experts, As Dividends Would Be Impossible With Present Wage Scale.

London, Dec. 8.—History is being made so swiftly in England that almost every day produces a new chapter of absorbing importance. The future of the British railways is the topic of the week-end. The government's decision to give all the railway workers an eight hour day was not a surprise, because the public had not realized that any agitation was afoot. On the contrary, it had expected an attempt at a general settlement of the railway problem after peace had been arranged.

WOODSTOCK DOCTOR WINS M.C. AND CROIX DE GUERRE

Woodstock, Dec. 8.—Dr. Frank McLeay, who was practicing in Grimsby when he enlisted three years ago, has been promoted to a captaincy, and also awarded the Military Cross and the Croix de Guerre. He is a brother of Prof. W. S. McLeay of McMaster University.

TWO CANADA FREIGHTERS. Laying Keels at Port Arthur for Department of Marine Vessels.

Port Arthur, Dec. 8.—Keels will be laid at the Port Arthur shipyards Monday for two freighters, each 1,000 tons and 3,400 tons deadweight. These will be the first boats for the department of marine under Canada's new merchant marine policy.

GERMANS PLANTED BOMB IN GHENT; Ten Killed; Several Injured

Ghent, Dec. 8.—The Western Railway station here was accidentally set on fire and burned yesterday. The fire caused the explosion of a bomb that had been secreted by the Germans, with the result that ten persons were killed and several others injured.

AMERICANS FOR COBLENZ TO HEAD OFF TROUBLE

With the American Army of Occupation, Dec. 8.—A battalion of the 39th Infantry left Treves by train today for Coblenz, where the "hours" run. The premature occupation of Coblenz is due to the request of the German authorities, who are apprehensive of the conditions that might prevail there after the withdrawal of the German forces.

### ASQUITH DEMANDS JUSTICE ON HUNS

Broad Distinction Between Errors and Systematic Infraction of International Law.

### LEAGUE OF NATIONS Does Not Mean the Cessation of Industrial and Mercantile Activity.

London, Dec. 7.—Herbert H. Asquith, the former prime minister, speaking at Rochdale, Lancashire, yesterday, ranged himself alongside those who have declared that the men responsible for the war and the atrocities shall receive adequate punishment. The allied powers, he said, had announced their joint intention of summoning the late heads of the German Government and state before some kind of international tribunal. There was a broad distinction between errors, even lying and wicked errors of policy, and a deliberate systematic infraction of rules which rest for their sanction not only on international usage, but on the instincts and dictates of humanity. Such were some of the incidents which attended the devastation of Belgian territory; the sinking of passenger ships and the almost incredible brutality of the maltreatment of allied prisoners of war. "We ought to insist that justice be done," declared Mr. Asquith, "and that not only the forms but the spirit of justice—the meeting out to the wrongdoer of his due, not less and not more—should be scrupulously observed."

Referring to the significance of the visit of President Wilson to Europe, Mr. Asquith said that for permanent purposes the world was a new one. These purposes, he contended, would

### TREAT GERMAN VICTIMS AS HONORABLY MAIMED

Chicago, Dec. 7.—A demand that officials of the central powers responsible for the mistreatment of French and Belgian women and girls during the war be punished and that the peace conference at Paris recognize these victims as honorably wounded in behalf of their country instead of social outcasts, and that action be taken which will render such outrages impossible in the future was formulated by the executive committee of the National Women's Christian Temperance Union which closed its session today. It is planned to have 6,000,000 American women sign a petition to this effect for presentation to the peace conference thru President Wilson. A committee was appointed today to take the petition to President Wilson at Paris.

### National Rumanian Council Proclaims Union With Kingdom

Berne, Dec. 7.—The national Rumanian council of Transylvania has proclaimed union with the kingdom of Rumania. Rumanian flags are flying everywhere and great enthusiasm is manifested.

### TRANSPORTS CARRY CANADIAN MAIL

Additional Facilities for Letters and Parcels for Siberian Expeditionary Force.

Ottawa, Dec. 7.—Mails for the Canadian expeditionary force, Siberia, have been going forward by transports plying between Vancouver and Vladivostok, letter, paper and parcel mail going forward by these steamers. The next sailings will be the steamers Teesta and Proteus, scheduled to sail on the 15th inst. With a view to affording additional facilities for the despatch of letters, arrangements have been made with the Japanese postal administration by which letters can go forward by regular Japanese mail steamers from Victoria to Japan and be transmitted from there to Vladivostok. According to letter mails for the Canadian expeditionary force, Siberia, will also be despatched by the following steamers of the Japanese line: Mania Maru, sailing from Victoria on Dec. 8; Chicago Maru, sailing from Victoria on Dec. 11 and all subsequent sailings of this line.

### DEMANDED RESIGNATION AT POINT OF REVOLVER

Munich, Dec. 8.—A crowd of armed soldiers last night went to the residence of the minister of the interior, and after forcing an entrance demanded the minister's resignation. Revolutionists also stormed the newspaper offices except one. They withdrew several hours later at the earnest request of the Bavarian premier, Kurt Eisner, who hurried to the scene. Herr Auer, the minister whose resignation was demanded, was given two minutes to decide at the point of a revolver.

### OPPOSED LIEBKNECHT; NOW UNDER ARREST

Berlin, Friday, Dec. 6.—A former non-commissioned officer named Gerhard, who is one of the members of the executive council of Berlin and leader of the soldier revolutionaries, was arrested yesterday. He is under a mild form of detention, charged, among other things, with advocating physical opposition to Dr. Kaer Liebknecht, leader of the Spartacus group of socialists. The fact that he was arrested at a plenary session of the soldiers' council, at which it was planned to organize a revolt against Herman Moellner and other members of the soldiers' council, is interpreted here as a successful endeavor to remove him from the scene.

### LLOYD GEORGE'S WIFE ON CANVASSING TOUR

London, Dec. 7.—Mrs. David Lloyd George, wife of the British premier, is making a tour of Wales in an automobile and addressing meetings in support of her husband's candidacy for parliament. A procession of motor cars joined her when she reached Merthyr-Tydfil, and Mrs. Lloyd George and other women spoke from the former's car at several places. At Trebarris Mrs. Lloyd George addressed a big meeting of miners.

### Propose Dividing Housing Fund on Enlistment Basis

Edmonton, Alta., Dec. 8.—During the civic campaign the reconstruction policy of the Dominion Government, which has occasionally come up for discussion, was definitely placed in the limelight when a resolution was unanimously passed at one of these meetings on Friday night asking that the Dominion Government divide the appropriation for housing conditions in the different provinces on the basis of provincial enlistments. This resolution will be sent to the government at Ottawa and to the 12 Alberta federal members.

### SOVIET GOVERNMENT ON EVE OF FALL

Many Bolshevik Ministers Have Passports for Flight to Sweden.

Amsterdam, Dec. 7.—The Russian Soviet government is aware that it is approaching the moment of its overthrow, according to a member of a German trade commission who left Moscow on November 9. Bolshevik circles at that time were very depressed, he reports, and many members of the government already had their passports prepared in the event they had to flee to Stockholm. Discontent with the existing government was growing daily even among the lowest classes, this German found, and the recognition was spreading everywhere that the government had brought the country to the verge of ruin in every respect. Sweden Out With Russia. Stockholm, Dec. 7.—Sweden has recalled her diplomatic and consular representatives in Russia, with the exception of two officials at the legation, for the reason that M. Vorovsky, the representative of the Soviet government here, had, it was charged, been transmitting Bolshevik literature from Russia. The Swedish government informed M. Vorovsky that he would not be further allowed to enjoy the diplomatic courier privileges. The government also stated it presumed that M. Vorovsky and the other members of the Soviet legation would leave Sweden.

### TWENTY BAGS OF GOLD SENT TO EX-EMPEROR

Amsterdam, Dec. 8.—The president of the Hamburg Soldiers' and Workers' Council has declared to "The Weser Zeitung" of Hamburg that he knew positively that 20 bags of minted gold had been sent to Amerongen, Holland, for William Hohenzollern, the German ex-emperor.

### MORE CANADIANS RECEIVE AWARD OF MILITARY CROSS

London, Dec. 8.—The following Canadians have been awarded the Military Cross: Capt. London Reid, Medical; Lieut. Henry Robinson, artillery; George Rochester, 54th Batt.; Arthur Rogers, 85th Batt.; James Roland, 87th Batt.; Capt. Bruce Ross, engineers; Lieut. Allan Rough, artillery; Capt. Alfred Routier, artillery; Lieut. Robert Rowland, 44th Batt.; Capt. Hudson Salisbury, machine guns; Albert Shand, 26th Batt.; Robert Shell, 19th Batt.; Richard Simmonds, 72nd Batt.; Victor Smallpiece, 15th Batt.; Armand Smith, 20th Batt.; Frank Smith, 54th Batt.; Lieut. John Scriver, artillery; Carl Smith, 95th Batt.; Charles Smith, 29th Batt.; Rev. Frederick Sherring, artillery; Lieut. Walter Smith, 19th Batt.; Harvey Sparling, artillery; Francis Stenson, 24th Batt.; James Sullivan, 1st Batt.; James Taylor, 50th Batt.; Capt. Frank Strachan, 2nd Batt.; Rev. Cecil Stuart, 24th Batt.; Lieut. George Thompson, 24th Batt.; Roland Thompson, 29th Batt.; Morley Verity, 54th Batt.; Walter Waddell, 25th Batt.; Capt. Albert Wallace, Medical; Lieut. Ralph Walker, 75th Batt.; Capt. William Walsh, Medical; Lieut. Donald Waters, artillery; William Webber, 5th Batt.; Douglas Webster, 28th Batt.; Walter Wilkins, artillery; Thomas Wilson, Mounted Rifles; Capt. Ernest Whelpshole, Medical; Leonard White, machine guns; Wm. Williams, machine guns.

### SAVING GUNS BY HAND FROM ENTENTE TROOPS

Amsterdam, Dec. 7.—A Cologne despatch in Friday's Rheinisch Westphalisch Gazette of Essen says that Cologne has been presenting a strange spectacle. Recently large numbers of discharged soldiers, youths and even school children, stimulated by offers of rewards for saving guns from the entente troops of occupation by getting the artillery pieces to the right bank of the Rhine, were harnessing themselves to gun carriages bearing guns and dragging them to safety.

### TO MAKE GERMANY PAY COST OF WAR

Britain Will Prevent Payment by Dumping Manufactured Goods.

### MUST CEDE MATERIAL

Sir Auckland Geddes Declares Allied Policy in Exact- ing Indemnity.

London, Dec. 8.—Speaking at Plymouth, Sir Auckland Geddes, a member of the coalition government, said that whatever the Germany might pay in discharging the cost of the war, she must not be allowed to pay in manufacturing goods dumped on Great Britain. It were better, he said, to run the risk of Germany failing to pay a part of the cost of the war than to receive her manufactured goods, which would crush out British industries and lead to a lowering of wages beyond living limits. Germany would pay with such gold as she has, also with such material as we can bring from her. She could pay in labor in restoring the damage she wrought in France and Belgium. She will have no colonies when the allies had done with this business.

FLUNDED 1890. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

MONDAY MORNING, DEC. 9.

The Stewardship of Canada.

All Canada is waiting for frank and moving word of direction from the government. We are the only considerable nation on earth that does not know where it is at or where it is heading.

Our apathy towards the air service promises to be one of our heaviest handicaps in the future unless immediate action is taken to organize the Canadian forces available in this sphere.

The Germans yielded their navy with crowsfoot stars, knowing very well that future struggles, if there are to be any more, will be fought in the air and not on the ocean.

The revolution in the management of public utilities comes naturally through the hand of those who operate them. There are rival camps among the political economists.

The power question has been grappled with in Britain as a result of the war. Huge central power stations occupy positions near the coal mines, and with generation and distribution at a minimum, this problem has been solved.

Long debated and fiercely fought tariff issues are once more on the tapis, and there is no vision and no voice that would reconcile the debaters. And they must be reconciled.

Taxation is closely akin to the tariff problem, and it is pressing for consideration in every market, in every county, in every municipality, in every province. Paddists abound, but the

leaders are afraid to lead. They neither confute nor construct, and matters in this respect drift along as in other things. The inequities of our taxation systems are the most general grievance we have.

Private efforts are being made to have our education systems reconsidered. At present they make neither for harmony in diversity nor for uniformity in attainment.

These are all reasons for the discontent over the absence of Sir Robert Borden in Britain. He has not been able to control his coming and going, but it seems a pity that the urgent business of the country should be suspended at such a critical moment.

The rest of the world is moving too fast to permit us to stand still with impunity. We shall be left behind and lose an advantage which we can never again overtake.

OTHER PEOPLE'S OPINIONS

Editor World: Referring to your editorial this a.m. re Dr. Primrose before the Hon. L. B. Lucas, I take this opportunity of complimenting you on the clear, concise way in which you sum up the situation.

There are thousands of citizens in Toronto who have obtained relief and hundreds who have been cured, and that after the medical men have given their case up as hopeless.

Why should we be compelled to have medical men treat us? We are treated, and if we do not approve of the results we get from either chiropractors or osteopaths, we do not have to employ them.

AMERICANS CAME AT BRITAIN'S CALL

Lloyd George Describes Ready Response of Wilson to Appeal.

Leeds, England, Dec. 7.—"I shall never forget that morning when I sent our message to President Wilson.

"The following day," continued the premier, "there came a cable from the shipping controller, Downing street, and said: 'Send every ship you can.'"

"We ran risks with our food and we ran risks with essential raw materials. We said, 'The thing to do is to get these men across at all hazards.'"

"America sent 1,900,000 men across, and out of that number 1,100,000 were carried by the British mercantile marine. The good old ships of Britain have saved the liberty of the world many times. They saved it in the days of Queen Elizabeth; saved it in the days of Napoleon, and have saved it in the days of Kaiser Wilhelm II.

"It is a change from December, 1916; a change from the days when, as the end of the year, we made our balance sheet and found Germany had acquired more allied territory than she had before; that a new ally had fallen and that another ally was tottering to the fall, and that Germany was advancing ruthlessly along from conquest to conquest."

"That was the story up to the end of December, 1916. What is the story today? Every German submarine is in a British port today. The best battle ships and cruisers and torpedo boats fought are now with lowered flags, under the surveillance of British seamen in British harbors."

"And the British army, which has fought so bravely—which has fought so bravely—has never matched that army, after months of fighting and of suffering, at this hour, marching across the Rhine into Germany and into one of the most famous cities of Germany."

POLITICAL NOTES

In another column we reprint a significant editorial from the Winnipeg Free Press dealing with the tariff question, and thereby dealing necessarily to some extent with the political situation.

The Free Press finds much to commend in the recent platform of principles announced by the Canadian Council of Agriculture. It does not consider even its radical low-tariff plank as visionary or impracticable.

If this be the case, and we are not prepared to make a compromise as impossible, the Union government might be able to weather at least another session of parliament, and to defer for a time coming to close grips with the tariff question.

In passing, we may observe that a despatch from Ottawa intimates that the reconstruction period in the country may be inaugurated by a reconstruction of the Ottawa government. It is hinted that if Sir Robert Borden becomes a member of the peace conference, he may remain abroad a long time, and possibly hand over the leadership of the government to Sir Thomas White.

The Ottawa Journal Press, a warm and ardent supporter of the Union government and of Sir Robert Borden personally, is strongly of the opinion that Sir Robert Borden and Premier Hughes, should represent the dominions on the peace conference.

The Ottawa Journal Press, a warm and ardent supporter of the Union government and of Sir Robert Borden personally, is strongly of the opinion that Sir Robert Borden and Premier Hughes, should represent the dominions on the peace conference.

We doubt if the friends of Sir Robert Borden are doing him a real service in attacking Premier Hughes. The latter did great service for his own country and the empire at the outbreak of the war by the way in which he broke the strange hold of the German metal trust over the concentrated resources of Australia.

"Canadians would, no doubt, be gratified to have their prime minister chosen as a spokesman for the dominions, but we have no such special interest in the peace conference as to justify violent measures to attain that end."

"There can be no doubt" if there has been any question about the matter in London—and Mr. Rowell intimates that there has—Sir Robert Borden has been strongly urged the right of Canada to a place at the conference.

The position of Hon. T. A. Crerar, minister of agriculture, continues to be commented upon by the press. Mr. Crerar, personally, is probably no stronger a free trader than half a dozen of his colleagues, but he attended the recent meeting of the Canadian Council of Agriculture, and if he has, at least, acquiesced in its demand for sweeping tariff charges and reciprocity with the United States.

Mr. Crerar is the subject of much speculation. It is said that he may have attended the Winnipeg meeting to hold the west in the Unionist support. But it is an amazing divergence from constitutional practice for a minister to take part in the framing of

GERMANY LOST 6000 AIRPLANES

Resources of Allies Now Reinforced by Two Thousand of Latest Model.

DIFFICULTIES ADJUSTED

Taking Over So Vast a Fleet of Machines Has Taken Much Time.

London, Dec. 8.—The surrender of the 2,000 German airplanes required under the terms of the armistice convention has been proceeding during the past week and it is expected the full complement will shortly be in the allies' hands.

The taking over, examining and parking of so vast a fleet of machines has necessarily taken time, as the German armies in the west have been leaving the planes behind in their evacuated airfields.

Some light is thrown upon what this gigantic task means to the Germans by the British official report of air fighting on the British western front from January, 1918, to the date of the armistice.

Germany is known to have lost well over 6,000 airplanes destroyed, and surrendered during the present year. Upon the other hand the resources of the allies are being reinforced by 2,000 German machines of modern type and in good serviceable condition.

It is worth noting that the terms of the armistice included the giving up of the complete equipment of the various reconnaissance and bombing machines, this taking in a large number of German aerobics, bombs, bombsights, machine guns, wireless transmitters etc.

HOLLAND IS ADVISED TO GET RID OF WILHELM

London, Dec. 8.—The Nieuws Van Den Dag, of Amsterdam, a paper which has been received here, says it holds the opinion that the former German emperor is responsible for the acts of his troops in Belgium and France, for the ruthless submarine warfare, and for the aerial bombardments of open towns.

Another reason, the newspaper says, why Holland should be relieved of Wilhelm is that many persons in Germany have not yet abandoned the hope of restoring the imperial power.

The position of Hon. T. A. Crerar, minister of agriculture, continues to be commented upon by the press. Mr. Crerar, personally, is probably no stronger a free trader than half a dozen of his colleagues, but he attended the recent meeting of the Canadian Council of Agriculture, and if he has, at least, acquiesced in its demand for sweeping tariff charges and reciprocity with the United States.

Mr. Crerar is the subject of much speculation. It is said that he may have attended the Winnipeg meeting to hold the west in the Unionist support. But it is an amazing divergence from constitutional practice for a minister to take part in the framing of

THE WORLD 40 Richmond St. West Phone Main 5308

The Western Farmers and the Tariff.

Editorial in Winnipeg Free Press.

The "platform" drawn up by the Canadian Council of Agriculture during its session in Winnipeg last week is radical and comprehensive. It touches international, imperial and Canadian affairs; and it states the politico-economic principles of the western farmers in terms impossible to misunderstand.

The prominent features of the document are those concerned with the tariff and taxation, demobilization, land settlement and public ownership. In each of these spheres of future action, the council's demands are plainly expressed, are of a practical, sometimes drastic, character and will command broadly speaking the assent of the people of the three western provinces.

Tariffs and taxation are necessarily related. Complete relief of the legitimate demand of the west for the alleviation of the burdens imposed upon it in the interest of the Canadian manufacturer must affect the revenue of the country. The people of Canada are, at this time, faced with the immediate necessity for meeting their war debts. It is estimated that the annual revenue must rise from \$150,000,000—its pre-war level—to about \$200,000,000, or so after the war. Definite proposals for the all-round reduction of the present tariff must therefore be accompanied by suggestions for the raising of the large revenue which will be needed.

The reduction of the tariff will not, of necessity, destroy its revenue. It is not necessary to destroy the revenue of the tariff. It is necessary to reduce the amount of national income derived from that source which will probably be much greater if, and when, the tariff is reduced. But any such reduction of revenue will be required and the proposal to raise it by taxes on improved land values, personal income, inheritance and property, is to apply extensively the principle of direct taxation—will be successful in raising the revenue.

The reduction of the tariff, regarded as the present for the promotion of Canadian manufacturing industry, and the prompt acceptance of the standing offer of the United States of reciprocal trade in the unratified agreement of 1911, are practical necessities for the west. Equally necessary is the removal of the tariff on raw materials and machinery, fertilizers, building materials and the raw materials and machinery of the farmer to compete in the markets of the world under the conditions which will prevail a few years hence.

If development, not only of the agricultural resources of Canada, but of its other vast natural resources, including its potential manufactures, is to be successful, and if the thousands of soldiers and immigrants encouraged and assisted to become agriculturists are not to be expelled as evicted tenants, but to have a permanent home in the towns, the protection hitherto extended to the Canadian manufacturer must be removed.

The farmers' platform is too comprehensive to discuss in detail. But it is a practical and a political policy. The necessity for compromise and for the application of the principle of reciprocity with regard to present expediency has been recognized; the recognition stamps the new policy as one which can be acted upon by the Dominion government.

JOCKEY EDDIE MARTIN IS LIKELY TO STAY OFF

Pull Has Not the Effect on
Stewards Like in the Old
Days of the Turf.

New Orleans, Dec. 7.—The announce-
ment made by the stewards at Jefferson
Springs this week that, following his
being warned off at Hot Springs last
winter, Jockey Eddie Martin will be de-
nied all privileges, including admission to
the grounds at both New Orleans tracks
this winter, is a strong indication that
only that a new era on the turf has
begun, and that the question of
"pull" is being handled in the
days gone by.

GERMANS HANG ON TO ROLLING STOCK

France Urgently Needs Cars,
While Enemy Ignores
Truce Terms.

Paris, Dec. 7.—The regions of
France invaded by the Germans, and
recently reclaimed, are in serious need
of rolling stock for the railways, the
minister of public works, Albert
Sarville, reports. In this connection
the Matin speaks of the extraordi-
nary slowness with which the deliv-
ery of German railway material is being
carried out. The time limit fixed by
the armistice for its being turned
over is fast approaching, the paper
notes, but neither locomotives nor
cars have begun to become available
for use on the French railway systems.
Germany is pleading her own
distress in asking for the easing of
the armistice terms it is noted, while
the evidence tends to show that
there is in fact no food crisis any-
where in Germany, the population is
now profiting by the distribution of
the stocks that had been accumulated
prior to the war in view of the possi-
bility of a winter campaign.
