BOAT STATION AT GAP... UNCLE SAM NEEDN'T FEAR RAISING OF ISLE ROYALE

Property Commissioner Harris, at Dundin Inquest, Tells of Needs of City--Another Adjournment Made.

The adjourned inquest into the death of Walter Hamilton Dundin, one of the nine victims of the drowning accident at Sunnyside on the morning of July 26, was continued last night and again adjourned till Thursday, Aug. 29, Coroner J. E. Elliott wishing to obtain further expert evidence.

The first witness was P. C. Daniel Robinson, who found the body of Walter Dundin in the city bath at the city baths in the day time, but at night there was nobody there. This man had a life saving appliance a couple of life buoys and a pike pole.

Police Constable Richard Lewis said he was on duty at Sunnyside on the night of the accident. About 1:30 he heard some one in a launch bawling. After that the singing turned to shouts, which were kept up for some time. When they were kept up so long he began to think they really were in distress.

Harvey Daly, brother of two of the boys who were drowned, said he did not think it is possible that any running motor boats, but knew something about gasoline machinery. The only thing he heard of the Dalvine was that he thought it had been built better than the model called "Witness" and as he had seen the boat before. The first time the engine did not appear to go very well, but the launch sat easily on the water.

Roland C. Harris, property commissioner, said that the city had about 20 sets of life saving appliances, but along the waterfront from the Don to Sunnyside, and at the island. Besides that the city had 50 sets of appliances consisting of a pike pole, a life buoy, and a ladder.

Commander Robert Williams of the Toronto Ferry Co. considered that the launch Dalvine was not a safe one. He said he did not think it was worth enough life-saving appliances in the bay; in fact, did not think there were any. He thought a patrol boat with a search light, if there were one, would be more efficient life-saving appliance.

City of Toronto Taxes For 1907. After Saturday, Aug. 10, 5 per cent will be added to all unpaid taxes for the first installment of general taxes and local improvement rates for 1907.

NEW MINT ONLY PART NATIONAL... Government Has Neglected to Provide For Refining the Silver and Gold.

OTTAWA, Aug. 8.—(Special.)—The extraordinary situation has been revealed at Ottawa that the new Canadian Royal Mint will have to start coining with metal purified in a foreign country.

When arrangements were made for the establishment of the mint, it was pointed out that there were no smelters in Canada capable of purifying the ore sufficiently for metal coinage and it was arranged that a smelter should be erected, probably at Ottawa, for this purpose.

For instance, a million ounces of silver will be wanted at the mint in November. The ore will have to be shipped to the United States, refined there and brought back to Canada. The department of mines should have been aware of all this, but apparently neglected its duty.

It is stated that the only metal which may be all Canadian will be a small amount of copper mixed with bronze from Trail, B.C. Gold and silver must be refined by electrolytic process in the United States or Great Britain unless the mint is to stand as a monument of what might have been.

The deputy master of the Royal Mint at Ottawa says that if a refinery could be started in or near Ottawa for treating Cobalt ores by what is known as the electrolytic process at least one million ounces of silver might be purchased from such a refinery for use at the new Dominion mint here annually.

CHICAGO OPERATORS OUT. All Employed by Western Union in the City Walk Out. CHICAGO, Aug. 8.—The grievance committee of the telegraphers' union notified the night manager of Western Union that unless their men quit work in the Overland division, who had refused to work with Los Angeles, were reinstated with Los Angeles, all the union men employed in the Chicago office would be called out on a strike.

FOUND DEAD ON BEACH. British Columbia Nurse Strangles in English Town. (Canadian Associated Press Cable.) LONDON, Aug. 8.—Miss Jane Lawley, a trained nurse from British Columbia, was found dead at Blackburn, apparently having been strangled while walking to the residence of a patient. Miss Lawley was formerly on the staff of the Blackburn Infirmary.

ROUGH ON CANADA. LONDON, Aug. 8.—The Leader publishes further letters protesting against the "purging" of Canada by the Canadian immigration authorities. One letter states that 160 acres granted by the government are on a piece of barren land, requiring \$300 to cultivate.

EARL GREY AGAIN REMINDS CANADIANS OF THEIR DUTY... Navy Necessary to Bind Empire, and Time Has Come to Relieve Britain of Burden of Support--Some of Canada's Sacrifices.

HALIFAX, N.S., Aug. 8.—(Special.)—At a largely-attended Canadian Club luncheon here to-day, His Excellency Earl Grey, governor-general, made an important speech, referring to relations with the mother country. His speech evoked great enthusiasm and a cordial vote of thanks was moved by Archbishop McCarthy, seconded by Dr. Falgout of Toronto University.

Referring to the colonial conference, his excellency expressed the hope that the blue book report of the proceedings of the conference might be printed in a cheaper form and be widely read. Mutual sacrifice and service appeared to be the motto which animated the discussions of the conference. Along with the noblest of the United Kingdom, the home government, recognized that the first pressing need of the self-governing dominions across the sea was to develop their resources, until the empire was made self-sufficient, and to ensure the safety of the over-sea trade, until the time had come for the twenty millions of self-governing dominions of the King to take their share of what should be a common imperial burden.

He felt proud to belong to that small portion of the British empire which considered it a privilege to carry the whole burden of the naval defence, and until Canada could relieve it of a share of the burden. His excellency referred to the patriotic example of the Cape Colony, which had deliberately paid \$25,000 in order to enable British manufacturers to take order for rolling stock, which, but for this action, would have gone to a foreign nation.

Australia's Preference. NEW TARIFF ACCORDS BRITAIN 5 PER CENT FAVOR—CRITICISM IS AROUSED. (Canadian Associated Press Cable.) LONDON, Aug. 8.—At Sydney, Australia, the tariff expert expounded by Sir W. Lyne is regarded by protectionists as a triumph for preference, while free traders call it a sham preference. As present a close analysis of the tariff is impossible, but there is approximately an average of 5 per cent in favor of Great Britain. Premier Deakin was absent from the house thru illness.

ADJOURN TILL TO-DAY. Coal Company Will This Afternoon Present Evidence. SYDNEY, N.S., Aug. 8.—(Special.)—The Steel Company closed its case this forenoon and to-morrow afternoon it is expected that the coal people will commence to present their side of the question.

DISCOVER BURNED BODY. Remains Were on Pile of Railway Ties—Had Burial Relatives. LYNDONVILLE, N.Y., Aug. 8.—The partly burned body of a man about 35 years of age was found on a pile of railway ties near here to-day. The indications are that he was murdered, and an attempt made to conceal the crime by burning the body. A card in his pocket bore the address "P. A. Goodway, 24 Carolina-street, Buffalo."

MOORS LIGHTING THE COAST CITY. Openly Preaching Holy War Among Musselmans--Anti-Foreign Sentiment is Inflamed.

TANGIER, Aug. 8.—French sailors are guarding the British consulate at Casablanca, where the consular agents of the United States, Germany, Austria-Hungary and Sweden have sought refuge. The Italian and Portuguese consuls are at the French consulate. A mine, from which a heavy, sustained fire was directed against the French consulate, was demolished by the guns of the French ships at the request of the Moroccan authorities.

The European shops were pillaged and many other buildings were set on fire and destroyed. The state bank agency at Casablanca has been robbed of about \$100,000. The French consulate was attacked by Moors during the night of Aug. 7. One hijackee of the guard was killed and three were badly wounded.

The custom house at Casablanca was looted by natives on Tuesday and many other buildings were set on fire and destroyed. A French gunboat, the Cassini, which was detached from the northern squadron, now proceeding to Casablanca, has requested to be allowed to go on board a warship.

PARIS, Aug. 8.—Special despatches received here from Tangier reveal the situation as being more alarming on the coast and in the interior. The French consul at Casablanca has distributed leaflets to the Europeans. In addition a fanatical priest named Meliani at the head of a band of followers is traveling thru the littoral inflaming the anti-foreign sentiment.

Eye Witness Tells Of the Bombardment. LONDON, Aug. 8.—A long despatch has been received here from an eye-witness of the recent events at Casablanca. It is dated Aug. 8. The writer says that Saturday and Sunday passed perfectly quietly in Casablanca, Muley Amin, the military governor, had employed soldiers to guard the town from Arab attack and had done everything possible to ensure the safety of the town.

GREAT SIGHT AT FALLS. Big Battery of Searchlights to Provide Illumination. NIAGARA FALLS, Aug. 8.—Probably the greatest display ever seen at Niagara Falls will be the illumination a fortnight hence of both the Horseshoe and American falls and the gorge by powerful electric lamps specially constructed by the General Electric Company of Schenectady. They are 41 in number, five of them have a diameter of 60 inches, 21 of 36 inches, and 15 of 30 inches.

WILL ACCOMPANY BORDEN EAST. MONTECAL, Aug. 8.—It was stated to-day that J. G. H. Bergeron, M. P. for Beauharnois, would accompany Mr. Borden on his tour thru the maritime provinces at the end of the present month.

R. & O. Quarterly Dividends. MONTECAL, Aug. 8.—The quarterly dividend of 1-4 per cent was declared to-day in Richelle's Company's stock.

**MARRIAGE LAW IS VALID**

**DECLARES ATTY.-GENERAL**

Amendment of Legislature Deals Only With Parties Wedding Under Lawful Age.

Attorney-General Foy yesterday made a statement to the press in reply to a despatch from Ottawa to the effect that the amendment to the marriage act passed at the last session of the legislature is unconstitutional.

A few days ago Ellen Faskien originated an action in the courts to have her marriage with Henry Foy declared invalid on the ground that both are minors, and were married without the consent of their parents, basing her claim to a dissolution of the union on the Ontario amendment.

Mr. Foy states: "Before the young girl, who is seeking relief in the Ontario High Courts, commenced action she obtained the opinion of two eminent counsel that the act was within the jurisdiction of the province. It is her duty to give power to the court to annul a marriage, it would be ultra vires, as the Dominion parliament alone has jurisdiction in such cases. But as the provincial legislatures have exclusive jurisdiction under the B.N.A. Act as to the solemnization of marriage, and the provincial act does not deal with divorce or annulment of a marriage, but only treats of the case where a form of marriage is gone thru between two persons under the lawful age, without consent required by law, and where the act does not purport to give the court power to annul a marriage, but only to find (if the fact be so) that a valid marriage has not been entered into or effected, and so to declare.

"When this act was before the Ontario legislature it was foreseen that some one hunting for flaws might possibly throw a doubt on the jurisdiction of the Ontario legislature, and in order to remove any possible question it was suggested that a similar act should be passed by the Dominion parliament, as a matter of precaution.

"The correspondent is mistaken in saying the bill introduced into the Ontario parliament last session was of the request of the provincial government. There was no request but merely a suggestion to those interested in the legislation that if a similar act were passed at Ottawa there would be no room for any one of the law-hunters to suggest a shadow of a doubt as to the sufficiency of the legislation."

**Vendors Block Public.**

Superintendent Beck of the Union Station has written the board of control complaining that the carts of bananas and peanut vendors often block the roadway opposite the front-street entrance, preventing passengers in street cars, automobiles, etc., from gaining access. The controllers will have the chief of police report on whether the vendors can be excluded from the neighborhood.

**In a Good Cause.**

Did you know there was a place over on Broadview-avenue—No. 275—where 500 or 600 boys are given an opportunity to do all the things many a young, healthy and good-hearted boy would love to do, and are saved the temptations of the street and the slum after school and office hours?

The World is trying to interest boy-loving citizens in the project, and to raise \$1000 towards the payment for the Girls' Friendly Society's Women's Auxiliary and many little helpers.

The 48th Highlanders' Band rendered an excellent program of music, interspersed with songs. Other attractions were the glass blowers, Aunt Sally Music, Fish Pond and Postoffice.

Among those present were: Rev. J. Fearncombe, vicar; Rev. R. Alleh, Messrs. Parkin and Crossland, church wardens; Noel Marshall and family, Ald. Chisholm, Sanderson and Hayles, W. C. T. Dobson, Sunday school superintendent; Messrs. Lye, Johns, Wallace and Walter Zetter.

**BOY KILLED BY TRAIN**

Willie Wildbourn Meets Fearful Death on C.N.R. Tracks Along Don.

Unable to hear the shrieking whistle of the Canadian Northern morning express because of his deafness, 14-year-old Willie Wildbourn was struck down and literally ground to pieces beneath the wheels of the engine and cars 250 yards north of the Winchester-street bridge, on the Don flats, at 12:10 o'clock yesterday.

The lad lived with his parents at 177 Hamilton-street.

Coroner W. A. Young opened an inquest at the morgue last night.

Engineer Joseph Merry deposed that the train left under the last coach at time and arrived at Rosedale Station, a short distance north of the place of the accident, on time at 11:40. He had noticed the boy walking on the line alongside the track, and had used the engine whistle vigorously, but suddenly the little fellow stepped on the track.

The train was brought to a stop within 150 feet. Part of the boy's remains were then under the last coach of the train. The head and upper part of the body were found 100 feet away from the rest of the remains.

The freeman, Morrison by name, had also seen the boy step on the track. The bell, he said, had been ringing continuously after the train had left Rosedale.

The engineer declared that the trainmen were having a great deal of trouble with the boys who go in swimming in the Don. Not alone do they offend passengers by their rudity, but they also play dangerous pranks on the railway. Mr. Merry said that lately he had found a shoebrake laid on the rails, while iron and stones had also been piled up. The train crews have to be very cautious.

Dr. Young will resume the inquest on Monday evening at 7 o'clock in the city hall, when the Wildbourn family physician will be asked to testify concerning the child's health and condition of hearing, while the evidence of witnesses other than trainmen will be given.

Wildbourn had been in swimming with Norman Dwight and another boy, but they were not with him when the fatality occurred.

**PROPOSE LINE FROM THE FALLS TO DETROIT**

Hamilton Company May Purchase Windsor Road and Then Cross the River.

WINDSOR, Aug. 8.—It is reported from a reliable source that the Cataract Power Company of Hamilton are negotiating with the Windsor, Essex & Lake Shore electric line officials with a view of purchasing the road and thereby adding one more to its already large number of traction companies. The company has an ambition to have electric connections between the Falls and Detroit.

If the company can succeed in buying the line, the crossing of the river will be the next step in the system. It is reported that the company has already made a formal application to the Dominion parliament for a franchise permitting it to operate such an international ferry between Detroit and Windsor.

Charged With Passing Worthless Cheque Very Nervous.

NEW YORK, Aug. 8.—Eva Fox-Strangways, who was arrested in Toronto on Sunday, was arraigned in Jefferson Market Police Court on a charge of passing a worthless cheque on Mrs. Susan B. Clark, a modiste, for \$299.

The defendant was in a highly nervous state and in reply to the magistrate's questionings was half crying. "I know I gave a wrong cheque, but I wrote to complainant and asked her not to present it," said defendant. "I am sorry and will try to make matters right very shortly."

Somewhat of a sensation was sprung

Scrappy Baseball at Buffalo Leafs Make Garrison Finish

Score Three Runs in Ninth, Tying Score—Umpires Call Game—Skeeters Grays and Baltimore Wins.

BUFFALO, Aug. 8.—Toronto and Buffalo put up a rare fight for today's game, but they will have to scrap again for it, as it ended in a ten-inning tie for four runs each. Buffalo looked to be the winner, but Toronto came back like true champions, and went home after Umpire Owens called the game on even terms with the Bisons. Hester gave way to Applegate, but Kinsinger furnished the curves all the time. The Bisons took the lead in the fifth and looked like sure winners, until Toronto set to work after a few runs in the ninth. The fielding was sensational.

EASTERN LEAGUE RECORD.

Table with columns: Clubs, Won, Lost, Pct. Lists Toronto, Buffalo, Jersey City, Newark, Providence, Baltimore, Montreal.

Ten Innings With Tall-Enders, Too. ROCHESTER, Aug. 8.—By clean hitting in the ninth inning, Rochester tied Montreal to-day when it looked as the Herbst Frick, s.s. 4 0 1 4 4 1; Wotell, 1b. 2 0 0 0 0 0; Hester, p. 2 0 0 0 0 0; Applegate, c. 0 0 0 0 1 0.

Pitchers' Battle at Providence. BALTIMORE, Aug. 8.—McCloskey and Cronin indulged in a pitchers' battle to-day, in which the latter came out first. Both men were in fine fettle, but the Bronx twirler weakened in the ninth inning. In this inning, with the score tied, Poland chopped a safe towards short. He was sacrificed to second by Abstein, and came home on what proved the winning run as he reached first to right field. Chaburn followed with another single, but the next two men fell easy victims. Both games played an errorless game. Score: Baltimore—A. B. R. H. O. A. E. Winning Run Forced In. NEWARK, Aug. 8.—Umpire Kelly to-day presented the game to the Jays by passing Halligan in the eighth inning, thereby filling the bases, whereas the side should have been empty. Halligan had struck out fairly. The next man was also passed, forcing in the winning run. Score: Toronto—A. B. R. H. O. A. E. Beaverton Wins Close Game From Young Torontos by 6 to 5

Sweeping Charges Made Against Newmarket by Checkers—Galt Trims Hespeler.

Beaverton 4, Young Torontos 5 was the result of the Intermediate C.L.A. game at the island yesterday. This is the second game played at Beaverton July 17. The game, while being exciting in spots, was not good Intermediate C.L.A. because the passing at times being wretched, and incidentally let it be remarked, the shooting.

Beaverton have added to their team Tucker of Orillia and Whit Hammond of Morrison and to their regulars, with these players on Young Torontos would have won.

The game was inclined to be rough in spots, but no person was injured, although several slight cuts. Both teams were anxious to play clean lacrosse, and only two or three deliberate fouls were made, although many more were ruled off.

The score at the end of the first period was 1 to 1, Lewis notching the first for Young Torontos and Cameron for Beaverton. Young still a tie at 1-1.

It was in the third quarter where Beaverton won the game. Lewis put Young Torontos one to the good, but Brennan got ruled off the defence, and Anderson, in the prettiest play of the day, evaded the referee's eye and the referee's hand.

Excitement was at fever heat the last quarter, but shortly after resuming play Mara was benched for an accidental trip, then Madill was knocked out, delaying the game.

Beaverton (8): Goal, Dobbin; point, Tucker, Marshall, Jacob; defence, Hammon, Marshall, Jacob, Carter, Cameron; outside, Anderson; inside, Penneck.

Young Torontos (5): Goal, Mitchell; point, Moore; cover, Madill; defence field, Brennan, White, McArthur, Murphy, Holmes; outside, Henderson; inside, Lombard.

Charges Against Newmarket. Beaverton hit back at Newmarket in their protest against Beaverton, and made sweeping charges against Newmarket against the Talagoo.

They state that Heatt of Alliston played a Collingwood certificate, but signed with Newmarket, and as referee, and made sweeping charges against Marshall, it is pretty near a case of "People in glass houses should not throw stones."

Further, in reference to the Curran's eligibility, Beaverton state the case of the following players: L. Backus of Newmarket, H. Parry of Newmarket, J. Sheburne, A. Cerwell of Toronto, J. Gilbert of Durham, J. Sutherland of Bradford, Toronto Junction, J. Heatt of Toronto, and Mr. Michael Hefferman of the Elora Rocks, played for Collingwood in 1906 and 1907.

The players were all granted permits by the C.L.A. to play in the Toronto and their trip to the States, but it is doubtful if Curran did, although all All-Canadians are not recognized as regulars of Young Torontos did not accompany the team.

Beaverton go on to state that if Curran's playing with All-Canadians was a direct violation of article 5, section 2, of the constitution held by these players should be canceled and their clubs be suspended. Where?

With reference to Can Martin, the protest goes on to state the amateur ruling and submits declarations to say the Newmarket team and professional players of Newmarket club should be suspended.

PARTY GOVERNMENT.

Professor Goldwin Smith opens the current number of The Nation Magazine with a brief but witty article on one of his favorite themes—the evils of the party system. Even in England, where it was first systematized, he considers it to have had only once temporary justification.

That exceptional time occurred under William III. when in consequence of the Jacobite intrigue with the deposed king, he very reluctantly formed an exclusive cabinet of Whigs. As for the present political situation in Britain he regards the government majority, "the numerically large, as really made up of sections most imperfectly united, as they have just shown by breaking on a vital question. A commonwealth," the professor comments, "cannot rest forever on such a basis."

While this is unquestionably the case, it can hardly be denied that in historic country like England, saturated with feudal and aristocratic traditions, must long witness a conflict between the advocates of the new and the defenders of the old. While there remain a privileged class, an established church, an unequal system of taxation, it is hard to imagine the party without political parties separated by real and deep differences. Reformers may, for a time, and in consequence of some premature or ill-advised departure in which they are not at all prepared to concur, be themselves divided, but sooner or later they will again coalesce for common objects. Formerly during the Whig period the moderate men controlled the party policy—now it is the Radicals—possibly the extremists of the main command the pace. But the main political issue must be always between the democracy and aristocracy.

Affairs on this continent are not the same. Some basis for a genuine party division may once have existed, but in these days both in the United States and Canada politics are reduced to a continuous contest for office. The party machines dominate over the ostensible leaders, and the electoral rights which are so vital to a successful democracy are ignored and sacrificed to party exigencies. Speaking of Canada in closing his article Professor Goldwin Smith says:

"What fills the political air of Canada now, with graft and suspicion of graft? What is impairing the integrity of judicial appointments and assailing the last stronghold of public right and purity of government? What but the necessities of party, which compel it to pay its adherents? Our people are good, but corrupt; they will gradually work downward, it has been trading along in the same old way, only too glad to pay his rent and keep the wolf for the door."

Does it not appeal to the ordinary man, this cry of tight money, as a game; a device to hold somebody up? Everyday, between sunrise and sunset, Canada increases in wealth at least one million dollars. Rio Janeiro rejoices, and Trinidad is glad, Mexico is delighted, and Porto Rico leaps with joy.

But what do the people of Canada get out of it? Very conservative people are inclined to examine our financial system. Why is it that every day we get richer, and yet money is harder to get and is worth less when we get it, than when the country was \$285,000,000 poorer than it is to-day.

THE STATES AND THE UNION. Just now there are wars and rumors of wars between various States of the American Union and the federal government. The cause is in all cases the attempt of the state legislatures to impose a compulsory reduction of railroad rates and compel the roads to obey the law and the conditions of their charters. This has brought the state governments and the federal courts into loggerheads in two ways. One turns on the constitutional right of congress to regulate interstate commerce, which right, it is contended, the state legislature has infringed. The other raises the question whether the compulsory reduction of rates is not struck at by that part of the XIVth amendment to the constitution which, among other things, declares that no state shall deprive any person of life, liberty or property without due process of law.

Practically the same political problem has thus to be faced which occasioned the civil war—that of the relation between the individual states of the union and the federal government. Then the seceding states asserted their absolute right to withdraw from the union at any time and there being no constitutional means of settling the controversy, recourse to the arbitrament of war was inevitable. They staked everything on the issue, and the result was decisive so far as the question of secession was concerned. But the sovereign rights of the individual states in other respects remained intact and have been tenaciously held except so far as the terms of the XIVth amendment have enabled the federal courts to extend their jurisdiction over what otherwise would have been entirely subject to state regulation. No one of course supposes that the sharp brushes between the state executives and the federal courts will lead to a civil war. The matters at issue will be fought out on the electoral field and the manner of their determination cannot but affect the future of the union. But it is evident that the federal constitution has failed to respond to the pressure of modern conditions and that the United States is really ruled to-day by the men who are the baron promised to keep silence, declared his love and asked for her hand in marriage.

The police of Karlsruhe have given out a statement to the effect that, Lindemann sent Fraulein Olga Molitor, daughter of the late Frau Molitor, duty of the trial of Hau for the murder of the latter, an anonymous letter saying he saw Olga shoot her mother, but the newspapers do not take Lindemann's revelations seriously.

THE OLD LOG CABIN.

"Honor thy father and thy mother, that thy days may be long upon the land which the Lord thy God giveth thee."

Forget not the days when our fathers were ringing Their chorus of axes, through woods rich and rare; Remember the cabins where mothers were singing, With hope in their hearts, and their hands full of care.

Like incense, the voices of glad sons and daughters Arose with the smoke, from the clearing to Him, Whose Garden of Maples, beside the sweet waters, He gave us, and blessed our rich cup to the brim.

The dearest of homes was the cot in the wildwood; No palace nor castle in England or France Could ever compare with the shanty of childhood— Now its shadow recedes like an exquisite trance.

At "bees," or at "corners," they met their good neighbors; They talked of old lands with a trembling voice; And they gallantly shared with their oxen the labors, Of hewing out homes in this land of their choice.

A shot from the door brought a buck to the table, A spear thrust in water tossed "lunge" to the fire, Wild pigeons in millions o'erhead were no fable, And Nimrods found here all their hearts could desire.

Say, Memory, where are thy johnny-cakes' riches? Give back the molasses quip maple distilled; With pancakes of buckwheat, and such divine dishes, That kings, to obtain them, log houses would build!

What tongue has the power to tell of their sorrows? What pen has recorded the lives gone before? Their bitter to-days, and the mocking to-morrows? And joys in that sacred log cottage of yore?

The noble old stock in their graves now lie thicker, And children forget where their grandparents lie; The forest and cabins fade farther and quicker— Oh, let not their virtues in us ever die.

Young Canada sports his white cuffs and high collars, But grandmother spun all his father had worn; Remember, you boys, set with diamonds and dollars, That in dear old log cabins our nation was born.

O, forest-bred children, wild Nature's caresses Gave you the hard bone, and the brawn, and the brain, Her sanctum sanctorum's most secret recesses Were bound to Log Temples by God's golden chain.

—WILLIAM H. TAYLOR.

BARON NOW UNDER ARREST.

New Witness in Hau Case is Charged With Blackmail. BERLIN, Aug. 8.—Baron Karl Lindemann, the new witness in the case against Hau, who is claimed to have seen the fatal shot fired, but says that the murderer cannot possibly have been the baron, was arrested at Mannheim last night on the charge of blackmail. The police of Karlsruhe have given out a statement to the effect that, Lindemann sent Fraulein Olga Molitor, daughter of the late Frau Molitor, duty of the trial of Hau for the murder of the latter, an anonymous letter saying he saw Olga shoot her mother, but the newspapers do not take Lindemann's revelations seriously.

ASK THAT CITY INSPECT FRUIT SOLD IN STORES.

THE SLEEPING CAR CRAFT.

St. John (N.B.) Sun, Aug. 6: The Canadian railway commission has enforced many reforms in railroad management, has done much to make the travel more comfortable, safer and cheaper, but there is much yet to be done, and as one of the losses which the long-suffering public is enduring with more or less impatience, pending some relief, we beg to suggest the sleeping car extortion.

From Holyhead, England, to London, you can ride in a sleeping car where you have a bedroom to yourself, a roomy berth, a comfortable berth over you, a chair, complete toilet accessories, seclusion, privacy and ease. And for all this you pay \$1.86. In this country traveling a similar distance you must pay \$2 or more for the privilege of undressing in public and retching in a self.

Approaching the accommodations on the Holyhead-London sleeping car you would pay in Canada for a similar distance about \$7. We recognize that the railway commission is very busy. It is not to be expected that it can do anything at once. Possibly, owing to the fact that the Pullman monopoly controls the sleeping car service on most Canadian lines, it can do nothing in this matter. But the situation certainly demands an effort.

"Before and After," Leo Ditrichstein's hilarious farce-comedy, which had a run of over 300 nights in New York, is booked for an early appearance at the Princess Theatre. The cast, which is said to be an unusually clever one, includes Mr. Ditrichstein, Edmund Elliot, Aubrey Beattie, John Arthur, Nellie Butler, Hazel Chapple and the well-known character actress, Kenyon Bishop.

B. C. Whitney's "Piff Puff Puff," a musical cocktail by Stange, Jerome and Schwartz, will open its season at the Grand Opera House the week of Sept. 2. Ben Grinnell, who has been a leading feature of the Hippodrome in New York for the past two seasons, has been engaged for the part of the Egyptian, and Miss Lulu McConnell will be retained in the part of "Dolly Dimple."

The Majestic Theatre, the home of melodrama, will open for the season on Saturday evening with a play of the people, entitled "Bertha, the Sewing-Machine Girl," an intensely interesting drama of modern times in four acts and twelve scenes. The play is full of exciting incidents and thrilling situations, while the stage pictures are unusually vivid. Among the scenes, the most striking are: The Grand Central Station, New York; Central Park; The "Sweat Shop"; The Mysterious Egyptian room; The Motor-boat Chase on the Harlem River; the Fire Engine House during an alarm, and the Great Fire Scene.

PIRATE HAD \$3,000,000 IN ST. LAWRENCE ISLAND. MONTREAL, Aug. 8.—One, Dillon, of Salem, Mass., is in the city after a trip along the north shore of the St. Lawrence where he has been trying to confirm a story of buried treasures. He says that one of Wolfe's naval officers, having married in Maine, returned to sea as a pirate.

Before going on what proved to be his last voyage he left a document stating that in a certain island in the St. Lawrence he had buried treasure worth \$3,000,000. Dillon says he is going to organize an expedition to recover the treasure.

"Before and After," Leo Ditrichstein's hilarious farce-comedy, which had a run of over 300 nights in New York, is booked for an early appearance at the Princess Theatre. The cast, which is said to be an unusually clever one, includes Mr. Ditrichstein, Edmund Elliot, Aubrey Beattie, John Arthur, Nellie Butler, Hazel Chapple and the well-known character actress, Kenyon Bishop.

B. C. Whitney's "Piff Puff Puff," a musical cocktail by Stange, Jerome and Schwartz, will open its season at the Grand Opera House the week of Sept. 2. Ben Grinnell, who has been a leading feature of the Hippodrome in New York for the past two seasons, has been engaged for the part of the Egyptian, and Miss Lulu McConnell will be retained in the part of "Dolly Dimple."

The Majestic Theatre, the home of melodrama, will open for the season on Saturday evening with a play of the people, entitled "Bertha, the Sewing-Machine Girl," an intensely interesting drama of modern times in four acts and twelve scenes. The play is full of exciting incidents and thrilling situations, while the stage pictures are unusually vivid. Among the scenes, the most striking are: The Grand Central Station, New York; Central Park; The "Sweat Shop"; The Mysterious Egyptian room; The Motor-boat Chase on the Harlem River; the Fire Engine House during an alarm, and the Great Fire Scene.

PIRATE HAD \$3,000,000 IN ST. LAWRENCE ISLAND. MONTREAL, Aug. 8.—One, Dillon, of Salem, Mass., is in the city after a trip along the north shore of the St. Lawrence where he has been trying to confirm a story of buried treasures. He says that one of Wolfe's naval officers, having married in Maine, returned to sea as a pirate.

Before going on what proved to be his last voyage he left a document stating that in a certain island in the St. Lawrence he had buried treasure worth \$3,000,000. Dillon says he is going to organize an expedition to recover the treasure.

Big Day for Goderich. GODERICH, Aug. 8.—Preparations are being made for a big celebration on Sept. 12th, when the Guelph and Goderich Railway will be formally opened. A big excursion is expected from Guelph.

An open air meeting in the afternoon and a banquet at night with addresses from prominent men, sports and music are on the program.

Top Violent Exercise. A number of small boys spent most of yesterday afternoon running all over the block on Nassau-street, as the in training for a Marathon. The exercise was too much for George Johnson, aged 10, and he collapsed on the sidewalk. A policeman carried him home and a doctor was called, who prescribed a rest.

ONLY 12 SICK IMMIGRANTS. Thos. Southworth, director of colonization, states that the department has been called upon to take care of only twelve sick immigrants this year. He believes a great deal of the ill-health of the new comers is due to overeating.

VOTE TO COBBOURG HORSE SHOW. The Ontario Government, at a council meeting yesterday, voted \$150 to the Cobourg horse show.

Collision Near Portland. PORTLAND, Ore., Aug. 8.—The Portland and San Francisco liner, City of San Francisco, collided to-day with and sank the steamer Alliance, from Cox's Bay for Portland, with passengers and freight. The collision occurred in a fog near the mouth of Willamette River. The passengers of the Alliance were brought to Portland.

Catholics Spread Temperance. CLEVELAND, Ohio, Aug. 8.—According to reports made at to-day's session of the Catholic Total Abstinence Union of America, the union now has 1000 branches and over 1,000,000 members. A lecture bureau will be established by the convention and the doctrine of temperance spread among Catholics in America.

Half Thousand Japs Departed. SAN FRANCISCO, Aug. 8.—Five hundred and six Japanese, the largest number ever departed from this coast, will leave on the steamer Manchuria, to-day.

Looking for Porto Rican. ST. CATHARINES, Aug. 8.—Chief Patrolman received a telegram from Supt. Regan of Buffalo, warning him to be on the lookout for a Porto Rican wanted for murder, who left Buffalo last night. He answered the description of the house thief whom Chief Patrolman had this morning before he eluded the police.

GALT "OLD BOYS" HAVE GREAT TIME

20,000 Pleasure Seekers Forgot to Sleep in Good Scotch Town.

GALT, Aug. 8.—Yesterday was the greatest day of demonstration ever witnessed in Galt. So said Citizen Simon Metcalfe to The World correspondent this morning. Citizen Metcalfe is an authority in such matters for he has been a moving and controlling spirit in the largest demonstration enterprises undertaken by this town. He was not "one of us" this time, it is to be regretted, but the circumstances enable him to speak his mind all the more unreservedly and not lay himself open to the imputation of "tooting his own horn."

Commemoration of the jubilee of the town under such good auspices, and being marked by features which do it infinite credit, the expectation naturally is indulged that the play of the Galt Old Boys will be quite as pleasurable and in all respects quite as commendable as the Galt Old Boys.

The immense gathering—it is figured, that ten thousand visitors, if not more, thronged the streets—behaved in a most orderly and unobtrusive manner. The police, Chief Gorman says, had literally nothing to do. Everything was manifestly livelier, and the enthusiasm knew no bounds.

At Scarborough Beach. The following program will be rendered by the Galt Old Boys at Scarborough Beach this afternoon and evening: Overture—March—The Galt Old Boys. The Galt Old Boys. The Galt Old Boys.

EXTRUDE BODY OF MINER STEVE ADAMS GAVE TIP

Man Had Been Murdered in June of '01—Weird Find at Telluride. TELLURIDE, Colo., Aug. 8.—What is said to be the skeleton of W. J. Barney, the timber man, employed on the Smuggler-Union Mine, who mysteriously disappeared in June, 1901, was exhumed yesterday near the Alta Mill by General Bulkley Wells, manager of the Smuggler-Union Mining Company and others. The body was found in an improvised grave, and its location, it is said, was pointed out by Steve Adams, now in jail in Idaho, awaiting a second trial for the charge of murder, which he was acquitted of in June, 1906, in the custody of Wells.

'ENRY MADE A HOLLER.

And P. C. Arrived in Time to Pinch His Lady Friend. Jennie Novel, 69 Princess-street, with "Henry Handerson of Amilton" sat out a promenade in Vina Johnston's back yard, which is located in the wilds of "the ward."

NO COMPLAINT YET.

No charge has yet been laid before the police commissioners against P. C. Rowland by Frank Pledger, 123 Montrose-avenue, as was directed in police court by Magistrate Kingsford, where Pledger swore that the constable endeavored to extort a dollar from him in connection with a police court prosecution.

THE SECRET OF PERFECT HEALTH.

It used to be the general idea that the cause of many ailments was a lack of food and staying well. Sellers of quack nostrums took advantage of this fact and grew rich. We are growing wiser, however, and know that good food, fresh air and cleanliness are all that are required for perfect health. Means that you must be clean inside as well as outside. If your kidneys, liver and bowels are not properly performing their functions, they are accumulating a mass of filth, as a result of your violation of some natural law, and you must cleanse the system. No necessity, however, to risk using some secret preparation. You can obtain a perfect compound of vegetable remedies, every one of which is endorsed by your physician. The formula of King Pimento Compound is printed plainly on the wrapper. No secret, no mystery, just plain common sense. King Pimento Compound will regulate the liver, bowels and kidneys, tone the system and prevent serious results which might arise from neglect. Give it a trial. Write for a free sample bottle to the King Pimento Company, Bridgeport, Ontario. Sold and guaranteed by Burgess Powell Co., 78 Yonge-street, Toronto.

Princeton Golf Team Wins Thirty-six-Hole Medal Match

Tournament Continues at Lambton in Ideal Weather—Miss Hoodless First in Handicap—Program for To-day.

The golf tournament was continued at Lambton yesterday in ideal weather. The 36-hole medal play team match was won by Princeton University. The result, tho to be regretted from a Canadian point of view, was received with general satisfaction, as this is the first time an American team has competed, and the committee members, E. D. Fraser and the club president, the Rev. J. W. West, of Princeton, are to be congratulated for their successful management of the tournament.

GRIMSBY PARK COTTAGERS CRAZED GRENADEER FIRES ON MYSTERIOUS CRAFT

William Rodwell Pours Lead Into Gasoline Launch and Shoots Up Simcoe Park.

"I was just going a little shooting; I'm sorry I gave you so much trouble," said William Rodwell, a painter, as he was brought into No. 4 police station, charged with shooting with intent to kill, after having "shot up" Simcoe Park, on the eastern sandbar, where he lives.

About 7 o'clock yesterday evening Rodwell, who is a member of "H.V." Co. of the Royal Grenadiers, had collected a jag. Securing his trusty rifle he went forth to shoot a few. He did not don his uniform, but, gathering a few cartridges, he sallied forth. He advanced in open order, one strong, to the bay front, where he ambushed himself and waited storming parties. None came.

There he took refuge in the reeds and awaited developments, while the sobering up process aided by a mental uneasiness, continued. F. C. Chapman of the morality department had been lying in the neighborhood and the shots had scared the fish. Therefore Chapman was angered and set forth in search of the man who had spoiled his sport. He found Rodwell hiding in the bushes. The whiskey had lost much of its effect and the dream was done.

MOORS LOOTING

Continued from Page 1. resumed and continued intermittently until the past six evenings. Offered to Surrender. "Then Muley Amin, with a number of other white-robed officials came to the French consulate and offered to surrender. The consul referred them to the French consul. They objected that it was impossible to approach the French consulate, as the Spanish consulate was already firing at the Moor who passed in the street, and the latter would be shot by the French consulate.

FLYNN'S DRIVE DID IT.

Toronto Ball Team Make Great Finish at Buffalo. BUFFALO, Aug. 8.—(Special.)—Just as was expected, Buffalo and Toronto opened up in sensational style, the game winding up in a 4 to 2 ten-inning tie. Just why it was called with an hour's daylight on hand is known only to Umpire Owens. That official made his decision unexpectedly and then made rapid tracks for the meal-house. The stopping of the contest angered both managers and the fans, for they were ready to have it out.

URGE FARMERS TO RUN BANKS OF THEIR OWN

American Society of Equity Plans Campaign of Education in Iowa to Finance Crops.

DES MOINES, Ia., Aug. 8.—Bankers throughout the west are united in their commendation of the plan which has been suggested by President J. A. Everett of the American Society of Equity, for the establishment of farmers' banks which would solve the great problem of financing the corn crop. They agree that the movement would make the grain-grower independent.

All that is needed, so leading bankers say, is a united effort on the part of the farmers. If they get together and act as one, they would be able to control crop marketing and put agriculture in a position of independence.

"As a banker I am in favor of financing the farmer all possible financial accommodation," said a man who controls a national bank in Central Iowa. "Take farmers' deposits out of the banks of the corn belt and a big hole would be made in their liabilities, and by the same token, they would have very little to operate on."

"President Everett of the American Society of Equity takes a position that deserves commendation from every banker in the country. As I take it, the society he represents does not want financial institutions toward the same financial institutions, but merely wants the same accommodation given the merchant and speculator that would seem to be reasonable."

"Money Accommodation. "An elevator operator has no trouble in using the grain in his possession as a means of raising money, and why should the farmer be handicapped in that manner? None of them want hogs or a crib full of corn ought to be a better security for the banker than a bundle of stocks, the value of which is liable to shrink anywhere from 10 to 50 per cent. in response to a bear raid in Wall-street."

"I do not know, but as a banker I would be justified in making advances on growing crops, the responsibility of the growing being of course a factor. The question of credit comes in here as everywhere else, but the point I am in their view, is that we are to stretch a point as long with the farmer as the merchant in town or the speculator. We had the surplus funds in the east at small interest rates when it ought to be employed to better advantage at home."

"Thoroughly a campaign of education is needed among country bankers, most of whom are well-intentioned if narrow in their views. A good deal of the servant Iowa farmer, there are two classes of rural bankers—the old fogy and the chance-taker. The latter is risky, the former a veritable brack on the wheel of progress."

"The old fogy banker is in a hopeless rut," he said. "He will lend money on a mortgage, but whenever he does any business locally it is on a pinch basis. When money is wanted put out in the neighborhood at excessive interest, he sends east to a low rate. Brough financial enterprise in Iowa and he is horrified."

"Not long ago I introduced the subject of putting a half-dollar minimum figure on the crop of Iowa, and refusing to sell a bushel at less than that figure, suggesting that local banks advance up to 50 interest rates when a crib to permit growers in need of money to pay their obligations in cash. He threw up his hands in agitated protest."

"They wouldn't stick together 30 days," he asserted. "You can't put a price on any commodity that is not in it was simply a case of prejudice with him, and yet 10 per cent. of the deposits in this bank were farmers' money."

"We have another class of bankers in Iowa, or had, for it is to be hoped meet of them have been weeded out. Refer to the high financier who organizes a bank, usually utilizing a few farmers as bait, accumulates deposits of considerable volume and proceeds on a get-rich-quick career by betting the money on long chances in the stock market or on the Chicago Board of Trade."

"Sometimes he appears as a land or mine boomer, but in most cases results are similar. When he reaches his string of banks, he closes and the farmers as bait, accumulates deposits of considerable volume and proceeds on a get-rich-quick career by betting the money on long chances in the stock market or on the Chicago Board of Trade."

"Land Only Safe Security. "At Wall Lake, Iowa, the other day, a Chicago man drove a car to the edge of a corn field, and escape and fertility of the soil, asked

One Child Cured of Summer Complaint and Six Cured of Cramps by Half a Bottle of DR. FOWLER'S EXTRACT OF WILD STRAWBERRY.

Mrs. Wm. Fawcett, Arthur, Ont., says: "I find it much pleasure to recommend Dr. Fowler's Extract of Wild Strawberry as a grand cure for Summer Complaint. My little boy, one year old, was very bad with it, and a few doses cured him. I also used it on my other six children for cramps, and still have half the bottle left. I cannot praise it too much."

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY is the greatest of all cures for all bowel complaints such as Diarrhoea, Dysentery, Colic, Summer Complaint, etc.

The new grandstand at the exhibition will be arranged so as to provide 10,000 seats, 4,000 for the day, 6,000 for the night, and 40 boxes for sale at \$1 each—the boxes will hold four people. Among the entries received at the exhibition offices is one from Sir Richard Cooper of England, consisting of sheep and swine. There are seventy sheep, including Cotswolds, Oxford, Southdowns, Dorsets, Lincoln and Hampshire; the swine are Berkshire.

A number of additional special prizes have been received at the exhibition offices for the dog show, among them are two medals for the best Boston Terrier, two silver service rings given by the British Bull Dog Club of England, five valuable trophies offered by the American Spaniel Club for cockers, and a prize given by the Irish Bull Dog Club for the best Irish setter bitch puppy, two trophies given by the Spaniel Breeders' Society of Philadelphia for the best cocker spaniel and the best sporting spaniel. Several cups by the Bull Dog Club of Canada for the best bull dogs of either sex, including the John W. Kent Cup, Toronto Challenge Cup, Glenworth Trophy, Vinemount Trophy and four silver medals.

It is more than probable that the famous grey horses owned by Ogden Armour of Chicago, that created a sensation at the recent international horse show in London, Eng., will be on view at the forthcoming Canadian National Exhibition. The Vanderbilt prize-winning horses being here.

Twenty Years Old. Only Two of Original Officers of A. and N. Veterans Survive.

To-day is the 20th anniversary of the formation of the Army and Navy Veterans' Association in Albert Hall, which was situated on Yonge-street, opposite Eaton's. John Nunn, the energetic secretary of the association, is also celebrating the 50th anniversary of his birth on August 9, 1857, Queen Victoria's golden jubilee year, a small party of veterans assembled in the hall to form an association with the following officers: President, John Nunn, 16th Bedfordshire; Vice-President, John W. Brown, Royal Engineers; Secretary, F. J. Robertson, 1st Royal Scots; Treasurer, Sgt.-Major Geo. Cook, Royal Artillery; Trustee, Geo. Ford, Royal Navy; Malcolm McFarlane, 4th Royal Artillery; Col.-Sergeant Wm. Dunn, 30th; Auditors, Wm. H. Shaw, 30th; Col. Sgt. H. Shaw, 30th; Inside sentry, Wm. Miles; Outside sentry, Alex. Watson, 1st Highlanders. Most of the officers, including John Nunn and F. J. Robertson survive.

MEMORIAL TO QUEEN. Canada's Contribution to National Monument is in Place.

(Canadian Associated Press Cable.) LONDON, Aug. 8.—The beautiful wrought iron gates for St. James' Park, which are Canada's contribution to the national memorial to Victoria, are now erected.

LOGS AND PULPWOOD. OTTAWA, Aug. 8.—(Special.)—Sawmill men on the Ottawa, between Pembroke and Hawkesbury, complain of the action of John R. Booth in filling the Ottawa River with a three-year supply of logs and pulpwood in advance of his requirements. The Upper Ottawa Improvement Co., an association of lumbermen who drive, tow and distribute the logs to the different mill owners, say that owing to the crowding of the river by Booth's lumber they cannot distribute the logs fast enough to keep the other mills going. The greatest sufferers are the Ottawa Lumber Co. at Pembroke, Hawkesbury Lumber Co. at Hawkesbury and R. and T. Ritchie of Aylmer, East. The Improvement Company has decided to charge rent for logs that are now filling the bays of the Ottawa river. Booth takes his logs faster than he has been doing or curtailing his supply. The complainants have been obliged to either shut down or run on half time, and consequently feel much aggrieved and talk of seeking legislation to remedy the evil.

Foot Severed by Engine. ST. CATHARINES, Aug. 8.—(Special.)—A young Englishman, Thomas Bainbridge, Mimico, was seriously injured by being struck by a G.T.R. engine in Merritt yards shortly after 10 o'clock to-day. He was switching 15' o'clock to-day. He was switching and slipping in front of the engine, when he was struck and his foot was severed and some deep wounds inflicted on his head.

Heavy Storm Near Kingston. KINGSTON, Aug. 8.—(Special.)—The district yesterday has been coming in all day, and show that it was much more extended and disastrous than at first expected. No frost, but rain, and burns and sheds are known to have been burned in the country. The farms destroyed belonged to J. Freeman of Hartington; Frank Clark of Collingwood, and Mr. Day of Lobero. A cow was killed and a schoolhouse burned. For a district ten miles in length and several in width, much damage was done to the crops.

WILL PROSECUTE G.T.R. FOR WORK ON SUNDAY

Company Operated a Gravel Train, and Alliance Reported It to Attorney-General.

A deputation consisting of Rev. J. G. Shearer and Rev. T. Albert Moore, from the Lord's Day Alliance, had a consultation with Attorney-General Foy yesterday. Rev. Mr. Shearer taking attention to the Grand Trunk taking a trainload of gravel from Dundas to Port Credit on Sunday, July 21, and hiring 30 laborers to unload it.

Mr. Foy told the deputation that cases would be taken against the Grand Trunk. It was also alleged that some of the cement mills have been digging marl rock on Sunday. That this work was not a necessity was shown by the fact that three mills in Owen Sound close down every day on Sunday except the rotary engines.

Frequently when a salesman for Business Systems, Limited, installs a new system for accounting in a large commercial house, he is asked if he can recommend a man who is capable of taking charge of the work.

Right now, if they had them, Business Systems, Limited, could place some men at \$2000 a year; but it is a pretty risky thing to recommend a man for such a position without being thoroughly conversant with his capabilities.

The directors of Business Systems, Limited, have therefore, caused to be started, under the title of Business Systems Commercial School, an up-to-the-times training school where education for real business is given.

Business Systems Commercial School is entirely different from the ordinary "business" college—no student will be permitted to graduate unless he is really capable when he enters a business house, of stepping right in and taking hold in a practical manner.

That, in a nutshell, is the foundation upon which Business Systems Commercial School rests.

Business Systems Commercial School, not confined to the forms manufactured by Business Systems, Limited, includes all modern methods of accounting. The work taught consists of the methods adopted by the largest commercial houses, goes thoroughly into the practical details, and, in the more advanced courses, includes Commercial Law and modern banking.

No teachers will be employed who have not had actual business experience, and both retail and wholesale methods will be taught. For students who already occupy positions and who are desirous of bettering themselves, there will be special night courses.

Frequently when a salesman for Business Systems, Limited, installs a new system for accounting in a large commercial house, he is asked if he can recommend a man who is capable of taking charge of the work.

Right now, if they had them, Business Systems, Limited, could place some men at \$2000 a year; but it is a pretty risky thing to recommend a man for such a position without being thoroughly conversant with his capabilities.

The directors of Business Systems, Limited, have therefore, caused to be started, under the title of Business Systems Commercial School, an up-to-the-times training school where education for real business is given.

Business Systems Commercial School is entirely different from the ordinary "business" college—no student will be permitted to graduate unless he is really capable when he enters a business house, of stepping right in and taking hold in a practical manner.

That, in a nutshell, is the foundation upon which Business Systems Commercial School rests.

# SPECIAL FARMING & LIVE STOCK EDITION

## WANT MORE STORAGE.

From the Maritime Provinces comes the information that the storage of this season's potato yield is a matter of more than ordinary concern. The potato crop down east has proved a most remunerative one the last few years, largely because of the unfavorable character of the crop in Ontario. Imports of the tuber from the Maritime Provinces have become a regular trade development and to meet this the New Brunswick farmer has extended his acreage to a large extent. This year's crop is expected to prove a bumper, so much so that the proper housing of the yield has demanded the attention of politicians and the government is being requested to furnish storage capacity. If this is not forthcoming, and present indications are that the season is too far advanced to admit of the provision, a species of forced sale in the early part of the fall is altogether possible. Competition of this kind will not be appreciated by the Ontario farmer, as the tendency will be to flood the domestic market for awhile.

## MONEY AND CROP PRICES.

There are two prominent determining factors that will govern the prices of farm products this year. The one, a highly important one, is the strained condition of credit. A world-wide money stringency is being experienced, relief from which can only be obtained by an increase in the purchasing power of gold and a consequent depreciation in all articles of commerce. The evolution of the value of money is already noticed in several staple commodities. For instance, wool is materially lower than a year ago; the same may be said of hides. The steepest change in the price of commodities is that which has occurred in copper, this being equal to nearly 25 per cent. of a loss in less than three months. The contest between money and prices will center in those portions of the crop which are estimated as promising a shortage. In the cereals wheat and oats are far from being the plentiful yields of last year. The world's crop of wheat, according to the best statisticians, will be 436,000,000 bushels short of the year 1906. Oats on the North American Continent are with few exceptions a light crop, and the yield in the United States is placed at over 100,000,000 bushels less than last year. With such well defined shortages as this, the firmness of the prices of these two grains at the commencement of a crop season are not to be wondered at. The question of demand will for the time being be under the influence of the ability to purchase, but the inadequate or short supply will have an important bearing on fixing a basis of value.

## SHORT BARLEY CROP.

Only One Quarter the Usual Supply of Barley Twine Used.

As an instance of the shortage of crops this season, at least in the vicinity of Orangeville, Mark Hannah of the Toronto Board of Trade received a letter yesterday, stating that a farmer who came to his company's Orangeville warehouse, said that one ball of twine was sufficient for cutting eight acres of barley, while an ordinary crop would require fully four balls of twine.

## A GOOD AVERAGE.

Under date of Aug. 8, John Elliott of Agincourt, Scarborough Township, writes The World: The hay crop has all been gathered in this locality, and has proved to be almost an average crop. The weather that has prevailed during the last three weeks has been very favorable to the barley and oat crops, and fall wheat are nearly all cut, and the oats are turning very fast. The green buds and the rust have proved very injurious to the oat crop. The potato blight has again made its appearance among the early varieties. The vines are turning brown and are dying off before the tubers have attained their growth.

## Conveniences in Farm Homes.

One of the strongest objections to country life by those who live in cities is that the conveniences of the farm are few and that the work of the housewife is made a much greater hardship than it is in the cities. This is as a rule the case. The ordinary farm home has not the labor-lightening improvements of the city home. There is no plumbing in the house by which the luxury of a bathroom can be had, no running water, no sewerage system, heating is done by stoves, instead of furnaces, and the whole plan of the house is to increase the steps of the good housewife rather than to lessen them.

Now this is not as it should be. The farmer and his wife should have as many of the luxuries of life as may be possible, and it is possible to arrange the house of the farm so that many of the necessities of the city home may be had. The modern farm homes are usually better equipped than are those of several years ago. This is by reason that farmers are beginning to understand the possibilities of improvement. The cost is not always great for installing these things, and several things may be considered, all depending upon conditions and the natural location.

The water supply of the farm home is one of the important things to look after, as much of the health of the family depends upon the water they drink. The disposal of sewage is of equal importance, as thru this means often dangerous diseases are spread.

## Agree to Two-Cent Rate.

LANSING, Mich., Aug. 7.—The State Railroad Commissioners have received word from the Lake Shore, Michigan Central, Wabash and Big Four railroads that they will comply with the new 2-cent fare law, which goes into effect Sept. 17.

## THE FARMSTEAD

Good harvest weather.

The hay crop has been a welcome surprise.

It was better than we thought, it's generally that way.

Now the crop is cut, is the mower stowed away?

This does not seem to be a big raspberry year.

Keep the young calves growing well. They are revenue producers.

Back to the farm, to the old haunts, the woods and the fields.

The farmers are prosperous.

This has been a great year for new bank barns in York County.

Don't forget the Ontario Vegetable Growers' Association's excursion to Hamilton on Thursday, August 15. They'll be there from all over. Picnics will be Mount Pleasant Park.

When pigs, young or old, are allowed to run at large, they should be well ringed. Nothing is more untidy looking than a lane or pasture field all rooted up.

Reports from all over the province seem to indicate that it is going to be a good apple year.

Huron County alone, it is said, will produce 250,000 barrels of apples.

Even if the small fruits are picked, don't let the worms strip the currant or gooseberry bushes. 'Twill tell next year.

The farmer who has a stream, however small, running thru his pasture and woodland these days is doubly blessed.

George Robb of the 8th concession of Markham Township scored 22 out of a possible 100 in the government test for best field of wheat. J. W. Cowie of Louist Hill was a good second with 91.

The Spies, Ben Davies, Baldwins and Russets will be a heavy crop. There's none better.

## Change of Managers.

LONDON, Ont., Aug. 8.—J. E. McConnell, who is at present manager of the advertising department of the McClary Manufacturing Co., severs his connection with that company in the near future, and will be more actively connected with the advertising agency of the McConnell-Ferguson Co., whose business has grown so rapidly as to require the entire time of Mr. McConnell.

The position of advertising manager for the McClary Manufacturing Co. will be filled by A. Briggs, who has been connected for some years with the practical, printing, advertising and literary branches of several of the leading journals of Toronto.

## Moved Just in Time.

BROCKVILLE, Aug. 8.—Fred Loomis, who lives with James Baker in Dexter, made a lucky move between 4 and 5 o'clock yesterday morning when he concluded it was time for him to get out of bed and go downstairs. A few minutes later Loomis' bed was struck, a small portion of the roof torn off, and the rafters and attic floor shattered.

## Barns Consumed.

BROCKVILLE, Aug. 8.—(Special)—The barns and other outbuildings of John Ferguson of the Township of Wolford were struck by lightning and destroyed with fifteen loads of hay and several farming implements. Insurance \$1000. Loss in excess.

## OUTLOOK IS PROMISING

York County Farmers Reaping Good Harvest—Dairy Interests Likely to Suffer—Good Year for Corn.

Crop conditions thruout the length and breadth of York County are of a character varied at the present time as to render any attempt at a general estimate extremely difficult. From the waters of Lake Ontario to Lake Simcoe, and bounded by the Counties of Peel and Ontario, lies a magnificent stretch of country unsurpassed, if equaled in the Province of Ontario.

The crop conditions obtaining over this section constitute an important factor in the progress of the city.

On Wednesday The World was fortunate meeting with a number of agriculturists prominent in their chosen avocations and their views given regarding the outlook in general will be read with interest. It is refreshing in the outset to know that in every instance a more optimistic feeling prevails than obtained earlier in the season, showing that conditions have improved.

"We certainly have no ground for complaint," said Warden Seneca Baker of Whitechurch Township. "The heavy crop improved wonderfully to the end of the season, and we thought early in the season we would have little or nothing we had a little less than a medium crop, but the wheat yield is the very best of hay," said the warden. Oats will be lighter than usual, barley an average crop, peas extra good and the root crop very promising, and the potatoes especially so. Corn is splendid. Straw will be short, but the yield of grain will probably be excellent.

Reeve Thomas Legge of King Township places the oat crop at one-third less than last year, but the wheat yield and acreage is variable—in some districts magnificent fields are seen, while at nearby points these conditions are exactly reversed. Barley half a crop, running from 25 to 30 bushels an acre; oats poor, and mixed grain, such as peas, barley, wheat and peas, are in some cases doing well, and in others are almost a failure. The mortality is generally attributed to "honey dew," the exact nature of which is not known. Some bee-keepers attribute it to insects, while others regard it as a variety of nature. The business is getting more and more into the hands of experts," said Mr. Evans, "and the price threatens to go sky-high, selling at 11c a pound in top lots, with great difficulty in executing orders at that figure."

Deputy Reeve John Watson of York Township, a good type of farmer, is among the fortunate one in owning a fine field of wheat. Mr. Watson cut a 25-acre field of fall wheat, which he says is equal to the best ever harvested. Long, clean and thick on the ground, with plump, well-filled heads of the "Clawson" variety, the crop stood up very thickly on the ground. Mr. Watson reports his hay as excellent, and the other grains, with the exception of oats, are being good years. Turnips were a failure, but other roots promise well.

Thru Scarborough, Markham and away up the Stark, Telephone, Light & Power System, the crop conditions are for the most part fair. Harvesting will cost less in time and labor than in years past, and the quality of straw will, it is hoped, be largely offset by the fine quality of grain.

In any event, with the largely enhanced receipts of the past few days, coupled with the thrift and good management characteristic of the average York County farmer, there is no cause for other than the greatest hopefulness.

Reeve W. H. Pugsley of Richmond Hill, who has large interests in the northern part of the county, and is deeply interested in the cattle industry, was optimistic over the outlook. Pugsley stated that he had a splendid crop of barley; peas, after repeated years of almost comparative failure, are coming back all right and promise well. On Georgian Island, where Mr. Pugsley has a large herd of young cattle pasturing, he reports the outlook as good. "No cause for anxiety," said the reeve, who is the very embodiment of good nature.

Few men in York County are better qualified to give an expert opinion on the general condition of the gardening and apary interests than Reeve J. D. Evans of Etobicoke Township. Mr. Evans is deeply interested in the honey industry, which, in the central portion of Ontario and in York County, is in an indifferent condition.

"One half of the honey bees died during the past winter," said Mr. Evans, "and those that are left are in some cases doing well and in others are almost a failure. The mortality is generally attributed to 'honey dew,' the exact nature of which is not known. Some bee-keepers attribute it to insects, while others regard it as a variety of nature. The business is getting more and more into the hands of experts," said Mr. Evans, "and the price threatens to go sky-high, selling at 11c a pound in top lots, with great difficulty in executing orders at that figure."

## NEW WORLD'S MILE RECORD.

Leland in a Stearns Finishes Time Trial in 44 Seconds.

At Atlantic City, Frank Leland, driving a sixty horse-power Stearns, lowered the world's record for touring cars at the Ventnor Beach course last week. In a spectacular drive against time he sent his car over the mile in 44 seconds flat. The former record was made last year over the same course by the late Tom Cooper, in a Matheson car. His time was 50 1/2 seconds, but he carried seven passengers, while no one rode in the car with Leland.

Interest in the events upon the program centred upon the free for all championship to lower the record of 24 seconds now held by Walter Christie. In this race, Montague Roberts, driving a one hundred and twenty horse-power Thomas, flew over the mile in 40 1/2 seconds, the best time of the day. The forty-five horse-power Stearns was a close second, at 41 1/2 seconds. The other feature of the day was the 110 class handicap, won by Guy Vaughan, in his Stearns, who nosed out the Stanley steamer in 1:07 1/2.

Better weather, a faster course and more spectacular finishes featured the program, and in comparison with yesterday's race, the gratifying absence of protests and no disqualifications in the light car class. The thirty-five horse-power Oldsmobile again distinguished itself, and a forty horse-power Thomas won its event from a good field. In the gentleman's roadster handicap, Mr. Campbell refused, point blank, or the floor of the legislature, two sessions ago, even to permit a committee of the legislature to enquire into the workings of the Beer Trust, and it was only at the request of the Alberta Government that Manitoba beer appointed a member of the beer commission, now taking evidence.

## CORONATION NOT OBSERVED

Pope Calls Off Reception Fearing Cardinals Might Fear Trouble.

ROME, Aug. 8.—The Pope to-day countermanded all the receptions planned in honor of the anniversary of his coronation, fearing that the cardinals might be insulted in the streets while on their way to and from the Vatican.

Leaves \$220,000.

CHARLOTTETOWN, P.E.I., Aug. 8.—The will of the late John Ings disposes of an estate valued at over \$220,000. It includes real estate, \$25,000; mortgages, judgments and other loans, \$100,000. The sum of \$1000 is bequeathed to St. Paul's Church, \$500 to St. Paul's Sunday School, \$500 to the Prince Edward Island Hospital.

## BREVITIES.

Former Governor Jos. Johnston of Alabama has been elected to the U. S. senate to fill the place of the late Senator Pettus.

Prof. Osler, speaking at the School of Hygiene conference, emphasized the prevalence of mouth-breathing and decayed teeth, and advocated greater medical supervision of children.

E. H. Keating has issued a writ against the Stark Telephone, Light & Power System to recover \$800, the amount of several promissory notes. The Stark Telephone, Light & Power System, a medicine manufacturing firm, sued C. B. Graham for damages for alleged selling of a substitute remedy of the same name.

A horse fell into the trench made by the city engineer, the day yesterday, and was lifted out by means of a derrick.

## THE SLEEPING CAR GRAFT.

Winnipeg Tribune, Aug. 5: The announcement made by Attorney-General Cross of Alberta—that he will at once proceed to prosecute members of the Alberta Lumber Dealers' Association for conspiring in restraint of trade—makes a pleasing contrast when the inactivity of Attorney-General Campbell of Manitoba is considered.

Mr. Campbell refused, point blank, or the floor of the legislature, two sessions ago, even to permit a committee of the legislature to enquire into the workings of the Beer Trust, and it was only at the request of the Alberta Government that Manitoba beer appointed a member of the beer commission, now taking evidence.

## CONTRIBUTION TO THE SHORTHORN.

It is well to consider for a moment what a good Shorthorn cow can do. She can, at or about two years of age, produce a calf and give a larger quantity of rich milk than any other general purpose pure-bred cow of the same age. She can, under ordinary treatment, go on from year to year producing a valuable calf and milking deeply for nine or ten months out of the twelve. During the two months she is dry she can, under a sensible system of management, quickly set up a condition

LIQUIDATION CEASES AFTER THE USUAL DRIVE

Wall Street Washes Down Prices, Then Proceeds to New Business—Locals Heavy.

World Office. Thursday, Evening, Aug. 8. Pressure on securities was carried further in today's local stock market, but the issues under influence were those whose value is purely problematical and whose assets are represented mainly by franchises by no means guaranteed...

increases of \$18,077,500 in imports, and \$24,947,000 in exports. The principal increases in imports were \$10,000,000 in raw material, and \$5,000,000 in food and manufactured articles, and \$5,000,000 in coal.

Railroad Earnings.

D.S.S.A. 4th week, July 1907, \$38,000,000. "So." 4th week, July 1907, 17,000. New York Central Railroad Co. reports for quarter ended June last a surplus after all charges and the quarter's dividend of \$4,324, as compared with a deficit of \$2,459,887 in the first quarter of the year. For the first six months of the year a deficit after charges and dividends of \$2,418,236 is shown, an increase of \$2,974,700 over the same period of last year.

Arrangements have been made by W. R. Houston to take over Verney's Monthly, and hereafter subscribers to that publication will receive The Bank Directory of Canada. Verney has served the banking interests of Canada for the past fifteen years, and his liquidation has been a matter of regret to many of his subscribers.

Bank of England Statement. LONDON, Aug. 8.—The Bank of England's statement shows the following: Total reserve, decreased, £71,000,000. Circulation, decreased, £9,000,000. Bullion, decreased, £1,000,000. Other deposits, decreased, £7,000,000. Demand deposits, increased, £48,000,000. Notes in circulation, decreased, £2,100,000. Notes reserved, decreased, £70,000,000. Govt. securities, decreased, £400,000. The proportion of the bank's reserve to liability this week is 46.50 per cent, compared with 46.74 per cent. last week.

Local Bank Clearings. Clearings of Toronto banks for the week ended to-day, with comparisons: This week, \$20,662,150. Last week, 20,220,119. Year ago, 18,888,602. Two years ago, 16,748,308.

On Wall Street. Charles Head & Co. to R. R. Bondgard: Trading in stock market to-day was marked by extreme feverishness and irregularity, but more resistance to pressure was shown for a week past, and after some wide swings during the first hour the dealings quieted down and a steady one developed, among the larger stocks were through over in the early dealings, forcing quick declines on the latter side of the market.

Bank of England rate unchanged at 4 per cent. Bond dealers consider New York market is making a mistake in offering bonds for private purchases at present.

Disturbed money market conditions abroad principal influence in weakness of consols. Thirty-two roads for fourth week July show average gross increase 12.40 per cent.

Banks gained \$1,400,000 from sub-treasury since Friday. New York.—All grades of copper were again reduced 1-16 all around, at the Metal Exchange rates, making Lake 19 1/4 to 20 1/4. Electrolytic, 18 3/4 to 19 1/4, and Castings, 18 1/4 to 18 3/4.

Joseph says.—Pacific shares are ridiculously cheap. Buy for quick profits. Specialties in copper making Oil. Buy Distillers around 60. Average Steels.

Chas. Head & Co. to R. R. Bondgard: I think a good deal of liquidation was accomplished to-day, but margin calls to-night will cause further weakness in the morning. The decline has reached a point, however, where strong support is not necessary to prevent absolute demoralization, and I think such support may be expected to-morrow. It is a tough market to judge, but after such extensive and sharp declines we ought to have a fair rally, although stocks will be sold on all favorable opportunities.

NEW YORK, Aug. 8.—Some support now appears in Amalgamated Copper around 75. Support is not definite in Smelting yet, nor in Sugar. Atchison is supported around 86 as expected. B.R.T. had good support in making St. Paul, Great Northern preferred, Northern Pacific and Southern Pacific. We would buy them on all breakers confidently now. Union Pacific is temporarily held around 130. Steel has no special support at yet. All these stocks are sold by professionals on rallies now because of the withdrawal of support during the lull yesterday morning.—New York Financial.

Dividend Now Regular. NEW YORK, Aug. 8.—The directors of the Union Pacific Railroad Company declared a regular quarterly dividend of 2 1/2 per cent. on the common stock this afternoon. The last dividend amounted to 2 1/2 per cent., but was not designated as regular at that time. The directors also declared the regular semi-annual dividend of 2 per cent. on the preferred stock.

Dividend Now Regular. LONDON, Aug. 8.—The July statement of the Board of Trade shows in-

and investment buying helped to turn the tide in the face of the interview given out by the attorney-general in regard to the trusts.

The outlook this week favors a fairly general rise in the market. The interior seems by exchange rates to be drawing away some funds, the treasury operations are favoring the banks. The liquidation of the pools will of course work out for a reduction in the loan account. Amalgamated Copper has declined about as much as Union Pacific and has more than discounted any prices liable to be made by the metal. There are many favorable factors in the situation, notwithstanding the bearish feeling prevailing in the street at this time. There is no reason to expect that the slight recession that is noticeable in some lines of business will develop into anything of a serious nature. The indications are that we shall this year raise rates of interest on deposits from date of deposit and credited quarterly.

A. O. Brown & Co. to J. Lorne Campbell: The opening was generally lower and immediate liquidation followed a sharp decline in the entire list, under pressure of very heavy selling orders. The declaration of a dividend by Amalgamated Copper has had a decidedly reassuring effect. Call money was firmer early in the day and it looks as if the necessity of liquidation is about completed.

Money Markets. Bank of England discount rate is 4 per cent. Money, 2 1/2 per cent. Short bills, 3 1/2 to 4 per cent. Three-month bills, 3 1/2 to 4 per cent. New York call money, highest 5 per cent., lowest 4 1/2 per cent., last 4 1/2 per cent. Government, highest 3 1/2 per cent., lowest 2 1/2 per cent., last 2 1/2 per cent. Call money at Toronto, 5 to 7 per cent.

Foreign Exchange. A. J. Glazebrook, James Building (Tel. Main 123), to-day reports exchange rates as follows: Between Banks and Counter. N. Y. Funds, par. 1-32 premium, 1/4 to 1/2. Montreal funds, par. 1/4 to 1/2. 60 day sight, 1-16 to 1-8. Demand, 1/4 to 1/2. Cable trans., 1/4 to 1/2. New York Govt. securities, decreased, 400. Sterling, 90 days sight, 48 1/2. Demand, 48 1/2.

Price of Silver. Bar silver in London, 64 1/2 per oz. Bar silver in New York, 64 1/2 per oz. Mexican dollars, 64 1/2.

#### VOLUNTEER FIREMEN MAKE GREAT SHOWING

Weston Couple Will Hold Silver Wedding—Board of Health Meets in Junction.

It is just coming near enough to the end of the summer season to induce us to take down the prices for summer straws.

There is no place in Canada where a more complete stock of Men's Hats may be seen. We have every variety in English and American Straws and Panamas.

From now on, One-Third Off Men's Straw Hats.

Particularly we invite consideration of our Panama Hats. They are the genuine article, and good for years of stylish wear.

#### FIREMEN STOOD GUARD WHILE CITIZENS WORKED

Thorold People Have a Little Brush With the Electric Railway.

ST. CATHARINES, Aug. 8.—(Special.)—There were things at Thorold, between 2 and 4 o'clock this morning, which had a striking resemblance to a miniature war. Thorold, the town, and the Niagara-St. Catharines Railway Co. have had several law suits recently and feeling between the corporations has been quite bitter.

Not long ago the town began the installation of waterworks and the council decided to lay a main beneath the trestle to the building, which will be used as a pumping station. This did not suit the company, but a large gang of men was put to work digging trenches.

About 1 o'clock this morning Roadmaster Carriand and a force of several dozen Italians departed on a flat car for the scene of the work. Plans had been quietly made and made upon the arrival of the Italians they were to fill in the trench with concrete work. They proceeded without interruption while the citizens slept soundly.

Night Watchman Jacob Heuter was about to enter the electric light station when his attention was attracted by the large gang of men. He ran to the fire hall, sounded the fire alarm, and within a short space of time a large number of citizens had collected.

In the meantime the company's gang had completed its labors and had made a hasty retreat. Thorold firemen were at the Walkerville tournament and had not returned, but the citizens manned the engine and the trench was flooded to keep the concrete wet while the Italians employed by the town waterworks and the contractors were hurriedly awakened.

This force rushed with pick and shovel to the trench and the fast hardening cement was removed. Citizens firemen then mounted guard over the work, and then the red coats assumed control and kept three lines of hose in readiness to repel any attacks by the railway gang.

The company claims to have a deed to the right of way and claims the town is trespassing upon its property.

UP TO THE COMMISSIONERS. Controllers Will Not Mediate Between Labor Day Paraders and St. Ry. A decision to allow the police commissioners to deal entirely with arrangements for smoothing over prospective differences between the Labor Day paraders and the street railway was reached by the board of control yesterday.

The mayor remarked that it would be impossible for the street cars and procession to move side by side, and that the deputy chief had promised him he would see the labor committee on the matter.

Job Was Too Heavy. Contractor E. L. Fild, who had the job of moving the old fruit building on the exhibition grounds to a site in the rear of the grand stand, has given up the undertaking after getting the structure as far as the roadway. Commissioner Chambers says the contractor will get not a cent of the \$500, at which figure the removal was contracted for.

MEAT COVERS WANLESS & CO. 105 YONGE STREET Established 1850

TORONTO JUNCTION, Aug. 8.—A Toronto woman, Mrs. Janet Tulloch, paid a visit to the Junction last night, was entertained later at police headquarters and was introduced to Police Magistrate Ellis this morning in his official capacity. She was fined \$2 and costs or 30 days in jail for being drunk and disorderly. She accepted the latter conditions, and was taken over the Don.

George Somerville, 16 years, was arrested on a charge of indecent assault on Henry Acetee, a boy 8 years old. They were both remanded to the Children's Shelter Tuesday.

The board of trustees of the Annette-street Methodist Church will meet in a special session Tuesday for the letting of contracts for the new church.

At the meeting of the board of health to-night, Mr. Hartney was chairman, and the members present were W. Ford, Chas. Topping, C. Woodburn, Sanitary Inspector Ward, and Dr. Hopkins, the medical health officer.

Sanitary Inspector Ward handed in his resignation to take effect Monday. He afterwards agreed to postpone the resignation to take effect Sept. 1. Mr. Ward was asked at the last council meeting to deliver the tax bills this season and was voted \$10 for this work. To-night he informed the board of health that he would attend to these extra duties, and also that since his application at the meeting of the executive committee for a raise of salary has been ignored, he would tender his resignation, as he considered his present salary of \$400 per year totally insufficient for him to live on in the Junction at the present time.

Mayor Baird said that he was afraid his salary could not be raised at this time, now that the rates and estimates are struck for the year, but on the motion of Chas. Topping, seconded by C. Woodburn, it was decided not to accept the resignation, as Mr. Ward's services were entirely satisfactory, and especially necessary at this time of the year. The matter was, therefore, referred to the council for consideration at the regular meeting next Monday evening. Mayor Baird stated that he has been annoyed of late by repeated complaints from Junction people about the condition of some of the back lanes. "I'm not the medical health department," he said, "but they should attend to these matters."

In the July report of the medical health officer the chairman of the board of health were congratulated on the immunity of the town from infectious diseases, there being only three cases of scarlet fever and two of diphtheria during the month. This immunity was the direct result of quarantine, as in the case had infection been introduced from contact with neighbors. Dr. Hopkins said he could not speak too highly of the work of the health inspector, who insists on the regular disinfection and cleansing, before presenting a clean bill of health. Dr. Hopkins especially urged the importance and benefits of vaccination, now that smallpox is so prevalent, and stated that he was confident that not 5 per cent of the infants under one year are vaccinated.

Complaints were laid by the medical health officer and inspector against the owner of a house on Pelham-avenue, which is unsanitary, and three houses on Hoskin-avenue, which are in the same condition. Dr. Hopkins said these houses are owned by Toronto people, who pay no attention to the health of the city. The report also contained complaints that the town council ignores the board of health's petition for enforcement of sewer connections, and the petitions are shelved from year to year.

BEFORE MAGISTRATE ELLIS. In the old courthouse on Thursday morning, Police Magistrate Ellis heard a case of alleged wife-beating preferred against William McIntosh, which incidentally roused the righteous indignation of his shirt and every other man in the courtroom.

On Friday, Aug. 4, according to Mrs. McIntosh's testimony, her husband, under the plea that his child needed exercise, ordered the little one to run around. On the little one demurring, the father took a heavy riding whip and whipped it over the back and shoulders.

Mrs. McIntosh also testified that her husband had ill-treated her on Sunday. Acting County Attorney Monahan held up the whip, which the woman stated was the one used. When she showed an evident disinclination to answer, Mr. Monahan asked her if she had been approached by anyone with a view to pleading on behalf of her husband.

Witness admitted the fact, and stated that it was one of the jail guards. "A most unheard of proceeding," said Mr. Ellis.

The magistrate ordered the child's back to be shown him, which still bears marks of the cruel treatment.

The prisoner pleaded for clemency, and stated that the governor of the jail had said he would come over to see the child, and that the latter expressed no more surprise.

Mrs. McIntosh pleaded for her husband, but Magistrate Ellis said "I'll commit you to the Central Prison for a year on the charge of assaulting your wife, and to six months for beating your child, the terms to run concurrently."

last Wednesday, returned home with his bride. The Rev. A. Stewart of Rochester, will preach both morning and evening at the Church of Christ next Sunday.

George Bedford went to Schenectady, N.Y., to-day to bring the body of his brother, Melville, home for burial. He ceased was drowned and will be buried to-morrow (Friday) at Prospect Cemetery. He leaves his father and mother and brother George, of Wychwood, two sisters, Ida of Washington, D.C. and Bertha, of Brooklyn; also three brothers, Secord and Herbert of London, Ont., and Wm. J. of Grand Rapids.

Arthur Cook sold his real estate on Kentworth-avenue and went to Buffalo to reside.

EAST TORONTO. EAST TORONTO, Aug. 8.—Shortly after 12 o'clock to-day fire broke out at the residence occupied by Jacob Weyer, 278 Gerrard-street, East Toronto, and only the prompt action of the fire brigades of Nos. 2 station, under charge of Chief Elliot, prevented a serious conflagration.

When the flames were first noticed they had eaten their way into the kitchen stove, and with a strong east wind fanning the fire the situation looked serious.

No. 2 company were on the spot in eight minutes from the time the alarm was given, and by the time the firemen from No. 3, who were also summoned, had arrived, the flames were under control. The fire, in which the first started is one of a row of six, separated from each other by less than eight feet.

The damage will amount to about \$300. The time made, considering the distance the firemen were and the difficulties, is exceptionally good, and reflects the highest credit on the volunteer brigade of the town.

A furious runaway on Main-street this afternoon, and one which caused the few who saw it to stand transfixed with fear, was the work of the big team of Chapman & Newman, brick manufacturers, dashed along Main-street and on to the grounds of Dr. Walters, stopping at the corner of a lady and two children, who were seated on the lawn.

The driver had left them standing in front of the Y.M.C.A. Hall, while he went inside for a moment.

During his absence a Gerrard and Main-street car came in, causing the team to take fright.

They ran over the G.T.R. bridge, and the speed at which they were going when they reached the corner of Main-street and Danforth-avenue caused them to cut the corner, overturn the wagon, the horses running, one on either side of a maple tree, measuring from 5 to 6 inches in diameter, and ending it over and bringing the wagon to a full stop.

Mrs. Perkins and the two children, who were seated on the lawn, were greatly startled, but were altogether unharmed. The horses, beyond a few scratches, were uninjured.

The last quitting tournament held at the White House grounds gave these scores: Blaylock 31, W. Toms 21, A. Blaylock 20, A. White 19, and E. Toms 19.

Editor Macdonald of the Standard, and one of the best known journalists in the country, celebrated his 57th birthday yesterday. Many returns, John F. Ross of the Beach, and one of the best all round sports in town, stands well in the trap shooting contest now in progress on the grounds of the Stanley Club.

NORWAY. NORWAY, Aug. 8.—At the last regular meeting of the Norway Public School Board, a large number of applications were received in response to the advertisement for teachers in the new Ashdale-avenue school. The board decided on any action pending further information.

Mr. Handy, who a short time ago suffered a severe loss thru the burning of his monumental works, is engaged in rebuilding on the same site.

The lack of a good street watering service is the only drawback to the happiness of the hundreds of Norway citizens. At times the clouds of dust arise.

Norway is making steady and substantial growth, a number of handsome, cosy residences having been erected in the last year.

### DISASTROUS FIRE THIS WIPES OUT AYTON MILLS

AYTON, Aug. 8.—A disastrous fire occurred at Hampden, near Ayton, this afternoon, when the extensive sawmill, single and lathe mills owned and operated by the Miller & Seim firm, were wiped out by fire. Their entire stock of this season's cutting of lumber, lath and shingles is completely gone, including the three mills and machinery, with a total loss of \$7000. The fire originated by a spark from the shingle mill. Every effort was made to prevent its spreading, but owing to the extremely dry season the fire spread and consumed the entire plant. A high wind into the field, which quickly consumed the dry crops, and the farmers in that vicinity had hard work in saving their barns and houses. Miller & Seim intend rebuilding at once. The loss is partially covered by insurance.

TUDHOPE FOR SENATE. The publisher of The Midland Argus, in referring to the rumor that Mr. J. B. Tudhope, M.L.A., will be the government candidate in East Simcoe at the next elections for the house of commons, in opposition to W. H. Bennett, M.P., says it is on the understanding that, win or lose, he will be appointed to a senatorship.

CURIOSITY COST HS EYES. VANCOUVER, B.C., Aug. 8.—Charles Mills, curious to see a stump blown into the air by dynamite, stayed close by and both eyes were blown out. His small brother had his arm broken by the same blast.

Death of T. H. Fitzsimons. After an illness of about three months, T. H. Fitzsimons, formerly a leading business man of St. Catharines, died at his home, 8 Linden-street, yesterday morning. While in St. Catharines he conducted a jewelry business, and was prominently identified with some of the amateur sporting organizations of that city. Since coming to Toronto he has been connected with the firm of Keith & Fitzsimons, James Fitzsimons being a brother. Besides a widow, who was Miss Gillespie of St. Catharines, he leaves one son, Albert, and two daughters, Mabel and Ruth. Mr. Fitzsimons was a member of St. Philip's Anglican Church. The funeral will take place on Saturday to Mount Pleasant.

From Bank to Mission Field. FERGUSON, Aug. 8.—(Special.)—Mr. E. C. Roberts, manager of the local branch of the Imperial Bank, has decided to sever his connection with that institution, and to take his family to South America, where he proposes entering the mission field.

Contract Wasn't Tender. The board of control, on receiving a report yesterday from Industrial Commissioner Thompson that it cost \$1400 for 5000 copies of the booklet "Toronto, a Favored Field for Franchises," showed a disposition to consider that tender for the work should have been invited. Mr. Thompson explained that the services of an expert were necessary for compiling the information.

Mining Inspection. OTTAWA, Aug. 8.—(Special.)—A. P. Low, deputy minister of mines, left to-day for a trip thru the Canadian Northwest to look over the work of the geological survey and to inspect the various mining districts, in order to discover what their needs are, from the point of view of the department.

Mr. H. M. Dodge of Edmonton, Alta., leading member of the Great Letika Company, is spending a few days as the guest of Mr. A. H. Wheeler of Crawford-street.
