THE BOER FORCES ADVANCING TO REVELE LADYSMITH!

British Are Determined to Reach Their Goal This Time, and London Standard Says the Prospects Are Decidedly Hopeful.

Fighting Hard for Two Days—Crossed the Tugela on Monday and Seized a Position, Which is Still Held—Boers Made a Stubborn Attempt to Recapture It, But Were Beaten Back With Loss—Fighting at Sterkstroom—Toronto Men Sent to Gras Pan—General Forward Movement Begins.

London, Feb. 8.—(4 a.m.)—The British columns are putting themselves in motion in all parts of the South African war field. A combined attack upon the Boers appears to be in progress. Gen. Buller has gained a footing on the plateau north of the Tugela, after two days' fighting.

On the far western border Lord Methuen has been a turning movement against the Boer flank, while Gen. McDonald threatens the Boer flank from the east.

British Torpedo Boat Went Ashore While Chasing Chinese Pirates and There Was a Fight.

POWDER EXPLOSION KILLED 1000.

Twenty Persons Drowned by the Capsizing of a Junk—Thirty-One Factory Girls Burned.

Victoria, B.C., Feb. 7.—The steamship Empress of China brings news of many casualties.

The British torpedo boat destroyer Tweed went ashore on the West River, while chasing Chinese pirates, and, when the steamer was fast, pirates came back and opened fire on her.

Twenty Persons Drowned.

A terrible accident is reported from the Wuhu River. A junk was caught in a snow squall and turned turtle, all on board, including 20 in all, were drowned.

Factory Girls Burned.

From Sogo Ya, Japan, comes news of still another terrible accident. A fire broke out on Jan. 23 in a large spinning mill of the Mitsui Bussan Kaisha Co. Ltd. near the Tsurumi gate, killed several hundred people. It appears that workmen were bolting or clarifying a large quantity of cotton when it upset, and in some manner a terrific explosion, as the result of which not a building was left standing, and of the several hundred workmen but few survived.

SOREL PEOPLE SET BACK.

They Had Been Led to Expect an Elevator, But the Premier Knew Nothing of It.

Montreal, Feb. 7.—(Special)—A remarkable story is being told relating to the things are going at Ottawa. Some time ago the Rutland Railway Company secured a long lease of the United Counties Railway, having connections at Sorrel, at the mouth of the Richelieu. It was understood by the people of Sorrel, in fact, that a promise had been received from the Government to aid in the building of elevators and other terminals at that point. They went so far as to say that Mr. Wilfrid and Mr. Laurier had promised \$100,000 towards the carrying out of the project in question. The promoters of the railway being in fact that such a promise had been given, and they went to work and had the plans prepared; then a deputation waited upon Sir Wilfrid, the Prime Minister, and he had neither made such a promise nor had ever heard of it. Even Mr. Tarte was waited upon, but the Minister of Public Works was sick, and could not be seen.

WAR OFFICE SAYS SO NOW.

General Buller Recrossed the Tugela on Monday in His Way to Ladysmith.

London, Feb. 7.—The Associated Press learns that the War Office today received a telegram saying briefly that General Buller had again recrossed the Tugela river, Feb. 5, and was now advancing upon Ladysmith.

The War Office at present is only able to add: "The operations are still in progress, but we have no information regarding the result."

The available maps do not show the drifts mentioned in the Boer despatch.

FIGHTING FOR TWO DAYS.

British Captured Krantz Kloof—Boers Repulsed After a Determined Attack.

Spearman's Camp, Wednesday, Feb. 7.—(Special)—General Buller commenced the advance for the relief of Ladysmith Monday. The Boers entrenched position at Brakfontein and the front advanced steadily towards the Boer entrenched position at Brakfontein and the front advanced steadily towards the Boer entrenched position at Brakfontein.

The Boer position consisted of a line of kopjes, strongly entrenched, extending three miles from Spoor Kop, and curving sharply at the eastern end to the south about opposite Swartz Kop, which is a steep hill south of the Tugela, that the British occupied before the seizure of Potgieter's Drift.

LOOKS AS IF A COMBINED EFFORT

Was Being Made to Starve the Labor Agitators in British Columbia into Submission.

The War Eagle and Centre Star secession continues to be the talk of the town to the exclusion of the Tugela, Spoor Kop and all other topics. There is considerable bitterness and bad feeling in some quarters over the affair, and some are talking of making personal representations to Mr. George Gooderham and his associates. One of the chief complaints is that certain Toronto parties must have got the tip before the circular was issued, and were enabled to get rid of their stock before the crash came. It seems, however, that if any information did leak out it must have been their inadvertence. At any rate neither Mr. Gooderham nor any of his immediate associates have sold any of their stock recently.

The members of the Toronto and Montreal Stock Exchanges are especially wroth over the big slump, and special committees of both boards have held meetings with a view of taking some action in the matter. It is rumored that the Montreal Exchange will strike War Eagle of the list, and that Centre Star will not be put on the list at all. The committee of the Toronto Stock Exchange have considered taking some action in the way of ensuring those responsible for the break.

The worst appears to be over, and prices have no doubt touched bottom, although some speculators are still selling War Eagle stock short. As against 80,000 shares which were changed hands on Tuesday, only 25,000 shares were sold yesterday, 20,000 in Toronto and 5,000 in Montreal. The price dropped a few points over Tuesday night and opened at 153 in Montreal yesterday morning, and afterwards sold down to 150, which recovered to some extent and closed at 160 and 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 584, 586, 588, 590, 592, 594, 596, 598, 600, 602, 604, 606, 608, 610, 612, 614, 616, 618, 620, 622, 624, 626, 628, 630, 632, 634, 636, 638, 640, 64

**MEETINGS IN SECRET.**

Private Conferences With the Board of Control Will Not Be Tolerated

WHILE A.D. SPENCE IS A MEMBER

There Will Be Several Committees at the City Hall To-Day—All Prepared for Smallpox.

This will be a busy day at the Hall. At 2 o'clock the Board of Control meets to consider the water rates adjustment. The Labor Bureau meets at 2.30. The Property Committee is timed for 3, and the Legislation Committee at 4 o'clock, when the early closing bylaw will be taken up.

**MACDONALD'S GAME FAILED.**

Board of Control Had No Right to Discuss the Metropolitan Railway Case, Even in Secret.

At the last meeting of the Board of Control the Mayor had introduced a resolution that he might wish to consult them at an early date with regard to the Metropolitan Railway case.

Yesterday he telephoned to the Controller to come to his office at 1.30, and he also summoned Corporation Counsel Fullerton. When the parties turned up they found Mayor Davis and Councillor Brown of North York, who was Mr. McMorris, in the Mayor's office, and they were invited to a private conference with these gentlemen.

The newspaper representatives were informed that the meeting was of a private nature.

The Mayor afterwards saw Controller Fullerton and asked what had been done. He answered that nothing had been done. "What was tried to be done?" "Nothing."

"What did the Mayor call you for?" "I heard that he had had time to close up his papers."

"Well," said Controller Frame, "the Mayor thought that we might meet and listen to whatever proposition the Controller had to make and not commit ourselves."

"And did you listen?" "No. Spence would not let us."

This turned out to be exactly what had taken place. When the Mayor had introduced his plan Controller Spence called him down. The Mayor then called the Controller to the office and they had a conference. The Controller then called the Mayor to the office and they had a conference. The Controller then called the Mayor to the office and they had a conference.

**PREPARING FOR SMALLPOX.**

Dr. Sheard Does Not See How It Can Be Kept Out of the City—He's All Ready Now.

With presence of smallpox in the adjoining town of Toronto Junction, the city Health Department has taken energetic measures to stop the advance of this dreaded enemy of the human race across the Tugela of the city limits. Dr. Sheard is recontrolling in the invaded territory, and finding out the plans of the Board of Health for looking after the victims, and all who have been in any way associated with them.

"Will it come to Toronto?" "Dr. Sheard thinks it would be unreasonable to expect that the contagion could be kept out of the city. He is all ready now prepared for a report of its presence in Toronto at any moment. He has a small-pox hospital all ready with nurses on duty and every detail attended to for treating the first appearance of the disease according to the best approved methods."

**QUESTION OF STREET LIGHTING.**

Special Committee Considers Engineer's Specifications, on Which It Is Proposed to Base Contracts.

Ald. Lamb is a man you can't despise. He presided at the meeting of the Fire and Light and Works Committee, to consider the Engineer's specifications upon electric light and energy are to be tendered for. When the Mayor entered Ald. Lamb, with his most cordial manner, invited him to a seat of honor beside himself, and as the Mayor took his seat, he merely remarked that the gentleman's attentions were oppressive.

There were two separate specifications under consideration. In the one for lighting streets or portions of the street with electric lights, the first point of contention was the number of lamps to be mentioned in the contract. The city is now burning 1200 lights, and the Engineer had proposed calling for 1500 lamps on the basis of 1900.

Ald. Dunn proposed 1500. Ald. McMurrich proposed 1200 as the basis, and Lamb was the coffee.

**BISHOP McCABE.**

The Famous Minister's Experience With Coffee.

The well known bishop said to one of his friends, some years ago, "I was a great sufferer from severe headaches, and at times, after traveling many miles to dedicate a church or perform some other important duty, found myself confined to a bed when the time came, and was unable to carry out my work. I finally discovered that when I left off coffee for a few days, the headaches disappeared. By further experiment I discovered that the coffee was the cause of the difficulty, which finally entirely disappeared when I left off coffee altogether."

The reason for this remark was made in Mrs. M. E. Glass, wife of a friend of the minister, who had written: "My own experience with coffee was very convincing. I was grown up before I ever drank coffee, but I was introduced to it by a friend who meant it kindly to use weak tea and coffee, because a warm drink aided digestion. I soon thereafter commenced to have nervous and sick headaches; could not sleep, and my coffee was suspended. My husband, who had suffered from dyspepsia relief by leaving coffee, and I was satisfied my headaches were caused by the coffee. I left off coffee and took up Postum Cereal most convincing manner that coffee was the cause of the headaches, but now I have an equally good substitute. I have found that health-giving properties are simply undervalued. My little children use Postum regularly and so off to school in healthy and happy condition. If ever husband and wife are in the habit of drinking coffee at an evening gathering, or at the end of the night, yours for health,

**SMALLPOX AT THE JUNCTION.**

Every Effort Being Made by the Authorities to Prevent a Spread of the Contagion.

SCHOOLS ORDERED TO BE CLOSED

Until All the Children Have Been Vaccinated—Boarding House as an Hospital.

Toronto Junction, Feb. 7.—The smallpox scare is having its humorous as well as unpleasant effects upon the town. The sanitary inspector, who carries the smallpox placards, is so rigidly avoided as the disease itself, whilst the placard on a house will cause the disinfectants to be poured across the road to keep out of its way. Even the women who have to transfer from the Weston to the city cars at the Junction, make an extra effort to get from one car to the other, in anticipation that a smallpox carrier might be lurking in readiness to dart at them. Every effort has been made to isolate the afflicted patients. K. Campbell of Hook-avenue, James Hicks of the Campbell block and John Conroy of McMurphy-street have been removed to Mrs. Taylor's boarding house, where a sort of isolation hospital has been established. The first patient, a woman named Perry, made his escape from the house, but he was not allowed to leave his abode or to see any one without the sanction of a quarantine.

He was caught at Havelock.

Jesse Hearn, who left an infected house and went to collect for some place under quarantine there, and O. Dill, who was quarantined at the police station, were rounded up by the police to-day and are at Mrs. Taylor's boarding house.

**THE SCHOOLS CLOSED.**

The Mayor has ordered the Public Schools to close to-morrow. For this purpose the Board of Health has ordered the schools to close to-morrow. For this purpose the Board of Health has ordered the schools to close to-morrow. For this purpose the Board of Health has ordered the schools to close to-morrow.

**Equal Rights to All.**

The Mayor said successful tenders should receive equal powers and privileges with the present contractors could supply light to companies and private houses and the new people would be shut out.

**Dr. Borden is Too Busy.**

City Solicitor Caswell received a letter from the Minister of Militia an answer to the inquiry with regard to the taking over of the city of the Old City property for park purposes. The Solicitor had written reached without delay a decision was being made in this year's estimates for beautifying the city. The Minister replied that he has been so busy with the contingents and the other matters of the day that he cannot give the consideration of the matter.

**THE MICHIGAN LUMBERMEN AND THEIR SUIT AGAINST THE GOVERNMENT.**

The Divisional Court, consisting of Chancellor Boyd and Justices Ferguson and Robertson, handed out judgment yesterday, in the case of the Michigan Lumbermen and their suit against the Government. The court found in favor of the lumbermen, and directed a new trial of the action. The court also ordered the Government to pay the costs of the lumbermen's action.

**A SENSATIONAL PANT STORY.**

BY P. JAMIESON.

CHAP. X.

"He that harbors truth hath a lamp to guide his steps."

Extravagance of masquerade as economy. By clever weaving of a bargain story poor men are made to believe a luxury is a need.

Men buy shoddy coated with a glow of adjectives.

But all men must needs wear pants. Every man knows that genuine all-wool Scotch Tweed is a good investment. You know that your tailor charges \$4.00 for a pair of Scotch Tweed Pants. We make to your order for

**2.75**

Incredulity is forced to fly before the bluntness of the truth—common sense buys a pair—wisdom, seeing a little further ahead, buys two pair.

It takes 10 minutes to choose a pattern and leave your measure. \$1.25 is very good pay for 10 minutes.

Important TO PIANOLA.. Purchasers Mason & Risch Company Establish the... LIBRARY SYSTEM.

While it is only a few months ago that the first pianola was heard in Toronto, its sale in that short time has exceeded the most sanguine expectations of the Canadian representatives—the Mason & Risch Company.

There are now so many owners of pianolas in Toronto and throughout the country that Messrs. Mason & Risch have put into operation the circulating library system, similar to that which is used in the leading cities of the United States, Great Britain and the Continent.

By means of this system the owner of a pianola is enabled to exchange the music for the instrument any time he may desire, at a merely nominal cost, and has at his command a catalogue embracing thousands of compositions, and which, in fact, has everything in it that is known in the realm of music.

The adoption of the library system by the Mason & Risch Company in Canada has been hailed with delight by their many pianola patrons, and the department will no doubt receive additional impetus by this important step.

at different exhibitions of a provincial nature was shown to have increased by over 50 per cent. in the past year, and the breeders of the province are registered in the various fairs held throughout the country.

All Pedigrees to Be Signed. The report contains the announcement that all pedigrees shall be signed by the breeder of the animal in the case of death by a proper representative. The breeder of an animal is the owner of the dam at the time of service.

A War Hymn. The following excellent and appropriate hymn has been sent to us from the S. P. C. K. Depository, Richmond-Street. It is in the form of a letter and private use during the war:

For our vallant soldiers, etc. Lord, when sick and wounded, For purchase, from care, Let Thy healing Spirit Save them from despair, Saviour, be thou with them, All their prayers to hear, Strengthen, watch and comfort, When none else is near.

For our vallant soldiers, etc. Hungry, Lord, and thirsty, In the wilderness, Thou didst feed Thy people In their sore distress, Thou canst turn to blessing Soldiers, be thou with them, Grant that these thus suffering Saving faith may gain.

For our vallant soldiers, etc. Lord, among our army, Fighting for our land, Thou hast also soldiers, Fighting Satan's band, Let Thy Holy Spirit, Strengthen, watch and comfort, When none else is near.

BULLER'S FORCES ADVANCING TO RELIEVE LADYSMITH

Continued from Page 1.

Departure of the whole regiment, a change came in the order, and it was decided that the company and "G" company (those from British Columbia and New Brunswick and Prince Edward Island) should be left behind. But this was afterwards explained by the announcement that they were merely assigned to look after the baggage and stores, and would join the rest of the regiment later.

BULLER IN PERSONAL CHARGE

How the British Gained the Key to the Lower Ridge—Daily Telegraph's Story.

London, Feb. 8.—The Daily Telegraph's correspondent at Spearman's Camp, in a despatch dated Monday night, says: "Under the personal direction of Gen. Buller, the attack on the Boer position was begun this morning by nearly the whole of our batteries firing 22 guns—shelling the ridge when the enemy have their trenches and redoubts on the Brakfontein and the low crest of 'Potters' Dam'."

BOER STORY OF THE FIGHTING

British Cannonade the First Yet Experienced—British Hold Their Position.

Boer Head Langer, Ladysmith, Tuesday, Feb. 6.—Since yesterday the British, with naval and other guns, have bombarded our positions on the Upper Tugela. The troops crossed the river at the Pont and at Molen Drift with the object of storming our positions. At the former General Burger beat them back and they retreated in disorder. The fighting continues at Molen Drift, with the Standerton and Johannesburg commands. The cannonade was the fiercest yet experienced. There was a continuous roaring all day long. This morning it recommenced with an increased number of guns.

EXCITEMENT IN LONDON

When the War Office Announced Officially That General Buller's Forces Had Relieved Ladysmith.

London, Feb. 7.—When the despatch announcing the fighting on the Upper Tugela was published to-day there was the usual scene of excitement on the streets. The big placards attracted newspaper buyers, and the news was eagerly discussed in all quarters. There was notable excitement in the House of Commons, where, in addition to the War Office announcement, a news agency telegram was posted saying that 100 additional ambulance stretchers had been sent to the front from England.

BRITISH ADVANCE STOPPED

Boers Enfilade the British From Their Positions on Spion Kop and Doorn Kloof.

London, Feb. 8.—A special despatch from Spearman's Camp, dated Wednesday, Feb. 7, says: "Our further advance is at the moment prevented, as the Boers enfilade us from their positions on Spion Kop and Doorn Kloof. Our casualties, also estimated at 200, are trifling, considering the great importance of the movement just concluded."

FIGHTING AT STERKSTROOM

Boers Are Said to Be Attacking Gen. Gatacre and Important Developments Are Expected.

Cape Town, Wednesday, Feb. 7.—Fighting began this morning at Sterkstroom and is now in progress. No details have been received.

Lord Roberts' Move North

Cape Town, Feb. 7.—Lord Roberts and Gen. Kitchener have started for the front.

Important Developments Expected

London, Feb. 7.—A despatch from Sterkstroom, dated this morning, announces that the Boers are attacking Gen. Gatacre from two directions. Fighting was proceeding between the outposts and a detailed Sterkstroom despatch dated Monday, Feb. 6, announces that a body of troops left the camp

Feb. 8, and that important developments were expected. It is quite probable that this explains Lord Roberts' departure and that the command-in-chief wishes either to be present at or supervise the long-extended movement by Gen. Gatacre and his forces with Gen. Kelly-Kenny, and these strongly reinforce Gen. French, completing the latter's work at Colenso, and establishing without fear of serious opposition an advanced position for the main movement.

Lord Roberts' Move

This, of course, is greatly supported, but it can be confidently said that the departure of Lord Roberts and Lord Kitchener from the front does not indicate that the main advance has begun. The commanders will probably be back in Cape Town within a short time. It is pointed out that the term going to the front means the Boers' work at Colenso, and that a great movement upon Pretoria by way of Bloemfontein has seriously commenced. It will be a month or perhaps much longer before this can be brought about.

GERMANY'S NAVAL PROGRAM

When Her New Warships are Complete There Will Be a Stronger Navy Than the French.

Will Be Mistress of North Sea

And Her Fleet Will Beat That of the United States Over Two-fold, It is Said.

Berlin, Feb. 7.—An American naval officer, now in Berlin, who enjoys exceptional advantages for gathering information regarding the German navy, asserts that the German Government has made all preparations necessary to finish the construction of the new warships by 1908. Instead of 1910, as the naval augmentation bill originally provides. In 1908, the German navy, according to this officer, will have 37 battle ships, varying from 11,000 to 13,000 tons, their length, 150 to 160 meters, and their speed, exceeding 18 to 20 knots. The French navy, before the end of 1908—still, according to the same informant, will be mistress of the North Sea, and her fleet will beat the American over two-fold.

Asthma for 35 Years

Doctors Said they Could Only Give Him Temporary Relief—Clark's Kola Compound Cured him.

R. D. D. Esq., Kaniago, R.C. writes: "For thirty-five years I have almost constantly suffered with asthma and difficult breathing, and I have spent a fortune on remedies and doctors. At last my doctor said I might get temporary relief, but would advise me to try Clark's Kola Compound. I tried it, and it did not relieve me much, but after taking four bottles I was completely cured. I can now breathe as naturally as the best of men. Clark's Kola Compound not only relieves, but permanently cures asthma, and is sold by all druggists. The proprietors are Messrs. Clark, Curtis and Macpherson Co., Limited, Toronto."

caretaker of the public building at Ottawa was taken up by the Premier, who said he wished it to stand, as the Minister of Public Works, Mr. Tarte, was absent through illness.

Mr. Sifton was unable to give Mr. Bennett any information regarding the quantity of timber cut on Indian reserves in Ontario and exported to the United States last year.

Mr. Peterson said he was trying to ascertain the number of bushels of grain received per water at Midland, Parry Sound, Owen Sound, Collingwood, Goderich, Sarnia, Kingston, Prescott and Montreal.

The Yukon Administration

Sir Hilbert Zupper had eight questions on the order paper, and they all related to the Yukon Administration.

Mr. Sifton was kept busy for half an hour answering those questions. He said no man should suggest that any act on the part of an official, if it had been done in the name of the Government, should be a claim and lost it. The Government would consider him entitled to his office. William Ogilvie figured extensively in the inquiry.

No Criminal Proceedings

Sir Hilbert: Have criminal proceedings been instituted against any of the officials referred to in the evidence taken before the Yukon inquiry?

William Ogilvie: No, because sufficient grounds had not been shown.

As to the question whether the Government had taken any action on any of the matters arising out of the Yukon inquiry, Mr. Sifton said he had not taken any action.

William Ogilvie's Salary

It was further elucidated that William Ogilvie had his salary increased by an order-in-Council dated Oct. 14, 1898, the increase was \$1000 a year, and dated from July 1, 1897. William Ogilvie's salary and emoluments were: Salary \$2000, house rent \$250 a year, and \$100 for household expenses.

Mr. Clarke's question regarding Yukon telephone lines were allowed to stand.
