JAMAICA CUT OFF FROM COMMUNICATION

Feared That Another Earthquake May Have Ravaged Island—Serious Floods Are Reported.

Santiago, Cuba, Nov. 10.—No details of the damage to the island of Jamaica have reached here. While cable communication between Santiago and Holland Bay, Ja., has not been interrupted, the island is not in touch with Kingston because the Government telegraph lines are down. It is believed that Kingston and vicinity suffered from a heavy rain which caused serious floods and the rivers are badly swollen. Several bridges are reported to have been washed away.

Colon, Nov. 19.—Communication between this place and the Bull Bay station, Ja., was re-established for the first time Monday afternoon, but was lost again and there has been no word from that point since. Whether this indicates a new disturbance of some kind or not, is not known.

Bull Bay, referred to in the Colon despatch is about eight miles from Kingston and has the headquarters for outgoing cable lines. Another cable station is at Holland Bay at the southern extremity of the island. The cable lines from this point have been working steadily and apparently without interference, but all the land lines from Bull Bay or Kingston to Holland Bay are down. The Western Union Telegraph Company in New York, said last night (Wednesday) that probably sufficient repairs would be made, according to the advices from Holland Bay by noon Thursday, to permit the transmission of messages and the forwarding of details regarding the nature of the disturbance at Kingston and the damage done.

REPORTS OF TRIAL WERE GARBLED BY SUBSIDIZED PRESS

Wm. C. Hayward Central Figure in Stunenburg Murder, Speaks Of The Case—Going To Springhill.

Wm. C. Hayward, one of the central figures in the famous murder trial at Boise, Idaho, a few years ago, when prominent labor leaders were on trial for the murder of Governor Stunenburg, and who was acquitted after lying in jail for eighteen months, arrived in the city yesterday and before leaving the Maritime Provinces will deliver an address on "The Class War in the West," in Keith's Assembly Rooms.

In speaking to a Standard reporter last evening, Mr. Hayward took the ground that the proceedings of the trial had not been correctly reported, but were garbled by a subsidized press.

Mr. Hayward reveals what he claims to be the true story of the trial at his lecture which will be delivered here on his return from the mining districts in Springhill, which will probably be on Monday next. He will leave on the early train this morning and will speak at Springhill tonight.

Struggle With Mine Owners. Speaking of the struggle with the Mine Owners Association in the West, Mr. Hayward said:—

"The Western Federation of Miners, in its organized effort to secure living conditions for the workmen employed in the mills, mines, and smelters, found themselves opposed by the Mine Owners' Association, Smelter Trust, Copper Trust, Standard Oil and the combinations of organized greed which own and control Legislatures, Courts, and Governors, the Federal Judges and the President.

"All of these forces were called into action by the mine owners and used to crush the mine workers and reduce them to helpless slavery. The story of that struggle is a record of tyranny, martial law, bull pens, the slaughter of unarmed miners by uniformed thugs employed by the Association, the destruction of the property of the Union, the deportation of workmen, and the violation of every right guaranteed to citizens by the Constitution. Finding these methods unavailing to crush the spirit of the miners and destroy their union, a plot was hatched to railroad the officials of the Western Federation to the penitentiary by means of money manufactured by the Pinkertons."

MRS. STEWART DENIES WARRINER STORY

Brands Statements Of Defaulting Treasurer Of Big Four R. R., As False—Broke Her Silence.

Cleveland, Ohio, Nov. 10.—Mrs. Jeanette Stewart, also known as Mrs. Ford, one of the women accused by Charles L. Warriner, defaulting treasurer of the Big Four R. R., of having shared in his peculations by blackmailing him, declared tonight she would give the whole inner account of the \$542,000 theft when the case came to court. Mrs. Stewart denied she ever received money from Warriner.

Her sudden breaking silence was caused according to her, by a quarrel which she had with another woman, who has also been mentioned by Warriner. This quarrel resulted in the attachment of Mrs. Stewart's furniture today. The officers who made the attachment were quickly followed by reporters; and in the stress of excitement, Mrs. Stewart's reserve broke down.

Will Tell Story. "I never received a cent from Charles Warriner," she said, "and I never gave any information to the railroad about his shortage. It was another woman that did it all; a woman I thought was my friend. I knew the whole story and I will tell it in court."

One of the women said to be involved in the case, started to leave Cincinnati tonight. Miss Warriner, who made the disclosures that she left the city, her arrest would follow. She then abandoned the plan.

At present the question that is excruciating the railroad officials is "what became of the \$542,000 which Warriner admits having stolen?" Warriner says he lost in speculation in stocks and in satisfying the demands of blackmailers, but that explanation is not satisfactory to the officials.

The stock plunging of the defaulting treasurer was conducted through New York and Chicago brokers, according to his confession, but so far investigation has been unable to disclose any record of the losses he says he sustained.

TO STOP BOYS FROM FALLING INTO OLD LIFE

Governors Of Boys' Industrial Home Appointed Committee Yesterday To Investigate Systems.

At a meeting of the governors of the Boys' Industrial Home held yesterday afternoon in the Mayor's office, a committee consisting of Judge Ritchie and Mr. J. N. Harvey, was appointed to look into the systems that are enforced in other institutions of a similar character in connection with boys who had served their time, but who, on being discharged, were liable to return to their bad habits on account of unfavorable home environment. Mayor Bullock presided, and among those present were Messrs. W. S. Fisher, J. N. Harvey, R. T. Hayes, Judge Ritchie and Mrs. E. A. Smith.

A committee was appointed to write a letter of condolence to Mrs. A. W. MacRae on the death of her husband who was a valued member of the board.

When Boys Are Discharged. The matter of best looking after the boys on their discharge in order that they might not go back to their old ways of life was discussed at some length.

Mr. F. E. Macdonald, superintendent of the home, in referring to the matter, stated that some boys, on being discharged, returned to their former ways on account of their home life, others went to the bad because they had no place to go, nor any employment. He referred to one boy who, when brought to the home, was so ignorant that he did not even know how to eat properly. His father was dead and his mother in the poor house. The boy turned out well, and in time improved wonderfully at the home, but when the time came for his discharge, the question arose as to what had best be done with him. If he was turned loose without employment, he would probably fall in with bad companions.

The superintendent finally obtained employment for him on a farm. He was found to enjoy the work and was able to be of great assistance about the place.

Legislation Necessary. Those present were all of the opinion that a system should be adopted whereby the boys could be assisted on their discharge, and the matter was finally left with a committee to look into and report. Before any improvements can be carried out it will be necessary to have an act of the Legislature passed.

Speaking with The Standard after the meeting, a member of the board stated that one of the chief reasons why the boys were apt to go back to their old life being discharged was because they were not taught how to make a living while at the home. This was not done, he said, because sufficient funds were not available.

KING'S COLLEGE LAW SCHOOL ENTERS UPON ITS EIGHTEENTH YEAR

Dr. Alward Last Evening Referred To Past History—65 Students Admitted To Bar—Officers Elected.

King's College Law School entered yesterday upon its eighteenth year. Seventeen years ago through the efforts of the late Mr. Justice Hanington and a number of his lawyers of this city, a law school was established here, affiliated with King's College, Windsor, N. S.

When the school opened last evening at eight o'clock in the class room in the Pugsley building members of all the classes were present besides a number of graduates and visitors. Dr. Silas Alward, dean of the faculty, presided, and in opening the meeting, outlined the history of the school since its establishment. Mr. E. T. C. Knowles, lecturer on Torts, and Mr. J. Roy Campbell, secretary to the faculty, also spoke.

In the course of his address Dr. Alward referred to the successful efforts of a number of members of the legal profession in this city in establishing the school, and contrasted the ancient method of ploughing through books in a lawyer's office with the up-to-date method of imparting the law to students by the present day schools.

Every lecturer, he said, was a practical man, and proficient in his own subject. He recalled that of the first faculty only three members were now lecturing: Dr. A. O. Earle, the secretary and himself.

Many Distinguished Members. The late Hon. Judge Hanington, Hon. A. G. Blair, Dr. A. A. Stockton and many other prominent lawyers Dr. Alward said, had occupied seats on the faculty board. Since the founding of the school, 65 graduates had been added to the legal profession. Of this number the majority were occupying responsible positions in their profession in western Canada.

Dr. Alward then delivered his first lecture on sales.

After the lecture the students met and lecturing Dr. A. O. Earle, the secretary and himself.

NUMBER OF FRIENDLY VISITORS TO HOMES WILL BE INCREASED

Board Of Associated Charities Enlarging Scope Of Work—Many Cases Present Difficulties.

The November meeting of the Board of Associated Charities was held yesterday in the room of the Relief and Aid Society. Mr. W. S. Fisher was chairman, and there was almost a full attendance.

A resolution was passed to the effect that the board would join the Medical Society in promoting measures for better sanitation in the poorer homes in the city.

A number of cases of families needing relief or assistance in procuring employment were brought before the meeting by the secretary, and steps were taken to meet the circumstances. Some of these cases are extremely perplexing, as that of a family of small children who are not properly cared for or kept from hunger and cold by their natural protectors, and who cannot be taken into an institution without the parents' consent.

The number of friendly visitors to under the auspices of the board is to be considerably increased. Some of these ladies will act as friendly visitors in their own homes. The visitor will undertake to go to this household as often as may be necessary, assisting, instructing and in every possible way acting the part of a friend, confidant and helper. Others will have two or three families while those of larger experience and more leisure will continue to visit throughout a district.

Mr. Hall and Miss Robertson were re-appointed secretaries.

The city will be asked for the usual grant for the current year in aid of the work of the society. This sum of \$250 is usually paid early in the year, but was not received as yet for 1909.

LEGISLATION ENOUGH SAY RAILWAY MEN

New York, N. Y., Nov. 10.—Legislation enough for the present, argued men who manage railroads; further federal control pleaded legislators; cooperation in the interests of fair dealing proposed shippers and others. These varied views on the great common-carriers of the country were expressed tonight at the first annual banquet of the Railway Business Association at the Waldorf-Astoria. The association, which is a sort of self-imposed medium of conciliation between the railroads and the public, had as its guests at table tonight more than 600 men interested in railroads. George A. Post, president of the association, was toastmaster.

FOUR BOYS LECTURED AND ALLOWED TO GO

Lads Under Fourteen Years In Police Court Yesterday Afternoon For Petty Robberies—Various Excuses Given.

In the police court yesterday afternoon four boys, all under 14 years, were arraigned before Magistrate Ritchie charged with petty robberies. Albert Ritchie, aged 14 and Edgar Friars aged 14, were charged with stealing a lady's pocketbook containing \$3.50 and a ticket from St. John to Boston from the Boston train on the 28th of October.

Ritchie told the magistrate he was in the train and found the bag on the floor and went through the car asking who had lost a purse, until the train pulled out.

Young Friars said he did not go to school but worked in Sean's mill. Ritchie had given him \$1.50 of the money found in the handbag.

His Honor after lecturing the boys, said that he would remand them to jail until they decided to tell where they got the purse.

Charles Howard, aged 14 and Philip Traskey, together with Edgar Friars, were charged with stealing \$4.00 from the till of Warden and Reece's store, 611 Main street, last Friday night.

The boys told the magistrate that William Stone had taken the money from the till and had gave each of them a dollar.

Asked by the magistrate if they went to school, the boys replied in the negative. They had spent the money for candy and in going to the Nickel.

Mr. John Kerr appeared for Howard and told the magistrate that Howard's father was willing to make good to Messrs. Warden and Reece the amount taken and intended to send his boy to the country to live with his uncle.

Traskey's parents appeared in court and the magistrate made them promise to send their boy to school. Both Traskey and Howard were allowed to go.

At 7 o'clock last evening Magistrate Ritchie summoned Ritchie and Friars before him in the guard room and after giving both boys a severe lecture, gave them their liberty.

AGAIN RECOMMEND TENDERS FOR FEED SHOULD BE ACCEPTED

Board Of Works Has No Place To Store Supplies—Charlotte Street, Carleton, To Be Repaired.

At a meeting of the Board of Works yesterday afternoon, the tenders for feed supplied to the department which were referred back by the Council, were again recommended for acceptance. Ald. McGoldrick presided and Ald. Codner, Sprout, Likely, Scully and Belyea were present with the Common Clerk.

The chairman requested Superintendent Winchester to attend to Charlotte street, West end, in front of the Baptist church.

City Engineer reported that the department had only stored one-half of the feed required during the year. Ald. Likely said it would be better to ask for 1,500 bushels of oats and the same amount of hay, than to ask for 1,000 bushels of oats and 1,000 bushels of hay.

Ald. Scully moved that the tenders of Wm. A. Dunton and Thomas Quinton be accepted. This was seconded by Ald. Codner and carried.

Ald. Sprout said it might pay to consider the question of storing the feed. Mr. Dunton had agreed to make a receipt if the feed was delivered all at one time.

No action was taken. Ald. Scully was assured that Charlotte street, West, would be repaired at once.

On motion the meeting adjourned.

ALD. MCGOLDRICK SEES BRIGHTER PROSPECTS FOR NEW CITY HALL

Joint Committee Is Now At Work Market Square A Desirable Site, But There Are Others.

Ald. McGoldrick is feeling very much encouraged in his campaign for a new municipal building. The work of the alderman for Stanley ward is already well advanced on the public utilities of the city but he has an ambition to rear for himself a still greater monument in the shape of a pretentious City Hall. He intends that should be erected on some desirable site in the central part of the city.

At present, a committee of six, three from the municipality and three from the Common Council are considering the matter and Ald. McGoldrick is prepared to submit to them a dazzling array of figures purporting to show that a saving can be effected. It is proposed to sell or lease the old City Hall, as an insurance or bank building, and to centralize all the departmental offices now in the various parts of the city. The provincial government, it is understood, has endorsed the idea and will remove the immigration rooms and law courts to the new municipal building.

A partial list of the offices which will be removed to a building of suitable size is as follows: Board of School Trustees; Water and Sewerage Department; County Treasurer's office; County Secretary's office; Sheriff's office and County Court rooms; Harbor Master's office; Building Inspector; Government Immigration rooms; Quilty and Supreme Court rooms.

Central Fire Station. Ald. McGoldrick points out that No. 3 fire station could be sold at a high figure and the fire apparatus centralized in the county court house which could be used as a fire station. Here all the apparatus in the central part of the city could be stationed and no matter where the fire was the engine could get a start on a down grade. Quarters for the ambulance and the proposed police patrol wagon would also be provided in this building.

As regards the site Ald. McGoldrick suggests Market Square, but is not committed to any particular location. He proposes to fill up about 18 feet at the head of Market Slip and make space for a driveway around the building, which will probably be about 150 feet square. There would still remain the open space in the square and a handsome building it is claimed, would add materially to the business appearance of the heart of the city.

Two men entered the car and were quickly covered by the officers' guns, and on being ordered to get out, they refused to obey. A second order was effective, and the prisoners were shackled. A search was made for the third man, but no trace of him could be found.

The prisoners declined to say anything about themselves beyond giving names and saying that Buffalo was their home. They also declined to give information about their companion.

FIRE DESTROYED BARN ON METCALF ST. LAST EVENING

Owned By Michael Murphy And Was Uninsured—Contents Of Value—Loss Estimated At \$450.

About 7 o'clock last evening fire broke out in a barn owned by Mr. Michael Murphy, situated on Metcalf street and had gained such headway before the firemen reached the scene that they were unable to save it. The barn was completely destroyed. The loss will be about \$450. There was no insurance.

How the fire started is a mystery, but it is thought that it was caused by some boys who were seen smoking cigarettes around the barn a short time before the outbreak.

When the fire first seen an alarm was rung from Box 123 and the North End fire department responded. While the alarm was still sounding another was run in from Box 131 and No. 5 and 4 Engine Companies answered the call. No. 2 Chemical was already on the scene but could do but very little as the flames were raging furiously.

The horse had to be run from the plug opposite the car shed, through Colwell's Alley, a distance of about 500 feet, before a stream could be put into the building and at Washington Victoria street and the fire was soon extinguished.

Mr. Murphy had a number of boats, besides some household goods stored in the building and a number of them cannot be replaced.

MR. MONK IS ARRAIGNED BY OTTAWA PAPER. Special To The Standard.

Ottawa, Ont., Nov. 10.—The Journal this evening treats Mr. Monk's speech with great vigor. It says in part: "Mr. Monk has been so futile as a political leader, his temperament has been so obviously one which never responds to, nor stirs waves of popular feeling, his lack of political force and political insight have been so equally evident for many years that his opposition to any national current is likely to be a good sign of the strength of that current."

Nothing could better illustrate Mr. Monk's hopelessness in a political sense than his present declaration. He raises a dead issue and orates over it as if he could galvanize it into life.

Poor Politician. It concludes as follows: "We do suspect that a gentleman, who, like Mr. Monk, wakes up half a year later to preach to a nation which has got past him, the old rotten plea of the propriety of Canada remaining a monarchy is few, average less than \$1,800 each (two only approaching \$75,000), and most of them would inevitably consume their own value in the expenses of recovery."

BRADY AFTER THE BIG MILL WITH \$80,000

New York, Nov. 10.—The Herald this morning says: William A. Brady, who formerly managed James J. Jeffries, made an offer last night to give the retired heavyweight champion \$100,000 as a gift if he will fight Al Kaufman within 60 days.

No stipulation is made as to the event of Jeffries being beaten. Under the agreement which he made with Felix Isman, Jeffries is to get the sum merely for going into the ring with Kaufman. If the old champion elects, the bout may be held in private or in public, at any place that Jeffries may name.

After the offer had been made by Brady, Isman went to see Jeffries and told him that if he saw his way clear to make the match \$100,000 would be absolutely Isman's. Furthermore, Brady bet \$4,000 to \$5,000 with Isman that Johnson will beat Jeffries.

Brady Not Serious. New York, Nov. 10.—The sporting world, just now keenly interested in the coming Jeffries-Johnson fight, noted with interest today the report of an offer by William A. Brady, a theatrical manager, to post \$100,000, the entire sum to go to Jeffries, if he would agree to fight "Al" Kaufman within ninety days.
