LAW RESPECTING NEWSPAPER
Subscribers who do not give express
notice to the contrary, are considered
wishing to continue their subscription.
If Subscribers order the discontinu-
ance of their papers, the publisher may con-
tinue to send them till all arrears are paid.
If Subscribers neglect or refuse to take
their papers from the office to which they are
directed, they are held responsible till they
have settled their bills, and ordered the
papers to be discontinued.
If Subscribers remove to other place
without informing the publisher, and the
paper is sent to the former direction, the
publisher is not responsible.

CURIOSITIES IN THE GREAT EXHIBITION.

Skellon striking clock, going 400 days;
it shows dead seconds by the application
of the chronometer escapement.
Patent tell-tale clock, or servant's regulator.
Perpetual motion clock, having no chain or
weight.
A table cover, or bed-quilt, containing 3,320
pieces and 128 skeins of silk.
A sporting watch, which shows the time to
one-sixth of a second.
A clock in a case, which occupied thirty-
four years in completing it, with astronomical,
chronological, and other movements, wind-
organ, &c.
Mechanical clock; works without main
spring or chain, and requires no winding up.
A clock showing the days of the month,
the months of the year, the motions of the sun
and moon, and the state of the tide at some
of the principal sea-ports of Great Britain,
Ireland, France, America, Spain, Portugal,
Holland and Germany, and going for twelve
months.
Apparatus for navigating a balloon through
the air, by means of paddle wheels and Ar-
chimedean screw.
Artificial leg, to enable persons who have
lost the knee, either to walk or ride.
Fox's magnified balance, weighing to the
ten-thousandth part of a grain.
Walking-stick containing an electrogalvanic
machine, and battery complete.
Expanding piano-forte, for yachts.
Tuning fork, with chromatic scale, by
which any note may be tuned at pleasure.
A boot and shoe, made from a single piece
of leather.
A specimen of type, said to be the smallest
ever manufactured in this country. The
whole of Gray's Elegy, consisting of thirty-
two verses is contained in two columns 2, 3, 4
inches deep.
Patchwork quilt in 13,600 pieces of silk,
satin, and velvet, and white embroidered
flowers.
Table-cover, consisting of 2000 pieces of
cloth the sole work of the exhibitor, and has
occupied his leisure hours for eighteen years.
A horse shoe, designed to permit the nat-
ural expansive action of the foot of the
horse.
Carved book tray, executed by a plough-
man, in the evening by candle-light, without
the aid of any model or design, and solely
with a penknife.
Inlaid marble table; the top contains 700
pieces of 30 sorts of marble—10 English, and
20 foreign.
Picture frame, inlaid with tortoise shell
and pearl, composed of 2,300 pieces.
Bed cover of patch-work the number of
pieces nearly 90,000.
A bird cage containing 2,525 pieces, and
composed of 21 different kinds of wood.
Typhoidicator, or storm pointer, an instru-
ment for obtaining by inspection the bearing
and relative position of a revolving storm or
hurricane, in accordance with the theory com-
monly called the law of storms, as made
known in several publications by Dr. Ried.
Self-acting calculator or surface. The
area of any figure drawn on a plane is found
by moving the tracer over the outline, how-
ever irregular it may be.
Scarlet cloth table cover, braided with up-
wards of 2,000 yards of black mohair cord
without patterns or ornament.
Oral meditation of her Majesty, produced
by single line of equal thickness, and 209
feet in length.
Mechanical human figures capable of ex-
pansion, in perfect proportion to the stand-
ard of the Apollo Belvidere, to seven feet
high. For the use of artists and of manufac-
turers of wearing apparel.
Two vases carved out of a species of sand-
stone from Jerusalem, with an ordinary pen-
knife.
Machine moving by the equilibrium of wa-
ter and air. Boat moved by the same power.
Clock on the same principle.
A geographical clock, showing the differ-
ence of mean time in all the capitals of Eu-
rope.
A piece of white linen, spun and woven by
hand, having 7,000 threads in the warp.
A lump of gold ore weighing 3 cwt.
Vegetable hair, made of the leaves of the
Algerian dwarf palm-tree &c. Patented for
Algers and France.
A print in Chinese character, 4,200 punches
in these Chinese characters have been cut in
steel for the American Missionary Society in
New York. The types are devised on a
perpendicular system, and formed by 54,000
different characters.
A second watch made of ivory, with gold
screws and steel moving powers. It works
in ten rubies, and weighs (glass and vase
included) only half an ounce.
An octagonal table inlaid wood, containing
3,000,000 of pieces; the arms of England
prolone, in space of three inches by two consist-
ing of 53,000 of these pieces.
A watch going one year.
A Berlin wool carpet, executed by one
hundred and fifty ladies of Great Britain.
The dimensions of this carpet are thirty feet
in length and twenty in breadth. The car-

pet has been produced in the following man-
ner.—The pattern originally designed and
painted by the artist, has been sub-divided
into detached squares, which have been
worked by different ladies; and on their
completion, the squares have been reunited,
so as to complete the design. In the pattern
also introduced. The minute of the excutants
are ornamentally arranged, so as to form the
external border. The whole design is con-
nected by wreaths or bands of leaves and
foliage, the centre group representing the
store from whence they had been distributed.
—London Family Friend.

POETRY.

MY MOTHER'S GRAVE.

BY AMANDA M. DOUGLASS.

Mother, I come beside thy grave,
To tell thee of my life and love;
There is within these very tears
A sweet and soothing power.
I steal from out this world away,
To sit an hour with thee;
And all thy words of love come back
In angel tones to me.

Mother, this is a cruel world
For one so young and poor;
Full many a cold and scornful word
My heart has to endure.
They bid me wake upon the lute
Some strangely thrilling lay;
Nor dream my sad and lonely heart
Is breaking 'mid the gay.

They bid me paint the charm, mother,
Of Beauty's witching smile;
They say among the fair and bright,
It will my heart beguile.
I've tried it but too well, mother,
And found its bitter mirth
Will never bring upon my soul
A comfort here on earth.

I hear thy chiming tone, mother,
In the low and balmy wind;
And very hard I try, mother,
Some bliss on earth to find.
My happiest hours are spent, mother,
Beside thy quiet tomb;
Where birds are warbling low, mother,
And flowers sweetly bloom.

O yes! I come beside thy grave
Each quiet evening hour,
And listen to thy low breathed words
From out each gentle flower;
And I will pray for faith, mother,
To guide me through the gloom,
And hope that I may sleep at last
Beside thee in the tomb.

How TO BE A MAN.—When Carlyle was asked
by a young person to point out what course
of reading he thought best to make him a man, replied
in his characteristic manner:—"I was not by book,
chiefly, that a man is in the point of a man. Study
to do faithfully whatever thing in your actual
situation, then and now you find either expressly
or tacitly laid down at your charge—that is your
post; stand in it like a true soldier. Silently de-
vour the many chapters of it,—all situations have
many, and see you aim not to quit it, without do-
ing all that is your duty.

RAILROAD ACCIDENT.—Yesterday morning,
while the Dedham train was backing out
from the Providence depot to the engine
house in Roxbury, the upward 814 of the
Newton train came into collision with it, at
the crossing of the two roads on the open
land near the Back Bay. Two of the cars
of the Dedham train were thrown off the
track, one of which was smashed very badly;
the other slightly. The engine of the New-
ton train was thrown off the track, but not
injured. Fortunately there were no passen-
gers in the Dedham train, for had there been,
many deaths must have been the consequence.
The engineer on the Newton train, Mr.
Moulton, had his ankle injured, but we
learn not seriously. The fireman was un-
hurt. The train contained twenty or thirty
schools girls, who every morning take the
cars for the Normal Institute at west Newton.
The sent of the accident gave evidence that
such meetings cannot take place without
considerable destruction. In one place was the
top of a car, with its timbers shattered; in
another a pile of seats, while one of stow-
aways which by immense force had been dis-
placed, lay on the side of the road. All was
in fearful confusion.

We learn that the Worcester Railroad has
priority as to the right of running its trains,
and on this score we presume a portion at
least of the blame will be attached to the
Providence company. The matter is to un-
dergo an investigation, which we presume
will throw the blame upon the shoulders of
those who deserve it.—Boston Bee.

BUENOS AYRES.—Advices from Buenos
Ayres are to the 5th of August. The mar-
ket was completely overstocked. The pro-
duce of the country is very scarce and very
high. The Government had sent troops to
put down Urquiza. At Brazil active prepa-
rations were being made to invade the Argen-
tine territory and assist Urquiza.
Pendleton, the American Charge was dai-
ly expected.

At Buenos Ayres from Rio Janeiro, brig
Reindeer, Chase, arrived from San Fran-
co, in one hundred and four days.

THE STANDARD.

The Royal Mail steamer America arrived
at Halifax about 5 o'clock on Wednesday
evening, with 105 passengers, 12 of whom
landed at Halifax. She brings dates to the
4th inst.

The cotton market for the week ending
Friday, Oct. 31, was dull, with a slight de-
cline in prices. The sales of the week were
36,650 bales.

There was a steady demand for Wheat
and Flour, and buyers were compelled to pay
the full prices of the previous week.

THE NOMINATION.

of Candidates to fill the vacancy in the repre-
sentation of St. John, occasioned by the appoint-
ment of the Hon. R. D. Wilmot to the office of Sur-
veyor General, took place in that City, on the 15th
instant. The Hon. Mr. Wilmot was nominated by
W. Tisdale, Esq., seconded by John Kerr, Esq.,
and Allan McLean, Esq., was nominated by John
Owens, Esq., R. W. Crookshank, Esq.

Hon. Mr. Wilmot then addressed the electors
in a lengthy and powerful speech, in which he
vindicated the course he had pursued in joining
the Executive and accepting office, and ably re-
futed the many slanders circulated by design-
ing demagogues. He concluded by proving to the con-
stituency that he would have been, co-operant to the
best interests, had he refused to accept a place in
the Government. This, a person residing in any
other County in the province could see with half
an eye. And was he to shut St. John, (the great
emporium of the province) out from the councils
of the country, merely to gratify the whims of
J. W. Ritchie? certainly not.

Mr. McLean next addressed the electors, and
observed that "he did not appear before them of
his own free will and accord, but at the request
of a large number of friends, and chiefly for the pur-
pose of trying the question between them and the
Government."

Mr. Ritchie next addressed the electors in a
windy speech, and showed that there was "a com-
bination" last winter to upset the Govern-
ment—that Messrs Gray and Wilmot had belong-
ed to the combination; they all failed in ousting
the Government, and yet he contended that Gray
and Wilmot should have remained members of
this fictitious "combination" and still oppose the
Government. He concluded by saying in ef-
fect, "that if the constituency of St. John should
decide that Messrs. Wilmot and Gray had done
right in accepting office by re-electing Mr. Wil-
mot, he should consider it a vote of censure on
himself, and would at once retire from the rep-
resentation." This is all "gammoo," Ritchie re-
tire—there is "method in his madness."

Mr. Wilmot replied in a very spirited man-
ner to Mr. Ritchie, and the meeting was
addressed by the Hon. Mr. Gray, who took
occasion to refute some of the many calum-
nies and mis-statements respecting himself,
that have been industriously circulated of
late, and especially a monstrous falsehood
respecting a railway proposition from Mr.
Julius Thomson of St. Andrews; this re-
ceived the most positive contradiction, in a
letter from Mr. Thomson himself, which was
read by Mr. Gray. The address of Mr. Gray
was listened to with very great attention, and
at its close, the meeting broke up, in the
most quiet and orderly manner.

THE ST. LAWRENCE.—It will be seen, by
the following extract from the New York
Courier and Enquirer, that our neighbours
are waking up to the importance of the par-
ticipation of the St. Lawrence—the natural
channel of the vast increasing commerce be-
tween western and central America and Eu-
rope.—

"One of the most admirable illustrations
of the workings of the tariff act of 1843, is
contained in the first few lines of the following
paragraph from a recent issue of the Portsmouth
Argus. The iron alluded to was brought origi-
nally from the English rolling mills, and
besides superseding the American product in
our markets, was conveyed to its destination
in the West by a route avoiding our internal
improvements, and thereby escaping even our
railroad and canal levies, by passing through
the waters of the St. Lawrence and the Lakes
free of American tolls. We commend this
paragraph to the attention of our readers; for
in its brief revelation of facts it is more elo-
quent and argumentative than a volume of
free trade essays.—

"We learn by a gentleman from Montreal,
that this summer a vessel of 400 tons
burthen, laden with railroad iron, sailed from
Quebec for Chicago—that she passed up the
St. Lawrence to Montreal, thence by the
Lake and the Welland Canal to Lake Erie,
thence by the Lakes to her port of destina-

tion. After delivering her cargo of iron at
Chicago, she, on her return, took on-board
at Lake St. Clair a cargo of staves and re-
turned to Quebec, sailed thence with her
cargo on board for Liverpool. Further, that
the rapids of the St. Lawrence, between Lake
Ontario and Montreal, have been carefully
examined and surveyed this season by ex-
perienced and skilful engineers, who reported,
that by an outlay not exceeding £10,000—
equal to \$40,000—the obstructions in the
river can be so far removed, that a loaded
vessel of 1000 tons burthen can pass down
the river from Lake Ontario to Montreal,
over all the rapids, without difficulty; and
that the same vessel can return by any of the
canals, carrying back a return cargo, equal
to half the vessel's capacity. We also learn,
that the merchants of Montreal are now ma-
turing a project for having a regular line of
steamers to run between Montreal and Liv-
erpool, when the St. Lawrence is free from
ice, and between Liverpool and Portland; in
connection with the railway, when the river
St. Lawrence is obstructed by ice."

SERIOUS RIOT.—The Lynchburg Va., Re-
publican, says: "Quite a serious riot occur-
ed on Tuesday morning last on the 4th sec-
tion of the railroad above this place, among a
number of Irish laborers. It appears that
they had been preparing for the affray for se-
veral days previous, by purchasing fire arms,
&c. Before light on Thursday one of the
parties attacked the shanties of the other party,
killing one man dead, a ball passing
through his head, and severely wounding se-
veral others. The firing was kept up for se-
veral hours. As soon as the news reached
town the military were immediately paraded,
and marched to the scene of action; but be-
fore their arrival the fighting was over, and
most of the rioters dispersed. They suc-
ceeded, however, in making several arrests, which
together with those arrested in town by the
civil authorities, numbered some forty per-
sons, all of whom have been lodged in the
jail of this place.

EARTHQUAKE AT TRINIDAD.—Trinidad,
Port of Spain, Sept. 15.—On the morning
of the 8th inst. we had a sharp Earthquake
shock. It occurred at 4 1/2 o'clock and lasted
some time. It was followed by another at
5 o'clock, which, though shorter was more
severe, and caused some little damage, prin-
cipally to the Government Buildings, splitting
walls, &c. It caused some considerable fear,
houses, &c., were completely deserted, and
the streets and squares crowded by a frightened
people.

The Packet has brought the pleasing infor-
mation that Lord Harris has, at the earnest
solicitations of Earl Grey and Lord Palmer-
ston, consented to return to us, with more
power—without which he would not accept
the office again. This is a great compliment,
and well deserved.

The weather is propitious for the growing
crops, and a fine return is anticipated. Native
provisions are plenty, and the markets are
flooded. Grenada is pouring her Yams upon
us.

BALTIMORE, Oct. 10.—There is a great
excitement in the vicinity of Cumberland
about the failure of the Maryland Mining
Company. The laborers blocked up the road,
and would not allow the loaded cars of the
company to be brought to Baltimore.
There is a bank panic in this city.

AGRICULTURAL GEOLOGY.

No class of the community have an equal
interest in geology with farmers. No sci-
ence is so interesting to farmers as geology
in connection with chemistry. The two sci-
ences cannot be separated and justice done to
either. While the elements of our globe, es-
pecially of soils, require chemical tests to de-
termine character, these very elements are
absolutely essential for experiments to de-
termine the fundamental principles of chem-
istry. Oxygen the most powerful chemical
agent in creation, is also the most abundant
material in rocks and soils. The one as an
element, the other as an agent, are alike es-
sential to each other, and both indispensable,
as at the foundation of all agricultural science,
a knowledge of each is as feasible as it is
important—entirely within the comprehensi-
on of a child six years old. Each is a sci-
ence of fact more than of abstract reasoning—
of facts, too, equally instructive and deli-
cious to every young mind.

Take an example:—The child has placed
before him two glass tumblers—the one con-
taining quartz, the other lime, or sand and
chalk. The name of each is of course as
readily learned as the name of iron, lead,
gold, rice, horse, or any other object in nature
or art. Into each tumbler is poured some
sulphuric acid or muriatic acid. In the tumbler
of lime the pupil observes an action—in that
of quartz no action. He is told this action
is called effervescence. He hence learns to
recognize lime and quartz, and the more cer-
tainly from the recollection that the one effervesces
with acids and the other does not.

Here is an example of geology and chem-
istry alike useful to the farmer and interesting
to the farmer's child, or any child. The

same simplicity and direct fundamental in-
struction run through the whole of both of
these exceedingly practical sciences.

I may hereafter point out a few of the
leading principles of these two sciences;
their essential importance to all classes; and
most of all to farmers; their exceeding fit-
ness for the early instruction of children, and
the entire feasibility of having them among
the "first lessons" taught in each of the
eighty thousand American schools.

GOOD MANNERS.—If having a hat on one's
head has saved the cranium from many a
hard thump, there cannot be a doubt that tak-
ing off one's hat at the proper times and
places has spared the owner a great many
more. Good manners are to the intercourse
of human life what oil is to machinery, lu-
bricating the course of social affairs, and
making them move smoothly and pleasantly.
The influence of little acts of civility, and
words of kindness is more potent in making
the world happier than it is easy to estimate.
It is a nice question whether mere politeness
may not often have more to do with promot-
ing the happiness of its recipients than even
the best morality, without it. Is it the effi-
cient key to all persons and places. It is
acceptable to the highest, and gratifying to
the lowest. It is not only one of the most
valuable talents, but no one of the least ex-
pensive, and may be commanded for a little
care and cost by all who desire its possession.
In short, it is the finest of "the fine arts,"
(though not commonly ranked among them),
and is far more worthy of culture than draw-
ing, music, or poetry. That it should be the
most neglected of all of them, in wonder-
ful.—American Magazine.

A FEMALE KNIGHT.—At the head of the
Legion of Honor, lately created by the Presi-
dent of the French Republic, is a widow
by the name of Brulon, who was born in
1771 and is now an officer in the Hotel des
Invalides, where she has lived for the last
63 years, enjoying the esteem and veneration
of the old companions in arms. She was the
daughter, sister and wife of military men,
who died in active service in Italy. Her
husband died at Ajaccio in 1791, after 7 years
service. In 1782, at the age of 21, she en-
tered the 42nd Regiment of Infantry, in
which her husband had served, and made
herself so remarkable, by her honorable con-
duct that she was permitted to continue in
the service, notwithstanding her sex. She
was attached to the regiment for years, and
performed seven campaigns as private soldier,
sergeant, sergeant-major, and sergeant-major.
She was wounded at the siege of Calvi, and
being rendered incapable of service, was ad-
mitted into the Hospital des Invalides. In
October 1822, she was promoted to the rank
of ensign.

THE LAST WORD is the most dangerous of
infernal machines. Husband and wife should
no more fight to get it than they would struggle
for the possession of a lighted bombshell.
Married people should study each other's
weak points, as skaters look out for the weak
parts of the ice, in order to keep off them.
Ladies who marry for love should remember
that the union of angels with women has
been forbidden since the flood. The wife is
the sun of the social system. Unless she
attracts, there is nothing to keep heavy bodies
like husbands from flying into space. The
wife, who would properly discharge her
duties, must never have a soul above trifles.
Don't trust too much to good temper when
you get into an argument. Sugar is the
substance most universally diffused, through
all natural products. Let married people take
a hint from this provision of nature.

HAD RATHER STAY HERE.—It is natural
to suppose that the papers which are being
sent back from our country to the Old World,
should make some little objections. The
other day just before the tow boat John Tay-
lor cast off from the ship, a smart and bright
looking Irish woman, who has been an in-
mate of the Lowell almshouse, having re-
solutely refused to work for her living, and
who had been placed on board by the State
authorities, to be sent back to her proper
home, lapped on board the steamer, having
made several ineffectual attempts to do so be-
fore. She disliked her accommodations, on
board the ship, which were, in her opinion,
not equal to those which she had at the
Lowell almshouse. She was placed on
board the Parliament, and carried away.

THE WELL INFORMED WOMAN.—The well
informed woman may generally be known
not so much by what she tells you, as by what
she does not tell you; for she is the last
to make pleasure in mere gossip or to make
vulgar allusion in the presence, dress or
personal habits of her friends and neighbors.
Her thoughts are not in these things. The
train of her reflections goes on, along with
the eating, drinking, visiting or scandal of the
circle in which she moves. She has a
world of interest beyond her local association,
and while others are wondering what is the
price of her furniture, or where she bought her
watch.—Mrs. Ellis.

European Intelligence.

The Arctic expedition, under the command of Capt. Austin, had returned without making any new discoveries. The return of the Advance and Rescue was known in England by an arrival from Greenland.

The news from the Australian gold regions continues to arrive, confirming of previous assertions as to the extent and richness of the supply.

The city of London was chiefly occupied with the election of civil officers for the civil year just commencing. The sheriffs were duly installed on the 30th ult.

The Times mentions that letters from Glasgow state the suspension of Messrs. Slater & Co., merchants and brokers, with liabilities for thirty thousand pounds.

Great excitement had been caused at Liverpool by the violent conduct of the Judge of the County Court towards the editor of the Liverpool Journal. For a fancied insult, contained in a placard, he had arrested and punished the editor without even issuing a warrant.

The excitement at Southampton respecting Kossuth's arrival continues unabated. He may be expected about the 6th or 7th inst. It is arranged that upon the occasion of his being presented with an address by the city of London, he will proceed to Guildhall in open carriage with Lord Dudley Stuart.

The telegraph to France was working across the channel.

The excitement at Madrid relative to Cuban affairs had greatly diminished, and the Spaniards were beginning to take great interest in home politics. The execution of Lopez seems to have satisfied them.

Prince Frederick of the Netherlands has arrived in London on a visit.

According to a letter from Vienna, in the German journals of Frankfurt, the Austrian government, to mark its dissatisfaction at the release of Kossuth, has determined to demand from the Ottoman Porte satisfaction for the persecution of the Christian population of Bosnia, and has resolved to enforce the demand by assembling a body of troops on the frontier of Turkish Croatia and Herzegovina.

Mr. Birch has resigned the situation of preceptor to the Prince of Wales. He is to be succeeded in his office by Mr. Gibbs, barrister-at-law, and Fellow of Trinity College, Cambridge.

It is with deep regret we learn that the Hon. and Rev. William Tovey Law, Chancellor of the Diocese of Bath and Wells, has resigned his living and the chancellorship, and has succeeded to the Church of Rome.

The step which he has taken was sudden and unexpected. [Western Flying Post.] It is asserted that it is not the intention of the Government to send any further reinforcements to the Cape. The employment of bloodhounds in the prosecution of the Caffre war has been recommended. Such a mode of warfare was adopted with success against the Maroons, in Jamaica, fifty years since.

Installation of a Catholic Sheriff.—On Saturday the ceremony of administering the oath to Thomas Couterell, Esq., citizen, and cordwainer, and James Swift, Esq., citizen, and spectacle maker, the sheriffs of London for the year ensuing, took place at the Guildhall, with the customary observances. The remarkable occurrence of the day was the appearance of Father O'Connor, of Islington, a Romish priest, in full canonicals, as chaplain to Sheriff Swift, who is of that persuasion, being the first time that any clergyman of the Roman Catholic faith has officiated in any civic ceremonial since the reign of Henry VIII., a period of 300 years.

Louis Napoleon, it is said, meditates a similar coup d'état by which his uncle purged the Tribunal of his personal enemies and sent them to perish in the marshes of Cayenne. On the present occasion the President has formed the idea of getting rid of some forty or fifty Red Republicans, in order to clear the ground for the accomplishment of his traitorous designs against the Republic. There continues to be very angry feelings in the departments. The National Guards have been disbanded in several districts. The Marquis of Londonderry has made another unsuccessful attempt to induce Louis Napoleon to release Abdel Kader from prison, and it is probable the poor old captive will end his days there.

The inhabitants of a whole town have been massacred in the central Sahara of Africa, by a band of Arabs. Prince Frederick William Charles of Russia died on the night of 25th September, at the Royal Palace of Berlin. He was brother of the late monarch, and uncle to the reigning sovereign. This prince has always taken an active part in political and military affairs, and by his death the present vacillating monarch of Prussia loses an able councillor.

We learn from Spain that a gentleman from Cuba is on his way to England, to induce Lord Palmerston to guarantee Cuba to Spain, and at least to protect the colony from future foreign buccaneering attempts. The temptation offered for this guarantee is said to be the suppression of the slave trade, by a complete emancipation, at a future and not very distant period; the payment of a million annually to Spain, exclusively of maintaining an adequate military and naval force in the island; and a fair participation, to native Cubans, of places of trust and honour under the Government.

Austria and Turkey.—According to a letter from Vienna, in the Frankfurt Journal, the Austrian Government, to mark its dissatisfaction at the release of Kossuth, has determined to demand from the Ottoman Porte satisfaction for the persecution of the Christian population of Bosnia, and has resolved to enforce the demand by assembling a body of troops on the frontiers of Turkish Croatia and Herzegovina.

EGYPT.—The London Times says, the news from Egypt relative to the dispute between the Pasha and the Porte, which threatened to stop the construction of the Railway, has caused much excitement among all parties interested in the overland communication with India. A public meeting is to be convened in London on the subject.

LATEST FROM CANADA.—THE NEW ADMINISTRATION.

We last evening received information from Toronto, that a new Executive has been formed in Canada, as follows:—Inspector General, Mr. Hincks; President of the Council, Dr. Rolph; Postmaster General, Malcolm Cameron; Commissioner of Crown Lands, William Morris; Attorney-General for Canada West, W. B. Richards; same for Canada East, Mr. Drummond; Provincial Secretary, Mr. Morin. Three other appointments remain to be made in order to complete the Government, which it is thought will be the best that Canada has ever had.

By the above list it will be clearly seen, that men who have heretofore differed widely in their politics, are combined to form an administration which will possess the strength and stability requisite to carry out the public business of Canada at this anxious crisis, and give full effect to measures calculated to promote Colonial interests generally. [New Brunswick.]

VERY LATE AND INTERESTING FROM THE CASE OF GOOD HOPE.—The bark Springbok, Captain Hurd, from Cape Town, at Boston, brings dates to September 3d.

Advices from Grahamstown to August 16th have been received, which state that since the last post the work of destruction is still going on around us. Murders and robberies by the Kafirs, continue at Somerset, and great distress prevails on account of a severe drought, as well as Kafir depredations.

Cattle, sheep and horses are perishing for the want of food. Enemies, principally Kafirs are numerous in the neighbourhood. A dreadful hurricane had swept over the Missionary stations at Umtatweni, materially damaging the Washington chapel, &c.

Intelligence from Fort Hare announced that the Kafirs and Hottentots are in such force near the General's tent, that he can do nothing with them.

The frontier posts are greatly distressed for supplies. At Alice, meat was selling from £5 to £6 10s. per 100 lbs. The inhabitants were daily looking for fresh intruders of the savages.

St. Lawrence and Atlantic Railroad.—The St. Francis (Canada) Telegraph says:—The track of the St. Lawrence and Atlantic Railroad is laid to within a very short distance of the village of Richmond, which it is expected to reach this evening or to-morrow morning. We are authorized to say that the celebration will take place at Richmond on the 16th instant, and the road will be open to the public on the 20th, as will be seen by advertisement. We regret that His Excellency the Governor General will be prevented by important business from attending the celebration.

TRUMPET OF HON. R. D. WILMOT.—We give this morning the returns of the election, which results in an overwhelming majority in favor of Mr. Wilmot. We are much gratified at this; and we have no sanguine hopes that, as the Government have a fair working majority, they will be able to bring forward and carry those measures which will be for the benefit of the Province. As Protectionists, and opposed to a one-sided free-trade, we feel well pleased to see that the principle of Protection to our home labor is gaining ground. The following are the results at the several polling places, as correct as we could ascertain:

	Wilmot	McLean
City—Sidney Ward,	50	18
Dukes "	60	39
Queens "	92	36
Kings " west,	51	41
Kings " east,	110	62
Carleton,	116	12
Portland,	54	75
Lancaster,	129	38
Saint Martin,	59	180
Loch Lomond,	106	76
Black River,	76	12
Red Head,	14	3
Total,	917	592

Majority for Wilmot, 325. Speeches were made, after the election, at the Court House, when it was known that Wilmot triumphed, by Messrs. John H. Gray, S. K. Foster, and John Hooper.

The several polls will be summed up by the High Sheriff, and the declaration of the result will take place at the Court House, to-day, at 11 o'clock. [St. John Morning Times.]

Agitating scene in Church.—Our correspondent at Hanover, N. H., informs us that last Sabbath (Oct. 12) in the morning at the College Church at Dartmouth College, as the clergyman had proceeded a little way in his sermon, the front door was suddenly opened and a person in night clothes entered and walked rapidly up the broad aisle, some distance when he was arrested and carried out. His ghastly countenance and delirious look at once revealed the truth: that Thos. B. Mack of the senior class, from Gilmanton, sick of typhoid fever, had escaped from his sick chamber in the momentary absence of his attendants and was on his way to his accustomed seat in church. The agitation of the audience may easily be conceived. Order, however was restored, and the services were finished in the usual course. The young man died on Monday at 11 o'clock, having been sick but five days. He was the son of An-

drew Mack, Esq., of Gilmanton, N. H., and was a young man of piety and promise.—Boston Traveller.

THE STANDARD.

St. Andrews, Wednesday, Oct. 22 1851

Arrival of the Steamship

America.

The Mail Steamer America, with the Mail of the 4th September, arrived at Halifax on Wednesday afternoon, in eleven days from Liverpool. She had 108 passengers. A summary of news will be found in our columns.

IMPROVEMENTS AT WOODSTOCK.—It is with pleasure, that we copy the following article from the Carleton Sentinel of the 14th inst. The inhabitants of that beautiful and fertile section of this Province, are up and doing—every thing they put their hands to, appears to thrive—their business is increasing, and they have been blessed with abundant crops. The fact is, the people are industrious and enterprising; already they take the lead of most other parts of the Province in iron castings made from Woodstock iron—new buildings are in course of erection, a large steamer is on the stocks, a steam saw-mill is building—their mechanics manufacture such articles as are required, supplying the market with domestic instead of imported articles—and that but by no means least, the County paper, the SENTINEL, is much improved in appearance and management, and is one of the best papers in the Province. In a word, Carleton's motto is PROGRESS—consequently its march will be onward. The Sentinel says:—

We can scarcely keep up with the improvements going on and around our village, or find room to give each a notice in the Sentinel. But a few days ago we stated that Mr. Connell was building a Steamboat to run between Woodstock and Fredericton, and one which, from present appearances, will take the lead of any ever built in the Province. New buildings are constantly going up in some parts of the village; last week two were raised, one of which will add much to the appearance, and the other to the business of the place. The first is a large dwelling house erected by Charles Perley, Esq., opposite the Episcopal Church; the other is owned by Mr. James Hayden, and is intended for a Steam Saw Mill; it is situated on the bank of the river, opposite the Baptist Chapel; a better site could not be selected, and we sincerely hope the enterprising proprietor may meet with the success he merits. We have more than once spoken of Mr. Hey's Foundry, which continues to turn out work of a superior order. We have heard several speak of the stoves cast at this Foundry, as being decidedly superior to any others cast in the Province, and equal to any imported. The same may, with justice be said of all the other work done here. One advantage possessed by this Foundry over all others in the Province is, that any quantity of beautiful moulding sand can be obtained within a few rods of the building. Five or six new stores have been opened in the village this season, and we understand more are to come this fall. But a short time ago we had neither a baker or a butcher in Woodstock—now we have two of the former and three of the latter, and to judge from appearances, all are doing a profitable business. Our wagon-makers have stopped the importation of American wagons into Woodstock, as they are manufactured here equal in quality to the best brought from Concord. Indeed we might go on enumerating improvements until our sheet was filled, without mentioning all. These things may appear trivial to persons living in large cities, but they must remember that Woodstock is but yesterday's growth. We are only emerging from the wilderness, but the inhabitants are enterprising, and evince a disposition to make this, in a very short time, the first inland town in the Province.

HON. R. D. WILMOT.—This gentleman has been re-elected a member for St. John, by a large majority, 325 over his opponent Mr. McLean, notwithstanding the extraordinary efforts and mean subterfuges of Messrs. Ritchie & Co. The facts in the statements of his enemies were tried in the public balance, and were found wanting—in truth; consequently the yeomanry of St. John, elected him. Mr. Wilmot stuck to his "text," and the electors again placed that confidence in him, which he proved himself worthy of.

FIRE.—We regret to learn that the dwelling house of Mr. Ebenezer Dojen, at Oak Bay, together with his barn, grist mill and carding machine, were totally destroyed by fire on Friday night last. We understand Mr. Dojen's loss is very great, including his entire property, amassed after many years of hard labor.

On Sunday morning last, the Saw Mills at Middle Landing, St. Stephen, known as the "Union Mills" were burnt to the waters edge, together with a large quantity of lumber.

The mills were owned by Messrs. F. H. Todd, Abner Hill, E. McAllister, Whitney, and Stickney. The total loss is estimated at \$35,000.—Mr. Todd has \$5,500 insured, and Mr. Hill \$1000, the other gentlemen had no insurance.

FRUIT TREES.—We beg leave to direct attention parties requiring fruit trees, to the advertisement of Mr. Sharp, in our columns this-morning. His nurseries are said to contain the best varieties of grafted Apple and Plum trees, ever offered for sale in this Province. As the trees are grown in the vicinity of Woodstock, they are suited to this climate, and would be more likely to thrive and bear, than those imported from Boston or New York.

The St. John Morning Times, is the title of a new paper published in that City three times a week, some numbers of which are before us. It is well printed, ably conducted, contains a large amount of reading matter—and makes a respectable addition to the newspaper literature of the Province.

Price 10s. per annum, 12s. 6d. at the end of the year. We wish its publisher, Mr. Ross Woodrow, success.

LATER FROM CALIFORNIA.—The U. S. Mail Steamer Illinois, from Chicago October 10th, arrived at New York on Saturday last.

Among the passengers in the Illinois are seven persons who have made at the mines 100,000 dollars.

Crime had most sensibly diminished in the State, and no execution had taken place since the sailing of the last steamer.

San Francisco has recovered from the two great conflagrations of May and June, and has been rebuilt in a far better style than before. Numerous fireproof brick and stone buildings have been commenced. Altogether, the condition of affairs in the State is highly satisfactory.

The gold-diggings continue to yield returns to the laborers of the miners. The auriferous quartz veins are being extensively worked, and generally with great success. The amount shipped by the steamer which leaves to-day, \$1,700,000, exhibits no falling off in the production of gold in our State. In the dry diggings miners are only waiting for the rainy season, to take out large amounts of gold.

The Annual Show and Fair of the York Agricultural Society was held here as anticipated in our last, on Tuesday, and as far as we can understand gave the most general satisfaction. The Root Crops exhibited, far exceeded our expectations, and as for the grain it surpassed, we believe, any specimens hitherto displayed in the Province. There were wheat, barley, bulled barley by Mr. McFarlane of Douglas, buckwheat, and oats of an extraordinary quality; this will be easily understood when we state that samples of the former weighed 68 lbs.—and of the latter 50 lbs. per bushel. Then there were potatoes, carrots, beets, turnips, and Mangel Wortzel of the largest growth, pumpkins, one of which, raised by the Hon. Judge Wilmot, weighed 148 lbs., and several fine Honey Combs, by E. H. Wilmot.

In stock, especially, the exhibition of the present year was decidedly superior to the last; nor is it saying too much to state that some of the young cattle would not have disgraced the most imposing exhibition on this side the Atlantic.

It gives us sincere pleasure to be able to announce these pleasing results of another year's industry, and progress. The Officers of the Society have to our certain knowledge spared neither time nor pains in making themselves acquainted with the real state of Agriculture in the County, and in communicating such information practical and theoretical to the farmers, as their means would allow. Capt. MacLaughlan, the president, has visited in succession every parish in the County, and has on all occasions displayed the most lively interest in the progress of the Society, impressing upon the now awakened farmers the necessity of Union among themselves—for the improvement of their stock by procuring breeds from abroad—and this imperative need for the introduction of Farming Machinery in a county where manual labor is so expensive. Mr. Beck with as Secretary of the Society also attended the several shows, and contributed much to the improvement of the present season. In the evening, the Society partook of an excellent dinner at the North American Hotel.—Reporter.

BOAT RACE.—Yesterday at 1 o'clock, the rowing match previously arranged between the Carleton and Indian Town Rowers, for £100 a-side came off, when the Indian Town boat Xyphias, which being fitted with outriggers and a new hand, to replace one of the former rowers, beat the Carleton boat easily. Another race between the Mystery, and Blue-note, rowed by boys under 19 years of age, for £10 a-side was also rowed, which was taken by the Mystery. In the instance of the boy's race, the losing boat entered a protest in consequence of some interruption—the race was rowed again to day, and terminated in favour of the Blue-note. The Xyphias and Mystery were built by Mr. Sterling of this City.—Chronicle.

The gale which occurred in the Gulf of St. Lawrence and continued to blow the 3d, 4th, and 5th instant, has caused the loss of fifty fishermen from Truro, mostly young men, the main supporters of that community.

ACCIDENT.—On Wednesday evening last a horse and wagon, the property of Dr. Peters, loaded with provisions, was standing on the ferry float, unattended by the driver, when from some cause unknown, the animal started, and without stopping plunged completely over the end of the float, and sunk. The wagon has we learn, been since got up, but the horse and cargo have proved a dead loss.—Chron.

The death of James Buchanan, Esq., formerly the British Consul in New York, is recorded in the Montreal papers. He died at Elmwood, near that city, in the 51st year of his age.

The American steamship Atlantic, Capt. West, which sailed from Liverpool on 1st October, arrived at New-York on the morning of the 15th.—She was detained 49 hours by derangement of her machinery, and head winds the whole passage.

Subscribers indebted for the Standard, will be called upon during the present month, when it is expected they will pay our collector.

Wanted.

At this Office, TWO BOYS from 12 to 16 years of age, to learn the Printing business.

FARMING STOCK & C. BY AUCTION.

On SATURDAY next at 11 o'clock A. M., the Subscriber will sell by Auction, at the residence of Mr. N. Lawrence, Bay side, about a mile from Mr. John McDoull's farm, all his Farming Stock, Crops, furniture, &c.

Terms at Sale. W. MacLEAN, Auctioneer.

St. Andrews, 22nd Oct. 1851.

FRUIT TREES.

THE Subscriber has received of the Subscriber, consisting of nearly Forty Thousand Trees, are now offered for the inspection of the Public and for sale. Persons planting these Trees may be assured of success, as every possible precaution has been used in the selection of varieties, all that have not proved hardy, have been at once discarded, and those which have not yet fruited here have been propagated with the advice of the most distinguished cultivators of New England and Canada.

The Subscriber flatters himself that his assortment is unrivalled for the climate, as it contains nearly all the varieties of Apples and Plums which have proved valuable in cold and extreme climates, with many new and splendid sorts lately brought from Russia, England, Germany, Canada, and the Northern States.

Price of Grafted Apple Trees, assorted, one shilling each.—Any person or number of persons ordering 1000 or upwards in one lot may, if desired, have a credit of two or three years for half the amount, and receive the trees free of freight at any place within the Province.

FRANCIS P. SHARP.

Woodstock, Oct. 22, 1851.—31.

MR. BOYD has returned from England to New Brunswick, and may be engaged, presently, at the office of William D. W. Hubbard, Esquire.

J. WILLIAM BOYD, Barrister at Law, Notary Public, Conveyancer and General Agent. Business of Foreigners understood and carefully attended to. St. John, Oct. 14, 1851.

NOTICE.

A DIVIDEND OF THREE PER CENT, on the Capital Stock of the Charlotte County Bank, has been declared payable on or after the 4th proximo.

C. C. Bank, 11th Oct. 1851. J. RODGER, Cashier.

DAGUERREOTYPES.

FOR ONE WEEK LONGER.

MR. P. BABIN, WOULD respectfully announce to the Ladies and Gentlemen of this Town and vicinity, that he has taken rooms, (for a few days only) next door to Mr. D. Clarke's shop. Mr. Babin would invite the attention of all in want of Miniatures, to call immediately, as he will remain but a very short time.

Mr. B. will be happy to have all call and examine his specimens, whether they wish for pictures or not. No charge will be made unless satisfaction be given.—Pictures taken in cloudy as well as in fair weather, except children, who should be brought in during fair weather about the middle of the day. Instruction given with all the latest improvements; and apparatus furnished on reasonable terms.

N. B. Mr. B. will also teach sketching on a new system, specimens to be seen at his rooms. St. Andrews, Oct. 13, 1851.

WHISKY.

Per "Sophia," from Greenock. 1 Puncheon best MALT WHISKY. Oct. 11, 1851. J. W. STREET.

Earthenware.

Just received per the Olive, from Liverpool via 11 Crates well assorted Earthenware. Oct. 11, 1851. J. W. STREET.

HOUSE AND LAND FOR SALE.

THE Subscriber offers for sale, his Property on St. Andrews Island, consisting of 16 Acres of excellent LAND, under cultivation, which cuts from 3 to 4 tons of Hay, annually. On the premises are the Frame of a new Dwelling, also, an old House. For terms, &c. apply to October 15, 1851. JAMES MELONEY.

1st. In all cases where parties shew fish a cer-
tificate from 2 members of the society as to the ac-
tual quality caught will be necessary.

2nd. All fish for competition must be delivered
at Walspool to D. Bennett, Esq. Secretary,
(who will give a certificate for the same) not less
than one day previous to the exhibition.

JAMES BROWN Esq. J. P. and Mr. JOSEPH
PATER who will choose an umpire, will act as
judges upon the occasion.

By Order of the Board,
D. BENNETT,
Secretary.

Meeting of Courts.

The Courts of Oyer and Terminer and
General Jail Delivery and Nisi Prius for the
said County will be held at the Court House
in St. Andrews, on Tuesday 4th day of No-
vember next, at 12 o'clock.

At which time and place all Magistrates,
Coroners, and Constables of said County,
and all persons required to be at these
Courts, are hereby Publicly Notified to give
their attendance.

By Order of Her Majesty's Justices,
THOS. JONES,
Sheriff of Charlotte.

St. Andrews, August 27, 1851.

TO LET.

IN consequence of the Admiralty
having ordered the remaining Stores to
be sold off, the Government Property
at Walspool, Campobello, WILL
BE LET for a term as may be agreed upon.—
The property consists of Provision Stores, Boat-
House, Coal House, and Sail Loft; is well situ-
ated, the stores spacious, and admirably adapted
for doing an extensive business in dry, pickled
and smoked fish. Any quantity of salt, iron,
paint, paint oil, and of British staple and Fancy
Goods, can be disposed of to advantage by whole-
sale or retail, owing to its proximity to the United
States.
Campobello, August 19, 1851.

PROFESSIONAL LIFE ASSURANCE
Company.
ADMITTING, ON EQUAL TERMS, PERSONS OF EVERY
CLASS AND DEGREE,
TO ALL ITS BENEFITS AND ADVANTAGES.

tors, assured for not, their widows and orphans,
together with five per cent. per annum on the ca-
pital originally invested by them.

JUDSON'S
CHEMICAL EXTRACT OF
CHERRY AND LUNGWORT,
FOR THE CURE OF
Coughs, Colds, Hoarseness, Spitting
of Blood, Night Sweats, Asthma,
Liver Complaints, and
CONSUMPTION.

DO NOT NEGLECT IT.
CONSUMPTION.
Can be and has been cured in thousands
of cases by this only certain remedy.

JUDSON'S CHEMICAL EXTRACT OF
CHERRY AND LUNGWORT,
and no remedy has ever before been discovered
that will certainly
CURE CONSUMPTION.

The most strongly marked and devel-
oped cases of Pulmonary Consumption,
where the lungs have become diseased and
ulcerated and the case so utterly hopeless,
as to have been pronounced by Physicians
and friends, to be past all possibility of re-
covery, and at times thought to be dying,
has been cured by this wonderful remedy,
and are now as well and hearty as ever.

It is a compound of medicaments which are
peculiarly adapted to and essentially neces-
sary for the cure of
COUGHS AND CONSUMPTION.

Its operation is mild, yet efficacious; it
focuses the phlegm which creates so much
difficulty, relieves the cough and assists
nature to expel from the system all diseased
matter by exhalation, producing a most de-
lightful change in the breathing and chest,
and this, after the prescriptions of the very
best medical men and the inventions of
kind-sorrowing friends and Nurses, have
failed to give the smallest relief to the Con-
sumptive sufferer.

THOUSANDS OF CONSUMPTIVE
persons have been deceived in buying me-
dicines which were said to be infallible
cures, but which have proved only pallia-
tives, but this medicine is not only a pallia-
tive but a cure for advanced lung. It con-
tains no deleterious Drugs and one trial will
prove its astonishing efficacy better than
any assertions or certificates in curing con-
sumption and all diseases of the Lungs,
such as Spitting of Blood, Coughs, pains
in the side and chest, night sweats, &c. &c.

About 1000 certificates of almost miracu-
lous cures, performed by this medicine,
from some of the first Doctors, Clergymen,
and Merchants, have been sent us for this
medicine, but the publication of them looks
too much like Quackery, [will show them
to any person calling at our office.] This
medicine will speak for itself and enough in
its own favour wherever it is tried.

Caution.—This medicine is put up in a
large bottle and you must find the name of
Comstock & Brother, Proprietors, New
York, on the splendid Wrapper around the
bottle. All orders must be addressed to
Comstock & Brother, No. 9, John St.,
New York.

TO OWNERS OF AND DEALERS
IN HORSES.

CARLTON'S FOUNDER OINTMENT.
For the cure of Founder, Split Hoof,
Horn-bound Horses, and contracted and Fe-
verish Feet, Wounds, Bruises in the flesh,
Galled Backs, Cracked Heels, Scratches,
Cuts, Kicks, &c., oh horrors.

CARLTON'S RING-BONE CURE.
For the cure of Ring Bone, Blood Spavin,
Bone Spavin, Windgalls, and Splint—a
certain remedy.

CARLTON'S CONDITION POWDERS
FOR HORSES AND CATTLE.
The changes of weather and season, with
the change of use and feed, have a very
great effect upon the blood and sinuous
fluids of horses. It is at these changes they
require an assistant to nature to throw off
any disorder of the fluids of the body that
may have been imbibed, and which, if not
attended to, will result in the Yellow War,
Heaves, Worms, Bots, &c. All of
which will be prevented by giving one of
these powders, and will at any time cure
when any symptoms of disease appears, if
used in time. They purify the blood, re-
move all inflammation and fever, loosen the
skin, cleanse the water, and invigorate the
whole body, enabling them to do more work
with the same feed. The action of these
powders is direct upon all the secretory
glands, and therefore have the same effect
upon the Horse, the Ox, the Ass, and all
Herbivorous animals—all diseases arising
from or produced a bad state of the blood,
are speedily cured by them. Remember
and ask for CARLTON'S CONDITION
POWDERS, and take no others.

CARLTON'S NERVE AND BONE
LINIMENT FOR HORSES,
and for the cure of all diseases of man or
beast that require external application, and
for contracted cords and muscles, strength-
ens weak limbs, and is also used for sprains,
bruises, saddle galls, swollen legs, sores of all
kinds on horses.

Carlton's articles for Horses and Cattle
are prepared from the recipe of a very cele-
brated English Farrier, and will cure in
ninety nine cases out of one hundred any
of the above complaints. They have been
used by Farmers, liverymen, stage proprie-
tors and others, with the most marked and
decided success.

ASSIGNEES SALE.

THE Undersigned will sell at Public Auction,
on Saturday, the eleventh instant, at eleven
o'clock, A. M., at the store of Hugh Ludgate, in
St. George:
ALL the outstanding debts due to the estate of SILAS
WILLIAMS, consisting of—Notes of Hand, and
Book accounts. Also, one Pew in the Baptist
Meeting House in St. George, aforesaid. Terms
made known at the sale.

ISAAC KNIGHT,
SIMEON HOWE,
HUGH LUDGATE.

St. George, Oct. 1, 1851.—H

CAUTION.—None can be genuine unless
you find the name of J. Carlton Comstock
on the wrapper of each article.

COMSTOCK'S VERMIFUGE.

This is the most extraordinary remedy
for Worms ever used; it effectually ex-
pels Worms from both adults and children.
It cannot harm the most delicate infant or
strongest adult, and never fails to comple-
tely root out and destroy all kinds of Worms.
The cost, 25 cts. per bottle, puts it within
the reach of all, and all parents who are
without it are wantonly exposing the lives of
their children to those fell destroyers of
youth, "Worms." Look for the name of
Comstock & Brother, proprietors, on the
wrapper of each bottle.

RHEUMATISM.

Comstock's Nerve and Bone Liniment, is war-
ranted to cure any case of Rheumatism, Gout,
Contracted Cords, and Muscles, or stiff joints,
strengthens Weak Limbs, and enables those who
are crippled to walk again. Comstock & Bro-
ther, Proprietors, New York, and none genuine
without their name on the wrapper.

TOOTHACHE.

Dr. KLINE'S Drops, for the cure of the Tooth-
ache. It is with confidence that we can recom-
mend it as an infallible cure in all cases, without
any injury to the teeth or gums. Price 25 cts.
CARLTON'S LINIMENT FOR THE PILES, &c.
It is now used in the principal hospitals, and in
the private practice, in our country by an im-
mense number of individuals and families, first
and most certainly for the cure of the PILES, and
also extensively and effectually to soothe credu-
lity unless where its effects are witnessed. Exter-
nally in the following complaints:—

For Dropsy.—Creating extraordinary absorption
at once. Reducing them in a few
hours. Rheumatism.—Acute or Chronic, giving
immediate ease. Sore Throat.—By Canons, Ul-
cers, or Colds. Croup and Whooping Cough.—Ex-
tensively used over the chest. All Bruises, Sprains,
and Burns, Curing in a few days. Sores and Ul-
cers.—Whether fresh or long standing, and in-
fernal sores.

Its operation upon adults and children in re-
ducing rheumatic swellings, and loosening cords
and tightness of the chest by relaxation of the
parts, has been surprising beyond conception.

CAUTION.—All of the above named articles are
sold only New York by Comstock & Brother, No. 9,
John Street, five doors from Broadway.

Sold also in St. Andrews, by Odell & Turner,
D. Clarke, S. E. Tiley, St. John, L. Ryder,
S. Stephen, J. W. Braxley, Frederickson, B.
Ferguson, Walspool; G. Spear, Robinson;
also by our Agents in every Town in New Brun-
swick. Enquire for Comstock's Almanac for 1852,
which is given gratis.

CURES

SHERIFFS SALES

to take place at the Court House.

Real Estate of William Porter Dec. 10

To be sold at Public Auction, on Saturday, the 15th FEBRUARY, 1851, at 12 o'clock, at the COURT HOUSE, in St. Andrews.

ALL the right, title, interest, claim and demand whatsoever, of WILLIAM PORTER, of in and to the following properties, viz:

All that Lot of land situated in the Parish of St. Stephen, conveyed by John Dunn, to the said Wm. Porter, by deed dated 13th Jan. 1827, beginning at the Eastern corner of the lot upon which Aaron Upton resides, 300 feet from the corner of the street, making the angle of the road leading from the Public Landing to the country Northwards, and the road leading down the river towards the ledge, thence running the extent of the side line of garden lot No 5, thence across the rear of lots No 5 and 6, thence on the back line to said Aaron Upton's lower line, thence on the line between the lot formerly owned by James Nicholson and the said Aaron Upton, to the first named boundary, containing about one Acre and a quarter.

All that Lot of Land in the same Parish, conveyed by Mary Nicholson to the said William Porter, by deed dated 13th September 1833, bounded South by the main street leading through St. Stephen towards Oak Point, West by a lot owned and occupied by Aaron Upton, North by a lot belonging to the estate of the late Peter Christie, and East six feet from the house in which the said Mary Nicholson then resided, by the said lot purchased from John Dunn, containing one quarter of an acre.

All of those two lots of land in the same Parish, known as Lots No. 12 and 18 of the tract formerly belonging to Robert Pagan Esq. the said lot No 12 fronting on the ledge road, and being 160 feet in width on the road, and 177 feet in rear, and 165 feet in length, the said lot No 18, fronting on a road 3 rods wide, laid off in rear of lot No 12, and extending back 165 feet to the line of N. Marks' land.

The Eastern half and front of a lot of land in the same Parish, in part occupied by Jas. C. Bixby.

All of that lot or parcel of land at the ledge, so called, in St. Stephen, formerly owned by the late Joseph Porter, and purchased by him from Michael Young.

All of that lot of land at the ledge, afore said, conveyed by Michael Young to the said Wm. Porter, by deed dated 3d of August, 1835, commencing at a road leading from the main road to Young's Point, and running at right angles with said road 120 feet, thence parallel with said road 160 feet, thence parallel with said wharf, to low water mark, thence past the end of said wharf up stream, until it meets the Eastern line of lands formerly of Joseph Porter, deceased, thence following said line to the said road, thence along said road to the first mentioned boundary.

All that Lot of Land at the ledge afore said, conveyed by the said Michael Young to the said Wm. Porter, by deed dated 27th January, 1840, on the south easterly side of a lane on the south easterly side of Lot No. 121, in the 5th Division of the Penobscot Grant, thence by said lane N. 15° 20' E. 17 rods and 23 links to the south side of a road 3 rods wide, running S. 78° 30' E. 8 rods to a stake and stones, thence S. 2° W. passing 35 feet from the north east corner of Porter's Wharf, thence westerly by low water mark to the easterly line of said Lot, sold to Porter, and following the several courses of the lot easterly, northerly and westerly, to the place of beginning, containing 3 acres.

All of that Lot of Land in the Parish of St. Stephen, conveyed by Thomas Hasty to Wm. Porter, by deed dated 31st July, 1832, being farm lot No. 29 in the 2d Division, granted to James Fraser, in the grant to Joseph Porter and others, containing 100 acres.

And also all other real estate belonging to the said Wm. Porter, situated in the County of Charlotte, not included in the above list. The same having been seized and taken to satisfy an execution issued out of the Supreme Court, at the Suit of the President, Directors, and Company of the Commercial Bank of New Brunswick, indorsed to levy \$1133, 16s. 8d. besides Sheriff's Fees, &c.

THOS. JONES, Sheriff of Charlotte, July 31st 1850.

The sale of the above mentioned property is postponed until Wednesday the 25th May next, then to take place at 12 o'clock at the Court House.

THOS. JONES, Sheriff of Charlotte, St. Andrews, Feb. 15, 1851.

The Sale of William Porter's Properties is further postponed until Friday the 1st August next, at 12 o'clock.

THOS. JONES, Sheriff of Charlotte, St. Andrews, July 1, 1851.

The Sale of William Porter's Properties is further postponed until Saturday the 13th September next, at 12 o'clock.

THOS. JONES, Sheriff of Charlotte, St. Andrews, Aug. 1, 1851.

The sale of William Porter's properties, advertised to take place on the 13th September, is further postponed until Wednesday, the 10th day of December next, at 12 o'clock.

THOS. JONES, Sheriff of Charlotte, St. Andrews, Sep. 10, 1851.

CAIAIS HOUSE, CAIAIS, STATE OF MAINE.

THE subscriber, in tendering thanks to his former patrons and friends, the inhabitants of New-Brunswick, and especially of St. Andrews, for the patronage they have heretofore afforded him, respectfully advises them and the Public generally, that his Establishment, the CAIAIS HOUSE, is again open for the reception of company, renovated and fitted-up, he believes, to suit the taste of the most fastidious, where it will give him pleasure to serve his former customers, and the travelling public generally, and promises to use his best exertions for their comfort.

HENRY BATES, Calais, June 24, 1850.

HEALTH where 'tis SOUGHT!

Holloway's Pills.

CURE OF A DISORDERED LIVER AND STOMACH, WHEN IN A MOST HOPELESS STATE.
Extract of a Letter from Mr. William Harvey, of Chapel Hill, Scotland, dated the 15th of January, 1850.

Sir—Your valuable Pills have been the means, with God's blessing, of restoring me to a state of perfect health, and in a time when I thought I was on the brink of the grave. I had consulted several eminent doctors, who after doing what they could, former, stated that they considered my case as hopeless. I was a last resource, got a Box of your Pills, which soon gave relief, and by persevering in their use, I am now perfectly cured, and in the enjoyment of myself and every body who knows me.

(Signed) WILLIAM HARVEY, CURE OF A CASE OF WEAKNESS AND DEBILITY, OF FOUR YEARS' STANDING.
Extract of a Letter from Mr. Smith, of Newcastle, dated Dec. 1849, 1849.

To Professor Holloway, I beg to inform you that for nearly five years I have known what it was to have a day's health suffering from extreme weakness and debility, with constant nervous headaches, giddiness, and sickness of the stomach together with a great depression of spirits, I used to think that nothing could benefit me as I had been to many medical men some of whom after doing all that was in their power, informed me that they considered that I was some spinal complaint, beyond the reach of cure, together with a very disordered state of the stomach and liver, making my case a complicated one, nothing could be done for me. One day being unusually ill and in a dejected state, I saw your Pills advertised, and resolved to give them a trial, more perhaps from curiosity than with a hope of being cured, however I soon found myself better by taking them, and in a few days, feeling better, I took one for six months, when I am happy to say they effected a perfect cure.

(Signed) WILLIAM SMITH, (frequently called EDWARD) CURE OF ASTHMA, OF TWENTY YEARS' STANDING.
Extract of a Letter from Mr. J. K. Heydon, 78 King Street, Sydney, dated 10th of November 1849.

To Professor Holloway, I have the pleasure to inform you that my extraordinary cure of Asthma, has been effected here by means of your Pills. One is that of a Lady residing near the "Razorbuck", who after having for twenty years been unable to make the slightest exertion, suffering from a great shortness of breath, coughing, and spitting, but is now, to use her own expression, able to run up to the top of the mountain. Another case is that of Mr. Eaton, Tailor, High Street, Bathurst, New South Wales, who was so dreadfully bad that he was confined entirely to his bed-room for six months, prior to his commencing with your Pills, and attended regularly by a medical man, who pronounced him to be in a dying state, yet he, likewise, by my knowledge, has been restored to perfect health by the use of your Pills, and rubbing your Ointment night and morning into his chest.

(Signed) J. K. HEYDON, ANSTONISHING CURE OF THE EARL OF ALDBOROUGH.
By this Miraculous Medicine I after every other means had failed!

A Copy of a Letter from the Earl of Aldborough dated Villa Mission, Leghorn, 21st Feb. 1845.

Various circumstances prevented the possibility of my thinking you before this time for your politeness in sending me your PILLS as you did. I now take the opportunity of sending you an order for your PILLS, and at the same time, to add that your PILLS have effected a cure of a disorder in my Liver and Stomach, which all the most eminent of the Faculty at home, and all over the Continent had been unable to cure, may I not even the waters of Carlsbad and Marienbad. I wish to have another Box and a Pot of Ointment in case any of my family should ever require either.

I remain, with much respect,
Your most obliged and obedient servant,
(Signed) ALDBOROUGH.
