LONDON STATISTICS.—According to a return issued from the Registrar General, the estimated population of London within the sanitary limits is 3,356,073. The metropolis has an area of one hundred and twenty-two square miles; it extends down the Thames from Falmouth to Woolwich and climbs the hills up to Hampstead on the north, Norwood on the south side of the dividing tidal river crossed by seventeen bridges, and partly fringed by a fine embankment. The mean elevation of the houses above Trinity high water mark at the last determination was thirteen yards; but the elevation ranges from four yards below in Plumstead Marshes to one hundred and forty-three yards in Hampstead above that mark. The hills are higher than the hills of Rome; the river at night reflecting thousands of lights, reflects the river. The average daily supply of water is 514,209 metric tons, and the annual rateable value of property is 29,000,000 sterling. Last year the number of births was 321,100 in 53 weeks, or 2,285 weekly; and the deaths were 76,634, or 1,446 weekly, the excess of births over deaths was 14,466 or 839 weekly. This excess comes near the estimated increase of population, so the actual agrees with the natural increase; but there is a continual outflow of people born in London, and inflow of people born in the rest of the kingdom or abroad.

WATERSPOUT IN THE CHANNEL.—Mr. Charles Stewart, F.R.S., writes to the London Times from Alton.
"A waterspout was seen on Friday by the passengers on board the steamship Havre, while crossing from the Channel Islands to Southampton. When about 25 miles north by east of Alderney, a heavy, very dark cloud advanced from north by west in the direction of the ship. Rain fell heavily from the nimbus on the under side of the cloud, and just above the nimbus, which I estimated to be about a mile in height, the waterspout, in the form of an inverted cone, suddenly formed and increased from the base downwards to the extent of about one fourth of the distance of the base from the sea. If my estimate were right, the height of the cone must have been from 400 to 500 yards, and the diameter of its base nearly 150 yards. At the distance of 100 yards from the ship, and immediately under the cone, the rain fell heavily over a space of about 30 yards, ruffling and darkening the surface of the water. As the ship's course was nearly in opposite direction to that of the cloud, the phenomenon was not visible for more than three and a half minutes.

A DEN OF ROBBERIES.—In the Cologne Gazette it is stated that not far from Altkirch, in Elsass, above Hirtzlach, a residence of robbers has been discovered, where there were all the appointments required for robbery and theft—revolvers, daggers, jackknives, &c. There were also provisions, such as bottles of brandy and pots of butter, which has led to the supposition that they intended to spend some time there. The daring deeds of this band set the whole neighborhood in alarm. One day they purloined some workmen as far as Lerpizzen, when the two youngest of the band were apprehended. One of these was struck with a lead ball in the head, but was struck to the ground before he succeeded in doing so. Since then the rest of the band have removed to some distant part, and the "gemischtes" can now live in quietness.

There was one sensible speaker at a labor reform meeting in Boston last week. A Mr. McNeill said that he desired to raise his protest against a common fallacy, oft repeated, that the rich were growing richer and the poor poorer. The contrary was the truth, as every thinking individual must see. More people were breadwinners in 1871 than ever before. People enjoyed conveniences to day that the King of England did not have years ago. The profits of business were growing smaller and smaller from year to year, and it now required the employment of many workmen to secure the profits which a few would return some years ago. Again, the wages of a brief period now would purchase more than the work of a year a century ago, and wealth was more equitably distributed than ever before. Monopolies had accomplished many things, and had taught what co-operation could do. Co-operation was the need of the working classes.

The Cunard Steamship Company has decided, during the existing depression of trade, to discontinue weekly, but to maintain fortnightly sailings direct from Boston to Liverpool. A weekly steamer will continue to be dispatched from Liverpool for Boston, as hitherto, but under the above arrangement only each alternate week will return direct from Boston to Liverpool. The steamers not returning direct from Boston to Liverpool will,

after landing their passengers and inward cargo as may be offering, proceed to New York to complete their landing and embark passengers there. It is the intention of the company to resume direct weekly sailings from Boston for Liverpool whenever the state of trade will warrant.

The prospect of the Western crops is described as very flattering. The St. Louis Republican says: "We do not recall a spring in a period of a dozen years that gave a more cheerful promise of abundance than the present. It is too early to make any predictions about the unplanted corn crop, but we are able to make conjectures about the fruit, the growing wheat, and the condition of meadows, and they are of the most satisfactory character. The season is backward, but this, perhaps, is more of a blessing than a disadvantage."

Free School Ticket.

B. R. Stevenson, James Murchie, Thomas Cottrell, James McKay.

The Great Issue.

That this Province is divided from circumference to centre on the great question before the constituencies—the School Law—will not be denied. The question to be decided at the polls is, simply, shall we have Free Non-Sectarian Schools, or shall Separate Schools be established? The matter is in the hands of the Electors, and we have not the least doubt will be decided by an overwhelming majority in favor of the present school law, except perhaps in those priest-ridden counties where the law of a foreign bishop is supreme.

We have not witnessed any of those dreadful results which were prophesied by its opponents as sure to follow its introduction. We heard at the time of threats of rebellion and a thousand other terrible things which were to be done; its enemies even tried the highest power to repeal it, and failed; and no means have been left untried by the anti-school men to throw obstacles in the way of its becoming popular, but they have been defeated, and why? Because the people who are not under the yoke, and are free to exercise their privileges without consulting any superior—lay or clerical, have assisted to carry out the law. True, some persons at first felt the tax somewhat heavy, but new school buildings had to be erected, to take the place of the wretched, dilapidated and unhealthy rooms which children were penned up in; and the Teachers are paid from the direct taxes levied for school purposes—a decided and encouraging improvement on the old system; people, however, began to appreciate the new law, and they never will consent to return to the old system, nor will they consent to have separate schools foisted upon them. They will not permit any denomination Protestant or Roman Catholic to enjoy privileges beyond what the law at present offers; they will not consent to any system of religious teaching legalized at the expense of others.

Free Non-Sectarian Schools open to every child is what they enjoy, and none other will be grafted upon the educational tree. It is not improbable that some changes may be made in the details, but whatever they are, they "must be made" as a respected candidate (Mr. Murchie) says, "by the friends of the law," the principle will be maintained. The question has nothing whatever to do with the election of the members of the government—true they framed the Act, and deserve, and no doubt will be returned, notwithstanding the unfair and dishonest charges raised against them; but the law will be maintained despite of its enemies.

The canvas in this County is carried on briskly, and the prospects we are pleased to learn become daily doubly assuring. At the Islands the vote for sustaining the Ticket is a foregone conclusion. The intelligent residents of Deer Island, Campobello and Grand Manan, are well informed on the issue, and are prepared to support the candidates nominated by the conventions throughout the County. They would have been pleased to have a member from the Islands, and if their candidate Mr. W. S. Thompson had been earlier in the field, it is not improbable he would have been chosen as one of the "Four." As he is outside, although in favor of "taxation for schools, and opposed (as he says in his card) to engraving any sectarian fungus on the Free School Tree," he will have to wait his turn, and become better known to the electors. He is favorably spoken of by men from the Islands. From the eastern and western parishes, cheering accounts are received of the prospects of the people's "Four" being returned by a handsome majority. The "Party of Progress" have determined to reject all outside the Ticket, as they will not be deceived by the siren voice of those Free School men who thrust themselves forward against the wishes of a large majority of the electors, who are resolved to vote "the Ticket, the whole ticket, and nothing but the ticket."

A Calais contemporary says that the "Bridge Question" is one of the issues of the present election contest. We can assure him that the "School Question" is the only issue. The people do not trouble themselves about the "bridge,"—at least those in the southern and eastern sections of the County. Further—the influence of those returned will be used for the benefit of the whole County, and not any special locality. The bridge will be built at the proper time many believe, as other bridges have been connecting different counties, which had more opposition than the railroad bridge to connect St. Stephen and Calais.

The Parliamentary Committee on the shortest route to Europe, pursued their investigations with praiseworthy diligence, under the direction of Hon. Dr. Robitaille. The bulk of evidence is in favor of Pasphebe Harbour, in the Baie des Chaleurs, as not only the best, but the sole winter port in the Gulf of the St. Lawrence. It is entirely free from ice during the severest seasons and a spacious and sheltered mooring ground for vessels of the largest tonnage. There was also evidence in favor of St. Andrews, Passamaquoddy Bay, and of Shippegan, but it was admitted that during the winter, the latter would be closed up in the same manner as Montreal and Quebec.

The "Ticket" and other Candidates were alluded to in our last issue, and it was then said some of those not on the "Ticket" are free school men. We wrote of men and governments according to their merits; but never have placed men above measures, and much as we respect some of the candidates not on the "People's Ticket," we cannot consistently as a free non-sectarian school man, advocate their return. As urged for the past three weeks let it be the "Ticket and the whole Ticket." It is the only safe and sure principle to govern the electors, and old Charlotte having nailed the colors to the mast, will fight it out, and plant the standard of victory at the Court House on the afternoon of the 13th inst.

ROYAL MAIL STAGE.—Messrs. Hughes and Whitlock are proprietors of the line of Stages which run between St. Andrews, St. Stephen and St. George. They have recently fitted up their establishment with good carriages and horses, and make excellent time between the above named places. They will be found attentive, obliging and punctual, and we bespeak for the new firm a generous patronage. The Stage leaves for St. Stephen every morning (Sunday excepted) at 6 a. m., and for St. George at 2 p. m.

THE NOMINATION AT ST. JOHN took place on Saturday last. The proceedings are fully reported in the "News" and "Telegraph." The speeches were far above the average, Attorney Gen. King made a magnificent speech, and dealt the opponents of the Free School Law some hard hits. He came out openly and fearlessly. Mr. Willis and Mr. Wedderburn also made lengthy and telling speeches. They do not appear to fear "bell book and candle," why should they? It is said that the City and County of St. John will set the example to be followed by other counties.

J. JAMES, Esq., whose nuptials we announced a few weeks ago, arrived here with Mrs. James within a few days, from Australia. Their passage was a pleasant one, the Steamship having touched at Fiji, and thence to San Francisco, from whence they came by Railway all the way to St. Andrews, having paid a short visit to his brother Robert, at Denver, Colorado. Mr. James left here nearly ten years ago for England, and shortly afterwards went to New Zealand, for several years he has been engaged in Australia in mining, and was also occupied on a Government survey of observation among the Pacific Islands, where he became familiar with the vernacular. While occupied in mining, he found a very fine diamond and had it polished; it is as large as a common almond and weighed eleven carats, he also found a pretty straw colored topaz, a little larger than the diamond. Mr. James has met with a hearty reception from the people of St. Andrews, with whom he was deservedly popular, and a favorite among his school companions.

ANOTHER CANDIDATE.—How many more we are not prepared to say, but we publish in this day's issue the Card of Mr. S. C. Irish, which at last is outspoken. He advocates repeal of the School Act, and will oppose the Government—if elected.

ROYAL CANADIAN INSURANCE CO.—We beg to direct attention to the above advt in this day's issue. Our young friend Mr. Julius Whitlock is agent for this County, and as the Company is one of the best in the Dominion, it will be a safe one to insure in.

THE ALDINE.

Four charming views of the beautiful and little-known scenery in Northern Vermont, head the list of illustrations in the June "Aldine," a monthly as rare among other periodicals, as a June day is rare in the year. As heretofore, nothing yet published surpasses in beauty these pictures, which are excellent as works of art, and characteristic of the country they depict. "On the Missisquoi," is the first full-page picture, showing the rush and swirl of water, and the rocks and woods of this enchanting river. Another picture, the whole series being from the pencil of Thomas Moran, is "A Glimpse of the Missisquoi," as it winds through a peaceful valley, full of quiet beauty. A large full-page picture gives the beholder "The Missisquoi at Sheldon Springs," a well-known summer resort, noted for the romantic beauty of its scenery. "Mount Mansfield from Rice's Hill," is the last of this admirable series. A grand panorama of some forty miles of the noble Green Mountains is shown in this picture. Arthur Parton contributes a full-page "Scene on the Shenandoah," which depicts the grand and remarkable scenery near Harper's Ferry, where the waters of the Shenandoah unite with the Potomac, a point which charmed Jefferson. Other pictures in this number are "Almost a Dinner," after Guido von Mackdo, a beautiful cut of a red deer, called "A Hard Run," after Specht; "A Turkish Court Yard Scene," in which a gypsy is dancing before a group of Turkish women; "Such a Shot!" by John S. Davis, a picture of real life, showing how, when boys, we went hunting, and met difficulties in the path; and a life-like portrait of John Lester Wallack, the great actor, and the last of his name now

on the American stage. A better list of pictures, of greater variety, and more general interest could hardly have been selected.

The literary contents of this number are of greater variety and extent than usual, consisting of a poem, "Cloud-Pictures," one of Col. Paul H. Hayne's best; a sketch of travels in Siam, full of interest, by Mrs. A. H. Loonowens, called "On Board the Volant," a beautiful poem by Mrs. Emily E. Ford relative to "The Cathedral-Tower of Rheims," a strongly written article on "Boulogne Fishing-Boats and Fish-Wives," by Henry Morford; a poem, "Outcast," by Jas. G. Clark, and many other articles of interest. The editorial articles in this number are "Views in Vermont," descriptive of the fine scenery illustrated; "The R-d Deer," "Scene on the Shenandoah," "A Turkish Court-Yard Scene," a sketch of Mr. Lester Wallack; an account of the National Academy Annual Exhibition: Music, Art, and Literature. Subscription price, \$5, including chromos "The East" and "The West." James Sutton & Co., publishers, 58 Maiden Lane, New York City.

BRUTAL TREATMENT.—Two parties, a man and his wife, Wm. and Ellen Cheney, of Grand Manan, were brought here on a warrant issued by Justices Craig and Dagget, for injuring their little girl, Maria, about 9 years old. As the case is to come before the County Court, we will not give further particulars.

VARIETIES.

His Honor Lt. Governor Tilley and Mrs. Tilley, arrived by train last evening from Fredericton, and will remain at their summer residence for a few days.

T. Herbert Street, Esq., and Mrs. Street, returned from their bridal trip on Saturday last. The Madunexnik Boom Company Bill has been assented to by the Governor General. The "Castalia," from Glasgow and Liverpool, for Halifax and St. John, is now on the passage cut, having left Liverpool on the 27th of May. Another Anchor Line boat the "St. John's" is to be despatched on the 6th inst.

The Sheriff of Kings County has received writs for election. Nomination day is fixed for the 16th polling 20th, d. clarification 22nd.

The "Calais Times" says—"It is stated that Hon. F. A. Pike is confident that a charter for a railroad bridge across the St. Croix will be granted at the next session of the Dominion Parliament. The Sheriff of Kings County has received writs for election. Nomination day is fixed for the 16th polling 20th, d. clarification 22nd.

A bill before the British House of Commons provides that workmen injured in the course of their labor may recover damages of their employers, and that the family of a workman killed in his employment may recover a sum not greater than one year's wages of the person killed. The bill excepts all employers who do not employ over fifty hands.

EMIGRATION FROM LIVERPOOL.—The returns of the emigration from Liverpool during the past month show that there sailed under the provisions of the Emigration Act, 36 ships to the United States, with 12,354 passengers; six to Canada, with 2037 passengers; and two to Nova Scotia, with 503 passengers. There sailed, under the Act, three vessels to Australia, with 346 passengers; and to various other places, ten ships, with 176 passengers. The grand total is 15,783. This shows a decrease of 17,606 on April 1873, and a decrease of 27,350 upon the portion of the present year compared with the first four months of 1873.

The following extract taken from the conclusion of an article in the Bangor Whig, headed "encourage home trade." It is a truth, that can be locally applied:

One of our citizens who recently completed a fine residence expressed a very praiseworthy feeling of gratification at the fact that every article used in the construction and furnishing was purchased in this city. There are probably other instances of a similar nature, and such examples are worthy of imitation by all who desire the business of Bangor to thrive. We believe that in nine cases out of ten, if not invariably, the experienced merchants of our city can offer better bargains than would be obtained by individuals making single purchases abroad; and it is our duty as neighbors and fellow-citizens to encourage home interests, and to take some pains to bestow our patronage upon those who have undertaken to supply the needs of the community.

U. S. POSTAGE.—It is said that the house postal committee have agreed upon rates for the prepayment of printed matter, including all regular issues of newspapers and other periodicals. Upon books and magazines the rates were fixed at three cents per pound, and upon all newspapers at one and a half cents per pound, payment in all cases to be made at the time the matter is deposited in the mailing office. These rates apply to newspapers sent to regular subscribers as well as to printed matter, so that if the bill becomes a law, no printed matter of any description whatever will be received for transportation through the mails until prepaid.

COUNTY COURT.

THE County Court of the County of Charlotte, will sit at St. Andrews, on TUESDAY, the 9th inst., at 12 o'clock, noon.
At which time and place all officers of the Law, and other persons required to be at this Court, are publicly notified to give their attendance.
ALEX. T. PAUL,
Sheriff of Charlotte.

To the Electors of Charlotte County.

GENTLEMEN.—I will be a Candidate at the approaching Election for the Local Legislature in opposition to the present Government, and will advocate the Repeal of the School Act! If honored with a majority of your votes, I shall use my best efforts to procure a School Act less expensive, and more evenly just—to advance the interests of this County in Railway and other matters, and the interest of the Province at large.
With great respect, I am gentlemen,
Your Obedt. Servt.
S. C. IRISH.

St. George, June 1, 1874.

TO THE ELECTORS OF CHARLOTTE COUNTY.

GENTLEMEN.—At the urgent solicitation of many of you residing in different parts of the County, I shall be a candidate for your suffrages at the coming election, for Representative to serve in the General Assembly. Had a Convention representing all parts of the County convened, and selected Candidates to represent you, I would have gladly submitted to its decision, but as the Island Parties were not invited to, or in any way noticed by the Mainland Conventions, and as I have been unanimously chosen by a Determined Convention of Island Electors for their nominee, I shall not condescend to the election.
I am decidedly in favor of the principles of Taxation for Schools, and opposed to engraving any sectarian fungus on the Free School Tree!
I shall endeavor to represent your interests honestly and independently, to the best of my ability. The Islands as my home, the County as my Constituency, the Province as my Political trust, shall never be betrayed or humiliated by any act of mine. Should you choose to elect me, I shall go to the Legislature free and untrammelled, and at liberty to exercise judgment impartially on all measures. Soliciting your support,
I am most respectfully Yours,
W. S. THOMSON.

To the Electors of the County of Charlotte.
At the earnest request of a large number of my former supporters, together with many new ones, I once more offer myself as a candidate for election to represent you in the Local Legislature. I am the same now as I have ever been, the "Working Men's Candidate," bound by no party trammels or ties, or promises of any kind, but free to act and legislate for the best interests and happiness of the whole people, which at all times I shall endeavor to do.

To the Electors of the County of Charlotte.
Now, Electors of Charlotte, all that I ask is a fair, honest, and candid judgment of my political acts, since I have had the honor to represent you, and I will cheerfully bow to your decision; and should you again favor me with your confidence, I have but one promise to make which is: That my political acts and conduct have been in the past, if elected, so shall they be in the future, while I shall do that which I honestly believe to be right.

Prospectus for 1874—Seventh Year.

The Aldine,

AN ILLUSTRATED MONTHLY JOURNAL, UNIVER-
SALLY ADMITTED TO BE THE HANDSOMEST
PERIODICAL IN THE WORLD, A REPRE-
SENTATIVE AND CHAMPION OF
AMERICAN TASTE.

Not for Sale in Book or News Stores.

THE ALDINE, while issued with all the
regularity, has none of the temporary or
timely interest characteristic of ordinary
periodicals. It is an elegant miscellany of
pure, light and graceful literature; and a
collection of pictures, the rarest specimens
of artistic skill, in black and white. Altho'
each succeeding number affords a fresh plea-
sure to its friends, the real value and beauty
of THE ALDINE will be most appreciated af-
ter it has been bound up at the close of the
year. The possession of a complete volume
cannot duplicate the quantity of fine paper
and engravings in any other shape or num-
ber of volumes for ten times its cost; and
then, there are the chronic besides!

ART DEPARTMENT, 1874.

The illustrations of THE ALDINE have
won a world-wide reputation, and in the art
centres of Europe it is an admitted fact that
its wood cuts are examples of the highest
perfection ever attained. The common pre-
judice in favor of "steel plates," is rapidly
yielding to a more educated and discrimi-
nating taste which recognizes the advantages
of superior artistic quality with greater fa-
cility of production. The wood cuts of THE
ALDINE possess all the delicacy and elabo-
rate finish of the most costly steel plate,
while they afford a better rendering of the
artist's original.

In addition to designs by the members of
the National Academy, and other noted
American artists, THE ALDINE will reproduce
examples of the best foreign masters, select-
ed with a view of the highest artistic suc-
cess and greatest general interest. Thus the
subscriber to THE ALDINE will, at a trifling
cost, enjoy in his own home the pleasures
and refining influences of true art.

The quarterly tinted plates for 1874 will
be by Theo. Moran and J. D. Woodward.
The Christmas issue for 1874 will contain
special designs appropriate to the season, by
our best artists, and will surpass in attrac-
tions any of its predecessors.

PREMIUM FOR 1874.

Every subscriber to THE ALDINE for the
year 1874 will receive a pair of chromos.
The original pictures were painted in oil by
the publishers of THE ALDINE, by Thomas
Moran, whose great Colorado pictures were
purchased by Congress for ten thousand dol-
lars. The subjects were chosen to repre-
sent "The East" and "The West." One is a
view in the White Mountains, New Hamp-
shire; the other gives The Cliffs of Green
River, Wyoming Territory. The difference
in the nature of the scenes themselves is a
pleasing contrast, and affords a good display
of the artists scope and coloring. The chro-
mos are each worked from thirty distinct
plates, and are in size (12x16) and appear
once exact fac-similes of the originals. The
presentation of a work of example Ameri-
ca's greatest landscape painter to the sub-
scribers of THE ALDINE was a bold but pecu-
liarly happy idea, and its successful realiza-
tion is attested by the following testimonial
over the signature of Mr. Moran himself.

NEWARK, N. J., Sept. 20th, 1873.
Gentlemen,—I am delighted with the proofs in color of
your chromos. They are wonderfully successful repre-
sentations by mechanical process of the original paintings.
Very respectfully,
THOS. MORAN.

TERMS.

\$3 per annum in advance, with all chromos free.
For 50 CENTS EXTRA, the chromos will be
sent mounted, varnished and prepaid by mail.

THE ALDINE will, hereafter, be obtainable
only by subscription. There will be no re-
duced or club rate; cash for subscription
must be sent to the publishers direct, or
forwarded to the local canvasser, without re-
sponsibility to the publishers, except in case
where the certificate is given, bearing the
ac-simile signature of JAMES SUTTON & Co.

CANVASSERS WANTED.

Any person wishing to act permanently as a
local canvasser will receive full and prompt
information by applying to

Dr. J. Walker's California Vinegar
Bitters are a purely Vegetable preparation,
made chiefly from the native herbs found
on the lower ranges of the Sierra Nevada
mountains of California, the medicinal prop-
erties of which are extracted therefrom
without the use of Alcohol. The question
is almost daily asked, "What is the cause
of the unparalleled success of WALKER'S
Bitters?" Our answer is, that they remove
the cause of disease, and the patient recov-
ers his health. They are the great blood
purifier and a life-giving principle, a perfect
Renovator and Invigorator of the system.
Never before in the history of the world has
a medicine been compounded possessing
the remarkable qualities of WALKER'S BITTERS
in healing the sick of every disease man is
heir to. They are a gentle Purgative as
well as a Tonic, relieving Congestion or In-
flammation of the Liver and Visceral Organs,
in Bilious Diseases.

If men will enjoy good health, let
them use WALKER'S BITTERS as a medicine,
and avoid the use of alcoholic stimulants
in every form.

Druggists and General Agents, San Francisco, California,
and cor. Washington and Chatham Sts., New York.

Sold by all Druggists and Dealers.

No Person can take these Bitters
according to directions, and remain long
unwell, provided their bones are not de-
stroyed by mineral poison or other means,
and vital organs wasted beyond repair.

Grateful Thousands proclaim WALKER'S
Bitters the most wonderful Invigorant that
ever sustained the sinking system.

Bilious, Remittent, and Intermit-
tent Fevers, which are so prevalent in the
valleys of our great rivers throughout the
United States, especially those of the Mis-
sissippi, Ohio, Missouri, Illinois, Tennessee,
Cumberland, Arkansas, Red, Colorado, Bra-
zos, Rio Grande, Pearl, Alabama, Mobile,
Savannah, Roanoke, James, and many others,
with their vast tributaries, throughout our
entire country during the Summer and Au-
tumn, and remarkably so during seasons of
unusual heat and dryness, are invariably
accompanied by extensive derangements of
the stomach and liver, and other abdominal
viscera. In their treatment, a purgative,
exerting a powerful influence upon these
various organs, is essentially necessary.

There is no cathartic for the purpose equal
to Dr. J. Walker's Vinegar Bitters, as
they will speedily remove the dark-colored
viscid matter with which the bowels are
loaded, at the same time stimulating the
secretions of the liver, and generally restor-
ing the healthy functions of the digestive
organs.

Dyspepsia or Indigestion, Headache,
Pain in the Shoulders, Coughs, Tightness
of the Chest, Dizziness, Sour Eructations of
the Stomach, Bad Taste in the Mouth, Bil-
ious Attacks, Palpitation of the Heart, In-
flammation of the Lungs, Pain in the Re-
gion of the Kidneys, and a hundred other painful
symptoms, are the offspring of Dyspepsia.
One bottle will prove a better guarantee of
its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swel-
lings, Ulcers, Erysipelas, Swelled Neck,
Goitre, Scrofulous Inflammations, Indolent
Inflammations, Mercurial Affections, Old
Sores, Eruptions of the Skin, Sore Eyes,
&c., &c. In these, as in all other constitu-
tional Diseases, WALKER'S VINEGAR BITTERS
have shown their great curative powers in
the most obstinate and intractable cases.

For Inflammatory and Chronic
Rheumatism, Gout, Bilious, Remittent
and Intermitent Fevers, Diseases of the
Blood, Liver, Kidneys, and Bladder, these
Bitters have no equal. Such Diseases are
caused by Vitiated Blood.

Mechanical Diseases.—Persons en-
gaged in Paints and Minerals, such as
Painters, Type-setters, Gold-beaters, and
Miners, as they advance in life, are subject
to paralysis of the Bowels. To guard
against this, take a dose of WALKER'S VIN-
EGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetters,
Salt Rheum, Blisters, Scabs, Ringworms, Pus-
tules, Boils, Carbuncles, Ringworms, Scald
Head, Sore Eyes, Erysipelas, Itch, Scurfs,
Discolorations of the Skin, Humors and
Diseases of the Skin of whatever name or
nature, are literally dug up and carried out
of the system in a short time by the use of
these Bitters.

Pin, Tape, and other Worms, bur-
rowing in the system of so many thousands,
are effectually destroyed and removed. No sys-
tem of medicine, no vermifuges, no cathar-
tics, will free the system from worms
like these Bitters.

For Female Complaints, in young or
old, married or single, at the dawn of wom-
anhood or the term of life, these Tonic Bit-
ters display so decided an influence that
improvement is soon perceptible.

Jaundice.—In all cases of jaundice, rest
assured that your liver is not doing its work.
The only sensible treatment is to promote
the secretion of the bile and force its re-
moval. For this purpose use WALKER'S
BITTERS.

Cleanse the Vitiated Blood when-
ever you find its impurities bursting through
the skin in Pimples, Eruptions, or Sores;
cleanse it when you find it obstructed and
sluggish in the veins; cleanse it when it is
foul; your feelings will tell you when. Keep
the blood pure, and the health of the system
will follow.
