## J. & D. A. HARQUAIL COMPANY, LIMITED

CONTRACTORS, — PLANNING MILL, — BUILDERS.  
DAY KILN, DOOR AND SASH FACTORY

CAMPBELLTON, N. B.

**BRASS BOARD**  
If you are building or going to complete some unfinished rooms, let us show you some colored samples, illustrating the beautiful color effects obtained by using this material and durable board for walls and ceilings in all classes of buildings.  
We carry a large stock in assorted sizes.

**MAIL ORDER.**  
We collect out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have occasional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the relation in which they are required, and customers can always depend on our doing everything in reason to give prompt dispatch.

**Our Office is connected with the N. B. Telephone by two separate lines insuring prompt attention.**  
Office Hours—9 A. M. to 6 P. M.

**Manufacturers of:**  
STONE, FLOORING, STORE, OFFICE, CHURCH, FITTINGS.  
Wholesale and Retail Dealers in PUTTY, SHELLS, RED and YELLOW OCHRES, METAL ROOFING and SIDINGS, NEPONS, PAPERS, ROOFINGS, SHEET LEAD, and ZINC, PLAIN, PAPER, ART and PLATE GLASS, MIRRORS, LOCKS, KNOBS, GENERAL BUILDING HARDWARE.

**Manufacturers of:**  
SASHES, DOORS, MOULDINGS and GENERAL BUILDING MATERIAL.  
Wholesale and Retail Dealers in CEMENT, LIME, COMMON, PRESSED, and FIRE BRICKS, ROCKWALL, PLASTER, CALCEINE, PLASTER, FARM TILE, DRAIN TILE, and FITTINGS, NAILS, SPIKES, PAINTS, OILS, VARNISHES, STAINS.

## BUMPER HOUSE AT G.W.V.A. CONCERT

Opera House Crowded to Hear Local Artists and See Press Films.

The Opera House was crowded to the doors Monday evening to greet the Canadian Press party in England and France. The entertainment was under the direction of the G.W.V.A., the proceeds being for the benevolent fund.

The first number on the programme was a selection by Mrs. W. H. Sharp's orchestra composed of her pupils, and was much enjoyed as were other numbers played during the evening.

The pictures of the Canadian Editors in England and France were next, and was most interesting. Those in the audience easily recognized the editors they knew, and Mr. J. L. Stewart was loudly applauded as he sang across the screen.

The solo by Mrs. Hugh Miller as usual delighted her audience, and she was obliged to respond to an encore as was also Mr. Austin McDonald.

Miss Ima Currie was very pleasing in her impersonation of a boy, and her encore was very pathetic and brought tears to the eyes of many.

Mr. Hurley since his arrival here has certainly made a reputation for himself and he again delighted all by a selection from the "Merchant of Venice." As an encore he rendered several little sketches which were loudly applauded.

Master Clarence Rosenhek, one of Mrs. Sharpe's orchestra rendered a violin solo which was considered above the usual for one so young. He also was obliged to respond to encore.

Miss E. Lawson in fancy dancing proved herself to be a very graceful artist in this and was loudly applauded.

The hit of the evening was "Tipperary Bill" a colored comedian by Pe. Joe. Bernard. His local hits brought down the house and he was obliged to respond to several encores.

The feature picture "Breakers Ahead" was a pleasing photo drama. Altogether the evening was a most pleasant one and the G.W.V.A. incidentally made a handsome amount.

The boys wish to thank all who assisted in the concert, and Mr. Stewart of the Chatham World who so kindly loaned the film free of all charge.

## MUNICIPAL COUNCIL IS MEETING AT DALHOUSIE

Board of Health Bills Amounting to Over Ten Thousand Dollars Up For Payment—Other Matters.

The annual meeting of the Restigouche Municipal Council met at Dalhousie Tuesday morning. Warden H. C. Gillis in the chair.

The following Councillors were present:—  
Dalhousie—John Dickie, P. Dugas.  
Balmoral—Henry D. Dugas, Narcisse Levesque.  
Addington—H. C. Gillis.  
Town of Campbellton—H. G. Currie, Eldon—Murdock Firth, Jas. Chesser, Grimmer—Alex. C. Levesque, Gauchier.

The minutes of the July session were read and approved.

Coun. Harquail was excused because of sickness in his family.

The council adjourned until 2 o'clock.

Tuesday Afternoon.

The meeting was called to order at 2 o'clock by the Warden.

Minutes of A. M. session were read and approved.

The secretary read a number of communications and petitions which were referred.

The matter of taking Indian dogs was brought up.

Coun. Dickie said Indian dogs were a great nuisance to sheep raisers and should be destroyed.

Coun. Montgomery thought the Council would have no power to destroy them, but they could tax them.

The matter was held over for legal advice.

Public Health Act.

Coun. Currie moved that Dr. Desmond District Superintendent be heard before the Board.—Carried.

Dr. Desmond explained the new Public Health Act, explaining its workings and asked the Council to select its three members of the Board.

Coun. Montgomery spoke strongly against the Council taking any action in the matter. So far as he could figure out this act would cost from seven to eight thousand dollars to administer and he thought that too expensive. The government had passed this act, let them be responsible for its operation.

Dr. Desmond explained that the administration of the Act would not cost over \$4,500. Gloucester with twice the population passed their estimate at 7,000.

Coun. McLean spoke strongly in favor of the act. If put into operation it would save individuals hundreds of dollars. The medical inspection of schools was a fine thing and should certainly be adopted.

Coun. Murchie opposed the act principally on general principals and because it was introduced by the present government, for which he has none too kindly feelings.

Coun. Montgomery moved, seconded by Coun. Murchie that the Health Act and appointment of Health Officers be not entertained by this council.

The legal adviser explained that the Legislature had handed control of the Act over to the Municipal Council, and if they did not grasp the opportunity it was no fault of the government. The Act was now law and if the Council would not do its duty the government would be forced to make the appointments and if need be order the assessment.

The motion was carried on the following vote.—Montgomery, Murchie, Firth, Dugas, Chesser, Dickie, Mawhinney and Lawlor.

Against—McLean, Levesque, (Balmoral) Levesque, (Grimmer) Dugas, Currie, Gauchier.

The council adjourned until 10 a.m. Wednesday.

## LARGEST YIELDING OF POTATOES

Twenty Experimented with at Fredericton.—Farmers Should Get Best Seed.

With but four exceptions all of the twenty best holders at the Fredericton Experimental Station are white skinned, and of either the Green Mountain, Cobbler or Burbank type.

The highest average yield for three years (487 bushels per acre) was obtained from Seedling 13660, bred by Prof. Wm. Stuart of Washington. This is a Green Mountain type potato fairly late in maturing, of beautiful smooth appearance and high table quality. The plants also seem to be very disease resistant.

The second in the list with 496 bushels per acre (3 year average) is a strain of Delaware, improved by W. H. Moore, Scotch Lake, N. B. This potato is commercially a Green Mountain and in every way resembles that type except that it may be slightly thicker and not quite so rectangular. Very resistant to disease and of high table quality.

The third is Seedling 4227, bred by Prof. Wm. Stuart of Washington, with a three year average yield of 452 bushels per acre. This potato is a late maturing type, and of high table quality.

The fourth is Seedling 3073, bred by Prof. Wm. Stuart of Washington, with a three year average yield of 427 bushels per acre; it is similar to Seedling 4227.

The fifth is New Scotch Rose with an average yield for six years of 422 bushels per acre. This is a large pink tuber slightly inclined to be rough and not of the highest table quality, though very good. It is quite disease resistant.

The sixth is a blue black potato following the Kinsey type bred by Dr. Whitney, St. Stephen, N. B., and developed at the Fredericton Station. It is practically undistinguished from a variety known as McCulloch. Very disease resistant and a vigorous plant it is a great keeper and of excellent table quality. The average yield for three years was 115 bushels per acre.

The seventh is Drears Standard, a long white (Burbank) type of excellent quality, but not so disease resistant as those above with an average yield for six years of 414 bushels per acre.

The eighth is Green Mountain (La. well's strain) with eyes a trifle deeper than the other strains of Green Mountain, but otherwise just as good, and the plant is much more disease resistant and more vigorous. The four year average yield was 410 bushels per acre.

The ninth is Irish Cobbler with a four year average yield of 406 bushels per acre. This potato is an early number.

Mr. Worship before the meeting, thanked the speaker of the evening, Mr. McDade, for the manner in which he explained the War Savings and Thrift Stamps Movement, and assured him that Campbellton would do its share in their work.

## IFT STAMP DRIVE THE NEXT

Citizens Are Asked to Encourage Sale of War Savings Stamps.

Mr. Michael McDade of St. John, who is assisting in the organization of New Brunswick to stimulate the sale of War Savings Stamps, spent Monday and Tuesday here and at his invitation a number of citizens attended a meeting in the Council Chamber Tuesday evening.

His Worship Mayor Alexander appointed chairman and Mr. C. S. O. Crockett secretary.

Mr. McDade spoke at some length fully explaining the War Savings and Thrift Stamps Plan. The Federal Government hoped to raise \$50,000,000 through the sale of these stamps. The provincial governments throughout the Dominion were co-operating with the Federal Government in the matter. The object was a worthy one, and one which would tend to create thrift, especially among the young. The War Stamps sold this month at \$4.00. In five years the government redeemed these, paying \$5.00 for them, which amounted to a straight 5 per cent. interest. For those who did not care to purchase at one time a War Stamp, Thrift Stamps were sold a 25c. When 16 of these were collected they could be exchanged for a War Stamp. In the U. S. last year two and a half billion dollars was raised in this way. It was stressed that each locality organize further the sale of these stamps.

His Honor Judge McLatchy, as the speaker what form of organization was generally followed. Mr. McDade explained that matter was left entirely in the hands of the meeting in the various districts, and explained form of organization adopted in various places.

His Honor thanked the speaker for the clear explanation given regarding these stamps and moved "That the meeting resolve itself as being heartily sympathetic with the War Savings and Thrift Movement." The motion was seconded by Mr. D. O. G. Poux and on vote declared carried.

Rev. Mr. Camp and Rev. Mr. Wallace also spoke each expressing their hearty accord in the movement and their willingness to assist in every possible manner.

Mr. A. D. McDonald suggested that a committee of five be appointed for this district to encourage the sale of these stamps and moved that Mr. H. B. Anshew be chairman of the committee.—Carried.

On motion Messrs. Geo. H. McKinnon, J. F. Gallagher, His Worship Mayor Alexander and John T. Macdonald were appointed members of the committee, with power to add to the number.

Mr. Worship before the meeting, thanked the speaker of the evening, Mr. McDade, for the manner in which he explained the War Savings and Thrift Stamps Movement, and assured him that Campbellton would do its share in their work.

## Canada's Aid to the Allies

Published by the Montreal Standard

## READY RESPONSE TO S. A. APPEAL

Army Drive is Making Great Progress and Objective In Sight.

The Red Shield Drive is progressing very satisfactorily and Mr. A. A. Andrew hopes that the \$5,000 objective will be reached.

The different teams are working energetically and are meeting with a very ready response from all classes and creeds, but it will take every possible dollar to bring the amount up to the total desired.

There is no doubt as to the necessity for this money, and from all reports the Salvation Army has been doing a great work and will continue to do it.

Let every citizen give, and give until they feel it.

## MEETING OF BOARD OF TRADE

Committee Appointed to Act With Town Council and Merchants.

A meeting of the Campbellton Board of Trade was held in the Council Chamber last Friday evening. Vice-President John Harquail in the chair.

The object of the meeting was explained and those present were unanimous that Campbellton must have an improved train service if the town was to hold its own as a business centre.

Messrs. J. Harquail and D. A. Stewart were appointed a committee to act with committees from the Town Council and Retail Merchants Association to wait on Supt. Fitzmaurice and endeavor to have some improvements made in the present railway service in and out of Campbellton.

It was decided to call a general meeting of the Board of Trade for

## LIQUOR SEIZURE AT ST. HILAIRE

Inspectors had Exciting Time. Largest Seizure Yet Made—Stock Worth \$8000.00

The illegal sale of liquor has been carried on quite extensively by bootleggers in the County of Madawaska during the past couple of months. On Monday, Jan. 13th Inspector Timothy Mann of Campbellton, received a telephone message from Inspector Berube and McLaughlin to go there to assist them in making a seizure. He at once left for Madawaska, meeting the local inspectors at St. Leonards and from there proceeded to St. Hilaire about ten miles above Edmundston on the Transcontinental.

A thorough search of the premises of Maxime Albert, was made and about three hundred cases of liquor were found hidden, buried in the ground. This was loaded aboard a car and while waiting for a train to take it to Edmundston, about forty men raided the car and attempted to break in and take the liquor from the inspectors, but they succeeded in holding them off until the arrival of the train which relieved the situation.

The car was sent to St. John. This is the largest seizure of liquor that has been made in the province of New Brunswick since the new law came into effect, as it is estimated to be worth \$8000.00.

DIED.

At Cross Point, Que., on January 21st, 1919 of influenza following pneumonia, R. Percy Jellett, aged 39 years.

Funeral on Thursday at 2 p.m. On Jan. 17th, at the home of his parents, James Edwin Thomas, aged 24 years.

Friday, Jan. 31st, when new officers would be elected and the work of the Board taken up. Every business man of Campbellton should be present. It has been proposed to establish a County Board of Trade and this would be a good opportunity to discuss plans for same.

## Keep Your Victory Bonds Safe

It is unwise to keep your Victory Bonds around the house when you can get a Safety Deposit Box in this Bank at very small cost where your securities (bonds, insurance policies, etc.) will always be safe—always easily accessible.

We gladly give full information about our Safety Deposit Boxes (different sizes): call in and see them.

## Want to Feel Just Right?

— Take an NR Tonight —

JUST TRY IT AND SEE how much better you feel in the morning. That "hang-over," headache, tired, dazed, and "what's-the-matter" feeling will be gone—you'll feel fine.

**TROUBLE IS**, your system is clogged with a lot of impurities that your over-worked digestive and eliminative organs can't get rid of. Pills, oil, salts, calomel and ordinary laxative, cathartics and purges only force the bowels and prod the liver.

**Nature's Remedy** (NR Tablets) acts on the stomach, liver, bowels and even kidneys, not forcing, but toning and strengthening these organs. The result is prompt relief and real, lasting benefit. Make the test. Nature's Remedy will act promptly, thoroughly, yet so mildly, so gently, that you will think nature herself has come to the rescue and is doing the work.

And oh, what a relief! You'll be surprised to find how much better you feel—tired, dazed, and "what's-the-matter" feeling will be gone—you'll feel fine. It is habitually an embittered complaint, take one NR Tablet each night for a week. Then you'll not have to take medicine every day. Just an occasional NR Tablet will be sufficient to keep your system in good condition—keep you feeling your best.

Get a 25¢ Box

Recently (NR Tablets) and recommended by your druggist.

THOMAS WRAN, DRUGGIST.

## Hardware, Stoves and Ranges, and General Supplies.

OUR stock of building and general hardware is well assorted and we can supply your needs.

¶ We have on hand a full line of cooking ranges at various prices.

¶ We also carry a complete stock of Paints and Oils, Cutlery, etc.

**A. E. ALEXANDER & SONS,**  
CAMPBELLTON, N. B.

Keep Them Smiling

## Soldiers Home Coming Campaign

The "Welcome" sign still hangs high on the doors of the Salvation Army Hostels. Help them to keep it there! While our soldiers have need of the comforts—spiritual as well as bodily—DON'T shut the doors in the boys' faces—Keep them smiling!

The Salvation Army appeals for a Million Dollars for the boys who won the victory. This is the first time the Salvation Army has made a general appeal for its work. We urge you now, for the sake of the soldiers, and as a VITAL factor in the solution of Canada's Reconstruction problems, with the Homecoming of her boys, to give and to give liberally! Our men in khaki may not all be home for another year. While there is a company of Canadians in uniform over there or over HERE, there is work for the Salvation Army Lasses. The weary waiting and the relaxed discipline spell dangers that MUST be guarded against. A happy smile and a comfortable body help to keep trouble at a distance. Do not let the Hostels shut for lack of funds!

## The Salvation Army Million Dollar Fund

January 19th to 25th  
"First to Serve—Last to Appeal"

A WORD ABOUT THE HOSTELS!—Have you ever been inside a Salvation Army Hostel? If not, ask a returned man about the Hostels in Paris, London, Toronto, Hamilton, or any others that he has stayed in over HERE.

Let HIM tell you about the REAL beds, the home cooking, the fried eggs, and hot coffee—and hot baths. If he knows you very well, he may give you a hint about the spiritual comfort the Salvation Army Lasses give these men far from home and all its value!

## TWO KILLED AND OTHERS INJURED IN R. R. SMASH

Maritime Express Runs Into Open Switch at Flatlands and Bad Wreck Results —The Investigation.

One of the worst accidents in the history of the northern division of the C.G.R. occurred at Flatlands Friday morning at 2:47 when the 1st Section of No. 4, (the Maritime Express) dashed into an open switch and collided, head on, with engine of freight extra No. 305.

As a result of the accident the following were killed and injured:—

**Killed.**  
Joachim Blais, Emile Bernier, Mail Clerks, both of Quebec.

**Injured.**

Joseph Lebeck, Mail Clerk of

Levis, cut about head and face.

C. E. Laroche, Mail Clerk, Quebec, cut about head and face.

F. L. Doherty, Canadian Express Messenger, leg broken.

Engineer Everett Henderson, of Campbellton, engineer No. 4 train, cut about face.

Fireman W. Boulay, of No. 4, Campbellton, cut about head.

Simpson Mahoney, of Campbellton, fireman on the extra freight, body bruised and face cut.

The force of the collision was terrific as the express was travelling at her usual rate of speed, which is about thirty miles an hour. The two large locomotives came together and then separated with the rebound of about twenty feet. The mail car which was of wood construction mounted the tender of No. 4 and was broken to kindling wood, some sections of it going over the two engines. The two unfortunate mail clerks were caught in the debris and instantly killed. Their two companions miraculously escaped with only slight injuries and went to their homes Friday evening. They were thrown into the tender of No. 4 engine, where one was completely covered with coal. He was uncovered and found to be only slightly injured.

The express car, which followed the mail car turned completely over endways, and landed in the ditch with the wheels in the air. The messenger had a leg broken and was otherwise bruised and shocked. The baggage car which followed was off the rails but stayed on the track.

Word was immediately sent to Campbellton and the wrecking train with doctors was soon on the scene, and the injured were cared for and sent to Campbellton.

The road was clear shortly after. Although the passengers were thrown about by the jar of the impact, none were injured.

Coroner Dr. Martin was notified and proceeded to the wreck and gave permission for the removal of the bodies which were brought to Graham's undertaking rooms.

At four o'clock an inquest was held, the following being the jurors:—John McDonald, Max. M. Mowat, C. H. Squarabriggs, Jos. Goldenberg, Jos. Lacasse, Aime Dion, Bliss Lutz.

The following is the evidence of the witnesses:—

Edouard Camise, C.G.R., Conductor. I was on duty on the 17th of Jan. at 2:47 a.m. on train No. 4, Maritime Express going east when 2:47 o'clock I felt a jar and felt the train come to a stand still. I proceeded ahead of train and found that No. 4 had come in collision with a freight train, head on collision. Examining the switch I found that it was set for the siding, looked for wounded and dead and found the bodies of J. E. Bernier and Joachim Blais dead in the debris of the train.

J. E. Bernier, conductor of extra No. 305. I was on duty on the 17th of Jan. at 1:35 a.m. took Red Cross. I was going in through south switch, looking about five minutes to clear main line. I have been brakeman three months. Both switches were for main line after our train was in siding. Went into station and stayed there until 2nd No. 738 went by. Saw Conductor St. Pierre in station. After 738 went by I went into station again. Went out of station the second time I saw switch o. k. and No. 4 coming. He was in the station. Do not know whether he was in station all the time or not. I could not swear that he did not turn switch to siding. I was in station when No. 4 went by. Had I had been on platform I would have seen switch was turned for siding by the switch light. Light was burning when I examined switch after accident. Switch was not broken in appearance.

J. B. St. Pierre, conductor of extra No. 305. I was on duty on the 17th of Jan. at 1:35 a.m. took Red Cross. I was going in through south switch, looking about five minutes to clear main line. I have been brakeman three months. Both switches were for main line after our train was in siding. Went into station and stayed there until 2nd No. 738 went by. Saw Conductor St. Pierre in station. After 738 went by I went into station again. Went out of station the second time I saw switch o. k. and No. 4 coming. He was in the station. Do not know whether he was in station all the time or not. I could not swear that he did not turn switch to siding. I was in station when No. 4 went by. Had I had been on platform I would have seen switch was turned for siding by the switch light. Light was burning when I examined switch after accident. Switch was not broken in appearance.

I could not swear that he did not turn switch to siding. I was in station when No. 4 went by. Had I had been on platform I would have seen switch was turned for siding by the switch light. Light was burning when I examined switch after accident. Switch was not broken in appearance.

J. B. St. Pierre, conductor of extra No. 305. I was on duty on the 17th of Jan. at 1:35 a.m. took Red Cross. I was going in through south switch, looking about five minutes to clear main line. I have been brakeman three months. Both switches were for main line after our train was in siding. Went into station and stayed there until 2nd No. 738 went by. Saw Conductor St. Pierre in station. After 738 went by I went into station again. Went out of station the second time I saw switch o. k. and No. 4 coming. He was in the station. Do not know whether he was in station all the time or not. I could not swear that he did not turn switch to siding. I was in station when No. 4 went by. Had I had been on platform I would have seen switch was turned for siding by the switch light. Light was burning when I examined switch after accident. Switch was not broken in appearance.

J. E. Bernier, conductor of extra No. 305. I was on duty on the 17th of Jan. at 1:35 a.m. took Red Cross. I was going in through south switch, looking about five minutes to clear main line. I have been brakeman three months. Both switches were for main line after our train was in siding. Went into station and stayed there until 2nd No. 738 went by. Saw Conductor St. Pierre in station. After 738 went by I went into station again. Went out of station the second time I saw switch o. k. and No. 4 coming. He was in the station. Do not know whether he was in station all the time or not. I could not swear that he did not turn switch to siding. I was in station when No. 4 went by. Had I had been on platform I would have seen switch was turned for siding by the switch light. Light was burning when I examined switch after accident. Switch was not broken in appearance.

## BRITISH SUBMARINE WITH 12-IN. GUN

Admiralty Gives Out Some News About the Under-water Cruisers.

London, Jan. 15.—The admiralty yesterday permitted to be made public the real story of the submarine cruisers which the British successfully constructed at the time the Germans were boasting of their submarines.

The British craft have two funnels and make twenty-four knots an hour on the surface under steam power. They carry from eight to ten torpedo tubes, two or three four-inch guns and also are equipped with internal combustion motors for surface cruising. The batteries for the under-water power can be charged from both the steam and combustion engines, and an ingenious scheme has been devised for quickly dismantling the funnels for the purpose of submerging.

The vessels displace 2,000 tons on the surface and 2,700 tons submerged. They are 340 feet long, have a beam of twenty-six feet and a cruising radius of 3,000 miles. They are designed to be even a match for torpedo boat destroyers in surface fighting.

It is also known that the British have successfully built a submarine carrying a twelve-inch gun, although the details of this craft have not been made public. The craft was built with the idea of making it possible to fire this gun, the new ideas embraced in the construction including the "cushioning" of the boat to withstand the terrific concussion of the gun. The idea is represented unofficially as having been successful. So far as is known the new craft was never employed against any vessel.

**Knew the Symptoms.**  
"Madam," announced the new maid, "your husband is lying unconscious in the reception hall, with a large box beside him and crushing a paper in his hand."

"Ah!" cried madam, in ecstasy, "my new hat has come!"

## The True Specific against Coughs

# TAB

Made from extracts of Tar and Cod Liver Oil. Gives prompt relief in cases of Coughs, Colds, Bronchitis, Grippe, Whooping Cough and all other ailments of the respiratory tract.

On Sale Everywhere. DR. ED. MORIN & CO., Limited, Quebec, Canada.

## U-Boat Assassins Dead,

But History Remembers

### Their Infamous Records

AMONG those names which must survive the war and remain forever as a part of its history and character, four may be selected from that list of 150 German submarine commanders killed or captured by our naval forces which was recently made public. To them, says the London Daily Telegraph, is insured such an immortality as perhaps a German naval officer may desire. First in that category comes the man who placed upon submarine warfare its crown of supreme achievement, who fixed forever its character and repute by the torpedoing of the Lusitania. He was Captain-Lieutenant Schwieger, commanding U-20, and later U-88. He had entered the navy in 1903, and reached, therefore, the summit of his career, the greatest murder the world has known, before he was 35; it was only in November last year that a mine in the North Sea put an end to his memories and to his purposes.

It now appears that his supreme deed was not of his own initiative; he was selected by the German Admiralty—that is to say, of the German Government. According to the evidence which is available, his success appalled him rather than otherwise; the world's outcry of horror was audible even in Berlin, and upon his return there he showed himself little—possibly by order of his superiors. Even his reward was stealthily conferred; it took the form of the Order of the House of Hohenzollern, the Kaiser's personal decoration.

KAPITAN-LIEUT. SCHWIEGER.

U-20 finished obscurely; she straggled in a fog on the Danish coast in November, 1916, and was blown up by her own crew. A year later Schwieger, now in command of U-88, was groping submerged through a minefield in company with another U-boat. The crew of the second submarine suddenly heard an explosion and felt the jar of it in their own vessel. They tried with their special signaling devices to get into communication with U-88, but failed, and she never returned to her base.

The officer who sank the Belgian prince on July 31, 1917, collected her crew on the deck of his submarine and then submerged. He was Captain-Lieutenant Paul Waweh, commanding U-44. He was a little older than Schwieger, having entered the service in 1900; the quality of his work and his successes had been recognized by the Order of the Red Eagle (Roter Adler) and the Hohenzollern Order in Schwieger; but a swift retribution was at hand. While returning from the very cruise during which he sank the Belgian prince he encountered a ship which could fight back. A British destroyer, saw him on the surface, headed for him at top speed, and meanwhile opened fire with every gun that would bear. The submarine was obviously hit at once, for she failed to submerge in time, and the destroyer succeeded in ramming.

It was claimed in Germany for Captain-Lieutenant Rudolf Schneider, of U-87, that he sank his Majesty's ship Formidable and destroyed altogether 150,000 tons of merchant shipping; the claims do not specify the number of defenceless lives that were destroyed with the tonnage. One of the vessels sunk was the steamship Arabie, which was torpedoed and sunk without warning. There were some 400 souls on board at the time, but, thanks to the admirable discipline which prevailed, only about one-fifth of this number was lost. In October of 1917 Schneider was washed off-board from the decks of his craft and drowned, and upon her next cruise the submarine met a British patrol boat in the Irish Sea and was destroyed. It was Christmas Day, she saw her enemy in time and submerged to escape. The patrol boat, one of those anti-submarine ships, went to work according to the rules of this new warfare. The great depth charges were let go over and around the spot where U-87 had vanished; their terrific explosions, transmitting themselves multifolded through the incompressible medium of the water, tore her delicate electric mechanism to pieces and forced her to the surface. The gun above was waiting, but there was little need for them, for the patrol boat bore down on her at racing speed, rammed her amidships with a stem like an axe and cut her in half. She sank.

pushing oil and air; no survivors came to the surface.

The officer who torpedoed the Sussex in March of 1916 was Oberleutnant zur See Herbert Pauskuchen, commanding UB-20. He was younger than the others mentioned above, having entered the navy only in 1908, but he had had time, in his brief service, to earn for himself the Iron Cross of the First Class and the Order of the House of Hohenzollern of the Third Class. He afterward was given command of UB-55 and was lost to his country in June, 1917, when a trawler sighted the jumping wires of a partially submerged submarine which was proceeding at four or five knots. The trawler immediately headed for the submarine, which disappeared below the surface of the water. A depth bomb was dropped and found its mark, for a series of heavy explosions followed, one in particular causing an upheaval three times the height of the others. In the meanwhile other trawlers had joined in the fray and had dropped depth bomb charges. Then there was a great silence; not a sound was heard by the eager listeners on the trawlers, but a mass of oil on the surface bore witness to the fact that the submarine had met her doom that she richly deserved.

These are but four in that long list of names that shall endure unforgettably as long as the war is remembered. To them there has yet to be added that other list, the names of the submarine commanders—such as he who sank the hospital ship Llandovery Castle and murdered the Canadian nurses, and the men in the boat—who are yet living. For all of them the fame they sought is secure.

## MORALE

Explanation Given of the Anxious Word.

Toward the close of the war a new word began to come to the front in all discussions of the struggle. The word was "morale." The term is discussed by William Ernest Hocking in the Atlantic Monthly. Pointing out that "it is seldom physical force that decides a long war," he says: "Perhaps the simplest way of explaining the meaning of morale is to say that what 'condition' is to the athlete's body, morale is to the mind. For it is condition, good morale is good condition of the inner man: it is the state of will in which you can do most from the machinery, deliver blows with the greatest effect, take blows with the least depression, and hold out for the longest time. It is both fighting power and staying power, and strength to resist the mental infections which fear, discouragement and fatigue bring with them—such as eagerness for any kind of peace if only it gives momentary relief, or the irritability that sees large defects in one's own side until they seem more important than the need of defeating the enemy. And it is the perpetual ability to come back."

"From this it follows that good morale is not the same as good spirits or enthusiasm. It is anything but the cheerful optimism of early morning, or the tendency to be jubilant at every victory. It has nothing in common with the emotionalism dwelt on by psychologists of the 'crowd.' It is hardly to be discovered in the early stages of war. Its most searching test is found in the question, How does war-weariness affect you?"

No one going from America to Europe in the last year could fail to notice the wide difference between the minds of nations long at war and that of a nation just entering. Over there, "crowd-psychology" had spent itself. There was little flag waving; the common purveyors of music were not everywhere playing (or allowed to play) the national airs. If, in some Parisian cinema, the "Marseillaise" was given, nobody stood or sang. The reports of atrocities roused little visible anger or even talk; they were taken for granted. In short, the simpler emotions had been worn out, or rather, had resolved themselves into clear connections between knowledge and action. The people had found the mental gain that can be held indefinitely. Even a great advance finds them on their guard against too much joy. As the news from the second victory of the Marne begins to come in, we find this despatch:

"Paris refrains from exultation." "And in the trenches the same is true in even greater degree. All the bravado and illusion of war are gone, also all the nervous revelation; and in their places a grimly reliable reserve of energy held in instant, almost mechanical readiness to do what is necessary. The hazards which it is useless to speculate about, the miseries, delays, tediousness, casualties, have lost their exclamation value and have fallen into the sullen routine of the day's work. Here it is that morale begins to show in its more vital dimensions. Here the substantial differences between man and man, and between side and side, begin to appear as they can never appear in training camp."

## A House That Sings.

Among the many strange buildings in India one of the most curious is a house which actually sings. Except for its extraordinary exterior decorations, it is, to all appearances, no different from other buildings in the neighborhood, but as the wind sweeps round its niches and caves a very curious singing noise is emitted, which can be heard for some distance down the street.

For a long time the music remained a mystery, but at last an engineer solved the puzzle. He discovered that the sound was caused by the material with which the house was built—a porous rock stone, and the wind, blowing through the little holes, was the cause of the music. The building is known as the Palace of the Winds, and is situated at Jyotir—TV-Bits.

Mentioned a Fresh-Bulter.

According to a British scientist, weight for weight, mutton is as valuable a flesh-building food as beef or mutton.

## Let Music Brighten the Lives of Your Children

Let them grow up in an atmosphere of good music. Let their appreciation of the beautiful things of life be developed by good music.

Let them receive the indelible imprint of culture and refinement through the medium of good music.

While the young minds are open to receive such impressions, begin their musical, and higher, education with

## The NEW EDISON

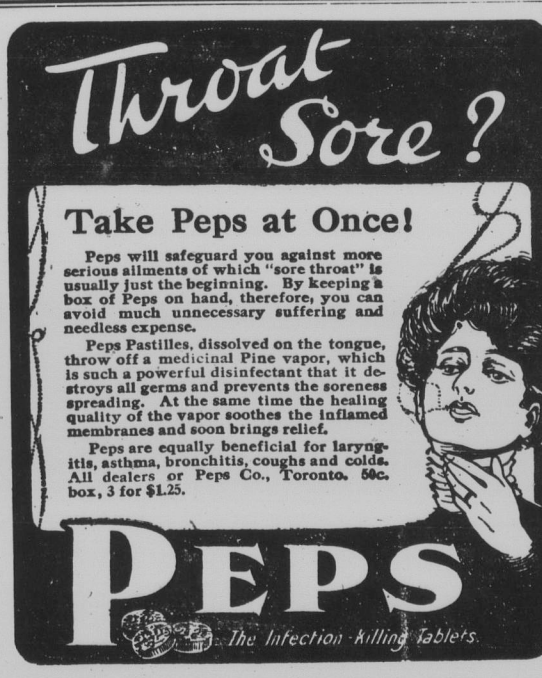

"The Phonograph with a Soul"

This wonderful instrument brings the world of music into your home; re-created by the world's greatest artists. No matter where you live, your children can have the same musical advantages as though living in the great cities during the height of the musical season.

The New Edison does not merely imitate. It re-creates. No human ear can distinguish artist from phonograph. The famous Edison tone tests have proved this, not once, but more than 1500 times.

Start the Children's musical education to-day, by bringing them here, and letting us play a program of charming music that will be as enjoyable for you as it will be delightful for the little ones.

# Throat Sore?

**Take Peps at Once!**

Peps will safeguard you against more serious ailments of which "throat sore" is usually just the beginning. By keeping a box of Peps on hand, therefore, you can avoid much unnecessary suffering and needless expense.

Peps Pastilles, dissolved on the tongue, throw off a medicinal Pine vapor, which is such a powerful disinfectant that it destroys all germs and prevents the soreness spreading. At the same time the healing quality of the vapor soothes the inflamed membranes and soon brings relief.

Peps are equally beneficial for laryngitis, asthma, bronchitis, coughs and colds. Get a box of Peps Co., Toronto. 50c. box, 3 for \$1.25.

# PEPS

The Infection-Killing Tablets.

## C.P.R. OFFICIAL HONORED

Sir George McL. Brown.

THE appointment of Sir George McL. Brown as Knight Commander of the Order of the British Empire is the result of the very fine services rendered by the European Manager of the C.P.R. to the British Government, for whom he acted as Assistant Director of Transport during the last three years of the war. "G. McL." as he is popularly known, both in Canada and the Old Country, is the son of Adam Brown of Hamilton, Ontario, and was born in 1865. In 1887 he was appointed agent of the Canadian Pacific Railway at Vancouver, promoted five years later to Assistant General Passenger Agent, Western Division, and subsequently became in turn Executive Agent, Superintendent of Hotels and Dining and Sleeping Car Dept., and General Passenger Agent, C.P.R. Atlantic Steamship Lines. In 1908 he was appointed General European Traffic Agent, and in 1910 General European Manager, with head office at 625 Charing Cross, London, S.W. Col. George McL. Brown, says a friend writing in the "Montreal Gazette," is one of those rare men whose friendships are equal to the number of their acquaintances. To all in that wide circle the announcement of the new honor which has been conferred upon him comes as pleasant and very welcome news. It is a recognition of qualities and services which they all know him to possess and to have rendered. The reputation which he has earned in the railway world, has been enhanced in proportion to his larger opportunities as European Manager of the Canadian Pacific Railway in London, and the value of his service in the organization and direction of freight transportation during the war can hardly be overestimated. It was as successful as it was arduous, and although given with no other thought than that of duty, was none the less deserving of recognition. It was but one, if the chief of his war activities, which were in fact as varied as were the demands upon his help and counsel. In all this McL. Brown has been true in both impulse and action to the stock of which he comes. Similar impulses, finding similar expression having found place and circumstances, have characterized the long and honorable career of Adam Brown, his father, now and for many years postmaster at Hamilton. Active and successful in commercial life, a planner in railway development, and one of the fathers of the National Policy, Adam Brown at sixty-six is still young in spirit, giving largely of his time and substance in philanthropy, and to the support of war relief organizations. As is the father, so is the son, strong in his undertakings and, with a characteristic, kindly gentleness.

### THE CAUSE OF WRECK.

At Flatlands last Friday morning two men met instant death through the neglect of some employee of the C.G.R. There is no doubt in the ordinary mind that some one made a mistake and the evidence taken at the inquest Friday afternoon went clearly to show that some one turned the switch from the main line to the siding. Who was the person?

There were no strangers about at that hour, and only three trainmen, these were the conductor, the engineer and the forward brakeman of the freight train standing in the siding. The evidence of the Conductor and engineer is clear. They were in one another's company all the time during which the switch could possibly be turned. The only possible hand which could touch it, outside the fireman, who was in his engine about one hundred and fifty feet away, was the forward brakeman.

By the way why was not the statement of fireman Mahoney taken. He might have been able to throw some light on the matter as he was in the engine.

This brakeman was a very recent employee, having been only three months on the road.

Another matter which should be taken up with the proper authorities is the use of weak wooden mail cars on such heavy trains. If this mail car had been of steel construction the occupants would have had a chance to escape.

### BOARD OF HEALTH.

At the meeting of the Municipal Council much time is being taken up with the discussion of Board of Health matters. Accounts amounting to over ten thousand dollars have been submitted for payment, duly certified by the Chairman of the Board. The chairman's own account for the past two years amounted to considerably over three thousand dollars. There are also many accounts for medicine, provisions, etc., supplied to people who are able to pay their own bills and should be made to pay them. Surely the ratepayers of Restigouche must think it is time for a change in health matters and should take their councilors to task for refusing to appoint their representatives on the Board of Health, thus obtaining municipal control of this important spending department.

Reviewing the year, the Monetary Times, Canada's leading financial Journal, says:

The water powers of Canada, so far as they have been developed, have proved of immense value. The undeveloped resources should be speedily put to use. This, at least, is one material resource which is not exhausted by being developed.

### EDITORS MAIL.

All letters addressed to the Editor must be accompanied by the name and address of the sender, not necessarily for publication, but as evidence of good faith. No notice will be taken of anonymous communications.

The Graphic does not hold itself responsible for opinions expressed in this column.  
To the Editor of the Graphic,  
Dear Sir:

I notice that recently you have taken up in your valuable paper, the all important matter of railway transportation. In one issue of your paper I noticed your reference to the question of a bridge to span the river either at Moffatt or at Campbellton, and in a later issue you have touched upon the train service.

Now regarding the train service, not one, but many persons wonder why the Canadian National Railway does not build tracks the five miles of road from Moffatt to Campbellton, and thereby not only provide for the running of trains on schedule time, but at the same time relieve the congestion in Campbellton yard. When we notice the millions that have been appropriated for government work in other provinces, surely we in New Brunswick have the right to demand that the proper attention be given to

## HUSBAND SAVES WIFE

From Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Pittsburgh, Pa.—"For many months I was not able to do my work owing to a weakness which caused backache and headaches. A friend called my attention to one of your newspaper advertisements and immediately I bought three bottles of Lydia E. Pinkham's Vegetable Compound for me. After taking two bottles I felt fine and my troubles caused by that weakness are a thing of the past. All women who suffer as I did should try Lydia E. Pinkham's Vegetable Compound."—Mrs. J. A. RORRABO, 620 Knapp St., N. S., Pittsburgh, Pa.

Women who suffer from any form of weakness, as indicated by displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues," should accept Mrs. Rorrabo's suggestion and give Lydia E. Pinkham's Vegetable Compound a thorough trial.

For over forty years it has been correcting such ailments. If you have mysterious complications write for advice to Lydia E. Pinkham Medicine Co., Lynn, Mass.

our complaints, and that we be accorded as fair treatment, as other parts of Canada. I believe Mr. Editor that if you make such issues as the bridge, and the double track, the leading articles in your paper for the next two months, you will not only have solved the train service problem, but you will have the entire approval of the rate-payers of this part of the county. It is absolutely useless to talk of train service, so long as no means are provided to relieve the congested situation at Campbellton. The solution of the problem will undoubtedly be found in the double track referred to above.

### CRITIC.

## DALHOUSIE

Dalhousie, Jan. 22.—The event of the week in the shiretown is the January meeting of the Restigouche County Council. All were glad to see Warden Gillis occupy the chair looking hale and hearty. All the councilors from the county were present at the opening except Councilor John Harquail, of Addington, who was detained home on account of the serious illness of Mrs. Harquail. It is the sincere wish of many that such a good wife, mother, neighbor and friend be spared to her devoted husband and promising family.

To see busy men going from store to store and from house to house, this week, soliciting funds for the Salvation Army, and the very kind way they were received speaks well for the people, and for the great cause, that the Salvation Army espoused at the beginning of the war. News received from all parts of the county shows that Restigouche will keep up its noble record for the benefit of humanity.

The smelt fishing is successful in this section. Some splendid catches have been made by the people of Esquimaux, Fleurant's Point and Point la Nim. Many citizens went this week to the Montgomery Freezer, to see one of the greatest piles of smelts ever witnessed here before.

Mr. Harry Fair, Point la Garde, P. Q., is in town looking after the smelt business for Messrs. O'Leary & Montgomery. Mr. Fair is always welcome among his many Dalhousie friends.

Congratulations to our friend Thos. B. Clapperton, who was recently elected Mayor of Maria, Bonaventure County, P. Q.

Our veteran rider of the Restigouche Circuit and County Courts, who is past 85 years of age won to Campbellton on Monday, by the Dalhousie branch train, and as there was some delay in the train returning to the shiretown he walked home a distance of 16 miles, and did not feel any worse. This week he is at his old post attending on the County Council. Mr. Willett is a native of New Richmond, P. Q., and has lived in Dalhousie for a long period of time. He resides in the old Carter cottage.

Miss Ethel G. Lingley, Campbellton, was the guest recently of her aunt Mrs. W. A. Mott.

Mr. W. S. Montgomery has returned from a visit to her old home in Campbellton.

In the recent Montreal newspaper column in which a Restigouche teacher figured with great honor to herself and to the county, the final figures which are made public are very interesting. Twelve young ladies were aspirants. One year's paid up subscription to "Evangeline" counted

1000 votes. Miss Anna Poirier, Upper Balmoral, Restigouche County got the first prize of \$100 with 1,390,100 votes, Miss Margaret M. Richard, Baker Lake, Madawaska, N. B. second prize, \$75, having received 825,500 votes; third prize, Miss Melanie LeBlanc, Lower Aboujaguet, West N. B., 717,500 votes, prize \$50. The fourth and fifth prizes of \$40 and \$35 were won by Kent County ladies. The seven others received over a half million of votes each.

Since the contest the "Evangeline" is issued semi-weekly. In Restigouche its circulation is very large. It is the home paper of our French people. Its columns are filled with news items from many sections in the Maritime Provinces written by reliable correspondents. It has a strong column on Agriculture. Many able writers contribute splendid articles from time to time to "Evangeline" having always for aim the welfare of the acadian people, so that they would always be a credit to themselves and their ancestors and to the British flag.

The Women's Institute of Dalhousie at a regular meeting held on Tuesday evening, voted to donate the handsome sum of \$25 to the Salvation Army Fund. The organizer for the town was authorized therefore by Mrs. H. E. Hocquard, the Treasurer of the Institute, to-day, to add the above amount to the subscription list.

The amount being placed to the credit of the fund, with Mr. A. R. Fraser, manager of the Bank of New Scotia. An Athletic Club has been formed in the shiretown. The officers appointed are: S. L. T. Clifford, President; Allan J. LeBlanc, Vice-President; L. B. Deacon, Secy-Treas.

Miss Annie Kerr, of the office staff of the Sydney Lumber Company, left on Saturday's Limited for Montreal to spend a couple of weeks holidays with friends in that city.

Miss McKinnon, Chatham, N. B., is spending a few days in town the guest of her brother Mr. A. B. McKinnon.

Mrs. Morell, Campbellton, is visiting her brother Mr. Albert Gallop. Daniel McAllister, Jaquet River, was in town on Tuesday.

Mr. and Mrs. Benj. Windsor, New Mills, are visitors to Dalhousie this week.

Miss Corinne Casey, teacher, daughter of Henry Casey, St. Omer, P. Q., was married on Jan. 15th to Mr. J. O. Dufour, of Caspascap. The happy couple went to Montreal and Quebec on a bridal tour.

Both hockey teams are in good shape and ready for the game that will decide the championship of the town for 1919. The Gallop cup was donated for an annual game between the white and colored population, and last year was won by the White team at which it was necessary at one time to call for police assistance to quell the disturbance which and the making of a race riot.

This year provisions has been made to quell any disturbance that might arise by the swearing in of ten special police.

There have been a few strange colored gentlemen in town lately, who seemed interested in hockey practice. The writer having seen both sides practicing, believes the colored line-up to be the strongest aggregation ever seen on the North Shore, and it is doubtful if there is a white team in any of the North Shore towns, that can make them taste defeat, as even colored men seen on the ice, so far, has been a fast skater and stick-wielder of no mean ability.

It is expected that over 500 people will attend the game, and arrangements have been made for teams to meet all in-coming trains.

The Bathurst hockey team out-gathered and out-played Dalhousie Saturday night winning the game by a score of 8 to 1. Dalhousie had the better of the play in the first period. From the face-off in the second period Bathurst forced the play and sent the rubber into the Dalhousie nets four times before the period ended while Dalhousie was prevented from scoring.

In the third period Bathurst increased its lead by three goals. Dalhousie was full of ginger and displayed considerable speed and brilliance, but were outclassed by the heavier weight of the visiting team. The teams were as follows:—

Dalhousie	Bathurst
Goal	Goal
Chaple Barnard	Gordon Moore
Point	Point
J. Ganton	"Doc" Jones
C. Polut	George McNeill
L. B. Deacon	Forward

Vaughan Mott

Kenile LeCoeuffe

"Teddy" St. Onge

Arthur Coleman, Albert LeBlanc, Suba, Bathurst, Bernie Meaghan, Harry Meaghan, Referee—Len Clifford, Judge of Play—Leon Samson.

After the game refreshments were served to the visitors in one of the cutting rooms by the young ladies of the town.

### Two British Generals

#### Won Fame and Victory

#### In War Against the Turks

OUTSIDE of the European field there are two British generals who claim attention, Maude, of Bagdad, and Allenby, of Jerusalem and Samaria. Of the former it is to be said that taking the Mesopotamian campaign after the surrender at Kut-el-Amara and following a shocking and scandalous failure he rivalled the best achievements of Kitchener in the Khartoum campaign and conducted a colonial campaign in a fashion which must remain a model for all the future. Unhappily, he died just after he had taken Bagdad and before he could enjoy the full fruits of his great labors. But he remains one of the great figures of that long and splendid succession of British colonial leaders. He gave Britain Mesopotamia and he ended all apprehension as to India. His warfare was the kind in which Britain has always led the world, and apart from Kitch-

GEN. MAUDE.

ener, he can have no rival, such is the verdict of Frank Simmond, the well-known American war critic. Of Allenby there is a record in the west as well as in the east. He commanded a cavalry brigade in the Mesopotamian campaign. He held the Mesopotamian Ridge with a thin force of horsemen in the critical days of the war, before the French aid came. After that he commanded the Third British Army, afterward to go to Syria in the Battle of Arras, which he took Vimy Ridge, cleared Arras and pushed down into the Flanders plain. The success of the spring of 1917 was the greatest achievement of the British in the war up to that time.

Later, when the British commander in Egypt failed at Gaza and the Palestine campaign was in danger, Allenby went east. He restored the situation and presently the world heard of him in Jerusalem. This was a ray of light in a dark period. But Allenby's great triumph was to come, when last September he crushed the Turkish armies in Samaria, captured the bulk of their forces and made the surrender of the Turkish invincible. This was one of the most complete victories in history. It resulted in the clearing of Palestine and Syria, the fall of Damascus, Aleppo and Beirut and the elimination of Turkey from the war. It will stand side by side with D'Esperay's success in Macedonia, won at the same moment and resulting in the surrender of Bulgaria.

### German Ghosts.

Bearing curiously on the article on "Morale" is a fiction story, "The Tenth Man," by Centurian," in the Century Magazine. British army officers in hospital are listening to a story by Meredith, one of their number, of the demoralization of a Welsh regiment which followed the appearance of the ghost of an Australian. The soldier who dressed in the uniform of a dead Australian. The officer was armed with a needle-like piece of steel with which he stabbed the ration carrier through the heart from behind. Meredith concludes: "The war is full of such things. You've been fighting the Turk in Gallipoli, and the Turk's a gentleman more or less. He's not exactly a perfect, gentle knight. Do you remember that passage in their War Book where their general staff says that to down the other fellow you must smash him 'spiritually' as well as physically? 'Terrorism' I think they call it in their ugly lingo. I've often thought of it. Well, that Boche was trying to put the windup among our fellows. He knew we had only just taken over, he knew the Welsh temperament, and he knew we were full of new drafts. How did he know? You've not served in France, or you wouldn't ask that. But I admit it used to puzzle us ourselves in the early days till we discovered their telephone tricks of eavesdropping—amplifiers, buried cables and all the rest of it. The whole forward area's a perfect whispering gallery. Our signaling companies have countered all that now. But just think of it all—every perceptive detail worked out like a plan of operations! Yes, the Hun's a devil. Isn't it hot? Then the soda water, please?"

## OBITUARY

James E. Thomas.

After having served his king and country faithfully for over four years there passed away here on Friday one of Campbellton's brave boys, Pte. James Edwin Thomas, aged 24 years. In August 1914, shortly after the declaration of war James Thomas, then clerk in the C.G.R. freight office threw down his pen and hastened to the defence of his country. He went overseas with the 1st Contingent and in February 1915 he went to France with No. 1 Canadian Field Ambulance, which has earned such a reputation in its care of the wounded. On the 28th of Sept. 1916 he was wounded. Later his health broke down and he was returned to Canada. He was in hospital at Fredericton and St. John, but about two months ago came to his home here. For his services at the front he had one red and three blue service chevrons.

Every care was lavished upon him by his parents but to no avail and he passed peacefully away on Friday last. He is survived by his parents, Mr. and Mrs. Edwin Thomas, two brothers, George of the Royal Bank of Canada staff, Montreal, and Gar. Fred, Thomas now in Germany with the Canadian Artillery and one sister, Miss Reta at home. They have the sympathy of all in their bereavement. The funeral will be held Sunday afternoon at 2:30 o'clock and was very largely attended. The members of the G.W.V.A. with the citizens band, attended and six comrades acted as pall bearers. A firing party of the Veterans fired the volleys and the trumpet sounded last post. The services at the house and grave were conducted by Rev. Hugh Miller.

The floral offerings were many and beautiful, among the number being a wreath from the G.W.V.A., spray from the Brotherhood of Locomotive Engineers, spray from the Ladies of G.I.A., wreath from the staff of the freight shed and a wreath from the family.

R. Percy Jellett.

We are sure that the entire community will sincerely sympathize with Mrs. Jellett in the death of her son R. Percy. Deceased, who was 39 years of age, was one of the most enterprising, honorable and popular young men of this district. About two weeks ago he was taken ill and later pneumonia developed. All that loving hands and medical attention could do was done, but he passed peacefully away at an early hour Wednesday morning.

His mother, and three brothers, J. Fraser, of Vancouver, Lieut. H. St. Clair, of the coast defence on S. S. Sherwater and Lieut. Irbly H. with the Imperial forces overseas, survive and have the sympathy of all in their loss and bereavement.

The funeral will take place this afternoon.

Mrs. Sydney Bisson.

Death has again visited our midst and taken away from us the beloved wife of Sydney Bisson, of Port Daniel West, daughter of Mr. and Mrs. W. Chicombe of Barachois. Mrs. Bisson who had been in poor health for some weeks wished to be with her parents in Barachois. While there she became a victim of influenza which left her very weak. She rallied for some weeks, but medical aid and careful nursing failed and she passed away on January 4th, surrounded by loved ones.

Mrs. Bisson was 24 years of age and was beloved by all who knew her. She leaves to mourn her husband and one little daughter, as well as parents, sisters and brothers. The body was brought to Port Daniel West where it was interred in St. James Cemetery. The funeral procession was a large one which showed marked respect for the deceased as well as for the bereaved husband who has the sympathy of the community in his solitude.

Daniel McEwen.

The death occurred on Friday evening at his home 2314 Lydia Street Victoria, B. C., of Mr. Daniel McEwen husband of Mrs. Henrietta McEwen, aged 72 years. Born in Bathurst, N. B., and a resident of this city for the past four months. He is survived by his widow of this city, two brothers, Robert and John of Bathurst, N. B., and two sisters, Mrs. A. Jamieson of Bathurst, N. B., and Mrs. Eddy of Seattle. The remains will repose at the Sands Funeral Chapel until tomorrow morning when they will be removed to the residence where services will be held at 2 o'clock by Rev. Joseph McCoy, M. A. Copied from The Daily Colonist, Victoria, B. C.

Mr. Theo. Dwyer.  
Many friends of Mr. Theo. Dwyer will be shocked to learn of his sudden death, caused by heart failure, which occurred at his home in Bangor, Me. Wednesday morning, Jan. 22nd.  
Mr. Dwyer was a former resident of Campbellton and was well known here. He leaves to mourn his loss, a

## The Romance of Rubber

It will be news to almost every person not connected with the rubber trade that in the past year 83 per cent. of the entire rubber production will come from rubber plantations. For many years it has been well known that the enormous growth in the demand for rubber has led to the cultivation of rubber producing plants in order to supplement the limited supply that comes from the wild forests. Just to what extent these experiments have gone and with what success they had met were matters of which the general public had meagre knowledge. The knowledge has not been exactly inaccessible, but it has not been often set before the public in a readable way.

In an article on the rubber trade's phenomenal growth, prepared by the statistical department of the National Bank of Commerce of New York, we are told that up to 1873 the world's total supply of rubber came from the "wild." In that year seeds from the native Brazilian trees were successfully planted in experimental gardens at Kew, England. Ceylon, the Federated Malay States, the Dutch West Indies, Borneo and the Pacific islands are the centre of the plantation rubber industry, although there are some such plantations in India, Singapore, Penang, Batavia and Colombo are the chief rubber ports of the world. Brazil, which as late as 1911 supplied us with two-fifths of our rubber, now supplies us with one-eighth. This shift is due largely to the change from wild to cultivated sources of supply.

We are informed by this Bank of Commerce article that over 400 years ago Columbus found American Indians using waterproof shoes of rubber. Here we have the earliest form of those modern pedal ornaments that are so widely known as gumshoes, overshoes and rubbers. Though the waterproof quality of rubber was known to the Indians hundreds of years ago, yet that remarkable material did not become an article of commercial importance until less than 50 years ago. Since then the growth in its use has been phenomenal. To-day, American export of rubber footwear totals 2,800,000 pairs a year, worth nearly \$6,000,000, while the world's annual consumption of the raw product has mounted to 290,000 tons.

British capital controls about 90 per cent. of the plantations and most of the remainder of the capital invested in the industry is Dutch. But the U. S. is now going in. Prospects of developing rubber growing in the Philippine Islands is already attracting the attention of experts and capital. Climate and soil are reported to be admirably adapted, and the labor force is practically ready for the development of plantations there. More than 50,000 pounds of the best rubber have been produced on the island of Mindanao that have not yet come into bearing. A most promising start has been made. From the bank circular which contains the facts already related we take this interesting summary of the history of rubber:

Columbus and the Spaniards and Portuguese missionaries who followed him, found the American Indians using crude rubber for balls, for amulets and for certain articles of clothing, among them shoes which were proof against the wet. Yet not until 1822 was rubber deemed of sufficient moment to be reported in American import statistics.

To Europeans rubber had been known as a curiosity for 200 years before any serious scientific interest was taken in it or effort made to utilize it in an industrial way. The French were pioneers in this virgin field. In the thirteenth century, the French naturalist, La Condamine, discovered the native gum in the Carabes of the Andes. The natives called it "caoucho." From this came the French word for rubber—caoutchouc.

Joseph Priestly, the English chemist, discovered that rubber would take permanent marks, and so came its English name, derived from this property. Many names are interwoven with the growth story of rubber's romance: that of Macintosh, who perfected a method of waterproofing fabric in 1825; Charles Goodyear, who was successful in discovering the secret of vulcanizing. The use of rubber tires was first suggested by Hancock in a book published in 1856, but the pneumatic tire was not patented by Dunlop until 1888. So, from these comparatively recent discoveries have resulted the various uses which rubber has come to fill.

Both domestic and export demand for rubber goods has increased enormously since the war began, but it is believed that American manufacturers have secured so substantial a footing in the world's rubber trade that they will be able to hold their own after the war demand has ceased. There have been some doubts as to the ability of the world to consume the increased supplies of rubber, now that the end of the war has stopped the military demand for it. On the whole, however, it is believed that except for temporary depressions there will be a continuous demand for all the rubber produced. New uses for it are constantly being found.

The pay offered harvesters by the Holderness, England, Agricultural Club last autumn was \$16.80 a week, with beer and tea.  
wife and seven children, Ina, Nurse Sister, Somewhere in France, Mrs. J. Anderson of Alberta, Mrs. P. J. Gilmore of Montreal, Mrs. D. W. Smith, Banor, John, Lieutenant in the United States Army, Dorothy and Florence at home.

A host of friends extend their sincere sympathy to the family.

Don't forget the Bean Supper in the Methodist Church Hall Friday, the 24th from 5:30 to 7 o'clock.

## GIRL WANTED.

A girl for general housework, small family, no washing or ironing. Apply to

MRS. GEO. SANSON, Jan. 23-1 wk. Cedar Street, Town.

## A LAST CHANCE.

We learn that the Family Herald and Weekly Star of Montreal are shortly to withdraw their offer of the War Album which has been given to all who this season subscribed to that great paper. The Album is certainly a useful little book to have, containing a vast amount of useful information. The coloring of the flags of all the Allies is beautiful. The new Edition now issued has a complete record of the war. It is said an Edition of 25,000 copies were snapped up by the citizens of Montreal in one day. \$1.25 pays for a year's subscription to The Family Herald with the Album thrown in free. It is a bargain.

Jones—Can you manage to meet your expenses?  
Jorkins—Meet them? Jerusalem, man, I can't run away from them!

Have you bought your child Thrift Stamps?

## The Salvation Army's War Record is a Good One

197 Huts at Soldier's Camps.  
2,100 War Widows cared for.  
3,317 Beds in Hostels close to Railway Stations and Seaport Landings, for care of Soldiers.  
100,000 Parcels of food and clothing distributed among Soldiers and Sailors.  
100,000 Wounded Soldiers taken from Battlefields in Salvation Army Ambulances.  
300,000 Soldiers and Sailors daily attended Salvation Army Huts.  
\$2,000,000 Spent in War Activities.  
They now require \$1,000,000 to carry on their work among the returned Soldiers and their families.  
How much will you contribute?

**CORNS LIFT OUT**  
**WITH FINGERS!**

You simply say to the drug store  
man, "Give me a quarter of an ounce  
of Eucalypti." This will cost very little,  
but is sufficient to remove every hard  
or soft corn from your feet.

A few drops of this Eucalypti will be  
most heartily recommended to you.  
Eucalypti will relieve the corn  
immediately, and soon the entire corn  
will drop off, and you will be free from  
the corn.

This new way to get corns out  
is so simple and so quick that  
even a child can do it. It is the only  
way to get corns out, and it is the only  
way to get corns out without pain.  
It is the only way to get corns out  
without pain, and it is the only way  
to get corns out without pain.

## BLACK CAPE

It is with deep regret that we an-  
nounce the death of Mrs. Robert Fair,  
who passed away on Sunday morning  
the 12th after a lingering illness, at  
the age of 73 years. In the death of  
Mrs. Fair we fully and keenly realize  
our loss as she was a true friend and  
her devotion to those she loved would  
make a bright chapter in any life.  
Nothing but the thought of the lov-  
ing hand that has removed her can  
reconcile us to her absence. While  
she has gone from the scenes, the  
conflicts, the sorrows and pleasures of  
life, she will still live in the hearts of  
those who knew her best. She was Post  
mistress for upwards of forty years.  
She was also superintendent of the  
Presbyterian Sunday School of Mc-  
Rae's Schoolhouse. She leaves to mouth  
her loss three sons Clifton of Black  
Cape, Russell of Toronto, Ont., and  
Garnet of Erie, British Columbia.  
Also one sister Mrs. Peter McRae of  
Black Cape and one brother John  
Fair service of Black Cape. The fun-  
eral took place on Monday afternoon  
and was largely attended, service be-  
ing conducted at the house and grave  
by Rev. E. J. Battie, interment in St.  
Andrew's Cemetery at New Richmond.  
Mrs. Angus N. Campbell left on  
Wednesday on a visit to Montreal,  
Lacelle, Boston, Mass., and Hartford,  
Conn.

Nurse Susan Campbell who has  
been spending a few weeks at her  
home here returned on Wednesday to  
Hartford, Conn., to resume her duties  
as nurse.

Miss Annie Burton left on Wed-  
nesday for Montreal where she is at-  
tending school.

Master Campbell McDonald of  
Montreal who has been spending a  
few weeks with his grand parents Mr.  
and Mrs. Angus N. Campbell returned  
on Wednesday to his home accompa-  
nied by his aunt Miss Susan Campbell.

Mrs. Thomas Young who spent the  
year end with her mother Mrs. Peter  
McRae has returned to her home in  
Oak Bay Mills.

Mr. and Mrs. Angus N. Campbell  
have received word from their daugh-  
ter—Mrs. Maude G. Campbell who  
sailed some time ago with the Ameri-  
can Red Cross Force that she has  
arrived in France after a very rough  
trip across.

Mr. Sydney McEllan and Mr. Philip  
Cyr left on Thursday for Toronto.

Mr. Edgar Steele had returned from  
a trip down the Gaspe Coast.

Miss Pearl Cooke who has been vis-  
iting her aunt Mrs. Edward Steele re-  
turned last week to her home in New  
Carlisle.

Miss Bessie Cooke who has been  
in Campbellton for the past few years  
is now visiting in New Richmond and  
Black Cape, before returning to her  
home in New Carlisle.

Miss Bella Campbell left on Thurs-  
day the 9th for Campbellton, where  
she will remain for some time.

Mr. William Burton who has been  
a visitor to Black Cape has returned  
to his home in Chandler.

Mr. Ernest Steele has returned from  
a short trip to the Gaspe Coast.

We are pleased to see that Mr.  
James Powell who met with a very  
painful accident in November by  
having his foot badly crushed, is now  
able to move about.

## MIGUASHA, EAST

The many friends of Pte. Leonard  
Green will be glad to hear that he  
has recovered from his recent illness  
and is now in Quebec enroute for home.

Mr. and Mrs. Joseph Landry left  
here on Saturday for Balmoral and  
Dundas, where they will spend a few  
days visiting friends.

Mrs. Emile Poirier of Black Cape  
and Mrs. James Lynch of Nouvelle,  
were the guests of their parents, Mr.  
and Mrs. Johnny Caisley on Thurs-  
day.

Miss Eva LaBilloy has returned  
from Dalhousie to spend a few days  
with her parents here.

Miss Helen Landry was the guest  
of her sister Mrs. Eugene Caisley on  
Thursday last.

Miss Mary Louise Caisley spent the  
week end visiting friends at La Riviere.

Owing to the good wages spent in  
the lumber camps many of our vil-  
lage women have been left "Grass  
Widows." To them we extend our  
most heartiest sympathy.

Mrs. Emile Caisley and Miss Lucy  
Caisley have just recovered from the  
Spanish influenza. Their many friends  
are glad to see them out again.

Mr. Joseph Caisley was the guest  
of Mr. Joseph Paul Caisley last week.

Miss Mary Caisley spent a few days  
visiting in Campbellton.

Miss E. P. Ambrose spent Sunday  
with her friends, Mr. and Mrs. Caisley.

## BLACK CAPE

It is with deep regret that we an-  
nounce the death of Mrs. Robert Fair,  
who passed away on Sunday morning  
the 12th after a lingering illness, at  
the age of 73 years. In the death of  
Mrs. Fair we fully and keenly realize

ing conducted at the house and grave  
by Rev. E. J. Battie, interment in St.  
Andrew's Cemetery at New Richmond.  
Mrs. Angus N. Campbell left on  
Wednesday on a visit to Montreal,  
Lacelle, Boston, Mass., and Hartford,  
Conn.

## RIVER CHARLO

Mr. and Mrs. James Dickie who  
have been on a trip to the southern  
part of the province has returned to  
their home.

Miss Margaret Fraser left on Wed-  
nesday morning for Washington, D. C.,  
where she will visit friends for the  
next few months.

Mrs. Howe Taylor and little daugh-  
ter Christine visited her parents, Mr.  
and Mrs. Robert Dickie last week.

Miss Maude Jamieson of the Pay  
Office Staff, District Depot No. 7  
Frederick, has been transferred to  
the Pay Office, St. John and left for  
that city on Monday last.

Miss Sadie Archibald of Archibald  
Settlement, is spending a few weeks  
with friends in Charlott.

Private Homer Hachey and his En-  
lish bride has arrived home from  
overseas and will visit his old home at  
Charlott Station where his many friends  
are delighted to welcome him back.

Miss Mina Jamieson has returned  
from Fredericton where she spent the  
past two weeks with friends.

## JACQUET RIVER

On Friday evening last a number  
of people met at the home of Mr. J.  
Goodin, to greet the arrival of her  
sister Mrs. Michael T. Reardon, wife  
of Officer Reardon of Boston, Mass.,  
after an absence of twenty-four years.

Mrs. Reardon was formerly Miss Car-  
rie Elshiger of Jacquet River. Quite  
a pleasant time was spent renewing  
old acquaintances, dancing was the  
chief amusement, a dainty lunch was  
served at midnight and the party  
broke up in the wee small hours.

Mrs. Reardon admits that there is  
certainly quite a change in Jacquet  
River, as it has grown to be quite a  
village. She intends leaving for her  
home in Wakefield, Mass. within a  
few days.

When the Actress Married.

Patience—You know she married?  
Patience—Whom did she marry?  
"Her press agent."

"There! And she always told me she  
had such a horror of men who didn't  
tell the truth!"

Have You Friends  
Who Suffer?

You have friends who are discon-  
solate, who seem to have lost all inter-  
est in life, and whose sufferings are  
acute—because they are afflicted with  
Kidney or Bladder trouble?

Here is your golden opportunity to  
be a true friend to your friends. Tell  
them about GIN PILLS, what they have  
done for others, and about the thou-  
sands who have found relief by taking  
this remedy.

Persuade your friends to try them, if  
only a sample box. Mrs. James Harris  
of Port Rowan took the advice of a  
friend and wrote us for a free sample.  
Hear in her own words the result:

"My husband had suffered for  
some time with lame back and  
Kidney Troubles. He became so  
bad, work was almost impossible.  
So many remedies were tried with-  
out effect that he became discouraged.  
A friend advised him to  
give GIN PILLS a trial, which he  
did, and to-day he is almost entire-  
ly cured."

The case of W. F. Baldwin, of Smith-  
ville, Ont., is similar in many respects.  
Mr. Baldwin suffered from a pain in  
the back for over three years. Finally  
on advice from friends he tried GIN  
PILLS, with the result that he obtained  
relief from his pain after taking the  
first box.

There is no need for anyone to  
invest a cent in GIN PILLS until they  
have received a sample free and tried  
them, as Mr. Harris did. Write to-day,  
telling us to send a sample box free to  
your friends' address.

The National Drug & Chemical Co.  
of Canada, Limited, Toronto, Ontario.  
U.S. residents should address W. F. De-  
Coe, Inc., 200 Main St., Buffalo, N.Y.

Things go better for people who  
share them with others.

## A CLEVER GYMNAST.

## Some Exploits of the Lebra Spider.

## A Noted Hunter.

Most of us are acquainted with  
the tiny red spider that careers about  
the house with such amazing agi-  
lity. He is a hunter par excellence,  
and quite puts to the blush his long-  
legged cousin that wanders over the  
dry moorland floor, his legs always,  
as it were, in his way, and ever agi-  
lity seeking for the hand of re-  
venge. Doubtless his eyes being  
fixed in the middle of his back ac-  
counts or his impetuosity. He is also  
more noticeable for the fact that he  
himself is a veritable quarry, the  
hunter in this instance being secure  
in his immobility. The brilliant scar-  
let dots on him are not part of his  
own accoutrements; they are stick-  
legged parasites which even his im-  
mense legs are unable to brush off. One  
virtue accredited to him deserves  
mention, for more than one local  
weather-prophet swears by the  
"lebraspider." And they are rarely far  
out either.

My favorite of the spider tribe,  
however, is one that has given me  
much constation. It seems quite  
too clever, for he apparently eludes  
the force of gravitation. This is the  
lebraspider, a famous jumper. His  
gymnastic feats are not limited to  
solid earth, but take place on walls  
and ceilings or, indeed, anywhere up-  
side down or vertical. Having caught  
one the other day, I took the oppor-  
tunity to find out if his wonderful  
powers were understandable to us, so  
I put him under a bell glass, and  
gave him a fairly long fast. In the  
interval I had a good look at him.  
He is "spotted like a pard," the  
greyish markings resembling them-  
selves under a lens to aggregations  
of oblong scales on his black body.  
Over all he has a "bristly" hairiness  
that is quite fearsome; and the man-  
ner in which he clashes his pedi-  
palps or hands, together must prove  
very annoying to his enemies. Later  
he finds those appendages of great  
use, for after a meal he continually  
touches up his whiskers with them.  
Indeed, they are so flexible and gis-  
trif and he is fairly furnished with  
brushes that it is their primary pur-  
pose, for they are of no military use  
whatever, however fearsome they  
may look. The time appearing propi-  
tious for my experiment of spider  
versus gravitation, I placed a fly on  
the ceiling of the bell-jar. Very soon  
he saw her; approaching nearer and  
nearer with movements that vividly  
recalled the stalking of a bird by a  
cat. Both being upside down I was  
quite sure he would never manage it.

However, I was so intent on  
watching the attitude of the hunter  
and hunted that I omitted to ob-  
serve a very important happening.  
Indeed, he was so intent on the fly  
that he forgot to breathe. He was  
explaining what I wanted to know.  
In due time, doubtless when his fixed  
palps or hands, four by-the-by,  
synchronized with his leaping pow-  
ers, he made his terrible leap. In-  
stantly both were struggling in the  
air, suspended by a thread. This, I  
then, was the secret. He was—and  
this was what I did not notice—  
anchoring himself safely with a lit-  
tle line before the attack. This holding  
firm, all the rest of the struggle took  
place in mid-air. Then with his  
fangs in the fly's neck, he regained  
the firm foothold.

It was only then that I saw how,  
every few paces, the spinnerets at-  
tached the invisible thread to the  
glass so that no risks might be run.  
I could see the spinnerets perform  
the action; the thread I could not see,  
even under a powerful lens, so fine  
was it, yet so efficient, that it bore  
the weight of the struggling com-  
batants immediately it was spun. On  
a horizontal surface this anchoring  
line would only be a hindrance, so  
that at first I exercised a certain judg-  
ment in his procedure, measuring as  
it were, all the risks involved in the  
audacious leap into the air. He rare-  
ly missed once he gets into striking  
distance. This, however, is always  
just his difficulty.—The Scotsman.

## The Mariners' Compass.

Ancient Chinese records would  
seem to give the use of the magnetic  
needle for determining direction.  
The compass, as we know it, is a  
long and varied history. The prin-  
ciple of the compass, or as the Chi-  
nese call it, the south-pointing chariot,  
is stated by Chinese and foreign  
authorities alike to have been dis-  
covered during the reign of Chou  
Wang, 1115-1075 B.C. The discovery  
was forgotten in a few hundred  
years. The philosopher Chang  
Hong, who died in 120 B.C., recon-  
structed the device. In succeeding  
centuries his method was lost and for-  
gotten. From the third century A.D.  
onward great interest was shown by  
Chinese seamen in the altitudes.  
At first, however, the compass was  
used in the mysterious south-  
pointing chariot. Attempt after at-  
tempt was made to solve the riddle,  
and there were read in writings of  
the eleventh century of the compass be-  
ing in use by mariners.

At last the Chinese south-pointing  
chariot was a magnetized needle chariot  
on a thread, so as to give freedom  
to its north and south properties.  
It seems not to have been used by  
the Chinese for navigation, but solely  
as an instrument for geomancers.  
It is probable that the Chinese junk  
captains of early days found it a  
needless luxury in their more hug-  
gling and river navigation.

## The Albatross.

The albatross spends its life, with  
the exception of a few weeks given  
each year to nesting, entirely at sea,  
and is on the wing practically all the  
time. Furthermore, it does not pro-  
gress by flapping its wings, as most  
birds do, but seems to soar at will,  
rarely, if ever, giving a stroke of the  
wing, seeming to need no impetus.  
At nesting time, which is in the  
year, the albatross repairs to an  
isolated island, such as one of the  
Crozet Islands, in the Southern In-  
dian Ocean, or Tristan da Cunha, in  
the South Atlantic Ocean.

Holland's mines are now produc-  
ing coal at a rate of about 2,000,000  
tons a year.

## Have you bought W. &amp; S.?

Considerate Cash.

"No," she declared. "I will never  
marry any man who hasn't got en-  
ough to go and ask papa or me."

"That's all right, but you ought to  
remember that your father has a weak  
heart and sudden joy has often been  
known to prove fatal in such cases."

Things go better for people who  
share them with others.

## German Revolutionists

## Take Spartacus the Roman

## To Be Their Inspiration.

ACCORDING to reports coming  
over from Berlin, Germany,  
like the true sentimentalist  
she has always been, has de-  
cided to take her defeat in a style  
worthy of the ancient Roman. Not  
the least theatrical in the play of  
events there is the rise of a Bolshe-  
vist party under the leadership of  
Karl Liebknecht. Not satisfied with  
the ultra-modern name of Bolsheviki,  
this leader has gone back into the  
archives of Rome and has emerged  
with a treasure of a name for his  
followers, the Spartacus group, or  
the Spartacides, as they are now com-  
monly called.

I a recent despatch it was stated  
that Liebknecht, exponent of anti-  
militarism in Germany, said that he  
Berlin, calling them to rally to his  
side, from a truck protected by good,  
militaristic machine guns. So, per-  
haps, he imagines the Roman slave  
stood, surrounded by the weapons of  
warfare of his own time and fashion,  
for the famous address, delivered at  
all schoolboys, which has been put  
into his mouth.

"Ye call me chief; and ye do well  
to call him chief who, for twelve  
long years, has met upon the arena  
every shape of man or beast the  
broad Empire of Rome could furnish,  
and who never yet lowered his arm.  
If there be one among you who can  
say that ever, in public fight or pri-  
vate brawl, my actings did belie my  
tongue, let them come on and yet,  
I was not always thus—a hired but-  
cher, a savage chief of still more sav-  
age men!"

With equal truth and equal jus-  
tice might the leader of the Spar-  
tacus group in Germany say that he  
was not always thus. The ancient  
Spartacus goes on to tell how he  
was a shepherd in the valleys of  
Thrace when the Romans came to  
Greece and captured him. As it  
is known in history, he called the  
to other gladiators of the School of  
Capua to his side and started one of  
the most famous revolutions in  
the world, which lasted from 73 B.C. to  
71 B.C.

At that time Rome was in a state  
of moral disintegration, which al-  
lowed of luxurious living and wild  
dissipation on the one hand and  
suffering from famine and auto-  
cratic oppression on the other. The  
corn laws providing for the gratu-  
itous feeding of the starving prole-  
tariat in Rome had to be continually  
changed to meet the demands of the  
people. The armies of the state  
were absent on foreign service, and  
the vast army recruited from the ranks  
of suffering Thracians, Gauls and  
Spartans. The armies of Rome met  
with defeat after defeat at their  
hands and for a time it looked as  
though the tables of Rome were be-  
ing turned in a manner vastly dis-  
tasteful to the ruling classes. But,  
as is true in most of the rapidly in-  
stant movements, there was dissension  
in the ranks of the victorious slaves  
and the army divided in two, some  
going to the side of one Crassus,  
a rival leader, the rest standing firm  
for the uprising of Spartacus. Be-  
fore very long he had a small but  
vast army recruited from the ranks  
of suffering Thracians, Gauls and  
Spartans. The armies of Rome met  
with defeat after defeat at their  
hands and for a time it looked as  
though the tables of Rome were be-  
ing turned in a manner vastly dis-  
tasteful to the ruling classes. But,  
as is true in most of the rapidly in-  
stant movements, there was dissension  
in the ranks of the victorious slaves  
and the army divided in two, some

## PERSONALS

Mrs. E. Tabor of Bathurst is visiting friends in town.

Mrs. Fred J. Shirley has gone to Montreal to attend the Lane-Deveraux.

Miss Maggie Beckingham of Dalhousie was the guest of Mrs. Geo. Mundie last week.

Miss Beatrice Tappett spent last week in Shannonvale the guest of her uncle Mr. Alex. McDonald.

Mrs. John Gallop, Mrs. Tabor, Bathurst and Miss Lou Nelson and Mr. Lindsay Sullivan spent Tuesday at Bathurst.

Mr. J. Ramier has returned to his home in Port Daniel West after spending a few days in town the guest of Mrs. A. Chambers.

Mrs. J. A. McDonald, Mrs. J. L. Wyers and Mrs. E. A. Wyers left this morning for Bangor, Maine to attend the funeral of the late Mr. Thos. Downes.

Mr. and Mrs. Albert Lane announce the marriage of their daughter Gladys E. to Mr. J. Wesley Devereaux, second son of Mr. and Mrs. John Devereaux, marriage to take place in January.

Miss Alice P. Ashe who has been spending the past month with relatives and friends in Campbellton and Moncton left on Jan. 20th for her home in Attleboro, Mass.—Moncton Transcript.

Mr. McEade, of St. John, who is working in the interests of the War Saving Stamp Committee spent a few days in town this week organizing the campaign for this district.

A very enjoyable evening was spent by the members of the Coolette Snowshoe Club last evening. After the snowshoe tramp a very delicious

goutie was partaken of at Gray's Restaurant by the members, among whom were: J. D. Brule, President, A. J. Bernier, Vice-President, J. J. Bernier, Secretary, J. H. Brennan, Captain, J. Gallagher, Lieutenant, E. A. Cantin, W. J. McIntyre and the Misses Y. Cantin, Laura and Diana Boudreau, Bertha and Cecile Brennan, Corinne Roy, Robertine McIntyre and Miss MacDonald.

Don't forget the Bean Supper in the Methodist Church Hall Friday, Jan. 24th from 5.30 to 7 o'clock.

**SOUR, ACID STOMACHS, GASES OR INDIGESTION**

"Pape's Diapiesin" neutralizes excessive acid in stomach, relieving dyspepsia, heartburn and distress at once.

Time it! In five minutes all stomach distress, due to acidity, will go. No indigestion, heartburn, sourness or belching of gas or eructations of undigested food, no distress, bloating, flatulence or headache.

Pape's Diapiesin is noted for its speed in regulating upset stomachs. It is the surest, quickest stomach sweetener in the world, and besides it is harmless. Put an end to stomach distress at once by getting a large fifty-cent case of Pape's Diapiesin from any drug store. You'll realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by fermentation due to excessive acids in stomach.

## WALL PAPER SAMPLES.

Wm. Metzler announces Wall Paper Samples—Tel. 266.

Don't forget the Bean Supper in the Methodist Church Hall Friday, Jan. 24th from 5.30 to 7 o'clock.

**BEAN SUPPER.**

The ladies of the Methodist church will hold a Bean Supper in the Methodist Church Hall on Friday, Jan. 24th from 5.30 to 7. Supper 50c.

**CARNIVAL AT NEW CARLISLE.**

An Ice Carnival will be held on Friday, Feb. 7th at the rink, New Carlisle, in aid of the Red Cross. The skating is from eight to eleven o'clock. No one allowed on the ice before ten o'clock unless in fancy costume. A splendid range of prizes will be awarded, those were donated by Hon. J. H. Kelly and others. The tickets can be obtained from Miss Cook, Secy-Treas. Red Cross Society, New Carlisle. Price 50c.

**RESTIGOUCHE SOLDIERS' ON STEAMER OLYMPIA.**

The following are the names of returned men for the North Shore: W. R. Wright, Shannonvale; L. J. Calder, Campbellton; A. J. O'Leary, Restigouche County; D. A. Chambers, Campbellton; W. Glazier, Bathurst; E. B. Harquail, Dalhousie; J. R. McTaggart, River Charles; L. W. Richards, Campbellton; Lindsay P. Sullivan, Campbellton.

Lieut. Jas. H. Moores and Lieut. Allan H. Troy of Campbellton arrived home last week on the Metagama.

**TRY IT THIS YEAR.**

To patronize your home merchants and industries is not only patriotic and a duty of good citizenship, but it is to your personal advantage, both financially and sociologically. The truth is that every dollar spent in your home town will find its way back to your purse, but the dollar spent away from home is in all probability gone forever. The profit on each dollar of business transacted at home enriches the community to that extent and increases the value of property.

**CARLETON WEST.**

Mrs. Emile Allard of Carleton announces the engagement of her daughter Marie Leome to Mr. James Giroux of Charlo. The marriage to take place quietly in February.

Mr. Edgar Landry and his sister, Miss Lauretta left Carleton on January 6th for Chandler, where Miss Lauretta has accepted a position as teacher in the convent there.

We regret to announce the death of Mr. Edward Alain, general merchant of this place, who died on Tuesday morning, Jan. 7th at the age of sixty-two years. He leaves to mourn his loss his wife formerly Miss Elmina Allard, daughter of Mr. Wm. Allard and two daughters, Misses Eugenie and Jeanette and two sons, Bertrand and Pauline.

The funeral took place on Thursday the 9th and was largely attended. Requiem Mass was celebrated by the Rev. Father Verreau. The pall bearers were Messrs. Frank Allard, Auguste Allard, Louis Gauvreau, and Edouard Landry. Much sympathy is felt for the family.

The Ensign—There seem to be a good many barks in this light.

The Coxswain—Yes sir. An ocean greyhound chased a cat boat up our cross-streets.

## BONAVENTURE-GASPE BOARD OF TRADE

Important Meeting Held at New Carlisle at Which Good Roads Were Discussed.

A large and enthusiastic meeting of the Board of Trade of the Counties of Bonaventure and Gaspé took place at New Carlisle, at the Court House, on January 16th inst., was attended by representatives from every branch of trade and industry and agriculture throughout the two counties.

This is the second meeting of the Board of Trade that has taken place during the last month and judging from the work done last night, the Board of Trade is destined to play an important part in the two Counties.

The meeting was presided over by the President, the Honorable John Hall Kelly, and many useful suggestions were made by different parties from the two counties. The meeting was also addressed by Mr. Bugeaud, M.P.P. for the County of Bonaventure. Mr. Bugeaud stated that he was very much in favor of the Board of Trade and would always be ready to co-operate with anything recommended by the Board.

The President explained that the most important question to be taken up at the present time was the question of roads. He stated that steps should be taken immediately to have certain parts of the road between Gaspé and Matapédia repaired at once, and in the meantime, the Board of Trade should bend its efforts to try to have a road built from Matapédia to Gaspé and from Gaspé around to Matapédia following the North shore. He therefore suggested the adoption of the following resolution which was carried unanimously:

Whereas there are certain sections of the King's Highway in the Counties of Bonaventure and Gaspé which are in need of repair and immediate repairs;

Whereas the said sections of the said road are among others the following:

1. The section between Causeway in the County of Matapédia and the Municipality of Matapédia;

2. Part of the road between Matapédia and Cross Point;

3. The road from Port Daniel to L'Anse à la Barbe, from Cheunard's Bridge to Black Point and from Newport Point to Chandler;

4. The road over Douglastown Bar;

5. The Bonaventure Bar;

6. Ferre Mountain.

It was therefore unanimously resolved:

That this Board of Trade is willing to help the various Municipalities interested in order to obtain Government aid for the immediate improvement of the said sections of the King's Highway.

The President also explained the project of building a belt line road from Matapédia to Gaspé and from Gaspé to Matapédia and also suggested the adoption of the following resolution:

Whereas it is in the interest of the Counties of Bonaventure and Gaspé that a good road should be built from Matapédia to Gaspé Basin and from thence to Matapédia;

Whereas the people of the two said counties are not in a position to construct the said road;

Whereas the said road was originally opened with money voted by the Imperial Government in order to assist the United Loyalists on account of their fidelity to the British Crown;

Whereas during the present war the descendants of the United Loyalists as well as the other inhabitants of the Gaspé coast nobly responded to the appeal for men made by the Government of Canada and most of their young men have gone overseas;

Whereas the Gaspé coast as a whole is suffering to-day on account of the sacrifices made during the war;

Whereas many of our young men are now returning and unless some means of employment is provided for them quite a few will be leaving the Gaspé Coast;

Whereas if the construction of the said road is commenced immediately during the coming season, it would afford employment to many who may wish to work thereon;

Whereas the said road would stand as a memorial to the sacred memory of the men of this part of Canada who gave up their lives for the cause of liberty and freedom during the present war.

It was therefore unanimously resolved:

That the Board of Trade do immediately take the necessary steps to bring this question to the attention of the Federal and Provincial Governments in order to obtain their co-operation, so that the building of the said road may be determined and the work commenced at as early a date as possible.

At the suggestion of Mr. Wick, secretary.

**ANNUAL MEETING.**

At the annual meeting of the Dalhousie Branch of the Canadian Auxiliary of the British and Foreign Bible Society held in St. John's Presbyterian Church, Dalhousie, on the 17th, reported the following collections of the various districts viz:

From Dundas, Miss Frances Wright, Collector \$8.15

Eel River Crossing, Miss Olive Henderson 9.58

Weeknight Meetings.  
Tuesday, Thursday and Saturday at 8 p.m.  
You are invited to attend the above services. Song books provided.  
Music at all services.

**BOYS STICK TO FARM.**

The boys on the farm are far better off if they only knew it, than thousands of the boys who are at large, wandering hither and thither, searching and looking for "rich bonanzas" to turn up. There is nothing like being practical and there is but one way to be so. Acquire business habits and train yourself to do good, honest, hard work. Don't waste your time learning to tie a cravat. You can buy cravats already tied.

**CORRECT, BUT INEXPRESSIVE.**

While calling with her mother, a Boston child was given a piece of fudges cake. In ecstasy she exclaimed, "Oh, I just love chocolate cake! It is awfully nice."

"Clarita," her mother corrected, "you do not love cake, you like it. Nice is not the proper word in that connection, and 'awfully' is absurd. You should have used very good. 'Oh' and 'just' are redundant, and should have been omitted. Now say the sentence correctly."

Clarita, who was used to such corrections, said meekly, "I like chocolate cake; it is very good."

She seemed so miserable, however, that the hostess came to her rescue with: "What is the matter, dear? You said it quite correctly."

"Yes, I know," the child replied, "but it sounded as though I was talking about bread."

**ANNUAL MEETING.**

At the annual meeting of the Dalhousie Branch of the Canadian Auxiliary of the British and Foreign Bible Society held in St. John's Presbyterian Church, Dalhousie, on the 17th, reported the following collections of the various districts viz:

From Dundas, Miss Frances Wright, Collector \$8.15

Eel River Crossing, Miss Olive Henderson 9.58

Dal. Jct., Misses Annie Hicks and Beattie McCurdy 7.55

Upper Charlo, Miss Mary McKenzie 4.50

Miller District, J. C. Miller 6.25

Pl. la Rivière, Misses Vera Simpson and Marjorie Connacher 33.65

A collection of \$3.82 was taken at the meeting making in all \$83.00 which was forwarded to the Treasurer, St. John, N. B. The officers of the past year were re-elected, and the collectors were requested to take up the duties for the coming year.

**INSTRUCTIONS TO ALL VENDORS**

Chief Inspector Wilson's Rules. Chief Inspector Wilson has issued the following instructions to all vendors:

No liquor whatsoever may be sold without a doctor's prescription.

No more than 10 ounces on any certificate for a patient living within one mile of a vendor.

No more than 16 ounces for a patient living a distance of five miles from a vendor.

No more than 24 ounces on any prescription and then only if the distance between the patient's home and the vendor's place of business exceeds ten miles.

Larger amounts can only be filled with the consent of the local inspector.

At the suggestion of Mr. Wick, secretary.

**Your Clothes**

Should be the best that money can buy.

Clothes do not make the man, but they make him presentable, and he is often judged by his appearances.

You need never be ashamed of your clothes if we make them.

Call and see our line of Blue and Black Serges, absolutely guaranteed.

**Bernier, The Tailor**

## G. W. V. A. Endorses Work of Salvation Army

Shortly before the Armistice was signed, Sec. Treas. W. E. Turley wrote as follows: "If peace were declared tomorrow Salvation Army Huts would still be needed overseas. Many months of 'mopping up' would lie before the troops in the field and the lack of transportation would further delay their return. Comfort found in the Salvation Army Huts would do much to lessen their chafing at the delay in returning them to the greater comforts of their homes in Canada. Our comrades over there have earned all the happiness we can give them, in peace and war, and we, who have been fortunate enough to return from the battlefield, will help the Salvation Army attain its objective."

**FERTILIZER**

Order Early. Ship Early.

WHATEVER may be the conditions as to general business due to the ending of the war, there is nothing unsettled as to the farmer and his supply of Fertilizer.

Twenty million tons of food must be shipped to Europe this year, and the Maritime Provinces must do their share. The spring will not wait to see how things are going to turn out, but the planting must be done or there will be no harvest.

There is to-day probably not more than half the fertilizer in Canada her crops require. The last three years has been a great shortage, with every ton sold before the planting season began. There are no indications this season will be an exception.

To insure getting your supply—Write the nearest general agent of the
