## A LINGERING COUGH

The cough that holds on in spite of all edies needs energetic, and, above all, of the deceased.

William Thompson and Adam Pinch, executors of the will of John David Thewes, who died in Chatham hospital, are suing Thomas Coulter, a farmer of Wheatley, Essex County, for \$1,000. It is alleged that Thewes, while ill in the hospital, sold his farm to Coulter in consideration of \$1,000, depositing the amount first in the Bank of Montreal, then taking it out and handing it to Thewes on his sick-bed. The executors say that no trace of the money so alleged to have been paid can be found, and they claim that amount from Coulter, to whom the deed of the farm was given by Thewes. At the trial the case was dismissed. The executors then appealed and the judgment was reversed, giving the executors \$1,000. The defendant is now appealing at Osgoode Hall against the reversal of the original judgment obtained at the trial of the action. remedies needs energetic, and, above all, thorough treatment. Sundridge, Ont., Feb. 18.—(Special).— It is over two years now since all Sundridge was ringing with the wonderful cure of William Doeg and even now at the sight of him, strong and healthy,

people recall the days when he was a helpless suffering invalid and marvel at his wonderful cure. And Mr. Doeg often speaks of it himself. "For four years," he says, "I suffered excruciating torture during which time I was scarcely an hour free from pain.

The trouble commenced in my back where it often remained stationary for months, and so intense was the pain that I could not lie down or take a rest, but had to sit night and day in a chair. The pain would then remove to other parts of my body and when in my knees I was unable to walk and confined constantly to my room.

"Doctors treated me for Rheumatism with no benefit and almost in despair I feared I would never again be free from pain. Then one lucky day my attention was directed to some remark- DR. #### The Shortage of Labor.

The manufacturers of the city, with few exceptions, are handicapped by the scarcity of labor, skilled and unskilled. On this account many establishments don has increased its floor space withness, or know there is business that he could get, but is prevented from going after by the impossibility of increasing his output. It is a novel position, but it is much more satisfactory and profitable than having an unmand for the products of labor. If Canadian manufacturers had nothing worse to encounter than an inability to keep up with orders, Canada would be an industrial paradise. There is not a cloud on the horizon of the prevailing prosperity, and although a reaction is inevitable, there are factors, immigration chief among them, which promise to postpone it for some years. It is not likely there can be any serious depression in this country so long migration flows, would be a complete terms might be arranged with the great Conservative party" in provinfailure of the wheat crop, but that is local company. a remote probability, and the effect would be transient.

If London were singular with respect to the shortage of labor, the city would suffer by the diversion of business to is over 50 years old." other places, and by the loss of industries, but the condition is general, and the same complaint comes from every manufacturing center. ### The Joint High Commission.

Sir Wilfrid Laurier admits that Senator Fairbanks has asked for a resumption of the sittings of the joint high never did look well in black." commission, but as the Dominion Parliament meets next month, and may not rise till midsummer the commission cannot convene until late in the year. The commission broke up three years ago. because of its failure to come to an agreement on the Alaska boundary stock transaction. It is much safer." question, leaving in abeyance the other matters within its purview. Sir Wilfrid still holds that the boundary question should be settled before negotiations are resumed. The fact that the request has come from the United there? States is an indication of the growing sentiment in that country in favor of more liberal trade relations with Canada. A vigorous propaganda is being carried on by commercial bodies, and in the New England States a section of for the kind advice the Republican party has made Canadian reciprocity a foremost issue. This change of attitude has been brought about by the amazing prosperity of this country, which has forced itself on the attention of enlightened public men and journals in the United States, and led them to realize the present and potential value of Canadian trade. The rush of American settlers to the Northwest Territories has lent a spectacular element to Canadian development, and more than anything else has impressed our neighbors with the fact that a young giant has grown up beside them. It is these considerations that are inclining the United States to be more reasonable in commercial relations with Canada. If the motive is purely selfish, and does not spring from any abstract notions of fair play, it is no reason why Canada should not take advantage of the opportunity, in a purely selfish spirit, too, to drive a good bargain. Canadian interests are safe in the hands of Sir Wilfrid Laurier, and his colleagues, but they have no sympathy with the exclusionists in this country, who denounce any attempt to negotiate a reciprocity treaty with the United States. We have made magnificent conquests in the British market. but there is no denying that under fair tariff conditions the United States would be our best customer. Even against the Dingley tariff Canadian exports across the line have nearly doubled in the past six years. At the same time, Canada is in a thoroughly independent position, and if there is any denial of justice in the boundary question, she can afford to wait just as well as the United States can, for a

fair tariff arrangement. If it is true

that Senator Lodge and Senator Turner are to be members of the judicial comission, there is nothing to fear that Canada will not get fair play. It remains to be seen whether the United States will consent to arbitration in case there should be a deadlock on the

LOCAL MARKET. London, Thursday, Feb. 19.

Small as the attendance was on Tues-day, the number present at today's mar-ket was even below that of the previous market day. Grain—Three loads of oats sold at 93c and 94c per cental. No wheat was of-

fered.
Hay and Straw—There were only two loads of hay offered, which brought \$850 and \$950 per ton. No straw offered.
Butter and Eggs—There were only a few small lots offered—not enough to change prices from those quoted.
There were no potatoes on the market, and the offerings of other vegetables consisted of a few dozen cabbages.
There were no apples on sale.
Dressed Hogs—There were nearly 40 carcases on sale, and prices ruled higher

carcases on sale, and prices ruled higher at \$8 to \$8.25 per 100 pounds, nearly all selling at \$8.10; there was a good demand

at these prices.

The price for Monday's shipment of live hogs could not be obtained. It will likely be about \$5.50 to \$5.60 per 100 pounds. Butchers' Meats—There was a small supply, and prices were unchanged, with the exception of lambs, which sold as high as 10c per pound by the carcase.

AMERICAN MARKETS

CHICAGO. Chicago, Ill., Feb. 18.—Wheat—Today's wheat market was a rather bearish affair, the May price dropping off from 78%c to 77%c. Nearly all statistics were against holders. The local crop situation is generally favorable and correspondingly bearish. There is snow generally over the winter wheat belt, and no reports of crop damage are coming in. A significant factor is the steady increase in the visible supply of wheat, which at this time of the year might reasonably be expected the year limit reasonably be expected to decrease. It fell off rapidly last year at this time, but is now growing steadily larger. The California market was off of traders, including a good deal of selling on the part of those who were buyers To a certain extent interrupted telegraphic facilities restricted trades. It would not surprise us if the price worked lower. Estimated receipts tomor-

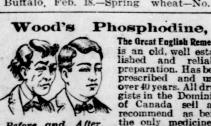

row, 15 cars. Corn—The coarse grain situation did not show especial weakness. Corn was generally firm. There was an excellent commission house demand. Provision traders were good buyers of the May delivery. The July option seems to be com-ing more in favor, the trade buying that delivery which selling the May. Receipts at primary points were 672,600 bu, against 500 bu last year. Estimated receipts omorrow, 120 cars.

Oats were weakened by the liquidation of a long line, sold by one of the larger specialists. This put the May price back from 36%c to 35½c. Otherwise the mar-ket was largely without feature. Estimated receipts tomorrow, 80 cars. TOLEDO.

NEW DAIRY BUILDING WANTED.

The Dairymen's Association of Western Ontario expressed satisfaction at the introduction of the butter-making contests at the Western Fair, and noted with pleasure the interest which fair visitors took in the new departure. The association strongly urged that better accommodation be provided for the competitions, and it suggested also that better provisions be made for the displaying of cheese and butter and for controlling the temperature of the dairy hall. It regretted that the fair association had not shown the enterprise necessary to keep the conditions up the importance of the dairy business in Canada, and concluded by urging that a suitable dairy building be erected at-an early date. at the fair for thirty years, and did not remember a year when the department was so poorly managed.

Mr. George McCormick, the chairman of the horse committee, replied to charge of Mr. Farrell by saying that work was handicapped last year by the failure of the judges appointed by the horse breeders' associations to put in an appearance at the proper time. Three did not come at all, and he (Mr. Mcdid not come at all, and he (Mr. Mc-Cormick) had to go in and do the judging himself. The trouble was that the Fair Association had to appoint the judges from the lists recommended by these as-sociations, and were thus at their mercy. Mr. Russell asked why the prize list the board would be able to incorporate some new features in the butter-making little over \$200, while the breeders' association offered to contribute as much as \$500, or an equal amount to that given by the fair. by the fair.
The reply of Col. Gartshore was that

the association had to curtail expenses as much as possible last year.

WANT DOMINION REPRESENTED. The question of having a Canadian live stock exhibit at the World's Fair at St. Louis was introduced, and it was decided to appoint Col. Gartshore, Allan Bogue and A. W. Smith, president of the Winter Fair, as a deputation to wait on the Minister of Agriculture with de-putations from other bodies and urge that the Dominion be represented Mr. Moore called attention to the move on the part of the Toronto Fair to get grant from the Dominion Government, and said he thought it would be well for

the Western Fair to apply for a share of any grant that might be made. WANT PRIZE LIST INCREASED.

Mr. Richard Oke asked if it was the intention of the board to restore the 10 per cent to the prize list. The reduction was made last year when the board was economizing to avoid a deficit, and many wanted to know what the board was goalso asked for an increase in the sheep and swine prize list, and better accommodation for the attendants.

ing to do in the matter.

Col. Gartshore said the board would be unanimously in favor of increasing the prize list 50 per cent if the finances would permit, but they must guard against a deficit.

Mr. Alexander, of the Southern Fair, Brantford, warned the association to go slowly in the matter of increasing the prize list. The Southern Fair had come through the fire, Mr. Alexander said, and one year found it necessary to pay off the exhibitors with 25 per cent of their money. His advice to the exhibitors was not to ask for another cent on the prize

The new board will consider the restoration of the old prize list.

Col. Gartshore assured the representative of the Dominion Swine Breeders' Association that the board had contemplated improving the accommodation for the attendants in the swine department.

The association also decided not to have the names of the judges appear in the prize list. the prize list.

son, of Toronto, was shot and killed on the Long Swamp road, three-quarters of a mile from Utterson, in the district of Muskoka. The coroner's jury returned a verdict that Johnson came to his death from wounds received from a rifle in the hands of Edward Hunter, of Wyevale, and that Henry Guest, of Wyevale, Edward Dun and Albert Laking, of Utterson, and Samuel Burley, of Orillia, were equally culpable. The preliminary investigation was concluded before Police Magistrate Spencer, of this place, last evening, and all of the prisoners were committed for trial on a charge of manslaughter.

It appeared from the evidence that the defendants and the deceased were engaged in a lumber camp near Utterson. Johnson left the camp the morning of the 11th, after breakfast, and went to Utterson, where he became intoxicated. About 5 o'clock in the evening he started up the North road towards the camp. No one saw him alive to speak to him after that. About what they took to be a be the edge of the track. **Premier Says Boundary Question** Must Be Settled Before High Commission Resumes.

Ottawa, Feb. 19.-The Prime Minister has received a letter from Senator Fairbanks suggesting that the joint high commission should resume its sittings and naming a date early in March for the first meeting. Sir Wilfred has replied, taking the ground that it would be better to defer going out of the way. A second reason assigned is that, although the sittings of Congress will shortly terminate of the condition of the way. The many friends of the city will be the guest of his brother, Mr. H. F. Gordon, 45 Elmwood avenue. releasing American politicians from their legislative labors, the Dominion Parliament is just about to enter upon a session which may be very pro-tracted. It is unlikely, therefore, that any of the members of the Government will be at liberty to participate in the joint high commission until late in the coming summer.

## SWULLEN ANKLES

After Fifteen Years of Suffering Cure Was Effected by

### DR. CHASE'S KIDNEY-LIVER PILLS

Dropsy is a natural result of neglected kidney disease. When the kidneys become deranged uric acid is left in the blood, and the blood becomes watery and vitiated. Flesh and weight gradually decrease and strength is slowly exhausted. Swollen ankles and legs are among the first indications of dropsy, and this symptom arises from the fact that the system is filled with water that should pass off by way of the kidneys.

There is probably no ailment which leads to such dreadfully painful and fatal diseases as derangement of the preventing dropsy, Bright's disease, diabetes, etc., can never be estimated. at once it was Jasper, didn't you, Phil- Mr. Arthur Walden, Ferryville, Carleip? #### LAWN TENNIS. RULES REVISED.

At the Waldorf-Astoria in New York the other night, the 22nd annual meeting of the United States National Lawn Tennis Association was held. Dr. James Dwight, of Boston, presided. A change in the bylaws relating to The new rule, service was made. which conforms to the English rule, reads: "The server shall serve with both feet behind, i. e., further from the net than the base line, and within the limits of the imaginary continuation of the center service and the side lines. It is not a fault if one only of the server's feet do not touch the ground at the moment at which the service is delivered. He shall place both feet upon the ground immediately before serving, and shall not take a running or a walking start. He shall deliver the service from the right and left courts alternately, beginning from the right, in each of his service games, even though odds be given or owed. An amendment to bylaw 24, which relates to changing sides, was made, as follows: "The players shall change sides at the end of the first, third and every subsequent alternate game of each set, and at the end of each set, unless the number of games in such set be even. It shall, however, be oper to the players by mutual consent and notification to the umpire before the opening of the second game of match to change sides instead at the end of every set, in which they shall change sides at the end of the first, It stimulates the Kidneys and London, Ont., the latter winning. This third and every subsequent alternate game of such set. A rule was adopted whereby if a player, in serving a ball, shall miss the ball entirely in his stroke it shall not count as a fault.
