Have Slashed Throat.

Philadelphia, Jan. 11 .- Harry K. Thaw cut his wrists and throat in a private house on Walnut street west of 52nd street, here, today, and was taken to St. Mary's Hospital, according to Captain of Detectives Tate, who had been search-

ng for him.

Early reports did not indicate whether Thaw was dead or dying.

According to Capt. Tate, Thaw's whereabouts was learned early today and the house was surrounded. When detectives entered the place, according to Tate, they found that Thow had out his wrists and throat. Thaw, Tate says, asked that Dr. Elwood Kirby, a well known physician of this city, be sent for. # Making Pretty and Useful Articles For the Home-- Flower Baskets, Wastepaper Baskets, Reading Lamps, Small Trays, Dining Trays, Etc.

Basketry has established itself as one of the practical arts and many who received instructions at demonstration here a year ago are again procuring materials and new designs to make up, and improve their time during the winter months.

Basketry is taught today in many schools and is one of the most popular kinds of home handieraft. The crepe paper rope takes the place of reed and raffia and is much easier to use as no wetting or separating is necessary, which are disagreeable features of reed work. The paper rope does not hurt the hands, and the wire foundations are easily shaped and will stay firmly in place. The effect of the finished work is very attractive and all designs and articles made with reed can be more easily made with Dennison's Crepe Paper Rope.

A complete assortment of all materials for this work now in stock at Stationery Counter.

On Wednesday night the weekly "Group Supper" in connection with the standard efficiency tests was held at the Y. M. C. A. It proved to be one of the most successful "group suppers" yet held, about 70 boys being present. In connection with the program of weekly talks, J. F. Calvert of the collegiate staff, gave a very interesting talk on "Learning to Observe." He made clear to the boys the pleasures to be found in observing birds, flowers and everything beautiful in nature. Following the talk the boys separated into their four respective groups, and took up the work according to their yearly program.

One of the tests on last night's program was on "the ability to entertain" On Wednesday night the weekly

# Appeal to Reason

Ask any of the great army of Postum users what influenced them to try this beverage, and the reply nine times out of ten will be that they were convinced the caffeine and tanain in tea and coffee were har aful to health.

Some imagine it is hard to g've up coffee and tea. But it isn't, with the delightful aro na and flavor of Postum at hand. This flavor somewhat resembles that of a high-grade Java coffee, but there is no coffee in Postum - only the nourishing goodness of wheat skilfully processed with a small per cent of wholesome molasses.

Postum comes in two forms: Postum Cereal, which has to be boiled; Instant Postum— oluble—made in the cup, in= stantly. Some prefer one, some the other. Made right, they are alike delicious, and the cost per cup is about the same. There's better health, comfort and efficiency in

GREEK MET GREEK.—A fight oc-surred in the Alexandra Cafe Wednes-lay between two Greeks, when one ried to collect his wages. They both benefit of the remarks. Then the war started. Sugar bowls were used as weapons and both men clashed together. A real boxing match was conducted for some time until another Greek friend arrived and quickly threw one out into the street. The patrons of the cafe escaped from the "war zone" by the rear entrance.

## THE DIARY OF MARS.

British troops pushing northeastward from the Suez Canal region on the Sinal Peninsula have carried their advance to the border of Palestine. They have captured there the defensive entrenchments of Rafa, 30 miles northeast of El Arish, on the Mediterranean, taken by the British last month and about 70 miles southwest of Jerusalem.

The attack was carried out by Australian troops and a camel corps and was followed by the defeat of a Turkish relief force four miles east of the Rafa position. In the operation 1,500 unwounded prisoners and four mountain guns were taken, according to the British official report.

Greece has followed up her formal acceptance of the ultimatum of the Entente powers by beginning the delivery to the Entente naval authorities of six batteries of mountain guns. This is in accordance with the agreement reached after the disturbances in Athens last month in connection with the Entente demands, among other things for the delivery of Greek army artillery.

Naval losses by the British are announced today. The admiralty ship Cornwallis and an auxillary vessel, a seaplane carrier, have been sunk.

The campaign of Fleid Marshal ine campaign of Field Marshal man Mackensen, in Northern Rumania, continues to be pressed with force and nearly all along the line from the Danube to Fokshani, the Russians have been pushed back to the Sereth River.

Prince Golitzine Declares Reforms in Interior Cannot Now Be Thought Of.

PETROGRAD, Jan. 10.—Via London.

The political situation during the last two months, for which the word "crisis" seems entirely inadequate, has taken a new turn with the resignation of Alexander Trepoff from the premier-ship, and of Count Ignatieff, minister Montreal for the past year, are the of public instruction, and the appoint following items: Cottons and woolens ..... \$ 1,000,000 announcement of this change which has fallen upon the country, continuously excited and emotionally exhausted by 20,000,000 the drama of swift changes and climaxes, hardly created the effect which would have been natural under

1,500,000 other circumstances. This time the tide has suddenly shifted and is running strongly in the re-verse direction. Prince Golitzine, who succeeds Trepon, is a member of the extreme conservative group, who al-ways manifested the strongest reactionary principles, and, as a member of the imperial council, has always shown little sympathy for the progressive ostensible reason for his replacement of Trepoff was the apparent inability of the latter to preserve a strong, united

And His Presence Is Protection to Threatened State Officials.

Murray, Ky., Jan. 11.—In line with his announced intention to give the mob "a chance to lynch the governor of Kentucky first." Governor A. O. Stanley arrived here early today and took charge of the situation growing out of the threats made yesterday by a mob against the lives of Circuit Judge Charles Bush and Commonwealth Attorney Denny Smith.

The judge and attorney spent the night at a hotel here guarded from a mob by a heavy force of deputies. The anger of the mob was aroused against them yesterday when a continuance was granted in the case of Lube Martin, charged with the killing of Guthrie Duigiud, a white man.

The fact that a continuance had been granted was kept secret for a time, and then publicly announced by Judge Bush, who stated that he would be tried next month. Howls and jeers from the crowd gathered in the courtroom greeted this statement. The mob called for the prisoner, and when he was not produced demanded that Murray, Ky., Jan. 11.-In line with

The Murray-Mogridge is located in the Township of Maisonville, in the Kirkland Lake area, recogpized as the most consistently mineralized Township in Northern Ontario,

About three years ago a group of mining men, who treat mining as a business rather than a gamble, and men who have a high standing in the mining world and who operate in other big mining fields, decided to enter the Northern Ontario gold camp, providing an undeveloped or partly developed mining property could be found to come up to the high standard they required.

Before offering it to the public, their own private funds were spent in preliminary work. Before the Murray-Mogridge property was selected many very promising mining claims and properties were turned down by the engineers. These engineers expressed the opinion that Murray-Mogridge will develop into one of the biggest mines in Northern Ontario. THE GREATEST FORTUNES are said to have been Made

in Mining Enterprises NOT THROUGH INDISCRIMINATE PURCHASES OF MINING STOCKS— NOT THROUGH MARKET MANIPULATION OF MINING STOCK

BUT IN MINING ENTERPRISES IN THE EARLY STAGES OF DEVELOPMENT, WHERE THE MEN BEHIND IT TREAT MINING AS A BUSINESS RATHER THAN A GAMBLE

murray-mogradge has what is reputed to be the longest unbroken gold bearing vein in Northern On-tario. The property consists of 10 forty acre mining claims. Average assays from general samples taken every three feet across the vein gave an average assay of \$10.05 per ton, which is considered a very high average. The vein is of great length and two 50 ft. shafts have been sunk at a distance of 2,000 feet apart on it.

Murray-Mogridge at 60 cents offers, in the opinion of men competent to judge, most attractive possibilities. Practical men who treat mining as a business consider mining the safest kind of business as well as the most profitable, providing that the same good care is exercised in the selection of mining properties that is taken in the carrying on of any commercial or manufacturing business. In the mining business, the all-important point is in the selection of the property. Following those lines they consider they have reduced the element of risk to a minimum. The Murray-Mogridge was selected on that basis, and, with the splendid showing already in evidence, there is every reason to expect very satisfactory results by getting in now when the stock is selling at 60 cents. pect very satisfactory results by getting in now when the stock is selling at 60 cents.

The formation, according to the opinion of geologists, is identical with the proven mines of Kirkland Lake, the vein system and formation being similar to that of Tough-Oakes, Wright, Hargraves and

Purchasers of Murray-Mogridge associate with well-informed mining men and with business men whose records are a guarantee that the best results obtainable in this splendid and extensive property will be secured.

Orders telegraphed will be filed as received, and same will be placed on same basis as local cash orders, providing remittance follows by first mail. No order will be filled unless payment in full accompanies order. Right is reserved to accept or reject any or all orders.
