POLES OPEN OFFENSIVE AGAINST GERMAN-RUSSIAN FORCES

VETERAN CHARGES GRAFT, POOR AND OTHER ABUSES AT ONTARIO HOSPITAL FOR INSANE

These Allegations Read to the DR. ROBINSON Great War Veterans at Meeting-Lieut.-Col. Coles Objects to Reading of Some of Accusations.

Charges, such as never before have been made against an institution in the province, were made against the London Asylum for the Insane by Harry Lauder, a returned man, and a former employee of the place, at the general meeting of the Great War Veterans' Association on Tuesday night, Comrade Alfred Pagh read the charges for Comrade Lauder.

At the recent meeting of the executive committee of the association Lauder made the charges verbally. He was a Pole, who never was dismissed, but once resigned, he stated. So far as graft charges are concerned, Dr. Robinson paper and bring it to the general meeting. Following are the charges as

read:

"Returned soldier, having to leave the city to look for employment; Germans, Slumcuskey and wife, given employment at the above institution in preference to returned soldiers. This same German got discharged from the above institution for a very serious offence, beating a returned soldier patient with a club until he became unconscious. This statement was made by a member of the staff at the breakfast table, in the presence of several returned soldiers; in fact, there was one returned soldier said he knew all about it.

about it.

"This happened over a year ago, and Dr. Robinson gave this same man employment. This is what I call a very serious offence. Returned soldiers have to fight for their old positions on their return from overseas. In fact, Dr. Robinson told one returned man that returned soldiers were wanting too much, and they would have to take what he gave them.

"Now this man was only asking for his old job back, and he had to threaten to take his case, to Toronto before he succeeded in getting his old job back.

"The writer himself got discharged for demanding Dr. Robinson to discharge this German.

"Has Dr. Robinson any right to keep men employed at the London Asylum, knowing full well that those men have been guilty of very serious offences in taking away from the above institution material in the nature of flour, milk, eggs, meat, bread, lumber, suits of clothes and blankets? Yet those men are allowed to go unpunished, and many some library of the committee Not Likely To Recommend Extension of Gratuities. them are still working at the insti-

And you have a man that will si back in his chair and pull the 'wool over the people's eyes, and this thing going on under his very nose every day in the week. I think it is about time the public got wise to these facts and have a man put in this position that would run it for the benefit of all concerned, as this man Dr. Robinson gives more time and attention to chicken-coops and hoggens than he does to the coops and nogpens than he does to the care and comfort of the patients.

"Is the herd of cows at the above institution kept for the patients' use? If so, why is it that there is a herd of calves raised and fed on the milk the patients should be using? Why is it that up to a short time ago there was families outside of the said institution supplied with milk that belonged to the patients? Why is it that milk was sup-plied to outside concerns in return for skimmed milk? This skimmed milk very often was not fit for human use. Where is all the pork going that is fed at the asylum? Canadians Who Served With Imperials Will Receive More Money.

[Special to The Advertiser.] Ottawa, Oct. 15.—Behind closed doors nembers of the special committee appointed to consider soldiers' civil reestablishment are working out the report which they will submit to the com-mission. Out of the pile of evidence, statistics and opinions adduced the statistics and opinions adduced the committee hopes to be able to make recommendations which may be calculated to further assist the returned soldier in his return to civil life.

It may safely be predicted that no further system of gratuity, either along the lines suggested by the Gratuities Association or along the lines suggested by the Gratuities of the Great War Veterans will be entertained in the report. The principle will, however, be laid down that no soldier shall be allowed to be in needy circumstances during the coming winter, and it is probable that the creation of a fund on the lines of the patriotic fund, to be administered from the various centres of the Dominion, will be recommended.

Some of Recommendations.

Apart from that the committee will likely recommend as follows: First, that Canadians who have served with the imperials shall be granted the difference between the imperial gratuity and the Canadian gratuity. This will include many men who were connected with the medical, flying, engineering and other units. Second, that gratuities given to matriculation students who left for the war, and who were thus unable to complete their university courses; such grants to be under the control of the Government. New York, Oct. 15 .- All on board the Fabre Line steamer Venezia, reported on fire in mid-ocean, have been rescued by the Niagara of the French Line, and

by the Niagara of the French Line, and are on their way to Bordeaux, France. News of the rescue has been received in a dispatch from Halifax, which stated a relayed wireless message had told of the safety of those on board the blazing vessel.

There seems to be some uncertainty as to whether there were pasengers on board the Venezia. Officials of the Fabre Line in this city declare she carried no passengers, although she had accommodation for 1,500, but advices from Havana, Cuba, from which port the Venezia sailed for St. Nazaire, France, on October 4, state that the official lists show there were 199 passengers and a crew of 155. It is also reported from Havana that the Venezia carried a cargo of 16,350 sacks of sugar. The Venezia had called at American ports before reaching Havana.

LINER CHICAGO IS BRINGING A NUMBER

New York, Oct. 15.—A wireless was received today by the local agents of the French line from the captain of the steamer Chicago, saying that he had on board 19 first-class passengers, 18 second, 102 third, rescued from the Fabre liner Venezia, which was abandoned on fire in midocean. The Chicago carries 15 officers and 140 men of the crew of the Venezia and 169 sacks of mail.

She is due to dock here Saturday.

She is due to dock here Saturday.

The first news of the disaster to the Venezia came in a wireless message from the Niagara of the French Line, saying that vessel had taken off the crew of the burning steamer, but making no mention of passengers. The apparent discrepancy is explained by the French Line agents as probably due to the fact that the Chicago and Niagara reached the Venezia at the same time, and that the major portion of those rescued were taken on board the Chicago, as she was traveling west with a cago, as she was traveling west with a light load, while the Niagara was bound east with practically all of her accom-modations occupied.

The first occurred during the absence of Mr. and Mrs. Ross at the barn milking. Hugh Ross, a son, was in bed at the time, and heard the explosion. He also heard Mrs. McClure, his aunt, and it is believed that she left the house when the flames broke out, but re-entered, probably in search of some members of the family. Hugh Ross made his escape from the burning building through an upstairs window.

Neighbors who rushed to ine scene of the fire found Mrs. McClure' in the hall, where she had dropped from suffocation. She was breathing, but expired soon after being carried out. The family had resided in the district for several years. Mrs. McClure would have been 90 years of age on Priday.

REDS SUFFER DEFEAT Russian Army Has Driven Through Bolshevik Lines

On Wide Front.

London, Oct. 15 .- With Gen. Denekine's Cossack army advancing from the South and the northwestern Russian forces almost within striking distance of Petrograd, the soviet government of Russia appears to be facing a crisis. Bolshevik headquarters at Petrograd a dispatch to the Daily Mail from Reval. The northwestern Russian army has apparently crashed through the Pskov has been captured, and it is believed that the forces under Gen. Yudenitch have also taken the important town of Luga, about 85 miles southwest of Petrograd. The capture of Yamburg, 75 miles from Petrograd, reported on Monday, and latest dispatches indicate the line of advance to be nearly 125 miles in length. On the south the Denekine troops appear to have approached quite near the town of Tula, which is considered the key to Moscow from that side. A dispatch received here says that if Tula falls to the Cossacks, the Bolshevik commissaries will flee into Turkestan, taking advantage of a gap between the Denekine and Kolchak forces in the Volga valley.

GERMANS FIRED AT BRITISH AND FRENCH VESSELS AT RIGA

Stockholm, Oct. 14.—The crews of two Swedish motor ships, which arrived at Kalmar yesterday from Riga, gave an account today of the early fighting around Riga last Saturday. The ships were anchored in the inlet on the Dune River when the Germans started their offensive, so that the vessels were between the fighting lines. Warning shots were fired by the Germans, but it was a quarter of an hour before the motor ships were able to get under way.

Meanwhile the Germans let fly a few shells in order to warn the British and French destroyers in the harbor, and soon these war craft steamed outward under cover of the Lettish artillery. G. W. V. A. Member Says Byron Men "Red Tape"

URGE LARGER GRATUITY

Col. Coles Says "Soldiers Don't Want Aid From Committees For Needy."

Soldier-patients in Byron Sanatorium are fairly craving for liberty, according to statements made before the gen. eral meeting of the Great War Veterans Association in the Masonic Temple on Tuesday night by Sergt, R. H. Young, who is taking treatment there.

The chief reason for this, he said, was the military discipline policy of the soldiers' civil re-establishment commission. If a man overstayed his pass, or broke any other rules he was fined. However, the men were only paid \$1.10 per day. They were allowed \$5 every two weeks, and out of this they were required to purchase their clothes. As a result many of them were almost in

a result many of them were almost in "Red Tape" For Pass.
When a man wanted a pass he went before the O. C., and had to go through "red tape." At Guelph, where the speaker was formerly confined ,things speaker was formerly confined things were very satisfactory. There was a feeling of greater equality there than here. The men wanted to get back to civil life without having to ask assistance. "We're not paupers," said the speaker. If a man had a machine that needed fixing he would not hesitate to bring it back to perfection. The returned soldiers had a right to be looked after until they were in good health again, even if it required five years' treatment to accomplish this, the speaker claimed.

Need Mental Peace.

Peace of mind was what the men needed as a first step to recovering their health. As long as the S. C. R. treated the men as members of a military machine this peace of mind could not be obtained. The men must be treated as civillans, and not as men of the ranks, by the officers in charge, he concluded.

Major Baron Osborne, speaking on the gratuity question, stated that the

There should be no needy returned men. No committees should be formed for their relief, as this involved the payment of large salaries to certain individuals. In England a number of years ago the Duke of Cambridge Fund had been started. At last it amounted to millions of pounds. Notwithstanding this, veterans of the Crimea who had scaled the heights at Alma, fought in the trenches before Sebastopol, charged on Inkerman and went forward into the valley of death at Balaclava, died in

Col. W. G. Coles, president, said that he had noticed an article in the paper which stated that soldiers who were needy would be given aid to tide them over the winter months. This made his blood boil. The soldiers did not want aid from any committees. "We don't want that. We'll suffer. Those who do not suffer can help those who do. We did it last winter and the winter before," he declared. It appeared as though this article was propaganda preparing the soldiers for a knockout blow. "If the press is any guide of what's going to happen, we're going to be shelved," he asserted. "All we've got to do is stand fast and wait."

Dr. H. A. In fact, they were told that there was a long waiting list. They did not wish to spend six months in the hospital as girls coming out of civilian life had/to, but wished to have their three years service considered.

It was said that any hospital that did not give the returned nursing sisters the preference over girls who stayed at home should have the grants which they received each year cancelled. Gratuity for B. E. F. Mn.

Comrade Holmes and another member. both men who had been called into the Imperial forces at the first of the war, complained that they should receive the same gratuity as Canadian troops. They had paid taxes in Canada prior to the war, and were still paying taxes. Their wages in the Imperial army were much smaller than those of the C. E. F. Their families had to live on a smaller separation allowance, while the men who came over from the States to enlist got the gratuity and took it back to the U. S. to_spend.

Comrades Bolger and Near were added to the house committee.

Objections to a clause in the minutes to the effect that Lieut.-Col. C. M. R. Graham had spoken at the last general meeting, were raised. Comrade Pugh claimed that the speaker had been asked to sit down several times, but continued to speak. It was voted to strike the clause out of the minutes.

MEN OF FRONT LINE

Question of Constitution Enters Into Decision.

The London Unit, Army and Navy Veterans, held a long session in their club rooms on Dundas street last night. After some more or less heated discussion, it was decided to have front cussion, it was decided to have front-line men only in the organization, and to cut out what Sergt. J. Rawlings-termed "militiamen" and "Saturday night soldiers." Sergt. Rawlings and his friends objected to bandsmen being elected to the veterans, although it was pointed out that any soldier with nine years service was eligible. However, the majority of members were anxious to, keep as members only those men who had seen service in the front line trenches.

The report from the war trophy members showed that the exhibit had been a success financially on its trip around the fall fair circuit. Several crippled veterans, in Tecum-Several crippled veterans, in Tecumseh Barracks, are anxious to become members of the veterans, and transportation will be provided them to the club rooms at the next meeting.

We base our request on necessity, made imperative by the rapid increase in the cost of living.

If the cost of keeping an average family has not increased by \$300 a year. We are willing to withdraw the request. The general public has had to pay the increased cost of everything else, and why should they exect to get education for their children at the same old price? We cannot believe that the public is so unjust as to insist on the teachers meeting the increased cost of living with an increase of only \$100 over the pre-war schedule, and does it make an injustice any less so because it is shared by 200 teachers? Surely that is a laughable argument.

I am very sure, Mr. Editor, that no person, better than the teachers would appreciate a full and open discussion of this question, and since the matter may not be referred to the people for a decision, why does not the board call an open meeting, and invite the public to express its opinion on the platform?

The Way to say "No"

Mark Your Ballot with an X after Each Question under the word "No."

1	Are you in favour of the repeal of the Ontario Temperance Act?	YES	X
2	Are you in favour of the sale of light beer containing not more than two and fifty-one one hundredths per cent. alcohol weight measure through Government agencies and amendments to The Ontario Temperance Act to permit such sale?	YES	X
3	Are you in favour of the sale of light beer containing not more than two and fifty-one one-hundredths per cent. alcohol weight measure in standard hotels in local municipalities that by a majority vote favour such sale and amendments to The Ontario Temperance Act to permit such sale?	YES	NO X
4	Are you in favour of the sale of spirituous and mait liquors through Government agencies and amendments to The Ontario Temperance Act to permit such sale?	YES	NO

Above is an exact reproduction of the Referendum ballot, showing the correct way to Vote in order to sustain the Ontario Temperance Act as it stands.

Everybody should study the four questions and realize exactly what they mean. Do not be misled by the insidious demand for "light" beer.

The beer of the ballot is 118% stronger than the Ontario Temperance Act now allows, and over five times as strong as the limit allowed for beer defined as non-intoxicating in Great Britain and the United States.

Must Answer Each Question

- 1. Unless you vote on every question your ballot is spoiled.
- 2. You must mark your answer to each question with an "X" only. Anything else would spoil your ballot.
- 3. Unless a majority vote "No" on question 1 the bars will be restored and the sale of all kinds of intoxicants permitted.
- 4. Unless a majority vote "No" on questions 2, 3 and 4 the Ontario Temperance Act will become almost worthless.
- 5. The only SAFE course is to mark your ballot as shown above.

"No!"-Four Times-"No!"

No repeal; No government beer shops; No beer saloons; No government whiskey shops.—Four X's, each under the word "No.

THE NOMINATIONS

Monday's nominations for the provincial general elections show a remarkable political situation in Ontario. For variety of parties and number of candidates the coming elections will furnish a record. At least not in recent For one hundred and eleven seats there are two hundred and seventy candidates, representing no less than eight parties. Of the two old parties the Conservatives have put up 105 candidates, and the Liberals 70, four of the Hearst ing their seats by acclamation. The United with 68 candidates, then come Independent Labor 19, Labor-Farmer 8, Soldier-Labor 1, Socialists 2. Grand Army of Canada 1. As The Advertiser has repeatedly pointed out, the common-sense, rational plan would have been to accept the obligation of the Grand Trunk Pacific, without ending the career of the Grand Trunk. The case of the Grand Trunk cannot fairly be compared to that of the National Transcontinental, and the Canadian Northern. With the last-named system, especially, there was nothing for the Government to do save take it over. The Grand Trunk, on the other hand, under skillful management, has of late years been progressing rapidly towards prosperity, and would assuredly have secured an unshakable position through the tremendous expansion Canada is about to experience. But instead of assisting the system to tide over an adverse period, the Government, by the purchase, assumes a new and stupendous debt. and throws the Grand Trunk into politics, where it will be in danger of degenerating to the level of the Intercolonial. But even should the road escape this fate, what reason is there to think that Canada can successfully run the railroads of the country? Great Britain and the United States have both failed in the attempt, and that despite the fact that the most skillful executives in the world were employed. Already we are adding vast sums yearly to the public debt in operating the Government system of railways, and now we are to have another on our hands.

For half a century Canada has been unable to make a success of Government ownership here is the record: and operation of railways, on a comparatively small scale. The entire history of railroading in this country shows that efficient operation can be had only when the ownership is private. A level-headed, businesslike government would have arranged some working agreement between the national system and the Grand Trunk, which would leave the latter independent. As it is, its absorption means huge increases to the annual deficits, and, in the light Bar" policy. Hearst Government rejected it. of past experience, eventually inadequate ser-

LOAN AND INCOMES.

Occasionally one meets a person who is not clear in regard to income tax as it applies to the Victory Loan 1919. Particularly in the classes which provide the small investors there is some doubt as to what is meant when the statement is made that the loan will be "taxed." An impression seems to prevail that if a subscriber takes a \$100 bond, he or she, will be called on to pay tax on \$100. This is entirely

The tax only applies to the interest on the bond-not to the principal. If the bond holder is a single person with a total annual income not exceeding \$1,000, including the interest of trees as shelters. Certain trees, however, appear from the 1919 Victory Bonds, or a married person with a total annual income of not exceeding \$2,000, the tax on the Victory Bonds need not be taken into consideration at all. Income at the inquest on the Finsbury Park victim showed disturbance of the social peace that can be devised.

and there are three children under 18 years of age to be supported from it no Dominion income tax is levied.

Thus it will be seen that the average income is not hit at all in the tax to be collected on Victory Bonds

THE KINGSLEY CENTENARY.

Among the centenaries of 1919 is that of the birth of Charles Kingsley, poet, novelist and social reformer. Kingsley deserves to be read these days because the causes for which sixty years ago are once again to the front, as they perhaps have not been at any time in peared in the Ottawa morning papers, said: the intervening period. Why EDDY'S Matches are Better

THERE are two big reasons why Eddy's Matches are better than others. The first is wood, and the second is machinery. Matches require soft, smooth-fibred pine. Other wood does not make a perfect product. The House of Eddy can use only perfect blocks for matches because the rest of the wood can be used for paper or indurated fibreware.

The perfect match is the machine-made match. Absolute uniformity can be obtained in no other way. But match-making machinery is expensive to install and to operate. It requires a tremendous U output to make its use profitable. No small manufacturer can afford to use it. 70,000,000 matches a day enable the House of Eddy to maintain automatic machines which would be impossible with a small output.

Think of this when you buy matches. Eddy's matches represent no waste-no use of poor material-no variations from standard. In these days when the tax on matches more than doubles their cost to you, it is worth while to consider the subject a little more closely.

A Better Furnace A More Comfortable Home and Greater Economy

HESE are the three things you are looking for when buying a furnace.

These are the things you get in Clare Bros.' Hecla.

The Hecla Furnace is a better furnace.

It is built for a long life of satisfactory service. It is the best furnace twenty-five years' experience, and skilled workmen, using highest grade material, can make.

Besides: The Hecla Furnace has three exclusive patented features which

lower your coal bills, give you a warmer, more comfortable home and look after your health, assuring ample moisture with the warmth.

Fused Joints.—This feature means that your home will be absolutely free from gas or dust escaping through the registers. The radiator joints, fused by a patent process, give you a more comfortable, cleaner home because free from this nuisance common to ordinary furnaces.

STEEL RIBBED FIREPOT.—This feature saves coal. Having three times the radiating surface of other furnaces it gives greater warmth with less coal. By actual test this saves one ton in seven.

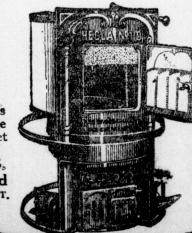

CIRCULAR WATERPAN. -- Moist. warm air adds much to the comfort of your home. The warm air must be properly humidified if you are to have good health. The Circular Waterpan of the Hecla runs completely around the furnace, assuring not only sufficient moisture with the warmth, but that each room gets its proper share.

The Hecla Furnace is equally efficient with either coal or wood. You should know about the Hecla Pipeless Furnace. It is a standard Hecla Furnace adapted to the pipeless idea. It is the ideal heating system if your home is without furnace piping, for schools, churches, stores, or as auxiliary to hot water or steam. Let us send you a booklet describing in detail the Hecla Pipeless Furnace.

Passenger train No. 12 was delayed over two hours near Ridgetown last night when the engine broke down.

Another engine was dispatched from this city, but it also developed trouble before reaching Ridgetown, and as a consequence many passengers were held up at the stations between here and Ridgetown. Canada Must Build Up Trade

ANADA is vitally interested in trade extension overseas, for this so closely affects our national wealth. We are daily losing export business in favor of foreign competitors, because we lack shipping facilities. Our Dominion is undertaking a great shipbuilding program, recognizing that we must build a fleet to build our trade. The Navy League of Canada is straining every effort to prepare Canadian boys to man Canada's ships which will carry Canada's goods to the waiting markets of the world. This is the work of the Boys' Naval Brigades, and it is a matter of primary interest to every Canadian that this movement should not be handicapped by lack of funds. Nelson Day Campaign for \$500,000 OCTOBER 21st, 22nd, 23rd "Canadians Must Sail the Seas" Boys' Naval Brigades are already established and operating in Charlottetown, Halifax. Montreal, Toronto, Saskatoon, Calgary, Victoria and Nanaimo, and many other branches must be organized from East to West in order that the younger generation of Canadians may have the opportunity for free training in seamanship and so will be ready to meet Canada's great need. You will help. You cannot afford to withhold interest in the outcome of this campaign; it is too vital to future issues. For the sake of our boys and of our export trade you will give, and give liberally to the cause. By helping the work you will be helping yourself.

The origin of nince meat

We do not know who made 'the first batch of Mince Meat, but it is safe to say that he or she had little idea of the great popularity which the Mince Pie was destined to achieve in the years to come.

Of course, the method of making Mince Meat was crude then. Now, it is an exact science; the selection of materials, the blending of the ingredients, the skill in cooking and the machinery used are the result of years of experimenting and concentrated effort. There is no nore wholesome or nourishing food than a high-grade Mince Meat, such as

POLITICAL BIRTHDAY.

The great barrier, which has so long existed between the two sexes will at last be broken down next Monday. In Ontario for the first time in history, men and women will go to the polls together and vote on an equal basis—next Monday. Many women will for the first time put their mark on an official ballot—next Monday. Many households will poll a divided vote for the first time—next Monday. Many an old-time politician, sure of his election in years gone by, will nervously await the outcome—in the face of the new and uncertain voting body—next Monday. But most important of all, the men and women of the province will be brought face to face with the problem of silencing for ever the liquor traffic, suspended during the war—next Monday.

Next Monday will be the birthday Justrite Ladies' Wear

Detroit, Oct. 14.—A movement to safeguard girls, based on scientific methods, and backed by the social program of the church, will be presented to the general convention of the Episcopal Church at a special mass meeting to be held here Friday of this week. Mrs. L. Frederic Pease, acting general secretary of the New York Church Mission of Help, will represent the national organization.

"The single standard for men and women must have the backing of the church. Our attitude towards life has changed to meet new social demands. The world needs better mothers—but just as surely does it need better fathers." Mrs. Prederic Pease made this statement last week on her arrival in Detroit to attend the convention.

Mrs. Pease represents the most recent movement in the Episcopal Church for helping girls. "Two thousand five hundred wayward girls have been assisted by the society in eastern dloceses since 1919," Mrs. Pease said. "We claim five great reasons for the downfall of girls:

During the past summer the Church Mission of Help was nationalized and plans will be outlined for the extension of the work to every part of the country. Extension will be carried of two representatives from each diocese and a general secretary. A central bureau will be maintained for statistics and the accumulation of information concerning wayward girls. Workers trained in social work, supplemented by volunteer service, will be used all over the country.

Monday.

Next Monday will be the birthday of Ontario women's enfranchisement. And not a more wonderful occasion could have been chosen than the day of the taking of the referendum. Women have urged that the power of the vote be granted them. They have fought for it, and some of them have suffered for it, and always their plea has been that if they had the franchise they might exercise it for the protection of their homes and themselves.

Now they have got it, and with it their first great responsibility, for is not their first balloting on a question which concerns intimately the home and their happiness? Surely in the face of this, the women of the province at least will make their mark for temperance and home protection — next minion president, and the address of welcome will be delivered by Lady Hearst. The speakers on this occasion will be Mrs. W. E. Sandford of Hamilton, president of the National Council of Women; G. A. the fans with a real afternoon's bill.

The Intermediates have taken a hitch on themselves since Monday's little experience, and tonight are staging a comeback workout. Johnny ("Mushy") Ross will be back in the fold again after four years' service in the army at tonight's practice; Caverhill, an exQueen's man, is a likely prospect in town, and the latest good news is that Big Tom Rowan after making a game fight to stay out of the game ever since they first started booting the pigskin around over at the park is weakening, and may don the leather tonight. If Ross can get back to anything like his 1915 form when Western U. won the Canadian championship, he'll add a lot of strength to the team. Caverhill has a good reputation also, and a place can certainly be found for him.

Lou Pocock, a brother of the big kick on the Capitals' line in 1915 when they battled London in the semi-finals, is a certainty for tonight's workout. He has been playing middle wing, but is said to be a versatile performer.

Martin. Meteoric Career.

The Akron youngster's record as an army boxer is of the meteoric variety. Before he became a military battler he had no real thought of a boxing career. The other sports attracted him—but boxing made only a triffing appeal. When he enlisted he was almost unschooled in fistic work, and so practically all of his knowedge of it was gained behind the batte lines in France.

"Martin always loved athletics," Bronson said, "Between battle work in France he looked around for some sort of diversion. Boxing was about the only thing. So he took it up. In a few months he became champion of his company. The boys were so proud of him that they insisted that he was the best fighter in the battalion. A match was made—and Bob Martin won. Then they fought him against all the other heavy, weights in the brigade and Bob whipped them all.

"By that time considerable attention" battlers as a lesson in handling in discharge in discharge in discharge in the states is studied for the case in first state in the state of 5 to 1. A good crowd witnessed the game, which was a good one from start to finish.

HOT OFF THE GRID

* * *
Three weeks ago, the U. were not seriously considering rugby possibilities A start was made, and a lot of material cropped up that little was known about, and yesterday the result, made their first start in the series they will find themselves playing in a few weeks.

Three weeks' rest on top of the experience gained in Monday's affray should do wonders for the team. They weren't a finished product at any stage of the game, and most of the players realize that, and will be told it

Cline looks like one of the best prospects that ever has been staked out in these parts. He is big and knows how to handle his weight, ankles the usual 100 yards around twelve without being coaxed, and has a sure pair of hands that make spirals look like ripe fruit.

But he was lost about four times yesterday when he was given the ball pass, and hesitated just long enough to lose out. This looked as if it were a little lack of confidence in his own team play, and considering that accurate quick passes come along in the polished stage, this may easily be forgiven. Traynor did some of the best booting ever seen on a local field, both when

he had a mine of time and when he was just about to be smothered. He was cool, and wastes little effort in his punting. He essayed only long kicks Monday, but in practice has been doing some very good drop kicking. McPherson, who does the heavy, stood up under the big push well all

through, and did some on his own at the same time. Near the last of the game, he submarined through for nearly ten yards before there was oil on Coach Brock will have mighty few changes to make in the line-up during

the next three weeks on the first showing of the team. And if there are changes to be made, there is a good supply of spares on hand to replete with. U. did not practice last night, but are ordered out for a workout tonight.

It is possible also that U. will get a workout this week with the London Intermediates, probably in an exhibition game Saturday. This should provide a real pastime, and will give added interest to both teams' workout program.

It is regrettable that the workouts of the London Intermediate O. R. F. U have not produced better turnouts. There are reasons, and logical ones, too, why a number of the old hands shouldn't turn out, but there should be enough of the spirit of sport left in the city to cause some of the husky prospects

of the spirit of sport left in the city to cause some of the husky prospects about the city to get out and try their hand at the game.

However, the defeat at Petrolea Monday will have probably the best effect possible for the Intermediate outfits, and tonight's practice should see a big squad out. Rowlands, who suffered a bad injured knee at the first game with

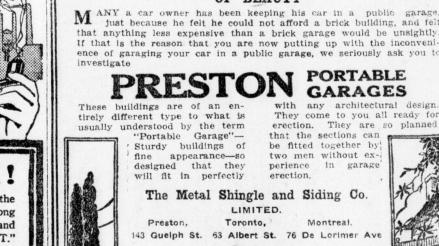

Just how unprepared Western was to take football prospects seriously was shown in the absence at the game of a cheer contingent. Up in the press-box, the dangling bespatted boots of a group of five or six rabid fans were in evidence, and a rather anaemic cry for blood, the tones of which intimated that a red paint substitute would do, in fact would greatly be preferred, was heard at frequent intervals, but when their demands became too blood-curdling, Coach Brock took occasion to tell them that if the slaughter wasn't to their liking, their money was waiting for them.

When U. starts in the campaign in earnest a noise contingent will be formed that ought to add noisily to the atmosphere of the future pastimes in

HALIFAX, Oct. 14.—The board of commerce finding on the local milk question, reducing the cost to the consumer from 15 cents to 14 cents per quart, is not acceptable to the local dealers, some of whom claim that if the finding is enforced they must get out of business. Representatives of the dealers have arranged for a conference with Mayor Parker, with a view of placing their case before him, so that he may take up the matter with the board of commerce.

LONDON, Oct. 14.—(Canadian Associated Press.)—Canadian military sailings are gradually growing less. The Melita sails Friday carrying 200 officers and 270 men. Saturday there will be three sailings: The Royal George from Southampton with 40 officers and 700 other ranks; the Megantic from Liverpool with 60 officers and dependents and 300 other ranks, and the Corsican from Glasgow with 200 officers and families and 400 other ranks. General Bell, late commandant of Witley Camp, sails on the Megantic.

Parliament Asked To Assent To Agreement Without Seeing It.

OTTAWA, Oct. 14 .- A short, sharp discussion of treaty approval marked today's sitting of the House of Comtoday's sitting of the House of Commons. The question arose on Senate amendments to the bill to carry the German peace treaty into effect. The effect of these amendments, as explained to the House by Hon. C. J. Doherty, was to extend the provisions of the bill so that it would apply to the treaty with Austria and also to other treaties signed by Canada. The minister of justice asked the House to concur in the amendments insofar as the Austrian treaty was concerned, but not with regard to the others.

D. D. McKenzle wanted the Austrian treaty tabled before the House should read the control of the con treaty tabled before the House should express its approval of it, and Hon. W. S. Sir George Foster gave the House an explanation in regard to some clauses of the regulations governing the actions of the Canada wheat board. He explained that an agreement had been reached at a meeting of the board with the millers by which the maximum prices of \$10.10 for Ontario winter wheat flour and \$10.90 for Manitoba hard spring wheat flour were fixed. The millers would pay \$10.30 a barrel, and i5c of this sum would be held in a sort of pool for distribution after all the wheat had been disposed of.

Resigns Seat in House To Run Against Bourassa's Lieutenant.

oTTAWA, Oct. 14.—In the House this afternoon Ernest Lapointe of Kamouraska announced that he had resigned his seat to run in the pending by-election in Quebec East. Mr. Lapointe has represented Kamouraska since 1904, since which time he has been a staunch and true follower of Sir Wilfrid Laurier, and since which time he has been a consistent exponent of sound Liberalism and sane imperialism. He has resigned his old seat to fight Nationalism, the ally of the Borden forces in 1911, and his opponent will be Armand Lavergne, first lieutenant of Henry Bourassa, with whose assistance, on a campaign of "no participation in the Empire's wars," Sir Robert Borden came to power nine years ago, and for which assistance the latter brought into his cabinet at various times half a dozen of his disciples.

cabinet at various times half a dozen of his disciples.

Mr. Lavergne ran at the last Dominion election. He was snowed under. And thereby it may be shown that the doctrines which he has consistently preached are no longer to be tolerated in Quebec. Mr. Lapointe has resigned his seat in Kamouraska to do battle with him. That Mr. Lavergne will be defeated is considered here as as a foregone conclusion. Thereafter that old fiction so impudently and shamelessly circulated by the Government to the effect that Laurier and Bourassa were in alliance will be dissipated, and probably Mr. Lavergne will retire with his "master," Mr. Bourassa, into private life.

A victory in Quebec East will mean for Mr. Lapointe that he will not only succeed Sir Wilfrid Laurier as member for Quebec East, but that he will succeed him as federal Liberal leader in the province.

GLASS OF SALTS CLEANS KIDNEYS

If Your Back Hurts or Bladder Bothers You, Drink Lots of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active. Drink lots of water-you can't drink too much; also get from any pharmacist

about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidnevs clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of

The Advertiser's Puzzle Contest

IF YOU CAN COUNT CORRECTLY, ONE OF THE MANY PRIZES MAY BE YOURS. NOTE THE DIVIDEND FEATURE AND SEND IN YOUR SOLUTION.

HOW TO

This contest is open to present bor fide residents of Ontario.

Anyone in this territory may enter the contest upon payment of not less than \$2.00 or more than \$12.48. This amount will be applied to subscription to The London Advertiser at regular subscription rates. It may be applied on either the morning or evening edition, or both.

You may submit just one solution or as many different ones as you wish. With each solution you must pay not less than \$2.00 or more than \$12.48. The total amount paid, whether you send one or more than one solution. will be applied to one continuous subscription, unless you otherwise direct. If you are already a subscriber the amount, or amounts, you pay will be applied to extending the time you are paid to. If you are a new subscriber the amount paid will be credited to you and your subscription started at once.

Present subscribers, wherever located, will continue to receive the paper through the same channels as No change whatsoever will be made in carriers where subscribers receive the paper through carrier service. All carriers will receive notice that the subscription has been paid and be instructed to collect the amount from The Advertiser office. The same will be done where the paper is being received through an authorized newsdealer.

If you send more than one solution at one time send a separate blank with each one and state in each blank the amount you are paying with that solution.

This contest is open to both men and women. You may order the paper sent to someone else if you wish, names and addresses being subject to any changes that later may be de-sired.

DECIDING

In the event of ties those tieing will be required to solve a second puzzle in order to determine who shall receive the prizes. This second puzzle, if one should prizes. This second puzzle, if one should be required, will be equally as attractive and practical as the first. Under this plan those who win will be assured of receiving the full value of their prizes without having to divide them with other contestants. Should still further ties ensue, a third problem of the same order as the second will be submitted to those again tied to solve. This plan will be continued until all have been eliminated except the actual prize-winners. Should there be no ties on the first puzzle, only the one, of course, will be presented. In the event that a second puzzle is required, one week will be allowed in which to solve it. This will prevent the contest being prolonged for any unusual length of time. any unusual length of time.

Important Features

The attention of contestants is called to two important features in connection with the prizes.

1. While the amount you pay for subwith the prizes.

1. While the amount you pay for subscription to The Advertiser has no effect on your winning a prize, it does affect the value of the first five prizes should you win one of them. For instance, each of the first five prizes has a fixed value, to which is added from five to fifty times what the winners pay when they register their solutions. This is explained further in the prize list.

2. The first five prizes may also be increased ONE HUNDRED DOLLARS each by your interesting five persons

2. The first five prizes may also be increased ONE HUNDRED DOLLARS each by your interesting five persons who are not now regular subscribers to become subscribers. You will receive twenty dollars for each one, whether you secure one or five. Each one of these new subscribers must pay not less than the minimum amount (\$2) required of contestants. They may pay up to the maximum (\$12.48) if they desire, and they may also become competitors for the prizes if they wish to submit one or more solutions of the puzzle. That is, they may enter the contest under the same conditions exactly as any other contestant, the payments they make entitling them to entry.

The name of each one of these new subscribers must be sent in on one of the accompanying blanks, whether he becomes a contestant or not. The fact that he was secured by you must also be indicated in the proper place provided in the blank, so you will receive credit. You may send in any or all of those five names whenever you wish, either when you send in your own solution or later. Just use one of the blanks for each one, and then there will be no mistake made in regard to your getting due credit.

Repeal of Ontario Temperance Act Does Not Necessarily Mean a Return to the Old License System

HE AUTHORITY OF JAW

THE Citizens' Liberty League contend that the unsatisfactory Ontario Temperance Act must be repealed and new legislation enacted. Further, they declare that the repeal of The Ontario Temperance Act does not necessarily mean the return of the Old License System.

The Referendum Committee contend differently. To settle the matter once and for all, the Citizens' Liberty League herewith submits a signed statement by I. F. Hellmuth, K.C., of the law firm of Hellmuth, Cattanach & Meredith, Toronto, and by D.L. McCarthy, K.C., Toronto, son of the late Dalton McCarthy, and member of the legal firm of McCarthy & McCarthy, Toronto. Mr. Hellmuth and Mr. McCarthy are two of the outstanding King's Counsel of Ontario.

"Our opinion is asked as to whether a majority vote of 'YES' to question One of the Referendum, necessarily repeals the Ontario Temperance Act now in force and at the same time brings into effect the Liquor License Act which was in force prior to the passing of the Ontario Temperance Act, and our answer is unhesitatingly No.

"It is true that in case of such affirmative answer, the Lieutenant-Governor in Council can, by proclamation, bring into effect the prior Liquor License Act, but until this is done the present Ontario Temperance Act continues in force. It is not obligatory on the Lieutenant-Governor in Council to issue any such proclamation within any fixed or definite time, and there is no reason to suppose any action in this respect will be taken until after the meeting of the Legislature.

"Notwithstanding, therefore, an affirmative majority vote to question One of the Referendum, the prior Liquor License Act will not necessarily be in force when the Legislature meets, and the Legislature can, at the next session, pass such legislation as it deems proper in regard to the whole question. It can bring into effect any Act that the majority of the members of the Legislature approve of, irrespective of any laws in force up to that time.

"There is nothing in the Constitution as laid down by the British North America Act which prevents the Legislature from validly enacting a law which would be a compromise between the Liquor License Act and the present Ontario Temperance Act and any such Act being entirely within the competence of the Legislature would, when passed, supersede any prior laws."

s respect will be taken until after the ing of the Legislature. Withstanding, therefore, an affirmative rity vote to question One of the Referenthe prior Liquor License Act will not Vote "YES" to all Four Questions

Mark your Ballot with an X. Any other marking will spoil it. Remember, also—every voter must vote on every question or his ballot will be spoiled.

What Mother Graham Suggested to Madge.

I docilely obeyed my mother-in-law's command and dropped into the chair she indicated. For several minutes there was no sound in the room while she sat with fingers pressed against her forehead, a habit of hers which Dicky irreverently designates as "the mater giving an imitation of being a deep thinker."

"I have it!" she said at last. "The English nobility do something like it when the heir comes of age—dance with the tenants and the servants and all that, and this will signify he are adealth.

"Have you taken leave of your senses, Margaret?" she demanded "What sort With which swappers have discovered to make a duplicate cake and we put if upon the table tomorrow. We can dispense served family style at the table—"

My mother-in-law held me with a glittering eye that would have caused professional jealousy in the bosom of "ye ancient mariner."

Danger Avoided.

"Have you taken leave of your senses, Margaret?" she demanded "What sort with the firm of the profession of the tenants and the servants and all that, and this will simply be an addant.

With which systemic for shead and dropped into the chair she indicated. For several minutes there will have known you would have some objection," she retorted acidly. "Heave don't take it that way, Mother," I pleaded. "It was so sweet of you consider Katie, but I'm sure I pleaded. "It was so sweet some objection," she retorted acidly. "We put it upon the table celebration. But I know she would be very much excited and pleased if we asked her to make a duplicate cake and we put it upon the table tomorrow. We can dispense served family style at the table—"

My mother-in-law's end or you would have caused professional jealousy in the bosom of "The each would have caused professional jealousy in the bosom of "Ye and it was no sound in the retord the went was a darked. The please of your sense. The please of your sense of social values, anyway."

"Have at kree-ringed circus if you want to Luckily, there's no one coming who have for "Ye

"Well, I'm sure it is nothing to me," said my mother-in-law, her nose in the air and an expression of the most extreme hauteur upon her face. "I felt that I had been unjust to the girl and wished to rectify it; but upon second thought I do not think I will ever refer to the subject. She gets fully enough pampering from you without anyone pampering from you without anyone else taking a hand, Go ahead with your original program."

English nobility do something like it when the heir comes of age—dance with the tenants and the servants and all that, and this will simply be an adaptation of that custom. We'll do it!"

I'm afraid I looked the bewilderment I felt. I knew my mother-in-law's almost childish liking for aristocratic customs, her scrupulous insistence upon all the deference due her; but this harangue was beyond me

WHO BUILT THE KING'S THRONE? When Chief Porky had watched the 40,000 Driver Ants at work for a few moments, he was astonished. Each worker had a task to perform, and that wasn't all—each worker knew just how to perform his task. There yit had been were hundreds of ants carrying clay from the river bank. And when each one arrived with his load, he didn't stop to talk, but immediately returned for another load. When each worker dropped his load there were others to take it to the builders, who put it in place. So the foundation was built for the throne in the great forest.

While waiting for the throne, Tinker

Bob most was how kindly O. Possum's spoke of Lady Duck and how sorry he was because he attempted to kill her.

As Tinker left O. Possum's home he heard Jerry the Jay calling, and a strange sight appeared before him. There was the hawk, the crow the woodpecker and Jerry the Jay working faitfully together on a great carpet for the throne. They had been weaving every day. The hawk and the crow flew far away to where reeds and rushes grew and brought back great to the throne in the great forest.

While waiting for the throne, Tinker When Chief Porky had watched the Bob most was how kindly O. Possum place. So the foundation was built to the throne in the great forest.

While waiting for the throne, Tinker ravel. Jerry the Jay hunted food for the bound building a fine seat for the found him building a fine seat for the fur pillow for the throne. He shed his

fur pillow for the throne. He shed his coat of fur every year and this he had always saved. Now it came in handy to make a soft throne pillow. He, too, was sorry for what had been in his heart against Lady Puck Burk Wilsham was sorry for what had been in his heart against Lady Duck. But Tinker Bob forgave him and journeyed on.

Coming back to the Fox children, he found them gathering moss for the wall of the throne, and Lady Duck had laid an egg for each because they had worked so diligently. And she had worked so diligently. And she had gathered all the feathers she could find and made a beautiful canopy with palm leaves from her wings, to hang over the throne.

This association is fast becoming one of the largest associations on the American continent. With a membership at the present time of 1,500 ilorists in Canada and the United States, it will readily be seen of what a valued service this means to Canadian and American citizens, when an occasion arises to convey a message of sympathy, condolence, goodwill or a joyful surprise to friends in distant cities. "Say It With Flowers" is the universal slogan adopted by the association.

NAVAL WAR VETERANS TO MARCH IN REVIEW BY PRINCE AT BARRACKS

The naval veterans of the great war will be included in the review by the Prince of Wales at Wolseley Barracks, if sufficient number of them communicate with Lieut.-Col. G. R. Higman, R. N. V. R. (phone 3049), before October 15

Space is to be allotted the naval party by the authorities in charge, and as London turned out more men for this branch of the fighting forces during the war than any other city in Ontario with the exception of Toronto, it is expected that the turnout will be large.

BEING HELD IN THE JAIL

Not often is it that a violator of the city bylaws is put in jail, but such was the case of C. Rossoni. Inspector Robert Birrel called out in court Tuesday morning for Rossoni to come forward and answer to the charge of breaking the bylaw for charge of breaking the bylaw, for which is provided the small fine of \$2. All through the corridors of the old Carling street institution the policemen attending court paged Mr. Ros-

where was he? Here is the solution of the mystery: Rossoni, it was said, was arrested on Saturday, charged with stealing four calves from George Smith, a butcher at Derwent. Rossonith, a butcher at Derwent, Rossonith, Ro Smith, a butcher at Derwent. Rossoni is also a butcher. However, some kind friend paid the \$2, for John Moule, the police court clerk, had an entry on the blotter to that effect.

Anyway, when "the roll was called up yonder." Rossoni was resting quietly at Hotel Carter, awaiting trial before Squire W. H. Chitick, magistrate of Middlesex County.

Here's Why

1ST.—No store in Western Ontario buys in such large quantities as Wegner. Enabling Wegner to buy at the manufacturers' wholesale price, while the small man buys at the manufacturers' retail price.

2ND.—Wegner pays spot cash for all merchandise, enabling us to save our cash discount, also our "quan= tity" discount.

3RD.—Our overhead expenses are the lowest in the city, as both our stores are out of the high rent district.

4TH.—In staple lines Wegner buys two or three years ahead of a rising market, and we are able to sell many lines cheaper than the little fellow can buy for.

5TH.—Wegner sells wholesale and retail, and carries one of the largest men's stocks west of Montreal.

Underground Phone Wires.

City Solicitor T. G. Meredith will be asked to report on what power the city has to compel the Bell Telephone Company to lay its wires underground.

Ald. E. R. Seabrook moved that a bylaw be prepared amending the building bylaws which requires the placing of asbestos under roofing. A letter from the Builders' Exchange urged this action claiming that no additional protection was afforded by the asbestos, but that the cost was increased.

ALDERMAN COLBERT IS RECOVERING FROM HURTS OF AUTO ACCIDENT

Estimates for building a new Ridout street bridge will be prepared immediately if a motion by Ald. G. B. Drake at the board of works last night is adopted by the council.

The committee had a lengthy discussion on the subject. Engineer H. A. Brazier estimates that It would cost about \$3,000 to replank the present bridge. Ald. C. G. Moorhead thought that this amount should not be spent in the bridge be repaired, but did not state in his motion the amount of money to be used. Likely Close Bridge.

It is understood that no repairing can be done until an amount is named. Mayor Somerville said that, if a new bridge was to be built the present one should be left as it is and, if necessary, closed up. This will likely mean that the bridge will be closed. Engineer Brazier states that it will be safe for traffic of less than four tons' weight only when it has been replanked.

Mayor C. R. Somerville, Ald. E. S. Little and W. A. Wilson were mamed as a committee in a motion by Ald. Moorhead to report on the closing of city offices at one o'clock Saturday afternoons throughout the year, Ald.
