ROBERT HILLER,

Late R. & A. MILLER,

CANADIAN

farmers' almanac,

FOR THE YEAR OF OUR LORD

1866,

Being the Second after Bissextile or Leap Year, and until the 20th June, the Twenty-Ninth Year of the Reign of Her Majesty Queen Victoria.

Calculated for the Meridian of Montreal in Latitude 45° 30' 23" North, and Longitude 73° 24' 22" West, from the Royal Observatory, Greenwich, but arranged so as to serve without essential variation for all parts of Canada, East and West.

EDITION OF THIRTY THOUSAND.

Entered according to Act of Provincial Legislature, in the year of our Lord One Thousand Eight Hundred and Sixty-Five, by ROBERT MILLER, in the Office of the Registrar of the Province of Canada.

PUBLISHED BY ROBERT MILLER,

79, ST. FRANÇOIS XAVIER STREET,

MONTREAL.

PRINTED BY JOHN LOVELL, ST. NICHOLAS STRAET.

EXPLANATION OF CALENDAR PAGES.

The Publisher of this Almanac, with a view to increase its circulation and usefulness, has adapted its calculations for the whole country. The Moon's changes are given for five different places, viz: Quebec, Montreal, Kingston, Toronto, and London. 'The rising and setting of the Sun are given for Montreal and Toronto. The rising and setting of the Moon are given with sufficient exactness for all practical purposes. The weather prognostications are again calculated according to the table of the celebrated Dr. Herschel; and for extraordinary accuracy, Miller's Almanac retains its wonderful popularity.

ECLIPSES DURING THE YEAR 1866.

- On the 16th of March there will be a partial Eclipse of the Sun. It will not be visible on this Continent.
- II. On the evening of 30th March and morning of the 31st, there will be a total Eclipse of the Moon. This Eclipse will be visible throughout this country. At Quebec, it begins on the evening of the 30th at 9.52, and will be total at 10.59. The totality ceases on the morning of the 31st, 38 minutes past midnight, and the Eclipse ends at 1.44. At Toronto the Eclipse bagins at 9.20 of the 30th; is total there at 10.27, and ends at 12 min. past 1.
- III. On the 15th of April there will be a partial Eclipse of the Sun. Not visible in Canada.
- IV. On the 24th of September there will be a total Eclipse of the Moon. Not visible in Canada.
- V. On the 8th of October there will be a partial Eclipse of the Sun, but very small; not one digit in size. At Montreal it begins at 11.9 in the morning, and ends at 25 min. after noon.

EQUINOXES AND SOLSTICES.

January.—Considering that, on the whole, Canada has been prodentially favoured with a bountiful harvest during the past year, it well that our farmers should be cautioned against extravagance of expenditure and recklessness of speculation. Many will have difficulty recovering themselves from the losses of the last three or four year but others who have been able to get along without incurring head debts may be tempted to error in regard to future operations. Now the Almanac whispers words of wise caution to the prosperous. Be defent, but be careful. It is not possible to foresee what may be the troof public affairs, or what may be the state of the crops for another yetherefore, do nothing rashly, but steadily pursue an even course, a see that you keep out of debt.

FERRUARY.—We said something last year about thistles, and the duty of keeping them down. Since then the Legislature has passed an Act concerning this terrible nuisance, which, if faithfully carried out, may prove highly beneficial. But this Almanac thinks it exceedingly strange that the Legislature should be obliged to interfere in a matter of this kind. Surely common sense and common prudence would teach any farmer not to allow the spread of thistle down, but to take time by the forelock, and never permit a single head to perfect itself or propagate its kind. Even supposing a man neglect his own farm and allow a nuisance within the boundaries of his own estate, he has no right so to conduct his business as that his neighbours on either hand will inevitably be injured.

MARCH.—The Irish Farmer's Gazette says: "A native of Russia ha 2 discovered a process by which timber, though newly felled, may become so hard as to resist the influences of the most trying climates for an almost indefinite period. The most curious part of the invention is that it does not involve the use of chemicals of any sort, such as steep ing in creosote, &c., and that the process is applied to the tree whill growing. The inventor is now making arrangements for the supply his timber to railway contractors in England, and will not require an remuneration further than the amount which should be paid for ordinar timber. The inventor of the new process of preparing timber asser that he will supply an article which need not be disturbed for fifty years

APRIL .- By this time the Reciprocity Treaty between the United States and Canada may, or may not, have been renewed. If it should have been repealed, there is no just ground for supposing that Canada will be ruined, or that the interests of Canadian farmers will be sacrificed or materially retarded. A country like our own, true to itself and governed by wise men, will speedily recover from apparent reverses. and find abundant new channels and markets for its surplus produce. The truth is, it is never best to be dependent for prosperity on any one country. We read in a very ancient piece of History, that "Blastus, the King's Chamberlain, their friend, desired peace, because their country was nourished by the King's country." Yet there are things more valuable even than "peace."

until more rain falls. Look out for it.

Max - Last year many parts of Canada were grievously tormented by the ravages of a worm, which destroyed the turnip crop. The animal was deposited on the under side of the leaf, and was little more than one-third of an inch in length, but grew rapidly. These worms, in the early stage of their existence, appeared to be gregarious in their habits, herding together and sometimes migrating together in a body from one leaf to another. This is the most suitable time to destroy them, which can be done by pinching off the leaf to which they adhere. In this way thousands may be destroyed in a few minutes. Those whose roots were infected by the worm last year, will admit the importance of either. cure or prevention this season, as serious loss accrues from its depredations.

JUNE.—Experience will have taught the farmer or dairy man, that cheese-making is more profitable than butter making during the hot summer months, especially for those who have not a good place to set milk or cream. Let the morning's milk be strained into a kettle with the night's milk and warmed. Pour in as much of the soaked rennet as will produce curdle in fifteen or twenty minutes, then let it stand five or ten minutes. Cut the curd in slices about an inch thick, and then cut again crosswise. Put the kettle on the fire, stir gently, and heat evenly to milk warm. Take it off and let it stand a minute; remove the whey, and pour the curd into a suitable vessel. Salt to suit taste; then cut fine with a knife, put it in a crock and set in a cool place, and mext day put to press.

July .- Having said something about cheese making, we may profitably add the experience of a farmer's wife, about making a press. A very simple but rude press may be constructed by any farmer's wife in five minutes, which will answer a good purpose. Place the cheese on a piece of broad board a little inclined, and use a fence rail for a lever, placing one end under a building or any other structure of sufficient weight, and on the other end lean a couple of rails or hang a pail of stones. Cheese should be pressed only hard enough to remove the whey. A little practice will make perfect. While pressing, the cheese should always be kept shaded from the sun. Follow these rules judiciously, and you will have good cheese to use or to sell.

August.—At the time of this writing, great excitement prevails in England, respecting the disease which has resulted in the death of great numbers of cattle. It is to be hoped that the disease will not reach this country. The symptoms and course of the disease are thus described by the Medicul Times:—"The cow, previously quite healthy, is suddenly seized with trembling or rigors; in an hour or two purging of thin fœcal matter occurs, soon followed by purging of a thin, watery, brown, serous fluid, sometimes accompanied with a little blood. Of course, the milk is at once suppressed. Soon after a serous discharge takes place from the nose, and the mucous membrane of the nose and vagina are observed to become denuded of epithelium. Sometimes there is tympanitis. Prostration and collapse follow, the extremities become cold, and death speedily follows."

SEPTEMBER.—A writer on the management of Bees says: "Now is the time to feed bees, and not wait until winter. It is bad policy to disturb bees during the winter. A syrup made of common sugar will answer for feed where honey cannot be had; white sugar is equally as good as honey. All stocks that are fed should be carefully guarded against robbers by contracting the entrance, so that a bee or two can only pass at a time. All queenless stocks should now be taken up, or supplied with a queen. Stocks in common hives that are to be taken up should be attended to now, as they will add no more to their stores. Moveable-comb hives may be examined, and if miller grubs are found in the combs, they should be removed.

OSTOBER.—Of calves and colts let us say a few words:—Wean calves gradually; restrict their allowance to one teat per day, then allow them to suck only a part of the milk in one teat. After a few days longer, let them suck only once a day for a week, then once in two days for a week, then once in three days. By this time, with proper management, they may be weaned without injury either to dam or calf. Spring colts as well as calves should be weaned generally in August; confine them in a small, clean enclosure, where they cannot run much, and let them suck twice a day, then once, then once in two days, then once in three days. See that colts and calves do not lack a good supply of clean water and good grass, or fine hay, and a sufficiency of, but not too much salt.

November.—Of salting stock or hay, the American Agriculturist says: "There can be no doubt that the animal economy requires salt. The natural and universal desire for it, the wide spread supply of it by the hand of Providence, and the good effects of its moderate use, demonstrate this. It operates both as a tonic and a gentle laxative, it regulates the stomach and bowels, and gives an edge to the appetite. Still animals may take it to excess, and hurt themselves when they ge access to it after long deprivation. It is the favorite practice of som farmers to salt their stock regularly once in so many days, giving them always a fixed quantity. This generally works well. Others prefer t keep a supply always within reach of their cattle, so that they can go and satisfy their natural cravings whenever they choose.

DECEMBER.—We cannot conclude these notes without again saying word to the young farmers of our growing country. First then—becoment with country life, and do not allow yourselves to suppose the dwellers in cities, clerks and shopkeepers, are much better off the yourselves. They are not so, and there is no calling more honorable and few more productive than that of the farmer. Then lastly, be sure to spend a good portion of your evenings at home, and make a selection of valuable and appropriate reading for the improvement of your minder Take a good and useful Agricultural Journal, and make a judicious us of its facts and suggestions.

PETITIONS TO THE LEGISLATURE.

Petitions should be in the following form :-

To His Excellency, &c., &c., (full title will be found on page 28,) or to the Honorable the Legislative Council (or Assembly) of Canada, in Provincial Parliament assembled.

The petition of the undersigned A. B. of, &c.,

Humbly sheweth.

That (here state the object desired in the Act.)

Wherefore your Petitioner humbly prays that your Excellency will be pleased to concur in, [or that your Honorable House will be pleased to pass] an Act for the purposes above mentioned.

And as in duty bound your Petitioner will ever pray.

(Date.)

VIII.

(Signature.)

Private Bills are always based on Petitions, one of which is presented to each House by a member, and the third sent to the Governor-General in Council, through the Provincial Secretary.

Notice of intention to apply for a Private Act must be inserted in the Canada Gazette, and in some newspaper in the locality affected, once a week for two months, between the close of the preceding session and the application.

POST OFFICE DEPARTMENT.

Honorable W. P. Howland, Postmaster General.

W. H. Griffin, deputy postmaster general; H. A. Wickstead, accountnt; William White, secretary; John Ashworth, cashier.

Money Order Branch .- P. Le Sueur, superintendent.

Inspectors.—J. Dewe, G. E. Griffin, M. Sweetnam, E. King, W. G. heppard.

Rates of Postage on Letters.

From one place to another in Canada, or to Nova Scotia, New runswick, Prince Edward Island, or Cape Breton, 5 cents per half oz epaid; unpaid 7 cents.

To Newfoundland, 20 cents per 1 oz; prepayment compulsory.

British Columbia, 25 " " " California, 15 " " " " United States, 10 " " "

England by Canadian Steamer 12½ cents for ½ oz; exceeding ½ oz. cents per oz; by Cunard Steamers, 17 cents for ½ oz; exceeding ½ oz. cents per oz.

Registration Charges.

For Registration of a letter addressed to any part of Canada or British

		North America,						cent

UPPER CANADA.

COURTS.

COURT OF ERROR AND APPEAL. — Judges, Hon. P. M. Vankoughnet, chancellor of Upper Canada; Hon. W. H. Blake.

COURT OF QUEEN'S BENCH.—The jurisdiction of this Court extends to all manner of actions, causes and suits, criminal and civil, real, personal and mixed, within Upper Canada. Chief Justice.—Hon. W. H. Draper, C. B. Puisné Judges—Hon. John Hawkins Hagarty, and J. C. Morrison.

COURT OF CHANCERY.—This Court has the like jurisdiction as the Court of Chancery in England, in cases of fraud, accident, trusts, executors, administrators, co-partnerships, accounts, morgages, awards, dower, infants, idiots, lunatics, and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, staying proceedings at law prosecuted against equity and good conscience, and may decree the issue, repeal or avoidance of letterspatent, and generally the like powers which the Court of Chancery in England possesses to administer justice, in all cases in which there is no adequate remedy at law. Chancellor—Hon P. M. Vankoughnet. Vice-Chancellors—Hon. O. Mowat, and John Godfrey Spragge. Master—Andrew Norton Buell.

COURT OF COMMON PLEAS.—This Court has the same powers and jurisdiction as a Court of Record, as the Court of Queen's Bench. Chief Justice—Hon. W. B. Richards. Puisné Judges—Hons. A. Wilson, J. Wilson.

Hem and Devisee Court.—Commissioners, the Judges of the Superior Courts, and such other person as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands, in Upper Canada, for which no patent has issued from the Crown in favor of the proper claimants, whether as heirs, devisees or assignees. Sittings at Toronto, first Monday in January and July in each year. Clerk of Commissions—W. B. Heward.

COUNTY COURTS.—Presided over by a resident Judge in each County. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the

parties, or signature of the defendant, to £100. An appeal lies to either or the Superior Courts of law. These Courts also possess equity powers to the amount of £50, subject to an appeal to the Court of Chancery.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada. The County Judges are also Judges of the Surrogate Courts.

RECORDERS' COURT.—In the cities of Toronto, Hamilton, London, Kingston, and Ottawa, the Recorders Court takes the place of the County Sessions, the Justices for Counties having no jurisdiction in the Cities—the care of which is confined to the Recorder, Mayor, Aldermen, and Police Magistrate of each. Sessions held 2nd Monday in January, 1st Monday in April and July, 3rd Monday in November. Recorders—George Duggan, Toronto; John E. Start, Hamilton; William Horton, London; J. B. Lewis, Ottawa.

INSOLVENT DEBTOR'S COURTS.—The County Judge in each County presides.

Division Court.—For the summary disposal of cases by a Judge; but a jury of five persons my be demanded in certain cases. Their jurisdiction extends to actions of debt or contracts amounting to £25; injuries or torts to personal chattels amounting to £10. Courts are held once in two months in each division, or oftener at the direction of the Judge.

TERMS OF THE COURTS.

APPEAL TERMS.—Commence on the second Thursday next after Hilary, Easter and Michaelmas Terms.

Law Terms.—Hilary begins first Monday in February, and ends Saturday of the ensuing week; Easter begins 3rd Monday in May, and ends Saturday of the ensuing week; Trinity begins Monday next after 21st August, and ends on Saturday of the ensuing week. Michaelmas begins 3rd Monday in November, and ends Saturday of the ensuing week. Long vacation from 1st July to 21st August.

County Court Terms-Commence on the first Monday in January,

April, July, and October, and end the following Saturday.

CIRCUITS OF THE COURTS.

Law Chrourts.—The Circuits are held twice a year in each county, between Hilary and Easter Terms, and between Trinity and Michaelmas Terms, except in the County of York, where there are three in each year, commencing on the Thursday next after municipal elections in January, the second Monday in April, and the second Monday in October, in each year.

LEGAL HOLIDAYS.

Sunday; New Year's Day; Epiphany; Annunciation; Good Friday; Ascension; Corpus Christi; St. Peter; St. Paul; All Saints; Christmas Day, and any day appointed by proclamation for a general fast or thanksgiving.

DR. COLBY'S

ANTI-COSTIVE AND TONIC PILLS.

A CANADIAN REMEDY.

REMEDYOF UNDOUBTED MERIT FOR

DISEASES OF THE STOMACH, BOWELS, & LIVER.

They are not a quack medicine, and not a cure all, but were originated to meet a long and severely felt want of the public, a mild but certain cathartic, at the same time possessing tonic and anodyne properties. That these pills meet this want, is proved by their extensive and rapidly increasing sale, and by the fact that, unlike any other advertised medicine, they have received the unqualified aprobation of every medical man to whom the formula has been submitted.

In the year 1821, Dr. Moses F. Colby received the degree of M. D., at the Medical Institution in which I was one of the teachers. Since that time I have had professional correspondence with Dr. C., and it gives me pleasure to say, that I have all along regarded him an holding an elevated position among the thinking members of the Medical profession.

R. D. MUSSEY.

571 Tremont St., Boston, Feb. 6, 1860.

WINDSOR, VT., April 6, 1860.

I have personally known Dr. Colby for about forty years, most of the time intimately. He is a gentleman of the highest standing, both socially and professionally. In the departments of physiology, pathology, and therapeutics, to which he has devoted his life, with a most untiring enthusiasm, he has few, if any, superiors among the members of the profession anywhere. Any medicine having his countenance may be seeived with the utmost confidence.

(Late Chief Justice of Vermont.)

Boston, Feb. 4, 1860.

Having long been acquainted with Dr. Colby, I most cheerfully certify to his high standing as a practitioner, and as a gentleman of unexceptionable character.

He has presented a happy combination of therapeutical agents, which is valuable as a cathartic and tonic. Having tried it myself, and knowing the ingredients, I can earnestly recommend it for its excellent qualities.

WINSLOW LEWIS, M. D.

DARTMOUTH COLLEGE, April 6, 1860.

Dr. Colby, of Stanstead, C. E., is a physician of high standing. He has earned a wide reputation for science and skill, in a long course of dignified and successful practice in his profession. It gives me pleasure to commend him. I judge him to be worthy of perfect confidence, and that any of his medicines or prescriptions would be fully answerable to his recommendations. I doubt not that they would be worthy to take

the place of the many unlicensed specifics which are now extensively impairing the public health and swelling the bills of mortality.

N. LORD, Pres. Dart. Coll.

The undersigned Physicians, cheerfully certify to the high professional standing of Dr. Colby of Stanstead, one of the oldest and best physicians, and to the excellent qualitles of his "Anti-Costive and Tonic Pills," which we have used in our practice, and highly approve.

> J. B. GIBSON, M.D., Dunham, C. E. C. E. COTTON, M.D., Cowansville. CHARLES BROWN, M.D. S. S. FOSTER, M.D., Brome. NORMAN CLEVELAND, M.D., Barnston. N. JENKS, M.D. C. W. COWLES, M.D., Stanstead. RUTHERFORD, M.D., Newport, Vt.

> > RICHMOND, C. E., April 18, 1865.

I have no hesitation in bearing testimony to the high professional character of Dr. Colby, he having, during the period of his active labors, stood at the head of the profession in the Townships. I have no doubt, from the composition of his pills, that they would do good service in those cases for which they are recommended.

R. N. WEBBER, M. D.

DANVILLE, C. E., March 13, 1861.

Dr. Colby,

Dear Sir,—I am happy to inform you of the admirable effect of your "Anti-Costive and Tonic Pills" in the cure of my wife. She commenced taking them in July last, when recovering from a severe and protracted sickness, unable to bear ordinary cathartics. Although the pills were taken daily, no objectionable results followed, but under their use she rapidly recovered health and strength.

Inspector of Schools Dist. St. Francis.

We personally know M. F. Colby, M. D., Esquire, to be a person of high standing, socially and professionally. Any medicine offered by him may by viewed with the fullest confidence.

HOLLIS SMITH, M. L. C. P. H. KNOWLTON, M. L. C. LEWIS T. DRUMMOND, M. P. P.

May 16, 1860.

MONTREAL, May 10, 1860.

We have personally known Dr. Colby for many years. He is a gentleman of the highest standing, both socially and professionally.

We have taken the opinion of the first Medical men in the city upon the formula by which these Pills are prepared, and are assured that they are a very excellent remedy for the purpose to which they are de-LYMANS, CLARE & Co.

CONSTIPATION, OR COSTIVENESS.

Daily evacuation of the bowels is essential to the maintenance of health. Without due attention to this matter, the entire system will become deranged and enfeebled. Purity of body and clearness of mind depend in no small degree upon the regularity of the feecal discharge.

TREATMENT. Relieve the bowels thoroughly with full doses of the Pills, and then continue their use in doses of two each morning, for a few weeks, being very particular not to vary the time of taking them, as it is desirable to have the motion as near as possible at the same hour every day. Under this treatment the system will soon fall into natural habits of regularity, and there will be no further trouble.

Habitual constipation, long neglected, is, in nine cases out of ten, the cause of piles and fistula. Like many other dogmas, which experimental evidence is daily confuting, the idea that these painful diseases are incurable will soon be obsolete. It is true that cutting and mineral medication have failed to produce the desired effect, but milder measures have proved successful.

TREATMENT. Take one or two Pills daily, as nearly as possible at the same hour every day, (as a good deal depends upon the regularity of the discharges) and apply ointment made by mixture one part finely powdered Nutgalls, with six parts Lard. Two or three weeks will effect a cure.

SICK AND NERVOUS HEADACHE

Is generally brought on by imperfect Digestion, Costiveness, or inaction of the Liver. To cases of this kind, Colby's Pills are peculiarly

TREATMENT. Begin with a full dose, five of the Pills, which, if necessary, may be repeated three or four days in succession. Then, to complete the cure, and render it permanent, take two Pills every morning for a week, and the following week one Pill in the morning, after which all that is necessary is to take plenty of out-door exercise, and an occasional Pill to keep the bowels regular.

INDIGESTION-DYSPEPSIA,

Almost always accompanied with more or less inflammation of the membranes which line the stomach; some of its symptoms are Headache, Dizziness, Acidity, " all-gone" feeling, and weakness at the pit of the stomach, the bowels sometimes very costive, at others loose, some of the food passing away undigested.

TREATMENT. Take three or four full doses of Colby's Pills, and then take one or two Pills daily, at the same hour each day, eating sparingly of healthy nutritious food, avoiding pastry and soup, and take plenty of gentle exercise in the open air. A few weeks of this treatment will

generally effect a cure.

DISORDERED STOMACH.

Much inconvenience is often experienced from a disordered state of the stomach, when there are no symptoms that can be classed with any particular disease. It should be remembered that Dyspepsia, Inflammation of the Bowels, Costiveness, and many other diseases, arise from a disor-

dered state of the stomach.

WHENEVER any pain or uneasiness is felt, especially after eating, take one or two full doses Colby's Pills, and one or two daily for a few days, until the unpleasant symptoms disappear.

IMPURE BLOOD.

The Blood is the Life of the system, and upon its purity depends the health of the body.

The symptoms of impure blood are dull heavy feelings, headache, loss

of appetite, &c.

In cases of this kind, immediate and permanent relief may be obtained by a free use of "Colby's Pills," as by their peculiar combination they restore the stomach and bowels to their proper tone and vigor, and purify the blood.

SUDDEN COL

Are, (by neglect) often productive of the most fearful diseases. In all cases of this kind immediate resort should be had to Colby's Pills, as, by regulating the stomach and bowels, serious results may often be prevented. Do not think these Pills have no efficacy because you are not violently purged and sickened. Such purgation and sickening are entirely unnecessary, and leave the patient in a far worse state than before. It is one of the principle excellencies of these Pills that such effects are avoided. They are intended to act in harmony with, and to assist, nature. By regulating and strengthening the bowels, and by removing impurities from the blood, they impart tone and vigor to the system, enabling the different organs of the body to perform their various functions, thus curing disease without poisoning the system with deleterious drugs.

I have at my command numerous Testimonials from respectable persons, who have used these Pills with great advantage, but I do not deem it advisable to insert them.

Such Certificates from unknown persons are justly looked upon with

guanicion.

They are easily procurable by every Quack; and if not procurable,

they may be easily fabricated.

It will be at once perceived that these Pills are not recommended as a cure-all. They are simply designed as a safe and reliable family medicine, at once mild and efficacious, which may be taken in all cases where tonics can be borne, without injury, and which, in most cases will produce exceedingly happy results.

I have no hesitation in saying, that, as a universal Pill for digestive difficulties, they cannot be excelled; and such is the unequivocal testimony of the numerous medical men to whom the formula has been
