CRAFTY IN BATTLE Canadians Return Good For Evil in Succouring Wounded

By Courier Leased Wire. With the British Armies in the Field, Sept. 23.—(By Philip Gibbs in Montreal Gazette)—The Germans seem to have a special kind of hatred for the Canadians and tried to knock them about Courcellette by savage attacks and heavy concentrations of artillery, and the Canadians paid back, life for life.

There were trappers among them who devised cunning ways of crawling at night over No Man's Land. There were real Indian tactics between snipers. Night raids were organized and rehearsed with a scientific accuracy of detail that created a new method of trench warfare, which the Germans feared.

The Canadian infantry had a difficult operation. This ground from the high ridge of Joziers sloped down before them to the edge of the village of Courcellette, where they had been ordered to halt and concentrate, while reserve battalions of French-Canadians and the right came to mop up the captured. A German trench ran at an angle from their objective and as they advanced the Canadians had to take this en passant, as chess players would say, the flank capturing trenches at the same rate of progress as the centre and right. The French-Canadians with their comrades on the left, swung in a loop round the southern half of the village and closed in and invaded its streets. The capture of Courcellette was one of the astounding things in this battle of the Somme. There were 1,500 Germans in and about it, and the place was stormed by much less than that number—dugouts full of Germans were routed out by a few men who could have been crushed and killed by the odds against them.

One Canadian boy went down into a dugout, and after a time (what queer conversation could he have had down there?) came out again with prisoners. There were twenty of them, tall, big men, who could have made a meal of this brown-eyed lad who marshalled them up.

Two battalion commanders were taken and brought in the French-Canadian colonel. One of the Ger-

man officers was a baron, stuffed with pride, but a brave man who believed that he had surrendered to overwhelming odds. When he found that he had commanded a greater force than the attackers, he was confused and humiliated. He tried to hide this by arrogance and a show of contempt, but the little colonel of the French-Canadians chastened him by a few words and a flock of ironical humor.

"You are our prisoner now, sir," he said. "I will send you down with the wounded under the Red Cross. If your people do not respect this emblem it will not be our fault if you are hurt."

The baron went away wounded. He expressed surprise at the Canadians talking French so well, and on the way down was wounded by shrapnel from his own guns. There were extraordinary scenes in Courcellette and beyond, where the Canadians put the Germans to flight, and took away prisoners and made strong points to guard against a counter attack.

For hours there was hunting in the dugouts. French-Canadians hunted out Germans and quarrelled with them in French and bullied them good naturedly, and showed them a kind of rough friendliness. "We shall take Courcellette back again," shouted a German angrily. "You will not take it back again," said a French-Canadian. "We shall get all the line into our hands again; there will be a big counter-attack," said the German. "Don't you believe it, Fritz," so the argument continued. "You won't get back a metre of Courcellette, not if the whole German army comes against us, see!"

Many German soldiers had been buried or half buried by shells. These gave sign or tongue were dug out and rescued. One man was dug out as far as his waist, but the Canadians had other work to do to save themselves from the same kind of fate, while un wounded men were dug up in the front. "Finish the job yourself," said the Canadian, giving the man his shovel. "I've other jobs."

TWO ENEMY ZEPPELINS BROUGHT DOWN IN ESSEX BY ANTI-AIR CRAFT DEFENCES

With Ten Others, Aerials Took Part in Air Raid on England, Which Effected Heavy Toll of Lives—Large Crowds Witnessed Destruction of the Two Dirigibles

London, Sept. 25.—Of twelve big Zeppelins which invaded the British Isles Saturday night to deal death and destruction from the skies today lay stark and black masses of steel and aluminium in the little village of Mangold, Essex County. They fell victims of the anti-aircraft defences of London and outlying districts.

One came down a flaming torch, as did the Zeppelin L-20, destroyed three weeks ago; while the second, disabled by gunfire, effected a landing which saved the lives of the crew, who to-night are prisoners in England. The crew of the first raider died in the consuming flames of their own ship, but they are not so terribly charred as their predecessors.

This latest raider to light her own funeral way on English soil collapsed and was consumed much more quickly than the L-21. It is possible, though, that some of the men were still living when the great vessel struck the ground. The captain's body was found some distance from the wreck.

The death and burning of the first Zeppelin was witnessed by tens of thousands of London's residents, but the wounding and descent of the second raider was a matter of doubt until to-day's official statements were given out. Few details are available of this second raider's condition, but it is reliably reported that the crew surrendered to the special constables.

Many who saw the shrapnel bursting like skyrocket about the invader, which subsequently caught fire, think there must have been several direct hits. Many aeroplanes were aloft and attacked the Zeppelins from all sides. The raiders took a heavy toll of lives before their destruction, 28 persons being killed and 99 wounded in the metropolitan district of London. Two persons were killed, probably four, and 17 were wounded in the provinces. The property damage, while widely distributed, is confined for the most part to small suburban dwellings and shops, although one railway station was damaged, some empty cars being des-

troysed, and part of the tracks torn up. The Official Report The military damage inflicted was negligible, according to Sir John French's report, which follows: "The latest reports show that probably not more than 12 airships participated in last night's raid. Police reports from the provinces indicate that the damage done was slight. At one town in East Midlands a number of bombs were dropped and two persons were killed and 11 injured. It is feared two more bodies are buried under the ruins. In this town some damage was caused to the railway station and about a dozen houses and shops were wrecked and damaged. A chapel and storehouse were set afire. With this exception no other casualties are reported outside of the metropolitan area. Although a large number of bombs were dropped promiscuously over the districts visited, the material damage was insignificant. A great number of the bombs fell into the sea and into open spaces.

"The metropolitan casualties are 17 men, 8 women and 3 children killed." (Continued on Page 3)

MANY OFFICERS WERE KILLED Total of British Army Casualties During Past Week

By Courier Leased Wire. London, Sept. 24.—(New York Sun cable)—In the past week the British armies on all fronts lost 6,283 officers and men killed, of whom 408 were officers, the war office announced. The wounded and missing total 28,964, of whom 1,569 were officers.

By Courier Leased Wire. Paris, Sept. 25.—Monsignor Agathangelos, Greek metropolitan of Drama was arrested on board the Siamer Ohio on its arrival at Saloniki from Piraeus by order of the National Defence Committee, according to a Saloniki despatch to the Matin. Bishop Agathangelos constantly attacked the Entente in speeches and writings and is also accused, the despatch says, of acting as a spy.

NEW YORK BREAD ADVANCES. By Courier Leased Wire. New York, Sept. 25.—The largest baking company in this city announced to-day that the price of its five cent loaf of bread would be advanced next Monday to six cents, but that this will be accompanied by an addition to its weight. A smaller loaf than heretofore will be sold at five cents. No change in the price or size of the ten cent loaf is announced. Members of the National Bread Committee, including delegates from Chicago, Buffalo and other large cities are here to-day to attend a conference with officers of the Housewives' league to consider the advisability of a wheat embargo.

The body of Francis Sanderson was found in Hamilton Bay. He had been missing for a week. Capt. Ernest Pinkham, youngest son of the Anglican bishop of Calgary, has been killed in action.

FIGHTING IN DOBRUDJA IS STILL OF MOST DESPERATE CHARACTER

Teuton Sledgehammer Blow Has Failed, and Allied Forces Progress Everywhere

BULGAR, TURK, HUN All Yield Rapidly, Abandoning Supplies and Wounded Men

By Courier Leased Wire. London, Sept. 25.—The correspondent of The Daily Chronicle at Bucharest, sends the following, dated September 23:

"In the five days' battle waged on the Dobrudja front, the fighting throughout has been of a desperate character. In the earlier phases of the engagement the Bulgars, with the recklessness of despair flung themselves against the allied line. There appears to have been a considerable stiffening of German troops among the Bulgarian attacking columns. These came on in mass formation. Among their ranks, the allied artillery did terrible execution. "Smash through at any cost," seems to have been the Teuton motto. Physically overpowered, their effectiveness thinned by terrible punishment, the Bulgars and Germans made a final effort to break through the allied line. For the supreme effort reinforcements were brought from other points, including a number of Turks, hurried from Thrace. The Turks were placed in the vanguard, but the new attack

was unable to make any impression on the allied line. The intended sledgehammer blow proved in delivery, but a gung effort. The allied front along the punity of the enemy's offensive, was covered with dead. Finding the enemy had spent himself, the allies lost no time in delivering a counter-stroke. Amid great enthusiasm, they dashed forward—Serbs, Russians and Roumanians. With the terrible fate of their comrades at Trutakan still fresh in their memory, they leaped the trenches with irresistible fury and flung themselves against the shattered remnants of the Teuton force.

Bulgars, Germans and Turks, unable to withstand the onslaught yielded rapidly and refused to face a-fresh the oncoming allies. Abandoning artillery, munitions and many wounded, they retired southward. The hapless villages on the line of retreat suffered the vengeance of the baffled foe, who everywhere set them afire.

Everyone here is pleased with the stand of the Roumanian soldiers when at the outset they found themselves opposed to a numerically superior foe.

Tigers and White Sox Gained on Red Hose—Phillies Press Dodgers Hard.

By Courier Leased Wire. Chicago, Sept. 25.—Pennant hopes were revived in a slight degree today for the Chicago and Detroit Americans who won their games yesterday, while Boston was losing to Cleveland. Boston, which has eight games yet to play is two and a half games in front of Chicago and three ahead of Detroit. Chicago and Detroit have five and four games, respectively on their schedule.

The race in the National League is closer, Brooklyn being only a game and a half ahead of Philadelphia with Boston five games behind the leaders.

There is more chance for an upset in the National League than in the American, as Brooklyn and Philadelphia each have eleven games behind the season ends and Boston has fifteen. No games were played in the National League yesterday.

Artillery Unit Recruited Here Reaches England Safely. Mrs. Henderson, wife of Capt. Henderson of the 54th Battery, received a cablegram on Saturday announcing their arrival. They had been some fourteen days on the way over, and the many Brantford relatives and friends of officers and men were commencing to get a bit anxious. However, in response to phone calls from a large number during Sunday, the Courier was able to give the reassuring information of their safe landing.

The above (centre cut) is a picture of Capt. Thomas R. Coleman of the First Battalion, a Brant Co. boy who, as noted in Saturday's Courier, was recently promoted to a Captaincy for gallant work on the field of battle. He is the fourth son of Mr. and Mrs. John Coleman who reside outside the city on Farrington Hill. He is 25 years old and unmarried. At the time of his enlistment he was accountant at the

branch of the Imperial Bank in Galt. Two other brothers—Frank and Jack—are also at the front, in the 40th Battery. In the photo, Frank is on the left of the Captain and Jack on the right. Capt. Coleman was wounded on June 13th last, when the Canadians took back some lost trenches at Ypres. After his convalescence in the hospital he returned to the firing line again.

BIG BOOSTER PERIOD STARTS TO-DAY AND WILL END ON MINUTE OF 8 P.M. OCT. 7

Subscriptions Have Added Value if Turned in by Oct. 7th—Now is the Time to Work

The next few days up to Oct. 7 will be the "Booster Period" in the great contest. Friday the names which have been enrolled as contestants were announced, and for the next few days all subscriptions received—new and old—will have an added value. It means that it will pay to get to work at once and work hard, for the impetus given a candidate at this time will do much toward carrying him to victory.

Those who have not yet made up their minds fully to enter the race but have been earnestly considering doing so, should make their decision today by sending in their names so that they will appear in the complete list in a later issue. If they have any friends in the race they will give their support by paying a subscription during "Booster Period." "Booster Period" ends Oct. 7, and that never again during the entire contest will so many votes be given on subscriptions.

Hun Troops Weakened and Can Bear No Long Attacks

British Supremacy of the Air Is Admitted by German Prisoners Who Deride Their Own Air Craft.

By Courier Leased Wire.

London, Sept. 25.—(New York Sun cables)—A correspondent at British headquarters in France, says that the recent British advances in which they straightened their line from Elers to Cotreclette on the Somme front, have shown that the German morale has been lowered.

"We are receiving abundant proof of the weakening of the German troops," he writes. The German prisoners ascribe this partly to the system of keeping the men in the trenches for long periods without relief, with the result that they are completely worn out.

"German officers captured admit that their troops are incapable of prolonged resistance because of fatigue. Men of the German thirteenth corps repeatedly conceded the superiority of the British and French troops, and were particularly impressed with the extraordinary expenditure of ammunition by the allies' artillery.

"German prisoners no longer emphasize the presence of strong German reserves behind the front. Though they will not admit that the Somme offensive really threatens to

enable the allies to break through, some agree that will not be impossible. Captured orders complain of insufficient firing upon the allies' armor, and also show a shortage of grenades and fodder for months past.

"The British supremacy in the air is freely admitted by German prisoners," says the correspondent. "The officer captured was completely puzzled at the absence of German aeroplanes after the British attack began.

"The German weakness in the air is not due," this officer said, "to a lack of officers or machines, as the German aviation corps is one of the most popular branches of the service and the supply of officers exceeds the demand. There are many aeroplanes lying behind the German lines," the prisoners said, and they thought their armor should attempt to maintain an observation service for the German guns, no matter how great the odds against them.

"Their flying corps appears to be the subject of general criticism from the German troops, who say its inability to beat off British airmen necessitates the infantry staying in their trenches without moving for fear of being detected from above."

THE QUARREL OF THE TREES

Who began it nobody knew, but before the quarrel was ended every tree in the forest had something to say. Leaves and wind, branches and twigs and even the tree-sprites quarrelled.

"Men," said the giant oak, who was so old the trees had lost track of his age, "call me the 'Hercules of the Forest.' I am sturdy, strong and famous."

"Famous?" murmured the elm. "Are you more famous than I? I, too, am a giant and a stately one. A tree in my family is so big that a dozen men could stand in its hollow trunk."

"Permit me to remind you," he snapped, "that warships once were made of my wood!" And then before the elm could answer, into the quarrel came the birch with a proud flutter of leaves and waving branches.

"What is strength?" she laughed, "an ill grace and beauty. Men call me 'the lady of the woods'!"

"And use your twigs to 'birch' the school boys!" cried a new voice.

The trees all looked around. It was the ash who spoke.

"I," said the ash proudly, "have the strength of the oak, the sturdiness of the elm and the grace of the birch. Men call me the 'Venus of the woods' and find my wood tough enough to use for bows."

"Hum!" murmured the birch with scorn. "Your roots strike so deep nothing can live near you!"

It was so true the ash tree hung low head and said never a word in reply.

An old linden tree, who was sometimes called a lime, felt that it was high time he spoke his merits.

"There was a time," he began, "when shields were made of my wood and history is graven on me. Many and many a carving in the old churches were made upon lime wood. 'What's more I'm pretty handsome myself!'"

"No more handsome than I!" rustled the maple. "I'm the favorite shade tree. How beautifully golden my leaves blaze in autumn. How rapidly I grow. My wood lives on in the furniture of houses and my cousin the sugar maple—"

"Pooh!" cried the rest of the trees. "Maple sugar! What's that?"

"You may blaze golden in the autumn," put in an older tree, who had not yet spoken. "But I keep my leaves fresh after the leaves of all the rest of you have fallen. And my wood is put to many purposes. Charcoal for gunpowder, piers, because I can live under water without rotting."

"And the French," jeered the other trees, "make you into wooden shoes. Ho, ho! Wooden shoes."

So they quarrelled and quarrelled and quarrelled until the moon set.

"What's all the noise and hubbub down there?" demanded the moon. The tree sprites, quarreling in the moonlight, glanced upward.

"You shall be judge!" they cried. "Where is your favorite tree?"

"I," said the oak, "have the leaves of a beach tree who hasn't joined the quarrel."

"Here!" cried the moon. "For she's kind to you all. Never a one of you but has been protected from cold when you were weak and young. Precious little timber men would have from any of you if it wasn't for her. They call her the 'Mother of the Forest.'"

And that, the trees agreed, was the best name of all.

Those New "Bran Foods" — a new one is born every week — a recognition of the need of food laxatives instead of drug laxatives.

The problem of presenting bran to the human stomach in combination with a nutritious, easily digested food was solved twenty years ago by the invention of Shredded Wheat Biscuits, the food that supplies all the body-building material in the whole wheat grain in a digestible form, combined with bran, which is Nature's laxative. A body-building, strength-giving food. Served with milk or cream or other fruits.

Italians Accomplish Important Feat Against That City.

By Courier Leased Wire. New York, Sept. 25.—A news agency despatch from Rome to-day says: "Italian troops have cut the Trieste water supply. The Rome dispatch does not state how the water supply was cut. It appears probable that an Italian advance in the vicinity of Monfalcone about thirteen miles north of Trieste, accomplished the feat."

MUST APPOINT A WATCHMAN

Mayor Writes Letter to L. E. and N. Railway, to that Purport.

The following letter from Mayor Bowby has reference to the appointment of a watchman of the dangerous crossing at the corner of West Mill Street and Chestnut Avenue. Such an appointment has been in mind by officials for some time and it is now necessary owing to the new regulations concerning the blowing of whistles, etc., which eliminates all warning of an approaching train at this point, and thus increases the danger.

Brantford, Sept. 25, 1916.
Martin L. Todd, Esq.,
The Lake Erie and Northern Railway Company,
Galt, Ont.

Dear Sir:—Mr. Thomas Slattery was a Civic Employee and was hurt at the Waterworks. Mr. Frank, some three months or more ago applied to you as I understand to appoint this man on your railway as watchman, he being a fit and proper person for such a position. Now, as the city has determined to allow no railway to ring bells or blow whistles in the limits of the Corporation, it seems to me that your railway will not be able to defer action in making an appointment as watchman, until after the 1st of October, 1916. I trust that you will favorably consider the application, and I have the honor to remain, yours truly,
J. W. BOWBY,
Mayor.

"John Smith," a Central station foreman, was instantly killed by a train at Wilbury.

British Bombed Belgian Coast

By Courier Leased Wire. London, Sept. 25.—(14.35 telegram)—British monitors and destroyers bombarded the Belgian coast on Sunday between Heyst and Bruges, according to a Reuters despatch from Brussels.

"THE HOT WEATHER TEST makes people better acquainted with their resources of strength and endurance. They use Hood's Sarsaparilla, which invigorates the blood, promotes refreshing sleep and overcomes that tired feeling."

HOW TO KEEP WELL

THE AMOUNT OF FOOD one eats is determined by one's weight, the amount of work one does, the season of the year, and to some extent, by one's digestion. A great part of the food we eat goes to make heat, consequently the fuel value of a calorie of food is higher in winter than in summer.

when the heat ranges from 90 to 100 Deg. F.

Food value is generally indicated by the term calorie. A calorie is the amount of heat required to raise one kilogram of water one degree centigrade. A man doing active manual labor requires 4,000 calories of food daily, as compared with 2,000 calories required by the man lying quietly in bed. In a general way the amount of food a person needs varies with the weight, but the unit of food per pound of weight is highest in the first year of life and lessens year by year as one becomes older. The body grows very rapidly in his first year and besides he takes a great deal of exercise. He works harder than an older person.

FOODS are classed as Proteins, Fats, and Carbohydrates or Sugars. The proteins are the substances necessary for the growth and repair of the body tissues. The fats keep us warm and the carbohydrates supply energy. Eggs, milk, cheese and meat give the largest amount of protein; milk and butter the largest supply of fats, while sugar, jam, bread, milk, and cereals largely supply the carbohydrate. The following tables indicate the quantities of food and food values for the diet.

BREAD FAMINE IN VIENNA
By Courier Leased Wire. Zurich, Switzerland, Sept. 25, via London.—Press despatches from Vienna say there has been a bread famine for several days, owing to the transportation difficulties. An official decree has been published forbidding hotels and restaurants of Vienna and lower Austria to supply bread to guests, who must bring their own. Railway service has been greatly dislocated since Roumania entered the war.

TWO ENEMY ZEPPELS ARE BROUGHT DOWN

Continued from Page One
ed; 45 men, 37 women and 17 children injured. A considerable number of small dwelling-houses and shops were demolished or damaged and a number of fires were caused. Two factories sustained injury and three empty railway trucks were destroyed, and the permanent ways slightly damaged in two places.

"No reports have been received of any military damage."

The Localities visited
An earlier statement by Sir John said: "Fourteen or fifteen airships participated in the attack on Great Britain last night. The south-eastern, east Midland counties and Lincolnshire were the principal localities visited."

"An attack on London was carried out by two airships coming from the south-east between 1 and 2 o'clock, and also by one airship from the east arriving between 12 and 1 o'clock in the morning."

"Aeroplanes were sent up and fire was opened from the anti-aircraft gun defences, the raiders being driven off."

"Bombs were dropped, however, in the southern and south-eastern districts of London, 28 persons being killed and 99 injured."

"Two of the raiders were brought down in Essex. Both were large airships of a new pattern."

"One of the raiders fell in flames and was destroyed with its crew of 22. The officers and men of the second were captured by the militia. The roar of dropping bombs was heard in many districts where the raiders were invisible. It is not believed that more than two or three invading Zeppelins which crossed the East Coast succeeded in reaching the environs of London, and that two of these paid the death penalty given to the greatest satisfaction to the military authorities. Apart from the loss in material, the casualties of the past two raids, it is believed, will have a depressing effect on the morale of the Zeppelin crews in the future."

Londoners were jubilant at the exultant enthusiasm shown from the three weeks ago, in declining the destruction of a giant sky-raider is already taken as an ordinary incident in this unusual world-war.

Careful Defences
The fact that the airships were brought down well outside of London, both this time and Sept. 3rd, shows the care with which the defences have been dealt with the raiders were further evidenced by the speed with which the searchlights picked up the searchlight beam shot to the starlit sky. Three more hours would have followed, and within 15 seconds the whirling airships were caught in the coils and the guns began sending up shrieking sharpshooters.

For a minute or two the raiders kept its course, then wavered, turned partly away and suddenly disappeared, apparently into the air. Evidently the ship was beclouded in the smoke and the lights lost her completely.

In the meantime, however, bombs were dropping and red flares were visible as they hit the earth. The city was quiet for an hour, the searchlights flashing only occasionally in the hunt for raiders. All London within sound of the guns and bombs was out to see the spectacle of the glowing wreckage of further and almost despaired of further excitement when a fire broke low in the sky. It looked first like the moon rising in its last quarter from behind a cloud bank. From the city it appeared to hang stationary for a minute or more, then glowing redder a reader slowly and steadily to the perpendicular and streaked into the gloom of the smoky night ground-mist.

To the watchers in Essex, however, the spectacle of the flaming fall Zeppelins had all the thrills of the L-21, and they cheered the gunners and their fortunate shots that brought the raiders to earth.

Attack Was Expected
All London expected the attack Saturday night, the Germans evidently having selected Saturday as their greatest efforts. But a bright moon deterred any attempt to cross the sea. The chat from the unlucky 13 to 12 last night brought, however, worse, rather than better luck to the flying squadrons. From the moment the first Zeppelins appeared it was evident that raiders were of the new and late types. This has been borne out by the two brought down. One of burning Zeppelins in falling crashed through a row of tall chimneys, the envelopes supports. As usual village fire engine was quickly on the scene and began putting out the flames and began putting out the flames as rapidly as possible. So of these were charred beyond all recognition, while others were white and recognizable. All appeared to be young men, well clad wearing the remains of stout lead coats and shoes of rather poor quality, which is taken here to indicate that good footwear is not plentiful in Germany.

To-day thousands journeyed to see to view the wreck, but precautions prevented souvenir hunters from making away with anything detachable. There were no sightseers also viewing the damaged outskirts of the city.

From the number of bombs dropped, both explosive and incendiary

BIG BOOSTER PERIOD STARTS

Continued from Page One one you had better make it a point to see them at once, or some other candidate will secure their subscriptions. Right now is the time to get them all in on this big "Booster Period" which will close on Oct. 7. If you can't land them all to-day get right to-morrow and keep at it until you have seen every possible subscriber. Don't have anything close on your mind but this great effort until the 7th day of October.

"Booster Period" is a fine opportunity for new entries for the simple reason that very little effort has so far been made by the candidates already entered. A new candidate could start in the campaign to-day without a single vote and win the grand prize. Get busy at once. Only a little energy spent now calling upon your friends. Bear in mind that if you fail to win a prize you will be paid for your time and labor just the same. In the Daily Courier contest you are rewarded according to your efforts. Nothing like this has been offered before in this part of Ontario.

Why Extra Votes are Given Extra votes are given at the beginning of the campaign so as to ensure the prizes being awarded to the candidates who actually secured the largest amount of business and to prevent persons with money coming in at the last of the contest, paying their own money on subscriptions and attempting to win the prizes over those who worked hard and loyally for the paper for weeks. Under the new extra vote system, where the vote value is five times greater in the beginning of the contest than it will be in the last, it can be seen readily that candidates who have secured actual business early will have the advantage.

The Daily Courier wants the subscriptions and not merely money. Every person wishing to get in the campaign should make a start during the "Booster Period," and every candidate already in the race should make hay now during "Booster Period." Their efforts during the next two weeks mean much toward success on the closing day.

There are many important things about this campaign that the management would like to talk about, but the Booster period of the present is so overwhelmingly overshadowing, it is blotting temporarily every other consideration. There is really nothing else so important right now as the proper appreciation of this grand opportunity. If you improve it you will have cause for rejoicing and if it is permitted to get by you, you will probably regret when the final count is made. Never again will it be as easy to get votes and this chance to make good should not be overlooked by any candidate.

Office Open Until 8 p.m. For the benefit of the candidates the contest day of the Courier will be open until 8 o'clock each evening. The contest manager and his assistants will be glad to have any one call before 8 o'clock at this department closes for the day at this hour. Bear in mind that the contest manager will be in his office until 8 o'clock each evening.

Remember this is "Booster Period" when votes have an extra value. A little effort now will give you a big start in the race. The list of candidates, with their coupon standing will be printed 3 times a week, every Tuesday, Thursday and Saturday.

THE SITUATION

On Saturday, at midnight, the Hun made the most sensational air raid they have yet attempted on the City of London. The Zeppelins employed, twelve in number, were exceptionally large and of new type, and their capacity evidently allowed for the carrying of many more explosives than any previous craft. It followed that the roll of dead and injured proved to be much larger than on any previous occasion, and the property damage must also have been exceptionally large. There will be general satisfaction over the circumstance that two of the invaders were brought down, and the incident demonstrates that John Bull is getting his air defences into better shape. That fact in itself will not be without its effect upon the foe, and will serve to make any further visitors wary about taking aim at too low an altitude. The raid, like its predecessors, proved to be absolutely useless from the standpoint of any material advantage, and insofar from striking any fear into the hearts of the inhabitants of Old Albion, it is again recorded that the people rushed out with the hope of getting a view of the attackers, and the other air vessels in pursuit of them.

SUCCESSES ON EASTERN FRONT

Dobrudja and Transylvania Are Scenes of Advance by the Entente Allies.

By Courier Leased Wire.
 London, Sept. 25.—Latest reports regarding the important campaign in the Roumanian province of Dobrudja indicate a lessening in the intensity of the struggle between the invading armies of the Central powers and the Russians and Roumanians fighting them.

Field Marshal Von Mackensen's initial attempt to break the allied lines formed to defend the Constantza, Telernavada railroad, evidently having failed, the opposing forces apparently are now virtually deadlocked along the front from the Danube to the Black Sea. The current statement from Bucharest announces that artillery duels along the Danube, declares, however, that the Roumanians have made some progress on their left flank, which rests on the sea coast.

In their invasion of Transylvania, the Roumanians report successes in an attack at Hermannstadt, where 300 men and five machine guns were captured. Nearly 7,000 prisoners have been taken by the Roumanians so far in their Transylvanian campaign.

To-day's official statement from Petrograd, declaring no events of importance have occurred along the Russian or Caucasian fronts, is one of the tacit sort customarily issued by the war office when decisive results in pending operations are lacking. It is probable, however, that adverse weather conditions are playing an important part in shaping the course of events, hampering the activities of the combatants in various fields.

Official reports and private despatches indicate that the falling rains are interfering with the progress of hostilities on virtually all of the battle fronts. In mountainous regions, such as the Alpine districts and the Caucasus, cold weather and snow add to the difficulties of the combatants.

SENT TO JAIL

The bitterness of political feeling which exists in Manitoba just now reached a climax on Saturday when Judge Galt, who is conducting an enquiry into the Agricultural College matter, sent four newspaper men to jail for contempt of court. He intimated that he would have treated the Hon. Mr. Rogers in the same way but that gentleman had left Winnipeg and thus evaded the wrath of the bench.

The thing started when Mr. Rogers intimidated in court that Judges who accepted extra fees for such enquiries, were in the gruffer class. Certain of the Prairie City papers enlarged upon this to the detriment of the Judge, with the above result.

It may be assumed, as a rule, that papers always treat the judiciary with respect, and this is as it should be. There are exceptions, of course, such as when the Toronto Globe, during the fuse enquiry, devoted an extreme editorial to Chief Justice Meredith, which he treated with contempt.

NOTES AND COMMENTS

Carvell, M.P., had better get ready to clean up his room at Ottawa for he is a goner.

On behalf of the Kaiser it is protested that the new British armored car is against all the usages of war. Poisoned gas, poisoned wells in German East Africa, and the murder of women and children are quite within the rules, of course.

Two airships out of twelve is a pretty good bag for Johnny Bull.

The attempt radiating from Toronto to form a third party in Canada is not only a fool move on the face of it, but also a direct contravention of the spirit which should properly obtain during this war time.

It was a case of zip for two of those Zeps.

In giving a description of the mobilization of U. S. troops on the Mexican border the Chicago Tribune special correspondent says:

"The Iowa brigade landed and took the first look at its future home, Cactus and mesquite, Spanish dagger and ebony brush, mud, water, heat and insects, were the tenants to be ousted. Animal and vegetable life alike wore horns and thorns, stickers and prickles, stingers and biters. Fleas and flies, mosquitoes and chiggers, blister bugs and buzzing beetles, tarantulas, scorpions, centipedes of all sizes and colors, snakes of varying length, complexion and disposition, all joined with the local chamber of commerce in extending a rousing welcome."

This would be an excellent spot to which to send the Grit editors who have been circulating arrant falsehoods with reference to the excellent Borden camp.

NEWS FROM SIMCOE

High Cost of Living There—Prohibition Brings About Slack Saturday.

OTHER ITEMS OF INTEREST.

Ready Response to Call for a Presbyterian Pastor.

(From Our Own Correspondent.)
 Simcoe, Sept. 25.—The Courier man listened on Saturday to a spirited discussion on the local price of household necessities. Passing from the potato market, which now seems to have become static at \$1.50 a bushel, along the line of meats and so on, one man stated that there would go out from his home this morning an order to Eaton's, Toronto, for over twenty dollars worth of supplies for the larder, and he did not object to the publication of the same, with his name to it. "We will get pea meal brand of Ingersoll bacon at 25 cents," he said, "and if costs 33 cents here." "A pound of butter and two dozen of eggs and your dollar is gone." This man thought the creameries should be compelled to put the butter on the market when it is made, instead of holding it till it lost its granular qualities and flattened out like grease. A third wondered how it was that in Simcoe, on the second week of September, according to the quotations of "Canadian Farm," reached the top price for all Canada. And with all this, during the past two years three grocers have gone out of business, and at present three more are about to close out. A farmer delivered a box of onions at twice last year's price, and demurred that sugar had gone up 50 per cent. in recent years.

Blank Blank, went home at five o'clock and sober—never did the like before in twenty years," said a man at one of the food stalls, as comment was being made on the unusually short time that farmer's wagons and carriages stood in on Saturday night. Two proprietors said: "Just as many in the shops eased off early, and the retail shoppers went home early. Looks as if the new order of things might result in a Saturday night early closing, and another 'Go home, it is too late' sign on the door." The Iowa shopper would get around early.

Up till ten o'clock Saturday night we have received no report of a single drunk or man carrying a "load" since the new law went into force.

No less than fifty-eight Presbyterian clergyman have answered the call to arise and apply for a hearing in Simcoe. The session has chosen five, and after hearing these will enquire of the congregation whether they are ready for a call.

Dr. Dev said at the outset this morning that he had no farewell sermon to preach. The preliminaries occupied one hour at the morning service, after which the retiring pastor made a strenuous appeal for a special effort to wipe off their share of the \$170,000 overdraft of the Ontario executive. The banks have become uneasy. It is no secret here that anti-unionists have of late years curtailed on their givings to lessen, if possible, the expenditure on the financing of the union propaganda out of the church funds.

It is reported that Manager Phillips of the Unique Shoe company has purchased the N. J. H. Green residence, corner of Colborne and Union streets.

Morley Mason sold his new Norfolk street brick dwelling.

There is an increasing demand for houses to let and few purchasers, so that builders, through over, or liberal subscription to the war fund, find it difficult to get local capital to finance further enterprises.

The Robert Beecher murder case is the only entry on the list for the high court sittings, which begin tomorrow under Sir Wm. Meredith. Major McIntosh, M.O., 133rd Battalion, called in on Saturday. He has returned to camp.

HUN ATTACK ON VERDUN FAILED

By Courier Leased Wire.
 Paris, Sept. 25, via London.—German troops made an attack on the Verdun front last night, near Vaux-Chapitre wood. The war office report of this afternoon says the attack failed.

Comparative inactivity still prevails on the Somme front, although heavy artillery engagements are in progress. The statement follows:

"On the Somme front there was spirited artillery fighting last night in various sectors and also to the south of the river."

"On the right bank of the river Meuse we easily repulsed a German attack upon one of our works to the east of Vaux-Chapitre wood."

"To the southwest the artillery fighting continues with intensity in the sectors of Thiaumont, Fleury and Vaux-Chapitre."

Complaints Of Non-Delivery

Under ordinary circumstances the distribution of a Daily Newspaper is a big task, even with an organization trained for the purpose. When great numbers of new subscribers come all together, the difficulties become greater. The rush during the Great Prize Contest now on is an illustration.

At this time it will probably be impossible to avoid all mishaps and mistakes, altogether every precaution will be taken by the publishers to ensure the delivery of each number of the paper.

The publishers are determined not only to remedy any such mishaps and mistakes, and to reduce them to the lowest degree, but to spare no trouble or expense to prevent them in future.

With this end in view the publishers request subscribers to communicate every complaint regarding late or non-deliveries by letter, card or Phone 139.

LOCAL NEWS

IS RECOVERING.
 Major H. Graham Starr, late of the 84th Battalion, who is suffering from shell shock, has so far improved as to be able to be moved from the Boulogne Hospital to a hospital in London, according to a message received yesterday.

GOES TO LONDON
 Pte. P. Maurice, of this city, who for a time during the summer was in charge of the local recruiting office of the 216th Bantam battalion, and has since been engaged similarly in Chatham, left on Saturday for the purpose of opening a recruiting office in London.

WON RACE.
 Princess Mary, Mr. G. P. Duck's mare, won the 230 pace at Batavia, N.Y., last Saturday, in three straight heats, time 2:14 1/2, 2:15 3/4, 2:15 3/4. Lady Shennan was third in the 230 trot on Wednesday, and second in the 2:26 trot on Friday, the best time was 2:19 3/4. The horses were well driven by Abe Johnson.

NOVEL GOLF MATCH
 A field of forty players entered for the one club competition, which took place at the golf links Saturday afternoon, and proved a feature of much interest and a good deal of amusement. The winning pair were Miss Schell and Mr. Gordon, with 11 points to their credit, closely followed by Miss Gibson and Mr. Miller with 9 1-2 points. Miss Bishop and Miss Gibson tied for the ladies' putting prize, while Mr. Geo. Miller won the men's competition with the notable score of 32, just beating Mr. W. Aird by the narrow margin of one stroke. Those who donated the prizes were Miss Gibson, Miss Schell, Mr. Webber and Professor Hearn, and Messrs M. H. Robertson. The small entry fees charged were for the benefit of the Red Cross fund.

SUSPENSION OF COL. GRAHAM

O. C. 142nd Had Soldier Beaten with Leather Strap. London, Ont., Sep. 25.—Lieut. Col. C. M. E. Graham has been relieved temporarily of the command of the 142nd (London) Battalion at Camp Borden, as the result of an unusual disregard of military regulations. The Colonel having ordered a private to receive corporal punishment. The youth who received the strapping is Pte. Bellanger, who is also in the city, having been ordered to report at the Headquarters of Militia District No. 1, probably with the intention of being transferred to another unit.

The trouble arose over the alleged incorrigible behaviour of Bellanger, according to a statement made to the press by Lieut.-Col. Graham. The latter says that the boy is only 18 years old, and he decided to treat him in a fatherly way, so ordered the spanking rather than have the lad discharged in disgrace. A long list of misdemeanors and exhibitions of disrespect is reported by the Colonel, but these accusations the boy denies.

Sergeant Colter administered the spanking with a piece of leather used as a razor strap, and the Colonel says that the intention was that the boy should suffer indignity rather than any pain. However, about fifty men of the battalion visited their commanding officer and demanded an explanation. He refused to give it until parade, when he gave his reasons. Afterwards Major-General Loebe informed him that any form of flogging was contrary to regulations in the Canadian army, and ordered an investigation. In the meantime Major McLean has been put in command of London's battalion.

215TH RECEIVED APPLICATIONS

Some Would-Be Recruits Unable to Pass Doctor However. The efforts of the local recruiters of the 215th battalion resulted in rounding up two young men from Glenora on Saturday. They were taken to Dr. Palmer, who is acting in the capacity of medical examiner during the illness of Dr. Chapin, but were unable to pass the strict requirements. A Burford man who has received his honorable discharge from the 215th, owing to physical disability, made application this morning for a re-entrance ticket. He was referred to Dr. Palmer.

Reading matter for the second Brants is coming in rather slowly these days. Mrs. Brown, 15 Bowes Ave., contributed magazines on Saturday, the first donation for some days. This need is scarcely being over-estimated, as it is the intention of those in charge, to forward all surplus books to the 215th Battalion in England, after the necessary amount has been collected during the past two years has expended \$15,000,000 in providing motor ambulances, hospital ships and trains, hospital supplies, both medical and surgical, and it is estimated that \$8,750,000 will be required for the ensuing year if our soldiers are to have the requisite care and are not to suffer neglect.

Appeal From the Red Cross

The British Red Cross are again necessitated by the prolonged condition of the war as well as by the great increase in activity in all theatres of war. This association not only looks after the wants of the British troops, but also extends its work to the care of all the sick and wounded of the allied forces. This society during the past two years has expended \$15,000,000 in providing motor ambulances, hospital ships and trains, hospital supplies, both medical and surgical, and it is estimated that \$8,750,000 will be required for the ensuing year if our soldiers are to have the requisite care and are not to suffer neglect.

Last year the city of Brantford contributed \$16,113.62, made up as follows: Municipal Grant \$5000 00 Voluntary Offerings 433 28 Schools 1709 65 Women's Organizations 8970 69 \$16,113 62 This is certainly a fine record and it is hoped that this year's effort will eclipse that of last year, as the need is increasingly greater.

RECRUITING Another Campaign for the 215th Battalion. A further campaign of recruiting is contemplated in Brantford and Brant County with reference to the 215th Battalion. To-morrow (Tuesday) night a meeting has been called to take place in the Y.M.C.A. of local clergymen whom it is hoped to interest in the matter. On Thursday L.-Col. Williams, Chief Recruiting Officer of No. 2 District, will also be here to look over matters in the same regard.

ABORN COMPANY Gives an Excellent Presentation of the Bohemian Girl.

Many people have an impression that Balfe was a foreigner. As a matter of fact he was an Irishman and born in Dublin in 1808, and his musical genius was manifested at a very early age. So much so that when only seven years of age he played publicly one of Viotti's concertos for the violin. He was the composer of a number of operas, but "The Bohemian Girl" is the most popular of all his productions. Written over fifty years ago it still remains in public favor in direct contrast to some of the ephemeral stuff turned out now-a-days.

A large audience assembled in the Grand Saturday night when the Aborn Company presented the "Opera." This is an old established touring company and the uniform excellence of the organization makes them welcome annual visitors in many large centres. The interesting and excellent songs were principal parts well taken. Phyllis Davies as Queen of the gypsies, disclosed the possession of a mezzo soprano voice of exceptional range and quality. Her stage methods were also excellent. Mr. Harold Blane had the role of Thaddeus, a proscribed Polish noble, who joined a gypsy band. His sonorous tenor voice of much flexibility and high range made all his numbers a treat. Miss Jeanette Wells, was the Bohemian gypsy girl, and her voice, although a trifle light was used with excellent style and effect. Albert Waterhouse as the nobleman, and Francis Tyler as Devilshoof, a gypsy chief, were both acceptable. The chorus work was above the average and there was a pleasing absence of harsh voices.

Their time favorite songs—"I dreamt that I dwelt in marble halls," "The heart bowed down with weight of woe" and "When other lips and other hearts—were all heartily engaged in the performance at the public square of Presburg, a troop of Arab acrobats gave a remarkable exhibition. Altogether it was a very pleasing presentation.

Music and Drama

Picets about "The Birth of a Nation," which will be shown at the Grand Opera House. 5,000 scenes, 18,000 characters, 3,000 horses, approximate cost of production \$500,000. Cities built up and then destroyed by fire. The biggest battle of the Civil War re-enacted. Ford's theatre, Washington, re-produced to the smallest detail the Lincoln tragedy. A series of wild "Ku-Klux" that commanded a country for a day and cost \$10,000. Women's dresses used 25,200 yards and Ku-Klux costumes 12,000 yards of cloth. Night photography of battle scenes, invented and perfected at cost of \$5,000. Wonderful artillery duels in which real shells, costing \$80 a piece were used. Miles of trenches—thousands of fighters. "War as it actually is." A musical score of 40 pieces, synchronized to the several thousand distinct and individual scenes. Twelve thousand feet of film in the public picture represent 140,000 feet of actual photography.

Cities Demand Police Funds

The following letter has been addressed to F. S. Spence, by Mayor Bowly: Brantford, Sept. 25th, 1916. F. S. Spence, Secretary, The Ontario Municipal Association, Toronto, Ont. Dear Sir:—In reply to your communication of the 22nd inst, I have the honor to say that I intend to be present at the time that shall be appointed to present to the Ontario Government the demands of the Municipalities for all Police Court Funds. The Chief Magistrates of the Police Department being entirely maintained at the expense of the several Municipalities, it seems to me very wrong and improper that any portion of the fees should go anywhere else than to the Municipal Treasuries.

I expect to have accompanying me on this very important mission, Aid. W. H. Freeborn of 128 Elgin Street and Aid. Alexander Ballantyne of 197 Colborne Street, Brantford. Trusting that the efforts made in this respect will be entirely successful in getting justice from the Ontario Government even though some of the Government funds should be diverted.

RELIGIOUS BASEBALL

New York, Sept. 25.—Charles Ebbe, owner of the Brooklyn baseball team and Charles Herzog of the New York Nationals, talked baseball last night from the pulpit of Grace Methodist Episcopal Church. The theme of the service was baseball in the relation of humanity, and Ebbe and Herzog were invited to address the congregation. Mr. Ebbe's subject was "clean living is necessary in baseball." Mr. Herzog made remarks along the same line and also prophesied that his club would keep up its winning streak.

FOUR NEWSPAPERMEN JAILED AND FINED IN WINNIPEG COURT

Committed by Mr. Justice Galt on Charge of Contempt of Court, and Heavily Fined

DIRECTOR AND EDITOR City Editor and Reporter Also Committed and Sentenced in Same Way

Winnipeg, Sept. 25.—Edward Beck, Managing Editor of the Winnipeg Telegram, was sent to the common jail for one month and fined \$500 by Mr. Justice Galt Saturday for contempt of court. Mr. Beck refused to answer any questions or to take the oath when summoned to explain an article in his paper criticizing the conduct of the Agricultural College Commission, over which Judge Galt presided.

B. R. Deacon, news editor of the Telegram, was sent to jail for two weeks and fined \$100. Stanley Beck, a reporter on the same paper, was committed to jail for one month. Knox Magee, editor of the Saturday Post, for contempt was committed to jail for one month and fined \$500.

Reports Followed Rogers' Statement. When the Commission sat Saturday morning, Hugh Phillips, government counsel, read reports which appeared in "The Telegram and Post on Friday, following the statement made by Hon. Robert Rogers on Thursday that the Judges who were paid for conducting such commissions accepted "grat."

"I feel," said Mr. Phillips, "that these articles cannot serve any other purpose than to bring into contempt this Commission, and, acting under your instructions, I have subpoenaed for you this morning the editors of the two papers and such reporters as I was instructed to have present."

Mr. Beck refused to be sworn. Commissioner Galt called Edward Beck to the stand. "Before I am sworn I would like to make a statement," said Mr. Beck. "First I would like to have read the commission under which this investigation is being held."

"Take the oath," said the Commissioner. "I will not take the oath until I have made my statement," was the reply. The Judge then told Mr. Beck to proceed.

Alleges Commission Illegal. "Acting under what I consider proper advice," said Mr. Beck, "I decline to submit for examination before this commission, which is illegal, unlawful and without jurisdiction. I decline to give evidence because this commission is being used as part of a political plot which had its inception in the desire to reap vengeance on a certain public man. I decline to be sworn."

"You're the editor of this," "I decline to be examined." "You do not seem to realize your position," said the Commissioner. "What is the evidence that this man is editor of this paper?" Mr. Phillips replied that his name

GET RID OF HUMORS AND AVOID SICKNESS

Humors in the blood cause internal derangements that affect the whole system, as well as pimples, boils and other eruptions, and are responsible for the readiness with which many people contract disease. For forty years Hood's Sarsaparilla has been more successful than any other medicine in expelling humors and removing their inward and outward effects. Get Hood's. No other medicine acts like it.

THE PROBS

Toronto, Sept. 25.—Pressure is high over the central portions of the continent and low in the western provinces and in eastern Canada. The weather is showery from Alberta to Manitoba, elsewhere in Canada it is fine.

FORECASTS

Moderate winds, fine. Tuesday, increasing southerly winds, fair at first then local showers and higher temperature.

usually anaemic face took on a decidedly purple tinge. His arms flung out in angry gestures. He was no longer "Judge." The judicial calm associated with the woolsack had completely deserted him. He was merely a man in rage, and an impatient rage at that. Spluttering and stuttering, he attempted to defend himself. Like others caught in a like trap, he took refuge in the excuse, "I'm not the only one." He referred to the Duff-Meredith Commission, a defence that Mr. Rogers quickly shattered by the statement that it had required a special act of parliament to authorize the Duff-Meredith Commission to act. Next, Galt turned on the personality of Rogers and insultingly inquired why he and not the Minister of Justice had undertaken to administer the law on their duty. To which Mr. Rogers, still smiling, replied that he was merely acting in his capacity as a citizen and not as Minister.

"The Duff-Meredith Commission," he said, "is a body of men appointed to investigate certain facts, and I frankly admit that I am not impartially and disinterestedly conducting the inquiry so that 'he might know its scope.'"

"No," said the Commissioner. "I've got through with Beck, he's sentenced. And to jail he must go."

Mr. Andrews said Mr. Beck had no intention of disobeying his subpoena, so far as the general purpose of the inquiry was concerned.

"It is time we let the people of this Province understand that the administration of justice in this Province must not be interfered with either by newspapers or individuals," said the Commissioner. "And if they do they must be checked up."

The Commission adjourned until 2 o'clock, and shortly afterwards the four newspapermen were taken by the officers to jail.

Mayor Will Enforce By-law

In connection with the campaign which Mayor Bowley is conducting for the abolition of noise within the city limits, the accompanying letter from the mayor indicates that railways will not be exempt from the decree, any more than factories or private individuals. Some time ago Mayor Bowley notified the railways of the proposed enforcement of the by-law and received from Mr. Cahill, representing the Toronto, Hamilton and Buffalo Rwy., a request that a copy of the by-law be sent him and questioning the validity, as no specific parties were named. The mayor's reply, which is given below, explains the situation.

Dear Sir:—I am in receipt of yours of the 21st. In reference to engine whistling and bell ringing in the City of Brantford. In the letter handed to you, the clause of a very long by-law, relating to whistles, etc., is omitted, and therefore it is unnecessary to send you copy of By-law as requested. Your letter states that the Railway are not specifically prohibited in the sounding of bells, etc. As a lawyer, I need scarcely tell you being the author of that by-law, that I do not consider it at all necessary, to state railways or any other persons, are to be penalized by this by-law and of course, I may as well inform you that I intend to enforce the by-law to the very letter, and that the enforcement will begin in the very near future. I have the honor to remain,

Yours truly,
J. W. BOWLEY,
Mayor, City of Brantford

ANOTHER SUCCESS FOR REVOLUTIONISTS.

By Courier Licensed Wire.
London, Sept. 25.—Another success for the Arabian revolutionists is announced in a Reuter despatch from Cairo to-day. It states that the sheikh of Mecca, leader of the revolution movement which has resulted in the capture of Turkish garrisons at Mecca and other important points, reports that the Turkish garrison which has been holding out in the forts of Taif, 65 miles southeast of Mecca, has been forced to surrender. The troops added, comprised 60 officers and 800 men, with 10 guns and a large quantity of military stores.

CAFETERIA LUNCHEON

For the convenience of the employees, of whom there are nearly 2,000 in the Windsor Station buildings, the Canadian Pacific Railway has recently set up a cafeteria luncheon at 15 cents in a large apartment which will accommodate 251 persons at a sitting. Judging by the attendances, it is bound to be one of the most popular features the company has put its hand to. There are hundreds of girls, especially, who, if they do go home, are greatly pressed for time. With this service at their disposal they will save car fare; they will get a thoroughly satisfying luncheon; and they can have the comfort of the lounge room in connection on wet or cold days—a lounge room which contains a piano, magazines and papers, and in which the employees can rest for the balance of their lunch hour. The arrangement is four to a table; all the appointments are harmonious; there is an air of quiet dignity about the place. Mr. W. A. Cooper, manager of the sleeping and dining car department, said that this was in accordance with the well-known policy of the Canadian Pacific of taking care of its employees. The people in the office constituted quite a little city in themselves. Many could not go home with convenience. This lunch room would meet the wants of many. Of course there would still be the 30-cent luncheon upstairs, and the regular dining room in which you could have what you wanted and pay for the same as much as you liked; but this was strictly for the employees, male and female, who would prefer to have their luncheon inside the building to going to restaurants—those of them who were in the habit of going to restaurants.

Now Everybody Can Help Without Sacrifice

The Red Cross branch of the Women's Patriotic League have arranged with the Brantford Iron and Metal Co., for a systematic collection of rags, metals, papers, rubbers, bottles, etc., from the homes and business places in the city. Save your junk. Don't throw it away. Don't let anyone have it, unless he can show you his Red Cross Card. It will mean a great help to our soldier boys, and no expense to yourself. Don't forget: you want to do your duty—and you don't want the junk. But we appeal to you, again, on behalf of the soldier boys. Everybody can help,—business men, manufacturers, householders. Call Bell Phone 797 when you want a man to call. Should a Red Cross Collector call for your junk, don't let him get away without something.

Honus is Foxy on the Bases

Wagner Now in His 20th Season of Major League Baseball. John K. Tener echoes the sentiments of William Chas. Temple that "Honus Wagner is the greatest ball player the game has produced."

Wagner's Shrewd Play

"Wagner executed a play in Pittsburgh some weeks ago that ranks, in my opinion as one of the cleverest I ever have seen. Yet not one sport writer commented upon it, probably because the inside stuff escaped the notice of the experts."

Honus Confused Phillies

"As the Luderus throw sailed toward third, Honus stopped running for the bag, whirled and started back for second. Niehoff raced toward second, meanwhile yelling that Wagner was out. But just the same Niehoff took the throw from third and started chasing Wagner."

Wagner's Shrewd Play

"Bancroft, like Niehoff, was almost sure that Wagner had been called out at second, but when they saw Luderus and Stock making a play for Wagner and Honus running back and forth, they became confused—just as Wagner had figured—and they played only for Wagner."

BRITAIN'S AIR HERO AND HIS "TAKING" SMILE. Flight Lieut. Robinson, V.C., of the Royal Flying Corps, who brought down the German Zeppelin at Enfield, is seen stepping out of a R.F.C. "prairie schooner," preparatory to undertaking another day's dangerous duty. The insert shows a nearer view of his smiling physiognomy.

self to be touched out and said: "Warm day, isn't it, boys?" That is only one of the many, many stunts Wagner has played in his time; bits of baseball strategy that seem to escape the notice of the observant; a play that not only saved the Pirates from being retired on a double force, but one which placed safely on second base a man who would have been out at first if Wagner hadn't tricked the whole Phillie infield.

What Figures Show "The wonderful skill of Wagner as a player is shown by a comparison of his record with that of Napoleon Lajoie, his only modern rival. The 'Flying Dutchman' in 19 years as a big leaguer (exclusive of 1916) played in 196 more games, made 117 more hits, scored 210 more runs and stole 335 more bases than Lajoie did in 20 years. And Wagner is a year older than Lajoie."

By Courier Leased Wire. Bucharest, via London, Sept. 25.—Successes for the Romanians in both Transylvania and Dobrudja are reported in an official statement issued by the war office. The text of the statement follows: "North and northwestern fronts: Our advance in the Calliman Mountains continues. We captured seventy-three prisoners and one machine gun. At Harmannstadt we attacked the enemy capturing four officers, 300 men and five machine guns of the Hun valley. Minor actions occurred in which we recaptured the enemy and captured two machine guns. The total number of prisoners taken on this front up to the present is 48 officers and 6,836 men."

Giants are Very Near a Record

Have Won 19 Straight, and are One Game Short of Highest Total in Majors.

OTHER NATIONAL LEAGUE RESULTS.

The National League was replete with features on Saturday, more especially at New York and Philadelphia. The Giants made history when they won both games from St. Louis and brought their winning streak up to nineteen games. This is two more than their May record, and is one better than the modern National League record, made some years ago by the Giants. It equals the American League record made by the White Sox in 1906, but falls one short of the world's record made by the Province Grays of twenty in 1884 in the National League. During the Giants' recent spurge they have also taken part in two ties, one of four innings and the other nine. Over at Philadelphia, Grover Cleveland Alexander went the route in both games against Cincinnati and won them both, the second by the shut-out route. This boosted his stock of wins up to 31, which is as many as he won in 1915. It also earned him his second \$1,000 bonus of the season, he receiving his first for winning twenty-five and his second for winning thirty games. It was also his fifteenth shut-out of the season, which is a new record. Brooklyn were only able to break even in their double-header with the Cubs, and as the Phillies won two, the champions made a decided gain on the Dodgers. At Boston the Braves won the first from Pittsburgh, but the second was called at the end of the fifteenth with the score tied 1 to 1. Neither Rudolph nor Ragon, who pitched for the Braves, gave a base on balls. J. A. McFarlane was elected president of the 20th Century Club of Hamilton. Twelve officers of the 198th (N. Waterloo) Battalion are said to have resigned. The Provincial W.C.T.U. annual meeting will be held in Hamilton next month. Something Always Happens to Take the Joy Out of Pa's Life

The Lake of the Woods.

AT KENORA:—
(1) Yachting. (2) Diving and Swimming.
(3) A Regatta Day.

THE Lake of the Woods, along the line of the Canadian Pacific, is a fascinating link in the chain of lakes between the boundless waters of Superior and the golden grain of Manitoba prairie.

With nature's own loveliness as a recommendation it stands unrivalled in the estimation of the many who yearly visit its island-crested waters and plunge into the pure unadulterated delights which it affords.

Kenora, a town of growing importance in lumbering, mining, flour milling and fishing, possessing a population of 6,000, reclines on the north shore of the lake and holds the unique position of gateway to this attractive body of water.

Kewatin, whose flour milling industry has made the name a household word in the Dominion, fringes the lake three miles distant. It is a mecca for the summer-seeker who has built his artistic and attractive home on its splendid shore line and on the islands adjacent.

For some 30 miles this richly adorned sheet studded with over ten thousand islands stretches along the border line between the provinces of Ontario and Manitoba and the state of Minnesota.

These water girted bits of land vary in size from a few square feet to several square miles and are richly timbered with spruce, pine, birch and poplar. The northern portion of the lake covers an area of 2,500 square miles. From the middle of May until the end of October, the months are panoramas of beauty to the camper, the lake voyager, the sportsman and hunter who visit this aquatic wonderland, 1,077 feet above sea level.

A few car strokes from Kenora you can rough it in the woods or if you wish to enjoy life more leisurely, an up-to-date cottage can be secured.

Fishing is a very popular pastime for the men, women, and children each season. In the numerous fishing preserves are found pike, pickerel, rock bass, trout, muskellunge and sturgeon.

During the autumnal months exciting raids are made upon the wild duck, geese, and partridge, while the deer and moose on the larger island stretches furnish an attraction of wonderful possibilities for the enthusiastic hunter.

Coney Island with a shore line of seven miles lies but a ten minutes' glide from Kenora. It is the summer residence of over three hundred people. It possesses a large natural park, a portion of which has been fitted up as playgrounds for children. Kenora Park, a large wooded tract of land, has been set aside for pleasure purposes. Kenora Trap Association Island is a much frequented spot and is open not only to Kenora residents but to the summer guests who come within her gate. Kenora Rowing Club and Kewatin Yacht Club are the rendezvous of many from town and the islands. Here the social side of life is indulged either by the weekly dance or the local water races. Regattas are held at intervals during the season, many outside events being entered from different portions of Canada and United States, a carnival of sports continuing several days. Steamers, launches, sail boats and various craft cruise about the lake daily and for a small fee the visitor can make a trip of several hours in and out among the islands of the lake. For a long cruise, the steamers "Keenora" and "Agawind," well-appointed and commodious, leave Kenora twice during the week for Rainyriver and Port Frances. The steamer "Kathoon," a popular boat, makes a daily trip during the season to Minaki, Ont. It is a delightful trip of three hours down the Winnipeg river, return being made to Kenora same day in sufficient time to permit the traveller to entrain for the east or west via the Canadian Pacific Railway.

Even when the summer is gone it is a great delight to visit the Lake of the Woods district in the Fall.

Telephone Courtesy is Growing in Favor.

Newspapers and periodicals, which reflect so well the trend of public opinion, are continually urging the practice of telephone courtesy.

Progressive merchants are studying its relation to their sales. Employees are being trained to treat telephone callers with the same degree of courtesy and consideration that obtains in a face-to-face conversation.

And the result for those who practice telephone courtesy faithfully is a constantly growing volume of telephone trade and good-will.

The encouragement you give to your employees in developing pleasing telephone manners will bear fruit in the promotion of good-will amongst your customers.

RALLY DAY AND OTHER SPECIAL SERVICES IN LOCAL CHURCHES

Yesterday Was Sunday of Activity in the Religious Portion of the City—Details of the Services.

Sunday in the local churches yesterday was one of unusual activity throughout the city. Special rally services were the order of the day in the majority of the Methodist and Baptist churches, while at St. John's Anglican, the farewell sermons of the Rev. G.W. Saunders were preached, and at Alexandra Presbyterian anniversary services were conducted, commemorative of the founding of the church. Special speakers in this city for the day were the Rev. David W. Snider, secretary of the Dominion Lord's Day Alliance, who addressed large gatherings in the morning at Colborne street Methodist, and in the evening at Brant Avenue Methodist, and Rev. Gordon H. Baker, of Montreal, who preached at Calvary and Park Baptist churches. Mr. James Rylie of Toronto, also assisted in the services at the First Baptist church, and Rev. W. J. Knox, M.A., officiated at Alexandria church, Colborne St. Church.

The annual rallies of the Men's Brotherhood and of the Sunday School were held at Colborne street

Methodist church, with very large attendances at both. At the Brotherhood rally, held at the usual hour of 10 in the morning, the rooms were filled, and the pastor, Rev. W. E. Baker, taking his text from the words found in the gospel of St. John, "He that believeth in the Son shall have everlasting life," delivered a most inspiring address upon the subject of being obedient Christians.

Mr. Baker used four words in pointing out the ways in which we might serve God; as workers, working together in His service; as servants, in doing His will; as witnesses in bearing testimony of the gospel, and as ambassadors in carrying His word to others.

The regular morning service was conducted by Rev. D. W. Snider, secretary of the Lord's Day Alliance, who delivered a most eloquent sermon before a very large congregation. The afternoon saw the annual rally of the Sunday school most successfully carried out, the rooms being beautifully decorated, and the attendance numbered 456, which is considered a very good showing, the

SUBSCRIPTION PRICES of BRANTFORD NEWSPAPERS TO BE ADVANCED

Commencing October 1st. next, the subscription rates of the Brantford Daily Courier and the Brantford Daily Expositor will be advanced as follows:

- Single Copies - - - - - 2 cents
- Delivered in Brantford - 35c per month (\$4.00 per annum in advance)
- By Mail to Outside Points \$3.00 per annum

These increases have been necessitated by the tremendous advance in the cost of white paper, labor, metal, and in all other commodities incidental to the production of a newspaper. For over 25 years the subscription prices of the two Brantford papers have remained unchanged, while during that period the price of most other things have doubled and quadrupled. During recent years The Courier and Expositor have actually been sold to the agents and boys, and to the subscriber, when delivery charges are added, for less than the cost of the white paper alone, to say nothing of the hundred and one other charges of which each copy should bear a share. Recently the situation has become so serious that the above advances, commencing October 1st, have become imperative.

Even Advanced Rate is Low by Comparison

Even these advanced rates are much lower than those charged by the papers in London, Belleville, Guelph and many other Canadian cities and many publications which for years have charged the prices the Brantford papers now propose, have announced advances considerably beyond these figures during the last few months.

Subscribers may renew their subscriptions for a period not longer than one year at the present rates, if payment is made before October 1st, but no renewals will be accepted at the old rate after October 1st.

only place where any decrease in membership is recorded being in the young men's classes, the war accounting for the absence of a great many of these. A most interesting and pleasing program of music and recitations from members of the classes was presented, and the gathering, which was under the charge of Mr. C. F. Verity, superintendent, was addressed by the Rev. Mr. W. J. Thompson of the Congregational church, who took as his subject the vision of the beast with four faces, pointing out that behind the Christian manhood there lay the courage of the lion, the patience of the ox, and the farsightedness of the eagle.

In the evening the regular services were conducted by the pastor, who gave a most edifying address, making a strong appeal for answers to "The Call to Service." He urged that all should be ever vigilant for opportunities to do good to some one, and made an appeal for Sunday school teachers, as it was in this, that next to the home the greatest opportunity for Christian service presented itself, for it was the place where the true ideals were instilled into the hearts of the younger generation, where recruiting for the manhood and womanhood of the coming age took place.

Appropriate music was rendered during the services, Mr. G. N. Crookery and Mr. N. E. Ayliffe rendering very beautiful solos.

Brant Avenue Church

Rev. W. E. Baker, pastor of Colborne street Methodist church, occupied the pulpit at Brant Avenue Methodist church yesterday morning, conducting the services and delivering a very powerful address upon the subject of Individual Responsibility, taking as his text the words found in the Gospel of St. Mark, xiii, 34: "To every man his work." Mr. Baker went on to point out the variety of talent which was contained within every church, and the necessity which existed of conserving and putting to the best use that talent.

Daniel Webster had said that his greatest fault was his individual responsibility. If we had nothing else to consecrate and devote to the Lord, we could at least give Him our hearts, for it was they for which He hungered above all things else.

The speaker warned his hearers that church work was not entirely a matter of organization; that a locomotive might be the strongest, but it would not move without steam. "No man can do the work of another in the church," declared Rev. Mr. Baker, "for there is a part to be borne by all alike. Nor can any man shift his responsibility onto the shoulders of others. You can't use the third person plural, and be rid of your responsibility," declared the speaker. "You can't ask, 'Why don't they do something?' You must bear your own share."

The evening service was conducted by the Rev. D. W. Snider, secretary of the Lord's Day Alliance, and was followed by an organ recital most capably rendered by Mr. Clifford Higgin, and comprising a number of most delightful selections from various sources. The attendance at all services was very large.

Elm Avenue.

The service at Elm Avenue Methodist church was conducted by Mr. W. T. Collyer of Brant Avenue Methodist church, who delivered an able and excellent discourse upon the subject of the new Temperance (Continued on Page Ten)
