There will be an early Mass
 at St. Joseph's Church Sunday,
 at 8.30 A. M. and at Woodside,
 at 11 o'clock.

Cadet George Glendinning, of
 the United States Flying Corps,
 only son of the Rev. G. W. F.
 Glendinning now of Truro, has
 arrived safely in France. This
 young aviator had an ocean trip
 in one of the Kaiser's former
 big liners.

To provide for the dependents
 of the miners who lost their
 lives in the Allen Shaft, Stellar-
 ton. In addition to the Compens-
 ation Fund, there will be re-
 quired at least \$40,000.

Sgt. H. H. Condon, who
 was gassed at Passchendale
 early in November is still in
 hospital in London. His leg
 which was badly burned by the
 gas is very slow in healing.
 Clinton Congdon of the C. F.
 A., who spent ten weeks in
 hospital in France due to in-
 jury received was rejoined his
 battery and is again in active
 service at the front—Dartmouth
 Patriot.

On account of indifferent
 health J. D. Rolston retired
 from the active management of
 the Yarmouth Times, Limited,
 on Saturday, Feb. 16th, the
 35th anniversary of the publica-
 tion of the first number of The
 Times. At a meeting of the
 shareholders of the company on
 Monday, Mr. Rolston was added
 to the directors. T. M.
 Seely was appointed editor and
 business manager of The Times
 —Yarmouth Times, 19th.

LIBERALS LOSE FIVE SEATS CONTINENTAL SOLDIERS VOTE.

NOVA SCOTIA REPRESENTA-
 TIONS NOW STANDS 12
 GOVERNMENT TO 4 OP-
 POSITION.

The official soldiers' and
 naval vote taken in Canada and
 in the United States issued Mon-
 day by W. F. O'Connor, Gen-
 eral Returning Officer, increased
 the majority of the Union Gov-
 ernment in Parliament to 60.
 It was 45 when the civilian
 home vote was counted. The
 soldiers vote taken in Great Bri-
 tain has all been allocated to
 the four constituencies and a
 total of sixty officers commenc-
 ed to count it yesterday. Mr.
 O'Connor expects it will all be
 in by Wednesday when the Gov-
 ernment's majority may be fur-
 ther increased. The standing
 of the Government and Opposi-
 tion by Provinces is as follows:

Gov't. Opp.	Gov't. Opp.
Prince Edw. Island . . . 0 4	
Nova Scotia 12 4	
New Brunswick 7 4	
Quebec 3 62	
Ontario 72 10	
Manitoba 13 1	
Saskatchewan 16 0	
Alberta 11 1	
British Columbia . . . 13 0	
Yukon 0 1	
Total 147 87	
Gov't majority 60	

RED CROSS LINER FLORIZEL WRECKED.

Forty Alive Out of One Hundred
 and Thirty-Seven on Board.

"S. O. S.—Florizel in distress
 off Cape Race"; and a few
 minutes later—"Florizel break-
 ing up." There messages, in-
 tercepted by the wireless station
 at Camperdown, brought to
 Halifax early yesterday morn-
 ing the first news of a terrible
 shipping disaster off the coast
 of Newfoundland. On board
 the ill-fated passenger steamer
 were a number belonging to this
 City, and many others having
 relatives here, and
 the news that the well-known
 steamer was in danger quickly
 spread.

Ran Ashore in a Blizzard.
 The Florizel, the last of the
 Red Cross liners, left St. John's,
 Newfoundland, on Saturday
 night at eight o'clock for Hal-
 ifax. Early yesterday morn-
 ing, in a blinding blizzard, she
 ran ashore at a point twenty
 mile east of Cape Race, and
 forty miles from St. John's. Ex-
 posed to the full fury of the
 seas, the ship did not long keep
 water. Her after-deck was
 submerged and the lives of the
 137 souls on board—77 passeng-
 ers and 60 of a crew, were in im-
 mediate danger.

DUSSELDORF CAPTURED.

Copenhagen, Feb. 23—A
 despatch received here states
 that the German steamer
 Dusseldorf, en route from
 Tromsø, to Stettin, has been
 captured by a British auxil-
 iary cruiser.

 dertaken A. V. S., containing pass-
 with owner's name. Finder re-
 warded by leaving at Advertiser
 Office

CORRESPONDENCE.

Mr. Editor:
 According to your report of
 the last session of the County
 Council that body rejected a
 Bill's motion for a watering
 trough at the foot of the Rock-
 well Mountain, without offense
 or criticism of the action of the
 Council (whose powers probab-
 ly do not extend to cases of this
 sort) I would like to give free
 to the traveling public a con-
 crete trough suitable for the
 purpose, providing Mr. Bill or
 anyone interested will put it
 in place.
 Chas. MacDonald.

CHURCH'S SPLENDID RE- CORDED.

Mentioned services to fifty-
 seven members of its congrega-
 tion who have fallen in battle
 were held in Trinity Anglican
 Church, King St., Toronto, Sun-
 day, the honor roll of which
 shows five hundred enlisted
 men and women. The call to
 service has wiped out the choir
 and almost all of the workers
 in Sunday school and social ser-
 vice, as well as many of the
 members.

PURITY FLOUR

(GOVERNMENT STANDARD)

IS A PURE WHOLESOME FLOUR

The same careful milling methods, the same high standard of wheat selection that have won for Purity Flour such a high place in public favor, will be used to produce in

PURITY FLOUR

(GOVERNMENT STANDARD)

the best flour care and science can produce in accordance with the new milling regulations.

IMPORTANT

The recipes contained in the Purity Flour Cook Book are recommended for successful baking of the new Purity Flour (Government Standard). With the aid of this valuable collection of tried and tested recipes you will have no difficulty in producing nutritious and palatable bread, cakes and pastry.

TOTAL VOTE IN FRANCE WAS 101,251.

OF THE BALLOTS COUNTED 88,175 WERE FOR THE GOVERNMENT AND 6,774 FOR THE OPPOSITION.

OTTAWA, Feb. 25.—An analysis of the military vote in the Dominion elections polled in France shows a total vote of 101,251 including the ballots of soldiers rejected in constituencies where candidates were not endorsed and for other reasons. Of the vote cast 88,175 ballots were for Government candidates, 6,744 for Opposition candidates, and ballots rejected numbered 6,332. No less than 92.89 per cent of the accepted ballots were marked for Government candidates. The following table tells the story of the vote in France by Provinces:

Province	Gov't	All other	Rejected	Per cent for Gov't
Alberta	10,168	688	398	93.66
British Columbia	13,500	1,049	458	92.79
Manitoba	11,242	733	269	87.88
New Brunswick	2,986	497	154	85.73
Nova Scotia	3,953	510	177	88.51
Ontario	30,578	1,618	434	95.23
P. E. Island	761	110	23	87.37
Quebec	7,351	1,131	1,533	86.67
Saskatchewan	7,684	498	295	94.93
Totals	88,175	6,744	6,332	92.89
All other	6,744			
Rejected	6,332			
Total	101,251			

It was estimated that approximately 130,000 soldiers votes would be cast in France, and this estimate was practically correct, when allowance is made for the soldiers from the thirty constituencies where acclamations took place, and all classes and rejections. In this regard the further analysis of the vote has been made:

Total number of ballots reported from 12 electoral districts 101,251, acclamations or deferred elections were 32, and probably about one-sixth of the pollable vote is 875. Probable further rejected envelopes containing ballots because unsigned or otherwise not in accordance with the provisions of the Act (for instance, a Canadian resident voter not including a discoverable place of residence or a non-Canadian resident not disclosing the fact of his non-residence) 10,125. Probable total poll 128,251.

GERMAN SOLDIERS REFUSE TO ATTACK.

Bolshevik Bulletin Says 20,000 Wouldn't Fight the Russians.

MILLION DOLLARS FOR MCGILL UNIVERSITY.

Carnegie Corporation Makes Munificent Gift in Recognition of Part in the War.

MONTREAL, Feb. 25.—McGill University has been notified that the Carnegie Corporation has voted it a special grant of one million dollars.

The resolution of the Corporation authorizing the award says: "This grant is in recognition of the noble and devoted service and sacrifice of McGill towards Canada's part in the Great War upon which depend the free law among nations and the freedom, not only of Canada, but of the United States and of the democracies of the whole world."

A letter accompanying the notification refers to the award as an expression of appreciation and sympathy for the people of Canada on the part of their Allies south of the border.

Debnick, but often the troops take flight in large bodies. According to reports from Arensburg, 20,000 German troops refused to attack.

MONTREAL, Feb. 25.—McGill University has been notified that the Carnegie Corporation has voted it a special grant of one million dollars.

The resolution of the Corporation authorizing the award says: "This grant is in recognition of the noble and devoted service and sacrifice of McGill towards Canada's part in the Great War upon which depend the free law among nations and the freedom, not only of Canada, but of the United States and of the democracies of the whole world."

A letter accompanying the notification refers to the award as an expression of appreciation and sympathy for the people of Canada on the part of their Allies south of the border.

ODDS AND ENDS FROM VARIOUS PLACES.

Cleveland is to have a church exclusively for the deaf. It was only in 1835 that bull-baiting ceased to rank among the amusements of England. Rev. Eugene Boring, a minister from Carville, Ill., is now a full-fledged aviator with the American military forces in France.

BRITISH ADVANCE IN MESOPOTAMIA.

LONDON, Feb. 25.—British forces along the Euphrates River, in Mesopotamia, have occupied Khana Burayal, meeting with little resistance from the Turks; the War Office announced. The statement follows: "On Wednesday our Euphrates troops occupied Phana Burayal, fourteen miles west of Ramadim, and patrols advanced to within ten miles of Hit (one hundred miles west of Bagdad). The Turks made little resistance. Thirty prisoners were captured."

MORE RETURNS OF THE SOLDIERS' VOTE.

Only Slight Reductions in Liberal Majorities in Lunenburg and Inverness. For Rejected Ballots.

OTTAWA, Feb. 22.—Further returns of the Soldiers' Vote in Canada, show that Quebec is the only Province where an Opposition candidate received more votes from the men in that than did the Government candidate. Sir Wilfrid Laurier in Quebec East got 73 soldiers votes while Drouin, the Government candidate, only received 45. In Quebec West, Parent, Liberal, got 120 votes for Chase, Government, 31 for Chasse, Government, 48 for Verreille got 76 votes from soldiers in St. Denis, while Houle, his Tory opponent, got only two. In Matamoras only soldiers votes were polled. Pelletier, the endorsed Liberal candidate, got them all and Bonlay, the Nationalist Conservative member in the last House got none. Jacobs, the Liberal candidate in Carter, was given 48 soldiers votes, while his two opponents got two each. In Dorchester, Albert Bevisy received five votes as against two for his successfull opponent, Lucien Cannon.

THE VETERAN IN NOVA SCOTIA.

Down in Nova Scotia William Duff, the Liberal candidate in Lunenburg, who had majority of over 1300, has only had it cut down by a little over 100.

In Inverness, where Dr. Chisholm, Liberal, had a majority of nearly 1600, the Tory candidate only received 48 as against 19 for Chisholm. In Digby and Annapolis, Davidson, Tory, secured 109 and Lovett, Liberal, 45.

In Westmorland, Copp, Liberal, has still over a thousand of a majority. Price securing 86 and Copp, 37. In New Brunswick, Robidoux, the Unionist candidate in Kent, didn't better his case to any appreciable extent, only securing 30 votes as against Leger's 16. In Restigouche, Michaud, Liberal, is still safe, Stewart only pulling down his large majority by 60.

Returns in the West.

Ballots in the western constituencies so far counted show that the western soldiers voted almost solid for the Union Government. If Provencher, the only Manitoba seat won by the endorsed Liberal candidate, Dr. Molloy, he got only five votes to 31 for his opponent, Dr. Johns. In Winnipeg Centre, Major Andrews got 1085 soldiers votes and ward 46 in Winnipeg, Labor, only 27. Hon. Arthur Meighen received 60 votes in Portage la Prairie and Shortliff got two. Hon. T. A. Creegar received 618 votes in Marquette, to 7 for Hamilton Opposition.

milk a day more than they ever did before.

Fifty acres of the Washburna College campus in Topeka are to be put under intensive cultivation this season, in order to help boost the nation's food production.

When his church was closed for lack of fuel, a pastor in Glendale, Ohio, mailed copies of his sermon to all members of his flock, so they could read at home what he had to say.

A silver shell-shaped reliquary containing with a lock quary a lock of the hair of Milton, together with a lock of hair of Elizabeth Barret Browning, sold at auction in London recently for \$400.

A brigadier-general of the United States army drawing a minimum salary of \$6,000, receives several hundred dollars more than a marshal of France and \$2,000 more than a general and field marshal of the German army.

Before the war the Germans consumed more fat per head than any other European nation. To meet the threatened famine in fat, the German housewife has been ordered to hand over to the authorities all the dripping she may have.

An eminent naturalist, who made a careful study of the manner in which lighthouses cause the death of birds, has found that in most instances the bird is not killed by the impact of dashing against lighthouse windows. The cause of death is exhaustion from flying round and round the light.

OVER 12 BELOW IN HALIFAX.

Chronicle—Halifax has had another very cold snap which has caused much inconvenience by the freezing of pipes owing principally through the damaged condition of houses.

Wednesday the thermometer registered 42 degrees above zero. On Thursday the highest was 10.8 above. Then the temperature became much colder and at 9 o'clock Thursday night the mercury indicated about half a degree above zero. The temperature kept falling until between three and four o'clock yesterday morning when it reached 12.6 below zero.

U. S. BATTLE PLANES FOR WESTERN FRONT.

WASHINGTON, Feb. 21.—The first American-built battle planes are en route to France, nearly five months ahead of the original schedule. In making this announcement, Secretary of War Baker said the first shipment, although in itself not large, marks the final overcoming of many difficulties met in building up this new and industry.

King George were to abandon his throne and abjure titles he would be known as plan Mr. Windsor, which is the family name of the British sovereign. Cows in which the phonograph was played while they were being milked are said to have given several quarts of milk.

The Town Crier.

Before the advent of the newspapers, the town crier called the news of the neighborhood. Today the newspaper keeps you in intelligent touch, not only with your own district, but with all the world.

It is advertising that makes the newspaper possible. Without it the cost would be beyond most folks. When you think of it, the advertiser pays the greater part of your share of the cost of the paper. They do it for the privilege of telling you about their wares, and most of them have a story worth telling.

Read the advertisements consistently. They are interesting and contain money-saving information.

Settle the Flour Question
BY USING
PURITY FLOUR

Once you know how good Purity Flour really is, you will rely on it constantly for all your baking needs. It goes further, too, and is therefore the cheapest flour you can use.

More Bread and Better Bread---and Better Pastry, too.

GREAT WORK OF THE BRITISH ARMIES.

LONDON, Feb. 21—The great assistance which the air services, naval and military, now being combined under the Air Council, have rendered to the armies in the field was described in the House of Commons today by Major J. L. Baird, Parliamentary Secretary to the Air Board, when he introduced the estimates for that department. In September last 139 enemy machines were definitely ascertained to have been destroyed by British airmen, 13 were brought down by anti-aircraft guns, and 122 were driven down out of control. Through the direction of airmen in one day 127 hostile batteries, said Major Baird, were successfully "engaged to destruction," meaning that the airmen reported that the batteries were rendered: 28 gun pits were destroyed, 80 more were damaged and several explosions of munitions dumps were reported. On the same day 34 hostile batteries were "engaged for destruction," as a result of balloon observations. In September 15,837 photographs were taken and 7,886 bombs were dropped on various military points on the German lines. There had been eleven raids into Germany in the past two months, while the Germans succeeded in carrying out only eight into Great Britain, despite the fact that London was more easily reached than anything Germany could offer.

FIVE AIRMEN SWOOPED DOWN ON INNISBRUCK AND GAVE IT A STARTLING SURPRISE.

RAINED BOMBS ON BIGGEST BUILDINGS.

German Conulate Railway Station Munition Factory and Troop Trains Were Attacked—Russia Preparing to Fight Guerrilla War Against Hun Invaders.

BUCHS, Switzerland, Feb. 22—Five Entente Allied airmen flying over the Julian Alps Wednesday afternoon found that the town of Innsbruck, Austria, Tyrol, was not protected by anti-aircraft guns; the airmen thereupon swooped down to within three hundred yards of the ground, picked out the largest buildings copiously bombed them, including the railway station barracks and two new munitions factories. Soldiers and civilians were surprised and being unaccustomed to an air attack, rushed into the streets and many were killed. The German Conulate was hit and trains loaded with soldiers on their way to the Trentino front were attacked by machine guns from a low altitude.

Peace Courier At Berlin.

AMSTERDAM, Feb. 22—A Russian courier with the peace proposals of the Russian Government has arrived in Berlin, according to advices received here. The Norddeutsche Allgemeine Zeitung, the German semi-official organ, says that

the re-opening of the negotiations with the Russians cannot be expected for some time. Dr. Von Kuehlmann, the German Foreign Secretary, says the newspapers will employ the interval in conducting negotiations with Roumanian, for which purpose he left for Bucharest on Thursday. The Roumanian delegation already has arrived there.

AUSTRIANS TO ATTACK ITALIANS.

WASHINGTON, Feb. 23—Official despatches from Rome today interpret the recent closing of the Swiss frontier by Austria to indicate troop movements to the Italian frontier in preparation for a renewed offensive. Italian aviators, the despatches say report continued arrival of fresh enemy troops from the Russo-Roumanian front. General Boreovic, who recently assumed supreme command displacing Arolduke, Eugene, by order of Emperor Charles, is said to be planning his offensive between the Astico and Lake Garda.

JERICHO FALLS INTO BRITISH HANDS.

Australian Mounted Troops Entered Famous City on Thursday—Dominates Valley of the Jordan.

LONDON, Feb. 22—The British forces in Palestine have captured the City of Jericho, Australian troops entering the historic city on Thursday. Aside from its historical and sentimental importance, the capture of the city gives General Allenby a number of strategic roads over which to move his men and their supplies. Within twenty-four miles from the present British position is the railroad from Damascus to Mecca, which has been the artery which has fed the Turkish troops operating against the Arabs. If this road were cut it would give the tribesmen great advantage in their struggle. The War Office announced that the city was entered by Australian mounted troops yesterday. Little opposition was encountered. The Australians established themselves on the line of the Jordan and the Wadi Auja. The official statement reports the continuation of bad weather. North and northwest of Jerusalem, the British advanced positions were extended slightly and rendered secure. During the fighting of Wednesday the casualties of the British troops were again slight.

AMPLE SUPPLIES OF SUGAR.

WASHINGTON, Feb. 21—Ample supplies of sugar will be available during the coming season, the Food Administration announced tonight, to meet the necessary requirements of food and for use by the household preserving purposes.

ENGLAND'S WOMEN ON A WAR BASIS.

Sew and Social "Butterflies" Busy.

LONDON. The war has wrought great changes upon the occupations, vocational and otherwise of the women of England. A picture of the new order of things was given recently by Margaret Bell writing in the London Daily Mail. She says: "Brooding houses are full today, but the aims and conventions have taken on a different tone. The uncertain years are disguised under a uniform, the incomes are augmented by war activities, the trivial gossip has turned into serious discussions on the ways and means to do the utmost for the country in its present need."

"The 'society' butterfly of the past has become the national bee of the present, and busily hums her way among fields of service which are not always fields of clover."

"Gone are the grandmothers who once assumed the role of elderly adviser and were content to leave actual practicalities to the married daughter. The one-time gray satin or black lace has found a temporary haven on some obscure shelf, and the overalls and veil of a sewing sisterhood are sufficient evidence that Grainy's present role is not only an advisory one."

"The bashful 'flapper' with entrant pigtail and a keen appreciation of chocolate ice cream sodas, has given way to life alert young women who beguile shillings for charitable purposes and evince practical interest in the routine of home and kitchen maidings."

"The women of no special charm and limited means, whose hours were spent in

planning how to make jagged ends meet, now finds time to give the benefit of her experience to unfledged housewives who are launching their first bargues on the sea of domestic duties."

"The struggling governess still struggles, but the rays of her pedagogical searchlight are not all focussed on her own work. On days when she is not employed in others' houses she does gratuitous service among the workwomen's children who play in the gutters outside her home."

"The war has transformed the lethargic woman who never left her boudoir until the sound of the luncheon gong came peeping up the stairs and announced that her first activities were about to begin. She has discarded her lethargy, as she used to discard her last season's hat, and may be seen any morning hurrying away to some office or canteen, even before the milkmaid's carts have left the streets."

"Gone, too, is the incapable housewife who once boasted of her ignorance of culinary things. The kitchen is the field of her operations today and rational living is her hobby."

FOUND A SHELL AT FERRY WHARF.

People of Dartmouth Somewhat Alarmed Yesterday When Projectile, Apparently Loaded, Was Picked Up.

Dartmouth, Feb. 20—A shell measuring 31-2 inches in diameter and about 9 inches in length was found on the ferry property early this morning. Just how it came there is a mystery that will have to be fathomed out by the Military Intelligence Department, which has been notified of the find.

The shell was found by one of the employees of F. W. Mosher & Son, wharf builders, whose pile driver is working at the ferry wharf. The shell when picked up was wrapped in brown paper and from the condition of its wrapping it has not been out in the weather so long, but it is possible that it was dropped or thrown there either Monday night or last night. The position where the shell was found is a little plot of land between the ferry building occupied as a store by Mrs. Marks and the ferry wharf. There is a small yard in the rear of their house occupied by Mrs. Marks, and the shell was just outside the fence surrounding this yard.

The man who found the shell took it immediately to the ferry office and handed it over to Engineer Pierce who later handed it over to Superintendent Hunter, in whose charge it still remains. To the Daily Echo this morning Mr. Hunter said that apparently the shell was loaded.

The news that a large loaded shell had been found in Dartmouth spread quickly among the passengers on the ferry and caused excitement. "There are, of course, many speculations," said a ferry official this morning, "but it would be best to wait for something official before jumping at conclusions."

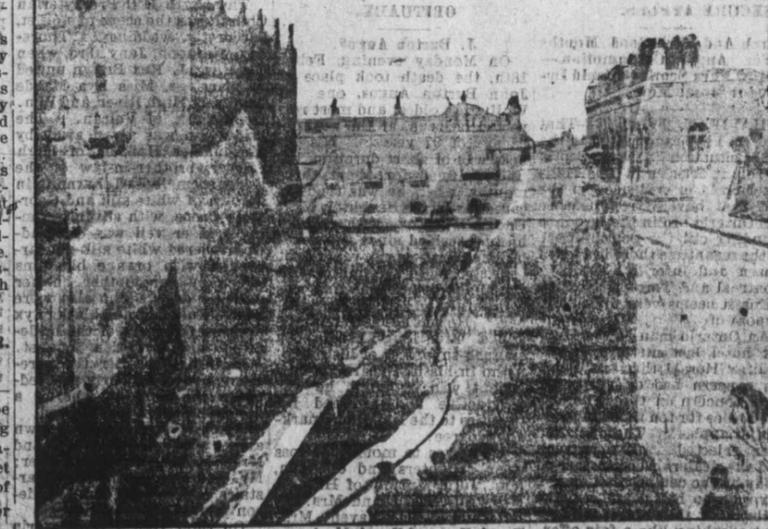

NEW ZEALAND TAKE PRISONERS.

LONDON, Feb. 21—New Zealand troops carried out a successful raid early this morning of Polygon wood and captured a few prisoners, says today's war office statement. "The enemy's artillery was active yesterday evening against our positions at Flesquieres."

N. S. CARRIAGE LIQUIDATORS MADE REPORT.

The following is the liquidators report of a once prosperous Kentville industry, removed to Amherst.

The Nova Scotia Carriage, Ltd., has been in liquidation for some time, John W. Regan, of Halifax, and Percy C. Black, of Amherst, being liquidators. They have issued a statement to the shareholders, bondholders and creditors. An effort was made without success, they state to sell the assets as a going concern. An effort was also made to dispose of the merchantise in block but only a nominal offer of \$12,500 could be secured. There appeared nothing else for the liquidators to do in the interests of the creditors and shareholders but to make up the raw material and to sell the finished product to the regular customers.

The success of this policy surpassed the expectations of the liquidators. The Canadian Bank of Commerce had a prior claim \$77,000. This was paid off, together with new moneys amounting to \$20,500, borrowed for materials, labor and operating expenses. Practically all merchandise has been disposed of. The liquidators have submitted accounts to the courts and have had the same approved.

An order has been granted also calling on all creditors to file claims against the company on or before March 4 next. There is now \$110,000 of bonds outstanding, \$10,000 of which is held by the Rhodes Curry Company, Limited, as collateral for an account of about \$4,500. There is about eighteen months interests overdue on these bonds and notice has been given that the bondholders have taken preliminary proceedings to foreclose. The claims of the company amount to about \$31,543. It does not seem, particularly at the present time, that sufficient can be raised by the sale of the plant, machinery and real estate to satisfy the bondholders' claim.

The circular proceeds to state that "if the shareholders consider there is an equity in the property for them, it will be necessary that they make arrangements at an early date with the bondholders, otherwise they will not leave anything for the shareholders. Some of the shareholders still claim that there is an opening in the carriage plant in the maritime provinces. If there are any shareholders who are willing and prepared to put up additional capital or take steps to protect their interests at a sale of the property, they must take action without delay," is the statement.

APPLE BUYERS AGAIN COMING TO NOVA SCOTIA TO SECURE APPLES.

March and April Good Months For Apple Consumption.—How Nova Scotians Could Improve Home Markets.

HALIFAX, Feb. 28.—That interest has been created in the apple situation in Nova Scotia by recent articles in The Halifax Herald is evidenced in the fact that buyers from Quebec and Ontario are in the province sounding out the possibilities. In the meantime there is a lot of frozen and inferior stock in Montreal and Toronto markets which it seems very difficult to dispose of.

An Ontario man at the Halifax hotel last night told The Halifax Herald that last Sept. his concern had offered a big price for apples in the valley a good price for ten thousand barrels of apples. The offer had been rejected. The growers and the dealers were so carried away by the competition among buyers who had come into the valley that they would not accept anything like a fair offer. Many of them were now sorry that they had not done so.

March and April are good apple consuming months," said the Ontario man. "In those

months there is a shortage of other fruits and supplies of preserves are becoming exhausted. Apple sauce becomes a favorite dish. The valley people will have no trouble in getting rid of all their good fruit and it is a wonder to me that Nova Scotians do not use more apples than they do. It must be the fault of the growers themselves. I am sure they could put on a proper advertising campaign backed with apples at fair prices and in these times of prosperity and in these times they could place a barrel of apples in every home. If they would do this they would not only get rid of a lot of the apples they now have on hand but they would get people more into the habit of eating apples and improve their market for next year."

EXPERIENCED COLD

86 DEGREES BELOW

Vancouver, Feb. —Three Royal Northwest Mounted Police officers, Corporal Hutchinson and Constable Gibson, of Dawson, and Constable Carter, of White Horse (Y.T.), are in Vancouver today with federal prisoners. The coldest weather for years is reported from the Yukon thermometer at one time having fallen to 86 below where the Polly river enters the Yukon. Dawson, said the officers, had experienced an epidemic of pneumonia, there being twenty-six deaths in Dawson during December.

THE UNIONIST GOVERNMENT AND PROHIBITION.

TORONTO, Feb. 27.—"I wish to say here on behalf of the Unionist government, that is it the intention of the government to implement the pledge which it made to the people of Canada regarding prohibition. This was the frank statement of Hon. James Calder, minister of immigration and colonization, in the course of an address to the Ontario branch of the Dominion Alliance at last night's mass meeting in Massey Hall.

NOTHING OF IMPORTANCE ON WESTERN FRONT.

LONDON, Feb. 26.—"Beyond some hostile artillery activity at different points particularly in the neighborhood of Fleischeres and northeast of Ypres, there is nothing of special interest to report," says the official report from the War Office tonight.

OBITUARY.

J. Burton Angus. On Monday evening, Feb. 18th, the death took place of John Burton Angus, one of Wolfville's oldest and most respected citizens, at the advanced age of 97 years. His illness was of short duration, being confined for about three months, when he was tenderly cared for by his daughter, Mrs. Enoch W. Fox, with whom he had resided since the death of his wife about six years ago. Early in life he united with the Methodist Church and was a faithful and consistent member. He was a mason by trade and a life long Liberal, a staunch supporter of his party. Altho in his late years his eyesight was impaired, he was very active and retained his faculties to the last in a remarkable degree.

He leaves to mourn his loss four daughters and one son, Mrs. Julia Murphy of Halifax, Mrs. Elijah Fox and Mrs. G. R. Thorpe of Delhaven. Mrs. Enoch Fox and Frank M. Angus of Wolfville, twenty-six grandchildren and thirty-two great grandchildren. Four of his grandsons are serving overseas. Sergeant Carl E. Angus, 85th

and D. Burton Angus, 10th Seige Battery, Glen E. Thorpe American Engineers and Pte. Renforth G. Thorpe and two great grandsons, Capt. Clyde S. MacDonald returned, and Jas. Desmond, 246th overseas. Funeral services were held at the home on Tuesday afternoon 2.30 P. M. conducted by the Rev. Mr. Armitage Wolfville. Burial at Willow Bank Cemetery.

WANTED—A Portin apply at Aberdeen Hotel.

On Tuesday last Curtis Boyle, little son of Frank A. Boyle, of Brooklyn St., met with a painful accident. He happened to fall off a chair, breaking and dislocating his shoulder. Dr. W. S. Woodworth was called and set the fractured bone and he has been as comfortable as can be expected ever since.

Rev. W. H. Spencer, a former pastor at Waterville has been visiting friends in the country.

Mr. Edward Eaton, of Sheffield Mills has been at Truro visiting with Dr. T. S. Kinsmen.

When the Provincial Legislature opened on the 21st there were six seats vacant. There are two in Cape Breton and one each for Pictou, Digby, Lunenburg and Victoria.

Mr. E. C. Griffin of Port Williams, made a great record with his fine single and rose comb Rhode Island Reds at Lawrencetown. He won all the prizes in the classes he exhibited, making for S. C. R. I. Reds, 1st and 2nd prize cock; 1st, 2nd and 3rd hen; 1 and 2 cockerel; 1st, 2nd, 3rd, pullet. For Rose Comb; 1st cock; 1st and 2nd hen; 1st and 2nd cockerel; 1st and 2nd pullet.

WANTED.—Horse 6 years old weight about 1150. Must be well broken to farm work and quiet.

Also unmarried man for eight months or a year to work on farm. Apply to H. M. CHASE, Kentville, N. S. a 3 ins.

ST. PAUL'S CHURCH.

Next Sunday evening, Mr. Layton will begin a series of sermons on "Religious movements", starting with the Religious Revival of the fifteenth and sixteenth centuries, and he will compare these movements with the present day religious sentiment. These sermons are the result of months of study and will contain much that should interest and stimulate thoughtful and enquiring minds. The Choir which has been increased to sixteen voices, will give special music.

ALLAN—GRAVES

(The Morning Albertan, Calgary, Jan. 5, 1918)

The North Hill Presbyterian Church was the scene of a quiet, but pretty, wedding on Thursday afternoon, Jan. 3rd, when the Rev. J. Rex Brown united in marriage, Miss Eva Maude Graves, of High River, and Wm. Dyce Allan, of Vulcan. The bride who was given away by Mr. James Hadden, of High River, brother-in-law of the bridegroom, looked charming in a gown of white silk and Georgette Crepe, with silver trimmings. Her veil was of hand-embroidered white silk net, arranged with orange blossoms worn by her mother on her wedding day. She also wore a beautiful pearl and black onyx necklace (the gift of the bridegroom) and carried a bouquet. Immediately after the ceremony, the bridal party proceeded to the Palliser, where a dainty luncheon was served. Among the out-of-town guests present were Mr. and Mrs. Hadden from High River; Mr. and Mrs. Craig from Carstairs, and Mr. and Mrs. Jamieson from Vulcan.

On their return from a trip to the coast, Mr. and Mrs. Allan will reside at Vulcan.

Ed. The bride is the only child of Capt. E. F. and Mrs. Graves of this Town.

TO ALL WOMEN WHO ARE ILL

This Woman Recommends Lydia E. Pinkham's Vegetable Compound—Her Personal Experience.

McLean, Neb.—"I want to recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer from any functional disturbance, as it has done me more good than all the doctor's medicine. Since taking it I have a fine healthy baby girl and have gained in health and strength. My husband and I both praise your medicine to all suffering women."

This famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, has been restoring women of America to health for more than forty years and it will pay any woman who suffers from displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues" to give this successful remedy a trial.

For special suggestions in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

SOLDIERS EAGER TO TAKE UP LAND.

Over 1,000 Applicants.

OTTAWA, Feb. 18.—Returned soldiers are ready availing themselves of the section of the Soldiers' Settlement Act authorizing an advance of \$2,500 to any ex-service man who intends to engage in farming. Although the Soldiers' Settlement Board has only recently been appointed, it has received more than 1,000 applications for advances chiefly from men who were cultivating soil prior to their enlistment, and who now desire to add to their holdings.

Pending the organization of the staff of the Soldiers' Settlement Board the applications will be investigated by officials of the Dominion Lands and Homestead branch of the Interior Department.

The most difficult problem which the Soldiers' Settlement Board has to solve is to locate men seeking to embark for the first time in agriculture. Returned soldiers are not anxious to take up land in remote sections of the Western provinces when good lands nearer to railroads and to civilization are held by speculators. Several land companies have expressed willingness to dispose of their holdings, accepting Dominion Government securities in lieu of cash. The question of acquiring enough of such privately-owned land to provide homesteads for 60,000 returned men

was considered at the recent conference of Provincial Premiers with members of the Federal Government. It was estimated that to purchase the land would mean to add \$2,500 to the cost of locating every man.

An interesting experiment in state supervision of agriculture will be made on a Western Indian reservation where there are 1,800,000 acres of land suitable for cultivation or pasture.

Mr. W. W. Graham, who has been appointed commission had given before the commission a report, will endeavor to encourage each of 8,000 Indian farmers to add ten acres to their area of cultivation. He will also take steps to secure surrender of lands over and above the requirements of the Indians. Of these lands large tracts are suitable for grazing and will be leased to individuals at a certain figure, per head, of the cattle pastured thereon, or will be used by farmers of the district. Arable lands will be broken up by the Department of Indian Affairs by means of tractors. Operations will begin in May, and while this work will not result in crops this year, they will bear fruit in 1919.

Thirty individual farmers have already applied for tractors from the thousand ordered by the Government. Ontario wants 100 tractors, provided they are secured from early deliveries; New Brunswick is asking for fifty. Twelve will be obtained through an arrangement with the British Government, for which tractors are now being manufactured, and these twelve will be used for demonstration purposes.

EXAMINATION WAS RESUMED TO-DAY.

Manslaughter Charges Against Pilot and Captain.

HALIFAX, Feb. 22.—The preliminary examination into the manslaughter charges against Captain Anne Lemede, master of the French steamer Mont Blanc, Frank Mackey, pilot of that steamer, and Commander Wyatt, R. N., former chief naval examination officer here, was resumed this morning before Stipendiary McLeod, at the court house. Second Mate Bjornes, of the Imo, told W. O'Hearn, K. C., counsel for Pilot Mackey, that he knew Albert Iversen on board this ship. Iversen was a Norwegian, he said.

"Did you ever see that book with him?" asked Mr. O'Hearn, producing a Bible and Prayer Book. "Yes, a Norwegian church book, that is," said the witness. Ralph Smith, engineer of a

motor boat which was on the harbor the morning of the explosion, said that men leaving the Mont Blanc gave warning of a possible explosion; one of the men in relief boats was standing up, waving his hands and shouting out the word "explosion."

Captain D. McLean, of the tug Douglas H. Thomas, an eye-witness of the collision, reviewed a testimony which he given before the commission of inquiry into the collision.

HAD BEEN IN ONLY TWO DAYS.

Terry McGovern, Former World's Featherweight Champion, Dead.

NEW YORK, Feb. 22.—Terry McGovern, former world's champion, died at Kings County Hospital this morning. He had been ill only two days. Pneumonia and kidney trouble, complicated with other ailments, brought on the boxers end within 48 hours from the time he was removed from his Brooklyn home to the hospital.

25,000 BOYS WANTED FOR NEW SCHEME.

Ottawa, Feb. 20th. The organization of the "Soldiers of the soil" movements, inaugurated by the Canadian food board, is now practically complete and work will be commenced at an early date to enlist 25,000 boy volunteers to assist in food production of farms this year. Actual enrolment will begin on March 17, and the following week will be "Soldiers of the soil" enrolment week, thruout Canada.

Statten, a leader in boys work has been appointed superintendent of the Soldiers of the soil. He explained today that it is proposed to enlist boys between the age of 15 and 19 years.

Arrangements have been made by the Depts. of Agriculture in the several provinces so that boys, who enlist for this week, will not lose their school standing.

GOT IT AT LAST.

(Boston Transcript) The man in the drug store was perplexed. Try as he would he could not remember what his wife had told him to get. Presently he brightened up. "Say, name over a few young people's societies?" "Christian Endeavor?" began the druggist.

"No." "Young People's Union?" "No." "Epworth League?" "That's it! That's it! Give me five cents' worth of Epworth salts!"

PICTURESQUE CRITICISM.

(Christians Register) Dr. Eaton a former president of Madison University, was beloved by the students. One day a student, who had spoken in debate, asked him what he thought of the effort. The doctor looked at him, and then said slowly: "Edward from the wings of your imagination and attic them in the tall of your judgement, you would make better speeches!"

FARM INSPECTION WEEK IN CANADA.

Ottawa, Feb. 20th. The week of March 11 to 18 is to be a farm inspection and repair week thruout Canada. An effort will be made to have every farmer inspect his machinery during this period and immediately to place orders for pairs of extra parts. News papers will be asked to open a farm implement exchange section in their "opinion" columns, as a means of making available second hand machinery and other equipments. Letters are being sent out to a large number of organizations asking their co-operation in this effort.

NO PEACE UNTIL GERMANY IS BEATEN.

Said Former President Taft in An Address to American Soldiers.

Battle Creek, Mich., Feb. 19

"There can be no peace until Germany is badly beaten and those who speak peace now are either misinformed as to the situation, or are wilfully helping Prussianism," said William Howard Taft, former President, in a talk to enlist men of the Eighty-Fifth Division here today.

Discussing the probability of a big German drive on the West front, Mr. Taft said:

"The only reason I can give why there should be no drive is that the German military has said there would be one. And the German military is synonymous with lying."

Germany's aims before the war were explained by Mr. Taft as he interprets them. They included, he said, war on England until there was no indemnity left to pay except colonies, chiefly Canada. Then would come rectification of the boundary with the United States.

MIDDLETONIANS IN THE WEST.

At a very pleasant afternoon tea given by Mrs. Margeson (nee Mary Mulhall in honor of Mr. and Mrs. G. C. Miller and Mrs. Hill, Mrs. Miller's sister, who were visiting in Vancouver, were Mrs. Kate Graves and Mrs. Daley and Mrs. Denton, formerly of Middleton also Mrs. Dr. Margeson and her daughter, Mrs. David, on former of Hantsport with others from Nova Scotia.

Mr. and Mrs. Miller are said to be looking very well. They enjoy the Vancouver weather.—Outlook

From Margaretville Correspondent in Outlook—Word was received here Wednesday of the death of Mrs. David Banks at Avlesford. Mrs. Banks was well known here having been a former resident of this place and much sympathy is left for Mr. Banks, who is now overseas and their two sons, Margeson and Lorin.

BEEFLESS AND PORKLESS DAYS.

Wednesday and Fridays have been made beefless and porkless days in Canada; instead of Tuesday and Friday.

Under the amended regulations, beef must not be served at more than one meal on any day, while its use on Wednesdays and Fridays is absolutely prohibited. Similarly, pork must not be served at more than one meal on any day, and on Wednesdays and Fridays must not be served at any time.

Henceforth no proprietor of a public eating place can avoid serving corn bread, oatcakes, or similar substitutes for wheat bread, under the contention that potatoes are recognized as a substitute in the Food Controller's regulations. To avoid this difficulty the word potatoes has been definitely eliminated from the enumerated substitutes, and in future some substitute or substitutes must be served at every meal at which white bread is served on Tuesday, Wednesday, Friday, or Saturday.

MAKING MAPLE SUGAR.

The appeal of the Food Controller to produce large quantities of maple sugar and syrup this spring should receive a ready response from those who have groves of maple trees. White maple sugar can be made as it was in the early days of settlement, with very simple apparatus, the work is greatly reduced and better products made when a modern equipment is utilized. For the instruction of those not entirely familiar with advanced methods, the Publication Branch of the Department of Agriculture at Ottawa has issued Bulletin No 2—B entitled "The Maple Sugar Industry in Can-

EVERY HEADACHE HAS A MEANING

If there is one practice more dangerous than neglecting a headache altogether, it is taking drugs simply to numb the pain. Headaches are nature's warnings and serve a useful purpose. They tell of a function overtaxed or deranged and the wise man or woman takes steps accordingly.

When the Kidneys are not performing their natural function the blood stream becomes clogged with impurities—a fruitful cause of headaches, constant headaches, and more serious complaints if nature's warning is not heeded.

The sufferer feels sluggish, unwilling to work, the back aches and there is a dizzy sensation on stooping. If the cause of the trouble is unchoked, Rheumatism, Lumbago, Swollen Joints and Ankles follow, until GIN PILLS are resorted to and the Kidney action restored to normal.

The beauty of the GIN PILL treatment is that first it will in all probability remove both headaches and cause; second, if there is no cure, the simple remedy can do absolutely no harm, and you have only to write the manufacturers and your money will be refunded.

GIN PILLS are sold at 50c. a box or 6 boxes for \$2.50 on the money-back guarantee. If you have any difficulty in securing GIN PILLS write for a free sample to the National Drug & Chemical Co. of Canada, Limited, Toronto, or to the U. S. address, Na-Dru-Co Inc., 202 Main St., Buffalo, N. Y.

By text and illustration it makes very clear the operation of a maple sugar plant. The time to tap, the utensils to use, the refining and handling of the product are all dealt with. This bulletin is available for distribution to those who apply for it.

FRENCH ELIERS MADE IT HOT FOR HUNS.

Brought Down Eighteen German Machines and Burned a Captive Balloon.

PARIS, Feb. 19.—The official communication from the War Office tonight says: "There was quite pronounced artillery activity in Champagne and on the right bank of the Meuse.

'Aviation—On February 16, 17 and 18 our pilots brought down or seriously damaged in numerous combats German machines; in addition a captive balloon was burned.

"On Feb. 18, in the day and night, our bombing escadille dropped 16,000 kilos of explosives on enemy objectives, notably on the stations of Metz-Sablons, Forbach and Rensdorf, on depots at Ensisheim (south of Sélestat), where a violent fire broke out, and on various aviation grounds.

The official promise comes from France that that country will, if need be, furnish the American army with enough cannon for 500,000 men by July 1. During the last three years France has provided her Allies in Europe with 1,350,000 rifles, 10,000 machine guns, 800,000,000 cartridges, 20,000 guns and 4,750 airplanes. And France has now 2,700,000 men on the firing lines. "Not for a while yet will France be 'bled white'."

A TORPEDO PROOF BATTLE SHIP MODEL.

NON-EXPLOSIVE there was a reference made in the News, to a Torpedo Proof Battle Ship an invention of Mr. W. S. Horton of this town. By request, Mr. Horton sent to the British Naval Authorities in London, Eng., a model of his new "Torpedo" proof Battle-Ship. The merits of this ship has been retained in confidence by the British Authorities.

Since making his first invention Mr. Horton has given much thought and study to the problem of building a Torpedo Proof Battle-Ship and now has an improvement in design and other features over his first model.

Mr. Horton will immediately send a new Model Ship to the Board in Invention and Research in London, Eng.—Truro News.

Advertisement for Roscoe Bookstall featuring a large illustration of a British flag and the text: 'Loyalty. Loyalty to our country is good, but loyalty to our town and our neighbors is just as important. Although rare, to send money out of town for things that may be obtained from townsmen and neighbors is not loyal, and does a serious injury to our schools, churches, and other institutions supported by local taxation or philanthropy. Support good roads, good churches and good schools. Spend your money at home. You will get just as good or better value, and it will stay where you buy before you pay for it. Read the advertisements and deal at home.'

HARBORVILLE

We hev hed quite a spell uv wether so fur this week, some uv the time we hev hed Summer, with the themometer up around 50, and a few hours afterwards that same pesky thing would be down to o, which would be sum change. Tuesday nite the gates uv haven opened up wide, and we hed sure sum rane, what put our rodes in sich shape, that our effcent mail man, Lemuel Brown, hed to turn back at Bezansons, and we hed to get along without eny male, on Wensday. That makes only twict, what Lem hed to giv it up this winter, but after his horse hed gone outer sight a few times, he figured he culdent afford to buy another horse, seen

there is only 90 cents a day in his job anyway, and only 3 days a weeks at that.

Thursday, the other male man, Edson, started up through the Park beded fur Berwick, via Burlington, but at this written ther is no nower, if he got through or not, maybe he did, and if he gets back, we will know if we hev the germans licked yet.

Harborville, hed its usual weekly dance the other nite and young men did emselves proud ther way they worked. Its dern funny, but this old burg seems ter be ther only place in the whul world, were the pepel feel like dancin. Most uv us is too worried over this war, and to get erub enuf to eat but them things dont seem to bother Harborville eny.

"The Lord Gave, and The Lord Taketh Away", even so it was with Commodore Willie Parre's Island, what had been cast up by the sea. The storm uv Tuesday nite took it away again, and it hed all together becuz Billie hed just about hed it sold to sum Yanks what was comin to build a Summer home on ter, but it is too late now. The Commodore went on ter see the Old feller on the hill about it, and he told him to go ahead and sell it to that Yankee feller enyway, becuz maybe the next storm would bring it back agin.

If sum enterprisen genius was to cum over here and make skates fur our horses, we culd maybe get over the rodes, and he wuld make quite sum munev. Chief Engineer Fox and his bride, nee Miss Dela Spicer, hev returned to the home of Captain and Mrs. Spicer, for the remainder of ther hobsonom.

There is no war as fur as Harborville is concerned, here it is one round uv pleasure all ther time. Ther goin to hev another dance on Monday nite. They is sure doin ther Bit, round these dizgins.

The Hamilton rode, is out uv uther muck what hes ben lyin nite brought down the ce and uther muck what hes ben lyin in the brook fur sevril years and hes piled it up over the Curry bridge, so that all the traffic hes to go over the old rode what runs down thru the Park, also Capt. Ed Curry, is worken day and nite tryen to save his barn, and it beats the d—I how his nebers is turin out to help.

"T. NIT. Ther mite be a leetle work in it. Yur sure heven dern hard luck Howard, with ther old press uv yurs, by the luks uv yur paper, and if you cant get it goin right, let me kno, and woul see mayeb, we ken get the fellers around here to get up a pie soceel and dance to buy you a new one as they air grate on them kind uv things.

We air all tied up over here on account uv our rodes, part uv which is to be blamed to them pesky alders, and the rest to that Curry bridge, what Weaver should hev fixed last fall, but put it off till next spring. Then agin, is that heavy rane we hed, follered by bitter cold wether, what made ice all over the place, so that peple what live on the hill, hev to slide down to the flat to get ther mail, and get back the bets way they kno how, and if it wasent fur the rode thru the Park, the mail man wuld hev a duce uv a time settin over the moutin.

Ther Berwick Register, hed sum Verses at the head uv ther first page, last week, that if peple rede em had aughter set em to thinkin sum. Berwick seems to be runnin to Krokinall (which seems to be sum game what is fattered by the—) the high toned lectures what air ben held onct a week hev only a coprelps gard to hear em. Same at Harborville, all they think erbout over here, is dancin. In the meantime we air still wondern that is sum uv us is, when Mr. Stairs uv Wolfville, is cumin over. If he wants to know fur why tell him to ask you, Howard.

The New Store kepper ter Berwick opened up by blowen up his gas machine, and nearly ripen out one uv Nova Scotias greatest Plumbers, who was

monkyen with the before mentioned machine. Ther was sum windows blowed out, and the telephon operator that the germans hed arrived, and so was scared nigh to deth.

DISCOVERY OF COAL IN QUEBEC.

Work on the extraction of

coal from a mine discovered on the cliff near Levis, Quebec, has started. So far three families are heating their homes with the anthracite taken from Quebec soil. It is not yet established whether Quebec only has a stray deposit of coal or whether it is a far-stretching vein.
