REBURN CAPTURED.
London, March 10.—General Methuen and four guns have been captured by General Delarey.

WESTERN.
Winnipeg, March 10.
Two returning members of South African constabulary in a Winnipeg job were reported much disappointed among the constabulary on service in Africa.
Premier Dismuir was threatened with death if he attended a bye-election meeting in Victoria, B. C. Pollard.
Messrs. MacKenzie & Mann have secured the island railway running from Nanaimo to connect with their C. N. R. system.
Gold bricks from the Mikado mine valued at \$7,000, have been taken to Rat Portage, the results of two weeks run.
David Marshall, arrested at Kingston, Ont., for robbery near Oak River, Man., has been taken to Brandon.
Rev. Mr. Vincent, in Winnipeg, arraigned the Roblin government and the referendum in a sermon yesterday.
The organizer of the Prohibition League has given a report of the progress of the campaign in Manitoba.
Speaker Hespeler, of the Manitoba legislature, had a conversation with Prince Henry at Niagara Falls.
A burned bridge near Jackfish Bay, Ont., delayed the C. P. R., passenger service on the North Shore.
Forty-three candidates were confirmed in Holy Trinity church, Winnipeg, by the archbishop.
A French woman and her child had a narrow escape from drowning in the Red River, Winnipeg.
The Montreal hockey team left for Winnipeg in a blinding snowstorm yesterday.
Dr. Horace Norquay, of Dawson, and Miss Bashan, of St. Louis, were married.
A child of T. R. Simpson's at Sverden, received fatal injuries from a scalding.
Five finals were completed on Saturday at the Brandon bonspiel.

GREAT BRITAIN.

Queen Alexandra launched the battleship "Queen" at Plymouth. The King laid the keel of the "King Edward VII."
Major-General Earl Dundonald has indicated his acceptance of the command of the Canadian militia.
Santos Dumont has been offered a big prize for an airship voyage from London to Birmingham.
The battleship Camperdown narrowly escaped colliding with two of the channel squadron.
The growth of O'Brien's power in Ireland is disquieting to the Unionist Ministry.
It is rumored that A. Store will run for a seat in the British parliament.

CANADIAN.

Recent discoveries have made the coal areas of the Dominion Coal Co., at Sydney, C. B., the largest in the world.
Jacques Bureau, M. P., of Two Rivers, one of the League campaign speakers, is seriously ill.
The Columbia Handle & Lumber Co. factory at London, was destroyed by fire; loss \$30,000.
Ten members of the family of Arthur Bouchard at Matane, Que., were burned to death.
The crews of the Newfoundland sealing fleet comprising 5,000 men have gone on strike.
Canadian Scouts discovered DeWet's large store of ammunition in a cave near Reita.
The Great lakes' navigation is expected to open two weeks earlier than last year.
Rev. Father Ryan, of Toronto, and Canon Oeler, of York Mills, Ont., are dead.
Rev. T. Watson Smith, a Halifax Methodist clergyman, is dead.
A case of small pox has been discovered in Toronto University.
Anxiety is felt for the overdue Allan liner, Huronian.
Forty-two wholesale paper dealers have combined.

GENERAL.

Chinese officials are disturbed over the march of Russian troops into Manchuria to quiet bandit incursions.
The United States government has presented another note to Turkey in connection with Miss Stone's ransom.
Three United States officers will be tried in the Philippines for executing natives without trial.
Cecil Rhodes', serious illness is due to heart trouble.
The Etruria has reached the Azores.

FIRE AT PONOKA.

Ponoka, March 8.
At 12:30 o'clock on Thursday night the people of Ponoka were startled by the alarm of fire. The fire was at once discovered in Matsush's shops. Chemical extinguishers were soon on hand but of no avail and the carrying out of the goods at once began. From this building the fire soon spread to Huber's barber shop and to Algar's store and post office. The greater part of the dry goods were saved from both stores, but the bulk of the groceries was consumed, as was Algar's entire large furniture stock. Practically all the post office property was saved. Only through the kind providence of there being no wind and the constant and united efforts of the citizens the whole business portion of the village was saved. The origin of the fire is unknown though Mr. Matsush is inclined to believe it caught from his stove. Mr. Matsush estimates his loss at \$7,000 and Algar & Co. at \$5,000. No definite decision relating to re-building has yet been made.

LOCAL.

—W. A. Brewster is putting a new chimney on his blast furnace.
—The school board meet to-morrow in the Secretary's office.
—The Deering Co. are building an addition to their implement shed on Queen's avenue.
—A fresh case of diphtheria was reported to the police last week. The house was promptly quarantined.
—J. Buxton, boiler inspector, went to Siscoy Plain this afternoon to inspect boilers in that district during the week.
—The regular meeting of the W. C. T. U. will be held on Wednesday, 12th inst., at 8:30 p. m. at the residence of Mrs. Beale.
—P. Wagner expects to open up a tailor shop in the building at present occupied by Mr. Dittrich, who is removing to Stratcona.

—On Wednesday, April 2nd, an entertainment will be given at the school house at Agricola at 7:30 p. m. under the auspices of the English church.
—There will be a special meeting of the library and reading room committee to-morrow night at 8:30. Entertainment will be given at the residence of Mr. H. A. Williams.
—All interested are invited to attend.
—J. Montgomery has opened out a flour and feed store in part of the building formerly occupied by W. J. Walker, next the Massey-Harris warehouse.
—W. Latimer returned last week from Peace river having taken up portions of the machinery for the new H. B. Co. mill at Vermilion. The entire trip occupied 31 days.
—The Presbyterians of the West Beaver lake district propose erecting a new Presbyterian church. A transfer of a site of two acres has been made by Mr. R. A. Williams.
—Medicine Hat News: A challenge was sent last week by the hockey club to the Stratcona hockey team asking for a game here. No definite arrangements have yet been made.

—To-day is the date of the opening of the London fur sales. This is the largest sale of the year when the Hudson's Bay Co. and Lumpsen & Co. offer their large stocks, with the exception of certain lines.
—Winnipeg Telegram: E. Edwards, a member of the Welsh colony in Patagonia, is at present in Manitoba, looking over the country with a view to settling here, and it is stated has already purchased land near Argyle.
—A social under the auspices of the Ladies Aid society of the Presbyterian church will be held at the residence of Mrs. James Lauder, on Thursday evening. A programme will be provided consisting of games, refreshments, &c.
—Contrary to announcement the third match in the series for the Calgary Brewing Co. cup between the Stratcona and Edmonton hockey teams failed to eventuate. The match will probably be played some evening during the present week.
—Rev. D. G. McQueen returned last week from attending the joint meeting of the Home Missions Committees of Manitoba, British Columbia and the Northwest Territories and occupied his pulpit yesterday. The committee meet in Winnipeg to deliberate on matters in connection with western missions.

—Sheriff King left this morning in charge of the prisoner Riner for Redwood, S. D. During his visit here the sheriff visited several settlements and expressed himself as surprised at the advantages offered by the country. He was also much pleased with the courteous treatment of the Canadian officials.
—The Alberta Land Co. and John Ross & Co. sold the Geo. Hutton farm of 800 acres at Sturgeon river, to P. A. Putnam and William Cross, of Minnesota, at \$15 per acre cash. Mr. Putnam says he never saw as nice a farming country. He considers the opportunities offering here to young men unsurpassed anywhere.

—Messrs. C. Pratt and G. Cornelison, formerly of Spruce Grove, have located at Frank, Alta. In a communication Mr. Pratt reports Frank as a very progressive town. A considerable number of buildings are under way including a large hotel. Mr. Pratt is erecting a double store with an opera house overhead.
—Regina Leader: Tom Lemack, charged with murder at Qu'Appelle eight years ago was before Judge Richardson on Tuesday and the case was adjourned until the 18th inst. It is not unlikely, however, that the trial will not be then, as there are 32 cases of small pox at Lebert where the witnesses reside and Dr. Patterson, Dominion medical health officer reports that it would not be wise that the witnesses should leave the infected district for Regina. Favel, at present in Regina jail, will be put on his trial on the 18th for accessory after the fact in the murder at Port Qu'Appelle about a year ago.

PERSONAL.

—Major Belcher was in town this morning.
—J. Pollard has taken a position in Lubbock's livery.
—E. Sibbald has taken a position with MacDougall & Secord.
—R. Hockley has been confined to bed several days with bronchitis.
—Miss McBroom, of J. M. Glasgow & Co., returns this week from the east.
—Messrs. Hallier & Aldridge expect to occupy their new stand on Thursday.
—J. Lundy, of Guelph, Ont., came in Saturday to take a position with Ross Bros.
—Mr. and Mrs. S. B. McNamara, of Portage la Prairie, are expected in this week to spend a few days in town.
—Mr. Taylor, of the C. P. R. offices, Montreal, came in on Saturday evening to visit his brother, Alex., and mother here. Mr. Taylor leaves to-morrow for Montreal.

OPERATOR AT STAR.
H. J. McDonald came in from Qu'Appelle last week to take a position as operator at the Government telegraph station at Star. Mr. McDonald was driven out to Star by W. McKay, who returned on Saturday. It is presumed that the office at Star is to be kept open continuously in the future.

RESIDENT JUDGE APPOINTED.

On Friday evening Secretary-Treasurer Kinraid received a communication from F. Oliver, M. P., informing the council of the appointment of Mr. Justice Scott as resident judge at Edmonton.

The information was authoritative having been communicated to Mr. Oliver from the minister of justice.

OURLING.

Friday evening:
Lauder defeated Ibbotson, H. E. Co. cup.
McCauley defeated McDonald in the finals for the Blue Ribbon cup and will hold the cup for the year.
No rink competitions were pulled off on Saturday.
The only games boarded are Cushing vs. Fraser, finals for the Ogar Co. cup, and Fraser vs. McCauley, finals for the Hardisty cup.

EDMONTON BULLETIN MARCH 10, 1902.

THE WATERWORKS PROPOSITION

The proposition to install a system of waterworks at the cost of \$80,000 is the most serious financial undertaking which has ever been faced by the ratepayers of Edmonton, and a proposition of such magnitude financially and offering such a range of subjects for consideration that the exact nature, extent, and capacity of the system which it is suggested to install cannot be too clearly presented to the ratepayers.

The system proposed is based on the report of Mr. W. Chipman, a report too exhaustive to be reproduced verbatim. Accompanying the report is a plan of the town showing the suggested location of each part of the system. Both plan and report are open for the investigation of ratepayers at the town office.

The source suggested for the water supply is the river. Practically only two sources existed, excepting the extensive experiment of boring. These sources were Mill Creek and the river. The latter has seemed preferable to Mr. Chipman both because Mill Creek drains a portion of fairly well settled country and because of the larger volume of water in the river and its consequent preference from the standpoint of purity. The water must be taken from the river at a point above the entrance of drainage and sewerage from the town. Two points for taking water from the river are suggested, one between 4th and 6th streets and the other near the old H. B. Co.'s fort near Eleventh street.

It is proposed to draw the water from the river by means of pipes laid low enough to escape damage from the ice and also to avoid contingencies during low water. These pipes would lead to a sedimentation basin 100x150 feet in dimensions and 9 feet deep. This basin would have a capacity of 500,000 gallons and is pointed out as necessary in order to remove the floating sand from the water before running this through the filter. To supply the water to this basin would require two centrifugal pumps, each operated by a small engine. The pumps would be located near the bank of the river and enclosed in watertight wells. The capacity of each of the pumps recommended is 750 gallons per minute, raised to a height of 50 feet. The bottom and sides of the basin would be covered with puddled clay and planking placed around the upper side to prevent caving and washing in.

From the sedimentation basin the water would be forced by means of a compound duplex pump through the filter. This report recommends two steel mechanical filters each of the capacity of 250,000 gallons per day, but in the estimated cost of the plant only one filter is mentioned, consequently this is presumed as sufficient for the present. From the filter the water would be forced into the reservoir from which the mains would be supplied. Provision is made that in case of fire the reservoir could be disconnected and direct connection made with the pumps.

The reservoir or water tower proposed is a steel tank with a capacity of 60,000 gallons, mounted on a steel trestle high enough to give the necessary pressure on the mains. The pressure for domestic purposes is estimated at 115 to 120 lbs. per square inch and in case of fire could be raised to 150 or even to 180 lbs.

The distribution system proposed consists of some 21,000 feet of mains, varying in diameter from 4 inches to 1 foot. These would be laid along portions of 2nd, 3rd, 4th, 5th and 6th streets, H. B. Co., Victoria avenue, Jasper avenue, Howard street, Rice street, Elizabeth street, May street, Queen's avenue, 4th street, Fraser avenue, Namayo avenue, 5th street and Kinietino avenue.

The aggregate cost of the system as suggested is \$80,000 made up of the following items:

Land.	\$1,000
Intake pipe.	2,000
Two pump wells.	3,000
Building and chimney.	8,000
Two boilers, set.	3,500
Two centrifugal pumps and engines.	1,500
One compound duplex pump- ing engine.	3,000
One filter and connections.	4,000
Sedimentation basin.	3,000
Distribution system.	40,000
Water tower.	8,000
Engineer and superintendence.	3,000
Legal expense, printing, &c.	1,000

The distribution system contains provision for fifty double nozzle hydrants.

The system as outlined is estimated as sufficient to supply the town with water for domestic purposes and uses in case of fire until the population reaches 4,000. It would then be found

necessary to add to the plant a second pumping engine, a second filter, a third boiler, and to enlarge the sedimentation basin and pump house.

Mr. Chipman also discussed the question of operating expenses and revenue. The operating expenses for the first year are estimated at \$2,000 besides fuel and thereafter at \$1,000 salary for the engineer in charge and \$2,000 for fuel.

The plant is estimated to be self-sustaining at the end of five years. The water rate is calculated at \$20 per year, which with two hundred services would provide a revenue of \$4,000. The expense account could also be charged with an annual hydrant rental of \$60 each which sum would be about the fee charged by a private company. This is calculated as furnishing another revenue item of \$3,000. It is also calculated that water could be sold to manufacturers, railways, &c., to produce \$500 more. The ordinance provides that a rate of 4 mills may be charged on property fronting on mains for fire protection. This is estimated to yield \$3,000 revenue. The amount thus calculated possible to raise annually is \$10,500. The fire rate would probably be dropped after the first year and the revenue is calculated to then amount to \$7,500.

It is suggested that the debentures should run for 30 years and bear interest at 5 per cent. The interest for the first year would be \$4,000 and decrease slightly with each succeeding year. The sinking fund necessary to meet the principal in 30 years is placed at \$1,202. This would bring the expenditure on account of installation for the first year up to \$5,202 and it would decrease annually for the life of the debentures.

A SATISFACTORY APPOINTMENT

The news of the appointment of Mr. Justice Scott as resident judge at Edmonton will be highly satisfactory to the residents of the Edmonton district.

For some time past, and more especially during the last year, judicial business here has been frequently very seriously delayed by the postponing of the sittings of the supreme court from time to time to enable His Lordship to attend sessions in Southern Alberta. Each delay is necessarily both inconvenient and expensive to all parties concerned. While under the new arrangements the district to be covered by the resident Justice will probably extend southward to Red Deer, it should be possible to hold sittings here frequently enough to prevent the accumulation of business.

Mr. Justice Scott is comparatively well known throughout the district, he having been the presiding Judge at nearly every sitting of the court here for some time, and his appointment as resident judge will be very satisfactory to the town and district.

GREEN GOODS OPERATOR.

A gentleman in town last week received a communication from an American party offering to supply him with "duplicate" American bills of the one, five and ten dollar denominations, printed on silk fibre paper and possible of detection only on reaching the treasury department at Washington.

As similar communications may have been made to parties of less integrity the foregoing paragraph is published as a warning to the public to be on guard in accepting American bills.

Canada's War Cry.

Toronto Telegram. "Market for market or tariff for tariff" is the principal which may not force the United States to purchase Canadian products.

Better even than a share of the United States market will be the development of Canada's power to exist without the help of American raw materials and manufactured articles.

Under the present system the United States enjoys the advantages both of free trade and protection. An approach to free trade lets the products of the United States into the Canadian market, and protection of the most excellent type keeps Canadian products out of the United States market.

The injustice of the present system of trading between the Republic and the Dominion was worthy of John Charlton's powerful condemnation. The cry of "market for market or tariff for tariff" may have little power in good times, but in a period of depression such a cry could stampede the country in favour of the party that raised it.

YOUNG LIBERALS MEET.

The annual general meeting of the Young Men's Liberal Association was held in Sandison's Hall on Friday evening, there being a fair attendance.

The president's report showed the association to be in a flourishing condition, the membership roll containing some sixty names. A half dozen new members joined at the meeting.

Following are the officers elected for the coming year:

Honorary president, F. Oliver, M.P.
 Honorary vice-president, J. H. Garlepp.
 Honorary 2nd vice-president, A. B. Campbell.
 President, C. W. Cross.
 1st vice-president, R. J. Manson.
 2nd vice-president, Dr. Roy.
 Secretary-treasurer, P. E. Lessard.

The executive consists of Messrs. R. McIntosh, P. Campbell, S. Cloutier, J. H. Picard, J. H. Shedden, and J. Howey.

The utmost unanimity prevailed throughout the meeting and entire confidence was expressed in the present administration and in the sitting member.

President Young, of the liberal association, was present and congratulated the association on its strength and on the work being done.

A resolution was unanimously passed that a banquet be tendered Mr. Oliver on his return from Ottawa.

SCHOOL BOARD MEET.

The trustees board of the public school met on Feb. 21st in the secretary's office. All the members were present except the chairman, Mr. A. Taylor. H. C. Taylor was appointed chairman of the meeting.

K. A. McLeod reported that an additional school room had been secured at a rental of \$3 per month, the necessary furnishings put in place and classes opened in the room.

The annual statement and report of the auditor were presented.

The tender of J. Milner to supply coal to the schools for the year was accepted. The price to be paid is \$2.50 for coal from the town mine and \$3.00 for coal from Clover Bar.

The secretary wrote asking for an increase of salary. The request was granted, the salary being raised from \$20 to \$30 per month.

A bill of \$7 drayage on the corner stone from the Presbyterian church to the new school building was passed.

The following accounts were passed for payment:

J. A. Stovel.	\$ 50
Pay sheet.	6.16
J. Milner.	37.50
H. D. Johnson.	50.00
J. Hillman.	5.00
W. J. Richardson.	12.00
K. W. McKenzie.	11.70
R. J. Manson.	221.60

NOTICE IS HEREBY GIVEN that the CANADIAN NORTHERN RAILWAY COMPANY will apply to the Parliament of Canada at its next session for an Act empowering the Company to construct the following lines of railway, namely:

1. From a point on the Company's line between Port Arthur and Fort Frances, thence north-westerly and south-easterly to the City of Quebec; and from points from this line to Port Arthur, Ottawa and Montreal;
2. From a point on the Company's line at or near McCreary Station, Manitoba, to the easterly boundary of Manitoba;
3. From a point on the Company's line at or near McCreary Station, Manitoba, to the southerly boundary of Manitoba;
4. From a point on the Company's line near Swan river to the Pacific Coast at or near Skeena River, by way of the Pine River Pass;
5. From a point on the line east of Edmonton in Alberta or Saskatchewan to the Red Deer River;
6. From a point on the Company's line near Hanging Hide River (Saskatchewan) to the mouth of the Carro River near Pasmision.

ALSO increasing the capital of the Company and empowering it to issue stock, debentures or other securities in connection with the acquisition of vessels, hotels, terminals and other properties; and to acquire and utilize waterworks for the generation of electric and other power, and to dispose of surplus power, and to acquire or establish pleasure resorts; and to aid settlers upon lands served by the Company's railways; to improve the Company's lands, and to acquire and hold lands outside of Canada; ALSO confirming the amalgamation between the Company and the Edmonton, Yukon and Pacific Railway Company.

Fire at Carberry.

A Carberry, dispatch of March 2nd says: Six thousand dollars worth of property was destroyed in a fire which broke out here at 9 o'clock last night in the large frame building occupied by the Carberry Acetylene Gas company. The building was burned to the ground and the plant totally destroyed. Fortunately the wind was light and the firemen were able to prevent the fire from spreading to the adjoining livery and saw mills which at one stage were dangerously threatened. Had the conflagration spread on the preceding night, a small miller was starting, the fire could not have been controlled, and the whole section of the town would have been endangered.

The fire originated from an explosion of coal gas in the furnace which was extinguished by the firemen. The door was blown off, the windows in the building were smashed, the live coals were scattered over the room and the burning gas spread throughout the basement. In a few minutes the whole structure was ablaze. Thos. Harkness, who was in charge of the plant, was in the building at the time and had barely time to escape, leaving his overcoat and kit of tools in the burning building. He immediately cut the mains in a couple of places and allowed the gas to escape, before the flames reached the tanks, thereby preventing an explosion, which might have resulted in tremendous destruction.

The building and plant were owned largely by R. A. Wyllie, of Winnipeg, general agent for the patentees of acetylene carbide. As there was no insurance on the building, the cost of the cost of the building, the plant was installed last December at a cost of \$7,000 and only the mains remain. The building was the old public school, and in recent years had been used as a storehouse for the Carberry Creamery company, prior to its disbandment.

The second floor was used as a public assembly hall and a piano belonging to W. S. Swan, which had been left in the hall since the recent Forester's banquet, was destroyed along with a number of patterns belonging to the Jones & Stack company and two kits of tools belonging to D. Ker and T. Harkness. Municipally the town is again in darkness so far as streets are concerned. Many of the merchants have still retained their private generators and are not greatly inconvenienced, but others who had sold their machines to keroseene and lamps.

War Notes.

The attack made by the Boers, numbering 900, and driving cattle before them, thereby preventing a line near Bothasberg, Transvaal Colony, during the night of February 23, was most determined. They were led by two well known fighters, Ross Hands and Mike Botha. When the Boers reached that they attempted to actually break through the wire fences was frustrated they crouched beside the dead cattle, with which the ground was thickly strewn and from that defences poured a heavy fire on the British troops. The firing was steadily returned, and, finally, the Boers were driven back, leaving fifteen dead and six wounded on the field. They also left 170 dead or wounded horses and the entire herd of six thousand head of cattle.

Joseph Chamberlain made an interesting statement in the House of Commons last week to the effect that the proclamation providing for the banishment of the Boer leaders did not preclude Lord Kitchener or Lord Milner from accepting the surrender of Boer leaders on modified conditions. Lord Kitchener, on his own authority, had already accepted the surrender of some of the minor leaders on the understanding that the provisions of the banishment proclamation were not to be enforced. Mr. Chamberlain had previously explained that the publication in the Pretoria Gazette of the banishment of Boer leaders would require to be ratified by legislation.

The Cape Town correspondent of the Daily Mail explains why Cape orders go to the continent. He has been authorized by the minister of railways to state that the reason orders were placed for 250 cattle trucks with a Hungarian company was because the lowest English tender was 40 per cent higher than the Hungarian one; moreover, the English tenders for a hundred other wagons were 31 per cent higher and those for six-wheeled brake vans 35 per cent higher than continental prices.

The total results of the combined operations of the columns in the recent big drive against DeWet are as follows:

Prisoners captured,	300
Boers killed,	75
Boers wounded,	251
Rifles captured,	35
Rounds of ammunition,	3,800
Horses,	1,864

And a quantity of sheep, cattle and vehicles taken. Among the captured was Commandant Bestera, who has since died of his wounds at Heilbron Road.

On the night that General Viljoen, in spite of war, was expected to leave Machodorp on his way to Pretoria, the Boers mined the railway between that place and Dalmanitha with the object, it is believed, of wrecking the train and rescuing the general. A bogie truck, however, of construction material had been placed in front of the armored train and sprung the mine. The bogie was blown to pieces, and the train escaped without injury.

There are several indications that the press censorship in South Africa has recently been tightened. An Amsterdam correspondent writes: "I am told that the British are now maintaining a much more vigilant watch than heretofore, so that the lighting area is now nearly, if not wholly, inaccessible. Some time ago Mr. Jan van Alphen, Mr. Kruger's postmaster general, was entrusted with a mission to Mr. Schalkburg and Mr. Steyn, but was arrested not far from the Portuguese frontier at Komati-poort, and masqueraded as a war prisoner."

A Boer prisoner, in attempting to escape from Deadwood Camp, St. Helena, on Thursday evening, was shot by a sentry of the Wiltshire Regiment, the bullet lodging in the chest. The prisoner died on the following day.

A London cable of the 4th says: The heavy casualties, the apparently certain loss of two guns, and the capture of nearly 500 British troops by Boers near Klerksdorp, will dull the enthusiasm caused by the success of Gen. Kitchener's second big drive. The Boer prisoners will doubt be released, but their arms are going to be used in the past five weeks tended to give heart to the Boers and stiffen their resistance. Gen. Kitchener's first big drive to-day lengthily summarizes the result of several days' combined operations in an area of about 5,500 square miles, in which the engagements of February 23 and February 26 occurred. One incident was the killing of the Boer leader Manis Botha and 35 others Boers, in addition to the losses previously reported. The Boers made other small attempts to break through the British lines. In two cases they succeeded. The biggest coup was yesterday, when 450 Boers, with their rifles and horses, were captured. Unofficial telegrams describe this as happening on the Natal-Orange River Colony border, where Lieut.-Col. Rawlinson, according to one version, surrounded a laager at dawn. Instead of opening fire he sent a messenger giving the Boers one hour to decide whether they would fight or surrender. Fighting that erupted was impossible they surrendered unconditionally. Gen. Kitchener says that all the columns have not yet reported owing to the wideness of the district.

In addition to Rawlinson's capture the combined operations resulted in the capture of 2,000 horses, 28,000 cattle, 200 wagons, 60,000 sheep, 600 rifles, 5,000 rounds of ammunition, and Commandant Harkness and Truiter, and several other Boer leaders. Gen. Kitchener's despatch concludes: "These satisfactory results are very appropriate on the anniversary of Majuba."

Unofficial telegrams say that DeWet, Steyn, and Wessels, with a large body of followers, escaped before the Boer losses in this drive are proportionately equivalent to the loss of 7,000 British.

Serious British Disaster.

A despatch of March 3rd, says: In a despatch from Pretoria, dated today, Lord Kitchener sends details of the disaster to the north-western Cape Colony of empty wagons at Venderop, southwest of Klerksdorp, Transvaal Colony. The British casualties in killed, wounded and men made prisoners reach the total of 642. In addition the Boers captured two guns, Lieut. Col. Anderson was captured by the British force, and who had returned to Kras Pan. Cape Colony, with nine officers and 245 men, reports that when his advance guard was within 10 miles of Klerksdorp, during the morning of Feb. 25, the Boers opened a heavy rifle fire on the troops from the scrub. The burghers were driven off and the convoy resumed its march, when a more determined attack was made on the convoy's left flank, the Boers getting within 110 yards and stampeding the mules harnessed to a number of wagons. The attackers were driven off again. At about 6:30 in the evening the rear guard was attacked by a strong force of Boers and simultaneously another body of Boers boldly charged the centre of the convoy and stampeded the mules in all directions, throwing the escort into confusion during which the Boers charged and recharged, riding down the separated ranks of the British.

The fighting lasted for two hours during which the two British guns and a pom-pom almost exhausted their ammunition. A detachment of 200 mounted infantry from Klerksdorp attempted to reinforce the British but were held in check by the Boers. Lieut.-Col. Anderson adds that the strength of the Boers was estimated at from 1200 to 2700. Commandants DeCary, Kemp, Colliers, Lemer, Wolmarans and Potgieter were all present. Commandant Lemer is said to have been killed.

United States After the Trade.

The Spokesman-Review, Spokane, says editorially:

While Great Britain is negotiating treaties with Japan for preserving the integrity of China and Corea, the United States continues to increase its share of the Japanese trade. A recent monograph of the bureau of statistics shows that the foreign commerce of Japan which amounted to less than 60,000,000 yen in 1875, has grown to over 600,000,000 yen in 1900. In the year 1881 Japanese imports from the United States formed less than 6 per cent of Japan's foreign imports and in 1900 they formed 22 per cent. During the same period the share of Great Britain in Japan's imports fell from 52 to 25 per cent.

The trade of the United States with Japan has increased remarkably, one reason being that this country is Japan's best customer. Of the total exports from Japan, amounting to 196,000,000 yen in 1900, 52,500,000 yen worth came to the United States, and of this more than half consisted of silk. The imports of Japan from the United States have grown with even greater rapidity than her exports to this country, and it is worth noting that a good part of the shipments this way come through ports in the state of Washington. While the imports are likely to increase with closer business relations and cheaper shipping facilities, our sales will grow even more rapidly. We buy only a few Japanese staples. We can sell hundreds of manufactured products as soon as they have once been introduced and the Japanese have become accustomed to them. The balance of trade will be decidedly in our favor.

Fur Trader Badly Frozen.

Winipeg Tribune.

L. H. P. Lam, a fur trader from Northern Saskatchewan, is a patient at the general hospital, where he had portions of his feet amputated as the result of having them badly frozen.

While travelling between his trading posts between Cedar Lake and Moose Lake, which are fifty miles apart, his horse plunged into a hole in the ice, and he, too, was dragged in. At the time the thermometer was 42 degrees below zero, and before he reached any settlement he was severely frozen.

After remaining at this settlement for a week he returned to his own post at Cedar Lake, but his feet gave him so much pain that he decided to secure proper medical aid. About two weeks ago he came to Makenee, on the Canadian Northern railway, and after remaining there some days, came on to Winnipeg, where the operation was performed. He is now progressing nicely.

Mail and Empire, England's newly ally in the Far East, Japan, is rapidly becoming a maritime power. Seventeen years ago her shipping was so insignificant that it was not even noticed in the public reports. In 1899 the entries of Japanese vessels numbered 3,000, representing a carrying capacity of 3,500,000 tons. Her merchant steamers, which numbered 96 in 1892, with an aggregate tonnage of 23,364, reported in 1900 as 844 strong, with a tonnage of 528,311. Japan has been described as the Great Britain of the east. She is in a position to be the policeman of Asia.

C. N. P. in British Columbia.

A Montreal despatch of Feb. 27th is officially announced here that the Canadian Northern railway, which now runs from Fort Arthur, on Lake Superior, to Winnipeg, will be extended at once to Edmonton, Northwest Territory, and through the Yellowhead pass of the Rocky Mountains into British Columbia. The Pacific terminus will be at Duta Inlet, a fine harbor, with ferry communication with Vancouver island and also with Victoria, the provincial capital.

The British Columbia government has promised the enterprise a cash subsidy of \$1,800,000, as well as a land grant of 8,000,000 acres. The country to be opened is said to be richer than that through which the Canadian Pacific runs.

Four Bands of Boers.

In a recent report to the War Office, Lord Kitchener gives a general review of the military situation. He says: "The enemy's forces are practically confined to four definite areas. In the Eastern Transvaal the personal influence of General Louis Botha continues to hold together a considerable but diminishing force between the borders of Swaziland and the Brugsdub-Waterval blockhouse line. In the west General DeLarey and Kump cling to the difficult country between the Mafeking Railway line and Majuba'sburg. The north-western Cape Colony Orange River Colony De Wet and ex-President Steyn still control a comparatively large and determined following, who have recently given proofs of their boldness and initiative in attack, and in west of the Cape Town-De Aar line is infested by several bands of rebels, kept together by adventurers from the late republican Erasmussmiller commandos are to be found, but their numbers are insignificant, and their want of enterprise reveals in all probability an abating interest in the useless struggle in which they have so long been employed."

WANTED Immediately Coat, Vest and Pant makers. Highest price paid. Payment situation. Apply to F. M. SHOULTS, Edmonton, Alberta.

\$100 REWARD.

Lost one black mare, five years old in June next, branded N on right shoulder, was taken from or left Tp. 51, R. 24, last June; a few white hairs in forehead; weight about 1100 lbs; good traveller. A grey colt with her when last seen; S. S. on right hip; 3 years old. A liberal reward given also. Apply to JOHN A. C. CAMERON, Edmonton.

Alberta's Resources.

H. C. Armstrong, late of Spiriting Station, Manitoba, now of Red Deer, wrote recently to the Winnipeg Telegram as follows:

"Being requested by so many friends to report on the resources of Alberta, I take this opportunity of doing so. Having arrived safely at Red Deer, I took a livery to survey this very picturesque part of the Dominion. Alberta is the Eden of Canada, as all tourists can testify, suitable for mixed farming, cattle raising, sheep raising, goat herding, straight farming, fruit growing, to say nothing of its vast coal mines scattered everywhere, gold washing and magnificent timber limits. The latter include spruces 60 feet long and three feet in diameter at base straight as a gun shot. At the same time there are plenty 2 1/2 at stump and length according. There are countless bluffs of poplar, tamarac, balsam, etc. The thermometer registers from zero to 25 in the shade, with four to eight inches of snow. There is lots of spring water. Here are some prices of different articles at Red Deer; Milch cows, \$50 and up; one-year-olds, \$20 up; three-year-olds, \$45; butter, 25c upwards all the year round, and good 3/4 lb. pork, 8c in by hundreds; weight; lumber, native \$13 to \$16, shipping boards, \$15 to \$22; flooring, ceiling and siding, \$21 to \$30; shingles, \$2.50 to \$3; barbed wire, \$5 per 100; cooking stoves, \$20 up; soft iron, \$1 at Red Deer, C.P.R. land, is nearer the railway there, than anywhere north of Calgary. It is also better adapted for mixed farming than Southern Alberta."

Canadians in South Africa.

For some time past, says the Vancouver Province, inklings of dissatisfaction being rife among the Canadian troops in South Africa have reached British Columbia, but heretofore no direct statement of affairs has escaped the eagle eye of the censor. A member of the Province staff has received the expected communication from a Canadian who prior to enlistment in the first contingent of Canadian Mounted Rifles was prominent in newspaper circles in this province.

Writing from Krugersdorp, under date of November 30th, 1901, this correspondent says: "Enclosed please find a short account of the trouble among the Canadian troops in the Transvaal. If you desire to do so, publish it. We are not allowed to mail correspondence to the press, therefore I address this to you personally."

The enclosure referred to is as follows: "It is currently reported that the Canadian troops in the Transvaal are to be disbanded and apportioned in small batches among the regiments of Imperial troops stationed at various points throughout the country."

"No. 17 troop from British Columbia, under Capt. C. C. Bennett, formerly of Vancouver, is the first to fall. The men of that troop have received notification that it will be disbanded at once, Capt. Bennett being relieved of his command."

"The men have refused to be scattered among the Imperial troops throughout the country, and interesting developments are expected."

"The cause of the trouble is the alleged incompetence of the captain in command, or at least that is the reason given at headquarters. The men will, however, be the sufferers, as their action in refusing to be drafted among the Imperial troops is considered mutinous."

"In some quarters, however, it is said Capt. Bennett's trouble is due to his being too severe a disciplinarian, while others allege the frequency of complaints regarding his financial obligations."

"The military authorities have broken faith with the Canadians in several instances; it was promised that the Canadians were to be kept together and officered by Canadian men; faith in the matter of pay has been broken and also regarding the purchase of discharges, the latter privilege having been refused the Canadians."

"It is to be regretted that six hundred more Canadians are to be recruited, and the men will certainly regret having enlisted when too late for remedial action."

"The first and second Canadian contingents and the Strathcona Horse did such brilliant work here that the jealousy of British officers was aroused. The result is that the Canadian contingents in South Africa are getting the worst of the deal in every instance."

"It is rumored that Colonel Steele has tendered his resignation to take effect unless he is put in charge of the Canadians. Up to the present time not a single Canadian trooper has been placed in his division, although it was promised and generally understood that the Canadians were to serve under his command."

"The feeling among the Canadian troops here is running high and the results may be serious."

Immigration Opening.

The immigration rush to Northern Alberta is frequently foretold during the winter may now fairly be said to have begun. While no immigration trains have arrived as yet, immigrants have been coming in steadily in considerable numbers for some time. Each train during the present week has brought a greater or lesser number of homeseekers. Many of these come from the eastern provinces, but the bulk from the Northern, Central and Western States. It is probable that another fortnight will see the rush in full force.

IT IS STRANGE THAT ANY RE- hable willing worker should remain idle when a communication to G. Marshall & Co., London, Ont., Tea Importers, will secure profitable employment. Outfit furnished.

By-Law No. 221.

A By-law to provide for raising the sum of \$30,000 to be expended in purchasing the plant and other property of the Edmonton Electric Lighting and Power Company, Limited, and in extending the operation of the plant.

Whereas, the Municipal Council of the Town of Edmonton deem it expedient to establish a system of electric lighting for the Municipality, as a Municipal Public Work, under the powers conferred upon the Municipality by the Municipal Ordinance (C. O. 1898 c. 70), the Edmonton Municipal Public Works Ordinance (Ord. 1900 c. 85), and the Ordinance to incorporate the Town of Edmonton (Ord. 1891-92 No. 7 as amended by Ord. 1900 c. 26);

AND WHEREAS, subject to the final passing of this By-law, the Municipal Council on behalf of the Municipality has agreed to purchase, and The Edmonton Electric Lighting and Power Company has agreed to sell the whole of the Company's land, buildings and plant, and good will, for the sum of \$13,500;

AND WHEREAS, the Company's plant is insufficient to meet the present requirements of the Municipality and the residents therein, and it is therefore expedient to raise an additional sum of \$16,500 for the purpose of adding to and extending the operation of the said system of electric lighting, making on the whole the sum of \$30,000 which the Municipal Council proposes to borrow for the purposes aforesaid;

AND WHEREAS, it is expedient that the said proposed indebtedness of \$30,000 should be payable during the period of twenty years from the date upon which this By-law is to take effect and should bear interest at a rate not exceeding four per cent. per annum and either (1) that the same should be repayable in such manner that each instalment of principal and interest shall be equal in each year of the said period of twenty years; or (2) that the principal should be repayable at the end of twenty years from the said date (provision being made for the repayment thereof by the creation of an equal annual sinking fund), and the interest annually.

AND WHEREAS, the amount of the whole rateable property in the Municipality according to the last revised Assessment Roll is \$1,395,912.00;

AND WHEREAS, the total amount of the debt of the Municipality outside of the debt due for the current expenses of the year is \$90,391.72, whereof no part is in arrears;

AND WHEREAS, it is expedient that this By-law should take effect on the 15th April next;

NOW THEREFORE, the Municipal Council of the Town of Edmonton duly assembled, enact as follows:

(1) The Mayor and Secretary-Treasurer of the Town of Edmonton are hereby authorized and empowered to borrow on behalf of the Municipality a sum or sums of money not exceeding in the aggregate the sum of \$30,000 and to issue one or more debentures of the Municipality for such sum or sums so borrowed.

(2) Of the said sum of \$30,000 so to be borrowed, the sum of \$13,500 is hereby appropriated for the purpose of paying the purchase price of the entire land, buildings and plant, and good will of the Edmonton Electric Lighting and Power Company, Limited, and the residue of \$16,500 for the purpose of adding to and extending the operation of the said system of electric lighting.

(3) The said indebtedness shall be paid during a period of twenty years from the date upon which this By-law takes effect, and shall bear interest at a rate not exceeding four per cent. per annum, and shall, as the Mayor and Secretary-Treasurer shall deem expedient, be repayable either (1) in such manner that each instalment of principal and interest shall be equal in each year of the said period of twenty years; or (2) in such manner that the principal shall be paid at the end of the said period of twenty years (an equal annual sum by way of sinking fund being raised annually during the said period sufficient to meet the principal at maturity) and the interest thereon yearly.

(4) During the currency of the said indebtedness there shall be raised annually by special general rate on all the rateable property in the Municipality, at the same time and in the same manner as the ordinary general Municipal taxes, a sum sufficient to meet the amount of the annual instalments of principal and interest, or the amount of the equal annual sinking fund and the annual interest, as the case may be, payable in each year in respect of the said indebtedness, or such part thereof as shall not be met by the revenue derived from the said system of electric lighting.

(5) This By-law shall take effect on the 15th April next.

(6) The votes of the Electors for and against this By-law shall be taken at the Council Chamber in the Fire Hall, in the Town of Edmonton, on Saturday, the 29th day of March, 1902, between the hours of 9 a. m. and 5 p. m.

(7) George Johnstone Kinnaid is hereby appointed Returning Officer, and St. George Jellett Deputy Returning Officer to take the votes at the time and place aforesaid.

(8) The said Council Chamber at the hour of 5:30 p. m. of the said 29th day of March, 1902, is hereby fixed as the place and time where and when the Returning Officer shall sum up the number of votes given for or against this By-law.

Passed provisionally in Council at Edmonton this 5th day of March, 1902.

WM. SHORT, Mayor.

GEO. J. KINNAID, Secretary-Treasurer.

PUBLIC NOTICE is hereby given, that the foregoing is a true copy of a proposed By-law which will be taken into consideration by the Municipal Council of the Town of Edmonton, after being voted on by the Electors, at the date of the first publication of the said proposed By-law in the 10th day of March, 1902, in the Edmonton Bulletin, a newspaper published in the Town of Edmonton, and that the votes of the Electors will be taken

McDOUGALL & SECORD.

An Interesting Sight Is the throng of eager shoppers flocking into the store on a bargain day. They know by experience the value of the Dry Goods, Dress Goods, etc., which fill each shelf and counter, and the prices at which we sell. Figures are quite low, but that does not prevent goods being worthy of the consideration of those who demand newness, style, and high quality.

McDOUGALL & SECORD, EDMONTON'S LEADING DRY GOODS STORE.

NEW SPRING DRESS GOODS.

- BLACK AND NAVY SUITING SERGE At 55c, \$1.25, and \$1.50 a yard. PLAIN CLOTHS, 51 and 56 inches wide, in Brown, Grey, Blue, Fawn, Green, Black and Biscuit, at \$5, \$6, \$7.50, \$8 and \$10, for suit-end. BLACK LUSTERS, At 50c, 60c, 90c., and \$1.25 a yard. FANCY BLACK DRESS GOODS, At 60c, 75c, 90c., and \$1 a yard. FANCY MUSLINS, In Black, White, Linen, and fancy colors, at 15c., 20c., 25c., 40c, 5c, and 65c. a yard. NECK RIBBONS, In all the newest shades, at 45c. and 60c. a yard. FANCY LACE COLLARS, In Silk, Chiffon, Balton Cloth, Battenburg and Lace, at 45c., 50c., 85c., \$1, up to \$3 each.

White Waists.

Late in the Season

Last summer we found it necessary to order a second supply of these goods. A portion of these are still on hand.

THESE ARE VERY Attractive Goods

And might be mixed with the new goods now in transit, and sold at full price and no one would know the difference.

THAT IS NOT OUR WAY

Of doing business, however, and we prefer to clear these out as old stock, before the arrival of 1902 goods.

TO ACCOMPLISH THIS RESULT

These Blouses will go on our Bargain Counter at prices which will sell them quick.

One-Third Off

Regular prices is about the figure at which these are marked. Don't miss the opportunity to save 50c. or \$1 each on your spring Blouses.

REMEMBER, THESE ARE FRESH, CLEAN,

Attractive goods, neither shop worn nor out of fashion, and quite different to the goods ordinarily offered as bargains.

LOCAL MARKET. Wheat continues to fair, the price holding steady and ranging from 50c for damaged or flatted grain to 55c for good flouring quality.

Out deliveries for the last week while fairly brisk on some days were on the whole light. The prevailing prices are 25c to 26c, but 27c and even 28c are paid for first class milling quality.

Beef, live is worth 31-4c to 31-2c and dressed 26 to 27-2c. The supply is about equal to the demand.

Pork, live, 4c to 4-1-4c, dressed 30c; choice hams, 60c to 61c, the prevailing price on foot is from 4c to 4-1-2c.

The demand for mutton is not great at present, but little is being offered. The prevailing prices are live, 41-2c and 4c for dressed.

Poultry was scarce during the latter part of the week. Chickens readily brought 10c per lb, while turkeys were very scarce at 12-1-2c.

Potatoes remain nominal at 40c, with little demand. Butter is coming in fairly plentifully at 15c to 16c.

Hotel Arrivals. Friday. Gagnon—J. Belanger, Revelstoke; M. Gagnon, Stony Plain; J. K. McLeod, Leduc; J. B. Bourket, Concordia, Kan.; C. F. Stewart, Fort Saskatchewan; J. Shilleto, Lacombe; J. McDougall, Camille.

Victoria—J. Glasin, Lethbridge; O. Riopel, Morinville; S. J. Eccles, Spruce Grove.

Local dealers are disposed to regard the outlook for binder twine prices in an unfavorable aspect. This present wholesale prices range from 3c to 4c higher than at this season last year.

There is at present no indication of a decrease in price before the harvest season. Throughout the west the acreage sown to grain this year will be largely in advance of the grain area of last year.

Following are the observations taken at the government observatory here since Friday:

HOCKEY GAMES. The professional men and the bankers met in a hockey game on the rink on Saturday evening.

Professionals goal Bridges, coverer Jaffray, covers R. Johnson, Dolmage, Williams, Griesbach, forwards Greenwood, Dubuc, B. Johnson, Till.

Most of the players were old hockey-ists, though somewhat out of practice and the teams put up an interesting game.

Two-night the winners of Saturday evening encounter a team made up of accountants and should the prognostications of either team prove true the spectators will witness a battle royal.

The game of the season will be played to-morrow evening when two teams composed of ladies will struggle for supremacy, contributing the proceeds to the public hospital.

Mrs. J. B. Morris, goal; Miss L. Um-hack, point; Miss G. Robertson, and Miss A. Young, covers; Miss A. Brew-ster, Miss E. Matheson, and Miss C. Lauder, forwards.

The game will be supplemented by a chariot race in which each lady is drawn by three gentlemen in a skating contest.

On Wednesday evening the Strath-cona team is expected to meet the home team in the third match of the series for the Calgary Brewing Co. cup.

LORD STRATHCONA'S GIFT. Strathcona Plaine dealer. Mr. Rutherford, secretary-treasurer of the public school board of Strath-cona, received an agreeable surprise in Friday's mail, a cheque from Lord Strathcona for \$1,500 to be used in equipment of our public schools.

AS OTHERS SEE US. Calgary Herald: R. B. Bennett, M. L. A., returned last night from Ed-monton where he has been on profes-sional business.

Scott-Gulon—At the residence of Mrs. Jameson, Lacombe, on Thursday, Feb. 27th, by Rev. F. G. Rickard, John Martin Scott to Olive Mary Gulon, both of Lamerton.
