### CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co. Ltd  
of Toronto, Limited

Corporation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly bulletin of information and communication between Canadian lumber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discusses fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and characteristic sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing millmen and manufacturers of lumber products.

### AUCTION SALE

OF

### VALUABLE TIMBER LIMITS AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of  
February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 129 1/2 square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included: deeded lands on which are built slides and dams, and at Bauciere station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

Ottawa, 4th Dec., 1901.

W. MACKEY.

### For Sale.

One 54 inch double cant oscillating gang, Wm. Hamilton make, extra strong and in running order. Apply G. D., care CANADA LUMBERMAN.

### WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do mill-wright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man. Apply "Shingle," care this paper, for further particulars.

### CURRENT TRADE CONDITIONS. ONTARIO.

At this time of the year dealers are not disposed to add to their stock of lumber, but rather prefer to reduce it as far as possible for the annual stock-taking. Yet during the past week there has been a liberal movement of cargo lots, showing that dealers and consumers are in need of the lumber. Very favorable reports are heard on all sides regarding the pine market, while hardwoods are showing a slightly improved tone. Most of the pine mills are almost completely sold out of stock and are not in a position to fill large orders. The advancing tendency of the better grades has not yet ceased, and some of the lower grades are being marked up fifty cents a thousand. Manufacturers are receiving numerous enquiries regarding quotations for next season. A large Georgian Bay firm report that several buyers have made them offers at current quotations for their entire cut for next season, but they have not yet sold, as they believe prices must further advance. A fair trade is doing in hardwoods, the demand being chiefly for 1 1/2 and 2 inch. Basswood leads in point of activity, while maple and beech are quiet and in comparatively heavy stock. The opinion of the trade seems to be that prices will be strong next spring, owing to the small stock of hardwood logs that is being taken out this winter. The shingle market remains firm, with the stock insufficient to supply the demand.

### QUEBEC AND NEW BRUNSWICK.

The spruce lumber market is quite featureless. Local trade is at a standstill and the demand from the United States has slackened perceptibly, but the stock of spruce lumber is limited and prices con-

tinue firm. The stock of deals that will be carried through the winter is smaller than was anticipated a couple of months ago, and manufacturers are looking forward to a strong market next spring owing to the small stock that will be available for first-open-water shipment. A further advance has been made in the price of white cedar shingles.

Weather conditions throughout New Brunswick have not been favorable for logging operations. During the first two weeks of this month there was a heavy fall of snow, which made it almost impossible to cut logs and interfered with yarding operations. Later the weather became extremely mild. It is said that the cut on the north shore will be curtailed from this cause at least 25 per cent.

### UNITED STATES.

The features of the white pine trade of the United States during the past two months will long be remembered by lumbermen, as the developments have been almost the reverse to what might reasonably be expected. Each week has brought new elements of strength, and in many cases higher prices. A comparison of the prices ruling in the Chicago market shows that at the close of navigation nearly every grade of lumber was considerably higher than at the commencement of the cutting season. Common inch lumber sold early in the season at \$15 delivered in Chicago, and the same grade is now quoted at \$16.50 to \$17. Short piece stuff is selling at \$14, an advance of \$1. Lath continued firm throughout the season, although there was no sustained advance except for No. 2 mixed, which is now saleable at \$2.25, while \$2 was the spring quotation. No. 1 white pine lath is quoted at \$3, and No. 1 mixed white pine and Norway lath at \$2.75. In the Lake Superior district advances continue to be announced. At Ashland, Wis., it is estimated that since the close of navigation all kinds of white pine lumber have advanced 25 per cent. No. 4 boards have reached \$10, and No. 5 boards \$6. Narrow Norway sides are going at \$10, whereas \$9 would have bought them one month ago. The buying has been by persons who realize that they will need the lumber before the new cut is ready. The stocks at Ashland make a most favorable showing, the total on hand being 79,000,000 feet, as compared with 132,000,000 feet one year ago. Of the above stock less than one-half is for sale. Eastern dealers report a slight

falling off in demand owing to bad weather, but notwithstanding this fact, the higher grades are being steadily advanced in price, while an improved demand recently for the coarser grades has caused a stiffening in the prices for this class of lumber also. The spruce situation is practically unchanged except that orders are a little less plentiful, and here and there price concessions are made. It is now admitted that the available supply of hardwood lumber is less than was generally believed, and consequently the tone of the market is a little better. The total consumption during the year has been fairly large, while the depression earlier in the season discouraged production. White ash is rather heavy and seems likely to sell at a lower price.

GREAT BRITAIN.

The import season for this year is now closed, and for that reason considerable interest is attached to the Board of Trade returns. These show that the total import of sawn and hewn timber to Great Britain for the eleven months of this year was 8,518,545 loads, and for the same period last year 9,237,243 loads, a difference of 718,698 loads. Although the import was not much lighter than last year, the stocks in the public docks at London on November 30th showed a decrease of 4,000,000 pieces as compared with the same date one year ago. Thus, through a period of depression the consumption appears to have more than kept pace with the importation, and it is only reasonable to expect an expansion of the timber trade next year. An unfavorable factor is the slight business depression prevailing at the present time throughout most of the countries of Europe. Timber importers have as yet bought very sparingly for next year's requirements. They are showing little disposition to conclude contracts immediately, probably for the reason that an opinion prevails that the prices which shippers are asking are unreasonably high. A meeting of

the Importers Section of the Timber Trade Federation was held in London last week to ascertain whether it was not possible to collectively oppose the high prices which it is stated shippers intend asking for next year. The result of this meeting has not been learned. Prices for good quality deals and battens are firm, but for inferior qualities there is very little demand. A cargo of St. John spruce just to hand has been placed to Bristol for Farnworth & Jardine at £7 15s c.i.f. As the cargo contained 60 per cent. of 7 and 8 inch, the price is considered very fair. At recent auction sales in London two lots of first quality 3 x 9 Canadian spruce brought £12 10 and £12 15s, and the 9-11 feet sold at £11 15s.

NEW BRUNSWICK CEDAR SHINGLES.

The market for extras and clears in cedar shingles is very strong. Retailers are generally lightly stocked and the makers are practically all cleaned out of the above grades. In addition to the firm outlook as indicated by the above, it is current trade gossip that certain of the commission houses are quite heavily sold ahead—in other words, that they have taken orders during the last two months for more shingles than their sources of supply could furnish. These orders were generally taken at 15c. to 25c. per thousand less than the present market prices, and the holders of these orders are now beginning to fear that they will be obliged to pay present full quotations in order to place the business. This fear, we believe, is well founded, as the manufacturers seem now to realize the full strength of their position and are unlikely to let down their prices simply to help their commission friends. The winter's production will be no more than normal, and indications are that every shingle that can be produced before May 15th will be needed twice over. Of course, the demand will be light during January and February, but indications are that the manufacturers know their business too well to get frightened because they are

not deluged with orders during the frozen up period of the winter. Realizing that the dealers must buy certainly by March, manufacturers will hold their prices at all hazards. We are inclined to believe that extras will sell next May at \$3.40 to \$3.50. Clear whites, 2nd clears and extra No. 1 are well shipped out also. The demand for all low grades is quiet just now, but these usually commence to move during February. Present market prices are f. o. b. strictly Boston rate of freight, Extras \$3.25 to \$3.30; clears \$2.85 to \$2.95; 2nd clears \$2.25 to \$2.35; clear whites \$2.15 to \$2.25; extra No. 1 \$1.75 to \$1.85.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in the first instance to Empire, care CANADA LUMBERMAN.

STOCKS AND PRICES.

It is reported that Allison & Robertson, of Norton Station, N. B., have been given a contract to get out 1,000,000 feet of pulp wood for the St. John Sulphite Pulp Company.

D. A. Huntley, of Parrsboro, N. S., has recently purchased a tract of timber land on the north shore of Kings county, and will cut about 1,000,000 feet of logs on his own property this season.

J. Buchanan, of Winnipeg, has secured a contract from the Canadian Northern Railway Company to take out a large quantity of railroad ties.

Capt. R. C. Bacon, of Moncton, N. B., has recently purchased a block of timber lands, comprising 800 acres, in the vicinity of Grand Lake. He will probably erect a saw mill on the property.

At the Crown Lands office at Fredericton, N. B., three timber berths were disposed of last week as follows: *Outlets*

River, Kent county, 100 miles to Daniel Duffy, at \$20 a mile; Clear Lake, Parish of Musquash, two miles, to G. K. Hanson, at \$42 a mile; Sand Brook, branch of Oro-mocto, two miles, to W. F. Barnhill, at \$8 a mile.

Lumbering on the Black River is brisk this winter. J. R. Booth, of Ottawa, and McLachlan Bros., of Arnprior, have each several camps in operation. Alexander Watt, of Waltham, is jobbing for J. R. Booth on the old Fraser limit.

By a typographical error in our last issue the quantity of spruce deals in stock at Liverpool on November 30, 1900, was given as 2,180 standards, instead of 22,180. The quantity at same date this year is only 9,730 standards.

Concerning cooperage stock the Sutherland, Innes Company, of Chatham, Ont., says: There has been quite a flurry during the past month in the price of cooperage stock. No. 1 staves have taken quite a jump and hoops have advanced all the way from \$1 to \$1.50 per M. No. 1 heading has also come into great demand, and while there has not been any perceptible advance all along the line, individual parties are asking more for No. 1 heading than they have been doing for some time. The stocks of No. 1 staves at the mills are now very light, and as manufacturing has ceased for the season, and jointing will soon be over, the manufacturers will have to rely upon the stock they have left to

supply their trade, and cannot depend much upon joining further stock this season. Under these circumstances, we look for a further advance in the price of No. 1 staves. There has been quite a demand for sugar barrel stock for the beet sugar refineries, and this trade is going to consume quite a large amount of stock.

**OUR SHINGLES**

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.

We make a fine 18-inch Shingle.

We make a fine 24-inch Shingle.

We make all thicknesses from 6-2 inch to 6-3 3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles. Come, let us deal together.

**CUSTOMERS' ATTENTION.**—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West.; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

TIMBER LIMITS WITHDRAWN.

Six parcels of timber limits on the north shore of Lake Huron were offered for sale in the Board of Trade Building, Toronto, on December 18th. The limits comprised Townships 111 and 117, on the north shore of Lake Huron, containing thirty-six miles each, the property of Playfair & White, of Midland, and berths A, B, C and D, on the north shore of Lake Huron, being Berth No. 10 of the sale of 1885, the property of E. W. Sparling, of Lansing, Mich. There was very little competition for the limits, and no satisfactory offers being made all were withdrawn.
