LLOYD-GEORGE REFUSES TO PAY BRITISH MEMBERS

Budget Speech Announces Salary of \$2000 a Year for Members of House of Commons—Coronation Will Cost Treasury \$1,500,000—Increase in Expenditure \$38,750,000.

NATIONAL DEBT REDUCED \$350,000,000 IN 3 YEARS

LONDON, May 16.—Chancellor Lloyd-George presented the budget in the house of commons to-day. About the only novelty it contains is a proposal to pay members of the house of commons a salary of \$2000 a year. The chancellor declined to give members travelling allowances or pensions and excluded from the salary benefit all ministers already drawing salaries.

The chancellor's realized surplus, including payments delayed in 1909-10 by the action of the lords in throwing out the budget of that year, totaled \$28,025,000, of which he proposes to donate \$7,500,000 to the support of sanitariums for consumptives. His estimated expenditure for the current year is \$906,170,000, which is \$37,750,000 more than last year.

The chancellor's estimated revenue for the current year is \$908,580,000. There is no fresh taxation provided. Of the increased expenditure of \$38,750,000 over that of last year's budget the navy, civil service and old age pensions account for most of this enhancement. The payment of members of the house of commons will absorb a further sum of \$1,500,000, while the coronation will add another \$1,500,000 to the demands of the treasury.

Reducing National Debt. Mr. Lloyd-George claimed that the British fiscal system had passed through an exceptional strain with added lustre. During his three years' tenure of office, the chancellor declared, he had paid off \$130,000,000 of the national debt, while it has been reduced \$380,000,000 since the Liberals had assumed power. The chancellor said he had reached the conclusion that the prospects of a continuance of good trade were excellent, as the trade barometer stood set "fair." Of the estimated revenue of \$908,580,000 the big items are the customs and excise duties, which are dependent on a trading of \$348,000,000, death duties of \$125,750,000, income tax and super-tax of \$221,500,000 and the postoffice revenue of \$128,780,000.

The chancellor, as was anticipated, announced the revision of the cocoa support duties, from which the protective effect is removed. This involves the small loss of \$25,000,000. The opposition criticism on the budget centred in the provision for the payment of members of the house of commons, to which Austin Chamberlain declared he was unalterably opposed, as it would deprive members of the British house of the unique distinction of serving without pay. He predicted that it would flood the house with money-grubbing politicians seeking an easy livelihood.

A. J. Balfour, the opposition leader, obtained the promise of the government that an opportunity would be afforded later to debate the question fully.

Veto Bill in House of Lords. The bill was introduced in the house of lords to-day and formally passed its first reading.

TENTATIVE DRAFT MADE OF ARBITRATION TREATY

Will Probably Be Submitted To-day For Transmission to the British Foreign Office.

WASHINGTON, May 16.—The proposed treaty of arbitration between the United States and Great Britain has at last reached the stage where it is to be presented to the British government for its approval.

Ambassador Bryce of Great Britain, before the cabinet met to-day, had a half-hour conference with President Taft, during which certain points in the treaty were thoroughly discussed. This was the first conference which these two advocates of permanent peace have had since the president announced his intention of negotiating with Great Britain for such a treaty.

Secretary Knox, after the cabinet meeting, announced that the tentative draft probably would be submitted to-morrow to Ambassador Bryce for transmission to the British foreign office.

Exchange of dates between the two nations will follow. When the draft is accepted by both countries, the treaty will be signed and submitted to the U.S. Senate for approval and ratification.

Domestic Arrested. Employed by Mrs. Charles Dunning, 251 East Gerard-street, was arrested last night by Detectives Leavitt and Wick, charged with theft of clothing.

PEACE IN SIGHT FOR WAR-TORN MEXICO

RT. HON. DAVID LLOYD-GEORGE.

PEACE IN SIGHT FOR WAR-TORN MEXICO

Diaz to Resign in Two or Three Months—Armistice Within Twenty-Four Hours—Government Concedes Demand of Insurrectos for Share in Cabinet.

JUAREZ, May 16.—Peace, the fervent hope of Mexico, now torn by rebellion, to-night seems almost an accomplished fact to those who are negotiating a settlement of the revolt. Judge Carballo, the federal peace envoy, has announced that barring the unforeseen, a general armistice will be declared within twenty-four hours. Provisional President Madero has said mutually acceptable propositions have at last been reached and peace is assured.

The formal signing of a peace agreement will probably take place here within the next two days. President Diaz probably will resign within two or three months, at any rate when peace shall be restored. Two principal questions have all been agreed on, namely the number of cabinet members and governors to be allowed the insurgents and the other conditions have for some time been tacitly determined by both sides. Now it will be merely a matter of technical detail to draft the peace terms formally and to arrange a modus operandi for the discharge of their provisions.

Cabinet Rearrangement. Up to to-night the government acceded to the insurgent demand for three cabinet portfolios, namely, those of war, justice, and gubernation, and word was awaited from Mexico City as to the exact number of governorships to be allowed the rebels. Last night the government offered ten. On other occasions the government is believed to have been inclined to give 14. There is little doubt that 14 will be the final number.

The cabinet portfolios, it is said, probably will be filled as follows: Minister of war—Gen. Gonzalez Sales; Minister of justice—Senor Vasquez Tagle; Minister of gubernation—Dr. Francisco Vasquez Gomez.

The minor conditions of peace include the pensioning of soldiers, the payment of indemnities out of the public treasury and arrangements for the reconstruction and repair of public utilities.

The question of the resignation of Diaz has been diplomatically avoided in the peace terms. The revolutionists obtained their demand that some public announcement be forthcoming from the president as to his intention to resign when peace should be restored.

The feeling is that Gen. Diaz will give way to Senor de la Barr as provisional president within two or three months, and that a general election will follow within a month or two later. The provisional governors will hold office until state elections shall have been arranged.

HOUSE OF INDUSTRY OFFICERS. Henry O'Hara was elected chairman at the meeting of the House of Industry yesterday. Mr. Henry O'Hara, chairman; Mr. Arch. MacMurphy, honorary secretary; Mr. Charles Stark, associate secretary; Mr. J. H. Patterson, treasurer.

Treasurer's report shows a balance overdrawn \$749.84.

A COVETOUS EYE

MR. TAFT: I'd like to cut the band and grab that Canada gem.

DOUGHT TO BE CAREFUL IN SELECTING IMMIGRANTS

London Slowly Becoming Decadent, Prof. Wright Tells the Royal Society.

OTTAWA, May 16.—At the evening session of the Royal Society of Canada, Prof. Ramsay Wright delivered the presidential address on "The Progress of Biology."

MILL BURNED

Property of Rhodes-Curry Company at Little Forks, N. S., Destroyed.

AMHERST, N.S., May 16.—The valuable mill owned by the Rhodes-Curry Company at Little Forks, N.S., was destroyed by fire to-day.

From Hongkong to Coronation.

Captain G. Wood, E. H. Bradley and S. H. Dutton, C.E., have arrived in the city from Hongkong, and are staying at the King Edward. Mr. Dutton and his friends, Captain Wood and E. H. Bradley, a Hongkong merchant, are on their way to the coronation.

Hail to the Inspector.

Chief Inspector James studies yesterday entered on his 35th year as public school inspector in the City of Toronto. He has come to be considered a fixture in the position, and there is a feeling on the part of many that it will be an evil day for Toronto's educational affairs when he steps out of the position.

Joseph Talbott, 66 Parliament-street, was struck in the eye by a flying splinter while at work at a Rosedale sawmill yesterday morning. He was taken to his home, but was removed to Hospital in the police ambulance at 8 o'clock last night. It is feared that he will lose the sight of his eye.

REV. S. H. GRAY COMING TO OLD ST. ANDREW'S

Hamilton Presbytery Suggests Call—Induction Will Take Place Next Week.

Rev. S. Harper Gray of Knox Church, Dundas, will be inducted as pastor of Old St. Andrew's Church, Jarvis-street, on Thursday evening, May 25, at 8 o'clock.

Complete arrangements for the ceremony have yet to be made by the Toronto Presbytery, but it is understood that Rev. James Murray of Eskine Church will probably be the inducting minister.

WILL BE WRITTEN WITH A BURNT TWIG

Diary of Inspector Fitzgerald, Who With Three Others Died of Starvation, Received at Ottawa.

OTTAWA, May 16.—A pathetic tale of suffering, borne with fortitude and patience, culminating in the death from starvation in the northern wilds, of Inspector Fitzgerald and three other members of the Royal Northwest Mounted Police force, was received by Col. William White, comptroller, in the form of a report from Corporal Dempster of Dawson, Yukon, who was sent out to investigate the tragedy.

ANOTHER 'NE TEMERE' PROTEST

VANCOUVER, May 16.—The Methodist Conference this morning passed a strong resolution affirming the resolution passed by the general conference of the church against the Ne Temere decree of the Pope. It was decided that the provincial governments be approached on the question and the conference further concluded to appoint a delegate to join the denominational deputation to go to Ottawa to protest against the papal decree.

AT HIS OLD TRICKS.

WOODSTOCK, May 16.—Six months ago John Laird was sentenced in the Woodstock police court to six months in the Central Prison. He had been begging around this city and become abusive when refused assistance. Laird started in to pursue the same offensive tactics, with the result that he again fell into the hands of the police. As the offence was repeated, so was the sentence. Laird was given another six months for begging and intimidating people.

SCORE ARE HOMELESS IN FIRE AT PEEL, N.B.

Some Twenty Buildings Reduced to Ashes—Loss Estimated at \$25,000.

PEEL, N.B., May 16.—With the wind blowing a hurricane and everything dry as a tinder from the prolonged drought, a fire caught on the roof of the house to-day, owned by Herbert Clark, and occupied by himself and Howard Boyd, and after an hour's hard fighting some twenty buildings are in ashes, a score are homeless and a beautiful residence with contents valued at \$25,000.

The buildings owned by Mr. Ross were saved with difficulty by a large barn owned by Manar Clark, which burned with its contents. His house was also damaged to the extent of about \$2500.

Aldrich Hatfield lost his house and contents, entailing a loss of about \$1500.

The fire leaped from these buildings to the McInnis house, occupied by John McInnis. The building was a total loss. Some furniture was saved. The fire raged back and caught in Thos. McRae's new farm building, three barns, machinery and furniture were burned. The loss is \$5000 worth of \$8000 insured.

Clark Craig had 500,000 lath stored at the Canadian Pacific tracks, which were wiped out with no insurance. Mr. Craig was called from this fire to one at Charleston, where his mill is threatened.

Many other buildings were endangered in the conflagration, but the fire brought crowds from every quarter and the fire was soon stopped.

Another 'Ne Temere' Protest. VANCOUVER, May 16.—The Methodist Conference this morning passed a strong resolution affirming the resolution passed by the general conference of the church against the Ne Temere decree of the Pope. It was decided that the provincial governments be approached on the question and the conference further concluded to appoint a delegate to join the denominational deputation to go to Ottawa to protest against the papal decree.

Boulevard Along Humber

Gift of Property to be Made City

From Lake to Dundas St.

HON. WM. JENNINGS BRYAN.

W. J. BRYAN AS FAITH'S APOSTLE

Versatile Politician Addresses Large Audience in Massey Hall on Beauties of Orthodox Religion.

One who heard William Jennings Bryan lecture at Massey Hall last night and had known him as a presidential candidate would not have been sure that the same man who said "You cannot crucify the nation on a cross of gold" was talking about the "Beauties of Peace, or yet that the writer of those letters in The New York Sun some years ago, declaring that British government in India was a failure, as being among the impressions of a globe-girdling tour taken at the time, would state that he would rather speak on religion than politics.

Changed somewhat from the man who has held himself in the public eye for over 14 years, the Bryan of to-day is not the Bryan of a decade ago. The man has changed as his platform changed, and one who thinks of him as the champion of "bi-metallism" cannot accept him in the role of a lecturer. The man is more of an actor, simulating the style of an evangelical parson, and for that purpose he had sufficient support from the high-walcoated gentry who thronged the platform.

Upholder of Christianity. "The Prince of Peace," which was delivered in Convocation Hall about two years ago, is more of a sermon than a lecture, and a laudation of the Christian idea than a logical exposition of a great religious principle. One could not help feeling that many of the comparisons were more trite than apposite, and that there was an appeal to the sentiment of a "strapped audience." The hall was well filled, there being few vacant seats in any part.

In the opening portion of his address Bryan laid down the principle that in politics and life there was more necessity for religion than government. He defined religion in the words of Tolstoy as the "relation which exists between man and his God, and morally as the outward manifestation of this inward relation," adding that no religion was ever founded upon a system of morals, which was based solely upon reason.

The man who tries to keep a book account of what good he does never does enough good to pay for the price of the book," he said.

Religion Dominates. Every other theory assumed that character rested upon morals and morals in turn rested upon religion. If morals rested upon the relation that man fixes between himself and his God, then religion was the most practical thing with which a human being had to deal. The man who endeavored to adjust his life according to the opinions of those about him was sure to be guided by that standard and might even, if occasion warranted it, sink below it.

Genesis Cleared Doubts. In himself, Mr. Bryan said when he had his doubts he went to the first chapter of Genesis, which said: "In the beginning God created a heaven and an earth," and he resolved to stand there until he found something that went back to the beginning. Every other theory assumed that something existed while the Christian theory began with God.

The speaker provoked some laughter by remarking that he did not believe in the Darwinian theory of evolution from lower forms, but if any man wanted to trace his ancestry to a monkey would be the last one to do him of the satisfaction. "I have just as much right to select my ancestry as he has to select his," he said.

Continued on Page 7, Col. 1.

Splendid Opportunity for Parkway System Worthy of Toronto's Size Presented by R. Home Smith's Offer—City is Likely to Annex Territory on West Bank of Humber.

Opportunity in the form of a magnificent riverside boulevard scheme is knocking at the city's door and the city council would apparently be guilty of extreme folly if it failed to seize the chance presented. "Do it now" should be the watchword at the city hall.

The offer reached Mayor Geary yesterday in a letter from R. Home Smith, who has, on frequent occasions, shown a desire to assist in practical schemes for the beautification of the city. What he offers is the prospect of the city securing, without cost, land bordering the Humber, from the Lake Shore-road to Dundas-st. three miles distant, so that a parkway and boulevard could be laid out. This would mean the preservation of the beauties of the Humber to the city for all time.

City to Take in Territory. The World understands that steps are being taken to proceed at once with annexation of the territory now outside the city limits between the existing limits and the west bank of the Humber, north to St. Charles-ave. extended. This can be done on petition, and some of the officials seen at the city hall yesterday said that there need be no difficulty in having such a measure carried thru at an early date.

There are one or two pieces of property, which would have to be expropriated on the Humber, and the annexation of the whole territory would be a necessary step towards this measure as well as a condition of carrying out the new improvement.

The World understands that a railway right-of-way has been set alongside the new 100-foot roadways and westerly into Peel county. If the city should be willing in the immediate future to take over this right-of-way, the property owners are willing to dedicate it to the city gratis. Such an extension of the Lake Shore-road along the banks of the Humber would be highly desirable in view of the future development of the city in this direction.

Mr. Smith's letter to the mayor is as follows: Toronto, May 15, 1911. "His Worship Mayor Geary," "City Hall, Toronto."

"Dear Sir,—Representing the owners of the larger portion of the frontage on the River Humber, from the lake shore to Dundas-street, I would like to take up with the board of control the establishment of a Humber River parkway and boulevard, commencing at the Humber end of the proposed extension and paralleling the river a distance of some three miles to Dundas-street."

"If the board is prepared to seriously consider the proposition, I am sure that the city will be benefited by the establishment of a large million-dollar Dominion sanitarium, as it would be to remove from the homes of many of the consumptives."

The institutions should be on a charitable basis aided by municipal and government grants.

GOVERNMENT STEAMER ABASHED.

TOBERMORY, May 16.—The government steamer Sencot ran ashore on Longe Island, twenty-five miles northeast of here, last night, during a heavy fog. The steamer Lambton is coming to her assistance.

AT THE SPRING RACE MEET.

Only a couple of days now and baseball will be under way for the season. The race meet is the big social event of the early year. It brings out the summer gowns and the swaggy costumes of the men. With men the new hat is a big item; the new silk or the stiff felt derby or the light felt Alpine. The Dineen Company is your hatter for the races because it alone handles in Canada the celebrated hats made by Henry Heath of London, England, who makes hats for His Majesty the King. Dineen is also Canadian Agent for Dunlop of New York.

HAMILTON HAPPENINGS

CARPENTERS APPRECIATE EFFORTS OF MAYOR LEES

No Change in Strike Situation—Stole Ten Dollars and Bought Y. M. C. A. Ticket.

HAMILTON, May 16.—(Special.)—The carpenters' strike committee this morning sent Mayor Lees a letter of appreciation for his efforts to arrange a settlement of the existing strike. The situation has not changed to-day, although it was thought that the strike would receive some consideration by the men. The strikers, however, seem determined to fight the matter out and stand or fall on the demand for 49 cents an hour.

Stealing \$10 and spending part of the sum for a Y. M. C. A. membership ticket, was the unusual action of a 12-year-old boy here yesterday. The Y. M. C. A. has taken up the boy's case, and efforts will be made by the secretary of the boys' department to prevent youngsters from being confined in the police cells when charged with an offence.

Nine-year-old Jack Dodds of 109 Westworth-street south, lies in the city hospital suffering from a serious case of brain fever, which it is alleged has been caused from blows he received on the head in a fight with three schoolmates. The matter is being investigated by the police.

Meeting of Presbytery. The call extended from Old St. Andrew's Church, Toronto, to Rev. Dr. S. H. Gray of Knox Church, Dundas, was sustained by the Hamilton Presbytery by its adjourned meeting held here in St. Paul's Presbyterian Church, Rev. Dr. Gray will be inducted to his new pastorate on May 25. Strong efforts were made by a delegation from Dundas congregation to retain Dr. Gray, and a large delegation from St. Andrew's pressed for the sustaining of the call to that church. Dr. Gray himself stated to the presbytery that he felt that a field of greater usefulness was open to him in the Toronto church.

U. S. Can Divert Water. The chief point made by Mr. Magrath was in connection with the Milk and Mary rivers, which flow from the United States into Alberta. The former of these, after traversing one hundred miles of Canadian territory, returns to the United States and empties into the Missouri system. By the arrangement come to, water was diverted from the Mary River into the United States to the Milk River. Mr. Magrath pointed out that the whole water of the Mary River was necessary for irrigation in Alberta. Mr. Oliver claimed that Canada had no choice in the matter, and that the United States, if it wished to divert the whole of the water of the two rivers, so that none would enter Canada at all. The opposition constitutional lawyers argued that this could not be done.

Another point made by Magrath was that the advice of the only expert appointed by the Canadian government had been set aside, and that there was "not an expert within one thousand miles of the negotiators on the part of the United States." In the United States negotiators, as usual, had a number of experts at their elbow. Canada, by slipshod methods, had undertaken to make a map of the territory which was not parallel with what he found in the history of any business in the world.

Problems of Engineering. Mr. Oliver stated that Canadian appointees to the international waterways commission should not be lawyers. They should be men who would carry weight in Canada, the United States and Europe. The problems to be evolved were engineering ones, rather than political or legal. The best water control authority in the world, the United States, has obtained in their hands should be placed the treaty and a map of Canada, and they should go at the problems that relate to the water in a practical way. The question of price should not be considered in obtaining the men for the Canadian commission. The speaker made it to be a Canadian in this regard, and showed how that nation had appointed men familiar with the work in hand.

By What Right? Mr. Borden asked what right the United States had to do this. He could not find that they had any authority for the proposed diversion. Mr. Oliver said he agreed with Mr. Borden as to the question of abstract right. The United States, however, had the power, as the river where the diversion was proposed was entirely in United States territory. Major Currie asked if Canada could not divert back the water to the St. Mary's River, from the Milk River, after the United States had diverted it, as the Milk River ran thru Canada, after the point where the work was to have been done.

Disregarded Expect. The opposition leader said he regretted that the government had seen fit to disregard the advice of the only expert they had seen fit to employ in this matter. Mr. King could not be called an expert in the present sense. The only answer given by the government was that an irrigation company was satisfied. This, however, would not

HAMILTON BUSINESS DIRECTORY

ALBERTA IRRIGATION IS SAID TO BE JEOPARDIZED

United States Able to Divert Waters of Rivers Necessary to Province.

OTTAWA, May 16.—(Special.)—Since the early forenoon until late to-night the house had under discussion the bill relating to the establishment of the international joint commission under the waterways treaty. It appears that under the agreement entered into between the representatives of the two countries a situation arises in Southern Alberta which it is claimed, may do everlasting harm to the Canadian farmers in that territory, and may turn prospective smiling farms into arid wastes. In other words their supply of water is threatened. It is contended that the Canadian representatives who agreed upon the waterways treaty were ignorant of Canadian interests thru absolute ignorance and neglect of ordinary precaution, and so apparently have the interests of Alberta been sacrificed that one of the expert employed by the United States government has publicly stated that this is so.

The case of the critics of the government was in the hands of C. A. Magrath of Medicine Hat, whose abundance of grey hair and knowledge of irrigation problems made the task of defence extremely difficult, and so far as a layman could judge, exceedingly "lame."

Another point made by Magrath was that the advice of the only expert appointed by the Canadian government had been set aside, and that there was "not an expert within one thousand miles of the negotiators on the part of the United States." In the United States negotiators, as usual, had a number of experts at their elbow. Canada, by slipshod methods, had undertaken to make a map of the territory which was not parallel with what he found in the history of any business in the world.

Problems of Engineering. Mr. Oliver stated that Canadian appointees to the international waterways commission should not be lawyers. YORK COUNTY AND SUBURBS

NORTH TORONTO COUNCIL PUT IN STRENUOUS TIME

Doherty Plan Leads to Lot of Discussion—Mr. Murphy Gets Permit—County News.

NORTH TORONTO, May 16.—(Special.)—A close town council that lasted practically from 7 o'clock to the waning hour of midnight, and that was devoted to down-right hard work, was the experience of the town council to-night. There was not even the semblance of a scrap to relieve the five-hour vigil save and except a few measurables between the councillor and the mayor, and between the councillor and the chairman of the council. The North Toronto Town Council are in a state of high spirits and three times in the week made thru three times the amount of routine work without any interruption. The average town council session in a month at \$2.50 per diem and mileage.

But return to the council table, the big feature of the meeting was undoubtedly the settlement of the Doherty plan, and this was not accomplished without an immense amount of work. Councillor Atterton was charged with the job of the whole and together with Solicitor Gibson and the other members of council, Mr. MacDonald representing Mr. Castor, the buyer of the Doherty property, and the Doherty family, were all interested and involved in the deal. The efforts of the council in getting a continuity of thru streets running north and south and dovetailing well between the present and proposed streets on either side, an amicable agreement was reached.

Councillor Reid voiced a vigorous objection all the way thru, claiming that the Doherty plan was a "hoax" and that the salvation of the town depends on the Doherty plan. "You know the salvation of the town depends on the Doherty plan," said Councillor Reid. "Get some of you men to be anxious to see it at every turn. I suppose, because I am trying to 'booster it.' But they all thought differently and when the vote was taken, like brave Horatius, he stood firm."

Then the members passed on and from plans and profiles and duplex lots were made, and attention to Bowser gasoline tanks. It all came about, in this wise: Ex-Councillor Reid, who was in the chair, and heartily welcomed by his old colleagues and friends, conducted a four-hour session on the subject of Bowser gasoline tanks. YORK COUNTY AND SUBURBS

NORTH TORONTO COUNCIL PUT IN STRENUOUS TIME

Doherty Plan Leads to Lot of Discussion—Mr. Murphy Gets Permit—County News.

NORTH TORONTO, May 16.—(Special.)—A close town council that lasted practically from 7 o'clock to the waning hour of midnight, and that was devoted to down-right hard work, was the experience of the town council to-night. There was not even the semblance of a scrap to relieve the five-hour vigil save and except a few measurables between the councillor and the mayor, and between the councillor and the chairman of the council. The North Toronto Town Council are in a state of high spirits and three times in the week made thru three times the amount of routine work without any interruption. The average town council session in a month at \$2.50 per diem and mileage.

But return to the council table, the big feature of the meeting was undoubtedly the settlement of the Doherty plan, and this was not accomplished without an immense amount of work. Councillor Atterton was charged with the job of the whole and together with Solicitor Gibson and the other members of council, Mr. MacDonald representing Mr. Castor, the buyer of the Doherty property, and the Doherty family, were all interested and involved in the deal. The efforts of the council in getting a continuity of thru streets running north and south and dovetailing well between the present and proposed streets on either side, an amicable agreement was reached.

Councillor Reid voiced a vigorous objection all the way thru, claiming that the Doherty plan was a "hoax" and that the salvation of the town depends on the Doherty plan. "You know the salvation of the town depends on the Doherty plan," said Councillor Reid. "Get some of you men to be anxious to see it at every turn. I suppose, because I am trying to 'booster it.' But they all thought differently and when the vote was taken, like brave Horatius, he stood firm."

Then the members passed on and from plans and profiles and duplex lots were made, and attention to Bowser gasoline tanks. It all came about, in this wise: Ex-Councillor Reid, who was in the chair, and heartily welcomed by his old colleagues and friends, conducted a four-hour session on the subject of Bowser gasoline tanks.

SCHOOL TO PREPARE MEN FOR Y.M.C.A. WORK

Death of Qualified Men, Especially in Canada, Problem Needing Solution.

The annual meeting of the board of directors of the Toronto Young Men's Christian Association was held yesterday.

The report said: "The past year has been one of unprecedented progress in the work of the Young Men's Christian Association throughout the Dominion. The Toronto Association succeeded in completing its building fund just as the year was beginning, and the fact that we realized \$85,000 for the erection of four buildings for the Young Men's Christian Association of Toronto, and then were able to secure \$100,000 for the purpose of erecting similar buildings for the young women, was a great inspiration to other associations, throughout Canada especially."

Death of Secretaries. A recent development that is of great significance with respect to the future of the Canadian associations is the organizing of a school for the training of general secretaries and physical directors. We have two training schools now well established in the United States. Besides this there are summer schools at Silver Bay, N. Y., at Lake Geneva, Wisconsin, and at Estley's Park, Colorado. In spite of this, there is a scarcity of suitable men, and in Canada the situation is even worse. Canadian young men who go to the training schools in the United States are seldom available for Canadian fields. It is therefore of the utmost importance that provision should be made for the technical education of Canadian young men in the Dominion of Canada.

Metropolitan Organization. A special committee has worked out a plan for the adoption of the metropolitan form of organization in the City of Toronto. The advantages of the metropolitan plan have been thus stated: Uniformity and comprehensive character; harmony in execution; legal entity; aid from stronger to weaker parts of the field; financial economies and ability.

The statistics show an increase in Bible class attendance from 1482 in 1910 to 2356, and at shop meetings from 1848 to 2200.

The employment bureau, established one month, has received 202 applicants for position and placed 41.

COHEN-HARRIS. A pleasing ceremony took place last evening, when Miss Hannah Cohen was united in marriage to Henry Harris, by Rev. Mr. Caplan, assisted by Rabbi Gordon in McCaul-street synagogue. The bride was beautifully gowned in cream liberty satin, with a lace over-bone trimmed with diamonds, and carried a bouquet of white roses and lily of the valley.

The bridesmaids, Misses Polly Cohen, and Annie Finkelshteyn, were in cream satin, carrying cream and pink roses. The Misses Bornstein and F. Cohen acted as flower girls, carrying huge bouquets of cream and white roses. L. Cohen and S. Myers acted as groomsmen.

Among the many guests were Miss H. Harris, Mr. and Mrs. Black, Misses Black, Mr. and Mrs. Phillips, Miss F. Finkelshteyn, Sam Meyers, Mr. and Mrs. Bates, Mr. and Mrs. Hope and Miss Hope, Mr. and Mrs. Lax, Miss Goldberg.

A number of telegrams were received from friends of the bride and groom in various parts of the States and Canada. The happy couple will leave in a day or two for New York, from whence they will go to England for the honeymoon.

Vetereo Washago License. Hon. W. J. Hann has vetoed a license issued by Washago. This is the second license issued by the North Ontario license board canceled by him.

EATON'S DAILY STORE NEWS

There's Great Value in These Stylish Outing Suits

Two-Piece Suits—The Kind Men Like!

Light and cool for summer wear. Ideal outing suits, because they will not readily show dust, and neat for wear to business, being smart and stylish in appearance.

They're all well tailored and built to make them retain their shape, and the coats are half-lined and cool for summer wear. The linings are of lustre material of a good quality and the finishing materials are all high grade. The trousers have belt loops and cuffs on the bottoms. The coats are single-breasted.

In light and medium shades of grey tweed, in stripes and fancy weaves. Sizes 34 to 44 7.50

Cinnamon shades and stone grey shades and fawn with faint colored thread patterns in tweed 11.00

In English worsted materials there are striking effects in small checks and stripes, in medium and dark shades of grey 12.50

A Paramatta Raincoat for a Boy

They're tailored in the men's style, long single-breasted, buttoning up to the chin, with high military collar and with full skirt; all seams sewn, taped and cemented. In fawn shade and in sizes from 26 to 34 5.50

Boys' Blouse Suits

Blouse Suits that button up the side to shoulder, with military collars and fronts trimmed with emblems and buttons. Cassimere finished tweeds and worsted materials, in nice shades of grey and brown; bloomers pants with elastic at the knees. For boys from 5 to 9 years. 6.50

—Main Floor—Queen Street.

Choose a Neglige Shirt From This Lot at 50c

It's a pleasure to choose a negligee shirt when there are so many striking patterns displayed as are included in this lot of shirts we are showing on Thursday. Made from good quality corded shirting material, in new stripes, and with neat attached cuffs—shirts that will wash well. Sizes 14 to 17½. Price 50

Men's Summer Underwear

The warm weather reminds you that it's about time you bought some lightweight underwear, and this price is just to remind you that this is the proper place to get it. Plain balbriggan garments that feel comfortable, porous knit and plain mesh, with long or short sleeves, and knee or ankle-length drawers, well-finished garments. Sizes 34 to 44. Shirts or drawers, per garment 35

Outing Shirts, 75c

When you go to the baseball game, to the Humber to canoe, or to a picnic, you feel the need of an outing shirt that will be both comfortable and dressy, qualities that are combined in these shirts. And they're remarkably good shirts at the price. Made in our own workrooms of strong white duck, with yoke, gussets and large-sized bodies. They have neat pockets and are trimmed with pearl buttons and all seams are double sewn. Turn-down soft collars can be reversed and a laundered collar attached to a band underneath, and there are neat buttoned wrist bands. Sizes 14 to 18. Price 75

—Main Floor—Queen Street.

The Straw Hat Season Has Arrived and We Are Fully Prepared For It

Light in weight, to keep the head cool; wider of brim, to give protection from the sun's hot rays. Already many straw and Panama hats have been seen on the streets, and we want to emphasize the wide choice offered here in the matter of summer headwear.

Every man who wants a Panama or straw hat will do well to come on Thursday, when we make our formal-opening display, and select while there is a full range of styles and sizes.

Here are a few of the good things from our vast stock:
Panama Hat, made from the fibre of the South American palm, of fine quality and texture, in one of this season's most popular shapes, a medium width brim and a square crown with a neat black silk band and a calf leather sweatband, as cut 5.00
Better quality at 6.00, 7.00 and 8.00

A Neglige Straw Hat that will give excellent wear, made to sell at a medium price. A very fine milan braid with square crown and wide, flexible brim, with a silk band, calf leather sweatband, like cut 2.25

American-Made Straw Boater, in a fine quality split braid and in a new dressy shape, medium width brim and medium light crown, finished with silk band, leather sweatband, like cut 2.00

THE T. EATON CO LIMITED

LEGISLATORS INDICTED FOR BRIBE SOLICITATION

Votes of Ohio Senator and Representatives Alleged to Have Been Offered For Sale.

COLUMBUS, O., May 16.—Senator Edgar T. Crawford of Carroll county and Representative A. Clark Lowry of Lawrence county, Republicans, and Representative Owen J. Evans of Stark county, Democrat, were indicted to-day by the grand jury for bribe solicitation.
Crawford is alleged to have asked \$200 from W. H. Cook of Springfield, secretary of the Ohio Butchers and Grocers' Association, in connection with trading stamp legislation. Lowry, against whom an indictment had previously been returned, is now charged with soliciting \$1500 from Opha Moore, secretary of the Ohio Manufacturers' Association, for his support on the nine-hour day for women bill.
Evans is alleged to have asked a bribe of \$2500 from John E. Neiss of Canton, O., secretary of the Strak-Turcaravus Brewery, for his vote in one of the city local option bills.
All the indicted legislators entered appearances and gave bonds of \$5000 each.
Evans is a townsman of Alton Pomeroy, United States senator, and Pomeroy's name as a senatorial candidate in the legislature.

SEIZED SLOT MACHINE

Morality Department Alleges That It is Gambling Device.

John G. Chester, tobaccoist, 67 East King street, will appear in police court this morning to meet his slot machine. He and it are charged with gambling with the d-8ar public for cigars.
Yesterday afternoon Inspector Kennedy of the morality department and Sergeant McKinney of that department, with a posse of men, entered the machine and got nothing. Upon the machine was a sign which said that should various poker hands appear upon the face of the machine after the deposit of cash certain rewards in the shape of cigars would be forthcoming.
Chester says that a cent gets a piece of gum every time, and that the cigars are merely an added attraction. The police say that they get neither gum nor cigars so they took the machine.

Entertained Visiting Masons.

KINGSTON, May 16.—(Special.)—Seventy-five members of the Masonic Order from Alexandria Bay, N.Y., came up by boat to-night and were the guests of Minden Lodge. They were tendered a banquet and assisted in putting on the third degree.

Bad BLOOD

"Before I began using Cascarets I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."
Clarence R. Griffin, Sheridan, Ind.
Pleasant, Palatable, Potent, Taste Good, Do Good, Never Sickens, Weakens or Grips. 25c. 50c. Never sold in bulk. The genuine table-stamped C.C.C. Guaranteed to give or your money back.

UNITED STATES TO ISSUE \$50,000,000 PANAMA BOND

New Securities Will Bear Interest at Three Per Cent.—Not Available For National Banks.

WASHINGTON, May 16.—Secretary Macveigh to-day invited popular subscription to a \$50,000,000 issue of government bonds, to reimburse the treasury general fund for expenditures on account of the Panama Canal.
Treasury officials expect the loan will be largely oversubscribed, and in distributing the new securities, the government's announced intention is to give preference to smaller bidders.
The new securities will bear 3 per cent. interest, payable quarterly and will be free from all national, state, and municipal taxation, and will be in denominations of \$100, \$500 and \$1000. They will be dated June 1, 1911, and will be payable in fifty years.
By provision of law the new bonds will not be available to national banks as the basis of circulation. Inasmuch as they are the first United States ever issued with such a restriction, much interest is attached to the price they will bring. According to law they cannot be sold at less than par. The three per cent. French rentes recently have been selling around 99 and the German Imperial 3 per cent. loan has been at about 83. Great Britain's two and one-half per cent. consols have sold recently at 73.

A Canadian in England.

That famous mineral water, which bubbles out of the black rocks at St. Leon Springs, in Northern Quebec, is now being shipped to England. It is undoubtedly the greatest of all mineral waters and that is why its fame is becoming so world-wide. It is shipped to Toronto under seal direct from the springs and if you want to feel energetic and keep well then you can't beat St. Leon. From dealers or the Company. Phone M. 121.

Had Finger Badly Crushed.

KINGSTON, May 16.—(Special.)—John Wilson, working in the city quarry, had a finger so badly crushed that it had to be amputated.
J. W. Stringer of Bancroft was badly injured in a runaway.

Called to Vancouver.

WOODSTOCK, May 16.—Rev. G. K. Bradshaw of the Dundas-street Methodist Church, has received a call from the Sixth-avenue Methodist Church of Vancouver, and has accepted the call, subject to the action of the conference.

Almost Asphyxiated.

KINGSTON, May 16.—(Special.)—Gas escaping from a coal stove almost killed Mrs. Harold Timmerman, her four children and Robert Knowles and his wife. Knowles, who deathly sick, awoke in time to get a doctor, and the others came around all right.

Cheese Boards.

CAMPBELLFORD, May 16.—Seven hundred boxes were offered for sale, 245 sold at 11-16 cents, and 114 at 11 cents; balance refused at 11 cents.

STIRLING, May 16.—At to-day's cheese board, 630 boxes were offered, 215 sold at 11 cents; balance, refused, 109c.

The Toronto World

THIS CERTIFICATE, with 25 others of consecutive dates, (Sundays excepted) if presented at the business office of THE WORLD, 40 Richmond St. West, will entitle the bearer to one WORLD COOK BOOK absolutely free. JUMPED FROM TRAIN WINDOW.

KINGSTON, May 16.—(Special.)—Giving Immigration Inspector Peter Devlin to understand he was asleep, Hugo Tschirch jumped out of the window of a G. T. R. train at Outer Junction at 3 o'clock this morning and escaped. He was being deported from Montreal to St. Louis.

Bitten by a Dog.

WOODSTOCK, May 16.—Eight-year-old Alfred Trotter was badly bitten and lacerated by a collie dog, belonging to J. Searles, last night. Bites on the face had to be stitched up by a doctor.

Cobwebs in the Morning.

Cobwebs in the head on rising in the morning is the result of a Lazy Liver, one or two mornings in succession and sick headache follows.
Father Morris's Liver Pills will clear the Brain.
These Pills are a purely vegetable compound prepared with great care, and are without doubt the very best pills for general use, on the market. The greatest care has been given to selecting the ingredients, and being entirely vegetable, they act upon the liver and bowels in such a manner as not to disturb the other functions of the body at any time.
As a Liver Invigorator, Blood Purifier and General System Renovator, they are unequalled. Sick headache is invariably brought on by a sluggish liver, constipation or irregular bowels; these pills are a cure for sick headache in any form.
Pimples, eruptions and yellow skin are often caused by a lazy liver; one pill three times a week, will soon clear the complexion.—Price 25c. per box.

Sold and Guaranteed to Toronto.

VanZant, Cor. Yonge and Charles—Cor. Yonge and Davenport Road; The Broadway Drug Company, 282 College St.; Hennessey's Drug Co., Ltd., 197 Yonge St.; J. W. Wood, Cor. Carlton and Parliament Sts.; also 170 East Queen St.; W. T. Pearce, 181 Dundas St.; also 182 Dundas St.; The Hooper Drug Co., Ltd., 8 King St. West.

IMPLICATED WHITE MAN IN OPIUM SMUGGLING

American Officers Suspended—Six Pounds of the Drug Seized in Montreal.

MONTREAL, May 16.—(Special.)—Chinatown was in an uproar to-day when it was announced that Stevens, the opium smuggler, had implicated by his confession a white man and several well-known Montreal Chinamen. Ball was secured and Stevens returned to the city this afternoon, as did Murphy, the officer who made the arrest.
Three American officers on the frontier were also suspended by their government to-day in connection with the smuggling case, and on the heels of this Collector R. S. White of this port announces this afternoon that six pounds of opium were seized here to-day, and he declares that the tin was brought here from Vancouver. Mr. White says that when the three opium mills were put out of business on the Pacific Coast they were given a certain time to get the stuff out of the country, but the supposition is that the opium, instead of being exported, was secretly distributed thru the Dominion, and that these seizures are of the Canadian make.
Advised to Get Lawyer.
Mr. Justice Middleton advised Mrs. Elizabeth Maloney to get a lawyer when she tried to argue her own case at Osgoode Hall yesterday. She wants to prevent her husband from selling their Dresden-avenue property, and he has an application before the court to sell the property free of dowry.
Mrs. Maloney said she had no money to employ counsel.
Autoliet Fined.
Ernest Cook was accused of running his motor car at 25 miles an hour on Broadview-avenue. Accused claimed he was only going nine miles, but the magistrate fined him \$25.

DOUBLED BAIL ON MEN HELD FOR CONSPIRACY

Mansell and Leushner, Arraigned in Court, Plead Not Guilty on Five Charges.

F. A. Mansell, president and general manager of the Canadian Wire Screen Company, and F. E. Leushner, his agent, were arraigned in police court yesterday morning upon five charges of having obtained amounts from many men upon false pretences, involving the alleged purchase of stock upon condition of employment in the company.
Both pleaded not guilty, and elected to be tried by a jury. They were remanded a week at the request of the crown. Bail was set at \$5000 each, being the approximate amount of the alleged frauds and double the figure demanded upon their arrest. The former bondsmen did not feel that they could meet the raised figure. Counsel objected to the advance of bail, but Crown Attorney Corley declared that the case was an important one, and would take long to unravel; also he added that the defendants would not disclose the whereabouts of certain promissory notes which formed a part of the money received from the alleged victims.
Bail was arranged later in the day, and after his release, Mr. Mansell declared that the prosecution was a scheme to secure his patents for manufacturing screens. He says that the factory at Woodbridge has been operated since January, and that large orders have been taken.

Italians Go to Trial.

True bills were returned by the grand jury yesterday, in the case of Frank Rosseller and Donald Pardini and Antonia Lavelle, in connection with the affray at 40 Agnes-street on Good Friday. They will appear in the sessions this afternoon.

Could Not Walk Ten Yards Without Resting. WEAK HEART WAS THE CAUSE.

Mrs. Robinson Collette, Rogersville, N.B., writes: "I am now enjoying the best of health after having used your Milburn's Heart and Nerve Pills. I was troubled with a weak heart and was afraid to draw a long breath for the pain it would cause me. I could not sleep at night, and it was impossible for me to walk ten yards without resting myself. I cannot speak too highly of your Heart and Nerve Pills, for they are the greatest pill I have ever used and I can recommend them to all sufferers."
Thousands of people go about their daily work on the verge of death and yet do not know it.
Little attention is paid to the slight weakness of the heart for the simple reason that one thinks it will right itself, but there is where the mistake is made. It is only when a violent shock comes that the weakness of the heart becomes apparent.
On the first sign of any weakness of the heart or nerves, flagging energy or physical breakdown, the use of Milburn's Heart and Nerve Pills will soon produce a quick and permanent cure.
Price 50 cents per box, or 3 for \$1.25, at all dealers of mail order on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The Salvation Army

This is the Annual Week of Prayer and Self-Denial, which includes the securing of Funds for Home and Foreign Missions

Contributions thankfully received by the Territorial Headquarters, the Corps, or the Training College Cadets on the streets. WILL YOU HELP?

There is HEALTH and STRENGTH in every cup of EPP'S COCOA. Children thrive on "EPP'S". Its fine invigorating qualities suit people of all ages. Rich in butter and FREE FROM CHEMICALS. GRATULATORY AND COMFORTING.

AD. CLUB OFFICERS.
The Toronto Ad Club was formally organized last night at an informal dinner held at McConkey's. A large number of advertising men attended. John Blackhall called the meeting to order and explained the objects of the club. The following officers were elected:
President, C. W. McDiarmid, Ryrie Bros.; 1st vice-president, J. F. McKay; Globe; 2nd vice-president, H. O. Edwards, Canadian General Electric Co.; 3rd vice-president, Adam F. Smith, Office Specialty Manufacturing Co., Ltd.; chairman, publicity committee, John Patterson, Woods-Norris Agency; chairman membership committee, Charles A. Matson, Coco-Cola Co.; chairman entertainment committee, Adam L. Lewis, R. G. McLean Printing Co.; chairman finance committee, John Blackhall, Dominion Express Co.

Blamed Mother-in-Law.
Walter M. Woods, charged in the sessions yesterday with non-support of his wife, Alice, was found guilty, and Judge Denton allowed a stated case that the case might go to a higher court. His honor remanded Wood for sentence and accepted two sureties of \$1000 each, one in his surety and the other in his father's.
Mrs. Wood, when on the stand, said she was married to accused in 1902, and they had lived happily together until 1907, when she left him because he drank. Accused said he had always worked hard to support his wife

WEDNESDAY MORNING

UP TO CLOSE AT PIMLICO WATER SPEED WINS CHASE

Zeus is Slight Favorite Over Watervale For the Pre-eminence To-day.

BALTIMORE, May 15.—The Green Springs Valley Steeplechase, the feature of today's card at Pimlico, was won by Watervale, the odds-on favorite.

FIRST RACE—Two-year-olds, five furlongs: 1. Pugsias, 107 (Killingsworth), 5 to 2, even and 3 to 1; 2. Elmatian, 107 (Burns), 7 to 1, 3 to 1 and 3 to 1; 3. Fox Brook, 110 (Ural), 8 to 1, 3 to 1 and 3 to 1.

EIGHT OARED RACE FOR DOMINION DAY REGATTA. The Dominion Day Regatta committee met at the Toronto Rowing Club last night and decided to add an eight oar, 16 pound race to the entries this year.

The World's Selections BY CENTAUR

LOUISVILLE. FIRST RACE—Sebago, Cohort, Effin Beat. SECOND RACE—Alpine, Fanchette, Colletter.

PIMLICO. FIRST RACE—Belmont entry, Surflet, Little Pat. SECOND RACE—Shannon, Besom, Dull Cary.

Callise Wins Debutante. LOUISVILLE, May 15.—Callise, a Texas bred filly, captured the Debutante Stakes in a large field of 27-year-olds at Churchill Downs to-day.

Heavy Draught Pairs Sells as High as \$800 At the Repository

Messrs. Burns & Sheppard of the Repository report that a grander lot of horses never were shipped to their establishment than they had this week.

The following is a list of the principal buyers at the Repository this week: Rock Marlan of Montreal, Que., bought a full carload for shipment to his city.

W. Van Dyke, Grimsby, Ont., got a chg. for \$250, and a bkg. for \$275. S. Sancho, Panza, Zool, Fairy Story, Emily Lee, Princess Industry, Rousseau, Del Prior and Photorat also ran.

Have You Tried Keefe's "Gold Label" ALE

The O.K. brewmaster says it is his masterpiece—a rich, old, creamy ale of matchless purity.

To-day's Entries

Pimlico Closing Program. BALTIMORE, May 16.—Pimlico entries for to-morrow (last day) are: FIRST RACE—Two-year-olds, five furlongs: 1. Little Pat, 110 Overman, 5 to 1; 2. Pugsias, 107 Surflet, 12 to 1; 3. Bee, 107 Mad River, 10 to 1; 4. Yorkville, 107 Belmont, 10 to 1; 5. Hildreth entry, 2-Belmont entry.

DAVIES' PLATERS SHOW CONSIDERABLE CLASS

St. Bass and Powderman Given Slow Work—Seagram Platers Fail to Show Form.

"Darn your races, give us the rain," said a farmer outside the court house, yesterday, and probably everybody, including the racehorses men themselves, agreed with him.

The rain that fell between Monday night and Tuesday morning was to lay the dust and make the going cool and easy for the sore and unsoftened. All the leading platers were abroad, but not one of them was given work of any consequence.

St. Bass, Powderman and others of the plate candidates were treated to slow work. The Davies two-year-olds were out as a flock, Fatherala, Mary Lawrence, Stomper and Black River in a bunch doing the half in 48 3/4 seconds.

NOBLEMEN CIGARS

The Ancient Order of Fossils

JOHN RUSKIN, the eminent scholar and art critic, wouldn't ride in a railway train, because he was prejudiced.

THE FIRST GAS MAN died a pauper, because people were prejudiced against his invention. THE SMOKER, who believes in the superiority of "imported" cigars, is qualified to join the above ancient order.

NOBLEMEN size, 2-for-a-quarter. "PANTELAS" size, 10c straight. "CONCHA FINA" size, 3 for 25c. S. DAVIS & SONS, LTD., MONTREAL. Makers of the famous "PERFECTION" 10c Cigar.

COATES' PLYMOUTH GIN. Remember that name when next you want a real dry gin rickey--an appetising cocktail--has the pleasing dry tang, without a hint of oiliness...

WEDNESDAY MORNING, MAY 17, 1911.

THE HUMBER BOULEVARD.

An entirely new spirit is apparent in the munificent offer made by Mr. R. Home Smith to the city in the letter received by his worship the mayor, yesterday. The Humber River for those who know it, is one of the eternal charms of Toronto, and combines with the lovely scenery of the Don on the east, to form such an enchanting environment as few cities possess.

The opportunity now presented to the city can scarcely be estimated. Ten years from now the same rights would probably not be obtainable under half a million dollars. It opens up for the citizens for ever an easy means of access to a district in which health and beauty abound.

Mr. Home Smith, on behalf of the syndicate he represents, offers a boulevard drive and parkway extending from Queen-st. to Lambton, and park lands aggregating about 100 acres on either side of the river. The gift is worth, it is estimated, \$150,000. We feel sure the city authorities will lose no time in making whatever arrangements are necessary to secure the gift for the people. There are no strings to it, nor any conditions save the natural one, that the people will have it placed at their disposal within a reasonable period.

We cannot conceive of anyone in the city council objecting to a gift so desirable. There may be captious critics among the citizens who will foresee the possibility of the syndicate deriving some profit from the development of their property. Such profit must accrue in any event, and if the city is invited to share in it in advance, it would be an ungracious as well as foolish policy to decline the offer. The fact that generosity is not inconsistent with good business methods, will be emphasized by the present offer, and should lead to a keener appreciation of the value of public participation in the benefits of private enterprise.

A notable feature of the plans of the syndicate is the assignment of a railway route thru the property. This will be handed over to the city if desired, and in connection with the Lake Shore road would prove to be a valuable adjunct of the civic railway system.

In connection with the proposal to lay out a parkway, the suggestion has been made that the city annex the territory now within the city limits from the lake shore to St. Clair-ave., including the west bank of the Humber. This will enable the city properly to control the property to be handed over to it, and also to expropriate two properties of 17 and 12 acres respectively which enter into the park area. The general approval expressed last night by those who discussed the whole project, indicates the likelihood of the city authorities taking instant action, and we feel sure the mayor and the board of control will not lose any time in so easily enriching the city.

A CASE FOR CLEMENCY.

"To condemn an expectant mother to death is a horror which appears incredible to all women." This is the declaration of a well-known woman when speaking of the case of Angelina Neapolitano, recently condemned to the gallows for killing her husband, who had tried to force her into prostitution and when she refused to live a life of shame attempted to murder her. By the ordinary codes of morality and justice and fair play this woman would have been regarded as a heroine, endeavoring to protect her honor, and the life of her unborn child. A jury of men decided that these circumstances should not weigh in deciding the fate of their sister. Our legal system, whether with or without their assent, by requiring a technical verdict on the capital charge, aligns them on the side of the man who would force his wife into harlotry, and condemns her to death for her ignorant struggle against the horrible coil in which she found herself.

We believe this is one of the cases in which executive clemency should be exercised. There are men and women celebrated in history for observing the principles in following which Angelina Neapolitano has received a death sentence. Her mental condition should be considered. The life of her unborn babe is a trust of the nation. There ought to be some better way of dealing with it than hanging its mother.

NORTH TORONTO'S STREET LIGHTING.

North Toronto ratepayers by a large majority expressed their desire that the town should become an integral part of the City of Toronto. The World supported their request and still considers that the city council should have no hesitation in falling into line

and accepting the opportunity.

Annexation is bound to come. Toronto is filling up the vacant spaces up to the boundary limit very rapidly, and if the present mayor, controllers and aldermen are wise enough to learn from past experience, they will know that a really sound and progressive civic policy can only rest on foresight and prudent anticipation of future conditions and needs.

But North Toronto has obligations also if annexation is to be accomplished. The first and most important of these is that nothing is done which will fetter or embarrass the enlarged city in connection with its public services. North Toronto is just now contemplating electric lighting of the streets other than Yonge-street, and has invited tenders. Two have been received from private companies, and one will be submitted from the city's electrical department. It is said one of the private companies intends to underbid the other two, but the North Toronto Council must keep steadily in view that as part of Toronto its street lighting will be done by the city's electrical department. No contract of any kind should be made except with the Hydro-Electric Commission or the city. Any other course will lead to difficulty and trouble, and delay or even prevent annexation.

U. S. TRUSTS AND THE LAW.

Eighteen months ago the Wall-street organs were indulging in pessimistic forecasts of the possible results should the supreme court of the United States sustain the order of the lower court, dissolving the Standard Oil Company. Now that the supreme court has sustained the judgment it has resulted in paralyzing business, has resulted in a general air of relief pervading the financial situation. This was due no doubt in part to the fact that an adverse decision had been discounted, but still more to the modification of the previous interpretations put upon the Sherman anti-trust law.

Hitherto it has been accepted that the Sherman law covered any form or device employed to hold together corporations or naturally competing business companies so as to eliminate competition, and the brief for the state against the Standard Oil Company urged that the previous decisions evince a great public policy which the court ought to consider. This the supreme court Justice Harlan dissenting has refused to do and has ruled that a distinction must be drawn between "reasonable" and "unreasonable" restraint of trade. This imposes a further burden on the government in its campaign against trusts and combines.

The Standard Oil Company's legal experts will no doubt evolve some other method of circumventing the law and more drastic legislation will again open the way for further years of litigation. Altogether the outlook for the people is not any more promising. Yet it is into this labyrinth of devices for plundering the consumer that the Dominion Government invites Canadians to enter thru the door of reciprocity.

UNCLE SAM IN TROUBLE.

Among the things wrong with the United States, Wall Street is one. And tho it is now half dead, the main effort of the big financiers seems to be to revive that maelstrom of speculation and reckless extravagance. Few stop to think what that institution has cost the working people of the United States. Of the ninety million souls we make bold to say that at least ten per cent of their joint production has year after year been wasted in maintaining Wall Street with its extravagances, its wild living, its dissipation of all kinds.

And yet a lot of people wish to see Wall Street revived. They think that if they could get it going again, prosperity would return. The cure for the conditions in the United States is not the revival of Wall Street, but it is the disappearance of Wall Street and its methods of high finance, its extravagance, its other glaring evils. The United States has to get down to hard pan and the nation has to start in to cure its political and social disorders. A mere revival of speculation would only aggravate the situation.

The financial disorders represented by that frugal and exact liver, John D. Rockefeller, are on a par with the disorders that obtain in Wall Street. The two go together. There can be no John and no Rockefeller in the game, and apparently that has been the case for years. Standard Oil financing, Wall Street operations and the demoralization of politics have brought the United States to the door of a revolution. Few care to admit it, but

The First Thousand

Russell Sage used to say that after a man had saved a few dollars, the hardest part of his financial battle was over, and that the accumulation of money afterwards was comparatively easy. The force of this will be apparent to anyone who gives any thought to the subject. The object to be attained is surely the necessary effort. The easiest and only sure way to obtain the "first thousand" is by regular, systematic saving. If deposited with us the three and four per cent compound interest we add assists materially. Begin now - ONE DOLLAR opens an account.

Canada Permanent Mortgage Corporation

TORONTO STREET, TORONTO.

HAS NO SUBSTITUTE

Absolutely Pure The only baking powder made from Royal Grape Cream of Tartar NO ALUM, NO LIME PHOSPHATE

the more we watch the situation, the more are we convinced that only in a sweeping cure and in a sweeping reform is there any great hope for the United States.

The Americans, instead of being clever as they think, are innocents in many ways. The people of Europe have taken the money from them like confectionery from the baby, in the talk of the day.

Forty per cent of the people of the United States seem to have been following for forty years to keep up Wall Street, and to pay the tribute of the American rich to the frugal and knowing people of Europe.

Uncle Sam is too smart; his house wants much overhauling; he has yet to learn to hold what he has.

Justice, Riddell says when you are married you're married without hope of release. Mr. Wellier's advice to be "very careful" was absolutely necessary.

In Great Britain the police force is utilized for the collection of census statistics, with the best results. The Globe, which has openly committed itself to the principle that efficiency is not desirable, favors another method.

The result of the United States Supreme Court judgment in the cases of Gompers, Mitchell and Morrison, should give labor men assurance that justice will be done, and prevent any panic-action over the dynamiting cases pending in Los Angeles.

The Globe loves to deal in sophistry. First it lays down the principle that reciprocity will make it easier for the United States and Canada to deal together. Then it declares that "deal together" will be as free to buy and sell as to legislate after the change. The Globe knows very well these are contradictory propositions.

PREACHER, POLITICIAN AND JOURNALIST.

The British Weekly, April 27, says: There is no other man in the British Empire who more successfully combines in one personality the qualifications necessary to the three professions mentioned above than does Dr. Macdonald, editor of The Toronto Globe. Dr. Macdonald is a master of the art of preaching, he is an ardent politician, with the reputation of being dictator to the Liberal party at Ottawa, and he is editor of the most influential newspaper in Canada. It is said, and not without reason, that Dr. Macdonald is directly responsible for the present reciprocity proposals before the United States and Canada. Then, again, on the question of British-American arbitration, the doctor is well to the front. On the strength of a personal interview with President Taft and Secretary Knox, Dr. Macdonald declares that these two great statesmen are in agreement to see the consummation of a treaty that would make war impossible between the English-speaking peoples.

As an advance notice for a gentleman attending the coronation this will be without a rival. Sir Wilfrid must take a second place, besides the parade on the streets. Tank Railroads, services will be held in Mr. Mallett's home. Private calls will also be held there.

Ran Away From Home.

SARNIA, May 16.-Edgar Watt, a well dressed and intelligent lad of 15, was arrested to-day for stealing a ride on the Toledo, charged with the theft of a team of horses and buggy from Charles McFee's livery, appeared before the magistrate to-day. The defence was that the man had been intoxicated and was drinking continuously till found at Toledo with the horses. The case was adjourned until the 23rd.

Not the Water Wagon.

SARNIA, May 16.-Nathaniel H. Williams of Toledo, charged with the theft of a team of horses and buggy from Charles McFee's livery, appeared before the magistrate to-day. The defence was that the man had been intoxicated and was drinking continuously till found at Toledo with the horses. The case was adjourned until the 23rd.

The defence was that the man had been intoxicated and was drinking continuously till found at Toledo with the horses. The case was adjourned until the 23rd.

"GOLD NOT LIVE" WITHOUT "FRUIT-A-TIVES"

Writes The Treasurer Of Caledonia Township

Fenaghvale, Ont., Jan. 23d 1910. For thirty-five years (and I am now a man over seventy) I have been a sufferer from Constipation.

No matter what remedy or physician I employed, the result was always the same-impossible to get a cure.

About two years ago, I read the testimonial of Hon. John Costigan regarding "Fruit-a-tives" and I decided to give this fruit medicine a trial. I have used "Fruit-a-tives" ever since. They are the first and only medicine that suits my case. If it were not for "Fruit-a-tives," I am satisfied that I could not live. JAMES PROUDFOOT.

The liver controls the bowels by giving up enough bile to make the bowels move. The only possible way to cure constipation is to make the liver active and healthy and thus store up sufficient bile to move the bowels. "Fruit-a-tives" acts directly on the liver-ensures an abundance of bile-and causes the bowels to move regularly and naturally. 50c. a box, 6 for five men sent by retail. At dealers, or from "Fruit-a-tives Limited, Ottawa."

Motion by plaintiff for a direction to the registrar to issue judgment herein. Order made.

Christner v. Wilson-F. McCarty for plaintiff. F. Aylesworth for defendant. Motion by plaintiff for an order adding infants as parties. Order made.

Re Fitzgerald-J. D. Falconbridge for applicant. Motion by applicant for an order authorizing accountant to issue another cheque in place of lost cheque. Order made.

Re Gray-G. F. Boland, for mother. F. W. Harcourt, K.C., for infant. Motion by applicant for an order for payment out of court for maintenance of \$50 for each infant. Order made for payment of \$50 for one year for the girl, and three years for the boy.

Re Angus Infants-J. E. Jones, for applicant. F. W. Harcourt, K.C., for infants. Motion by mother for allowance of \$75 for each of the two youngest and \$100 for the elder per year for maintenance. Order made for allowance of \$75 for each of the two youngest and \$100 for the elder per year for maintenance. Order made for allowance of \$75 for each of the two youngest and \$100 for the elder per year for maintenance.

Re Terry-W. H. Hodges, for mother. F. W. Harcourt, K.C., for infant. Motion by mother for allowance for maintenance, education, etc. Order made allowing \$10 per week.

Re Advertising Novelties Co.-J. I. Grover, for creditor. Motion by creditor for a winding up order. No order made.

Re Goey-McLarty (Heyd & H.), for applicant. F. W. Harcourt, K.C., for infant. Motion by a beneficiary for an order for payment out of moneys in court. Reserved.

Warren v. Warren-W. E. Raney, K.C., for plaintiff. J. G. Smith, for defendant. Motion by plaintiff for an administration order. Motion dismissed with costs fixed at \$15.

Maxwell-Harris v. Goldfields, Gold-Ry. Co. W. A. Foster for defendant. G. T. R. Ry. Co. An appeal by plaintiff from the judgment of Middleton, J., of March 25, 1911. At issue \$15,000 damages for injuries sustained by being struck by a rapidly moving engine of the Wagon & Lumber Co. crossing the tracks of the G. T. Ry. at Belle River on her way to school in a rain storm in June, 1910. The accident is alleged to have been caused by the Wagon & Lumber Co. wrongfully approaching and passing the station without giving any sufficient warning of its approach. At trial the action was dismissed with costs. Judgment: Appeal dismissed with costs.

Re Fitzmartin and the Village of Newburg-An appeal from an order of Middleton, J., dismissing the motion to set aside a local option bylaw. Judgment: During argument all objections were dismissed except one, namely, whether Thomas Carr, who voted, had ceased to be a resident of the municipality and therefore not entitled to vote. Carr was a married man, residing with his wife and family in Newburg, the municipality in question, and was such resident when, rated and

Spring Finds the Human System

Loaded With Impurities, Which Cause Pains, Aches and Feelings of Fatigue.

When the Liver and Kidneys Are Overworked and Break Down Get Them Right By Using

DR. CHASE'S KIDNEY-LIVER PILLS.

In the spring the human system is loaded with poisons which have accumulated as a result of artificial winter life. There has been too much breathing of poisoned indoor air, too little outdoor exercise, too much eating of heavy, indigestible food, especially too much meat and too little fruit.

The liver and kidneys struggle to overcome this condition, but the task is too great for them and they get sluggish and torpid, fall in their work and often become diseased themselves.

They must have help, such as is given them by the use of Dr. Chase's Kidney-Liver Pills. There is no great mystery of how these pills purify the blood and take away the cause of tired, spring feelings, backaches, headaches, dizziness, or crampings of the digestive system.

The blood is to be purified the liver and kidneys must do it. And they will, if you awaken their action by using Dr. Chase's Kidney-Liver Pills. It will not take long to get these blood filters into working order if you use this treatment. A few hours will bring improvement and you will learn how to keep these organs healthy and active. One pill a dose, 25c. a box, at all dealers. Edman Bates & Co., Limited, Toronto.

burying ground exempt from municipal taxation.

The defendants must pay costs. Thirty days stay.

Divisional Court. Before Falconbridge, C. J., Britton, J., Riddell, J. Plunkett v. Toronto Railway Company-A. J. R. Snow, K.C., for plaintiff. D. L. McCarthy, K.C., for defendant. Judgment of Mulock, C. J., of 17th March, 1911. This was an action by Samuel Plunkett, father of William Henry Plunkett, who it is alleged was killed by a car of defendant company striking the trolley on which deceased was sitting while driving across the tracks of defendant company, throwing him to the pavement, which he struck with his head, and was instantly killed.

The plaintiff claimed \$3500 damages. At the trial the jury could not agree, and the judge being of opinion that the evidence disclosed no cause of action against defendants, dismissed the action with costs. Appeal argued and judgment reserved.

Re West Lorne-C. St. C. Letich (St. Thomas) for D. H. Mehring, W. E. Raney, K.C., for the corporation. Appeal by defendant from the order of Middleton, J., of 13th April, 1910, allowing a motion by one Dugal McPherson for an order prohibiting C. W. Collier, judge of the county court of Elgin, from certifying to the municipal council of West Lorne that by-law No. 66 of said village being a by-law to prohibit the sale by retail of liquor has not been approved by three-fifths of the qualified voters voting thereon, until he has made enquiry and has ascertained how the ballots marked by five men not qualified to vote and improperly placed in the ballot box or a sufficient number of them to enable him to certify were marked. Appeal argued. Judgment reserved.

Sheahan v. Toronto Railway Company-W. Nesbitt, K.C., for defendant. H. E. Rose, K.C., for plaintiff. An appeal by defendant from the judgment of Latchford, J., of 24th March, 1911. An action by Agnes Sheahan, a stenographer, for \$50,000 damages for injuries alleged to have been caused by being thrown violently from a car of defendant coming into collision with another car near corner of College and Huron-streets, Toronto, on 24th September, 1910. Trial judgment was given plaintiff for \$15,000. Appeal argued and allowed. Judgment below set aside and new trial ordered for an assessment of damages before Falconbridge, C.J., on 18th June at non-jury sittings at Toronto. Costs of appeal reserved. By consent of counsel the sum of \$500 to be forthwith paid by defendants to plaintiff on account.

Shepard v. Shepard-W. E. Raney, K.C., for defendant. A. J. Shepard, K.C., for plaintiff. Motion by defendant for an order for the purpose of raising upon the rateable property of the township a sum of money for the purpose of building and maintaining a continuation of the school district. The motion was dismissed with costs, and on appeal to a divisional court the appeal was dismissed with costs. Costs to be in the cause.

Court of Appeal.

Before Moss, C. J. O.; Garrow, J. A.; MacLaren, J. A.; Meredith, J. A.; Magee, J. A.

Handerson v. Township of West Nisour-J. M. McEvoy (London) for plaintiff. G. S. Gibbons (London) for the council. T. G. Meredith, K.C., and W. E. Meredith (London) for the school board of the township. This was a motion to quash bylaw No. 308 of the township, which was a bylaw for the purpose of raising upon the rateable property of the township a sum of money for the purpose of building and maintaining a continuation of the school district. The motion was dismissed with costs, and on appeal to a divisional court the appeal was dismissed with costs. Costs to be in the cause.

Ford v. Canadian Express Co.-H. H. Dewar, K.C., and J. S. Lundy for plaintiff. W. N. K. K. for defendant. An appeal by plaintiff from the judgment of a divisional court of July 27, 1910. An action by plaintiff claiming \$5000 damages for alleged malicious prosecution without reasonable and probable cause on a charge of forgery of money orders of the Canadian Express Co. At the trial judgment was given plaintiff for \$750 and costs and allowing plaintiff to proceed to a further trial as to the issue of growing out of the board refuse on the charge of forgery. The divisional court set aside this judgment, with costs. Appeal therefrom argued and judgment reserved.

Sound Argument.

You can't feel energetic unless you are well and you can't feel well unless your stomach and bowels are well looked after. St. Leon is a natural spring water heavily charged with iron, sulphur, magnesia and a dozen other minerals. You get it just as it flows from the black rocks in the North Country, in all its sparkling purity. From dealers or Main 1221.

Complained of Teaching.

KINGSTON, May 16.-[Special.]-The separate school board has been holding an investigation into complaints made about the teachings of Principal O'Reilly of St. Mary's School. Members of the board refuse on the case the matter, but it is understood that the action of the principal was sustained. The complaint was registered by parents of the children.

Better Than a Tonic

At this season of the year, after a strenuous winter the human system requires the most nourishing, body-building food. Food that will build bone, muscle and brain tissue, and replenish the run-down nerve cells of the body. Whole wheat is man's most perfect food.

SHREDDED WHEAT

Biscuit is the whole wheat, steam-cooked, shredded and baked. Nothing added-nothing taken away. Each delicate, porous shred full of strength-building nutriment, and easily digested by the most delicate stomach. Its very crispness compels thorough mastication, the first process in digestion.

Try two Shredded Wheat Biscuits for breakfast with milk or cream. Always heat biscuit in oven to restore crispness before serving.

Made by Canadian Shredded Wheat Co., Ltd., Niagara Falls, Ont.

TRACKS NOT PROTECTED

Jury Blames Poor Fencing for Death of Albert Hutchins.

"We, the jury, find that Albert Hutchins came to his death from being run over by a Grand Trunk freight car. We find that the fence is not in a fit state of repair to keep small boys off the track, and we strongly urge that a sufficient fence be put up and maintained in a constant state of repair so that no persons can be in danger from passing trains."

Coroner Dr. A. E. Morgan's jury expressed themselves after hearing the evidence on the 7-year-old child, who was run over by a freight car, while trespassing on the tracks just east of the Lansdowne-village station.

CORONATION DAY PROGRAM

Military Parade in Morning and Night Celebration in Riverdale Park.

According to arrangements made at the special meeting of the civic legislation and reception committee yesterday, there will be a full military parade on the morning of Coronation Day.

There will be a full military parade on the morning of Coronation Day. As well as the military turnout with the exception of sections of the cavalry, who will be in charge of the coronation band.

DECISION RATHER DISAPPOINTS TAFT

Agrees With Dissenting Judge As To Distinction Regarding "Reasonable" Trusts.

WASHINGTON, May 16.—Governmental Washington gave over the greater part of to-day to a discussion of the supreme court's disposition of the Standard Oil case.

While there was much gratification in administration circles over the order for the dissolution of the giant corporation, which had been declared "an unreasonable" combination and monopoly in restraint of trade, there was also some misgiving as to the interpretation of the anti-trust law giving the courts the right to determine whether or not a monopoly was "reasonable," and declaring a "reasonable" monopoly not to be in contravention of the statute.

President Taft, who a little more than a year ago, in a special message to congress, declared that under supreme court precedents, there could be no such things as "reasonable" and "unreasonable" restraint of trade, or in other words, "good trusts" and "bad trusts," was said to-day to have been rather keenly disappointed that the court should have seen fit to reverse itself in this important matter.

The seeming similarity of the president's views as to the scope of the anti-trust law to the view expressed by Associated Justice Harlan in his dissenting opinion of yesterday, attracted renewed attention to Justice Harlan's position, as outlined in his statement to the court.

Justice Harlan held that his brother judges had no right to usurp the function of the legislative branch of the government by writing into the statute a differentiation between "reasonable" and "unreasonable." He declared that congress had retained all appeals to so amend the act, and that there was every reason to believe that such an amendment could be put into the legislative branch.

Justice Harlan declined to be a party to such a reversal and hence his dissenting opinion. He denounced as "the most alarming tendency of the day," the tendency to judicial legislation. Men of power, he said, were always trying to get the courts to do what congress would not.

President Taft in his special message to congress of January 7, 1910, urged a federal incorporation act, declared that to put the word "reasonable" into the anti-trust statute and thus leave it for the courts to say what was a reasonable restraint of trade, would be put into the hands of the courts "a power impossible to exercise on any consistent principle, which would insure the uniformity of decision essential to good judgment."

As to the doctrine of "good trusts" and "bad trusts," which the majority opinion of the court, as expressed by Chief Justice White seems to have laid down, President Taft in his message, written more than a year ago, said: "The public and especially the business public, ought to find themselves of the idea that such a distinction is practicable or can be introduced into the statute. Certainly under the present anti-trust law no such distinction exists."

The president was quoted by a caller to-day as saying: "I defer to the will of the supreme court; I am willing to take my law from it."

Generally speaking Democratic senators and representatives to-day frankly expressed their disappointment as to the "rule of reason" feature of the decision. Chairman Adamson of the house committee on interstate and foreign commerce declared the supreme court had no constitutional power to write the word "reasonable" or "unreasonable" into the Sherman Anti-Trust Law.

It was reported to-night that several Democrats are ready to offer amendments to nullify the court's interpretation of the law, but the matter unquestionably will be carefully considered before any action is taken. Some insurgent Republican senators also are said to have in view amendments to the anti-trust law, declaring all monopolies, whether reasonable or unreasonable, to be in restraint of trade.

Representative Mann, a Republican leader of the house, gave the decision his hearty endorsement. He defended the court's action in the use of the word "unreasonable" as showing a change in the such distinction had not been made in the opinion, the business world would have been thrown into chaos.

The senate to-day, Senator La Follette, the insurgent leader, read Attorney-General Wickersham's statement expressing gratification at the decision and said it showed a change in the administration's views since President Taft sent his message to congress. The indications to-night are that the cabinet as a whole, will favor a federal incorporation law rather than amendments to the Sherman law.

SPADINA-AVENUE CROSSING.

Editor World: As the city are considering allowing the C. P. R. to establish a freight crossing on Spadina-avenue at Front-street, I beg to advise you that 33,790 vehicles passed over this crossing during 1910, from two of the dozen companies located and doing business, where the only means of access is over this crossing.

The following will give you the number of teams for each month: Sand and Warren Bit. Supplies Ltd. Pav. Co. Teams.

Table with 2 columns: Month, Number of Teams. Lists monthly team counts from January to December.

Total 11,184. As the city are endeavoring to do away with level crossings at a cost of several million dollars, would it not be a mistake to allow a level crossing over what will be one of the busiest thoroughfares in the city during the next ten years? W. G. McClelland.

DEATH OF BAILLIE WALLACE

Scotsman Who Died, Aged 99, Was Well-loved Character. Announcement of the death at Tain, Ross-shire, Scotland, on May 1, of Alexander Wallace, J.P., hon. sheriff substitute of Ross, Cromarty and Sutherland, has been received by many Scotsmen in Toronto, Montreal and elsewhere with profound regret.

It is said of Mr. Wallace, who was generally known as Bailie Wallace because of 50 years in Tain, that he had worn fringed trousers the world. He was a bachelor, an energetic politician, and noted for his extreme kindness, which manifested itself in constant effort to benefit the poor with whom he came in contact. The "Grand Old Man" was an application sometimes bestowed upon him by admirers. He was in the hardware business in a large way for many years, but retired some years ago. He was 99 years of age when he died, but up to a short time before the end he could walk regularly five miles a day, and looked like a man of sixty.

Among the Toronto people who mourn his passing is Hugh Cameron of Cameron & Sons in Tain, that he had worn fringed trousers the world. He was a bachelor, an energetic politician, and noted for his extreme kindness, which manifested itself in constant effort to benefit the poor with whom he came in contact. The "Grand Old Man" was an application sometimes bestowed upon him by admirers. He was in the hardware business in a large way for many years, but retired some years ago. He was 99 years of age when he died, but up to a short time before the end he could walk regularly five miles a day, and looked like a man of sixty.

CITY TOO WELL BUILT AS BUILDERS VIEW IT

Million Dollars Wasted Yearly in Needless Trimmings, So Controllers Are Informed.

A committee of citizens, representing the Canadian Manufacturers' Association, the Ontario Society of Architects, Engineers' Club of Toronto, Toronto Branch of the Canadian Society of Civil Engineers, Canadian Cement and Concrete Association, and the Builders Exchange, waited on the board of control yesterday and protested against the requirements of the present building bylaw.

The committee claimed that while they did not wish to criticize the city architect, yet they thought there were many sections of the present bylaw which should be amended. Apparently in many places the city law did not do what it should do, and in other spots did those things which it ought not to do. Many of the objections are purely technical, but all clearly point to a betterment of the building conditions.

The committee object, among other things, to the requirements of ten inches of fireproofing and one inch of Portland cement around external iron columns, and the compulsory use of fireproofing for iron and steel columns; the low-bearing pressure on brickwork, necessitating the use of 50 per cent. excess material in piers and walls; the thickness required for certain and basement bearing walls; the pile foundation rules; the allowable bending stress on enclosed grillage beams; impossible assumptions as to the loads on columns; the low allowable stress on plate girders, timber columns, and the impossible floor loads in some classes of buildings; the provision regarding the wind pressure on roofs of 30 pounds per square foot.

The committee are not desirous, they say, of cheapening buildings. All they want is a reasonable bylaw which will provide for the safety of buildings. They object to the allowance of the use of inferior grades of

A VOICE FROM THE TEXAN BORDER.

Occasionally a private letter has more than usual interest, especially if it happens to come from a spot that is in the limelight. Here is a letter of that kind from the Texan border:

"My Dear —

"We hear the life and the drum and the bugle call; we hear the 'Tramp, tramp, tramp, the boys are marching,' the rattle of rifles, we see the prancing war steed and its rider richly caparisoned; we are giving you a prophecy to-day. The insurgents in Mexico are rising for the purpose of obtaining a free ballot and a representation in some laws that govern them. The Diaz rule has become centralized to such an extent that it is monarchical; the people's rights have been trampled upon till they can stand it no longer. Ninety per cent. of the people of Mexico are with the insurgents at heart, and they are ultimately going to succeed in obtaining a few, at least, of the rights of a republican form of government and they are not going to stop until these have been obtained.

"If this administration sends our army into Mexico to uphold the Diaz rule, the people of Mexico and the people of this country will not stand for it, and in my opinion it will be a great mistake.

"This opinion is given you from information that I know to be reliable and a slight better and truer information than can be had from the moneyed interests, whose advice is always influenced by a selfish motive. Now remember what I tell you and watch how things turn out. If this administration does not recognize the fact that those people in Mexico are fighting for liberty of thought and liberty of the ballot, and takes a stand against them, retribution is bound to follow. I don't believe that the selfish moneyed power of this country and Mexico will win out when it comes to the shouling of blood and the sacrificing of the lives of mankind.

"I played golf behind President Taft a good many times last summer and I have watched his game and his associates, and I presume he would consider my game and my opinion unworthy of consideration, but with nothing to gain, with no office in view, no favors to ask, no friends to help, with my feelings for my country and ten years of practice in golf, the thought came into my mind, 'If I were a politician, what would I do?' and my answer might not be poorer than that of some of the potentates and politicians who had his car while playing the game of golf."

San Antonio, Texas.

INSURRECTO AS A WORD.

The word "insurrecto," so commonly used in the newspapers, is not to be found in any authoritative dictionary of the English language. It appears to be a Latin word, "insurrectus," Latin-American rather than of Albanian, Polish or Italian.

MOTHERS DO YOU KNOW

That when you put a salve onto your child's skin, it passes through the pores and enters the blood, just as surely as if you put it into the child's stomach?

You would not put a coarse mass of animal fat, colored by various mineral poisons (such as many crude salves are) into your child's blood by way of the stomach? Then why do so by way of the pores?

Take no risk. Use always the pure herbal essences provided in Zam-Buk. Zam-Buk contains no trace of any animal oil or fat, and no poisonous mineral coloring matter. From start to finish it is purely herbal.

It will heal sores, ulcers, abscesses, eruptions, varicose ulcers, cuts, burns and bruises more quickly than any other known preparation. It is a deptic, quickly stops the smarting of a sore or cut, cures piles, inflamed sores and blood-poisoning. It is a combination of healing power and scientific purity. Ask those who have proved it.

All drug stores and stores 50c box or Zam-Buk Co., Toronto, for price.

ZAM-BUK
SHOULD BE IN YOUR HOME

HOW TO PRESERVE EGGS.

Now that eggs are the cheapest as a rule that they have been for years, many people are enquiring about methods of preserving them. The old way was to pack them in salt or lime. This served the purpose, but it gave the eggs a very strong taste.

The approved method now is the one which calls for the use of "water glass" or silicate of soda. This is a thick, syrupy liquid which can be had at most drug stores for about 10 cents a pound, and a pound is enough to treat a dozen eggs so that the cost of preserving is about two cents a dozen.

There are several grades of water glass, and it is well to get the best. To prepare the solution, stir one part of the silicate of soda into 18 parts of water which has been boiled, cooled and carefully filtered. Measure the water.

It is essential to have the eggs fresh, or the experiment will not be a great success. Those over three days old should not be used, as the air has already had a chance to penetrate them. The very best way is to keep the solution made up ready and put the eggs into it just as soon as they are brought in from the nests, if you have your own chickens.

If it were possible to try to preserve eggs that are not fresh or that have been cracked or washed.—The Pathfinder.

BUT THE WHEEL MUST BE READY. A bicycle in the house (in sound condition) is worth two in the repair shop.

The "Brantford" has a reputation earned by years of efficient service to thousands of riders.

Abbott-Detroit BUILT FOR PERMANENCE

One of The Best Nine Cars Made---Costs Much Less Than Any Of The Other Eight

There are quite a number of American-built motor cars rated as "Good"—there are but nine rated, by men who know, as "Best"—best, because only nine have amply shown, thoroughly demonstrated and satisfactorily proved their real worth by service. The value of any car is judged not by name, not by racing points, not by glittering advertising generalities, but simply by the amount of service it gives the owner.

The Abbott-Detroit is one of the best nine cars on the American market, but costs considerably less than any one of the other eight. The Abbott-Detroit, the primarily a touring automobile, has successfully competed (at 15 hours' notice) with special motor racing machines, and in each instance came out of the struggle alive, healthy and victorious, as for example the Vanderbilt Cup and Fairmont Park races. Read the daily bulletins of the "Abbott Bull Dog" now en route along the Mexican border. This car has traveled 30,000 miles, and is still running—as an evidence of Abbott-Detroit reliability.

To conceive your ideal motor car in your own mind is one thing; to secure its interpretation within your appropriation is quite another. This requires discrimination and a careful comparison with other cars on the market. Write us for the booklet of the Abbott-Detroit, and then choose for yourself.

GUARANTEE

This is to certify that the Abbott Motor Company will fully warrant and guarantee the Automobile covered by this certificate for its entire life, from the date of the original sale by the dealer. This guarantee also includes all material and all equipment, with the exception of tires, magnets, lamps, etc., which are warranted by their respective makers, used in connection with construction of said automobile. If any parts of this car break or prove defective from any cause whatsoever, and the customer shall forthwith communicate the fact to the Abbott Motor Company, or one of its authorized dealers, giving the number of car and the name of the dealer from whom the car was purchased, and the date of purchase, and it shall appear that such breakage was not in fact due to misuse, negligence, or accident, the Abbott Motor Company or the factory in Detroit, Michigan, free of charge to the owner, will furnish such new parts, either through its dealer or at the factory in Detroit, Michigan, free of charge to the owner. This guarantee does not apply directly or indirectly to consequential damages of any nature whatsoever, or to the replacement of tires, which are guaranteed by the makers thereof.

Prices:

- Five - Passenger Fore-Door Touring Car, \$2,100;
- Five-Passenger Touring Car, \$2,000;
- Fore-Door Roadster, \$2,000;
- Fore-Door Demi-Tonneau (tonneau detachable), \$2,200;
- Go up e, \$2,800. All standard equipment.

PREVENTING DISEASE BY ELIMINATING DUST.

The relation of dust to diseases of the respiratory system; asthma, hay fever, bronchitis, pneumonia, and influenza, whooping cough, phthisis and the fibroid and tubercular diseases of the nose, pharynx and larynx, is too well understood to call for discussion.

There are two classifications of dust, according to Frederick L. Hoffman, statistician of the Prudential Insurance Company. In a paper presented before the first mayor's annual conference of the State of New York, and reproduced in The American City for May, he describes outdoor dust and indoor dust. The former is met with on streets, pavements, highways, steam and electric railways, subways, tunnels, etc. These are, in a measure, more of a public nuisance than a direct menace to health.

More serious than outdoor dust in its general form is indoor dust met with in domestic life, in public places, post-offices, courthouses, schools, churches, libraries, theatres, etc.

The dust of streets and roads is the cause of a vast amount of sickness, investigation emphasizes the importance of scientific methods of highway construction and care of streets and pavements.

The extensive use of motorized propelled vehicles has increased enormously the difficulties of dealing effectively with the dust nuisance except by radically different methods of road maintenance than have heretofore been in use.

Street dust is no more and no less than direct destruction and disintegration with serious consequences to public health. Dust may act as a predisposing cause of disease or as a direct physical irritant, inflaming the mucous membrane and

weakening its resistance to bacillary invasion.

Such dust may carry infection directly by means of dried tuberculous sputum which, some ignorant or careless consumptive has recently expectorated, while incident tuberculosis may be aggravated and converted into a case of rapid and virulent destruction of lung tissue, because of the addition of pus-producing germs.

Health injurious dust is produced by crude methods of sidewalk cleaning, building operations, and in a most aggravating way by the demolition of old, insanitary buildings without spraying, sprinkling, or the use of dust-laying material, which a rational municipal administration should insist upon.

Methods of dust removal indoors are rarely more than crude methods of dust disturbance. Ordinary sweeping should be absolutely done away with and pneumatic methods of dust removal substituted as essential to the public health.

The cleaning, brushing, sweeping, etc., of public conveniences, sleeping and parlor cars, push cushioned street cars, etc., in the presence of passengers should be absolutely prohibited. No doubt considerable disease is spread in the brush of coats, hats, etc., after dust-stained travel in sleeping or parlor cars.

The problem of effective dust removal is a difficult one. There are no better dust collectors than library books. The close coincidence of school attendance and epidemics is as much the result of dust exposure as of direct contagion or infection from one pupil to another.

Pneumatic processes should, as far as practicable, replace crude methods of sweeping and dust disturbance. The doing away with needless carpets, rugs, hangings, etc., will result in fewer catarrhal diseases and diseases of the throat

and air passages. The sale of feather dusters should be prohibited.

In Europe, a proper floor dressing has been perfected for public buildings, schools, theatres, churches, etc., but the thorough removal of dust, and especially of factory and industrial dust, has received only incidental consideration in the United States. What is required to-day is effective medical supervision of schools and of factories, workshops and public conveyances, and intelligent supervision of lighthouses and public buildings.

In no field is the outlook for successful work more hopeful than in dust prevention as an agency detrimental to human health and life.

Week-end Trips.

The Grand Trunk Railway System issues return tickets at single fare (plus ten cents) from Toronto to 200 points in Ontario; good going Saturday and Sunday, valid returning Monday following date of issue. Full particulars and tickets at Grand Trunk City Ticket Office, northwest corner King and Yonge streets. Phone Main 4209.

Safe Place.

The political orator inflated his chest and started in on another characteristic of his candidate—bravery.

"In war," he said, in ringing tones, "in war, my friends, he was always found where the bullets were thickest."

"Hiding behind the ammunition wagon?" enquired a shrill voice from the rear of the hall.—Youth's Companion.

PROPOSED HUMBER PARKWAY

The plan shows the Humber River Boulevard and Parkway offered to the city by Mr. R. Home Smith. The boulevard begins at the lake shore, following the river to the east, crossing it three times. Some 75 acres would be given to the city for park purposes on the river banks on both sides for all time.

(By courtesy of The Evening Telegram.)

Continued From Page 1. The plan shows the Humber River Boulevard and Parkway offered to the city by Mr. R. Home Smith. The boulevard begins at the lake shore, following the river to the east, crossing it three times. Some 75 acres would be given to the city for park purposes on the river banks on both sides for all time.

Eight Hundred Acres on Humber. In an interview Mr. Smith said: "The scheme of the Humber drive-way, boulevard and park was first definitely fixed on about six years ago. For the last five years the property has been gradually accumulated. At present seventy-five owners have been dealt with, and the acreage bordering on the river from Dundas-street to the lake shore is about eight hundred. On the plan as drafted and prepared the table land on both banks, which will be divided into building lots, is served by a street 100 feet wide, leaving the lake shore at Jane-street, crossing the river at Bloor-street, which is widened to 100 feet from Jane-street to the river, and proceeding thence generally to about the corner of Church and Dundas-streets, just west of the Village of Lambton.

Boulevard Route. The plan for the boulevard also commences at the intersection of Jane-street and the Lake Shore-road and proceeds along the river bottom, crossing the river twice, and striking the west bank at Bloor-street, from whence it follows along the river bottom again to Dundas-street. Our plan shows roadways covering a strip 100 feet wide, with a parkway on each side for shrubs, trees and grass, and from time to time larger areas, which can be used as small parks. This driveway will be a continuation of the lake shore boulevard and will practically connect with the new Eaton-road on Dundas-street.

Chain of Islands. "Nearly all the flat lands will be given to the city, it being the swampy portions will be drained and the material thrown up on the banks as to make a series of islands from Bloor-street to the lake, and on these islands, connected by short bridges, the boulevard will be built. The building lots on the high bank are laid out on a generous scale, and it is understood that they will be sold subject to strict building restrictions, the minimum cost of a building being fixed, and only the house to each 100 feet lot. In addition to this, it is understood that the owners are to be supervised all plans of houses to be erected on the banks, so that their architecture may conform to a general artistic scheme. The lots run to the bottom of the high bank, but purchasers will covenant not to cut any trees without the consent of the present owners, and later, when the city takes over the park area, the consent of the

ABBOTT CAR IS FIRST GLIDDEN TOUR ENTRACT. S. G. Chapman Learns Factory Will Have Three Cars in National Contest.

According to recent advices from eastern sources preliminary arrangements for this year's Glidden tour are rapidly rounding into shape. A. Abbott-Detroit, manager of the Chicago M. Robbins organization, has the distinction of entering the first contestant for the big event. The machine entered is a "Bull Dog," which has already covered a fourth of its notable 100,000-mile tour.

Robbins will drive the Abbott-Detroit car in the Glidden tour himself. Some years ago, in another make of car, in the dead of winter, Robbins lowered the record between Boston and New York. Since then Robbins has been at the wheel in several strenuous tours, and there is no doubt that the Glidden will be well served when he starts as the Abbott pilot on June 19.

In a letter to S. G. Chapman, B. C. Spitzley, assistant general manager of the Abbott Motor Car Company, says: "In addition to the car which will be driven by more Abbott-Detroit will start two more Abbott-Detroit. We consider this year's Glidden the most sensible tour inaugurated since the birth of the automobile. The use of an automobile, the roads will be average, and the road climbs will be of sufficient frequency to give the prospective buyers an opportunity to test the car under conditions that are not met by the former Glidden tours. The predominant feature of the present scheme is the opportunity to test the car under conditions that are not met by the former Glidden tours. The predominant feature of the present scheme is the opportunity to test the car under conditions that are not met by the former Glidden tours.

Extnd City Limits. In conclusion, Mr. Smith said that the city now has an opportunity of taking over at a minimum of cost what can be made one of the finest parks on this continent. As a first step in this direction proceedings have been taken to extend the city limits, taking in the River Humber and a strip on the west bank of Dundas-street to the lake, this could give the city control for police and other purposes. The beauties which already exist and begin with the work of development.

TO THE BRIDEGROOM. You may not have noticed it, but they button in the back. Life is a discipline, and so you had better take time by the forelock and be prepared.

Purchase from some large dressmaking establishment one of those bulky ladies who have neither head nor legs, known as dummies or dress forms. Procure an old gown of your mother or sister's and each morning practice fastening it down or up the back.

Set in a rocking chair, so that it will wiggle, and see whether you can get the right button or hook into the right buttonhole or eye. When you can do this, say once out of four times, have the buttons changed to a size just too large for the buttonholes and begin all over again. If fairly clever at this, try a row of hook and eyes invisible to the naked eye.

Then substitute for the metal eyes a few loops of thread, well lost in the meshes of a jungle of lace. Do not use a strong light, for you will often have to perform in the twilight or early morning. Speed is requisite, and there should be a few pins and needles thrust into the gown at unexpected points.

At first you can use the language that comes naturally, but gradually this should be discontinued, and the ladies who have neither head nor legs, known as dummies or dress forms. Procure an old gown of your mother or sister's and each morning practice fastening it down or up the back.

MUST AMEND TRUST LAWS
DECLARES W. J. BRYAN

Standard Oil Decision Worthless
as Public Protection—Tariff
Issue Paramount.

William Jennings Bryan, former Democratic candidate for the United States presidency, said to The World yesterday that he viewed the supreme court decision in the Standard Oil case from a thoroughly Democratic standpoint. He regarded it as a substitute, or using the words of The Pall Mall Gazette, a "theatrical, needless, victory for the opponents of the money power."

"The decision is disappointing," were the words he used. The immediate effect would be to make the trust question a prominent issue in the United States, was his further explanation as he pointed out. "Even as the Sherman anti-trust law has been heretofore construed, it has been very difficult to restrain the trusts under the new construction it will be impossible."

The decision, while dissolving the Standard Oil Company, virtually amends the law so as to make it necessary to prove that any restriction of trade complained of is unreasonable. The effect of this is practically to nullify the law, and to make it necessary to amend the Sherman anti-trust law and make it more stringent. For, since each case must be decided upon the facts presented in that case, and as each case will be taken to the supreme court, no one will know until after several years of litigation whether a given trust is violating the law or not.

Must Amend Anti-Trust Law.
The dissenting opinion of Mr. Justice Harlan observed Mr. Bryan, pointed out forcibly the far-reaching effect of the decision. It would not be necessary to secure an amendment to the anti-trust law to make it worth anything. While the decision would do nothing to amend the Sherman anti-trust law, the reorganization of the Standard Oil Company, the reorganization could be easily made so that the restraint on the company would be only temporary.

Tariff Main Issue.
Mr. Bryan did not incline to the view that the supreme court judgment would subordinate the tariff issue, on the contrary he said:

"While the indications point to the ratification of the reciprocity agreement by the senate, the tariff issue will be no closer to a confident prediction can be made at present. I am in favor of the agreement, because it is in the direction of reduction, and I am even more in favor of the Farmers' Free List Bill passed by the house, which reduced the tariff on about one hundred articles without regard to what other nations do."

Touching briefly upon other subjects in the public eye, or over-capitalization, the ex-presidential candidate expressed the opinion that there was another grave question, which United States had to face. There was no defence for the principle of stock watering. It was a luxury in the same sense as burglary.

It is not likely that Mr. Bryan will be a presidential candidate again, although when The World called he was in the midst of writing an editorial on the supreme court decision, for his paper, "The Commoner."

CONFERENCE ON INSTITUTE WORK

Women Speakers Will Figure Prominently in Convention Next Week.
Smyth George A. Putnam of the Ontario Farmers' Institute has issued a call for a conference of women's institute speakers in Toronto for May 26 and 27. The conference will be held at the Forestry Building, University of Toronto.

The conference topics and speakers will be: "Regulations Governing Summer Series of Meetings and Statements as to Lines of Work to be Emphasized," G. A. Putnam; "Advice to Institute Officers and Members," Miss Laura Rose, Guelph; "Commercial Instruction to Institutes," Miss M. E. Watson, Guelph; "Moral Reform," Rev. J. G. Shearer; "Morality and Medical Inspection in the Rural Schools," Dr. Helen MacMurchy; "St. John's Ambulance Association," Dr. Charles J. Copp, Toronto.

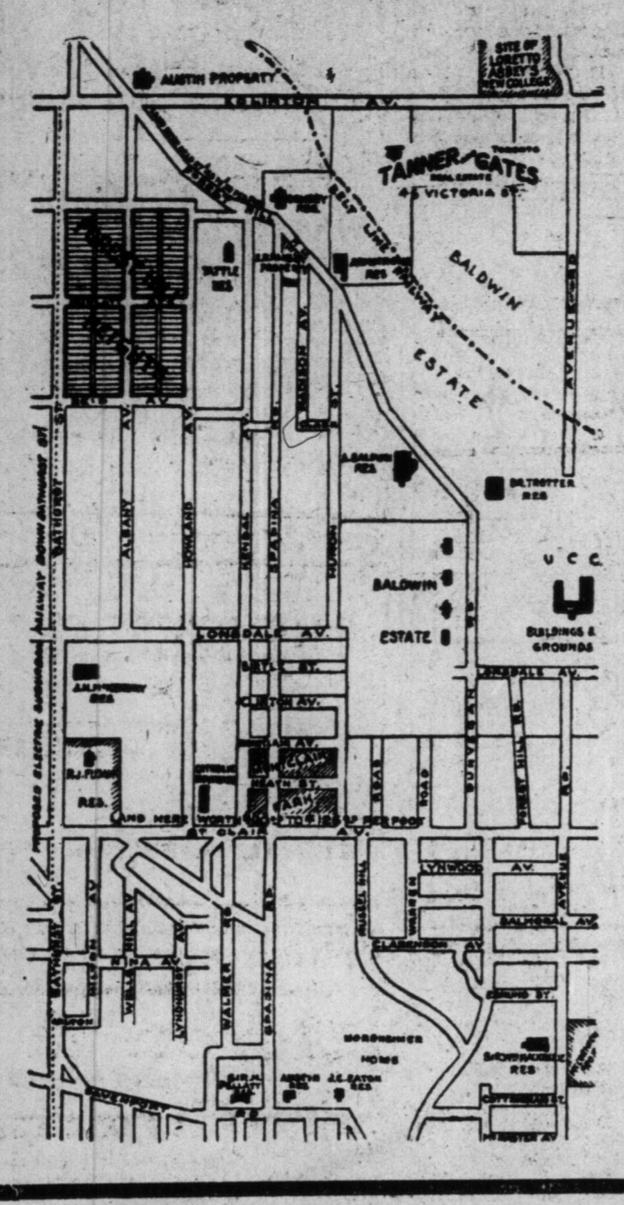

An informal discussion on institute work will also be held on Friday evening, May 25, at the Walker House.
H. B. Commissioner to Retire.
WINNIPEG, May 16.—It is stated on what is claimed to be good authority that Commissioner C. C. Chipman of the Hudson Bay Company will retire June 30, on a life pension of \$25,000 in recognition of his great service, and that he will live in England.

Blood Poison
30-Day Treatment
FREE

Remarkable Results Produced by New Vegetable Treatment Without Use of Mercury or Potash.

The terrible results of mercury and potash on blood poison are well known. The most these drugs do is to give the blood poison back into the system. The most they do is to make the blood thicker. When you think you are cured, plitful mercury symptoms often break out, and you find that your bones have been rotting all the while. Your teeth may begin to loosen and your tissues, glands, brain and vital organs show the terrible destructive power of the mercury and potash. Lockjaw, Ataxia, Paralysis, Imbecility and Premature Death are then almost inevitable. Medical authorities admit that this is so. The remarkable new treatment called the Obbae treatment, is purely vegetable, contains mercury, potash, narcotics or opiate. It has produced remarkable changes in only 30 days. Treat yourself privately. The Obbae treatment is a new-born child. The wonderful Waterbury Test, the only blood man has been completely purified by the Obbae treatment. Don't spend months and years of your precious life, and destroy your health by taking mercury and potash which doctor by taking medicine. Write today. Send your name and address and complete description of your case to the Obbae Co., 265 Obbae Bldg., Chicago, and they will send you, free, a 30-day treatment, fully free.

FOREST HILL HEIGHTS

THERE'S MONEY IN IT

More wealthy men have been created through Real Estate than by Railroads, Mines, Lumber, Stocks, or any other means of investment. Real Estate is surer than any other form of investment. One of the best opportunities in Toronto to-day is

FOREST HILL HEIGHTS

A reasonably-restricted residential district near Upper Canada College.

We are able to offer single lots or more at Forest Hill Heights to individual investors or home-builders at the same or even lower prices than the surrounding properties are being sold wholesale by the acre.

Call or write at once for full particulars. Intending purchasers gladly taken over the property. For the convenience of intending purchasers there will be a representative on the property Wednesdays and Saturdays.

TANNER & GATES

46 VICTORIA STREET, TORONTO, ONT. 'PHONES MAIN 5893-5894

ESTATE NOTICES

NOTICE TO CREDITORS—IN THE matter of the estate of Nancy Witty, late of the Township of Vaughan, widow, deceased.

Take notice that all creditors and persons having claims against the estate of Nancy Witty, deceased, are required to send particulars of same, duly verified, to the undersigned solicitors for the executors, Michael Witty, John Thomas Witty and William Ernest Witty, or before the 15th day of June, 1917, after which date the estate will be distributed amongst the parties entitled thereto, and the executors will not be liable for any claims of which notice has not been received. Dated this 15th day of May, A.D. 1917. PROUDFOOT, DUNCAN, GRANT & SKEANS, Confederation Life Bldg., Toronto, 3333. Solicitors for Executors.

ASSIGNEE'S SALE

The undersigned is open to receive offers for the purchase of the steam yacht "Tenno," part of the estate of W. H. Tavers, This boat is 18 feet long by 12 feet 6 inches wide, and has triple expansion engine made by Hodge & Co., London.

The boat may be inspected at the yards of Selby & Touden, Limited, Kingston. For further particulars apply to G. T. CLARKSON, 33 Scott Street, Toronto.

NO APPEAL FROM ORDER FOR AN INVESTIGATION

Important Decision at Montreal in Case Against Alleged Shoe Combine.

MONTREAL, May 15.—That there is no appeal from an order of a judge directing an investigation under the Combines Investigation Act of Canada, is the effect of a judgment given in the court of appeal this morning by Mr. Justice Cross, and supported by the other judges on the bench.

It was in the case of the United Shoe Machinery Company v. Drouin Metal, and on account of the precedent which it establishes it was awaited with interest by a host of lawyers and industrial interests. The result of the judgment is the original order by a judge of the superior court.

It was announced later, however, that the United Shoe Machinery Company would immediately carry the case to the privy council. This will mean that the three commissioners appointed to carry out the investigation into the so-called combine will not be able to make a move for some time, in any event.

Mr. Justice Cross said, in part: "I consider that so-called judgment directing the investigation does not decide any issue between parties, but merely has the effect of opening the door to the investigation provided for in the act. To guard against ill-considered or meddlesome procedure, the act has provided the requirement that an investigation shall be entered only after a judge, who has heard the applicants, has become satisfied that there is reasonable ground for it and that the investigation is in the public interest. It is to be remembered that the authority upon which the judge acted is that conferred by the act, which is a Dominion statute. It is manifest that there are orders of a different nature, and that the judge, which are not to be regarded as judgments or decisions of a nature to be subject to appeal. The order in question is consequently more in the nature of a fiat of the attorney-general. I do not only cannot find that there is any clear right of appeal, but I consider that there is a clear legislative intent that there shall be no such right of appeal. I conclude that there is no pending suit, no judgment, no parties in issue, and no appeal, and would therefore, quash the so-called appeal."

AUCTION SALES

AUCTION SALE

Solid Brick Dwellings in the City of Toronto

There will be offered for sale by Public Auction

ON Saturday, 20th May, 1917

At 12 o'clock noon at C. J. TOWNSEND'S AUCTION ROOMS, 66 and 68 King St. E., Toronto

"A STORM IN A TEACUP"

LONDON, May 16.—Frank Lascelles, master of the festival of the empire pageant, in an interview to-day with reference to the strictures in the Canadian Parliament because of the omission of battle of the Chateaugay, said that it was a storm in a teacup. The abandonment of the scene, he asserted was not due to fear of American feelings, but the result of "confusion" reached by the Canadian Committee. That the episode was not typical of Canadian life.

BUY LOTS AT OLD PRICES

Many people are surprised that we are not asking higher prices for lots in

LAWRENCE PARK

While this beautiful district is the loveliest anywhere near Toronto, and has all the modern conveniences, such as roadways, sewers, pure water, gas and electricity, still we have not yet raised our prices to the figure many believe we should ask.

Now is the time to buy for a Home or for an Investment.

\$20 per Foot Up

See the property. It appeals to every lover of a fine home. To see the property take Metropolitan car to Elm Grove. Office on the ground.

GREEN-MEEHAN TO SHIP STARTING ON SATURDAY

Manager Thomson Able to Show Excellent Results From Earnest Work.

The following wire regarding Green-Meehan was received last night by Charles A. Stoneham Co. 23 Melinda st., from Manager A. M. Thomson, M.E.

CROWN CHARTERED CLAIM PROVED UP AT DEPTH

Diamond Drill Put Down 500 Feet—Engineer Lamb Makes Many Inspections.

PORCUPINE CITY, May 14.—(From Our Man Up North.)—R. W. Lamb, consulting engineer, is busy now with the second and third shafts of the Crown Chartered claim.

At the present moment the market looks fairly steady, and may continue to be, but that should not prevent producers and others from being in the market.

What Victoria Creche is Doing. The annual meeting of the board of management of the Victoria Creche Day Nursery was held yesterday at 374 Victoria street.

Q. O. R. Promenade Concert. The Imperial Daughters of the Empire Q. O. R. chapter have arranged for refreshment booths at their entertainment at the armories on Saturday next.

Liverpool Wheat Market. The Liverpool market is opening in a very active manner.

Winnipeg Wheat Market. Close. Open. High. Low. Close.

ST. LAWRENCE MARKET. Receipts of farm produce were 200 bushels of grain, 10 loads of hay, and a few dressed hogs.

FRUIT MONOPLY. Exists in City, Declare Fruit Farmers—Want Independent Market.

PAY WHEN YOU ARE CURED. Pick out the man who has worn my Belt. See them with head erect, eyes sparkling, and a glow of health in their cheeks.

DR. M. O. McLAUGHLIN, 231 Yonge Street, Toronto, Can. Dear Sir—Please forward me one of your Books, as advertised.

PORCUPINE BULLETIN. PORCUPINE, Ont., May 16.—(Special.)—Fine and warm, wind, north-west, roads drying up.

SILVER MARKET IS NOW HIGHLY SPECULATIVE

Huge Holdings of Indian and Chinese Speculators Are Kept at a Loss.

The silver market at the moment is highly speculative, and according to recent despatches from London the future disposition of the huge stocks which have accumulated is problematical.

ONTARIO VEGETATION MAKES GOOD SHOWING

Favorable Report on Fruit Prospects, Live Stock and Fodder—Farm Labor Scarce.

While the Ontario grain report, published yesterday morning, was not optimistic, the report on vegetation, fruit trees and spring sowing, issued last night, is favorable.

Receipts at Primary Centres. Receipts of wheat in car lots at primary points, with comparisons, were as follows:

European Grain Market. The Liverpool market closed today 1/2d higher than yesterday.

Foreign Crop Summary. Broomfield's foreign crop summary issued yesterday was as follows:

Let Us Direct You to the Right Road

We heard of a man across the line the other day who paid \$485 for an automobile and \$200 for an automobile coat of fur. On the other hand, one of the oldest motorists in Toronto, a man who has owned half a dozen different makes of cars, came in last week and picked out one of our fifteen dollar automobile waterproof coats as the best value he'd ever seen.

If you are speeding along the highway of extravagance, in the matter of clothes, let us warn you that the lower road of economy, though it appears rougher, is a surer road to happiness—and don't forget, it starts at the corner of Richmond and Yonge.

Men's Automobile Waterproof Coats

Fine quality English Paramatta Waterproof Coats, in olive, fawn; single-breasted motor style, cut long and roomy, with military collar, fastened with tab, wind straps on sleeves. Sizes 36 to 46 10.50

English Paramatta Automobile Waterproof Coats, extra quality, in light fawn, a double texture material, that is very serviceable and guaranteed thoroughly rainproof, single-breasted style with adjustable collar. Elastic wind cuffs in sleeves. Sizes 36 to 46 15.00

Men's White Oxford Shirts, with self colored mercerized stripes, large bodies and full length, seams double stitched, made with reversible collar so that separate collar can be worn if desired; sizes 14 to 18. Regular \$1.25. Thursday 1.00

Summer Coats

The management of the Mantle Department seemed unduly elated over a newly arrived importation of Summer Coats, so nothing would satisfy but a little trip to inspect them. NOW we do not blame the management for the aforesaid elation.

These coats are very seasonable (just the thing for the Races), distinctly stylish and well made. They are suitable for young or middle-aged women, and some of the black lace ones are stately enough for older wearers without being the slightest little bit severe. Every garment merits the adjective "exclusive"; there are hardly two alike.

It would certainly pay you to make a little trip of inspection, too; whether you buy one or not, you certainly cannot help but enthuse.

These details will give you a further idea of price and appearance:

Lace Coats are in demand just now. We have a collection of imported coats in our Mantle Department. They are made in styles suitable for either young or elderly ladies' wear, in long and 3/4 lengths; some are handsomely trimmed with black satin, large collars, and kimona sleeves; some are in plain styles. A range of very handsome coats at prices ranging from \$8.50 to \$45.00

A Smart Summer Coat of Tussore Silk, in natural shade, made in a plain tailored style, semi-fitting back, with heavy stitched seams, single-breasted fronts, tailored collar and revers, plain sleeves with wide cuffs, smart pockets; are very fashionable at the extremely moderate price of \$12.75

Girls' Cream Serge Coats, one of the fashionable styles of girls' coats is of a good quality all-wool cream serge, is lined throughout with sateen, a smart double-breasted front, neat sacque back and mannish collar and lapels, tailored sleeves with stitched cuffs, trimmed with novelty buttons; sizes are 6 to 14 years. Very special 6.50

An All-Wool Serge Coat in Cream, with blue stripe, has shawl collar inlaid with Alice blue silk, plain sleeves, stitched cuffs and fancy patch pockets, trimmed with novelty buttons. Sizes range from 6 to 14 years. Price is 7.95

Superior Summer Underwear for Women

Every tissue, every texture best adapted to the production of summer undergarments for women of critical taste is included in the "Simpson" underwear stocks. Approved styles from the world's best makers are here in vast variety, some of which were selected to please you. Come on Thursday and select your summer requirements while assortments and sizes are complete. Several saving prices will be inducements. Ask for "Whitewear" if phoning.
