GAMBLERS ARE PROTECTED BY COURTS OF U.S.

Gambling Houses Can Exist Only Because of Their Being Practically Shielded by Judiciary, Says Police Commissioner Waldo—Web is Tightening Around Gunmen.

BECKER WILL NOT TALK

NEW YORK, Aug. 4.—(Can. Press.)—Police Commissioner Rhinelander Waldo to-night gave out his first formal statement relative to the Rosenthal case. The commissioner recommended an impartial and thorough investigation of the charges made relative to the alleged connection between the police and the gamblers. At the same time, he aimed a blow straight from the shoulder at the judiciary, declaring that gamblers can exist only because the gamblers can obtain what amounts to protection from the courts, and assuring that gamblers do much of the corrupt election work of the political parties, who place the judiciary on the bench.

While the issuance of the statement was the most important development to-day, it was reported at police headquarters that detectives were close upon the trail of "Lefty" Louie and "Gyp the Blood" Horowitz, the two remaining gangsters sought by the police in connection with the murder. Inspector Hughes spent his third day in personal charge of a force of detectives near Tannersville in the Catskills.

Men Partially Traced.
It is now known positively that "Gyp the Blood," "Lefty" Louie and "Whitey" Lewis were in Tannersville last week. Lewis left the others to go to Fleischmanns, where he was captured. Horowitz and "Lefty" Louie, however, are believed to have remained in Tannersville.

WEATHER TO-DAY WILL BE IDEAL

Holiday Crowds Will Get a Real Touch of August is Weatherman's Opinion—Toronto's Big Outing Day.

Fair and warmer says the weather man, and the announcement will bring a measure of joy to the hearts of thousands of Torontonians who last night were rather resigned to the prospect of a chilly holiday. It was had enough that Sunday should bring reminders of October weather, with its rain and wind, but Civic Holiday!

What will the people do? In the first place, let us not forget the ball games, two of them, one before and one after noon. Lacrosse at Scarborough will draw quite a crowd, while a few wad-loaded individuals may find their way to Dufferin Park. The radials will be crowded, bearing carloads of picnics to Long Branch, Bond Lake, Scarborough and Highland Creek. Balm Beach will welcome many pleasure-seekers, and many more will float up and down the Humber or sail their dinghies on the Bay.

Three in Aeroplane Fly Across Channel

LONDON, Aug. 4.—(Can. Press.)—An aeroplane with pilot and two passengers crossed the English channel from Deal early this morning in a storm. The aeroplane landed at Ashford, Kent, but owing to the heavy wind collided with a tree. The wings were smashed, but the occupants were not hurt.

DISSATISFACTION THROUGHOUT NORTH SAYS ROWELL

Returns From Trip With Great Impression of the Country and Its People—Liquor Law Should Either Be Enforced or Modified, is His Opinion.

DIDN'T VISIT BLIND PIGS

"Dissatisfaction with the present government's methods."
That's what Leader N. W. Rowell of the Liberal party found all thru the north country. His party returned from its tour Sunday morning at 8 o'clock. Mr. Rowell leaving at once for Woodstock, where The World talked over the phone to his last night.

"We were greatly delighted with the trip, the wide areas for settlement, the character of the country and the fertility of the soil were far greater than we expected."
"Politically?"
"We found dissatisfaction with present conditions and the administration of laws relating to settlement and liquor is much greater and more widespread than we could possibly expect. Not all are dissatisfied with the same things, but there is dissatisfaction all round, and far greater than we expected. But we never found a more optimistic people. They are doing all they can to develop the country, and there is no doubt that the new roads under construction by the government will be of great value toward settlement of the north country and one step toward meeting a most urgent situation."

Wasn't in "Blind Pig."
"And about the liquor situation?"
"The World asked."
"More dissatisfaction was the substance of Mr. Rowell's immediate reply. 'I thought any law,' said he, referring to the liquor laws of the north, 'that was not reasonably well enforced and impartially administered should be modified.'
"Mr. Rowell was not in any 'blind pig' while up north. He admitted that cheerfully.
"When The World asked him if he thought that as the laws weren't enforced regarding the illegal sale of liquor, whether it wouldn't be better to have licenses. 'Well, I'm out for abolishing the bar, but a great many people up north hold the opinion that licenses would be better.'
"Changes Must Be Made.
"I think," he concluded, "that unless the government makes some radical changes in the north that it will undoubtedly go against them."
H. H. Lang, formerly mayor of Coburg, who accompanied N. W. Rowell's party on this trip, stated to The World last night that the journey had been a revelation to most of the men, he said, was the trip on the Transcontinental Railway as far as the Metagamint River.

Will Bring Trained Farmers.

LONDON, August 4.—(C.A.P.)—Hon. Rupert Guinness, accompanied by his wife, Lady Gwendoline Innes Guinness, is on the Laurentian bound for Canada. He proposes to remain in Canada for about two months and will consider plans for the development of his scheme for settling on the land young men trained at his farm, where Canadian farming methods are employed.

FIRST CHRISTIAN SCIENTIST HERE DIES IN BOSTON

Founder of Church in Toronto, Mrs. Isabella M. Stewart, Was One of Few Personal Students of Late Mrs. Eddy—Was a Teacher in Church Here.

WAS TO RETURN TO-DAY

The founder of the Christian Science Church in Toronto and one of the very few personal students of the late Mrs. Eddy, the founder of Christian Science in America, Mrs. Isabella M. Stewart of Toronto, died yesterday morning in Boston, Mass. Death followed a sudden illness and was unexpected.

Mrs. Stewart, who was a doctor of Christian Science, came to Toronto twenty-five years ago at which time thru her efforts the Christian Science Church was established in this city. At the time of her death she was a teacher of the Third Church of Christ (Scientist), College and Elisabeth-streets.

She left Toronto for Boston about two weeks ago on a visit to her sister, Mrs. Anne M. Knott. She was to have returned to the city to-day.

Ban on Negro Leaders.

The Florida contest resulted from the sending of separate delegations by white and negro conventions. The former sent six white men, the latter five negroes and a white man. The negro delegates claimed that H. L. Anderson, provisional national committeeman for Florida, suggested that they hold the separate conventions and produced documents purporting to prove it. Anderson, admitting that he barred the negroes from the white convention, defended the action, saying:

Many Restaurants Here Are Breeding Places of Disease

Scores of Toronto Cafes and Cheap Eating Joints Are Filthy and Dirty—Many Instances of Food Unfit to Eat—A Clean-up Urgently Needed.

That conditions in some of the downtown restaurants are deplorable, that in fact, the majority of the eating-houses in Toronto are not kept as clean as they should be, nor nearly so, is a fact. Off Yonge-street, where dirt and filth are not so apparent, the meals one has to eat at times nauseate, and at other times tend to make one wish that they were back home and doing full justice to the dishes mother used to make. Along Queen-street, both east and west of Yonge-street, at certain restaurants on Bay-street, and at many on Yonge-street, one cannot get food served that is not either more or less rotten, fly specked or improperly cooked and served. Many of these places give very cheap meals, but this fact neither mitigates nor extenuates the filth or condition of the food served.

Three deaths occurred to-day, bringing the list up to a dozen directly traceable to the fever.

LUMBERJACK HAS PASSION FOR VERY HIGH LIFE

Arthur Jarry, Who Cut Wide Swath in Toronto With Story of Money From Mine and Married Deluded Girl, Repeats His Millionaire Antics in Buffalo.

MARRIED GIRL THERE ALSO

Arthur Jarry, who came down from the north last November with a story that he had just sold a half million dollar mine, and would have plenty of money in a few days, and then proceeded to invest in a motor car, expensive jewelry, extravagant apparel, and also took to himself a wife who was dazzled by his show of wealth and dazed a week later when the half million didn't materialize and the police did, has been trying his J. Rufus Wainford stunts in Buffalo. The police there locked him up on Saturday.

His Buffalo adventures were just as romantic as his Toronto affair, and about as short in duration, likewise about as nervy and with the mine left out.

A week ago he blew into the Buffalo City, made arrangements to buy a fancy on a fine street, the same day meeting a comely young lady whom he married three days later, even as here, only not quite so speedily. He then started in to furnish the house and also to buy whatever any one would sell him. The police, acting on suspicious merchants, cut short his elaborate transactions, which for furniture alone ran over two thousand dollars. The touring car which he bought was worth even more.

Bud Fisher in Town Denies All Rumors About Fishing Trip

"Bud" Fisher, the mother, father and all there is of the great and only "Mutt" and "Jeff," who have kept Daily and Sunday World readers laughing, chucking or smiling day in and day out, for, to these many moons, is in town and will draw for and talk to a host of friends at Shea's to-day and all this week. The World talked to "Bud" at the King Edward, where he was housed, last night. The World went after an interview, but it was like pulling teeth to get "Bud" to talk. Fisher shot out of the box, he was back at the would-be interviewer with, "For the love of Mike be reasonable." That was the way it went all the way thru. You would have thought that you were talking to "Mutt" and "Jeff" both at once.

Fisher looks a lot more like "Mutt" than he does like "Jeff." In the first place, he has plenty of hair, and is lots taller than he is wide or thick. Also he is shy the top hat of the "plink" variety, which is an integral part of "Jeff," save only when "Mutt" or "Mutt" usually lays it over "Jeff" about three laps, and then some. "Bud" swore that, "honour injun," he did go fishing that time when there were no pictures for several days, and that it really was "Mutt" and his side partner who pulled him back to work. He allows that when two fellows carry you, even if you have had to take a day or so off to get married, but the awful twins had him back on the job long before he was ready to come. He says that the picture he drew was an accurate and illuminating view of the office staff who had the nerve to kid him when he came back from his wedding trip. He says he'll get them yet—but put 'em in some more pictures, praps. He says that "Mutt" and "Jeff" sometimes cause trouble in his newly collected family, especially when he has to sit up late nights to get 'em out for the next day, and that he hasn't had a chance to go fishin' this summer at all.

His word to all the folks in Toronto was that it is not true that Conestoga Hoken was the original model for "Jeff," nor that Acting-Master Jimmy Church's first posed for "Mutt."

Men from the Mountain Won Twenty-Five Men Match at Long Branch by Slim Margin of Six Points, But Sergeants of Grenadiers Turned Tables.

The annual rifle match between the Royal Grenadiers and the 13th Royal Regiment, 25-men teams, was won by the 13th with the small margin of 6 points. The match between the sergeants of the same corps was won by the R. G. sergeants with 10 points to the good. The scoring was very good under the unfavorable conditions, a rear tricky blight wind causing some of the best shots to fall down at the 200 yards range.

T. C. C. WAR CANOE WINS BEST RACE AT REGATTA

Gravenhurst Beaten by One Length in Great Struggle—Grand Trunk and Winnipeg Are Winning Outsiders.

With a record list of entries and a most satisfactory attendance, the Canadian Canoe Association regatta was held on Toronto Bay at 2.30 Saturday afternoon. The weather was excellent so far as atmospheric conditions were concerned, but the slight wind made the return course a trifle rough.

A bad feature of the day's sports was a delay between the various races. The first event was scheduled to begin at 1.30 p.m., and instead, the paddlers lined up at 3.15 p.m. At 5 o'clock only five of the ten events had been pulled off, whereas all the races were supposed to have been completed by 4.30.

Another thing that was bad was the manner in which canoeists not competing and people in motor boats kept eternally crossing and recrossing the course, chopping the water and interfering with the paddlers.

The time in nearly every event was very slow. This is usually understood, however, when one remembers the wind which was blowing, also it did not ripple the course, did tend to retard the paddlers' progress.

First event, junior singles, one-half mile—Walter Beaton, Toronto, 11:15; Levens, T. C. C., 11:30; J. C. Pringle, Valois, 11:45.

Second event, senior singles, one-half mile—Walter Beaton, Toronto, 11:15; Levens, T. C. C., 11:30; J. C. Pringle, Valois, 11:45.

Third event, war canoe race, one-half mile—T. C. C., 11:15; Grand Trunk, C. C., 11:30; New Edinburgh, C. C., 11:45.

Fourth event, intermediate tandem, one mile—Winnipeg, 11:15; Grand Trunk, C. C., 11:30; Levens, T. C. C., 11:45.

Fifth event, half mile, junior fours—Winnipeg, 11:15; Grand Trunk, C. C., 11:30; Levens, T. C. C., 11:45.

CRICKET TO-DAY Toronto and Rosedale Are Playing at Varsity—Saturday's Results in the Leagues.

Toronto C.C. are to-day defending the Robertson Cup, emblematic of their championship of Canada, against Rosedale. This game is to be played on the Varsity campus, and will commence at 10.30 on Monday.

At this time very interesting as to who will be the winners of the section. For Garretts, Foley and Barford are the highest scorers for their side, while G. Tunbridge, who only got five runs, played a good game when he was unfortunate.

Old Country Club Wins. At Exhibition Park Saturday afternoon West Toronto encountered the Old Country Club in a C. & M. League engagement. Batting first on a fair wicket, the home team played havoc with the opposition, Dorkin in aggressive style being the most aggressive batsman. His 52 not out was a splendid performance, worthy of the ovation tendered him at the close of the exhibition West Toronto fielders got the best of the day.

Note and Comment

The feat of Robert Dibble of the Dons of winning junior, intermediate and senior singles at the Canadian Henley is a remarkable performance, the not unappreciated, as the sculler he vanquished, E. B. Butler, did the same trick at a former Henley. However, the club over cleaned up the three doubles at the one regatta. The Dons old Friday and Saturday regatta was his junior and intermediate and was beaten in the seniors, while Beau Russell landed his intermediate and senior the same year. The Detroit four won three finals the year they were coached by Jimmy Rice.

It was an unusual occurrence at Trinity College cricket ground Saturday to see the two batsmen and fielders march off the field in disorder soon after the umpire had called play started. The trouble was all on account of the umpire's "no balls" a bowler, or as a follower of Joe Kelley would say the umpire on the bases calling the batter out on strikes, the umpire does not say that the crowd were given rain checks.

The Toronto Cricket Club have made extensive preparations for the Henley regatta to be played in the championship game today at Varsity. They have hired chairs for the spectators, but the admission is free.

Saturday in the International saw the three leading teams get an even break, each winning a Sunday game at Jersey City, while Toronto and Baltimore spent the day before blue Monday in the city free from the cares of baseball. They play two games today.

While it is a close and open race in the International, the sharp contrasts in the New York Giants and Boston Red Sox, and the comparisons have started.

The Giants are absolutely last in the club fielding percentages of the National League. Boston is tied with Philadelphia for the lead of 2.9 per cent.

The Giants lead in base stealing, while Boston has two of the leading run-getters in the league. Philadelphia in club hitting. Boston leads the league in long hits by clubs.

At the general meeting of the Toronto and District F.A. held in the Labor Temple, it was decided to hold a special meeting at an early date to receive entries for the cup series of games to which the Hamilton officials are invited.

INDIANS ROSE DISTLESS GAME

Irish-Canadians Win by 6 to 3, Good Lacrosse Only Being Displayed in Spots—Cornwall Defeat Caps.

MONTREAL, Aug. 3.—In a listless game of lacrosse the Irish-Canadians today defeated Tecumseh's 6 to 3. The encounter had been expected, but neither team went into the game with any vim, and there was good lacrosse only in spots. Half-way thru the game the Indians began to fall in arrears, making the footing uncertain for both sides. The Irish-Canadians quit awards, go, lead after nine minutes of tight lacrosse, scoring three in rapid succession. The Indians then claimed the ball, but Umpire Forget said no, and the decision stood, while Mr. Forget was removed and made way for Jack Lavelle.

The team went up and scored the only goal of the quarter shortly after. Graydon got the only penalty of the game in the third quarter for taking a crack at George Roberts. He was fined \$5.

The Irish-Canadians continued to go ahead, leading the only goal of the third quarter, and the two first in the period. Guy Smith, Joe Gorman and Charlie Quierie made way in turn for Donald Smith, Collins and Whitehead, and the fresh men headed the visitors along. Whitehead taking two goals before the final whistle. The line-up:

Tecumseh's (3): Kinsman, Yeaman, Green, Graydon, Walker, Mackenzie, Brouin, and Gorman. Irish-Canadians (6): Brennan, Nevins, Gagnon, White, Mundy, Aspell, Kane, F. Scott, Gordis Roberts, H. Scott, George Roberts, 2.15. Second quarter, 4. Tecumseh's, Yeaman, 12.00. Third quarter, 3.50. Fourth quarter, 6. Irish-Canadians, George, 5.20; 7. Irish-Canadians, Whitehead, 7.20. Whitehead, 1.15.

Woodbridge Defeated.

WOODBRIDGE, Aug. 3.—The Junction Shamrocks defeated the locals here today in an O.L.A. game by 7 to 5. The line-up:

Woodbridge (6): Goal, L. Wallace; point, J. Wallace; cover, McKenzie; defence, home, Woods, Hollingshead, Frame; outside, White; inside, Hallett.

West Toronto (7): Goal, Campbell; point, F. Haslam; cover, Curtis; defence, King, Wardell, Danston; centre, Vernon; home, Harrison, Gray, Harris; outside, Brown; inside, McEw.

Brampton Down Weston.

BRAMPTON, Aug. 2.—Weston and the locals put up a pretty exhibition of lacrosse here this afternoon. The Excelsiors went to get an early lead, notching five tallies the first quarter, while the visitors only got one tally in the period. On resuming play in the second quarter Weston seemed to get their bearings and led the homesters a merry chase, but both sides notching a loan counter. The line-up:

Weston (6): Goal, L. Wallace; point, J. Wallace; cover, McKenzie; defence, home, Woods, Hollingshead, Frame; outside, White; inside, Hallett.

MR. ROWELL'S LIQUOR PLANK.

Mr. Rowell must be given credit for good intentions in his effort to "Abolish the Bar," but discretion and judgment effect more than do good intentions. So long as people want bars and liquor, bars and liquor there will be. More has been effected in Ireland by Rev. Mr. Patterson's "Catch-My-Pai" movement than Mr. Rowell is likely to do in a generation by the means he adopts. There are still more Noahs than Danieles in the world, and the Noahs are still inclined to make basins of themselves on occasion. More will be done by showing the Noahs that it doesn't pay, that it isn't respectable, and that there are more interesting and amusing ways of spending one's time than getting fuddled, than Mr. Rowell can do by a campaign to abolish the bar.

Honestly, Mr. Rowell, what impression did you make on the mining population of the north country with the slogan of "Abolish the Bar"?

With the present tendency of fuddicism there is no doubt that the closing of the bars would have a disastrous effect on the hotel business of our large cities. Whatever can be done to modify the sale of liquor can only be done according to the old English method of compromise. The people in civilized countries consume less liquor per head than they did centuries ago. It is probable that they would consume less readily varieties if some compromise were reached as to the sale of light wines and beers. The World believes that the promiscuous sale of heavy spirits should be prohibited in the bars, and if Mr. Rowell made his campaign on such a plank, he might have some chance of attracting a following. Mr. Rowell seems to have drawn up his platform with the object of catching the fewest number of voters, and thus escaping the responsibilities of office.

If the sale of spirits were prohibited except as a drug, and the bar was confined to the sale of wines and beer, and the further precaution taken to have all bars wide open, so that there could be no possible privacy or concealment about the drinking, and at the same time if treating were prohibited and the sale of liquor to person already intoxicated were severely dealt with, the trade would be as much restrained as it ever can be except by moral and educational means. If all the bars were closed in all the hotels in Toronto there is no doubt that an immense blow would be struck at the tourist and traveling business of the city. There are already districts in the city where one may live for years and never come in direct contact with liquor, just as there are towns in the provinces where local option has had full sway and banished the bar. If the bars may have longer to continue than Mr. Rowell desires to have them, but humanity is not to be hurried in its evolution. From Mr. Rowell's viewpoint the bar is as necessary as the sewer, and much as he might like to do away with both, the sewer is better than the cesspool, and a well-regulated bar is better than a blind pig.

HIGH SCHOOL BYLAWS.

Defeat of a high school bylaw in the Town of Whitby on Thursday last by a majority of two, and a similar defeat by a majority of five a short time ago in the Town of North Toronto, should call for consideration by the legislature. These two instances would seem to indicate that there is a small popular majority against the present method of financing high schools. The working man argues that conditions prevent him from taking advantage of the high school, and that therefore he should not be called upon to pay for its establishment and upkeep. There exists an apparent grievance. The provincial government might remedy this by an increase in grants, and at the same time county councils might also increase their financial contributions. In any event, higher education must not suffer, and if there is an unfair distribution of the cost of high school maintenance, this must be rectified. Municipal councils have the power to issue debentures for the erection of high schools, and to levy rates for their upkeep. North Toronto Council took advantage of this provision, believing that the small adverse vote warranted them in so doing. On like grounds, we think the Whitby Council should act, and perhaps Sir James Whitney can later on

introduce legislation that will satisfy the opponents of high schools.

PROXIMITY TO TORONTO.

The Telegram has at last received light. It now understands why the price of land is going up around Toronto. It isn't tubes or viaducts or annexation. Here it is in The Telegram's own language on Saturday:

This section 38, relating to farm lands, does not apply to cities, but it is seen at its best in North Toronto, where land values have recently enhanced owing to the proximity to the City of Toronto.

CAN'T BE HITCHED.

The Star is determined to hitch up the Toronto Electrical Development Company's power transmission line with that of the hydro-electric commission. Has The Star not made any inquiries about this proposal? The technical difficulties are immense, and the expense would be enough to stagger even the mile-a-day knight.

The Toronto Railway interests would first have to arrange for power from the Ontario Power Co., so that it could not be charged up as a high peak against the hydro-electric consumers. Then highly expensive installation would have to be made for the transmission of the power and the protection of the hydro line from accidents on the other line. And it is doubtful whether the hydro commission would consent to leave its plant at the mercy of operators over whom it had no control.

The Star also figures out a surplus of power from the extra installation at the Toronto station. This would not be ready for some months yet and at the rate the demand for power is increasing there is no likely to be any surplus in sight by the time it is ready.

THE POUND'S THE THING.

The World's suggestion that the proper way to stop the over-speeding of motor cars is to impound the motor has met with some favor, but it has been objected to as being effective. It would really stop speeding. The law makers evidently don't want to prevent the things they pretend they wish to stop. A fine is no more to a man who owns a sixty horse-power motor, than is a fly on his hat. To impound the chauffeur is equally absurd. The owner would never be imprisoned. He would always have a lawyer to get him off on a plea. And judges are tender with wealthy people. But impound the car. That's where you get them.

BUILDING LIMITATIONS.

A lot of talk is being indulged in about the necessity of restraining the height of buildings, and the city council has actually gone so far as to pass a bylaw limiting the height to ten storeys or, approximately, 125 feet.

We venture to say that the bylaw is not worth the paper it is written on, except, perhaps, to warn away strangers from the town. Everybody knows that any local influence which is capable of putting up a twenty or thirty storey building can get permission from the council to do so.

People build high buildings because the land they build on is too expensive to put low buildings on it. Land is expensive because the causes that make for congestion are given free play. The taxation of vacant land at the same rate as occupied and improved land would do more to keep down the height of buildings than all the bylaws the city council could draw up.

THE PROTECTION OF WITNESSES.

Of equal importance with the punishment of crime and indeed the first necessity if law and order are to be vindicated is the protection of the witnesses without whose evidence conviction is impossible. A despatch from Montreal appearing on Saturday intimated that witnesses after witness, at the preliminary hearing in the case of Carlo Battista charged with murder, swore to the receipt of threatening letters, declaring death to be the penalty for testifying against the accused. Attempts by bribery, by the exercise of terrorism, and even by actual murder, to prevent the giving of testimony in criminal trials have been common enough in the United States, and the situation there affords serious enough evidence of the existence of strong secret agencies whose activities are intended to thwart the course of justice. To this cause is no doubt in a measure attributable the many crimes of violence that remain undiscovered and unpunished.

In the Montreal case the accused and his victim are from Italy, a country, particularly in its southern districts, which has developed dangerous secret societies protecting their members by organized terrorism and crime. Italian immigrants from Naples and Sicily have brought over these societies and their methods with them, and have been responsible for this providing an example readily followed by other conspirators against the peace of the state. The evil ought not to be allowed to extend in Canada, and wherever it appears no effort should be spared to trace and punish severely any and every endeavor to impede the operation of the criminal law. Difficult as this may be, it must be done and done effectively whatever the cost, for unless exposure and repression follow, the secret societies for the commission of crime and the protection of the criminal will be emboldened to extend their activities and become as serious a menace in Canada as they

have proved to be in Europe and in the United States.

NEGRO SUFFRAGE IN THE SOUTH.

Col. Roosevelt is talking good sense when he says that the southern negroes can never accomplish anything for themselves through a political party composed entirely of negroes or dominated by the negro vote. Their hopes of political recognition can only be realized when the white voters of the south divide upon lines of national policy similar to those which affect the northern people. As it is, the fear of negro suffrage and the consequent return to the days of carpet bag governments and negro domination, keeps the southern whites in one political party and prevents any division upon questions of national policy and public administration. The south is sold for democracy whether democracy is for Parker or Bryan, gold or silver, high tariff or free trade. The southern people, not unreasonably, hold the Republican party responsible for the carnage and pillage which followed in the wake of reconstruction. Having, by an all but peaceful revolution, seized control of their own states and largely disfranchised the negroes, they do not propose to take any chances and therefore keep before them as the one dominant issue the supremacy of the white race.

Should the Republican party, which never carried a southern state without using the regular army to do so, and has always been anti-southern and sectional, pass out of existence, the political parties of the country might appeal for support to the southern states and largely eliminate the color issue. The Republican party is pledged to universal negro suffrage, which is clearly out of the question, and has not been permitted in the south for nearly forty years. New parties, not sectional in character, might agree upon a limited suffrage for the blacks, and all experience teaches that the grant of suffrage in part to any class or community will be extended as time goes on.

Of course, the negro problem is a bigger one from social and economic standpoints, but here again it is the southern whites who must solve the difficulties. Some negroes have been lynched in the south, but none of them starved. They certainly seem content to stay there and in the past they have rapidly drained back to the south from the northern states and from Canada as well. They surely will progress faster industrially when the color issue is removed from politics.

But here again the rigid national constitution makes it impossible to deal with negro suffrage frankly and freely, and this issue alone should give strength to the demand of the Progressive party for a revision of the organic laws and a more elastic constitution.

Monroe Doctrine More Acceptable.

London Daily Speaks Out Strongly and Wants Reaffirmation of United States' Stand in Respect of Expansion.

LONDON, Aug. 3.—Commenting on the resolution introduced by Senator Lodge in the United States senate and passed by a large majority yesterday in reference to the Monroe Doctrine and declaring that the U. S. could not see, "without grave concern," the gradual advance of a foreign government, the Pall Mall Gazette today speaks strongly. It says: "International relations would be made easier and the Monroe Doctrine more acceptable to other powers if its opportunity were taken to reaffirm the determination of the U. S. to seek no further territorial expansion and to avoid the same kind of colorable acquisition of places and colonies as was the case when the senate declares it would view with concern on the part of other nations."

IN CAMP AND BARRACKS.

The officers' mess, both in camp and barracks, with the scores of scarlet mess uniforms, presents an interesting spectacle, even to the military. Everything is spotlessly clean, the food well cooked and the number of delectable dishes served is an evidence of prosperity for the good things of life. Here, as elsewhere, Radnor water is the prime favorite, for it is unquestionably a far better mixer than any other mineral water.

COAL DEALERS ENTITLED TO MORE MONEY, BUT ARE PRESENT PRICES FAIR?

Some Indications That Present Alleged Shortage is Designed to Scare Household into Getting in Supplies Now—Facts Relating to Coal Situation in Canada.

"What the public wants" is everything first-class for nothing. But that is what the public won't get until the millennium, which blessing, however, does not require coal for the righteous. Meanwhile things temporal must be wrestled with and it is up against Toronto citizens to get the best goods delivered for reasonable prices. Now the reason that the summer prices for coal are so high is stated to be—

- (1) To higher wages paid to coal miners.
- (2) To the shortage owing to the strike.
- (3) To the shortage of engines on the G. T. R. and the consequent congestion at Black Rock.

As to the first, it is a very uncertain fact that 40,000 tons are tied up in carloads just across the border. This estimate may safely be watered down. The chronic tardiness of the Grand Trunk and its false policy of postponement with regard to the increase of rolling stock in proportion to its growing business is a worthy of the position it holds—or has held—in the railroad world. The policy would permit the Grand Trunk to buy at the rate of the market and to be ready to go out of business if you cannot keep pace with your pals.

It may take some months before the G. T. R. with the best of intentions and with the best vigor, will be "in Order." Yet a big drum about the vast amount of coal held up across the border need not at present frighten Toronto householders into buying at famine prices to-morrow.

Benefit by Scars.

The chief coal merchants of Toronto—and they might be counted on the fingers of one hand—are not very busy at present. The coal business is a little like to benefit by the alarmer reports of a shortage.

The most realistic man amongst them has spoken. "There is no shortage of coal," says he, "and I will reduce the price of coal if the cost of delivery can be lowered."

At present the prices run as follows:

At Mine	Buffalo	Toronto	Pine delivery
..... \$2.55 5.55 6.65 7.50
..... 3.30 4.35 5.30 6.30
..... 4.05 5.05 6.05 7.05
..... 4.80 5.80 6.80 7.80

How pleased we all should feel, when we consider the fact that we are to pay extra for our coal, benefits that hard working hero in Pennsylvania, who by the sweat of his brow and the toil of his hands, has produced a frame, supports a loving wife and a large and healthy quiverful.

Had the increase in price gone to swell the pockets of the coal owners, the millionaire coal-merchant, the voice of the people would go up to heaven in union asking how long should the wicked capitalist go unpunished.

"Oh, no," said the public benefactor. "We must charge you more because the coal owners—Yankee producers—have to charge us the difference between sweating wages and honest wages."

We go in search for figures. What increase has the coal miner had in his wages within the last year—or the last six months? The answer is, "The coal miner has had no increase in his wages within the last year or the last six months."

In 1910 169,497 men were employed in American anthracite coal mining, working on an average 228 days in the year and producing per man an average of 217 tons a day. Or per man 498 tons a year.

In 1910 199,098 men went on strike on an average of 45 days each, representing a total loss of 2,700,748 days. This would be back the supply of coal until between December 1910 and the last serious strike, one might reasonably suppose that the stock available has been exhausted. More recent statistics are not available but one may gather from a study of the official returns of the United States Department of Commerce and Labor that for the last 10 years the miners' wages have been rising steadily and that their working hours have been at a steady reduction. The amount gained by strikes has not always been satisfactory and the danger of fresh strikes is ever near at hand as the collier's "hot" and "cold" strikes of Saturday evening, or at dock office, Yonge-street, east side, 671.

BILL POSTERS DISSOLVED BY SHERMAN ACT

Suit for Dissolution Brought About Thru Practices That Were Restrictive of Trade and Prevented Opposition Business in United States and Canada.

CHICAGO, Aug. 3.—Suit for dissolution of the Associated Bill Posters and Distributors of the United States and Canada, who have been succeeded by the Postings and Advertising Association, was filed in the United States district court to-day.

Attorney-General Wilkerson charged a conspiracy to destroy competition, fix prices and monopolize and dominate the bill posting business of the United States and Canada.

In addition to the dissolution of the corporation, the government sends a series of injunctions against practices and agreements said to be in violation of the Sherman law.

Among the defendants the following named corporations and individuals are included:

- Associated Bill Posters and Distributors of the United States and Canada; Edward L. Ruddy, Toronto, Canada; Associated Bill Posters and Distributors Protective Co., George Batten Co., Geo. L. Dyer Co., George Rhos Throp Inc., Mahin Advertising Co., Massena Advertising Agency, A. M. Briggs, L. J. Reese and W. A. Thompson of Cleveland.

Stanley D. Montgomery, special assistant to the attorney-general, investigated and developed the case for the government. The following alleged illegal methods or practices have been prohibited against the defendants:

- The members of the associations have been prevented from accepting national work from advertisers patronizing non-members; that the association at various times has furnished funds to its members to buy competing bill posters; that members have been prohibited from engaging in business in opposition to any other member; that a minimum scale of prices for posting national work has been provided; that while local work is left to the discretion of individual members, they are urged to "strive to make such rates as regular and uniform as possible, in the expectation that later the defendant association will also control local work"; that members are obliged to contract for all national work thru the solicitors licensed by the association, and that these solicitors pay a license of \$1000 and receive a commission of 10 per cent., which is increased on advertising for three consecutive months or longer.

Turkish Island Throws Off Sultan

ATHENS, Greece, Aug. 3.—The Turkish island of Nicaria (also known as Ios) in the Aegean Sea, to-day proclaimed its independence of the Turkish Government. The inhabitants, who number about 1500, seized and imprisoned all the Turkish officials.

The island of Nicaria, which has an area of about fifty square miles, is famous in mythology for the death of Icarus, whose waxen wings melted while he was flying. At the present day it is occupied almost solely by charcoal burners of Greek nationality. The principal town is Nicaria, which consists of a group of about two hundred houses. The islanders have hitherto paid an annual tribute to the sultan of Rhodes.

The Light That's White

LIKE everything else, light can be good or bad; it can be yellow or red or almost any color—as long as it shines, it's called light. Good artificial light should be a good imitation of daylight—it should be WHITE.

Gas is the one illuminant that is white. It furnishes a steady, reliable light; it never goes out just when it is needed. It radiates an intense white light that makes reading or sewing as easy as in daylight.

Fixtures suitable for every type of room can be obtained at the showrooms of the Gas Company, and the prices are very attractive. If you want the best light, both in quality and reliability, use G. A. S.

Make It Harder For Rich Men To Buy Way Into Parliament

Bill Introduced in British House of Commons Would Class Contributions to Religious and Other Institutions As Campaign Expenses—Costs of Election Now Too High.

LONDON, August 4.—(Can. Press)—A bill has been introduced in the house of commons to prevent the indirect financing of parliamentary constituencies by candidates and members of parliament by means of subscriptions to certain religious, charitable, public or semi-public institutions or enterprises. The bill would include all such payments in the candidate's election expenses, a return of which he has to make under the present law.

MURDER CHARGE "PINE BEACH" MAY BE OVERTHROWN OF POLISH FIGHT

Preliminary Investigation by Coroner Graham Into Death of Andri Maturik Brought Out Evidence That He Had Been Jumped on in Drunken Brawl a Week Ago.

Another Polish murder case may be the outcome of the death at the Western Hospital, on Saturday, of Andri Maturik, a Pollock about forty years of age. A preliminary investigation made by coroner George W. Graham tended to show that the man had met with foul play in a drunken carousal in a room over a Chinese store at 760 West Queen-street.

Maturik, who was an employee of the Canada Foundry, having been in this country about two years, met a number of his fellow countrymen in the room over the Chinese store a week ago Saturday night and heavy drinking was indulged in. During the evening, according to Katrini, wife of Joe Fritz, the keeper of the establishment, two of the Pollocks jumped on Maturik. These men, in jumping on the man's stomach and chest, and in spite of his protests did not desist until Maturik was practically rendered unconscious.

The injured man was kept in the room until Friday, when fearing he was going to die, Fritz had him removed to the Western Hospital, where the man died on Saturday morning. Coroner Graham, on visiting the place in Queen-street, found the room to be filled with a number of Pollocks, all very much under the influence of liquor. One of them had been drinking to such an extent that he was lying on a bed in a paralyzed condition.

His "Confession of Faith" to the Convention Will Contain Startling Propaganda, He Intimates.

ALBANY, N.Y., Aug. 4.—(Can. Press)—The national progressive party must accept Col. Roosevelt's political doctrines if he is to be its standard bearer. He said to-night on his way to Chicago that he would insist upon the making his confession of faith to the delegates before the committee which is to draft the platform makes its final report, and that he would not accept the nomination on a platform which did not meet with his approval.

WILL FIGHT MILITARISTS

Turkish Chamber of Deputies Condemns War Minister for Trucking to Military League.
 CONSTANTINOPLE, Aug. 4.—(Can. Press)—The committee of union and progress, evidently determined to make a bold effort to regain its power, induced the chamber of deputies to-day to agree to a motion demanding that the war minister alter his attitude toward the military league, which recently threatened to dissolve the chamber. The committee accuses the war minister of complicity with the military league, and alleges that military deserters brought to Constantinople have been released and have actually been seen in the lobbies of the chamber.

Five Englishmen Held for Spying

BERLIN, Aug. 3.—(Can. Press)—The Lokal Anzeiger publishes a Kiel despatch saying that five Englishmen have been arrested at the yacht club at Schleswig-Holstein, on the charge of espionage. They appeared off the coast in a yacht, and two of them went ashore. It is alleged that they were making photographs when they were arrested. The police confiscated plates which they found on the yacht, and which when developed proved to be pictures of every harbor and bay of the Holstein coast.

Woman's Realm—the Household, Fashions and Society

SOCIETY

There will be a polo match between Buffalo and Toronto this afternoon at 2 o'clock, at the Woodbine.

Lady Allan was in Montreal to meet Sir Montagu on his return from the west. She has since returned to her country house at Cacouna.

Miss Tremaine is visiting Mrs. P. R. Cumming in Vancouver.

Mr. Norman Macrae gave a yachting party last week in his yacht the Strathcona.

Mr. and Mrs. T. S. Ford, Trovaga Lodge, Mitchell, announce the engagement of their niece, Miss Frances Jennifer Williams, to Capt. Albert E. Gooderham, eldest son of Lt.-Col. and Mrs. Gooderham, Danforth, Toronto. The marriage will take place in Trinity Church, Mitchell, in September.

The Percy Haswell tearoom at the Brown Betty was opened on Saturday afternoon by no less a person than Miss Percy Haswell herself, who gave a very charming little tea after the matinee, when she was looking very pretty in a crown of pink and white chiffon with Paisley border and Irish lace collar, a wide brimmed hat edged with a frill of lace, and black velvet bow; she carried a lovely old-fashioned bouquet of pink roses, sweet peas and maidenhair fern, and wore the lovely pearl but-terflies connected with a gold chain, given to her by the ladies of the Brown Betty. The new room is exceedingly pretty with its gold-colored walls, shading in with the dark furniture, the diverts of the waitresses in chestnut brown also accented with the color scheme. The tea-table, loaded with good things and lovely with pink roses, was set up in the big room, and the hostess (born, not made) was attending to her guests, her lovely young-daughter, Miss Margaret Pawcett, who wore a long and narrow gown with gold and brown ribbons and American beauty roses, assisted her mother, while a concealed orchestra played all the latest music. Among those who had the good fortune to be present were Mrs. Thomas Moss, Mrs. William Adam, Mrs. New York, Mrs. R. R. Edwards, New York; Miss Morrison, Mrs. A. M. Dymond, Miss Dymond, Mrs. and Mrs. Logan, Mr. and Mrs. Hays, Mr. Senior, Mr. and Mrs. Emory, Mr. and Mrs. Kennan, Mr. Charles Cavars, Miss Angela Ogden, Miss Teresa Dale, Miss D. Ellis, Mr. and Mrs. Marquand, Miss Wilson, Miss Doyle, Miss Coombs, Mr. Macdonald, Mr. Wallace, Mr. Mullins, Mr. Grove, Miss Row, Mr. Goodman, Mr. James T. Galloway.

Mr. Awdry Hoskins has gone to Mount Clemens for a short holiday.

Miss Margaret Pawcett leaves for England this week, with her governess, to be with her father, George Pawcett, when he opens at the Aldwych Theatre with "The Great John Ganton," in September.

Miss Westmacott, Jarvis-street, is spending the week-end and holiday with her brother at Millbrook.

Mr. Stafford C. Talbot is at the King Edward Hotel in England.

Miss O'Brien has returned from England and is spending a few days in Muskoka with her brother and his family before going to her own house on the Etobicoke River.

Mrs. Gordon Miller is visiting her sister, Mrs. Wesley Cord, Walsh, Ont.

Mr. Emerson Howard is visiting Mr. George Hendrie in Sheffield.

Mrs. W. P. Bull and Miss D. Bull, Mrs. B. H. Bull (Brampton), Mr. and Mrs. R. O. Mackay (Hamilton) are in London, England.

Mr. and Mrs. James Bicknell and their daughters are in England for the summer.

Mr. Ernest James spent a few days with his father-in-law, Bampton, Ont.

Mr. Cecil Phillips and Mr. Lochlan Hobson, from Mount Elgin, have been in town for a short visit.

Miss Taylor is visiting her sister, Mrs. H. Roy in Callistville.

Miss Kate O'Callaghan has returned to Ingersoll.

Prof. and Mrs. Mackenzie are spending the summer in England.

At Elm Dale, Indian Grove, the residence of Mrs. Charles F. Barton, on Thursday afternoon at 4 o'clock, Miss Gladys Sparling, the young Canadian violinist, while passing through town to her home in Montreal, played the following program brilliantly: Romance Sans paroles (Wieniawski); Souvenir de Moscow (Wieniawski); Finale from Mendelssohn, Violin Concerto, Hungarian (Dvorak); Caprice No. 20 (Bach); Witches' Dance (Krumpholtz); Among those who heard her were Mrs. E. W. Burton, Mrs. James W. Barton, Mrs. Goodrich, Miss Stevenson, the Rev. K. W. and Mrs. Burton.

There was a merry gathering at "Cherry Hill," Cooksville, last week.

The Daily Hint From Paris

FOR A SUMMER PARTY.

Sheer lawn and embroidered flouncing are combined in this little dress. The waist is trimmed with Val lace and insertion and closes under a frill of lace in the back. A blue ribbon sash is used.

The white leghorn hat is trimmed with tiny bunches of pink roses and blue forget-me-nots with long ties of black velvet ribbon.

When a party from Erindale, Port Credit and Cookville gave a surprise party to Mr. W. J. Romain, the well-known dramatic artist and vocalist (New York), who recently returned from London and the continent, where he has traveled since the coronation. Spending the summer with him at "Cherry Hill" were Mr. Kenneth Mackenzie, a character sketch-artist from London, and Mr. Clarence Quarrington, who some years ago was known in Toronto as the boy soprano. When Mr. Robert Cotton's big touring car drove into the avenue with the Port Credit party aboard the master of the place was somewhat surprised. But when the Erindale and Cookville contingents, headed by Mr. Robert Cotton, his improvised wagonette, followed by a string of vehicles, came down the road he understood, and entering fully into the spirit of the impromptu party was the cheerful and accommodating host. The old homestead was soon filled with joyous life and a musical program was immediately arranged. Mrs. Romain contributed several numbers, and was followed by Mr. Quarrington, who sang several ballads. Mr. Reginald Murray and Mr. Lynch, Cookville, added greatly to the entertainment by several clever selections. Mr. Ernest Cotton supplied the humorous element in several comic songs, the accompanists being Miss Dixie and Mrs. Murray. But the surprise and delight of the evening was the performance of a play, "The Humorous Element in Several Comic Songs," by Mrs. Romain, Mr. Murray, Mr. Lynch, and Mr. Cotton. The play was a humorous sketch in which the characters were played by the party. The play was a humorous sketch in which the characters were played by the party.

BLUE AND RED

Blue and red is a much used color combination just now in Paris, says an exchange. The blue suits have red velvet collars and cuffs; blue bathing suits are trimmed in red, and even gowns are combinations of blue and red.

5 August

IF THIS IS YOUR BIRTHDAY

It will be well for you to refrain from too much gaiety or social pleasures, and give your attention to things of more importance, otherwise you may lose something which you value highly. Changes do not promise favorably for you.

The day to-day will be quick and clever, but a natural lack of sincerity may work against their success, unless early understood and graduated.

Bad Complexions Are Now Easily Discarded

(From The Beauty Seeker.)

Every woman has it in her own hands to possess a beautiful and youthful complexion. No matter how soiled, faded or coarse the ordinary mercerized wash will actually remove it, and Nature will substitute a skin as soft, clear and lovely as a satin. The action of the wash is not only to remove dirt, but to stimulate the pores, particles of sear skin come off day by day; water, evidence of the treatment is discernible, improvement is gradual, complexional improvement. One ounce of mercerized wash, available at any drug store, suffices for most cases. It is put on at bedtime like cold cream, and taken off in the morning with warm water. It is a certain skin-dressing, it removes freckles, sun spots, liver spots, moth patches, blackheads and pimples.

Wrinkles can be treated, with benefit, by bathing the face in a lotion prepared by dissolving 1 ounce powdered salicylic acid in 1 pint water. Instantaneous results are secured.

TRAVEL DRESS

For a midsummer dress to travel in, nothing could be more sensible than one made of the natural Irish linen; this is a loose weave and is light in weight; it is to be had in several shades of tan, from dust color to almost brown, and in three shades of lavender, and two of rose color. At present it may be procured at a bargain in price (that is, for 12 1/2 cents a yard). All these linens make up prettily in one-piece dresses, or in long or in tailor suits, and look well trimmed with the large-size pearl buttons of the season or the white glass buttons.

COOLING DEVICE

Obtain a large common flower pot and seal the hole in the bottom with plaster paris. Place in the pot the bottle containing milk or a covered crock containing butter and fill the pot with water to a depth as great as possible without the bottle or crock floating. Cover the pot with a board or a plate and set out in the open air, away from the direct sunlight and preferably where there is a current of air. The evaporation of the water from the surface of the porous pot will keep the contents several degrees cooler than the outside air when there is the slightest amount of air stirring. The higher the wind or the drier the air the greater will be the cooling effect.

PRETTY PLAIDS

Plaids are always pretty for children's clothes and this year they are especially good. Give your children Wash frocks and the ribbons to go with them are often of plaid; blue serge coats are trimmed with plaid.

FOUNTING READY

Muslin founcing with an edge of interlocking and lace all ready to sew onto petticoats can be had in the shops and will prove a comfort where one has not the time to make up ruffles or an old skirt needs replenishing.

QUICK SHINE

When polishing silver, use two leathers, and get the one not actually in your hands but just the one that it gets thoroughly warm and dry. The Montreal Star. You must not put it close to the fire or it will shrivel and crumple up, but just let it hang where the air is warm, so that any dampness may be drawn out. A dry cloth puts the shine on a polished surface very quickly indeed.

BECOMING NECKWEAR

On certain of the newest summer frocks made of medium weight tub material, the neck is cut out to a line four inches below the collar, and then mounted upon a more sheer yoke. The material of one pretty model is heavily embroidered and scalloped where it laps up over the yoke, while another thing is an upturned plating of three-quarter inch lace insertion where yoke and garment join. Some of the richest hand-embroidery is put upon the chemise, which is shown to best advantage below the plating. Mrs. E. W. Barton, in "The Woman's Home Companion" says: "Notwithstanding the definite lines that fashion draws around our necks, we desire the privilege of changing our models to suit the earlier lines, that nature has drawn for each of us. Heads are variously poised; throats are not all alike the same, and we have learned to accept or reject according to our requirements. There usually is possible some slight modification by which the general outline of a fashion may be retained, while a specific part is brought into harmony with each wearer."

This most fashionable round outline is not to be admitted, universally becoming. It belongs to the beautiful and to that minority among older women who are charming in contour and of perfect proportion. For the great majority of fair looking people who have, after all, much cause for gratitude, there is the slightly lower cut, which shows an inch or so of the shoulder. This last is better also for the pretty young girl with the long slender throat, and even a shade more becoming to her is the oval or the oblong square which is cut rather high at the back and in front, while it widens out toward the shoulders.

When the neck is long the V-shaped opening and the deep perpendicular round cut-out in front should alike be avoided, since their tendency is to carry down the throat, indefinitely. Exactly the reverse rules obtain for all who have short necks, with a heaving upward-plumpness. Any line that is high from cut-off instead of carrying down, whereas the long surplus of the close V-shape add to the throat an opening is often becoming to the stout, but there is no real reason or excuse. One who has a short neck, if she is fond of the short neck, for the high collar, desirable for street wear, it must be fitted to perfection as to height and being, otherwise it will encourage a double chin.

If all the women who are blessed with a well-rounded throat, could realize the improvement in outline were they to adopt the fichu, there would be a rush for that quaintest shoulder drape. When worn by the too thin woman, the fichu is a veritable mantle of charity.

But of all the impossible methods in the making of the high collar, none is so fatal as that which imagines the motion is eliminated when neck fixings are thus padded out. The thinness of silk mousselines should be used as a collar and yoke foundation if lining there must be to hold old lace together, and all double hued-downs as well as machine stitching should be dispensed with about the neck of a gown.

Marquis of Anglesey Weds Lady Manners

LONDON, August 3.—(Can. Press.)—Society and the world of art and letters were well represented at the wedding to-day of the Marquis of Anglesey and Lady Marjorie Manners, eldest daughter of the Duke of Rutland. The marriage took place at St. Peter's in Eaton-square. The guests included Prince Arthur of Connaught, the Crown Prince of Serbia, Prince Christopher of Sweden, the German ambassador, Baron Marschall Von Bieberstein, the Duchess of Marlborough, and William Philip, Earl of Pembroke, P. Cresson of the American Embassy.

The church was decorated with pink and red rambler roses, orange blossoms and bay leaves. The Archbishop of Canterbury performed the ceremony. The bride wore a gown of gold and white, and the bridegroom wore a tuxedo. The ceremony was attended by a large number of guests, including many of the nobility and the press.

WORTH KNOWING

The following table of weights and measures may prove of value to producers, housekeepers, who look after their own marketing and seek to get the worth of their money:

- One peck of spinach weighs 3 pounds.
- One peck of apples weighs 12 1/2 pounds.
- One peck of carrots, turnips, parsnips or sweet potatoes weighs 12 3/4 pounds.
- One peck of onions weighs 14 1/2 pounds.
- One peck of potatoes or beets weighs 15 pounds.
- One quart of string beans weighs 3 1/4 of a pound.
- One quart of cranberries weighs 1 pound and 1 ounce.
- One quart of dried apples weighs 3-4 of a pound.
- One quart of dried peaches weighs 1 pound and 1-2 ounce.
- One quart of dried peas weighs 1 7/8 pounds.

TO HAVE CLEAR SKIN

Live Plainly, Sleep Soundly and Cultivate Cheerfulness.

A French physician says the woman who would have a beautiful complexion must live plainly, avoiding rich meats, greasy soups, too much game, heavy wines and highly seasoned food. Wealthy people who live highly and dress improperly often have fine features, which are marred by a miserable complexion. Women in the middle class of life, who live more simply, and dress more soberly, have more wholesome food, often have much finer complexions and do not seem to grow sallow and faded so soon. Their habit of going to bed early, and getting the health-giving morning air, also makes a fresher, clearer complexion.

One should dress as one would please, regardless of the rules of health, and have a pretty complexion. One must live as nature says is best, if they wish to be beautiful and healthy.

It is said that carrots are very good for the complexion, and if properly cooked they are very good to eat.

Puddings and Cake

The salt should always be washed from butter when it is to be used in anything that has sugar for an ingredient, and from that which is melted to grease any kind of mold for baking; otherwise there will be a disagreeable salt taste on the outside of the article. Raisins should be stoned and cut in two and have some flour sifted over them; then gandy in the flour and take them out free from lumps—the small quantity that adheres to them will prevent their sticking together, or falling in a mass to the bottom. Eggs must be fresh or they will not beat well, says a writer in McCall's Magazine for August. It is better to separate the yolks from the whites always, tho' it is a more troublesome process, but for some things it is essential to do so.

When they are to be mixed with milk, let it cool after boiling or the eggs will poach, and only set in a few minutes to take off the raw taste of the eggs, stirring it all the time. Currants require washing in many waters to cleanse them; they must be picked and well dried or they will stick together. Almonds should be put in hot water till the skins will slip off, which is called blanching; they must always be pounded with rose or orange flower water to prevent their oiling. When cream is used put it in just before the mixture is ready; much beating will decompose it.

Before a pudding or cake is begun every ingredient necessary for it must be ready; when the process is retarded by neglecting to have them prepared, the article is injured. The oven must be in a proper state, and the paste in the dishes or moulds ready for such use as require it. Promptitude is necessary in all our actions, but never more so than when engaged in making cakes and puddings. When only one or two eggs are to be used, cooks generally think it needless to beat them—it is an error; eggs injure everything unless they are made light before they are used. Cheeses for boiling puddings should be made of German sheering; an article less thick will admit the water and injure the pudding.

BISHOP OF ANTIGONISH

Rev. Jas. D. Morrison Succeeds Late Bishop Cameron.

HALIFAX, Aug. 3.—(Can. Press.)—Rev. James D. Morrison, D.D. of Vernon River, P. E. I., vicar-general and administrator of the Diocese of Charlottetown, has been appointed Bishop of Antigonish, in succession to Bishop Cameron, who died about two years ago. He was educated in Charlottetown and at the College of the Propaganda in Rome, where he received the degree of doctor of divinity and was ordained to the priesthood. Then he became rector of St. Dunstan's College, Charlottetown, and afterwards rector of St. Dunstan's Cathedral, the direction of which, at a cost of about \$250,000, was his great work, and which was entrusted to him by Bishop McDonald. Then he was transferred to Vernon River, where he became parish priest.

For several years he has been administrator of the Diocese of Charlottetown, the health of Bishop McDonald making this necessary.

BURNED SAUCEPAN

When a saucepan is burnt, do not try to scrape it out at once. Put into it a little water and a small lump of soda and stand it on the stove for half an hour. Soda water will loosen the burnt mixture from the tin, so that only quick rinsing and wiping will be necessary. In order to get the whole thing quite clean.

American Immigration Officer Arrests Chinaman Out in a Boat

BROCKVILLE, Aug. 4.—(Special.)—An interesting light is being cast by the lawyers appearing for the three Chinamen who were arrested in a boat opposite Ogdenburg, and are being held by the authorities of that city. It is claimed the Chiniks had no intention of entering the United States, and that the immigration inspector exceeded his powers when he went out in a boat after them and took them ashore. The contention of the government is that they had actually entered the country in contravention of the immigration laws and should be deported. One Chinaman hailed from Prescott, and the other two from Montreal.

M.P.'S' OPPOSE GO TO OTTAWA

Unless Typhoid Epidemic is Overcome, Fall Session May Be Held in Toronto or Winnipeg.

OTTAWA, Aug. 3.—Parliament may not meet in Ottawa this winter if a movement which is now on foot among an influential number of members from the other provinces materializes, according to The Ottawa Journal. It says:

"A number of members have been in communication with each other, and a prominent M.P. to-day, 'and it has been practically decided that in the event of the present epidemic being unchecked, we will, when parliament opens here this fall, move its adjournment and agitate for a session in some other city—perhaps Toronto or Winnipeg—where we will have protection from typhoid disease."

"The citizens of this city cannot and do not expect us to come here, because of the apathy or sheer incompetence of the civic authorities, there is not pure water to drink, and the health and even lives of our families are endangered," declared the federal member.

"But do you not think that it would be impracticable and well-nigh impossible to transfer the work of parliament to another city at such short notice?" was asked.

"We quite realize the difficulties and obstacles which would be encountered, but, nevertheless, the scheme is not an impossible one, while on the other hand it is quite justifiable, and should this epidemic which you have here now continue to grow at its present rate it is inevitable," was the reply.

"Our wives and children object to our coming to a city which is a menace to health."

If Ottawa desires to continue as the national capital, surely the least it should do, or is expected to do, is to guarantee as far as possible the health of government employees. The people of this country are spending huge sums to beautify this city and make it worthy of a national capital, and their efforts are being undone by a record of civic maladministration, which is advertising this city from Vancouver to Halifax as a pest hole of disease.

In his speech, Mr. N. W. Rowell dealt with the grievances of the people of England, and other places and promised that if the various changes of government, any government officials who interfered in politics would be dismissed.

Mr. Rowell condemned the spoils system as absolutely wrong and pleaded for the establishment of civil service reform. "Intimidations by government officials must stop," he declared.

Mr. Rowell assured his hearers that if the Liberals came into power all property whether government railroad or not would have to stand taxation. "We have no official class in this country," he said. Mr. Rowell told of the abuses that the settlers suffered from, and asked "Is it any wonder that the settlers are indignant? These grievances should be redressed at once, and if the government should only do this it will have the hearty support of the Liberal members of the legislature, he affirmed.

"England is in license town. Arrests for drunkenness are rare and there are no 'blind pigs.' Public sentiment does not favor abolishing the bar. Mr. Rowell made no reference here to his program of putting the bar out of business. This afternoon the Liberal tour party went on a steamboat excursion to Lake Umbagog. They will return to Toronto to-night.

NEW YORK, Aug. 3.—Mr. A. W. Smith, president of the Grand Trunk Railway, arrived here this morning on the Lusitania. He spoke optimistically of the business situation, but said that he was going to make an investigation of the association of Charles W. Morse's steamship lines with the Grand Trunk. Mr. Smith said:

"I came out now on my customary trip at this season to attend to general business of the company. I shall spend a few days in New York, then go to Montreal to remain about a week. Thence I go west on a trip of inspection. We are planning the Grand Trunk extension thru as fast as we can."

"Railroad companies are doing all they can towards harvesting and marketing the crop, but scarcity of laborers at the bottom of the trouble. I look upon wheat as the backbone of Canadian prosperity. I do not mean the present high price, because Canada will do well if the price should drop 3 cents a bushel. I think if the crop materializes all it promises now, it will give a new impetus to immigration."

"There are no new developments since I left here six weeks ago in the Boston Providence connection of the Grand Trunk. Those connections are being pushed forward as fast as possible."

SHOT HIS CHUM Didn't Know Rifle Was Loaded—Injured Boy Will Recover.

WATERLOO, Aug. 3.—(Special.)—The story of not knowing the rifle was loaded was responsible for what might have proven a fatal accident. Harold Barker, a lad living at Nabesee, was brought to the General Hospital this afternoon suffering from a bullet wound in his side. He was with chum, George Degriff, in a row boat when the accident happened.

Degriff picked up the rifle believing that it was not loaded and in fun pointed it at Barker and let it go off. Barker now will have a shot at his life. Barker fell over and his companion is broken hearted over the sad affair.

SETTLERS MAKE COMPLAINTS

Spoils System Said to Prevail in North—Assert Railway Rates Are Excessive

HAILEYBURY, August 3.—(Special.)—The Liberal touring party made a brief stop at Charlton this morning and then returned to Englehart, where a meeting was held in the school-house. Mayor Lowry on behalf of the town council and board of trade read an address, extending a welcome to Mr. Rowell and his party. An address from the liberals of Englehart and vicinity to Mr. Rowell was also presented.

The address complained of the government's action in holding towns and lots for speculation and allowing them to go untaxed, and urged additional railway and road constructions to open up New Ontario adequately. Mr. Harry O'Grady, a local orator, described the government's manner of building roads as a machine to get votes, and said that before any man was engaged on road construction, he was asked if he was a supporter of the present government.

"Of course," Mr. O'Grady went on, "if the Liberals get in power I would favor spending the money among the Liberals. But I would give the work to men competent to administer it."

This qualified advocacy of the spoils system was greeted with approving laughter and a voice exclaimed, "An honest confession." Mr. Rowell joined in the laughter.

Mr. O'Grady remonstrated against the excessive freight express and telephone rates, and gave specific examples of the enormous rates charged. He stated that the Conservative non-leading convention here was swamped with government office holders.

Mr. Arthur Roebuck spoke briefly, favoring the government in retaining the political henchmen with jobs and contracts "as absolutely rotten from the start to finish." He assured the people of Englehart that their grievances would be fully presented to the legislature by Mr. Rowell and the other Liberal members.

In his speech, Mr. N. W. Rowell dealt with the grievances of the people of Englehart, and other places and promised that if the various changes of government, any government officials who interfered in politics would be dismissed.

Mr. Rowell condemned the spoils system as absolutely wrong and pleaded for the establishment of civil service reform. "Intimidations by government officials must stop," he declared.

Mining Exchanges Closed at Week-end--Commercial Reports

WHEAT PIT DEVELOPS FIRMER UNDERTONE

Evening Up Trades Over Week-End Carried Prices Above Previous Close -- Sentiment in Variable Mood -- Corn and Oats Lower.

CHICAGO, Aug. 3.—Statements that the edge of the foreign demand was off had a weakening effect to-day on the price of wheat. The market closed irregular, 1-4 lower to 3-8 to 1-2c up. Latest trading left corn unchanged to 1-4 down, oats at a decline of 1-2c to 1-2c 5-8 and provisions varying from the less expensive to a shade advance.

Although prospects were for much lighter world shipments than a year ago, no response came from Europe in answer to American offers to export wheat. This fact, with North Dakota advices that so far rust was not hurting crops, proved disheartening to bullish speculators. Dread of frost in Canada and reports that rains had stopped Russian harvesting, brought about a show of strength at the outset, but seemed to have nothing to do with a bulge which made the September option conspicuous near the close. A local order in that future was covering on a liberal scale, but also as actively reselling December.

Big May Crop.

An estimate that the hay crop would be 16,000,000 tons larger than a year ago exerted a bearish influence on corn.

Oats reached a new low level for the season. One reason was the prospect for a plentiful supply of hay. There were signs, too, of a rapid increase in receipts.

Provisions dragged owing to lightness of shipping demand. At the finish of the day pork and lard were off 3c to 10c, but bacon held substantially unchanged.

ONTARIO FLOUR PRICES MAY TAKE A TUMBLE

Cannot Compete With Kansas Product for Export on Basis of s. n. S. S.

Ontario new wheat flour is coming on the local market quite freely, with prices at \$2.80 to \$3.85, compared with \$2.55 to \$2.65 last year. The wheat, which is being turned into flour now comes from around Lake Erie, and with the harvest about over the entire crop will soon be thrashed and in elevators ready for shipping.

Dealers say that present flour prices will go down as the Kansas wheat crop, which is heavy, is selling at 90c a bushel as compared with 95c paid here. This means that the Kansas farmer is getting in on the export market, which the local flour dealers cannot touch at the present price.

With a 10-cent disparity in price between Ontario and Kansas wheat, said one flour dealer, "we are shut out of the export market. The prices here must come to a level with the world's market before we can handle flour for export."

Although the Ontario fall wheat crop is short, considerably below that of last year, the supply for grinding into flour will be just as great this year as last, for with a low price last season on account of a very big crop many farmers fed their wheat to stock instead of threshing it. This year most of the wheat grown and threshed will be available for flour purposes. Local quotations have gone down accordingly. No. 2 Ontario wheat prices were scheduled Saturday, with the market nominal in every particular. Corn has taken a decided rise as the market is strong with the demand good and the new crops many weeks away from harvest time.

Local grain dealer quotations are as follows:

Oats—Canadian western oats, extra No. 2, 45c; No. 3, 40c; outside, 35c; No. 2, 45c to 46c, Toronto freight.

Wheat—No. 2 red, white or mixed, 95c to \$1.00 outside points.

Rye—No. 2, 50c per bushel, outside, nominal.

Feed—No. 2, 90c, nominal, per bushel, outside.

Buckwheat—No. 2, 70c per bushel, outside, nominal.

Manitoba wheat—No. 1 northern, \$1.15; No. 2 northern, \$1.05; No. 3 northern, \$0.95, track, lake ports.

Manitoba flour—Quotations at Toronto are: First patents, \$3.00, in cotton 10c more; second patents, \$2.90, in cotton 10c more; strong bakers', \$3, in lot.

Barley—For malting, 80c to 85c (47 lb. test); for feed, 60c to 65c, outside, nominal.

Corn—No. 2 yellow, 81c, track, bay ports.

Milfeed—Manitoba bran, \$2.25 to \$2.35 per ton.

Toronto Sugar Market.

Sugars are quoted in Toronto, in bags, per cwt., as follows:

Extra granulated, St. Lawrence, \$5.15

Imperial granulated, \$5.10

No. 1 yellow, \$5.00

In barrels, 5c per cwt. more; car lots, 2c less.

No Activity in Stock Markets Small Price Changes Shown

Speculation Quiet in Eastern Exchange, But Some Stocks Advance Easily—Canners Up to New Record.

MONTREAL, Aug. 4.—Dominion Canners, with a two-point rise to 78, equaling its high record price of November last year, was the feature of the local stock market on Saturday. The strength of the closing on Friday was reflected in an opening 1-1/2 points up to 73 1/2, and over five hundred shares changed hands at that level. A further advance of a quarter point was followed by a reaction to 72 1/2, and the price rose to 73 in the final transactions. The close was easier than the opening, and the market was 1-1/2 points higher than on Friday. LOMBARD ST. ON FINANCIAL CONDITIONS

NEW YORK, Aug. 3.—In his special cable dispatch to the London correspondent of the New York Evening Post says: President Taft's position, as outlined in his speech accepting the nomination, is favorably regarded here, though not unqualifiedly. In view of the recent flaccid at Chicago, there is a great disposition to fear financial disturbance from next week's Roosevelt convention.

HIGHER PRICES FALL TO HOLD

Wall Street Shows Strong Tone, But Reacts Late in Day—Speculation Continues Narrow.

NEW YORK, Aug. 3.—Under the lead of the Hill issues and a few other stocks which play an important part in crop movements, today's brief market session began with much promise to the bull side. Activity in Northern Pacific and Great Northern was much in excess of usual dealings, the movement later spreading to certain of the bankers and the transactional group. In the final hour when demand for these stocks had run its course the list suddenly reversed itself, turning many material gains to moderate net losses. There was quite a deal of heaviness in such industrials as United States, Amalgamated Copper and related properties, while the hard coal stocks, which were prominent features of the preceding day's strong market, appeared to be under pressure.

MONTEAL LIST

Speculation Quiet in Eastern Exchange, But Some Stocks Advance Easily—Canners Up to New Record.

EUROPE'S OWN MARKETS.

The remarkable cheerfulness displayed by Paris and London during the last few days elicits conflicting opinion at both centres. Good observers are greatly divided as to whether the rise in stocks, which, it is believed, will be interfered with by active trade, by heavy capital issues both of bonds and stocks, by political and industrial unrest in your country, and by the money trust inquiry.

Bank Record For the Week Across Line

Bank exchanges this week make a somewhat indifferent comparison with a year ago, the total clearing for the week in the United States, as compiled by Dun's Review, aggregating only \$2,461,072,455, which is a decrease of 6.2 per cent. as compared with the same week last year and 8.5 per cent. compared with the corresponding week in 1910. To a considerable extent, however, the unfavorable comparison is due to the marked falling off at New York City, where extreme dullness in the stock and other speculative markets, compared with both preceding years, is largely responsible for the decrease of \$3 and 1/2 per cent. respectively.

July Record Of Railway Earnings

Gross earnings of all Canadian railroads for three weeks in July show a gain of 1.4 per cent. as compared with the earnings of the same roads for the corresponding period a year ago. This showing is a remarkable one, particularly when viewed in comparison with the record of the same period across the border.

Trading On Small Scale In Wall St.

Dealings in stocks on the New York Stock Exchange last month were the smallest since July last year. Only a trifle more than 1,000,000 shares changed hands last month. Although the bond market was quiet, the total sales of \$2,298,000 for the month exceeded those for June. Following are the sales of stocks and bonds for July from 1909 to 1911 inclusive:

Big Gains In Our Bank Clearings

A remarkable showing of progress is indicated in the statement of bank clearings throughout Canada for the month of July. The total clearings at all offices possessing clearing facilities amounted to \$466,722,894, against \$226,154,878 in July last year, an increase of 106.4 per cent. A detailed statement of the clearings and the comparative figures for last year follow:

PROSPECT IS VERY BRIGHT IN THE WEST

Winnipeg reports to Bradstreet's say retail trade in seasonable lines continues fair. It is likely the end of the season will find some stocks of summer goods on hand and sorting business is accordingly on the quiet side. Fall ordering has not been heavy although it is picking up considerably now that an excellent average crop seems to be assured. A tendency to order conservatively has been noted and it is likely that re-orders will be heavy. Fall lines are already being shipped and with the end of the holiday season the movement will be heavy. Much freight will be moved early in view of the danger of another grain blockade. Business at other distributing centers in the west is reported excellent.

July Record Of Failures In Canada

Business reverses in the Dominion of Canada during July were practically identical with those of the corresponding period in the two years immediately preceding, but showed a substantial decrease in comparison with both 1909 and 1910. Thus, the 102 suspensions that occurred last month contrasted sharply with the 190 and 104 failures respectively in 1911 and 1910, while being well below the 121 and 124 insolvencies reported in 1909 and 1908.

Trading On Small Scale In Wall St.

Dealings in stocks on the New York Stock Exchange last month were the smallest since July last year. Only a trifle more than 1,000,000 shares changed hands last month. Although the bond market was quiet, the total sales of \$2,298,000 for the month exceeded those for June. Following are the sales of stocks and bonds for July from 1909 to 1911 inclusive:

BANK OF MONTREAL

NEARLY fourscore years ago (in 1834), the population being nine thousand, Toronto was made a city. This store follows the celebration of the Civic birthday with a civic bargain day, and we call it

TORONTO'S BIRTHDAY SALE

The three big words in our city's motto, beginning with three big capital I's, are three winners:

Industry Intelligence Integrity

"Get Big Eyes" if you will, but let us not fail to keep these three big I's that we've got right in the forefront of our city's progress.

INDUSTRY on the part of our buyers has got together a great group of specials for Tuesday's business. They had to hustle in hot weather to do it.

INTELLIGENCE in selection has secured just the goods you want right now, and some that are good enough to buy in advance for Fall needs.

INTEGRITY, the truth and nothing but the truth, characterizes the news we tell about the goods described on this page. Read every word of it.

Many happy returns of the day to Toronto and her citizens.
