**FOUR OF DEAD STUDENTS**

**Splendid Heroism of Football  
Men in Attempting Rescue of  
Comrades Will Long Be Re-  
membered in Annals of  
University.**

Ithaca, N.Y., Dec. 7.—All day smoke  
has drifted across the Cornell campus  
from the ruins of the Chi Psi fratern-  
ity house, the burning of which at an  
early hour this morning was attend-  
ed with a loss of life that has thrown  
not only the university, but the whole  
city into mourning.

To-night the dead numbered seven.  
Of these four were students, and the  
others prominent townsmen, who had  
responded to the alarm as volunteer fire-  
men.

Among the students who escaped  
death in the flames, seven were in-  
jured, and of these C. J. Pope of East  
Orange, N.J., it is feared, will not long  
survive. He was removed to the City  
Hospital after having been badly  
burned, and to-night his condition has  
not perceptibly improved.

The bodies of the dead, with the  
exception of those of W. H. Nichols  
of Chicago, and F. W. Grellle of East  
Orange, N.J., were recovered. To-  
night it was decided to dynamite the  
ruins to facilitate the search for the  
missing bodies.

by the heroism of Schmuck, who re-

## DISCUSS COLD STORAGE M.P.'S FAVOR PROPOSAL TO PAY PORTION OF COST

**Mr. Fisher's Resolution to Appro-  
priate \$10,000 for Work Passes  
— Little Progress With Tariff  
Till After Christmas Holidays.**

Ottawa, Dec. 7.—(Special.)—Mr.  
Fielding was in Montreal to-day, so  
nothing was done with the tariff, but  
the hour put on a fair day's work,  
discussing Mr. Fisher's resolution to  
establish cold storage warehouses. The  
resolution was carried without division,  
and a bill introduced, appropriating  
\$100,000.

As already explained, the govern-  
ment will repay 30 per cent. of the cost  
of cold storage warehouses, retaining  
control of their location, management  
and rates to be charged.

Mr. Taylor (Leeds) created some  
merriment by reading from the Lib-  
eral campaign book of 1900. That ve-  
ra-  
cious document gave Mr. Fisher credit  
for having in force at that time a  
complete and sufficient cold storage  
service.

Dr. Sproule favored the scheme, but  
suggested several safeguards.

Mr. Smith (Wentworth) made an ex-  
cellent address, urging the necessity of  
cold storage from the farmer to the  
consumer. He criticized the cold stor-  
age on vessels.

Dr. Chisholm (East Huron), who had  
already presented his views on this  
subject in the debate on the address,  
contended that the government on its  
sagacity in responding so quickly to  
public opinion.

Mr. Schell (Oxford) favored the re-  
solution.

Hon. John Haggart feared that the  
government might abuse its authority  
to fix the location of these warehouses  
so as to get some political benefit.

**Tariff After Christmas.**

It seems certain now that little pro-  
gress will be made with the tariff be-  
fore the holiday adjournment. The  
Christmas recess will extend, it is said,  
from Dec. 20 to Jan. 9.

The contract for the erection of an  
extension to the house of commons  
side of the parliament buildings has  
been awarded to Messrs. McMillan  
& Labelle of Ottawa at \$235,000. It  
will run westward from the quarters  
at present occupied by the speaker  
of the commons, and will join an exten-  
sion from room 8, which has been oc-  
cupied for many years by the parlia-  
mentary press gallery.

The architectural design to the old three-  
storey in height, and with a flat roof  
that can be used, for the new wing  
is being put up to afford mem-  
bers of the house of commons more  
office room.

**PAPER MILL BURNED.**  
Walpole, Mass., Dec. 7.—Fire early to-  
day destroyed the main building of the  
Bradford Lewis & Son paper mills in  
this town, causing a loss estimated at  
about \$50,000.

**SUSAN ANTHONY'S HOUSE IN RUINS**  
Adams, Mass., Dec. 7.—The Susan D.  
Anthony House in this town was burn-  
ed to-day at a loss of \$12,000.

**\$200,000 LOSS.**  
Holyoke, Mass., Dec. 7.—Two large  
business blocks on High-street, in the  
centre of the Holyoke business district,  
were destroyed by fire to-day, causing  
a loss of \$200,000. The buildings were  
owned by McAuffin & Wakelin and  
Mrs. Sarah A. Walcott. McAuffin &  
Wakelin, dry goods dealers, occupied the  
ground floors, and the upper floors  
were rented as offices and more than a  
score of tenants were burned out.

**CEMENT CO. SUFFERS.**  
Pittsburg, Dec. 7.—The plant of the  
International Portland Cement Com-  
pany at Elizabeth, Pa., near here, was  
damaged by fire to-day, to the extent of  
\$200,000. The plant was owned by Phil-  
adelphia capitalists.

**CONGESTION OF EMIGRANTS  
THRU STRIKE OF SAUVORS**

Thousands Held in Italian Ports  
in Critical Condition and All  
Sailings Are Canceled.

Naples, Dec. 7.—The strike on the  
trans-Atlantic steamers has resulted  
in a serious congestion of emigrants  
here. All sailings for America have  
been canceled.

Thousands of the emigrants held in  
Naples are in a most critical con-  
dition. Having sold all they possessed  
and are losing opportunities previous-  
ly secured to go to work in America.  
The emigration bureau of the govern-  
ment has ordered that the con-  
centration of emigrants in Italian  
ports be discontinued, as disorders are  
feared.

**WANT SHARE OF PROFITS.**  
Genoa, Dec. 7.—The managers of the  
Italian steamship companies  
whose vessels call here have decided  
to suspend all sailings for De-  
cember.

The strikers have issued a state-  
ment setting forth that the expenses  
incurred by a company for the round  
trip of an ordinary steamer like the  
Lombardia are \$35,000. The gross re-  
turns are \$47,500, and the net profit  
is consequently \$12,500. The  
strikers ask that \$2000 of this net pro-  
fit be devoted to meeting their de-  
mands.

The companies, because of the strike,  
have already returned to would-be  
passengers a sum equivalent to 10,000  
pound fares.

Walkerville, Dec. 7.—David Cole, the

cause of his physical condition, and re-  
putedly by his family, applied to Mag-  
istrate Bartlett of Windsor to be sent  
to the Windsor Home of the Friend-  
less and was turned down, decided that  
he would get into some piece of refuge  
somehow. He threw a stone thru a  
window of one of the Hiram Walker  
buildings and then surrendered to the  
police. Squire Dobie has sent him to  
Sandwich Jail for thirty days!

## SARNIA CREW IS MISSING LOST SIGHT OF IN STORM

**Steamers Lake Michigan and  
Sidney C. McLouth May Be  
Lost on Lake Huron.**

Detroit, Dec. 7.—Grave fears are en-  
terained regarding the steamer Lake  
Michigan on the wooden steamer Sid-  
ney C. McLouth.

The Lake Michigan, with a crew of  
12, mostly from Sarnia, Ont., has not  
been reported since she cast away the  
barge Wawanosh in Thursday's storm,  
the barge being wrecked later near Os-  
coda.

The McLouth, formerly known as the  
Rochester of the Union Line, carries a  
crew of 20 men, most of whom reside  
at Marine City, Mich. The McLouth  
left Port William Monday night for  
Buffalo. Capt. J. M. Shackett com-  
mands the McLouth and Capt. Charles  
Millard is master and part owner of  
the Lake Michigan.

**One Man Killed and Another Fatal-

New York, Dec. 7.—A theatre train  
on the New York Central and Hud-  
son River Railroad about midnight  
to-night plowed thru a gang of work-  
ingmen on the Harlem River bridge  
of the New York Central and Hudson  
River Railroad, instantly killing one  
of the men and fatally injuring an-  
other. The workmen were installing an  
signal system on the third rail system  
for the Central Electric trains.

The man killed was John Kaiser,  
address unknown, and the man fat-

More important in a country with

flavor. Gentlemen often wonder at  
the apparent deterioration in the last  
half of a box of good cigars. G. W. Mul-

## FIELDING PEACEMAKER IN STEEL-COAL DISPUTE TEMPORARY PACT SIGNED

**Special Contract to Purchase All  
Coal Required for Two Years  
and to Pay \$1.50 More Than  
Under Old Arrangement.**

Montreal, Dec. 7.—(Special.)—The  
conflict carried on for several weeks  
past between the Dominion Coal and  
the Dominion Iron and Steel companies  
has come to an end, and while some  
call it an armistice others designate it  
as a lasting peace.

There will, however, unless contrary  
counsel prevail, be an appeal to the  
courts for the purpose of establishing  
the validity of the contract between the  
two corporations, and this means that  
the cause celebre will be carried to the  
privy council, loitering, no doubt, a  
couple of years on route.

In the meantime a special contract  
has been entered into by the Steel Com-  
pany to purchase all the coal they may  
require from the Coal Company, and  
the kind they may require for a period  
of two years. They agree to pay to the  
Coal Company an average of \$1.50 per  
ton more than under the famous con-  
tract which is to be modified in 1909.

It will be seen, therefore, that the  
Dominion Coal Company will be better  
off by over \$1,000,000 a year than when  
they were working under the old con-  
tract.

**Fielding Peacemaker.**  
A gentleman of influence on the coal  
side said to-day that if a settlement  
had been reached it was due to the in-  
tervention of Hon. W. S. Fielding. The  
minister of finance is credited with say-  
ing: "Gentlemen, it is not within my  
province to interfere in your business  
troubles, but I feel that I owe to the  
miners and steel workers of Cape Bre-  
ton and to the shareholders of the two  
companies to urge with all the power  
at my command some kind of an hon-  
orable settlement."

It is not probable that the public will  
ever know all that took place at the al-  
l-day conference at the Windsor, partici-  
pated in by J. H. Plummer and Elias  
Rogers on the one side, and James Reid  
Wilson and F. L. S. on the other, or at  
the all-night battle royal at the St. James' Club.

**RISK ALL IN COURTS.**  
It is learned, however, that Mr. Ross  
made several offers, one of which was  
to sell the Steel Company all the coal  
they required at an advance of 50c a  
ton, or \$1.75, if they would give up  
a new contract. The Steel Company,  
however, believing their case a good  
one, preferred to risk all in the courts.  
If the courts decide that the contract is  
unbroken then the Coal Company will  
have to pay back to the Steel Com-  
pany the sum of money embraced in the  
difference between \$1.25 and \$2.25 a  
ton during the time the litigation lasts.  
If the coal people win, then Mr. James  
Ross will declare "What I have held,"  
and a new contract will be forthcoming.

TORONTO'S DEPUTATION FOR HARBOR IMPROVEMENT

All Public Business Bodies and Others Interested Will Be Asked to Go Along.

There now appears to be some definite prospect of attention being paid by the Dominion government to the long-neglected needs of Toronto harbor.

On the same day a deputation consisting of the mayor, Controller Shaw, General Otter, Sir Henry Pellatt and Lieut-Col. Davidson, will ask the minister of militia and defence for government aid towards the acquiring of property adjoining the armories as a joint parade and playground.

By the act pending litigation is not affected, and matters in reference to the Toronto Railway, that arose since the Railway Act came into effect, can be attended to by the board.

The city engineer received an extra appropriation of \$9000 to run the water-works department for the rest of the year.

The C.N.O. Railway will be asked by the city for \$175 per year and taxes for the lease of a 14-foot strip to connect with the old belt line.

The board decided to have the city architect report on the manner of inspection of elevators in other cities and to have the city solicitor report as to whether the city would be liable for accidents on an elevator so inspected.

A motion will be introduced at Monday's meeting of the city council to

have the city engineer report on the cost of extending Dupont-street and Van Horne-street to make a thru street from Avenue-road to the Junction.

Byron Worthen, parks commissioner of Manchester, N.H., and president of the American Association of Park Superintendents, which convenes in Toronto next August, has been appointed a state senator, so Park Commissioner Chambers is advised.

Tax sales announced are: Fifty feet on the east side of Hampton-avenue, at \$12 per foot, and 36 feet 11 inches at the southeast corner of Palmerston-avenue and Olive-avenue, at \$12.86 a foot.

The vigorous complaint of Robert Newall against the condition of Paddy Bros' abattoir, has resulted in Dr. Sheard being ordered to reinspect the building.

A commission consisting of Dr. Goldwin Smith, E. Galley, B. Lamb and E. J. Hearn has been appointed to enquire into the manner in which the city's grants to charitable organizations are being distributed.

This year there has been 33 per cent. more pavement and 20 per cent. more sidewalk constructed than in 1905.

Manager Fleming of the street railway says the company is prepared to pay its "just share" of the cost of removing snow from the streets.

In two more days of work the extension of the Avenue-road-car line will be completed, and the extension of the Commissioner of Industries Thompson is in Chicago.

Louis Gurevsky is a possibility as a candidate in the third ward.

At the opening of the hearing before Judge Winchester yesterday of appeals against the revised assessment for the proposed extension of James-street thru to Richmond-street, E. E. A. DuVernet, K.C., representing the Robt. Simpson Co., made vigorous protest against the levy upon his clients.

The following table shows the changes made:

Table with 4 columns: Owner, Assessment, Revision, City Court of Revision. Lists various owners and their respective assessment changes.

By the act pending litigation is not affected, and matters in reference to the Toronto Railway, that arose since the Railway Act came into effect, can be attended to by the board.

The city engineer received an extra appropriation of \$9000 to run the water-works department for the rest of the year.

HOPE OF NEWFOUNDLAND'S UNION WITH CANADA

Hon. A. B. Morine, Ex-Premier, Discusses Fisheries Question Before St. Kitts Canadian Club.

St. Catharines, Dec. 7.—(Special).—Hon. A. B. Morine, ex-premier of Newfoundland, addressed a well-attended meeting of the Canadian Club here tonight on the international fisheries question.

The greatest wealth of Newfoundland, of course, was the fisheries, which produced \$12,000,000 worth last year. He went on to give a history of legislation passed concerning American rights to fisheries thought in certain cases the Newfoundland government had acted in a high-handed manner.

The only satisfactory solution of the difficulty lay in confederation with Canada. The island controls the trade routes of the St. Lawrence, and, therefore, if in possession of a foreign power it would be a menace to our trade.

ANNUAL BANQUET OF S.P.S. LAST NIGHT'S BEST OF 18

400 Surround Festive Board and Are Regaled With Splendid Addresses.

From the Latin grace pronounced by President Hutton to the final echoes of the concluding anthem, the eighteenth annual dinner of the Engineering Society of the School of Practical Science, at the Rossin House last night, was a success in the superlative degree.

The scene was characteristically one of youth and good spirits, and while the proceedings in a boiler factory or on a "Dreadnought" during action could only faintly suggest the clamor and reverberation, the noise was good-natured noise and laden with cordiality.

President K. A. MacKenzie took his place at the guest table with President Hutton of the university; Hon. W. J. Hanna, provincial secretary; H. Cockshutt, president Canadian Manufacturers' Association; J. W. Flavelle, Principal Galbraith, whose reception might well make him proud, and Dr. Ellis, on either hand. Other guests were Rev. Bruce MacDonald, Edmund Burke, president Ontario Association of Architects; C. H. Rust, city engineer; Prof. Stewart, F. S. Scott, A. J. Johnston, council of Ontario College of Pharmacy; S. Gagne, B.A.Sc.; Prof. C. H. H. Wright, Prof. McKie, Prof. Donohugh, Milton Bates, D. J. McLaughlin, vice-president; A. E. Quance, corresponding secretary; G. E. Jupp, treasurer; E. M. Dana, secretary; J. W. Flavelle, G. Hewson, librarian; R. J. Marshall, chief assistant librarian; D. G. Park, fourth year representative; J. L. Rennie, third year representative; W. J. Johnston, second year representative; W. J. Johnston, first year representative.

The toast "Canada and the Empire," was proposed by A. E. Quance, who expatiated on the heritage every Canadian infant entered upon with his first breath.

Mr. Cockshutt apologized for not being his brother in responding, and thought he had better have spoken for "Canadian Industries." Canada was the first colony to sell its own products, and the first to get it, "but," he said, "we have not yet fully realized our opportunities. We have six millions of people, but a civilization 100 years ahead of the United States 100 years ago. Northwest land selling at a dollar an acre a year ago, was now worth \$20 or \$25. With other illustrations of the expanding importance of the Dominion, Mr. Cockshutt adorned his patriotic speech.

A chorus, remarkable for vigor and volume, and with fine resonance, rendered the old French chanson, "Aloisette."

"The Legislature" was proposed by John Lang, '06, in a brilliantly witty speech, in which he satirized the news columns there was a great fixed feud between "various" in the parliament buildings, he said, deeper than the rift in the ravine, which was only crossed by the university conferred LL.D. degrees. There was no connection between politics and political economy. One dealt with the wealth of nations and the other with the wealth of corporations. (Laughter.)

The quartet having sung "Drink to Me Only," and been encored, Hon. Mr. Hanna responded. He did not know the right side, then the legislature, for him, and right away.

Mr. Hanna could not understand the sarcasm of engineers in the western part of the province. Farm drainage in Lambton, Kent, Essex and part of Elgin. These had meant enormous sums, \$50,000, \$90,000 and \$100,000, and up-drainage \$300 acres of land, which cost \$15,000, or \$30 an acre, but which cost was a piece of land unrivaled in fertility. Another instance of 8000 acres, which had been pronounced a failure, was refashioned by the engineers' skillfully, with completely successful results. The combination of complicated engineering and complicated legal operations involved in these drainage works was worthy of the closest attention by students, and he assured them that work of this description would be tremendously increased.

There was a dearth of men equal to men, who would come down with enough executive ability, and backbone sufficient to familiarize themselves with the legal side of it, and would have the courage to charge what their services were worth, would find ample employment, and do a great service to the state. (Applause.)

He need not say many more things, but engineers, for if he had the papers right, even a first year S. P. S. man could run a street railway.

Other Speakers. J. Stiles proposed "The University," which was responded to by President Hutton and Rev. Bruce MacDonald. "The Faculty of Applied Science" was given by Mr. Munroe, and acknowledged by Prof. Galbraith. "Canadian Industries" were introduced by Johnson and responded to by J. W. Flavelle. "The Profession" was proposed by H. Hogg and spoken to by C. H. Rust, M. Haney and E. Burke.

Motoring Terminology. Some of the English terms used in the world of automobilism are by no means satisfactory. An interesting article in The Automobile and Carriage Builders Journal deals with this subject, and with the use of French words against the agitation in Germany. "Amongst other reforms," says the journal, "which the Kaiser is bent upon accomplishing, is the substitution of German for the French words which have become general in describing certain parts of automobiles and the men who drive them. The Kaiser objects to the word 'chauffeur' and henceforth those in his employment

will be styled "wagen-fuehrer," that is to say, car or wagon drivers. He also objects to the "chassis," "tonneau," "limousine," "garage," and sundry other French descriptive words, which he has ordered plain German terms to be substituted. With the utmost respect and admiration for our French friends, we venture to express the opinion, which we, in the United Kingdom, ought to hold for the excellent example set by the German Emperor. There is no earthly reason, save the opinion, which has resulted in the French lead in automobile work, why we should say "chassis" instead of the more simple and more accurate word "driver," and there is any good reason why we should use the word "chassis" in the plural as in the singular—instead of the plain English word "cars." At the moment we seem to want an adequate English term in English for the word "garage," but several words seem to meet the want, and we ought to adopt one of them. "Tonnen," "limousine," "garage," and "motor-car bodies," and so forth, of motor-cars for their perpetuation, with all the wealth of the expressive English language at our command.

The Wonderful Something. (Maude Smiley in The Housekeeper.) There's a Something that maketh a paler— Out of four little walls and a prayer; A Something that seeth a garden In one little flower that is fair; That hath two hearts to one purpose— And maketh one heart of two; That smiles when the sky is a gray one And smiles when the sky is blue.

Without it no garden hath fragrance, Tho' it holdeth the wide world's attention by students, and he assured them that work of this description would be tremendously increased.

Without it a palace a prison With cells for banqueting rooms; This Something that halloweth sorrow and stealeth the sting from care; This Something that maketh a paler— Out of four little walls and a prayer.

A King's Hobby. The King of Denmark takes a keen but impartial interest in the politics of his country, and enjoys nothing so much as a friendly argument with the editors of the leading political organs, when he invites to the castle for the purpose. He is, says "M. A. P." known as "the editor's terror," because he so frequently catches his visitors napping. The unsuspecting editor promptly lays down the political law, while the king listens actively. The dissertation finished, his majesty turns to a book shelf and taking down a large scrap-book proceeds to read the leaders of some "Scientific American" or "Infallible Criterion," the editor's journal probably expressing diametrically opposite views.

To Prevent Premature Burial. In view of the possibility of premature burial, an absolute test of death is greatly to be desired. The "Scientific American" gives a brief note of what professes to be an infallible criterion. It is a German invention and consists in the injection of fluorescent dye deeply into the tissues. If circulation exists, the skin and mucous membrane turn yellow, and the eyes become an emerald green. If death has really taken place, this does not happen. The injection should be made at least two hours before the body is placed in the coffin. If life is not extinct, the injection does no harm, and the color passes off quickly.

## INTERCLUB CURLING

Matches to be Revived—Schedule Meeting Called for Next Tuesday.

The old City Trophy curling games, or friendly inter-matches, six rinks a side, will be renewed this year with all the clubs in the city participating, except the Caldonians. The Mutual-street men are no numerically strong and the Parkdale are out of it for the winter, Lakeview, no longer little, will take their part with the big organizations. Last year the series was abandoned on account of the mild season.

A meeting has been called for next Tuesday night in the Queen City Rink, when the schedule of games will be arranged. This year's frost has put ice in all the rinks and the Queen City, Granite, Victoria, Prospect Park and Lakeviews have been obliged to overwinter the past three nights with big dolings at limbering up in order again to-day.

The East Toronto Abertons also started last night, having already built up ice on the ground bottom.

Mayor Richardson and W. W. Booth have been appointed tankard skips by the East Toronto Abertons. The district cup skips are J. Ormerod and G. W. Ormerod.

## Peterboro's Tour

Peterboro, Dec. 7.—Two rinks of curlers from the Peterboro Curling Club were skipped by two strong men, are planning an extended tour in Western Ontario during January. The prospects of the trip are now being discussed. The lovers of the stone and beson will visit Gait, St. Thomas, London, Windsor, Detroit and other places and will be absent a week or ten days.

## Ottawa's Carnival of Sport

Ottawa, Dec. 7.—A carnival of sport will be the leading feature at the old boys' reunion to be held in Ottawa next summer. The initial meeting of the sports committee was held in the city hall last night. The chief entertainment for the visiting old boys will be sports of all kinds. Although the committee in its entirety is very representative, including lacrosse, baseball, padding, football, rowing and minor summer sports, the national game of lacrosse predominated in representatives last night.

## Central Harriers Race To-Day

The Central Y.M.C.A. harriers' 5-mile race will take place to-day, regardless of the snow and frost. There are 30 entries and medals for the first 20 to finish. The race starts at 3 p.m., along McGill, Hayter, Terantay and College, thru Queen's Park and Bloor, Church and McGill, twice over this course.

## O.H.A. REFUSES APPLICATION OF CLUBS AND PLAYERS

Senior, Intermediate and Junior Groupings Arranged—New Clubs Admitted.

The new O.H.A. executive met at the King Edward Hotel last night, with President D. L. Darroch in the chair. Other members present were Past President J. Ross Robertson, Vice-Presidents D. G. Turner and L. Blake Duff, Secretary W. A. Hewitt, Treasurer A. W. McPherson and E. C. Gould, H. B. Weisler, A. M. Edgerton, H. E. Keaton and Dr. G. E. E. Filian, members of the executive. The following new clubs were admitted: Michaels' College, Trinity College, Coldwater, Cornwall Amateurs, Dutton, New Hamburg, Y.M.C.A., Addison (conditional), Parkdale, and Kingston. The application of the Barrie Junior team was not considered. Crescent Club application of Stratford was refused.

The Preston Hockey Club, who were unable to secure ice, asked to have their fees returned, which was refused. Meaford asked to have their suspension raised, but was also refused.

Applications were received from Harvey Archibald and Roy H. Thomas of Barrie asked to have their suspensions raised. They were refused.

Preston Senior Club asked to be allowed to play James Jardine, Wallace, Jardine and Roy Johnson of Hespeler and J. M. Brady of Galt. They were refused.

D. D. Zettigrey of Colborne, who is a student at the Dental College here, elects to play with his home club.

Charles Kelly of Markham, who is a student at Owen Sound Collegiate, will play with his home club.

Club members of Gait and M. B. and F. B. Vipond of Whitby were referred to the sub-committee.

The sub-committee's residence was declared to be Gravenhurst, and Pad Kent, Toronto.

Harry Beck and Victor Mermer were declared to be residents of New Hamburg. Whitley paid Uxbridge's claim of \$10.

Each club was requested to furnish the association with a list of their officers and the ice area the team play on.

The sub-committee will consist of J. Ross Robertson, D. G. Turner and W. A. Hewitt. The following are the different groups:

## Group No. 1—Argonauts (Toronto), Peterboro, Marlborough (Toronto), Midland, St. George's (Toronto), Lanark, Otago, Vegoisang, Berlin, Meaford at Berlin, Intermediate Series.

## HAD NARROW ESCAPE.

Expressman Knocked Down by Train and Badly Shaken Up.

While carrying a trunk on his back in the Union Depot last night, Edward Gilbert, an employe of the Canadian Express Co., residing at 340 West Queen-street, was knocked down and badly bruised and shaken up by a C.P.R. shunting engine, which was backing up.

Dr. Cotton was summoned and ordered Gilbert's removal to Grace Hospital in an ambulance, where it was discovered that no bones were broken, although the unfortunate man's limbs were badly wrenched.

## Riversdale.

J. S. Robertson gave an illustrated lecture in East Queen-street Presbyterian Church last night. The chair was taken by Murdoch Macdonald. Field-avenue residents, just outside the city limits, will petition York Township council for sidewalks on that thoroughfare from Queen-street to the G.T.R. tracks. The Riversdale residents are incensed at the statement of the city engineer that the northeastern part of the city is well served by the street railway at the present time. A large population has grown up between Queen-street and Danforth-avenue, and east of Pape-avenue, who have practically no accommodation. The Business Men's Association will make this a feature of the coming municipal campaign.

Rev. Mr. Frizzell is making satisfactory progress toward recovery.

The Rev. Charles V. Fisher, professor at Wycliffe College, will preach at the morning service to-morrow in Trinity Church, east, and the Rev. Canon Dixon in the evening at the lantern service.

## WARCONDAN SAFE.

Port Arthur, Dec. 7.—(Special).—The steamer Warcondah arrived this afternoon. She had encountered very heavy weather, and when she arrived she was covered with ice, and was heaving over two feet.

MATRIMONY IN SCOTLAND.

Interesting Statistics Furnished by the Registrar-General.

Glasgow, Dec. 7.—The latest report issued by the registrar-general for Scotland contains some very interesting data regarding matrimony in Scotland.

Table with 2 columns: Date, Number of marriages. Rows for January to June.

The birth-rate again shows a decline, and this may be partly due to the fact that the average age at which the Scotsman goes to the altar is as high as twenty-nine, while his bride on the average has seen her twenty-sixth summer.

The youngest husbands of the year were two aged sixteen, who secured brides aged 16 and 15 years.

One widow between thirty and thirty-five married a youth of eighteen, while another of the same age married a young man of twenty, and still another widow who had passed forty was married to a man of twenty.

They Stand Alone.
Standing up in bold relief, all alone, and as a consequence of this frank and honest dealing with the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, and brain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, dyspepsia, torpid liver, or biliousness, all catarrhal affections whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchia, or other mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicines bears upon its wrapper a badge of honesty in the full list of ingredients comprising it—printed in plain English.

Dr. Pierce's medicines are not patent medicines, and are not advertised as such. They are not advertised as such, but are advertised as being the best and most reliable of their kind.

OBSCURE TREATMENT FOR TUBERCULOSIS

Interesting Experiments Which Are Being Conducted at Toronto General Hospital.

Interesting operations and experiments were conducted yesterday at the laboratories of the Toronto General Hospital by Dr. A. H. W. Caulfield, resident pathologist at the hospital, in inoculation with the new and little known serum which is named "Obosonin."

Obosonin is that element or chemical quantity in the blood, formed by the body of an infected person, as a result of the toxin or poison developed by the infecting organism.

The treatment is a very simple one, and consists of injecting with hypodermic needle a small quantity of the serum, by means of a hypodermic needle, into the body of the patient.

THE RHODES SCHOLARSHIPS.

Official Statement From Dr. Parkin, Showing What Has Been Done.

Dr. G. R. Parkin has issued a statement in reference to the operations during 1906 of the Rhodes scholarship scheme.

There are now in residence at Oxford under the Rhodes bequest 161 scholars, 71 from the British colonies, 79 from the United States and 11 from Germany.

The scholars are distributed among 20 of the Oxford colleges. Seventeen are in residence at Balliol, 13 each at Christ Church and Worcester, 11 each at Oriel and St. John's College, 10 at New College, 9 each at Brasenose, Exeter, Queen's and Trinity, 7 each at Hertford and Pembroke, 7 at Magdalen, 6 each at Lincoln, Merton and Wadham, 5 each at University, 2 at Keble, and 1 each at Corpus and St. Edmund's Hall.

The distribution of the scholars depends partly upon their own choice, and partly on the merits, as judged by the college authorities.

The work of the scholars, selected by the colleges in consultation with their college tutors, is distributed very widely over the different courses of study organized in the university.

Only a few men have as yet reached the final stage of their work at Oxford, but among the distinctions won during the past year by Rhodes scholars are the following:

H. J. Rose (Quebec)—The Ireland scholarship, probably the highest distinction open to undergraduates at the university.

N. W. Jolly (South Australia)—First class final honor school of natural science (physics). Appointed probationary student in the Indian forestry department.

J. A. Brown (New Hampshire)—B. Sc. degree. Appointed a demonstrator to assist the Wykeham professor of physics.

C. F. Tucker-Brooks (West Virginia)—First class final honor school of English literature.

G. S. Stairs (Nova Scotia)—Second class final honor school of modern history.

W. Macmillan (South Africa)—Second class final honor school of modern history.

A. L. De Charmoy (Natal)—Third class final honor school of jurisprudence.

R. H. Bevan (Rhode Island)—Third class B. C. L. examination.

R. V. Bellamy (N. W. Territories, Canada)—Diploma in economics "with distinction."

W. Goebel (Germany)—Diploma in economics "with distinction."

P. W. Robertson (New Zealand)—Honorary scholar of Trinity College, Toronto.

attendance records of their first hit, "The Wizard of Oz." Last Monday marked the one hundredth New York performance of the new piece.

Victor Herbert, the composer of "The Wizard of Oz," was born in Dublin, Ireland, Feb. 1, 1859, and as the grandchild of the distinguished poet, painter, dramatist, musician and novelist, Samuel Lover, he comes by his musical talents naturally.

He was taken to Germany, and at the age of seven became a student of music. His first prominent position was as first cellist of the Court Orchestra, Stuttgart, at the age of 27.

His exceptional ability was not long pent up in the provincial German capital, however, and he was soon winning laurels on this continent.

A SISTER'S LOVE.
Commits Suicide Because Her Brother Did So.

London, Dec. 7.—A dramatic sequel has occurred to the suicide of Kenneth Overy, the philanthropic worker in the east end of London, who, dismayed by the poverty and distress he encountered, took his own life six weeks ago.

She was never the same after the news came that he had shot himself. She was devotedly attached to Kenneth. She was never the same after the news came that he had shot himself.

THE SIFTING GRATE
'SOVEREIGN'
Hot Water Boiler

One of the new things about the 'Sovereign' is its sifting grate. This is a section directly beneath the fire-pot, into which the ashes fall before reaching the ash-pit.

The clinker door is another accessory to the fire-pot. It gives space to run the poker full over the base of the fire to force out or break up any clinkers that may be lodged there.

GUELPH TORONTO MONTREAL

ELDER FINED FOR ASSAULT
MAPLETON CHURCH FRACAS

Defendant, W. G. Charlton, Claimed Justification, Charging Disorderly Conduct.

St. Thomas, Dec. 7.—(Special).—The case of assault at the Mapleton Church last Monday night was ventilated today before Magistrates Hunt and Day.

The evidence of Clinton W. Smith, an employe of the Michigan Central shops here, was to the effect that a party of nine young people drove from here to Mapleton to attend the tea meeting, and that Charlton without any provocation struck him, giving him a black eye and knocking him to his knees, then rushed him out of the church.

All the men of the St. Thomas party gave similar testimony, and one of the young ladies, Miss Clara Lumley, gave evidence on the same lines. The young people are all connected with churches here and bear excellent reputations.

It is demanded an apology.

used a GERHARD HEINTZMAN STUDIO GRAND at a concert last month and writes unsolicited as follows:—

'Allow me to congratulate you on the magnificent tone quality and general excellence of the GERHARD HEINTZMAN GRAND PIANO supplied for my concert. It was indeed a pleasure to sing to its accompaniments, and you can well be proud of such a splendid instrument. Yours sincerely, (Signed) ELLEN BEACH YAW.'

There are many thousands of Canadians equally as enthusiastic as Miss Yaw at the magnificent tone qualities of the GERHARD HEINTZMAN PIANO, which can be purchased on easy terms of payment, if desired. Used instruments taken in exchange.

RAILWAY MANAGERS CONVENTION

Traction Companies' Representatives in Semi-Annual Session.

Every street railway in Canada, except the Hamilton Company, has a representative at the semi-annual convention of the Electric Railway Association, which opened its session at the King Edward yesterday.

The most interesting paper during yesterday's session was 'The History of Electric Traction,' by R. Clark, assistant controller of the Toronto Street Railway Company.

A formal dinner was given the delegates last night by the Toronto Railway Company in the King Edward. Some of those present were: W. G. Ross, manager of the London Street Railway Company; J. E. Hutchison, manager of the Ottawa Electric Railway Company; J. H. Boyce, president of the Toronto Suburban Railway Company; 'Freight and Mail Delivery,' by G. A. Evans, manager of the Quebec Railway Company, and S. F. Selix, manager of the Niagara St. Catharines & Toronto Railway Co.

NEGRO RUNS AMUCK

Kills Two, Wounds as Many More Before He Surrenders.

Greenville, Miss., Dec. 7.—Two persons are dead, a similar number seriously wounded, and two others slightly injured in a fight here today.

Felix Holman, a negro, shot and killed, Celina Holman, a negro, in a boarding house, Eufemia, Abercrombie, with B. Cogee, Wm. Vaughn, and Enoch Thompson, entered the house to arrest Holman. The negro had two pistols and fired upon the arresting party.

The first shot passed through Thompson's breast, killing him. Another shot struck Cogee in the body. He may die. Abercrombie's right thigh was shattered by a bullet. After emptying his pistols, the negro fled and was fired upon by policemen and citizens. He finally was driven into a warehouse, and after a threat to burn him out he surrendered and was lodged in jail. Holman was shot in the arm.

Admits Forgery

London, Dec. 7.—At the police court this morning Frederick Ryckman, the young man who was arrested yesterday on a charge of forgery, pleaded guilty to four charges of forging cheques, and was remanded until Saturday, Dec. 15, for sentence. Ryckman is married, 27 years of age, and came here with his wife from Hamilton to reside about three weeks ago.

In Seclusion for Six Months

There was no proof in police court yesterday afternoon that John Wilson entered the home of Henry O'Brien, K.C., 33 Sherbourne-street, a few nights ago for the purpose of robbing Wilson, when discovered by Mr. O'Brien, about midnight, couldn't explain his presence in the house and attempted to escape. He was pursued and held until arrested. His worldly possessions, valued at \$100, were found in Central Prison.

HOME AGAIN

The troops of Stanley Barracks returned last evening after their two weeks of strike duty at Hamilton. They arrived at the exhibition grounds, sitting at 6.40 p.m., and were soon in barracks, and glad to get back, too!

Tehran, Persia, Dec. 7.—A slight improvement was noted in the condition yesterday and it was maintained today.

Students Didn't Attend for Lecture and Consequences May Be Severe.

Half a hundred second year students at Osgoode Hall are on tenterhooks just now wondering whether they are going to be debarred from writing on their examinations Dec. 19-21.

It seems that on Wednesday E. D. Armour was to have given them a lecture on real property, but he failed to appear. He was still absent when they gathered on Thursday morning, and as there was no announcement as to when he might be expected, the class didn't attend in the afternoon.

But Mr. Armour did and was so annoyed when his audience was lacking that he posted a notice that he would suspend the students and have them appear before the committee supervising the law school. He demands an apology.

LAKE ERIE BOUNDARY

A joint report as to the international boundary was decided upon yesterday by George C. Gibbons, K.C., of London, and George Clinton of Buffalo, representing the Canadian and United States sections of the waterways commission. This report will be submitted to a meeting of the commissioners on Dec. 18.

Dr. McLaughlin's Electric Belt Will Do This for You.

Breakfast for Six Months—Cured By My Belt.

No. 9 Buffalo St., Brantford, Ont., Sept. 6, 1906.

DR. McLAUGHLIN: Dear Sir,—I came to Brantford a little over two years ago crippled up with rheumatism so bad I had to be carried into the house, and was bedfast for six months.

What would you give to have your old vim back again? What would you not sacrifice to feel as you did a few years ago? To have the same snap and energy, the same gladness, joyous, light-hearted spirit and the physical strength you used to have?

DR. McLAUGHLIN'S ELECTRIC BELT

My arguments are good, my system is good, but I know you haven't time to study these. You want proof, and I give you that, and lots of it. When your own neighbor tells you I cured him, you will know I did it.

I WILL ASK NO PAY

For a case of Nervous Debility, Varicocle, Early Decay and Waste of Power, Rheumatism, Lame Back, Lumbago, Sciatica, any case of Kidney Disease that has not gone as far as Bright's Disease, Indigestion, Constipation, Bladder Trouble, or any weakness caused by ignorance of the laws of nature which I cannot cure with my new improved Electric Belt—the marvel of electricians, the most wonderful curative device that has ever been introduced.

To prove to you the confidence I have in the curative powers of my Belt, I am willing to accept your case, and after I have cured you, then pay me. All I ask is give me reasonable security. You can then use my Belt at my risk and

PAY WHEN CURED.

My Electric Suspensory carries the current direct to the weak parts and cures all weaknesses of men, varicocle, etc. It develops all weak organs and checks unnatural drains. No case of Falling Vigor, Varicocle or Debility can resist the powerful Electric Suspensory. It never fails to cure. It is free with Belts for weak men.

No man should be weak, no man should suffer the loss of that vital element which renders life worth living. No man should allow himself to become less a man than nature intended him: no man should suffer when there is at hand a certain cure for his weakness, a check to his waste of power. Most of the pains, most of the weakness of stomach, heart, brain and nerves, from due to an early loss of nature's reserve power through mistakes of youth. You need not suffer for this. You can be restored. The very element which you have lost you can get back, and you may be as happy as any man that lives. My Belt has

Free Electric Suspensory for Weak Men.

Call and Test It To-day! If You Can't Call, Send for My Book—Free.

CAUTION.—In order to protect the reputation of my Belt, I am compelled to caution people against certain concerns that are advertising electric Belts. My office contains hundreds of these magnet bands that possess no virtue. Even if they did those selling them could not advise the proper manner to apply them.

FREE BOOK.—Write for my beautiful illustrated book, showing how my Belt is used. I want you to read this book and learn the truth about my arguments. If you suffer from rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous prostration, varicocle, or any ailment of that kind that makes you feel that you should know it, explains my method thoroughly, I send it closely sealed without charge, free upon application. If you are not the man or woman you should be, call or write at once. CONSULTATION FREE. Cut out this coupon and send in for free book.

I HAVE A BOOK ESPECIALLY FOR WOMEN, ALSO.

Put your name on this coupon and send it in. DR. M. O. McLAUGHLIN 112 Yonge Street, Toronto, Canada. Send me your Free Book, closely sealed, and oblige. NAME ADDRESS OFFICE HOURS:—8 a.m. to 6 p.m. Wednesday and Saturday until 5 p.m.

**Live Stock Awards at Fat Stock Show Justify Slogan That Ontario's Good Enough for Us.**

The farmers of this banner Province of Ontario feel proud at all times of their favored land. But, added glory has come to them in the winnings of our livestock and judging teams at the International Show just closed in the Windy City across the lines. This great show, which attracts thousands of farmers from all over the republic, and which is the rendezvous of all stockmen visitors on this side of the water, has, this year, been the largest and brightest in its history. In the short space of seven years this show has already earned a worldwide reputation, and in the words of the president of the English Hereford Herd-Book Society, it is the "biggest and greatest livestock show I have ever seen."

Great indeed is the prestige that attaches to Canada, and especially to Ontario in the awards just made. Hon. Nelson Monteth, minister of agriculture, expressed the sentiment of his feelings when he said that Canadians had done themselves proud, in hogs, sheep, cattle and horses, the breeders of Ontario may feel justifiably elated, for the prizewinners of note were from the Canadian stables, or from stables that had purchased from animals of his importations.

The championship was larger than usual, and the men who returned thru Toronto were all enthusiastic over the results.

Yesterday afternoon the hackney stallion, Dalton King, the property of Graham Bros., of Clearmont, won the \$500 Cup, the biggest prize at the show. Graham Bros. succeeded.

In hackney horses Graham Bros. of Clearmont secured the two firsts on aged stallions over 153 and under 152. Graham and Renfrew of Bedford Park secured first in the 2-year-old stallion class with Brigham Radiant, while Graham Bros. captured the first of the 2-year-olds in Crank Minko.

The championship was secured on the last horse in competition with all the rest, thus vindicating the same award obtained at the Canadian National, and the first honors he obtained at the New York Horse Show. Brigham Radiant, owned by Graham and Renfrew, was reserve champion. And the beauty of the awards was the hotly contested classes in hackneys.

In Clydesdales, the horse par excellence for the general farmer, Graham Bros. got first, and grand champion for the winner at Toronto—Right Forward. Graham and Renfrew also got first on Evander in the 3-year-old class, while the Cairn-brogie stables got 3rd on Celtic Pride.

Other winners of the Bedford Park stables were, 1st with Blazon Swagger in the yearling class, and first with Flash Baron, and second with the beautiful 4-year-old class, Lanark Queen, which was so much admired in her stall on the exhibition grounds, and owned by Graham and Renfrew, won first and the championship.

In the 2-year-old class Hodgkinson and Peadar of Beaverton won first on Fleisher, and second with Queen's Maud. For the four animals, the set of one sire, the award first went to Graham and Renfrew on Caleb, Flash Baron, Baron Hamlet and Lanark Queen.

In sheep, W. F. Carpenter of Simcoe won first prizes in Shropshire, while the first prize and champion yearling ram was owned by F. W. Harding of Wisconsin, who purchased it from Robert Miller at the Toronto fair. The first prize yearling ewe and champion female was won by Mr. Davison of Millbrook, N.Y., and after winning similar honors here in September.

In Cotswolds the aged ram winner was an Ontario bred ram, as was also the second prize one. The first prize yearling and champion ewe all was won by Harding, who bought it from the recent importation of Robert Miller.

Mr. J. C. Ross of Jarvis also carried off many honors, winning second on yearling rams, and first on ram lambs, yearling ewes and the champion sire. He also secured the flock prize. It is noteworthy that every first and champion winner in these classes came from Ontario breeders. The sheep breeders have no reason to feel proud of their work.

In Southdowns, Sir George Drummond of Beausoleil won the grand championship on his 4-year-old ram, which was kept in the other over all competition was keen, and yet Canada showed up fairly well. The prize aged bull was bred from stock imported by Ross Miller, as was also the first prize two-year-old bull. It reflects credit on Mr. Miller's judgment

**Perfect Manhood**

Our "Restorine" CURES are The TEST.

North Bay, Ont., July 21st, 1906.

Dear Sir:—Have finished taking your 30 days treatment, and am in every way improved. I weigh 20 lbs. more, and am much stronger, and my nerves are very much better.

Yours sincerely, E. M. (Source Testimonial.)

Health of body, strength of mind, steadiness of nerves are the best and most precious gifts man can lay upon the altar of his conjugal love. Restorine operates on the nerves which control the sexual system, and infuses into it, power and vigor. No such thing as failure in life, is possible in perfect manhood; it is the lack of vital force, and the depletion of sexual energies that makes failures of men. Restorine awakens a man to a sense of restored vitality and power. Why be weak when you can so easily become strong? Proofs are the test. Sworn testimonials sent to any one on receipt of name. Five Days' Trial Treatment sent absolutely free. Write To-Day. (11)

**GRAIN MEN REMANDED.**

Charged With Conspiracy to Depress Grain Prices.

Winnipeg, Man., Dec. 7.—(Special.) A week's remand was granted by Magistrate Daly in the case brought by D. W. McQuig against J. C. Gage, vice-president of the International Elevator Company, John Love, president of the Winnipeg Elevator Company, and J. G. McHugh, manager of the McHugh Christenson Company, grain commission merchants, who are charged with conspiracy in restraint of trade by D. W. McQuig, president of the Grain Growers' Association of Manitoba.

The case, which has aroused keenest interest in the grain trade of Western Canada, and which is based upon evidence brought out before the recent meetings of the Royal Grain Commission, was instituted by the Grain Growers' Association. Owing to the fact that the prosecution was not ready to proceed, it was mutually agreed with the defence that a remand should be granted. The initial hearing in the police court will be held on Dec. 13.

**A BROKEN-DOWN SYSTEM.**

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, or, in worse, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what is the absolutely essential in all such cases is increased vitality—vigour—vital strength & energy.

Stables of these medicines, and experience proves that as night succeeds the day this may be more certainly secured by a course of

than by any other known combination. So surely as it is taken in accordance with the directions accompanying it, will the shattered health be restored, the expiring lamp of life LIGHTED UP AFRESH, and a new existence imparted in place of what had so lately seemed worn-out, "used up," and valueless. This wonderful medicine is purely vegetable and innocuous, it is agreeable to the taste—suitable for all constitutions and conditions, in either sex; and it is difficult to imagine a case of disease or derangement, whose main features are those of debility, that will not be speedily and permanently benefited by this never-failing recuperative essence, which is destined to cast into oblivion everything that had preceded it in this same-spread numerous classes of human ailments.

**THERAPION** is sold by Chemists throughout the world. Price in England, 2/6 per packet. Purchasers should see that word "THERAPION" appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Home-Comm. officers and without which it is a forgery.

**CANADA'S FUTURE.**

(Canadian Associated Press Cable.) London, Dec. 7.—The Financial News has a long editorial on the tremendous future of Canada, and says the time must come when the Dominion must take a share of the burden of defence. It asks if it is too much to hope that the other country and her oldest colony will draw courage and in ties of mutual self-interest before that time arrives.

**Methods of Calculation.**

For illustration, he compared the manager of a bank to the manager of an electric power company. A person approaching the former for a loan would not be quoted the same favorable rate as if he desired a million—supposing the security to be good in both cases. The same aggregate quantity, and to one main centre.

**Toronto City Mission.**

The directors of the Toronto City Mission held their last business meeting of the year in the Y.M.C.A. rooms. John Stark presided.

The treasurer reports a deficit of \$300 and hopes that the friends will do that this is wiped out before the close of the year.

The three missionaries each read their reports for the year. They made 546 visits made among the poorer homes of the city and \$27.87 was expended in relieving distress and 340 articles of clothing were supplied in cases of need and 33 Gospel services were held, with good results.

Mr. Hall is ready to receive gifts for the poor fund, which is now almost exhausted, and there are many appeals for help. The missionaries are also preparing their list for the distribution of Christmas dinners among the needy poor, which they hope will receive the usual support of the charitable public.

To wrong action of the stomach and impaired digestion a host of diseases owe their origin.

When the food is imperfectly digested the full benefit is not derived from it by the body, and then stomach troubles start to appear.

Thus you become thin, weak, nervous and debilitated, energy is lacking, brightness, snap and vigor are lost and in their place come dullness, dizziness, loss of appetite, depression and languor. The great point is to get the stomach back into good shape so that it can properly digest the food, and the easiest, quickest and best way to do it is by the use of

**BURDOCK BLOOD BITTERS**

Miss Lizzie Furlotte, Jacquet River, N.B., writes: "I was very much troubled with my stomach and did not know what to do. I consulted several doctors, got medicine from them, but all to no purpose, and was constantly growing worse. One day I had the good luck to meet with a friend who had been troubled in the same way as myself. My friend told me of the wonderful cure Burdock Blood Bitters had made with her, and advised me to try a bottle. I did so, and what a happy change the first bottle made. I took two more and am completely cured, and I shall ever sing the praises of B.B.B."

FAY TEMPLETON COMING IN HER COHAN COMEDY

Gay Comedienne at Princesses—Four Mortons at Grand—Stellar Attraction at Shea's.

Klaw & Erlanger have annually sent many attractive entertainments to Toronto, but it is doubtful if they have ever given theatre-goers of this city a greater success than they will offer at the Princess Theatre next Monday, when they will present George M. Cohan's musical drama, "Forty-five Minutes From Broadway," with Fay Templeton. The piece will be found a departure from anything Mr. Cohan has ever written, or anything in which Miss Templeton has appeared before.

The piece might really be called a comedy-drama set to music. It is in three acts, the first being straight comedy, the second a roaring farce with melodramatic touches, and the last, pure comedy, ending with a pretty little love scene between a servant girl and a young man from Broadway, New York, with a bowery dialect. Miss Fay Templeton plays the part of Plain Mary, the housemaid, while the part of Kid Burns is played by Victor Moore, who is second only to the star in his abilities as a comedian. The original supporting cast is excellent, and includes Victor Moore, Donald Brian, Floyd E. Francis, Julia Ralph, Marion Singer, Emma Littlefield, Lillian DeRoy, Mabel Adams, Madeline LeRoux and Clark Dollard. Matinees will be given on Wednesday and Saturday.

That there is a great demand from all theatrical managers all over the country for the Augustus Daily Musical Company was demonstrated by the fact that when the season of thirty weeks, which the present season will consume, was booked, enough time had been refused to fill another equally long season. There is no doubt that this organization set a pace that is hard to follow when they presented "A Country Girl" and "The Cingolese." The popularity of these two musical works is great. Their record runs in London is something to boast of. They have been booked to appear here for one week, commencing Dec. 31, opening with "A Country Girl."

The sensation of Paris and London, Hardin's electric ballet, "Starlight," will be seen at Shea's Theatre next week at the head of a great bill. This ballet is the highest-priced act ever introduced into vaudeville, and \$50 a minute is expended during every minute the spectacle is shown. Thirty-five great dancers, led by some of the best known premieres are surrounded by five electrical effects, and bring this ballet to a climax that is an ovation from all parts of the house. "Starlight" is the last act of the act: "Starlight" is the

But Mental Condition Such That He May Be Mistaken. Dayton, O., Dec. 7.—"Yes, I did it! I am the murderer of Dona Gilman," Coolly and without the slightest sign of emotion or remorse, David Curtis made the above confession to two detectives, to Coroner Kilne and to Prosecuting Attorney Nevin, in the office of the latter early to-day.

Curtis wept bitterly but declared that he was glad to have relieved his mind. He is 27 years old, and earned a precarious living selling newspapers. He is half-witted and at times labors under delusions that he is a great detective. Many believe his story is partly the result of his own disordered imagination, and that he really had no connection with the crime.

Dona Gilman, 20 years old, was criminally assaulted and strangled to death within 50 yards of her home in the suburbs. Employees at the factory where she worked subscribed \$4000 as a reward for the capture of the murderer. The employer of David Curtis furnishes a complete alibi for Curtis, and no charge has been placed against him by the authorities.

Washington, Dec. 7.—The house, after an hour's consideration, to-day passed a bill providing for the protection of labor and industries from the competition of convict labor and manufacturers. The bill amends the Wilson Act in relation to the regulation of interstate commerce, and gives the states the right to regulate convict-made goods.

The house to-day adjourned until Monday.

Had to Quickly Replenish Stock After St. Andrew's Day. "I can promise that it will not occur again," said Ed. Mack, the Toronto representative of Semi-ready tailoring, as he displayed a wardrobe full of fine dress suits. He explained that he did not expect such a wholesale demand at the opening of the social season, and in a very few days the stock on hand was cleared out at both 31 Yonge-street and 47 West Queen-street.

"I have now about 100 dress suits and Tuxedo jackets, all new and in the prevailing mode, and with more suits coming from the Semi-ready tailor shops than in any emergency. I know that many Semi-ready patrons were disappointed, but they will not be again. The dress suits, all silk-faced, for \$25, and the silk-lined ones at \$30 and \$35.

With "The Four Mortons" at the Grand. Clara, Kittle and Paul have been fitted with four splendid character parts, and Frank V. Hawley, under whose management they are appearing this season, has spared no expense to make of this production a scenic, musical, pictorial, singing and dancing masterpiece. There are fifty people in the cast, including a chorus of the prettiest

A WOMAN'S BACK WAS NOT MADE TO ACHE

Thousands of Women suffer Untold Misery Every Day with Aching Backs That Really have no Business to Ache.

Under ordinary conditions it ought to be strong and ready to bear the burdens of life. It is hard to do housework with an aching back. Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Backache is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney trouble.

Doan's Kidney Pills will cure you in the same way as they have cured thousands of others. Mrs. Thos. Craig, Almonte, Ont., writes: "I was suffering for six months for kidney trouble and my back was so lame I had to lie in bed. I was advised to try Doan's Kidney Pills. I did so and in one week I was able to walk with very little pain, and in five months my back was as strong as ever."

Doan's Kidney Pills are 50 cents per box or 3 boxes for \$1.25 at all dealers, or will be mailed direct on receipt of price by the Doan Kidney Pill Co., Toronto, Ont.

girls that could be engaged in New York. The scenes of the comedy run from low to high, from the tenement to the palace on Riverside Drive. The character drawing is fine, if a little exaggerated, for mirth-provoking effects. The usual matinees on Wednesday and Saturday will be given.

"Watson's Burlesques," headed by the great comedian Billy Watson, will appear next week at the Star. The name of Watson is a guarantee of a big, fine show, but this year it is bigger and better than ever. Mr. Watson has a magnificent company this season, embracing a host of talented artists and beautiful girls. In addition to a fine vaudeville olio of European and American talent, the latest song hits will be introduced with the embellishments of gorgeous costumes, appointments and scenery. The Watson Burlesques have made a genuine sensation wherever they have appeared this season, and crowded houses will certainly prevail next week.

It will be good news to her admirers in Toronto to know that Miss Eileen Milliet, who is now occupying the position of tenor soloist in the United States, will return at Christmas time to take the soprano part in the Christmas production of the "Messiah" at Massey Hall on Dec. 27. The other soloists are Mrs. Grace-Carter.

The completed program for the concert of the Elementary Chorus of the People's Choral Union, in Association Hall on Tuesday next, Dec. 11, is as follows: Chorus—Battle Hymn..... THE BISHOP IS CRITICIZED. (Canadian Associated Press Cable.) London, Dec. 7.—A writer in the Manchester Guardian, referring to the speech of the Bishop of Qu'Appelle, at the meeting of the Society for the Propagation of the Gospel in foreign parts, says one wondered whether the bishop was well informed or, if so, discreet, when he went so far as to hint at the leaning of Western Canada towards union with the States, and when he based on that fear an appeal to make the English church and prayer a bond of empire and a corrective to the centrifugal tendencies.

To connect such great spiritual endeavors with motives so secular and political, strikes one as somewhat grotesque and almost profane bathos.

Rescues Eighteen Men. Quebec, Dec. 7.—The steamship Arammore, after several days' detention on account of heavy storms and contrary winds, has succeeded in taking off sixteen men from Cape Bay, and will bring them to Sydney to be sent up by rail. The Arammore has still Bird Rocks and Bryan Island to serve, after which she will proceed to Halifax for the winter.

Happy at Last. Her Husband no longer gets Intoxicated—Samaris Tastes Remedial Cured Him. This lady says: "For the first time since I have been married I can be happy and content—my husband is cured of his bad habit of drinking. Several months ago you sent me a free sample of your remedy at my expense, and without my husband's knowledge I gave it to him in his tea. I then got a full treatment and gave it regularly. It is wonderful and I cannot sufficiently thank you for the blessed change it has brought to my home."

FOUR KILLED IN WRECK.

Firemen Wedged in Debris, Could Not Be Saved From Cremation.

Lewiston, Maine, Dec. 7.—Four persons were killed and three others seriously injured in a head-on collision between a special and a regular freight train on the Maine Central Railroad near the small station of Annabessac, Maine, last night. The wreck was caused by a misunderstanding of orders. Both trains were going south when they met, that of the special being led by the regular. The special was wedged so tightly between the engine and tender that it was impossible to remove him, and he was slowly burned to death by the live coals of his engine. Engineers Harriman and Fletcher, and brakeman Rowe were buried in the piles of wreckage.

Owing to the late hour at which the accident occurred all the telephone and telegraph offices in the vicinity were closed, and great difficulty was had in getting word thru to this city for help.

THE LOSSES AT FRISCO. 25,000 Buildings Destroyed, Valued at \$350,000,000.

San Francisco, Dec. 7.—The report of the special committee of the board of trustees of the chamber of commerce on insurance settlements after the big fire, which has just been published, says: "The total area burned was about 3000 acres, or about 7 square miles, containing 520 blocks and about 25,000 buildings, one-half of which were residences.

The amount of insurance covering property in the burned district was approximately \$326,000,000 (estimated). The value of buildings and contents destroyed in the fire must have been about \$350,000,000, being an estimate upon the insurance liability, the known ratio of insurance to value about 70 per cent., and a guess that there was about 5 per cent. of property that carried no insurance."

CONFESSES TO MURDER. But Mental Condition Such That He May Be Mistaken.

THE SCARLET MYSTERIES IN A SCOTCH SONG. Merry, contralto: E. P. Johnston, tenor: Ned Young, baritone: J. McDonald, baritone. The subscription list is still open at Massey Hall.

The date of Mrs. Le Grande Reed's concert is Jan. 29. Madame Marie Reed, as she is now known to the York, is a well-known soprano, and for four years abroad. She first went to Blanche Marchesi, the famous voice specialist of London, England, and she also studied under Sir John Power for a short time. In Paris she studied with Baldebi, who is a great friend of Puccini, the composer of "La Boheme" and "Madame Butterfly." She climaxed her work with two years under Jean DeReske. It may be said, without exaggeration, that she is one of the best equipped sopranos on the concert stage.

A pleasing addition to the program of the National Chorus with the New York, is the presentation of the first production, by a large organization, of the National Ode "God and Our Land," words by W. A. Fraser, the novelist, and Dr. Albert Ham, conductor of the chorus, is the composer of the music. This will be sung at the close of each performance on Jan. 14 and 15.

ATTACKED BY BOLOMEN. U.S. Detachment Loses 5 Killed and 10 Wounded in Philippine Fight.

Manila, Dec. 7.—Later reports of the fighting in the island of Leyte, Dec. 5, show that Capt. Samuel V. Ham, with a detachment of Company L of the 8th Infantry, and a force of constabulary under Lieut. Ralph P. Yates Jr., were attacked by sixty bolomen near La Paz, on the Taragona trail.

The Pulajanes, who had a few guns, fired a volley, and then made a rush upon the American force with their bolos. Five Americans were killed and ten were wounded. The enemy lost twenty killed. A detachment has started in pursuit of the insurgents.

The list of the American dead is as follows: Sergt. Joseph Clark, died of a bolo wound; Sergt. James Proven, killed with a bolo; Pte. William Dufferin, killed with a bolo; Pte. W. Hadley, gunshot; Pte. Edward Keogh, gunshot. Of the ten wounded, Lieut. Yates, Corp. Weld and Pres. McHenry, Edge and Wakenfield were severely injured and Holst and Richardson, slightly wounded.

THE DEAD WERE BURIED ON THE BATTLEFIELD during the night of Dec. 5. All the wounded are doing well. No report has been received of any casualties among the constabulary, aside from the wounding of Lieut. Yates.

ASSAY OFFICE ROBBED. Irkutsk, Siberia, Dec. 7.—The government assay office here was entered by means of an underground tunnel last night and gold weighing 185 1-4 lbs. was stolen.

NEW YORK GAS COMPANY HELD UP BY STANDARD OIL

Compelled to Pay More for Product Than is Paid by Any Other Corporation.

New York, Dec. 7.—A contract made by the Consolidated Gas Company with the Standard Oil Co., calling for the delivery of 255,000,000 gallons of oil to the Gas Company at 4.68 cents per gallon, has been found by Assistant Corporation Counsel Burr, who has been investigating the cost of manufacturing gas here.

Mr. Burr said that the difference in the cost of oil of one cent per gallon means a difference of five cents on every thousand cubic feet of gas sold. Therefore, it can readily be understood why the price paid for oil is a very important factor in sustaining the legal rate of 30 cents for gas in New York.

The Consolidated Gas Co. has pleaded in a gas hearing that it was compelled to buy all its oil from the Standard Oil Co., because that was the only producing corporation that could supply all the oil needed for making gas.

Mr. Burr says that the contract was signed by the Consolidated Gas Co. through W. R. Addicks, the vice-president of the company, and for the Standard Oil people by Higgins & Telford.

It was to run from Nov. 1, 1905, to June 30, 1906, a term of two years and eight months. By the terms of the contract the Standard Oil Co. was to furnish the Consolidated Gas Co. 255,000,000 gallons of oil, 40 per cent to be of a grade not lower than 34 degrees beam and higher or the option of the gas company; and 60 per cent to be of a grade not lower than 40 degrees beam.

Mr. Burr also made public a statement by the accountants who were engaged by him to examine the company's books. The statement purports to show that according to the Consolidated Gas Co. 255,000,000 gallons of oil, instead of 74.81 cents, as the company claimed; that the company claims to be worth \$16,000,000, cost it only \$3,000,000; and that the company's figure in its cost of gas includes items that it should not include.

Mr. Burr also finds, he says, that the company has not less than 100 million in claims and that William Rockefeller, James Stillman and other wealthy men are directors in both the Consolidated Gas Co. and the Standard Oil Co.

John A. Garvin, counsel for the Consolidated Gas Co., said to-night: "The contract between the Consolidated Gas Co. and the Standard Oil Co. was voluntarily produced and in evidence months ago. The figures were not one cent a gallon over what was paid by other companies."

"The only one of the 13 directors of the Consolidated Gas Co. who is a director of the Standard Oil Co. is William Rockefeller and he had been in Europe several months when this contract to which Mr. Burr referred was made."

"The valuation of \$31,900,000 for the special franchises of the Consolidated Gas Co. is not the valuation of the company, but the valuation of the New York State Board of Tax Commissioners."

Justice MacMahon yesterday decided in the case of the Trent Valley Cold Storage Co., suing Herman Wilson for the transfer of a property, that an option for the purchase of property is not binding unless something is paid for it, even tho' the offer states that it is to be "open and irrevocable" for a given period.

FOR YOUNG MEN'S BENEFIT

Walmer Rd. Baptist Church Have Inaugurated a Campaign.

The "round table" conference held in the school room of Walmer-road Baptist Church last night under the auspices of the young men was a gratifying success. The gathering took the form of a social function, a number of long tables, bountifully laden and handsomely decorated and reaching the whole length of the school, being filled with members and prospective members of Walmer-road church.

The supper was followed by a number of short addresses bearing upon the improvement of the moral and mental uplifting of the young men. Rev. John McNeill presided, and introduced as the first speaker, S. J. Moore. The foundation of all lasting permanent success in commercial life, he said, was an inherent regard for honor and for probity, not alone that we may stand well in the estimation of our fellow men, but as an abiding principle. At all costs he who would succeed must dare to do right.

Other speakers were Professor Tracy, Prof. McCrimmon, ex-Mayor Urquhart, J. M. Shenstone, Dr. Rolph Hooper, and Prof. Farmer. The committee appointed to arrange for organizing the men of Walmer-road are: Rev. John McNeill, W. S. Elliot, Dr. G. E. Porter, F. Sanderson, Prof. McCrimmon and T. Carter.

PORT CREDIT FEELS THE COLD

Claim is Made That Residents Cannot Obtain Coal.

Complaint was received by The World yesterday from a Port Credit citizen that a coal famine existed there, the local dealer having no supply. It was stated that for the last two months the supply has been had from Toronto even in car load lots. The lurking despotism of a combine was feared.

Not Marshall of the Standard Fuel Co. said he had never heard of the reported famine nor could he imagine any reason for one existing. "We are not in the present case alleged to produce to-day in the trial of Geo. Burnham Jr. in the New York supreme court."

PHOTO OF CRAFT CHEQUE IS PRODUCED AT TRIAL

Trial of Vice-President of Mutual Reserve on Charge of Larceny of Company's Funds.

New York, Dec. 7.—At the trial to-day in the supreme court of George Burnham Jr., a vice-president of, and counsel to James Y. Watkins, as trustee, and company, on a charge of the larceny of \$7500 of the company's funds, a photograph of a cheque for \$10,000 was produced by the prosecution in connection with the examination of the defendant, who was being questioned concerning a demand for \$100,000 alleged to have been made upon the Mutual Reserve for the suppression of an unfavorable report when Louis F. Payne was New York State superintendent of insurance.

The cheque was drawn on the Butchers' and Drovers' National Bank, signed by Timothy Donovan, made payable to James Y. Watkins, as trustee, and by him made payable to Charles P. and W. W. Buckley, attorneys for legal services. By the attorneys the cheque was endorsed over to Lou Payn, or order, and later was endorsed by Lou Payn to the credit of the United States Express Company. Burnham said he recognized the handwriting as that of one of two cancelled cheques, which the late George D. Patterson of the firm's benevolent fund had given him for safe keeping, and which he said he later returned to Patterson. Justice Greenbaum to-day ruled that it was competent for the prosecution to attempt to introduce evidence bearing on the allegation that Payn, while superintendent of insurance, demanded \$100,000 from the Mutual Reserve. The prosecution in the present case alleges that President Frederick A. Burnham of the company satisfied the demand made by Payn by the payment of \$40,000.

The defendant's cross-examination was completed to-day and George D. Eldridge, vice-president, actuary and chairman of the board of directors of the Mutual Reserve, who also is under indictment, took the stand. The remainder of the day was devoted to taking the direct and cross-examination adjourning until to-morrow.

Turn it Upside Down. Drink it All. There Are No Dregs

The success of 200 years.

D.O. Roblin, Toronto Sole Canadian Agent.

Visitors to the zoo have now the opportunity of observing the curious habits of that strange animal, the walking fish (periphatthalmus koelreuteri). By a modification in structure, the pectoral fins are converted into perfect organs for walking. And in its native haunts the walking fish may be seen hunting insects on the mud flats of tropical coasts. It is enabled to remain out of the water by reason of the air bladder, which acts as a lung. And certain experiments which have been tried by Day seem to show that the walking fish would drown if kept in deep water. At the zoo they may be seen actively scrambling up out of the water on to the refuges provided for the them. Here they assume their characteristic attitudes, as that of a man resting his elbows on a table. They then raise their heads and take a deliberate view of their surroundings. Their quiet appearance is emphasized by the large, rounded and prominent eyes placed on the upper side of the head. These eyes can be elevated or depressed at the will of the animal.

To the Old Courthouse. (With suitable apologies to Horace Smith.) And thou hast moved up here—how strange a story! From where thou stood'st two hundred years ago, When old Cahokia was in all its glory, And Illinois had scarce begun to grow Those crops of corn and heroes so tremendous. That even the statistics are stupendous! Lawyer and lawsmith, sage and ignorant, Have barred those walls, historic but jejune. Yet now, old shack, thou hast become more of a museum, an isle in Jackson Park lagoon. Henceforth, as all are ready to assever: A thing of glory and a boast forever.

Perhaps thou'dst rather, in some cemetery, Bury thy ancient logs, so gray and bare; And yet it is both fit and customary To honor an antique so real and rare. So thou art here, by special invitation, To figure in a second dedication.

LIMIT OF THE COPYRIGHT STEALS MAN'S PROPERTY

Mark Twain Argues There is No Legitimate Ground for Bringing It to End.

Washington, Dec. 7.—Samuel L. Clemens (Mark Twain) brought to a close with laughter a day of argumentative strife over the terms of the copyright bill, now the subject of hearings before the senate and house committee on patents.

"I am particularly interested in the portion of the measure which concerns my trade," he said. "I like that extension from the present limit of the life of copyright from forty-two years to the life of the author and fifty years thereafter. I think that ought to satisfy any reasonable author, because it will take care of his children—let the grandchildren take care of themselves. It will satisfy me because it will enable me to take care of my daughters. After that I don't care. I have long been out of the struggle, independent of it, and indifferent to it."

Mr. Clemens argued that there was really no legitimate ground for making any limitation to the life of a copyright. "But," he added, "I understand that it must have a limit because that is required by the constitution of the United States, which sets aside that prior constitution we call the decalog."

The decalog says you shall not take away from any man his property—I will not use that harsher word. But the laws of England and America do take away the property from the author. They all talk handsomely of the literature of the land, then they turn around to crush and wipe it out of existence. My copyrights produce to me a great deal more money than I can spend. However, if I did not have them I could take care of myself. I know half a dozen trades, and if those ran out, I would invent a half dozen others. But, for my daughters, I hope congress will extend to them the charity which they are called upon to show to the poor. "You cannot name twenty persons in the whole United States," he declared, "who in the past one hundred years have been able to live on their own, and lived the copyright limit."

MONTREAL-OTTAWA LINE OF C.N.R. READY NEXT FALL. Large Section of Road Almost in Shape for Rails.

Ottawa, Dec. 7.—The Canadian Northern Railway trains will be running between Ottawa and Montreal about next September. The line between Hawkesbury and Rockland is practically completed, except for some trestling, which will be done early in the spring. The road is graded, ballasted and almost ready for the rails.

On the section between Rockland and this city the right of way has been laid out, and everything is in readiness for work being commenced next season, so that the early fall should see the new road in the city.

PELLETIER NEW SPEAKER OF QUEBEC LEGISLATURE. Tuesday, January 15, Date Fixed for Opening of House.

Quebec, Dec. 7.—Tuesday, Jan. 15, has been set as the date for the opening of the next session of the provincial legislature. A new speaker is to be elected at the opening, and it is likely that Dr. Pelletier, M.L.A., Sherbrooke, will be the choice. The speakership was rendered vacant by the elevation of Hon. Mr. Weir to the cabinet following Hon. Mr. McCorkill's going on the bench.

MILKING TESTS. A Scotch Experiment Proves a Few Interesting Things.

The Ayrshire Post tells in a recent issue some very interesting experiments which were carried on on a dairy farm in the home of the great Ayrshire cow. The article says: "We have often heard it said that in the milking of cows one should imitate the sucking of a calf as much as possible—that is to say, before proceeding to milk you should, as it were, agitate the udder because if you notice a calf when asking its mother for milk you will find it is rather rough in the way it treats her. To test this action an experiment was carried out at Carbeth Dairy Farm, to which Allan Burns Graham referred in a recent lecture at East Kilbride. A cow was giving 7 to 10 pounds of milk at her evening milking. At the first and following experiment her milk was divided as nearly as possible into four equal parts—that is after the first two pounds of milk had been drawn another pail was given to the dairymaid, and while the second portion was being milked, the first portion was being milked. As experiment No. 1 the udder of the cow was in no way agitated, and she was one of the last to be milked—that is, she had to stand a considerable time before being attended to. The first portion of her milk, weighing exactly two pounds, gave a test of 2.7 per cent. butter fat; the second portion, weighing one pound, gave a test of 4.55 per cent. butter fat; the third portion, weighing two pounds, gave a test of 6.7 per cent. butter fat; the fourth portion, weighing one pound, gave a test of 7.7 per cent. butter fat—total seven pounds. In the second experiment on the evening of June 22, the udder, previous to milking, was well agitated, and the following is the result: The first portion, weighing two pounds, gave a test of 3.4 per cent. butter fat; the second portion, weighing 2 1/4 pounds, gave a test of 3.8 per cent. butter fat; the third portion, weighing two pounds, gave a test of 3.3 per cent. butter fat; the fourth portion, weighing three pounds, gave a test of 5.9 per cent. butter fat—total 9 1/4 pounds. Portions 1, 2, 3 and 4, when mixed together, gave a total of 4.8 per cent. butter fat. Now, in the next and third experiment on the evening of July 6, the cow was treated in exactly the same way as at the first experiment—that is, she was not agitated, but instead of being the last cow milked, she was attended to the moment she came into the byre. The first portion, weighing 2 1/2 pounds, gave a test of 3 per cent. butter fat; the second portion, weighing 2 1/2 pounds, gave a test of 4.2 per cent. butter fat; the fourth portion, weighing 2 1/2 pounds, gave a test of 5.6 per cent. butter fat—total 9 1/2 pounds. Portions 1, 2, 3 and 4 mixed together gave a test of 4.2 per cent. butter fat.

At the fourth and last experiment, in the evening of July 7, the cow was milked at once on coming into the byre and her udder was well agitated upwards and sideways. The first portion, weighing 2 1/2 pounds, gave a test of 2.9 per cent. butter fat; the second portion, weighing 2 1/2 pounds, gave a test of 5.3 per cent. butter fat—total 5 pounds. In summarizing the experiment he said: "I do not wish you to be misled by any conclusion. This experiment was never finished; it should be carried out on several sows and much more thoroughly than I was able to do, but I think it teaches one or two things, and it is certainly interesting to note how the first and second portions of the first experiment differ in quality, while the first and second portions of the other experiments do not differ to the same extent. I think this small and unfinished experiment proves the advisability of always agitating the udder before milking, and always milking cows in the same order."

What Sulphur Does

For the Human Body in Health and Disease

COSTS NOTHING TO TRY

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and, mind you, this old-fashioned remedy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single grain is far more effective than a table-spoonful of the crude sulphur.

In recent years research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in drug stores under the name of Stuart's Calcium Waters.

They are small chocolate coated pellets and contain the active medicinal principle of sulphur in a highly concentrated, effective form.

Few people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health; sulphur acts directly on the liver and excretory organs and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when they dosed us with sulphur and molasses every spring and fall, but the crudity and impurity of ordinary doses of sulphur were often worse than the disease, and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Waters is undoubtedly the best and most widely used.

They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and physician alike.

Dr. R. M. Williams, while experimenting with sulphur remedies, soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or indigestion, I have been surprised at the results obtained from Stuart's Calcium Waters. In patients suffering from boils and pimples and even deep-seated carbuncles, I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Waters is a proprietary article and sold by druggists and for that reason tabooed by many physicians, yet I know of nothing so safe and reliable for constipation, liver and kidney troubles and especially in all forms of skin diseases as this remedy."

At any rate people who are tired of pills, cathartics and so-called blood purifiers will find in Stuart's Calcium Waters a far safer, more palatable and effective preparation.

Send your name and address to-day for a free trial package and see for yourself.

HANDICAPPED WHOLE DAY IN DELIVERY OF MAILS

C.P.R. Steamers Required to Call at Halifax to Gratify Local Pride

Montreal, Dec. 7.—The Canadian Pacific steamship Empress of Ireland, which left St. John Friday night of last week, reached Liverpool and landed her mails to-night. Her passengers left Montreal by the Canadian Pacific late on Thursday evening, Nov. 29, and embarked at St. John.

The mails closing in Montreal at 10.30 a.m. Friday left at noon by the Intercontinental for Halifax, at which port there was a delay of seven hours awaiting their arrival. Passengers from Toronto and other Ontario points had to leave home either on Wednesday night on Thursday morning to catch the steamer, and those from Manitoba and other far western points were similarly handicapped by a day.

Had the mails been sent by the Canadian Pacific's Thursday night train and the steamer sailed direct from St. John, instead of being sent to Halifax and held there awaiting the delayed Intercontinental train, all the passengers would have arrived a day earlier in Great Britain, or, as the conditions were, could have left home a day later than they did and would have reached Liverpool at exactly the same time. As it was, the mails, too, could have been closed at Montreal at 6 p.m., instead of 10.30 a.m. Friday, and business men here would have had the advantage of an extra day for their correspondence without delaying the delivery in the slightest. And this is not too much to expect that the boasted fast Canadian steamship service should continue to be handicapped to the extent of 24 hours merely to give the people of Halifax an opportunity of seeing an "Empress" steamer enter their harbor?

MAKES NEW BLOOD

That is How Dr. Williams' Pink Pills Cure the Common Ailments of Life

Making new blood. That is just what Dr. Williams' Pink Pills are always doing—actually making new blood. This new blood, as covered every organ in the body, and strikes straight at the root of anaemia, and the common ailments of life which have their origin in poor, weak, watery blood.

Want Pastor to Stay. Galt, Dec. 7.—The congregation of the U. P. Church last night met, and by an almost unanimous vote, only two dissenters being present, resolved to request Rev. Dr. King to withdraw his resignation, which he announced last Sunday. There has been some friction in this church, leading to unpleasantness that decided the minister to ask the presbytery to remove him.

Saturday Specials at the Daylight Clothing Store

THE JAMIESON CLOTHING BUSINESS has taken a greatly advanced position this season, with magnificent stocks to help the selling, and an abundance of daylight to help you see what you're getting. While Jamieson quality standards have always been the highest possible, the opportunity for broader stocks has enabled us to far surpass our showing of other years. We make emphatically the lowest prices of any store for good, well-made clothing of every sort—especially Overcoats. We import all our own materials, do all our own tailoring, and sell strictly for cash.

Bargains at Cigar Stand

Now is the time to select Christmas Gifts for father, son, uncle, brother, grandpa, and hubby. The largest stock of smokers' sundries, etc., etc., in Canada. Come and have a look at them—no obligation to buy. It's a pleasure to show our goods.

Table listing various cigarette brands and prices, including Smoke Jamieson's Five, Genuine 10c Irving, 15c La Oriental, 15c Don Amero, 10 Choice Cigars, Box of 50 Cigars, 10c British Navy, 10c Briar Smoking, GENUINE FRENCH BRIAR PIPES, and Smoke Jamieson's Five.

MEN'S SHOES AT \$3.50

"THE HOPE SHOE" is our own trade mark, and we guarantee better value at \$3.50 than you'll find anywhere else in Canada. Shoe materials have gone up no less than 52 per cent., and a good many makers are skimping on the quality.

The way to buy Shoes this winter is to be sure you're buying leather instead of pasteboard, oak-bark tanned soles instead of brittle hemlock, good honest wear instead of trouble.

be alleged and absolutely proven in connection with the securing of the record. There is no country on the earth today where mining properties are given such secure title as is given in the Yukon Territory. Nothing can be more valuable than that in this country today.

Morton & Co. in New Quarters. Morton & Co., handling mining stocks and mining properties, are now comfortably installed in their new quarters in the Traders' Bank building. Morton & Co. are members of the Standard Stock and Mining Exchange, and have representatives in New York and Boston and experienced mining men on the ground at Cobalt, who keep them informed as to what is going on. They are thus in a position to give their clients the best possible service.

PROVINCE AND STOCK JOBBING

The government have no intention of taking any part in such a stock-jobbing operation as the inspection and reporting on the condition of mines would inevitably prove to be. The next thing, thought the minister of mines yesterday when the idea was proposed to him, would be to ask the government to invest people's money for them.

Prof. W. G. Miller stated that there had been no intention of having his report on the correctness of statements made in prospectuses and advertisements. "It is willing to give all the technical information possible in reference to the mines, but I do not think it should interfere between the bulls and the bears. In my last report, as well as in various newspaper interviews, I have warned the public against throwing their money into ventures they did not know anything about, but it seems nothing can prevent people gambling with their money if they are determined to do so."

"What is the boy's name?" asked the accetic, not making any attempt to disguise his eagerness. "Horace," replied the Fifth-avenue jeweler friend. "That night, the priest was last to go to bed, and as he turned out the lamp, he bowed to a boy on the wall and said, cheerfully: "Good night, Horace." When he arose next morning his first words were: "Good morning, Horace." And he was married that night and morning, until the end of the voyage.

Whether the picture brought back the memory of some companion of the good man's childhood, or whether a natural love of children (philoprogenitiveness) over-mastered him for the time, his fellow traveler couldn't guess. Being of a romantic nature my friend prefers the latter explanation; I hold to the former.

A wireless message was sent ashore at Nantucket, especially directing that young Horace be brought to the steamer. When the priest returned to the child to the man who had grown to love him, the ascetic took the boy in his arms, held him to his breast, then kissed the forehead of the boy, and whistled and said, in a voice full of emotion: "Good-by, Horace."—Julius Chamberlain in Brooklyn Eagle.

The Habits of Penguins. In a lecture before the members of the Sheffield Literary and Philosophical Society, Dr. Wilson was surprised to find that the audience knew nothing of the habits of the penguins. He described the penguins as birds of the sea, and he made a special study of the Emperor penguin, whose inequity led him down to where the District of Columbia is. NEW TRAIN ON C.N.O. RY. ALSO CHANGE IN SCHEDULE

Run May Be Reduced Two Hours—Cold Weather Delays Trains From West.

The Canadian Northern Ontario Railway will shortly put on an extra train running from Washago to Toronto. She will leave Washago at 10 o'clock in the morning and start from Toronto on the return trip at 6.45. She will be in the local and will call at all intermediate stations. The time of the two regular trains now running between Toronto and Parry Sound is to be altered. The train which leaves Toronto at 8.10 will start earlier, and the one leaving Parry Sound at 7.10 will not begin the journey south until late in the afternoon. The idea is to allow the Parry Sound residents to come to Toronto to do their shopping and return home on the same day. Several of the minor stations will be missed to make the journey faster. The officials have hopes of reducing the time for the 149 mile journey from seven to five hours.

An official of the C.P.R. informed The World that the company have hopes of making the journey between Toronto and Parry Sound in three and one-half hours when the line is opened. The distance between the two cities is 156 miles, being seven miles longer than the Canadian Northern.

Seventy-five steamship passengers passed thru Toronto yesterday over the C.P.R. from Detroit, en route to St. John. The snow plows of the railroad companies were out for the first time yesterday. Jack Frost, however, got the best of the locomotives, and the result was that all trains were late. In a heavy snow storm the engines refused to steam, and for hours they were dead on the rails. The passenger train due at the Union Station from west of Winnipeg arrived at 12 o'clock to-day, being nearly 24 hours late. The North Bay train, due here at 7.50 last night, arrived over four hours late. Trains from the east were all over an hour late.

A rumor was going the round in Grand Trunk circles yesterday that another batch of conductors would be let out at the end of December. The officials, however, still maintain their non-committal attitude, stating that they know nothing of the matter yet. A Grand Trunk conductor stated that if any more men were let out there would be a trouble all over the system. Some like that it was possible for the company holding an investigation into the matter, and that if the conductors could prove their innocence they would be retained. Nothing is now being said about this investigation.

Fond of Fish. A fondness for cliscoe landed Matthew Cuthbert in No. 1 police station last night. He is alleged to have visited several fish stands and carried off a few fish from each, but was not apprehended by the police until he swiped a couple from David Spence's stand at the corner of Colborne and Church-streets.

A Big Drop. The mercury took a descent a la Nipissing during Thursday night, a temperature of 35 above being converted in 4 below zero yesterday.

**ST. LAWRENCE MARKET.**  
Receipts of farm produce were 2000 bushels of grain, 30 loads of hay, 2 loads of straw, with a fair supply of dressed stock.  
Wheat—Two hundred bushels of fall sold at 70c.  
Barley—One thousand bushels sold at 30c to 35c.  
Oats—Eight hundred bushels at 30c to 40c.  
Hay—Thirty loads sold at \$15 to \$18 for timothy, and \$9 to \$12 for mixed.  
Straw—Two loads loose sold at \$9 per ton.  
Dressed Hogs—Market easy at \$3.50 to \$3.75 per cwt. The bulk selling at \$3.75 per cwt.  
Potatoes—Prices easier at 70c to 80c per bag for New Brunswick Delawares, J. J. Ryan, wholesale, and 60c to 70c for all at these prices during the present week.  
Butter—Prices firm at 25c to 28c per lb, the bulk selling at 25c to 26c.  
Eggs—Strictly new-laid are selling at 40c to 45c per dozen with a few lots laid during the present week at 35c to 40c.  
Poultry—Prices easier at 12c to 15c for turkeys, geese, 10c to 12c; ducks, 10c to 12c; chickens, 10c to 12c per lb, old, 10c to 12c per lb.

**Chicago Gossip.**  
Marshall, Spader & Co. wired J. G. Beaty (King Edward Hotel), at the close of the market:  
There has been marked contrast to-day with the activity of yesterday. Larger lots which unladen during yesterday's advance and early bids today have seen sufficient reaction in prices to tempt them to re-estate. There has not been enough new buying to offset the selling pressure from scattered longs and from the few shorts who have received sufficient courage to pit wheat out again. The pressure has been all futures, July included. The strong start was due to light Argentine shipments. Mr. J. Miller reported winter wheat crop condition high and the acreage up to that of last year. Exports from this country for the week ending Dec. 7, 1906, 700,000 bushels. We continue to feel that higher prices are inevitable.

**NO NEW JAP TREATY.**  
Washington, Dec. 7.—Assistant Secretary of State Bacon to-day made a statement on behalf of the president, that no steps of any kind had been taken, or would be instituted, with a view to the negotiation of a new treaty with Japan for the exclusion of Japanese laborers. The president, Mr. Bacon said, asked that this information be made public.

**WESTERN ASSURANCE COMPANY.**  
NOTICE IS HEREBY GIVEN that a Special General Meeting of the Shareholders of the Western Assurance Company will be held at the Head Office of the Company, corner of Scott and Wellington Streets, in the City of Toronto, on Thursday, the 27th day of December, 1906, at twelve o'clock noon, for the purpose of considering, and, if approved, of sanctioning a By-Law of the Company creating an issue of Preference Stock of the Company.  
C. C. FOSTER, Secretary, 5355  
Dated at Toronto, 27th November, 1906.

**THE CANADIAN SAVINGS LOAN AND BUILDING ASSOCIATION.**  
NOTICE OF MEETING.  
Take notice that a special general meeting of the shareholders of the Canadian Savings Loan and Building Association will be held at the Head Office of the Association, "Canadian Savings Loan and Building Association," 27 Adelaide Street East, Toronto, Ontario, on Thursday, the 17th day of January, 1907, at 3 p.m., for the purpose of taking into consideration, and, if approved, of sanctioning an agreement provisionally entered into under authority of the Loan Corporation Act by the Directors of the Canadian Savings Loan and Building Association, for the sale by the Canadian Savings Loan and Building Association of its assets to the Standard Loan Company, upon the terms and conditions prescribed in the said agreement.  
And take notice that the said agreement may be inspected by any shareholder at the Head Office of the Company.  
Dated this 6th day of December, 1906.  
By order of the Board of Directors,  
W. J. HAMBLY, President.

**IN THE WRONG COURT.**  
Judge Winchester Dismisses the Case Against Wm. Parsons.  
Eugene Lockwood, 35 Oxford Street, was tried in the sessions on the charge of stealing \$33 from James Good, laundryman, 249 College Street, for whom he drove a wagon. The shortage was admitted by the accused, who put up the defence that he had lost the money at different times. The jury, after being out about 20 minutes, returned a verdict of not guilty.  
Wm. Parsons, 18 Toronto Street, charged by John A. La France with stealing \$200 and \$250, was arraigned. The case is the outcome of a couple of trials in the Grand Central Hotel in St. Catharines, which did not go thru. The sums were paid to Parsons as deposits and commissions. In summing up the evidence Judge Winchester said the case should never have been brought into a criminal court, as there was no evidence to sustain the charge laid. The civil action should have dealt with it. Mr. Parsons was acquitted.  
True bills were returned against Alex. and Adam Nelson, charged with the theft of electricity from the Toronto Electric Light Co.  
Christmas in England.  
The C.P.R. Atlantic service will despatch their R.M.S. Empress of Ireland from St. John, N. B., to Liverpool, Friday, Nov. 30, and the R.M.S. Empress of Britain Dec. 14 from St. John, N. B., as the Christmas steamer. The latter will land passengers in England four days before Christmas Day. These steamers are now conceded to be the fastest and finest operating on the North Atlantic and those contemplating a few weeks in England should arrange to go and return on an "Empress," thereby having the shortest sea voyage and maximum length of time with their friends at home. Apply to S. J. Sharp, W.P.A., 80 Yonge Street, for full particulars.

**Deserter Surrenders.**  
Windsor, Dec. 7.—John E. Cook has surrendered himself to the police as a deserter from the Royal Horse Artillery, Kingston. He says he has been a year ago and has spent most of the time since in the southern states.

**THE CUBAN COLONY LIMITED**  
Head Office, Berlin, Ontario.  
THIS COMPANY has purchased sixty square miles of rich land at Cupey, in the Province of Santiago, of which several miles front on the Cuba Railroad. There is a station, siding, large store and several other buildings on the property. This land was personally selected by three of the shareholders, who satisfied themselves that it combined the three requisites for a successful colony, viz., good land, good drinking water and good shipping facilities. Do you own a farm? If not, buy a plot at CUPEY, the CUBAN COLONY of the Cuban Plantations, Limited, and in a brief period you can be independent.  
NET ANNUAL PROFITS from growing Cuban oranges or other citrus fruits run from \$350.00 to \$500.00 per acre.  
The fruit of Cuba is of SUPERIOR QUALITY, FIRM IN TEXTURE, DELICIOUS IN FLAVOR, and can more than hold its own against similar products grown in Florida or California.  
CUPEY has a mild and equable climate, temperature from 45 to 90 degrees F.—only tropical in that it is immune from frost.  
CUPEY has abundance of pure spring water, which, combined with the excellent climatic conditions, renders the colony exempt from fever or other contagion.  
CUPEY consists of land best adapted for the culture of sugar cane and citrus fruits—free from marsh.  
CUPEY lands require no irrigation and no fertilization.  
CUPEY has unrivaled shipping facilities—on the main line of Sir Wm. VanHorne's railroad, and is but 60 miles from Nipe Bay, the finest harbor in Cuba, and connected with New York by direct line of steamers—12 hours nearer New York than is Havana.  
CUPEY has daily train and mail service to all points of the island.

**\$20 Per Acre**  
This price will be advanced to \$30.00 after a limited acreage is disposed of.  
FREE TOWN LOT to each of the first settlers.  
Buyers of the first lots are within one mile of the railway.  
Settlers going to this property are carried right to their destination on a first-class railroad, when they will find the resident director ready to give them every information and assistance. It is not necessary to hire a rig or horse to reach your lot. No long hauls required to market your produce.  
Groves will be developed by the company at moderate rates.

**Land Agents Wanted Throughout Ontario**  
For full particulars, apply to the Land Commissioner or to the Secretary.  
W. M. O. LOCHEAD, Secretary, Berlin, Ontario.  
J. ENOCH THOMPSON, Land Commissioner, 133 Bay-st. Toronto, Ontario.

**MEETINGS.**  
NO NEW JAP TREATY.  
Washington, Dec. 7.—Assistant Secretary of State Bacon to-day made a statement on behalf of the president, that no steps of any kind had been taken, or would be instituted, with a view to the negotiation of a new treaty with Japan for the exclusion of Japanese laborers. The president, Mr. Bacon said, asked that this information be made public.

**Canadian Club.**  
The guest of the Canadian Club at the luncheon on Monday will be Prof. Walter A. Wyckoff of Princeton University, who will speak on "A Constructive Social Policy."

**The Wrong Man.**  
W. V. Todd pointed out that it was Henri Bourassa, not Gompers, to whom he referred as making the statement that nine-tenths of the members of the commons were under the control of the railroads.

**Charcoal Kills Bad Breath**  
Disagreeable Odor Arising From Indigestion or From Any Habit of Indulgence, Can Be Instantly Stopped.  
Sample Package Mailed Free.  
Other people notice your bad breath when you are out that it is all in their noses. It is nauseating to other people to stand before them and while you are talking give them a whiff or two of your bad breath. It usually comes from food fermenting on your stomach. Sometimes you have it in the morning that awful sour, bilious, bad breath. You can stop that at once by swallowing one or two Stuart's Charcoal Lozenges, the most powerful gas and odor absorbers ever prepared.  
Sometimes your breath will reveal themselves in your breath to those who talk with you. "You've had onions," or "You've been eating cabbage," and away from you in the face of your friend. Charcoal is a wonderful food fermenting on your stomach. Sometimes you have it in the morning that awful sour, bilious, bad breath. You can stop that at once by swallowing one or two Stuart's Charcoal Lozenges, the most powerful gas and odor absorbers ever prepared.  
Don't use breath perfumes. They never conceal the odor, and never absorb the cause of it. They only cover the odor, and when it comes out, it is nauseating to other people to stand before them and while you are talking give them a whiff or two of your bad breath. ### Christmas Furs

Gentlemen are reminded that nothing quite equals good Furs for Christmas gifts, and that selections can be made in assuredly good taste by coming to the Dineen store. Anything going out from this store carries style and reputation along with it, including:

- Natural and Blue Lynx Sets at \$45.00
- Persian Lamb Sets at \$40.00

The nature of our trade obliges us to handle only the best of everything. Dineen Furs are well matched and properly dyed, with nothing in any sense inferior ever allowed to get past the watchers on guard.

### YORK COUNTY AND SUBURBS

## JUNCTION CONSERVATIVES SPEND A MERRY EVENING

Listen to Oratory, Song and Story—International Stock Show Planned.

Toronto Junction, Dec. 7.—The Conservative smoker held here to-night in the town hall was a splendid success, attracting a gathering of over 500 residents of the Junction and vicinity. The chair was ably filled by Dr. W. T. Hackett, president of the Conservative Association, and a pleasant evening of speech and song was passed.

Dr. Godfrey, president of the Conservative Association of Centre York, spoke hopefully of the political outlook, and W. H. Hearst of the Soo delivered a rattling address, in which he made allusion to the historic episode of the Minnie M. Another speaker was W. A. Baird, for the past 15 years secretary of the local association.

W. F. Maclean, M.P., briefly referred to the result of the recent by-election in East Hamilton, expressing the opinion that it would strengthen the Whitney government. This afforded the speaker an opportunity of organized labor in questions as they arose.

Hon. J. W. St. John spoke in congratulatory address of the large number of prizes carried off by Ontario exhibitors at the fat stock show in Chicago, which he had recently visited. Touching upon the theme of organized labor he declared he had always befriended its cause.

Vice-President R. G. Agnew also spoke, incidentally passing some criticisms on the character of the street railway service.

W. D. Barnagey, president of the Toronto Liberal-Conservative Club, sent his regrets, being unable to be present owing to business which called him out of the city.

The entertainment part of the program was an immense success. The best of Toronto's talent was there. The Doric Quartet, none better sang several selections. J. H. Cameron told a budget of funny stories; that always amusing chap, Robert Wilson, made everybody feel at home; George Bannister sang "Mary of Argyle," which made Mr. St. John so enthusiastic that he called for three cheers for "Mary." Benedict Clarke, the clever young violinist, and the talented young pianist, Harold Rich, who was also the accompanist, made themselves great favorites. Charles Reinhardt sang a solo, and there were Eddie Pigott, everybody knows him here, and he made them all yell as usual.

Mayor Smith is greatly pleased with the trip to Chicago. "It is one of the best educators we have had," he said, "and in a year or two we are going to have an international show here. There are some prominent men taking the question up, and there will be a meeting shortly. There will be one held in this country, and in all likelihood the place will be here or in Toronto."

The school property committee will meet Saturday night.

A meeting of Worcester Lodge No. 47, S.O.E., held in St. James' Hall last night, the following officers were elected: W. F. Maclean, M.P., president; W. V.P., Bro. W. T. Norris; chaplain, Bro. W. Speers; secretary, Bro. Wm. Harris; treasurer, Bro. George Nicholas; assistant secretary, Joseph Cave; first committee, H. V. Blackburn; second, C. R. Robinson; third, Eli Malcher; fourth, Walter Winkler; fifth, George Holstcock; sixth, Chas. Chester; I.G., Elliott Archer; G. Wm. Bennett; physician, Dr. A. F. MacNamara; trustees, E. Baker, J. Raven, J. Jolly; auditors, Laughton Chapman, Cave; marshal, J. H. Baybould; first six officers be arbitration committee; hospital delegate; juvenile advisory committee, first six officers of lodge.

The death of John R. Gamble, aged 49 years, occurred to-day at 160 Vine-street. Death was due to heart failure.

The Dorcas Society of the Annetts-street Methodist Church are holding a bazaar to-day and to-morrow. A feature of the bazaar is a souvenir tea. For every ten cent lunch purchased a cup and saucer is given.

Street Foreman Moon is engaged in putting ashes on the sidewalk. He is experiencing difficulty in getting men to do the snow cleaning.

**MILIKEN.** The funeral services of the late Thos. Hood, which took place from his residence yesterday, were, in spite of the extreme severity of the weather, attended by a very large gathering from all parts of the county. The services at the house were conducted by the Rev. J. A. Brown of Agincourt. Following the proceedings at the home the members of Markham Masonic Lodge took charge of the remains and proceeded to the funeral home at St. John's Presbyterian Cemetery, where the impressive service of the order were performed. The pall-bearers were six nephews of the deceased. The floral offerings were especially beautiful, one, a magnificent wreath, contributed by the brethren of Markham Lodge, A. F. & A. M. The chief mourners were the widow and son, together with the brothers and sisters of the deceased.

**North Toronto.** The 11-year-old son of Charles Watson, East Eglington-avenue, is suffering from blood poisoning, caused by the bursting of a chilblain.

The Rev. N. Wellwood of the Eglington Methodist Church and the Rev. Mr. Hill of the Davisville Methodist Church will exchange pulpits to-morrow.

Stevenson of Parry Sound, who stole the carcass of a moose bull last year, the booty of W. A. Clarke, clerk of York Township, was sentenced to one month's imprisonment, with hard labor.

**Whitby.** Mayor Lawler has decided not to accept a second term.

Ald. A. M. Ross is out for the re-election. T. E. Baskley has resigned his position on the board of education and is said to be pressing the government to accept his resignation of the surrogate registrarship, so that he will be eligible for election as mayor or reeve.

C. A. Goodfellow, publisher of The Chronicle-Gazette-Keystone, is out with a new one. The Claremont Banner. This is the liveliest business place in Pickering Township and it is consid-

## Warm Things For the Men

Cold weather and Christmas are both helping us sell furs. But the quality and fine appearance of our fur coats and fur-lined overcoats is helping our trade, too. We have certainly a fine line of men's furs, and we here specify some good things that are warm and comfortable, and represent very good value, indeed.

### Fur Overcoats

For those who drive, motor or who are out in the cold much, a fur coat is next to a necessity.

- Coon Coats, \$50 to \$125.
- Woolly Coats, \$17.50 to \$40.
- Walaby Coats, \$17.50 to \$40.

### Fur-Lined Overcoats

We have been pleasing a great many people who have not been pleased with the fur-lined overcoats they have seen in other stores. We really give splendid value, and much better cut and tailoring than most furriers are able to.

Fur-lined Coats, \$37.50 to \$175.

We have a special that we do a lot of talking about, because every one we sell does a lot of good talking for us. It is made with an English beaver shell, a Canadian muskrat lining, and Persian lamb collar. It is a fine coat and we recommend it at as great value \$65

### Gauntlets

A splendid line in Persian, Lamb, Sealskin and Otter. We make gauntlets to match caps or overcoats.

We have a very large line of Xmas Furs, all described and priced in our Fur Catalogue. Send for Catalogue "M. J."

ered an adroit move to so extend his publishing interests from the vantage point of the county town.

Favorable comment is heard in respect to the deal which the town has just made with the Huron and Ontario Railway people for the establishment here of their car shops. There is no doubt the bylaw will carry at the approaching municipal elections, when it is to be voted upon by the ratepayers.

**York Mills.** The St. John's Church men's concert will be held at the schoolhouse next Wednesday evening at 8 o'clock. Harry M. Bennett will assist.

**Richmond Hill.** Several hunters from this vicinity have gone shooting near Beaverton by way of the new railway.

The high school entertainment was the event of the season. More than \$30 was netted after paying all expenses.

Both P. G. Savage and W. H. Pugsley are spoken of as candidates for the reevehip. Mr. Crosby, the present reeve, will retire.

A curling meeting has been held and a number have already purchased their membership tickets.

The families of David and James

Hill are getting ready to attend the golden wedding of Mr. and Mrs. J. Hill at Moonstone.

J. N. Boyle has been elected president of the beef ring and George Redditt secretary.

A large crowd is expected here next Monday evening at a grand rally of Epworth League workers in the Methodist Church. Among the speakers will be Rev. Dr. Lages of Bella Bella, B. C. and Rev. W. H. Adams of West China. A special car will come from the city.

The doctor administered chloroform to little Irene McMahon and extracted part of a needle, more than half an inch long, which had been imbedded in her foot for several weeks.

**Bracondale.** At the regular meeting of Yarmouth Lodge, S.O.E., in the following officers were appointed for the ensuing year: P.P., Bro. A. Edwards; P., Bro. E. Ling; V.P., H. Sharpley; chaplain, F. Lucas; treasurer, W. Collins; secretary, E. Boggs; physician, Dr. T. J. Page; committee, E. Snelgrove, H. Grummitt, J. Chapel, W. Robertson, W. J. Maddaford, R. G. J. Maddaford; trustees, C. Sharpley, D. H. Punnett; auditors, H. Dodd, E. Simmons, E. J. Meech; hospital delegate, A. Edwards.

The directors of the Bracondale public library will meet in the Hillcrest school next Friday night to arrange for the opening of the new building. Members of the library holding books over and above the time allowed are becoming very common, thereby depriving other members the opportunity of reading these books. The directors wish stopped, and ask the members to assist them in doing all they can to improve the work of the library.

Rev. Mr. Dinick's eldest child, who has been dangerously ill for some days, is now out of danger. Dr. Warren has the care of the little one.

**Markham.** The ex-students and graduates of Markham high school are requested to send at once their names and address to the secretary "Old Boys" committee, Markham high school, Markham.

**A Musical Treat.** For all lovers of good music, also for those favoring humor, at the grand entertainment in the town hall, Agincourt, next Thursday evening, at which Miss Alice Edwards, Canada's favorite, will sing, and the champion of humor, Mrs. Fax, will recite her best. Councillor S. J. Douglas, the Arion Orchestra Club, with M. J. Kirkpatrick, as leader, and Miss Annie McKay will take part in the program. James Logie, chairman. Admission 25c.

**Deer Park.** The Deer Park Ratepayers' Association met at the schoolhouse last night. Some 15 months ago a committee was appointed to interview the government re the extension of Mount Pleasant Cemetery. Nothing has been done yet except that the burial trust have made overtures to some property owners with a view to buying property. The business of the evening was introduced by W. J. Hill stating that the Toronto and York Radial Railway application for the laying of car track on St. Clair-avenue will be considered by the township council on the 17th inst. J. W. Maclean, manager of the Metropolitan Railway Company, thought that something should be done to save the thoroughfare, especially as the line would be only a switch to the properties of the company. Councillor Henry said he understood that the company cannot cross the sidewalk of Yonge-street without permission. Mark Bredin thought that the railway property is the most suitable for the car barn, but Mr. Berkinslaw, whose interest is in St. Clair-avenue, objected to having it open to the highway. Councillor Gibson favored the O'Halloran property. Other lines should be privileged to lay a line for passenger traffic. Mr. Sanderson understood that the railway company has been ordered out of the cemetery hollow by the railway commissioners and had to locate elsewhere. They have proposed on St. Clair-avenue and could erect car barns and nobody could hinder them. If built on the O'Halloran property, St. Clair-avenue would not suffer materially and fewer people would be affected. E. W. D. Butler said nothing more ugly could be imagined than a car barn. If permission should be granted to lay a track on St. Clair-avenue the council should be able to order its removal on a short notice. The following resolution was carried: Moved by Mr. Sanderson, seconded by Mr. Meyer—"That the township council with view of safeguarding the interests of the district in relation to the application of the Toronto and York Radial to lay a siding on St. Clair-avenue."

**Agincourt.** The Farmers and Women's Institute meetings held in the Temperance Hall this afternoon and to-night were, thru the intense cold, not largely attended as would otherwise have been the case, but at each of the sessions great interest was shown. The speakers were E. C. Drury, Crosby Hill, and W. F. Stephen, Huntington, Que.

The Women's Institute met during the afternoon at the home of Mrs. Geo. McCowan.

**Markham.** H. G. Sanderson and Alex. Torrance have arrived from Cobalt, where they spent few days.

David Menger, after a residence in Markham for more than 20 years, has left for an extended visit to his old home in Switzerland.

J. B. Gould and H. J. Spencer are visiting the Chicago Fat Stock Show.

John Osborne and Frank Rolph, both Markham boys, have received appointments on the new branch of the Standard Bank recently established in Cobalt, the former as manager and the latter as accountant.

The staff of the Standard Bank fell from the beam of his fathers barn to the floor, 22 feet, and will recover from the injuries.

The staff of the Standard Bank gave an at home during the week. Music was furnished by the Stouffville and Markham Mandolin Clubs. Mrs. W. J. Scott, Mrs. A. Scott, Mrs. E. Wilson, Mrs. A. MacR. and Mrs. Chauncy were chaperons.

The Markham Dramatic Club gave the play "The Great Expectation" in the town hall last night to a large audience.
