Busts Made Bronze. Mr. Copeland answered an enquiry about his process by taking from a shelf a small bust of Mozart. To the eye it appeared to be of bronze and the weight carried out the impression.
"That was a plaster of paris bust," he explained. "No, it hasn't turned into solid metal, but the outer portion has, and if the process were carried far enough it would become metal

### If We Could Look at the Heart of a Pale-Faced Person!

Few people ever stop to consider what pallor to the countenance means. In the first place it indicates an absence from the blood of the rich, red, life-giving elements so requisite to health; and in the second ace it indicates a weakened heart action. These two things act and re-act. If we could look at the heart of one of these pale-faced people, we would see it flabby, weak and palid. Frank Speaks of "Curse of Gold as the Cause of Parting From His Wife.

NEW YORK, April 19 .- On the best of authority it was announced late Saturday that the quarrel between Frank Gould and his young wife, Helen Kelly Gould, would be patched up. A mediator is on his way to see the husband, who is at Hot Springs, Va., or rather who started for that place. It is believed by some persons here that he did not intend to go to the Virginia resort, but started away merely to emphasize the points that he had been making in the various family quarrels that have preceded

Furthermore, when the mediator meets Frank Gould, he will not repre sent himself as coming from Mrs. Ed ward Kelly, the mother of Mrs. Gould The troubles between the young mar-ried couple, it is more than hinted, have proceeded from the intervention of Mrs. Kelly into the not unnatural small differences that have sprung up between the two. There is a side of the disagreement that is not without pathos. When

Frank Gould was leaving for Hot Springs yesterday he spoke at length of the curse of gold.

"If I were a poor man I would not have had to suffer what I did in silence. It is one of the obligations that was put upon me," he said. "I suppose that is one of the curses of gold."

To-day Mrs. Gould, when pressed for a statement on the subject, said:

"There is nothing to say in any way.

The newspapers really make a person's life miserable, and I don't think they quite realize that in many cases son's life miserable, and I don't think they quite realize that in many cases they may be responsible, by the lies they print, in causing and keeping trouble in the family. I am not afraid

Anyone who knows the ordinarily calm temperament of the Gould family in the matter of publicity can appreciate how much this affair has thrown chate how much this affair has thrown the younger Goulds off their balance when they make statements of this kind. Added to all this is what Mrs.

Edward Kelly said of the affair:

ON CLINTON AVE., ALBANY, NEAR Dove-street; 2-storey and basement brick house, containing 17 rooms, bath, etc., with fine cellar and sub-cellar; lot "Too much money and idleness have been the curse of my daughter and husband. The same is true of many other young couples who are

the curse of money. Even the it is admitted that papers have been filed in the supreme court by Mrs. Gould, asking for a limited divorce from her husband, this, it is believed, will hardly stand in the way of a reconciliation. The charges made fresh mountain breezes. in these papers, it is said, are sc trivial that no court would take notice of

BUFFALO, April 19:-All the engineers on the ships of the package freight lines entering this port have signed individual agreements with their managers, and by their action eliminated all danger of a strike when navigation opens on the great lakes. OWEN SOUND, April 19.-(Special.) The first movement out of the steel ton-nage which wintered here, and which was valued at nearly four million dollars, bevalued at nearly four million dollars, began last night with the departure of the Mackey Line Dundee, which cleared for Erie, Pa, to load coal. She was followed to-day by the Strathcona of the Mackay Line for Lake Erie ports to loan coal. The Winona and Glenellah are expected to clear at once.

The Northern Navigation Company's steamer Doric is loading cement for Fort William and will leave as soon as ice prospects are favorable. The Regina, which carried a cargo of cement in storage during the winter, is completing her age during the winter, is completing her

## AT THE THEATRES

Charles Frohman will present Miss Marie Doro in "The Morals of Marcus," the new and brilliant comedy in four acts, by William J. Locket, at the Princess Theatre for the first three nights of this week. The story of "The Morals Marcus" is original and unconvention. Carlotta and Sir Marcus are, of urse, the central figures, about whom woven a most charming and appealing eb of sentiment. The characters are rougly drawn, the dialog has been deared to be equal to the brilliancy and e epigrammatic terseness of Pinero or enry Arthur Jones. Altogether, "The orals of Marcus," with Miss Doro, conitutes one of the striking theatrical ents of the current season.

The last week of the dramatic stock ason at the Royal Alexandra Theatre ill be inaugurated to-night when the nglish players give their first presentation of "The Lottery of Love." With the ea in mind of making the organization's stay in Toronto memorable, no ore auspicious selection for the final fering could have been made than the Lottery of Love." THE FATE OF AN EASTER GOWN Proffered Service and Its Result on a Street Car Sunday Afternoon.

While the sun was shining brightly Easter Sunday afternoon Miss Cheri dah Simpson (Red Feather), who is a guest at the King Edward Hote, accompanied by her maid, decided to take a trolley ride around the city. Carrying her Persian lamb jacket on her arm Miss Simpson boarded a car opposite the hotel. She was gowned in a new and handsome silk waist, and, as she stepped up, the obliging conductor proffered his assistance placing his hand on her shoulder to prevent her falling when the car start-

The conductor had evidently had trouble with the car on the trip, and had been working around the gearing, for the hand of assistance was coated with a black greasy substance, which imprinted an undesirable pattern in a conspicuous spot on the beautiful waist. When the maid called the attention of Miss Simpson to the dam age there was an intensely dramati scene, which lasted several minutes, and despite the apologies of the conductor the lady would not be pacified.

With a fierce glance at the fare-collector and a statement to the effect that the matter would be taken up lamb jacket was donned with a celerity that would have been a credit to a lightning change artist in vaudeville. with the railway officials, the Persian

Out of town carsmen from all the Canadian and American Henley teams will gather at McConkey's to-morrow night to do honor to Capt. Joe Wright of the Argonauts for all he has done for rowing. The spirit of the lads was fairness thruout, which the large crewds seemed to appreciate as much as the vigor and science generally displayed. That boxing compares more than favorably with contemporaneous games is the opinion of many versatile sportsmen who keep upto-date and the two tournaments held in Toronto this spring would indicate that when Dr. Goldwin Smith made his recent thrade against boxing the energetic Sage of the Grange was thinking of the barekinuckle fights of his own young days.

Too much credit cannot be given the tournament officials, Referee Bennett and Judges J. P. Fitzgerald and D. F. Maguire, whose decisions were never fairly questioned and whose multage residue.

NEW YORK, April 18.—Jas. R. Keene's Restigouche, an added starter, and quoted at 6 to 1, won the Freeport Handicap, 7 furiongs, at Aqueduct to-day, defeating the Carter Handicap winner, Jack Atkin, by three lengths. Jack Atkin, on mis good race in the handicap, was heavily played, being backed down from a high quotation at 3 to 2 to close at 4 to 5. Restigouche, altho he had worked well and was well supported, went back in the betting. The start was good. Restigouche was slow to break, but was rushed into the lead. He opened up a big gap on the turn, but in the stretch Jack Atkin caught him and then began to stop, while Hestigouche responded gamely to the whip and won fidden out by three lengths. The Interassociation Lacrosse League will meet on Monday, April 20, at Prospect Park Rink and requests the following clubs to be represented: Norways, Woodgreen, Maple Leafs, St. Simons, West End Y.M.C.A., Mimico Stars, St. Pauls. As business of importance will be discussed, it is necessary that all should be on hand at 8 o'clock sharp.

Sport Murton, the star home player of the Tecumsels, was signed by Newsy Lalonde Good Friday to play with his Hamilton senior C.L.A. team.

Murton will certainly be missed by the Indians this year and if the residence rule had been abolished there would have been more than one N.L. club after his services. Lacrosse Points.

The World offers three season tickets, one for each of the first correct guesses in the above competitions, or, failing to guess correctly, the nearest. The games up to Victoria Day week played by the Toronto club are as follows:

ABROAD.

At Jersey City—April 23, 24, 25.
At Providence—April 26, 27, 28, 29.
At Baltimore—May 1, 2, 4, 5.
At Newark—May 6, 7, 8, 9.

With Providence—May 12, 16, 18, 1
With Providence—May 20, 21, 22, 23.
With Baltimore—May 25, 25, 26, 27.

To figure out the Torontos' percentage, divide the number of games won, adding two ciphers, by the number of games played. Always continue to the fourth figure and if over five add one to the percentage. Coupons are issued continuously from April 6 to May 3 in The Daily and Sunday World. Only one coupon will be accepted from any one person of any one No.

Address all coupons and communications to the Sporting Editor of The Toronto World. Employes of The World are excluded from the competition.

## hind Beck (with his back to the wall). The Dollar That Can't was voting a great credit to the Mac-Be Spent

By Herbert Kaufman.

Every dollar spent in advertising is not only a seed dollar which grows a profit for the merchant, but is actually retained by him even after he has paid it to the publisher.

Advertising creates a good will worth the cost of the publicity.

It actually costs nothing. While it uses funds it does not use them

up. It helps the founder of a business to grow rich and at the same time keeps his business from not dying when he does.

It eliminates the personal equation. It perpetuates confidence in the store and makes it possible for a merchant to withdraw from business without having the profits of the business withdrawn from him. It changes a name to an institution—an institution which will survive after the death

It is really an insurance policy which costs nothing—pays a premium each year instead of calling for one and renders it possible to change the entire personnel of a business without disturbing its prosperity.

Advertising renders the business stronger than the manof his presence. It permanentizes systems of merchandising, the track of which is left for others to follow.

A business which is not advertised must rely upon the personality of its proprietor, and personality in business is a decreasing factor. The public does not want to know the man who owns the store—it isn't interested in him, but in his goods. When an unadvertised business is sold it is only worth as much as its stock of goods and fixtures. There is no good will to be paid for-it does not exist-it has not been created. The name over the door means nothing except to the limited stream of people from the immediate neighborhood, any of whom could tell you more about some store ten miles away which has regularly delivered its shop news to their breakfast tables.

It is as shortsighted for a man to build a business which dies with his death or ceases with his inaction as it is unfair for him not to provide for the continuance of its income to his family.

P.S.—Talk No. 6 will appear in The World on Wednesday, April 22.

The expenditure of the Whitney gov-

All very fine, Brother Beer, but you are wrong in your facts. Mr. MacKay did not protest against the guaranty to the C. N. R. for one reason, per-haps, because George W. Ross had committed the Liberals to such liberal-ity to the C. N. R.. Then Mr. MacKay

may have had his own or other reasons for silence in the legislature. We suggest that Brother Beer writ a letter to Mr. MacKay and ask him who pays his salary as leader of the pposition. Ask him to give to the ublic a list of the contributors to that salary. When that list appears, it may be that some motive may be found for Mr. MacKay's profound acquies-cence in the C. N. R. guaranty.

We fear, Brother Beer, that you are a bitter partisan and that your partisanship outruns your sense of justice and preportion. On the whole, we believe, Brother Beer, that Premier Whitney has given the Province of Ontario good government, and if he but fulfils the half he promised, it would be folly to change him for Mr. MacKay, who is a legatee under the Ross will.

Her place on the St. Lawrence navigation route has already been provided for, so far as the summer is concerned, by the fitting up of the company's steamer Montford for the accommodation of passengers, but no step towards her replacement on the fleet by a new vessel had been taken.

### FACTORY AND JAIL IN THE PARK Will Not Be Expropriated for Battle-field's Scheme, But Won't Interfer.

QUEBEC, April 19.—The Battlefield project will be proceeded with without any interference with the Quebec district jail or the Ross Rifle factory. Both the Plains of Abraham and Cove Field will be converted into a park together with other historic grounds on which buildings have been erected. These buildings will be purchased with land that will be converted into a park or drive. This work alone will cost a very large sum and the money collected for the Battlefields fund devoted entirely to the scheme; not one cent of this fund will go towards the

tercentenary celebration It would be impossible at present to expropriate either the jail or the Ross Rifle factory not only on account of the cost, but because there are no appropriate sites that they could be re moved to. The buildings in question will not, however, interfere with the Battlefield Park.

TRIAL OF THE DREAMERS. More Evidence to Show the Lawless Character of Fanatics.

MEDICINE HAT, April 19 .- (Special.)-Continuing the evidence on Saturday against young Merkel, one of the "dreamers," Witness Lehr stated he would probably share the fate of J. W. Martin, J.P., who is missing and supposedly drowned. Martin was the magistrate who fined the Gill woman for shooting at the Lehr children, and McCARTER—At his late residence, 33 Christian Gill had threatened to do away with him (Lehr) if he got a chance, and had actually drawn a knife on him. On one occasion Merkel car-

Adolph and Michael Brost had heard the prisoner make threats that Lehr would die like a beast. Reib Bombach and others had heard Markel say of Irvine that he would go like Martin.
One Schneider testtified that the leader of the dreamers two years ago old of the belief in destroying the lives and property of those not in sympathy, and of carrying out the interpretations of dreams. The prisoner had dreamed once that his wife had lain with her brother and in the morning rode over to his brother-in-iaw's and shot him, not fatally. He was fined \$100 and 30 days in jail. Witness knew the dreamers had burned buildings as the

result of dreams. Michael Brost repeated the evidence given against former prisoner Neinan, telling of planning a meeting for the prisoner to shoot Michael Gill thra the window while Emmanuel Gill kept watch on the dogs. Merkel showed him a revolver, with which he intended to oot if anyone started to talk. Since then the prisoner had told him while passing on the streets he would kill nim if he ever caught him alone on the

Gentle yearnings for the past in time or in place stir the hearts of all who consider the associations of the great religious festivals. Readers of Zangwill must remember his pictures of the home life in the Ghetto at the Passover season, and all Jewry turns with longing to the memories of the great

feast.

To the thoughtful among the later faith and the earlier mystery no time appeals so strongly as the great season, when, after due discipline and chastening come the initiations of higher living and nobler ideals, brighter joy and deeper peace. The outer world catches the reflec-

The last words of Jesus were, "My peace I give unto you," and nothing was more characteristic of the Easter celebration than the salutation of the text, "Peace be unto

They were natural words, as being the accustomed greeting among the Jews, and yet after what had happened in the interval since Jsus had left them, the words must have seemed strange to the disciples. They were marked men. Even that very night they had closed the doors for fear of the Jews.

As people kneeled at the Easter feast they ought to be able to realize this peace and to say: "I can do all things thru Christ who strengthened me," "To do the will of Jesus, this is rest."

Another Mecca in the city whose fame material loss, he had with him

is spreading is St. Andrew's, King and Simcoe-streets. The extraordinary beauty of the organ, and the entrancing performances of Dr. Norman Anderson, the comely dignity of the re-constructed building, and the attractiveness of the preaching are drawing constantly increasing crowds. Last night was an inspiring sight. The great building was packed with people. The seats were all filled and the steps be-The and devotedness of heart, they must be here fight sin within and without. If good and bad alike vanished into kindred dust, where was the reasonableness of all the struggle? So the idea was needed to vindicate the character of God as a God of justice and love.

When Jesus said: "Be ye perfect, not a: I am perfect, but as your Father in Heaven is perfect," He gave expression

of the salaries given to clergymen in general. They should not receive such fat stipends as to suggest that the calling was one to be followed for its money inducements, but at the same time the rewards should be such as to enable ministers to purchase the books they needed. A workman couldn't get they needed. A workman couldn't get even that a particular event would happen to-morrow.

## MARKET ABSOLUTELY DULL BUT WITHOUT LOSS OF TONE

Gold Exports Are Not Regarded Seriously As Yet --- Market Sentiment Improves at Toronto.

World Office, Saturday Evening, April 18. Saturday Evening, April 18.

It was hinted last Saturday that gold exports were likely to commence at an early date from New York. The movement started on Wednesday by the engagement of \$1,000,000 of gold for Paris and was followed on Thursday by another engagement for a like amount. The inception of an outward movement of the yellow metal is not taken seriously by the market, but attention will be given to the matter providing the exports give evidence of running into a large volume. The two factors which govern this are the balance of trade, and the extent to which loans were made in Europe last fall to obtain part of the \$100,000,000 of gold which was brought in at that time. It is estimated that an increase of upwards of \$120,000,000 in gold has occurred at European financial centres during the first three months of the present year, and from this it might be inferred that American gold will not be forced out unless by natural conditions.

In this connection the government's

deposit bonds for this purpose.

The navigation stocks have made the usual spring movement. In the case of this position or an acknowledgement of this position or an acknowledgement of the equalizing of the prices of all commodities will depend whether cotton and not gold is to fill the call of credit from Europeans.

Business at the New York exchange has been fearfully narrow during the week. Standard securities have not fluctuated enough to allow of profitable outside transactions on either side of the market. This situation has aided a light bull campaign in what is characterized as the "cats and dogs." Insiders in these shares have had to contend with very litting the state of the authorized issue, viz.,

deposit bonds for this purpose.

The navigation stocks have made the usual spring movement. In the case of Richelleu, the rise in the price of the shares is attributed to the expected increase in earnings this summer from the Quebec tercentenary; but, as the obligations of this company have been increased, it will be necessary to have the earnings increased, at least, in conformity. Altho no statement has yet been made regarding the increase in the Northern Navigation capitalization, it is generally understood that this will be announced a little later on, and that the full limit of the authorized issue, viz.,

NEW YORK, April 19.—Growing ease as the "cats and dogs." Insiders in these shares have had to contend with very little profit taking, as few buyers came into them before the rapid advances. A lull actual trading was evidently regarded as an opening to the promoters of these shares, and it is expected that these side issues will be taken by the uninitiated should later buyancy develop in the result of the stock has been brought out by the gular market. Transactions during the week were smaller than at any similar period since 1904, and the usual active securities fell in almost absolute dulness.

NEW YORK. April 19.—Growing ease the natural consequence of the structure of funds in the New York and plethora of funds

Notwithstanding the inactivity of the market the standard stocks have main-ained a good undertone thruout the week. The narrowness of the fluctuations in such shares as Union Facific and Reading was more suggestive of accumulation than of anything else. Floor traders have become pretty well convinced of their inability to make successful terms until the insiders adopt an aggressive policy on either side of the market, which accounts for the small amount of transactions and either side of the market, which accounts for the small amount of transactions and the freedom with which prices are dropped a large fraction on the smallest of offerings. The close on Thursday was suggestive of a better market during the incoming week. Crop news is being watched carefully, but neither in the news nor at the markets for grain futures has anything developed to cause nervousness. The settlement of the coal strike should prove favorable to the market, and an increase in activity will prove beneficial to prices.

The atmosphere in local financial circles has cleared considerably of late, whether owing to the spring season and naturally buoyant disposition at that particular period, or to a train of circumstances which have worked to dispel the nervous-ness in regard to securities which has Glazebrook & Crouyn, Janes Building (Tel. Main 7517), to-day report exchange rates as follows:

—Between Banks—

—Between Banks hung as a pall over the market for a good many months. One factor of more moment, perhaps, than any other was the news from the Canadian west, which spoke of active operations on the land, an spoke of active operations on the land, an increased acreage and apparent good prospects for a successful agricultural year. Commercially there is less complaining than there has been, and there appears to exist a general belief that the apprehensions of last fall were too deeply colored, and that improvement, at least temporarily, has already begun.

Price of Oil.
PITTSBURG, Pa., April 18,—Oil closed at \$1.78. In closer connection with the market i another attempt to settle the differences between the Dominion Coal and Steel Companies, the two principal individuals in these concerns having held several conferences in this city during the past week. It can be readily understood that great pressure is being brought to bear upon these two companies to stop further little C.P.R. Earnings.

Week ended April 14, 1998, \$1,305,000; same week last year, \$1,479,000; decrease, \$174,000. pressure is being brought to bear upon these two companies to stop further litigation, and to have them get down to business and make money for their share-holders, rather than dissipate it in the courts. The inside operators in the Steel shares, who utilize every action to bolster up the shares, took advantage of the possibilities of a settlement and gave their specialty the usual activity at Montreal. It is, perhaps, needless to say that the shares were not anxiously sought after there. The Coal stock showed a quick appreciation also. The scarcity of this issue in the market at recent low prices lent itself to manipulation by one house, which sought to take advantage of the changed conditions. The stock ran up 13 points, but lost about a third of this when

Money market conditions, therefore, seem to be reaching the condition promissing success for new offerings of securities. The known necessities of the rall-road corporations promise large issues of new securities as soon as conditions become propitious. The Union Pacific, the Illinois Central, the Delaware & Hudson, the New York Central, the Interborough-Metropolitan, and some minor companies have announced their plans already. Tenders for these issues will be awaited with great interest to indicate the course of the investment situation. Aside from the needs of the corporations, the demands for loans are light. The course of earnings of the railroads has not yet turned for the better in a sufficient degree to help their credit. The latest report of the committee on car efficiency of the American Railway Association showed that on April 1 the humber of idle freight cars had increased since the previous report on March 1 by 9801. From the high promise of the condition of April 1, shown by the government re-port, the need of moisture in portions of the winter wheat belt indicated a pos-sible deterioration, which made this influence an unfavorable one for the securities market last week. Dealings in securities, however, were unimportant, owing to the holy week closing.

Ennis & Stoppani wired J. L. Mitchell at the close of the market:

Wheat—The market was a great surprise to the majority of traders to-day, the general expectation was that prices would have a sharp decline when rains were reported in Nebraska and Kansas. The extent of this break was a %c decline at the opening, but it was followed by a sharp rally, which carried prices up over a cent and market held the advance well closing near the best prices of the day. The advance was started by buying of a faily large sized amount of May wheat by a prominent elevator house, the traders talling on and shorts bidding up the market in an endeavor to cover. Outside trade was rather light, most of the trade coming from the professional element. The strong statistical position of the cereal seems to have outweighed effects of rain; too much rain is now being reported from some sections. Higher prices are anticipated.

President Can Act as He Sees Fit, and Other Measures May Fail.

WASHINGTON, April 19.-From a number of conferences which Chairman Cullom of the senate committee on foreign relations has had recently with President Roosevelt and Secretary of State Root, it is now probable present session of congress, blanket authority will be voted to the president to proceed against Venezuela in has been trampled upon, and Senator such manner as subsequent events Cullom and other members of the may require to uphold the dignity of the United States and protect the in-terests of American citizens.

A resolution giving such authority to the president has been drafted by Senator Cullom and approved by the president and Secretary Root. It provides that the president shall have the power to deal with Venezuela in the matter of adjusting the controversies with that country concerning wrongs done to American citizens and corporations in Venezuela by reason of the ill-treatment they have received at the hands of President Castro. tration would again demand the sunmission to arbitration of the claims of American citizens and corporations

follow this line of procedure.

On several occasions, as is shown by the correspondence between the state department and Minister Russell. the American Government has with out success called upon President Castro to arbitrate the claims. In the very last representation made to Mr. Russell by J. De J. Paul, the Vene-zuelan minister for foreign affairs, he said that the Government of Vene-zuela would view it with satisfac-tion if the American Government

would consider this arbitration question as closed. If a resolution giving power to President Roosevelt to proceed against Venezuela as he sees fit is adopted by this congress and if in that event Mr. Castro should continue in his present attitude there is no question that the American Government would have the power to use force. Furthermore the indications are that an aggressive pro-gram would be adopted. President

Rev. Dr. Pidgeon preached an impressive sermon to-night at Victoria Presbyterian Church. The chief topic of discussion was a vital one. "What is the central theme and purpose of the Christian church going to be? Is the preaching of a social and moral religion to be the church's greatest aim?" These questions, Dr. Pidgeon asserted, were at present occupying the thoughts of many earnest secular writers, as well as theologians. "What is it that UNIONVILLE, April 19.—A. D. The death of Mrs. Henry Shoults of concession 7 of Markham took place at her late residence yesterday. Mrs. Shoults was probably the oldest resident in Markham Township, and had she lived until June 20 would have attained her 98th birthday. The deceased lady was remarkably active, and until within the last few days had been engaged in assisting in the ordinary work theologians. "What is it that anges the hearts of men and makes oners into saints?" was the urgent testion to be settled, declared the question to be settled declared the speaker. "If we as priests to God fail to satisfy ourselves on that matter our naission is vain." Faith in Jesus Christ, Dr. Pidgeon believed, was the only qualification necessary to become a member of the Presbyterian Church, altho to become a minister it is necessary to accept the church's doctrine. "Let us seek vital relationship with God, that we may be transformed into His likeness—till this is accomplished all other matters, however important, should take a secondary place."
