## SHAH'S CAPITAL HELD BY ENEMY

**Nationalists Fighting For Constitution Soon in Possession of Teheran.**  
TEHERAN, Persia, July 13.—Recent events in Persia are being repeated in Persia. The Constitutionalists forces the advance of which on Teheran for a time was not considered serious, are now in possession of the greater part of the city, which they entered this morning without encountering an organized resistance.  
While the leaders in the movement concentrated the attention of the Royalists by demonstrations to the west, a strong body of Nationalists and Bakhtiari made their way unnoticed around to the north, from which point the capture of the capital was not difficult.  
The guards at the north gate were disarmed and the invaders marched in, the foreign section leaders taking up their quarters in the old Mellis building.  
This gives the Nationalists command of the city, with the exception of the Mellis square and the Mellis building. The Royalists are badly situated to make further resistance, and the Cascocks, under command of the shah, are outside the city, entirely cut off from their comrades in the artillery square.  
The strictest discipline being maintained by the Nationalists. The Nationalist leader in a note to the Russian and British legations guarantees security of life and property to foreigners, which could be used in hauling out heavier cables. This work is now done with guns.  
He explained that in his life saving service the dirigibles would be used chiefly for carrying small lines of ships, which could be used in hauling out heavier cables. This work is now done with guns.

## Has a Wireless Dirigible For Wrecked Ships

**U. S. Inventor Interests European Govts. in Wonderful Marine Life-saving Device.**

NEW YORK, July 13.—The Herald says: In a private test before representatives of one of the European governments, Mark O. Anthony, an electrical engineer, last Saturday afternoon succeeded in sending a small dirigible balloon, controlled by wireless electricity, out over the ocean near Sandy Hook, a distance of one mile and a quarter, directing the movements of the craft by manipulation of an ordinary keyboard on the beach.  
During some of the flights a brisk breeze was blowing in shore, but the little dirigible, with its large propeller, at all times made good headway and appeared to be much steadier and to travel faster than other and larger balloons which have been operated by a pilot aboard.  
The inventor declared that what he had already done proved to the satisfaction of those who saw the model work that it could be used successfully at life saving stations and that it could be inflated from large hydrogen tanks and sent out over a ship one mile from shore in less time than surf boats could be used.  
He explained that in his life saving service the dirigibles would be used chiefly for carrying small lines of ships, which could be used in hauling out heavier cables. This work is now done with guns.

## DISORDERING TORPEDO MOTOR

**Has Two Interviews With President Ross—Damages to the Phalen Seam.**

GLACE BAY, N.S., July 12.—(Special)—Reports have been rife that Bishop Cameron (Roman Catholic) was using his influence to end the strike. These were revived this morning when President Ross arrived on a special train and proceeded immediately to the Glebe House in the Bishop's automobile. Later he was interviewed by the lordship, Bishop Cameron, did me the honor of calling on me at my house in Sydney, which distinction I appreciated very highly and I have since his lordship was imbued with anxiety over the danger and distress which might result among his people at this critical period. I particularly impressed by the lofty humility and earnestness of his sentiments and assured him that all danger of possible violence had been removed by the presence of the troops and that furthermore, when the unfortunate strike was over, our managers and officials had been captured and every means taken to remove all cause of bitterness and re-orientation. I further stated that it would be our policy to give every man now absenting himself a chance to get back to work.  
I hastened before saying anything to the newspapers about these interviews which were really of a personal and friendly character, but I informed his lordship that his interest in the present situation was particularly presented in some quarters, and I think it only right to say that his lordship's sole object is to do what he possibly can to bring about a settlement of the strike as the honored leader of a church which embraces a large body of our employees, to prevent harm and distress befalling these people.  
A Midnight Conference.  
President Ross has been around the collieries all day and this is taken as an indication that he considers the situation very serious at the collieries. At midnight Manager Duggan and other prominent officials were in conference with the president at No. 2 colliery, about a mile from the town. No. 2 is the largest colliery in Canada. This is the U.M.W. colliery, and the president was taken at the advice of the Unionist leaders, who considered it inadvisable to interfere with War Secretary Hamilton's scheme of the reorganization of the territorial forces, until a change of government should make it possible to introduce some such idea as proposed by Lord Roberts.

## 'Torpedo Motor' Solves the Problem Of Cheap and Fast Railway Service

When the passenger travel is light and the revenues moderate and patrons of branch lines ask for frequent, modern and fast service, what is a railway to do?  
That is practically the plaintive protest of the C.P.R. and G.T.R. when the matter of suburban service is broached.  
The Northern Pacific Railway has solved the problem by adopting the "torpedo motor" in place of trains hauled by steam locomotives, and has placed one of the new type of passenger carriers in service on a Minnesota-Wisconsin branch where the passenger service is light, but made up of a particular class of people who want the best and insist on having it. The new car is gasoline driven, and under one roof houses passenger accommodations, space for baggage and mail, and its own power plant. Gasoline engines drive it and the tests, made on a stretch of suburban track between St. Paul and White Bear Lake, showed a speed of a mile a minute.  
The new car has an odd appearance and is unique in its general design. The forward end is pointed like the prow of a ship, and offers little resistance to the wind. There are few projecting ventilators, or other devices to retard speed. The engineer has his station in the forward end of the car, which is controlled by air-brakes the same as a railway train.  
The rear portion of the car is fitted up handsomely for passenger accommodation and forward of the passenger compartment is a space for baggage and mail.  
Exhaustive tests show that the car is under perfect control, is capable of a maximum speed greater than is ever required in branch line service, and is very economical in the consumption of gasoline.  
The success of the tests will be followed by the abandonment of steam service and the substitution of the new type of motor on many branches where the traffic is light.

## EXPERT ON TUBES TO BE CHOSEN FOR CITY

**J. W. Moyes' Name Sent on by Special Committee to City Council as Engineer to Make Report.**

Ald. McChie has appointed J. W. Moyes to make a report on the most practicable means of installing an underground or "tube" street railway system, and that \$500,000 provided therefor was made by the special civic committee chosen to investigate the merits of Controller Hocken's proposal yesterday afternoon. The matter will come before the city council at Friday's meeting.  
Moyes was formerly engineer of the Metropolitan Railway, and it was he who prepared the viaduct plans for the board of trade. Controller Hocken, who was made chairman, suggested that an engineer who had handled street railway problems should be appointed to report on the districts that could be served best and at least cost by an underground system.  
Ald. McChie thought City Engineer Rust capable, but the controller objected that his hands were already full. Mr. Rust said he was willing to make a preliminary report, but that some years ago he had reported in favor of shallow as against deep tubes for the city.  
The chairman, however, proposed J. W. Moyes. Mr. Rust replied that all Mr. Moyes had done was to operate the Metropolitan Railway, and that he considered his knowledge equal to that of Mr. Moyes. If an expert were appointed it should be someone who had built the tubes.  
Controller Harrison thought diagonal tubes too expensive and that an underground line up Yonge-street to the C.P.R. tracks with surface lines east and west would fill the bill.  
Controller Hocken believed the ideal system would have lines radiating east, west and north from the centre of the city, but that the cost, \$12,000,000, was prohibitive.  
Ald. Baird held that a line to the northwest section was needed, rather than one up Yonge-street. A passenger could get on near the C.P.R. crossing at Yonge and Bloor, and travel down in 10 minutes, while to reach the centre of the city from Keele and Dundas-streets took 35 minutes. 4000 passengers are taken to Toronto by rail. A diagonal tube was the only solution, as even by having a surface line in the north and from there several branches to the northern terminus of the Yonge-street tube, no time would be saved. He opposed Mr. Moyes' appointment. He suggested that Mr. Moyes' appointment be postponed until after the street railway, but the chairman said there was reason to believe that the street railway would be prejudicial to the city's interests.  
Controller Harrison's motion to appoint Mr. Moyes was supported by Controller Hocken, Ald. Baird and McMillin, with Ald. McChie and Baird opposing.

## POSTPONE SERVICE BILL TILL GOVERNMENT'S OUT

**House of Lords Vote Against Present Interference With Secretary Haldan's Program.**

LONDON, July 13.—The house of lords to-night, by a vote of 123 to 103, decided not to proceed with the national service bill, which Lord Roberts introduced in the house yesterday. The bill provided for the compulsory service in the territorial army of all male citizens between the ages of 18 and 30.  
The decision of the house of lords was taken at the advice of the Unionist leaders, who considered it inadvisable to interfere with War Secretary Hamilton's scheme of the reorganization of the territorial forces, until a change of government should make it possible to introduce some such idea as proposed by Lord Roberts.  
There is a great bankhead at No. 2 colliery, and immense quantities of coal are being removed from this heap to meet orders.  
The Trade and Labor Congress of Canada has endorsed the action of the U.M.W. in passing a resolution favoring the retention of the troops, while the big coal strike is going on. Trades and Labor Congress of Canada should endorse the U.M.W. in their fight and demand the withdrawal of the troops, there being no disturbances.  
The following reply was received, signed by President Alphonse Verwill, M.P.:  
"Congress authorizes endorsement of the United Mine Workers' strike, and demands recall of militia, there being no disturbances."  
A well defined report was persistently circulated to-day that more troops, about 150 in number, were to be brought to Glace Bay in order to more efficiently look after the riotous collieries. The soldiers are not now located at all the mines, owing, it is charged to the unwillingness of the officer in charge to break up the riotous small sections. The report to-day was that the soldiers would be brought from Quebec. That statement is a man, would resent the bringing of more troops to this already armed camp.  
The site of the first Marconi wireless telegraph station, known as Table Head, is now the camping ground of the larger portion of the troops.  
According to a statement by an official of the company, there will be great loss to men, company and government on account of the strike. Serious damage is being done to the Phalen seam, especially the south side.  
This is the seam from which the Steel Company must be supplied with 80,000 tons of coal per month. All the mines, with the exception of Nos. 7, 8, 10, 12 and 14, are on the Phalen seam.  
In ordinary times, it takes three times as many men to look after the south as the north side of the seam, in repairing the roof. In spite of this, the roof is being left fall in at times. Men must be up work constantly, or else the roof timbers begin to break, large sections will come down. If such break occurs, it is a man's second exit. Therefore the police had their quarry fairly bottled.

## WHITE GIRLS—YELLOW MEN

**Twenty Dollar Bill Leads to Arrest of Two Women.**

Two more white women who frequent Chinese resorts were gathered in by the police last night. Bradley, who was arrested with Ellen O'Dare, both of 243 Simcoe-street, who admit that for some time they have done no work, were arrested upon a complaint of a Chinese girl, which the girl had robbed him of a \$20 bill. The story told by the girls, which is the same as that of the Chinese, is that the O'Dare girl, who, with Miss Bradley, was jolting the "chinks," grabbed the girl's money, which she said they do not know what became of the money.  
"Congress authorizes endorsement of the United Mine Workers' strike, and demands recall of militia, there being no disturbances."

## FAN TAN GETS GRANDSLAM RAID ON QUEEN ST. GAME

**Twenty Chinamen Arrested in Midst of Celestial Mysteries.**

Twenty Chinamen were gathered in to the police net from a Celestial resort at 194 York-street last night. One is charged with keeping a common gaming house and the others as frequenters. All were added to ball, the keeper in the sum of \$600 and the frequenters at \$250.  
If you recognize any of these names your laundry may be late this week.  
When the police court clerk starts in this morning this will be part of his patter: Keeper Wong Yoo, 194 York-street; frequenters, Yip Yook, 105 1-2 West Queen; Lew Hip, 276 West Queen; Wong Sing, 1079 College; Wong Ching, 115 West Queen; Tom Hing, 192 1-2 West Queen; Ing Sing, 99 West Queen; Lee Sing, 184 York; Lee Wing, 115 West Queen; Charlie Chan, 194 York; Sam Sing, 807 Bathurst; Lung Low, 194 York; Ho Ping, 194 York; Lum Dow, 194 York; Tom Sing, 194 York.  
At 9 o'clock a whole drove up York-street. It stopped before No. 194 and four large-sized men leaped out. They were Inspector Davis and Plainclothesmen Sackett, Riley and Sanderson. They dashed in at the doorway and thru two more doors in the hallway and came upon a stairway leading into the basement. They were met by an up-coming rush of Chinese, whom they turned back by the weight of their onslaught and were in time to see a number of frightened Celestials grabbing fan tan beads and money from four tables, which were being overturned in the melee. Inspector Davis made a jump for \$10 in silver and got to it before the yellow hand of a Chinook could sweep away this evidence of more than a merely sporting interest in the queer game which had been in progress.  
This raid, as nearly all Chinese raids are, was made upon complaints made by disgruntled Chinese. It was in this way that the police chose the exact time and were so well able to travel a direct route to the room where the game was in progress. The police will not give away the names of their informants.  
An unusual feature of this place, which in the directory is given as Kong Wob Lung Company, grocers, was that from the ceiling an up-coming way was being played there was no second exit. Therefore the police had their quarry fairly bottled.

## EVELYN THAW REFUSES TO ADMIT A THREAT

**State Tries to Show That Harry Thaw Threatened That He Would Kill Her.**

WHITE PLAINS, N.Y., July 13.—Evelyn Nesbit Thaw, pretty, petulant and school-girlish, and dressed in the blue which she affected so much during the trial of her husband, Harry K. Thaw, for the murder of Stanford White, was before Justice Mills in the supreme court here to-day, supported by the state in its fight to keep Thaw in the asylum for the criminal insane at Matteawan.  
Deputy Attorney-General Clark tried hard to get her to admit that Thaw had threatened her life when she visited him on one occasion at Matteawan, but she repeatedly refused to answer, and after a clash between counsel Justice Mills ruled that he would hold the conversation a confidential one between husband and wife, and therefore privileged, unless the state presented proof to show that Daniel O'Reilly, the New York lawyer, present at the time, was not then acting as counsel for both Mr. and Mrs. Thaw.  
"During that conversation did Harry Thaw say to you or words to this effect: 'When I get out of here I will have to kill you.'"  
The tears came to her eyes once when Justice Mills ruled against her, and she turned to him and said: "I guess I will have to obey, for I cannot afford contempt proceedings or go to jail. My husband is not paying me anything now and I have not enough money to hire counsel."  
Frank Toomey, Thaw's bodyguard for five or six months at Matteawan, said that Thaw had exhibited no irrational tendencies during the time. Many little suggestions made by Thaw had been acted upon, greatly to the improvement of the management of the institution.  
The state has retained Dr. Austin Flint and Dr. Charles B. McDonald, who with Dr. Amos E. Baker of Matteawan, will make up the state's trio of alienists along lines agreed upon by counsel yesterday. The mental examination to test his sanity is to be conducted in open court by the lawyers prompted by the experts.

## PREACHER'S WIFE DEAD POISONING SUSPECTED

**Stomach of Colored Woman at North Buxton Sent to Toronto For Analysis.**

CHATHAM, July 13.—(Special)—Mrs. Edson, wife of a colored preacher at North Buxton, died under suspicious circumstances Sunday night.  
She had been treating with Dr. Bell of Merlin, for stomach trouble. He paid a visit to her last Wednesday and found her improving. Between Wednesday and Sunday, Edson telegraphed to his wife's relatives in Chicago that she was dying, and to be prepared to receive her body. He did not call the physician, however.  
On Sunday afternoon, Dr. Bell accidentally called at the Edson home and found the woman dying and unconscious. He held a consultation with Dr. Oliver and neither could understand the woman's condition. She died Sunday night and both doctors refused to give a certificate for burial unless an inquest was held. It is said the husband strongly objected to a post-mortem, but was finally induced to consent. All organs in the body were found to be in a healthy condition, with the exception of the stomach. Coroner Bray of this city conducted an inquest and the stomach of the woman has been sent to Toronto for analysis.  
MAY BECOME ARCHBISHOP.  
OTTAWA, July 13.—Rev. M. F. Fallon, D. D., formerly of St. Joseph's Church here and now of the Holy Angels College at Buffalo, is regarded as most likely to be elevated to the vacant position of archbishop of Vancouver.  
The see has been vacant for upwards of a year.  
MANY MEN THINK SO. A STATEMENT OF FACT.  
It were easier far to catch the snare in the lower's' guile than to define the charm and exquisite comfort of a Straw Hat from Dimeen's. Some are \$2.00, some are \$2.50. What you get is more important than what you give. Quality is remembered long after price is forgotten.

## PRESIDENT ROSS KNEW

**Entirely in Accord With Actions of His Officials.**

MONTREAL, July 13.—(Special)—A rumor was published in Toronto this evening that the president of the Dominion Coal Co. had been deceived by his officials to the effect that 500 men would continue at work, and that Mr. Ross was now endeavoring to settle the strike. A wire having been sent to the president, he replied as follows: "The Glace Bay, July 13.—The story published in Toronto is absolutely false. I have been fully in touch with the situation from the first and am entirely in accord with the action of the company's officials. I have announced that the company will never meet the representatives of the U. M. W. A. This is final."

## PROVE INNOCENT AT LAST

**Man Sentenced for Stabbing, When Glass Caused Wound.**

CHATEAU, July 13.—(Special)—Robert Hallinan, butcher, had a piece of glass removed from his back to-day. It had been in his body for twenty-two years.  
New Year's night Halinan got mixed up in a fight in the Idlewild Hotel. He fell thru a window. Afterwards, it was discovered that he had a wound in his back. He was taken to the office of Dr. Springer who thought it must have been inflicted with a knife. Quigley, the man he was fighting with, was then accused of sticking him in the back with a knife and was sentenced to six months for his supposed deed.  
No glass was found in the wound at the time, and only now has it made its appearance.

## INVITE BRITISH BOWLERS

**Ontario Association Will Ask East and West to Join With Them.**

NIAGARA-ON-THE-LAKE, Ont., July 13.—(Special)—The twenty-second annual meeting of the Ontario Bowling Association, was held to-night. The following officers were elected: Hon. patron, Lord Strathcona; hon. president, Wm. Brown, Westmount; president, D. Baxter, Hamilton; president, first vice-president, Dr. L. Robertson, Stratford; second vice-president, J. Warren, Parkdale; hon. secretary, Colin Postlethwaite, Canada; Toronto; hon. assistant secretary, A. E. Kusner, Toronto; Toronto; auditors, Thos. Renne and R. J. Keenan.  
On motion of E. T. Lightbourne and M. J. McCarron the article in "Courier and Bowler" roasting the Canadian team to British Columbia was severely condemned, and the thanks of the association were extended to the team for the worthy manner in which they had represented Canada.  
Dr. Russell, secretary of the team, moved that an invitation be extended to the British bowlers to visit Canada in 1910, and that the western and eastern associations be requested to join in the invitation.  
The following clubs were elected to membership: Weston, Tillsonburg, Whitby, Barrie, Oakdale (Toronto), Victoria (Hamilton).

TORONTO MAN MURDERED ON FIGHT WITH TRAMPS

Chas. F. Silverside, a Railway Detective, Reported Killed While on Duty in Indiana.

LAPORTE, Ind., July 15.—(Special).

Charles F. Silverside, a detective under the command of Chief Hamlin of the Chicago office of the Lake Shore Railroad, and whose mother is supposed to live in Toronto, was attacked early to-day by five tramps and knocked to death after a fierce struggle in a freight train.

PARIS, July 15.—The chamber of deputies to-day adopted almost unanimously the amended Franco-Canadian commercial treaty, with the concurrence of the senate.

Canada will receive all the minimum tariff rates except on cattle fattened for slaughter, which will pay the general tariff.

Mons. Ledin, Mando, Heron, Roz and Bougers opposed the treaty on the ground that it was not sufficiently advantageous to France, especially with regard to silk and lace. They said also that the amendment regarding cattle was not, and the granting of minimum rates on agricultural machinery would be dangerous to home industries.

Minister of Commerce Cruppie and Minister of Agriculture Ruau defended the measure with energy, pointing out that the treaty was a good business arrangement for the country, and that the market for French goods, the motion made by M. Ledin for postponement, was defeated.

A Delightful Sail

LOCAL TOPICS

It was not the fault of the constable that the body of John Hicks, who was killed near Clarkson's, Friday, was left beside the track until late Saturday afternoon. A section man had been left in charge of the body, but when the coroner arrived he thought the need for him was past and left. When the coroner decided an inquest was unnecessary he left the body and went for an undertaker, which took some time.

William Tremble, aged 30, of 183 West Richmond-street, was injured by being jolted under the ice wagon he was driving when a wheel came off and the horses shied, yesterday morning.

Nicol Stevens, a Serbian laborer, living at 40 Jones-avenue, and employed at the Wagstaff brick works, Greenwood-avenue, had his right foot crushed by a wheel yesterday. He slipped in the wet clay and his foot went between the rollers. He was attended at the General Hospital.

The C. P. R. bi-monthly excursion for home-seekers left the Union Station at 2 p.m. yesterday for the Northwest. The train consisted of nine tourist sleepers and all were well filled.

The Grand Trunk ran a picnic special to Churchill yesterday, carrying the S. S. of All Saints' Church.

\$11.00 Atlantic City and Return from Suspension Bridge, via Lehigh Valley R. R., Friday, July 16th. Tickets good 15 days. Particulars 41 King-street East, Toronto.

Handle Bar Broke

John Gardner, aged 17, of 39 Sinclair-avenue, is in the Western Hospital in an unconscious condition, the result of a fall from his wheel.

A BROKEN-DOWN SYSTEM

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a broken-down system, as it were, of the vital forces that sustain the system. No matter what may be its causes, they are almost numberless, its symptoms are the same: the nerves tremble, being tiredness, depression of spirits and want of energy for the ordinary duties of life. Now, what is so essential in all such cases is increased vitality—vigor—power to throw off these morbid feelings, and experience of what an night success the day may be more certainly secured by a course of

THE NEW FRENCH REMEDY THERAPION No. 3

This wonderful combination is so purely as it is taken in accordance with the directions accompanying it, the shattered health is restored, the EXPIRING LAMP OF LIFE IS LIGHTED UP AFRESH, and a new existence imparted in place of what had so lately seemed worn-out, used up, and valueless. This wonderful medicine is suitable for all ages, constitutions and conditions, in either sex; and it is difficult to imagine a case of disease or derangement whose main features are those of debility, that will not be speedily and permanently overcome by this recuperative essence, which is destined to cast into oblivion everything that had preceded it for this purpose.

NO DOUBLE LIABILITY NOW SOVEREIGN ASSETS GOOD Liquidation Proceeds Satisfactorily and Liabilities Reduced by Nearly \$5,000,000.

Nothing of a disturbing nature occurred yesterday at the annual meeting of the shareholders of the Sovereign Bank, according to statements given out after the meeting. The shareholders, of whom there were about 40 present, re-elected the directors and adopted the report submitted.

No announcement was made pertaining to the disposal of the Alaska Central Railway and the Milwaukee Electric Railway. The tenor of the annual statement was optimistic and conveyed the assurance that with reasonable success in disposing of the balance of the assets, no further call will be made on the shareholders. In fact, it was believed that there might be a slight surplus for distribution.

The board stands as before, consisting of Aemilius Jarvis, Alex. Bruce, K.C., Senator Peter Molaren, Perth; A. J. McLaren, ex-M.P., Stratford, and Senator George Baird, Andover, N.B. At a meeting of the directors afterwards Mr. Jarvis was re-elected president, and Mr. Bruce, vice-president.

The report showed that during the past year a liquidation of assets had been effected to the extent of \$1,942,730.17, bringing the liabilities down from \$10,199,126.78 to \$8,256,396.61. At the same time the assets, which stood at \$12,651,625 on May 31, 1925, have been realized on to the amount of \$5,822,390.16, leaving \$7,199,235.45 still to be disposed of.

"The net result," said the report, "is that by the liquidation of assets, as shown, we have paid off over a million dollars which, on May 31 of last year, were due to correspondents, and have reduced our liabilities to other banks from \$3,023,000 to \$4,588,000. In addition to this we have paid off \$16,000 of deposits and \$31,000 of circulation. The deposits which we now hold are left for special reasons, and the greater part of them will probably be paid within the next few months. Notwithstanding the fact that we ceased to issue the bank's notes nearly a year and a half ago we had on May 31 nearly \$1,000,000 outstanding. The notes are still coming in for redemption regularly, but very slowly, the present rate being about \$400 a month."

Miss Gilbert Milroy and Mrs. L. Capreol have left for Hawkeston, Lake Simcoe. Miss Gertrude Boulton of Pittsburg is the guest of Mrs. George Bunting, in Admiral-rows.

Mrs. J. T. Warrington is the guest of her mother, in Plattville, N.Y. Miss M. Polman Evans has taken a cottage on Lake Muskoka for the summer. Mr. and Mrs. J. L. Davidson and make a week's visit at their cottage at Scarborough Heights.

Miss Urth Kerr is the guest of the Misses Hamilton, at Rosedale, Bala-Lake. Miss Bertha McNab of Foxley-street, is visiting in Ottawa.

Mrs. J. Curry and daughter of St. George-street, are guests at the Queen's Royal, Niagara-on-the-Lake, for the summer. They are planning to visit from there to points of interest in the surrounding country.

Mrs. M. W. Brown and Miss Mabel A. Ardagh will spend a month at Windsor. Mr. and Mrs. James Gullifoye, Colingwood, announce the engagement of their daughter, Mary Constance, to John P. McLaughlin, Larder City, New Ontario.

Dr. and Mrs. G. Sterling Ryerson left for Germany this week. They were accompanied by their daughter, Miss Laura, who will remain at least a year at school at Lausanne. The doctor will make rounds at the hospitals of Germany and Austria and after attending the Congress of Medicine at Buda Pesth, and the meeting of the American Academy of Ophthalmology at New York, will return to town early in October.

Mrs. Fallize has returned to her summer home in Bala Park, Muskoka. Miss Annie S. Nash of Carleton Place, will travel over a thousand miles straight north of Edmonton before she reaches Hay River, a Hudson Bay post, where she will wed Rev. Fred J. Yvonne, an English Church missionary, formerly of Berlin, Ont., and a graduate of Wycliffe College, in the fall of 1926. The trip will take in the neighborhood of two months to complete, and will be made by rail, stage, snow and river steamer. It is a trip scarcely ever made by a woman, and one that few men except traders take.

Miss Nash is accompanied by Archdeacon Lucas and wife of London, England, who are in Canada for a year's holiday. The archdeacon is going north to perform the marriage ceremony, and will probably spend the winter in the district with his wife, returning to London in the spring of 1927.

Miss Nash has had a wide and varied experience in the five or six years that she has been a trained nurse. Her early home was in Berlin, Ont.

MISSED CONNECTION Roy Inquest Again Adjourned, Coroner and Jury Out of Touch. When the jury did not turn up at the morgue at 4 o'clock yesterday afternoon, on the inquest called on Mrs. Elizabeth Roy, who died Monday in St. Michael's Hospital as the result of injuries said to have been caused in a quarrel at her home, the officials waited. After a long interval it was found that the twelve were under the impression that the coroner was, over at St. Michael's Hospital.

The inquest was called for three, but in order to put the body into cold storage it was taken to the morgue and a policeman was told to inform the jury of the change. He failed in his duty, and some time before they were discovered.

The remains were identified by Gen. Roy, the husband, and by George Roy, and the inquest was adjourned until Friday evening. Coroner M. M. Crawford, M.D., has charge, and E. C. Sperman is acting for the crown.

AN AUTOMOBILE FUNERAL Victim of Race Tragedy Buried With Unique Honor. MONTREAL, July 13.—For the first time in the history of Montreal a funeral by automobiles took place this morning. The deceased was James Twobey, who with Charles Batchelder, was killed in the auto races on Friday afternoon. The coffin was borne from the house to St. Patrick's Church, thence to Mount Royal Cemetery on an auto. The total number of cars in the cortege was about sixty.

CLARKE SECURES LICENSE TRANSFER FROM GENESEE

Solman Will Keep Genesee While British is Rebuilt—Two New Hotels on Simcoe.

Despite the fact that he fell a victim of the ax when the licenses were reduced in Toronto by forty-one, Fred C. Clarke, proprietor of the Hotel Trader, on Yonge-street, will not close up on the first of August.

He was yesterday granted permission by the license commissioners to advertise the transfer of the Genesee Hotel license on West King-street, which he has purchased from J. Collins, to his present premises.

The sole reason for decapitation of Mr. Clarke, as explained by the commissioners, was that his brother, Harry G. Clarke, also possessed a license at 127 Simcoe-street. Five licenses were cut off on May Day on the relationship score.

On Aug. 1 A. L. Solman will move the license of the British Hotel, corner of King and Simcoe-street, to the Genesee premises, opposite the Princess Theatre, where he will continue to conduct business, whilst a new six-story hotel building is being erected on his present premises.

Work of remodeling Clarke's Hotel, 127 Simcoe-street, has begun. A brand new four-story brick structure is to replace the present building. The erection of two new hostleries on Simcoe-street will greatly improve appearance of that locality. Over \$150,000 will be expended on the two, and they will be modern in every particular.

BLOW ON HEAD KILLS Brampton Man Dead and Companion is Arrested.

BRAMPTON, July 13.—On Monday afternoon Edward Fitzgibbon, a man about 60 years of age, was found in the back of his head. He was taken to his home, but did not recover consciousness and died this morning at 9 o'clock.

Fred Burrows has been arrested on suspicion. Burrows and Fitzgibbon had always been the best of friends. Fitzgibbon frequently taken care of Fitzgibbon, taking him home when under the influence of liquor.

ESTATES OF THE DEAD Disposition by Will and Other Wills.

Probate has been granted for the will of the late James Abbott, Markham Village, who died Nov. 22, 1925. The amount is \$24,500, of which \$50 is allowed for Ontario Penial Aid Veteran savings. Five children get \$5 each and Mrs. Abbott, Ohio, gets \$20; Edith E. Field, Toronto, \$100; and Emma Bennett, Toronto, \$50, and the balance goes to W. H. Rogers, Chicago.

Mr. Simpson Will Now See. W. D. McPherson, K.C., M.L.A., has been instructed by certain relatives, of whom A. R. Williamson, a retired merchant, is said to be one, to take legal proceedings against the executors of the will of the late Mr. Simpson. In case of a decision favorable to Mr. Simpson, an appeal will be made to the legislature for an amendment of the act.

Mr. McPherson told The World that he considered it inadvisable to give the names of the petitioners at this juncture, but action would be commenced in court in the course of a day or two.

Caledon Wreck All Clear. The C.P.R. track near Caledon where the Toronto-Owen sound express came to grief on Monday evening, was not cleared until late yesterday afternoon. Freight traffic on the branch was at a standstill for about 18 hours, and the passenger business was handled with some delay. The boat train from Owen Sound was sent around via Streetsville and arrived in Toronto about an hour late, at 2 p.m. yesterday.

News of Missionary Field. Copious rains have fallen in China, according to information which has reached Rev. A. E. Armstrong, associate secretary of the Presbyterian Foreign Mission Committee. This has dispelled fears of a total failure of the crops.

Rev. H. M. Clarke, of the Presbyterian Mission to Honan, China, has arrived home on furlough. Nineteen applications for appointment to the foreign field have recently been received by the committee.

TRANSFORMER TENDERS FOR FALLS AND DUNDAS Accepted by Hydro Power Commission, and Other Work Well Under Way.

Tenders for the construction of the transformer stations at Niagara Falls and Dundas were accepted by the hydro-electric commission, but the particulars are to be withheld until the contracts are signed.

Meanwhile the engineers are working out the details, and it is stated that the prices are as heretofore, with the exception of the estimate.

Speaking to The World last evening, Hon. Adam Beck said: "A party, including the chairman, Consulting Engineer Ross and the other engineers, will start on a tour of inspection over the entire system. We will cover the right of way, the sites of the various buildings and stations, and will also visit the rolling mills at Welland and the Canada Bridge Co.'s works at Windsor, where the equipment is being prepared."

"This tour," continued Mr. Beck, "is antecedent to the report to the government on the whole work, the object being to enable the government to show the public what progress has been made and the probable date of completion."

"In addition to this," observed Mr. Beck, "we will immediately invite tenders for the construction of the remaining stations, and expect all contracts to be signed on or before August 1."

INSPECTOR MADE MISTAKE

Washington Officials to Probe into Buffalo Incident. BUFFALO, July 13.—A special to The Evening News from Washington says: In the absence of official reports on the case of Frank Scopic, the injured Canadian who was held up when brought to Buffalo for operation, officials of the immigration commission decline to discuss the case for publication. A searching investigation will be made into the conduct of the inspector, who would not admit Scopic.

"We expect our officers to use discretion in such matters," said an official today. "We should be sorry to hear that we had in the service any man who could act in a manner apparently so heartless."

Scopic could have been permitted to land immediately for treatment and could have been deported any time within three years.

CANADIANS IN DAKOTA MURDERED BY INDIANS.

MONTREAL, July 13.—But in Rudolph, South Dakota, lived a family of the name of Christie, formerly of St. Stephen's, New Brunswick, an Indian, his wife and daughter. Christie pursued the business of grain buyer, and had frequent dealings with the Indians. Whether thru some haggie over the price or other cause is not known, but an attack was organized on the Christie house and the mother and daughter shot dead. The father had his skull fractured. He was 67 years of age. The bodies leave here for New Brunswick to-night.

Fatal Freak of Lightning.

SANCTA FE, New Mexico, July 13.—During a thunderstorm lightning struck the house of W. E. Rall, and H. N. Rutherford, who with his family was at the Rall home, was killed. Following this, at intervals of one minute, eleven more bolts struck the house, each striking an occupant, the not fatally. The last stroke set the house on fire, but the flames were extinguished by Mrs. Rall with buckets of water.

Handcuffed to Post, Runs Away With It.

LONDON, July 13.—Cornelius Antone and Thomas King, two husky opelia Indians, were arrested for fighting. Both resisted, and broke away. Antone was recaptured and handcuffed to the telepost in front of the hotel, and the constable started after King. When he returned with him, he was surprised to find Antone and the telepost both missing. After sending King to the station in the wagon, he found Antone a long way down the road towards home, dragging the telepost along and still handcuffed. A man named Whitaker was arrested on a charge of aiding a prisoner to escape, but it was proved he was not the man. The two Indians were also discharged.

The World's Last Great Speculative Opportunities ARE IN THE CANADIAN WEST

When Horace Greeley Uttered the Memorable Command

"GO WEST, YOUNG MAN"

He gave to the world more than merely a new expression. He gave the world a phrase that lent tremendous support to the making of new homes for millions, and the shaping of new empires in the pathless wilds.

It was the spirit behind the great editor's sound advice that sent the wagon trains of the "forties" and "fifties" across the Missouri and to the trails of Oregon and California. It is the same advice that sent the flower of Ontario's manhood across the Red River, the

Saskatchewan, and, at last, to the Pacific coast of Canada.

Every man, it is said, who settles in the great Canadian west adds \$1000 to the values of western lands. If this is so, then land values in the west have increased within twelve months to the enormous total of \$200,000,000.

This increase would build another railroad to parallel the Grand Trunk Pacific.

That is the reason the towns of the Great West are budding into cities. One of these is

PERJURY IS CHARGED BY NOVA SCOTIA CO.

Court Hears Preliminary Evidence re Peterson Lake and Nova Scotia Ores.

The preliminary hearing of John Longdon, charged with perjury by the Nova Scotia Silver Mining Co., in connection with a declaration in regard to the assignment of ores mined on the leased Peterson Lake property, came off yesterday before Magistrate Kingsford.

The facts of the case are as follows: The Nova Scotia Silver Mining Co. has a lease on a section of the Peterson Lake holdings, by the terms of which a royalty of 25 per cent. of the gross values of all ores mined on the ground is to be paid to the Peterson Silver Cobalt Mining Company, Limited.

The trend of the declaration was that only a portion of the ore mined on the leased property had been credited to the Peterson Lake company, and that in particular the silver lead was not kept separate. The declaration also stated that the charges would be corroborated by the former superintendent and head ore shipper of the Nova Scotia mine.

Mr. McEwen, the present superintendent and head ore shipper of the Peterson Lake property, which was represented by R. S. Robertson, but being a preliminary hearing, the defendant did not set forth his argument.

James E. Carr, head ore sorter, said that all ore from the leased section of the Peterson Lake property was tagged "P.L." the property was tagged "P.L." prior to being shipped.

Mr. McEwen, the present superintendent and head ore shipper of the Peterson Lake property, which was represented by R. S. Robertson, but being a preliminary hearing, the defendant did not set forth his argument.

There was no evidence given on the Peterson Lake property, which was represented by R. S. Robertson, but being a preliminary hearing, the defendant did not set forth his argument.

the owner's property is brought to the surface.

All the ore is carefully checked and all shipments verified, so that no error, intentional or otherwise, could take place in consigning the same.

The ore is stored in special bins and the bags marked before they are sent out. The cars are shipped to the order of the Peterson Lake Mining Co. and all money is received by them prior to being credited to the Nova Scotia company.

Cross-examination by R. S. Robertson brought out that there was no person officially connected with the Peterson Lake company on the ground.

Mr. Taylor, superintendent of the Nova Scotia mine up to February last, said that the ore taken from the different stopes was stored in separate bins, and that he was employed during the time he was employed in that capacity. He at no time thought that the ore distribution made by the Nova Scotia officials was unfair, and could not verify the statements sworn to by Mr. Longdon.

Alex. Donovan, mine captain of the Nova Scotia property, under cross-examination, confirmed Mr. Blisky's statement that the Peterson Lake property had no regular official on the ground.

James E. Carr, head ore sorter, said that all ore from the leased section of the Peterson Lake property was tagged "P.L." the property was tagged "P.L." prior to being shipped.

# COBALT--- Otisse Firm and Despite Opposition ---COBALT

## Litigation is Being Used To Influence Market Prices

### Otisse Withstands This Onslaught and Advances Further—La Rose and Other Issues Firm and Higher.

World Office, Tuesday Evening, July 13. Taken altogether the market for Cobalt stocks to-day was decidedly firm, with several advances occurring in the most active issues.

The only opposition at the present time to a rising market comes from a coterie of individuals who are short of the market, and are using every endeavor to depress securities by various reports. Two of the most important mining companies are engaged in suits at present, and it is thought these are brought about for no other purpose than to influence the shares in the market. Despite this fact, however, both of these stocks are holding remarkably well, and in one instance actually advanced to-day against this premeditated opposition.

Under the circumstances no explanation can be arrived at other than that the public are satisfied that the suits are factious and that the securities of the companies themselves are not involved in the contest.

The Green-Meehan bull movement fattened out to-day, the shares declining as low as 14 1/4 cents after a rather weak opening around 18.

Nova Scotia continued the most active stock on the market, and remained about steady. The highest price reached to-day was 67 1/2 cents, but during the afternoon the shares declined and closed at 65.

La Rose made another new high record to-day, selling up to \$8.43. Nipissing was active and stronger throughout, selling as high as \$11.00, a new high record for local markets, and closed firm around that figure.

City of Cobalt was the centre of interest in the lower-priced stocks, opening around last night's close and selling up over ten points during the day on news of a rich strike on the company's property. There was some realizing by holders, but all offers were freely taken and the shares closed strong at 47.

Peterson Lake and Otisse were both moderately active and higher, Otisse selling up to 45 1/2 on the morning board.

Temiskaming was not so active as of late, and remained about unchanged. Beaver was quiet and closed steady at 29 1/2, with little stock in the market at that figure.

At the close the market was firm.

Price of Silver. Bar silver in London, 23 1/2 oz. Bar silver in New York, 51 oz. Mexican dollars, 42.

New York Curb. Charles Heath & Co. report the following prices from New York: Nipissing closed at 11 to 11 1/4, high 11, low 10 3/4; Buffalo, 2 1/2 to 3 1/4; Bay State Gas, 3/4 to 3/8; Colonial Silver, 3/4 to 3/8; Cobalt Central, 28 to 29 1/2, high 28 1/2, low 11-18, low 1, 10 1/2; McKinley, 8 1/2 to 8 1/4; Otisse, 45 to 46, high 45, low 44, 15 1/2; Silver Queen, 23 to 24, 300 sold at 24; Silver Leaf, 12 to 14, 1500 sold at 12; Trethewey, 13 to 14; Yukon Gold, 4 1/2 to 4 3/4; La Rose, 8 1/2 to 8 3/4, high 8 1/2, low 8 1/4.

## Few Opportunities Greater Than This

A property considered by experts to be "the best in Southern James, the Treasure Township."

# THE GLADSTONE MINES LIMITED (NO PERSONAL LIABILITY)

Capital \$1,000,000, divided into 1,000,000 shares of \$1.00 each, of which 500,000 shares have been issued in part payment for the mining claims, 500,000 shares are now being offered at \$1.00 per share. The company possesses eighty acres of valuable silver land in the Treasure Township—Montreal River district—for which adequate working capital is now sought.

**A** FACTOR of the utmost importance for the successful conduct of any Company is the Board of Directors. That the affairs of The Gladstone Mines Limited (no personal liability) will be conducted in a sound, conservative, business-like way, will be conducted under a study of the Directorate, which includes some of the most successful business men of Toronto.

**I**N all the range of promising mining propositions there are none that have offered a more encouraging outlook than this. The properties have undergone the most searching inspection by several mining engineers and have been declared to be "the best in Southern James Township."

**Location**  
The Gladstone Mines, Limited (no personal liability), properties are located in Southern James Township—within two to four claims of such mines as the Cleaves, recently sold for a very high figure; the Devlin, one of the best finds in James Township, a half interest in which sold for \$250,000; the Lucky Godfrey, for which it is understood \$1,000,000 has been offered and refused; the Marcell, on which recent finds are reported that class it with the richest mines in the whole north country, while just across the river is the famous Gavin Hamilton, on which very rich finds are just reported. The character and formation of the Gladstone properties are identical with all of these.

**Shipping Facilities**  
The properties are located within one and one-half claims of the Montreal River, which provides splendid winter road facilities. A road runs through the property to Charlton, the present terminus of the T. & N.O. Railroad. The property is well timbered.

**Prospects**  
With nineteen veins—some of splendid promise—the prospects are unusually good. The properties lie in the richest part of James Township, and the consensus of the reports of the various examining engineers has been that the veins are far richer than any outside of the greatest Cobalt properties.

## FOUR IMPORTANT VEINS WITHIN TEN DAYS

### Remarkable Record For Discovery Recently Made on the Nova Scotia Property.

Messrs. Warren & Crowl had the following from Cobalt yesterday: The successive discoveries of four important veins, silver bearing, on the Nova Scotia Cobalt, within ten days, is the most remarkable record ever made in the history of the industry. The first vein, the "Bilsky" was found about 100 feet east of the office. The new cut in the vein, which has now been uncovered for 90 feet, a cross vein was encountered on July 10, showing in the intersection two to three inches of rich ore. The third vein was located the same day, which has not been sufficiently deep to ascertain its value, but looks promising. On July 10 a fourth discovery was made. In a trench about 100 feet from the vein of amethyst and silver, about three inches wide, was located, which apparently will connect with the other veins. As these four veins are exceedingly rich on the surface, a large amount of low grade ore should be developed in addition to the high grade. A shaft which is being sunk at the intersection of the "Bilsky" and east and west veins, at the depth of 100 feet, shows eight inches of silver and calcite. This shaft will be continued to the 100 foot level on the main working shaft and connected with the main vein. It is expected that the veins are not subject to a scotia.

## IS A WORK OF ART

### Attractive Folder of T. & N. O. Railway Just Issued.

In these days of railway folders something of the ordinary type is a novelty. The style is very much appreciated. One of the most interesting booklets that have appeared this season is the "T. & N. O. Railway" which has been sent out by the railway commission. The booklet contains a complete description of the line and also very instructive information concerning the Northland as a mining country and "Sportmen's Paradise." A great deal of credit is due to the commission for the good taste displayed in selecting this folder.

## NOTES FROM THE MINES

### Coburn's Discovery at Bloom Lake—General News.

Coburn's discovery at Bloom Lake has caused a rush into that district. The find is one of the most important of the season, and a \$40,000 syndicate was formed on the strength of it in one day.

### The Silver Age people have purchased claims at Clear Water Lake, bringing the total acreage up to 280.

### Zimmerman's discovery at Bloom Lake has located four claims at Elk Horn. He has silver on two of them.

### The new Church of England at Elk City ordered an organ some weeks ago. It had not been delivered up to the end of last week, and the congregation are joining in the general grudge against the steamboat companies.

### BAXTER WANTS THE HOTEL

Gowganda Hotel is Now in Demand.

W. M. Baxter, who is a principal partner in the Gowganda Hotel, which has been placed in the hands of a receiver, states that he is willing to sell out his own interests or take over the whole business. He was willing to put in more capital when it was required, but his partners were not, and this led to the receivership.

### STRIKE ON CITY OF COBALT.

A wire from Cobalt this morning announced the discovery of a very fine vein in the City of Cobalt property from diamond drilling. The wire at the same time stated that the company has two cars of ore bagged which will be shipped this week. The advance in the stock at the Toronto market to-day was due largely to Cobalt buying, the orders being sent from that centre to this market.

## IMPORTANT! Watch for Announcement Which Will Appear in a Few Days
