In view of the increasing demand for men to serve the empire one cannot escape the question, what is my personal relation to the great struggle for freedom that is now on in the world? Ever since the outbreak of the war, I have tried to do my bit as time could be found amid the many duties of this pastorate, and I had hoped that it would not be necessary at any time to leave the pulpit to take up arms. But as the months have gone by, bringing no ecisive victories to our armies, it has become increasingly clear that the supreme duty of every able-bodied single young man is to equip himself for military service if he desires to have the title of manhood. I have offered myself to the 109th Regiment and have been given a commission with the temporary rank of captain. As soon as circumstances will permit, I intend to qualify for this position. "How Easy to Get Better Milk"

The Farmers' Dairy Co. was formed to provide you with a better, purer milk.

All our farmers are shareholders in the company. For this reason they have a vital interest in seeing that the Farmers' Dairy sells you better, cleaner, fresher, richer milk than any other dairy.

And they DO see to it!

Right here in Toronto they have built the real wonder dairy, with white, glistening walls, gleaming metal work, and huge windows letting in floods of germ-destroying sunlight. Every process—sterilizing of bottles and cans, pasteurizing, cooling and bottling the milk—is effected entirely by machinery.

It's so very simple to get this better milk—a card, call, or phone message will bring our driver to your door every morning. Don't delay any longer, it's better milk—the price is

HOW TO MAKE THE SOX FOR THE WORLD'S DAY

Read the Instructions Given the Article Which is Printed Today.

DO NOT SEND IN MONEY

If You Can't Knit, Buy a Pair of Sox or Some Wool.

Many enquiries have been received during the last few days at the "Sox Day" department of The World regarding the correct and most simplified instructions for knittling. Daily, between the hours of 12 and 5 p.m., a number of expert knitters are at the "knitting room," fourth floor of The World Building, 40 West Richmond street, for the purpose of helping all beginners and amateurs who are anxious to join in the big campaign for sox "for the boys in the trenches."

For the convenience of those who are not able to come to The World, the following instructions and useful particulars, copied from the official bookiet on "War Work," issued by the National Relief Committee, are given:

A "any sock" should measure as follows: Length from top of sock to bottom of heel, 14½ inches. Length of foot, 11½ inches. Length of ribbing, 4½ inches. Length of leg to commencement of heel, 12 inches.

Six to seven ounces of three-ply wheeling or four-ply fingering, 36 or 37 strands, four steel knitting needles, No. 13, are the materials required to make the large-sized sox, full instructions for which are given herewith:

Cast on 68 stitches; rib 4½ inches, 2 plain, 2 purl: knit plain 7½ inches, (12 inches in all).

Heel.—Knit plain 34 stitches on to one needle; turn, purl back these 34 stitches; turn, knit plain: repeat these two rows (always slipping the first stitch) sixteen times (17 in all).

With the inside of the heel towards you, purl 19 stitches, purl 2 together, purl 1.

Knit plain until the foot (from the back of the heel) measures 9½ inches.

Toe—Divide the 69 stitches between the 3 needles, 23 on each, 1st row: knit together 1st and 2nd stitches on each needle, 2nd row: knit together 2nd and 3rd stitches on each needle.

3rd row: knit together 2nd and 3rd stitches on each needle.

And so on, beginning again with 1st and 2nd stitches after reaching the last stitches on each needle. Decrease to 9 stitches. Draw wool thru stitches, and darn in carefully.

For any required information phone Main 5308, "Sox Day" Department.

Donations of money should be sent to Wm. Armstrong. The World Office, marked "Sox Day." Mr. Armstrong will act as treasurer of the day. But The World wants sox, and would prefer that anyone who cannot knit and would like to do something would buy a pair of sox or wool and send it in. Money is not wanted particularly, but sox are.

Argonauts 4 Battery - 3

Canadian League Will Continue Baseball

ARGONAUTS AGAIN WON IN OVERTIME PERIOD

Battery Scored First in Extra Time-Then Argos Came Back With Two Goals.

The amateur hockeyists certainly supply the fireworks in the season's hockey. Saturcay night's fixture was ano.hor overtime affair, in which argos again proved the best finishers and defeated the 40th Battery by a score of 4 to 3. The tie score at time was 2 to 2.

The Arena was filled and a big proportion of the crowd were khakd clad supporters of the artillery. They raised the roof when the Battery team tied it up with one minute to go in the third period. When the soldiers jumped in the lead in the first overtime period and looked winners all over, the soldier supporters went wild at the prospect of leading the district.

Vic Gilbert again demonstrated that he is the greatest goaler in the amateur ranks. There is no doubt about the fact that with an ordinary net guardian the Scullers would have lost. For the last habt of the third he army bombarded him with high ones, low ones, lobs and sizzlers, and he cleared them all but one that Pethick sent from the side. Knight and Laflamme kept the Battery shooting from well out, and each notched a goal in overtime. Farr at centre was also effective.

Jupp was the busy boy for the Battery, and checked the oarsmen all the way. Pethick's rushes always went at least to he Argo desence.

Individually the Battery looked the better team. Probably their lose work around Argos' net cost them the game, as much as anything else, and they wasted a lot of shots against the end of the rink. The line-up:

Ottawas Come to Life Win on Canadien Ice O.H.A. GAMES TODAY

MONTREAL, Jan. 15.—Ottawa defeated Canadiens, 5 to 2, here Saturday night, outplaying the Frenchmen at all stages of the game. Play was fast and interes ing from the beginning, with brilliant end to end rushes by the line of each of the teams. Art Ross was a clever defence for Ottawa, while Prodgers did useful work for the Canadiens. One of the features of the game was the rejuvenation of Billy Glimour, who was with the Ottawas, and scored one of their goals. Little rough play was indulged in, and Corbeau of the Canadiens was the only one who committed a deliberate foul. He cross-checked Nighbor over the face, and the Ottawa player had to retire for a while to recuperate.

Canadiens (5): Goal, Vezina; defence, McNamara, Prodgers; centre, Lalonde; wings, Pitre, Laviolette.

Ottawas (2): Goal, Benedict; defence, Roes, Merrill; centre, Duford; wings, Darragh, Boucher.

Substitutes—Ottawa—Gerard, Shore. Canadiens—Fournier, Poulin, Arbor, Berlanquette and Corbeau.

Referee: Pulford. Judge of play: Brennan.

SCORED FIVE IN OVERTIME.

Pickering College lasted till overtime in their junior O.H.A. game Saturday afternoon in the Arena and then blew. It was 1 to 1 at full time, and then St. Andrews ran in five, the game ending 6 to 1: Teams:

St. Andrews (6): Goal, Willoughby; defence, Whitaker, Guill; rover, Wallace; centre, Watson; left, Bole; right, Cameron eron.
Pickering College (1): Goal, Lawrence; defence, Roger, D. Pugsley; rover, Henderson; centre, Wight; left, Cody; right, Annandale.

And Beat Torontos

QUEBEC, Jan. 16.—The Torontos gave Quebec a run for the decision at the Arena last night, the bulldogs winning out by 5 to 3 in a game which proved interesting to the 2500 or more spectators present, but which was not produc tive of the best N.H.A. orand of hockey. During the first period the tail-enders skated Quebec off their feet at times, and Paddy Moran gave a splendid exhibition in the net. The visitors excelled in combination work, while Quebec did not play up to the form which they exhibited here against Wanderers and Canadiens. Malone played fine hockey for Quebec, and so did Moran. Keats was the pick of the losers. The game was in doubt until midway thru the last period. Teams and summary:

Toronto (5): Goal, Lesueur; defence, McNamara, Cameron; centre, Keats; wings, C. Denneny, Cy. Denneny.

Quebec (3): Goal, Moran; defence, Mummery, Hail; centre, Crawford; wings, T. Smith, Marks.

HOCKEY GOSSIP.

Moose Heffernan played for the Crescent A.C. against Boston A.A. at New York on Saturday when Boston won by 4 to 3. Ottawa Citizen: The Torontos have offered Skene Roman to the Ottawas for \$600. This the Senators refused to pay. Mamager Shaughnessy and Secretary Rosenthal both declared that they did not want Roman. President Bate, however, said that Skene might prove a valuable man in the present crisis, so there is also a probability of the former Ottawa boy being in uniform with his home town team before long. He went east with the Torontos last night, but may remain over at Montreal. Skene is dissatisfied with affairs at Toronto, and is anxious to play with Wanderers or Ottawa.

An Ottawa despatch says Billy Gilmour, star right winger of the famous Silver seven, will line up against the Wanderers in Monday night's game at the Arena. Gilmour played about 25 minutes in the Ottawa-Canadien game on Sautrday night and shaped up good, scoring the fifth goal for the Senators. Gilmour is not yet in the best of condition, but is traveling pretty fast, and Coach Smith announced tonight that he would be used against Wanderers.

Gordon Meeking was given his release by the Ottawa club on Saturday afternoon before the team left for Montreal. Meeking was suspended by the club after Wednesday night's game at Toronto, and as he has not rounded into shape the Ottawa club complied with his request to be released.

Skene Ronan of the Torontos is in Ottawa, and states that he has been indefinitely suspended. Ronan was a spectaror at the Ottawa-Canadien game. definitely suspended. Ronan was a spec-tation at the Ottawa-Canadien game. In view of their win on Saturday, Ot-tawas are an even money choice with Wanderers tomorrow night.

Rolled Three Hundred

WINNIPEG, Jan. 16.—Bowlers in Win-nipeg had a sensetion at the Saratoga alleys that has not been furnished since Rososco's 300 in 1908. George Laing of the Saratoga team, in the final game of the match with the Garrys, roiled a perfect score, 300, which, being roiled under league conditions, using alternate alleys, with foul line judge, is a legal perfect score, and will be entered as stich in the records of the International Bowling Association, with which the Winnipes Senior Clay League is affiliated. Additional credit is attached to the feat by the fact that new pins were used. Incidentally the Saratogas took three straight from the Garrys. Scores:

It is doubtful whether such a spiendid boxing program has ever been offered to Toronto fans. Certain it is that in no other city in Canada could such a great aggregation of first-class boxers be got together into one ring—and to deliver the real stuff, too. The outstanding bout, of course, is between Frank Moran and Bartley Madden. The former is undoubtedly one of the greatest heavy-weights of modern days. Whether he is the best in the world will be decided when he clashes with Jess Willard, heavyweight champion of the world, in the near future.

cided when he clashes with Jess Willard, heavyweight champion of the world, in the near future.

The likelihood is that Moran will not be seen in public again following his appearance in Toronto until his bout with Willard, so that his visit here is all the more auspicious. It is not every day that Toronto has a chance of seeing a contender for the heavy-weight championship in action, and if only for that fact it is expected that a record crowd will be present at Riverdale Rink on Friday night. But there are many sportsmen in Toronto who are not followers of boxing but who are going to see Moran just to show their appreciation of the splendid qualities of the big boxer, who has generously offered to perform here free of charge for the sake of the Irish Regiment. Every person that books a seat at the rink is putting a little more into the funds of the Irish Regiment, which will go towards recruiting, and everybody present at the rink on Friday night will be deing a bit towards the general cause. Moran will be doing a big bit, and Torontonians intend letting him see how much they appreciate it.

Two Heats Each-Pace a Gift

MONTREAL, Jan. 15.—(Staff Special.)

The ice racking at Delortmer Park on the third day was a Little more exciting than on the two previous days.

Again three races were carded, a local 2.55 class trot with five entries, 2.17 d. 5. 3- 0.0g with five entries, and the 2.14 trot with six scoring for the word. In the nine races in three days favorites have won all but two races, and the 2.14 trot has a good chance for the race on Monday. In the local trot today Lina Peers, b.m., by Peter the Great, owned by Dan Donnelly of Montreal, was made almost a prohibitive favorite, she seding in the auctions for \$20 and the balance of the field for \$8. She won in straight heats in 2.24½.

2.24½ and 2.23½.

The 2.17 pace was a gift for Day Spring, br.h., by Moko, owned by W. J. Parks of Belleville, and driven by Nat Ray, one of Canada's most successful reinsmen. He won in straight heats, and at no time was he extended at all. The first heat was won in 2.16¼, with Dick Bison, b.g., by The Eson, second each time. A few tickets were sold on Day Spring in the auctions but it was impossible to fill the field end. Later he was barred in the betting and Daisy C. was made the favorite, but the best she could do was get fourth money after losing a shoe in the first heat. The last two miles were in 2.19½ and 2.13½, with Day Spring always in front.

The 2.14 trot was the most exciting contest since the opening of the meeting, two horses having two heats each when darkness prevented the finishing of the race. Indian Hill, b.g., by Bingen, a full brother to the Greent Unian (156), owned by Z. Corbeau, Montreal, was made a red hot favori'e, selling in the anotions for \$40 and the field for \$18 and \$20. He won the first heat in 2.23½, with They Judge br.g., by Spotwood, from Malone. N.Y., a bang-up second. The second meeting the won the first heat in 2.23½, with The former getting the very lear of the fourth heat was called before sunset. The Judge won it after a very herd drive all thru the stretch with Magneto. A. B. Martin's Hopped trott

The temptations of good money for p'aying soccer in Scotland has proved too much for many of the English players, and a large number are crossing the border to sign on for Scottish League clubs. The latest transfers are James Hay of Newcastle United, who has been captured by Ayr United, John King of Newcastle United to Third Lanark, who have also got McLean, the Sheffield Wednesday crack. Phillips of Sunderland goes to St. Mirren, and James Marshall of Bradford City will turn out at centre forward for Partick Thistle.

Canadians government of Montreal will be placing the alleged non-party system ought to be careful about believing which at present exists there, as also in anything that seems to impugn the Toronto and other places. One of the justice and fairness of any steps taken curious and rather absurd assumptions by the British Government. There is of municipal government in Toronto no doubt that the intention in all cases is that it is entirely non-partisan. is to be just and fair, and while oc-Nominally it may be so, but actually casionally it may happen that some inthe provincial and the Dominion elec- dividual suffers, in almost all cases tions are not fought out on more only what is fair and right has resultbitterly partisan principles.

We do not need to go back a year considered it was impossible to have affords too many loop-holes for those sponsible outwardly for the nomination of a mayor for Toronto it is probable that another than Mr. Church would have been selected, for a party nomination in Toronto practically means election.

Montreal has monkeyed with the "non-partisan" system until the affairs of the city have fallen into such a rotten condition that any way out seems to be an improvement. Those was prefer the party system with all its disadvantages must have had a deep its disadvantages must have had a deep the seems to be an improvement. Those a horror it would be in England if the Hare-Spence system, they would have it, but they don't, and the government is their own. sense of the failure of the present method, if nothing else. It may be that Toronto must have a similar degrading experience before any radical change occurs in the nature of city government.

United States such hope has entirely disappeared, altho the open and been tried in many places across the border and has not been successful. The manager plan has also been tried, do the simple duty of casting a ballot any more effective.

There are several variations on the so-called commission plan, but they slacker on the ballot is full brother to all fail in not providing the necessary selective machinery. Under the socalled commission method anybody can run for the commissionerships, and the manager plan is much the same. Direct election is the obstacle over which they come to grief. The best man for an executive position cannot be elected by popular ballot. Almost any body of men elected to choose a good executive officer can choose a better man, and probably the best man, when the general body of the electors would utterly fail to do so.

We regard the matter as on the same basis as in the case of the shareholders of a company, who elect directors, who appoint officials. The electors are the shareholders. They could elect a council or selecting body, who would then proceed to choose the officials who would be responsible for the

real work of government. The mistake of city government is

The Toronto World in treating it in any other way as a big business. Any merchant who mixed his business up with politics mixed his business up with politics rould go bankrupt in a little while. This is the real flaw in the present Ontario system of municipal governnent. Until the provincial government take a hand in regulating it and insist that it be treated as business it will probably never be remedied.

Grading Ontario Butter

An unpleasant jog has been given to the Ontario Department of Agri-culture by a Dominion official, who has pointed out that the prairie provinces are excelling the Ontario standards in dairy products by better regulations. Butter is graded according to quality in the west, while in Ontario all butter looks alike to the government. As a consequence a premium is placed upon inferior products, and this inevitably tends to lower the standard and the reputation of the province in this class of merchandise. Good butter is paid for at a lower rate, while poor butter gets a higher rate han it should.

Quebec has adopted the plan of gradng as well as the western provinces and we think it is clearly up to Farmer Duff to establish a grading department in the butter business.

the increased merchant marine Ancient and Picturesque. Bergen is one of the oldest and mos picturesque towns in Norway, and it ranks first of the Norweglan shipping centres. It is well built on a hilly pen insula, and is situated at the end of a deep bay of the Atlantic 190 miles northwest of Christiania. Thru Bergen passes a large part of the foreign trade of Norway. Fleets of vessels bring the produce of the northern fisheries to the seaport.

front, shouts and bursts of song showing there is no lack of gaiety among the departing soldiers. Continuing eastward, past the historic battlefield of Valmy, one of the early results of the present war is to be noted in the ruins of Clermont en Argonne, where ioday the children of the few remaining residents play at war games within the sound of the cannon at Vauquois. At Notre Dame de L'Epine, the Church of Notre Dame, built in the fourteenth century, and in many respects similar to the cathedral at kneims, stands out prominently from the ruins. Unlike the Rheims Cathedral, it is undamaged.

Verdun Position Important.

The Verdun forts are most important strategically. Observers on constant guard have a view of the plain of the Woevre and of little villages dotting the territory separating them from the enemy positions. Entering a tunnel lighted by candles, one reaches the place where the guns are manipulated. A storeroom adjoining is filled with melinite shells, giving some idea of the damage which could be inflicted. Namur and Liege have demonstrated what reliance can be placed on fortified defences against the heaviest.

modern guns.

Barbed wire trenches here, as elsewhere, play a prominent part. This region is well garnished with these protective devices. There has been comparatively little firing from the large guns of the forts, but their moral effect has been considerable.

effect has been considerable.

Enemy's Flags Hoisted.

Proceeding almost due south from Verdun there is direct contact with the German line, as the frequent firing indicates. The Germans are in possession of St. Mihiel, and on Hill 277. where they are entrenched, they have hoisted the German, Austrian. Bulgarian and Turkish flags, which can be seen fluttering in the wind.

"Bad taste," was the comment of a captain attached to headquarters when his attention was called to this.

Tho the Germans possess St. Mihiel, the French believe that by their contituted from the strongly fortified natural positions in this neighborhood they have the upper hand. The first line trenches in this district are very close, but the French have an advantage in possessing positions in the rear of their second and third line trenches, which have the upper hand and dominate those of their adversaries. An advance by the Germans would seem to be impossible against the natural obstacles and the defences, which have been improved unceasingly for six months. A retreat by the Germans is considered equally as difficult as a considered months. A retreat by the Germans is considered equally as difficult as a forward movement, for, it is pointed out, should they attempt to retreat they would risk the fire of the French

WOON WAS WOODSTOCK MAN.

WOODSTOCK, Ont, Jan. 16.—It has been learned here that John H. Woon, a former Woodstock young man, was among those murdered in Mexico last week. Woon was an Englishman, and was employed here as an electrician. He left here three years ago for Houston, Texas, and later took a position in Mexico.

The exhibition of sculpture just closed at the Art Museum in Grange road has been succeeded by a small but very interesting loan exhibit of pictures by the late John A. Fraser, R.C.A. The water colors of English landscape must be seen to be fully appreciated. Their possessors are very much to be envied, but that is as far as one can get, as Mr. Fraser's work never comes on the market. The pictures will be on view until Feb. 19.

IN MINING ISSUES

Interest Chiefly in Porcuping Stocks-Holly Makes New Record.

The mining market at the Standard Exchange was fairly active in the two hour session vesterday, and the volto over 100,000 shares. The active issues were Apex, Jupiter, McIntyre and Peterson Lake. The market generally has a good appearance and any buying orders of consequence would immedi-ately be reflected in an upward move ment. Silver was 1-8 lower than Friday

The chief interest seemed to be centred in the better class of gold stocks. Silver, with the exception of Pete Lake, appeared to be somewhat neglected. Apex was one of the strong, active features opening at 3 and selling up to 3% on the close. Over 42,000 shares of the stock changed hands during the

Hollinger established a high record price, selling up to \$30.50, ten cents higher than the previous high-water mark made Friday. The high price was paid for a lot of 100 shares. The stock closed at \$30, and over 800 shares were sold.

Big Dome was stronger moning at

Strength was shown by Jupiter, and 14.000 shares changed hands. The stock opened at 22 and advanced to 22%, closing at the high point.

There was an inclination in McIntyre to ease off slightly after opening at 106, a point up from Friday's close; it sold down to 103, but closed stronger at 104. McIntyre Extension was stronger, selling up to 31%. West Dome, sold at 16%, and West Dome Consolidated at 25.

it sold down to 103, but closed stronger at 104. McIntyre Extension was stronger, selling up to 31%. West Dome, sold at 16¼, and West Dome Consolidated at 25.

In the silver stocks Peterson Lake showed the most activity, but was a little easier in price. It opened at 36, sold up ¼, but eased off to 35½ at the close.

There was only a small amount of trading in Timiskaming, which held about steady between 70½ and 71. Bailey sold at 5, and Beaver from 44 down to 43 1-2. Nipissing sold at \$7.70.

ately active and there was a material broadening out of enquiry. One piece of favorable news Saturday was the declaration of a quarterly dividend of one per cent. by the Brazilian directors, thus placing the stock on a four per cent. basis. The news had little time to get abroad, and only 25 shares of the stock sold at the minimum price of 53. Cement was the most active issue and a further rise was made to 51. Profit-taking was free around 50 and the price receded to 49½ at the close. Bulls on this stock are now calling for the payment of a six per cent, dividend, but this view is by no means general. Maple Leaf had a continuance of strength and closed at 71, a gain of a point from Friday. Steamsnips, General Electric. Steel of Canada and Steel Corporation showed strength, and advances were registered in each. The only activity in the unlisted shares was in Ames-Holden, which sold up as high as 23% for a broken lot, a rise of over two points. Many of the Canadian listed and unlisted will be actively dealt in on the New York curh from now on, and with the broader field for investment a much more active as well as a rising market is confidently expected.

FUTURE PREDICTED

FOR GIFFORD MINE

Hamilton B. Wills, in his weekly market letter, says of the Gifford:

President F. B. Mosure of this company leaves for Cobalt tonight to engage the services of a thoroly experienced mine manager to start aggressive development at the property as cuickly as possible. Adjoining, as Gifford does, Beaver and Timiskaming, and with a large amount of underground work already completed and known to contain ore bodies at depth. I consider this stock the speculative plum of Cobalt.

The fact this property bears the endorsation of such engineers of renown as J. A. MacVichie, mine manager at

Mr. A. H. Daves, of Southern Alabama,
writes: "As few people know of the wonderful opportunities here, my experience
may benefit many. Ten years ago I came
here withcut a dollar, got some free
dend, cleared one acre and planted Satsuma oranges, which are frost proof. In
three years I began selling fruit; that
one acre now makes me an annual prodit of over \$1000. I now have 50 acres
of bearing Satsumas. My three and
four year old trees yield a profit of \$300
to \$400 per acre, and my annual income
is over \$18,000 and growing larger every
year." Any person can get from 5 to 25

MANAGER'S ESTIMATE

Need of English Capital to Finance Porcupine Mining

Industry. The recent offer of \$2,500,000 for the various interests of the Canadian Mining and Finance Company, Limited, has attracted considerable at-

The business of the National Cash Register Co., which up to the present time has been handled in Canada as a branch of the parent company at Dayton, Ohio, will be incorporated and will be known as the National Cash Register Company of Canada, Limited, according to the last issue of The Canadan Gazette. The capital of the cempany is \$1,000,000, which is fully paid up.

The management of the Canadian ed, has attracted considerable attention among mining men. Those close to the company say that they would not consider an offer of even twice that sum.

It is well-known that over fifteen months ago P. A. Robbins, the general manager, came to the conclusion that there was \$100.000,000 in gold above 675 feet in the Acme, Hollinger and Millerton. Since then a diamond drill has proved the existence of the same formation to a vertical depth paid up.

The management of the Canadian Corporation will be in the hands of Mr. H J. Daly, who has been manager of the Canadian branch. Mr. Daly will be managing director of the new corporation, and his assistants are all Canadians, Mr. W. J. Irvine being assistant manager; Mr. C. H. Rooke, office manager, and Mr. W. L. Tobias, factory superintendent. same formation to a vertical depth of 2100 feet, and there is every probof 2100 feet, and there is every probability that it will continue to the lowest practicable mining depths.

The Hollinger Acme and Millerton have common vein systems if we except the easterly 40-acre claim of the Hollinger. This has not been worked, and physically it belongs to the Hollinger extension, a narrow strip running east 100 chains and nowhere more than 20 chains, or a quarter of a mile wide. factory superintendent.

The National Cash Register Co. is one of the best known and most highly organized industrial concerns in the world, and its entire capital and ability is devoted to the creating and

more than 20 chains, or a quarter of a mile wide.

Between the Schumacher and the Porcupine success it is not over 15 chains in width and the ground here is exceedingly well sheared. But to meet the continuation of the vein systems of the Vipond a shaft was started on the extension 20 chains or so west of this great shear, and even here excellent ore is being found at a depth of 150 feet, and there are at Porcupine many other properties Porcupine many other properties which will yet make good. But British capital moves slowly at first and in fact in a few cases it withdrew at least temporarily from the field.

The Consolidated Gold Fields of South Africa gave up the Rea, now considered a very promising property, in fact, on the same ore zone as the Hollinger. Rewick, Moreing & Co., with nearly 2000 acres scattered thru Tisdale and Deloro, went to California, and their success there has been rather limited. They are soon expected back in Porcupine. It is well-known that the British Government specially requested the mine owners known that the British Government specially requested the mine owners of the Transvaal to increase their outputs during the war, and recently The Statist. London, has had a very appreciative article on Porcupine, and there are several other signs that control will soon be moving free from and there are several other signs that capital will soon be moving free from the mother country to assist in the development of our rich gold areas. MONTREAL GRAIN MARKET. MONTREAL, Jan. 15.—There was some demand for Manitoba spring wheat and barley from overseas buyers today, and. as the prices bid were in line, sales of a few odd loads were made. Demand on spot continues good for oats, and a fair amount of business is doing in car lots at firm prices. Flour was unchanged, with a steady trade passing for local account.

MARKET DAY WAS SLOW BECAUSE IT WAS COLD

Basket Section Crowded, Trade Was Exceptionally Slack in All Lines.

PRICES TOOK A DROP

Chicken Sold in Fairly Large Quantities, and Was Not in Great Demand.

The wagon section of the St. Lawrence Market was again only about half-filled on Saturuay rast, the frigid atmosphere which prevails in this part of the market during the winter months preventing many from coming in, as it is so cold it is not fit for man or beast to stand in for any length of time, and certainly should be heated.

The baske: section was quite crowded, but trade was exceptionally slow in nearly every line, with a consequent decrease in prices.

Onickens, which have been rather scarce on the retails during the week, and soid at 23c to 25c per lb., were brought in in fairly large quantities, and so proved a slow sale at lower prices. A few sold at 25c per lb., then 24c, 23c and 22c, while many of first-class quality closed out at 20c per lb., while two choice ducks brought in by Mrs. G. Bowes, Thornhill, brought the exceedingly high prices of \$1.60 and \$1.75 each, about 30c per lb., as they weighed around six pounds each. The rew turkeys brought in soid at from 23c to 30c per lb., and fowl at 17c to 20c per lb.

New-laid eggs: again declined. They started out at 55c per dozen, declined to 50c, then 45c, and closed out at 40c, the bulk selling at 45c and 50c per dozen, and 36c per lb., the bulk selling at 45c and 50c per fb., 37c and 36c per lb., the bulk going at 35c per lb., while quite a quantity sold at 34c, 33c, and a few closed out at 30c per lb., and 10c per lb., while quite a quantity sold at 34c, 33c, and a few closed out at 30c per lb., The bulk selting at 35c per bbl., and Pippins \$3.75 per bbl. Leaf lettuce sold at three for 10c, green onions at two for 5c, or five for 10c, while carrots, onions, etc., brought their usual prices.

There were eight loads of hay brought in selling at unchanged quotations.

WHOLESALE FRUITS AND VEGE-

Oranges and grapefruit have both advanced in price on the wholesales, navel oranges now selling at from \$2.50 to \$3.75 per case, and Florida grapefruit at from \$3.50 to \$4.50 per case.

Strawberries were easier in price Saturday, as some of the wholesales did not want to hold them over Sunday. They sold at 30c to 50c per box.

Hothouse tomatoes continue to be very scarce, the No. 1's selling at 27c per lb.

Casaba melons are on the market again, selling at \$7.50 per case of 24.

Malaga grapes are very high-priced, bringing \$5 to \$10 per keg.

H. Peters had a car of cabbage, selling at \$1.25 per bbl.

California celery is scarce, and is expected to advance in price, the small quantity now on the market selling at \$6.50 per case.

Potatoes and also expected to again advance in price today.
