these petitioners? No Conclusion Reached. Sir George said that he had not the petitions before him, but he understood that they represented to the government that the best way to control disposition of mickel was to keep it in the country and under the immediate supervision the Dominion Government. He could only say that, as yet, no conclusion had been reached respecting either the export of nickel or the desirability of the gov-ernment going into the business of refin-ing. During the progress of his estimates,

ing. During the progress of his estimates, Sir George gave some interesting infor-mation to the house respecting the pres-ent and future work of the trade and commerce department. The war, he said, of course had greatly disturbed business and hampered the work of our trade commissioners. Our agent at Hamburg, of course had greatly disturbed business and hampered the work of our trade commissioners. Our agent at Hamburg, Mr. Just, had been interned until Feb-ruary, when he was exchanged for a Ger-man consul who had been interned in South Africa. During his stay in Ham-burg Mr. Just had been accorded con-siderable personal liberty, had been al-lowed to read the newspapers and meet a number of people, and yet he did not learn until he got to Rotterdam that any Canadkan troops had arrived in England. This illustrated the rigid censorship in Germany. After Bussian Trade

This illustrated the rigid censorship in Germany. After Russian Trade. Sir George said that Mr. Just would soon proceed to Russia and Siberia, and upon his return would organize a pro-paganda to capture the Russian trade. There were great openings for trade, not only in European Russia but also in Siberia, a country much resembling our Canadian West, and rapidly filling up with people. There railway construction was under way already, and our manufac-turers were doing some business in Rus-ia, especially in agricultural implements After the war is over he anticipated a Ster Withed Laurd. With a contained the streat development in our Russian trade. Casualties. Almost every day word is received in this city of Hamilton men being killed or wounded while in action against the Germans in France. This week's casualty lists contained the names of two Hamilton men who were killed and of one being injured. Mr. and Mrs. Wm. Campaign, 410 Barton street, received word that Pte. Jack Turnbull, who had resided with them previous to his enlistment had

After the war is over he anticipated a sreat development in our Russian trade. Sir Wilfrid Laurier quite asreed with this, and thought the time would soon come to organize a steamship service be-tween Prince Rupert and Vladivostock. The lumber business in Canada, the minister stated, had been greatly de-Hamilton three years ago from Sim-pressed, especially on the Pacific Coast. Building operations in the northwest had almost ceased, and many British Columbia mills were closed. For the benefit of the British Columbia lumbermen he was send-ing an agent to visit China, Japan, India, South Africa and Great Britain. China was almost a treeless countrd, and should furnish an inexhaustible market for Cana-dian lumber.

 dian Westinghouse concern prior to his enlistment.
 Mrs. Hardy, 37 Harvey street, has received word that her brother, Pte. Gaynor, has been killed in action. Pte. Gaynor came from India with a crack regiment, which was used to strengthen the Princess Patricias. He had 21 years of military experience and was a fine soldier. Mrs. Hardy has another brother on the firing line.
 Pte. Robert MacFarlane, son of Mr. and Mrs. John MacFarlane, 52 St. Matthews avenue, has been seriously injured in the foot and is now in a French hospital. Pte. MacFarlane was a former member of E Company, 91st Canadian Highlanders, and when war broke out he enlisted with the quota from that regiment.
 M. Davis of this city has been appointed as Hamilton's permanent auditor. The appointment was made by the city council, after the recommendation of the post of the context thete. Was amost a treeses country, and should furnish an inexhaustible market for Cana-dian lumber. **Prospects Not Bright.** Asked about the South American trade the minister admitted that the prospects were not very bright. The war not only disorganized steamship service, but bank-ing and financial conditions existed which made trade with the South American countres almost out of the question. The U. S. was up against much the same difficulty. South America had had her supply of money shut off by the war and al. her credits were greatly disorganized, especially as nearly all the South Ameri-can countries had declared a moratorium. Then, too, the Germans had established a system of long credits which had prov-ed embarrassing. With the German trade cut off he thought this feature could be eliminated. However, before much could be done in the way of trade with South America banks would have to be estab-lished and also a direct steamship service.

auditor. The appointment was made by the city council, after the recom-mendation of the soard of control that Fred, Todd, of Toronto, be given the position, and a later recommendation that A. F. Dowie, also a Hamilton man, be selected: While Mr. Davis did not place his application for the position until Tuesday, only a few of the mem-bers of the council opposed him. He will receive \$2,500 per year, with an annual increase. DANCING AND CABARET WILLIAMS CAFE

will receive \$2,500 per year, with an annual increase. Colquhoun a Prisoner. Lieut. A new privilege applicable to all Imperial Life policies permits the assured to specify that the proceeds of his insurance shall, on maturity be payable in monthly, quarter-yearly, half-yearly or yearly instalments for 20 years certain, and so long thereafter as the beneficiary named shall live.

While in the calculation of the instalments a definite rate of interest is guaranteed, such payments in the case of participating policies will be increased by ahar-ing in the interest which the Company earns in excess of this guaranteed rate.

Therefore, by means of an Imperial policy you can provide a definite, dependable, regular income to care for your widow as long as she lives, and for your children until all of them are at least old enough to be self-supporting.

But this is only one of the many advantages of this valuable new privilege. Many others are explained in our booklet "Safeguard Your Legacy." Write for a copy to-day. It's very interesting, and—it's free.

the guests of the Ven. Archdeacon and Mrs. Cody, Jarvis street.

Mrs. Arnold Ivey is going to New York after Easter.

Mr. and Mrs. Scott Waldie and Mr. and Mrs. A. H. C. Proctor left on Thursday for New York.

Mirs. Reynolds, who has been stay-ing with her daughter, Mrs. Ellwood Moore, in Edmonton, left on Saturday for California.

Mrs. Norman Gianelli is returning home to spend the Easter holidays, on leave from his regiment in Ottawa.

The marriage took place recently in St. George's Church, New York, of Capt. Clifford Payne, R.N.R., young-est son of the late Mr. Henry Fre-mont Payne of the Department of In-dian Railways, and Bedford, England, to Kate, daughter of Mr. and Mrs. Henry Picker-Innes, Hamilton.

Menry Picker-Innes, Hamilton. Mr. William D. Wilson has issued invi-tations to the marriage of his daughter, Lila Florence, to Mr. Thomas Wilbur Best, on Saturday afternoon, April 24, at s o'clock, in the Bloor Street Presbyter-ian Church, and to a reception after-wards at 291 St. George street. The marriage took place very quietly, on account of the war, in the Roman Catholic Cathedral, Westminster, London, of Captain Michard R. G. Van Cutsem, th Battalion, the Prince of Wales' Leinster Regiment, son of the late M. Edouard Van Cutsem, Chateau Blecken-vyler, Marle Alter, Belgium, to Mary, twin daughter of Sir John Armott and Lady Arnott, 12 Merrion Square, Dublin. . Beer is a Temperance Drink

SUNDAY MORNING

Beer, ale, and stout are low in alcoholic strength. They are mild and wholesome, a person would have to drink them to gluttonous excess before he could become intoxicated by them.

As Mr. David Lloyd George, The Chancellor of the Exchequer in England says:

"Beer in alcoholic strength is just a little above ginger ale."

Throughout the world, and throughout the history of the world, mankind has demanded some stimulant property in its liquid food-even the tea drinker wants it. The desire is material and innocent.

It is not to be crushed as essentially evil, but rather to be guided in such a manner as will eliminate the chances of abuse.

We should, therefore, encourage the use of a beverage which, while providing the desired stimulant, will provide it in such a diluted form as will remove the danger of excess--a beverage which will at the same time contain healthful properties.

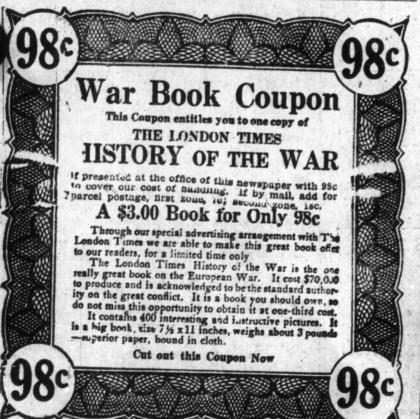

Cosgraves Mild Chill-Proof Pale Ale, Half-and-Half, XXX Porter, and Golden Gate Beer (draught) fulfill these conditions.

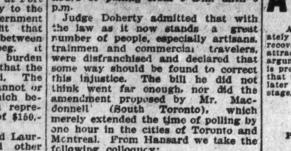

They contain nourishment, they facilitate the digestion of other nutriment; they have tonic properties. The alcohol in the Cosgrave beverages is present in only just sufficient quantity to entitle them to rank as alcoholic beverages at all.

Cosgraves Beers, therefore, are preeminently the temperance drinks.

> Ask for Cosgraves at any hotel, or telephone your dealer for home use.

Nebraska points. Also Council Bluffs, The great Cushingoil fields producing about a quarter of a million barrels of high-grade oil per day is within fourteen to twenty miles of our completed pipe line.

If two hundred substantial citizens will remit \$750.00 each for 100,000 shares each, the Company will be able to pay down \$100,000.00 on some of these big producing properties and ex-tend our pipe line to them and then meet future payments direct from the sale of the oil.

The Uncle Sam Oil Company cannot be stopped in its present growth, but with an additional \$200,000.00 of new capital now can accomplish greater results than it could with a million dollars of new capital a few months or a few years ago. Therefore, there is

dollars of pew capital a few months or a few years ago. Therefore, there is a reason why this Company can offer you a real opportunity in the purchase of this stock. Many people believe that in the next ten to twenty years The Uncle Sam Oil Company will be-come the great producing and market-ing concern of the Middle West.

Why not let reason rule and secure

Why not let reason rule and secure a good block of this stock while you can get it? Do not wait until we drill in a great producer and open a for-tune making oil pool, and then expect to secure the stock at even twenty times this special offer. You do not know what the drill will develop in the next ten to fifteen days at this important location where The Uncle Sam Oil Company drill is going deeper each hour. There are so-called wise business men who a few years ago would not have taken the Boston oil pool lease as a gift. to you.

The report on the Boston oil pool shows what has been accomplished on one small lease. We are drilling within five miles of this rich production. in a district where our geologist reports an anticlinal and contends that it is an extension of this Boston oil pool. extension of this Boston oil pool. If we do not strike it big at this lo-cation we will commence developing some other of our many properties. We may hit it big at this location, but it will be too late then for you to se-cure this stock. Better take hold with us now. If we can even develop one eighty acres, one-half as good as the rich Boston oil pool, it will start The Uncle Sam Oil Company on the read to big success, and you will be proud of your good judgment in making the in-vestment.

brief way the purposes and plans of Do not be deceived by the subsidized press that run the big ads for the oil monopoly, but rally under the Uncle Sam flag to help build up a real prac-

SERVICE.

Burst Thru Uzsok Pass. In the Carpathians the Russians have burst thru Uzsok Pass, and are debouching their armies on the plains of Hungary The key note of efficiency in the Modern Hotel is service to the guests. Year by year, patrons demand more in the way of accommodation and con-venience and the Manager of a good Notel today has to be on the look-out debouching their armies on the plains of Hungary. In one week's fighting they have taken \$3,000 prisoners. Height after height in the Beskid nanze has been stormed, the hardy Russian soldiers climbing precipices in the teeth of the fierce fire of the Austrian and German defenders, and turning them out with the bayonet. Nothing seems capable of stopping the Muscovite advance. Disheartened Hotel today has to be on the look-out Hotel today has to be on the look-out for every new improvement which will save time or expense in serving the guests of the House. The Isabella Private Hotel, located at the corner of Isabella and Sher-bourne streets, is one of the best ex-amples in Toronto of this idea. No expense has been spared in any de-partment to expedite service or thet

the Muscovite advance. Disheartened and shattered with Russians gaining the prestige of victory it is hardly to be expected that the enemy will make other than a half-hearted stand partment to expedite service or that will make for safety and convenience. The building is fitted with the latest the invaders. Germany is concerned, and is sending to bolster up the Austrian type of Passenger Elevator and with Automatic Dumb Waiter Service and all rooms are connected with the office by a Private Telephone System and Switchbased The Germans can hardly fail

The Germans can hardly fail be affected by the very necessity mying to defend Austrian soil, but much stress should not be laid on feature of the campaign, for as use the average German .soldier not know where he is fighting. it is upon new formations that Germans will more and more that to rely, and the quality of these must

Near Armament Works. The Russian progress, if it continues fon Hungary, will shortly put them a possession of certain important mament works. These will be of value to the Russians, and of serious ience to the guests, and the fixtures have been selected to harmonize with alue to the Russians, and of serious ors to the Austrians and Germans. As the decorations of the rooms and cor-ridors, making the whole installation the Germans seized the Belgian arms factory at Liege, and turned it to their own use, so the Russians may be ex-pected to seize enemy arms factories one of beauty. Each Room Door is fitted with

dent of the Company was authorized to offer this stock to the independent public.

There is a Crisis in the oil fields at the present time. largely brought about by the Oil and Gas Trust, that is seeking to drive out of the Okiahoma of fields every producer that might reach poly of the Oil and Gas Trust. The great Csage Nation Oil and Gas fields are owned by the Osage Indian Trib as a tribal property. There is a lease that will soon expire on 680,000 acres on the east side of this reservation. It is the purpose of the Oil and Gas monundertaken to go into the oil business opoly to maintain panic conditions in on a small basis. The Uncle sam Oi the oll fields until this great property Company is operating on a big basis can be grabbed.

There are over three million acres of Indian lands that are under the direct control of the Interior Department. The Oil and Gas monopoly in the past has been able to secure over 90, per cent

creasing its pay rolls and general office expense over 10 per cent-The Company has demonstrated its

Kansas oil war. It came as the outability to protect²itself against all of the powerful influences of the Uil Mongrowth of a sentiment firmly rooted in the State of Kansas that the Oil opory conspirators using the subsidized and Gas Trust was not the only conpress, and dishonest state and federal cern that had a right to produce and omcials in high places, and has sucnarket oil in the United States. cessfully fought its way through the The Uncle Sam Oil Company has Federal Court to the Supreme Court of the United States, and won one of made steady gains from the start. It has met with the most vicious perseits greatest victories only a few months

cution, but has continually increased ago by a decision in its favor in the its assets and fought its way through supreme Court of the United States, persecution to prosperity. It has save ed the people of Kansas several milexempting the pipe lines of The Uncie lion dollars by the competition it has built up and brought about with the

Trust This same big saving to the general public has reached into the States of Colorado, Nebraska. Iowa, Missouri and Oklahoma and adjoining

by a Private Telephone System and Switchboard. In addition to the Private Tele-phones installed in the rooms, a Bell Telephone is installed in a booth on each floor. This gives prompt and satisfactory Bell service and from the Standpoint of the Hotel Company, cuts down the rental expense by 50 to 75 per cent and eliminates all book-keeping of Guests' Telephone Tolls. The Electric Wiring throughout the building has been installed with the idea of absolute safety and conven-ience to the guests, and the fixtures

from going to the Trust, and the magnitude upon which The Uncle Sam Oil

Company is building, has from the start alarmed the great oil monopoly, which heretofore has been able to destroy all

competition. The Uncle Sam Oil Company, however, has built solidly has operated steadily on a conservative basis. It does not attempt to borrow any money from big financial concerns, as it knows that the big financial concerns can be dominated by

the Trust. For new capital it relies on

strength of its present properties and nee

The present stockholders that have been loyal to the Company own their stock at less than this advertised price, but have helped to pioneer the Company until its success is now as-sured. CHERRYVALE REFINERIES. Under the present Crisis conditions

Under the present Crisis conditions in the Oklahoma oil fields, with the new capital we can buy up valuable oil properties at from 20 cents to 25 cents on the dollar of their actual value to our stocknelders. There are millions of dollars seeking investment in the United States. Some of the greatest fortunes ever made in this country have been made in oil it is true that a lot of people have lost money in oil stocks, but that has been money in oil stocks, but that has been where a few small investors have

bonds and notes owned by loyal stock-holders, on which the interest has al-ways been promptly paid. We have several leases that may develop rich pools, which could easily produce enough oil to soon pay the stockholders an amount equal to all of the stock at the present advertised offer to you. As we have the re-fineries and marketing facilities we can put the oil into cash. We are con-tinually offered new properties to de-velop. One rich lease can produce enough crude oil to pay the stockhold-ers three million dollars or a total amount equal to more than the entire three hundred million shares under the present offer. Fifty, million shares of and in time is determined to put its distributing stations, to sell its products direct to the people, in every principal trade centre in the Middle western states. At the present time it has the capacity to retine and market

three aundred million shares under the present offer. Fifty million shares of this stock is still unissued, and from its sale we can certainly develop on our present properties and secure new properties and develop them that should make the co...bined assets of The Uncle Sam Oil Company in a few years pay good returns on a value of thirty million dollars. In other words, this proposition will figure out and give you a good chance to make big money on the purchase of this stock. While a little extra good luck might start the Company on such a big basis that in ten to fifteen years this very start the Company on such a big that in ten to fifteen years this very stock that you can secure today on a basis of \$750.00 for 100,000 shares, might be worth \$100,000.00, or one dol-

exempting the pipe lines of The Uncle sam Oil Company from the common carrier liabilities. The plan of the little crooks in the hire of the Oil Trust was to make the pipe lines of The Uncle Sam Oil Com-pany common carriers, and then have the so-called independent producers operating in disguise for the Oil Trust force The Uncle Sam Oil Company to

force The Uncle Sam Oil Company to pipe their oil to the exclusion from the production of our own wells and de-priving our own refineries from our own production so we could not have operated them and sold our own oil to

If you do not intend to become an investor in good faith we do not want you to take up the time of our office force by requesting additional infornation. Our advice to you is, attach

board of directors consisting of twenty-arbone large stockholders. It makes a sworn report each year to the United States Infernal Revenue collector, and re-issues prompt reports nearly every month to the stockholders, giving them general information in regard to the company. Every dollar received is de-posited in the name of the company-and is paid out by check of the com-pany signed by our chief accountant, and three general officers. The stock is non-assessable, and the cash pay-ment together with your agreement to remain loyal to the company is ac-cepted by the company as full pay-ment, if the Company as full pay-ment, if the Company as full pay-ment, if the Company as full pay-ment or its stockholders, and therefore re-serves the right to reject any subscrip-tion to its stock. If you should not be approved your money will be prompt-ly returned to you. If you are ap-proved your agreement to remain loyal to the Company which agreement is contained in the certificate of stock. Special offer is as follows:

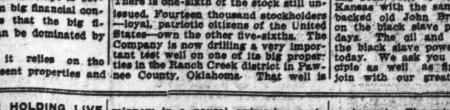

In Conclusion.

SPECIAL STOCK OFFER To the Uncle Sam Oil Company, Kansas City, Kansas, Find \$ remittance for stock as advertised per X opposite the amount designated below: 1,000 Shares \$10 25,000 Shares \$225 2,500 Shares \$25 50,000 Shares \$400 5,000 Shares \$50 75,000, Shares \$600 10,000 Shares \$100 100,000 Shares \$750. (Name of Remitter) own production so we could not have be public in competition with the Oil monopoly. The winning of this great victory has practically caused the Oil Monopoly to sive up hopes of ever stopping the final rest success of The Uncle Sam Oil Company. Wide Skirts Will Hide Silk

"These wide skirts the women are wearing now will make silk smuggling much easier. You don't know how much silk a woman can make look like a silk a woman can make look like a skirt, one or two of them have been caught and goodness knows how many have got by because we havn't a wo-man searcher, unless we have pretty clear evidence we can do little. I think silk underskirts on the Niagara boats will be very popular this season." And talking about underskirts re-minds us of a little tale of a woman, an actess this time who every very minds us of a little tale of a woman, an actress this time, who every year came to visit Toronto exhibition and while here found it convenient to buy enough table linen to last her and her friends until the following fall. She was quietly enjoying a "Made in Canada" neural at Sustantion Bridge, when into novel at Suspension Bridge, when into the car walked the rummaging official. What an insul[†] it was when the official spying her brand new damask in her valise told her what her duty was. She didn't care what her was, she had taken linen into đutý the United States for ten years, and she wasn't going to stop now. She wouldn't have bought it if she had thought customs officials were so in-sulting to an American citizen. Friend husband in the meantime became amazingly interested in another "Made in Canada" novel, and failed to realize the catastrophe that overhung his bank roll, until with an appealing glance madam begged for aid to save

lem Syrians, and Tartars. Even the

troops have been a plague upon the city. The violence committed by these alty. The violence committed by these recent inhabitants of the jungle can-not be described. Especially during the last three months the city of Con-stantinople has been turned into a veritable hell on earth. The wild tribal hordes wander from

place to place and live on the inhabi-ants as they go. These hordes do not receive regular rations as a modern army should. They enter any house, demand food, and if it is not forthcom-ing they do not stop at anything. When they want a meal they march

to a certain street and by twos and threes they enter houses at random. The terror stricken hosts must fur-nish food for the uninvited guests. Most of the inhabitants of the city have not enough for themselves, but have not enough for themselves, but what does the savage in uniform care for the misery of the clitzen? They must be fed_first! Are they not sol-diers? Are they not defending the Vatan (the fatherland)?

If they visited these homes only once or twice, perhaps, it would not be so bad; but no sconer is one batch of men fed than another bunch of intruders make their appearance. They do not even understand the language of Constantinople. There is no use in reasoning with them, in telling them that only a few minutes before you served food to a bunch of soldiers; if you succeed in making them understand that you have no food the in-truders search the house, and if they

sannot find food they carry whatever

Looks Well-has the Wear. and costs but \$ 500

The clean- cut style of the "Minister Myles" \$5.00 shoe will appeal to every man who likes and knows good footwear.

Carefully, honestly made -

The Minister Myles \$5^{oo} Shoe

has plenty of "snap" and style to it, and such a quality of leather that you'll wonder how it can be sold at this price. Well, candidly-neither ourselves nor the dealers who sell this Shoe are going to make a long profit on it. But between us, we do manage to give you a wonderful Shoe.

Minister Myles Shoe Company, Limited 109 Simcoe St., Toronto Telephone Adel. 950

Also makers of the high-grade Footwear sold under the brands: Berssford, Altro, at \$6.00 upward; Vassar and Miss Canada, at \$4.50 upward.

Toronto Women Who Have Made Good In the World of Work :-: MISS IDA MAY WILLS TELLS

If YOU are in and out of the customs house, down where the big is hipments of freight come in you will meet each day among the customs brokers, one woman who in the has fire years has proved that customs brokers, one woman who in the has fire years has proved that customs brokers, and wont forms. It is also do a great day of distribution to different points, that is easy all the duty. I also do a great day among the customs brokers, and be business to which a woman may be particularly adapted to the growth is stady which can be described as gift edged. Miss Wills who enjoys this unque distinction, was not brought up in the business world, nor has she any business that the qualities of mititative, adaptability and perse-

verance, are much more important to business success than the mere training in a business college. Miss Wills started her career all having been educated in a girl' college as a bookkeeper with a wholesale company. It was a matter of surprise

company. It was a matter of surprise to all who knew her, and her tact of business training, that she should be given a post hitherto occupied by a man. But events proved that the choice was a wise one, and Miss Wills advanced to be business manager. On the amalgamation of her com-pany with another, she accepted the position of assistant manager of the S. C. Wells Co. Drug House, and again rose to the position of manager of the scompany. Here again manager of the company. Here again amalgamation with another business occurred. Miss Wills came to the point where she was forced to choose between her Canada and the United States, as a place of residence. Had she stayed on CLIARDA and the United States as a place of residence. Had she stayed on at their desire she would have had to become manager of the American house. She decided to remain in Canuda and take up work of her own, and severed her connection with the drug business which she had managed for electric transfer

drug business which she had managed for eight years. "I decided to go into business for mys-ff." Miss Wills said. 'And I thought that customs work was some-thing that a woman could handle easily. I had become accustomed while I was manager of the drug busi-ness. to looking after all the ship-ments of freight, etc. I knew the customs people well, as well as most of the business people, and so was able to go about among them as among old friends, to solicit my brokerage business." "People seem to think there is a mystery about the customs work," she went on. But it is straight ahead business that is intenagly interesting.

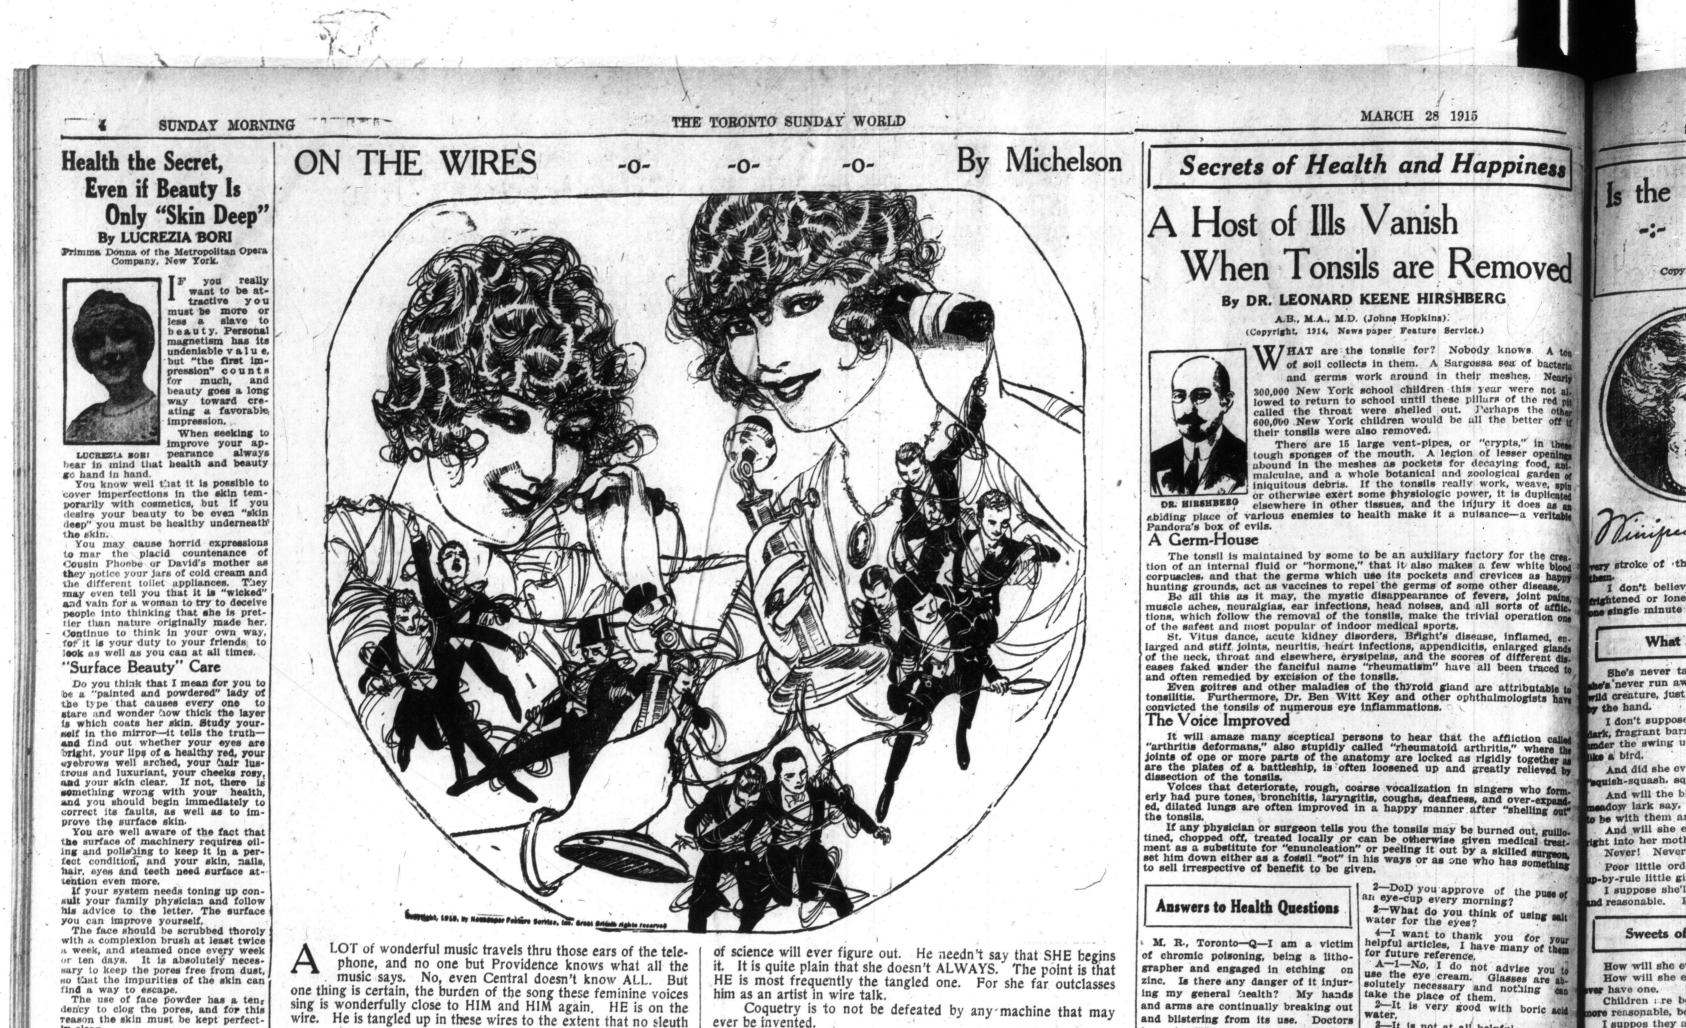

Miss Wills, a customs broker, who has built up a big busipess.

from machinery to soup." 'One of the most pleasant parts of the business." smiled the customs broker. "Is that the people are so very appreciative. If you give them good service they do appreciate it. You feel that you make real friends of clients and customs people alike. But there is plenty of hard work about it. You must put yourself last. You there is plenty of hard work about it. You must put yourself last. You can't have any appointments outside of the business. You can't count on any afternion off. You can't even count on your lunch hour sometimes." 'In fact," she went on, laughing, "for two years when I first started up this business. I did not recognize my lunch hour as a regular thing at all. You see our busiest time is from eleven to half past three. There are the en-tries coming in every moment, and you must do your banking. Before the war the customs used to accept your suarantee up to a certain amount for entries, and you could use an unfor entries, and you could use an un-marked theque on your bank. But at the time of the business panic they stopped all that Now you must have a marked cheque or currency. This a marked cheque of currency. This means a lot more work to the broker. More detail to be looked after, and more work for the office staff. It means that the broker must keep more ready cash by her to cover her en-tries with the customs."

In her office in one of the big build-ings on Wellington street. Miss Wills is right in the heart of her work, and

is right in the heart of her work, and is to be found at every hour of the day, early and late, looking after her manifold responsibilities. For there is something quite as re-sponsible as looking after other people's business and seeing that there are no errors. Her office staff is busy with bookkeeping, making out forms, and looking after the petty details of the business. One of these has been with Miss Wills since she started in as a broker.

dency to clog the pores, and for this reason the skin must be kept perfectly clean.

Four Excellent Recipes

After washing the face, if the skir feels tight, apply this lotion:

The hair should be brushed well on the alert not only to perform their each night before retiring, and should be sunned for at least a half-hour each day. Are Women Really Funnier Than Men on the Stage? In the magic of the paint brush. By MARIE DRESSLER

RE women funnier than men on the stage?" repeated Miss Marie Dressler, impervious the wood surface can be with a slight hesitancy, during an intermission between acts of "A Mix- made the easier it is to keep it clean, Up," at the Thirty-ninth Street Theatre, New York. "That really is a Paint, varnish and stain, whose base ery difficult question to answer, for immediately one begins to recall the should always be the best linseed oil, en comediennes on the contemporaneous stage in order to compare them fill the pores of the wood, coating and with the men comedians, I find it hard to name even half a dozen.

"It is said by the psychologists that the essential element of humor and is incongruity, and the greater the incongruity the more ridiculous and unny the situation. Now this is just the situation that is, I may say, autoically created when a woman acts in a ridiculous manner on the stage. e are so accustomed to associating dignity with a woman, especially in a ully developed woman, that when she casts off her dignity for the occasion becomes incongruous with preconceived ideas.

"Many women have attained the title of comediennes, not because they here funny in themselves, but because the situation of the comdy or farce ed them in a ridiculous position. Without the situation they would be lost. It is not easy for a woman to relax, and, as they say, 'make a fool of

"A man will do it for the enjoyment of the moment much more quickly and easily than a women. How many public men of the most serious mich in their business life would hesitate to get down on his knees in the nursery that is son might play horsey-back? I have seen pictures of even the great Napoleon acting in that manner. And yet one cannot for a moment see the mother in such a position. This proves as true in the life of the stage as the life of the home.

"I really believe that many of the laughs I get from my antics would be the pected of him, and, as I said, it is the unexpected and instant was ates the laugh.

"That does not answer your tquestion directly, does it?" and Miss Dressler led sweetly and with dignity, quite out of keeping with her "comedienne" ression. "But then, as a comedienne myself. I cannot commit myself too expression. cisely. I might be accused of bias."

which has been kicked and knocked until the finish is spoiled. It is not very difficult to touch it up cr to refinish it entirely, first sandpapering it to remove the old varnish, and then handling it as if it were an entirely new pieces. Tabourets, small tables,

refreshing sleep.

in my whole life."

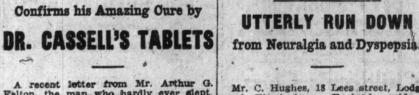

and Sleeplessness writes

Saye he never felt better in his life

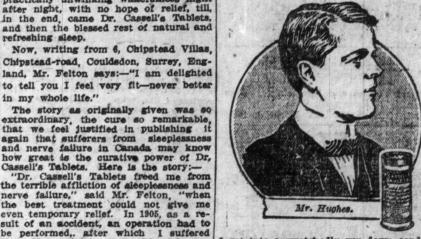

than a few minutes at a time, for I heard every hour strike every night. Often I wished I could die. Sleeping draughts of opium, and injections of morphine had no effect whatever-I was

The foregoing is no isolated case. Dr. Cassell's Tablets are a genuine remedy for Nerve' Weakness, or bodily weakness in old or young, and reports constantly coming to hand prove their power to cure even long-standing or severe cases.

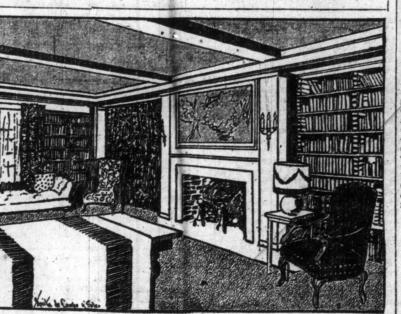

Mr. C. Hughes, 18 Lees street, Lodge-road, Birmingham, England, said:--"I think it is only right to tell you what a lot of good I derived from taking Dr. A recent letter from Mr. Arthur G. Feiton, the man who hardly ever slept, recalls the story of a cure by Dr. Cas-sell's Tablets, which last year aroused great interest all over Great Britain. Here was no ordinary insonnia, but practically unwinking wakefulness night after night, with no hope of relief, till, in the end, came Dr. Cassell's Tablets, and then the blessed rest of natural and perneding sleep. Cassell's Tablets. About two years ago

The story as originally given was so extraordinary, the cure so remarkable, that we feel justified in publishing it again that sufferers from sleeplessness and nerve failure in Canada may know how great is the curative power of Dr. Cassell's Tablets. Here is the story:-"Dr. Cassell's Tablets freed me from the terrible affliction of sleeplessness and nerve failure," said Mr. Felton, "when the best treatment could not give me even temporary relief. In 1905, as a re-suit of an accident, as noperation had to be performed, after which I suffered from Neurasthénia, and ultimately en-tire Nerve Failure. I was taken into a special Institution, only. to be turned out after months of treatment as hope-lessly incurable. I had claimed com-pensation for my accident, and even the Insurance Company declared that I should never work again. I could just get about with the greatest difficulty, dragging my right foot along the ground and my right hand hung helpless. Then came sleeplessness. Do what I would or take what I would, J hardly ever slept night or day. For five years al-together I never could have slept more than a few minutes at a time, for I heard every hour strike every night ed and altogether I was just as weak and run-down as I well could be. Often I could not do more than three days' work at a time, and then I would be off for perhaps a week. I can't tell you how weak I felt; and what, made matters worse was that I never got a proper night's sleep. I was told the trouble was nervous breakdown,, but though I had medicine, and also attended an in-stitution I did not improve in the least. stitution, I did not improve in the least.

"I wag almost hopeless of ever being cured, when I got my first supply of Dr. Cassel's Tablets. They did me good, so I persevered, and the result is that I am now well and strong again, and in regu-

WOMAN suffrage and its situation in the west is shown in the following from The Albertan,

A solution is easy. If the school houses everywhere became social centres, if they were even opened up at night for th use of all who would attend, adults in crowds would be gathred in every large city. The utificulty of course is a financial one Who would pay the teachers? Let every town and centre pay for its own, for the people within its gates. The money spent is employing teachers would be money well spent, and the compound interest. As is well known the people from many countries of Europs have a facility for acquiring laguages of which we westerners know nothing. A chance is all they need. Exploitation of the immigrant along the line of contrast, in which to be immered unce the immigrant along the line of contrast, in which to be immered which we westerners to be immered which we immigrant along the line of contrast, in which to be immered which we westerners throw nothing. A chance is all they takes the place of the undesirable in the takes the place of the undesirable in the bill of amendments to secretary. One hundred members have registered. The Heliconian Club has commenc-ed Red Cross work for the University of Toronto Base Hospital. Meetings will be held every Thursday at 2 p.m., commencing this week, when a train-ed nurse will be present to give in-struction in the making of bandages and supplies. The Daughters of the Empire, says The Daily Echo, Halifax, N.S., are very busy preparing for the general meet-ing of the order, which takes place here late in May. Delegates are ex-pected in Halifax from all over Can-tida, and the three or four days they be business meetings there are sure o be many social events arranged in honor of the visitors. The Daugh-ers of the Empire have done splen-ind work here, since the Halifax hapters were formed about four or tw years ago, and have taken a lead-ing place in all philanthropic and sharitable work for the city. Last years the general meeting was held in Toronto, and Mrs. Leonard Murray date. Thity tables were arranged in the function of the tea and musicale in aid of the function of the tea and musicale in aid of the function of the tea and musicale in aid of the function of the tea and musicale in aid of the function of the tea and musicale in aid of the function o final way in which this particular head of a municipality seems to have done? If is scarcely possible. If there were no immediate way in view by which the Italians could have been given what they requested the promise might have been made of something for the future. The blunt refusal however, would in all likelihood deter the strangers from any request at a later date. Yet the official in question was no worse in regard to immigrants than are many others similarly situated. It seems to be taken for granited that the duty of teaching goes no further back than the children, and if some-thing is done in their direction, even following from The Alb-Calgary: Womanhood suffrage in the ma pality of Calgary now depends o result of a plebiscite to be take the next annual municipal ele The bill of amendments to the cf of the city of Calgary, which has recommended by the municipal committee of the legislature, pro that a plebiscite must be taken b city to determine whether the chise shall be extended to im

Actions Company of Springfield, Mas-sachusects, and one of the committee whe passed upon the Brooklands track, says that contractors at that time knew little of concrete work. A cheap grade of concrete was used, and it are also broad acquaintance with the trade, and his many years experience in the manufacture of the com-plete cars and parts makes him a valuable man in the position he will fill, eracked badly especially on the ms. The patching was with a kind

it gracked badly especially on the turns. The patching was with a kind of concrete mixed with macadam, and the track is now a mixture of many kinds of materials and there is proba-bility that the course will be resur-faced with concrete and banked dif-forently, as the present speedway is a one-man track and dangerous for such races as are run at indianapolis. The indianapolis Motor Speedway drew approximately 150,000 people to the grounds in 1914 at an average price per person of \$5, making a total of \$750,000. For two weeks prior to the race of May 30 a charge of 25 cents was made at the gate to watch prac-tices and this brought an additional \$66,000, while concessions at the race paid \$25,000 more making the total

Coast and accommodations all along the transcontinental routes and \ ca-pecially in the west, would never be able to accommodate an organized tour of any magnitude. Barney Oldfield is said to be ne-gotiating with the English agents of the Mercedes Company for the pur-chase of the 300-inch Mercedes car driven by Lautenschlager, winner of the Grand Prize race at Lyons last year. The New York importers say that Oldfield is likely to get the car at the figure offered, \$7500.

Providing Detroit constructs a speedway fast enough to break records made on the Indianapolis motor speed-way, the owners of the Hoosier speed-way will make immediate arrangements to reconstruct the banks of that course, raising them considerably and so increasing the speed as to make the Indianapolis course the fastest in the

was made at the gate to watch practice and this brought an additional 566,000, while concessions at the race paid \$25,000 more, making the total receipts for the one race \$\$841,000. It is helieved that the race of this year will bring receipts of not less than \$1,000,000.
W. L. Wilson of Rochester, New York, purchaser of the DeLage car with which Rene Thomas won the last of derived smaller cylinders for the machine to conform with the racing rules of this year, and it is reported from Indianapolis that the work of rebuilding the car will be done at the Packard Motor Car Company's plant.
Since his purchase of the car, Mr. Wilson has enfered it repeatedly in races.

A. C. Newby, one of the owners and directors of the Indianapolis motor spedway, when told that the propo-sition to give a \$100,000 purse for a 1000-mile race to be contested by teams representing the makers who had won the race in the past, had caused a smile, said: "They laughed at us when we built the track. They laughed again when we announced the \$50,000 purse, and we are quite con-tent to let them laugh now. When the race has been run it will be our time to laugh." It is probable that this great 1000-mile contest will not be run until 1917 or 1918, when there should be from six to seven teams of five men each to compete, A. C. Newby, one of the owners and

country

five men each to compete, Jules Goux, the great racing driver, who is back of the wheel of the car of the military governor of Belfort on the Franco-German frontier, has writ-ten the Indianapolis speedway offi-cials that he would like to come over to race this year as he did the last two years, but his work is too im-portant and he has not the heart to ask for release. France must come first with the grat Goux.

Minneapolis now has another speed-way project, and this time the State of Minnesota is interested, it being proposed thru a bill introduced in the proposed thru a bill introduced in the state legislature to appropriate \$200,-000 for the construction of a perman-ent speedway at the Minnesota State Fair grounds, where very successful meets have been held yearly. The construction, maintenance and com-plete responsibility of the track will be in the hunds of the State Agricul-tural Society. The Remy Electric Company has broken ground for its new Detroit plant, and the work is the start of a big factory in Detroit into which the

tural Society. C. H. Blomstrom, the veteran De-

troit manufacturer, is about to place near the P a new model front drive car on the pany plant. a new model front drive car on the market. This car unlike his former drive is not friction driven, and this car like the other is a revolution in motor car building. The new Blom-strom is beautiful in appearance, and cwing to its construction, impossible to skid on the slipperiest pavement. Koemath Company, Detroit, of which E. T. Birdsall is the head, has just announced a 1000-pound delivery wag-on to list at \$750. This is a 15

DUNLOD

The "Triangle on the Radiator" is probably the best-known of all automobile trade-marks. It stands for more in the estimation of the public

than does any other insignia on a motor-car. Thousands of buyers ask no other evidence than the Hudson Triangle.

The World's Greatest

Automobile Trade-Mark

They know its record for quality, prestige, perfect automobile satisfaction.

The Car Behind the Trade-Mark

The Triangle has become great became of the car behind it.

From the Triangle on the Radiator to the electric tail light every atom of the car has been through the crucible of the Hudson Engineering Board.

Only accident or misuse can prevent a Hudson owner getting 100% pleasure and service from his car. In the hands of tens of thousands of users. the world over, its supremacy is demonstrated daily.

The Company Behind the Trade-Mark

Success is the best guarantee of value.

Inferiority always fails. The dazzling white light of competition reveals every defect, pitilessly tears the veil from every subterfuge.

The Hudson Motor Car Company is as famous as the Hudson Car. Its marvelous success has come from giving the public what it wants at the price it wants.

Every Hudson owner is a Hudson salesman because he finds in his car exactly what the Company says is there.

The "Triangle on the Radiator" is the signature of the Hudson Motor Car Company. Buyers accept it as a bond guaranteeing in their car everything needed to make it as good an automobile as the world's best engineering skill can produce.

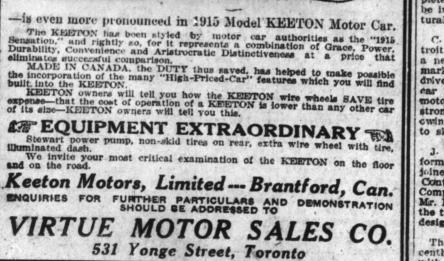

Come-see the HUDSON Six-40 and Six-54. The cars that have swept competition aside like cobwebs. At \$2100, (f.o.b. Toronto), and up these cars with the famous "Triangle on the Ra-diator" are outselling everything on the market.

chatting with the questioner's sister and a newspaper man. "Til show you." said Farrington, taking a mustache from a collection of his and fastening it to his upper lip. Leaning close to the glass. he gave his face a few swift applications of make-up. Then, adjusting a soft hat to his head, he strode the length of the room. what you want and every week will try and print a picture of a lip. favorite star or actor. Who do of

"Get one!" snapped Farrington. "Why!" the girl exclaimed. "I re-member that man. I was at the Grand Central station when he arrived in New York three or four years ago. I always wondered who he was. "That was Kitchener," said 'the newspaper man. "I was there that day to interview him. He was making a trip around the world."

MIDNIGHT MATINEE AT MISSOULA, MONT.

In Missoula, Montana, they started a midnight matinee at the Empress Theatre, that created more discussion

Theatre, that created more discussion than anything that has happened in that city in many a day. Ray Gag-ley, the manager of the Empress, is the one who is responsible for the inovation. When the directors of the Missoula Amusement Company, who control the Empress Theatre, were told that there was to be such a thing as a midnight matinee, they thought that their manager had gotten "softening of the brain." They said, "Listen Ray, you could shoot a cannon up Higgins avenue at 12 o'clock without hitting anyone"; but Ray did not believe the directors were right. He maintained that the reason people went home Sat-urday nights was because there was nothing else for them to do. They packed the Empress with the midnight Vulgarity or impropriety of deport-ment or costuming. Cruelty to animals. Cruelty to children. Indecent dancing. In the majority of these cases the objectionable portions of the pictures were either entirely eliminaed or re-photographed eccentrating all but 15 photographed, eventuating all but 18 absolute rejections. THE RED MILL sunlight and then tinted to represent night, the fault of which he writh letter above rests in the dark room, not with the director. And "The Front" evidently doesn't know, that pictures can be made in the dark with the aid of the radium flare on the darkest night, a wonderful e be secured. But I quite agreed with him in the main. Carelessnes not be tolerated. The moving picture industry is too big to be ha anything but an artistic, painstaking manner. But oftentimes it is n to change one's plans at the last minute and unavoidable mistakes or shall look forward with a great deal of pleasure to the time when a res feet picture is filmed. cked the Empr with the mide matines to see Lew Fields in "Old Dutch." and the midnight matines on Saturday nights, at the Ehmpress Theatre, Missoula, Montana, is bound "The Fakirs Ring," a magnificent mystery drama, that thrills and infrom beginning to end is the terests name of the extra special feature at the Crystal Palace, Yonge street, the become a permanent feature. first half of this week. At the Red Mill Theatre a program of big special LONDON CANNOT SEE ect picture is film features has been arranged which is well up to the standard that has made HARM IN PLAYS this little theatre famous in Toronto for the last ten years. The fourth in-stalment of the "Black Box," will also be shown here for the first time in **ANSWERS TO QUERIES CROMWELL SAW** Toronto Helen Johnstone:--(1), Miss Hall's if not necessary to the plot and dress is not known by me. but if therefore desirable. With what emotions, we wonder, would Oliver Cromwell behold the London of 1915? In the year 1642 SMALLEY'S REJOIN **BIG "U" PROGRAM** times were calamitous in England. She was "threatened with a cloud of blood, World they can tell you. (2). It pro-bably took the producers of "The Master Key" a week to make each by a civil warre. To avert the wrath The producing end of the Universal Company will be greatly enrighted by the addition of "The Smalleys," as the combination of Phillips, Smalley and Lois Weber is known. The mak-ers of such remarkable films as "The Hypocrites" and other masterpieces, started work April 1, and will produce a succession of three to five reel pho-toplays written by themselves, or from well known nevels. This combination of the big "U" and the Smalleys has been "up their sleeves" for some time now, but the talented couple wanted a good holiday and tookit. Before-joining the Bosworth concern they were with the Universal and their re-leases were always looked forward to by lovers of good pictures, and their return will be widely heralded and warmly received. Lois Weber is work-ful Holiywood home and Phillips is busy getting his cast together. The producing end of the Universal of God, both houses of parliament joined in a grave ordinance which decreed the suppression of public stageplays. "Whereas publike Sports does not well agree with publike Calamaties, nor publike Stage-Plays with the Seasons of Humiliation, this being an Exercise of sad and pious Solemnity, Exercise of sad and pious Solemnity, and the other being Speciacles of Pleasure, too commonly expressing lascivious Mirth and levitie: It is therefore thought fit, and Ordeined by the Lords and Commons in this Par-liament Assembled; that while these sad Causes and set times of Humilia-tion doe continue, publike Stage-playee shall cease, and bee forborne. Instead of which, are recommended to playee shall cease, and one forborne. Instead of which, are recommended to the people of this Land, the profitable and seasonable Considerations of Re-pentance, Reconciliation, and peace with God, which probably may pro-duce outward peace and prosperity. with God, which probably may pro-duce outward peace and prosperity, and bring againe Times of Joy and Gladnesse to these Nations." London today is still far enough from the mood of 1642 to enjoy a doz-en remarkable spectacles besides num-erous variety offerings. The inimitable Frank Daniels of comic opera fame, was initiated into the mysteries of motion picture production, and acting for the camera at the Vitagraph Studios last week when the Vitagraph Studios last week when the began work in the four-part comedy "My Uncle Bob," written ex-pressly for the popular comedian by Paul West. The theme of "My Uncle Bcb" is that of mistaken identity. In which Mr. Tanleis is seen as an es-caped jailbird, and in which he is given opportunity to "put over" in his own peculiar style the subtle man-nerisms that have caused countless audiences to laugh. 'My Uncle Bob" is being produced under the direction of Jay Williams. England has acquired a somewhat different attitude toward the wrath of FLICKERINGS Lew Fields, who is now at the Garrick Theatre, Chicago, in "The High Cost of Loving," has just made ar-rangements with the World Film Corsoldier. poration, to pose for a series of come-In celebrating Miss Muriel Os-triche's advent to the Vitagraph rights. Maurice Costello and Van Dyke Brocke, originated a vaudeville turn in "one." Mr. Costello explained that because of a decided hoarseness, he would be unable to sing, but he would give an imitation of a Tipper-ary clog. After three minutes of danc-An active campaign against crooked exhibitors has ben started in Chicago. All the exchanges are falling in line, and there is no limit and no amount of money that will be spared to prose-cute, to the fullest extent, every crook-ed exhibitor in the territory. In due course he reached the colonel's quarters, but unaccompanied. "Where's your prisoner? Has he escaped?" "No, sir!" ed exhibitor in the territory. ary clog. After three minutes of danc-Six cameras were employed at the same time recently during the produc-tion of the big battle scenes in "Sons of Toll." a story of the Pennsylvania coal regions, to be released by Domino on the Mutual Program. The fight was staged in a canyon at Inceville, where the Kay-Bee, Broncho and Domino films are made, and while a camera was stationed at either end of the read, along which the activities took place, two were set in motion on either side of the adjoining hills. The result is that some splendid distance "shots" of the combat are seen. him?" "Well, it was like this, sir. As we Ing:--Mr. Costello--"I hear they are not satisfied with the 'chickens' of the Vitagraph Company." Mr. Brooke--"How is that?" Mr. Costello--"Why! they don't think they are her sourch." think they are big enough." Mr. Brooke-"Not big enough! 'Yes! Yes! But what's that got to do with it?" broke in the colonel, somewhat impatiently. How do you make that out?" Mr. Costello-'Well didn't they bring in an Ostriche" Florence Tempest, who is playing in Comedy-Star ilms, is at present negotiating a return to vaudeville, where for years "Tempest and Sun-shine" have been headliners. If she does go back, she will be the busiest girl in the world, with her movie work in the mornings, and the vaudeville engagement afternoon and evening. Mr. Morgan Belmont, son of Mr. August Belmont, well known finacier, recently showed at the World Film Studio, at Fort Lee, some pictures A Makeshift Studio, at Fort Lee, some pictures taken in Alaska during his recent hunting trip.

at the back of the head, beards that terminate in a hard line upon the who ever saw a man's beard grow that way in nature. Ladles who p elderly dames are content to put on a gray wig and a pair of glasses no attention to lining up their faces, and one sometimes sees a girl t her mother, that looks fully as young as she does. In a recent film shown here by one of the big companies, the king suite went to the ocean shore to review a fleet of fishermen's boats, a the characters were all dressed in Elizabethan costumes, there came a a number of modern sailing yachts and a gasoline launch or two. In considerably advertised feature film. "the heroine" is trapped into a with the "bad man" in a deserted cottage at the cross roads at night see this girl crossing the fields on her way to this place in the bright. with the bad man's in a described cottage at the cross roads at high see this girl crossing the fields on her way to this place in the bright and the conspirators who intend to seize her are seen creeping from bush in the bright light of day, and when they get to the cottage the lamp, but the light is so bright in there that the flame of the keros does not show at all. I am aware that moving pictures cannot be may dark, but I have seen night scenes shown upon the screen that night instead of bright sunlight.

night instead of bright sunlight. In another film recently shown here, one of the scenes represented Temple of Isis, with a large figure of the god at the left of the picture, and the characters present make their obeisance to this idol. A few dancing were introduced which, of course, are supposed to dance before the ali-the god, but did they? No, they ignored the figure of Isis and danced to audience; that is, they gave a weak imitation of Gertrude Hoffman's H snake dance, which had no place in the Temple of Isis in Egypt. Another showed a king in all his royal robes seated upon the throne, and on each of him were two supers in scale armor and tin helmets carrying wooden sp and when his majesty descended from the throne, the supers followed him and one could see the bone buttons in the buttonholes of the doublets on the scale armor was sewn, and their tin helmets showed derits that looks if they had been in deadly conflict sometime in the wardrobe, trunk. these are very small things, and I could point out a number of others, bu would only tire your readers, but they go to show that the high-priced s director is not always watching the small details that go to make up pictures, tuch as the man who pours in the nickles and dimes is entitle for it is the revenue from these nickles and dimes that pay these fat salari Yours with apologies for trespassing on your space. The Man in Front."

"The Man in Front." As I have written many times before, the moving picture has reached high degree of perfection. Attention to detail is becoming more and no cesential. The director who could see very little necessity and remedy faults is a gem. It is much more difficult to be "detail perfect" on the se-than it is on the stage. Once the film is exposed nothing can alter the pic that is made except a "re-take." and oftentimes such a course is impose All producing companies strive for effects that are perfect. Many succ where others fail, but I have yet to see anywhere on the screen an absolu-perfect picture. "The Man in Front." perfect picture.

perfect plcture. But "The Man in Front" in his criticism forgets many things. He that minus the voice the factal expression is all important. Girls dam their backs to the camera would not be able to register properly. stage any deviation from the rules of realism is excused by what is 1 "stage license." On the screen the same condition might be design "camera license." Not much can be gained from a back view. Her and actresses are often placed in unnatural, ungraceful positions be the necessity of the audionce gathering every expression. "The Man in Front" forgets, also, that nearly all pictures are tak sunlight and then tinted to represent night, the fault of which he was

TO GERMANS

LONDON-The report of the Brit sh board of film censors for last year has just been filed. It contains the information that they viewed 6,000 films which measured 6.881,614 feet. The examiners took exception to a number of pictures on various objections, as

"The Threads of Fate"

On Monday and Tuesday, at the Model Theatre, Toronto's finest mov-ing picture house, the third instalment of "The Black Box" will be the fea-ture. This serial story is getting more exciting as it progresses and those that have not started to follow its un-folding mystery, should give it with

fragram. On Friday the near part a good program will be the three-part feature with Anna Little, "Changed feature with Anna Little, "The Haunted Hearts" will be at the head of a high-class program carefully THE PEOPLES "The Black Box," No. 3 Followers of "The Black Box" will have a chance to see the third instalment of the serial picture at the People's Theatre, 332 Queen street west, on any of the last three days of this week, along with many other in-teresting and humorous pictures. For the first half of the week H. B. Warthe first fair of the week fit. B. War-ner will be seen in his great big suc-cess, "The Ghost Breaker." This pic-ture is one of the biggest hits that has been in Toronto for many a day. **KING GEORGE** Under New Management. Monday and Tuesday at the King George Theatre the ninth episode of "The Master Key" will be shown. This theatre is now under entirely new management and special programs of remarkable texcellence are being shown. The serial story, "The Black Box," episode number 2, will be fea-tured on Wednesday and Thursday, while a yeary time and varied process. while a very fine and varied program, headed by "Jungle Wilds" and "The Mad Cap Queen of Grehshoffen," will be shown on Friday and Saturday. KUM C. Mary Pickford Week. Mary Pickiord Week. A special review of Mary Pickford pictures will be shown at the Kum C Theatre this week and anybody who has failed to see the work of this wonderful little Toronto actress should not miss this chance to pick out one or two or all of the pictures and see them. On Monday "Such a Little Queen." one of her earliest hits, will be shown; Tuesday, "Behind the Scenes"; Wednesday, "The Eagle's Mate"; Thursday, "Cinderella," and on Friday and Saturday her latest big hit, "Mistress Nell." Every one of these pictures is typical of the little star and is full of the lovable person-ality that has taken the world by storm. THE VICTORIA Special Matinee on Monday. Starting with a special matinee on Starting with a special matines on Monday, at which will be shown a remarkably fine and varied program the Victoria Theatre this week will give its patrons a generous treat. For Monday and Tuesday the sixth episode of "Runaway June" will be shown as well as the Made-in-Canada feature. "In the Hands of Fate," and Strand war series, which vividly, illustrates and the Hands of Fate," and Strand war series, which vividly illustrates the military and naval power of Italy, which at any time may be thrown onto the side of the allies. On Wednesday and Thursday George Kleine's "The Lion of Venice," one of the prettiest pictures ever filmed, in which the beauitful Canal of Venice was es-pecially closed for the first time in history. On Friday and Saturday a On Friday and Saturday a roaring Keystone comedy will be fea-tured as well as the nineteenth episode of "The Twenty Million Dollar Mys-

This is a National War

SUNDAY

MORNING

Among the best known of British authorities on the art of war is Henry Spenser Wilkinson, Chichele professor of military history at Oxford University and also on the staff of The London Morn-

ing Post. In an address delivered at a meeting of the Royal Colonial Institute on January 25, and published in the March number of United Empire, the journal of the institute, he discussed the war in various of its aspects. As regards its general nature, he pointed out that it differs from any other in which Britain has been engaged during many years past in that it is a national war-that is a struggle for existence between nations. Nothing like it has been seen for many years. In modern times, the first war of the same class was that between France in the revolution and her neighbors, whose desire it was to destroy the new France that had been constituted thru, and during the revolution. The next came when Napoleon attempted to dominate the whole of Europe and the threatened nations rose in their might to recover their freedom.

Upon these wars theorists, according to Professor Wilkinson, have based their doctrine of the nature of national war. In brief, such a war is a struggle for existence where each side aims at the over-

Nature of National War

throw of the other side. This involves three stages: First, the crushing of the enemy's armies in the field; second, the occupation of his capital if his capital is the seat of political influence; third, the defeat of his principal allies, if he has any; thereupon the successful, state or states, can dictate their terms of peace. A national war, therefore, requires that each nation engaged shall exert itself to the utmost of its power or, in other words, endeavor to turn into resources for war all the resources it possesses-its men, its wealth, its ships and its intelligence. That is exactly what Britain is doing to an extent it has never done before. For, as Professor Wilkinson proceeded to point out, Britain, as an inland state depends on victory at sea for her defence and has never yet been able, alone, to defeat a continental state on land.

. . .

Futility of German Diplomacy

These considerations reveal the extraordinary futility that has been the distinguishing characteristic of German diplomacy. Some years ago, Professor Wilkinson spoke of the probability of a British

war with the German Empire, giving reasons why he deemed it probable. He then thought that it would be exceedingly difficult for British policy so to steer itself as to secure allies because the

AN OFF SEASON

Among the nations that have suffered from the mad ambition of the Germans to achieve world domination, none has had to bear so great a weight of woe as Belgium. All but a small district in the extreme southwest is under the heel of invaders and the material loss of the Belgian people, capable of replacement must far exceed he indemnity imposed by Bismarck on France in 1871. Nor can money measure the value of the priceless cathedrals, churches and historic buildings shattered and destroyed by the modern Huns. No country in Europe contained so many artistic masterpieces within so small an area. Belgium, too, was a veritable hive of industry and her intensive system of cultivation led the world in that department of agriculture. Between 1831, when Belgium recovered her separate statehood, and 1914, when the storm of war burst across her frontier, the Belgians had created many large and important industries. They had covered the country with a network of railways and light railways and developed its coal and iron resources to a remarkable degree. The collieries produced twenty-three million tons annually and employed more than 100,000 workmen. In 1912 the iron industry turned out 1,975,890 tons of steel of the value of \$56,-000,000 and had more than 30,000 employees. Other great establishments continually expanding were concerned with zinc, soda, glass, particularly plate glass, and chemicals. But the Germans have literally sacked Belgium. Many of the manufactories have been destroyed. All the valuable machinery has been sent to Germany. The horses and the cattle, numbering in 1912, nearly a million and a half have disappeared, the carefully cultivated fields have been cut up by line after line of trenches, or torn up with shell fire. Of the Belgian population-nearly 8,000,000 souls, a considerable proportion has sought refuge in Holland, France and Britain. Those who remained are dependent on the charity of neutral nations for the eking out of a bare existence. The invasion of Belgium and the horrors which have accompanied it, is one of the greatest crimes in history, but the Belgian people have saved their souls thru the heroism of their self-sacrifice on the altar of honor and national patriotism.

The Plight of Belgium

to a successful issue and of confidence in final victory.

In commending the bill to the favorable consideration of the house, the prime minister mentioned during the course of his powerful speech that out of 89 Oxford "Blues," men who had represented their alma mater in the inter-university contests, no less than 80 were serving in some capacity in the King's forces. This means that practically every one at liberty has volunteered. Oxford and Cambridge are practically deserted by the wearers of cap and gown. Many of the colleges have been turned into hospitals. They have given a fine example of loyalty and patriotic devotion and this is all the more valuable now that these ancient seats of learning on the Isis and the Cam have opened their doors to the working classes thru both residence and extension lectures. * During the debate, the Right Hon. Walter Long, one of the opposition leaders and a mem-ber of the last unionist administration, paid a notable tribute to the Liberal prime mit "From the bottom of my heart," he said, "I congratulate the universities on having their cause championed by one whom Oxford men all claim as a common possession and of whom they have as a common possession and or whom they have abundant reason to be proud, not only on ac-count of his record at the university, but for the great part he has played and is playing in the history of his country." Mr. Asquith, too, is a self-made man. He had no initial advantages, but earned thru scholarship the right to enter Balliol College where he was one of the favorite students of the late Dr. Jowett, then master. The present premier's career at Balliol was brilliant in the extreme. His ability has descended to his sons, the two elder of whom have closely paralleled his record at Oxford.

by

basis of a solid alliance is that each of the parties believes that its own self-defence absolutely requires its co-operation with the others. Yet this is precisely what has happened. German policy has performed, in Professor Wilkinson's words, the miraculous feat of securing an alliance with Britain, on these ideal terms, of two of the great powers of Europe. "Germany has so managed her diplomacy that England, France and Russia are, each of them, convinced that the self-defence of each is vital to all of them. These are the ideal conditions of an alliance and the German Government fias relieved us from the greatest of all these anxieties with which a few years ago, persons who thought war with Germany probable, were most oppressed."

. . .

These very significant comments of Professor Wilkinson on the nature of this war provide a forecast of the great tragedy of Prussian militarism. When, as the allies are confident, this latest attempt at

Tragedy of Prussian Militarism

world domination finally ends in disaster and defeat, the world will be presented with the spectacle of an empire grown great and waxed mighty in little more than forty years, itself forging the weapon that was to lay it low. All the years of patient preparation in the way of perfecting its military machine, laying its strategic rallways, developing its notorious spy system and securing bases of supply in the ends of the earth, have all gone for naught. Not only this, but their ruthless and barbarous methods of war; the tearing up of treaties as mere "scraps of paper" and the absolute disregard of all law, human or divine, have placed the German people under an international ban. They stand alone without a friend, even among their allies. Over them hangs the shadow of impending doom-a doom which their government has brought upon them by its blunders and its crimes.

. . .

Hopes and Crimes That Failed

In everything except material efficiency Germany has gone wrong. Germans, even the most learned of their professors, could not understand wherein the strength of the British Empire lay, or the

hold that Britains rule had gained in the hearts of the native races. They regarded the empire as a colossus with feet of clay that would tumble to pieces at the first stroke of war. Never were would-be world dominators more deceived-more self-deceived. Engrossed in the vision of their own superiority, they could not imagine any strength or any virtue except those with which they endowed themselves. Even yet, after months of growing disillusionment, they seem still to cherish the hope that from some where beneath the folds of the Union Jack will come a blow that will divert part of Britain's force from the European field. There seems, indeed, to be no end to German capacity for self-deception. Regarding all other European peoples as decadent and timorous beings that bluster and outrage would bring at once to their knees, the modern Huns have gone from crime to crime without even the poor satisfaction of inspiring fear.

Universities and the War

From no section of the British peoples has a more splendid response come to the call of arms at this supreme crisis of the empire's history than from the under-graduates of the universities of the imperial states. So great has it been that many of these institutions of learning and science are confronted with losses of revenue so serious in extent as to require government and legislative aid. Quite recently, Mr. Asquith, the imperial premier, himself one of the most distinguished Oxford graduates of his time, submitted a bill in the House of Commons granting authority to the two leading English univer-sities to pledge the future in order to meet the necessities of the present. This measure not only relieves the immediate financial difficulties of the colleges, but is an expression of the determination of the British people to carry the war

A War of Principles.

Two vital principles are struggling for supremacy in this war. Shall government be of the people, by the people, for the people or in a single word democratic, or shall it be centred in one man who believes himself divinely appointed to govern, not only his own nation, but every other nation that stands between him and his ambition. The Kaiser exemplifies the true spirit of autocracy and has done so ever since he ascended the throne, more than a quarter of a century ago. Eight years after his accession, he said at Frankfort: "I call to mind the moment when my grantfather, as King (of Prussia) by the grace of God, took the crown in one hand and the imperial sword in the other and gave honor to God alone, and from Him took the crown." The first German emperor followed in this, the example of Napoleon who crowned himself emperor of France.

followed too much the devices and The Kaiser acknowledges no dependence on desires of our own hearts. We have parliaments or responsibility to the people. His offended against thy holy laws. We place it is to rule—the duty of his people and still more of his army is blind unreasoning obehave left undone those things which we ought to have done; and we have dience to his commands. "There is but one law," done those things which we ought he is reported to have said, "and that is my will." not to have done; and there is no health in us.' How true this is of every So the struggle in Europe and in every continent to which this war extends, is straightly between lawless tyranny and lawful liberty, between one man rule and parliamentary government, benation! The whole body politic is sick and needs a remedy, and there seemed to be no other way of restortween democracy and autocracy. This is the supreme outstanding and, inescapable issue in this, the greatest of wars. It cannot be shirked or evaded by any lover of freedom and there is ing an equilibrium except nature's method of inflicting the punishment we had brought upon ourselves. Perhaps it is not too late now to implore Divine heip to assist us as the prominent members of the board of trade have decided upon doing. Had their earnest appeals been put into pracno room for apathy or indifference. He who is able and does not fight for, liberty is against liberty. tice long ago by themselves the ca-

35TH YEAR-PAGES 1 TO 4

AMPA, April 3 .- Steve: Well Steve dont be supprised when you see in the papers some of these days where I got a devorce from Gussy and Im going to get 1 just as soon is I get a hold of enough money to pay for the attys feaze and they wont be no truble a bout me geting 1 when I tell the jury what she pulled and no wonder theys a lot of devorces if women got no more sence then do that she done. I aint leaveing her see Im sore at her accept I dont speak to her when wear a lone to gather but when the time comes I will fix her and leave her see what I think of her and that will be in the cort room where evry body can hear it.

* * *

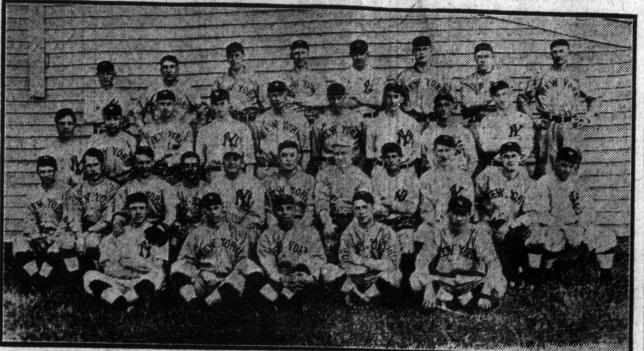

WELL Steve I will tell you how it come off and see if you blame me for geting sore but I know you wont and no body else. The 1st. day we was down here Bresnahan called us all to rather and says he wouldent stand for no body smokeing cigrets and isays you smoke them your self dont you and he says Yes but I can quit cant I and I says well may be you can quit but I cant quit. So he says well you can ether quit smokeing cigrets or quit playing ball on this club if you ever started. So I says is that so and he dident have no come back. So a hole lot of the boys was scared of loseing there ich and they quit smokeing cigrets and if they want to be yellow **TELL** Steve I will tell you how it come off and see if you biame there job and they quit smokeing cigrets and if they want to be yellow all right but I guess they aint no danger of me looseing my job because honest Steve its a crime for a man like I to be compeating against the recrutes Bresnahans got and its just like makeing candy for a baby so of corse I kept on smokeing cigrets when ever I felt like it only not when Bresnahan was a round not because I was a scared of him but I knowed som of the rest of the boys would feel like rummys if they seen me smokeing when they couldent. So evry thing was going a long O. K. till we was in to supper last night and the floor walker showed I and Gussy to the same table where Bresnahan was seting and after his supper was all over Bresnahan says a cigret would go pretty good now and Gussy says why dont you smoke 1 and he just laughed and 1 was giveing her the wink to shut up and say no more but she kept right on and she says to me Bill why dont you give Mr. Bresnahan a cigret if he aint got none and I says I aint got none nether and she says why you just opened up a new packige up stares before we come down and then Bresnahan buted in and says to me have you been smokeing cigrets and I says only 1 because I for got my self and bought a packige but I hadent no more then got 1 cigret out of it lit then I remembered my self and throwed it a way and throwed the packige a way and Bresna-han says Well it will cost you \$10.00 dollars for for getting your self and that will help you remember your self after this and then

e got up and went a way from the table. Toronto Kennel Club was concluded in

TO REFEREE HEAVYWEIGHT FIGHT Immediately Went Into Conference With Promoters -Johnson and Willard Are Getting in Final Touches-Johnson Insists on Prelim inary Bout With Sam McVey Great Demand for Seat Reservations-Camp Gossip

JACK WELSH ARR IVED AT HAVANA

for the world's heavyweight champion-ship, landed in Havana at an early hour this morning. Accompanied by the members of his party, he came over from Key West last night. No sconer was the referee ashore than he started upon a series of conferences a with the fight promoters. At these meetings Welsh's ideas and plans were discussed with both principals, and he secured interpretations of the rules from each side. Armed with this informa-tion, the referee will then prepare his own system of refereeing the fight. It is probable that he will call a conference ratification. ratification. Weather conditions today

In Sunday for final explanations and ratification.
Weather conditions today were the best for training purposes that have prevailed for a week. It was clear and cool and both Johnson and Willard were on the road early for their final runs.
They sprinted alternately, with a mile or so of steady running. Tomorrow and Monday the men svill do little more than trot and walk. Boch plan a heavy exhibition schedule this afternoon before the half-holiday crowds. A feature of Johnson's work will be a six-round bout with Sam McVey. The promoters have given plon from doing this for feat' of possible injury to himself. They have cautioned him, however, to go easy and have been given a promise to that effect.
The line formed in front of the ticket windows this morning before the bax office was opened. Many of the late arrivals who made no seat reservations before coming to the taxea are surprised at the demand for tickets. They complain that many of the best seats already have been sold, and explain that they expected to get ringside seats as late as sunday.

HAVANA. April 3.—Jack Welsh, who will referee the fight next Monday be-tween Jack Johnson and Jēžs Willard for the world's heavyweight champion-ship, landed in Havana at an early hour this morning. Accompanied by the members of his party, he came over from Key West last night." No sooner was the referee ashore than he started upon a series of conferences with the fight promoters. At these meetings Welsh's ideas and plans were discussed with both principals, and he secured interpretations of the rules from each side. Armed with this informa-tion, the referee will then prepare his own system of refereeing the fight. It is

WELL Steve I was so sore I couldent hardley talk but finely I says to Gussy your a fine wife why don't alk but finely I the old Y.M.C.A., Yonge and McGill streets, Saturday night. Canines of every WELL Steve I was so sore I couldent hardley talk but finely I says to Gussy your a fine wife why dont you go over to Paris where the wars at and get a job is a spy and she beggin to blubber so we had to get up and leave the dinning rm. and I hadent et only 1/2 my dish of prunes and we went up stares and I give her the balling out of her life and I says to her I was going to give you \$10,00 to buy a new hat for your self but now going to give you \$10.00 to buy a new hat for your self but now ferent parts of the country with their its your falt 1 got find \$10.00 and you can go with out your hat winners and non-winners. The following and she says I would rather go bear head it then ware a \$10.00 is a summary of the Saturday winners: hat and besides if you was to try and suppurate your self from \$10.00 dollars to give it to me you would drop dead so I says Well I would rather drop dead then live with you and she dident have no more to breeders, Miles and Coles; by Inferno say so I dident say nothing nether but this morning i went up and Douglas-Inferno Firefly. say so I dident say nothing nether but this morning i went up and seen a atty and I told him what come off and he says well what do you want to do a bout it and I says I want to get a devorce thats what I want to do and he says on what grounds and I says not on no grounds but in a cort room some wheres and he says I dident have no cause for devorce and soked me \$10.00 dollars more for telling me that and I was a sucker for ever going to a atty here but should ought to of waited till I get back to Chicago but you can bet evry nickle you got that I will get a devorce some time and bet evry nickle you got that I will get a devorce some time and soke Gussys old man for allimoney to and marrying me under falts pretenses. What do you think of a woman like that that spills evry thing she knows and we aint been here much more than a wk, and shes all ready costed me \$20.00 dollars \$10.00 for attys feaze and \$10.00 that Bresnahan find me and of corse he aint got it yet but will take it out of my 1st pay day but if he does I will jump to the federals because they cant no mgr. take my money and get a way with it but if shes going to cost me \$20.00 per wk, out side of her bord and close you can see my finnish and I cant hardley wait till I get where theys good attys and get rid of her and a mans a sucker to marry unlest you knowed the girl all there life and know shes got more sence then tell on you smokeing cigrets. Besides I was haveag a better time when I was a batchler and dident have no wife and then the girls wasnt afrade to write to me and call me up. The best way Steve is be sure you know the girl 1st. and then dont marry

them unlest you dont want to have no more fun. They take the hart right out of a man. BILL

Special General Meeting of O. R. F. U. To Organize Western Intermediate Series

The objections which had been made to list to compute in OREFU.

Woodstock College furnished the main difficulty of classification. The feeling was that this college did not wish to play with town teams, and it was realiz-ed that the team was too good for the collegiate institute teams.

Bull Terriers. --Class 104-Puppy Rogs.--1-Mrs. Wadsworth, Inferno Tourist;

The calendar may not always mark the same date at Easter. Visible Spring may vary by the chances of latitude and the mysteries of season. But Easter has become the shining mark, the melodious signal of an awakened consciousness, a fresh realization of an eternal recurrence. That Woman should particularly emphasize Spring is as reasonable as that all art, all poetry, should choose her to symbolize it. Copyright, 1915, by Newsgaper Feature Service, Inc. By THOMAS O'HALLORAN

B IRDMAN BRANIGAN of the Flying Corps had left an arm at the front. On the well recog-nized principle that the power of a lost limb is bequeathed to some other member, the tongue of him was that much richer in colorful twist and

"What I'm about to relate," says he lo me, "bein' that the tellin' of it will not prejudice the military operations agin' the inimy. has to do with the famous ixpert, Lombardi, who had written a book about war, laudin' war, mind ye, on general principles, be-fore there was the war. He called war a biological necessity, or some foreign term like that, meanin' that we, the human race, could not do without it and wouldn't be happy till we got it. I'll tell ye what happened to him when Aviation Lieut. Ken-nedy and meself descended unexpected on his tem-porary domicile.

"Tis necessary to remember that this expert had "Tis necessary to remember that this ixpert had never so much as smelled a battle. He had never got the stench from the No Man's Land between the trenches. He had never dodged a bomb while watchin' the antilke mandenvres of what ye know are flesh and blood, but as far as appearances go might be just unhuman landscape. He had never dug into the earth's intestines alive to postpone the time when the same earth would cover him up dead. He had never grown callous about women or forgot-ten how to cry, as fightin' men do. But he had written a book about war. "Understand. I'm not much of a reader meself.

"Understand, I'm not much of a reader meself, at least I wasn't before I was hobbled for life by my last fall, bein' more interested in aerial navigation than in absorbin' hot air from between the covers of

last fall, bein' more interested in aerial navigation than in absorbin' hot air from between the covers of books, and more concerned about flyin' in a biplane than about flights of the imagination. I'd rather book at life down a spiral of clouds than have my brain clouded with a lot of misty words. But I had read enough of Lombardi to get a pretty good idea of the man and what he stood for. "And this is about how he sized up in my humble estimation: I figured him as the kind that wouldn't put his fists up in a fair and square fight —but he'd put pizen in a well. He'd stand in front of a lookin' glass and tell himself how much brains he had con-cealed under his dome —and beat up his wife regu-lar every Saturday night. He'd draw a diagram provin' he was one of the Lord's anointed instruments —and take a penny from a blind man's tin. By algebra and logarthms he'd convince himself that he had a double-sized heart —when in fact it was his liver that was beatin' ag'in his ribs. I'm free to confess if was a hard picture of him I'd drawn in man who'd set millions to hackin' each other in the name of God or destiny, or whatever he called it? "Of course ye'll say that no man alone, and es-pecially no man's book,s could do as much of the devil's own work. Maybe no and maybe yes. A measily little torpedo can blow up a dreadnought, can't it, now? Well, anyhow, the more I had seen of war the more I'd maturally hate any one who had the nerve to tell the world that war was a boon to humanity. "It's only them that sits in soft arm chairs that

humanity.

"It's only them that sits in soft arm chairs that

"And that's why we didn't scurry with our tail between our legs back to where we could shut off the engine and volplane to harbor in our own lines. We hadn't seen an Albatross before, but we had heard about them ad nausea, as they say, and all about what they could do. It surely would take some wind out of their sails if our little Thrush could put one of them out of commission, sort of unbeknownst to them.

them. "When the curtain of cloud opened and the pound of the railroad engine on the tracks became more like the gentle murmur of a boiler factory in full blast, we saw three of the bloomin' Albatrosses steamin', or rather gasolenin' in our direction. Not one, mind ye, but three, and in a funny sort of way I found meself admirin' them as the hummin' bird must admire the eagle. eagle.

eagle. "Higher!' shouts Spug. They may not have seen us. The darker it gets the better,' says he. 'God knows what divil's business they're on and it's our duty to do our damnedest.' "Twas afterward I learned the business that brought them wingin' across the peaceful evenin' sky. And the devil's business it was, when you consider the women and childer that paid for it. But that was afterward. "We mounted up the stairs to the stars, if there had been any stars shinin', but the clouds had come up heavy out of the east and there was no moon that would be comin' to silver 'em. It was growin' darker every minute. The Albatrosses were about five miles away when we first sighted them, and about 3000 feet below us as we made them out nearer, ugly lookin' shadows in the shades o' night. lookin' shadows in the shades o' night. "We might have known that they carried search-lights, but I didn't think of that until they began gropin' out in the skies with their pointin', accusin' fingers of fire, and circlin' around like lightnin' bugs, now flashn' here, now there. "We had this advantage, that tho they might pick "We had this advantage, that tho they might pick us out, for we were aware now that they knew wo were on the job in doin' so they would disclose their positions to us, and havin' a strategic upper hand in our greater height, we might be lucky enough to land a bomb, as ye'd drop a bouquet from a baccony box. Even new we could have gone to earth with only a small chance of gettin' hurt, if Spug Kennedy didn't have the heart of an eagle. As for moself, well there are glorious compensations in war, even if 'twas Lombardi who said so Lombardi who said so "Well, we must have played hide and seek in circlin' and manoeuvrin' for position for as much as half an hour, and by this time ye couldn't see the half an hour, and by this time ye could be the propeller in front of ye. There was not much said between Spug and me outside of his buttle orders. He was watchin' the searchlights and the search-lights was tryin' to keep up with us. Of a sudden lights was tryin' to keep up with us. Of a sudden our planes were lit up like the inside of a tent when a candle's burnin'. They's found us and vicey versey,' says Spug, and lets drop a bomb over the side in the general direction of the shaft of light that was hittin' us from directly beneath. It was like droppin' a ball down a chute. Of course it called for quick work, but that's what Spug Kennedy was waitin' for. "It must have hit the petrol tank, for when the explosion came we felt like we were flyin' over an active volcano. I think maybe that it was a volcano for the poor divils that were blown to smither. Mark off one Albatross," sings Spug, as if checkin' up accounts with particular emphasis on the num-ber. Spug surely had what you might call an insatiber, Spug surely had what you might call an insati-able appetite. As if one Albatross wusn't glory enough for our little Thrush. "I figured that for a long time we had been hover-in' over, far over the inimy's lines, and it did seem remarkable, now that I came to think of it, that we had not been bothered by searchlights from the land. Most likely 'twas that they knew the Albatrossee

were due to pass at this hour on their way to a raid and didn't want to invite our force's attention to them more than was necessary, allowin' at the same time that the little Thrush they saw peepin' at them before dark would flutter away harmless at sight of the devil birds from the east. "But almost simultaneously with the explosion of the Abatross the whole sky was a bonfire from a multitude of searchlights, and we knew that the two to the lookouts of the remaining two Albatrosses and that vengeance was the word. "It was vengeance surely that brought the two from the search of the the two the squadron had set out to perform, they were evidently in no mood to let the impudent interrup-tion go without punishment. There were only two courses open for us now; one was to circle around and take our chances on gettin' another of them be-fore we were raked by their machine guns and the other was to make a run for it.

other was to make a run for it. "'Higheri' shouled Spug, and then I knew that we were goin' to stick. As I said before, spug had an insatiable appetite. "But the lights concentrated on the Thrush and avoided the mountin' Albatrosses. Only the per-sistent pound of their powerful engines gave us the slightest idea how near they were gettin' to us. We didn't know that we were flanked till we saw a spurt of flame to the right of us and another to the left of us, followed by a rippin' along the seat back that separated me from Spug. "They've got our range! Full speed ahead!'

"They've got our range! Full speed ahead!" ordered Spug, and I squirted in the juice. "I don't think we ever paused to thank God it was not the engine or us that stopped those bullets in-stead of the seat back. I only knew that we had to get out of that light and away from those guns. And the Thrush seemed to know it, too. I cut out the multer and made a dash for the dark. "As I told we before I weap"t thinking about Full speed ahead! "As I told ye before I wasn't thinkin' about our book friend, Lombardi, not for a moment, but as I've figured it since, accordin' to his cold-blooded formu-las, the situation in which Spug Kennedy and meself found ourselves would have been analyzed by him something like this: "On the general principle that in war ye shouldn't-set out to do a thing that ye hadn't prepared twenty-five years to do we should never have stayed up after dark without havin' provided for an elaborate system of colored signals to fix for us the location of our mething like this: dark without havin' provided for an elaborate system of colored signals to fix for us the location of our aviation camp. "On the general principle that ye should havy naught to do with an inimy in overwhelmin' num-bers we should have dropped to earth at the first indication of the approach of the Albatrosses. "And on the general principle that the destruction of one Albatross was of greater military importance than the preservation of the Thrush and our own skins it was a matter of complete indifference what-ever happened to Spug Kennedy and Andy Branigan. "Strange as it may seem, the last of those general principles made no more appeal to us than the others. To have done what we had may not have been war, accordin' to the books, but it was magnificent. And what we were doin' now, in tryin' to avoid the in-ivitable fate, may not have been magnificent, but it was war, as we conceived it. We were makin' a run for our lives —and that's all there was to it. With the lights of the inimy beatin' on us and them two monsters bent on rakin' us fore and aft and broad-side, we didn't have a chance in the world unless we got out of the imminous circle. We didn't know where we were goin', but we were on our way. " Are ye all right, Spug?' I shouted at the top of my lungs. " The as silk,' responds Spug, and his voice war my lungs. "'Fine as silk,' responds Spug, and his voice was drifted past my ears by the rushin' wind. I think we're losin' 'em. I just made out some flushes away in the rear of us. Keep 'er goin'. Branigan'

temps in the Paris salon.
"For about five minutes I had only two thoughts that I can seem to remember. One was as to keep in the sound of a couple of hours. The other thought I had was or a couple of hours. The other thought I had was burned to supple of hours. The other thought I had was or a couple of hours. The other thought I had was burned to supple of hours. The other thought I had was burned to supple of hours. The other thought I had was burned to supple of hours. The other thought I had was burned to supple of hours. The other thought I had was burned to supple of hours. The other thought I had was burned to supple of hours. The other thought I had was burned to supple of losin' ourselves. I glanced over the side and there was not as much as a pin point of base. But Spug said. Keep her goin', and I did.
The minutes more and I begin to think again. No longer could I hear the sound of the railroad endities when I lay me ear on the frack. Evidently, which dashed up his words against my ear drums. "We've got to ôgure out where we are, he yelds." "Me've got to ôgure out where we are, he yelds. "Bail defore, there was not a light of frieworks of some were not outfitted for night flyin', which was a speciality of the inliny, with their colored fireworks of speciality of the land. their searchlights and there were here holdcator of the obaragraph. Maybe Longbard was right at that, about preparing waybe Longbard was right at that, about preparing waybe down. what ye do.

"Look at the compass. Get the general direc-tion!' howled Spug with the wind. "We had a gyroscope compase, fitted is to the sect back of the observer. At least we thought we had, till I groped with my gloved hand along the place ft was supposed to be. "Hell!' I shouted forward. 'It's gone! "Hell!' I shouted forward. 'It's gone! They hit it when they opened up on us." "Not a word from Spug, but I knew he was think-in' hard and deep. Here we were travelin' thru space at the rate of ninety miles an nour and not even knowin' the direction in which we were goin'. We might be goin' straight ahead or we might be goin' in circles, as far as we knew. We hadn't enough gas in the tank to stay up till day-light. The chances, if we tried to land on a risk, without so much as a lantern to guide us, were all against us. They against us. "If ye're born to be an airman, ye feel much bet-ter a mile up than ye do firtin' with a madin' place ye can't see. And there was always the chance that the mist would clear away and that we'd pick out some lights and a soft place to drop, even if it were inside the inimy's territory. Meanwhile, tho we had escaped the pursuin' Albatrosses, we were pursued by doubt. against us doubt. "We've got to see it thru,' says Spug finally. 'Keep 'er goin'. Branigan, and maybe we'll land in Tipperary.' Ye couldn't make that boy worry if ye pushed him down the ugly mouth of a howitzer. "Well, that's all I'm goin' to tell ye abou about this part of the story. I kept her goin' and the drizzle kept a-goin' and the gasolene kept a-goin' and the engine kept a-goin' --till it went dead. Then we started to volplane into a bottorniess pit. "Good-by. Spug,' says I, with a tear, it may be, in what was left of me volce. "'Good-by nothin',' sang back Spug. 'I've got an engagement down below with the sweetest girl.' 'As we glided down I could imagine them As we glided down't could imagine them diggin; out of the wreck of the Thrush two little tin identi-fication tags that would be all the mortal remains of Spug and me. As I recollict it I sort of toyed with this idea till I got to be feelin' that me whole body was a flattened out piece of tin with some letters printed on it. Well, as it's me that's telin' ye tha story, ye know that no such thing happened at all, at

like of us. Our landin' was as noiseless as the due of a feather on a field of plush. "While there's life there's ambition, suggested spug when the wheels had run to the cod of the momentum, without even barkin' a tree. But, fait there was little ambition in the limbs of either of a as we scrambled out onto the thrice welcome at the there was little ambition in the limbs of either of a as we scrambled out onto the thrice welcome at the there was little ambition in the limbs of either of a as we scrambled out onto the thrice welcome at a set of the thrice welcome at each other long and stendy and the less way. Then we started to gaze around to g a line on the topography of the country. "As our eyes became accustomed to the surroundings it was plain we were in no topulous centro of civilization. On all sides of us stratched the vere carpet of the lawn or meadow, and in the d tance I soon was able to make out dense woods the were as black as ink, enclosin' us on all sides. The were no lights of human habitations. "Let's reconnoitre a.bit's says I, and we started in no certain direction, our legs draggin' after a like the talipiece of the big guns when they're go into action.

like the tailpiece of the big guns when they're got into action. "We hadn't gone more than a hundred paint yards when we halted in our tracks. Out of u woods there loomed the big pile of a stone hou Ye must remember we were sensible enough to fet our artillery along with us. Spug had his rifle a we both had pistols at our sides. "We studied the house for a couple of minute it was a pretentious kind of dwellin'. I should a the not what ye'd call a baron's castle. "From me knowledge of architecture' remar Spug quietly, and judgin' by the giniral contour the establishment, I am fuin to be thinkin' that y are in the inimy's country." So let us be raisonal in our approach."

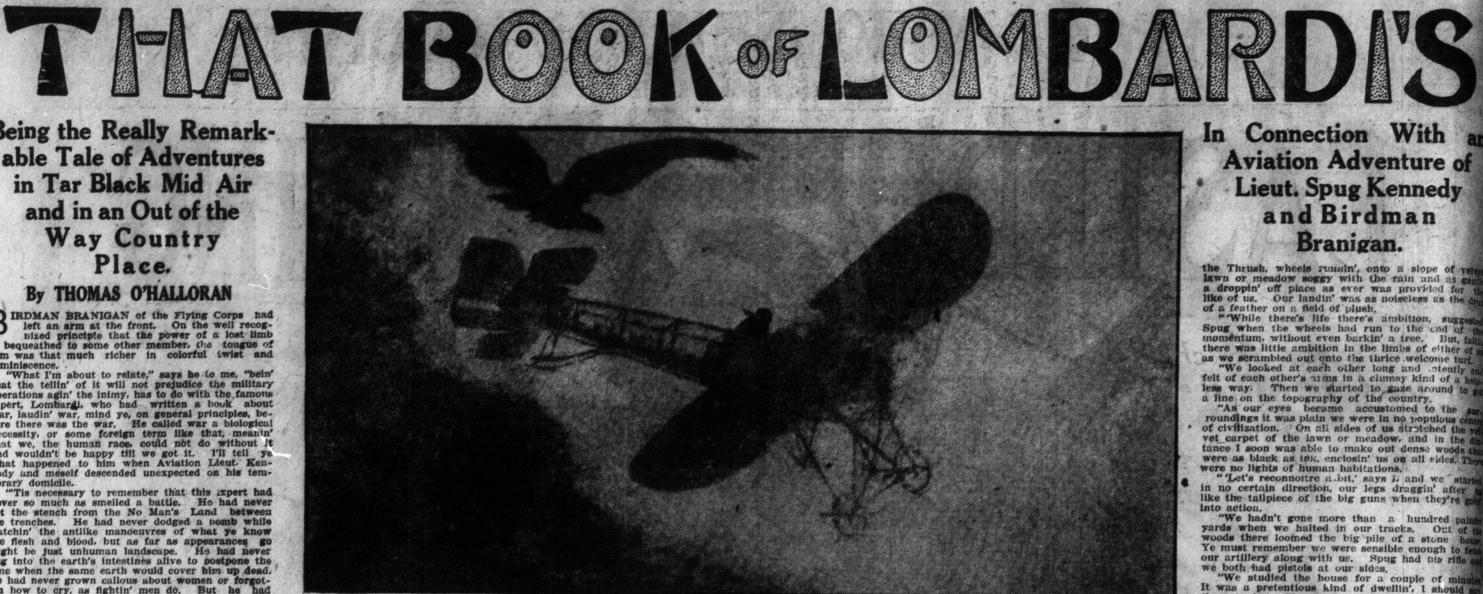

"There was no sign of light or human in the fn of the house, for a certainty, nor in the back, which we next pulled our feet. We had turned investigate some smaller buildin's in the rear 10 might have been a barn and a garage when from a of them come forth an old man with a dim look leastern

lantern. "I knew he was old by the testerin' wabble a motion of him. Spug and I forgot all about o achin' legs and before the old duck knew what h happened to him he was between two hobgobil and all he could do was to let out a croak like dyin' gasp of a stuck pig. I lifted his lantern r got the look of terror in his seamed old countonan Sure, there was nother to fear from this laderb Sure, there was nother' to fear from this ladyt if it weren't that he die on our hands from a fright.

"I tried some soothin' words on him, to reas him we were but human and seekin' for informa but he only shook his old gray head in a hel kind of way and muttered something I souldn't "'He's a furriner,' remarks Spug with marve

"He's a furriner, remarks byog with marves intilligence. "Then the old man began to motion with hi lantern in the direction of the house and mutter som more. I couldn't make head or tail of it, till heard him say over and over again somethin' th sounded like 'bombardment,' but gradually took the general conformation of 'Lombardi.' "I repeated the word and the old duck positives frew animated with the joy of makin' are under stand; and kept on sayin', 'Lombardi. Lombardi,' nod din' toward the house. "It sounds like some kind of cheese, says Sput But we're hungry at that, and as long as we can' do anythin' better, let's try what kind it is." "So arm in arm the three of us went to see what took to be the back entrance of the house. I took to be the back entrance of us went to see w I took to be the back entrance of the house. Su we could not run into anythin' worse than bein' tak prisoner by overwhelmin' numbers, we bein' with gasolene or a compass and not knowin' where were. As we went along I kept repeatin' that we 'Lombardi' and scratchin' me head and pullin' wool of me memory, wonderin' where I had heard before. before. "We followed the old man into the house down a corridor of shadows lit up by the we good for nothin' lantern. There wasn't the of another light anywhere within no more than w out, nor a sound but our footsteps. "Our guide made a noise like wantin' te ope door, and we let him fumble with the knob, us sis in' either side of him. door. and we let him fumble with the knob, us stand in' either side of him. "Lombardi,' he cackled as he opened, and Spu and I had our fingers on the triggers as our eve blinked in the light of an imminse room. "Now, what the divil does he mean by Lom bardi? I kept puzzlin' inside meself. "Lookin' down a long line of books in shelves of the walls. I saw a table lit up more than the rest of the walls. I saw a table lit up more than the rest of the walls. I saw a table lit up more than the rest of the walls. I saw a table lit up more than the rest of the walls. I saw a table lit up more than the rest of the room. And from the back of the table I saw i a man that, judgin' by the peaceable looks of his was not the one to trouble Spug and me or give I any occasion to use our artillery in the guntle at a self-defence. He was in a long kind of dress gown. with a cord arcund the walst of it, and ew in this that bulged him out he looked thin and gam like. He had a pointed dark beard and wore an glasses with heavy rims. His dome was as had the tip of a cartridge. His bony hands clitched or to the table edge as he stood there with a look a mazement on his face that was the funnisst esp pression I ever saw. I wanted to laugh, but whi I glanced at the appearance of Spug and applied if impression I got from him to meself I didn't blan the whiskered chap. "What would ye think, now, if ye were a nege the whiskered chap. the whiskered chap. "What would ye think, now, if ye were a peac able gintleman, sittin' at a library table, readin' writin' or somethin', and the first thing ye knew i door was opened and in stepped two big, roug lookin' bruisers, with wet and oily leather clothes hunched upon them, and leather visors pulled do over their face, with goggles for eyes? And o of them with a rifle on his arm and an automa in his hand and the other—that's meself—with a other automatic and holdin' onto a half-witted man with a toothless grin of terror and a lanter man with a toothless grin of terror and a lanters man' with a toothless grin of terror and the his hand? What would ye think, now? "Him not makin' any sign of an advance by w of hospitable welcome, and us thinkin' of the pu-sible prisence of bells or telephones that might handy to the whiskered chap, we moved in a mation to the table.

"Rivalry between the Eagle and the Aero," from a painting by Leon Printemps in the Paris salon.

sees any boon in it. I'm not denyin' that it has its good sides for all that. It brings out the finest of man and race, but so does an earthquake, for that matter, and so does every calamity, but we don't go around invitin' earthquakes and floods and eruptions of Vesuvius, do we now? I think not. "Ye know, then, what I thought of Lombardi, tho I wasn't thinkin' of him at all, at all, when, in the dusk of evenin' Kennedy and meself seats ourselves in our cute little biplane which we had christened the Thrush, for a neighborly reconnaissance of the inimy's trenches. inimy's trenches.

"We had put some of their howitzers out of com-mission that afternoon, and we were curious to see just how much they were takin' it to heart. So when the word comes from division headquarters for

when the word comes from division headquarters for us to take a peep, we tuned up and made ready with most cheerful alacrity. "I was the pilot in the back seat and Spug Ken-nedy —I'll call him that for friendship's sake, tho he had "Lleutenant" as handle to his name — was the observer in the front seat, with a rfle in the crook of his left arm and binoculars in his right first. We carried a few bombs for expression We carried a few bombs for emergencies, ch, like the poor, were always with us. 'Up she goes!' Spug gave the word. 'We'll refirst.

turn anon. "With a laugh he waved his hand with the glasses

to the boys that were seein' us off. Spug was always as happy goin' up as if he were takin' a ride in a jauntin' car. I got busy immediately with the engine and levers. Everythin' responded swate and reasonable. The earth fell down in the general direction of the antipodes and soon we were flirtin' with the bars of red and gold shootin' up from the sun, a fallin' ball of fire in the west.

When the indicator showed that we had climbed two thousand feet, Spug gave the word to circle round, extendin' our circles gradually south towards round, extendin' our circles gradually south towards the inimy's lines. Some of the same inimy's ships had been buzzin' over our trenches an hour or so previous, but our guns had winged one of them and she had limped back home beyond the river quicker'n she had risen. The others had profited by the ex-ample and the skies were now clear of them. We weren't afraid of any of their type, even if they did come up after us now. The Thrush had a little on all of them in the way of speed and ease of handlin'. Anyhow, we weren't afraid. Anyhow, we weren't afraid

"As we approached the inimy's lines his concealed angle guns began to spout and pop at us, but a little rise of two thousand feet more and we haughed at them. The Thrush was surely a sweet bird on the wing. All ye had to do was to press a button and

wing. All ye had to do had here had be a she'd do the rest, "Spug Kennedy was lookin' thru his glasses for the location of the howitzer battery we had put out of commission. Our observation balloon had marked the shots that had done the work and the battery mentioned from that time on, but its position behas silenced from that time on, but its position be-ind a wooded rise of ground was out of the ken of balloon observer, and it was up to us to verify extent of the disaster and find out what the "We scouted around without success for more

than an hour, seein' more than we come to see, but not scein' that. Meanwhile the sun had disappeared and a big black giant was walkin' with tremenjous strides over the land, blottin' out with the bulk and shadow of him the squares of the checkerboard on which the same of way way blowd which the game of war was played and the criss-cross trenches that marked the moves of the players.

'It's gettin' dark.' I shouted to the big sh in front of me, my words fightin' thru the wind we were ploughin' out of a dead calm. "Divil a bit I care,' came back from Spug. T'm

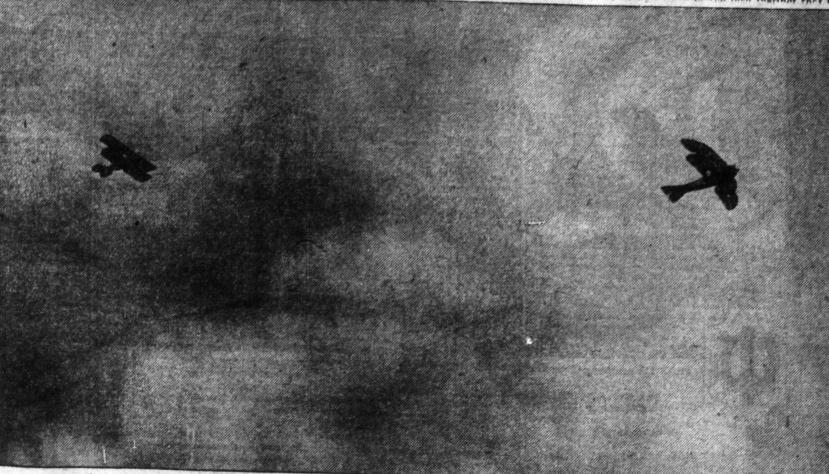

goin' to locate that battery if we've got to stay up till mornin'.' Which was all foolishness, ye'll mind,

but that was Spug's peculiar temperament, "All of a sudden we heard a sound comin' along the air currents like the sound of an approachin' railroad engine when ye put yer ears to the rails. We had our muffler in, but even at that we knew that to hear that sound meant somethin' more pow-erful in the flyin' line than any of the inimy's ships that had been around before. It had gradually been cloudin' to the east, and it was from the east the sound came.

There's an Albatross in the offing, Branigan, Heave to!' should Spug. "Ye should have seen the Thrush come about, as

I climbed her up to an air lane another two thousand feet. An Albatross, ye remember, bein' three times as big as the Thrush, armored and mountin' ma-chine guns. In the dim light we watched that cloud bank in the east as ye watch a curtain go up on a play. At that we weren't averse to eggin' the actor with a bomb or two if we could get a nice little gal-lery seat above when the Albatross came on the stage.

"It must have been the hand of a gool guardian

from 43,512 to 44,947. How Work Is Divided

Having dealt with the general, let us now turn to the particular and place our modern ship's company, dealing with the very latest type of dreadnoughts, viz the Iron Duke class. In the first place a ship of this class carries roughly sixty officers (the Iron Duke, being commander in chief's flagsh.p, carries eight-seven.) Of the romainder, roughly one-third are seapositions at the guns, torpedo tubes, the unmagazines and shell room, skilled portion of the executive branch being utilized in the less important gun positions, handling rooms and ammunition passages, and so rapid is the fire of our modern guns that fairly large personnel is required in these positions to keep the guns supplied with ammunition.

of Altho the number and nature the guns largely dominates the question of what number of executive ratings should be carried, it does not entirely do so, because the working of the ship in ordinary times has also to be considered. The manning of boats, the working of cables, the gen-

large to work the ship.

their own department, and so labor- be lodged against them today. there is much steaming to be done at all ever the world wherever a ship of to "steal a march" on their competi-high speed seamen have to the sent war may he. Let us take a typical tors. Theoretically every ship is supa modern ship of war, with its com- these 43,617 were seamen ratings, paratively small number of guns and that is, men of the executive branch below to help trim coal.

We now come to the other classes, and of these the marines are the A. M. largest single unit, a battleship detachment numbering about seventy. These have their own special duties, the two most important being the carrying out of sentry duty in various parts of the ship and acting as officers' servants. They also as a body have their own special guns to man; outside this their work consists largely of cleaning ship, and when 900 men are corfined in the small space of a battleship the amount of cleaning

boiler room personnel quite 25 per cent., while if internal combustion en-gines took the place of the present type, a reduction of quite 60 per cent. In the personnel would follow. During the past few years we have been build-modern ship of war. The next is the medical branch. P. M.

The next is the medical branch. ing a number of small ships entirely The next is the medical branch-oil driven, and also five battleships Every ship is fitted with a specially known as the Oueen Elizabeths, equipped "sick berth," which is really which will use oil only. This policy the ship's hospital, and all minor cases at once shows its effect on the person- of sickness are attended to here, the nel, for while the total has gone up more severe ones being sent to one or to 104,487 for the year 1914-15, the other of the naval hospitals as opporengine room ratings show a small re- tunity offers. In the event of war the duction, from 44,777 to 44,746, while sick berth would be supplemented by the seamen ratings have increased an "operating theatre," fitted up be-low the water line, the doctors and

their staff, the sick berth stewards, carrying out this work. The sick berth stewards are all properly qualified medical and surgical assistants, on shore at 1 p.m. having to qualify at our naval hospitals before they can rise above the Certain Days for rank of "attendant."

The next and by no means the Certain Duties least important is the accountant branch. This comprises writers, ships' stewards and ships' cooks; all three tain days set aside for certain things, are under the direct supervision of the all of which are carried cut by order remainder, roughly one-third are sea-men and signal ratings, of what the accountant officers. The "writers," so of the "Flag" and timed from thet called, attend to all office work, pay ship. Monday forenoon, for example, navy cans the executive branch. A very fair proportion of these are ex-pert gunnery and torpedo ratings, and under the paymasters. They hold re- scon as the disperse from divisions is these would occupy all the responsible and confidential positions, sounded every eye is focussed on the as all documents pass thru their hands. flaghip to see what signal she will The ship's steward and his staff hoist, for no single soul in the fleet have control of all foodstuffs' clothing, knows what order the admiral in com-soap and tobacco and "implements," mand will give. Standing on the these latter including all the articles upper bridge of the flagship is that used by the messes connected with officer, and by his side his chief of their victualling. The name "ship's staff and perhaps his flag lieutenant. steward" is really a misnomer, as they It is reported to him that every ship are in no sense of the word 'stewards," is ready for exercise, and then he gives but the responsible victualling officials an order to his flag lieutenant. It of the ship.

The ship's cooks of course attend torpedo nets," "Out all wire hawsers." to the cooking and preparation of the or a dozen different things. The ship's company's dinners. In addition ready signalman bends on the flags to these there are officers' cooks and to the halyards and up they go to the officers' stewards, who are non-con- masthead. So far not a soul in the tinuous service men and therefore fleet moves, but directly the signal is largely civilian.

Last we have the ship's police, small answering pennant to show that they understand the signal. Again it is rethere must be enough to divide into letter to the fleet, in which they said: two watches, each watch sufficiently "The ship's police are to be used arge to work the ship. The next part of the ship's company taken that they are not given powers

is that which is officially called the they were never intended to possess." engineer branch. These are the stoker Taking them as a body, however, and engine room ratings, who absorb they administer their somewhat diff-roughly one-third of the crew. Their cult duties with fact and forbearance work is concerned exclusively with and very little proved complaint can there watches, and even then when a fleet is run on very similar lines will resort to all kinds of stratagens

daily duty routine during summer when a ship is in harbor:

4.30-Call boatswain's mates and is hauled down. Actually there is ship's police. 4.45--All hands lash up and stow

hammocks 4.50-Up all hammocks. 5-Cooks. 5.05-Hands to cocoa and wash.

5.35-Hands fall in, scrub decks, lower and clean duty boats. 6.15—Hands to bathe. 6.40—Watch below clean decks; watch on deck clean wood and

brass work. 7.50-Band call. Cooks. 8--Hoist colors. Breakfast. Hands clean. 8.30-Commander's defaulters.

8.45-Both watches fall in. 9.10-Divisions for inspection. 11.45-Clear up decks: Cooks. 12-Dinner

1.15-Clean guns-1.25-Both watches fall in. 3.45-Clear up decks for evening quarters. 4-Quarters.

4.30-Tea. Shift into night clothing. 5:30--Hands to bathe. 7.30-Supper.

9--Officer's rounds 10-Pipe down.

That is the kind of routine followed in every ship of war- in H. M. navy. After divisions at 9.10 the hands are told off-some for instruction, others to do the ordinary ship jobs that always want doing, and the same applies to the afternoon. In harbor it is also the proud custom to pipe "L4berty men to clean" and let these go

When a fleet is together there are cerflaghip to see what signal she will may be "Clear for action," 'Out

hoisted ship after ship hoists the

ported to the admiral that every ship has answered-and, by the way, if this is not done in a matter of seconds the laggard ship knows all about itthen the order is given "haul down," and the very moment that that signal begins to move in a downward direction the bugles of every ship blare forth and men rush away to complete their alloted task. The struggle is now for the post of honor-"first ship"; the completion of the evolution being signified by hoisting the finishing pennant on each ship as she finishes. So great is the competition posed to be in a quite normal and unprepared condition until the signal noting what evolution is to take place hardly a ship in the fleet but has prepared for practically every emergency; all the hawsers and tackle connected with "out boom defence." which means torpedo nets, are 1aid along. The booms themselves have

been lifted out of their "crutches" and are kept in place by a spun yarn which will break as soon as a strain is placed on it. And so with every possible evolution. Then should the admiral order the signal, "Out all boats; pull round the fleet," there is wild confusion and much profanity, and the ship which has made no preparation whatever is likely to be "first ship," for all the other preparations have got to be undone before a start can be made to get the boats Wednesday forenoon is usually de-

THE TORONTO SUNDAY WORLD

letters on Leave

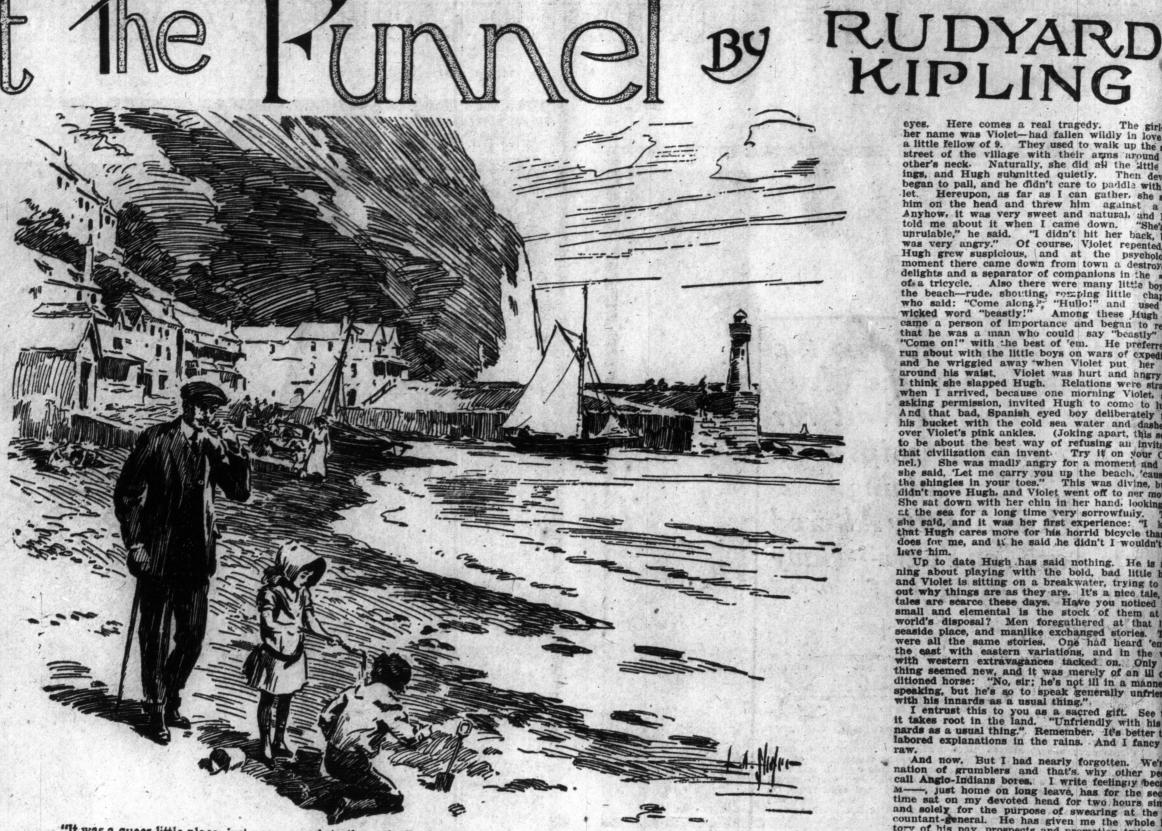

T⁰ Lieut. John McHail, ^{151st} (Kumharsen) P. N. L. Hakaiti, via Tharanda Assam.

Dear Old Man: Your handwriting is worse than ever, but as far as I can see among the loops and fishhooks you are lonesome and want to be comfort-ed with a letter. I knew you wouldn't write to me unleas you needed something. You don't tell me that you have left your regiment, but from what you say about "my battallon," "my men," and so forth, it seems as if you were raising military police for the benefit of the Chins. If that's the case I congratu-late you. The pay is good. Ouless writes to me from some new fort something or other saying he has struggled into a billet of Rs. 700 (Military Police). and instead of being chased by writers as he used to be is ravaging the country round Shitlong in search of a wife. I am very sorry for the Mrs. Ouless of the future.

to be is ravaging the country round Shillong in search of a wife. I am very sorry for the Mrs. Ouless of the future. That doesn't matter. You prabably know more about the boys yonder than I do. If you'll only send me from time to time some records of their movement's I'll try to tell you of things on this side of the watter. You say, "You don't now what it is to hear from town." I say, "You don't know what it is to hear from the dehat." Now and again men drift in with news, but I don't like hot weather khubber. It's all of the domestic occurrence kind. Old Hat Constable came to see me the other day. You remember the click in his throat before he be-gins to speak. He sat still, clicking at quarter-hour intervals, and after each click he's say: "D'you re-member Mistress So-and-So? Well. she's dead o' ty-phoid at Naogong." When it wasn't "M'stress So-an'So" it was a man. I stood four clicks and four deaths and then I asked him to spare me the rest. You seem to have had a bad season taking it all round: and the women seem to have suffered most. Is that so? Is that so?

Is that so? We don't die in London. We go out of town, and we make as much fuss about it as if we were going to the Neva. Now I understand why the trans-port is the first thing to break down when our army takes the field. The Englishman is cumbrous in his movements and very particular about his baskets and hampers and trunks—not less than seven of each— for a fifty-mile journey. Leave season began some-weeks ago. and there is a burrachoop along the streets that you could shovel with a spade. All the people that say they are everybody have gone—quite 200 miles away. Some of 'em are even on the Con-tinent—and the clubs are full of strange folk. I found a Reform man at the Savage a week ago. He didn't say what his business was, but he was dusty and looked hungry. I suppose he had come in for four and shelter. ood and shelter.

Like the rest. Fm on leave, too. I converted my-self into a government secretary, awarded myself one month on full pay, with the chance of an extension, and went off. Then it rained and halled and rained again, and I ran up and down this tiny country in trains trying to find a dry place. After ten days I came back to town, having been stopped by the sea four times. I was rather like a kitten at the bottom of a bucket chasing its own tail. So Fm sitting here under a gray, muggy sky wondering what sort of time they are having at Simla. It's August now. The rains would be nearly over, all the theatricals would be in full swing and Jakko Hill would be just paradise. You're probably pink with prickly heat. Sit down quietly under the punkah and think of Um-ballia station, hot as an oven at 4 in the morning. Think of the dak-gharry slobbering in the wet and the first little cold wind that comes round the first a wind you and I know well. It's blowing over the strass at Dugshai this very moment. and there's a smell of hot fir trees all along and along from Solon to Simla, and some happy man if flying up that road Like the rest. I'm on leave, too. I converted myto Simia, and some happy man if flying up that road with fragments of a fonga bar in his eye, his pet terrier under his arm, his thick clothes on the back seat and the certainty of a month's pure joy in front of him. Instead of which you're being stewed in Hakaiti, and I'm sitting in a second-hand atmosphere above a sausar show watching these the above a sausage shop watching three sparrows play-ing in a dirty green tree and pretending that it's summer. I have a view of very many streets and a river. Except the advertisements on the walls, there isn't one speck of color as far as my eye can reach. The very cat, who is an amiable beast, comes off black under my hand, and I dare not open the window for fear of smuts. And this is better than a soaked and sobbled country, with the corn shocks standing the plover's eggs in green moss and the coats lying flat in moist lumps. We haven't had any summer, and yesterday I smelt the raw touch of the winter. Just one little whiff to show that the year had turn-""Oh, what a happy land is England!" I cannot understand the white man at home. You remember when we went out together and landed at remember when we went out together and landed at the Apollo Bunder with all our sorrows before us, and went to Watson's Hotel and saw the snake charmers? You said: "It'll take me all my lifetime to distinguish one nigger from another." That was eight years ago. Now you don't call them niggers eight years ago. Now you don't call them niggers any more, and you're supposed—quite wrongly — to have an insight into native character, or else you would never have been allowed to recruit for the Kumharsens. I feel as I felt at Watson's. They are so dealthly alike, especially the more educated. They all seem to read the same books, and the same newspapers telling 'em what to admire in the same books. and they all quote the same passages from the same books, and they write books on books about somebody else's books, and they are penetrated to their boot heels with a sense of the awful seriousness of their own views of the moment. Above that they seem to be, most curiously and beyond the right of ordinary people, divorced from the knowledge or fear of death. Of course every man conceives that every man except himself is bound to die (you remember how Hallatt spoke the night before he went out), but these men appear to be like children in that respect. I can't explain exactly, but it gives an air of unreality to their most earnest earnestnesses and when a young man of views and culture and aspirations is earnest the trumpets of Jericho are silent beside him. Because they have everything done for them they know how everything ought to be done; and they are perfectly certain that wood pavements, policemen, shops and gas light come in the regular course of nature. Your can guess with these convictions how thoroly and cocksurely they handle little trifies like colonial administration, the wants of the army, municipal sewage, housing of the poor, and so Every third common need of average men ia, forth. for their mouths, a tendency or a movement or a federation affecting the world. It never seems to occur to 'em that the human instinct of getting as much as possible for money paid or, failing money, for threats and fawnings, is about as old as Cain, and the burden of their bat is: "Me an' a few mates o' mine are going to make a new world." As long as men only write and talk they must think that way, I suppose. It's compensation for playing with little things. And that reminds me. Do you know the university smile? You don't by that name, but sometimes young civilians wear it for very short time when they first come out. Something-I wonder if it's our brutal chaff, or a billiard cue, or which ?- takes it out of their faces, and when they next differ with you they do so without smilin But that smile flourishes in London. I've met it again and again. It expresses tempered grief, sor-row at your complete inability to march with the march of prigress at the universities and a chastened There is one man who wears it as a contempt. garment. He is frivolously young-not more than 35 or 40-and all these years no one has removed that smile. He knows everything about everything on this earth, and above all, he knows all about men under any and every condition of life. He knows all about the aggressive militarism of you and your friends; he isn't quite sure of the necessity of an army; he is certain that colonial expansion is nonsense, and he is more than certain that the whole step of all our empire must be regulated by the step of an our empire must be regulated by the knowledge and foresight of the workingman. Then he smiles—smiles like a seraph with an M. A. de-gree. What can you do with a man like that? He has never seen an unmade road in his life; I think he believes that wheat grows on a tree and that beef is dug from a mine. He has never been forty miles from a railway, and he has never been called upon to issue an order to anypody except his well-

"It was a queer little place, just near enough to the main line of traffic to be overlooked from morning until night."

fed servants. Isn't it wondrouss And there are battalions and brigades of these men in town re-moved from the fear of want, living until they are 70 or 80. sheltered, fed, drained and administered; ex-pending their vast leisure in talking and writing. But the real fun begins much lower down the line. I've been associating generally and very particularly with the men who say that they are the only men in the world who work, and they call themselves the workingman. Now the workingman in America is a nice person. He says he is a man and behaves ac-cordingiv. That is to gay he here a man and behaves accordingly. That is to say, he has some notion that he is part and parcel of a great country. At least, he talks that way. But in this town you can see thousands of men meeting publicly on Sundays to cry thousands of men meeting publicly on Sundays to cry aloud that everybody may hear that they are poor, downtrodden helots —in fact. "the pore workin'man." At their clubs and pubs the talk is the same. It's the utter want of self-respect that revolts. My friend, the tobacconist has a cousin, who is, ap-parently, sound in mind and limb, aged 23. clear-eyed and upstanding. He is a "skibbo" by trade-a painter of sorts. He married at 20 and he has two children. He can spend three-quarters of an hour talking about his downtrodden condition. He works under another Raj-mistri, who has saved money and started a little shop of his own. He hates that Rajunder another Raj-mistri, who has saved money and started a little shop of his own. He hates that Raj-mistri; he loathes the police; and his views on the lives and customs of the aristocraoy are strange. He approves of every form of lawlessness, and he knows that everybody who holds authority is sure to be making a good thing out of it. Of himself as a citizen he never thinks. Of himself as an Ishmael he thinks a good deal. He is entitled to eight hours work a day and some time off—said time to be paid for; he is entitled to free education for his children —and he doesn't want no bloomin' clergyman to teach and he doesn't want no bloomin' clergyman to teach -and he doesn't want no bloomin' clergyman to teach 'em; he is entitled to houses especially built for him-self because he pays the bulk of the taxes of the country. He is not going to emigrate, not he; he re-serves to himself the right of multiplying as much as he pleases; the streets must be policed for him while he demonstrates, immediately under my window, by the way, for ten consecutive hours, and I am probably a thief because my clothes are better than his. The a thief because my clothes are better than his. a thier because my ciones are better than his. The proposition is a very simple one. He has no duties to the state, no personal responsibility of any kind, and he'd soonner see his children dead than soldiers of the Queen. The government owes him everything because he is a pore workin'man. When the Guards tried their board school mutiny at the Wellington barracks my friend was jubilant. "What did I tell you?" he said. "You see the very soldiers won't stand for it." "What's it ?" "Bein' treated like machines instead of flesh and blood. 'Course they won't." blood. 'Course they won't." The popular evening paper wrote that the Guards, with perfect justice, had rebelled against being treat-ed like machines instead of flesh and blood. Then I thought of a certain regiment that lay in Mian Mir for three years and dropped 400 men out of a thou-sand. It died of fever and cholera. There were no pretty nursemails to work within the streets be-cause there were no streets. I say how the Guards ho pretty nursemaids to work within the streets be-cause there were no streets. I saw how the Guards amused themselves and how their sergeants smoked in uniform. I pitied the Guards with their cruel sentry goes, their three nights out of bed and their unlimited supply of love and liquor. Another man, not a workingman, told me that the Another man, not a workingman, told the that the Guards' riot—it's impossible, as you know, to call this kick up of the fatted flunkies of the army a mutiny —was only "a schoolboy's prank," and he could not see that if it was what he said it was the Guards were no regiment and should have been wiped out decently and quietly. There again the futility of a sheltered people cropped up. You mustn't treat a man like a machine in this country, but you can't get any work out of a man till he has learned to get any work out of a man till ne has learned to work like a machine. D—has just come home for a few months from the charge of a mountain battery on the frontier. He used to begin work at 8, and he was thankful if he got off at 6; most of the time on his feet. When he went to the Black Moun-tains he was extensively engaged for party sixteen tains he was extensively engaged for nearly sixteen hours a day, and that on food at which the "pore workin'man" would have turned up his state lifted nose. D— on the subject of labor as understood by the white man in his own home is worth hearing. The coarse —considerably coarse! But D _____ doesn't know all the hopeless misery of the business. When the small pig, oyster, furniture, carpet, builder or general shopman works his way out of the ruck he turns round and makes his old friends and employes sweat. He knows how near he can go to flay-ing 'em alive before they kick, and in this matter he is neither better nor worse than a bunnia of a havildar of our own blessed country. It's the small em-ployer of labor that skins his servant, exactly as the forty-pound householder works her one white servant bone and goes to drop pennies into the plate

to convert the heathen in the east. Just at present, as you have read, the person who calls himself the pore workin'man—the man I saw kicking fallen men in the mud by the docks last winter—has discovered a real fine, new original no-tion; and he is working it for all he is worth. He calls if the solidarity of labor bundobast; but it's caste—four thousand years old, caste of Menu — with old shett's mahajuns, guildtolls, excommunica-tion and all the rest of it. All things considered, there isn't anything much older than caste—It began with the second generation of man on earth—but to with the second generation of man on earth—but to read the "advanced" papers on the subject you'd imagine it was a revelation from heaven. The real fun will begin—as it has begun and ended many times before—when the caste of skilled labor—that's fun will begin—as it has begun and ended many times before—when the caste of skilled labor—that's the pore workin'man—are pushed and knocked about by the lower and unrecognized castes, who will form castes of their own and outcaste on the decision of their own punchayats. How these castes will scuffle and fight among themselves, and how as-tonished the Englishman will be! He is naturally lawless because he is a fighting animal; and his amazingly sheltered condition has made him inconsequent. I don't like inconsequent lawlessness. I've seen it down at Bow street, at the docks, by the G. P. O. and elsewhere. Its chief home, of course, is in that queer place called the House of Commons, but no one goes there who isn't forced by business. It's shut up at present, and the persons who belong to it are loose all over the face of the country. I don't think—but I won't swear— that any of them are splitting at policemen. One man appears to have been poaching, others are ad-vocating various forms of murder and outrage—and nobody seems to care. The residue talk—just heavens, how they talk, and what wonderful fictions they tell! And they firmly believe, being ignorant of the mechanism of government, that they administer the country. In addition, certain of their news-papers have elaborately worked up a famine in Ire-land that could be engineered by two Deputy Com-missioners and four average Stunts into a "woe" and papers have elaborately worked up a famine in Ire-land that could be engineered by two Deputy Com-missioners and four average Stunts into a "woe" and a "calamity" that is going to overshadow the peace of the nation—even the empire. I suppose they have their own sense of proportion, but they manage to keep it to themselves very successfully. What do you, who have seen half a countryside in deadly fear of its life, suppose that this people would do if they were chukkered and gabraowed? If they really knew what the fear of death and the dread of injury im-plied? If they died very swiftly, indeed, and could what the fear of death and the dread of injury im-plied? If they died very swiftly, indeed, and could not count their futile lives enduring beyond next sundown? Some of the men from your—I mean our —part of the world say that they would be afraid and break and scatter and run. But there is no room in the island to run. The sea catches you, midwaist, at the third step. I am curious to see if the cholera, of which these people stand in the most if the cholera, of which these people stand in the most lively dread, gets a firm foothold in London. In that case I have a notion that there will be scenes and panics. They live too well here, and have too much to make life worth clinging to-clubs, and shop fronts, and gas, and theatres and so forth-things that they affect to despise, and whereon and whereby they live affect to despise, and whereon and whereby they live like leeches. But I have written enough. It doesn't exhaust the subject; but you won't be grateful for other epistles. De Vitre of the Poona Irregular Moguls will have it that they are a tiddy-iddy people. He says that all their visible use is to produce loans for the colonies and men to be used up in developing India. I honestly believe that the average English-man would faint if you told him it was lawful to use up human life for any purpose whatever He beup human life for any purpose whatever He be-lieves that it has to be developed and made beautiful for the possessor, and in that belief talkatively perfor the possessor, and in that belief talkatively per-petrates crueities that would make Torquemada jump in his grave. Go to Alipur if you want to see. I am off to foreign parts—forty miles away—to catch fish for my friend the charcat; also to shoot a little bird if I have luck.

Necrapolis. I wanted an eligible, entirely detached site in a commanding position, 6x3 and bricked thru-out. I found it, but the only drawback was that I must go back to town to the head office to buy it. One doesn't go to town to haggle for tomb space, so I deferred the matter and went fishing. All the same, there are very nice graves at Woking, and I shall keep my eye on one of 'em.

eyes. Here comes a real tragedy. The siri-and her name was Violet—had fallen wildly in love with a little fellow of 9. They used to walk up the single street of the village with their arms around each other's neck. Naturally, she did all the little woo-ings, and Hugh submitted quietly. Then devoto began to pall, and he didn't care to paddle with Vio-let. Hereupon, as far as I can gather, she smat-him on the head and threw him against a wal Anyhow, it was very sweet and natural, and Hugh told me about it when I came down. "She's so unrulable," he said. "I didn't hit her back, but was very angry." Of course, Violet repented, but Hugh grew suspicious, and at the psychological moment there came down from town a destroyer of delights and a separator of companions in the was delights and a separator of companions in the of a tricycle. Also there were many little h of a tricycle. Also there were many little boys a the beach—rude, shouting, romping little chaps who said: "Come along "," "Hullo!" and used the wicked word "beastly!" Among these Hugh be came a person of importance and began to realise that he was a man who could say "beastly" an "Come on!" with the best of 'em. He preferred in the the best of 'em. He preferred is "come on!" with the little boys on wars of cynedic "Come on!" with the best of 'em. He preferred is run about with the little boys on wars of expedition and he wriggled away 'when Violet put her an around his waist. Violet was hurt and hngry an I think she slapped Hugh. Relations were strains when I arrived, because one morning Violet, and asking permission, invited Hugh to come to lund And that bad, Spanish eyed boy deliberately fills his bucket with the cold sea water and dashed over Violet's pink ankles. (Joking apart, this seem to be about the best way of refusing an invitate that civilization can invent. Try it on your Cal that civilization can invent. Try it on your Colnel.) She was madly angry for a moment and the the shingles in your toes." This was divine, but didn't move Hugh, and Violet went off to ner moth She sat down with her chin in her hand, looking at the sea for a long time very sorrowfuily. The she said, and it was her first experience: "I km that Hugh cares more for his horrid bicycle than does for me, and it he said he didn't I wouldn't b Leve him.

Up to date Hugh has said nothing. He is ning about playing with the bold, bad little I and Violet is sitting on a breakwater, trying to and Violet is sitting on a breakwater, trying to find out why things are as they are. It's a nice tale, and tales are scarce these days. Have you noticed how small and elemental is the stock of them at hit world's disposal? Men foregathered at that little seaside place, and manlike exchanged stories. The were all the same stories. One had heard 'em is the east with eastern variations, and in the west with western extravagances tacked on. Only one thing seemed new, and it was merely of an ill con-ditioned horse: "No, sir; he's not ill in a manner of speaking, but he's so to speak generally unfriendly with his innards as a usual thing." I entrust this to you as a sacred gift. See that it takes root in the land. "Unfriendly with his in-nards as a usual thing." Remember. It's better than labored explanations in the rains. And I fancy its raw.

raw. And now. But I had nearly forgotten. We're a nation of grumblers and that's why other people call Anglo-Indians bores. I write feelingly becaus M., just home on long leave, has for the second time sat on my devoted head for two hours simply and solely for the purpose of swearing at the ac-countant-general. He has given me the whole his torv of his pav. prospects and promotion twice over and in case I should misunderstand wants me to due when the me and near it all for the third time. If M-would leave the A.-G. alone he is a delightful man as we all know; but he's loose in London now, but ton holing English friends and quoting leave and any codes to them. He wants to see a member d ent chout something or other, and I believ

about something or other, and I bell big nights rolled up in a rezai on stairs of the India office waiting to catch a secretar i the India office. They are so beautifully ca ual and lazy, and their rooms look out over the Gree

Yours, Rudyard Kiping. . . .

II. O Captain J. McHail.

T^o Captain J. McHail. ^{151st} (Kumharsen), P. N. L, Hakaiti via Tharanda. Captain Sahib Bahadur! The last Pi gives me news of your step and I'm more pleased about it than many. You've been "cavalry quick in your promo-tion. Eight years and your company! Allahu! But it must have been that long, lean horse head of yours that looks so wise and says so little that has imposed upon the authorities. My best congratulations. Let out your belt two holes, and be happy, as I am not. Did I tell you in my last about going to Woking in search of a grave? The dust and the grime and

search of a grave? The dust and the grime and the gray and the sausage shop told on my spirits to such an extent that I solemnly took a train and went grave hunting thru the Necropolis-locally called tha

Seventh of a Series of Little Known Stories By the Famous Author Appearing Each Sunday, Which Represent His Earlier Style. PAGE FOUR

there are very nice graves at Woking, and I shall keep my eye on one of 'em. Since that date I seem to have been in four or five places, because there are labels on the bag. One of the places was Plymouth, where I found half a regiment at field exercises on the Hde. They were practising the attack in three lines with the mixed rush at the end, even as it is laid down in the drill book, and they charged subduedly across the Hoe. The people laughed. I was much more inclined to cry. Except the Major, there didn't seem to be any-thing more than 20 years old in the regiment; and on! but it was pink and white and chubby and under-sized, just made to die succulently of disease. I fancied that some of our battalions out with you were more or less young and exposed, but a home battalion is a creche, and it scares one to watch it. Eminent and distinguished generals get up after din-ner—I've listened to two of 'em—and explain that tho the home battalion can only be regarded as a feeder to the foreign, yet all our battalions can be regarded as efficient; and if they aren't efficient we shall find in our military reserve the nucleus—how I loathe that lying word —of the Lord knows what, but the speeches always end with allusions to the spirit of the English, their glorious past, and the certainty that when the hour of need comes the nation will "emerge victorious." If (sic) the engineer of the Hungerford Bridge told the Southeastern Railway that because a main girder had stood for thirty years without need of renewal it was therefore sure to sack. Our military authorities don't get the sack. They are allowed to make speeches in public. Some day, if we live long enough, we shall see the glories of the past and the "sublime instinct of an ancient people" without one complete army corps pitted against a few unsentimental long range suns and will begin to play, and it will not play. "Rule Britan-nia" until it has played some funny tunes first. D you remember Tighe? He was in the Decan

will begin to play, and it will not play "Rule Britan-nia" until it has played some funny tunes first. Do you remember Tighe? He was in the Decan Lancers and retired because he got married. He is in Ireland now, and I met him the other day, idle, unhappy and dying for some work to do. Mrs. Tighe is equally miserable. She wants to go back to Poona instead of administering a big barrack of a house somewhere at the back of a fog. I quote Tighe here. He has, you may remember, a pretty tongue about him, and he was describing to me at length how a home regiment behaves when it is solemnly turned out for a week or a month training colemnly turned out for a week or a month training under canvas:

under canvas: "About 4 in the mornin', me dear boy, they begin pitchin' their tents for the next day—four hours to pitch it, and the tent ropes a howlin' tangle when all's said and sworn. Then they tie their horses with strings to their big toes and go to bed in hollows and caves in the earth till the rain falls and the tents are flooded, and then, me dear boy, the men and the horses and the ropes and the vegetation of the country cuddle each other till the morning for com-pany's sake. The next day it all begins ugain. Just when they are beginning to understand how to camp they are all put back into their boxes, and half of 'em have lung disease." em have lung disease."

But what is the use of snarling and grumbling? But what is the use of sharing and grunnoing: The matter will adjust itself later on, and the one nation on earth that talks and thinks most of the sanctity of human life will be a little astonished at the waste of life for which it will be responsible. In the waste of the for which it will be responsible. In those days, my captain, the man who can command seasoned troops and have made the best use of those troops will be sought after and petted and will rise to honor. Remember the Hakaiti when next you measure the naked recruit.

measure the naked recruit. Let us revisit calmer scenes. I've been down for member what a really fine day means? A milk white sea, as smooth as glass, with blue white heat on the sand, warm shingle, four bathing machines, cliff in the background, and half the babies in Christ-endom paddling and yelling. It was a queer little be overlooked from morning till night. There was a baby--an Ollendorfian baby--with whim I fell madly in love. Park, and they are never tired of admiring the view Now and then a man comes in to report himsel and the secretaries and the under secretaries and the chaprassies play battledore and shuttlecock with his until they are tired.

until they are tired. Some time since, when I was better, more serious and earnest than I am now, I preached a jehad up and down those echoing corridors and suggested in abolition of the India office and the purchase of a four-pound-ten American revolving bookcase to hold all the documents on India that were of public value or could be comprehended by the public. Now ins more frivolous because I am dropping genity int the grave at Woking; and yet I believe in the book-case. India is bowed down with too much duffar as it is, and the house of correction, revision, d-vision and supervision cannot do her much good. saw a committee or a council file in the other day. Only one desirable tale came to me out of that d-fice. If you've heard it before stop me. It began with a cutting from an obscure Weish paper I think fice. If you've heard it before stop me. It began with a cutting from an obscure Weish paper I think A man-a gardener-went mad, announced that Low Cross was the Messiah and burned himself alt on a pile of garden trefuse. That's the first part I never could get at the second, but I am credibly informed that the work of the India office stod still for three weeks, while the entire staff took council how to break the news to the secretary of state. I believe it still remains unbroken. Decidedly, leave in England is a disappointing thing. I've wandered into two stations since I wrote

Decidedly, leave in England is a disappointing thing. Twe wandered into two stations since I wrote the last. Nothing but the labels on the bag remain —oh, and a memory of a weighing in at an east end fishing club. That was an experience. I form sathered with a man on the top of a bus, and we became great friends because we both agreed that gorge tackle for pike was only permissible in very weedy streams. He repeated his views, which were my views, nearly ten times, and in the evening in-vited me to this weighing in, at, we'll say, rooms of the Lea and Chertsey Piscatorial Anglers Benevolat Brotherhood. We assembled in a room at the top of a public house, the walls ornamented with stuffed twos and threes, and I was introduced to all of two be good enough for all practical purposes. There This and water birds, and the anglers came in by twos and threes, and I was introduced to all of 'am as "the gen'leman I met just now." This seemed to be good enough for all practical purposes. There were ten and five shilling prizes, and the affable and energetic clerk of the scales behaved as tho he were weighing in for the Lucknow races. The take of the day was one pound fifteen ounces of dace and roach, about twenty fingerlings, and the winner, who is in charge of a rallway book stall, described min-utely how he caught each fish. As a matter-of fact roach fishing in the Lea and Thames is a fine art. Then there were drinks-modest liftle drinks-and they called upon me for a sentiment. You krow how things go at the sergeants' messes and some of the lodges. In a moment of brilliant inspiration I gave "free fishing in the garks" and brought down the whole house. Sah! free fishing for coarse fish in the Serpentine and the Green Park water would hurt nobody and dó a great deal of good to many. The stocking of the water-but what does this in-terest you? The Englishman moves slowly. He is just beginning to understand that it is not sufficient London and to turn people into it with "There set

just beginning to understand that it is not sufficient to set apart a certain amount of land for lung of London and to turn people into it with "There, set along and play," unless he gives 'em something to play with. Thirty years hence he will almost ailow cafes and hired bands in Hyde Park. To return for a moment to the fish club. I got away at 11, and in darkness and despair had to make don. How Lieut. Leach, V.C., and Sgt. Hogan, V.C., recaptured a trench from the Germans.

The story of how Lieut. Leach, V.C., and Sgt. Hogan, V.C., recaptured a trench from the Germans, killing two and capturing sixteen, was given recently in The Manchester Guardian: "Lieut. Leach and Sgt. Hogan left the supporting trench with ten men about three o'clock in the afternoon. They crawled along the communicating trench and established themselves at a point where the trench that had been captured by the Germans the same morning turned sharply at right angles. Leach and Hogan then advanced. The aim of the two men was to drive the Germans back along the narrow trench to the opposite end, the cul-de-sac. Leach and Hogan commenced from their corner. Leach, being armed with a revolver, could reach his hand round the corner and shoot along the sections without exposing his body, whilst the German soldiers, armed only with rifles, could not fire without exposing part of their bodies. Whilst Leach was shooting DRAWN BY F. MATANIA FOR THE SPHE

along the section Hogan watched the parapet to ward off attacks from above as the Germans might crawl over from the section and shoot them down from above or take them in the rear. When the section had been cleared by the two men they took up their stand at the next corner and repeated the manoeuvre. Leach had now to fire with his left hand. As they advanced section by section Hogan put his hat on the end of his rifle and raised it above the parapet to indicate to the English how far they had made progress so that they (the English) would not sweep the part of the trench that had been retaken with their fire. This went on, corner after corner being captured, until the two men were approaching near to the Germans, when they heard one of their own men who had been taken prisoner in the morning call out, "Don't shcot; the Germans wish to surrender." Sixteen surrendered and twenty wounded Germans were also captured, making thirty-six prisoners in all.

Splendid opportunities for individual displays of heroism keep constantly arising along the battle front and the Canadian and British take tull advantage of them—The incident here illustrated occurred at La Boutillerie or a village near it, the censor's pencil left the exact location vague. The Germans held the place, and had posted in the main street, a machine gun that effectually barred approach. When night fell an officer and two men of the British ranks crawled up into the shadows of the houses, and springing suddenly upon the men around the gun, felled half the number. In three minutes the two men were lum-bering off with the gun while the officer held the rest of the Germans at bay. The three got back safely tho rockets lit up the village. Fifteen minutes later a battalion of Britishers, their path cleared of the gun, came tearing into the village and made a clean sweep of the Germans, gaining a distinct advantage.

SYNOPSIS.

Sanford Quest, master criminologist of the world, finds that in bringing to justice Macdou-gal, the murderer of Lord Ashleigh's daughter, he has just entered a life-and-death contest with a mysterious master criminal. Engaged by Professor Ashleigh, Lord Ashleigh's brother, to recover the stolen skeleton of an anthropoid ape, hurried to Mrs. Rheinholdt's reception, where her diamonds have been torn from her throat by a pair of hands without arms or body, a black box later appears from nowhere in his rooms and a note contained in it, signed by the armless hands, sarcastically suggests that the Rheinholdt diamonds and the skeleton may be hidden together. While Laura, Quest's secretary, shadows Craig, the professor's valet, Quest and Lenora, his assistant, find the skeleton in. a hut in the professor's garden, and discover there an inhuman creature, half monkey and half man. As the professor explains, the hut is set afire and the monkey-man and skeleton are destroyed in the flames. In Quest's rooms the Rheinholdt diamonds suddenly reappear, enclosed in a second black box with a note signed by the threatening hands.

AN OLD GRUDGE

CHAPTER X.

S ANFORD QUEST was smoking his after-break-fast cigar with a relish somewhat affected by the measure of his perplexities. Early tho it was, Lenora was already in her place, bending over her desk, and Laura, who had just arrived, was busy divesting herself of her coat and hat. Quest watched Well?"' he asked

Laura came forward, straightening her hair with

her hands. "No go," she answered. "I spent the evening in the club and I talked with two men who knew Craig, but I couldn't get on to anything. From all I could hear of the man, respectability is his middle name." "That's the professor's own idea." Quest remark-ed grimly. "I merely ventured to drop a hint that Craig might not be quite so immaculate as he seem-ed, and I never saw a man so horrified in my life. He assured me that Craig was seldom out of his sight, that he hadn't a friend in the world, nor a single vicious taste." single victous taste."

"We're fairly up against it, boss," Laura sighed. "The best thing we can do is to get on another job. The Rheinholdt woman has got her jewels back. or will have at noon today. I bet she won't worry

Lenora's voice suddenly grew steady. She turned round in her place and faced her - compan-She

"Mr. Quest," she said, "I like my work with you. You saved me from despair. Sometimes it seems to me that life now opens out an entirely new vista. Yet since this matter has been mentioned visia. Fet since this matter has been mentioned between us, let me tell you one thing. I. have known no rest, night or day, since we heard of — of James' escape. I live in terror. If I have con-cealed it, it has been at the expense of my nerves and my strength. I think that very soon I could have gone on no longer."

Ave gone on no longer." Quest's only reply was a little nod. Yet, not-withstanding his imperturbability of expression, that little nod was wonderfully sympathetic. Lenora leaned back in her place well satisfied. She feit

leaned back in her place well satisfied. She felt that she was understood. By Quest's directions the automobile was brought to a standstill at a point where it skirted the main railway line, and close to the section house which he had appointed for his rendezvous with Laura. She had apparently seen their ap-proach, and she came out to meet them at once, accompanied by a short, thick-set man whom she introduced as Mr. Horan.

"This is Mr. Horan, the section boss," she

planed. Mr. Horan shook bands. "Say, I've heard of you, Mr. Quest," he an-nounced. "The young lady tells me you are some interested in that prisoner they lost off the cars near

"That's so," Quest admitted. "We'd like to go

"That's so," Quest admitted. "We'd like to go to the spot if we could." "That's dead easy." the boss replied. "Till take you along in the handcar. I've been expecting you, Mr. Quest, some time ago." "How's that?" the criminologist asked. Mr. Horan expelled a fragment of chewing tobac-co and held out his band for the cigar which Quest

Anna Little, leading woman in the magnificent picture version of "The Black Box"— She plays the part of Sanford Quest's woman-detective.

seen him before."

"He was the most troublesome fellow on the line once, altho he was the biggest worker," the boss replied. "He got five years in the penitentiary and that seems to have taken the spirit out of him." "I believe I was in the case," Quest observed

"There's so! - Now then, young ladies," Mr. Horan-advised, "hold tight, and here goes!" They ambled down the line for about half a They ambled down the line for about half a

They ambled down the line for about half a mile. Then Horan brought them to a standstill. "This is the spot." he declared. - "Now, if you want my impressions you are welcome to them. All the search has been made on the right-hand side here and in New York. I've had my eye on that hill for a long time. My impression is that

"T'll take your advice," Quest decided. "We'll spread out and take a little exercise in hill climb-

"Good luck to you!" the boss exclaimed. "You'll excuse my waiting? It ain't a quarter of a mile back by the road, and I'm going a bit further on.

back by the road, and I'm going a bit further on-inspecting." Quest slipped something into his hand and the little party left the track, crossed the road, scram-bled down a bank and spread out. In Front of them was a slope some hundreds of feet high, closely overgrown with dwarf trees and mountain shrubs. It was waste land, uncultivated and uninhabited. Quest made a careful search of the sarubs and the ground close to the spot which Horan had indi-cated. He pointed out to his two companions the spot where the grass was beaten down and a few yards further off where a twig had been broken off from some overhanging trees, as tho a man had pushed his way thru. "This may have been done by the police search." he remarked, "or it may not. Don't spread out too far, girls, and go slowly. If we find any trace of James Macdougal on this hillside, we are going

"You bet!" that young woman declared somewhat brusquely. Quest hastened along the road to the spot where he had left the car. The chauffeur, who saw him coming, started up and climbed to his seat. Quest took his place.

this place. "Drive to the office," he ordered.

The man slipped in his clutch. They were in the act of sliding off when there was a tremendous re-port. They stopped short. The man jumped down and looked at the back tire.

Blowout," he remarked laconically.

Quest frowned. "How long will it take?"

"Four minutes," the man replied. "I've got an-other, wheel ready. That's the queerest blowout I

ever saw, though." The two men leaned over the tire. Suddenly Quest's expression changed. His hand stole into his

Guest's expression changed. This hand stole into the hip pocket. "Tom," he explained, "that wasn't a blowout at all. 'Look here!" He pointed to the small level hole. Almost at once he stood back and the sunshine flashed upon the revolver clutched in his right hand. "That was a bullet," he continued. "Someone fired at that tire. Tom, there's trouble about." The man looked nervously around. "That's a rifle bullet, sure," he muttered. The car was drawn up by the side of the road.

The car was drawn up by the side of the road,

The car was drawn up by the side of the road, a few yards past the section house. A little way further up was the tool shed, and beyond, the tower house. There was no one in sight at either of these places. On the other side of the road were clumps of bushes, any one of which would prove sufficient for a man in hiding. "Get on the wheel as quick as you can," Quest directed. "Here, I'll give you a hand." He stooped down to unfasten the straps which fastened the spare wheel. It was one of his rare lapses, realized a moment too late. Almost in his ears came the hoarse cry: "Hands up, guvnor! Hands up this second or I'll blow you to hell!" Quest gianced over his shoulder and looked into

blow you to hell!" Quest glanced over his shoulder and looked into the face of Red Gallagher raised a little above the level of the road. He had evidently been hiding at the foot of the perpendicular bank which divided the road from the track level. A very ugly little revolver was pointed directly at Quest's heart. "My mate's got you covered on the other side of the road, too. Hands up, both of you, or we'll make a quick job of it."

Quest shrugged his shoulders, threw his revolver into the road and obeyed. As he did so, the other man stole out from behind a bush and sprang for man stole out from behind a bush and sprang for the chauffeur, who under cover of the car was steal-ing off. There was a brief struggle, then the dull thud of the railway man's rifle falling on the chauf-feur's head. He rolled over and lay in the road. "Pitch him off amongst the bushes," Red Galla-gher ordered. "You don't want anyone who comes by to see. Now lend me a hand with this chap." "What do you propose to do with me?" Quest acted

"You'll know soon enough," Red Gallagher an-swered. "A matter of five minutes' talk, to start with. You see that handcar house?" "Perfectly well," Quest assented. "My eyesight is quite normal." "Get there then. I'm a yard behind you and my revolver's pointing for the middle of your back."

revolver's pointing for the middle of your back." Quest looked at it anxiously. "You have the air, my red friend," he remarked,

"of being unaccustomed to those delicate weapons. Do keep your fingers off the trigger. I will walk the handcar house and talk to you with p He sprang lightly down from the road, crossed the few intervening yards and stepped into the hand-car house.

<text>

signalman

"What the hell did you want to plug him for?" the latter muttered. "He ain't in the show at all. You've done us, Red, he's cooked!" Red Gallagher staggered to his feet. Already the horror of the murderer was in his face as he glanced

tively around.

"I never meant to drop him," he muttered. "I got mad at seeing Quest get off. That man's a devil."

"What are we going to do?" the other demanded hoarsely. "It's a quiet spot this, but there'll be some-one round before long. There goes the damned sig-nals already," he exclaimed as the gong sounded in

"There's the auto," Gallagher should de "Come on, come on, man! I can fix the wheel. If we've got to swing for this job, we'll have something of our own back first."

They crawled to the side of the road. Galla-sher's rough, hairy fingers were still trembling, but they knew their job. In a few minutes the wheel was fixed. Clumsily but successfully, the great Irish-man turned the car round away from the city.

"She's a hummer," he muttered. "I'll make her go when we get the hang of it. Sit tight." They drove clumsily off, gathering speed at every yard. Behind, in the shadow of the tower, the sig-nalman lay dead. Quest, half way to New York, stretched flat on his stomach, was struggling for life with knees and hands and feet.

. . . CHAPTER XI.

CHAPTER XI. MRS. Rheinholdt welcomed the inspector with a beaming smile as he stepped out of his office and approached her automobile. "How nice of you to be so punctual, Mr. French," she exclaimed, making room for him by her side. "Will you tell the man to drive to Mr. Quest's house in Georgia square?" The inspector obeyed and took his place in the inxurious limousine.

"How beautifully punctual we are!" she continued, glancing at the clock. "Inspector, I am so excited at the idea of getting my jewels back. Isn't Mr. Quest a wonderful man?"

"He's a clever chap, all right," the inspector ad-mitted. "All the same, I'm rather sorry he wasn't able to lay his hands on the thief. "That's your point of view, of course," Mrs. Rhein-holdt remarked. "I can think of nothing but having my diamonds back. I feel I ought to go and thank the professor for recommending Mr. Quest." The inspector made no reply. Mrs. Rheinholdt was suddenly aware that she was becoming a little tactless tactless tactiess. "Of course," she sighed, "it is disappointing not to be able to lay your hands upon the thief. That is where I suppose you must find the interference of an amateur like Mr. Quest a little troublesome some-times. He gets back the property which is what the private individual wants, but he doesn't secure the thief, which is, of course, the real end of the case from your point of view." from your point of view. "It's a queer affair about these pewels," the in-spector remarked. "Quest hasn't told me the whole story yet. Here we are on the stroke of time!" The car drew up outside Quest's house. The in-spector assisted his companion to alight and rang the bell at the front door. There was a somewhat prolonged pause. He rang again. "Never knew this to happen before," he remarked. "That sort of secretary-valet of Mr. Quest's—Ross Brown I think he calls him—is always on the spot." Brown 1 think he calls him—Is always on the spot." They waited for some time. There was still no an-swer to their summons. The inspector placed his ear to the keyhole. There was not a sound to be heard. He drew back, a little puzzled. At that moment his attention was caught by the fluttering of a little place of white material caught in the door. He pulled it out. It was a fragment of white em-broidery, and on it were several small stains. The inspector looked at them and looked at his fingers. He His face grew suddenly grave. "Seems to me," he muttered, "that there has been some trouble here. I shall have to take a liberty. If you'll excuse me, Mrs. Rheinholdt, I think it would be better if you waited in the car until I send with for you." out for you." "You don't think the jewels have been stolen again" she gasped. The inspector made no reply. He had drawn from his pocket a little pass key and was fitting it into the lock. The door swung open. Once more they were both conscious of that peculiar silence, which seemed to have in it some un-namable quality. He moved to the foot of the stairs and shouted: "Hello! out for you." "Hello! Anyone there?" There was no reply. He opened the doors of Continued on Page 7.

will have at noon today. I bet she wont worry about the thief. Then the professor's moldy old skeleton was returned to him, even if it was burnt up afterwards. I should take on something fresh." "Can't be done." Quest replied shortly. "Look here, girls, your average intellects are often apt to hit upon the truth, when a man who see too far ahead goes wrong. Rule Craig out. Any other possible person occur to you? Speak out. Lenora. You've something on your mind, I can see."

The girl swung around in her chatr. There was vague look of trouble upon her face. "I'm afraid you'll laugh at me." she began tentavague

tively.

"Won't hurt if I do," Quest replied. "I can't help thinking of Macdougal," Lenora con-tinued falteringly. "He has never been recaptured. I don't know whether he's dead or alive. He had a perfect passion for jewels. If he is alive, he would be desperate and would attempt anything."

desperate and would attempt anything." Quest smoked in silence for a moment. "I guess the return of the jewels squelches the Macdougal theory." he remarked. "He wouldn't be likely to part with the stuff when he's once got his hands on it. However, I always meant, when we had a momen's spare time, to look into that fei-low's whereabouts. We'll take it on straight away. Can't do any harm."

"I know the section boss on the railway at the spot where he disappeared," Laura announced. "Then just take the train down to Mountways-

that's the nearest spot—and get busy with him,' Quest directed. "Try and persuade him to loan us the gang's handcar to go down the line. Lenora and I will come on in the automobile."

"Take you longer." Lenora remarked, as she moved off to put on her jacket. "The cars do it in a quarter of an hour."

"Can't help that." Quest replied. "Mrs. Rhein-holdt's coming here to identify her jewels at twelve o'clock, and I can't run any risk of there being no train back. You'd better be making good with the section boss. Take plenty of bills with you." "Sure! That's easy enough," Laura promised him. "Till be waiting for you."

She hurried off and Quest commenced his own preparations. From his safe he took one of the small black lumps of explosive to which he had once before owed his life, and fitted it carefully in a small case with a coil of wire and an electric lighter. He looked at his revolver and recharged it. Finally he rang the bell for his confidential valet. he asked, "who is there else here today 'Ross."

besides you?"

V

"No one today, sir." "Just as well, perhaps," Quest observed. "Listen. Ross. I am going out for an hour or two, but I shall be back at midday. Remember that. Mrs. Rose Record who was Quest's scoretery, valet and

Ross Brown, who was Quest's secretary-valet and general factotum, accepted the slip of paper and placed it in an envelope. "There are no other instructions, sir?" he in-

quired

"None," Quest replied. "You'll look out for the wireless, and you had better switch the thru cable and telegraph communication on to headquarters. Come along, Lenora."

They left the house, entered the waiting automobile, and drove rapidly towards the confines of on the other hand, seemed to have lost a great deal of her usual self-composure. She seldom såt still for more than a moment or two together. She was obviously nervous and excited.

"What's got hold of you, Lenora?" Quest asked r once. "You seem all fidgets." She glanced at him apologetically. her once.

She glanced at him apologetically. "I can't help it," she confessed. "If you knew of the many sleepless nights I have had, of how I have racked my brain wondering what could have become of James, you wouldn't really wonder that I am excited now that there is some chance of really finding out. Often I have been too terrified to sleep." "We very likely shan't find out a thing." Quest reminded her. "French and his lot have had a try and come to grief." "Inspector French isn't like you. Mr. Quest." Lenora ventured.

Lenora ventured. Quest laughed bitterly. "Just now, at any rate, we don't seem to be any great shakes," he remarked. "However, I'm glad we're on this job. Much better to find out what has become of the fellow really, if we can."

was offering. "They've been going the wrong way to work, these New York police," he declared. "Just because there was a train on the other track moving slowly, they got it into their heads that Macdougal had boarded it and was back in New York somewhere. That ain't my theory. If I were looking for James Mac-dougal, I'd search the hillsides there. I'll show you what I mean when we get alongside." "You may be right," Quest admitted. "Anyway, we'll start on the job." was offering

The section boss turned round and whistled. From a little side track two men jumped on to a handcar, and brought it round to where they were standing. A few yards away the man who was propelling it—a great red-headed Irishman—suddenly ceased his efforts. Leaning over his pole he gazed at Quest. A sudden ferocity darkened his coarse

face. He gripped his mate by the arm. "See that bloke there?" he asked, pointing at

Quest. "The guy with the linen collar?" the other an-ered. "I see him."

"That's Quest, the detective," the Irishman went on hoarsely. "That's the man who got me five years in the pen, the beast! That's the man I've been looking for. You're my mate. Jum. ch?" "I guess so," the other grunted. "Are you going to try and do him in?"

to try and do him in?" "Now then, you fellows," Horan shouted. "What

are you hanging about there for, Red Gallagher? Bring the carriage up. You fellows can have a smoke for an hour. I'm going to take her down the line for a bit."

The two men obeyed and disappeared in the direction of the section house. Quest looked after "That's a big fellow," he remarked. "What did you call him? Red Gallagher? I seem to have

to and it within fifty yards of this spot." They searched carefully and deliberately for more than half an hour. Then Laura suddenly called out, They looked around to find only her head visible. She scrambled up, muddy and with wet leaves clinging to her skirt. "Say, that guy of a section boss told me to look out for caves. Twe been in one, sure enough! Only just saved myself." They hurried to where she was Quest peered into the declivity down which she had slipped. Suddenly he gave vent to a little exclamation. At the same time Laura called out. An inch or two of the same time Laura called out. An inch or two of tweed was clearly visible thru the strewn leaves, Quest, flat on his stomach, crawled a little way down, took out his electric torch from his pocket and broked the time or the stream of the his brushed the stuff away. Then he clambered to his feet.

"Our search is over," he declared gravely. "and your troubles. Lenora. That is Maccougal's body. He may have slipped in as you did. Laura. or ne may have crept there to hide, and starved. Any.

Lenora's face sank into her hands for a mo-ment. Quest stood on one side while Laura passed her arm around the other girl's waist. Presently he returned.

"We can do no more," he pointed out, "we must

send for help to bring the body up." "I shall stay here, please," Lenora begged. "Don't think I'm foolish, please. I can't pretend I am sorry, but I'll stay till someone comes and takes

"She is quite right," Laura declared, "and I will

car house. Gallagher and his mate followed close behind. Quest paused on the threshold. "It's a flithy dirty hole," he remarked. "Can't we have our little chat out here? Is it money you want?"

want?" Gallagher glanced around. Then with an ugly push of the shoulder he sent Quest reeling into the shed. His great form blocked up the doorway. "No," he cried fiercely, "it's not money I want this time. Quest, you brute, you dirty bloodhound! You sent me to the pen for five years—you with your cursed prying into other people's affairs. Don't you remember me, eh? Red Gallagher?" "Of course I do," Quest replied coolly. "You gar-roted and robbed an old man and had the spree ofs your life. The old man happened to be a friend of mine, so I took the trouble to see that you paid for

ne, so I took the trouble to see that you paid for it. Well?"

"Five years of hell, that's what I had," the man continued, his eyes flashing, his face twitching with anger. "Well, you're going to have a little bit more than five years. This shed's been burnt down twice, sparks from passing engines. It's going to be burnt down for the third time." "Going to make a bonfire of me, eh?" Quest re-

marked. "You can sneer, my fine friend," the man growled. "You've had a good many comfortable years of wear-ing fine clothes and smoking twenty-five cent cigars, swaggering about and hunting poor guys that never did you any harm. This is where we are going to get a bit of our own back. See here! We are lock-ing this door—like that. It's a lonely bit of the line. The man in the tower never takes his eyes off the signals and there ain't a soul in sight. Me and my mates are off to the section house. Two minutes will see us there and back. We're going to bring a can of oil and an armful of waste. Can you tell what for, eh? We're going to burn the place to a cinder We're going to burn the place to a cinder in less than three minutes, and if you're alive when the walls come down, we'll try a little rifle practice at you, see?"

"You's better hurry or the boss will be back." "Gallagher finally slammed the door. Quest heard the heavy footsteps of the two men as they turned towards the section house. He drew a little case from his pocket

from his pocket. "Just as well, perhaps," he said softly to him-self," that I perfected this instrument. "It's rather

close quarters here." He opened what seemed to be a little mahogany box, looked at the ball of black substance inside, closed it up, placed it against the far wall, untwisted the coil, stood back near the docr and then pressed the button. The result was extraording the whole the button. The result was extraordinary. The whole the button. The result was extraordinary. The whole of the far wall was blown out and for some dis-tance in front the ground was furrowed up by the explosion. Quest replaced the instrument in his pocket, sprang through the opening and ran for the tower house. Behind him on its way to New York he could see a freight train coming along. He could hear, too, Red Gallagher's roar of anger. It was less than fifty yards, yet as soon as he reached the shel-ter of the tower the thunder of the freight sounded in Quest's ears. He glanced around. Red Gallagher and his mate were racing almost side by side to and his mate were racing almost side by side to-wards him. He rushed up the narrow stairs into the signal room, tearing open his coat to show his official badge.

official badge. "Stop the freight," 'he shouted to the operator. "Quick. I'm Sanford Quest, detective—special pow-ers from the chief commissioner." The man moved to the signal. Another voice thundered in his ears. He turned swiftly round. The Irishman's red head had appeared at the top of the

"Drop that signal or I'll blow you into bits." shouted.

The operator hesitated, dazed.

"Walk towards me," Gallagher shouted, "Look here, you guy, this will show you whether I'm in earnest or not!"

A bullet passed within a few inches of the oper-ator's head. He came slowly across the room. Be-low they could hear the roar of the freight. "This ain't your job," the Irishman continued savagely. "We want the cop, and we're going to have him."

Quest had stolen a yard or two nearer during this brief colloquy. Gallagher's mate from behind shouted out a warning just a second too late. With a sudden kick, Quest sent the revolver flying across

S INGING down the sheltered valleys, And laughing o'er the hill; And laughing o'er the hill; Painting the earth with greenn Fidding the winds be still; Caling the birds to their nesting: Urging the flowers to rise; Spring comes dancing among us, With laughter in her eyes. The song of the birds, and the songs The cool winds sing. And the lilt of the trembling branch

Singing down the sheltered roadways, that Singing down the sheltered roadways, And laughing o'er the trees; Teaching the birds their sweetness; Waking the lazy bees; Caling the world to it's mating, Urging new life to arise; Spring comes dancing among us, With love-light in her eyes, —Dorothy S. Doubble, 23 Bellefair Ave.

OF WATER FROM

Voice of Spring

H ARK ye! for the rapture song hath struck the ear, And the voices 'unseen have The echoes have cried it aloud to the mere, And from mountain to mount they have bounded.

Oh, hark ye, and hark to the song of the lark: The clouds have arrested their passing; And the fox on the hill at the voice keepeth still, And the sheep in the meadows are massing.

Every flower of the dell adds its note to the swell. In a volceless, but sweet-scented man-

The green of the grass, and the blue of

Cor

the size: The buds on the bushes are peeping; And the sun casts a gleam on the slow-moving stream, As thru pasture and wood it goes creeping.

lovely spring. -Marguerite McNerney, 691 King

Spring walks out in the garden, Sowing with fingers light Crocuses blue and white, And here and there A snowdrop pure and fair. Spring smiles over the landscape. The snow all melte away, The sun shines warm and gay; At her sweet will Nods the tall daffodil. —Eima Cerise Dawe, 240 Montrose A Springtime Idyll O^{H1} I met you in the springtime, In the fragrance of the May; When the silver-throated son birds Thrilled tht land with music gay; When the purple-tinted like Filled the air with perfume sweet; and anemones and violets Formed à carpet 'neath our feet. And anen

When I met you in the sunlight, And the bird's joyous note from a tremu-lous throat, Is wafted abroad like a banner. For you seemed a woodland flower, In your gown of pink and white; And your blue eyes, shyly smiling. Thrilled my soul with pure delight.

And the sun casts a gleam on the slow-moving stream. As thru pasture and wood it goes creeping. Then hark ye, and hark in the dawn or the dark. To palpitant earth's resurrection: For the volces of day, and the volces of night. Do but echo the lark's benediction. —Evan Graham, 23 Kippendavie avenue.

Springtide

F ROM out the south, a spirit mild, Has rolled away the stone, That captive held by Frost King wild, The spring, in earth-cave lone.

With sunny garments floating free, From mould and twig and moss, She now holds laughing revelry, While winds the branches toss.

The bursting buds, her warm breath feel; The birds, sweet music trill Their happy love-notes to reveal, The earth with joy to fill.

The brook renews its babbling lay O'er pebbles brown and white; its foam-flecked waters making way, To swell the river's might.

All neture's harmony so grand Fills earth with joy and peace, And scatters blessings o'er the land To bid our sorrows cease. --Mrs. Jno. Connoly, Lock Box 659, North Bay.

THE TORONTO SUNDAY WORLD

And the first soft ray of coming day Steals up to the sombre night.² A south breeze kissed by a tropic sun. Perfumed and teeming warm— A cheery note from the robin's throat, Came sweetly upon the morn.

The trees that long looked dead and bars, Bedeck themselves in raiment fair, And branch and bough in green leaves

dressed, live sheiter to the songster's nest. Whence all day long gay carols ring, for this—why this is spring!

The pulse that beat in measured time, is leaping now to swifter chime: And cold hearts glow with youth's war

fire, That would to unscaled he ghts aspire, And all love's sweetest offerings bring, For this—why this is springi —Margaret E. Fairfield, Oakville, On High in the clear and the cloudless sky, The wild geese seek the north; Over the hill and the rushing rill, Their harsh cries issue forth.

Quite So

T HE editor sat in his office chair, And cursed the poets, in his despair; For many moons he'd read ther And daily it was growing worse.

"Spring!"—And the wind-flower parks its head; The wee buds burst to sight; A pungent smell from field and dell, A riot of verdures bright. Says he, "It's queer how five bucks can For the one who can write the springlest trash, Will cause such a waste of real good int, And make my love for poets shrink." "Spring has come: life bringing Spring!" The lone crow seeks a mate, A huge green world lies all unfuried With nature's bounties great. __Jack Renault, ______Box 203, Delhi, Ont.

Many different versions of spring th

were, But the editor never turned a hair; With scornful look, and rapid eye, He read each one, then cast it by.

As he neared the bottom of the heap, Said he, "Who sows must also reap-The seed I sowed was ten good "bones And what I reap is naught but groans."

By the noisy, gurgling brook. And the builfrog tunes his bass notes In the sun-kissed marshland nook; His noble task at last was o'er, Just as the foreman came thru the door "It's a hero you are," said the printer "The When the sappy maple sweetens, And the young buds, peeping forth, Bring the swiftly flitting swallow, To the warm and greening north;

least you should get is an in -Percy Adams, 197 Vine avenue.

A Song of Spring

When the blackbirds' nuptial scoldings, Mingled with the robins' mirth, And the pink and juicy fish worm Wriggles from the fresh turned CING, O Sing, of joyous Spring, New visions fair and bright; Charms of Woodland, Vale and Dale,

Unfolding to our sight. Blow, blow, ye zephyra, blowi All nature is aglow.

The twittering of the Birds, Swells into joyous Song; Sweet Piping! Melody pure! Can this to Earth belong? Trill, trill, ye warblers, trill The air with rapture fill!

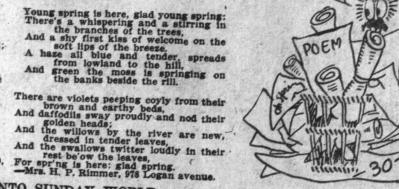

furl, You're as lazy as can be; And you whistle to the cat-bird In the gnarled, old hemlock tree. Or you puff white smoke ring fancies To the clear stream's rippling sound— Gee! It's great to be with nature When spring's "poppin" all around: The the gnarled, old hemlock tree. To the clear stream's rippling Above, the shimmaring leaves Do everywhere abound. Their brilliant tints and hues, A loveliness diffuse.

The lard, new-clad with verdure, Enhance the distant view Of Forest glade—What beauty! The Sunlight glinting thru! Shine, Shine, glittering sheen— On Spring's enchanting scene. —Philip W. Moore, 29 Major street

DRAWN BY CHRISTOPHER CLARK FOR THE SPHERE AND THE TORONTO SUNDAY WORLD FROM PERSONAL DESCRIPTION GIVEN BY AN OFFICER WHO WAS PRESENT. The Buffs charging thru the abattis of felled trees toward the German troops in the storming of the Chateau de Flandres at Radinghem.

It is only now that certain brilliant deeds which took place in the earlier days of the war have come to light in full detail. The storming of the Chateau de Flandres by the Buffs is one of these. It is only now that we are able to give in detail the particulars of this brilliant episode which took place in October last. Both the details for the above drawing and the notes

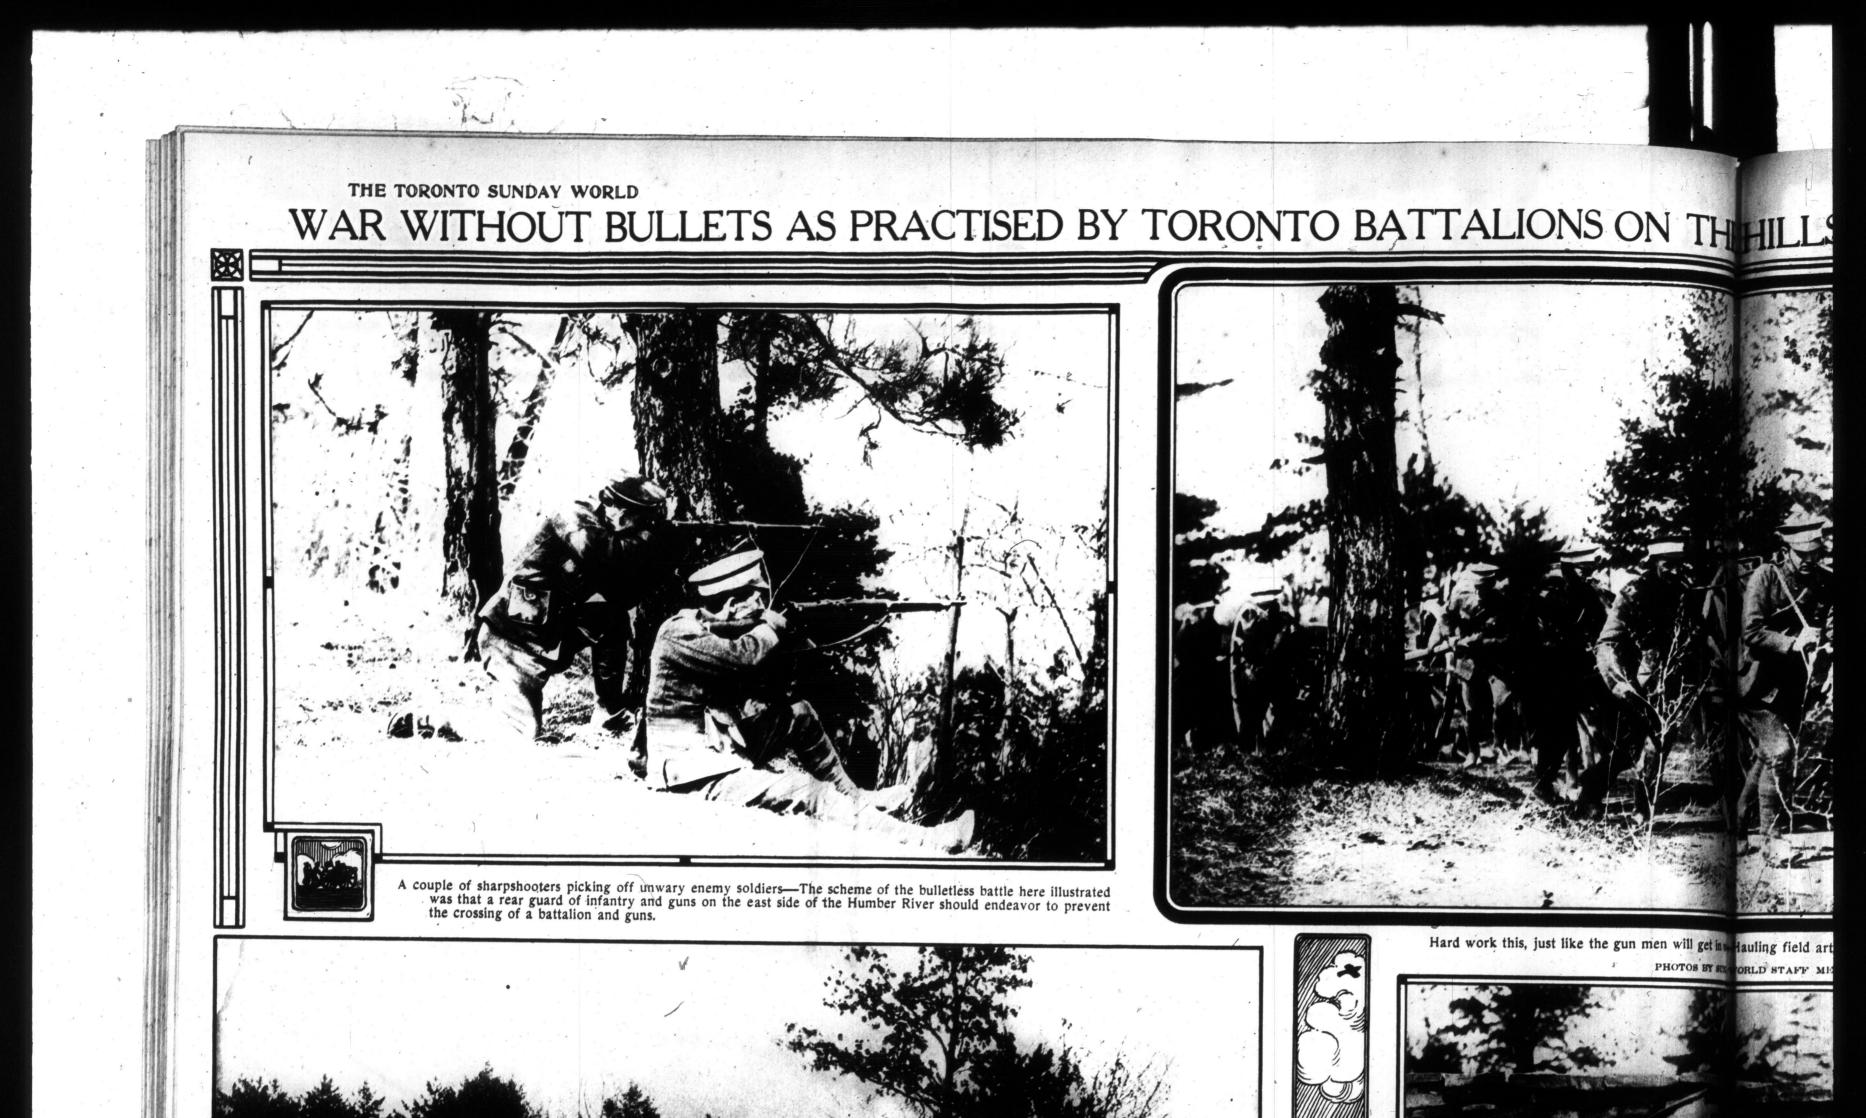

THE L SE THIS TEAD OF

which accompany it have been gathered from an officer who witnessed the action. The Chateau de Flandres is a big country mansion adjacent to the Village of Radinghem, in Northern France, a little to the west of Lille. The Chateau was held by a numerous body of Germans when an order was given to carry the Chateau by storm. The task of working up to the edge

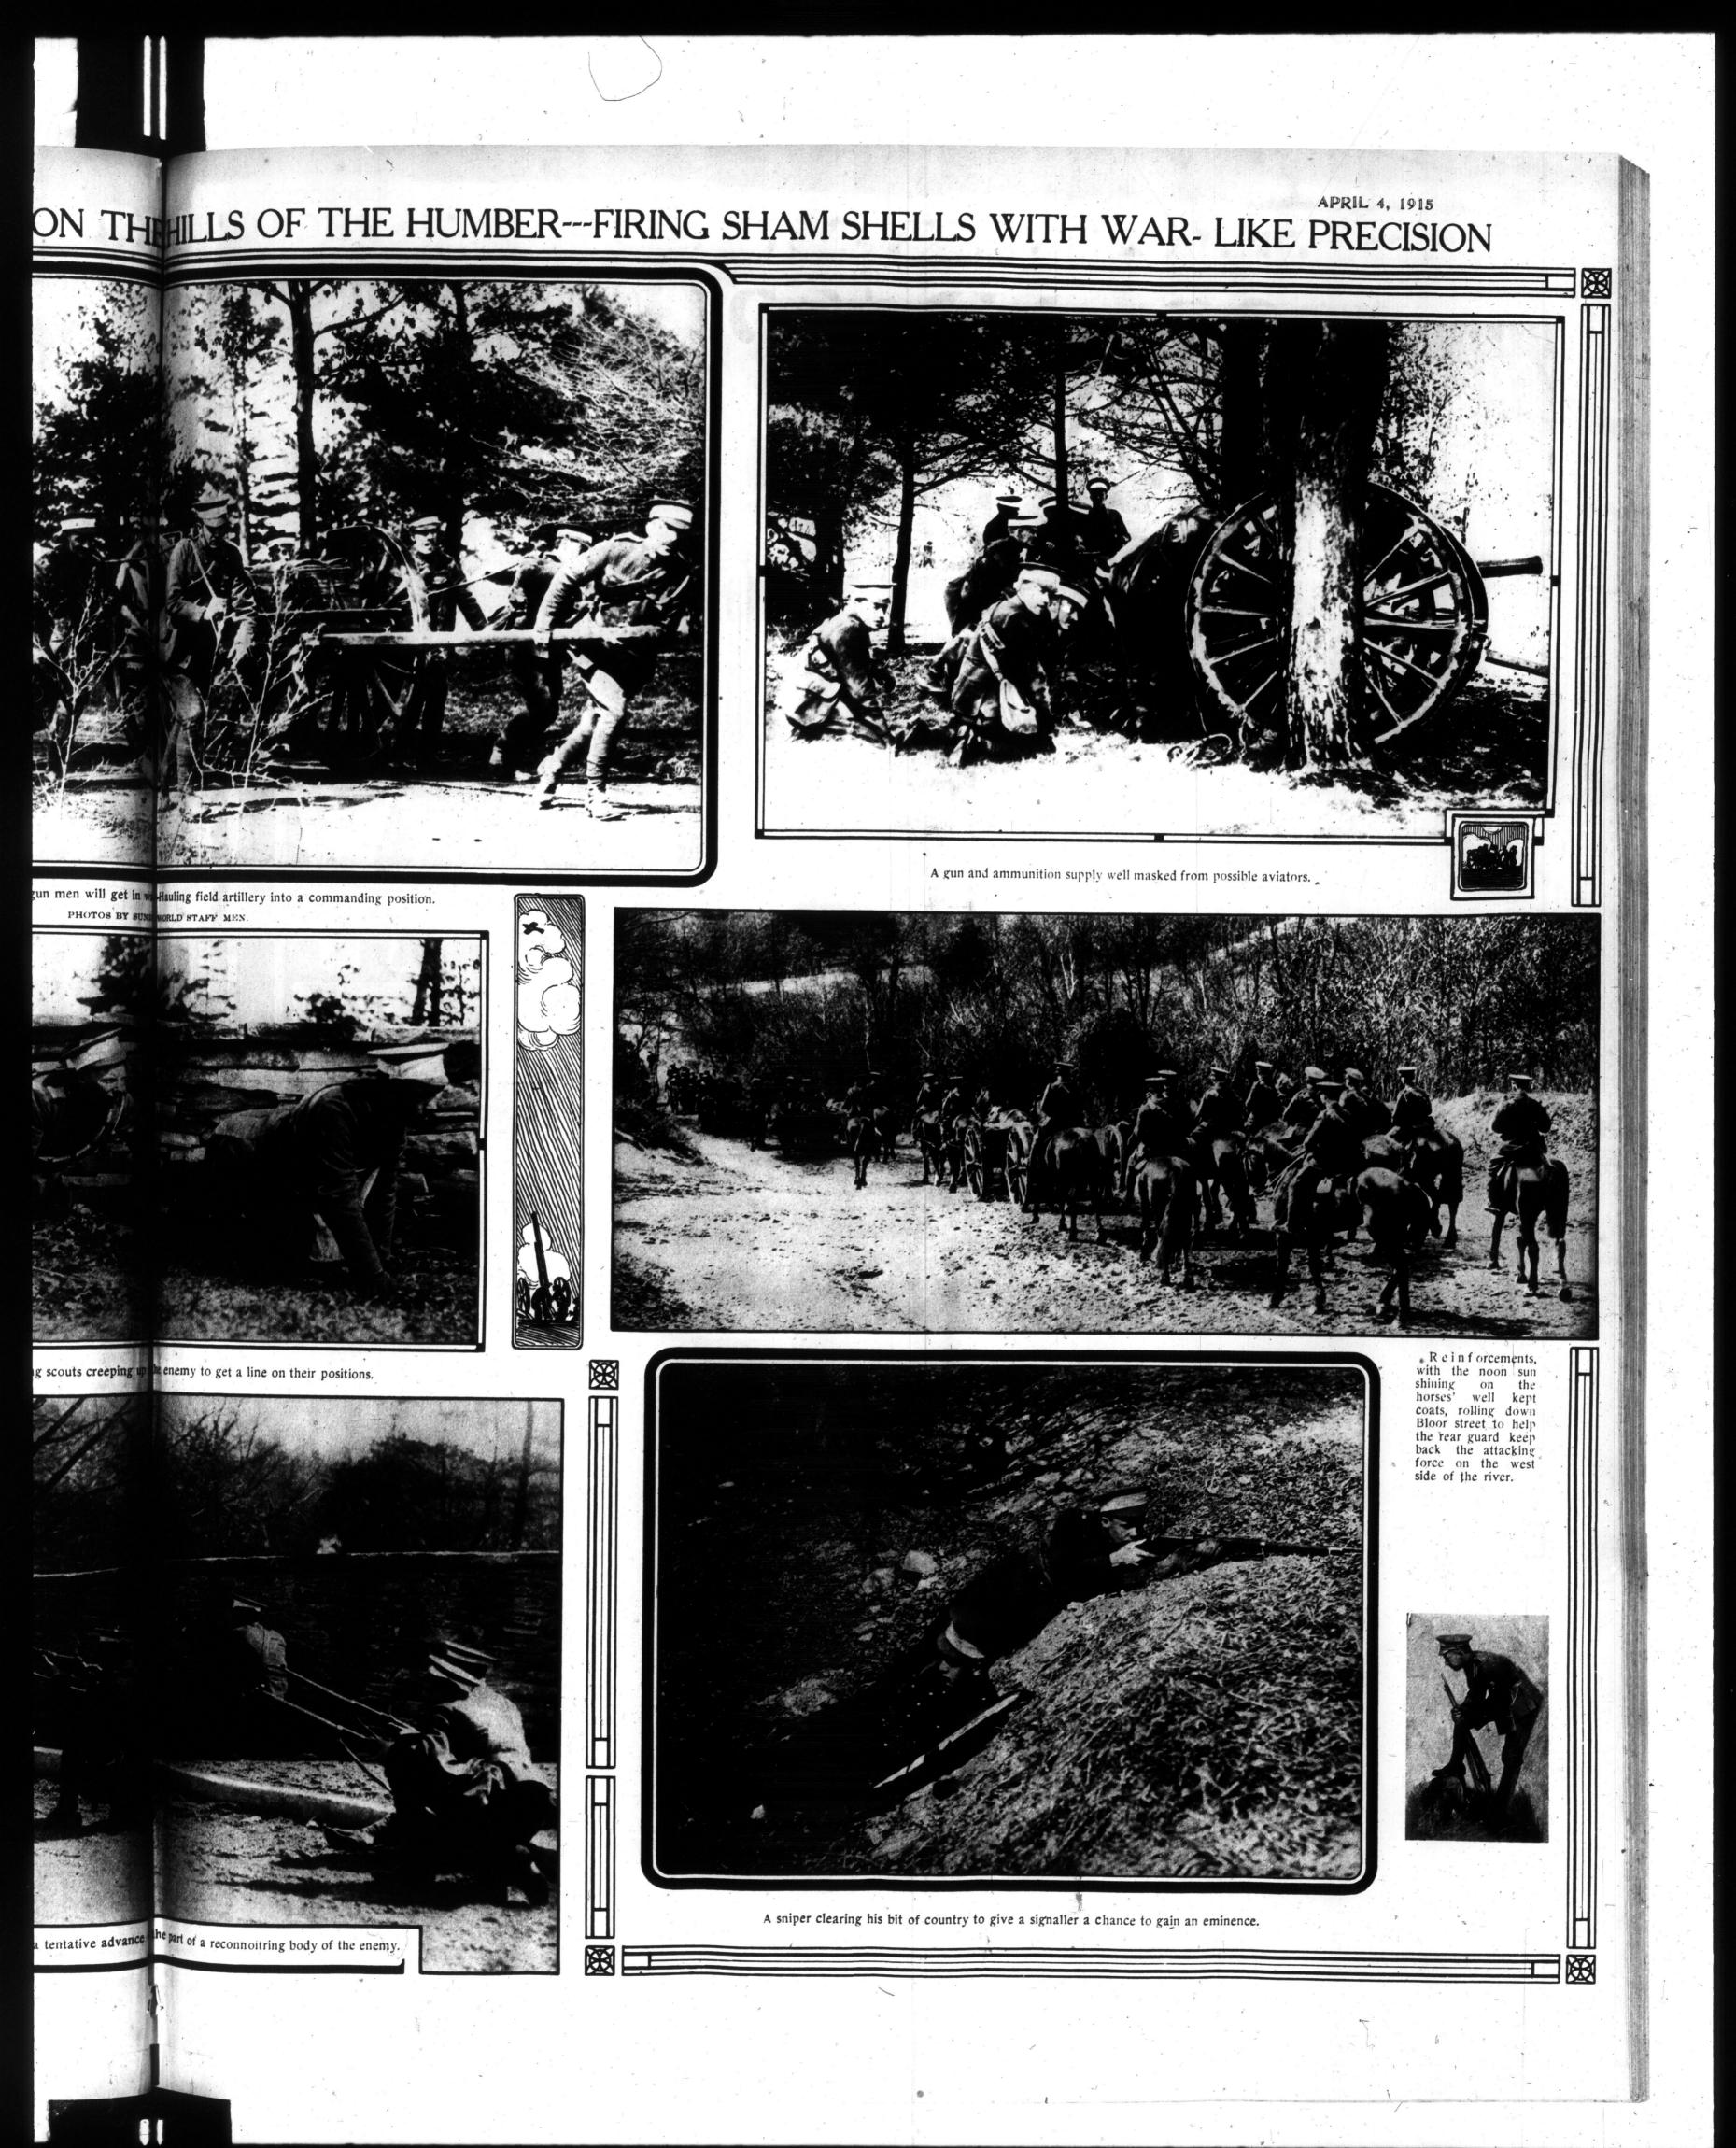

of the park which surrounds the chateau was successfully accomplished, and the final dash was made with extraordinary vigor on the part of the Buffs. Sword and revolver in hand the officers led the men at a sprinting pace up to the very doors of the building which was soon cleared of Germans and the enemy's force in the park was thrust back.

Here are the men who presented to Premier Hearst and his government Ontario's demand for provincial assistance to the scheme of building hydro-radials—it was one of the largest delegations that ever entered Queen's Park, and the individual standing of its members was further evidence of the spread of public ownership feeling in this province.

The King's third son, Prince Henry (third from left) marching in officer's training corps at Eton College.
