Captain of Eastwood Says Lot of Liquor Disposed of Before Bombard

NEW YORK, Feb. 20.—Captain Eugene Blake, Jr., of the patrol boat Seneca, today positively denied reports from Lunenburg, N. S., that the Seneca had fired on the schooner Eastwood, as stated by the captain of the latter when he reached Lunenburg yesterday. The Seneca is now undergoing an overhauling at the Brooklyn navy yard.

DENIES ENCOUNTER

The commander of the Eastwood was quoted as saying that 200 rounds had been fired, many of them striking the ship and doing considerable damage.

NO OFFICIAL REPORT

WASHINGTON, Feb. 20.—Coast-guard officials here have no information beyond press reports concerning the reported attack on the British schooner Eastwood by a United States government cutter. It is noted that the cutter is a former revenue cutter, and is being used for a special duty.

OWNER AWAITED

HALIFAX, N. S., Feb. 20.—The Yarmouth owned schooner Eastwood, victim of an alleged bombardment 21 miles off the coast of Long Island on February 15, by the United States revenue cutter Seneca, was today lying alongside a wharf at Lunenburg while her captain, John Spindler, awaited the arrival of her owner, B. B. Cann.

NO WORD AT OTTAWA

OTTAWA, Feb. 20.—No representations have yet been made to the Federal government in protest against the alleged attack of a United States government cutter in firing on the Lunenburg schooner Eastwood. This was learned this morning, through inquiries at several government departments.

SAYS NOT MISTAKEN

"I cannot explain it. I only know that the Seneca attacked us and fired upon us," said Captain John Spindler today, when questioned regarding the alleged bombardment of his schooner, the Eastwood, yesterday, reporting having received 60 direct hits from guns aboard the United States revenue cutter Seneca on February 15. The weather was fine and clear, Captain Spindler said, and the firing commenced at 10 o'clock in the morning. He said there was no chance of his being mistaken, because he could easily read the name of the attacking vessel.

Shades Are Drawn On Friends of Light

MUNICH, Feb. 20.—Fifty members of a club called "The Friends of Light," were pleaded guilty to charges of poisoning about wooded Bavarian Alps. Each was fined from 100 to 150 marks for disorderly conduct.

Clang of Hammers, Shreiks of Steam Shovels Furnish Score For New York Ballet

NEW YORK, Feb. 20.—A fantasy of the chaos and hurly burly of city life in the United States, especially jazz in spirit, has taken a place among the many older forms of art presented on the stage of the Metropolitan Opera House. "Skyscrapers," a jazz ballet, finding its inspiration in the rapid, rhythmic spirit which artists see in the daily life of United States cities, was given its first appearance at the Metropolitan last night, and was received cordially.

Crew Existed 20 Days On Rats and Cats

NEW YORK, Feb. 20.—Fourteen men, whose only food for twenty days had been rats and the ship's cats, taken from the disabled Dakhla Maru No. 3 yesterday by the Standard Oil Company's tanker Java Arrow, say that 19 others of the crew had left the Dakhla Maru two weeks before and probably had perished.

ENTRY OF POLAND IN COUNCIL LIKELY

GENEVA, Feb. 20.—The election of Poland to be a non-permanent member of the League of Nations council by the assembly next September is suggested in influential circles here as the result of the difficulties created by the demands of Poland, Spain and Brazil for permanent seats.

NEW YORK, Feb. 20.—Nathaniel Jones, chief of police of Fredericton, N. B., has written to the British minister in London asking for a delay in the execution of his son John until "my arrival."

5 HALIFAX YOUTHS ARE PUT ON TRIAL

HALIFAX, N. S., Feb. 20.—The city police court was temporarily moved to the courtroom of John Mulrooney, Water street, second-hand dealer yesterday, to commence the hearing of charges against five youths charged with robbery with violence. Mr. Mulrooney was found unconscious on the street near his home nearly two months ago, having been beaten and robbed. He has been critically ill ever since, while the accused were held in custody awaiting his evidence in court. The sick man was unable to recognize any of his assailants.

Barbed Wire Inventor Dead

DEKALB, Ill., Feb. 20.—Jacob Rath, 99, one of the inventors of barbed wire, and said to have been the oldest bank president in this country, died here yesterday of pneumonia. He invented barbed wire in 1873, and on January 20, 1874, secured his first patent on an automatic machine for its manufacture.

PUNISHMENT IN BRITAIN FACES REVISION SOON

LONDON, Feb. 20.—The recent case of Harley Morris, a wealthy merchant and landowner, who was sentenced to three years' imprisonment for offences against young servant girls employed by him in his country home, possibly may be the forerunner of a complete revision of the British system of penology.

FUNERALS. Mrs. Mary A. Kelly. The funeral of Mrs. Mary A. Kelly took place this morning from her father's residence, at 11 Murray street, to St. Peter's church. Solemn high mass of requiem was celebrated by Rev. Father Kearney, with Rev. Father Coakley as deacon, and Rev. Father Costello as sub-deacon. The story is told with delicacy and yet tremendous sermonizing force. The printed story is known as "Grazias & Company," from the pen of David Graham Phillips and is a well-known novel. Incidentally "Souls for Sables" is an elaborate story picture, displaying a wealth of rich clothing and sumptuous social surroundings. Beginning Monday, Imperial Orchestra will present a nightly overture in addition to the program and there will be special mixed pictures.

Marcus Sale Extended

Continuous telephone requests, from customers unable to get out around this awful weather, result in an extension of the Marcus Lay-Away Sale for another week.

Large numbers from outlying points were snowed in and unable to get to the Sale whatever. And as no telephone orders could be handled, it was only fair that all should have an equal chance to take in the Sale.

Certainly no previous Marcus Sale offered such attractions—which is as good as saying no Furniture Sale in the East has come up to this one.

City Lodges Observe 62nd Birthday of Order in Pythian Castle

The Knights of Pythias of the City of Saint John, their wives and sweethearts, as well as the Pythian Sisterhood celebrated the sixty-second anniversary of the foundation of the order...

All the participants in this artistic program were enthusiastically endorsed and graciously responded to. Knight Gorman, world's champion skater, when called to the platform was accorded a prolonged ovation...

"It is not often the privilege of a fraternal body to include on its roster the name of one who has reached the loftiest pinnacle in any department of life. Therefore in greeting you as one of our own Pythian Knights, who has won the 'golden spurs' of world's championship in speed skating, we herewith record our heartiest congratulations and at the same time, take pride in having sent from our ranks, a champion so worthy of the name...

"Not only do we congratulate you and pledge afresh our lasting friendship, but be it written that we sincerely venerate your honored parents in the distinction which has come to their household through your athletic prowess. It is the wish of every Pythian brethren that you may all enjoy long life and happiness. New Brunswick Lodge, No. 1, mother of Saint John men."

British Pythianism and of which you are a member, is now doubly distinguished by the lure of the world's championship which you bring to its banners. May the ascendancy of your skating career be a guide and commentary upon your whole life as a citizen and chivalric Knight. On behalf of New Brunswick Lodge, No. 1, W. H. SARGEANT, Chancellor Commander, W. L. BEVILLE, Keeper of Records and Seal, Saint John, Feb. 19, 1926.

Knight Gorman responded to this testimonial of commendation in a neat speech. He expressed his heartfelt gratitude for the sentiments contained in the address and said he would ever cherish it as one of the big events of his life. The address, which is a most illuminated with a golden initial, heraldic type, Pythian insignia and the ribbons of the order in streamers, was under glass in a neat golden frame, ready to be hung on the wall in perpetuation of the achievements of Mr. Gorman and his fellow Knights of recognition of the same.

A. E. Prince, Chancellor Commander of Union Lodge, No. 2, acted as chairman and for the part of the evening the following programme was carried out: Short address by chairman; vocal solo, Charles J. Stackhouse; violin solo, Mrs. A. R. Jones; vocal solo, Mrs. H. G. Flewelling; quartet, the Messrs. Stackhouse and McMullin; reading, Miss Alice McKim; character duet, Miss Enah Conrad and Miss T. NEW INVENTION SAVES MILLIONS

A Lamp that Burns 94% Air

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been invented by the U. S. Government and is superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (cool oil).

The inventor, O. K. Johnson, 246 Craig street, W. Montreal, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

STEWART QUERIED ON COAL HAULAGE

Denies Making Suggestion For Grant to Ship 15,000 Tons to Montreal

OTTAWA, Feb. 19.—The question of transportation of coal from Sydney Mines to Montreal was brought up in the House this afternoon by L. W. Johnston (Conservative Cape Breton-North Victoria).

"Has the honorable minister of the interior suggested to the Government that they provide a small sum of money sufficient to meet the cost of moving 15,000 tons of coal from Sydney Mines to Montreal, over and above \$8.25 per ton?" asked Mr. Johnston.

"No," replied Hon. Chas. Stewart, Minister of the Interior.

SAINT JOHN, N. B., FEBRUARY 20, 1926.

THE "GREATER HALIFAX"

Halifax and Saint John, between which many years ago there was a somewhat narrow and bitter rivalry, now happily enjoy the best of relations, and have achieved a considerable measure of co-operation in forwarding their interests and that of the Maritimes.

The Commercial News, which is the official publication of the Halifax Board of Trade, contains an article on the "Greater Halifax" movement, which will be of interest here.

Now is the time for the people of Halifax and the Province of Nova Scotia to go after this business. Thanks to our Press, to whom all credit is due, we have the attentive ear and sympathetic attention of the rest of Canada directed to our cause.

Older citizens remember when the tea supply of these provinces came in chests from China by way of London. Tea was bought and sold by the chest, and there were no small packages or blended teas.

Every increasing freight rates and other changes have made it impossible for our shippers and exporters to continue to export their goods direct to America.

The Board of Trade is soon to launch its campaign to secure the necessary money, and in giving the public notice it says "It is a Victory Loan—the general public will cash the coupons."

including that of the late Lord Curzon, who described the American as one of the greatest orators of the nineteenth century.

Lincoln had many bitter enemies, and some of the American newspapers referred to the speech in slighting terms. But as it was read by thoughtful people, the adverse verdict was quickly reversed.

Just Fun

SMART DOG CUSTOMER: Why does that dog sit there and watch me all the time? Waiter, I suppose you have the plate he always eats from.

TIME TO CLOSE "HOW'S business going?" "Like clockwork." "Why, I heard you had failed." "So I have. They've just wound up the business."

BESIDES the comfort, convenience and becomingness of bobbed hair, there are several other arguments for the style. No husband or lover should disapprove of the fashion after reading old Goethe's warning: Beware of her fair hair for she exceeds All women in the magic of her locks.

THESE short skirts certainly show how high silk stockings are. IT'S fair enough: Dirt made man; man makes drama; drama is dirt.

A BIRD in hand, said grandmothers, counts for more than two in the soup, dad stages. A hair on his bald spot is worth two in the soup, dad stages.

HALF the fun of loafing is knowing you should be working. BEING POLITE "FATHER, what is politeness?" "Politeness, my son, is the art of concealing from other people what you think of them."

FRETWORK "WE'RE going to learn fretwork at school, mother." "Then I shall send you to another school, you'll be learning to fret your father. He works on Monday, and frets about it the rest of the week."

THESE fellow who is pulling on the ear has no time to rock the boat. She Made It Herself. A bride who hadn't the slightest knowledge of cooking determined to make a noble effort to please her husband.

Her mother-in-law told her that she was exceedingly fond of Welsh rarebit, so she set about perfecting herself in the preparation of this dish and spent several hours in the kitchen.

Her failures were many and varied, and finally she exhausted the supply of cheese in the neighborhood and gave up in despair.

A few mornings later her husband, while leaving the block of furnished flats in which they were staying, was stopped by the caretaker.

"Look here, young man," said the latter, "what are you doing with that block of furnished flats?"

"I'm just stopping the block," said the young man, "the caretaker told me to do so."

"That's all right," said the caretaker, "but I'll not touch it. You'd better take Dickens."

AT A PRAYER meeting in a colored church the pastor was expounding the passage which tells of the passing of the children of Israel through the Red Sea.

"It is all very simple," he said, "you know that water generally flows down hill, but in this case the water, instead of flowing down hill, done suddenly flow up hill, leaving the bottom of the sea all dry—yes, bredder'n' dry, so that all the children of Israel 'd' passed over without even wettin' their feet. Then—"

"But," interrupted a young colored brother who had been to high school, "it wouldn't have done that, pastor. It would have been against the law of gravitation."

"You jest set down, sah," answered the pastor, with a patronizing wave of the hand. "You don't know what you are talkin' 'bout. This all happened three thousand years 'fore the law of gravitation done been discovered."

That settled the matter, also the young man. A GENTLEMAN who had married his cook was giving a dinner party, and between the courses the good lady sat with her hands spread on the tablecloth.

Suddenly the burr of conversation ceased, and in the silence that followed she said: "I'm sorry, but I've just remembered that I've left my keys at home."

"Oh! Mr. Rudolph Ramsayton, wouldn't it be romantic if you DID elope with me?" From the Daily Express, London.

Poems That Live

A FAREWELL. My fairest child, I have no song to give you; No lark could pipe to skies so dull and gray; Yet, ere we part, one lesson I can leave you For every day. Be good, sweet maid, and let who will be clever; Do noble deeds, no dream them all day long; And so make up to death, and that vast forever One grand, sweet song. —Charles Kingsley.

"Intelligent, observant men know this is true. Liberty is a cry of the people. A great hero, a true benefactor of the people. LIBERTY is a dream."

When he claims the privileges of organized society, the individual is compelled to sacrifice his freedom of will, but to the majority it is not. He can neither decide nor act according to the demands of his own personality.

He is compelled to merge his own will into the general will of the state. For a few this is a painful sacrifice, but to the majority it is not. The individual in society cannot decide even about his own family affairs without running counter at times to the judgment of men about him.

The first lesson he must learn in organized society is a decent respect for the opinions of mankind. "LICENSEE they mean when they served. 'Liberty,' John Milton observed. After all what most men are thinking of when they say Freedom, is privilege for themselves alone."

There seems to be a disposition among the people to let the liquor act pass through try out, and the government is wise in not making any changes that are of much importance, either way, for a few years at least.

Timely Views On World Topics

WE SEEK to outlaw war. Under the present international organization can it be outlawed by force, that is, by war? Or by domestic legislation?

May we not hope that this supreme purpose can gradually but surely be accomplished by training the world in habit and practice of constant association and co-operation for peaceful determination of international disputes.

Not the letter, but the spirit of the covenant or of the Locarno pact must be our hope. Covenants, treaties, pacts will be as nothing unless the spirit of the nations is consecrated to the ideal of peace, to the "hate of hate, the scorn of scorn."

The fullest service of the League to humanity is in the personal contact and associations, the removal of misunderstanding, distrust and suspicion, the comprehension of other viewpoints, the habit and practice of peaceful determination, which are yearly brought about at Geneva, and which have already exercised an immense influence upon the nations.

If that influence can grow and abide there may be created in the world's affairs, wherein we must recognize every nation as the neighbor of every other, so paramount a sense of public right and international faith, so deep an abhorrence of the waste, the destruction, the savagery and the horror of war that will be virtually outlawed.

Then may we hope that the spirit which maintains peace, order and good government in each civilized nation will have its perfect work in its relations with each other.

LET IT BE. The provincial government gave the hotel keepers little encouragement for changes requested in the liquor act. There seems to be a disposition among the people to let the liquor act pass through try out, and the government is wise in not making any changes that are of much importance, either way, for a few years at least.

It Isn't Sporting. (Fall River News.) There is a tenseness and a lack of good feeling with regard to the championship tennis match between Helen Wills, the American girl, and Suzanne Lenglen, which is unpleasant, to say the least. It is as though two champions of two contending armies were about to step forth in a neutral space between the armed hosts, and battle for their cause. The people of this country, very unfortunately for the country, look upon Miss Wills and Miss Lenglen not as two wholesome, attractive young women engaged in an attractive and healthy form of athletic game, but as two grim, sturdily do-or-die battlers "for the supremacy of the tennis world," as the sports writers phrase it. Which is, to our way of thinking, just as wrong as it could be. When a game of tennis between two young women comes to be a grim battle, something is seriously wrong with our conception of athletics.

Who's Who IN THE DAY'S NEWS

DR. ALEXANDER MEIKLEJOHN. THE man whose resignation as president of Amherst College was demanded by college trustees because of his liberal views, Dr. Alexander Meiklejohn, now occupies the chair of philosophy at the University of Wisconsin.

Upon his appointment Dr. Glenn Frank, president, said, "From him we expect productive scholarship and provocative teaching."

In 1912 Dr. Meiklejohn went to Amherst after serving for 11 years as dean of Brown University. He decided to modernize the curriculum, especially the courses in history, the social sciences and political economy.

Then in 1923 friction arose and his resignation was demanded. A number of the students upheld him and 18 members of the 1923 graduating class refused their diplomas as a protest against his resignation.

At the time of his inauguration he was described as "the youngest college head, with the oldest ideas, in the country." At Brown he was called "the dean of philosophic view."

He loved teaching better than administering, and stipulated that although president of the college he should be allowed to conduct at least one class.

Dr. Meiklejohn was born in Rochdale, Eng., February 8, 1872. He came to America when eight years of age. He obtained an A. B. degree at Brown University in 1893. Four years later he joined the faculty of Brown as instructor of philosophy. He became dean of that institution in 1901.

How Can the Too-Humble Girl Make Friends?—Must She Disclose Her Prematurely Gray Hair to Her Fiance Before Marriage?—The Girl Who Thinks She Prefers a Career to a Home.

DEAR MISS DIX—How may one overcome the inferiority complex? As a child, when any one praised me, my mother would make some deprecating remark, and she was constantly calling my attention to the achievements of other children, while belittling any efforts I made along those lines. She says that the reason she did this was to keep me from becoming conceited, but I was a sensitive child and I developed the idea that I was inferior to my associates, that I could never achieve anything and that people only tolerated me through courtesy.

DOROTHY DIX

I am a good-looking girl, college bred, a musician and successful in business, but I feel that my life is a failure. I crave friends, but through timidity cannot make any advances to those I would like to know. I would like to marry, but probably never will, because when I meet a man I instinctively draw into my shell. Is there any way to overcome this sense of inferiority? EDITH K.

ANSWER:

Of course, the remedy for what ails you is vanity applied ad lib in large and generous doses. Hold the thought, as our Christian Science friends would say, that you are the most beautiful, the most marvelous, the most admired and successful woman in the world, and that every man you see falls madly in love with you at first sight.

The only difficulty with this remedy is that it is practically impossible for those with the inferiority complex to kid themselves along that way. Self-conceit appears to be one of the things that it is equally hard to cultivate and to exterminate, and unless you develop a case of swell head in your youth, it is extremely difficult to acquire it when you are grown.

You have my earnest sympathy, Edith, for I was brought up in the same Spartan school and had every spring of self-confidence that showed itself in my character nipped in the bud. It was so firmly impressed upon my youthful mind that I was a poor, miserable worm of the dust that to this day it embarrasses me to death for anybody to look hard at me, and it is a matter of perpetual amazement to me that I have somehow managed to keep out of the Asylum for the Incurably Feeble-Minded.

Of course, when our mothers keep our faults and weaknesses continually before our eyes, while they remain as silent as the grave about our virtues, they are actuated by the noblest motives. They feel that it is their duty to suppress our egotism and cultivate a humble spirit within us, and they never have a suspicion that nine times out of ten they are doing us a deadly wrong by killing our confidence in ourselves.

For we can only do what we think we can do. The limit of our faith in ourselves is the limit of our achievements. We only aspire to the star that we think we can reach.

It is pitiful to think how much talent has gone to waste, how many ambitions blighted, how many fine things might have been done that are never done because families consider it necessary to take all of the conceit out of children. It is because of this that they sit down supinely and never make an effort at all. And if a child has any defect, such as awkwardness, clumsiness or shyness, to be continually reminded of these faults just intensifies them and makes the youngster that much more self-conscious and deprecating.

Of course, a happy medium is best, but it is better for a child to have an exaggerated ego than to be afflicted with an inferiority complex. The self-conceited are, at times, hard on the nerves of their fellow creatures, but they generally get somewhere. DOROTHY DIX.

DEAR MISS DIX—I have just become engaged and my fiance thinks I am wonderful. However, there is one thing I have never confided to him, and that is that I have by prematurely gray hair touched up by beauty expert. He often remarks on my pretty hair. Shall I tell him this secret or shall I let him go on in ignorant bliss, get married and then perhaps have him pour his useless wrath on me for having deceived him? EMILY JANE.

ANSWER:

A woman's hair and her complexion are a trade secret between her and her dressing table, which she is under no obligation to reveal to any man. How she does it is her own affair, and he is only concerned with the results. I once heard a very famous man say that his ideal of a subtle woman was one who could be married to by a man for seven years without his ever finding out whether her hair was her own or not.

Of course, this was in the pre-bubbled days, but the principle holds good as to hair dyes as well as rats and switches and transformations. However, Emily Jane, you are probably worrying yourself without reason and no doubt your sweetheart already knows that you touch up your locks, for about the only white is or how much money he gives his poor, silly woman who is foolish enough to think that she has deceived other people.

I think that a woman who has prematurely gray hair makes the mistake of her life when she dyes it, because there is nothing so distinguished looking, nothing so becoming, as gray hair above a young face. Try a white is or how much money he gives his poor, silly woman who is foolish enough to think that she has deceived other people. DOROTHY DIX.

DEAR MISS DIX—I am very much in love with a girl who I am sure would make me an ideal wife, but marriage does not seem to appeal to her. She has been trained for a teacher and she appears to feel that she would rather have a career than a husband. She is 20 and I am 23 years old. What should I do? E. O. P.

ANSWER:

You are both too young to get married, anyway, so give the girl three or four years to try out her career, and there is every chance that at the end of that time she will be glad enough to scrap her ambitions for a wedding ring.

When a girl has the career germ in her system, the only sane thing for a man to do is to let her work it out. Let her find out by experience that a career is not something her fairy godmother hands her out on a silver salver, all nicely tied up with blue ribbon and garnished around the edges with large checks; but that it is something that a woman buys with her very heart's blood, with work and worry and anxiety and loneliness, and that is never worth the price she paid for it.

A great many men persuade girls to give up their careers to marry them. This is always a mistake, because no matter how good and kind the husband is or how much money he gives his wife, she goes through life feeling that she has made a terrible sacrifice.

She is always looking back regretfully and thinking that if she had only pursued a career instead of permitting herself to be sidetracked into matrimony, she would have been the world's greatest novelist or singer or film star.

Of course, that is mostly a pipe dream, but the woman firmly believes in it as a reality, and it makes things mighty uncomfortable to have a blighted genius around the house.

So let your girl have a go at her career. If she really is a genius and prefers the glad hand of the public to baby hands on her breast, you are lucky not to get her, for careering wives and matrimony don't mix.

But the chances are that she will find that a career for a woman isn't all it is press-agented to be, and she will say "Yes" and thank you, too, when you ask her to devote her genius to homemaking. DOROTHY DIX.

Is this your BIRTHDAY

FEBRUARY 21—You are studious, serious, and rather reserved, a lover of good books and of the finer things of life. You have excellent reasoning powers, and are somewhat critical in your opinions. You care for men only when they are many and vigorous. Try to think more of others, and cultivate unselfishness in little things. Your birth-stone is an amethyst, which means sincerity. Your flower is a primrose. Your lucky colors are light blue and yellow.

FEBRUARY 20—You are probably a person who can be trusted to do what you undertake to do; so determined to do it sometimes that you hold on when anybody else would let go, refusing to accept failure. Not unkindly cast down over the troubles and trials that come to you, picking yourself up after a tumble and going on again. Happy love affairs are indicated for you. Your birth-stone is an amethyst, which means sincerity. Your flower is a primrose. Your lucky colors are light blue and yellow.

Farmer Owes \$7,806 And Has \$10 Watch
MIDDLETOWN, N. Y., Feb. 19.—Owing \$7,806, with only a watch as assets free of encumbrances, is alleged to be the financial condition of Guy A. Switzer, a farmer of Castle Creek, Broome county, who has gone into voluntary bankruptcy.

The value of the watch has not been determined, but is said to be about \$10. If that is the value, more money must be obtained from some source in order to compensate for the legal advertising which is required.

The farmer lists 89 creditors, seven having secured claims. The unsecured claims total \$4,747. He lists his assets at \$2,410, but the only asset not covered by a chattel mortgage is the watch.

Breakfast: Corn Meal Mush, Cocoa, Coffee, Luncheon: Vegetable Soup, Raisin Rice, Dainty, Milk, Dinner: Baked Salmon, Creamed Carrots and Peas, Pear and Quince Sauce, Bread Dough Cake, Milk, Tea.

Bread Dough Cake—when bread is ready to shape into loaves, take a half pint cup full of the raised dough and set aside. Now take one cup sugar, brown or white, one-third cup butter, yolks of two eggs, one-quarter teaspoon cinnamon, nutmeg and allspice, one tablespoon soda sifted in one-third cup sifted flour. Mix well together with spoon. Have one cup of seedless raisins plumped and dry; put three-quarters of them with the bread dough and mix all together with hands until nice and fine like cake batter. Last, stir with a wooden spoon, and put the remaining one-quarter cup raisins over top of cake. Set in a warm place. When bread is baked, bake cake. This may sound like a lot of work, but it is really very simple. A longer process cake is just like longer bread. Both have a much better taste.

Baked Salmon—One can salmon, one cup bread or cracker crumbs, cream with salt, little pepper, moisten well with sweet milk and two beaten eggs. Butter a casserole, pour in the mixture. Sprinkle with crumbs and pieces of butter; bake 15 minutes in a quick oven.

Quince and Pear Sauce means the fruits canned together in the fall. It is delicious, better than either canned alone.

"It is Easy for Willis MacDonald"

Children are candid: they give you a straight answer.

The incident recorded in this letter is not an exception. It is happening almost every day in every school. Some boys and girls keep going right ahead with apparent ease, taking a real delight in their studies, while others, putting forth a greater effort, are making less headway and finding no joy in their lessons. The difference is not in the child, the teacher or the school, but in the home.

Right from the start my young son has taken a keen delight and interest in the Book of Knowledge, with the result that he has held first place in his class ever since the BOOK OF KNOWLEDGE came into our home.

Recently a classmate of my boy's was taken to task by his parent for not maintaining as high a standard as my son. His reply was: "It is easy for Willis MacDonald to keep ahead - he has the Book of Knowledge."

Is Your Home Equipped to Bring Your Child Success in Life?
Children succeed only as they make the grades of daily life, in school or at home. Some are so constituted by nature that learning has no fascination for them. Others have a yearning to know, a natural inborn curiosity that becomes stunted unless fed and encouraged.

The Book of Knowledge arouses the indifferent; directs the ambitious and stimulates the backward. It causes the child to think and trains him to do. Efficiency, the force that makes the grades, attains the goals, begins with thinking and ends with doing. Thought and action are the team that wins every race and solves every problem. THE BOOK OF KNOWLEDGE is an investment that yields joy and interest every day throughout the year.

TALKS ON FOOD
VALUE OF MILK

Miss Campbell, Federal Official, Addresses Saint John Audience

Stresses Importance of Proper Early Training of Children in Food Matter

Pointing out that the matter of nutrition in childhood may influence the development of the adult physically, mentally and even morally and giving special stress to the importance of milk which plays in nutrition, Miss Helen Campbell last night greatly interested a large audience which had assembled in the Health Centre to hear her speak on the value of milk as a food and demonstrate some new ways of using milk.

It was her first public lecture during her present visit in Saint John and her audience was composed of members of two Red Cross home nursing classes and a good representation of the general public.

During her two weeks' stay in Saint John she is to give many lectures and addresses on milk. She comes as the representative of the dairy branch of the Federal Department of Agriculture.

In her address last night Miss Campbell, speaking of the family menu, showed that it was comparatively simple to train children to like the foods that were best for them and the height of folly to train a child to eat highly seasoned foods. She told of the constituents of milk, its bone-forming mineral salts, heat-producing fat, and its high protein content and said there were many foods whose chief importance was that they were what might be termed "milk-carriers."

The Scotchman attributed his prowess to oatmeal but, although loyal to her ancestors, she believed the high reputation of the renowned oatmeal rightly belonged to the milk used with it. She referred also to the great values of the vitamins in milk.

Among the special claims to popularity which milk possessed, Miss Campbell mentioned that it may be served in a very great variety of ways and that it is suited to the weak and to the sick. She then turned to consider

SHE WEDS THE SCREEN VILLAIN

Pauline Garon, movie star, becomes the bride this month of Lowell Sherman, who has played the part of a sinister villain in countless melodramas.

what was necessary in the proper care of milk and said the slogan should be "clean, cold and covered" where the care of milk was concerned.

In taking up the consideration of the many ways in which milk can be used, Miss Campbell stressed the fact that milk dishes are in the majority of instances the most economical, that they require less time and less fuel in cooking. She demonstrated how appetizing

cheese soup, properly made, could be and how simply it might be made and she also showed how to make the best of the many varieties of milk sauces which can be made and which make most tempting to the palate such homely dishes as boiled cabbage.

PASTEURIZED MILK
The address and the demonstration were much appreciated and an opportunity was given for members of the audience to ask the lecturer for the solution of their own problems of milk diet or the care of milk. With reference to the pasteurization of milk Miss Campbell spoke of the pasteurized product as having decided advantages over the raw product.

HAVE FINE BANQUET

Men and Boys of St. David's Church Hold Annual Get-together

The fathers and sons of St. David's congregation had a glorious banquet in the Sunday school building last night. There were over 100 in attendance, there being more sons than fathers present. Robert Reid, Sunday school superintendent, was the chairman of the banquet.

The ladies of the congregation supplied the fathers and sons with a tempting meal, after which a pleasing program was carried out.

Reginald Johnson, having proposed a toast to "The King," the National Anthem was rendered. Ronald Shaw, one of the most active young men associated with St. David's choir, led in a sing-song, which was participated in by all those present.

TOASTS HONORED.
Ernest Priddle then proposed a toast to "The Church and Its Organization," which was responded to in an eloquent address by Rev. Hugh Miller, the pastor of the church.

Charles Case gave a very pleasing musical selection, after which Donald Patterson proposed a toast to "Our Dads," L. C. Lynda, one of the new elders of St. David's, delivered a fine response, which was loudly applauded.

Douglas Breen furnished an interesting article on the Share Selling Campaign. "Our Sons" was a pleasant toast made by W. N. Collins, which was replied to most genially by Chas. McTreen, one of the bright young sons.

REV. MR. DUNLOP HEARD.
Ronald Shaw gave a recitation, after which Rev. James Dunlop, the pastor of Central Baptist church, delivered an interesting and instructive address, which aroused a great deal of applause. The final toast was that to "The Ladies," which was presented along excellent lines by Blais Lipsett. Mrs. Simonds made a very pleasing reply.

The banquet program was brought to a close by all joining in the singing of Auld Lang Syne.

The following from the Edmonton Journal of Feb. 10 is of interest to friends in Saint John and throughout the province:

"Charming indeed was the marriage on Tuesday evening at the bride's home of Miss Blais Marie McTear, youngest daughter of Mr. and Mrs. Neil McIntyre, to Mr. George Roland Barnes, the only son of Mr. and Mrs. T. William Barnes, of Saint John, N. B. The ceremony was performed by Rev. J. H. Whyte in the presence of relatives and intimate friends. The bride, who is a native of Saint John, was accompanied by her father, who played the bridal chorus from "Lohengrin" as the

bride entered the drawing room with her father, who gave her in marriage. During the signing of the register Miss Mary Miller sang charmingly "All Joy Be Thine." The bride stood before an improvised altar of ferns, banked with red baskets of pink carnations and white narcissi, and looked lovely in a dainty gown of white georgette over satin, headed in crystal and pearls. Her veil of bridal net, embroidered in wild roses and lovers' knots, was worn in coronet fashion with orange blossoms. She carried a shower bouquet of Ophelia roses, lilies of the valley and narcissi. The bride's mother was smart in dove grey georgette, and wore a corsage of orchids. Miss Hazel McIntyre, sister of the bride, wore a gold and black costume; her corsage was of deep pink roses. The bride's table was tastefully decorated with pink

roses, silver candelabra and pink candles and was centred with the bridal cake. Spring flowers in pink and white were used throughout the house. The bridegroom's gift to the bride was a ring set with pearls; to the pianist and soloist, gold fountain pens. Mr. and Mrs. Barnes left on the midnight train for a honeymoon which will be spent in Calgary and points in Saskatchewan. The bride traveled in a meadow brown rep frock with Cambray hat to match and wore a coat of Persian lamb and sable.

A badminton tournament in the form of a round robin was played in two sections on Thursday evening by members of the Garrison Club at the Armouries for racquets donated by Mrs. Percy W. Thomson. The first section was won by Miss Pauline Biederman and Mr. Richard Gorham, and the second by Miss Isabel Jack and Mr. Don Skinner. The winners of the final were Miss Biederman and Mr. Gorham. Refreshments were served after the game in the officers' mess.

Mrs. Lane Bishop, of Bathurst, is the guest of her cousin, Mrs. Harold E. Girvan, and Mr. Girvan, Mecklenburg street.

Mr. and Mrs. George Ketchum, of Lower Norton, are visiting the Misses Ketchum, 67 Hazen street.

Mrs. Charles A. Palmer, who has been visiting Mrs. William Langstroth at the Wayside Inn, Hampton, has returned to the city.

Miss Ruth Rubin, of St. George, arrived in Saint John on Monday to spend the balance of the winter.

Dr. J. J. Ryan, of Paris, France, arrived in Sussex on Monday and is a guest of Mr. and Mrs. A. Gordon Mills.

Piles Disappear When Treated From Inside

COMBINATION TREATMENT WITH INTERNAL TABLETS QUICKLY CONQUERS SEVEREST CASES

Thousands of Former Sufferers Who Had Abandoned All Hope of Relief Have Been Freed At Last By This Original, Scientific Method

Piles, which authorities state are one of the most prevalent afflictions of the human race, are no longer regarded as a serious trouble. Unfortunate and painful they are, sparing neither old nor young, man, woman nor child, but easily and pleasantly banished by a new scientific treatment.

To this good news is added the information that the new method has been thoroughly tested and proved before such announcement could be published. In thousands of cases where victims have suffered for years and frankly given up all hope of relief, this marvelous simple method has freed them so quickly that they were positively amazed.

"We are so thoroughly convinced of the merits of our treatment," say the E. R. Page Company, of Marshall, Michigan, the originators of this method, "that we do not hesitate to let those suffering with the most aggravated cases try our treatment without risk or expense to themselves. In fact, we have purposely sought and found such cases as were most painful and of longest standing—some who had been afflicted well over thirty years—and persuaded them to try our method. From every nook and corner of the country, reports reach us daily telling of the relief brought. This is what has encouraged us to carry on the work—the knowledge that we were giving the world something that would ease the pain and suffering, the ill health and unhappiness of so many thousands of pile victims."

HOST OF GRAVE OPERATIONS GUT BY NEW METHOD

Pile Treatment Saves Thousands From Dangerous, Painful, Costly Surgery

Real Trouble Well Concealed

The Page Internal Tablet Combination Treatment, as this new method is called, quickly strikes at the root of the evil which is inside and far beyond reach of the ordinary local treatments on which sufferers have been forced to rely heretofore. The real cause of piles, or hemorrhoids, as they are scientifically termed, must be remedied before the slightest hope of permanent relief can even be entertained. That terrible burning, that miserable smarting, that unbearable itching and, in some cases, alarming loss of blood is obviously not the cause but merely an effect of the condition which so manifests itself.

Then, logically, the means which must be taken to drive piles away should include a treatment that attacks the cause. While this method is taking effect, it is also possible to give immediate relief from the attending pain and to prevent the local irritation and aggravation which makes piles so uncomfortable. This, the Page Treatment actually does, for it is a combination idea which heals the condition as it relieves the suffering.

A Welcome Announcement

Thousands of men, whose efficiency in the business and professional world has been seriously impaired because of the constant discomfort of piles, will welcome news that such a method as the Page Treatment is at last obtainable. Thousands of women, whose daily duties keep them constantly active and therefore in constant pain, will hail the Page Treatment with unalloyed joy. If these sufferers will avail themselves of this wonderful discovery, it is reasonable to assume that the percentage of pile victims in this country will shortly become so greatly diminished as to be almost unworthy of mention in medical reports.

Delayed Being Operated On; Treatment Did the Work

I. H. Wallace, of Portland, Oregon, relates his experience in the following brief letter of praise. He says: "Some time ago I was bothered with the piles so badly that the doctors wanted to operate right away. About that time, however, I saw your advertisement in some paper and sent for a trial treatment. It helped so much that I got a full treatment and I can say that I have not been bothered with the piles since. That was more than a year ago."

Woman Freed of Long Agony By Unique New Method

After suffering untold pain and constant discomfort for 14 years, Mrs. Joe W. Kelly, of Asheville, N. C., tells how she was freed of piles by the Page Combination Treatment. In her letter she says: "I am glad to say that your Pile Treatment has entirely rid me of this terrible disease. I had suffered agony for 14 years and tried all kinds of treatments without success. Now I cannot tell you how thankful I am for this wonderful relief, and I will tell everyone whom I know to be a sufferer about this wonderful treatment."

Well After 32 Years

After 32 years A. L. Goldston of Cambridge Springs, Pa., is rid of piles. "I am perfectly well of my pile trouble from which I have been suffering for the past 32 years. I can say so far that all the discoveries of this century do not compare with this great discovery to free the many thousands of people suffering the torture of piles."

A new discovery, based on perfect scientific principles, will save thousands of pile sufferers from surgical operations, is revealed by the success of recent, exhaustive tests. These tests are clearly substantiated by results in typical cases and they are further supported by the most convincing testimonials of former victims of this miserable affliction.

In former years, it has been quite a common occurrence for persons suffering from piles to submit to operations. This, of course, was resorted to only after numerous treatments had been tried to no avail. In many cases, even surgery failed to be of permanent relief, so the trouble has long been a subject of much discussion and experiment in scientific circles.

Indication is not lacking as to the origin of piles. It is an accepted fact that the local discomfort was merely a manifestation of other trouble more deeply rooted. Once its origin is reached and effectively combated, it is but reasonable to assume that the piles themselves will leave forever.

This was the theory of the originators of the new discovery which is known as the Page Internal Tablet Combination Treatment. Those who are responsible for this remarkable method, claim that the usual means of treating piles are mere makeshifts—that salves, ointments, dilators, and all the other remedies recommended for this painful affliction cannot be expected to relieve the trouble permanently.

Even Surgery Is Uncertain

Even in cases where sufferers have been subjected to operations, as a last resort, the results have been quite disappointing and discouraging. "Then why endure the suffering and why go to the expense of an operation," it is asked, "when this tested treatment has saved so many pile victims from this dangerous, costly step?" To strengthen this contention it is claimed that the company which markets this treatment has on file literally hundreds of letters from former pile sufferers stating that they have been saved from operations through the use of the Page Treatment. Some write that this new method has permanently relieved their trouble even after operations have proved unsuccessful.

Brief Treatment Ends Long Years of Suffering

That pile cases that have lasted for years and stubbornly withstood all efforts to conquer them can be healed quickly by a new scientific treatment is clearly demonstrated by the experience of Louis Balke, an Algoma, Wisconsin, man. Thirteen years of suffering was endured, during which all kinds of salves were employed in the hope of finding relief. These efforts failed as is shown by Mr. Balke's letter: "I want to let you know that I have been suffering with piles for 13 years. I have been using all kinds of salves, but found no relief, so have used one Large and Small Size Treatment received last Spring and now I find myself well. Thanks very much. I shall recommend your treatment to any sufferer of piles as it means sure relief."

The idea of this company is to keep our advertising down to the very minimum that will give our product sufficient publicity. We prefer to give our patrons the benefits of this expenditure. Therefore, we agree to send every person afflicted with piles a trial package of our new Page Internal Tablet Combination Treatment.

Free Trial Packet Ends Suffering for Many Pile Victims

SCIENCE FINDS LOGICAL METHOD TO TREAT PILES

Huge Sum Used to Demonstrate Merit of This New Scientific Combination Method

So effective is the Page Combination Treatment for Piles that in many cases the trial package alone suffices to end the trouble. This after salves, ointments, suppositories and other local methods had been employed, either regularly or intermittently, often for years. Even severe cases of bleeding piles have responded quickly to this marvelous internal treatment and enabled their victims to regain health and happiness in an incredibly short time.

Treatment Corrects Conditions That Cause Trouble—Then Suffering Ends

A decided departure from the usual promotional custom of business concerns has been inaugurated by the E. R. Page Co., of Marshall, Michigan. This company has perfected a new scientific treatment for piles, the success of which has been instantaneous, as letters received from thousands of former sufferers confirm.

Results produced in literally thousands of cases show conclusively that the Page Internal Tablet Combination Treatment is not a mere theory. It is a demonstrated success. It drives away piles and it does this quickly, pleasantly, surely. You can test it free. The coupon is handy. Clip and mail it today—NOW.

"There is nothing mysterious or magical about our combination treatment," says an official of the Page Company. "It is just a logical medical campaign directed against piles and those things which cause piles. This campaign is directed both internally and externally. Not only are the piles healed and the suffering ended but when properly treated, they do not return."

At a recent meeting of the directors, a policy was adopted that would place this remarkable treatment in the hands of pile victims everywhere without the slightest risk or expense. In a formal statement issued by the company, when this measure was voted upon and passed, may be seen the reason for this unusual move.

"The treatment being discussed was the Page Internal Tablet Combination Pile Treatment, which has so successfully rid thousands of pile suffering and agony. It consists of three medicines. There is a tablet which, when taken according to the directions, helps the body eliminate its poisons and prepares the system for the fight which is to do away with the piles and end the suffering. In addition to this tablet, there is, second, a pleasant tasting tablet which was originated by the Page Company chemists to wage its war against the disorder which results in the formation of piles.

To end the suffering and intense pain, while the two tablets are doing their work, a soothing, cooling, pleasant tablet which has been included. This, when applied, seems to stop the pain at once. It has been prepared in such a way that everything obnoxious and unpleasant to its application is avoided and it can be applied with the greatest ease.

"Many concerns," the statement reads, "spend thousands of dollars annually to advertise their products to the public. These products must be bought and paid for on faith. If the purchaser is dissatisfied, it is often optional with the seller as to whether he will give the customer the satisfaction to which he is entitled.

The Page Treatment is based on purely scientific facts that are common knowledge in professional circles. These facts prove that piles in themselves are not a cause but an effect—the natural indication of other trouble inside.

This system does more than is usually done for pile sufferers as it not only ends suffering practically at once but corrects those physical disorders which are at the base of the trouble.

PAGE TREATMENT PROVES THE SHORTCOMINGS OF SALVES, OINTMENTS AND DILATORS

"Strike At Cause of Trouble," Says Man Who Spent Years Perfecting Treatment Which Rids Humanity of Suffering and Ill Health

The original method of pile treatment, adopted by the E. R. Page Company, proves conclusively that local applications, dilators, salves and even suppositories, can do little else than afford temporary relief and alleviate suffering for a time only. The local applications, admittedly, do not bring permanent relief.

Thousands of sufferers throughout the nation have learned by a series of very painful experiences that invariably the piles return and each repeated attack has, they say, exceeded the former in intensity of pain.

To actually heal piles so they leave forever, the condition or physical disorder, which causes the tumors, must be corrected.

Piles constitute an organic condition, and because of this they require more than local applications. The logical treatment of piles is through the internal method; by a system that affects the entire body.

Physicians know that piles, themselves, are but symptoms or indications of a physical disorder that must be corrected—if the piles are to leave forever.

The people responsible for the E. R. Page Internal Tablet Combination Treatment for piles recognized this fact many years ago. They sought a type of treatment which would heal internally. They have been exceedingly successful, as thousands of people who have been rid of piles by this method will testify.

Many of these people had spent huge sums of money on operations and so-called remedies which failed utterly to permanently end their suffering. And yet, the E. R. Page Company, each day, is swamped with letters from all parts of North America; these letters are from former pile sufferers who thank them for not only complete relief from suffering but express sincere, heartfelt thanks for permanent freedom.

This Method Successful

The success of this internal treatment can be attributed to its being founded upon medical facts. The method has been worked out with great care and study—each part of the treatment has a specific thing to accomplish.

The bowel regulator—just a small tablet—puts the system in good order, so that it can readily combat the intruders of disease which result in the intense suffering. The pile tablets are pleasant tasting and were originated to correct the condition which is responsible for the piles themselves. That it does its work well is attested to by the thousands of letters received from people who have been rid of piles by this method.

Carefully Planned

To relieve the pain and suffering while the internal tablets are doing their part, a pleasing ointment has been created. This ointment has been packed so that all the obnoxious, objectionable features of application are avoided. It stops the pain almost at once. People who credit the Page Treatment with having healed them forever call it "the magical ointment."

The combination treatment leaves nothing undone. It strikes directly at the root of the condition which causes piles and at the same time gives immediate relief from suffering. It goes even further, for thousands will testify that it healed their piles for all time.

It exceeds that point reached by pile remedies and many medicines in that it does all they do and more. It stops pain and suffering almost at once and even after the suffering ends—the internal tablets are waging their war against the things that caused the piles. When that war is won and ended—the piles will leave forever.

Protruding Piles Quickly Yield to New Treatment

Enthusiasm for the benefits he derived from the treatment induced Curtis C. Oliver, of Forest City, Pa., to send a joyous letter of peace to the E. R. Page Co., Marshall, Michigan. His missive reads: "Your treatment accomplished wonders for me. I suffered with protruding piles for 22 years and one of your small treatments was all that I needed to make me well."

"Because it is so thorough in its work and so efficiently cleanses the body of those things that cause piles, the piles leave and the suffering is stopped. We are sure we have a wonderful treatment as hundreds and hundreds of people credit us with having healed their piles forever."

In addition to this tablet, there is, second, a pleasant tasting tablet which was originated by the Page Company chemists to wage its war against the disorder which results in the formation of piles.

To end the suffering and intense pain, while the two tablets are doing their work, a soothing, cooling, pleasant tablet which has been included. This, when applied, seems to stop the pain at once. It has been prepared in such a way that everything obnoxious and unpleasant to its application is avoided and it can be applied with the greatest ease.

This system does more than is usually done for pile sufferers as it not only ends suffering practically at once but corrects those physical disorders which are at the base of the trouble.

Appearance of Oil Tanker Possibly Saved Vessel From Further Damage

HALIFAX, Feb. 19.—Speaking over the long-distance telephone tonight, Captain John Spindler, of the lumber schooner Eastwood, which reached Lunenburg today badly battered by shells alleged to have been fired at her from the United States cutter Seneca, corroborated press reports and declared there was no doubt about the identity of the Seneca as that vessel had "hounded" the Eastwood for several days at such close quarters that the name "Seneca" had been plainly discernible on her bows.

PROTEST TO OTTAWA

LUNENBURG, N.S., Feb. 19.—A protest to Ottawa, it was understood here today, would be made by the owners of the Canadian schooner Eastwood in regard to the alleged shelling of that vessel by the United States cutter, Seneca. The bombardment according to Captain John Spindler, of the Eastwood, took place a few days ago while the schooner was anchored about twenty miles off the coast of Long Island.

OTTAWA, Feb. 19.—The first volume of the report of the Auditor-General in his first volume summaries details of revenues and expenditures of Canada for the year ended March 31, 1925.

It is shown that provision was made in the supply bill of the year under review for an expenditure of \$291,267,851. The expenditure actually incurred under this provision was \$191,267,913. In addition to this amount there was said under the same heading a total of \$173,974,911, making a total expenditure for the fiscal year ended March 31, 1925, of \$365,242,824.

FIND BOOZE CACHE ON GR. MANAN ISLE

WOODWARD'S COVE, Grand Manan, Feb. 19.—There seems to be a good deal of liquor around these parts lately. Recently a party of men raided a boat that was hauled up for the winter and discovered about thirty cases of liquor aboard. The liquor was evident for some time. On Saturday last a number of young men of this vicinity raided an empty house on Big Duck Island, about three miles from here, and found, concealed in a cupboard, a quantity of liquor in bottles. Further search revealed several cases of the ardent. The supply has leaked out that after the confiscation of the liquor the stronger members of the party assumed control and rendered their share. Most of the liquor was loaded on a boat and taken to other parts.

FIRE DEPARTMENT SALVAGE FIGURES

Edmundston Force Saves Property Worth \$306,500 in 3 Years

EDMUNDSTON, Feb. 19.—The following figures show to a certain extent the protection that the services of the local fire department means to this amount of loss caused by fire was \$14,416, the amount saved being \$366,500, that saved \$40,000. The loss in 1924 was \$20,500 and a value of \$228,000 was saved. To sum up for the past three years the total loss by fire was \$47,945 and the amount saved was valued at \$306,500. It will be noticed that the losses have steadily decreased while the total salvaged has increased during this period and these are figures that any town might be proud of.

"Burning the Candle At Both Ends"

THERE is an old saying about "burning the candle at both ends" which seems to apply to modern life. How is a girl or boy, or man or woman to enjoy social life to the limit, keep up their daily work, and escape a breakdown of health? The nervous system will not stand the strain. There is too short a time for recuperation, too little rest and sleep. The energy consumed in daily activity is not replaced—bankruptcy is sure. You find yourself nervous, irritable and sleepless. You are worried, have nervous

headaches and spells of dizziness. A restorative is necessary and Dr. Chase's Nerve Food exactly fills the bill. Most women and many men know this from personal experience and use it as occasion arises. Prevention is by far the wiser plan with disorders of the nerves. By using this great restorative at the first indication of trouble you avoid a physical break down and weeks of tedious treatment. Keep the vitality at high water mark and you will know the joys of healthful living. Dr. Chase's Nerve Food, 60c a box, all dealers or The Dr. A. W. Chase Medicine Co., Limited, Toronto 2, Can.

EXPECT GLASH OVER MANDATES

Nations in League Interested in Lands Rich in Raw Materials

Effect on Monopolies is Cavassed—Some Want Mandates Re-distributed

By HENRY WOOD.

GENEVA (United Press)—With the mandated territories of the League of Nations possessing the productive possibilities necessary to break up several of the present world monopolies...

Germany has already made known that one of her principal motives in joining the League of Nations will be to demand that she be given colonies that are rich in rubber, coffee and cotton production.

ITALY'S ASPIRATIONS. A large portion of the Italian press has also interpreted Mussolini's recent declaration about an "Italian Empire" as meaning the necessity for Italy, with her over-population and lack of raw materials, to build up a colonial empire like France and England that will supply her wants.

These same Italian newspapers have demanded that Italy be given a re-distribution of the league mandates in her favor.

In the meantime the various European powers that are exercising league mandates over former German possessions are almost without exception in a position to break up with them—to increase—several of the present principal monopolies on raw material.

RICH IN MATERIAL. Almost without exception all of the mandated territories lie in tropical or semi-tropical regions that produce rubber, cotton and coffee. Others are rich in mineral deposits such as copper and gold.

Should the oil fields of Mosul, which now comes under English control as a result of the league's decision assigning it to Iraq, develop as expected they might go a long way towards offsetting the present American monopoly on the bulk of oil production.

The former German East Africa, which is now mandated principally to Great Britain under the name of Tanganyika and Belgium under the name of the two provinces of Ruanda and Urundi is especially rich in coffee, rubber and cotton production offering possibilities for breaking up the Bra-

Norwegians Here To Have Celebration

MONTREAL, Feb. 19.—Some 100,000 Norwegians or their descendants are arranging their first get-together celebration in Canada in July. It is announced by Ludwig Aulbert, Consul General for Norway here. The celebration will be held at Camrose, Alberta, on July 4, 5 and 6 and will be called the Canadian Convention of Bygdylags, the last word meaning associations.

allian monopoly on coffee; the American monopoly on cotton and rubber. The French, however, hope to be in a position to check this English rubber monopoly by the productive possibility of Togoland and the French Cameroons, although even here the English have control of a small section of the mandated territory. Togoland and the Cameroons also produce cotton and dye stuffs, which are at present objects of virtual monopoly.

German South West Africa which is mandated to the English Dominion of the Union of South Africa also produces cotton and copper both of which, as raw materials, are now largely American monopolies.

ON THE PACIFIC. Still further possibilities along the same lines exist in some of the former German possessions in the Pacific. The Samoan Islands, which are now under the mandate of New Zealand produce rubber as does also New Guinea, which is under Australian mandate.

Still other Pacific Islands, formerly possessions of Germany, and now included in the English, Australian and New Zealand mandates are also producing rubber.

As a result of these possibilities in the Pacific, leaguers expect that an over-increasing value will be given to the Philippines and their possession by the United States, with an increasing reluctance on the part of the latter to relinquish them.

This has again brought up the suggested solution, should the United States ever want to be free of the political and defensive responsibility of the Philippines, of allowing them to be created into a mandated territory under the League of Nations, with the mandate being given to the United States.

Almost without exception all of the mandated territories lie in tropical or semi-tropical regions that produce rubber, cotton and coffee. Others are rich in mineral deposits such as copper and gold.

DUNCAN ACCUSES MRS. MARRINER RUM SCHOONER HAD TO PAY \$400 FINE

Officials of Fraud

Loses Job After Presenting Investigation Findings to Cabinet

MONTREAL, Feb. 19.—An Ottawa despatch to the Gazette says: In his report to the Minister of Customs filed with the Customs Investigating Committee, Inspector Walter Duncan charges Government officials and "higher-ups" with defrauding the Government in a wholesale manner.

It is one of the most remarkable documents ever submitted to a Government committee, when taken in conjunction with the mass of sworn evidence in the case of the "Sootha-Salva" rum schooner, which is now out of the Government service, and in his report he recites the reasons for his retirement. He recalls Hon. George H. Boulton's statement in Parliament when Hon. H. H. Stevens launched his attack, and asks, "Is this my reward for doing my duty, to be slandered by a Minister of the Crown?"

OFFICIAL PROTECTED. A great deal of the statement is on the activities of a customs official who has been protected in his dubious transactions. He is charged with procuring a fellow officer to commit perjury by disposing of a seized rum car by forged documents; that he was guilty of theft of seized automobiles and automobiles parts; that he conspired in the sale of seized rum cars; and that he made false statements to the department.

Inspector Duncan further charges that the escape was allowed of two women prisoners who had been found in the possession of \$50,000 worth of narcotic drugs. He also recites to a clerk in one office reported to him that this confidential official had turned over \$1,500,000 in two years in liquor deals.

FALSE ENTRY CHARGED. Another official is charged with having made a false entry regarding a cargo of coal and it is alleged that \$2,600 duty collected was never turned to the department. Another official is charged with receiving wholesale quantities of liquor, sugar and sugar from stocks in possession of the customs. He also used smuggled liquor to Ottawa.

Large quantities of smuggled liquor are said to have been shipped by him to Ottawa and Government service, and the names of the recipients are given.

Lecky, the former prosecutor, who attacked the theory of evidence on the part of the customs, according to City Marshall W. Lyne, who took McKenzie into custody, and it was alleged that a pint of whiskey was found in the lawyer's pocket.

SPRING CITY, Tenn., Feb. 19.—After attempts had failed to keep the matter a secret, it has been admitted that McKenzie, Attorney-General Ben T. McKenzie, worked for the use of the national famous last year when he helped prosecute John T. Scopes for teaching evolution. He was charged with the liquor laws.

McKenzie was fined \$50 and costs last year for teaching evolution and was scheduled to appear before a jury on charges of transporting liquor.

WOMAN BREAKS UP GAME BOOTLEG RING

Becomes Deputy, Outwits Bird Market Hunters and Has Ten Convicted

BEACH HAVEN, N. J., Feb. 19.—Credit for stopping a wholesale game "bootlegging" on Barnegat and Great Bays, whence ducks, brant and geese have been shipped by the barrel to markets in violation of the New Jersey Game law goes to a woman.

Miss Arnold, deputy game warden of Point Pleasant, serving without pay, has brought about the arrest of ten men and the conviction of ten men charged with selling game.

The so-called "market hunters," men who had been infesting the inlets and bays of South Jersey during the hunting seasons for years. Warnings from other parts of the state had failed to get evidence on which to make arrests but failed.

The market hunters would sell only to persons they knew. As the headquarters at Long Beach, N. J., a lookout who knew the game wardens kept watch while the market hunters were out with their guns and decoys. As soon as a warden or any other stranger crossed the bridge from Manahawkin word was telegraphed to Beach Haven. Then the signal was at once given from a tall flag pole which warned the hunters to get out of the area.

An American flag was used, but this was protested by citizens, and other signals were substituted.

Finally Miss Arnold decided to try her hand at stopping the traffic. She applied and was made a deputy. Then she went after the event after the certain days in hunting season Beach Haven dock became a wild bird market. Then she went after the event after the certain days in hunting season Beach Haven dock became a wild bird market. Miss Arnold became a deputy game warden of Point Pleasant, serving without pay, has brought about the arrest of ten men and the conviction of ten men charged with selling game.

The so-called "market hunters," men who had been infesting the inlets and bays of South Jersey during the hunting seasons for years. Warnings from other parts of the state had failed to get evidence on which to make arrests but failed.

The market hunters would sell only to persons they knew. As the headquarters at Long Beach, N. J., a lookout who knew the game wardens kept watch while the market hunters were out with their guns and decoys. As soon as a warden or any other stranger crossed the bridge from Manahawkin word was telegraphed to Beach Haven. Then the signal was at once given from a tall flag pole which warned the hunters to get out of the area.

An American flag was used, but this was protested by citizens, and other signals were substituted.

Finally Miss Arnold decided to try her hand at stopping the traffic. She applied and was made a deputy. Feel Glorious! Nicest Laxative, "Cascarets" 10c

Don't stay headachy, bilious, constipated, sick! One or two pleasant, candy-like "Cascarets" any time will gently stimulate your liver and start your bowels. Then you will feel fresh and feel clean, sweet, refreshed; your head clear, stomach right, tongue pink and your skin rosy.

Because cherry, harmless "Cascarets" never gripe, inconstenence or sicken. "Cascarets" has become the largest selling laxative in the world for men, women, children. Buy a box at any drugstore.

Mrs. Pankhurst, Back From America, Is Glad To Be Home

LONDON, Feb. 18.—Mrs. Pankhurst has returned to London after her long stay in Canada and the United States. She looks younger. Softness and grace have come back to the features that used often to be haggard in the days when she made women's suffrage a leading political cause.

"My stay in Canada has made me more of an Imperialist than I ever was. I know the word is suspected, but I use it.

"If I had power, there is so much I would like to do to bring Canada and England more closely together."

"In the prairie villages, after the school, the chief building is the cinema where American pictures are shown. In the stores practically all books and magazines are American. Is it any wonder that the children are growing up so American in sympathy?"

FREDERICTON CUTS ESTIMATES \$2,000

Reduction Made in Health Board Figures; Total Values \$1,500 Less

FREDERICTON, Feb. 19.—A reduction of \$2,000 was made in the estimates of the Board of Health by the City Council at its meeting tonight when the preparing of the estimates for the ensuing year was completed.

The total estimate for the city for the year was \$275,000 for the city was fixed. The total city estimates are \$1,500 in excess of the assessment of last year. The reduction in the Board of Health estimates was made on the motion of Alderman Mitchell, and cut the Board of Health figure from \$3,000 to \$1,500. The motion was not adopted without some opposition. With the reduced estimate the board will be offered office accommodation in City Hall and secretarial assistance from the city clerk. The board previously had refused to accept either the office accommodation or to have the secretary's office in the City Hall. The council has the appointment of all the members of the board with the exception of the chairman, and it is intimated that new personnel will be elected if the board does not comply with the council's wishes.

MUTT AND JEFF - Mrs. Mutt's Father Is as Childish as Mutt - By BUD FISHER

Panel 1: Mutt asks Mrs. Mutt's father if he will excuse him to get prunes. The father replies that Mutt has a new game to show him.

Panel 2: Mutt explains the game: tie the person to a chair. The father agrees to let Mutt try it on him.

Panel 3: Mutt asks if the father is positive he'll like the game. The father says he'll be crazy about it.

Panel 4: Mutt asks if the father will wait while he gets molasses and paint. The father asks if he'll use them in the game.

Panel 5: Mutt explains the game involves molasses shampoo and paint on the nose. The father asks where he gets even with Mutt.

Panel 6: Mutt says he got even with the father last Sunday by putting a sock in his nose. The father says he has a heart.

Panel 7: Mutt says he freed himself as easy as a pig. The father says he's the guy that taught Mutt everything he knows.

Panel 8: Mutt says he also knows about handling a lasso. The father says he was saying something about molasses shampoo.

Panel 9: Mutt says Mrs. Mutt's father asked him to drop around and have a game of pinocle with him and Mutt. The father says he's a fine gentleman.

Panel 10: Mutt says "BUMP!" as he trips the father with a lasso.

Panel 11: Mutt asks if the father-in-law is clever, and if Mutt is old top.

Panel 12: Mutt says Mrs. Mutt's father asked him to drop around and have a game of pinocle with him and Mutt. The father says he's a fine gentleman.

Panel 13: Mutt says "WELL, DO MY EYES PLAY ME FALSE? TEE HEE!" as he looks at the father.

Panel 14: Mutt explains the new game "Molasses Shampoo" and says he decided to try it on the father first. The father says he's getting the shampoo.

Panel 15: Mutt says "HOT DOG!" and "COW, FOR THE LOVE OF MIKE. USE DISCRETION!" as he pranks the father.

Panel 16: Mutt says "OH, THAT FATHER OF MINE! HE NEVER WILL GROW UP! TEE HEE!" as he looks at the father.

YOU'D HEAR A WONDERFUL STORY IF THAT OLD KENTUCKY FLINTLOCK COULD ONLY TALK, WILLIS.

THIS OLD BATTLE SCARRED VETERAN HAS BEEN IN OUR FAMILY FOR AT LEAST A HUNDRED YEARS.

HAH! CAN'T EVEN RAISE IT UP! THOSE GUNS WERE MADE FOR REAL HE MEN, WILLIS. ONLY MEN OF IRON HAD ANY BUSINESS WITH A GUN LIKE THAT.

MY ANCESTORS HELPED TO MAKE THE HISTORY OF OUR COUNTRY WITH THIS VERY RIFLE. THEY WERE ALL PIONEERS.

IT HASN'T BEEN FIRED FOR A GOOD MANY YEARS, BUT IT'S STILL IN WORKIN' ORDER. I THINK THERE'S STILL A LITTLE POWDER IN THIS HORN.

YES, SIR! IT'S SO OLD IT MIGHT NOT BURN, BUT I'LL SHOW YOU HOW IT WAS DONE - YOU PUT A LITTLE POWDER IN TH' FLASH PAN, THUS - SEE?

NOW WHEN I PULL THE TRIGGER TH' FLINT MAKES SPARKS AND LIGHTS TH' POWDER IN TH' PAN AND IT SETS OFF TH' CHARGE. NOW WATCH IT.

YES, SIR, WILLIS. MY ANCESTORS HELPED TO TAKE THIS COUNTRY AWAY FROM TH' INDIANS WITH THIS VERY GUN, NOW?

BLAM!

GOOD GOSH! IT MUSTA BEEN LOADED!!

WHAT IN THE WORLD IS GOING ON UP HERE?

WELL WHAT DID THEY DO? - COME AND TAKE IT BACK?

GRAND MANAN MAN, 27, LOSES HANDS AND FEET

Nelson Greenlaw, North Head, Considered Victim of Liquor And Frost

LAY IN SNOW EIGHT HOURS AT 10 BELOW

Heavy Clothing Worn Was Only Thing That Prevented Death

NEW YORK, Feb. 20.—A young married man about 27 years of age, Grand Manan Island, in a precarious condition, as a result of frost bite and exposure, the result of lying out for seven or eight hours in a snowbank a few nights ago, with the thermometer registering about 10 below zero. Greenlaw was found shortly after daylight by a resident of the village while on his way to work, the latter being startled by seeing two bare hands protruding from the snow. Removing the snow the man found Greenlaw lying beneath a snowbank. Greenlaw was removed to a nearby house and Dr. John MacArthur, of Castalia, summoned. First aid was rendered and Greenlaw was removed later to his home.

LOSSES HANDS AND FEET.

When more thorough examination could be made it was found that Greenlaw's hands and feet were frozen and completely with the exception of the thumb and all the fingers from the other hand. Later part of one foot had to be amputated and all the toes of the other. Dr. MacArthur states that only the fact that Greenlaw was clad with heavy clothing saved him from death.

FROST AND LIQUOR.

Dr. MacArthur, stated to the Telegraph-Journal yesterday that Greenlaw had been drinking an undiluted liquor for some time before he was found. His condition when found, he stated, was due both to the liquor and the effects of exposure to the zero weather. He was within a quarter of a mile of his home when he was found.

Durant Gives Up Business Activity

NEW YORK, Feb. 20.—William C. Durant, who formed the Durant Motor, Inc. in 1921, and who has been a spectacular figure in Wall street's speculative activities for more than ten years, has given up active participation in the companies he formed. Mr. Durant still holds a large stock and bond interest in the companies and is expected to continue to hold them, but the active direction of these properties has passed into other hands, all of whom are friendly to Mr. Durant and who have been selected by him to take charge of the properties making up Durant Motors, Inc.

VANCOUVER, B. C., Feb. 19.—(Special)—I can truthfully recommend Dodd's Kidney Pills," so states Mrs. E. Calder, 817 11th Avenue East, in an interview. "I was doubled up with pains in my back, but after taking Dodd's Kidney Pills I have not felt a pain in the hour, as he was subjected to lumbago. He always felt light by a resident of the village while on his way to work, the latter being startled by seeing two bare hands protruding from the snow. Removing the snow the man found Greenlaw lying beneath a snowbank. Greenlaw was removed to a nearby house and Dr. John MacArthur, of Castalia, summoned. First aid was rendered and Greenlaw was removed later to his home.

SALVATION ARMY BANS BOBBED HAIR

Women Cadets or Officers Affected By Edict in United States

BOSTON, Mass., Feb. 20.—Bobbed hair means expulsion as an officer in the Salvation Army. Women cadets or officers of the army must not cut their tresses to conform with the prevailing style if they still wish to remain members of the organization staff.

According to instruction received by Walter B. Mabee, secretary of the New England province, any woman ranked as a cadet or officer of the Salvation Army must wear her hair long, or if already bobbed, grow long hair if she wishes to stay an officer.

"This is a national edict," states Brigadier Mabee, "and if anyone finds that the rules are too strict, he or she can resign. An officer must live in accordance with the laws of the drinking, and attendance at theatres."

Many women captains, although obeying the new rule, declare this regulation is an infringement of personal rights.

Pittsburg Pirates Play Toronto St. Pats Tonight

MONTREAL, Feb. 20.—First and third place battles will rage in the National Hockey League tonight, when the games are contested, Montreal playing Ottawa at the capital in a game which will be the biggest bid of the year to take the lead from the Senators. Canadiens receive the sensational Boston Bruins at the Arena here in a tussle fraught with the greatest importance to the Canadiens, who are hanging on with a slim hold for a playoff chance, while Pittsburgh meets a St. Pats team which has a fair chance. Canadiens will face the formidable task of halting the Boston Bruins' winning streak. Art Ross' team has won seven of its last eight games, tying the other in a sensational struggle with the Canadiens on the Bruins' last appearance here. Canadiens, Boston and Pittsburgh are all in the fight for third place, and after the Pirates defeat last night by the New York Americans, they will be on their toes tonight at Toronto to get into the win column.

STANDING OF N. H. L. CLUBS
Table with columns: Club, Won, Lost, Tied, Pts., Goals For, Goals Against.

NEW YORK WON

PITTSBURG, Pa., Feb. 20.—The Pirates lost a chance last night to go into third place in the league standing, when they lost to the Pittsburgh Americans 5-2. It was the first win for the Americans in 12 games. Both teams scored once in each of the first two periods. The Americans took the lead through the able work of McKelvan in the opening set-to, only to have White even the tie at the end of the first period. McCurry gave Pittsburgh the jump. Burch, the New York toucher, cancelled the lead by a brilliant shot. Burch and McKelvan traded for the visitors. Time and again they threatened the Pittsburgh mesh. Three minutes after the start of the last period, a dazzling shot by Simpson proved deciding in favor of the home team. He took it from the face-off, stood about 10 feet in front of the net, and shot. Worries about the net, and Simpson followed up his heave, and McKelvan had time to clear, had the disc meeting in the mesh. McKelvan and McCurry starred for the home team.

LAMB AGAIN STARS

MONTREAL, Feb. 20.—Close to 7,000 fans saw Banque Canadienne Nationale defeat Bank of Montreal 2-1 in the first game of last night's Bankers' Hockey League double-header. In the second game, Royals scored an easy 6-1 win over Bank of Commerce. It was the first win of the season for Royals. The goal scored by Lamb, former Sussex, N. B. player, for Royals, in the second period, was the best effort of the night. Lamb carried from his own defence and stickhandled through the entire Commerce team to fool Reid from close in.

KENTVILLE WINS TITLE

ANNAPOLIS, Feb. 19.—Kentville won the championship of the Valley League hockey here tonight by defeating Wolfville 11-0 in a replay of the draw game two weeks ago.

ROSEN BEATS EBER

DETROIT, Feb. 19.—Clarence Rosen, of Detroit, defeated Bobby Eber, Canadian heavyweight champion, in a 10-round bout here tonight. The scores were 6-4, 8-2.

MILLIGAN NOW LINED UP FOR TITLE CONTEST

NEW YORK, Feb. 20.—Tommy Milligan, the welterweight from Scotland, who is credited with the British title, is in line for a chance at the world championship. Milligan, once outpointed by Jack Zivic, of Pittsburgh, turned the tables in a ten round encounter in Madison Square Garden last night in a advertised as deciding the logical contender for Walker's crown. The fight was a sterling battle and at the end of the 12th round appeared to be divided although the cheers for the verdict undoubtedly louder than the boos. Milligan showed a willingness to fight all the way and accomplished a great deal of damage with his left.

WOMEN ATHLETES ONLY

A special set of Olympic Games planned for next year. A continental European association of women called "La Federation Sportive Feminine Internationale" has formally requested the National Swedish Women's Athletic Union to manage the games, in which representatives of all countries will be invited to participate, and the Swedish body has tentatively selected Gothenburg as the most convenient location. In 1918 the regular Olympics will be held at Amsterdam. In Sweden sports for women are highly developed and in the coming Northern games at Stockholm there are special events for them such as figure skating and mixed skating, as well as ski runs over the open country as long as twenty miles, or half the distance for men. In the famous Vasa Run, or Swedish Ski Marathon, over a course of 57 miles a woman 45 runner has set a record of ten hours. In summer time competitions such as swimming, diving, sprints and jumping, as well as gymnastics and tennis, Swedish women have previously taken prizes in international contests. In Canada we have some pretty good girl athletes, particularly at Toronto. Growth of sports among girls is gradual. Last year in Saint John, a girls' track meet was held and this year, several girls' teams have been organized. There is a project on foot to organize the girl athletes in some sort of a Maritime body.

Trojans Away to Sackville

The Trojans basketball team will leave at noon for Sackville to play the Mount Allison team in the college game this evening. The Garnet and Gold are reported strong this season and a good game is expected. The Orange and Black will take the floor for a few minutes at the Sackville game. The Trojans are expected to play well. The game will be played here the following Tuesday.

SERGEANT MURPHY OUT OF NATIONAL

Famous Timber-topper Will Not Compete on March 26
Next
LIVERPOOL, England, Feb. 20.—The Grand National Steeplechase on March 26 will not be so interesting to spectators this year owing to the absence of Stephen Sanford's veteran timber-topper Sergeant Murphy and his stable companion Drifter. American interest, however, is not altogether lacking, as Mr. Sanford has entered two other jumpers, Bright's Boy, which has been allotted 162 pounds, and Mount Etna, which will carry 166 pounds. These weights compare favorably with the top weight of 175 pounds for W. H. Jones, the winner of the race in 1925. Double Chance, owned by Fred Archer, the jockey, was weighed in 48 horses here. The actual starters will probably be much fewer. Ireland is represented by several good jumpers, of which F. Barbery and G. White's Knight of the Wilderness are considered by experts to be the best.

Trojans To Tackle Martellos Monday

The Trojans and Nationals continue to lead their respective sections in the Intermediate Hockey League, the only game played this evening. The Trojans defeated the Martellos 4-1. The Trojans will meet the Martellos on Monday evening at 6:15 and the Trojans will meet St. Luke's on Wednesday after the skating meet.

Boys All Set For Their Play-Off

Arrangements for the play-off for the championship of the City Junior Basketball League were made at a meeting of the league last night. Three teams, St. Andrew's, Central Baptist and Trinity, are tied for first place and it was decided to have each of the three teams play the other teams once. The games are to be played as follows: St. Andrew's vs. Central on Wednesday, Feb. 24; Central vs. Trinity on Saturday, Feb. 27; and Trinity vs. St. Andrew's on Monday, Feb. 29. The Martellos are booked to meet the Navy team during the week.

SKATING ASSOCIATION MEETING

A meeting of the New Brunswick Amateur Skating Association will be held in N. P. McLeod's office, 140 Prince William street, on Monday afternoon at 6 o'clock, when business of importance is to be transacted.

Campbellton Plays Moncton On Monday

REFEREES have not been named for the Moncton-Campbellton game Monday night. The Atlantics, however, will leave on Sunday afternoon for the contest, which is scheduled to take place in the Restigouche town on Monday night. The full complement of players, including Kervin, will make the trip. The last is expected to be in shape to take part as a defence man.

MARGIN OVER JACK ZIVIC LAST NIGHT RATHER SLIGHT

NEW YORK, Feb. 20.—Tommy Milligan, the welterweight from Scotland, who is credited with the British title, is in line for a chance at the world championship. Milligan, once outpointed by Jack Zivic, of Pittsburgh, turned the tables in a ten round encounter in Madison Square Garden last night in a advertised as deciding the logical contender for Walker's crown. The fight was a sterling battle and at the end of the 12th round appeared to be divided although the cheers for the verdict undoubtedly louder than the boos. Milligan showed a willingness to fight all the way and accomplished a great deal of damage with his left.

TILDEN IS BEATEN

NEW YORK, Feb. 20.—Only one United States player remains in the struggle for the United States indoor tennis championship. John Van Ryn, Princeton undergraduate, meets Rene Lacoste, of France, in the semi-final today. In the other semi-final, Jean Borotra, the title holder, and Jacques Brugnon, both of France, clash. Yesterday Borotra, Lacoste and Borotra eliminated W. T. Tilden, Vincent Richards and Francis T. Hunter, respectively.

FREDERICTON HIGH BEATS ST. VINCENTS

FREDERICTON, Feb. 19.—Fredericton High School basketball team defeated St. Vincent's High School team by a score of 46 to 22 in the Inter-Scholastic League game on the local High School floor this evening. The game proved very interesting. The home team had a decided margin over St. Vincent's team. St. Vincent's team is to play the Normal School basketball quintette here tomorrow. The individual scores were as follows: Fredericton (23)..... St. Vincent's (22)..... Kirk (10)..... Douglass (9)..... J. Lawlor (5)..... Howitt (1)..... Enslow (1)..... Wood (6)..... Doherty (1)..... Maxwell (1)..... Coughlan (1)..... Murray (1)..... Stevens (1)..... H. Currie (1)..... R. Lawlor (1).

LEWIS WON

ROCHESTER, N. Y., Feb. 20.—Jack Washburn of Oklahoma took the first night bout at the Arena and will be played some evening next week. This probable hour of the face off is 7 o'clock.

HAMPTON WON

A badminton tournament played Thursday night between Hampton and Exmouth badminton clubs resulted in a win for Hampton by a score of 4-3.

BEAT U. N. B.

WOODSTOCK, Feb. 19.—In a very closely contested basketball game at the Army here this evening, the Woodstock seniors triumphed over the U. N. B. seniors the final score standing 41 to 37 in favor of the local quintette.

ABBIES LOST

SUSSEX, Feb. 19.—Diamond, Abbeys' goalie, saved his team from a bad beating tonight at the hands of the Sussex Colts. He saw more pucks in an hour than he has probably seen for some time. Sussex visitors, who were too closely checked to get going, Roach, in goal for Sussex, also played a stellar game.

TO MEET FIFIELD

George Fifield has been signed to defend his Canadian welterweight title with Pittsburg Paddy Ryan as his opponent. This bout will feature an all-star card early in March. It looks like the Toronto boy's toughest bout in a long time with Ryan as a heavy favorite in the betting. Fifield has much at stake and many look for the hardest-biting bout at that weight ever staged in Canada. That Fifield is in fine form goes without saying and, according to Keller, is out to fight the battle of his career.

First Woman Judge

Lydia Hutchinson, Blackfoot, Ida., famous as "Whistlin' Lyd" in the dog team endurance races staged annually at Ashton, Ida., has been chosen to be an official of the contest this year. She is the first woman to be a judge of an international sporting event.

ABBIES LOST

SUSSEX, Feb. 19.—Diamond, Abbeys' goalie, saved his team from a bad beating tonight at the hands of the Sussex Colts. He saw more pucks in an hour than he has probably seen for some time. Sussex visitors, who were too closely checked to get going, Roach, in goal for Sussex, also played a stellar game.

PRESIDENT'S TROPHIES

Play for the president's trophies will be continued at the Thistle Club tonight. The rinks follow: H. M. McAlpine, Dr. C. Malcolm, skip; R. E. Crawford, W. A. Shaw, skip.

JUVENILE JUDGE WINS

ALTCAR, Lancashire, Eng., Feb. 19.—Jack Jarvis' Greyhound Juvial Judge won the Waterloo cup today, beating R. Robert Banks' Running Rein, in the final round. The cup is valued at £100 with £200 added.

WINDSOR WINS, 1-0

HALIFAX, Feb. 19.—Windsor defeated Crescents 1 to 0 in an exhibition hockey match here tonight.

MANY PLAYERS ON THE GROUND LIMBERING UP

Mack's Outfit Look Like Strong Contenders For Title

PHILADELPHIA, Feb. 20.—With the baseball training camp at Fort Myers, Fla., their destination, the first squad of the Philadelphia Athletics, runners-up in last year's pennant chase, left last night. The squad consisted of Manager Connie Mack and Mrs. Mack, Coach William Gleason, First Baseman Charles Bates, Catcher Mickey Cochran, Carrol Yerkes, a pitcher, Amos Strunk and several local baseball enthusiasts. Strunk, former Athletic outfielder, has no connection with the club, and is going south on a vacation. Reporters and photographers will accompany the party. At Baltimore the personnel will be increased by the addition of Lefty Groves, Ed Rommel, Jimmy Fox and the mountains of West Virginia. At Washington Charley West, a left-hander; Kit and Orie May, the two mound flingers; and Albert Harris, a young pitcher from Walnut Point, Va., will climb aboard. The train is due in Fort Myers Sunday, where it is expected to be on hand to extend a welcome. Mack announces that pitching and catching drills will start the next day. The Athletics are already on the ground. Another squad will leave February 26, while several regulars have been ordered to start for camp direct from their homes.

MAY PLAY HERE

Word was received here last night that the management of the University of New Brunswick hockey team got in touch with the management of the Acadia University team immediately following the game with Mount Allison at Sackville Thursday night and arrangements probably will be made within the next day or so for a play-off.

MORE GAMES HERE

The Saint John hockey team will bring in another fast outside sextet for an exhibition game this week at the Arena. Negotiations are being carried on with several teams, one of which will be booked. The boys are determined to win on their next start. They held a practice last night and showed improved form over their last appearance.
